**STATEMENT OF CHANGES IN ACTIVITIES AND SOURCES OF FINANCING \***

Overall the proposed budget shows an increase of approximately 15% from FY 2021-22, or \$24.3 million. And includes a proposed decrease of full-time equivalent positions of fourteen point eight (14.8). When the interfund transfers, contingency and ending fund balance are removed the operating increase is \$15.3 million. The increase in budget is mostly due to grant funding including the American Rescue Plan Act (ARPA) including projects that were not concluded in the current year. The decrease in FTE is mostly due to reductions in the Law Enforcement Fund. Overall, the General Fund remained stable with the 14% increase overall being from SRS funds that were previously budgeted directly to the Law Enforcement Fund. This was then transferred to the Law Enforcement Fund. General Fund operating only increased 6%, or \$550,600 thousand mostly due to inflation. The Law Enforcement Fund decreased 2%, or \$284.4 thousand, due to no long term funding and no more fund balance. The Law Enforcement Fund also had a reduction of 10.5 FTE due to inflation and no more fund balance. The Forestry Reserve Fund increased 29%, or \$900.4 thousand, due to carryover and increased timber sales. The Public Health Fund decreased 61%, or \$5.3 million, due to COVID-19 grants that have ended. The Grant Projects Fund increased 51%, or \$1.9 million, mostly due to ARPA funding. The Animal Shelter and Control Fund increased 33%, or \$382,800 thousand, due to the increase in the local option levy. The Parks Fund increased 28%, or \$673.0 thousand, due to increasing camping fees. Transit Fund has an increase of 25%, or \$2.7 million, due to increased grant revenue. The Airports Operating Fund increased 52%, or \$501.3 thousand, due to inflation including significant increases in aviation fuel. The Airports Capital Fund increased 221%, or \$8.9 million, due to an increase in grant funding. The Property Reserve Fund increased 11%, or \$2.3 million, mostly from projects to be funded by ARPA. The Equipment Reserve Fund increased 100%, or \$5.5 million also mostly from ARPA projects. Josephine County requires the majority of county programs be self sustaining through fees, grants, state contracts, gas tax dollars, and other revenue sources that DO NOT rely on property taxes or General Fund support. Monies for dedicated purposes are required to be budgeted and held in the fund in which said purposes are performed.

Budget Message  
Josephine County, Oregon  
Fiscal Year 2022-23

April 19, 2022

To the Citizens of Josephine County  
and Budget Committee Members:

I am pleased to present the Proposed Budget for fiscal year 2022-23 for Josephine County. As the elected Governing Body, the Board of County Commissioners is responsible for establishing budget goals and directives as well as defining strategic planning. They are also responsible to appoint a Budget Officer to prepare the Proposed Budget under their direction. The Budget Committee is responsible for reviewing the Proposed Budget using the goals and directives set by the Governing Body. In addition, the Budget Committee is required to receive public comment at least once during the Budget Committee meetings, this year we will have public comment at each meeting.

**The Budget Document**

This is the first meeting of the Budget Committee for the 2022-23 budget and this is part of the public process for reviewing the Proposed Budget. Citizens are encouraged to join us in the Anne Basker auditorium or via Zoom, call in, or submit comments in writing, either by mail to the Board of County Commissioners Office or by email to [bcc@josephinecounty.gov](mailto:bcc@josephinecounty.gov). The opportunity for public testimony on the proposed budget will be provided at each meeting.

We have scheduled budget adoption in six weeks, which should provide adequate time for all members of the public to deliver their thoughts and comments to the Budget Committee and the Board of County Commissioners.

The Proposed Budget meets all the requirements of Oregon Budget Law. All budgets are in balance as required by Oregon Budget Law, which means that the budgeted requirements (expenditures and ending fund balance) are equal to the estimated resources (beginning fund balance and revenues) available during the budget year. The estimates of resources and expenditures must be reasonable and reasonably likely to prove correct, based on the known facts at the time. All such estimates presented are reasonably likely to prove correct.

The Proposed Budget incorporates many of the best practices in budget presentation recommended by the Government Finance Officers Association (GFOA) of the United States and Canada. Josephine County has earned the GFOA Distinguished Budget Presentation Award since 2012, ten years in a row. This award is the highest form of recognition in governmental budgeting and shows that our budget document reflects nationally recognized guidelines for

effective budget presentation. It also recognizes our open and accountable budget process, as well as our commitment to provide an accessible budget document to the citizens of Josephine County.

We record these budget meetings and make them available on-line. The Budget Book and additional budget information is available on the county website at [www.co.josephine.or.us](http://www.co.josephine.or.us). In addition, a printed version of the Budget Book is available for review at the Grants Pass Library and at the Board of County Commissioner's office.

### **Budgeted Revenue Sources**

Grants as well as fees and charges for services are restricted to a specific use. They represent 81% of revenue in this budget. The other 19% is made up of taxes and general fund fund balance (9% from property tax, 6% from timber revenue, 0.1% from marijuana sales tax). The General Fund is the fund of last resort, therefore any budget with general fund support that does not use the full appropriated budget does not retain the general fund portion of their appropriation, it remains in the general fund. Any designated funding (i.e. gas tax) remains in the fund in which it will be used and will reside in that fund's beginning fund balance. It is designated.

### **Proposed Budget Goals and Directives**

Our budget goals and directives which provide department managers general oversight and direction, focusing on the big picture rather than line items at the individual program level, are the same as the last few years. Each department manager has included in their budget how their programs meet the following goals set by the Board:

- Improve community outreach and communication to the public by increasing efficiencies within County departments and providing enhanced service to citizens.
- Develop a sustainable plan for all mandated and essential County government programs.
- Provide access to County services to the citizens of Josephine County in a transparent, open, and efficient manner.

In addition to budget goals, the budget directives for 2022-23 remain as the following:

- Budget only for mandated and self-supporting programs.
- Budget at current (or reduced) service levels. Any additions need to be based on documented revenue sources.
- Address County goals and clearly define program purpose and expected outcomes.

### **Strategic Planning**

Strategic planning was developed by the Board of County Commissioners in various meetings throughout the year and the Board has the following goals:

1. Provide stable funding for law enforcement
2. Create a safe community (move toward sufficient law enforcement funding and provide fire protection throughout the county)

3. Provide for quiet enjoyment of private property

The planning of this is done via task groups and citizen involvement. Multiple options are currently under advisement. The length of time these solutions will take, and the probability of success will necessitate using every available funding source (including one time funding such as SRS, fund balance from law enforcement as well as general fund and any admin fees from COVID funding) for this fiscal year presented, as well as some pulling back of current law enforcement services.

The General Fund has the following sources of revenue:

- Property Taxes (increase at 3.1% per year) - \$5.2m
- State Marijuana Tax (17% disbursement, reduced by 50% after Measure 110) - \$538k
- Marijuana tax (local 3%) - \$190k
- Timber Revenue (O&C, SRS etc) - \$4m
- ARPA admin fee (**one time money**) - \$1.7m

NOTE Timber revenue is on a 3 year extension, the Federal Gov't has attempted for several years to get us to not be reliant on these funds and they should be considered one time funds. This extension is using COVID funding. This year we will return to the practice of depositing timber funds (SRS, O&C, etc) directly to the General Fund even though it is transferred to Law Enforcement Fund (they are unrestricted funds).

In the submitted budget we are using 76% of the current year general fund revenue for Law Enforcement, 49% of which is (or should be) considered one-time funds. At the end of this budget General fund will be below the \$6m minimum and Law Enforcement fund balance will be \$0.

**Proposed Budget Development**

In the Budget Book, each fund has a summary Resource and Requirements page, followed by sections for each department within the fund. Each department displays expenditures for the proposed budget, the current year adopted budget, and the previous three years of expenditures. Following the data is a brief narrative of the purpose of the program, how budget goals and directives are addressed, accomplishments over the current year, and five-year vision.

**Summary of Funds**

In the Introduction to the Proposed Budget Book – Financial Summaries Section you will find a Summary Comparison of Budgets that compares last year to this year. Some of the more significant highlights are:

1. The total proposed budget for FY 2022-23 for all funds is \$195,847,000 – a 14% increase over the prior year adopted budget before supplemental. The increase over prior year is mostly from \$15.6 million in ARPA funding, and \$8.9 million in capital grants for the Airports. Exact, by fund, changes in both appropriation and operating expense budgets can be seen on page 14 of the introduction section.

2. The total direct expenses for payroll, supplies, and capital (excluding internal transfers and ending fund balance) for all funds increased \$14.7 million, or 13%. The increase is mostly due to ARPA funding and capital grants for the Airports as well as reductions in several funds, most notably a \$4.7 million reduction in Public Health due to COVID funding that has ended.
3. Total Full-time Equivalent (FTE) positions decreased from 497.63 in 2020-21 to 484.28 in 2021-22 and decreased again in 2022-23 to 466.98. This year's decrease primarily includes 16.5 in law enforcement, jail and juvenile detention. See page 1 in the Introduction section for details.

## **Significant Changes to County Programs**

### General Fund

The General Fund is in balance. We are able to fund all the department requests for support; we are able to increase our support to the Law Enforcement Fund another 2.5% as compared to last year's increase of 20% and 2020/21 increase of 30% (excluding SRS); and we are budgeting no ending fund balance. See Law Enforcement section page 4

The General Fund is used to fund essential county services such as Clerk, Elections, Assessor, Treasurer, Surveyor, Planning, Veterans Services, and other county departments. The Board directed these departments to budget only for mandated services unless the activity is funded by grants or outside revenues. All departments are operating on limited hours – none of them are open 8-5, M-F due to budget reductions in prior years which have never been restored. The Proposed Budget requests a spending appropriation of approximately \$4.2 million in general fund support on general fund departments (Assessor, Clerk, Treasurer, etc.), a 7% decrease. The largest single use of general fund is the transfer to the Law Enforcement Fund of \$7,746,600 (up from \$2,750,000 (plus the timber revenues of \$3.3m) in 2019-20 – 3 years ago).

The proposed general fund budget for 2022-23 totals \$19,241,100 excluding ending fund balance. General Fund direct expenses (for payroll and supplies & services) increased \$550,600 or 6%. In addition to general inflationary increases, program changes include a review of every position. Total FTE decrease is 1.58.

### Law Enforcement Fund

The budget request of \$7.7 million in general fund support to the Law Enforcement Fund would include \$4.0M Federal Timber funds and \$3.7M general fund/property tax transfer. This brings the General Fund fund balance to a projected \$5,854,900, below the \$6, minimum fund balance. The Law Enforcement fund balance is projected to be \$0. This requires a reduction of 10.5 FTE in order to balance. The majority of these positions are already vacated through attrition.

### Adult Jail & Juvenile Detention Fund

The citizens of Josephine County approved a \$0.93 cents per thousand five-year levy in May 2017 and renewed the levy November 2021. We are in the sixth year of that levy and estimate the levy will provide approximately \$8M for operation of the Adult Jail and Juvenile Detention facilities. Levy funds grow only with the assessed value of property, just a little over 3%. Inflationary pressure on the fund is in excess of 10%. This budget decreases staffing levels by 5

in the jail and 1 in detention. With continued conservative management of these funds the fund balance should carry both jail and detention through projected inflationary times ahead.

#### Animal Shelter and Control Fund

The citizens of Josephine County approved an \$0.08 cents per thousand five-year levy in May 2017. The levy was renewed with a new rate of \$0.11 cents per thousand passed in November 2021. This levy will provide approximately \$974,000 for operations in the 2022-23 fiscal year. The increase will allow for an additional staff position and allow room for the inflation pressure.

#### Capital Projects

Facilities Services will be doing a seismic upgrade to the dispatch center with a state grant (\$950k), replacing the roof on the jail and Juvenile Justice (\$400k and \$200k respectively), and doing repairs to the exterior of the courthouse to prevent water intrusion (\$200k).

We will be replacing the evidence warehouse using covid money restricted to Capital projects for Law Enforcement (\$2.7m)

American Rescue Plan Act has earmarked \$17m in funding to Josephine County. A portion of that will be used for infrastructure. We have budgeted \$9.4 million in the current year property reserve for:

- Justice Building renovation - \$2.5m (the refund of this reserve for evidence warehouse)
- Grants Pass Airport - Potable water \$2.5m
- Grants Pass Airport – Sewer Line extension \$1m
- Illinois Valley Industrial Park – fire suppression pond \$730k
- Jet-A Fuel System \$575k
- Parks Tom Pearce Playground \$319k
- Fairgrounds – Outdoor Event Center \$500k
- Fairgrounds – Indoor Arena upgrades and ADA compliance \$300k
- Fairgrounds – restroom upgrades \$165k

#### Other Funds

Airports – In addition to the significant investment in ARPA projects, Airports has obtained multiple FAA and COAR grants for runway extensions and other improvements at both airports.

Public Health – Public Health’s expansion of well over 300% is constricting back to just 8% over their 2019-20 budget as they responded to the public health emergency. We encourage you to go review the fiscal year 2019-20 and 2020-21 accomplishments found in the Special Revenue tab under Public Health, page 4.

#### **COVID-19 funding**

CARES provided for immediate public health capabilities, as well as small business assistance, moving to telework, worker leave, and a significant investment into public safety. The county’s general CARES grants was \$4,940,400. The state retained some CARES funding and is passing that through as specific purpose grants. Some identified as CARES funds.

ARPA was a Federal direct 2-year allocation of \$16,983,324. The County convened a task force in order to review applications and make recommendations to the Board of County Commissioners. The first recommendation was to check the health and vitality of local businesses and SOREDI and IVCDO assisted in small business grants that totaled \$893,000. Then, after significant work, the task force presented a slate of 40 projects that were deemed to have the largest long-term tangible impact on our community without any other possible funding streams. These projects are underway in this current 2021/22 budget, as well as the 2022/23 budget presented and will wrap up in the 2023/24 budget. The county has chosen to take the admin fee option from ARPA funding and is retaining nearly \$1.7 million dollars over the 2 years in the general fund.

Infrastructure and Jobs Act funding will be individual grants with specific purposes that will be administered through the State. These will be budgeted when individual grants are reasonably assured of being funded and we are able to estimate the amounts of those grants. When COVID funding comes through within specific programs the funding is not necessarily identified as COVID funding as the increase in funding can not necessarily be separated from historic funding for the same project.

### **Conclusion**

I look forward to reviewing the proposed budget with you and wish to thank the many individuals in the various departments who are responsible for preparing this budget. Special thanks go to Ruth Nelson, Assistant Finance Director and the entire Finance Office, who spent many hours ensuring that this budget document meets the collective requirements of the County, of Oregon Budget Law, and the best practice recommendations of the Government Finance Officers Association.

Respectfully submitted,

Sandy Novak  
Finance Director & Budget Officer

## *Josephine Approved Budget Goals*

- 1) Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.
  - 2) Develop a sustainable plan for all mandated and essential County government programs.
  - 3) Provide access to County services to the citizens of Josephine County in a transparent, open and efficient manner.
- \*Departments are to explain in their budget submissions how their budget(s) meet these goals.

## *The County Process – Budget Overview*

Josephine County uses zero based budgeting.

- ▶ Zero Based Budgeting is:
  - It's an approach to planning and decision making where each line item is reviewed and approved using current funding resources.
  - It involves a fresh start approach to showing each program and what its costs are to run that program at a certain level for the next year.
  - A tool for elected officials to set the direction of the County and identify wasteful expenditures and can be used for suggesting alternative course of actions.
  - Countywide we use accrual method of accounting and budget accordingly to include items for appropriate months. See Appendix section C for accounting policies at the end of the budget book.

## *Budget Overview*

- ▶ Funds grouped by CAFR Designation
  - Operational funds
    - General Fund – (Assessor, Treasurer, Clerk, Surveyor, Planning, Forestry)
    - Law Enforcement Fund – (Sheriff, District Attorney, Juvenile Justice)
  - Public Works Fund

- Reserve funds
  - Property (land and buildings)
  - Equipment (capital)
  - Roads & Bridges (PW)
- Special Revenue funds
  - Public Health
  - Building Safety
  - Grant Projects
  - Multiple

▶ **Fund Structure**

- Revenues, transfers, & ISF Indirect charges at Fund level vs. Dept level
- Expenditures (example)
  - Fund ex: Law Enforcement Fund (12)
  - Department ex: Office of Sheriff (29xx)
  - Program ex: Patrol (2935)
  - GL Code ex: Operating Supplies (43015)

▶ **Internal Service Funds:**

- Indirect Fixed Costs – at Fund Level
- Direct Fixed Costs – shown as internal vendors and expensed directly to departments (Building O&M, Fleet, and Insurance)

***ISF Departments***

- Finance
- Human Resources
- Information Technology & GIS (& Communications)
- Legal Counsel
- Law Library
- Property Management

***Internal Vendors***

- Facilities Services & Fleet
- Insurance Reserve
- Personnel Reserve

***ISF Methodology***

- Step 1 – Calculate ISF amount by taking ISF Budgets less revenue offsets. BCC sets ISF rate as percentage (currently 8.0%).
- Step 2 – Allocate ISF amount proportionally to Operating Funds based on Personal Service and Materials and Service budget (excluding Capital and pass-through payments).

## *Internal Vendors (Cost Methodology)*

- ▶ FAC – all costs based on square footage (currently .75 cents/sq. ft.):
  - Utilities
  - Repairs & Maintenance
  - Custodial
  - Landscaping
  - Depreciation (currently 25 cents)
- ▶ County Fleet -
  - Operation & Maintenance – rate based (Gas is actual cost)
  - Purchase/Replacement – rate based

## *Budget Directives/Guidelines*

- ▶ Based on Local Budget Law and Budgeting for Outcomes
  - Budgets for FY 2023 to be based on FYE 2022 current service level while addressing inflationary pressures.
  - Revenue projections with support for inclusion at Fund level
  - Expenditures – Department level (Departments: Offices, Divisions, Programs)
    - Reported at Service Levels - Mandatory and/or self supporting
    - Source of Revenue – document additions or reductions
    - Narratives describing program and relation to County goals
    - Funds supported by dedicated and/or outside sources need to balance revenues with expenditures
  - Personal Services Budget – prepared by Finance to estimate costs
    - Based on current payroll (January 2022)
    - Allocate at Department level
    - Vacant and/or new positions require justification paper
  - Capital Outlay
    - Limited to \$5,000 or above, requires justification paper
    - 5 Year Projection (County Charter requirement)
    - Expensed to related Reserve Fund (may require transfer from operating)
  - Transfers between Funds (at fund level)
  - Debt Service (at fund level)

## ***Budget Directives/Guidelines (additional FYE 2022 Specific)***

- ▶ Transfer to Law Enforcement from General Funds in the amount of \$7.7 million dollars minimum.
- ▶ Internal Service Funds are to maintain rates at 8%.

## ***Budget Changes after Adoption***

- ▶ Josephine County follows Oregon Budget Law processes regarding changes to the adopted budget.
- ▶ When the budget was adopted by the governing body (BCC); it set the legal expenditure limitations by appropriation. These limitations are detailed in the appropriation resolution.
- ▶ Appropriations may be increased or decreased, transferred from one appropriation category to another, or new appropriation categories created. The method used to amend the budget is determined by the budgetary change needed.
  - If the change involves a new fund or a new appropriation category, a **supplemental budget** is usually required.
    - *The governing body may adopt a supplemental budget at a regular public meeting if prior notice is given and the expenditures in the supplemental budget are 10 percent or **less** than of the budget fund being adjusted. If the expenditures are more, the governing body must publish the supplemental budget and hold a special hearing.*
  - If the change is a transfer of appropriation authority (and the corresponding resources) from one fund to another, or within the same fund, then a **resolution** transfer is allowed.
    - *A resolution may be adopted by the governing body and noticed to public similar to regular board meetings.*
  - In some cases (like Bond proceeds), the change falls within an **exception** to the Local Budget Law and the governing body may appropriate expenditures with no budget amendment required.

More information on the detailed process of a supplemental budget, resolution amending the budget and budget amendment exceptions can be found in the Oregon Department of Revenue “Local Budgeting Manual” on their website at

## Timber Harvest Revenue & National Forests- History

Timber Harvest Revenue to Counties goes back more than a century. In 1893, President Harrison created Forest Reserves, which were expanded by President Cleveland in 1897. In 1908, President Theodore Roosevelt created the National Forests. Also, in 1908, President Roosevelt signed an agreement that recognized the fiscal constraint to counties by lack of taxation on federally claimed land & enacted federal payments to counties & a share of timber harvests from these lands. The revenue from National Forest harvesting supported county road funds & eventually school funds. However, between 1970 & 1993, policies changed. In 1976, the National Forest Management Act was passed. In the 1990's, the cutting of old growth trees conflicted with the Clean Water Act, the National Environmental Policy Act & the Endangered Species Act. In 1990, the Spotted Owl was added to the endangered species list & it sharply decreased the ability to harvest timber from National Forests, decreasing the revenue to counties. Beginning in 1993 Congress recognized that revenues were declining & devised a payments program not based on harvest. This was called the Omnibus Reconciliation Act of 1993 (OBRA), providing an alternative annual safety net payment which was replaced by the Secure Rural Schools & Community Self-Determination Act of 2000 (SRS). A one-year extension of the SRS expired in September 2007 & had not been renewed by Congress despite efforts by the Oregon delegation & others by July 1, 2008.

History since the end of SRS:

- October 3, 2008: Congress passed the Emergency Economic Stabilization Act (Bailout) & the President Bush signed the four-year continuation & phase-out of the payments. This had a four-year payment reduction with the final year being 40% of the original payments of 5 million down from 11 million in 2011-12.

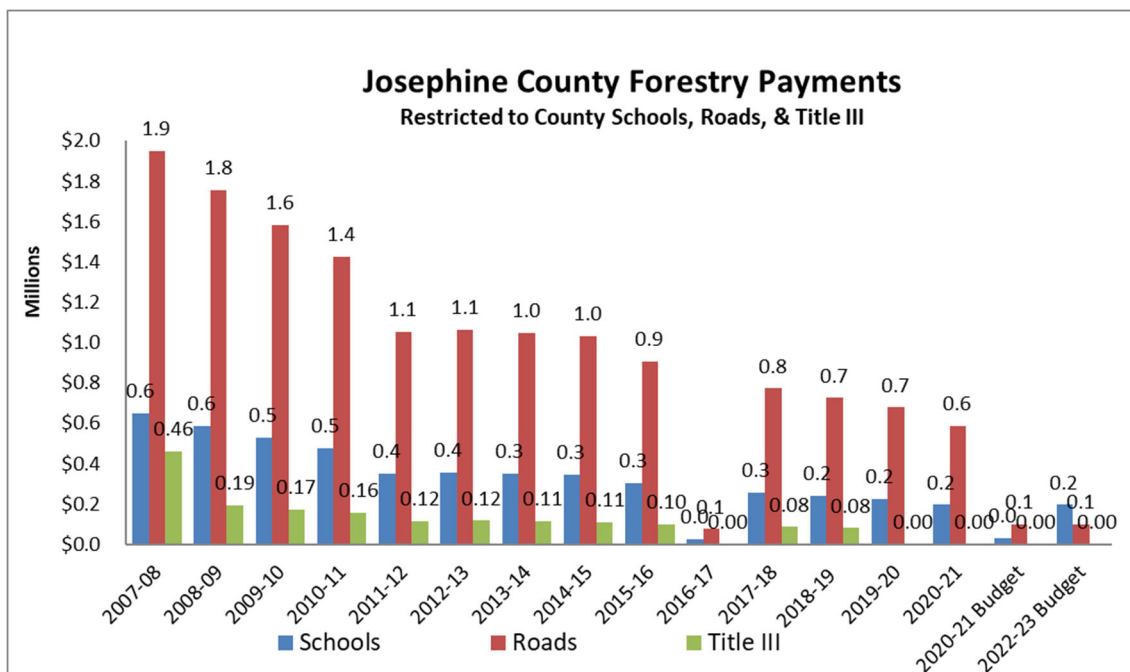

Recent History since the end of Bailout:

- 2012: The Transportation Act, signed by President Obama, included a one-time payment but only a percent of the final 40% payment was paid, or roughly \$4.7 million.
- 2013: O&C was approved under HR 527 Helium Stewardship Act & one more payment of roughly \$4.9 million paid in April 2014.
- 2015: the SRS Act was reauthorized by section 524 of PL114-10 to cover fiscal year 2014 & 2015 but paid in June 2015 of \$4.79 million & \$4.2 million in March 2016. And during July 2014 to June 2015 the County had no anticipation of funding & SRS funding reverted back to the Shared Receipts law of 1908 of actual timber harvest revenue. The County received \$52 thousand for Roads & \$2.1 million to Public Safety. Then the SRS Act was passed & the county received an additional \$981 thousand for Roads & \$2.6 million for public safety.
- 2016: The County received \$2.3 million in March 2017 for Public Safety; \$74.5 thousand for Roads & \$24.8 thousand for County Schools.
- 2017: The County received \$2.36 million in Shared Receipts & back payment of \$1.89 million for a total of \$4.25 million for the passage of 2018 SRS renewal. \$772 thousand for Roads & \$257 thousand for County Schools.
- 2018: Congress passed Secure Rural Schools Act extension in the Omnibus Appropriations Act in March and will include going back to 2017. The 2018 payment was to be 95% of the 2017 payment received slightly less amount of \$3.52 million for Public Safety and \$725 thousand for Roads, \$241.7 thousand for County Schools.
- 2019: During the year the SRS was renewed for two years. The payment received in April 2020 included \$3.3 million for Public Safety. Forestry payments were also received including \$677.9 thousand for Roads and \$226 thousand for County Schools.
- 2020: The County received \$3.3 million in SRS funding and \$904 thousand in forestry payments.
- 2021: The County received \$2.9 million in SRS and received \$780 thousand in forestry payments.
- 2022: The County budgeted \$3 million in SRS funding and \$130 thousand in forestry payments.
- 2023: The County budgeted \$4 million in SRS funding and \$293 thousand in forestry payments.

