

Buckingham County Board of Supervisors Monthly Meeting

AUGUST 9, 2021
6:00 p.m.

AGENDA
BUCKINGHAM COUNTY BOARD OF SUPERVISORS
MONDAY, AUGUST 9, 2021
6:00 P.M.

PETER FRANCISCO AUDITORIUM
COUNTY ADMINISTRATION COMPLEX

www.buckinghamcountyva.org

This meeting is open to the General Public and can also be viewed from the following link:

https://youtu.be/kc4u7_btdJM

- A. Call to Order by Chairman Matthews
- B. Establishment of a Quorum
- C. Invocation and Pledge of Allegiance
- D. Approval of Agenda
- E. Approval of Minutes*
- F. Approval of Claims *
- G. Announcements
- H. Public Comments

Public Comments may be made in person or by using the following methods:

- 1. **In person Public Comments must sign up to speak. Sign up times are 5:30 p.m. to 5:55 p.m.**
- 2. **Written comments may be mailed to the Board of Supervisors at PO Box 252 Buckingham, VA 23921. Please limit word count to 500 words.**
- 3. **Emailed comments may be sent to publiccomments@buckinghamcounty.virginia.gov. Please limit word count to 500 words.**
- 4. **Telephone voicemail comments may be left to be played to the board by calling 434-969-5039**
- 5. **To appear virtually to the Board of Supervisors for comments please email publiccomments@buckinghamcounty.virginia.gov. You will receive notice with the link and/or telephone number necessary to connect virtually during the meeting.**

Please note: Please state your name, district, address, and which hearing you are commenting on. The three (3) minute rule will apply to public comments. All correspondence must be received only by the methods above, and are due by 12:00 PM the day of the meeting.

I. Presentations:

- 1. Resolution of Memoriam presented to the Family of Donald Davis*

J. VDOT Road Matters

- 1. VDOT Road Matters: Scott Frederick, Division Resident Engineer

K. Public Hearings

- 1. Case 21-ZMA283, Owner/Applicant: Landowner Wayne Beasley, Application Shelly Mays-Couch-Zoning Map Amendment Request to rezone from A-1 to B-1 for the purpose of operating Non Retail Office Space and Other Permitted Uses*
- 2. Case 21-ZMA284, Owner/Applicant: Kyanite Mining Corporation, Request for rezoning from A-1 to Industrial-Heavy M-2 for the purpose of Zoning Consistency and Continuation of Mining*

- L. Zoning Matters: Nicci Edmondston, Zoning Administrator/Community Planner**
There are no new zoning matters at this time

- M. Department Agency Reports and Items of Consideration**
 - 1. Firefly Broadband, Gary Wood and Galen Creekmore request for funding
 - 2. Dam Safety, Flood Prevention and Protection Assistance Fund Grant*
 - 3. Consider appointment to the Piedmont Regional Jail Authority Board*
 - 4. Ivan “Chip” Davis, Buckingham Fireman’s Association: Tractor Pull Update
 - 5. Will Dean, Buckingham Ready Group with Zach Jackson, Virginia Tech Office of Economic Development regarding an Economic Development Project*
 - 6. Sheriff’s Office Budget adjustments*
 - 7. Voter Registration System Security (will be provided at meeting)

- N. Other Matters for Board Consideration**

- O. County Attorney Matters**
 - 1. Redistricting Update*

- P. County Administrator Report**
 - 1. Clerk of the Circuit Court Auditor of Public Accounts Audit results for January 1, 2020 through March 31, 2021*
 - 2. Update on Courthouse Committee*
 - 3. Personnel Report from the EMS Committee (under separate cover)

- Q. Informational Items**
 - 1. July Building Permit Report*
 - 2. School Board Meeting Schedule*
 - 3. CRC Information*

- R. Other Board Member Matters**

- S. Executive Closed Session: There are no matters at this time**

- T. Recess to reconvene August 12, 2021 at 6:00 p.m.**

School Board Meeting Schedule
July 2021-June 2022

<u>Supervisor:</u>	<u>Date:</u>	<u>Time:</u>	<u>Location:</u>
Bryan	Wed., July 14, 2021	2:00 p.m.	Lab D Vocational Center
Davis	Wed. Aug. 11, 2021	6:00 p.m.	Lab D Vocational Center
Bryant	Wed. Sept. 8, 2021	6:00 p.m.	Lab D Vocational Center
Allen	Wed. Oct. 13, 2021	6:00 p.m.	Lab D Vocational Center
Chambers	Wed. Nov. 10, 2021	6:00 p.m.	Lab D Vocational Center
Miles	Wed. Dec. 8, 2021	6:00 p.m.	Lab D Vocational Center
Matthews	Wed. Jan. 12, 2022	6:00 p.m.	Lab D Vocational Center
Bryan	Wed. Feb. 9, 2022	6:00 p.m.	Lab D Vocational Center
Davis	Wed. Mar 9, 2022	6:00 p.m.	Lab D Vocational Center
Bryant	Wed. April 13, 2022	1:00 p.m.	Cafeteria Buckingham Middle School
Allen	Wed. May 11, 2022	6:00 p.m.	Lab D Vocational Center
Chambers	Wed. June 22, 2022	6:00 p.m.	Lab D Vocational Center

**Buckingham County
Board of Supervisors
Monthly Meeting
July 12, 2021**

At a regular monthly meeting of the Buckingham County Board of Supervisors held on Monday, July 12, 2021 at 6:00 p.m. in the Peter Francisco Auditorium of the Buckingham County Administration Complex, the following members were present: Don Matthews, Chairman; T. Jordan Miles, III, Vice-Chairman; Dennis Davis; Harry W. Bryant, Jr.; Joe N. Chambers, Jr.; and Danny R. Allen. Donald E. Bryan was absent. Also present were Karl R. Carter, County Administrator, Cheryl T. "Nicci" Edmondston, Zoning Administrator, Jamie Shumaker, IT Manager and E.M. Wright, Jr., County Attorney.

(Voting system was malfunctioning, therefore, votes are to be d1 by raising of hands.)

Re: Call to Order

Chairman Matthews called the meeting to order.

Re: Establishment of a Quorum

Chairman Matthews certified there was a quorum. 6 of seven members were present and the meeting could continue.

Re: Invocation and Pledge of Allegiance

Supervisor Allen gave the invocation and the Pledge of Allegiance was said by all who were in attendance.

Re: Approval of Agenda

Matthews: Item C is Approval of Agenda.

Miles: I move, Mr. Chairman, that the amended agenda with the additions be approved, sir.

Davis: Second.

Matthews: We have a motion and a second. We need to call for the vote by raising your hand. All in favor? All opposed? Unanimous.

Vice Chairman Miles moved, Supervisor Davis seconded and was unanimously carried by the Board to approve the agenda as amended.

Re: Approval of Minutes

Matthews: We have the minutes.

Chambers: So moved.

Miles: Second, Mr. Chairman.

Matthews: We have a motion and a second for approval of the minutes. Call for the vote please.

Supervisor Chambers moved, Vice Chairman Miles seconded and was unanimously carried by the Board to approve the June 14, 2021 minutes as presented.

Re: Approval of Claims

Matthews: Approval of claims.

Allen: So moved.

Miles: Second.

Matthews: We have a motion and a second. Call for the vote, please.

Supervisor Allen moved, Vice Chairman Miles seconded and was unanimously carried by the Board to approve the claims as presented.

Re: Announcements

Matthews: Are there any announcements?

There were n1.

Re: Public Comments

Matthews: Public comments.

Lann: Yes, we have 3. Quinn Robinson, District 4.

Robinson: Can some1 give me a clue where the microph1 is?

Lann: On the podium.

Quinn Robinson, District 4: Good evening, gentlemen. My name is Quinn Robinson. I live out in Andersonville in District 4. A couple of things real quick tonight. The comment period, if you look at your agenda, there are prescribed times and conditions given to all the other comments. And I'm mentioning this because the previous months it's been very erratic and disappearing at times, unannounced, and sort of cutting off access to it. It's not the way things are meant to be. It's supposed to be open access, open government. So anyway, I think we now have it under control. I was told that the sign in period begins at 5:30 and ends at 5:55. But it's not on the agenda. And that would help keep it clear. Thank you. The gold prospecting factor is really just 1 for the county. If you're wishing to set things back a couple decades, fine, as it just puts everybody in peril. It's enough to deal with as it is with the climate and things like that, but not having to engage in this. It's just not in the county's best interest to pursue this. And I'd like to ask that you develop a permit that requires people who want to do core drilling to register with the county the who, what, why and when. And make it a fact for everybody to know about. I know the state doesn't demand it, but there's no reason why we can't. The other thing is the cannabis chaos. The Commonwealth has decided to relax some of the things about cannabis. It just isn't working in the sense it's something that controlled Southern stack that needs to be modified or eliminated by the federal government. And we have 2 senators that could do that. And they should do that quickly because it's just going to leave all the bad things that have been placed with persons who deal and hustle controlled substances. And we don't need that. I hope that everybody can persuade their children not to smoke anything. Bodies are made for that sort of stuff. And I didn't see it on the agenda, but I wanted to bring it up so you can deal with it and announce it. There's a legal notice from the state corporation commission that CenturyLink customers have some things to take care of. And I hope that I'm not going to read it to you but I've got enough copies for every1. It's something that you should look at and see if you want to put it in your own documents because there's been a finding against them. Thank you.

Tommy England, District 7: I hadn't planned on doing this but I had put my name out there, but I didn't know. I've never been to 1 of these before. So I said can I say anything, not if you don't put your name down. I want to comment, I wouldn't be able to comment so this may be unnecessary but things that I talked to Danny about, I thought I'd bring them up since I'm here. Not why I came up here but I'm gonna throw it in anyway. And it was about the internet for the people. I was hoping everybody would be able to get it. I know I talked to 1 of those guys that was putting it in. Just happened to be close to my house and I seen him and he said well we're stopping up the road here just a little bit from my house. And I thought this was something that you know would hopefully with the county and what funds we got from the government, everybody would get a chance to get it and we certainly would like to have it and my daughter in law has children, not all school aged but they teach from home and they could really use it and we'd like to have it ourselves. We're old and we don't need it I guess but we still like to have it. That's the main thing. I hope the wife don't get up because she might jump on all y'all. She's still in

here. Okay, she's still in here. That and the road, the road in front of my house is narrow. Now I was riding a motorcycle the other day and I went and I'm just throwing this out there, I see the roads are really taken care of in some areas of the county and I mean nice. The cross road, there's not even any big trucks that goes down that road and I'm thinking my gosh, this is really nice. But my road does have a lot of the semi-trucks and I tell you what's the truth, you will get in the ditch when they come down. It's dangerous and the shoulders, they come down and try to put some rock on there, the shoulders are so deep that if you run out the road it's going to... on you're gonna tear your rims up. You can see the scars all over them. I guess there is a reason why they can't do something about that but to me it's a safety thing. When you meet, especially if, even when you meet a normal truck, you're gonna have to get off. Especially right in front of my house but the whole section right there is narrow. So they need, couldn't they possibly widen it just a little and do something about those shoulders if nothing else?

Matthews: What's the road number?

England: 622

Matthews: Because we've got the main man here tonight. Mr. Frederick.

Allen: I've already talked to him about it.

England: I didn't hear nothing back from anybody.

Allen: Here's a teleph1 number for you for the night. Yeah, that's for Comcast, you'd call them but that's the only guy that they said, needs to be called.

England: Well, this guy, he was a Comcast guy, I guess he was a guy that was setting up for it. That would be the man wouldn't it? He said we need to talk to Buckingham and then they would talk to him.

Matthews: Well, there's some things that you probably are uninformed about, which is in regards to the Wi-Fi. Who was your electrical supplier?

England: Virginia Power.

Matthews: Virginia power? We, here about 3 or 4 years ago, the county entered an agreement with Central Virginia Electric and the test district was District 3 for Wi Fi service going house to house and pole to pole. And there is a plan in place to do the whole county. Now, you know, that doesn't take place in a year or 2, you know, there's a process that goes on. And they just entered an agreement with Dominion Power, cause we have in just in my district all, which is District 3, we have 3 electric providers, Central Virginia, Southside Electric and Dominion. So we had an agreement with Central

Virginia, they were going to get a house to house for all the customers that they had in district 3, and we're expanding into other parts of the county, but it's gonna take some time before we get to everybody. But they don't have any control over Dominion Power or Southside Electric. So they just entered an agreement with Dominion to go that extra mile or last mile for this Wi Fi service. So you know, it is coming. It may not be tomorrow and it may not be next year but it is going to come at some point in time.

England: And I hear what you're saying but me all my neighbors are Virginia Power too but they are getting it.

Allen: They are getting the Comcast. That's a number I gave you but we won't get this Wi-Fi or Firefly stuff until...

England: But I knew that would eventually come I knew that'd be a while ways off but I just knew that this Comcast has come close to my house but evidently the funds run out or whatever. Is that what happened?

Matthews: I don't know about that. The power line. But we got the other guy here tonight too.

England: Where's he at?

Matthews: Mr. Wood. He just walked in the door. So you're real lucky tonight. You got 2 main guys here so you can get all those questions answered.

England: Off the record. I can get on him. Don't you go nowhere. That's about all I got. I appreciate it. I hope the wife don't come up here.

Debbie England, District 7:

Matthews: You really don't look as bad as he says you look.

D. England: I'm not really but I can be. So good evening, gentlemen. I will not take much of your time. I promise. I just felt like since I signed the paper up there, I need to reinforce what my husband has said. And I do agree. And I feel like in a way, it was a little misleading because we were told as far as the internet that it was for the County of Buckingham for the children. We are part of the county, and yet we're being neglected. I feel like we're always neglected on our end, it's not really fair. You know, it really isn't. Our children deserve what the other children are getting. Their education is important to us. A lot of the people now because of the COVID are working from home. It makes it very difficult when you don't have the greatest of internets. And what we got now is very expensive. I feel like what is right

is right, and should be made right. We have that right. So I appreciate you hearing that. And the second thing is with the roads in our area. There's another thing my husband didn't mention, but I noticed it, yesterday, well, on Sunday, when we were in the garden picking our vegetables and things. Amish people, there's a lot of Amish people that live on our road. That road is very narrow. And there are when you get off to the side, it is steep. Those Amish people they have enough trouble is it is on a major highway. Why should we put them at risk on our roads? Even though it is just a little country road. They still deserve to be safe. And we deserve to have a decent road. We pay taxes like everybody else. It's very, a lot of agricultural people that have been down there with chicken houses, you know, we've put in our just dues. We still are even whether we're active or not. And I feel like we deserve the same thing. I feel like I'm nervous, if y'all think I'm nervous. Yes, I am because I don't usually do this. But anyway, I just wanted my voice to be heard. Thank you for your time.

Lann: And that's all we have.

Re: Presentations: Resolution of Memoriam presented to the Family of Temple Pauline Taylor

Matthews: We have a couple of presentations. The first presentation is for the Temple Pauline Taylor's family. So if their family could come up and line up right here on the front, we're gonna be led by Mr. Miles here. So, the Taylor family, if you can just meet me right?

Vice Chairman Miles read the resolution to the family and Chairman Matthews presented it to them.

Re: Presentations: Resolution of Memoriam presented to the Family of Margie S. Bryant

Matthews: 1 more presentation for Margie S. Bryant. Would her family come up to the podium.

Vice Chairman Miles read the resolution to the family and Chairman Matthews presented it to them.

Re: Buckingham County Schools: Mr. J.B. Heslip regarding School Roof Recommendation

Matthews: The next item on the agenda is the Buckingham County Schools Mr. J.B. Heslip regarding school roof recommendation.

Heslip: First, I'd like to say thank you for just allowing me to speak. I'm also honored and grateful but I'm a little nervous myself. So if I mess up with this backup, we'll get it right. So I'd like to introduce Mr. Mark Smith of Architectural Partners. He has spearheaded this and also put this together for me. So he's here to answer technical questions. And I'm gonna give you the overview, also handed a packet out, it's sort of highlights what we were going to talk about. You can look at that now or later, whichever suits you. Buckingham County High School has been around for a long time. As we all know, since 1939, the

original building was built. We have been blessed enough to be able to back up and look at some different options for this roof. Originally, we had in mind a puff roof and also a little, a little retrofit over top of the library. That's what the Facilities Committee was looking at. But luckily enough, with some cooperation between the 2 boards, we now get to look at some different things. So hopefully, we can address all the options that both boards would like us to look at. Option 1 was completely taking off the metal roof and then replacing it which gives you a 25 to 30 year warranty. Option 2 was putting a retrofit metal roof over top of the existing metal that we have there now. And then another Option 2 A, if you did that, then the second option with that 2 A was then putting in some insulation, which gives you better R value on the roof. And then option 3 was to fix the places that are leaking, find them, fix them, and then to coat fluoropolymer. Did I say that right? I have trouble with that word. So anyway, that's a recoat of the existing roof up there. That gives you a 15 year warranty and a 20 to 30 year lifespan on that. And then the 4th option was just to fix the leaks that are up there now all over the building, which gives you just a 1 year warranty. That concludes the metal part. And then you have the flat part which we were given some options to look at. So option 5 was to redo the entire flat roof section with a metal a frame type roof. That's going to be option 5, that gives you a 25 to 30 year warranty on that. Option 6 was to pull off the puff roof that we have up there now. We have a puff roof. Then we'd replace it with a rubber roof which give you a 30 year warranty. And then option seven was to continue with what we're doing now, which is the PUF roof and you have to do that every 10 years. So that's where our options are at this point. So hopefully, that will give us a good frame of reference moving forward. There are different kinds of roofs up there. So I figured I would give us a little bit of a quick visual reference. This is a good picture of if you're standing behind the school looking toward Route 60. You have the slate metal roof that's in front of you built in 1939. On top of those 2 flat sections are some tin sections I'm going to be showing you that in just a minute. To the left you have the metal roof that was put on in 1993 which is you can still as you can see is a pretty fairly good shape. The long runs of the metal are in pretty good shape. And then to the right there is a puff roof, a flat roof. Okay, and so, Mr. Smith, anything to add to that?

Smith: Just for nomenclature puff is like a spray foam. If water gets in it, it holds the water in. The coating that's on top of it is really important. And that's very thin. The rest of it is insulation. PUF roof is really polyurethane just to piggyback.

Heslip: We did have an infrared d1 just to make sure that that section was pretty healthy. And so far it's holding up it does have some spots that are moist. So that's part of the complete roof project that you'll see. As we're looking at this, you can see that a lot of water dumps on this on the PUF roof. And again, here's an example of the flat sections of metal looking pretty good, you're going to find as we move forward, that's a common theme. Again, another flat section, this is looking at the library, excuse me, the art room and the music room that's in the far background there with a puff roof on top of it. And then the metal that you see here is the long runs are in pretty good shape the transitions is where we have the problem. This is a picture of the flat roof as it connects to the 1939 building. I just actually personal

opinion love that roof. That's old Buckingham slate up there. That is a quality built roof. But that being said, there are 2 sections up there that are from 1939 that are tin there on the very tip top. So those are going to have to be reconditioned. That's part of the process as we look forward. The slate section is not part of this scope of this work. That would be done later. The health of that roof is in pretty good shape. This is for metal and flat section is only what you're looking at in front of you. Again, here's more pictures. If you guys have any questions, feel free to ask. I'll try to answer them or turn it over to Mr. Smith. Again, another picture of the workmanship up there with a 1939 building. Now here's a picture of the transition start that's looking at the science wing there in the background, the foreign metal piece. That's where a lot of the water's coming through. There's 1,000,001 ways for it to get through that, again that section was built in 1939. And so it has had some work. I mean, excuse me, 1993. I get my numbers wrong. So it has had some wear and tear up there. And as you can see over the years, we've brought in folks to try to stop that rain water from coming in with little success. It works for a while and then then it fades. We do have some older downspouts which are part of this report to fix and to clean out, to keep healthy. This is 1 of the right overtop of the science wing. And as you walk in the main building of the high school to the right, excuse me to the left, as you walk in, there's a section there that leaks, the little section on the bottom, that's a different color. That's where all the water for those 1, 2, 3 rooms run. And it's a lot of water going into 1 place, it's very difficult for us to get to. So that's the reason why there is an additional as you'll see on your paper, it's an add on in the bottom for a ladder that would give us better access to this roof so that we could get up there and pre maintenance things and look it over a little better than we can now. It's pretty treacherous to get up there now. And I'll show you that in a minute. But as you look down from the bottom, we've cleaned this out now. Maintenance crew and I went up and we got all the dirt out of there, cleaned it up the best we could it was difficult to get a shop vac up there. We got it. And we also did a flex seal. Mr. Smith asked us to work on a few things that would just help us make the transition from now until we get the roof work done. We did that. That looks better. But again, that's a temporary patch. It's not a long term fix. On again, just another long roof section. Most of them look pretty good. It's again the transitional pieces that you see here are creating the problem where the rain is wind driven into the building.

Smith: Some of the fasteners are backing out as well. It's just the transitions.

Matthews: I have some questions. Mr. Heslip, before we go too much further. Is it the library that is connected to the project it was done in 93?

Heslip: Yes, sir.

Matthews: I was actually on the improvements committee that did that. But they had some issues with snow shields on that building when they initially did that. So does this bid include anything that would protect for ice and snow when you do this.

Smith: (not speaking in mic so didn't pick him up well) There are some that were acrylic that were just glued on. Ice, the weight of ice, 1 row or even 2 rows of guards is usually a calculation that you make. Sometimes you end up with 3, 4 or 5 rows of....I see it all the time where somebody put 1 row and think....

Heslip: We will get back to where we were, again, more transition water is going on to the puf roof. And then it's making its way down through gutter system. And it is, again, problematic through there. Long sections of the metal roof are still holding up pretty well. But the transitions are the issue. As Mr. Smith menti d screws or backing out. If we had a little bit better access, we might be able to get up there and to screw some of those in. We have since then we've made our way up but difficult to do that on an on a weekly or monthly basis. There are some air gaps in between the gym, and the actual siding. That's what that is. And again, that's been addressed in this roof study. This is 1 of the what you're looking at here is directly over top of the concourse as you walk into the basketball games where the concession stand is right over top of that is where this, this transition piece meets, excuse me. And it leaks there quite frequently. We've caulked it. We've d1 some work there. But eventually that's going to do some damage to the tile underneath. So for those that needs to be addressed. Again, transition piece here. This is another 1 of those transitional pieces that has made a hole through there. And this is a common theme we have some gutters and some downspouts and some termination points that are rusted over the years. So those need to be addressed and are addressed in this. This is a top down view looking into the library. So 1 of our substantial leaks. We have 2 that are substantial that we like old faithfully, every time it rains they seem to leak. This is a view looking down at the trash cans. And most of the time if it rains really hard those fill up quite nice, not quite nicely but quite quickly. And this is the view looking up. As you can see the water can find it a million ways down. And it's difficult to trace that down. And once you fix 1 spot it, continuously. These are the insulation pictures that you see here. This 1, they have separated some and created air gaps. And again, another transitional point here that is rusted. This view is looking up from the science wing straight up 1 of our again, old faithful, when it rains, the wind blows up through here. And you can see there's a lot of ways for that water to make its way down on a big flat roof like that it's very difficult to find where that water's coming through. I'll show you some of the work that has been attempted. Again, that's just gaps that have created been created over time. We currently have to get access to the roof by using a very tall extension ladder which is you know, it's doable but it's not ideal for us. If we had an access it was through the through the building would give us greater ability to manage the roof ourselves. As you can see that's pretty tall and then dragging up equipment like shop vac or whatnot to clean out those areas. It's possible just difficult. Again, transitions they must have been the thing in the 90s because there sure is a lot of them on this building. And a lot of these have been attempted to seal and to fix. This is another example of over the years we've tried to seal that and fix that and it's just little to no avail. That's the media center. So and we've since flex sealed that. We've slowed it down but not stopped it. And the same for this leak. This has been over the years right over top of the science wing. Again flex sealed. Since then, we've slowed it down but not stopped it. Transition here. As you can see here, over the years it's been attempted to

stop the rain from coming in. So if you look at that I guess to your right, you have the way they put on the top of the metal over top of an existing roof, called a top hat. And you guys, some of you may be more familiar with that than I am, but they put new metal over old metal that keeps you from having to rip the old metal off. And as you can see that older metal is in pretty rough shape. And whereas most of ours up there are aged and weathered, but the long pieces are in pretty good shape. So that takes us to our architect's recommendation. The Facilities Committee met and also the school board what they recommended to bring up here. So they recommend that we repair the Metal Roof Leaks using the replacement methods, whatever it takes to find the holes, fix them with whatever method necessary either a top hat or replacement and coat the whole roof with a 2 comp 1nt fluoropolymer, new gutters and downspouts which is option 3. And they recommend that we remove the flat puf material that's up there now. And we put a rubberized roof, which is option 6. And then we install a ladder for us to get access to the roof more easily. That's a supplemental item on your sheet and additional replacement costs or damage terminations. We're figuring that over the course of when we first were given this project to the time will come things come around, we're going to need to keep it operational and we're probably going to spend about that much doing so to patch into work forward and to make sure that we can stop as much water as possible. So the total cost on that is \$1.2 million. So I can give you the all the options. Now for discussion points, you do have those here. But I just want to go over real quick. So you have them all. Okay, option 1 is we remember was taking all the metal off, replacing all the metal and redoing the downspouts and gutters and soffits that came in at \$3.7 million to do that work. But again, the architect and we didn't recommend that that's just that's a number for you guys to talk about. Option 2 and 2 A that you have in front of you, 2, is that we replace metal overtop of what's up there now. And the cost on that is \$2.1 million. And if we did that 1 if that's what you guys wanted to do, then we do recommend that we do 2 A which is add the insulation factor underneath there, which is what do you call it rigid foam or polyurethane. Styrofoam is the word I was thinking about, which goes in between adds a lot of R value and the cost on that would be \$300,000. Option 3, is we repair the roof leaks with a combination of either replacement or retrofit over top of and then recoat the whole roof with a fluoropolymer. That's \$681,000. Architect did recommend that because of the shape. And then Option 4 was just where we repair the leaks that are up there we find the repair. With that we don't like we say only get a 1 year warranty and the cost on that was \$316,000. That ends of the metal roof section of options. So on the flat roof options, we have a new metal roof over top of the flats that came in at 1 million. Architect did not recommend that. Option 6 was we remove the puf roof and put the rubberized roof with a 30 year warranty on our flat sections. That gives us 30 year warranty like I said at \$495,000. And Option 7 for the flat roofs was that we continue to cover with a puf type of system. And that is again renewable for every 10 years. We'd have to do that every 10 years which we, our Facilities Committee, is that was on our on our agenda to try to work through and that comes in at \$54,000. And of course that that quote would probably have to be redone because that's a little older. And then the supplemental ladder. We're looking at 32,000 to add a ladder for access. And then the closing recommendations are exactly what I've said I think 2 or 3 times now so I don't really need to repeat it unless you want me to, at a cost of \$1.2 million. That takes me to questions and next steps.

Miles: Mr. Chairman?

Matthews: Yes, sir.

Miles: So this is just to be just for clarity. This is obviously an assessment, estimate, not a bid. But we're... that's what could be used for bidding purposes, depending on the option upon which we agreed to, is that right?

Heslip: I think that's exactly right. This scope of this work was to help us to focus in on what we really wanted to do, whether we wanted to replace the metal. Whether we wanted to retrofit over top of the metal, whether we wanted to cover the flat roofs with metal, and it gives you lots of different options. And from there, we can narrow the focus down. We would have to go back with an architect, like, if he chose the metal roof section, we would have to then go back and study the walls, because they were built in 1939, we'd have to make sure they can handle the weight and make sure that they were up for the task of holding that new metal. That's something we'd have to address, and then move forward with a focus of more of what everybody wants to do.

Miles: And so this is option 1 is recommendation from the Facilities Committee?

Heslip: Option 1. It was actually if you... it's option 3 for us.

Miles: I'm sorry, that was the summary at the top of our executive summary sheet.

Heslip: That is it. Yes.

Miles: Not option 1. But hybrid model of 3 and 6.

Heslip: Absolutely. Yes, sir.

Miles: Just speaking on behalf of myself. I mean, I was I was at the school board meeting, because it was my assigned rotation turn and, and I visited the high school one morning when it was raining, and we need to do something. My thought would be that, you know, use the \$800,000 and then use whatever carryover from the just closed out fiscal year that the school board would have, in terms of funding it because I know that's what it's going to come down to. I know in the past 2 years and Fiscal Year 19, the school board had a carryover of \$497,965. In then FY20, it was \$724,245. So that's the route that I would want to take in terms of funding. And obviously, the bids need to come in. And we need to go through that process. But it's going to come down to funding. So that's where I stand on that Mr. Chairman.

Matthews: Thank you, Mr. Miles. Do you know what your end of year funding is going to be yet? You have that total?

Heslip: No, sir. I did not.

Matthews: Anyone here have that total? Typically, they use your fiscal year ended June 30. And have that tied down pretty close to that date. So would the financial director know that information or the superintendent?

Heslip: Yes, sir. I'm sure they would.

Matthews: I think we need to ask Mr. Carter too, on our front end on our financial side, you know, we might need to take a look at and what his thought process might be.

Carter: Yes, sir, Mr. Chairman, what Mr. Miles recommended, I agree with that. It's gonna come down to funding. I'm sure the school finance director, they don't have an exact amount yet, because they're still spending money that came in on bills that came in after June 30 in July and August to keep those books open for 60 days. So as we get closer to the end of August, they should be able to tie down exactly what carry over money they may have. But until then, they may be able to give you a ballpark on how much they expect to have leftover this current fiscal year or the fiscal year just ended. So what Mr. Miles suggested is, you know, use those ending year funds to go toward this project and see what you get, because you won't know until you bid it out.

Miles: Exactly. And again, the past 2 years, Mr. Chairman, have trended right much in terms of an ending year balance for the budgets.

Matthews: We've had a couple things happen this year in funding for the school division back in December for a bonus, and then we also did end of the year for next year's budget, so our budget is getting kind of tight right now. We don't have a whole lot of extra cash laying around. So we want to make sure we're frugal with how we approach this and we look forward to hearing from the school division what their end of year money is. Any questions from any board members?

Chambers: I don't recommend for the school board using all their funds because they may have some unforeseen expense come up. I don't think it's a good idea to make them to spend all their money. I think the county should come up with a fair share of it because somethings got to be done.

Miles: Do we need to take any action on this, Mr. Carter, Mr. Chairman, in terms of bid or that continue the process.

Carter: They will want to bid it out pretty soon.

Heslip: Well, you know, whatever is good for the county.

Carter: If the county took action tonight, you'd be willing to put out bids probably next couple of weeks?

Heslip: We don't have to take this back. And whatever, whatever we decide here is going to require us to go back to the architect to put out for bid (faded out)

Carter: But you don't have to go back to the school board anymore?

Heslip: They are ready to go. They've already approved if this moves forward here, then they already said this is what they would use.

Chambers: So you are saying you need to put it out for bid?

Carter: They got an estimate of what the architects think is going to cost but you won't know the final price or the actual price until you bid it out and get bids back.

Chambers: I'll make a motion that we put it out or have them put it out for bid.

Allen: They put it out for bid. The first part. Yeah, I make a second on it.

Matthews: We have a motion and a second. Call for the vote.

Davis: What are we bidding? Is that option 3 that they recommended?

Allen: The first thing, 3 and 6 together.

Davis: I was just going through my numbers. You know, I'm a numbers guy. And I was to add up total. I came up with less than what they did, but that's...

Allen: You probably left out that 25,000 they got on front. I didn't see that either. I'm right with.

Davis: That's option 3 and 6 and add on the ladder.

Miles: And then the \$25,000.

Davis: I just want to make sure.

Heslip: I think the \$25,000 is what we are planning on to whenever this gets completed. We want to make sure we're tightening it up as much as possible. Yes, sir.

Allen: That's the first thing on their report.

Heslip: Yes, sir.

Matthews: Are we ready? Okay. We'll just call for a raise of hands to move forward with the architect recommendation summary Facilities Committee and school board also recommended which is section 1, not option 1. So. All in favor, raise your hands. Unanimous. We will move forward.

Heslip: I appreciate it very much.

Supervisor Chambers moved, Supervisor Allen seconded and was unanimously carried by the Board to move forward with the architect recommendation summary and Facilities Committee and School Board also recommended Section 1 for the School to put it out to bid.

Re: Virginia Cooperative Extension: Mrs. Ruth Wallace, Extension Agent: Funding Request

Matthews: Next presentation is Virginia Cooperative Extension. Mr. Ruth Wallace, Extension Agent.

Wallace: Good evening. My name is Ruth Wallace. I'm the 4-H Agent and Unit Coordinator with Virginia Cooperative Extension. I know many of you. Today or tonight I'm here to ask for some additional funding beyond what you have already budgeted for our office. Specifically, I'm looking for \$24,100. This funding would serve to keep our program assistant position funded through the remainder of the fiscal year. We had, currently your funding it at 30% a third of the position. However, our funding partners had to withdraw their funds, which is going to leave us lacking the funding that we need to continue that position through the end of the year. We currently have enough money in our budget to fund it through September 30th, which is the end of the first quarter. But then we've lost the funding we had. In our office, we have 5 full time individuals. The 4-H agent is me. We have our Ag Agent, Jennifer Ligon. You currently pay as a county a third of our salaries and benefits. We have a full time unit administrative assistant who's paid completely by the state, and a full time family nutrition program assistant who specifically works with low income families on nutrition and food budgeting. And she is also paid completely by the state. So at this point, that leaves our program assistant position, which is the one that I'm seeking funding for. That position works with 4-H and Ag. We've been able through the course of having that position in existence over the past couple of years, been able to expand our 4-H

and Ag offerings by about 30%, maybe a little bit more. It started out as a part time 4-H position years ago, and morphed into this full time position. Because our need was so great, that we were getting calls for programs and activities that we simply weren't able to expand into until we created this position several years ago. And so we'd like to be able to continue the funding for it in order to keep it going at least through the end of this fiscal year. And when the budget cycle rolls around again, we can take a look at it again and see if we can continue it. So that amount is \$24,100. And if you have any questions, I can go into more detail about what the person in that position does. Anything you may need to ask.

Matthews: I have a question Mrs. Wallace. What was the funding mechanism that funded this program?

Wallace: And this was in the letter that you got in your packet. We were receiving funding from the Soil and Water Conservation District. We do a lot of joint programming related to environmental education and agricultural producer education and activities. And so they were providing funding and then we were also getting funding from our district office. So it was state funds funneled through the district office. Unfortunately, both of those funding streams have dried up. The soil and water district needs to pull their share in order to fund a full time person because they have expanded so much that the work that that person was doing, they need the educational component for them, plus some additional technical assistance monies to deliver some of their cost share materials. And then on the state level, the state gave in this one, a little less understand. I don't understand quite as well, because it's kind of above my paygrade. But the states gave all of the wage and classified staff raises, but didn't give money in our budget to pay for those raises. And so the district director had to pull back the money that she was using to fund this position to fund all the raises for the classified staff throughout the district. So, it put us in a bind.

Matthews: So you are saying that the... is this the Peter Francisco Soil and Water district that you're talking about?

Wallace: Yes, our local district, right.

Matthews: So this is not going to be something that's gonna in the year or two is going to come back. Is that what you're saying? It was just gonna be something that's gonna be forever when we fund this?

Wallace: Their funding is not going to come back in the foreseeable future, because they are pulling that funding to put towards a full time position of their own. So what we're looking at here, this request that I'm making tonight will just get us through the end of this fiscal year. In the next budget cycle, when we put in our request, I will likely be asking for this amount of money plus an additional \$12,000, which is the amount for the first quarter that we've currently got funded this year.

Matthews: What does that total come up to?

Wallace: \$36,408.27 which would be in addition to what we currently have funded in our budget.

Matthews: When did you find this out that there wasn't gonna be any funding for this position here?

Wallace: About 2 weeks ago.

Miles: Mr. Chairman, I've got a question. So according to the some correspondence that we got from our county administrator, you know, the request is for \$24,100 but extension thinks that maybe they'll be able to find some other sources and could get by with \$13,700 from the county. And I guess that's that would carry you through the remainder of the fiscal year. And if we, the board, wanted to we could revisit it, funding it full time when the budget cycle starts in April or March. Is that accurate, ma'am?

Wallace: That is a hopeful expectation. If we get...we know, our district director said, there's no way she can work with anything other than if you can fund the \$13,700. But she's not sure that even with that promise that she can guarantee the rest? She will go through the effort, and she wasn't willing to go through the effort before to see if she can find that funding.

Miles: My apologies for interrupting. But what if we did 15, maybe?

Wallace: I'm happy.

Matthews: Before we start talking money, I think Mr. Carter's probably got some input or what is your suggestion on this whole thing, Karl, moving forward in predicament that we're in right now, with funding is gonna run out, and they've got it funded through September, were you saying funded through the end of this year or the end of the like, December?

Carter: The fiscal year, so it'd be in June 30 of next year. And then Mrs. Wallace is saying that when you get your budget requests in the spring, they're going to look at whether they want to fund this position or not. So they'll be asking you for that 36,000 number, or...

Wallace: I'll probably be asking you for that 36,000.

Carter: So this will get you to June 30 of next fiscal year.

Matthews: What are you thinking about, you want to pass this on to the finance committee? Or what? How would you want to do that? Look at this a little bit further?

Carter: How soon do you need to know?

Wallace: It's funded through September 30 so we still need a little bit of leeway in there. A little bit of notice, because when funding streams change, we have to readvertise the position. So ideally, we'd like to advertise it sometime in August.

Carter: If we get you something in the next couple of weeks, then you'll be...

Matthews: Is the person in position not going to be coming back or how is that going to work?

Wallace: The person in this position is planning to apply for the full time position at the Soil and Water District. However, I know that her heart is an extension and she wants to be an extension agent eventually. So I'm not sure what will happen there. Regardless, because the funding stream changes, our rules state that we have to readvertise and reinterview for the position. But nothing stopping her from reapplying for us. In fact, I'd love for her to because she's...

Matthews: Is this position full time?

Wallace: It's a full time, salaried and benefited position.

Matthews: The Finance Committee will take in under consideration.

Wallace: Thank you.

Re: VDOT Road Matters: Scott Frederick, Resident Engineer

Matthews: My favorite man, Mr. Frederick, VDOT Road Matters.

Frederick: Evening chairman and members of the Board. Thank you for having me. Is the gentleman that spoke earlier still here? I think he'd be happy to know it's in fiscal year 27. There's a portion of Route 622 that just got added to the 6 year plan last month. So you should thank your board for getting your road, put on the 6 year plan. So I also want to thank everyone and anyone that has picked up any litter. There's a lot of Adopt a Highway partners, the Antilitter coalition in Buckingham, there's been a lot of trash picked up by a lot of different folks. I want to thank anybody that's been doing that. It makes it a lot easier when we mow to not grind all that trash up. Make it makes it look a lot better. So speaking of mowing, we finished the first round. We're finishing the first round cutting on the secondaries this week, throughout the county. We've also been working on a second cutting on the primary system that's already been cut once already. And we've been working at cutting it a second time

in coordination with the secondaries this time. So county wide, we're about 75% on the primary routes. We've been working towards boom axing Ridge Road, that's the one that we're working. That's a gravel road at the moment and we're gonna be turning that into a hard surface road. After we get done boom axing it, we're gonna clean out the ditches one last time and then we'll be ready to shoot the first, we call it the prime coat. That's when it'll start looking like a paved road, so to speak. But when it's finished, it'll be a surface treated route. But most people can't tell the difference after a little while. So, um, they've been keeping up with work orders as they come in. I want to thank anybody that works with the school system. The bus garage has been calling in the tree limbs that affect the school buses. And we've been trying to jump right on those when they come in through the schools. So they've been very good to work with there. We put some patches down on Glenmore Road. A few. There were some settled areas, I think the board had requested that we do some work out there.

Bryant: There were 17 spots and now there's 117.

Miles: It's rough. It's rough.

Frederick: Yeah, those, those motor grader patches are tough to put out there.

Bryan: How come the state doesn't have a paving machine?

Frederick: That's something that not a lot of residencies keep. But don't do enough paving...

Bryant: You can do a good job unless you do what a motor grader. But that is rough.

Frederick: Typically, when we go to fully resurface a road, we will hire a contractor to do it these days.

Miles: That road is worse than what it was.

Frederick: Wow, I just apologize. I wish I wouldn't have brought it up. Well, we are monitoring it, because that's called Skin Patches and they're really tough to get them to stay down after their in place.

Bryant: I don't know what is going on. But where you start and stop is another bump and they are real close together.

Frederick: There is a lot of bad spots on that route. So we're finishing up a patch on Copper Mine Road as well. There was a spring under the road right there. And we temporarily patched it a little while back. And we're going back probably I think by the end of this week, that road will have a finished patch on it there. Today we fixed the shoulder on Route 24 near the Slate River. Tomorrow, we're moving that

same crew down the Route 15 we're gonna fix the shoulder there, it's right between the 2 legs of Route 683. So that's a section of 15 on the side there where the shoulder needs some work. Route 56 at Shelton Store Road. There's the sight distance issue that came in through our call center. But we worked with a landowner there, we're going to take down about 30 pine trees to improve the sight distance. If you're coming out of Shelton Store Road on 56. That's going to be a really good improvement. I'm looking for that to take place sometime next month. We've had to hire a contractor because there's a power line right there. So these trees are gonna need to be taken down on somebody with a bucket truck. There's a lot of oak trees and then some dead ash trees on Route 60 between Mount Rush and Union Church Road. We've been working with our district roadside crews to come in and take those down that work will probably take place in September. We've also had some complaints come in on Pond Road, so if you've heard anybody complain, there was a logging operation there through the winter and the road needed a lot of work throughout the winter. And we actually put millings down on that road back then to help hold it together. And once you put millings down on the road, it kind of you have to live with them. That can be troublesome but it had a lot of wash boarding and then there you can't just go regrade it quite as easily after it's had millings put down on it. But so we've been doing it about every 2 weeks now this summer, trying to keep it from getting that washboard effect. So we just did that on last Thursday. So if you guys are getting calls on it, too, we've been keeping a close eye on that. Other than that we've just been machining our unpaved roads as needed. And then the 2 Smart Scale projects that were being built in the county were one at Duck's corner, that's Route 60 and Route 56. That one is further along than the other one. And we got final acceptance on that in the end of June, June 23 to be exact. There's a spot right in the radius of the turn if you're coming off of 60 onto 56 where the asphalt chevin. A member of the traveling public came through there while that job was being built and a gas can fell off of their car. So we're gonna have to if that gets a worse we're gonna end up having to put a patch in right there.

Miles: May I ask a question, Mr. Chairman about that project. Mr. Frederick, do y'all plan on putting any sort of a guard rail or anything, as you're headed on 60 approaching the intersection there? If you're, you're headed west, obviously, and you start to veer to the left. You know, that's and there's a really low drop off spot right there. You know what I'm talking about?

Frederick: You're more familiar with it than I am.

Miles: Okay. Well, I'm telling you, what's going to happen is that somebody is going to be going through there at night, who's unfamiliar with that area, and they're going to clean leave the road, because of the depth of the shoulder. There is no shoulder right there. And so if y'all could look at that that's been brought up to me by at least 3 people who traveled that road. I mean, I'm not saying it has to be guard rail, but something, some sort of directional signs or something, especially at night, because it's new.

Matthews: Okay, what if they fix the shoulder?

Miles: Well, can you fix the shoulder?

Frederick: We can certainly look at it.

Chambers: You not supposed to be driving the shoulder no way. You are supposed to be driving in the road.

Miles: Right. Exactly. I agree. Supervisor Chambers. So people do like to drive on the shoulder, though, unfortunately.

Frederick: I've got that written down and we will take a look at it. Right now. There's nothing scheduled. There's we don't have any plans at this time. But we can certainly review it and see if something is needed. The other Smart Scale job on 15 at Route 636 what we call Shepherd's Corner, the completion date on that project is October the 15th. And I think you'll start seeing the final riding surface next week, or maybe the week after. That felt like a long construction season on that thing. That's all that's all the major stuff I had to update. But I just want to open up to the board at this time to see if you guys have any other comments.

Davis: I've got something. I just want to thank you all for patching in potholes on 610 on Cartersville Road. It made it a lot better.

Frederick: Okay

Davis: It ain't great but it's better.

Frederick: I'll pass that along to the guys. Thank you.

Matthews: I think there were a few issues at the last meeting where I don't remember the gentleman's name that was here in your place.

Frederick: Steve Snell.

Matthews: And first question is, why has it taken so long at the Shepherds intersection? Just curious. What's the holdup now? It looks like they've gotten all curbing poured and are they just having issues with asphalt because, we still haven't got...that thing is still pretty rough.