# O&C Lands - Bureau of Land Management

In 1916 the Federal Government reclaimed 2.8 million acres in Oregon that had originally been designated for a railroad. The lands, now known as 'O&C', are managed by the Bureau of Land Management. In 1926, the Stanfield Act provided that the counties also receive a share of the revenue from the timber harvests occurring on the O&C lands. Timber harvest dramatically decreased on the O&C lands, for the same reasons it has decreased in the National Forests.

## Timber/SRS/O&C Revenue History to Josephine County

## Local Property Tax Revenue Limitations

Property taxes are collected by local governments to support schools, roads, police and fire protection, and other services. Oregon’s property tax system is uniquely limited by two voter-passed constitutional amendments; Measures 5 and 50.

- A) **Measure 5:** approved in 1990, created a permanent limitation on property taxes of **\$10 dollars for general government** services, and **\$5 dollars for education services**. If the tax extended exceeds Measure 5 limits then tax compression occurs. Compression means if the local taxes are already \$9 dollars for general government and a \$2 local option levy passes, the County can only collect an extra \$1 dollar even though the voters approved \$2 dollars.
- B) **Measure 50:** approved in May 1997 (corrected Measure 47 approved 1996) and assigned a permanent rate to each taxing district that **cannot be raised without statewide-voter approval**. For 1997 the assessed value of the property is the real market value or 90% of the 1995 assessed value, whichever is lower. The assessed value of properties can only increase 3% annually. If the property has changed since 1995, increased values are calculated in comparison to the values of similar property that existed in 1995. Measure 50 cut the tax rates an average of 11 percent from their 1996-97 levels.
- **The permanent tax rate for Josephine County is \$0.5867 per \$1,000 of assessed value.** Because, at the time, the state calculated the county needs because they received over \$11 million annually from SRS federal funding. Unfortunately, this SRS funding ended years after.
- Josephine County’s taxable value is just under \$8 billion and raises roughly \$4.8 million.

- The county adopts a budget with expenditures over \$114 million. Illustrating the County receives most its revenues from other sources to operate its programs.

### Permanent Rates Analysis

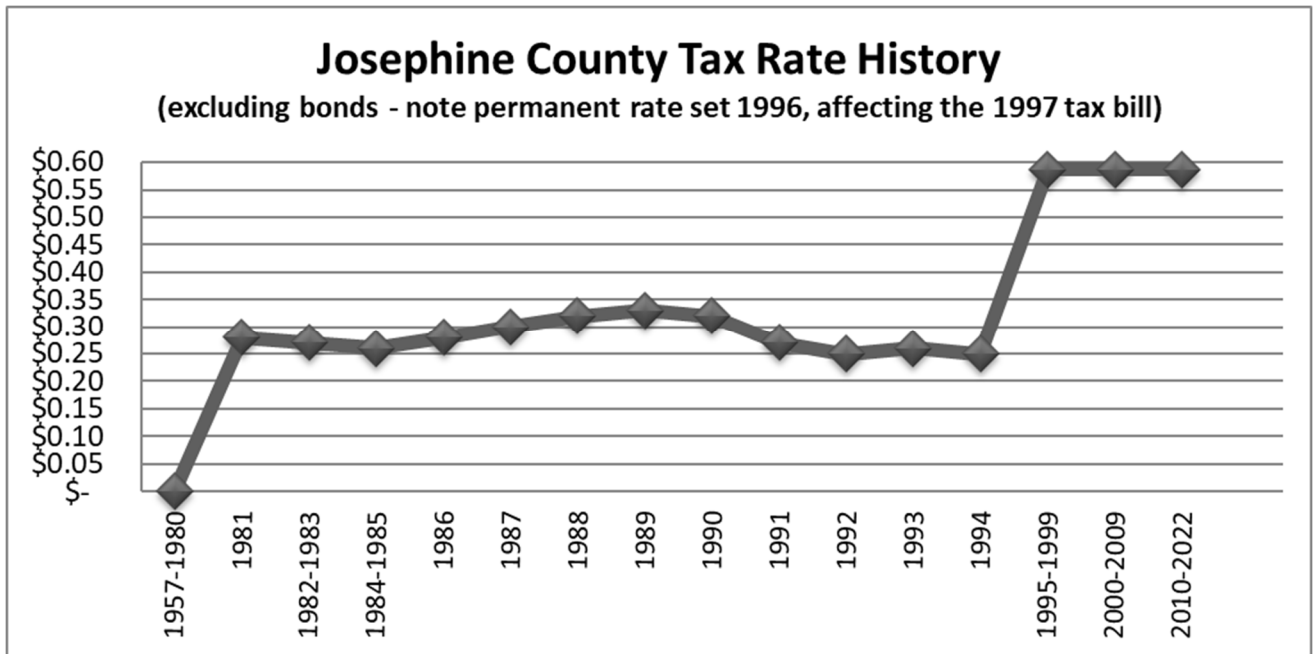

2 counties under \$1.00 ranges  
 14 counties between \$1.00 & \$2.50  
 10 counties between \$2.51 & \$3.57  
 8 counties between \$3.58 & \$4.50  
 2 counties between \$8.50 & \$9.00  
 \*average **\$2.59** (minus high/lowest 2)

### Josephine County is \$0.5867

### Comparable Counties to Josephine based on similar population

Benton - rate \$2.21  
 Coos - rate \$1.08  
 Douglas - rate \$1.11  
 Klamath - rate \$1.73  
 Linn - rate \$1.27  
 Polk - rate 1.72  
 Umatilla - rate \$2.85  
 Yamhill - rate \$2.58  
**average rate above of \$1.82**

\*and some of these counties have adopted local option levies in addition

- from 1957-1980 the County charged zero taxes and roughly **30 cents** from 1981 to 1994
- in 1995 the Measure 50 tax rate of **59 cents** was set & no rate increase since (**for over 25 years**)

- Josephine County’s permanent rate is 0.5867 per \$1,000 of assessed value.
- The money raised by the property taxes pay for the services shown in above graph.
- These figures are based on the Josephine County’s FYE 2023 Proposed Budget.
- The costs of services above net \$10.2 million annually and tax revenue net \$5.2 million, requiring the above data to be a percentage to show the closest representation of the expenditures.

**Major assumptions used:**

The projections assume an 8.5% inflation factor based on CPI March 2022 and actual debt service obligations. Future projections were based on historic % change after similar patterns beginning in 1973

## **EXPENDITURE SUMMARY EXPLANATION**

Josephine County has many departments that are funded primarily through grants and the nature of grants are to have an increase one year and reduction the following year when the grant closes. This is the reason for most percentage shifts from year to year. The following is a general explanation of the percent change between the budget for fiscal year 2021-22 and fiscal year 2022-23 where the change occurring is a result in significant change to the program.

### **GENERAL FUND**

- The 6% increase in the General Fund operating expenses is due in large part to inflation despite a slight decrease in FTE. The General Fund remains mostly stable with only a slight decrease in FTE. The overall increase is due in large part to moving the SRS funds back to the General Fund.

### **PUBLIC WORKS FUND**

- Public Works has slightly decreased their operating budget and maintained the same level of FTE. Their overall costs increase is due to an increase in transfers, and carryover from the prior year.

### **LAW ENFORCEMENT FUND**

- A reduction in FTE (7.5) has been budgeted to counteract the effects of inflation and maintain a stable operating budget (+1.4%) and a stable budget overall (+.12%).

### **COMMUNITY CORRECTIONS FUND**

- A significant increase in State funding increased the overall Community Corrections Fund budget while a decrease in FTE (-2) has kept the operating budget stable (-1.4%) and to offset inflation.

### **MENTAL HEALTH**

- Increases in both the operating (+11%) and the total Mental Health Fund Budget (+4%) are due to the increases in grant funding.

### **JAIL & JUVENILE DETENTION FUND**

- Both the operating budget (+5%) and the total (+7%) Jail and Juvenile Detention Fund budget remained stable due to a reduction in FTE (-6).

### **FORESTRY RESERVE FUND**

- The overall increase is due to an increased prior year carry over (\$539,000) and an increased transfer in from General Fund (\$408,400). The Operating Budget remains stable.

### **PUBLIC HEALTH FUND**

- The decrease of 61 percent operating expenses is due to reduced pandemic expenses.

### **GRANT PROJECTS FUND**

- The increase of 20 percent operating expenses (51% overall) is due to increased economic development spending and ARPA spending.

### **BUILDING AND SAFETY FUND**

- The increase of 14 percent operating expenses is due to increased transfers out to Community Development in the General Fund to cover increased expenses including higher FTE. Overall, the fund is stable.

#### **ANIMAL SHELTER AND CONTROL FUND**

- The increase of 16 percent operating expenses (33% overall) is due to increased funding from a new levy passing.

#### **JUVENILE JUSTICE SPECIAL PROGRAMS FUND**

- The increase of 14 percent operating expenses (35% overall) is due to increase funding from grants.

#### **COUNTY SCHOOL RESERVE FUND**

- The increase of 543 percent operating expenses (543% overall) is due to expected increases in SRS funding.

#### **FAIRGROUNDS FUND**

- Remaining stable with 2 percent increases to both operating and overall expenses.

#### **PARKS FUND**

- The increase of 15 percent operating expenses (28% overall) is due to increased camping activity as well as an inflation to both personnel and materials.

#### **TRANSIT FUND**

- The increase of 14 percent in operating expenses (25% overall) is due to the increases in grant revenues.

#### **AIRPORTS FUND**

- The increase of 52 percent operating expenses (66% overall) is due to increases in fees and charges for services and the increased costs of aviation fuel.

#### **AIRPORTS CAPITAL FUND**

- The increase of 221 percent operating expenses (221% overall) is due to increases federal grants for capital projects.

#### **INTERNAL SERVICE FUND**

- The increase of 6 percent operating expenses (17% overall) is mostly due to general annual inflation and beginning fund balance.

#### **FACILITIES SERVICES AND FLEET FUND**

- The increase of 7 percent operating expenses (7% overall) is due to general annual inflation and increased transfers to the equipment and property reserves for vehicles and capital improvements.

#### **CAPITAL PROJECT FUNDS**

- The Roads & Bridges Reserve Fund had a increase in operating expenses due to more capital projects this year. The Property Reserve Fund increased due to county projects largely funded by the American Rescue Plan Act. The Equipment Reserve Fund increased due to planned county purchases by Transit and other ARPA funded projects. A list of all County capital projects is in the capital section of the budget.

The following is a description of the sources of revenue for Josephine County.

**\*Beginning Fund Balance** - The Beginning Fund Balance represents prior year funds and cash carried forward into the current fiscal year. Fund Balances stay in the programs to be used for the same purposes the following year.

**\*Property Taxes** – The Josephine County permanent tax rate is \$0.5867 per \$1,000 of assessed value, as approved by voters in 1996 through measure 50. This accounts for about \$5 million in revenue a year. A local option levy property taxes passed in May 2017 and renewed in November 2021 is the \$0.93 cent for Jail & Juvenile Detention Levy. Another is the \$0.11 cent Animal Shelter & Control Levy. These three taxes are what make up the Property tax revenues for Josephine County local government.

**\*Marijuana Taxes** – Josephine County citizens passed a local sales tax of 3 percent on all recreational marijuana sold in Josephine County.

**\*Other Taxes** – This is mainly made up of State Shared Receipts like gas taxes, cigarette taxes, amusement device taxes, OLCC fine reimbursement, beer & wine taxes, marijuana state shared taxes. Additionally, PILT (Payment in Lieu of Taxes) from Department of the Interior for O&C railroad lands.

**\* Fees & Charges for Services** – Many county departments collect fees. A few examples include: Parks program for parking/camping fees, County Clerk for marriage licenses, Public Health for dog licenses, the Planning department for building permits, etc. Additionally, the County receives revenue for providing services to the general public like copies, rentals of county facilities, etc. This also includes revenue between county departments that charge for services but choose to use a county department rather than an outside vendor.

**\*Federal & State Grants (Intergovernmental Revenue)** – The County receives grants for specific purposes. Like WIC for pregnant women and young child nutrition, Transit for Elderly & Disabled persons transportation, etc.

**\*Fines (Intergovernmental Revenue)** – This revenue is considered intergovernmental revenue like shared receipts. The County receives fine revenue from state courts when applicable like the District Attorney's office for contempt fines, Sheriff Patrol for tickets, etc.

**\*Donations / Local & Private Grants** – These revenues are given to the county by local and private entities.

**\*Miscellaneous & Interest** – This accounts for revenues that do not fit under any other classification above. And includes interest which the county Treasurer is responsible for investment of monies for all of Josephine County funds and this category reflects the interest derived from those investments.

Major changes in fund balance for the county have been due to loss of Federal O&C SRS funding, which the county chose to give 100% to Public Safety/Law Enforcement Fund.

2013-14: saw an increase in state grant funding.

2014-15 & 2015-16: maintained current service level & used grant deposits that were received in 1 year for 2 years of funding.

2016-17 had a reduction of fund balance due to O&C/SRS funding for Public Safety Fund & planned capital balance expenditures.

2017-18: saw an increase in fund balance for Jail/Juv Detention and Animal Shelter/Control tax levy passage.

2018-19: increase is due to the passage of the Jail/Detention Levy and Animal Shelter/Control levy the county was able to save more.

Additionally, PILT and Forestry Timber Sales were much higher than anticipated.

2019-20: increase is due to PILT and Forestry Timber Sales and reserving the Timber Sale balance in Forestry Reserve Special Fund. There were reductions in Adult Jail/Juv Detention for use of funds with opening detention center and increasing jail beds.

2020-21: increase is largely due to an increase in the Roads and Bridges Reserve Fund beginning fund balance.

2021-22: increase is largely due to funding in response to the COVID-19 pandemic.

2022-23: Reduced Fund Balances largely due to spending of Covid19 Dedicated Funds

The County overall has stable funding for dedicated funds and General Fund. The main challenge in Josephine County is getting support for Public Safety funding. The local option levy for Jail and Juvenile Detention was approved for 17-18 through 21-22 and was re-adopted in 22-23. And the county does not have a patrol/detective/district attorney levy support yet. However, Josephine County is able to maintain essential service in most programs. The County requires that most programs be self sustaining through fees, grants, contracts and other revenue that do not rely on property taxes or General Fund support.

## General Fund & Law Enforcement - Fund Balance

General Fund & Public Safety are put together to show the relationship between the two since these funds have the most discretionary funding. Discretionary, meaning the Board of County Commissioners decide the use of the funds. There are still restricted revenue sources within each that must be used for the purpose they were received. And state mandated general government programs that must be supported. General Fund must maintain a steady balance to ensure financial solvency for the county.

2013-14: Saw slightly higher balances in General Fund due to Timber (Fire) Sales in Forestry, higher PILT (Payment in Lieu of Taxes), and Public Safety saw a higher balance to due to slightly higher O&C deposit (\$200,000) and higher General Fund support, and higher Sheriff and DA grant funding.

2014-15 to

2015-16: Is budgeted to use the remaining fund balance in Public Safety to stop layoffs. There will be a supplemental budget shortly after this budget is adopted to reflect the 2 year extension of O&C SRS Funding.

2016-17: Budget reflects use of fund balance and current revenues to maintain services at current low levels. The end balance to begin the 2017-18 budget year next July 1st, 2017 shows close to \$2 million dollars for Public Safety from federal timber sales.

2017-18: Increases for general fund were due to County Forestry Sales, PILT (Federal Payment of Taxes on Federal Land) and Marijuana Tax Income from the State. Law Enforcement Fund maintained all other services besides the

2018-19 to 2019-20: The increase to Gen Fund is due to PILT and Forestry Timber Sales.

2019-20:

2020-21: The decrease to General Fund was due to fewer than budgeted timber sales, increased Emergency Management expenses due to the response to COVID-19, and an additional transfer out to the Law Enforcement Fund for Dispatch. The Law Enforcement decrease is the use of fund balance to maintain patrol services at current levels.

2021-22: The very slight decrease to General Fund is due to increased transfers to the Law Enforcement Fund. Despite increased transfers to the Law Enforcement Fund there is a decrease in fund balance to nearly zero as fund balance continues to be used to maintain patrols at current service levels.

2022-23: Decrease in General Fund due to continued support of the Law Enforcement Fund. Decrease in Law Enforcement fund is due to rising costs and support of the fund remaining fairly steady.

2013-14 to 2015-16: remained steady and in 2014-15 to 2015-16 Public Works deliberately set up more funding to Reserve for planned major capital road/bridge projects.

2016-17: Public Works has a steady balance for operational needs.

2017-18 to 2018-19: The fund balance will slightly increase due to final year deposit in prior year from SRS Forest Service.

2018-19:

2019-20: Fund balance is slightly reduced due to moving funds to Capital reserve for major road projects.

2020-21: Fund balance is reduced due to a decrease in intergovernmental revenues.

2021-22: Fund balance is again reduced due to a decrease in intergovernmental revenues, specifically forest service receipts.

2022-23

Fund Balance increased due to lower spending and Interfund transfer than was expected in the prior year.

2017-18: New Jail & Juvenile Detention Levy passed in May 2017 and this Fund was created for that purpose.

2018-19: Hiring employees for this fund has proved to be a longer process and resulted in higher fund balance.

2019-20: The hiring gap has been reduced but not eliminated. And state grant funding has increased for Juvenile Detention.

2020-21: The hiring gap continues to shrink and the fund balance is beginning to stabilize.

2021-22: The fund balance had an increase due to CARES Act funds received in the prior year.

2022-23: Slight increase in Fund Balance is due to prior year's expenses being lower and supplemental Transfers In.

Community Corrections has seen a steady fund balance up until 2013-14 with state funding changes to reduce state prison populations.

2013-14: Ended higher due to Justice State Grant.

2014-15: Reduced slightly to implement new expanded programs for addictions and probation.

2015-16: Increased slightly due to state grant funding.

2016-17: Community Corrections has a steady balance for operational needs.

2017-18: JRI funding came in higher than anticipated and other state funding for out of prison monitoring.

2018-19: Second year of state bi-ennium funding and used balance from deposit in 1st year.

2019-20: Increase due to an increase in state funding.

2020-21: Decrease due to a budgeted transfer to property reserve for capital improvements.

2021-22: Increase due to budgeted operating expense reduction as well as beginning fund balance from capital improvement not done in prior year.

2022-23:

Increase due to expenses being lower than anticipated and a reduction in Transfers Out to Property Reserve

Mental Health's fund balance is based on Grant funding. This fund is mostly a pass through fund to a non-profit to operate Mental Health programs. The county does operate alcohol & drug planning and prevention and tobacco prevention with a staff of three.

2013-14 to Remained steady with prior year.

2015-16: Increased due to state grant for local non-profit to begin a Sobering Center for Josephine County.

2016-17: Similar to prior year. But state increased support for mental health and county passed to OPTIONS. Increase due to state funding from marijuana taxes for prevention & county programs changed to include Tobacco Prevention under Prevention Department in Mental Health Fund.

2017-18:

2018-19: The decrease over prior year is due to planned use of fund balance for programs.

2019-20: Increase due to state funding.

2020-21 to Budgeted to remain steady over two years.

2021-22:

2022-23 Budgeted to remain steady.

# General Fund

## **JOSEPHINE COUNTY General Fund Description**

The General Fund is the chief operating fund of the County. It is used to account for all financial resources except those required to be accounted for in other funds. General Fund includes four elected offices and three programs, referred to as Departments. Elected Offices include the County Assessor, County Treasurer, County Clerk, County Surveyor and Board of County Commissioners. Operational programs include Planning, Forestry and General Government. Emergency Management, Court Facilities and Veterans Service formerly were programs in other funds but are now a part of the General Fund and Board of County Commissioners which were formerly part of the Internal Service Fund. Other departments which were formerly in the General Fund have been incorporated into other funds which may receive some funding from the General Fund as inter-fund transfers. This change provides more transparency concerning the cost of individual government programs by grouping similar services into one fund. The Sheriff's Office, District Attorney's Office and Juvenile Justice are now in the Public Safety Fund. Community Corrections, Public Health and Mental Health are now in individual funds.

Major sources of revenue for the General Fund consist of property taxes and receipts from the sale of timber harvested on County owned forest lands. For several years, O&C/SRS timber revenues from the Federal Government had been the largest source of revenue for the General Fund. In FYE 2008 O&C/SRS funds were budgeted to go directly to the Public Safety Fund but starting in FYE 2023 these funds will be budgeted in the General Fund.

Expenditures in the General Fund are primarily the expenses of operating the eight departments in the fund and inter fund transfers to support other Funds. The largest of these support transfers goes to the Public Safety Fund.

The adopted budget is in balance, which means that the budgeted requirements (expenditures and ending fund balance) are equal to the resources (beginning fund balance and revenues) that are estimated to be available during the budget year.

In the pages that follow, a summary of the Fund (Resources and Requirements) is presented first, followed by sections for each department. The department is represented by a graph of expenditures for the proposed budget, the current year adopted budget, and the previous three years actual expenditures. The associated chart provides the same information in numerical values. Following the graph and chart is a narrative of the purpose of the program.

# ASSESSOR

## Purpose of Program

The Assessor is responsible for the assessment of all taxable real and personal property within the county. The office maintains ownership records of all properties, exemptions and special assessments of specific properties, plat maps, and mailing addresses for the entire county. The office also reviews the taxing district rates and levies and computes the tax bill of each property.

### **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

Public access through our interactive website, allowing taxpayers to look up public information from home and to acquire property tax education and forms pertinent to their property.

- A public computer terminal is also available at the Assessor's Office in the courthouse.
- Ongoing project to scan Assessor's Office records, increasing ease of access, which in turn, saves research time and allows for faster response time to inquiries.
- Utilize ORMAP grants to leverage our ability to update tax maps with the currently available software.

### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

The following outcomes relate to Budget Goal #2 in that they identify the bare minimum, core requirements of ORS chapters 305 through 321 which state more than 250 times, the "Assessor shall".