Frederick: Yeah, well, they came in and we don't really a client once we put the plans together, and we put it out for bid similar to the school presentation. And then we award it to a contractor and we don't set their schedule, we just tell them when they have to be done. And this contractor elected to come in and mill the surface of the road and you know, he's maintaining traffic properly per the worker protection manual and everything. We don't set his schedule. He's able to build the job anyway chooses. As I wish it would have stayed on the old surface a little longer than it did and then mill that off and put the new surface down quickly thereafter, but sort of out of our hands once we award it to them. He has put some patching in from time to time when it's gotten extra rough.

Matthews: Another question I had at the last meeting this traveling west on 60, going out of the courthouse here, as you go around the curve by the church down the hill is the slope there and is 35 down past Herbert Maxey's farm that turns to the to the right, the old Adams farm right there. There is a bunch of trees and growth that you cannot see back up to hill and when a tractor trailer or even a car comes down that grade they're not observing the speed limit because that grade is forcing them to go faster. So you know nobody in their right mind is gonna hit the brakes coming down here they're gonna be speeding up coming down that road but somebody is gonna get hurt at that driveway right there if we don't get that foliage off of those trees and around that light pole. So this is the third time I've addressed it.

Frederick: I just rode through there the other day. I thought that had been addressed.

Matthews: Pull in that driveway and then turn around and start coming back out and look back up the hill, you can't see anything coming. You got to get into road to see back up the hill.

Frederick: Okay, gotcha. Law enforcement can help on the 35 mile per hour would be good too.

Miles: Well we do have some help. The sheriff's office recently placed some speed readers there. They had digital readout speed readers, and they slowed things down and they have still slowed things down. They moved those electronic signs since then, but they'll be around the county is my understanding from the sheriff's office. In the same issue, Mr. Frederick at 161703 West James Anderson Highway. Gentleman lives there on Route 60. He lives in the dual lane, westbound portion of it on the hill and when he goes out of his driveway he'll look left and he can't see for the trees, for the foliage on the trees. If y'all could look at that. That's 161703 West James Anderson Highway. It needs to be trimmed back. He's an elderly gentleman, and he would appreciate

Frederick: I'll write that down. If it's in the right away that's pretty easy for us.

Miles: It's in the right away.

Frederick: If it's off right away, that's a different story.

Chambers: On Route 20 North, right past the Food Lion, there is a dead tree leaning all the way across 20.

Frederick: Okay, say that one more time.

Chambers: On Route 20 going north after you pass the Food Lion, you'll see a dead tree all the way across 20. A big oak is leaning across the road.

Miles: There was one on Andersonville and one on Dixie Hill that I brought up last month. Mr. Frederick to Mr. Snell. Okay and I gave him the addresses too.

Frederick: Yeah, I'll touch base with him. Hopefully he still has them and get some work orders put in for those

Eddie Slagle from audience spoke out about debris on roads from storm.

Matthews: It is a lot of debris on that and I'm glad you brought that up, on Back Mountain Road. I don't know the road number. What is that road number, Mr. Slagle? But it goes all the way... it was some other issues on the CIRA Road to right before you get back to 60 over there but that's in Cumberland County. But I also have a complaint, Mr. Frederick on Route 640, Andersonville Road, which y'all have already done the first cutting on the secondary roads but I had a citizen really complain, said it was worst job they've ever seen as far as cutting against the ditches and stuff like that. He's just said it was really gapped up and just debris all over the road. So I'm just passing along. If you would go up here and look at it.

Davis: I've got one more question, Mr. Chairman. Did you look into what we talked about, the study that was done on the Bremo...

Frederick: That hasn't come back yet. I checked earlier today. It's a long turnaround time and the traffic engineering work orders. But as soon as it comes back I'll let you know.

Davis: Looks like to me every other week we'll have an accident.

Allen: Back to Route 622. We got it on 6 year plan and we've done it but can you give me an update to let him know, any idea when you can be working on the road or have your even been down that road?

Frederick: It's been a while if I have.

Allen: It'd be neat to ride down there because you see where they started working on this road 10 years ago now and they widen the road and made it look real good and then all of a sudden they shut it off. That's what they are talking about too. It's small and if you run off the edge the road you're liable to run in a ditch.

Davis: It's really, really narrow right there where their farm is and when you go in that big curve right if you meet a big truck, you've got to get over in a ditch. You got to get out the road. It's bad there.

Allen: It was just put on the 6 year plan so it would probably be a while before it gets to it but anything you can do in between now and then would be appreciated.

Frederick: Yeah, we can certainly take a look at the road or something. I like it when we make improvements and they start and stop at a logical termini. Sounds like on that one, I don't know if that's what happened.

Allen: I think they ran out of money.

Frederick: That's a good reason to stop isn't it? Okay, well is there anything else from the board?

Allen: I think you got enough for today.

Re: Zoning Matters: Introduction of Case 21-ZMA283, Owner/Applicant: Landowner Wayne Beasley, Applicant Shelley Mays-Couch-Zoning Map Amendment Request to Rezone from A-1 to B-1 for the Purpose of Operating a Non-Retail Office Space and Other Permitted Uses

Matthews: The next item on the agenda is going to be zoning matters. Mrs. Edmondston, is our Zoning Administrator and Community Planner.

Edmondston: Good evening, Mr. Chairman, Members of the Board. Tonight we have an introduction of Case 21-ZMA283. Your landowner is Wayne Beasley. The applicant is Shelley Mays-Couch. Property information is Tax Map 196 Parcel 38, contains approximately 1.65 acres and it's located at 3875 South James Madison Highway, Farmville, Route 15 in the Curdsville Magisterial District. It's an A-1 currently. This request is a zoning map amendment Mrs. Mays-Couch is asking the Board of Supervisors to recommend a public hearing date to hear the request for rezoning from A-1 to Business B-1 for the purpose of operating, non-retail office space and other permitted uses. The comprehensive plan does list Route 15 as a main corridor, and this property is approximately 3 miles north of the South growth corridor. Mrs. Mays-Couch has indicated in her application that the purpose of the rezoning request is to be in compliance after providing human services in the same location for 3 years and to

increase permanent uses. Mrs. Mays-Couch did receive confirmation of grandfathered status by the zoning administrator but due to the ability to increase permitted uses, she wishes to apply for this rezoning request. Case 21-ZMA283 was introduced to the Planning Commission on May 24. And a public hearing was held on June 28. No one signed up to speak during the public hearing. And the planning commission members absent were Dabney Crews and Ashley Shumaker. All others in attendance the Planning Commission voted unanimously to present this to the Board of Supervisors with the recommendation of approval of the rezoning request. Would it be the pleasure of the Board to schedule a public hearing possibly August 9, 2021 at 6pm?

Matthews: Do we have a motion for that?

Chambers: So moved.

Matthews: We have motion and second to set a public hearing on August 9th for Case Number 21-ZMA 283. All right. Call for the vote. All in favor? Yes. Unanimous.

Supervisor Chambers moved, Supervisor Bryant seconded and was unanimously carried by the Board to schedule a public hearing on August 9, 2021 to hear public comments regarding Case 21-ZMA283 Shelley Mays-Couch.

Re: Zoning Matters: Introduction of Case 21-ZMA284, Kyanite Mining Corporation, Request for rezoning from A-1 to Industrial Heavy M-2 for the purpose of zoning consistency and continuation of mining.

Edmondston: The next case is 21-ZMA284. The landowner and applicant Kyanite Mining Corporation. The Tax Map is 172 Parcel 78 approximately 32 acres and it's located off of Plank Road, State Route 600. The Colonial Pipeline crosses this property. There is no 911 address. It's in the Curdsville District. It's currently in A-1. The request tonight from Kyanite Mining Corporation is recommend a public hearing date to hear the request for rezoning from Agricultural A-1 to Industrial Heavy M-2 for the purpose of zoning consistency and continuation of mining. As stated in the narrative submitted by the landowner owner and applicant, this applicant owns all of the parcels adjacent to 172 - 78 and the tracks to the north, east and west of this parcel. They are all currently zoned M-2. The applicant desires to continue its mining development on this parcel in the future. The introduction to the Planning Commission was held on May 24, 2021. And a public hearing was held on June 28. No one was signed up to speak. Planning Commission members absent were Dabney Crews and Ashley Shumaker, all others in attendance. And once again, the Planning Commission voted unanimously to present this case to the Board of Supervisors with recommendation of approval. Would it be the pleasure of the Board to schedule a public hearing possibly August 9 2021?

Miles: So moved, Mr. Chairman that we set a public hearing for this case on August 9, 2021 at 6pm.

Bryant: Second.

Chambers: 6:00 you say? It's usually after 6:00.

Miles: Remove that time. After 6. Thank you Supervisor Chambers.

Matthews: Alright, we have a motion and a second. Call for the vote to set a public hearing for August 9th for case 21-ZMA284. All in favor. Yes.

Vice Chairman Miles moved, Supervisor Bryant seconded and was unanimously carried by the Board to schedule a public hearing for August 9, 2021 to hear public comments regarding Case 21-ZMA284 Kyanite Mining.

Re: Vice Chairman Miles: Consider possibility of regional approach to cigarette tax

Matthews: Vice Chairman Miles: Consider possibility of a regional approach to cigarette tax.

Miles: So yes, sir, Mr. Chairman, so I come to you this is coming from the Commonwealth Regional Council, which we're a member of along with Amelia Charlotte, Cumberland, Lunenburg, Nottoway and Prince Edward counties. The Commonwealth Regional Council recently had a presentation from some consultants. And that was requested on behalf of the Amelia County Administrator, and that the General Assembly during their 2020 session, voted to allow counties and towns to levy cigarettes up to 40 cents a pack. And all I'm asking on behalf as your representative on the Commonwealth Regional Council, is this Board of Supervisors interested in pursuing that and that it would be a regional approach? The gentleman who did the presentation said that estimate would be that if the county instituted this, we could make \$125,000 a year that's before any of the administrative costs from a regional level. What would have to happen is that the counties would show interest or not. And then there'd be a regional Tobacco Tax Board would be put together with representatives from all seven counties, if all seven counties go with it, and then that board would organize and hire staff to do the stamping for the cigarette pack for the packs of cigarettes. And then there'll be some, obviously, some administrative fees to pay those 2 people. And so it's weighted based on sales, meaning that the county that obviously sells the most would get more revenue. It's not split up equally, but it's based on sales. So I'm asking you all about that any interest or non interest on behalf of the Commonwealth Regional Council?

Chambers: Is that just on cigarettes?

Miles: That request is from the CRC? Yes, sir. It's for the pack.

Chambers: What about the marijuana? Can you get some tax off that?

Miles: I don't, I don't know if the General Assembly has figured that out yet, Supervisor Chambers.

Chambers: If you're going to tax it, tax it all. Don't just tax the cigarettes.

Matthews: Do we need a motion on this Mr. Miles?

Miles: I don't I don't know if we need a motion or not.

Matthews: Do you want the finance committee to look at this or how do you want to handle it?

Miles: It's up to y'all. That's fine. But I'm just asking in an impartial manner from the Commonwealth Regional Council, whether or not this board wants to explore that.

Matthews: I think that's a good thing.

Miles: So...

Matthews: What did we, just, I mean...

Davis: Are we just pointing out that one thing. I agree with Mr. Chambers on that. If we just go on the smoker. So what about tobacco use, tobacco chewing, is it only cigarettes?

Chambers: That's discrimination. If you put it on just cigarettes, what about marijuana or chewing tobacco?

Miles: You need to ask the General Assembly about that Mr. Chambers.

Chambers: You are the one that brought it up. You brought the information. You carry it back to them.

Miles: Okay. I can do that. I have no problem with that.

Chambers: Take it back to them. Tell him get it right.

Bryant: Thank you Mr. Chambers.

Matthews: Well, I think it's something to look to take a further look at. I mean, any type of tax revenue you can get off of something is going to help us in the long run. So I think maybe the finance committee can take a look at it and bring it back to the Board.

Miles: Whatever y'all want to do. That's fine.

Matthews: Go back and gather information on tobacco products, if that's on the table or anything else or cannabis or marijuana. Okay.

Re: Sheriff's Department: Consider accepting grant from Office of Emergency Medical Services with a 50% Match of \$4,574.50

Matthews: The next item is the Sheriff's Department, consider accepting a grant from Office of Emergency Medical Services with a 50% match of \$4,574.50.

Allen: So moved. I say we go on and do it.

Miles: Second.

Matthews: We have a motion and a second to match this funding for the sheriff's department. Call for the vote. All in favor? Unanimous.

Supervisor Allen moved, Vice Chairman Miles seconded and was unanimously carried by the Board to match the \$4,574.50 for the grant from the Office of Emergency Medical Services.

Re: Consider extension of Water Agreement with the Department of Corrections

Matthews: In the water system consider extension of water agreements with the Department of Corrections.

Carter: Yes, Mr. Chairman. In your packet tonight, you should have a 2 agreements from our largest water customer, Department of Corrections. Our current agreements both expired. One expired back in 2019 in December. The other one expired in March 21, this year. You'll see these agreements are going to extend both to 2038. And the reason we pick that date is you have both expiring at the same time and also their original water plant loan was for 40 years and expires in 2038. We wanted this agreement to follow that loan. So with this new extension, if you approve so tonight, is just the original...is basically just extending the original agreement and has no change in rates or anything. It's just extending that agreement. So we have a contract with the Department of Corrections for water for the next

17 years.

Miles: I move the agreements be adopted, Mr. Chairman.

Matthews: We have a motion on the floor?

Chambers: May I ask a question? Is this go locked the price in where it's at for the rest of the 17 years?

Carter: No sir. This is just the agreement. So there's nothing in the agreement about rates,

Chambers: So we can raise the rates if we want to. Okay.

Carter: You can look at the rates every 2 years in agreement. So it's done in the biennium budget with the state so when they look into their budget with the state, we can look at changing the rates.

Chambers: Okay, thank you.

Allen: Mr. Wright, do you like it? Are you in agreement with this?

Wright: Yes, I have reviewed it.

Allen: As long as you are happy, I'm happy. Second.

Matthews: Okay, we have a motion and a second to agree to the extension with the Department of Corrections on the water system. All in favor. Unanimous.

Vice Chairman Miles moved, Supervisor Allen seconded and was unanimously carried by the Board to agree to the extension of both agreements with the Department of Corrections on the water system agreements to extend to 2038.

Re: Firefly Broadband, Gary Wood, Update

Matthews: And it's my second favorite person, Mr. Wood. You are up next.

Wood: Just a second, we've got a brief presentation about the project we're working on this summer. I'll also give you a quick update on CBC fiber build. And about where we are. If I can figure out and make sure I can run this right. So we, Firefly, is a wholly owned subsidiary of Central Virginia Electric CoOp which was created because a CoOp can't sell internet service directly. So it can't own a subsidiary that

sells internet service. So CVEC builds fiber on its lines, leases it Firefly, which then sells internet service. But Firefly is not restricted to just CVEC area. And we talked about that I think when we started a couple of years ago. We wanted to focus on getting the CoOp members connected first. And we've been doing that and got a little more work to do. Right now we're on target to finish all CVEC major fiber construction by mid-year next year. That's a year earlier than we planned when we started. So we've sped it up. And that that's going to impact positively Buckingham County, even this year, and we'll talk about that in just a minute. This summer, we're looking at a bigger project that will provide universal service across 12 different counties, to every unserved location, no matter what utility, they're on. That's going to take a little extra funding. And that's what I'm going to talk about tonight. So that's going to be the main thing I'm talking about. But I will give you a quick update. Our project is called the regional internet service expansion project, or we call it RISE to make it easy. So I don't have to keep saying all these words at one time. And it's really based on the power of partnerships with some of the other utilities that allow us to do this. This is the service area for the entire project. So we'll go up as far as Madison County, down as far as Amherst on the west side. And then to the east, we go over into Powhatan and Goochland. The green area up there is Central Virginia Electric CoOp service area. So that area, that as of next year, all of that will be served it's about 38,000 locations in that that will have service. The reddish area is the area that we're putting together this summer this proposal for and you can see in Buckingham County a little closer right here. Um, the area in green, that Central Virginia that will already have served and then the grid area. Let me step back now when we have this map up and talk a little bit about Central Virginia Electric and where that fiber build is. We have completed several substations that touch in and around parts of Buckingham. So we come in a little bit out of our Pamplin substation and then out of Curdsville, that little finger up in the northeast that comes in from Columbia substation we've completed. That gives us a service available to about 1400 locations so far. We are starting work, actually have started work in the last month in a small way on Mount Rush substation. Mount Rush substation, we'll get then that western peace about the southern half of just about up to Howardsville actually. Because we're going to include part of what we call our Schylur substation, which is over in Nelson County, but feeds across the river, we're going to build that out as part of Mount Rush. So that'll take service past another 2000 locations. We intended to be there earlier. If you remember back in February of 2020, we all got together and celebrated getting a federal grant and loan that was going to help offset costs, and it will help offset costs. But it's a federal grant and loan. So that day, I'd already started talking to the folks in Washington said, we're moving really fast, you're going to have to do things differently. If not you're going to hold us up. The first time I told him, I shouldn't tell too many stories. I told an engineer on the phone that and he said, Mr. Wood, we're the Department of Agriculture, and we do things the way we do things. So we'll be glad to work with y'all all we can but we're gonna do it our way. So our first dollar from them flowed a month ago. We postponed projects that we would have been in Mount Rush the end of last year started this year. And we put it off and put it off because we were waiting on approvals for a number of just silly little things. Actually, we had the contract approved 2 weeks ago, this is a type of thing that today I saw an email that asked again, where's the contract? You said it was approved. We're supposed to have the contract in hand to turn the

contractor loose. They said, Oh, don't worry, it's all approved, we just haven't gotten around to putting it in the mail yet. We are getting it. So we're going to turn to people as we started, there's a little area of Mount Rush not covered by that. We started that work. We've got the approval on the other. We're going to turn the contractor loose very soon. There will be multiple crews in. We're working at about 20 miles a week, construction across the system. There's about 200 miles of work in Mount Rush. All of our crews won't be there. But we should be able to finish it in 12 to 14 weeks getting the main fiber up. After we get the fiber up, we have to come back into the splicing. After we do the splicing, we come back and put the services in. So you can expect us to start putting services in probably in 6 to 8 weeks in that area. And then it'll probably run through October, before we finish everybody. The Centenary area, which is the northern part of that, will then come in later this year. We'll later in the year or even early next year, we'll be building in that area and finish the rest of the way up in the rest of the county. So that'll take us past about 4600 accounts, I think. Let me go back and if you have questions on that we can come back to it later. But we're making pretty good progress, moving pretty quickly. Faster than we were because we want to speed up. And we would have been here earlier if the federal government wasn't helping us. So Buckingham County for this RISE project, we have 3 partners because we consider the county partner, and Dominion. Dominion has a special program that's been approved at the state level that allows them to build fiber on their line and lease it to an internet service provider. They do not go to every house like Central Virginia Electric does, but they run they'll run their main lines and their major taps. And then they'll allow us from that to take off and get the smaller taps and go to the homes. We have an agreement already in place with them. That's part of the study of what we're doing this year. And you'll see how it impacts the timeline in just a minute. This project to just give you a glance the, we think in electric terms because we're an electric company to start with so electric providers in Buckingham, Central Virginia has 4,629 electric accounts. Dominion Energy has about 3,800-3,900. Southside just has a few. If you're thinking about internet accounts, you can take about 10% off of that because not all electric accounts want internet service. If you have electricity in your barn, you may not want internet there or at your water trough. So we've already looked and made a preliminary guesstimate at the number of unserved locations in Buckingham. Unserved, as defined by the State of Virginia for grant purposes, is a location that has 25 megabit per second download speed, 3 megabit per second upload speed or less. That's unserved. So we think there's about 2000. We're spending time this summer defining that for sure. And so I'm gonna give you some preliminary estimates. They may go down. They're unlikely to go up. Because we've been pretty aggressive in trying to get this number. With that we had our early estimate 169 miles of fiber. The project would start construction 2022 and be done by 2024. The CVEC area, again, is not part of this. CVEC is separate and will already be done by middle of next year. This is the rest of the county. Preliminary budgets, about \$12 million of construction. It is more expensive to build off our system. I think I talked about this when I was first here. On the CVEC system, we can build up closer to our neutral, so we don't have to change as many poles for height. When we go on to Dominion, we're going to have to pay a little more, and we're going to have to do more underground. That's also more expensive. So it's going to cost us more per mile. So if you look back at our original numbers, when the CoOp was here, our cost

was significant lower per mile. But still to get off system that's what we have to pay. That's what we got to do. That is why we also are looking for some grant funds. And we're gonna look at it from the Virginia Telecommunications Initiative Program. They have been very good this year to work with. We had an application that should have been, we should have already had one last year, but I disagree with the way they scored that but I feel better this year. We've worked with them much more closely. We're going to be asking for a significant grant. We will all total will be asking for over \$40 million from the state. Right now, they only have 50 million set aside for the state. But I think Friday, you're going to hear that there's a lot more coming. And this is the time to build this. From the county, we're going to ask for some funding. We haven't asked that directly before. We've asked and you've been very gracious and allowing us to get money back as we're paying taxes the first few years. The daddy grant is part of the reason we didn't get a higher grade last year is they want local funding as a part of that. So what we've looked at is \$750 per passing. Comes out to about 1.5 million. If we end up with less passings, we'll probably be asking for a little less money. But you can use the American Rescue Plan Funds for that. I know that there are lots of people and I used to be on the Board of Supervisors for Nelson County. You never have enough money for all the things that people need money for. We've tried really hard to avoid coming and asking for money wherever we can. When we come and ask you for this, and next month, we'll be back with the final number. And ask you, in or out. We'll be glad to show you the details. But I can tell you now that one of our subscribers on average pays about \$70 a month to us. The portion of the bill that we can use to offset our capital costs for the wires pays for about \$5,000 worth of construction. So if you look at 2000 homes, and you assume about a 60% take rate, which is what we're seeing nowadays. That gives you about 1200 and 1200 times 5000 gives you about 6 million. So we can fund about \$6 million, out of the 12 million. We also have some funding from the FCC auction last year. We've got some other things we can draw on. So we can build that up a little more. But we still need about that 4.2 million to break even at 60% take rate. That's what we designed it by. So we'll be glad to show you all those numbers and why that's the right number that we come back to next month. But right now we're looking at about \$2.7 million request to the state, \$1.5 million in local funds. We're going to do this on a regional basis with all the counties together. We're going to run it through the Thomas Jefferson Planning District because they have the most counties in it. But a Planning District is better to run it through than any one county when there's so many involved. And here's the timeline for it. Next month, we'll come back and ask you if you want to be in this regional project this year. We need to have resolutions in place for the September 14 body application date. So you either need to be in or out for that application. That doesn't mean this is the final time if you decide right now it's not the time or we don't have funding or those types of things. We can look, there's an infrastructure bill come through the federal government that may give some other opportunities. Whenever you put it off, though, you're not sure what you get. We know what we have this time. And by September, we'll know how much funding they have at the state. Again, I feel good about our scoring on this one. In December, the state will announce those awards. The Dominion, because we're going through their program has to file for approval to build on their lines with the State Corporation Commission. They plan on doing that they tell us in January or February, and they'll use what we're building into this grant application to justify

that its unserved areas and the things that they need to show the commission. So that adds a little more time into the process. That's why we won't be able to start construction till sometime mid next year, because the Dominion really will need to start the construction on their lines. And that means for them, they come and get separate easements, they do make ready work, and then they put contractors on it and build the fiber. And then we'll come in after that and do our construction. So generally, you can assume from time you start in an area about 6 months until the first connections are made. So our final schedule will be built somewhat on the Dominion schedule. And when they and hopefully next month, I'll get them here. We hadn't planned this far enough in advance. So I didn't ask them to come by. But we've been in close contact with them. They've been a good partner all the way through this. Real quick, this is this is not meant for marketing. It's meant to answer questions. But everything else about off system will look just like on system. Same rates. We stay under \$50 for a basic package of 100 megabit service, 49.99. 79.99 for gigabit service. We do offer telephone, if you bundle that with the internet, it's about 30 bucks. No contracts, no data caps, no slowdowns, no charge for the router, no connection fee. We'll go up to half a mile to your house. That's a little different. When you're on the CVEC system, we'll go wherever. We don't have a limit. When we get off system, we are going to go 2500 feet, half mile. And if you're further than that, and you're low and moderate income, we're going to get you connected without being charged. So that's part of our plan. Again, we want to do this right. We want to do it the first time and get everybody on who needs service. And that's almost everybody. It seems like...it's surprising, we only get 60 and 70% take rate. We also only do Internet and Phone. No television. Any of you who have streaming Internet, and there aren't as many in this county, there are lots of options that are similar to cable packages, and you just listed a few of them up here. But you can get all of your things you get on cable. You just get them through different packages. And you can most of them have no contracts. And you can change month to month if you want to try somebody different. And the packages running were from \$20 to \$80 a month versus whatever you pay now for cable, which is why we don't see a need to get in that business. So in Buckingham, one of the things we would like to do and we'll be making some noise this summer, is to define what an unserved location is. We're going to do a lot of field work. We're going to find exactly where the cable stops from Comcast and pick up the next house and include it as unserved. We're going to try to figure out where the phone switches and where CenturyLink has adequate service. We have asked both of them to help us by just telling us what they have served, but they feel like that's proprietary information they didn't want to share. So we're going to do the work where we can. We're also asking people, if they will go to our website, we have a survey where they can identify themselves as unserved. If they have service, like if it's DSL or a phone service, and is supposed to be a certain speed and it's not performing, they can do a speed test and show that and we can use it to justify and make sure they're included in the build out. So the one thing I would ask you to do is just get the word out to get them as many people as possible on our website during the test, do the survey to help build a case for the need for broadband in the rural parts of Buckingham. It's a onetime opportunity. We really have a lot of funding available from the federal level and that's helped. Plus the state has been very generous in increasing the body grants for this year. We feel like now's the time to put the project in place. I wish I could tell you we would build it next week. But building an

infrastructure takes a while. Once it's built, we try build it once, build it right. So that's our project. Firefly is ready to fly. Any questions?

Matthews: Yes, sir. Mr. Wood. We had 2 citizens here that are Dominion Power customers, and they were concerned about the Comcast stuff. So how does that play in for those 2 people back there in the back of the room?

Wood: So the eligible customers for the grant application to receive funding, if Comcast has service available without additional construction costs on the day of our application to that home, it is considered served. We can't get grant funding for it. So this project is about the grant funding and in running the fiber, but when we run the fiber up Route 20. We're gonna run it all the way up Route 20. There are gonna be some homes that are unserved and some that are served. We can only get grant funding for the unserved but our intent is to run the fiber. We've got to run, it's got to be on the power line. We can't stop at this pole and then pick it up at 3 poles and take off again, it's got to be connected. So while I can't guarantee that service will be available everywhere, I can tell you that it's likely there will be most of the county will have service, if we do this project, whether you're served or unserved, you'll have another option. So just because of the nature of the construction. It's not, we're not if we ran into an area, and there's a road in there, 20 Comcast customers on it, and no unserved, we may not go down that road. But if we run along the main road, we've got to run it.

Matthews: So does that answer your question, Mr. and Mrs. England?

England: (not verbatim, speaking from audience with no mic) Comcast stopped probably two doors down from our house. (couldn't hear the rest)

Wood: So yes, our fiber is different than their lines. And we'll run it. It's an entirely separate system, entirely separate network. It'll come off of the Dominion fiber. Dominion will run along their poles, and then drop it down. So they're going to build up close to their powerlines, come down the poles and we'll take off from there and run we're normal telephone lines are and run it out to the homes.

Matthews: I understand 1600 participants now in Firefly?

Wood: We've got a service available to something like 15-1600s my guess. So that would mean we probably got close to 1000 connected, I could get you some actual numbers. These just ballpark.

Matthews: I'm just curious. And is that's just not in District 3. You've going out further in the county the way I'm seeing it, right?

Wood: Right. We're a little further out in some areas. And then with Mount Rush, we'll get a large part of that Western area.

Miles: Mr. Wood, since y'all started the Firefly program in Buckingham, could you start RISE in Buckingham too? Possibly?

Wood: We, I'm going to go back and ride on Dominion a little bit and they're not here. So it's fair. But realistically, because we'll be using their fiber, it'll be partly dependent on where they start. So if you if you look at this big picture, the good news is, oops, I'm going the wrong way. The Dominion is a really big company, with lots of resources. They're going to have a couple major lines, one that goes west from over near Waynesboro and comes down 64, kind of and into Goochland and one that's from Appomattox and comes up to Buckingham and up by Bremono and up through Fluvanna and ties into the other one. I am hopeful, and we've had preliminary discussions, but I am hopeful that they would start at the 3 ends and work which would be, Appomattox really doesn't have much work into it. And then it would come up into Buckingham and on up at the same time that they're working in from Goochland and down from toward Waynesboro, and through Albemarle. They intend to build their entire build out, which will have some other parts of the state with other internet service providers within 2 years of when they start. So they're planning on moving quickly. So we can be hopeful right now and we'll see where it goes. So I'm not asking tonight for any money, but I'm gonna tell you I'm gonna come back next month and ask for some money. So I will tell you, we've got a lot of work to do. If the answer is you're not getting any money, help me and tell me now, so that if I just know that for sure, and I'll do a little less work. But otherwise, I'll come and ask you, and you can tell me next month. All right. Thank you very much. And if you know of anybody, I've had a couple of calls. This is a significant project. And lots of things move. And every once in a while, we'll drop a ball somewhere and have someone that's applied for service and we'll miss. It's not very often. We have a really good success rate. But in the last week, I fielded one in Amherst County, and one down here and one in Fluvanna County that the neighbors had service and we just for different reasons had on the schedule had misplaced them. And so when you call let us know and we are glad to respond to any of those.

Matthews: One other question. I see a lot of the black boxes on the pole. So that tells me that Firefly is right somewhere close by. So does the customer need to contact Central Virginia when you see those boxes, or I thought it was gonna be a door knocker?

Wood: We do mailings. We're doing mailings. We're not putting the door knockers on, we are doing mailings. So when we're in an area, the Mount Rush folks got a letter, all of them probably 2 months ago, saying we're coming. We'll be building. That was a Central Virginia Electric letter, because we're in Central Virginia is building the fiber. Then they'll get a firefly letter that says, here's the packages we sell. Sign up now. And we haven't put other door knockers on, because we're getting a 60 or 70% take

rate. We feel like we're getting the word out. But yes, when you see those boxes, those little plastic boxes on the pole of the splice points that will bring the fiber down and splice into take off services.

Matthews: I haven't heard anything. I'm just trying to get some answers to questions. If you have not heard from them, call the number in Lovingston?

Wood: It's actually better to call Firefly. So the state government will not allow Central Virginia to talk to you about internet service, even though we own the company that sells internet service. So we have to tell you, we can't tell you anything about it. But here's the phone number, you can call Firefly. Then you call Firefly and they are separate employees. We have 25 people in that company now and growing will probably be at 50 by next year. Growing pretty fast. So it's been a successful venture. We're about 9000 connected now. And we have really happy subscribers, which is our goal.

Davis: Those I know that have it really like it.

Wood: Yeah, it should be like your electric service. You don't get home and get excited about having electricity on. You know, it should just be something you expect to have every day and you just pay the bill and go. Alright, by the way, I did forget to mention I've got a couple of staff members, Galen Creekmore from the Electric CoOp and is in charge of a Key Accounts and Legislative Liaison, and Judy Winslow is new with Firefly. I talked about our employees. She just came on board this week. Or last week. She was down at Smithfield where she was working in tourism, economic development for the local government, and we stole her away from the government. A lot of help to sell Firefly ideas. She's a great new addition. So thank you all for coming out. Any other questions?

Allen: You have a Firefly number?

Wood: Firefly is, you dial Firefly1.

Allen: Us folks on the Dominion side, you all you'd be sending us a message before long?

Wood: I will. The guys from Dominion should be here next month and y'all treat them as rough as you want.

Matthews: They are not going to be asking for money too are they?

Wood: They are not. So the way this works for the Dominion piece, they will build the fiber then it's really intended to promote rural broadband. They will lease it to us at a rate similar to what it would cost us to build even though they're much more expensive construction wise. And the rest of their recovery of their costs goes into their electric rates for all customers in the state to help subsidize rural broadband

but then they don't come and ask you for funding. That's where they get their funding. All right. Thank you.

Re: Other Board Matters for Consideration

Matthews: I don't think we have any.

Allen: Yes, I have one. We were talking about earlier we've done some Resolutions of Memoriam. And I'd like to add Donnie Davis and have one for him.

Matthews: Okay, we will do it next time.

Allen: I'll make a motion that we do a resolution for Donnie Davis.

Chambers: Second.

Matthews: We've got a motion and a second to do a resolution for Mr. Donnie Davis. Call for the vote. Yes. Unanimous.

Supervisor Allen moved, Supervisor Chambers seconded and was unanimously carried by the Board to bring back next month a Resolution of Memoriam for Donnie Davis.

Re: County Attorney Matters

Hatten Ferry Update: Thank you Mr. Chairman, Board Members. I have a four items that I want to talk to you tonight. I know the agenda only shows three but you know a lawyer. First I want to give you an update on Hatten Ferry. I've been in communication with what's now become known as to say they Hatten Ferry group. They met in Scottsville on the 29th of June. It consisted of representatives from the Albemarle-Charlottesville Historical Society, Historic Buckingham, the Town of Scottsville, and some former ferryman. They have committed to the project. I understand that the ferry is now on the Buckingham side. I don't really anybody had been down there. This side where they are doing some cleanup, and repainting the signage. They had to...several items that were needed that weren't present and the group is having those parts and pieces remade and purchased. So they are making pretty good progress. They have applied for several grants and are contacting Albemarle and Scottsville folks that might want to contribute to that operation. I am going to try to set up a face to face meeting with a group with me and maybe a few representatives of the county to make sure that their expectations and the County's expectations for the ferry are the same thing. So that's the update I have on the Hatten Ferry situation.

Dillwyn Medical Building Update: Second thing I need to update you on is the Dillwyn medical building. I think the last time we met, we were either close to or we thought that had been recorded. We now know that that property is now in the county's name, which means the county now owns that medical facility in Dillwyn. All the keys have been passed to the county and all items that the previous owner desires have been removed. There are a few items in that building that we do not believe pose any impediment. The county has made a preliminary inspection of the building and they feel it to be in pretty good shape and efforts are underway to have water, sewer and electrical power transferred to the county's name. So that that project is moving forward. And probably by fall, we'll need to be talking about maybe some possibilities.

Quick Deed for Bullock Brothers: The other thing that I'm going to do out of order, you show redistricting as the other item I want to talk to you about. I'm going to skip that and come back to it and talk about something that's not on your agenda. Most of you are for me within the Town of Dillwyn and the industrial park. Now James River is operating a facility there. If you remember if you go back a few years Bullock Brothers was operating that facility and the summer of 2007 to give you a little history the county sold that property it's a little bit over nine acres, to Bullock Brothers. They operated for a while and entered into a lease with James River Equipment and then James River Equipment actually has a land holding company. In that lease they have an option to purchase that particular piece of property. They have now exercised their option. So the good news is that business is going to continue to operate there it appears and but in the transfer when it came to check title search, this lease earlier and not a transfer, the Board back in 2018, I believe it was, and they said to James River and to Bullock Brother saying, Hey, we don't have an objection. We're not going to reserve, we're not going to exercise our right to option to write a first refusal that you put in that date when you sold to Bullock Brothers and has been since 2007, some 14 years almost that business has been going in one form or another. The James River is saying they'd like for us to do something of record to clarify that we don't want to buy it back. And I'm assuming at this point, we probably don't. What I've discussed with the attorney for James River, is that we do what's called a quitclaim deed that says we release any interest we've got on that particular piece of land, particularly the right of first refusal, and y'all can go ahead and carry on like you want to do with that building. So if the board is of the mind to do that, and are prepared to do that, too, without thinking any further about it, I would ask that you authorize the county administrator to sign a quitclaim deed from Buckingham County, to JRE Real Estate LLC, Virginia Limited Liability Company to the holding company for James River Equipment and the County would release that first right of refusal with them so they can close their deal out. We'll submit it to James River Equipment, say you hold us in escrow until your deal closes and then you can use the deal. If the deal doesn't close within 90 days, send it back to us. If you think that's fine, I'd like to have a motion.

Chambers: So moved.

Allen: Second

Matthews: We have motion and a second. Call for vote to approve that. Unanimous.

Supervisor Chambers moved, Supervisor Allen seconded and was unanimously carried by the Board to approve a quitclaim deed for the Bullock Brother property and authorize the County Administrator to sign such documents.

Redistricting: The final item that will take a little bit more time. And I think you probably found at your desk a couple page document from me talking about redistricting process. That's gonna reflect a little bit of what I'm going to talk about tonight. But I'm not asking you to do anything on that topic tonight. But I am asking that you come prepared to take some type of action at the August meeting, because we've got to have this completed by the end of this year. And the census figures are slow coming in. And I talked to Mr. Shumaker, and some other sources. And it appears that we will not have those census figures till sometime the latter part of September, which really puts us up into a short timeframe. Jamie Shumaker has already started working on configuring the census blocks and having those ready. So when we get that census information, we'll be able to populate that and get a jump on this thing. There needs to be some preliminary work done that would make it helpful so when items do show up, we'll be able to move very quickly. I think the first thing the board really needs to think about, are we gonna do this in house? For the past two times we have done it in house. That means our staff, in conjunction with a board and conjunction with some other people in the community have done the redistricting for the past two times. It's done, you know, based on the census figures for the past 20 years. The county has been at work and we think the staff has done a good job with it and we've not had any real difficulties with it. So that's the first thing I'm gonna ask you to decide when you come back in August. Are we going to do this in house or are we going source it out?

Chambers: Before, I was on a committee twice, and it was in house and worked real good because different parties had a part in making, you know, deciding the district and lines. So the people you got your name, I think that's a good thing.

Wright: The closer you are to it and this board and other members of the community are close to it so they understand it. Also, it's a little quicker. If you source it out, with the procurement process just to get somebody to do is going to tie it down. We're really gonna have to scramble to get that done. I think in house, it will work pretty well. Second thing that asked me to do in August is establish what's called a redistricting committee. That's actually the committee that will sort out everything and finally make a recommendation back to the board to adopt the ordinance of redistricting. In 2010-11, the members of that committee were the entire Board of Supervisors, the chairman, president of the Democratic Party, the chairman, President, the Republican Party and the chairman, president of the NAACP, the chairman president Buckingham Voters League, the chairman the Buckingham County School Board because since the school board's elected, they're impacted by the district part of it too. So that's simply all that is

a guideline of who we had before to see if you want to add people to it, take people off of it. Adjust whatever. So that's by way of information. But I would ask that that committee be established at the August meeting. And if you're in agreement with that, don't need to do anything. But if you would help the county administrator and I, if you got some other ideas, shoot us an email, give us a phone call, do whatever but and that was a list we used last time. The third thing I would ask you to do when we come back together in August is establish a working group. Now you say wait a minute, we've got this committee, but this working group is the nuts and bolts. They get it done so when you get together as a committee, they got the stuff to put up there. Now in other words, you've got something to look at. They get you the information ahead of time so you talk about variations. So I think that working group last time, it consisted of the county administrator, the planning and zoning administrator, the technology manager, the E911 coordinator, the registrar, and myself and the county administrator's administrative assistant. That's a good group, and they would be able to each one will have a little different liaison, and Jennifer has the toughest job. She has to keep track of all of it. So what I'd ask you to consider naming that group. The others you want to do, again suggest that, shoot us an email, give us a phone call. But that's what you did last time. So I'd ask next time, when we come back to that you say this is gonna be the working group, the people who are going to be involved in doing the nuts and bolts and will actually bring to the redistricting committee. I'm not going to read these out, but generally, you adopt certain guidelines that you want to employ as you go through the redistricting thing. Those seven items that are listed are the general guidelines and parameters legally, you probably have to operate in. So I probably would say that we could do that in August or September, that the notion is to put something out there so the committee knows what they need to be thinking about. Sort of broad parameters that need to be involved in the redistricting. So I'd ask that you, if appropriate, you give some consideration to that when we come back in August, so that we can add that and when we get the committee together, we'll be able to tell them, hey, these are the guidelines. The final thing is, you know, I'm not gonna be like Mr. Wood, I'm here asking you to think about money. But I'll be asking you to appropriate next month too. There will be some expense. We generally have the software pretty well in place to do that. We already that's part of what we do have in house already. So that last time was a fairly large expense to get that software up and running. But that software is serving multiple purposes. It's used through planning and zoning. It's used somewhat with emergency services. So we've got that software, but I'm asking you to consider appropriating up to \$20,000. Now you see why that. This is gonna be such a tight timeframe that probably some of these people who are going to work really hard, are gonna be putting in more hours than a normal workday. It'll be at a meeting, if you have a committee meeting at night. They're gonna be there. So there may be a little overtime involved, there may be some fact checking done by other things that we need a little money. So I don't think we'll spend that \$20,000. But I'd like to think that we might have that available if we need it. And that could come out of the ending year balance. We think there's enough cushion in there to allow that. We don't think we'll use at all. That's something I'd like for you to do in August. That's the highlights. I've given you that sheet of paper so you'll have a chance to so take a look at. To outsource would cost more than what I expect we would spend doing it

in house for. I'll be happy to try to answer any questions you might have about any of the topics I've talked about tonight. I didn't mean to take so much time but I appreciate your attention. Thank you.

Re: County Administrator's Report

Carter: Personnel Committee Report: Mr. Chairman, under separate cover, I have provided you a Personnel Committee report. You should have that. If you agree with everything in the committee's report, you don't need to take any action. But if you do want to change something, or talk about it, I would suggest we go into Executive Session to talk about personnel matters.

Update on Grant and Funding Status: The second thing on my report is an update on the grant funding status. As you know before Mrs. Carter retired one of the things she was working on very hard was getting that Dominion grant to us. That \$1.5 million for Emergency Services. I'm happy to report that money did come in. So we do have that in our account right now. The other thing that's been talked about a lot tonight is the recovery money that came from the federal government. We've received half of that. So we got about \$1.6, as half. The total we're going to get us \$3.3 million. So we've gotten that money in so far. So those are good things. And remembering that in the spring, we did put those figures in our budget. So we will not have to have a public hearing to adjust our budget by those amounts, because it's already built into our budget for next year or this current year. Another thing, I have on the agenda, remember last month, Davenport and Company came and talked to you about the refinancing of the library/community center. I'm just going to remind you those bonds are being sold on the 21st. So next month, we will have some numbers for you. But I don't want to jinx it, but the guy told me today that so far, the estimates are coming in better than they told us last month. So hoping to stay on that trend and we'll have more savings to report to you next month.

Matthews: I got a question for you, Mr. Carter. What about some of these funding situations that we got going on right now? Do we need to address those through the finance committee? Or how does that I mean, moving forward? What do you think we need to do?

Carter: Yes, sir. By you suggesting using the Finance Committee for these things, it'd be a great idea, because you're gonna have a lot of people coming and asking for funds as you can tell, just by tonight. One of the things I want to talk to you about under the other board matters, was a Mr. Bryan couldn't be here tonight, but he sent me an email wanted you guys to look at possibly looking at getting another rescue squad vehicle using some of these funds. So we can also send that to the Finance Committee, if you wish, or we can talk about it now. However you guys want to do that?

Matthews: We have an emergency management meeting sometime. Is it this week or?

Carter: Friday.

Matthews: Friday. Danny and I could talk about that Friday, if you'd like to at the committee meeting. We'll talk about that. And then decide what avenue we want to take and get Cody to kind of give us an update on that.

Carter: I think Mr. Davis said, you know, they try to get this in because the 5% increase that's coming up soon.

Miles: And on that note, Mr. Chairman, I know that with that we've got to decide how to spend the money. I know that I've talked to Mr. Carter about this, I'd like to see us put maybe do one final round of small business aid relief. Those, you know, for those who haven't taken any of the funds or who weren't eligible then. And if they've gotten small business aid through us in the past, they'd be ineligible, but maybe we could take roughly \$120,000 and help some of these small businesses out who are having trouble hiring people, maybe they could use that money for a hiring sign on bonus, and things of that nature to get more people employed.

Carter: In my research with these American Rescue Recovery Funds that is one of the permitted uses is small business. We can do that again this time.

Miles: I'd like us to look into that as well.

Matthews: Would you like to set a date for the Finance Committee to meet with you on these other issues.

Carter: The Finance Committee is you and Mr. Miles. So let me know when you guys are available and I'll send out an email.

Davis: Can we use any of those funds to help, but the lady that asked us while ago, would that be possible Karl? The \$24,100?

Carter: It's gotta be COVID related. So yeah, I wrote down on my notes to ask her was that funding cut short because of COVID? If it was cut short because of COVID then yes, that's a possibility.

Matthews: Was it Ms. Wallace?

Wallace: No, I would love to say it was but it was not.

Matthews: There's some other options that we're, you know, we're on committee to for some grant money that may be coming available if we can get it to work. So I think there's so several options that

we're going to look at Mrs. Wallace before we end up with the final decision on that. Anything else, Mr. Carter?

Carter: No, sir.

Re: Informational Items

Matthews: The next item is informational items and they are in your board packet.