- Accurate appraisal of real property in accordance with OAR 150-308-0380.
- Complete assessment of all exception activity described in ORS 308.146.
- Accurately process all special assessment qualification and disqualifications, property tax exemption and deferral applications.
- Accurately and timely process all property tax returns.
- Maintain current successful rate of appeal defense while continuing to listen to public concerns and educate taxpayers on Oregon property tax law.
- Complete the annual ratio report and appraisal plan to meet the requirements of ORS 309.200, 308.234, and OAR 150-309-240 and 150-309-250.
- Maintain property records with all straightforward transfers as well as name and address changes processed within a week.
- Maintenance of all cadastral functions such that those taxpayers relying on changes to tax maps can conduct their business timely.
- Maintain accurate and current assessment and tax rolls and complete roll summary reports as required by ORS 309.330 and 309.990.
- Continuously review staffing to maintain adequate, qualified staff necessary to meet our mandated requirements.
- CAFFA supports about 16% of our budget; the requirements of an approved CAFFA grant focus in Appraisal and Assessment Administration. ORMAP and fees support approximately 6% of our budget.

### **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open, and professional manner.**

- All non-confidential records are obtainable during normal Assessor's Office hours.
- Assessment values, maps, and forms are available online 24/7.
- The leveraging of technology has allowed us to manage ever-increasing real property accounts and greater complexity due to legislation, with less staff than we had in 2000.

## Fiscal Year 2019-20 & 2020-21 Accomplishments:

- Successfully completed two-year Assessment & Taxation (A&T) software conversion
- Completed assessment roll; certified taxes and assessments
- Processed approximately 400 manufactured home transfers
- Reviewed and updated commercial property values as necessary
- Inspected and valued new construction and other exceptions and update values as necessary
- Continued digitization of cadastral tax maps and collection and calculation of control point data as part of the ongoing statewide ORMAP initiative
- Continued updating approximately 1,200 Josephine County pdf tax maps
- Continued processing of Josephine Community Library District annexation requests
- Completed sales ratio studies and adjusted property values based on the findings of the studies

## Five-Year Vision:

As a state mandated program, the Assessor’s focus is to continue developing efficiency and transparency by sustaining strategic resource allocation, resulting in an effective program at the best value for Josephine County citizens through modernization of our internal systems. One significant way this has been accomplished this last year was converting to a new A&T software and property data search web portal which has increased user friendliness and customer service; we have received many positive comments from the public! The ORMAP digitization project will be complete within the next year and will increase accuracy while decreasing processing times for land partitions and subdivisions. We plan to implement an aerial imagery solution which will increase the accuracy, efficiency, and effectiveness of our reappraisal efforts and we are also planning to implement a new Field Mobile tablet solution for appraisal staff and an online Business Personal Property filing solution in the coming years.

## Special Budget Considerations

The Board of County Commissioners has asked departments how they plan to address inflation as it relates to the 2022-23 budget. Our office is addressing it three ways:

1. We are forced to increase our budget for materials, insurance, facility services as these hard costs are being increased outside of our control. We are budgeting for only the minimum needs to maintain current service levels.
2. External costs that are more within our control such as travel and education are being reduced due primarily to the increased amount of training being offered online and is one of the few silver linings related to COVID-19. It appears the trend to offer more quality education and training online is a long-term trend.
3. We are voluntarily implementing a temporary hiring freeze of the one vacancy we currently have; this Property Appraiser II position will remain vacant until at least January 1, 2023. This hiring freeze reduces our personnel costs by about \$58,000 or 4% resulting in an annual net increase of about 3.12% which is commensurate with historical inflation and cost of living increases. We know that inflation fluctuates and in the event inflation drops back to historical averages in coming months, we want to be in a good position to fill this position in January. If inflation continues to rise we may need to reevaluate budget constraints.

## Purpose of Programs

### Administration

Oregon Statutes including but not limited to Chapters 92, 106, 198, 205 & 246 - 260.  
Const. V 16 V16, 9 VII 15 To facilitate and support all functions and duties of the Clerk & Recorder's Office.

### Elections

The County Clerk is the Chief Election Officer of the County, charged by statute with the conduct of Elections. This involves managing voter registration (received over the counter, by mail, from Dept. of Motor Vehicles, from on-line and registration drives) per the mandates of the National Voter Registration Act (NVRA) and the Help America Vote Act (HAVA), establishing precinct boundaries and working with the cities on property annexation changes and adjusting district boundaries according to redistricting requirements.

The County Clerk also advises and administers the filing of initiative, referendum and recall petitions for proper forms and procedure per Oregon law and County Charter requirements. The County Clerk produces voters' pamphlets for the electorate in conjunction with HAVA requirements of voter education.

### Recording

The County Clerk is charged by statute with the recording, custodial retention and public availability of land records and other records allowed for recording by law. These include, but are not limited to deeds, mortgages, reconveyances, plats, subdivisions, powers of attorney, contracts, liens, Josephine County Tax Department Warrants and satisfactions, mining affidavits and other documents affecting the title to real property. The County Clerk's Office issues and records marriage licenses. The fees are apportioned to Clerk, State Domestic Violence fund and County Juvenile Mediation Service. The office processes passport applications per Federal laws.

### Board of Property Tax Appeals (BOPTA)

Oregon Statutes including but not limited to Chapters 309.

The County Clerk is the clerk to the Board of Property Tax Appeals, charged with appointing board members, accepting petitions, recording hearings and mailing orders, according to ORS and Department of Revenue directives.

### **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

Over the past few years, the County Clerk's Office has transitioned from a primary reliance on printed resources to electronic database resources as much as possible.

- *Recording:* We have two public computer terminals in our office which allow our customers without internet access to search our database at no charge. We also have provided access to recorded documents online via the Clerk's Website, at no cost to the citizens. (We continue to index "older" documents regularly. We are currently indexed from 1964-present.)
- *Elections:* We are continually looking for different ways to improve our website. We now have most of all forms used by local candidates and Political Action Committees (PACS) on our website in fillable PDF format. This means fewer trips to our office for our customers. We also post candidate lists, measure text, voters' pamphlet, and other pertinent information regarding elections on our site.

# CLERK

## **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

Every service we provide in the Clerk & Recorder’s Office is a mandated service except for Passport Acceptance and Passport Photos.

- Public service computer stations allow customers to search our database.
- E-recording: We have three vendors allowing us to accept approx. 85% of all our recordings electronically.
- Enhanced website with fillable forms, instructions and information for elections and recording.
- Physically rearranged general office to reduce the amount of time needed to service our walk-in customers.
- Cross trained staff to ensure that most of our customers can be served by any staff member.

## **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open, and professional manner.**

- The Clerk & Recorder’s Office will continue to operate in an open, transparent, and professional manner.
- We deliver 90% of the documents/reports requested by the public within 2 business days. (Special requests may require slightly more time. Up to 5 business days.)
- Public computer stations allow unrestricted access to our public recording database.
- Public announcements / press releases solicit election observers prior to every election.
- Phone messages are gathered and returned within 24hours. The vast majority are returned on the same day.
- The County Clerk offers presentations on the election process, voter registration and a variety of other subjects pertaining to the Clerk’s Office procedures to schools, service clubs, and political organizations.

### **Fiscal Year 2020-21 & 2021-22 Anticipated Accomplishments:**

- Conducted five Elections by mail (within 2 months of each other).
- Assist candidates with all filings.
- Produced County Voters’ Pamphlets.
- Continued work of OMV program (Oregon Motor Voter)
- Record official records, plats, and subdivisions. Provide miscellaneous record services.
- Converted recording data to imaging to provide increased customer access and retrieval.
- Uploaded our digital images to an FTP site to enhance our service to the title industry.
- We have provided access to recorded documents online via the Clerk’s Website, at no cost to the citizens. (We continue to index “older” documents regularly. We are currently indexed from 1964-present.)

## Five Year Vision:

- I would like to investigate the **ORMS system** for records management. It would help my office be more productive in retrieving documents for the public, they maintain and follow the retention schedule for each type of document, eliminating that piece from my office.
- I would like to stay up to date on the latest technology when it comes to scanners, labelers, etc. so that my staff does not have to spend time during their day trying to troubleshoot their own equipment with customers patiently waiting.
- Updated & more user-friendly website that allows customers to order & pay for their copies via our website 24hours/7days a week; so that they can take care of their business with our office on their schedule, not ours.
- I would like to purchase a Fluence Tabletop Mail Ballot Sorting System

## Special Budget Considerations

The Board of County Commissioners has asked departments how they plan to address inflation as it relates to the 2022-23 budget. Our office is addressing it three ways:

1. We are forced to increase our budget for materials, insurance, facility services as these hard costs are being increased outside of our control. We are budgeting for only the minimum needs to maintain current service levels.
2. External costs that are more within our control such as travel, and education are being kept at the minimum level & not being increased

## Special Budget Considerations

The Board of County Commissioners has asked departments how they plan to address inflation as it relates to the 2022-23 budget. Our office is addressing it three ways:

1. We are forced to increase our budget for materials, insurance, facility services as these hard costs are being increased outside of our control. We are budgeting for only the minimum needs to maintain current service levels.
2. External costs that are more within our control such as travel, and education are being held to a minimum due primarily to the increased amount of training being offered online and is one of the few silver linings related to COVID-19. It appears the trend to offer more quality education and training online is a long-term trend.
3. We are maintaining a staffing level of 4 FTE at this time. We have budgeted an additional FTE in the event the proposed seasonal sales tax is approved by voters in October. This position will only be filled if the proposal passes.

## Five Year Vision:

- To maximize Josephine County investments with the primary objective of safety, liquidity, and yield.
- Being of best assistance to county departments for cash handling purposes.
- To administer a successful property tax collection program and assist the property owners in Josephine County to promote the most efficient level of service to the public.
- Using efficient processes to reduce costs.

## Purpose of Program

The purpose and function of the Surveyor's Office is to store and provide access to Josephine County land survey and corner records, land measurement data, property and boundary line information and assorted aerial images for private individuals, land surveyors and public agencies. These records provide information pertaining to real property, its boundaries, locations and measurements thereof, which will assist in the determination or re-establishment of property boundaries and corners, and other areas of land measurement. The records we hold and maintain date from the mid-1850's to the present.

The County Surveyor is responsible for the review and checking of all plats and maps as submitted for recording or filing for Josephine County and the City of Cave Junction, and for the filing of all maps and plats of surveys within the entirety of Josephine County. Once plats and maps are submitted, our office processes them for review, indexing, filing, distribution and storage for future access.

Applicable Statutes and Administrative Rules:

- County Surveyor general duties: ORS 209.070, 209.130, 209.270
- Archiving & storage requirements: ORS 192.005 – 192.170 & 357.805 – 357.895; OAR 166-150-0205

**Budget Goal #1- Improve community outreach and communication to the public by investing in technology that will improve efficiencies within County Departments and provide enhanced services to citizens:**

The land and its records, especially those pertaining to property boundaries, are essential to many departments, agencies (public & private), land surveyors and private individuals. We store both original maps and copies of boundary surveys, property line adjustments, partition plats, subdivision plats, condominium plats and cemetery plats, together with records of homestead exemptions, donation land claims, mining claims, railroads, roads and rights of way pertaining to Josephine County. We also store other pertinent documents associated with these maps and records. We often attend local organizational meetings/gatherings to encourage and promote interest in our office and the records within.

**Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs:**

Our department's self-funded portion is primarily attained through our over-the-counter sale of maps, plats and other documents, and through fees charged for our services. We also receive county general fund monies for our department. Our department has a longstanding history of making cuts and minimizing our expenses over the past decades, even to the point where the County Surveyor position itself, although an elected position, is not full-time. We often utilize the volunteer services of individuals through our Community Corrections Department who need to "work off" community service hours doing routine office duties. When available, we have also used volunteers to help as well. We have these and other creative methods to maintain our current service levels while at low FTE levels. We are working diligently to offer some of our records "on line," thereby freeing up personnel to manage and perform other tasks.

**Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open and professional manner:**

Our department's records are available to the public and we encourage them to visit our office to research, review, and examine the public documents we have stored and available. We will assist both the general public, professionals and other departments and agencies in searching for and locating documents pertinent to their needs. Our staff strives to go beyond 100% in helping these individuals with their endeavor.

## Fiscal Year 2018/19 to 2021/22 Accomplishments

- Consistent, timely and efficient map and plat checking reviews and turn-around times.
- Continued scanning and updating of our office records.
- Continued efforts and outreach to other departments and agencies to acquire pertinent records for incorporation into our records.
- Added 0.5 FTE employee to Public Land Corner Preservation Fund program in 2018-19. Doing so has successfully allowed us to be more productive in our operations and our ability to process public land corner records more efficiently and provided flexibility in our office. Additional staff has also provided an extra measure of safety for the field operations which often take place in remote areas of the county.
- Assist other county departments with questions related to surveying, maps and platting, and Oregon statutes related to surveying.

### Five Year Vision:

- Continue our current program of scanning and archiving our records for preservation and public access.
- Explore options and evaluate need for additional office space.
- Prepare and update corner preservation “handwritten” field notes into “typed” format, reviewed, signed and scanned for our public records and access books.
- Continue our public land corner field visits to inspect, refurbish and maintain corner monuments and corner accessories/accessories throughout Josephine County.
- Continue to index our library of J.R. White field books by location (currently indexed by client names) and enter into Excel format.
- Reduce excess “paper” records and files to create usable space in office.
- Maintain and continue to keep good rapport and communications with other county departments and the public.
- Replace fire suppression “water” sprinklers in our office with a “gas” type to prevent damage to our immense files of paper and other delicate materials, both originals and copies.

## Adjustments for Inflation

The current economic condition of not only our Country but also our County, combined with an unprecedented rate of inflation, require diligence in the management of our finances. Currently our department operates on a very small budget, having succumbed to past adjustments and accommodations to our County's monetary struggles and shortfalls while still maintaining essential and statutory requirements. Below are some possible actions to implement should inflationary pressures dictate (in no particular order):

- Educating staff: Open discussions with department staff regarding the County's current financial status and of possible changes and adjustments to services, spending and operations.
- Conservative spending: While this is an on-going priority in our department, fiscal conservancy becomes even more important during these times of extraordinary inflation. It is imperative that we re-assess and re-evaluate our spending to prioritize essential needs to cut costs.
- Fiscal awareness: Open communication and discussions between our department, Finance and our Commissioner Liaison regarding the financial status of the County and any pending cutbacks or changes to financial structure.
- Analysis: Identify where cost savings can be realized and where we can more selectively trim costs to improve the return on operating expenses.
- Fee increases: An increase to the fees charged for our services, while never desired, may be necessary to help offset higher costs.

# BOARD OF COUNTY COMMISSIONERS

## Purpose of Program

Josephine County is governed by three elected County Commissioners. The Board of County Commissioners serves as the executive-legislative branch of the County and performs quasi-judicial functions. The Commissioners are responsible for the planning, formation, and implementation of the annual budget. The Board serves on a number of federal, state, and local mandated governmental panels, boards and commissions with fiscal duties and authority over other public monies. The Board also represents the citizens of Josephine County by performing ceremonial leadership functions.

The Board initiates citizen involvement in county government by creating opportunities for citizens to serve and provide valuable input in the formation of public policy and improving the quality of life in Josephine County.

*Executive Functions* – Commissioners are responsible for the daily operation of over 22 County departments. Commissioners set goals, establish priorities, supervise the managers of County services, and ensure compliance with regulations of the government. The Commissioners are responsible for the budgetary and financial oversight of all County operations.

*Legislative Functions* – Commissioners are responsible for passage of local laws, which regulate and govern the procedures of government in relation the public. The Board conducts hearings, receives public comment, staff reports and legislation for the County (ordinances). The Commissioners pass resolutions that support or define goals of the County and assist in the shaping of public policy.

*Judicial Functions* – The Board performs quasi-judicial functions by carrying out hearings and making judgments in matters such as land use issues and administrative hearings.

*Ceremonial Functions* – The County Commissioners represent the citizens of Josephine County at numerous community events.

### **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

The Board continues to upgrade their computer systems to better utilize technology, save staff time, and go paperless to save resources and money. Due to COVID-19, all Board meetings were live streamed and saved on the County's website to allow citizens access to the meetings. Citizens were able to provide public comment through email or live on zoom by phone or computer.

### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

The Board has met with members and groups within the community in an effort to better ascertain what services are a priority for our citizens that need to be funded and at what level. They have met with State and Federal officials in an effort to improve the quality of programs to better reflect needs of the community, to maintain current funding, and find more.

### **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open and professional manner.**

The Board is investing in a website upgrade to better serve the public county wide and have encouraged all departments to make as much information as possible available on the web. The Board and their staff work hard to ensure all meetings are recorded and posted to the website in a timely matter for all to hear. Minutes are reviewed and approved on a regular basis and are posted on the website. Documents that the Board is reviewing are posted on the web for the public to see and comment on. All meetings are noticed appropriately both on the website and outside the Commissioners' office. In an effort to streamline the processes of the office, staff converts all paperwork to a digital format for records and distribution, saving time and increasing efficiency.

## Fiscal Year 2020-21 & 2021-22 Accomplishments:

- Continue to provide a wide range of services to the community.
- Explore new ideas and alternative funding possibilities to provide stable funding for local government.
- Explore new ways to provide information on local government to the public.
- Encourage public participation in local government.
- Build and strengthen the community with positive leadership and vision.
- Provide County programs with an emphasis on public service and commitment.
- Monitor and evaluate State and Federal legislation and proposals to assure that our county's interest is advanced.
- Travel budget will allocate \$6,000, per commissioner, per year, for travel.

## Five-Year Vision:

- Provide consistent public relations.
- Ongoing managerial training for departmental managers on public meeting requirements.
- Facilitate better coordination between County and Federal Agencies.
- Utilize technology to increase efficiency and consistency.

## Purpose of Programs

### Veteran's Services and Outreach

The purpose of the County Veteran Service Office is to prepare, present and prosecute claims before the department of Veterans Affairs, under laws pertaining to veterans, on behalf of the veteran community in our jurisdiction. This program, in essence, supports roughly 10,000 veterans living in our area by providing competent accredited representation and a myriad of secondary services important for the health and well-being of our local Veteran's and their families.

### Veteran's Extended Outreach

Josephine County established a Veteran Music Outreach Program September 2011. This program has grown and in 2018-19 became the Extended Outreach, which includes the music program and our entire alternative therapeutic outreach. These internal and external platforms help mitigate veteran suicide and strengthen our veteran community. The agri-preneur grant funded program grows veteran farmers, reconnecting the veteran to family and community through farming. A suicide prevention grant coupled with support from Forestry Reserve Fund supports us focusing on veteran reintegration and resiliency, building stronger productive community members. Our companion service animal assists Veterans who need emotional support while seeking benefits in our office. Our extended outreach programs touch the most vulnerable veterans and families.

#### **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

Josephine County VSO has an extensive outreach program. We take our show on the road-reaching clients in sometimes very remote areas of the region. An increase in state funding due to the receipt of lottery dollars has allowed us to increase outreach efforts with our established mobile office technology, which bolsters our existing program allowing us to infuse fully in the community, respond to constraints of the pandemic with ease, and continue providing much needed gap services which harmonizes with budget goal #1 and #3.

#### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

Continued involvement with the Oregon County Veteran Service Officers Association, now established as a 501c6, Oregon Department of Veteran Affairs, National Association of County Veteran Service Officers (NACVSO), National Association of Counties (NACO), and the Oregon Legislative Assembly helps to assure dedicated pass-through funding continues to support our operation. Keeping abreast of competitive grant funding opportunities, we are being proactive in the sustainability of our program.

#### **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open, and professional manner.**

Our program provides quality service in an open and efficient manner to our Veterans and their dependents. The VSO directly aligns with Josephine County core values making people, community, partnerships, service, and integrity top priorities in our daily tasks as public servants.

## Fiscal Year 2020-2021 & 2021-2022 Accomplishments

- Certify four VSO's to handle more claims for veterans.
- Anticipate processing more claims than prior year, due to covid constraints, resulting in additional federal benefits to Josephine County Veterans.
- Strategically position the office to handle increasing demands on outreach, health, education, comprehensive benefit presentation and employment.
- Continued push for increased grant funding from lottery dollars.
- Additional technology upgrades to work remotely
- Develop new outreach projects to support our most vulnerable veterans and their dependents.

# VETERANS

## **Five-Year Vision:**

Staffing the VSO adequately is important. This year we are decreasing our staff FTE by 6.38%. This changes our FTE level from 4.7 to 4.4. As we head into recovery changes from the pandemic, we expect to readdress additional support staff to handle increases to office traffic, phone calls, and scheduling which would allow Accredited VSO's to file more claims, assist Veterans during BVA hearings, write grants to support our program, work on memorial possibilities and develop plans to keep the VSO growing and operational. We continue to experience challenges retaining staff due to workload, entry level wage constraints and the pandemic response of our citizens. We have diligently continued programs to assist veterans at colleges, in retirement homes and care facilities continues to ensure extended care for veterans in Josephine County while forging community partner connectivity.

# EMERGENCY MANAGEMENT

## Purpose of Program

**Emergency Management handles year-round on-going cycles of activity that fall within the primary phases of response, planning, mitigation, and recovery around natural and man-made disasters.**

Some examples are:

Emergency plans and annexes, support of Incident Command in the field via EOC operations, training and exercising staff/public/partners in non-emergency times, program grant funding and grant compliance, adherence to state and federal emergency management standards, maintaining requirements of state OEM standards in addition to local standards or local requirements.

In the previous year we met or excelled in all 3 of the 2020-2021 county goals through efforts like our Get Ready Rogue public preparedness campaign, strengthening of mutual aid relationships and reduction of overall expenditures.

**This Dept continues to diversify the range of services it tries to provide with value for residents.**

Examples include:

Prep-U community preparedness ‘camps’, community fuels reduction for homeowners, evacuation planning and mapping projects, implementing actions for community fire protection plan via the 3 EM Dept Title 3 contracted positions (1 regional CWPP Fire plan coordinator and 2 Josephine County Firewise program coordinators), as well as expansion of citizen Alert and Warning tools for first responders and public users.

### **Legislative Mandates:**

ORS 401.305 - The County shall designate an Emergency Management Agency

ORS 453.347 - Emergency Response Planning framework

ORS 453.374 - Hazardous material emergency response framework

ORS 453.382 - Cost of responding to an emergency; responsibilities; billing; recovery

OAR 101-010-0005 - Participation of County in the Emergency Management Assistance Program

### **Citizen Requests:**

A recent Josephine County survey polled the general public on their opinions of what’s important for disaster response and preparedness to them. The survey was part of resident outreach during an update of county and city Natural Hazard Mitigation Plans (NHMP). Over 200 participants answered a wide variety of questions. Below is a sample of some EM Dept specific responses.

#### **What of the following services do you want to see more of?**

- |     |  |
|-----|--|
| 22% | Help developing a “Household/Family Emergency Plan” in order to decide what everyone would do in the event of a disaster |
| 19% | Preparing a “Disaster Supply Kit” (Stored extra food, water, batteries, or other emergency supplies)                     |
| 23% | Meetings or written/video information on natural disasters or emergency preparedness                                     |
| 15% | Removing flammable material or debris from around homes  |

#### **How prepared do you feel vs. how prepared do you feel your community is?**

Personal – 21% Somewhat prepared    Community – 59 % Not very prepared

### **Inflation:**

This year Departments were asked to explain to Administration how they are individually addressing inflation. Our Dept is addressing that from various sides. For one, we are not ignoring it but adjusting for it when thinking of the things inflation directly affects such as fuel and office supplies. We are exploring ways to combine more shared orders with other Depts for reduced bulk costs.

# EMERGENCY MANAGEMENT

**We reduced expenditures across the board during last FY, unfortunately, there is no mechanism for us to bring those savings and efficiencies forward into this year. Nevertheless, we have voluntarily reduced our proposed budget in most categories for this coming FY.**

In terms of getting the county overall, closer toward longer-term stability, we will continue to aim to be supportive and problem solve wherever appropriate.

## **Budget Goal #1 - Improve community outreach and communication to the public by improving efficiencies within County Departments and provide enhanced service to citizens.**

Before, during and after events, Emergency Management uses a variety of methods to communicate information to the public. Citizen Alert, the County's emergency notification system, notifies citizens of emergency protective measures they need to take during disasters such as wildfires.

This fiscal year aims to add more content to the creation of a regional preparedness campaign, "Get Ready Rogue," and will continue to add more "Prep-U" training classes to improve citizen and business readiness, responsiveness and ability to recover. **New this year is our "One Year Journey through the Preparedness Calendar" a monthly video guide** featuring staff Rikki Perrin and her family working through year long commitment program that we offer via our Dept campaign.

**Also new this year is our ICS/NIMS\* compliance training program**, which will be used to bring up the level of readiness, confidence and response in disasters across all County departments, with end goals for achievements during 2023.

*\*Incident Command System/National Incident Management Systems*

## **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

The Emergency Management Performance Grant (EMPG) helps counties maintain their EM programs via a FEMA grant dispensed through the State Office of Emergency Management (OEM).

The EMPG grant provides financial support to the local government in a 50% match with general fund dollars. With confirmed general fund support, we have been able to receive more EMPG grant funding, placing us in line with other counties across the State of Oregon as a more stable model.

**We continue to offset impact to county by finding alternate funding support like the EMPG-S during COVID and continue pursuit of reimbursements from prior disaster responses. In 2021 our EM Dept was able to retrieve and re-distribute former disaster payments of more than \$140,000 back to a variety of county departments and response partners.** We are also supporting the Go-Kit project of our preparedness campaign, outside of county support, via an independent 501-c-3 partner.

## **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open and professional manner.**

In 2021 we began several unique outreach services to our communities that are gaining positive response and growing participation. We intend to build on the current momentum for more successes in this coming fiscal year.

**Our Dept operates 2 main arms – one oriented to first responder and local govt emergency support, the other oriented to the education and preparedness needs of communities.**

# EMERGENCY MANAGEMENT

One example of the success of having both arms functional and supported, is the increase of interest in volunteering for our EM dept volunteer groups. In the last year we have moved from 0 to 7 applicants for our disaster donations/call center support group, and from about 25 to nearly 45 applicants for our disaster auxiliary communications/UAV group.

### Changes of note for Budget proposal

I am requesting the approval of a new account code specifically for the ‘Get Ready Rogue’ public preparedness campaign. This would allow a clearer track of funds spent and payments received for activities and expenses just for this campaign. Currently this occurs under “Operating Supplies”.

The IGA with the City of Grants Pass for Emergency Services support has been under discussion for re-direction to support City Fire hire. **Current expectation is that the IGA will remain in place through fire season (summer) and then reduced, by some percentage, during fall 2022.**

### Fiscal Year 2021-2022 Accomplishments:

- Responded to 3 summer evacuation and 2 winter storm events, kept ongoing COVID support to health partners, and occasional side events like the chlorine shortage
- Successful coordination of fatality and morgue trailer event during summer and fall
- Maintained and increased dept staffing under challenging conditions
- Completed EOP (Emergency Operations Plan) with cities/county. Final version approval ETA April 2022
- Initiated 4 pro-active projects around different aspects of evacuations, a popular on-going public topic

### Five-Year Vision:

- Train and practice with City and County staff so that they become comfortable in their EOC (Emergency Operations Center) and EOP (Emergency Operations plan) roles if/when activated.
- Secure HR, BCC, Mayor/Council support for operationally ready staff through formal adaption of City/County job position/training requirements and clearer emergency ordinance language.
- Build an Alert Senders Group that includes City/County/Partner persons trained, willing and able to send Alerts and Warnings on a rotational shared basis, to expand the County's ability in crisis communications.
- Complete projects supporting responders and residents around evacuation pieces to include the "Know Your Zone" and "Alternate Routes" mapping with software outcomes.

# FORESTRY

## Purpose of Program

The Forestry Department is responsible for the management of natural resources located on the County's approximately 30,000-acre forest land. The forestry department continues to manage rehabilitation/reforestation efforts of the 2,000 acres of County forest land after wildfires, using the proceeds from the salvage logging operations. The timber resources are managed on a sustained yield basis and in accordance with the Oregon Forest Practices Act and Josephine County Ordinance No. 2018-001. Proceeds from timber sales are deposited into the County's General Fund. After harvests occur, areas are reforested and cared for to ensure timber for the future generations. Other resources include firewood sales, poles, misc. forest products, rock/mineral extraction, and cell tower sites.

### Timber - Purpose of Program

The Timber Program utilizes 3.6 FTE's to manage the timber resources on Josephine County's 30,000 acre forest for planning, conducting field work, developing contracts, administering and auctioning of timber sales. The Timber program ensures that State and Federal regulations concerning the environment are complied with through training and conducting water, wildlife, and plant surveys.

The receipts from timber sales, firewood sales to the general public and small commercial operators are deposited into the General Fund.

### Reforestation - Purpose of Program

The Reforestation program focuses on planting, enhancing growth and health of young trees by utilizing its workforce to accomplish planting seedlings and with brush control and/or thinning, collect cones from Rust (disease) Resistant Sugar Pine trees and Douglas-fir seeds to replenish and maintain seed inventories and provide tree and orchard maintenance for future reforestation needs.

#### **Budget Goal #1 - Improve community outreach and communication to the public by improving efficiencies within County Departments and provide enhanced services to citizens.**

The Forestry Department's main outreach program is the Ross Roe Memorial Annual Youth Tree Plant. For the past 30 years, County forestry and 50 volunteers have given approximately 1,000 kids per year the opportunity to plant tree seedlings and learn about the environment in a forest setting. County lands and staff are also involved with the OSU Extension Service to provide a resource for small woodland owners. Foresters are also available for over-the-counter advice for forestry related issues.

#### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

Since the timber on the County forest lands are being harvested on a sustained yield basis, the Forestry Department can not only provide revenue to support itself but also the proceeds that exceed budget requirements are deposited into the General Fund. Additional long term funding sources includes cell tower leases and firewood permits.

#### **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent. Open and professional manner.**

Contracts for timber sales are sold through a competitive bid process in a public forum and harvest areas are reviewed by the Oregon Department of Forestry for compliance to the Oregon Forest Practices Act. Forest and mineral management plans are reviewed through citizens' advisory boards.

#### **Actions taken to address inflationary pressure.**

The Forestry Department utilizes the work of many different contractors and procure products from a multitude of suppliers. The use of competitive bidding in all appropriate situations helps ensure best value pricing. Unfortunately, current inflationary rates will lead to increased cost of goods and services beyond our control. This situation will lead to decreased net receipts from the timber sale program.

## Fiscal Year 2021-2022 Accomplishments:

- Prepared timber sales for harvest and auction
- Continued to issue firewood permits
- Constructed and maintained forest roads as needed
- Surveyed property lines and corners
- Updated forest inventory
- Endangered species monitoring, waterway survey's
- Continue replant and monitor regrowth in burnt timber and harvested areas
- Continued community outreach through Youth Tree Plant, over the counter advice

## Five-Year Vision:

- Improve forest inventory accuracy and verification with contractor
- Liquidate non-productive properties
- Re-investment into productive forest tracts
- Increase/maximize productivity of forest
- Maximize public firewood opportunities

# COMMUNITY DEVELOPMENT

Planning, Building Safety, Code Enforcement, On-Site Septic, Solid Waste

## Purpose of Program

To serve the citizens of Josephine County by facilitating orderly growth and development in the community through coordinated programs of Planning, Building Safety, Code Enforcement, solid waste division of public health and On-site septic with emphasis on educating and serving the public.

The State of Oregon has mandated counties in the state to have planning and zoning programs. This mandate, found in ORS Ch. 215, not only requires a planning and zoning program, but mandates other regulatory and land use laws that counties must enforce on behalf of the state.

The Oregon Department of Land Conservation and Development serves as the oversight agency for the program and provides guidance for counties. The Planning Division conducts reviews of land use proposals and issues land use permits under the authority of the Josephine County Code (JCC).

Building Safety Division, adopted by County resolution 77-12, with the purpose of assisting citizens in the application of the States Specialty Codes in a flexible, fair and safety focused manner with the goal of providing safe Structures in our community. Building Codes Division is the oversight agency pursuant OAR 918-20-0090. Funds are collected through the permitting process and are “dedicated” and used solely for the department to maintain customer service.

Code Enforcement Division is responsible for investigating code violation complaints to ensure compliance with land use, On-site Septic and Building Safety codes and County Ordinances. The programs overriding goal is to achieve voluntary compliance with property owners in the abatement of their specific violation.

Onsite Septic is a new program brought on in November of 2020. DEQ is the oversight agency for the program, though Community Development policies and procedures will be followed in the implementation of Oregon Administrative Rules 340-071-073. Our goal is to provide more timely inspections for better service.

### **Budget Goal #1 - Provide community outreach and communication to the public in the most efficient manner and provide enhanced service to citizens by:**

- The comprehensive planning program requires a public involvement element. Public notices are given on many land use processes to encourage agency and public participation.
- The county’s Rural Planning Commission serves as the county’s Citizen Involvement Committee. They hold public hearings and public meetings on matters such as text amendments and subdivisions. They allow all public in attendance that wants to speak an opportunity to comment on the proposals before them.
- The text amendment process is prescribed by law; and usually requires not just a hearing before the Planning Commission, but the Board of Commissioners as well. By holding two separate public hearings, there is an added opportunity for public involvement.
- Code enforcement is complaint driven. Every complaint filed with the department is investigated. The Code Enforcement Division works with complainants and landowners to resolve the infractions.
- In an attempt to make the public’s permit application process easier and provide the ability for the user to track where their application is in the review process, the Department implemented an online permitting software program.
- Department policies require planning staff to try to return all phone calls and e-mails within 24 hours.
- All codes, and program elements, are based on plans that were publicly created or surveys with high response rates. Examples of plans and surveys include the Comprehensive Plan, Josephine County

# COMMUNITY DEVELOPMENT

Code, Oregon State Specialty Codes, FEMA and Oregon Department of Land Conservation and Development.

- The solid waste nuisance program through Public Health is integrated with the code enforcement program to provide service on all land use enforcement matters, and to assist in the abatement of such.
- On-Site Septic program provides a service for private Wastewater systems on private properties.

## **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County programs by:**

- Fees are established to cover the costs of services. While some fees are lower and do not represent the time involved, they are established as such to encourage development and code. Since fees cannot statutorily exceed the cost of service, and many planning functions do not have a fee associated with them, some general fund support is necessary.
- The Citation Ordinance 2021-002 is to assist County Code Enforcement in abating the most egregious violations throughout our County as well as deter others from violating County and State laws. The Citation fee is not a revenue source for Community Development.
- Balance services provided with fees collected. Continue to review cost as inflation increases and adjust where needed.

## **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open, and efficient manner by:**

- The online permitting software does substantially improve efficiency in the permitting process.
- All documents can be accessed electronically, thereby increasing efficiency, accuracy, and access.
- Continually review policies and amend plans and codes, with public engagement, help guide development in a publicly supported, planned manner that is consistent with county goals and policies.

## Fiscal Year 2021-22 Accomplishments:

- Completed online permitting process.
- Completed text amendments to allow for more housing opportunities.
- Completed text amendments to update older outdated Codes
- Integrated the solid waste nuisance program into the code enforcement program.
- Address alleged violations in a more efficient manner.
- Proposed and passed a citation ordinance.
- Support the Board's direction on the cannabis industry and emergency Resolution No. 2021-037
- Created a clear process for implementing Marijuana Compliance Certification, with staffing to assist.
- Continued to adjust policies for the Code Enforcement Division to better serve and be more productive in their process.
- Developed Policies and procedures for the Onsite septic program within the Rules and Statutes overseen by the Department of Environmental Quality for the protection of Josephine Counties Natural resources.

# COMMUNITY DEVELOPMENT

## Five-Year Vision:

- Land use codes that reflect trends, are current, and easy to interpret.
- Provide affordable, quality of life housing options to those seeking them.
- A code enforcement program that has a first-response time of 5 days and a closure rate more than 50% annually.
- Aid in developing communities that are conflict minimal, more code compliant, safe, experience crime reductions, offer a better quality of life, and are welcoming to visitors and residents.
- Continue to implement Onsite Septic Program policies and procedures and develop means of faster and more efficient service to our constituents.
- Budgetary goal: revenue to sustain Community Development without general fund request
- Allocate resources to provide an opportunity for partner agencies to have a presence at the Community Development Department.

## Current inflationary considerations:

Allowances have been made in the process of projecting cost for our 2022 - 23 Budget. These adjustments have been made throughout each department specifically within office supplies, printing and duplication, education, training, and travel. We increased by approximately 8% over our standard projection.

Fuel cost for our fleet was a consideration. We currently utilize eight vehicles, including Building Safety, and we forecast just over 5000 gallons of fuel for 22-23. Fleet has budgeted \$3.50 per gallon; we have increased that by 25% +.

# Public Works Fund

## **Public Works Fund Description**

The Public Works Fund was formed effective July 1, 2007. It includes several programs that had previously been in the Property Services Fund, which has been discontinued. The Roads and Bridges program, operated by the Public Works Division, is by far the largest component.

The North Valley Industrial Park and the Solid Waste Disposal Site programs were placed in the Public Works Special Programs fund in order to provide greater transparency of revenues and expenditures for those programs.

The major source of revenue for the Public Works Fund is motor vehicle fuel taxes apportioned from the State. In addition, cash carried over from the prior year (Beginning Fund Balance) is a major resource for this fund.

Expenditures in the fund are primarily the expenses of operating the Roads and Bridges program. The Public Works Fund has also budgeted inter-fund transfers to the Property Reserve and Equipment Reserve Funds. The planned use of these funds is described in the Capital Projects section of this book. The Contingency budget amount is intended as a carryover to the following fiscal year.

The adopted budget is in balance, which means that the budgeted requirements (expenditures and ending fund balance) are equal to the resources (beginning fund balance and revenues) that are estimated to be available during the budget year.

In the pages that follow, a summary of the Fund (Resources and Requirements) is presented first, followed by sections for the department. The department is represented by a graph of expenditures for the proposed budget, the current year adopted budget, and the previous three years actual expenditures. The associated chart provides the same information in numerical values. Following the graph and chart is a narrative of the purpose of the program.

# PUBLIC WORKS

## Purpose of Program

Public Works makes living and traveling in Josephine County safe, convenient, and enjoyable. The revenue received from state motor vehicle fuel tax and a portion of the timber receipts from U.S. Forest Service lands are designated by law to be used by the county for road purposes. The Department does not receive any county property taxes to fund its operations. Designated work efforts on major maintenance programs include: chip sealing, asphalt patching and overlays, ditch cleaning and culvert replacement, storm response, and vegetation management.

Public Works is responsible for managing and maintaining:

- 570 miles of county-maintained roads
- 170 bridges and structures
- 13,000 road and driveway culverts
- 19 gravel resource and stockpile sites
- Fleet Maintenance Facilities

### **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

Public Works encourages public involvement in many ways, including:

- Staffing on the Josephine County Bikeways/Walkways Committee
- Representation on the Rogue Valley Area Commission on Transportation (RVACT)
- Representation on the Middle Rogue Metropolitan Planning Organization (MRMPO)
- Technical and logistical assistance provided to many County Programs/Departments including – Planning, Transit, Parks, Airports, Building O&M, Fairgrounds and Forestry

### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

Public Works lost most funding related to the SRS/O&C payments; however, some of this loss was offset by the funding package created by Oregon's recent passed HB2017. To continue to meet budget goal #2, Public Works has done the following:

- Increased annual chip-sealing program to 40+ miles/year. Chip-sealing is the most cost-effective way to maintain low-medium volume roads
- Continue to aggressively pursue state and federal funding for bridge replacement & rehabilitation, as well as additional safety enhancement and surfacing projects – including Highway Bridge Program (HBP) funding, Federal Lands Access Program (FLAP), the State of Oregon's All Roads Transportation Safety (ARTS) and FEMA's drainage remediation funding program
- Continue to focus our operation on road maintenance activities that will reduce future maintenance costs.
- To help minimize the effects of inflation, we will continue to look for opportunities to lock-in pricing in anticipation of increases, and to utilize bulk pricing where possible – gasoline, diesel, chip seal oil, asphalt and road paint being the five biggest examples.
- Josephine County's Transportation System Plan (TSP) was updated during 2020-21, this document serves as a detailed guide for further financial planning, project funding and future needs analysis.

### **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open and professional manner.**

Budget Goal #3 is supported by:

# PUBLIC WORKS

- All capital improvements are managed under the Josephine County Public Contracting Rules as well as ORS 279, relating to Public Contracting.
- Local notice to property owners when roadwork/bridgework will potentially impact their travel/use of county roads.

## Key Performance Indicators:

## Fiscal Year 2020-21 & 2021-22 Accomplishments:

- 2-phases Azalea Drive Asphalt Overlay
- Repair or replace 100% of the damaged or missing signs within three days of being reported
- Updated and Adopted Josephine County Transportation System Plan
- Pavement Condition Index (PCI) updated
- Finch Road Bridge Rehabilitation
- Acquisition, upfitting and placement of 3 new pieces of rolling stock equipment – 2 2 10-yard dump trucks and 50ft bucket truck
- Beacon Drive multi-modal project – sidewalk, drainage, street reconstruction
- Six large-diameter culverts concrete relined in-place.
- Caves Camp Road Bridge rehabilitation project
- Carrie Street Bridge deck reinforcement project
- Removal and replacement of oil-water separator at PW site

## Five-Year Vision:

Public Works will continue performing annual baseline maintenance work, across our Road/Bridge portfolio. Continue applying for HBP funding on all qualifying bridges as soon as they meet metrics. All culverts of greater than 30” diameter, on long-term funding replacement cycle. Chip sealing 40+ miles/year, to help maintaining an average Pavement Condition Rating of at least 80, per best practices. Analysis of noted safety deficiencies in 2020 Transportation System Plan, with plan of action developed for each location.

Staying abreast of transportation trends, including: greater focus on multi-modal infrastructure infill and expansion; GIS-based inventory of all field inventory (signage, culverts, bridges, etc.); alternative fuel vehicles and impacts on budget revenues; and continued analysis of areas to improve our natural hazard (primarily flood/storm/earthquake) resiliency and recovery.

# Law Enforcement Fund

**JOSEPHINE COUNTY**  
**Law Enforcement Fund Description**

The Law Enforcement Fund was formed in 2006. It was comprised of three departments: Sheriff, District Attorney, and Community Justice, which had previously been in the General Fund. The Community Justice Department was further reorganized into Juvenile Justice and Adult Corrections. In 2007, Adult Corrections was moved to a separate fund. The Sheriff and District Attorney are elected officials. The manager of the Juvenile Justice Department reports to a liaison County Commissioner. The departments within this fund provide support for the criminal justice system utilized by city, county and state law enforcement.

The budget is in balance, which means that the budgeted requirements (expenditures and ending fund balance) are equal to the resources (beginning fund balance and revenues) that are estimated to be available during the budget year. The primary source of revenue to operate the departments in this Fund had been monies received under the O&C/SRS Timber Revenues and a transfer from the General Fund. Additionally, programs operated by the three departments generate revenues for specific program purposes.

Major reductions in programs occurred in FY 2012-13 due to major reductions in O&C/SRS Timber Revenues.

In the pages that follow, a summary of the Fund (Resources and Requirements) is presented first, followed by sections for each of the departments. Each department is represented by a graph of expenditures for the proposed budget, the current year adopted budget, and the previous three years actual expenditures. The associated chart provides the same information in numerical values. Following the graph and chart is a narrative of the purpose of the program.

## **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

The Sheriff's Office uses technology to efficiently improve community outreach, communicate with the public, and provide enhanced services. With social media, the County website and FlashAlert Newswire, the Sheriff's Office is able to post press releases, inform the public about new programs and services, and regularly provide office statistics. Many citizens also use the Sheriff's Office email as a convenient way to contact the office and get a timely response to their questions. The use of technology makes it possible for every citizen to communicate with the office and receive important information at little to no cost to the County.

## **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

The Sheriff's office continues to seek new revenue sources. Three current programs that generate the most revenue are Civil, Patrol and JMET. While these four programs are not fully self-sustaining, the revenue they generate helps to maintain a basic level of service. The Civil Division collects fees for paper service, fingerprinting and concealed handgun licenses. The fees collected provide funding for almost 50% of the Civil Division budget. For the Patrol Division, contracts with the City of Cave Junction, Oregon State Marine Board, Bureau of Land Management, and the U.S. Forest Service provide three full time positions and support half the cost of the USFS position. An Illegal Marijuana Market Enforcement Grant provides funding for half of the wages of a Detective Sergeant, six full time Detectives, a Financial Analyst, a part time Property Control Specialist and a part time Deputy DA. The Sheriff's Office also receives revenue from charges for service and fines. The remaining resources to support the Sheriff's Office services come from the general fund and taxes from marijuana sales. The general fund will not be able to support the Sheriff's Office at the level needed to maintain current operations. In order to sustain the current level of service a ballot measure will be presented to Josephine County voters. In order to cover the cost of inflation the Sheriff's Office will look for ways to reduce current spending. This includes attending training that is available remotely rather than training that requires out of town travel. Overtime will also be limited as much as possible and provide the opportunity to flex time when feasible.

## **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open and professional manner.**

There are several ways the Sheriff's Office provides access to services to its citizens in an open professional manner. With updated software and streamlined processes, the Civil Division has increased its hours of operation. This allows citizens to apply for or renew their concealed handgun licenses, non-criminal fingerprinting and the ability to accept papers for service from the public five days a week. Applications for concealed handgun licenses as well as the Civil Division fee schedule is located on the County website. The Sheriff's Office now has dedicated staff members to answer the non-emergent phone line and respond to requests for records. Citizens can also utilize an online reporting system where they can report a crime from their home computer. The link to the online reporting system is located on the Sheriff's Office website. If a citizen does not have a computer, there are computers available at our substations. Volunteers at the substations are available to assist citizens in filing a report. Citizens can also make a report in person at the Adult Jail. We have a Deputy dedicated to Three Rivers School District schools and three resident Deputies assigned to specific areas of the community. This allows us to serve the schools and these communities more directly. The Sheriff's Office continues to seek new technology to further improve access to services.

## Fiscal Year 2020-21 & 2021-22 Accomplishments:

- Regularly shared information and statistics with the public regarding Sheriff's Office operations through the County website, social media and FlashAlert Newswire
- The Search and Rescue volunteers donated 3,178 hours in public events, SAR missions and training during 2020
- SAR was deployed to 47 missions in 2020
- SAR created a metal detecting team to assist in crime scene evidence searches
- The Civil Division implemented new procedures in order to continue to issue concealed handgun licenses and provide fingerprinting services during the COVID-19 pandemic
- Went from dispatching 12 hours a day with OSP covering the remaining 12 hours, to now dispatching 24/7
- Patrol staff attended weekly in-house training to stay informed on updated policies and procedures
- Maintained Patrol revenue sources including contracts with the City of Cave Junction, Oregon State Marine Board, Bureau of Land Management, and the U.S. Forest Service which provided three full time positions and one seasonal position
- In partnership with other agencies, conducted periodic saturation patrols in specific areas at varied hours
- Continued to use Volunteer patrols which include the patrol of County parks, home checks for out of town citizens, and a "dummy" patrol car placed throughout the County for an increased presence
- Continued the practice of office issued equipment including firearms and duty gear to remain comparable with other agencies and to provide standardization within the agency
- Continued to receive matching grant funding for bulletproof vests
- Renewed the Illegal Marijuana Market Enforcement Grant for fiscal years 21-22 and 22-23 with additional funding to support added positions
- The Illegal Marijuana Market Enforcement Team destroyed 129,155 pounds in 2020 and 574,463 in 2021.
- Several deputies received awards from the Oregon State Sheriff's Association which included, Enforcement Deputy of the Year, Supervisor of the Year and Meritorious Service Award
- All newly hired Deputies attended the DPSST Academy and received their certification within one year

## Five-Year Vision:

The Sheriff's Office has been expanding its service levels. In order to maintain the current level of service, the Sheriff's Office must secure sustainable funding. With sustainable funding the five year vision includes having 24/7 Patrol services. The Patrol Division would include an entry team with a tactical vehicle to eliminate the need to rely on other agencies during standoff situations. The K9 program would be reinstated as well as a traffic team. With services at this level, support staff would also increase. As a result, a new office building will be needed for Patrol, Detectives, Dispatch, and Records, as well as Administration and Civil.