Re: Other Board Matters

Matthews: The next item is R which is Other Board Matters. Would you like for Mr. Davis to give a little update on Emergency Services or do we need to talk about that, Mr. Davis? Just brief and then because we're going to be meeting on Friday. We've had a couple of new hires.

Davis: Yes, sir. So we did. It's one of the items in your agenda, go ahead and interview and make an offer that was accepted for the Emergency Management, the 911 Coordinator position. I feel like the person we chose is an ace in the hole and is going to really support the overall goal of the group. And we begin our interviews for the EMS providers this Friday. We will have to interview 30 to 40, folks. So that's going to be a big lift, no doubt. But the applicants are there, I'm happy to report. To be able to be a little choosy with who we hire, which is good. So I'm excited about that. And then as for the squad thing, I guess, to go on public record saying, you know, we inherited a number of vehicles from the volunteer group. The newest one was a 2014, the oldest the 2004. With the wear and tear, we put on the ambulance out here, you get past 5 years and they start to nickel and dime you. You run the risk of patient care being delayed or you know, amidst transport something happening. And we were seeing that a lot with the old units. Those 2 new units that we have, we're using them a lot. They are 2 of our 3 frontline pieces. And I think I stated in an earlier board meeting, you can tell that third crew that has to still operate out of one of those older trucks, you know, they're constantly swapping out because their truck has a new issue popping up. So really, that a third unit would really kind of in terms of vehicle fleet, just bring this up to the starting point up to par that we really want to be at. So we can then from there embody something like what the bus garage does, or what the sheriff's office does with, you know, just a frequent turnover of vehicles to make sure that we're not running things that are not safe. That's where that idea is coming from. And I guess we kind of figured the getting's good right now. More or less. June, \$65,000, in revenue recovery, after the \$112,000 in the previous month. So we're fine. It's good there. Feeling good about that. Glenmore station is on track to be done within the next couple of months. They should be moving from the old part into the new part in the next week or 2. And then the old part can be remodeled. Small set back, the overhead doors that are on order will not be in until mid-September. That's across the board. We've consulted with multiple overhead door companies. It's just one of those issues right now that you know, because of COVID, I guess, similar to the reason why

they're doing that commodity surcharge on the ambulances. Other than that, that station will be all that we're hoping it'll be. We'll just have to wait a little while before putting things into that new part of the bay because we won't be able to secure it. Any questions? Thank you for all your support and wish the Emergency Services Committee luck as we work through 30 to 40 interviews.

Matthews: When is the truck pull?

Davis: July 24.

Matthews: Just want to make that announcement. There is going to be another fundraising truck pull for the fire departments in the county on July the 24th. So come out and have a good time. It's for a good cause. That's all the other board matters.

Re: Executive Closed Session

Matthews: There is no executive closed session.

Re: Adjournment/Recess

Carter: Mr. Chairman, I got something I need to add here. Mr. Wright just informed me of an email we received tonight. Those bond closes on July 21. We just got an email saying they're gonna need some signatures from you guys by Monday, July 26. So I'm asking if you can recess to reconvene and have another meeting on the 26th to get this stuff back to VRA.

Matthews: For the 26th? So no executive closed session, so we're going to make it have a motion made to reconvene on July the 26th at 6pm.

Miles: I so move that we recess to reconvene on July 26 at 6pm.

Chambers: Second.

Matthews: I have a motion and a second. Can we call for the vote? All in favor? Yes. Unanimous to reconvene on the 26th. Alright, so if nothing else meeting is recessed.

ATTEST:

Karl Carter, County Administrator

Donald R. Matthews, Jr., Chairman

**Buckingham County
Board of Supervisors
July 26, 2021
Reconvened Meeting**

At a reconvened meeting of the Buckingham County Board of Supervisors held on Monday, July 26, 2021 at 6:00 p.m. in the Peter Francisco Auditorium of the Buckingham County Administration Complex, the following members were present: Donald R. Matthews, Jr., Chairman; T. Jordan Miles, III, Vice-Chairman; Dennis Davis; Harry W. Bryant, Jr.; Joe N. Chambers, Jr.; and Danny R. Allen. Donald E. Bryan was absent. Also present were Karl R. Carter, County Administrator, Jamie Shumaker, IT Manager and E.M. Wright, Jr., County Attorney.

Re: Call to Order

Chairman Matthews called the meeting to order.

Re: Establishment of a Quorum

Chairman Matthews certified there was a quorum. 6 of seven members were present and the meeting could continue.

Re: Invocation and Pledge of Allegiance

Supervisor Chambers gave the invocation and the Pledge of Allegiance was said by all who were in attendance.

Re: Approval of Agenda

Matthews: Approval of Agenda.

Allen: So moved.

Miles: Second, Mr. Chairman.

Matthews: We have a motion and a second. Let's call for the vote. Unanimous.

Supervisor Allen moved, Vice Chairman Miles seconded and was unanimously carried by the Board to approve the agenda as presented.

Re: Refinancing Bond Sale Update and Request for County Attorney, Board Chairman and County Administrator be authorized to sign required documents

Matthews: So the first item on the agenda is going to be refinancing bond sale update and request with the county attorney, board chairman and county administrator to be authorized to sign required documents. Karl, you want to take care of this?

Carter: Yes, sir, Mr. Chairman. In your packet tonight, you should have the results of our VRA bond document sale that happened on the 21st. You know, we've been waiting on this report for a while to see how good the bonds did because you know when we started this process, we had to estimate, hope and pray that the rates were continuing to go down with time and I'm happy to report tonight that they did and this bond sale turned a lot better than we thought it could be. The goals we set for this refinancing of where we want the interest rate to be was less than 2.5. The interest rate came in at 1.87. We wanted to save at least \$200,000. I'm happy to report with this refinance, we will save \$576,000. And we also wanted to make sure the maturity rate didn't increase. So the same end date is what we had before. So we didn't increase the length of the loan at all. Another thing that is refinancing data is it locked in the rate for the remaining portion of the loan. So previous loan it reset in 2034. So with that reset rate, it could be, you know, there's uncertainty. With this right now we're locked in for the entire 17 years to 2038. On the second page, I just put this together showing you what the current loan amounts are and the parameters that we have kind of set ahead of time, which once again, we want the rate be less than 2.5%. We want the maturity date still be 2039. And we wanted \$200,000 savings. Back in around June, they estimated that the VRA rates in that time were estimated 2.17. So you can see our estimate back in June is not even close to where it is now. So it was estimated 2.17. We dropped to 1.87. And you can see we've estimated before \$415,000 and the final numbers are \$576,000. Which if you take that by 17 years, you are talking about \$32,000 a year in savings that we're going to accomplish on this refinance. And so this is very positive news. Very good news. It's one of those things that we roll the dice and hope it was going to be a better rate and it turned out a lot better rate than we ever expected. So I'm just asking you guys tonight to allow the chairman, myself and county attorney to sign the required documents to get this refinancing done.

Matthews: One thing before we do that, I just want to take this time and tell you, Karl, I think that's a great job. You've done a wonderful job. And I think the sentiments from the rest of the board were echoed by me. But I just want to tell you, thank you. Good job.

Miles: I move, Mr. Chairman, that we authorize the county attorney, Board Chairman, and the county administrator to sign the required documents.

Allen: Second.

Matthews: We have a motion and a second to allow county attorney, county administrator and the chairman of the board to sign those documents. Call for the vote.

Vice Chairman Miles moved, Supervisor Allen seconded and was unanimously carried by the Board to authorize the County Attorney, County Administrator and Board Chairman to sign the documents for the library refinancing.

Re: Finance Committee Update and Recommendation

Matthews: Okay, the Finance Committee update and recommendation

Carter: I'll take that one too, Mr. Chairman. At our last meeting, we had the Board Supervisors instructed finance committee to look into three possible options. The first was to look at the extension office position that Mrs. Wallace came and presented to you about funding that position for the end of the fiscal year. The second was to look at the possibility to purchase a rescue squad vehicle with American Recovery funds. And the third was to find out more information about the possibility of participating in a regional cigarette tax program.

First one is the extension office position. The finance committee met and it was the recommendation of the finance committee to fund that. Let me go back a step. Mrs. Wallace came to you guys, you know, they wanted \$24,700. But she said they could get by with 13,000 for the rest of this fiscal year. It was the Finance Committee recommendation to fund that position \$15,000 for the remainder of the fiscal year, which would give them time to look at grant funding and other opportunities for funding for our position, and also decide if they want to keep that position on not. Because I think one of the things she mentioned, you know, that position, that person in that position might apply for a different position. So there might be some shuffling around going on there. So, the recommendation was to fund it through the end of the fiscal year. And once again, you can always look at that again in budget time in spring, but the Finance Committee recognizes that funded, that's a big increase with one department. And I think Mrs. Wallace also told you that you know, that \$24,000 was only for three quarters of the year. So if you did it again, for next year, it would be like additional about \$12,000 increase on top of the 24. But that was the first recommendation.

Second recommendation finance committee was to...

Allen: You want to go ahead and make a motion to get that behind us.

Matthews: Can I ask the question too? And I think we're doing the right thing on that. But can you draft a letter to her letting her know that funding is going to be just for this fiscal year.

Carter: We will. I'll get her a letter.

Allen: Did you want to make a motion to...

Davis: Second.

Matthews: Okay. We got a motion and a second on the request from the extension office for funding that position for the remainder of the fiscal year. Call for the vote. That's six Yes. And one absent.

Supervisor Allen moved, Supervisor Davis seconded and was unanimously carried by the Board to approve the request for \$15,000 funding for the Extension Office position for the remainder of this current fiscal year.

Carter: The second item we were tasked with was looking at the possibility to purchase a new EMS squad vehicle with American Recovery Funds. It was a recommendation of the Finance Committee at this time not to purchase that vehicle right now. So factors that led to that decision was the EMS director told us that you know that vehicle is not a priority right now. That they might have some more capital projects they might need to get taken care of. So with the recent purchase of two new vehicles, he didn't think it was a pressing issue at this time. So what we can do, we can always go back and revisit that issue later. Another thing with that recommendation is those American Recovery funds are something that is very new and fluid right now. So we're still getting direction and instruction on how to spend those funds. What we can spend them on. We just got a letter or memo from the state just last week, as a matter of fact, saying what those funds can be spent on so it's kind of new to us right now. We are learning what we can and cannot spend that money on. So we don't want to get our hands slapped for spending for something that we can't and we shouldn't be spending on and then later having to pay that money back. So, as we continue to learn more about the guidelines on spending, we will get that more information back to you guys. But right now for the squad vehicle itself, we decided not to, the recommendation from the Finance Committee was not to proceed at this time.

Matthews: Just a little bit more to what Karl just said, in case, you know, this money is being able to be spent through 2024? So if we needed another squad vehicle between now and 2024, if we got pressed that we weren't being able to use that money, the way we want to, we could always at some point between now in 2024, buy another one if we thought we needed to do that. But we can refer that to Mr. Davis, the Director of EMS. Can we have a motion on this particular item on the agenda?

Allen: You don't need to.

Carter: We didn't take any action.

Carter: Yes, sir. And the final thing the finance committee was tasked with doing was looking at the regional approach with cigarette tax. We're going to punt on that one because we're still learning information on that. We had a webinar today that me, the chairman and Mr. Miles attended and based on that webinar today, there's still a lot of unanswered questions. That webinar didn't go very well today. So we're gonna continue trying to get more information and bring back to the full board on that.

Re: Consider accepting resignation of Frank Knott from the Piedmont Regional Jail Authority Board and consider an appointment of a representative to this Board

Matthews: The next item is G. Consider accepting resignation of Frank Knott from Piedmont Regional Jail Authority Board and consider an appointment of a representative to this board.

Allen: So moved.

Miles: Second, Mr. Chairman, the resignation.

Matthews: Are you ready to have somebody tonight?

Miles: Not yet?

Matthews: Not yet. Okay. So we'll go ahead and vote on this to accept Mr. Knott's resignation.

Carter: And, Mr. Chairman, if it's the consensus of the Board, I'd like to write him a letter of appreciation for his service.

Matthews: Oh, yes, sir. Absolutely. Thank you. Thank you for remembering that Mr. Carter. Okay. This six and one absent in favor.

Supervisor Allen moved, Vice Chairman Miles seconded and was unanimously carried by the Board to accept the resignation of Frank Knott from the Piedmont Regional Authority Board as representative for Buckingham County and it was the consensus of the Board to send Mr. Knott a letter of appreciation for his service.

Re: Consider accepting resignation of Martha Holman from the Crossroads Community Service Board and Consider appointment of Betty Zumbro in her place

Matthews: Next item is going to be consider accepting resignation of Martha Holman from the Crossroads Community Service Board and Consider Appointment of Betty Zumbro in her place.

Miles: I would move that, Mr. Chairman, accepting the resignation of Mrs. Holman and then replacing Mrs. Holman with Mrs. Zumbro. Mrs. Holman has resigned due to family issues. Her father's health is declining somewhat and Mrs. Zumbro who is a retired psychiatrist has interest in representing the county as the citizen representative.

Allen: Should there be two different motions or just one? One to accept and one to appoint? Whatever y'all think I'm just...

Matthews: So we'll take the motion on accepting Ms. Holman's resignation first. Call for the vote.

Vice Chairman Miles moved, Supervisor Bryant seconded and was unanimously carried by the Board to accept the resignation of Marth Holman from the Crossroads Community Services Board.

Matthews: Okay, now we will take a motion on the appointment of Mrs. Betty Zumbro to replace Mrs. Holman.

Miles: So moved, Mr. Chairman.

Allen: Second.

Matthews: We have a motion and a second. Call for the vote. Six in favor and one absent.

Vice Chairman Miles moved, Supervisor Allen seconded and was unanimously carried by the Board to appoint Betty Zumbro as Buckingham County Citizens representative to the Crossroads Services Board.

Re: Other Board Matters

Matthews: We have other board matters. One thing. Going back to the financial committee, Finance Committee. We've been in discussions with a couple different things on that particular committee and one was with Central Virginia Electric CoOp and I'm on that, Mr. Carter take that over and kind of fill us in on what transpired today. A little bit.

Carter: Yes. One of the things with the finance committee was tasked with, we at the direction of the chairman decided to talk about and discuss the possibility of that \$1.5 million that Mr. Gary Wood presented to you last board meeting about the county giving \$1.5 million to expand broadband within the county using the Dominion, customers that had Dominion power. So we had a meeting today, a zoom call with Mr. Wood. He's going to get us more information. We have some questions about what area of the county is being served now versus what will be served if we approved this grant. We also

wanted to know, there's some, Mr. Miles sent me an email today as a matter of fact. There's some other pots of money coming down the pipe from possibly from Virginia from the governor. So if that money is going to come through, we don't want to use our American Recovery funds on broadband when the government might be giving us money for infrastructure regardless. So Mr. Wood is gonna come back to you guys at the August meeting. He's going to probably ask you guys for a pledge saying, you know, we're going to think about doing this. He don't need to check yet, but he's going to want you to say whether you're in and out of this project. So between now and then, the Finance Committee, I'm sure we will meet again with Mr. Wood and his staff to get some more details for your meeting. So between now and August, you will have more information to decide if you will make a decision on that. That 1.5 is roughly half of what we get from the federal government for American Recovery funds. So it's a big chunk of change to fork over. I mean, it is going to be good for the county and citizens to get broadband to underserved areas, unserved areas but I guess it's a possibility we need to look at and make sure we're using the right pot of money to fund this project. If you decide to do that.

Matthews: I'm gonna give a little bit more information to right now. I mean, there was a couple numbers thrown out there today. I think its 3600 customers or 3800 customers that are not that are not in service right now for Wi Fi. And I think what was the other, the cost to that per customer was \$750 to install that. So you know, I think the thing is, the urgency is they just want to know if we're gonna be at the...to have a seat at the table. I think the funding will eventually be there. Just like Mr. Carter just said, we got a couple different ways to go with this. So but, you know, you don't want to miss this opportunity I don't think and, but we'll have we'll have more information coming down the pike too.

Chambers: Does the Finance Committee have an idea of what kind of figure you are talking about?

Carter: \$1.5 million.

Miles: And there's a chance, Mr. Chairman, as I know, most of us want to hear that. But there's a chance that there could be money in the infrastructure deal that's kind of in the senate right now and in the US Senate, in terms of getting that through the House of Representatives up in Washington, and that money does have broadband money in it. So if that progresses, maybe we won't have to use the monies that we've been pointing to. But that all depends ... it's all contingent on their progress.

Carter: Whichever route we go, we want to make sure we use those federal funds that are coming to us. We don't want to use local taxpayer dollars.

Allen: I mean, did he did he say why he needed the extra 1.5 million? I mean, he was doing this in the beginning, and then all of a sudden now needs \$1.5 from us. I know he's trying to get to people that we don't have.

Carter: In the first round that we did for him. It was like, you know, tax abatement we did for him. We didn't collect on the new taxes. The machinery and tools tax. We didn't do anything with that. This... why he needs the money because this is Dominion lines now. So he's gonna need costs to help offset some of his costs. And that's why he needs extra cash just have not just a pledge from the county.

Miles: And Mr. Chairman, just to add to that Supervisor Allen. The cost is about double, is what we heard today, just because they're not CVEC lines. They are Dominion infrastructure. So that just adds to everything in the end that that take rates also about double just because of the construction costs.

Allen: Yeah, he was saying 12 million, and then he was saying they could get back about 6 million to pay it itself. And they just want us to give them \$1.5 million to help them. But at same time, he said that the people in the county make calls into their department and let them know that they do not have internet service at all or they have a small internet service, which is like less than 25 or 25 megabytes and then they can get grants. That will help them get more grants to help with this thing. So somehow another we need to put that out more for people in our area. Anyway, just a thought.

Matthews: I guess we'll just once we talk to Mr. Wood or get those figures from Mr. Wood, we will have more knowledge and the board will have more knowledge to do what you need to do to move forward and finance committee will meet on that too, prior to our next meeting, probably. One other thing under other board matters. We have, Miss Joanne Meeks. She has a little issue in her district. And I'm just gonna let her explain it to you so and not anything...we're not going to commit to. But I think it's something that the board needs to know about moving forward. So she's in Mr. Davis's district. So anyway.

Meeks: I just want to say thanks. You were praying. I mean, it just blew me away when you're praying before your meeting. So I knew I came to the right place tonight. So anyway, I've been pretty much living out of my suitcase for six weeks now, because I'm trying to close on the house on Forest Road, which is in Georgia Creek subdivision, by the way, doesn't have very good internet service. And the problem I'm having is, I can't get anybody to take ownership of the road. Because it's, it's been down there for a while. But it's got two new homes down there, and one of them is mine. So I'm trying to ask the board, if they would approve, to VDOT to come down and help service the road so my house can close otherwise, I don't know what else to do. The two people that are down there now, though, the originals have been there for over 10 years, they didn't have this issue. And they won't sign a road maintenance contract. Because they're mad at VDOT and they're mad at Buckingham, because they've called several times trying to get help, and no one will help them. So I went I went down today to ask what you come and support me. No, they're not going to do anything. And so I'm just here, asking you all for help. Because I need to close on my home and I want to be a citizen of Buckingham. This sounds pretty good.

Chambers: We had this problem before Mr. Chairman. But it went back on the landowner. I think they wanted to put the subdivision in. I thought the responsibility fell on him to keep the road up. Like a house, you know, developer. He is supposed to be responsible for fixing your road.

Matthews: That's the quandary that she's in. Same thing you're talking about? You know, I guess ...

Chambers: That's the same road we had the problem with before. Forest Hill?

Meeks: Forest Road.

Chambers: Forest Road. That's the first one right?

Meeks: It's a Forest Pass down there. But that got paved. And it's got about the same homes that's on the on the road that I'm on. This one is Forest Road.

Chambers: If my memory serves me correctly, wasn't that Forest Road that we had that problem before? I think it was Forest Road. It was in my district at the time but it got switched and then put in Mr. Davis' district. It was bad. It was no doubt about it.

Meeks: And yeah, I mean, if you could come to an agreement with they would...

Matthews: Well, you know, we don't mind talking to them. I mean, letting VDOT know what the deal is, but we don't have any control over accepting or turning down or approving anything that they do. That's an entirely different scenario. We understand your position and, you know, we'll do anything we can do to help but I think the next move is going to be talking to the developer like we talked this afternoon. Jeff Davidson?

Meeks: J.T. Helms. Maybe to get him going, if you all would say we agree that this road would need to be developed through VDOT. Can't be tomorrow but it could be in a year. That way it would give him some kind of...

Chambers: Depends on the money.

Matthews: I got a suggestion. You know, our Zoning and Planning Director is in here this afternoon. And I've talked to her earlier today and would you be opposed to helping this let young lady out, Mrs. Edmondston?

Edmondston: I don't have any problem helping her. (couldn't hear the rest not at mic)

Matthews: It's up to you when you have chance. Mrs. Edmondston.

Chambers: Ma'am, I'm asking the board a question. Can we put a stronger teeth in our ordinance that require the developer to maintain those roads? Subdivision ordinance. For the developer to keep the roads up, you know.

Davis: This is gonna be back as an issue again. If we're not making him develop...I know Coles Creek where I live at, they have a homeowners association. All of them have to take sign a thing. But then when you buy in there, that's part of the road maintenance. It's all on you.

Matthews: Yeah, I agree with you. And I don't think this is the only place in the county that this is happening. So I think for the future, it would be wise for us to look at an ordinance to protect the land owners when they buy into a subdivision like this. And I think Mrs. Edmondston has already looked into that a little bit. And she's gonna have some information for us, but it's gonna probably need to go through the Planning Commission first, before that happens.

Miles: Are you in a homeowner's association ma'am?

Meeks: No, I'm not, because what I was told today was that property was older. The original owner made it public. And they thought that one road was public, because houses were already there. And when he built, I have a thing from VDOT that says it's private, and he's the owner of the road. They didn't realize that you'd have to put in a maintenance agreement, because I'm going through USDA and they want it and I can understand why.

Matthews: Who is the old owner? I mean, is that Jeff?

Meeks: Yeah. JT. What the document, I can show her.

Matthews: Okay. All right. As long as you have that, and she probably need to see that.

Meeks: Okay. All right. Thank you.

Re: Executive Closed Session

Matthews: Alright, we're going to move on to Item J, which is Executive Closed Session.

Miles: Yes, Mr. Chairman, I would move that the Board of Supervisors enter into executive closed session for the purposes of discussion, consideration, or interviews of prospective candidates for employment assignment, appointment promotion, performance, demotion, salaries, disciplining or

resignation of specific public officers, appointees, or employees of any public body and evaluation of performance of departments based on the Code of Virginia, Section 2.2-3711.A.1.