Other goals include a more secure Evidence Warehouse, a new Search and Rescue Facility with more space and a more centralized location, upgrades to radio equipment, a drone program for Patrol, and a new Dispatch and Records Management System that better communicates with other agencies.

# DISTRICT ATTORNEY

## Purpose of Programs

### Criminal Prosecution

Oregon Revised Statutes mandate that the District Attorney shall attend court and prosecute all offenses occurring in the District Attorney's county.

- ORS 8.660. Oregon Revised Statutes mandate that the District Attorney shall attend and advise the grand jury.
- ORS 8.670. Oregon Revised Statutes mandate that the District Attorney shall appear in juvenile court to assist the court in any matter within the juvenile court's jurisdiction.
- ORS 8.685. The goal of the criminal prosecution unit is to successfully prosecute offenders for all crimes occurring in Josephine County and obtain an appropriate sentence that both advances public safety, reduces the likelihood of offender recidivism, and provides justice to the victim.

### Victim Assistance

The District Attorney is required to advise victims of their Constitutional rights and to assist them in the exercise of their rights. ORS 137.106; ORS 147.417; Oregon Constitution, Article 1, § 42.

### Death Investigation

Oregon Revised Statutes Chapter 146 requires certain deaths to be investigated, e.g., deaths that are "apparently homicidal, suicidal or occurring under suspicious circumstances or unknown circumstances," "or Resulting from the unlawful use of controlled substances or the use or abuse of chemicals or toxic agents." Oregon Revised Statutes Chapter 146 requires that "The District Medical Examiner and the district attorney for the county where the death occurs...shall be responsible for the investigation of all deaths requiring investigation."

### **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

The District Attorney's Office serves citizens by incarcerating the most dangerous offenders in state prison, holding accountable and encouraging reformation of lesser offenders, protecting children from physical and sexual abuse, lowering the crime rate, instilling a sense of safety in the community, creating a business-friendly environment, and making Josephine County a nice place to live and raise a family. The victim services program of the District Attorney's office offers assistants to crime victims in requests for restitution, notification of court proceedings, and referrals of victims to available community resources.

### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

The District Attorney's Office employs Deputy District Attorneys (lawyers) to review evidence to determine if charges are appropriate, attend court on filed cases, and prosecute all crimes in Josephine County. For lawyers to obtain successful outcomes in court, the assistance of support staff is required. Support staff are responsible for: arranging the appearance of witnesses in court; obtaining copies of police and lab reports; organizing files; assisting in preparing exhibits for trial; providing discovery to defense counsel; communicating with court staff; answering questions of the public when appropriate, etc. Together, the lawyers and support staff of the District Attorney's Office strives to obtain positive outcomes for victims and the community.

# DISTRICT ATTORNEY

**Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open, and professional manner.**

Protecting ongoing investigations, victims, and informants can require the District Attorney's Office to withhold information from the public. Additionally, the Oregon State Bar Association places restrictions on the information prosecuting attorneys can make public in active cases. However, the District Attorney's Office meets Budget Goal #3 by, when appropriate, making information easily accessible to the public through communication with our attorneys, support staff, or victim's services office.

**Budget Goal #4 – Increase collaborations with our Criminal Justice Partners to facilitate and maintain a holistic and reformative approach to addressing lower risk offenders who remain in our community.**

The District Attorney’s Office prosecutes criminal cases in Josephine County. While the most dangerous (and repeat) offenders are incarcerated in state prison, the majority of defendants are placed on some form of probation in the community. In order to increase the likelihood of success for these offenders, the District Attorney’s Office needs to work closely with Community Corrections and other community partners throughout the term of probation. By coordinating our efforts, we maintain accountability, mitigate recidivism, and better serve our community by remaining involved in the cases well beyond conviction.

**Key Performance Indicators**

	2018-19	2019-20	2020-21	2022-23	2022-23
Service Levels	Actual	Actual	Actual	Projected	Budgeted
Police Reports Reviewed	6,090	5,886	5,772	6,000	6,000

Number of Cases Prosecuted per Attorney	318	290	325	333	333

It is difficult to measure the good feelings of a child protected or the relief of a murder victim’s family when an offender is found guilty and sentenced. It is equally difficult to measure when someone successfully completes probation or a treatment court and is no longer in the system. We attempt to measure these intangibles with victim questionnaires at the conclusion of the case. Both attorneys and support staff frequently receive subjective feedback on the performance of this office through communication with victims and law enforcement officers during the life of a case.

**Fiscal Year 2020-21 & 2021-2022 Accomplishments:**

- Successfully prosecute all felony and misdemeanor victim cases with legal merit.
- Successfully prosecute all probation violations with legal merit.
- Continue to provide the highest level of service to all crime victims in Josephine County.
- Fulfill County Medical Examiner obligations to assist State ME in all cases ORS Chapter 146 requires

# DISTRICT ATTORNEY

## Five-Year Vision:

Over the last few years, the Josephine County Sheriff's has drastically increased its service to the citizens of Josephine County. It has also now been just over a year since Measure 110 took effect, meaning that almost all Unlawful Possession of a Controlled Substances cases are no longer crimes that are handled by this office. Lastly, it has also been just over two years since COVID has impacted all of our lives. The confluence of these three events has reinforced the District Attorney's Office's five-year vision. That is, we will continue to focus on providing the highest level of service to our law enforcement partners while attempting to retain the Deputy District Attorney's we hire.

Despite most possession cases being removed from our office, our attorneys and staff are equally busy because of the increase in Sheriff's Office referrals, the nature of the cases being referred, and the increase in cannabis manufacturing cases. Where once we were busy with drug possession cases, we have had an increase in domestic violence crimes, property crimes, cannabis crimes, and child exploitation cases, that, while may be less in number overall, take as much, if not more, time.

Our Deputy District Attorney staffing is two attorneys lower than it was two years ago, one lower than currently budgeted for, and yet we continue to charge all cases with legal merit, participate with our partners in JMET, RADE, SOCCETF, Elder / Child Abuse MDTs, Child Fatality Review Team, SART, Josephine County Drug Court, and Josephine County Mental Health Court, and continue to balance accountability and reform while ensuring Josephine County remains a great place to live, work, and raise a family. We are able to adapt and maintain this, despite our shortages, because the current team has—or is interested in creating—ties in Southern Oregon.

Our Office's staffing needs are directly correlated to the number of referrals sent to us by our partners with the Grants Pass Police Department, the Josephine County Sheriff's Office, the Oregon State Police, and our interagency taskforces. As the demand for services increases, and the nature of that demand changes, the District Attorney's Office anticipates it will need to increase capacity to keep up with the increase in demand for services. The District Attorney's Office can only increase capacity by hiring additional Deputy District Attorneys and legal support staff.

Additionally, our medical examiner obligations were put to the test this last year, but again, because of the staff on hand, collaboration with our local Funeral Homes and law enforcement agencies, and our gracious neighbors in Jackson County, we were able to investigate and report all medical examiner deaths within our county, despite only a "half-time" Medicological Death Investigator.

Finally, inflation is at a 40-year high and is outpacing revenue drastically. Our office's budget is almost entirely personnel, which limits our ability to address it directly. However, because of inflation, we are even more selective in the travel expenses we can accommodate for essential witnesses for trial/grand jury, we are limiting the types and frequency of trainings attended by our staff, and we are not seeking to recoup the 10<sup>th</sup> DDA position we lost last budget year.

In short, the five-year vision for the District Attorney's Office is to **hire, retain, and maintain** Deputy District Attorneys and legal support staff to adequately meet the increasing and morphing demand for service from this Office and to increase the Medicological Death Investigator position to full time to adequately address Medical Examiner needs in our County.

# JUVENILE JUSTICE

## Court & Field - Purpose of Program

Juvenile Justice Court and Field Services are mandated in ORS 419A.010-020. Felony youth referrals are received from law enforcement, evaluated by the District Attorney's Office for legal sufficiency and the course of disposition is prescribed by Juvenile Justice. Misdemeanor referrals are evaluated by Juvenile Justice. The program promotes community protection through accountability for youth, opportunity for reformation and justice for victims. The course of action is driven by severity of offense and risk assessment, with most services being directed to the medium-to-high risk offender. Lower risk, first time offenders are usually diverted from court with informal action, which includes community service and restitution to victims when appropriate.

Outcomes include mandates that youth abide by their informal contracts or court ordered probation conditions. Victim restitution is collected or docketed as a civil judgment in most cases. Caseload contacts are maintained according to the youth's level of risk and the severity of the crime. Youth violations result in a structured sanction process. The supervision of medium and high-risk youth may include mandates to attend cognitive behavioral, evidence-based services offered through the department; restorative justice community service opportunities, educational or vocational opportunities that are not available through the public school system.

Community service opportunities are provided in-house. These services are based on community engagement and a Restorative Justice model. Youth participate in projects such as food bank aid and community garden planting, maintenance and harvesting. All youth participating in this program are supervised and mentored throughout the process by trained Juvenile Justice staff or approved and vetted volunteers. Youth education and counseling services are also provided in-house. These services include theft education classes, alcohol and drug education classes, family counseling services and other evidence-based curriculums. Youth with needs beyond the department's capabilities are referred to Options for Southern Oregon or one of three local adolescent alcohol and drug treatment programs.

Court and Field Services are primarily funded through a General Fund allocation. Some state funds aid in supporting these services and the cost of administration and support staff is split between the General Fund and other Juvenile Justice programs.

### **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to youth and citizens.**

A budget goal of community outreach is accomplished in the geographical assignment of caseloads. In compliance with law, schools are advised of youth pending court and final dispositions. Juvenile Justice participates in regular meetings with law enforcement, schools, and treatment providers. Options for Southern Oregon, The Department of Human Services and The Oregon Youth Authority consult with the program regarding out-of-home placements for high-risk youth. Several community partners accept youth and family referrals from Juvenile Justice and throughout the community. We maintain training standards via the Oregon Juvenile Department Director's Association (OJDDA).

### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

Funding revenue from the state, office rent and other fees account for approximately 20% of the Court and Field budget. The balance is required from County Public Safety or General Funds'. The current proposed revenue from the County General Fund along with other revenues will allow the department to sustain the previous year's level of service to the community.

# JUVENILE JUSTICE

**Budget Goal #3 – Address inflation.** The proposed budget addresses the current inflation dynamic in two ways. First, the department has budgeted for a significant increase in revenue generated from contracting with the state or Oregon for beds in our residential treatment program, Turning Point. Increasing our average daily population of youth in the program will allow for nearly \$100,000 of additional income for fiscal year 2022/2023.

Secondly, if inflation continues to increase at levels we are currently seeing, not preplacing an anticipated retiring employee in 2023 or implementing a hiring freeze for staff outside our facilities will offset inflation for fiscal year 2023/2024.

## **Fiscal Year 2019-20 & 2020-21 Accomplishments:**

- Every delinquent referral was processed by the department and appropriate actions based on crime severity and youth risk level. We believe that the funding level is, and will remain, on par with the number of referrals we receive from the police, sheriff, and courts. We have been able to serve each case referred within our current funding.
- In fiscal year 2019/20, 235 youth were referred to the department. This number was neatly cut in half to 122 in 2020/21 due to the COVID-19 pandemic and subsequent shutdowns that effected Human Services across the spectrum. To date in 2022 and after all major COVID restrictions were lifted, we now see a return to a similar number of referrals that we experienced pre COVID.
- Full implementation of contact standards based on risk to public safety and youth needs were modified due to COVID restrictions, but all youth under the department's supervision continued to receive modified services throughout the year.
- In cooperation with two of the department's other divisions, an eco-literacy program is in the development and building stage. This program will consist of a year-round horticultural program, a meteorology class and other vocational opportunities made possible through increased community partnerships.
- Improved customer service through training, adjustment of policy and utilization of all appropriate and available community partners.
- Continued implementation of Evidence Based Practices through utilization of staff development.

# JUVENILE JUSTICE

## Residential Services - Purpose of Program

Juvenile Justice Residential Services are key to the continuum of care provided through the larger county program. Providing a less restrictive residential opportunity than secured detention is consistent with current best practices in Juvenile Justice. Youth who are appropriate for the residential program, but do not have a traditional home option are allowed to transition from secured detention into this less-restrictive environment, while staying in their home community. Such youth are then allowed to transition into a community living situation when it becomes available. This full continuum of services offered by Josephine County serves as a statewide example of Juvenile Justice functioning at the very highest level. We believe that this level of service to youth and families is one of the main reasons that Josephine County continues to lead the state in criminal recidivism of youth offenders.

In February 2018, Juvenile Justice re-opened the residential treatment program called Turning Point. This program provides longer-term care and services for youth in need of a living environment outside of the home. Four distinct youth populations are served by the Turning Point Youth Residential Program:

- Josephine County youth who are involved long-term with Josephine County Juvenile Justice
- Josephine County youth involved with law enforcement that require short-term safe housing
- Oregon Youth Authority youth who are on formal Parole or Probation (OYA)
- Youth in the custody of the Oregon Department of Human services (DHS)

Contracts with OYA and DHS for a limited number of beds in Turning Point Youth Residential Program greatly offset the cost of the overall program. This will also allow access to the program by local youth who are not formally involved in either of those two entities. It is the ongoing goal to continually keep open capacity to house local youth in immediate need of our services.

The Turning Point Youth Residential Program meets all Oregon state licensing requirements as well as all federal standards required to providing Behavioral Rehabilitative Services (BRS). As such, all residents of the Turning Point Youth Residential Program receive intensive services in group counseling, group skill building, individual counseling, individual skill building, access to mental health assessments and medical screenings as well as referrals to other mental health services, and alcohol and drug treatment as needed. Turning Point residents also have access to an on-sight alternative education program or local public-school education when appropriate.

### **Budget Goal #1 – Serve Josephine County youth first while offsetting the overall cost of the program through state contracts.**

A significant portion of the residential program budget is derived from contracting beds with the Oregon Department of Human Services (DHS) and the Oregon Youth Authority (OYA).

### **Budget Goal #2 – Charge a higher daily bed rate and comply with all state and federal mandates related to being a Qualified Residential Treatment Program (QRTP).**

Turning Point became a QRTP after a lengthy process in 2021. This national certification now allows for long-term program sustainability and contracting potential that will eventually become contingent upon that status. Recent changes in federal and state guidelines drove the decision to become accredited. The service delivery to the youth and families we serve has been greatly enhanced as a result in addition to the increased daily bed rate we are able to charge.

# JUVENILE JUSTICE

**Budget Goal #3 – Through grant opportunities and fundraising; explore remodel options for the residential program.** Current best practices indicate that residential sleeping spaces for program youth should be less dense than the dorm-style rooms currently utilized by Turning Point. By acquiring grant funds for a remodel to single occupancy sleeping rooms, Turning Point will greatly improve its overall quality of service.

## **Five-Year Vision:**

- Expand evidence-based practices training for all department staff
- Build renewed and extensive partnerships with law enforcement and other agencies involved with Juvenile Justice
- Work with the Prevention Team and schools to further develop our outreach program
- Work with county officials to formulate stable funding beyond the five-year public safety levy
- Increase vocational and training opportunities for residential youth
- Remodel existing residential facility
- Expand education program to possibly include an on-site GED testing program

# Community Corrections Fund

**JOSEPHINE COUNTY**  
**Community Corrections Fund Description**

The Community Corrections Fund was formed effective July 1, 2007. It includes several related programs which had previously been in the Community Justice Department. This department was reorganized into Juvenile Justice, which remained in the Public Safety Fund and Adult Corrections, which is now in this fund.

Community Corrections administers a number of programs focused on the supervision, treatment and sanctioning of felony and misdemeanor offenders placed on probation by the courts or released from prison under jurisdiction of the Board of Parole and Post- Prison Supervision. The programs, described later in this section, include Field Services, Work Crew and Community Service, Alcohol/ Drug and Cognitive Treatment, Home Detention and Supervisory Authority. Additional efforts include re-entry services for high risk offenders returning from prison. Community Corrections is dedicated to community safety and offender accountability while promoting positive behavior change.

The adopted budget is in balance, which means that the budgeted requirements (expenditures and ending fund balance) are equal to the resources (beginning fund balance and revenues) that are estimated to be available during the budget year.

In the pages that follow, a summary of the Community Corrections Fund (Resources and Requirements) is presented first, followed by Schedule A, which summarizes the programs in the fund. The department is represented by a graph of expenditures for the proposed budget, the current year adopted budget, and the previous three years actual expenditures. The associated chart provides the same information in numerical values. Following the graph and chart is a narrative of the purpose of the program.

## Purpose of Program

Josephine County Community Corrections (JCCC) is a state funded, mandated county program charged with the supervision of justice involved individuals (JIIs) placed on probation by the courts or released from prison under the jurisdiction of the Board of Parole and Post-Prison Supervision. Currently, JCCC supervises approximately 850 JIIs. Community Corrections is made-up of four primary divisions including Administration/Leadership, Custody Alternative Programs, Field Services (Parole and Probation supervision), and Treatment Services.

- **Administration/Leadership** is responsible for aligning Departmental processes, protocols, policies, and practices with applicable laws as defined in OAR, ORS, and federal statute. The administration of Josephine County Corrections establishes the vision, mission, and department goals for the agency, and aligns them with the values and direction of Josephine County's governing Board of County Commissioners. The administration is responsible for open communication with the Board of County Commissioners and reporting department progress and concerns to governing authorities.
- **Custody Alternative Programs (CAPs)** are comprised of Work Crews, Community Service, and Home Detention. Work crew and community service programs whom offer direct services to the public, are made up of JIIs serving sentences or sanctions under the legal and physical custody of the Supervisory Authority. Work Crew is also a sanction option for JIIs violating the conditions of supervision and serves as an alternative to incarceration, often resulting in substantial cost savings. The home detention program allows JIIs an alternative to jail while maintaining employment in the community and providing opportunities for them to continue to be productive citizens while serving their sentence or sanction.
- **Field Services** supervises adult JIIs sentenced to probation by local courts as well as those released on post-prison supervision from the Department of Corrections (DOC). Field Services strive to enhance the safety of the community by balancing accountability with wraparound treatment modalities such as risk assessments, case planning, and evidence based programs in consideration of offender needs, risk to the community, and their responsibility. Field Services has specialized caseloads including Sex Offender Supervision, Domestic Violence, Gender Specific, Mental Health, Drug Court, and other general caseloads consisting of assault, theft, burglary, robbery, murder, and other felonious crimes.
- **Treatment Services** provide cognitive behavioral therapy to JIIs through the use of evidence-based practices designed to mitigate the adverse effects of substance use disorders. The program's aim is to positively influence clientele in overcoming addiction to become productive citizens, thereby reducing recidivism and promoting compliance with conditions of supervision. Treatment Services offer outpatient treatment in group therapy sessions as well as individual therapy sessions. The treatment division also deploys cognitive behavioral therapy to domestic violence specific clientele as well as sex offender under the jurisdiction of community corrections. Treatment Services is also responsible for the delivering Secure Treatment, which is facilitated within the local jail, and is specifically designed for pre-contemplative, high risk JIIs, who are incarcerated long term and short term. The Secure Treatment program provides cognitive behavioral alcohol and drug treatment and is primarily funded by the Justice Reinvestment Act.

# COMMUNITY CORRECTIONS

**Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

JCCC provides a verbal and written quarterly report to the Board of County Commissioners, which summarizes each division’s outcome measures for the quarter, and includes significant division progress notes and other updates for the Department, so citizens and County Government Leadership are aware of the services delivered. JCCC is very responsive to the needs of the citizens and routinely provides information about probation, parole, treatment, and victim services. JCCC promptly responds to citizen inquiries.

**Budget Goal #2 - Develop a sustainable plan for mandated and essential County government programs.**

JCCC is state funded and committed to provide supervision, treatment, and custody alternatives to the offender population of the County. We have secured grants including Bureau of Justice Grants for Drug Court, Criminal Justice Commission Grants for the Justice Reinvestment Initiative which fund Secure Treatment, Mental Health Services, Downward Departures, Victim Services, Transitional Housing, research projects, the DA’s Office, and Jail deputies for long term sanctioning. JCCC places an emphasis on reasonable fee collection to the JIs who are receiving services.

**Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open, and professional manner.**

JCCC values transparency in government and makes public records available to the extent allowed by County policy and the laws governing release of information. JCCC is dedicated to the continued partnerships with other agencies offering assistance to the systemic function of public safety.

# COMMUNITY CORRECTIONS

## **Fiscal Year Executive Summary:**

Community Corrections has set goals specific to each division and correspond with the agency's strategic plan. There are three important themes our agency focuses on, which includes people, performance, and resources. The 2022 calendar year will likely bring significant change to our industry including the implementation of multiple pieces of ratified legislation impacting our work from the 2021 legislative session. We are confident with our leadership and involvement at all levels of community corrections to successfully navigate and promote the strategies within our organization to maintain congruence of our mission, values, vision and practice.

Covid-19 has prompted significant agency change to prevent the spread of the disease and promote the safety of individuals involved with the justice system along with the safety of our staff and community partners. Additionally, we have seen impacts to the number of people we supervise, in-part because of ballot measure 110, and the justice-system's response to covid-19 along with police reform initiatives. We have seen an increase in the commutations from the Governor, allowing for multiple early releases from prison. Further, the state's legislature passed new laws that will impact our industry in community corrections including, changes to general conditions of supervision, and other topics that will directly impact community corrections in the coming year.

In our current biennium, we have experienced significant legislative support for state funding of our programs and supervision practices. For Josephine County, our current biennium funding is the largest it has ever been with a total budget exceeding 14 million dollars. As it relates to inflation, the Department of Corrections accounted for anticipated inflation in our current biennium and made the adjustments to our county's allocation for 21-23 specifically related to personnel costs.

Our local practitioners and leadership team continue to navigate the complexities of our industry and champion the professional standards in operational practice and policy. I am excited for the future of Community Corrections and those who intersect with our programs.

It is with honor and respect for the individuals dedicated to this profession I present to you our 2022 Strategies for Josephine County representing our strategic plan, core values, projected accomplishments, and expectations of ourselves moving forward.

## **Field Services 2022 Goals:**

- Conduct a comprehensive needs assessment of current specialized caseloads, including actions and procedures that justify the caseload by April 1, 2022 (Performance #3, Resources #5)

## Custody Alternative Program Goals 2022:

- Develop electronic monitoring hook-up guide for use by other department staff to eliminate the need to reschedule appointments in the absence of assigned program staff. (People strategy 3, Performance strategy 3, Resources strategy 4).
- Develop jail kick sign-up instructions for Work Crew Coordinators to use in the absence of program staff (People strategy 3, Performance strategy 3, Resources strategy 4).
- Develop an equipment evaluation and replacement schedule to ensure adequate resources are available to complete assigned projects and tasks efficiently and safely (Performance strategy 1 & 2, Resources 2 & 4).
- Continue to monitor the jail population and oversee the release list to maximize the use of alternative custody programs and minimize the impact on the jail by the continuing to provide daily "Release List" incorporating best practices and the approval of the Supervisory Authority Board (People strategy 5).
- Continued involvement in the Supervisory Authority Board Committee and maximize attendance/participation through communication to board members and participants, sending out the meeting agendas, producing meeting minutes and distributing to members and participants involved. (People strategy 4, Performance strategy 4).
- Provide data showing savings to the County/Jail on a quarterly basis (Performance strategy 2, Resources strategy 1).
- Create a system to track Local Control Beds and report use at Supervisory Authority Board Meetings (Performance strategy 2 & 3, Resources 4).
- Provide 100% services identified contractually with local, state, and federal agencies to provide work crew services to the community (Resources strategy 2).
- Maintain current Work Crew contracts and Community Service sites and seek opportunities for divisional expansion and additional contracts consistent with the Department's vision, mission, core values and strategic plan. (Resources strategy 2, 4, & 5).
- Perform cost analysis on the work crew program showing actual costs of the program, the daily contract rate and savings provided to the County/Sheriff's Office by mid-year 2022 (People strategy 5, Performance strategy 4 & 5).
- Seek input from our community partners on CAPs performance through an annual survey (Performance 1, 2, & 4, Performance 5, Resources strategy 2 & 3).
- Follow up with staff with the results from the annual survey either reinforcing the positive results or finding solutions to resolve any areas needing attention (People strategy 1, & 2, Performance strategy 1, Resources strategy 3).
- Continue to strengthen positive reinforcement techniques with offender clientele by verbal recognition or reward (People strategy 1 & 2).
- Develop division performance standards and training protocol specific to divisional operations and functions (People strategy 1 & 2, Performance strategy 3 & 5, Resources strategy 4).
- Complete meaningful performance evaluations, including the development of individuals goals and provide needed support to succeed (Performance strategy 5).
- Promote team building activities to encourage a cohesive and harmonious team environment (People Strategy 1).
- Provide relevant training curricula and/or informational materials to share with applicable partner agencies regarding department programs and procedures (People Strategy 1. Performance strategy 4).
- Explore opportunities for personal and professional growth that will further benefit the individual and department (People strategy 3 & 4).
- Continue to seek out and send staff to trainings that will provide information and support in dealing with the many aspects of the offender population (People strategy 3, Performance strategy 1, Resources strategy 5).