Allen: second.

Matthews: All right, we have a motion and a second. Call for the vote.

Vice Chairman Miles moved, Supervisor Allen seconded and was unanimously carried by the Board to enter into Executive Closed Session under the above stated Code.

Re: Return to Regular Session and Certification

Miles: Yes, sir. Mr. Chairman, I would move that the Board of Supervisors now return to open session and certification that to the best of each board members knowledge only business matters related to the Codes of Virginia, of which the executive closed session meeting was convened was discussed or considered in the closed executive session, sir.

Chambers: Second

Matthews: Call for the vote.

Vice Chairman Miles moved, Supervisor Chambers seconded and was unanimously carried by the Board to return to regular open session and certify that to the best of each board members knowledge only business matters related to the Codes of Virginia, of which the executive closed session meeting was convened was discussed or considered in the closed executive session.

Re: Adjournment

Matthews: All right. We're gonna adjourn. Have a good evening.

There being no further business to discuss, Chairman Matthews declared the meeting adjourned.

ATTEST:

Karl Carter, County Administrator

Donald R. Matthews, Jr., Chairman

Resolution in Memoriam Donald Matthew (Donnie) Davis

Whereas, Donald Matthew (Donnie) Davis departed this life on June 28, 2021 at the age of 80 years young.

Whereas, Donald Matthew (Donnie) Davis was born on November 9, 1940.

Whereas, Donald Matthew (Donnie) Davis was the son of the late Roy and Louise Hardiman Davis.

Whereas, Donald Matthew (Donnie) Davis was preceded in death by his wife, Shirley Wharam Davis; his brother James "Jimmy" Davis and niece, Angela Davis Danley.

Whereas, Donald Matthew (Donnie) Davis is survived by a daughter, Denise Smith and husband, Hayden; a son, Daniel Davis and wife, Teresa; four grandchildren, Matthew and Bryson Davis, Derick and Travis Hicks, and one great grandchild, Rhett Hicks; brother Charles (Dick) Davis; sister Hilda Griggs and aunt, Mildred H. Pearson; and girlfriend Margaret (Peggy) Everts; along with many nieces, nephews, and friends.

Whereas, Donald Matthew (Donnie) Davis was known for his lifelong love of his community and sports.

Whereas, Donald Matthew (Donnie) Davis was the Recreation Director for Buckingham County from approximately 1976 to 1997.

Whereas, Donald Matthew (Donnie) Davis was known for his generosity, and his love and support for youth sports where he would make sure the kids that wanted to play had a way to get there for practices and games even if he had to take them himself. Even after losing his sight in 1995, Donnie continued to be active in the sports world.

Whereas, Donald Matthew (Donnie) Davis was a gentle soul who never met a stranger and would help anyone he could.

Whereas, Donald Matthew (Donnie) Davis was a longtime member of the Buckingham County Youth League.

Whereas, Donald Matthew (Donnie) Davis was known for his hard work, sense of community, love of his family, his generosity and kindness to all.

Whereas, Donald Matthew (Donnie) Davis was a pillar to the community and was loved and respected by all who knew him and will be greatly missed.

NOW, THEREFORE, BE IT RESOLVED, that the Buckingham County Board of Supervisors does, in memoriam on this 9th day of August, 2021, pay tribute to and express it's highest esteem for Donald Matthew (Donnie) Davis and extends its deepest sympathy to his family and loved ones.

Date: August 9, 2021
To: Buckingham County
Board of Supervisors
From: Nicci Edmondston, Zoning Administrator
Re: Public Hearing Case 21-ZMA283

Owner/Applicant: Landowner Wayne Beasley
818 Embleys Gap Road
Roseland, VA 22937

Applicant Shelley Mays-Couch
P O Box 37
Farmville, VA 23901

Property Information: Tax Map 196, Parcel 30A, containing approximately 1.65 acres, located at 3875 S James Madison Highway Farmville, VA 23901 (Route 15) Curdsville Magisterial District.

Zoning District: Agricultural District (A-1)

Request: Zoning Map Amendment-Mrs. Mays-Couch is asking the Board of Supervisors to recommend a Public Hearing Date to hear the Request for Rezoning from Agricultural A1 to Business B1 for the Purpose of Operating Non Retail Office Space and Other Permitted Uses.

Background/Zoning Information: This property is located 3875 S James Madison Highway Farmville, VA 23901, Tax Map 196-30A. The Comprehensive Plan does list Route 15 as a main corridor, and this property is approximately three miles north of South Growth Corridor. This area is expected to see future growth due to its proximity to Farmville. This corridor is currently comprised of commercial uses plus various types and sizes of dwelling units. Development in this corridor should be well planned and future land uses compatible with the varied land uses in the area. This property is currently zoned Agricultural A1 and is owned by Wayne Beasley. The applicant is Shelley Mays-Couch. Mrs. Mays-Couch has indicated in her application that the purpose of the rezoning request is to be in compliance after providing human services in the same location for three years and to increase permitted uses. Mrs. Mays-Couch did receive confirmation of grandfathered status by the Zoning Administrator, but due to the ability to increase permitted uses, she wishes to apply for this rezoning request.

Case 21-ZMA283 was introduced to the Planning Commission on May 24, 2021 and a Public Hearing was held on June 28, 2021. No one was signed up to speak during the Public Hearing. Planning Commission

members absent were Dabney Crews and Ashley Shumaker. All others in attendance. The Planning Commission voted unanimously to present to the Board of Supervisors a recommendation of approval of this Rezoning Request.

Monday, August 9, 2021
Buckingham County Administration Building
13380 W. James Anderson Hwy.
Buckingham, Virginia**

The Buckingham County Board of Supervisors will hold a public hearing on Monday, August 9, 2021 to hear public input regarding the following. The meeting will begin at 6:00 p.m. in the Peter Francisco Auditorium of the Buckingham County Administration Complex at 13380 W. James Anderson Hwy, Buckingham, Virginia 23921. You must sign up to speak. Sign up time is between 5:30 p.m. and 5:55 p.m.

CASE 21-ZMA283 Zoning Map Amendment-Mrs. Shelley Mays-Couch is asking to rezone from Agricultural A-1 to Business B-1 for the purpose of operating none-retail office space and other permitted uses. Property Information Tax Map- 196, Parcel 30A, containing approximately 1.65 acres located at 3875 S. James Madison Hwy, Farmville Va 23901 Curdsville Magisterial District.

CASE 21-ZMA284 Zoning Map Amendment-Kyanite Mining Corporation is asking to rezone from Agricultural A-1 to Industrial Heavy M2 for the purpose of zoning consistency and continuation of mining. Property Information Tax Map 172 Parcel 78, containing approximately 32 acres located off Plank Road, State Route 600, Colonial Pipeline crosses this property, no 911 address, Curdsville Magisterial District.

A copy of the above referenced hearings are available for review in the Office of the Buckingham County Zoning Administrator; 13380 West James Anderson Highway, P.O. Box 252, Buckingham, Virginia, 23921, on regular business days of Monday through Friday from 8:30 A.M. to 4:30 P.M. or by calling 434-969-4242.

The meeting will be live streamed on YouTube. Public Hearing Comments for Buckingham County Board of Supervisors Hearings will be received either in person at the meeting or by using the following methods:

- 1. Written comments may be mailed to the Board of Supervisors at PO Box 252 Buckingham, VA 23921. Please limit word count to 500 words.**
- 2. Emailed comments may be sent to publiccomments@buckinghamcounty.virginia.gov. Please limit word count to 500 words.**
- 3. Telephone voicemail comments may be left to be played to the board by calling 434-969-5039**

Please note: Please state your name, district, address, and which hearing you are commenting on. The three (3) minute rule will apply to public comments. All correspondence must be received only by the methods above, and are due by 12:00 PM the day of the meeting.

Special accommodation will be provided upon five days' notice to the Office of the County Administrator at 434-969-4242.

By Order of the Buckingham County Board of Supervisors
Karl R. Carter, County Administrator

Owner/Applicant: Landowner Wayne Beasley
818 Emblems Gap Road
Roseland, VA 22937

Applicant Shelley Mays-Couch
P O Box 37
Farmville, VA 23901

Property Information: Tax Map 196, Parcel 30A, containing approximately 1.65 acres, located at 3875 S James Madison Highway Farmville, VA 23901 (Route 15) Curdsville Magisterial District.

Zoning District: Agricultural District (A-1)

Request: Zoning Map Amendment-Mrs. Mays-Couch is asking the Board of Supervisors to recommend a Public Hearing Date to hear the Request for Rezoning from Agricultural A1 to Business B1 for the Purpose of Operating Non Retail Office Space and Other Permitted Uses.

Background/Zoning Information: This property is located 3875 S James Madison Highway Farmville, VA 23901, Tax Map 196-30A. The Comprehensive Plan does list Route 15 as a main corridor, and this property is approximately three miles north of South Growth Corridor. This area is expected to see future growth due to its proximity to Farmville. This corridor is currently comprised of commercial uses plus various types and sizes of dwelling units. Development in this corridor should be well planned and future land uses compatible with the varied land uses in the area. This property is currently zoned Agricultural A1 and is owned by Wayne Beasley. The applicant is Shelley Mays-Couch. Mrs. Mays-Couch has indicated in her application that the purpose of the rezoning request is to be in compliance after providing human services in the same location for three years and to increase permitted uses. Mrs. Mays-Couch did receive confirmation of grandfathered status by the Zoning Administrator, but due to the ability to increase permitted uses, she wishes to apply for this rezoning request.

Case 21-ZMA283 was introduced to the Planning Commission on May 24, 2021 and a Public Hearing was held on June 28, 2021. No one was signed up to speak during the Public Hearing. Planning Commission

members absent were Dabney Crews and Ashley Shumaker. All others in attendance. The Planning Commission voted unanimously to present to the Board of Supervisors a recommendation of approval of this Rezoning Request.

Would it be the pleasure of the Board of Supervisors to schedule a Public Hearing?

August 9, 2021 6pm?

REZONING APPLICATION CHECKLIST
BUCKINGHAM COUNTY OFFICE OF ZONING AND PLANNING MINIMUM SUBMISSION
REQUIREMENTS

The following table lists the information necessary to review a rezoning application. All items are required, unless otherwise stated, and must be submitted in order for the application to be accepted for review. This completed checklist must be submitted with the application.

Adjacent Property Owners List and Affidavit (pages 5, 6 & 7 attached). This list can be obtained from the Clerk of Courts Office: YES NO

Completed application for rezoning (pages 3 & 4 attached). If not signed by the owner, a Power of Attorney must accompany the application: YES NO

Interest Disclosure Affidavit (page 8 attached). Must be signed by the owner: YES NO

Power of Attorney (page 11 attached). Required if anyone other than the owner is signing the application form or proffer statement on behalf of the owner: YES NO - N/A

Written Narrative (page 12 guidance in preparing the Written Narrative): YES NO

Fees: YES NO

Deed: YES NO

Plat (15 copies). The plat information may be incorporated into the Rezoning General Site Plan, in which case, copies of a separate plat are not required. The plat must be prepared by a certified land surveyor or licensed civil engineer and contain the following:

- A. Bearings and distances of a scale of 1" = 100' or less for all property lines and existing and proposed zoning lines: YES NO
- B. Area of land proposed for consideration, in square feet or acres: YES NO
- C. Scale and north point: YES NO
- D. Names of boundary roads or streets and widths of existing right-of-ways: YES NO

Rezoning General Site Plan (15 copies) The General Site Plan must contain the following:

- 1. vicinity map (show street names): YES NO N/A
- 2. Owner and Project Name: YES NO N/A
- 3. Parcel identification numbers, name, present zoning, and zoning and use of all abutting or adjoining parcels: YES NO N/A
- 4. Property lines of existing and proposed zoning district lines: YES NO N/A
- 5. Area of land proposed for consideration, in square feet or acres: YES NO N/A
- 6. Scale and north point: YES NO N/A
- 7. Names of boundary roads or streets and widths of existing right-of-ways: YES NO N/A

8. Easements and encumbrances, if present on the property: YES NO N/A
9. Topography indicated by contour lines: YES NO N/A
10. Areas having slopes of 15% to 25% and areas having slopes of 25% or greater clearly indicated by separate shading devices (or written indication of "no areas having slopes of 15% to 25% or greater"): YES NO N/A
11. Water Courses to include the approximate location of the 100 year floodplain (if applicable) based on FEMA maps (or written indication of "not in floodplain"):
YES NO N/A
12. Delineation of existing mature tree lines or written indication of "no mature tree lines":
YES NO N/A
13. Proposed roads with right-of-way width that will connect with or pass through the subject property: YES NO N/A
14. General locations of major access points to existing streets: YES NO N/A
15. List of the proposed density for each dwelling unit type, and/or intensity of each non-residential use: YES NO N/A
16. Location of any open space and buffer areas, woodland conservation areas, storm water management facilities, and community and public facilities: YES NO N/A
17. Location of existing and proposed utilities, above or underground: YES NO N/A
18. Vehicular and pedestrian circulation plan, including traffic counts and typical street sections, right-of-way improvements, access points, travel ways, parking, loading, stacking, sidewalks, and trails: YES NO N/A
19. Layouts and orientation of buildings and improvements, building use, height, setbacks from property lines and restriction lines: YES NO N/A
20. Location and design of screening and landscaping: YES NO N/A
21. Building architecture: YES NO N/A
22. Site lighting proposed: YES NO N/A
23. Area of land disturbance in square feet and acres: YES NO N/A
24. Erosion and Sediment Control Plan submitted (10,000 square feet or more):
YES NO N/A
25. Historical sites or gravesites on general site plan: YES NO N/A
26. Show impact of development of historical or gravesite areas: YES NO N/A
27. A copy of the current status of all real estate taxes of all property owned in Buckingham County. If real estate taxes are not current, an explanation in writing and signed by the owner shall accompany this application. Any liens or other judgments against property shall also be explained in writing and signed by the owner: YES NO N/A

ADJACENT PROPERTY OWNER'S LIST

(Required)

The applicant shall provide a list of all adjoining landowners, including subject property and all property immediately across the street/road from the subject property. Any body of water does not constitute a boundary line for this purpose, therefore a body of water and the property adjoining the subject property but separated by a body of water is still considered an adjoining landowner. County boundary lines and those adjoining property owners in the next County are considered adjoining property owners if the land adjoins the subject's property. Adjoining landowners can be verified through the Buckingham County Clerk of Courts or the Clerk's Office in the adjoining County, or by personal contact. The list shall include the name, address, town/city, zip code, road route number, tax map section number, parcel number, lot number, and subdivision. The list shall be typewritten or printed legibly. Failure to list all adjoining landowners could delay the process.

WRITTEN NARRATIVE

The Written Narrative shall describe the relationship of the proposed project to the relevant components of the Comprehensive Plan. Please be very detailed and describe in depth each and every component 1 through 15. The following outline is provided to aid you in preparing the written narrative:

1. Land Use *Supportive services including but not limited to case management, coordination of care, housing support, emergency transportation services for interviews, apps, etc.*
2. Community Design *Provision of Emergency food, clothing, and mentoring, counseling, support groups and consumer advocacy.*
N/A
3. Cultural Resources
N/A
4. Economic Development *Jobs available through expansion of services and funding.*
5. Environment
N/A
6. Fire and Rescue, Law Enforcement
N/A
7. Housing *Assist with emergency housing through case management, funding and placement when available.*
8. Libraries
N/A
9. Parks and Open Spaces
N/A
10. Potable Water
N/A
11. Sewage
N/A
12. Schools
N/A
13. Telecommunications *The communications provided*
14. Transportation *provided for enrolled participants in available programs.*
15. Solid Waste

If this proposal is for an event, describe the handling of the entire event, including but not limited to: number of participants, schedule of events, police, security, food, beverages, water, sanitation, emergencies, crowd control, entrances and exits, traffic control, signage, advertisement, parking, fee collection, control of animals, trash disposal, site clean-up, fighting, alcohol, abuse of alcohol and/or illegal substances

Written Narrative

The property located at 3875 S. James Madison Hwy, Farmville, Va 23901 operates to provide Human Services. These services include, but are not limited to direct services for counseling, one on one mentoring, group counseling, emergency housing support services via counsel and aide for qualified individuals, emergency transportation, food, clothing, and coordination of care. The population served from this location are reentry, at risk individuals, elderly, and disabled individuals. For three years Shelly Mays-Couch has managed this property as a corporate location for these services.

TENTATIVE SCHEDULE FOR A REZONING AMENDMENT

The application, site plan, written narrative, and all information requested in this application must be filled out in its entirety and supplied to the Buckingham Zoning / Planning Office and the fee must be paid before this case will be allowed to move forward.

Case will be introduced at a regularly scheduled Planning Commission meeting held on the fourth Monday of every month. Planning Commission may set a Public Hearing at this time to be held during a regularly scheduled meeting. Public Hearings offer an opportunity for citizens to speak concerning the case.

Following the Planning Commission Public Hearing, the Planning Commission may make a recommendation to approve / deny / or table the case for more information. Once the Planning Commission makes a recommendation to approve or deny, this recommendation will be forwarded to the Board of Supervisors at their next regularly scheduled meeting. The Board of Supervisors meetings are held on the second Monday of every month. The Board of Supervisors may set a Public Hearing at this time to be held during a regularly scheduled meeting. The Board of Supervisors will make the final decision to approve or deny the application after the public hearing.

Example Timeline:

- | | |
|--------------------|--|
| January 25 | Case is introduced to Planning Commission. Planning Commission sets Public Hearing for next regularly scheduled meeting on February 22. |
| February 22 | Planning Commission Public Hearing. Planning Commission recommends to approve / deny / or table for more information. Once the Planning Commission reaches a decision to approve or deny, this recommendation will be forwarded to the Board of Supervisors at their next regularly scheduled meeting. |
| March 8 | Case is introduced to Board of Supervisors. |
| April 12 | Board of Supervisors may approve / deny / table for more information. |

The Planning Commission and the Board of Supervisors has a right to call extra public hearings at their discretion if the Board(s) decide they are needed.

You or your agent are encouraged to attend these meetings to answer any questions that may arise concerning your application / proposal. The County strongly encourages the applicant to visit the area around his proposed site and understand what the adjoining landowner concerns are.

SIGNAGE AT PROPERTY

The Buckingham County Zoning Ordinance requires the following:

The applicant in any case which requires a public hearing shall post signs furnished by the agent on each parcel involved at least 21 days prior to the public hearing indicating that a public hearing is eminent, the date, a rezoning issue, and a County contact number. The signs shall be placed on the VDOT right-of-way closest to the applicant's property line and shall be clearly visible from the road with bottom of the sign not less than one and one half feet above the ground. If more than one public road abuts the property, the signs shall be placed in the same manner as above for each abutting road. If no road abuts a property, then the agent shall define an area for the signs. The agent may ask the applicant that the sign be moved to another area either on the property to achieve greater public visibility. The applicant shall be responsible for keeping the signs free from grass, weeds, and any other plants or vines that may obstruct the public's view. The applicant shall contact the Virginia Department of Transportation for any information concerning where the right-of-way is located. The applicant shall be responsible for the signs should VDOT or their contractor conduct mowing or clearing of the right-of-way in the area where the sign is located.

Any signs required shall be maintained at all times by the applicant up to the time of the final public hearing. No person, except the applicant or the agent or an authorized agent of either, shall remove or tamper with any sign furnished during the period it is required to be maintained under this section. All signs erected under this ordinance shall be removed by the applicant within 15 days following a decision at the final public hearing and shall be returned to the agent. The applicant shall purchase the signs at a fee as determined by the Board of Supervisors and shall be non-refundable. The applicant shall be responsible for the replacement of the sign(s) and shall contact the agent as soon as possible for another sign to be replaced as the manner described above. Should the sign(s) have to be replaced more than twice, this section shall no longer be forced upon the applicant.

I have read, understand and agree to the above requirements.

Request: Zoning Map Amendment-Kyanite Mining Corporation is the asking the Board of Supervisors to recommend a Public Hearing Date to hear the Request for Rezoning from Agricultural A1 to Industrial-Heavy M2 for the Purpose of Zoning Consistency and Continuation of Mining.

Background/Zoning Information: This property is off of Plank Road, State Route 600, Tax Map 172-78. This property is currently zoned Agricultural A1, the landowner and applicant is Kyanite Mining Corporation. The Comprehensive Plan does list Route 15 as a main corridor, and this property is approximately nine miles north of South Growth Corridor. This area is expected to see future growth due to its proximity to Farmville. This corridor is currently comprised of commercial uses plus various types and sizes of dwelling units. Development in this corridor should be well planned and future land uses compatible with the varied land uses in the area. As stated in the narrative submitted by the landowner and applicant, applicant owns all parcels adjacent to 172-78, and tracts to the north, east, and west of this parcel, are currently zoned M2. The applicant desires to continue its mine development on this parcel in the future.

Case 21-ZMA284 was introduced to the Planning Commission on May 24, 2021 and a Public Hearing was held on June 28, 2021. No one was signed up to speak during the Public Hearing. Planning Commission members absent were Dabney Crews and Ashley Shumaker. All others in attendance. The Planning Commission voted unanimously to present to the Board of Supervisors a recommendation of approval of this Rezoning Request.

**Buckingham County Board of Supervisors
Notice of Public Hearing
Monday, August 9, 2021
Buckingham County Administration Building
13380 W. James Anderson Hwy.
Buckingham, Virginia**

The Buckingham County Board of Supervisors will hold a public hearing on Monday, August 9, 2021 to hear public input regarding the following. The meeting will begin at 6:00 p.m. in the Peter Francisco Auditorium of the Buckingham County Administration Complex at 13380 W. James Anderson Hwy, Buckingham, Virginia 23921. You must sign up to speak. Sign up time is between 5:30 p.m. and 5:55 p.m.

CASE 21-ZMA283 Zoning Map Amendment-Mrs. Shelley Mays-Couch is asking to rezone from Agricultural A-1 to Business B-1 for the purpose of operating none-retail office space and other permitted uses. Property Information Tax Map- 196, Parcel 30A, containing approximately 1.65 acres located at 3875 S. James Madison Hwy, Farmville Va 23901 Curdsville Magisterial District.

CASE 21-ZMA284 Zoning Map Amendment-Kyanite Mining Corporation is asking to rezone from Agricultural A-1 to Industrial Heavy M2 for the purpose of zoning consistency and continuation of mining. Property Information Tax Map 172 Parcel 78, containing approximately 32 acres located off Plank Road, State Route 600, Colonial Pipeline crosses this property, no 911 address, Curdsville Magisterial District.