# COMMUNITY CORRECTIONS

- Review work crew participant safety instructions and expectations to promote a safe and productive work environment and reduce the risk of damage to equipment and harm to self or others (People strategy 3, Performance strategy 3, Resources strategy 4).

We will promote a harmonious atmosphere, supporting staff, managers, community partners, and clientele with professional and appropriate communication.

#### **Strategy 2**

We will develop our staff with encouragement and positive reinforcement, recognizing individual and group successes in the performance of their duties and recruit and retain the best and most qualified personnel for Community Corrections using competitive compensation, benefits, harmonious culture, flexibility, and support to do their job well.

#### **Strategy 3**

We will encourage relevant and comprehensive training to staff to support the overall mission and vision and we will communicate cross-divisionally to promote consistent case planning and treatment accountability.

#### **Strategy 4**

We will actively participate in relevant local, regional, state-wide, and national committees and associations, offering our perspectives and listening to others', while developing strong relationships and leveraging resources.

#### **Strategy 5**

We will respond professionally and timely to stakeholder's needs including public inquiries, community partner's requests, law changes, policy changes, and our governing authority's directions.

### **Performance Strategies:**

#### **Strategy 1**

We will evaluate and improve agency outcomes and program deliverables using evidence-based methodology and practices.

#### **Strategy 2**

We will explore and implement information technology resources that will provide accurate, efficient, and secure data to improve the effectiveness of programs and services provided by Josephine County Community Corrections.

#### **Strategy 3**

We will develop services, programs, processes, policies, and protocols with evidence-based research, and conduct routine audits promoting consistency between actual operational services and written expectations and objectives.

#### **Strategy 4**

We will commit to both learning from other jurisdictions as well as sharing ideas with other jurisdictions to benefit community corrections and maximize performance as a whole.

# COMMUNITY CORRECTIONS

## **Strategy 5**

We will seek to improve performance through goal setting and commit to analyzing individual outcome measures and divisional performance. Together, we are changing lives with what works

## **Resources strategy**

### Strategy 1

We will seek to maximize funding opportunities that are in-line with our vision, mission, core values and strategic plan.

### Strategy 2

We will deliver on our promises and obligations as described in the grants we receive and seek ways to improve our outcome measures on identified deliverables.

### Strategy 3

We will seek ways to market, advertise, and communicate our success as an organization, in an effort to build confidence in our programs to sustain and/or secure additional future funding.

### Strategy 4

We will fully utilize the resources given to us to their maximum capacity.

### Strategy 5

We will research any ideas that have potential of being beneficial to the agency prior to implementation and have evidence of its effectiveness in other jurisdictions or locally prior to implementation.

# Mental Health Fund

**JOSEPHINE COUNTY**  
**Mental Health Fund Description**

The Mental Health Fund was formed effective July 1, 2007. The County Commissioners act as the Mental Health Authority. The Authority has oversight responsibilities for the mental health programs that were transferred to non-profit organizations and/or other governmental agencies as of July 1, 2006. The County also administers the Alcohol and Drug programs.

Major sources of revenue for this fund are mental health grants from the federal and state governments, which are passed through to the outside agencies that now administer the mental health programs. This Fund does not receive support from the County's General Fund.

The adopted budget is in balance, which means that the budgeted requirements (expenditures and ending fund balance) are equal to the resources (beginning fund balance and revenues) that are estimated to be available during the budget year.

In the pages that follow, a summary of the Mental Health Fund (Resources and Requirements) is presented first, followed by Schedule A, which summarizes the several programs in the fund. The department is then represented by a graph of expenditures for the proposed budget, the current year adopted budget, and the previous three years actual expenditures. The associated chart provides the same information in numerical values. Following the graph and chart is a narrative of the purpose of the programs.

# MENTAL HEALTH

## Purpose of Programs

### Administration

The Mental Health Authority has oversight responsibilities for the mental health programs transferred to non-profit organizations and/or other governmental agencies as of July 1, 2006. The County also administers the Alcohol and Other Drug Prevention and Treatment programs. The Mental Health Authority administers the contracting for grants received from federal and state agencies and the local grantee organizations.

### Mental Health Pass-Through

This program accounts for Mental Health pass-through grant funds (funding received from the State of Oregon OHA/HSD and passed directly to the service provider in Josephine County). The grant is to provide mental health services to the citizens of Josephine County. Expenditures equal revenues and are recorded as Contractual Services.

### Alcohol & Drug Programs/Admin

Oregon Revised Statutes: 430.610(4) and 430.640(1) authorize the Oregon Department of Oregon Health Authority to assist Oregon counties in the establishment and financing of community mental health, developmental disability, addiction, and prevention programs operated or contracted for by the County. The Substance Abuse and Problem Gambling Prevention programs are under Oregon Health Authority, Administrative Rules: 415-056-0030; 0035; 0040; and 0045.

### Alcohol & Drug Programs/Planning & Pass Through

Oregon Revised Statutes: 430.610(4) and 430.640(1) authorize the Oregon Department of Oregon Health Authority to assist Oregon counties in the establishment and financing of community mental health, developmental disability, addiction, and prevention programs operated or contracted for by County. Some of the Program funds are pass-through funds to alcohol, other drugs, and problem gambling prevention, intervention, and treatment providers.

### Tobacco Prevention

Prevention programs work together to reduce tobacco related and other chronic diseases in our community. Which meet the mandate for health education and outreach as listed in OAR 333, Divisions 10, 15 and the TPEP program provides local enforcement of the Indoor Clean Air Act of 2009.

**Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

The Josephine County Prevention Team developed a County Prevention plan that looked at County Data around substance use/abuse issues and problem gambling and identifying services and programs that need to be provided. The County Prevention Plan is available for review in the Prevention and Treatment Services Manager office.

**Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

Sustainable funding for all mandated and essential programs of the A&D Program is based on the funds received from the State. The program has also received grant funds from Federal and Foundation funders when funding opportunities are available, and the program has the capacity to implement such funding opportunities.

# MENTAL HEALTH

**Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open, and professional manner.**

Services provided by the Prevention and Treatment services are open to all Josephine County citizens. Citizens are encouraged to submit an application to serve on the Addictions, Mental Health, Public Health Advisory Committee. Minutes of all meetings are available and meeting notices are posted at the Courthouse.

## **Fiscal Year 2020-21 & 2021-2022 Accomplishments:**

- Every 6<sup>th</sup> grade class in Josephine County's 2 school districts received SMART Moves curriculum
- Over 30 families successfully completed Strengthening Families Curriculum
- The 4<sup>th</sup> prevention specialist cohort started with 25 participants
- Media Campaign address Underage Drinking and Senior Risky Behavior of gambling.
- Super Positive Video contest with High School students
- Support Cities and County in Tobacco Free campus / indoor clean air act
- Partnership with Prevention Team, Juvenile Justice, Three Rivers, and Grants Pass School Districts implement Outreach Officers in the schools to support families and youth to stay engaged in school and increase protective factors to reduce substance use and increase school attendance

## **Five-Year Vision:**

Josephine County Prevention team works to reduce or prevent the harms of Alcohol, Tobacco and Other Drug use through education, resources, and advocacy. To empower communities to prevent substance abuse and its related problems at home, school, and work.

# Jail & Detention Fund

**JOSEPHINE COUNTY**  
**Jail & Detention Fund Description**

This Fund was created for the 2017-18 budget after the Josephine County voters approved the 5-year local option levy to fund the Adult Jail and Juvenile Detention Programs in May 2017.

It is comprised of two programs: Sheriff–Adult Jail Program and Juvenile Justice–Detention Program. The Sheriff is an elected official. The manager of the Juvenile Justice Department reports to a liaison County Commissioner. The departments within this fund provide support for the criminal justice system utilized by city, county and state law enforcement. Countywide services include the jail and juvenile facility.

The budget is in balance, which means that the budgeted requirements (expenditures and ending fund balance) are equal to the resources (beginning fund balance and revenues) that are estimated to be available during the budget year. The primary source of revenue to operate the departments in this Fund is property tax from the local option levy and transfer in from Forestry Reserve Fund. Additionally, programs operated by the two programs generate revenues for specific program purposes.

In the pages that follow, a summary of the Fund (Resources and Requirements) is presented first, followed by sections for each of the departments. Each department is represented by a graph of expenditures for the proposed budget, the current year adopted budget, and the previous three years actual expenditures. The associated chart provides the same information in numerical values. Following the graph and chart is a narrative of the purpose of the program.

# ADULT JAIL

## Adult Jail– Purpose of Program

*ORS 206.010* - Arrest and commit to prison all persons who break the peace, or attempt to break it, and all persons guilty of public offenses.

*ORS 169.320* - The County must pay for the care of county prisoners. The Sheriff has custody and control of prisoners in the facility.

### **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

The Sheriff's Office uses technology to efficiently improve community outreach, communicate with the public, and provide enhanced services. With social media, the county website and FlashAlert Newswire, the Sheriff's Office is able to post press releases, inform the public about new programs and services, and regularly provide office statistics. Many citizens also use the Sheriff's Office email as a convenient way to contact the office and get a timely response to their questions. This use of technology makes it possible for every citizen to communicate with the office and receive important information at little to no cost to the County.

### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

With federal funding dwindling, it is important to have other funding streams in order to keep mandated services. While the Sheriff's Office continues to seek new revenue sources, the Jail receives contracts and grants for jail beds that provide funding for about 17% of the Jail budget. This funding includes reimbursement for a drug treatment pod, Parole & Probation sanctions, felony DUII beds, and US Marshal adults in custody. The remaining budget for the 185 bed Jail is funded by a 5 year corrections levy passed in May 2017 and renewed in November 2021. Though the levy is not permanent, it provides stable funding for five years while permanent solutions continue to be explored. In order to cover the cost of inflation the Sheriff's Office will look for ways to reduce current spending. This includes attending training that is available remotely rather than training that requires out of town travel. Overtime will also be limited as much as possible and provide the opportunity to flex time when feasible.

### **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open and professional manner.**

There are several ways the Sheriff's Office provides access to services to the citizens in an open and professional manner. The starting point for anyone trying to reach the Josephine County Adult Jail is a phone tree designed to answer frequently asked questions to provide more immediate service. For example the phone tree may refer you to our website where there is a tool to search for current adults in custody lodged in the Jail. You can also visit a website to put money on their accounts and to schedule video visits that can be done through a home computer. While many services are provided via the phone tree or a home computer, there is also always the option of speaking to a live staff member or face to face in the jail lobby. The Sheriff's Office continues to seek new technology to continue to improve access to services.

## Fiscal Year 2020-21 & 2021-22 Accomplishments:

- Received Justice Reinvestment funds from the Criminal Justice Commission for 10 Drug Treatment Beds in the Adult Jail
- Received additional Justice Reinvestment funds for Parole and Probation sanctions
- Other sources of Jail revenue include USM bed rentals, Parole and Probation beds, and a DUI incarceration reimbursement.
- Regularly shared information and statistics with the public regarding Sheriff's Office operations through the county website, social media and FlashAlert Newswire
- The Jail received a favorable rating in the most recent inspection by the Oregon State Sheriff's Association done in 2021
- The Jail received a favorable rating from an inspection by the US Marshals Service
- Multiple jail staff performed live saving measures; A jail deputy received the Distinguished Service Award from Oregon State Sheriff's Association
- Provides in-custody court appearances for about 3,000 adults in custody each year
- Transports about 500 adults in custody to other jails and prisons in Oregon each year
- In house mental health services for inmates in the Adult Jail are provided by Options for Southern Oregon
- All newly hired Deputies attended the DPSST Academy and received their certification within one year
- Using Power DMS, an exchange of training information in a pool of 36 different agencies

## Five-Year Vision:

A corrections levy was originally passed in May 2017 and renewed in November 2021. The levy funds a 185 bed jail. Over the next five years the goal is to find more stable funding in order to increase the cap to 250 beds to better accommodate the needs of the community. The vision for this expanded facility would include an aggregation/segregation wing in order to better isolate certain adults in custody when necessary. The facility could potentially include an additional drug treatment pod for adults in custody and a separate area for mental health beds.

# JUVENILE DETENTION

## Detention - Purpose of Program

Juvenile Justice Detention Services are mandated in ORS 419A.010-020. Felony youth referrals are received from law enforcement, evaluated by the District Attorney's Office for legal sufficiency and the course of disposition is prescribed by Juvenile Justice. Misdemeanor referrals are evaluated by Juvenile Justice. The program promotes community protection through accountability for youth, opportunity for reformation and justice for victims. Detention is often required pre/post hearing and serves to provide public safety.

As a result of a successful public safety levy, the Josephine County Juvenile Detention Center reopened in January 2018. This 14-bed facility houses pre-adjudicated youth who are referred to the department for felony crimes and high-risk misdemeanors. Our detention center will also house youth who are serving sanctions based on Probation Violations or Violations of Conditional Release. Other uses of detention include court ordered detention as a consequence for law violations and the short-term housing of criminal youth that are not eligible to be booked into detention. Such youth are processed upon being taken into custody and are released to a responsible party within four hours of detainment in the facility. These short-term stays will also include law violations and status offenses, offering much needed relief to law enforcement officers who routinely deal with runaways, curfew and alcohol or marijuana possession issues.

Josephine County also offers a state certified 30-day detention program called Treatment and Transition (TAT). This program is designed to serve youth who are not performing well under community supervision (probation). These youth are oftentimes at risk of a commitment to the Oregon Youth Authority due to the ongoing community safety risk. Our program serves these youth through cognitive-behavioral interventions, individual and group skill building, and services tailored to meet the unique needs of individual youth.

Youth housed in our detention center are provided with year-round education services (as outlined by ORS and the Oregon Department of Education), recreational opportunities, mental health services, nursing and medical screenings, alcohol and drug counseling, cognitive-behavioral group skill building and individual skill building.

### **Budget Goal #1 - Improve community outreach and communication to the public by improving efficiencies within County departments and provide enhanced services to citizens.**

This goal is accomplished by having the capacity to hold all youth in secured detention that pose a significant risk to community safety. In fiscal year 2019/2020 ALL Josephine County youth who were referred and posed a community safety risk were held in detention pending release as authorized by the Family Court or Juvenile Justice.

### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

Josephine County's 30-day detention program was approved by the state and began operations in late 2019. These enhanced detention services are allowed by law if a program meets state requirements through an extensive application and site visit process. This program allows a Judge to order a youth into a treatment specific detention program for up to 30 days. This program is designed to keep you from penetrating deeper into the system. Through contracts with other counties, we are able to generate revenue for the program by selling unused bed capacity for this program. At a rate of \$150.00 per day, our detention fund will receive \$4,500 for each out-of-county youth served in our program.

# JUVENILE DETENTION

## Budget Goal #3 – Implement practices that address the current high rate of inflation.

Personnel cost alone rose over 11% from fiscal year 2019/20 to 2020/21. To address this, contracting for 30-day detention program beds was expanded to include the entire Eastern Oregon region of the state. This additional revenue along with a non-essential employee hiring freeze should be enough to combat this inflationary surge.

### Key Performance Indicators:

Service Levels	2018-19	2019-20	2020-21	2021-22	2022-23
	Actual	Actual	Actual	Projected	Budgeted
Detention Beds at Josephine County Facility	14	14	14	14	14

### Effectiveness Measures:

Recidivism rate 22.7% (statewide average is 37.0% )	24.50%	23%	22.7%	22.7%	n/a
--	--------	-----	-------	-------	-----

### Fiscal Year 2019-20 & 2020-21 Accomplishments:

- Physical Plant improvements included increasing the detention yard size and adding a horticulture program, complete with a greenhouse.
- In partnership with School District 7 and Met One Instruments an eco-literacy program was created. This program includes a state-of-the-art weather station and corresponding software.

### Five-Year Vision:

- In cooperation with the State Department of Education and local School District # 7, continue improvements of the detention physical plant.
- Continue the ability to fully staff the facility to its maximum occupancy abilities and meet the responsibility to book and or lodge ALL juveniles referred to the facility by law enforcement.
- In accordance with the public safety levy restrictions, reduce local budget impact by continued contracting with other counties for unused detention beds and the 30-day extended detention program.
- Propose a long-term funding strategy for juvenile detention services that is not dependent upon local temporary property tax levies.

# Forestry Reserve Fund

**JOSEPHINE COUNTY**  
**Forestry Reserve Fund Description**

This fund is to accumulate and expend revenue received from timber sales from county real property. It supports Juvenile Justice Shelter and Veteran's Service department with transfers out and operating expenses include support of the County Forest Department for reforestation of burned areas and Juvenile Justice Special Program of CASA, which is now a non-profit program.

The major sources of revenue for the Forestry Reserve Fund is the timber sales from large wildfires on county owned lands. In addition, cash carried over from the prior year (Beginning Fund Balance) is a major resource for this fund.

The adopted budget is in balance, which means that the budgeted requirements (expenditures and ending fund balance) are equal to the resources (beginning fund balance and revenues) that are estimated to be available during the budget year.

In the pages that follow, a summary of the Fund (Resources and Requirements) is presented first, followed by sections for the department. The department is represented by a graph of expenditures for the proposed budget, the current year adopted budget, and the previous three years actual expenditures. The associated chart provides the same information in numerical values. Following the graph and chart is a narrative of the purpose of the program.

## Purpose of Programs

The Josephine County Public Health Department serves the public by providing essential health related resources and protections according to OAR 431.375 “each citizen of this state is entitled to basic health services which promote and preserve the health of the people of Oregon.”

### Administration

Provision of leadership, planning and outreach are all mandated functions of a Public Health department as defined in ORS 431, and throughout OAR 333, and specific priorities under OAR 333, Division 14.

### Vital Records

This program provides birth and death certificates in a timely manner per requests from individuals, physicians, and local hospital and mortuary services. Vital Records are mandated by ORS 432 and OAR 333, Division 11.

### Child Adolescent Health

This area encompasses a variety of services and programs including sports physicals, paternity testing, Multi-Disciplinary Team (MDT), Babies First and CaCoon Targeted Case Management nurse home visiting programs. These programs are mandated public health programs under OAR 333-014-0050 and ORS 418.747 (for MDT).

### Communicable Preventable Disease

Communicable Disease investigations include but are not limited to TB, Breast and Cervical Cancer, Norovirus, West Nile Virus and Sexually Transmitted Diseases, as well as zoonotic diseases (animal) that may affect humans adversely, and food borne illness investigation with Environmental Health. Communicable Disease prevention, education and reporting are mandated through ORS 431.150, 433.006, 431.416(2)(a), and defined through OAR 333, Divisions 14, 17, 18, 19.

### Immunization

Immunization services provide required vaccinations for school-aged children, adult vaccines for health, and travel vaccines. These services and education are mandated by ORS 433.040, 433.090, 433.267 and OAR 333. Divisions 48-50.

### Perinatal Health

Programs under this area include: Maternity Case Management (nurse home visiting), Oregon Mothers Care (OHP support). All are defined under OAR 333-014-0050.

### Reproductive Health/Family Planning

Reproductive Health services include Family Planning, Sexually Transmitted Disease testing and treatment, pregnancy testing, women’s annual exams. This program is mandated under OAR 333-014-0050 and OAR 333, Divisions 4, 10, 24.

### Healthy Start

Health Care Coalition of Southern Oregon contracts with Public Health to provide outreach, case management and service coordination to women residing in rural areas of the county. The

purpose of the healthy start initiative is to reduce disparities in infant mortality and adverse perinatal health outcomes.

#### Woman Infant and Children (WIC)

WIC is the nation's most successful and cost-effective public health nutrition program. We provide wholesome food, nutrition education, and community support for income-eligible women who are pregnant or postpartum, infants, and children up to five years old. The WIC program is mandated under OAR 333-014-0050 and Divisions 52-54.

#### Air Quality - Purpose of Program

The Department of Environmental Quality (DEQ) mandates and funds education, outreach and monitoring of illegal burning activities. See OAR 340, Division 264, and Federal Environmental Protection Agency (EPA) Clean Air Act of 1990.

#### Drinking Water Environmental Protection

The drinking water program monitors water systems throughout the County. See ORS 468B and OAR 333, Division 61.

#### Emergency Preparedness/ Bioterrorism

This encompasses the State Emergency Preparedness grant, administrative funding for Emergency Medical services (EMS) & the federally funded preparedness grant. See OAR 200, 250, 255, 260. and OAR 333, Division 3.

#### Environmental Community Safety

Facility inspections include mobile, temporary and full-service restaurants, Bed and Breakfasts, spas, pools, hotels, motels, school food service, and non-profit food service. The program is mandated under and defined under OAR 333, Divisions 12, 29, 39, 60, 62, 157, 158, 160, 162, 170, and 175.

#### Solid Waste

Program objectives include successful cleanup of properties with Solid Waste issues to reduce vectors, disease risk, air quality as well as sight issues as mandated by the Josephine County Solid Waste Nuisance Abatement ordinance, 90-16.

### **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

- Encourage fiscal responsibility among all Public Health departments.
- Provide efficient and effective procurement services by employing sound purchasing methods.
- Continue progress toward enhanced use of program measurements in the budget and operational decision-making process.

### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs**

- Encourage fiscal responsibility among all Public Health departments.

- Enhance financial stability with an emphasis on cost reduction and program efficiency.
- Continue focus on long-term financial planning, including a 3 and 5 year total revenue and total expenditure projection for general fund/general purpose operations.
- Create stronger sustainability through aggressively creating a work environment that is conducive to long-term retention of employees while providing specialized services and skills to our clientele.

**Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open and professional manner.**

- Efficiently provide our citizens and the tax paying public with high quality products and services within a healthy work environment, encouraging cooperation, honesty, integrity and respect.
- Continue responding efficiently to requests by elected officials and county staff for financial information and analysis.
- Report the financial position and economic condition of the County in an accurate, timely, consistent, and reliable manner.
- Encourage and model open communication and equal consideration, fostering a reputation for fairness with the local business community.

\*Does not include COVID vaccines

\*\*Not required due to COVID restrictions

### **Fiscal Year 2019-2020 & 2020-2021 Accomplishments:**

- Staffing levels were robust and included approximately 40 additional temporary workers to conduct COVID19 contact tracing and outbreak tracking
- Accepted assignment and provided WIC and Environmental Health services to Curry County due to their staffing shortage.
- Served more than 6500 people at multiple COVID mass vaccination events throughout the county.
- Worked with community partners to create and utilize a call center for rapid COVID vaccine community uptake.
- Staff member accepted into competitive Equity and Inclusion train the trainer program
- Healthy Start caseload rapid expansion required the addition of 1.0 FTE

### **Five-Year Vision:**

The focus for the Josephine County Public Health Department over the next 5 years will be to improve service to Josephine county residents, strengthen partnerships within the community, and improve facility capabilities.

- Increase WIC caseload
- Move Josephine County Public Health services to an alternate facility, better equipped for service and accessibility for the public
- Expand community partnerships to provide services across department lines
- Reduce the number of parents/children who opt out of vaccinations for reasons other than medical and establish a Vaccine Collaborative with other trusted members of the community
- Complete LPHA accreditation process
- Improve PHEP outreach to historically underserved and underrepresented populations
- Offer countywide trainings on equity and inclusion in keeping with Public Health accreditation expectations

To address inflation: For grant funded services we will be requesting an increase to the grant funding from the state, while simultaneously attempting to reduce operational costs. If we are unable to get those funds we will shift and reduce scope of operations as funding reduces, and for fee services adjust/increase fees as necessary for those services.

# COMMUNITY DEVELOPMENT

Planning, Building Safety, Code Enforcement, On-Site Septic, Solid Waste

## Purpose of Program

To serve the citizens of Josephine County by facilitating orderly growth and development in the community through coordinated programs of Planning, Building Safety, Code Enforcement, solid waste division of public health and On-site septic with emphasis on educating and serving the public.

The State of Oregon has mandated counties in the state to have planning and zoning programs. This mandate, found in ORS Ch. 215, not only requires a planning and zoning program, but mandates other regulatory and land use laws that counties must enforce on behalf of the state.

The Oregon Department of Land Conservation and Development serves as the oversight agency for the program and provides guidance for counties. The Planning Division conducts reviews of land use proposals and issues land use permits under the authority of the Josephine County Code (JCC).

Building Safety Division, adopted by County resolution 77-12, with the purpose of assisting citizens in the application of the States Specialty Codes in a flexible, fair and safety focused manner with the goal of providing safe Structures in our community. Building Codes Division is the oversight agency pursuant OAR 918-20-0090. Funds are collected through the permitting process and are “dedicated” and used solely for the department to maintain customer service.

Code Enforcement Division is responsible for investigating code violation complaints to ensure compliance with land use, On-site Septic and Building Safety codes and County Ordinances. The programs overriding goal is to achieve voluntary compliance with property owners in the abatement of their specific violation.

Onsite Septic is a new program brought on in November of 2020. DEQ is the oversight agency for the program, though Community Development policies and procedures will be followed in the implementation of Oregon Administrative Rules 340-071-073. Our goal is to provide more timely inspections for better service.

### **Budget Goal #1 - Provide community outreach and communication to the public in the most efficient manner and provide enhanced service to citizens by:**

- The comprehensive planning program requires a public involvement element. Public notices are given on many land use processes to encourage agency and public participation.
- The county’s Rural Planning Commission serves as the county’s Citizen Involvement Committee. They hold public hearings and public meetings on matters such as text amendments and subdivisions. They allow all public in attendance that wants to speak an opportunity to comment on the proposals before them.
- The text amendment process is prescribed by law; and usually requires not just a hearing before the Planning Commission, but the Board of Commissioners as well. By holding two separate public hearings, there is an added opportunity for public involvement.
- Code enforcement is complaint driven. Every complaint filed with the department is investigated. The Code Enforcement Division works with complainants and landowners to resolve the infractions.
- In an attempt to make the public’s permit application process easier and provide the ability for the user to track where their application is in the review process, the Department implemented an online permitting software program.
- Department policies require planning staff to try to return all phone calls and e-mails within 24 hours.
- All codes, and program elements, are based on plans that were publicly created or surveys with high response rates. Examples of plans and surveys include the Comprehensive Plan, Josephine County

# COMMUNITY DEVELOPMENT

Code, Oregon State Specialty Codes, FEMA and Oregon Department of Land Conservation and Development.

- The solid waste nuisance program through Public Health is integrated with the code enforcement program to provide service on all land use enforcement matters, and to assist in the abatement of such.
- On-Site Septic program provides a service for private Wastewater systems on private properties.

## **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County programs by:**

- Fees are established to cover the costs of services. While some fees are lower and do not represent the time involved, they are established as such to encourage development and code. Since fees cannot statutorily exceed the cost of service, and many planning functions do not have a fee associated with them, some general fund support is necessary.
- The Citation Ordinance 2021-002 is to assist County Code Enforcement in abating the most egregious violations throughout our County as well as deter others from violating County and State laws. The Citation fee is not a revenue source for Community Development.
- Balance services provided with fees collected. Continue to review cost as inflation increases and adjust where needed.

## **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open, and efficient manner by:**

- The online permitting software does substantially improve efficiency in the permitting process.
- All documents can be accessed electronically, thereby increasing efficiency, accuracy, and access.
- Continually review policies and amend plans and codes, with public engagement, help guide development in a publicly supported, planned manner that is consistent with county goals and policies.

## Fiscal Year 2021-22 Accomplishments:

- Completed online permitting process.
- Completed text amendments to allow for more housing opportunities.
- Completed text amendments to update older outdated Codes
- Integrated the solid waste nuisance program into the code enforcement program.
- Address alleged violations in a more efficient manner.
- Proposed and passed a citation ordinance.
- Support the Board's direction on the cannabis industry and emergency Resolution No. 2021-037
- Created a clear process for implementing Marijuana Compliance Certification, with staffing to assist.
- Continued to adjust policies for the Code Enforcement Division to better serve and be more productive in their process.
- Developed Policies and procedures for the Onsite septic program within the Rules and Statutes overseen by the Department of Environmental Quality for the protection of Josephine Counties Natural resources.

# COMMUNITY DEVELOPMENT

## Five-Year Vision:

- Land use codes that reflect trends, are current, and easy to interpret.
- Provide affordable, quality of life housing options to those seeking them.
- A code enforcement program that has a first-response time of 5 days and a closure rate more than 50% annually.
- Aid in developing communities that are conflict minimal, more code compliant, safe, experience crime reductions, offer a better quality of life, and are welcoming to visitors and residents.
- Continue to implement Onsite Septic Program policies and procedures and develop means of faster and more efficient service to our constituents.
- Budgetary goal: revenue to sustain Community Development without general fund request
- Allocate resources to provide an opportunity for partner agencies to have a presence at the Community Development Department.

## Current inflationary considerations:

Allowances have been made in the process of projecting cost for our 2022 - 23 Budget. These adjustments have been made throughout each department specifically within office supplies, printing and duplication, education, training, and travel. We increased by approximately 8% over our standard projection.

Fuel cost for our fleet was a consideration. We currently utilize eight vehicles, including Building Safety, and we forecast just over 5000 gallons of fuel for 22-23. Fleet has budgeted \$3.50 per gallon; we have increased that by 25% +.

# PUBLIC HEALTH – ANIMAL SHELTER

## Purpose of Program

Josephine County operates an Animal Shelter facility to care for animals who are found at large, involved in legal proceedings, or are otherwise unable to be cared for by their owners. These animals are returned to their original owners when appropriate, and otherwise adopted into new homes when possible. APR programs are mandated through ORS 609 and through Local Ordinance’s 92-9 amended by Local Ordinance 96-1, in Josephine County Charter section 14.6, and OAR 333, Division 19.

### **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

- Encourage fiscal responsibility among all Public Health departments.
- Provide efficient and effective procurement services by employing sound purchasing methods.
- Continue progress toward enhanced use of program measurements in the budget and operational decision-making process.

### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

- Encourage fiscal responsibility among all Public Health departments.
- Enhance financial stability with an emphasis on cost reduction and program efficiency.
- Continue focus on long-term financial planning, including a 3 and 5 year total revenue and total expenditure projection for general fund/general purpose operations.
- Create stronger sustainability through aggressively creating a work environment that is conducive to long-term retention of employees while providing specialized services and skills to our clientele.

### **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open and professional manner.**

- Efficiently provide our citizens and the tax paying public with high quality products and services within a healthy work environment, encouraging cooperation, honesty, integrity and respect.
- Continue responding efficiently to requests by elected officials and county staff for financial information and analysis.
- Report the financial position and economic condition of the County in an accurate, timely, consistent, and reliable manner.
- Encourage and model open communication and equal consideration, fostering a reputation for fairness with the local business community

# PUBLIC HEALTH – ANIMAL SHELTER

## Fiscal Year 2021-22 Accomplishments:

- Continued to deliver all public services throughout COVID-19 pandemic
- Fostered transfer relationships with other adoption agencies, providing more options for adoptable animals and a lower cost for the County
- Dog Control Board expedited proceedings and decreased length of stays for legal hold animals
- Achieved highest adoptions and highest Live Release Rate on record for Josephine County
- Continued RTF program to help target community cat population decrease
- Maintained “No-Kill” standard by achieving Live Release Rate greater than 90%
- Introduced monthly clinics to provide vaccine/microchip services to the public at a low cost

## 2021 Shelter Outcomes:

## Five-Year Vision:

- Develop a master plan for the Josephine County Animal Shelter facility
- Continue to reach 90% or higher Live Release Rates annually
- Continually improve efficiencies with new technology for tracking licenses and have good online presence for adoptions
- Continue to improve quality of life for the animals at the shelter, minimizing health risks, and maximizing efficiency in reuniting or placing animals in a timely manner
- Align the shelter master plan with a strategic plan and initiate facility development
- Develop more community outreach programs
- To address inflation:
  - We will request additional help from our established partnerships including transfer partners and local volunteer nonprofits.
  - For fee services, we will adjust fees as necessary to reflect the cost of service.

# ANIMAL CONTROL

## Animal Protection & Regulation

The Animal Control Division of the Sheriff's Office responds to citizen complaints on dog bites, inhumane treatment, livestock chased, injured or killed by dogs, nuisance trespassing or barking and rabies control. The County also operates a Shelter facility to care for, retain until legal release or adopt animals. Animal Control programs are mandated through ORS 609 and through Local Ordinance's 92-9 amended by Local Ordinance 96-1, in Josephine County Charter section 14.6, and OAR 333, Division 19. Abatement ordinance, 90-16.

### **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

As a division of the Sheriff's Office, Animal Control uses technology to efficiently improve community outreach, communicate with the public, and provide enhanced services. Using social media, the county website and FlashAlert Newswire, the Sheriff's Office is able to post press releases, inform the public about new programs and services, and regularly provide office statistics. Many citizens also use the Sheriff's Office email as a convenient way to contact the office and get a timely response to their questions. This use of technology makes it possible for citizen's to communicate with the office and receive important information at little to no cost to the County. In addition the Animal Control Division and the Animal Shelter have partnerships with local veterinary clinics to provide licensing as a convenience to the citizens.

### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

Having the Animal Control Division operating within the Sheriff's Office allows for sharing of resources. It has greatly enhanced the capacity to handle calls for service, as well as the ability to provide the best service available to Josephine County. Under the Sheriff's Office an additional Animal Control Officer was added to handle the number of calls for service. A five year levy was renewed by the voters in November 2021. As a result of the renewal and under the supervision of the Sheriff's Office, the Animal Control Division will be funded at this service level for the duration of the levy. In order to cover the cost of inflation the Sheriff's Office will look for ways to reduce current spending. This includes attending training that is available remotely rather than training that requires out of town travel. Overtime will also be limited as much as possible and provide the opportunity to flex time when feasible.

### **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open and professional manner.**

With public record in mind the Animal Control Division is focused on timely response to calls for service and thorough report preparation. This includes associated photo/video documentation and objective technical writing. Animal Control Officers also work to provide on the spot information and education regarding the dynamics with domestic animals, livestock and the element of human interaction. This includes providing the public with clear and concise handouts/brochures currently in use, as well as infographics.

	Actual	Actual	Actual	Projected	Budgeted
Calls for Service	2,040	1,736	1,869	2,105	2,168

## Fiscal Year 2020-21 and 2021-22 Accomplishments:

- Continue to work closely with County Legal to more aggressively pursue dog versus livestock cases by streamlining the process to hold dog owners responsible providing relief and security to livestock owners; this also reduces the amount of time that dogs remain in the shelter, consuming valuable resources on legal hold
- Streamlined processes to reduce expense and be more efficient
- Getting citizens in compliance with the laws and regulations by following up on unlicensed dogs within 10 days following an initial warning. Following the 10 days a citation is issued.
- Re-established kennel licenses and fancier licenses
- Rescued 8 horses and arranged for them to go to 2 different rescue facilities at little cost to the County
- ACO’s received a National Animal Care & Control Association Certification

## Five-Year Vision:

The Animal Control Officers will become more familiar and proficient in preparing prosecutable cases for crimes such as neglect and abuse. Another goal is to continue to increase the number of dogs that are current on their vaccinations and are licensed with Josephine County. Ultimately, for the next 5 years and beyond, the goal is to eradicate the mistreatment of animals and cultivate a county of citizens who are educated about humane animal treatment and animal/human safety.

# Enterprise Funds

## JOSEPHINE COUNTY

### Enterprise Fund Descriptions

**Fairground Fund** – This fund accounts for operations of the county fairgrounds. Revenues include annual fair, special events, and economic development transfer from Oregon Lottery dollars. Expenditures are for the management of the county fair, events and facilities. The Fair Board has responsibility for operational and financial management of the annual fair.

**Parks Fund** – This fund is used to account for the operations of the County’s parklands and other facilities, which include the Granite Hill Cemetery. Major revenue sources include grants, user fees, and an economic development transfer from Oregon Lottery funds. Expenditures are for the management and maintenance of the county parks and facilities.

**Transit Fund** – This fund was reinstated in fiscal year 2007/2008 to account for operations of the Josephine County Transit System, which provides special transport to seniors and people with disabilities and fixed route general public bus transportation between Grants Pass, Cave Junction, Wolf Creek, and Medford. Revenues are from grants and user fees.

**Jail Commissary Fund** – This fund was established to account for funds received by inmates and revenue received by the inmate phone system. Expenditures are for the enhancement of Josephine County Jail conditions.

**Airports Fund** – The Airports Fund is used to account for the operations of the County’s two airports. It was formed from combining the former Grants Pass Airport Fund and Illinois Valley Airport Fund, effective July 1, 2004. The two airports are accounted for separately within this one fund.

The Grants Pass Airport is operated and maintained on money generated through leases. The airport is a facility for the commerce and pleasure of local people, commuting businessmen, and pleasure flying. Expenditures are for operations and maintenance of the facility.

The Illinois Valley Airport was deeded to Josephine County in 1987 from the U.S. Forest Service. It receives a subsidy from Oregon Lottery funds allocated for economic development. Expenditures are for the operational and maintenance costs associated with the facility.

The Capital Fund is used by both airports and is used to track and manage capital improvements and investments for both the Grants Pass Airport and the Illinois Valley Airport.

# FAIRGROUNDS & EVENT CENTER

## Purpose of Programs

The purpose of the Josephine County Fairgrounds and Event Center is to provide a year-round, safe, clean and family oriented multi-use facility. Year round, the Fair Board and staff aim to strengthen and promote the agricultural, 4-H, and FFA education and traditions. In addition, we provide a platform for economic opportunities for local entrepreneurs, and social and entertainment opportunities for the community.

## Administration

The Josephine County Fairgrounds and Event Center is governed by a seven member Fair Board, which is appointed by the County Board of Commissioners. On the grounds, the Fairgrounds is operated by the Fairgrounds Director and staff members out of the main office. All work together to serve the citizens of Josephine County to provide an atmosphere of education, competition, entrepreneur development and entertainment. The Fairgrounds acts as a gathering place for the citizens of the community, offering year round activities for a wide variety of interests, in a setting that relates to our heritage, current customs and future dreams. The Fairgrounds is a link that brings together friends, family and community.

## County Fair Event

The Josephine County Fair is scheduled for August 10-14, 2022. The Fair Board, Fairgrounds Director, staff and community volunteers work together in this annual event to fully represent Josephine County. Our priority every year is to highlight our community's traditions at the same time as providing education and entertainment for the entire family. The 2022 Fair theme is 'On with the Show!' and is meant to embody the spirit of moving beyond the pandemic. The 2022 Fair will offer free gate admission to encourage community wide attendance.

## Special Events

Josephine County Fairgrounds & Event Center facilities are available to rent year round for a wide variety of events large and small. Local citizens may choose to rent one of our many facilities to host events such as birthday parties, weddings, memorials and reunions. Local businesses may choose to rent to support their business needs for education, trainings and company social gatherings. Community events, fundraisers and sales can be found year round through banquets, shows, sales, concerts, rodeos, horse races, the circus and grower's market to name a few.

### **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

The Fairgrounds Director and the Fair Board remain committed to getting information about the Fairground's upgrades, services, events and opportunities out into the community. This is accomplished through public meetings, press releases, local community networking, marketing strategies, traditional advertising mediums such as newspaper, television and radio, digital marketing and social media campaigns.

### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

The Fairgrounds has the potential to generate funds year round through facility rentals and events with the opportunity of growth by diversifying revenue sources. Private partnerships and business sponsorships are two areas that we are looking to further develop as we move forward into the future. In addition, we will continue to work with our Grant Writer in effort to secure funds to help with capital improvement projects that are identified through the Master Plan process. The Fairgrounds has also worked with the County's Emergency Services department to develop a contingency plan to be able to continue to serve the public in

# FAIRGROUNDS & EVENT CENTER

case of a short term or long term crisis. Rising inflation is being addressed with expense cutting efforts by maintaining a minimal year-round staff and rearranging low impact zones during their off season in order to shut off services and reduce costs. In addition, all services provided by the Fairgrounds to the public are under review for potential rate increases.

**Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open and professional manner.**

It is our goal to provide easy access to the information on the events and services we provide. In addition to our website, we utilize social media outlets, public service announcements, public meetings, newspapers, television and radio as well as brochures. Our staff is well trained and is eager to help any of our citizens who call or visit us during office hours Monday through Friday from 9 am to 5 pm.

**Key Performance Indicators:**

*\* 25 includes all buildings and structures, counting horse stall barns as 1, all are maintained year round. 11 from previous years, reflects community rented buildings for private and community events only.*

*\*\* Due to Covid restrictions the 2020 County Fair was held largely online, the 5,000 is the traffic count from the website.*

**Fiscal Year 2021-2022 Accomplishments:**

- Worked with County Health Department to hold Community Vaccination Events
- Worked with the County Courts to offer support of their facility needs
- Hosted 2 AmeriCorps Work Crews for community project work
- Hosted Holiday Community events, such as Trunk or Treat & Christmas Display Drive Thru
- Hosted community events such as Back to 50s & the annual County Fair, including setting a record for livestock sales during the Fair Auction
- Worked to start the recovery efforts for event planning with community member promoters
- Adopted our 15-year Capital Improvement Master Plan

**Five-Year Vision:**

The Master Plan is a 15-year plan that is broken down into 5 phases, each 3-year terms. The first phase of the master plan is to address infrastructure breakdowns of the current facilities and design plans to improve the infrastructure to allow the growth of the future facilities. There are 5 current projects that are in planning and initial stages that will be completed in the next 3 years. For year 4 & 5, we aim to have the plans designed for the first major capital project of the master plan and a funding source secured.

# PARKS

## Purpose of Program

Josephine County's Parks are comprised of 20 developed locations which include campgrounds, boat ramps, and day use areas. Our parks offer a variety of recreational opportunities with the most popular activities being disc golf, hiking, fishing, wildlife viewing, and access to waterways. Parks also manages the historic Granite Hill Cemetery.

Josephine County has some of the most beautiful parks in the Pacific Northwest. Many of our parks and boat ramps are located along the world-famous Rogue River, which was one of the original eight rivers designated Wild and Scenic in 1968. The Rogue River is known for world-class salmon and steelhead fishing, as well as white water rafting.

### **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

The Parks Department believes that efficiency is key in order to provide quality recreational opportunities and facilities to the public. Parks is continually evaluating and modifying our procedures to ensure that processes can be improved in the most efficient way possible while still providing excellent customer service. The Parks Department will continue to keep our website updated and manage multiple Facebook pages for our locations to inform the public and receive feedback from park users. The Parks Department encourages citizens to attend Parks Advisory Board Meeting or other Park Department meetings to learn more and help our department know how we can better meet the needs of park users.

### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

Providing parks and recreational opportunities are an essential public service, which helps to improve the quality of life and ensure the health of families and youth; as well as contribute to the social, economic, and environmental well-being of the community. Ensuring our parks are here for future generations is a necessity.

Our park system is self-funded and relies on the public to enjoy and return to our locations. Providing desirable parks which are maintained in a safe and clean manner is important. Parks will be looking into ways to improve our sustainability by improving energy efficiency, conserving water, reducing waste, and increasing recycling efforts, while also protecting our environment.

### **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open, and professional manner.**

Parks believes in open communication with the public and ensuring that the public can trust how our department operates. Our department is continually utilizing the County website as well as social media outlets to help provide information about how our locations are managed. We encourage the public to report any issues in parks so that they can be addressed.

The Parks Advisory Board has its own dedicated page on our website to help ensure transparency and encourage the public to be in the know. Upcoming meetings with locations and agenda are posted prior to each meeting. Draft meeting minutes are posted within one week of the meeting date so the public may be informed and provide feedback.

The Parks Department has been investing all available funds to improving park locations. Parks makes every attempt to ensure that expenses and revenues are coded to the most appropriate budget categories, with accurate descriptions, so that financial reports are easily readable and understood.

- Campsites Explanation. The reduced numbers in FY 20 & 21 are due to the top half of Whitehorse Park being closed for the anticipated remodel and new RV sites, which results in the increase of sites show in in FY23.
- FY 20 Overnight stays typo corrected from 24,403 to 23,403

## Fiscal Year 2020-21 & 2021-22 Accomplishments:

- Improved marketing and community outreach to ensure park information can be easily found by both locals and tourists. (FY21)
- Made significant progress on converting Cemetery paperwork into electronic documents to ensure accurate records and assist the public with finding grave locations. (FY21 & FY22)
- Upgraded yurts for ADA compliance. (FY21 & FY 22)
- Closed and removed unsafe playgrounds at Tom Pearce Park, Indian Mary Park, and Griffin Park. Secured funding to replace the Tom Pearce Park playground and ordered structure from the manufacturer. (FY21 & FY22)
- Completed engineered plans and secured permits for the Whitehorse Park Redevelopment Phase 1, which will renovate the upper half of the park and convert 24 underutilized tent sites into 20 modern RV sites and 10 tent sites, completed with new infrastructure, restrooms, and showers. (FY21 & FY22)
- Installed three new vault toilets at Wolf Creek Park, removed old wooden toilets. The Wolf Creek Pedestrian Bridge secured grant funding for future replacement. (FY21 & FY22)
- Finalized engineered plans for the Whitehorse Park renovation, pursued permits at the County level. (FY21 & FY22)
- Secured funding and made significant process on engineering plans for renovating the showers and restrooms at Lake Selmac Park, Mallard Loop. (FY21 & 22)
- Worked with the Oregon State Marine Board to create preliminary plans for improving the boating facility at Chinook Park. Plans include expanding the parking lot and repositioning the boat ramp for user safety. (FY22)
- Finalized plans for renovating the restrooms at Tom Pearce Park. (FY22)

## Five-Year Vision:

Over the next five years the Parks Department is focusing on improving facilities based on needs for ADA compliance, public safety, and increasing park usability. Parks will be prioritizing capital projects infrastructure needs.

## Purpose of Program

The Transit Program provides fixed route, commuter route and demand response general public transportation for Josephine County. Complementary ADA paratransit service is available within  $\frac{3}{4}$  of a mile on each side of a fixed route for those that qualify. Qualifications is based on being over the age of 62 or having a disability that prevents a person from taking trips using the fixed route system. Qualifications based on being over the age of 62 are not part of the federal requirements under the Americans with Disabilities Act (ADA) and are a program decision to provide.

There are currently two commuter routes in Josephine County and one into Jackson County. The south route runs 7 times per day to Cave Junction along Hwy 199 and the north runs 3 times per day via Merlin, I-5 to Sunny Valley/Wolf Creek. The commuter route into Jackson County leaves 7 times per day from Grants Pass. Stops are made in Rogue River, Gold Hill and a final connection with RVTD in Medford.