A copy of the above referenced hearings are available for review in the Office of the Buckingham County Zoning Administrator; 13380 West James Anderson Highway, P.O. Box 252, Buckingham, Virginia, 23921, on regular business days of Monday through Friday from 8:30 A.M. to 4:30 P.M. or by calling 434-969-4242.

The meeting will be live streamed on YouTube. Public Hearing Comments for Buckingham County Board of Supervisors Hearings will be received either in person at the meeting or by using the following methods:

- 1. Written comments may be mailed to the Board of Supervisors at PO Box 252 Buckingham, VA 23921. Please limit word count to 500 words.**
- 2. Emailed comments may be sent to publiccomments@buckinghamcounty.virginia.gov. Please limit word count to 500 words.**
- 3. Telephone voicemail comments may be left to be played to the board by calling 434-969-5039**

Please note: Please state your name, district, address, and which hearing you are commenting on. The three (3) minute rule will apply to public comments. All correspondence must be received only by the methods above, and are due by 12:00 PM the day of the meeting.

Special accommodation will be provided upon five days' notice to the Office of the County Administrator at 434-969-4242.

REZONING APPLICATION CHECKLIST
BUCKINGHAM COUNTY OFFICE OF ZONING AND PLANNING MINIMUM SUBMISSION
REQUIREMENTS

The following table lists the information necessary to review a rezoning application. All items are required, unless otherwise stated, and must be submitted in order for the application to be accepted for review. This completed checklist must be submitted with the application.

Adjacent Property Owners List and Affidavit (pages 5, 6 & 7 attached). This list can be obtained from the Clerk of Courts Office: YES NO

Completed application for rezoning (pages 3, 4 attached). If not signed by the owner, a Power of Attorney must accompany the application: YES NO

Interest Disclosure Affidavit (page 8 attached). Must be signed by the owner: YES NO

Power of Attorney (page 11 attached). Required if anyone other than the owner is signing the application form or proffer statement on behalf of the owner: YES NO

Written Narrative (page 12 guidance in preparing the Written Narrative): YES NO

Fees: YES NO

Deed: YES NO

Plat (15 copies). The plat information may be incorporated into the Rezoning General Site Plan, in which case, copies of a separate plat are not required. The plat must be prepared by a certified land surveyor or licensed civil engineer and contain the following:

- A. Bearings and distances of a scale of 1" = 100' or less for all property lines and existing and proposed zoning lines: YES NO
- B. Area of land proposed for consideration, in square feet or acres: YES NO
- C. Scale and north point: YES NO
- D. Names of boundary roads or streets and widths of existing right-of-ways: YES NO

Rezoning General Site Plan (15 copies) *see GIS attached* The General Site Plan must contain the following:

- 1. Vicinity Map - Please show scale: YES NO N/A
- 2. Owner and Project Name: YES NO N/A
- 3. Parcel identification numbers, name, present zoning, and zoning and use of all abutting or adjoining parcels: YES NO N/A
- 4. Property lines of existing and proposed zoning district lines: YES NO N/A
- 5. Area of land proposed for consideration, in square feet or acres: YES NO N/A
- 6. Scale and north point: YES NO N/A
- 7. Names of boundary roads or streets and widths of existing right-of-ways: YES NO N/A

8. Easements and encumbrances, if present on the property: YES NO N/A
9. Topography indicated by contour lines: YES NO N/A
10. Areas having slopes of 15% to 25% and areas having slopes of 25% or greater clearly indicated by separate shading devices (or written indication of "no areas having slopes of 15% to 25% or greater"): YES NO N/A
11. Water Courses to include the approximate location of the 100 year floodplain (if applicable) based on FEMA maps (or written indication of "not in floodplain"); YES NO N/A
12. Delineation of existing mature tree lines or written indication of "no mature tree lines": YES NO N/A
13. Proposed roads with right-of-way width that will connect with or pass through the subject property: YES NO N/A
14. General locations of major access points to existing streets: YES NO N/A
15. List of the proposed density for each dwelling unit type, and/or intensity of each non-residential use: YES NO N/A
16. Location of any open space and buffer areas, woodland conservation areas, storm water management facilities, and community and public facilities: YES NO N/A
17. Location of existing and proposed utilities, above or underground: YES NO N/A
18. Vehicular and pedestrian circulation plan, including traffic counts and typical street sections, right-of-way improvements, access points, travel ways, parking, loading, stacking, sidewalks, and trails: YES NO N/A
19. Layouts and orientation of buildings and improvements, building use, height, setbacks from property lines and restriction lines: YES NO N/A
20. Location and design of screening and landscaping: YES NO N/A
21. Building architecture: YES NO N/A
22. Site lighting proposed: YES NO N/A
23. Area of land disturbance in square feet and acres: YES NO N/A
24. Erosion and Sediment Control Plan submitted (10,000 square feet or more): YES NO N/A
25. Historical sites or gravesites on general site plan: YES NO N/A
26. Show impact of development of historical or gravesite areas: YES NO N/A
27. A copy of the current status of all real estate taxes of all property owned in Buckingham County. If real estate taxes are not current, an explanation in writing and signed by the owner shall accompany this application. Any liens or other judgments against property shall also be explained in writing and signed by the owner: YES NO N/A

APPLICATION FOR A ZONING MAP AMENDMENT

CASE NUMBER: 21-ZMA-284
(Case Number Assigned by Zoning Administrator)

DATE OF APPLICATION: 4/5/2021

Zoning Map Amendment: Request rezoning from A1 to M2

Purpose of Zoning Map Amendment: Rezone parcel among and adjacent to other parcels owned by Kyanite Mining Corporation already zoned M2. Rezoning would allow zoning consistency and continuation of mining.

Zoning District: A1 Number of Acres: 32

ADJACENT PROPERTY OWNER'S LIST

(Required)

The applicant shall provide a list of all adjoining landowners, including subject property and all property immediately across the street/road from the subject property. Any body of water does not constitute a boundary line for this purpose, therefore a body of water and the property adjoining the subject property but separated by a body of water is still considered an adjoining landowner. County boundary lines and those adjoining property owners in the next County are considered adjoining property owners if the land adjoins the subject's property. Adjoining landowners can be verified through the Buckingham County Clerk of Courts or the Clerk's Office in the adjoining County, or by personal contact. The list shall include the name, address, town/city, zip code, road route number, tax map section number, parcel number, lot number, and subdivision. The list shall be typewritten or printed legibly. Failure to list all adjoining landowners could delay the process.

SIGNAGE AT PROPERTY

The Buckingham County Zoning Ordinance requires the following:

The applicant in any case which requires a public hearing shall post signs furnished by the agent on each parcel involved at least 21 days prior to the public hearing indicating that a public hearing is eminent, the date, a rezoning issue, and a County contact number. The signs shall be placed on the VDOT right-of-way closest to the applicant's property line and shall be clearly visible from the road with bottom of the sign not less than one and one half feet above the ground. If more than one public road abuts the property, the signs shall be placed in the same manner as above for each abutting road. If no road abuts a property, then the agent shall define an area for the signs. The agent may ask the applicant that the sign be moved to another area either on the property to achieve greater public visibility. The applicant shall be responsible for keeping the signs free from grass, weeds, and any other plants or vines that may obstruct the public's view. The applicant shall contact the Virginia Department of Transportation for any information concerning where the right-of-way is located. The applicant shall be responsible for the signs should VDOT or their contractor conduct mowing or clearing of the right-of-way in the area where the sign is located.

Any signs required shall be maintained at all times by the applicant up to the time of the final public hearing. No person, except the applicant or the agent or an authorized agent of either, shall remove or tamper with any sign furnished during the period it is required to be maintained under this section. All signs erected under this ordinance shall be removed by the applicant within 15 days following a decision at the final public hearing and shall be returned to the agent. The applicant shall purchase the signs at a fee as determined by the Board of Supervisors and shall be non-refundable. The applicant shall be responsible for the replacement of the sign(s) and shall contact the agent as soon as possible for another sign to be replaced as the manner described above. Should the sign(s) have to be replaced more than twice, this section shall no longer be forced upon the applicant.

I have read, understand and agree to the above requirements.

Applicant/Owner: _____ *[Signature]* President

Date: 4/6/2021

NARRATIVE – REZONING APPLICATION

Applicant/Owner: Kyanite Mining Corporation (“Applicant”)
30 Willis Mountain Plant Lane, Dillwyn, VA 23936

Representatives: Kristin Gee, John Snoddy
Kyanite Mining Corporation
30 Willis Mountain Plant Lane, Dillwyn, VA 23936
Phone: (434)983-2085; Fax: (434)983-4341; Email: kristingee@kyanite.com
jnsoddy@kyanite.com

Property: Buckingham County Tax Map Number 172-78, Curdsville Magisterial District, consisting of approximately 32 acres (collectively, the “Property”)

Date: April 5, 2021

Rezoning Request: From A-1 to M-2

Applicant is requesting the rezoning of Tax Map Number 172-78 from Agricultural 1 District (“A-1”) to Industrial-Heavy District (“M-2”). Applicant owns all the parcels adjacent to the Property, and the tracts immediately to the north, east, and west of the Property are already zoned M-2. The Property is situated within Applicant’s mining permit, and Applicant desires to continue its mine development on the Property in the future.

Land Use – The Property is adjacent to tracts designated both M-2 and A-1. Applicant’s contiguous mining and industrial areas would optimally expand into this location in the future. Adding this relatively small tract into the existing Industrial/Mining area will have a *de minimis* impact on public facilities. The Property is surrounded by adjacent tracts owned by either Kyanite Mining Corporation or Blue Rock Resources, LLC (a surrounded sister company of Kyanite Mining) (“BRR”), providing a buffer area that mitigates any impact on unrelated landowners and minimizes the chance for complaints from landowners with conflicting land uses. The Property is not in or near a Village Center, Growth Corridor, or within a Special District.

Community Design – The Property is not located in or near a population area, or an area slated for development. Conversion to an M-2 status will not create any pedestrian or parking issues. Upon rezoning and subsequent mine expansion, Applicant will include the Property in its current environmental plan, including any necessary water management plans and future reclamation plans. The Property is not visible from a main transportation corridor and so Applicant’s activities will not detract from local natural and scenic vistas.

Cultural Resources – No historical structures or areas are within a reasonable distance of the Property, and its inclusion in the M-2 zoning area will not adversely impact the preservation of historic areas.

Economic Development Conversion of the Property to an M-2 status will encourage continued business investment in the county. The Property is slated for Applicant's future mining activity. Applicant has operated within the County for more than seventy years and is one of the largest employers in the County. Use of the Property for Industrial/Mining will not impact any service or retail businesses as there are none in the vicinity of the Property.

Environment - The rezoning of the Property will have little impact on the County's goals to preserve, protect, and/or enhance the County's environmental resources. The Property is directly adjacent to a large area already zoned M-2. Access to the Property for mining purposes will occur from contiguous tracts already zoned M-2. Inclusion of the Property into M-2 aligns with the County's goal of preserving important environmental resources by centering manufacturing in an area already designated M-2. Applicant is well versed in best management practices and regulations, including sediment control and protection of water quality. As the Applicant's mine expands onto the Property, the Applicant would include the Property in its existing environmental and reclamation programs, including sediment control and stormwater management.

Fire and Rescue, Law Enforcement - Inclusion of the Property in the adjacent M-2 zoning area will have a *de minimis* impact on Fire and Rescue or Law Enforcement level-of-service standards.

Housing - The Property is surrounded by A-1 Agricultural Property and M-2 Industrial Property. Housing density is very low, and the Property is surrounded by tracts owned by Applicant and BRR, providing a buffer further limiting adverse impacts on unrelated landowners.

Libraries – Applicant has not determined or foreseen any impact on the County's libraries arising from the proposed rezoning.

Parks and Open Spaces – No changes would be necessary to the County's current or proposed parks, open space, or trails due to a change in the Property's zoning status.

Potable Water – Applicant does not foresee a need for potable water to be brought to the Property. Applicant would subsume the Property into its existing environmental plan and processes, including any groundwater or recharge areas needed.

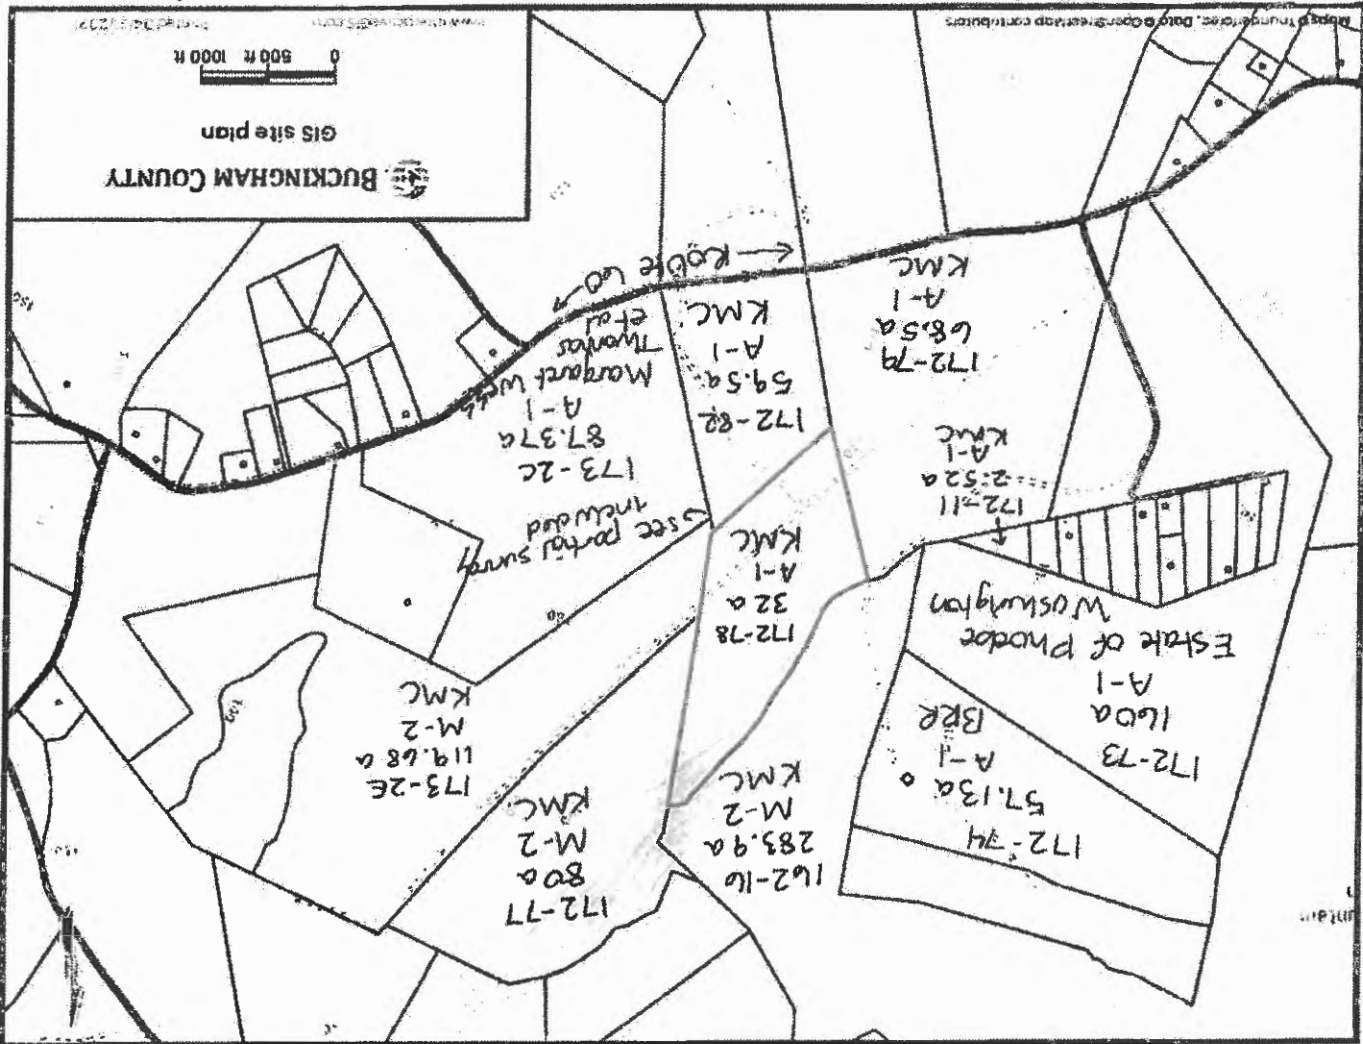

Sewage – No sewer services would need to be provided to the Property arising from the proposed rezoning.

Schools – Applicant has not determined or foreseen any impact on the County's schools arising from the proposed rezoning.

Telecommunications – Applicant has determined no discernable impact related to telecommunications related to the County or nearby landowners.

Transportation – The Property is adjacent to other tracts owned by Applicant already zoned M-2, and the Property will be accessed from the existing M-2 tracts, creating no new traffic area concerns in the area. The County's existing transportation network will not be impacted because of changes to capacity or additional safety concerns.

Solid Waste – Any impacts from Applicant's mining activity on the Property will be addressed as part of Applicant's ongoing environmental and reclamation protocols.

DB 83 / P 405

THIS DEED, Made this 14th day of December, 1970, by and between EDWIN B. BAKER, SPECIAL COMMISSIONER, as hereinafter mentioned, party of the first part, and KYANITE MINING CORPORATION, party of the second part,

W I T N E S S E T H :

THAT WHEREAS, on the 8th day of December, 1970, it was DECREED and ORDERED by the Circuit Court of Buckingham County, in the Chancery Cause of Fred Dabney, et als v. Heirs of William Pryor and Edwin Richardson, et als, that the said Edwin B. Baker, who was thereby appointed Commissioner for the purpose, should prepare, execute, acknowledge for the record and deliver unto the said Kyanite Mining Corporation, a deed conveying to them with SPECIAL WARRANTY OF TITLE, the hereinafter described real estate upon the said Kyanite Mining Corporation depositing in the Bank of Phenix, Inc., the sum of Ten Thousand Dollars (\$10,000.00) to the credit of the Circuit Court of Buckingham County in this cause; and,

WHEREAS, the said Kyanite Mining Corporation has deposited in the Bank of Phenix, Inc. the sum of Ten Thousand Dollars (\$10,000.00) as evidenced by the deposit slip attached and made a part of the record of this suit in the Clerk's Office of the said Court; and,

WHEREAS, in pursuance of statute of such cases made and provided, the names of the parties on whose behalf this conveyance is made are here set out, to-wit:

Fred Dabney, Letcher Dabney, Isom Dabney, Mary Johnson and the heirs of William Pryor and Edwin Richardson other than those listed above who were served by Order of Publication under the general description of Parties Unknown.

NOW, THEREFORE, for and in consideration of the premises and of the sum of Ten Thousand Dollars (\$10,000.00), deposited in the Bank of Phenix, Inc. to the Circuit Court of Buckingham County

in the cause of Fred Dabney, et als v. Heirs of William Pryor and Edwin Richardson, et als, agreeably to the terms of the said Decretal Order above mentioned, at and before the sealing and delivery of this deed, the receipt of which is hereby acknowledged, the said Edwin B. Baker, Special Commissioner, as aforesaid, in order to carry into effect the said sale made as aforesaid, in pursuance of the said Decretal Order, doth give, grant, bargain, sell and convey unto the said Ryanite Mining Corporation, with SPECIAL WARRANTY OF TITLE, all the following described real estate, to-wit:

All that certain tract or parcel of land in Curdsville Magisterial District of Buckingham County, Virginia, containing 31.5 acres, more or less, known as the William Pryor Tract, situated approximately 2 miles east of Willis Mountain, being more or less triangular in shape, bounded on the west by the lands of Continental Can Company, on the south by Ryanite Mining Corporation, and being a portion of that land which was devised to William Pryor and Edwin Richardson by will of William H. Grigg, which was admitted to probate in the Clerk's Office of the Circuit Court of Buckingham County, Virginia, on July 9, 1877.

WITNESS the following signature and seal:

Edwin B. Baker

Special Commissioner

(SEAL)

STATE OF VIRGINIA,

COUNTY OF CHARLOTTE, to-wit:

I, *Nathan W. Riggs*, a Notary Public within and for the county in the state aforesaid, do certify that Edwin B. Baker, Special Commissioner, whose name is signed to the foregoing writing bearing date of December 14, 1970, has this day acknowledged the same before me in my county aforesaid.

Given under my hand this 14th day of December, 1970.

Nathan W. Riggs
Notary Public.

My commission expires:

January 30 1971.

THIS DEED, made this 1st day of April, 2005, by and between THE
DISTHENE GROUP, INC., a Virginia Corporation, Grantor and KYANITE
MINING CORPORATION, a Virginia Corporation, Grantee, provides:

THAT in consideration of the sum of TEN DOLLARS (\$10.00) and
other good and valuable consideration, the receipt of which is hereby acknowledged,
the Grantor does hereby grant and convey, with Special Warranty, unto the
Grantee, all the following described real estate:

SEE ATTACHMENT A

The tracts described on Attachment A were conveyed to
Kyanite Mining Corporation. The Disthene Group, Inc.
is the successor in interest to Kyanite Mining
Corporation by virtue of a name change filed with the
State Corporation Commission of Virginia, such change
is effective April 1, 2005.

This property is conveyed subject to conditions, restrictions,
easement, and rights of way of record or as may be apparent from inspection of the
property.

WITNESS the following signature and seal.

NO TITLE SEARCH BY ATTORNEY PREPARING DEED

ATTACHMENT A

Tract One. (Tax ID# 173 5)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 185.15 acres, more or less, but being a conveyance by the boundary and not by the acre.

This being a portion of the property more particularly described in Deed Book 84, at page 33, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia. See tract five, conveyed to Blue Rock Resources, LLC. by Deed of same date.

Tract Two. (Tax ID# 162 7)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 280.36 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 79, at page 395, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia and Deed Book 99, at page 220.

Tract Three. (Tax ID# 163 19)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 38.00 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 79, at page 395, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia and Deed Book 99, at page 220.

Tract Four. (Tax ID# 162 5)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 39.14 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 59, at page 369, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia. Deed book 61, at page 409, Deed Book 59, at page 461, Deed Book 58, at page 302, Deed Book 56, at page 320, Deed Book 57, at page 170 and deed to Thomas P. Smith, Jr. Dated June 2, 1978, to connect Virginia Department of Highway, dated April 5, 1978, and to Thomas Ashby Jamerson dated January 7, 1959.

Tract Five. (Tax ID# 163 6)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 17.25 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 196, at page 775, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Six. (Tax ID# 163 7)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 16.95 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 196, at page 775, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Seven. (Tax ID# 163 9)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 445.06 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 196, at page 775, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Eight. (Tax ID# 162 48)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 2.53 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 59, at page 152, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Nine. (Tax ID# 162 13)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 22.57 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 111, at page 141, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Ten. (Tax ID# 162 12)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 406.43 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 147, at page 105, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Eleven. (Tax ID# 162 27)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 70.00 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 54, at page 412, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Twelve. (Tax ID# 162 6)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 36.50 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 50, at page 224, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Thirteen. (Tax ID# 162 8)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 39.00 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 54, at page 412, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Fourteen. (Tax ID# 172 78)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 31.50 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 83, at page 405, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Fifteen. (Tax ID# 163 14A)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 4.00 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 224, at page 518, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Sixteen. (Tax ID# 172 77)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 80.00 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 92, at page 18, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Seventeen. (Tax ID# 173 3)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 16.37 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 94, at page 158, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Eighteen. (Tax ID# 126 4)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Marshall District of Buckingham County, Virginia containing 9.95 acres, more or less, and being more particularly described as to metes and bounds on a plat of survey by Robert S. Maxey, Jr., L.S., such plat being dated November 30, 2004 and the land being described thereon as Parcel 1 and attached hereto.

This being a portion of the property more particularly described in Deed Book 59, at page 363, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia. See tract 30, conveyed to Blue Rock Resources L.L.C. by Deed of same date.

Tract Nineteen. (Tax ID# 173 2E)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 119.68 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 223, at page 197, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia

Tract Twenty. (Tax ID# 172 82)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 60.00 acres, more or less, but being a conveyance by the boundary and not by the acre and being the land to the north of the Central of Virginia Secondary Route 600.

This being a portion of the property more particularly described in Deed Book 118, at page 501, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Twenty-one. (Tax ID# 172 76)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 28.94 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 296, at page 41, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Twenty-two. (Tax ID# 163 17)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 8.50 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 83, at page 442, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Twenty-three. (Tax ID# 162 18)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 42.30 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 79, at page 320, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Twenty-four. (Tax ID# 163 18)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 34.20 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 86, at page 515, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Twenty-five. (Tax ID# 162 44)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 0.42 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 130, at page 452, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Twenty-six. (Tax ID# 162 42)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 6.59 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 137, at page 317, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Twenty-seven. (Tax ID# 172 68)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 102.23 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 56, at page 332, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Twenty-eight. (Tax ID# _____)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 1.00 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 175, at page 57, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Twenty-nine. (Tax ID# 138.2 1 165)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Town Of Dillwyn District of Buckingham County, Virginia containing 0.44 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 65, at page 37, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Thirty. (Tax ID# 162 45)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 15.75 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 51, at page 449, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia and 3 acres sold to Commonwealth of Virginia in 1961.

Tract Thirty-one. (Tax ID# 162 17)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 40.76 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 56, at page 120, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Thirty-two. (Tax ID# 162 4)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 89.06 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 72, at page 239, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Thirty-three. (Tax ID# 126-9)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Marshall District of Buckingham County, Virginia containing 3.50 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 292, at page 763, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Thirty-four. (Tax ID# 173 1)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 24.04 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 157, at page 596, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Thirty-five. (Tax ID# 162 16A)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 1.10 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 73, at page 145, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Thirty-six (Tax ID# 162 14)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 249.00 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 95, at page 213, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Thirty-seven. (Tax ID# 162 15)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 3.10 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 145, at page 511, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Thirty-eight. (Tax ID# 163 20)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 38.50 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 79, at page 331, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Thirty-nine. (Tax ID# 162 3)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 23.70 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 284, at page 419, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Forty. (Tax ID# 162 29)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 25.89 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 57, at page 154, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia and a Deed to Commonwealth of Virginia in 1961.

Tract Forty-one. (Tax ID# 172 71)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 4.11 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 58, at page 440, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia. Conveyance to Gene B. Dixon, Jr. in 1968, Conveyance to commonwealth of Virginia, conveyance to Roy F. Lamberton, Jr. in 1976 and Deed of exchange with Gene B. Dixon in 1997.

Tract Forty-two. (Tax ID# 172 72)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 105.35 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 58, at page 440, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia. Conveyance to Gene B. Dixon, Jr. in 1968, Conveyance to commonwealth of Virginia, conveyance to Roy F. Lamberton, Jr. in 1976 and Deed of exchange with Gene B. Dixon in 1997.

Tract Forty-three. (Tax ID# 162 19)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 80.89 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 80, at page 501, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia and Deed to Commonwealth of Virginia in 1978 and the Deed to Timothy H. Page in 1980 and the Deed to Stuart B. Amos in 1977.

Tract Forty-four. (Tax ID# 172 62)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 1 60 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 66, at page 566, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Forty-five.(Tax ID# 172 79)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 68.50 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 72, at page 153, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Tract Forty-six. (Tax ID# 162 16)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 283.90 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 43, at page 471, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia and a Deed to Owen Illinois in 1964.

Tract Forty-sevgn. (Tax ID# 162 28)

All that certain tract or parcel of land, together with all improvements and appurtenances thereunto belonging, lying and being in the Curdsville District of Buckingham County, Virginia containing 10.00 acres, more or less, but being a conveyance by the boundary and not by the acre.

For a more particular description of the property see Deed Book 43, at page 471, in the Clerk's Office of the Circuit Court of Buckingham County, Virginia.

Re: **Dam Safety, Flood Prevention and Protection Assistance Fund (DSFPPAF)**

2021 Grant Application; Grant Number: DSFP-21-21

Dam Name: Slate River Dam #2, Inventory No. 029013

Applicant: Mike Wilson

Total Project Cost: \$6,800.00, Grant Amount Requested: \$3,400.00

Project Type: Emergency Plan Development (EAP Emergency Action Plan or EPP Emergency Preparedness Plan)

Dear Mr. Wilson:

Congratulations! Based on Department of Conservation and Recreation's (DCR) review and assessment of your application, your project was approved for funding by the Virginia Soil and Water Conservation Board on May 20, 2021. The total funds awarded from the DSFPPAF is \$3,400.00. Terms, condition(s) or adjustments that apply to your award or that must be satisfied prior to reimbursement are as follows:

- None

Please review the agreement documents emailed or enclosed with this communication as well as the grant manual used for application for important guidance information. Of particular note are the following requirements:

1. Virginia Resources Authority (VRA) will email Grant Agreements to recipients using the email address provided in the original application. If no email address is provided, the Grant Agreements will be sent via U.S. mail. Recipients shall return the signed Grant Agreement **within 90 days of receipt** to:

Address:

Kimberly S. Adams
Virginia Resources Authority
1111 E. Main Street, Suite 1920
Richmond, VA 23219
kadams@virginiaresources.org
(804) 616-3449

600 East Main Street, 24th Floor | Richmond, Virginia 23219 | 804-786-6124

*State Parks • Soil and Water Conservation • Outdoor Recreation Planning
Natural Heritage • Dam Safety and Floodplain Management • Land Conservation*

ATTACHMENT M-2

VRA will return the executed signature page to you via email unless otherwise requested. Grant agreements not signed and returned within 90 days will have all funds rescinded without further notice.

2. Grant funds shall be disbursed on a reimbursement basis only. All requests for disbursement shall be delivered to DCR for approval according to the reimbursement terms of the grant manual. The grant manual may be found at <https://www.dcr.virginia.gov/dam-safety-and-floodplains/dsfpm-grants>. DCR shall forward the approved request to VRA for payment to the applicant. VRA will not disburse funds prior to receipt of a fully executed Grant Agreement.
3. All projects are required to be completed within the twelve months following the issuance of a signed agreement or within the approved extension period if applicable. Grant funds will be disbursed on a reimbursement basis after the completion of the approved project. Reimbursement requests must be submitted within 90 days following passage of the authorized project completion date and only after the recipient has submitted the engineering work to the Regional Dam Safety Engineer for approval or to DCR Floodplain Management if a flood prevention project. Projects not completed and without an authorized extension will have all funds rescinded without further notice.
4. ***All dam safety grant deliverables must be submitted through the Dam Safety Inventory System (DSIS). DSIS forms and data are located at <https://www.dcr.virginia.gov/dam-safety-and-floodplains/ds-dsis>***
5. No project will be reimbursed without an active Regular or Conditional Operation and Maintenance Certificate.
6. Requests for reimbursement for Dam Break Inundation Zone Analysis, Mapping, and Digitization (DBIZ) and Emergency Action or Preparedness Plan Development (EAP/EPP), must include proof the DBIZ has been filed with the local planning department and the EAP/EPP with the local emergency management coordinator and the Virginia Department of Emergency Management. No reimbursement will be provided without this proof of filing.

Again, congratulations on your selection as a grantee of the DSFPPAF. Should you have any questions, please feel free to contact me at (804) 786-5099 or Wendy.Howard-Cooper@dcr.virginia.gov.

Sincerely,

Wendy Howard Cooper
Director, Dam Safety and Floodplain Management

Please consider an appointment to this Board.

Buckingham Community Needs Assessment White Paper

Prepared by Zach Jackson and Sarah Lyon-Hill, Ph.D.

Buckingham County faces a number of complex challenges, many of which are interrelated and cyclical. For instance, the County ranks among the lowest in Virginia in per capita income and median household income, despite neighboring one of the most affluent counties in the Commonwealth (Albemarle). Buckingham also experiences a higher incidence of households in poverty, skills-deficient adults, and long-term unemployment compared to the state.

Building economic opportunity in Buckingham could address some of the County's challenges, however, this presents a challenge in and of itself. Total employment in Buckingham County fell by 12% (-579 jobs) from 2015-2020, despite a modest increase in population during the same period. Additionally, just under 40% of the County's jobs were supplied by the public sector in 2020. Business development activities are limited; for every new business born in Buckingham County, an existing business died in 2018, according to Business Dynamics Statistics provided by the Census Bureau. Finally, the local economy by its labor force; 77% of workers living in Buckingham County worked elsewhere in 2018, meanwhile 40% of working-age adults did not work in 2019.

Buckingham Ready, a motivated group of local decisionmakers, community leaders, and residents, has taken steps toward addressing these many challenges. In partnership with the Crystal Cathedral, Buckingham Ready was successful in securing a small grant from the Charlottesville Area Foundation, however, the scope of the group's work exceeds this funding. Buckingham Ready presently has a unique opportunity to combine this funding with a grant opportunity from the United States Department of Agriculture Rural Business Development Office.

In partnership with Buckingham Ready and the Crystal Cathedral, the Virginia Tech Office of Economic Development (VTOED) proposes a comprehensive, community-wide needs assessment to better understand the challenges facing Buckingham County and barriers to economic and community vibrancy. This analysis will focus on the following five areas:

- Economic challenges, including barriers to entrepreneurship, retention, and expansion;
- Socioeconomic challenges, including but not limited to poverty and educational attainment;
- Labor force challenges, including skills-gaps, wages, and underemployment and long-term unemployment;
- and supportive services for businesses and workers, including childcare, transportation, and housing.

VTOED suggests a four-phased approach to this project:

- I. First, VTOED would collect secondary data related to each focus area. VTOED would use publicly available data provided by federal agencies such as the Census Bureau, the Bureau of Labor Statistics, the Department of Housing and Urban Development, etc. VTOED would also utilize proprietary data to further analyze each area. Data will be collected at the regional, county, and community level. VTOED would then conduct, 3-5 interviews with local leaders, stakeholders, and relevant community members for each focus area. VTOED will combine and analyze data to create a detailed description of key needs in Buckingham County by focus area and by different regions of the county.

- II. Next, VTOED will analyze relevant literature and case studies related to each focus areas to develop preliminary strategies and recommendations to overcome challenges in each focus area.
- III. In collaboration with Buckingham Ready, VTOED will organize a facilitated session for each focus area. Each session will begin by VTOED sharing key findings from the earlier phases of this project with participants. Then, VTOED will facilitate a conversation where participants can respond to these findings, share their opinions and perspectives, discuss solutions and opportunities for partnership, etc.
- IV. Finally, VTOED will develop a useable final report that conveys a data-driven, community level understanding of each focus area in Buckingham County and actionable recommendations and strategies aimed at overcoming challenges identified through this process.

If successful, this project will deliver: a foundational understanding of Buckingham County and the challenges faced by its residents; opportunities to unite and motivate stakeholders; and data-driven strategies aimed at addressing challenges uncovered throughout this process. Overall, this project could present an important first step towards restoring economic and community vibrancy to Buckingham County and improving the quality of life for County residents, especially economically disadvantaged residents.

SUBJECT: BUDGET YEAR 2020-2021 REIMBURSEMENTS

Dear Honorable Board Members,

The end of the fiscal year is upon us and I appreciate your due diligence in administering sound fiscal judgement over the county's overall budget. I personally would like to thank each of you for your continued support of my office. As we enter into a new budget year, and in an effort to balance the past, I respectfully request the below transfers and reimbursements to achieve an ending year Surplus.

Due to vacancy savings throughout the past fiscal year, a \$41,500 surplus accumulated. I ask that this amount be rolled over/transferred into my current fiscal year budget (FY2021-2022) to upgrade and replace obsolete Less Lethal Devices that have been in service since 2013. By doing so, it will give my deputies additional means other than deadly force to diffuse volatile situations and ultimately keep them safe.

With that being said, I respectfully request the Board approve these transfers and reimbursements as well as the rollover to zero-out the ending fiscal year budget (FY2020-2021). If you have any questions concerning this request, please feel free to call me in my office at (434) 969-1772. I thank you in advance for your time and consideration in this request.

Sincerely,

William G. Kidd, Jr.

From: E. M. Wright, Jr.
Re: Redistricting
Date: August 2, 2021

At the July Board meeting I asked that you consider taking action at your August meeting on redistricting.

If you are ready to proceed,

I ask that you consider taking the following action:

1. Whether the process will be In House or will be Outsourced.
2. Establish a 2021 Redistricting Committee, needed whether in House: or outsourced
 - A. This Committee will consider the district lines of the County as results of the 2020 census
 - B. Make a recommendation to the Board of Supervisors
 - C. The committee would consist of:
 - i. All the members of the Buckingham County Board of Supervisors (Chairman will be chairman)
 - ii. Chairman/President of the Democratic Party
 - iii. Chairman/President of the Republican Party
 - iv. Chairman/President of the NAACP
 - v. Chairman/President of the Buckingham Voters' League
 - vi. Chairman, Buckingham County School Board
3. Establish a Working/Support Group of County staff, needed whether in house or not:
 - A. The Working/Support Group will provide support for the 2021 Redistricting Committee by providing or evaluating options that will meet legal requirements and the criteria set forth
 - B. The committee would consist of:
 - i. The County Administrator (will be chairman)
 - ii. Planning and Zoning Administrator,
 - iii. Technology Manager,
 - iv. EMS Coordinator,
 - v. the Registrar,
 - vi. the County Attorney; and
 - vii. the County Administrator's Administrative Assistant.

Board of Supervisor
August 2, 2021
page 2

- 4 Adopt guidelines for the redistricting, whether in house or outsourced
 - A. These guidelines will be the criteria for the plan that will be recommended by the 2021 Redistricting Committee
 - B. The guidelines/criteria will be:
 - i. create districts whose population falls within five (5) percent of the ideal district.
 - ii. have boundaries that will be geographically contiguous where possible and politically fair, in that they do not dilute the voting strength of one party to the benefit of another.
 - iii. If possible, not split the current boundaries. County, Precincts can be established with no more than five thousand (5,000) registered voters and no fewer than one hundred (100) registered voters.
 - iv. not diluted or concentrated racial minorities into one district.
 - v. If possible, not draw incumbents out of their district.
 - vi. Recognize "Communities of Interest"- that is, groups of voters with common interests.
 - vii. Comply with all Legal Requirement.

- 5 Appropriate Funds for the Process
Appropriate \$20,000.00 from the present ending year balance of the present budget year.

If you want to move forward as outlined above, **a motion and second to: do the redistricting of the voting districts in Buckingham County in house; to establish a 2021 Redistricting Committee as outlined above with its purpose as outlined above; to establish a Working/Support Group for the 2021 Redistricting Committee as outlined above; to adopt the guidelines/criteria for redistricting as outlined above; and to appropriate \$20,000.00 from the ending year balance to the redistricting process will be needed.**

Please feel free to modify as you are inclined.

Informational Items:

- 1 Prison Population:
 - A. The Virginia Legislature has changed the way inmates are counted. Previously, they were counted where they were housed at census time.
 - B. That has changed. The Code of Virginia now provides:
§ 24.2-314. Population data; reallocation of prison populations
 - A. Persons incarcerated in federal correctional facilities and in state and local correctional facilities, as those terms are defined in § 53.1-1, shall be counted and reallocated for redistricting and reapportionment purposes in accordance with the provisions of this section and the following:

Board of Supervisor
August 2, 2021
page 3

1. A person incarcerated in a federal, state, or local correctional facility whose address at the time of incarceration was located within the Commonwealth shall be deemed to reside at such address.
2. A person incarcerated in a federal, state, or local correctional facility whose address at the time of incarceration was located outside of the Commonwealth or whose address at the time of incarceration cannot be determined shall be deemed to reside at the location of the facility in which he is incarcerated.

C. That means most of the inmates at the two correctional facilities will not be counted in Buckingham but in some other locations and inmates from Buckingham at other correctional institutions will be counted in the various districts here in the County.

2 . Effect of reapportionment on appointments and terms of local officers, school board and planning commission members

- A. This redistricting will not affect current terms
- B. The Code of Virginia provides:
§ 24.2-304.6. Effect of reapportionment on appointments and terms of local officers, school board and planning commission members:
County, city, or town officers, including members of the school board or planning commission, in office on the effective date of a reapportionment or redistricting ordinance, shall complete their terms of office, regardless of loss of residency in a particular district due to reapportionment or redistricting.

The Honorable Justin D. Midkiff
Clerk of the Circuit Court
County of Buckingham

Don Matthews, Board Chairman
County of Buckingham

Audit Period: January 1, 2020, through March 31, 2021
Court System: County of Buckingham

We have audited the cash receipts and disbursements of the Clerk of the Circuit Court for this locality for the period noted above. Our primary objectives were to test the accuracy of financial transactions recorded on the Court's financial management system; evaluate the Court's internal controls; and test its compliance with significant state laws, regulations, and policies.

Management's Responsibility

Court management has responsibility for establishing and maintaining internal controls and complying with applicable laws and regulations. Internal control is a process designed to provide reasonable, but not absolute, assurance regarding the reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations. Deficiencies in internal controls could possibly lead to the loss of revenues or assets, or otherwise compromise fiscal accountability.

We noted no matters involving internal control and its operation necessary to bring to management's attention.

Justin D Midkiff, Clerk of the Circuit Court
Don Matthews, Board Chairman

Re: Courthouse Committee Update

The Courthouse Committee consisting of Supervisor Chambers, Supervisor Miles, County Attorney Wright, Daniel Queen and myself met with the one firm that provided a bid to evaluate and repair certain parts of the Courthouse. The Committee will continue to meet to provide a scope of work to the firm to get an overall estimate of the depth of the project. As we get the project narrowed down we will be coming back to the full Board with a contract proposal before any work is done.

CRC July 2021 Items of Interest

New Ventures

- CRC was awarded \$2 million in *Virginia Housing*, Planning District Commission Housing Development Program funds. Funds will be utilized to assist the region's housing partners in establishing 20 affordable housing units.
- Buckingham Branch Library was awarded \$55,000 in USDA grant funds for equipment for the new library.
- CRC selects eleven (11) consulting firms for the NEW CRC On-Call Consulting Program. Once firms are under contract with the CRC, member counties, including towns and IDA's and Schools Boards will have direct access to these firms for services without issuing a RFP for services.
- CRC & local government representatives participated in Virtual Meeting with representatives from the Northern Virginia Regional Tax Board as well as other interested localities to learn about the process of establishing a possible Tobacco Tax and Regional Tobacco Tax Board.
- CRC assisted Lunenburg County in submitting a VDOT Transportation Alternative Set Aside grant pre-application to fund bike lanes on Route 635 (Oral Oaks Road).
CRC assisted Victoria in submitting a grant application to DHCD for Virginia Statewide Business District Resurgence funds to renovate the former Steps building in Victoria.
- CRC assisted Virginia's Heartland Regional Industrial Facilities Authority (VHRIFA) in submitting a grant application to the Tobacco Commission to fund a Virginia's Heartland regional Industrial Park Onsite Water Supply PER.
- CRC assisted the Longwood Real Estate Foundation in submitting a grant request to the Virginia Tobacco Commission for construction funding for the SEED Innovation Hub in downtown Farmville.
- CRC staff assisted the Town of Victoria IDA in submitting a grant application to DHCD for Economic Development & Entrepreneurship Funds to make repairs and improvements to the old STEPS building.
- CRC staff assisted the Town of Blackstone in submitting a grant application to DHCD to request Industrial Revitalization Funds to assist with a hotel adaptive reuse of the former Virginia United Methodist Assembly Center.
- CRC staff assisted Prince Edward IDA in partnership with Kinex to seek Tobacco Commission funding for broadband fiber buildout.
- CRC staff are assisting Longwood University with an EDA Application for Construction funds for Seed Innovation Hub. Preliminary information has been submitted to EDA for review comments.
- CRC staff are assisting Cumberland County in pursuing VDOT Economic Development Access funds.
- **Next CRC Meeting, Wednesday, August 18, 2021 at 9:30 a.m., Farmville, Virginia.**

Activity

- Dillwyn CDBG Housing Rehabilitation Project – The Contractor working on 84 White has completed all work, except for an ADA ramp that will be installed once the former home is removed. This is the final house for the project.
- Phenix Water System Project – The Town has received a Good Water Quality test on the well on Randolph Street. The Town has submitted a connection plan to VDH for approval. Environmental review is on hold pending approval by VDH. The Town is weighing its options on accessing the loan portion of the VDH funds.
- Regional Emergency Planning – The Draft Regional Resource Inventory has been completed and is being reviewed by the local emergency managers. The Draft Regional Continuity of Operations Plan is close to completion and the staff are working with local Emergency Planners to schedule a training class in the Fall for managing volunteers.
- DEQ Watershed Implementation Plan (WIP) III Assistance: The semi-annual report to DEQ was submitted. The CRC conducted the first educational series – How Your Watershed Works to local government participants.
- PE County Access Road Project Administration: County & Consultant are working with VDOT to address RW issues.
- Nottoway County Comprehensive Plan: An Interactive Community Meeting was held on July 20, 2021 to collect community input for the Plan. The staff are also working on the first three sections of the Plan.
- CRC Regional Hazard Mitigation Plan Update: Staff are currently working on the first three sections of the Draft Plan.