Services operating within Grants Pass are Monday through Friday between the hours of 6:30am and 9:30pm. Evening service is provided with one fixed route (Rt 10) and using an on-demand service strategy for the remaining route coverage area. On demand services is essentially a term meaning that a vehicle isn't dispatched until there is a demand for service. Passengers can request rides utilizing a JCT app, or by calling the office directly.

Saturday service will be added during FY 2022-2023 between the hours of 8:00am and 6:00pm. The Saturday commuter routes will operate at least 3 runs per day.

The current program operates with a purpose of improved mobility and access for all members of the community.

Inflationary pressures, while minor at the moment, are anticipated to continue. Since the most important impact is on daily operations, maintaining existing services is paramount. Any decisions on future service expansion need continued and carefully scrutiny to assure long term sustainability. Continued deployment of different service delivery technologies needs to be evaluated for effectiveness and possible deployment.

### **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

- Provide all transit services in accordance with all federal and state laws
- Utilize all funding in accordance with the priorities set forth in the adopted Coordinated Transit - Human Services Coordination Plan, the Transit Long Range Plan and the Middle Rogue Metropolitan Planning Organization (MRMPO) Regional Transportation Plan.
- Continued utilization of the Special Transportation Advisory Committee to guide and make recommendations for all funding allocations and operational/policy adjustments.
- Continued compliance with all FTA requirements specific to service such as the ADA and Title VI requirements. Outreach and public involvement are a requirement of each associated planning document.

### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

- The Transit Program receives funding direction from a state payroll tax, specifically instituted for service improvements. This funding source is currently authorized for a remaining 6 years. At which point it can be reauthorized for an extended period of time. All projects paid for with

# TRANSIT

these funds needs to be in an approved State Transportation Improvement Fund (STIF) plan. If a project is not in the plan, funds can't be spent on it. All STIF plans cover a two-year period.

- The majority of funding is received from federal and state sources and typically has an associated match component. All programs must remain compliant with federal and state requirements, which assures future funding.
- Don't start services that can't be maintained for at least a minimum of 3 years under current funding scenarios.
- Strive to increase the amount of local match availability so full access of all available funds can be achieved.
- Successfully access STIF dollars for service improvements and maintenance of existing programs.

### **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open and professional manner.**

- Provide fixed route services in a manner that can actually improve the mobility of the community and provide those services with an assumption that everyone has transportation options, with assumption of a captive service user base.
- Provide demand response services at a level of productivity consistent and even exceeding larger urban areas.
- Provide all services at a level of efficiency and effectiveness comparable to large urban areas and meet the Federal Transit Administration's 5 service criteria for small transit intensive cities.
- Focus all efforts on fulfilling the seven dimensions of useful transit.
- Maintain and fund a capital replacement program that is consistent with FTA standards of "useful life". Specifically, for reduced maintenance costs and regular vehicle replacements.

#### **Fiscal Year 2021-22 Accomplishments:**

- Continued implementation of service improvements as prioritized by the Special Transit Advisory Committee. This year that included additional commuter runs on select route, evening service until 9:30pm and purchase of 4 35' transit buses to replace parts of the existing fleet.
- Increase and/or maintain partnerships with organizations/agencies that support transit

# TRANSIT

- programs and services. Which includes RCC, DHS, SO Aspire and Options of Southern Oregon.
- Finished IT improvements for electronic fare payments on the demand response system, which included an online ride scheduling, an automated phone reminder for booked trips and implementation of an electronic fare payment system.
  - Implemented an on-demand transit system for ride booking and providing rides only when rides were requested. Service was implemented between the hours of 6:30pm and 9:30pm Monday through Friday.
  - Implemented a Rogue Valley wide transportation service for Medicare clients that previously had no transportation options. The service was designed to provide rides for people who originate outside normal service boundaries, or have destinations outside normal service boundaries. The service provides a vital lifeline for non-emergency medical transportation across the entire Rogue Valley and not just Josephine County.
  - Secured funding for the continued provision of the Rt 100 for transit service across the entire Rogue Valley and both urbanized areas.
  - Secured all funding for the estimated cost of the Transit Hub in downtown Grants Pass
  - Implemented an automatic passenger count system for the fixed route buses that eliminates the need for drivers to do it manually. Can now collect and assess data by stop and time of day across the entire service area.

## **Five-Year Vision:**

- Successfully test the mobility on demand concept for service expansions into other area of Josephine County.
- Increase all fixed routes to 20 or 30 minute service frequency.
- Purchase and install a bus washing system for automated washing and move from daily manual cleaning.
- Complete construction and begin using the JCT Transit Hub on 5<sup>th</sup> Street.
- Update the Human Services Transit Coordination Plan.
- Complete an I-5 Transit study for service coordination across the Rogue Valley with future inclusion of Douglas County services.
- Further pursue and implement electric vehicle technology into the transit fleet. Cap the electric vehicles at ½ of the peak vehicle need to preserve fuel diversity and flexibility.

# **JAIL COMMISSARY FUND**

## **Purpose of Program**

This fund was established to account for funds received by inmates and revenue received by the inmate phone system. Expenditures are for the enhancement of Josephine County Jail conditions.

The Jail Commissary Fund provides commissary items to inmates and collects the costs from inmates with sufficient funds to pay for items. The purpose of the commissary fund is to both supply and provide a fund from which reimbursements can be made. Expenditures made from this fund are for the benefit of the inmates.

# AIRPORTS

The Airports Fund is used to account for the operations of the County's two airports. It was formed by combining the former Grants Pass Airport Fund and Illinois Valley Airport Fund, effective July 1, 2004. Josephine County Airports accounts for the two airports separately within this one fund. In 2018, Capital outlays were broken out and reported separately from operations within the Airports Dept budget.

## Purpose of Program

### Grants Pass Airport

The airport's facilities are open to the public and serve the needs of commerce, transportation, recreation and emergency services for Josephine County residents as well as those of nearby counties, the state of Oregon, and the National Airspace System. The Josephine County Airports Department operates and maintains the Grants Pass Airport with revenue generated through ground and hangar leases, fuel flowage fees, special use fees, economic development subsidies derived from Lottery Funds, and capital grants. No taxpayer money from the County's general fund is used to support operations.

### Illinois Valley Airport

The airport's facilities are open to the public and serve the needs of commerce, transportation, recreation and emergency services for Josephine County residents as well as those of nearby counties, the state of Oregon, and the National Airspace System. The Josephine County Airports Department operates and maintains the Illinois Valley Airport with revenue generated through ground and hangar leases, fuel flowage fees, special use fees, economic development subsidies derived from Lottery Funds, and capital grants. As with Grants Pass Airport, no taxpayer money goes toward its operation.

#### **Budget Goal 1) Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens:**

Josephine County owns and operates two significant airports for the benefit of the residents and business communities in Grants Pass, Cave Junction and the surrounding region. We hold regular public meetings throughout the year with published agendas, and we encourage the active participation of all members of the Josephine County citizenry. Airport Management engages with the public to determine the need for services and upgrades to facilities, and as a result, several long-standing infrastructure problems at both IV and Grants Pass Airports have been identified and have been or are being remedied as money becomes available.

#### **Budget Goal 2) Develop a sustainable plan for all mandated and essential County government programs:**

The Josephine County Airports Department is unique in that it has the capability of generating and collecting a significant percentage of revenue directly related to operations. As a County-operated enterprise fund, the Josephine County Airports Department manages over 165 leases for County-owned, private and commercial hangars, collects fees from authorized operators, through-the-fence agreement holders and monthly aircraft tie-downs and makes a small profit on the sale of aviation fuel.

#### **Budget Goal 3) Provide access to County services to the citizens of Josephine County in a transparent, open and professional manner:**

All activities related to the operation of the Airports Department are regularly reported in monthly updates to the County Commissioners. Additionally, there are the above-mentioned monthly public Airport Advisory Board Meetings at each airport, where all significant current and contemplated activities are discussed in an open and transparent public forum.

## Fiscal Year 2020-2021 & 2021-2022 Accomplishments - Grants Pass Airport:

- Created Balanced 2021-2022 Budget Containing Adequate Capital-Grant Matching Funds
- Maintained continued commitment for annual EconDev contributions to airport to assure grant match monies
- Obtained two COAR grants (46 and 58) for Jet-A Fuel Tank- \$150,000 each for a total of \$300,000
- Obtained ARPA grant for 15,000-gallon Jet-A fuel tank replacement and upgrade - \$575,000
- Obtained ARPA grant for potable water main into airport - \$2,500,000
- Obtained COAR grant 30- Westside Taxilane Development- Phase 1- \$150,000
- Obtained FAA grant 16 - Airport Rescue Grant - \$59,000
- Applied for Connect Oregon Grant - Runway 13-31 Extension, non-AIP portion - \$1,775,000
- Managing FAA grant 15 for the Runway Extension Environmental Assessment- \$376,786
- Obtained ARPA grant for non-AIP EA portion of the runway extension - \$113,320
- Continued a sound Airport Maintenance Program, including extensive weed-control operations
- Improved Lease tracking and reporting to anticipate lease expirations, rate increases and renewals
- Cut unnecessary spending on non-grant projects to help with rising inflation
- Supported USFS Wildfire Operations against the Bootleg Fire with a helitack base at the airport

## Fiscal Year 2020-2021 & 2021-2022 Accomplishments - Illinois Valley Airport:

- Created Balanced 2021-2022 Budget Containing Adequate Capital-Grant Matching Funds
- Obtained two COAR grants for the Fire Suppression Pond (Grant 28- \$112,500 and Grant 72- \$150,000)
- Obtained ARPA grant for Fire Suppression Pond - \$730,000
- Applied for Connect Oregon ODOT grant- Fuel Island (100LL & Jet-A) \$840,000
- Obtained ARPA grant for Aircraft Fuel Island (Avgas & Jet-A)- \$1,200,000
- Obtained FAA AIP grant 12- Airport Rescue Plan- \$32,000
- Manage \$4M in FAA Grant for Runway Rehabilitation construction (Grant - 10)
- Removed brush and cleaned up obstacles from along runway and along north fence
- Continued a sound maintenance program for airport buildings and grounds
- Supported USFS Wildfire Operations against the McCash Fire with a helitack base at the airport

## How the Airports will address inflation

Initially the Airports Department has cut costs by downsizing our staffing to the “bare bones minimum” and cutting costs by delaying non grant funded projects. Since this is not sustainable, we have developed a plan to utilize grant funding to build needed infrastructure to attract development at both airports, making it more affordable for both commercial and private development. For decades the Airports Department has concentrated on projects that were non-revenue generating. This has allowed us to improve services but has not resulted in revenue gains. Our focus going forward will concentrate on revenue generating projects including hangar development and infrastructure for development such as potable water, sewer, and taxilines.

The Airports Department currently owns properties that are outside of the airport perimeter fence and is taking the necessary steps to make them available for non-aeronautic commercial use. This will create new opportunity for increased revenue generation. This year we will be updating the Airports Department’s “Rates and Fees” policy which was last updated in 2007. An update will allow us to bring the Airports current, and similar to that of others across the state.

## Five-Year Vision

- Foster commitments from the City of Grants Pass and Josephine County for enough Economic Development Money (Lottery Dollars) to enable a 10% match for an FAA Runway-Extension Grant
- Complete the Design and construction of a Runway Extension at Grants Pass (~\$10M project)
- Complete the Illinois Valley Airport Runway 18-36 Rehabilitation and Aligned Taxiway Project
- Grade or pave west auto access road to NE hangar rows at GP Airport, if funding becomes available
- Contract with third-party developers to design, install and operate utility-scale solar farms at each airport
- Obtain funding for additional aircraft taxilanes into GP west side area to facilitate new hangar building
- Start a building program to replace obsolete county-owned hangars, as funding becomes available
- Facilitate extension of Wastewater/Septic and Fresh-Water Delivery Infrastructure at GP Airport
- Install access gate and perimeter road on NE side of GP airport within new hangar area off Flaming Rd
- Create a Commercial Hangar Zone NE of Flaming Rd at GP Airport for continued Airport development
- Obtain Funding to Build Hard Pads for Firefighting Helicopters at both Airports
- Work on revenue generating projects such as building County Airport owned hangars, making private hangar development possible by building needed infrastructure, and leasing excess airport properties to non-aviation commercial businesses
- Work toward making the airports self-sufficient/less dependent on Economic Development funds

**Cost:** \$ 3,000,000  
**Purpose/Justification:** Construction phase for westside hangar taxilane. Taxilane is needed for any further hangar development in the area.

**Impact on Future Operating Budgets** Will allow for development of hangars and will increase future operating revenue

**Source of Funding:** FAA Discretionary Funds

**Capital Item:** Helipad Development  
**Cost:** \$ 2,750,000  
**Purpose/Justification:** During fire season helicopters park on the taxiway causing operational incursions. A large safety issue.

**Impact on Future Operating Budgets** Potential to collect funds from the forestry department (federal, state and independent contractors)

**Source of Funding:** FAA Discretionary Funds

**JOSEPHINE COUNTY**  
**SCHEDULE F - CAPITAL OUTLAYS**  
**FYE 2023**

Capital items are valued at \$5,000 or more at time of purchase and have a useful life in excess of one year

**OFFICE/DEPT NAME:** AIRPORTS  
**Fund - Cost Center:** 534510 - GP Airport

**Capital Item:** Resiliency Study  
**Cost:** \$ 13,500  
**Purpose/Justification:** To discover the deficiencies in our emergency readiness during a Cascadia event.  
**Impact on Future Operating Budgets:** This will reduce future water costs by getting state grant to pay for installation of fire suppression hydrants along runway and hangars. Likely state grant supported for future replacements.  
**Source of Funding:** State COAR Grant & County Match \$7,500

**Capital Item:** Jet-A Fuel System  
**Cost:** \$ 300,000  
**Purpose/Justification:** Current 6,000 gallon underground fuel tank is 31 years old with a life expectancy of 30 years. Should tank leak it has the potential to cost the county millions in clean up costs. UST will be replaced with a 15,000 gallon above ground fuel tank.  
**Impact on Future Operating Budgets:** The new 15,000 gallon above ground storage fuel tank will allow increased fuel capacity which will allow for better pricing, reduced transportation and delivery costs from fuel suppliers, and a ready supply of Jet-A in an emergency event requiring transport aircraft operations into and out of GP.  
**Source of Funding:** 2 COAR Grants (\$150K each) & JoCo ARPA funds \$575K

**Capital Item:** Pavement Maintenance Program  
**Cost:** \$ 30,000  
**Purpose/Justification:** Maintain runway and taxiway.  
**Impact on Future Operating Budgets:** 100% funded by State Grant. Lessens costs to county for runway/taxiway maintenance.  
**Source of Funding:** 100% State Grant

**Capital Item:** Tractor Fail Mower  
**Cost:** \$ 150,000  
**Purpose/Justification:** Current tractor is undersized, beyond repair due to extreme wear from uneven airport grounds and increased mowing area due to the improvements made over the years. Current tractor is also too slow, increasing the man-hours required for airport maintenance.  
**Impact on Future Operating Budgets:** A new larger, faster tractor will allow for decreased man hours of operation to cover an increased amount of area. This will allow for additional tasks to be completed, and existing tasks more efficiently.  
**Source of Funding:** Economic Development Funds/FAA Surplus Property Fund

# Internal Services Fund

**JOSEPHINE COUNTY**  
**Internal Services Fund Description**

The Internal Services Fund (ISF) contains programs that primarily provide centralized support services and delivers administrative support to all County Departments. This saves department from incurring duplicate expenses for services if each individual department contracted these services from outside sources.

ISF has had a stable rate of 10% since 2012-13 by maintaining or reducing costs to assist departments overall budgets. And with the increase in overall county budget with the passage of the Jail & Juvenile Detention Levy the rate has been reduced to 7.5% for 2017-18 budget. This fund includes budgets for the Finance, Information Technology, Geographical Information Systems (GIS), Human Resources, County Legal Counsel and Law Library, and Property Management. The net cost of the departments is assessed against the operational funds based on their personnel and materials and services budgets and does not include capital or pass through grant expenses. The assessment is the major source of revenue for this fund.

The General Government program was moved out of ISF and over to the General Fund in FY 2012-13. The Communication program ceased to be a separate cost center in FY 2015-16 due to advancements in technology that utilize the computer network more than not. The Board of County Commissioners program was moved out of ISF and over to General Fund in FY 2017-18.

The adopted budget is in balance, which means that the budgeted requirements (expenditures and ending fund balance) are equal to the resources (beginning fund balance and revenues) that are estimated to be available during the budget year.

In the pages that follow, a summary of the Fund (Resources and Requirements) is presented first, followed by sections for each department. The department is represented by a graph of expenditures for the proposed budget, the current year adopted budget, and the previous three years actual expenditures. The associated chart provides the same information in numerical values. Following the graph and chart is a narrative of the purpose of the program.

# Purpose of Program

The Finance Department is responsible for providing technical guidance and support in fiscal management practices to the County. This includes establishing and maintaining effective internal controls and best practices for financial activities; recommend and implement fiscal policy; providing accurate and timely accounts payable, payroll, and financial reporting; preparing the annual budget and monitoring compliance after adoption; and preparing the comprehensive annual financial report.

**Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

The Finance Office utilizes accounting and payroll software that provides efficiency and functionality to all County departments. In addition, the Annual Budget and Financial Reports of the County are available to the public via the County website, with printed copies available at the Courthouse and the Library.

**Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

The Finance Office provides centralized fiscal services, thereby reducing the staffing needs of each individual department. We adjust our budget each year to stay within the established ISF Rate. Finance has reviewed the conflicting needs of staying in front of the COVID money (CARES, ARPA and I&J) and reducing staffing in order to address inflation. We are currently fully staffed to provide the extra services required of COVID money and the software implementation.

**Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open and professional manner.**

The Finance Office posts monthly and annual reports to the County website. The Finance Office also makes detail information available to the public through the Public Information Request Process.

**Key Performance Indicators:**

- Went live with the new software system

**Five-Year Vision:**

- Long-term financial plan for all county programs
- Continue developing the software in Finance, HR, Treasury (cash receipting) and payroll to provide more efficiencies
- Develop Continuity of Operations Plan for Finance Office
- On-line public access to financial reports

# INFORMATION TECHNOLOGY

## Purpose of Program – Information Technology

The purpose of the Information Technology Department is to provide, coordinate, and facilitate the use of technology and information resources, including infrastructure, application, and desktop support, to the departments of Josephine County in order for them to fulfill their mission statement in an efficient and cost-effective manner.

**Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

We will be releasing the new website this spring. It should improve communication with Josephine County Citizens and make it easier for them to access their elected officials and interact with County departments. In response to Oregon HB 2560, we have made it possible for Citizens to remotely participate with elected officials during the Weekly Business Session.

**Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

Again, emergencies became the focus of essential County government programs. IT was instrumental in setting up phone centers for fire response and providing technology for COVID-19 Contact Tracing and Vaccination programs. While the pandemic response winds down, the demand for remote access to safely access the County network remains a focus for our department. While inflation has placed pressure on Information Technology staffing, hardware, and software costs, we are submitting a neutral budget relative to the 2021-22 year.

**Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open, and professional manner.**

IT supports the website and manages the live and recorded streams of public sessions. We use software to provide a very quick turnaround for public information requests and have hired a Web and Information Coordinator to better work with departments to get news to the public. Using social media channels, the website and news releases, we are in a much better position to respond to community concerns.

**Key Performance Indicators:**

	2018-19	2019-20	2020-21	2021-22	2022-23
	Actual	Actual	Actual	Actual	Budgeted
Number of Active Users	510	535	585	559	530
Number of Computers	470	490	560	565	540
Monthly Average for Trouble Tickets	50	40	120	80	60

**Fiscal Year 2020-21 & 2021-22 Accomplishments:**

- Server availability 99.9 % or better
- Continued to support remote working
- Virtually 100% of PCs on Windows 10 – moved to laptops to support remote workers
- Incorporated remote device authentication and management applications
- Enabled Finance and Assessor to migrate to new platforms
- Implemented Immutable Storage for better resilience and data recovery

**Five-Year Vision:**

- Complete plans to transition structure of information systems for the next five to ten years. Increase resiliency while supporting County goals of transparency, service improvement, and efficiency for all departments. Create flexible remote working environment within safe networking infrastructure.
- Create an environment able to respond to all foreseeable emergencies with quantifiable and tested policies and practices.

# INFORMATION TECHNOLOGY

- Substantially move hosted applications to a form of cloud storage and data access. Meet the needs of an increasingly mobile work force with a safe and responsive networking solution.

## Purpose of Program – GIS Geographical Information System

A Geographic Information System (GIS) is a computer system for capturing, storing, checking, and displaying data related to positions on Earth's surface. GIS can show disparate data on one map. This enables people to easily see, analyze, and understand patterns and relationships. The GIS Department goal is to create, maintain and distribute electronic data relating to Josephine County. This data is used to support efficient and accurate decision making by county departments, other agencies and organizations, and the public. GIS is instrumental in helping emergency services during wildfires, floods, earthquakes, search and rescue operations and other catastrophic events but it is also helpful in making decisions which improve our community.

**Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

The past year has been critical for the GIS program in that mapping emergencies like fire evacuation plans are real time challenges that must be met for citizen safety - our GIS Coordinator has completed a project to establish mapped evacuation routes. He was involved in a project to redistrict the election maps based on the latest census

**Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

Program is funded by Clerk's recording fees and the CAFFA grant with a small percentage coming from internal service funding.

**Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open, and professional manner.**

The GIS Analyst position is tasked to help County departments get their data online or otherwise available to the Public and to effectively support communication during emergencies.

### Key Performance Indicators:

Online Mapping Applications*	15	14	20	25	30

### Fiscal Year 2019-20 & 2020-21 Accomplishments:

- Provide public access to GIS data and maps via the internet – enable smart communities in the County
- Maintained GIS data services for other departments to use in their applications.
- Mapped out evacuation routes, which were driven and agreed to by Public Safety Departments.
- Provide high quality, accurate, and up-to-date mapping applications, paper maps, and data.
- Help improve productivity within the various county departments, state, and federal agencies.
- New Applications for Assessor, Forestry, and Sheriff

# INFORMATION TECHNOLOGY

## **Five-Year Vision:**

- Have almost every County department provided useful data to taxpayers through a geographic application.
- The County to have a tried-and-true toolbox of responses to emergent events.
- A cooperative of trained department representatives sharing time and resources for applications that combine department focused applications for broader interest solutions. Assessor and Emergency Services data could be combined, for instance, to better serve damage assessment in a recovery scenario.

# HUMAN RESOURCES

## Purpose of Program

Administer a comprehensive HR program that includes the following functions:

**Recruitment:** Recruit, train, and retain a productive workforce while ensuring compliance with the applicable Federal, and State employment laws.

**Labor Relations:** This office is responsible for all union negotiations with the four bargaining units: AFSCME, SEIU, FOPPO, and Sheriff Association. Human Resources also ensures employee and County compliance with Federal and State Labor Laws as well as County policy.

**Benefit Administration:** Process and administer benefits for all four bargaining units as well and the non-union group while maintaining quality at the best available value.

**Compensation/Classification:** Complete labor studies to ensure staff are appropriately compensated based on comparable entity analysis.

**Risk Management (Worker's Comp):** Process worker injury claims, ensure OSHA compliance, and work to improve employee safety results.

**Risk Management (General Liability):** Work with County Departments to mitigate liability risk, update applicable policy/practices, and ensure adequate insurance is obtained.

**Policy Update/Review:** As directed by the Board of County Commissioners, review and update Policy.

**Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

Human Resources will promote staff training and development using a structured program. Human Resources will also improve community outreach in recruitment by partnering with local education entities thereby improving the applicant pool and providing easier community access.

**Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

Human Resources will provide administrative services related to staffing the County at appropriate and sustainable levels. Human Resources shall perform labor negotiations, per the direction of the County Commissioners, with the objective of funding the County labor force in a fiscally responsible manner being mindful of the challenges of proper employee retention juxtaposed with mitigating inflationary pressures.

**Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open and professional manner.**

Human Resources shall continue to respond to public information requests as appropriate. Items of public concern shall be brought forth in public meetings for review and approval. We shall continue to ensure all job descriptions, salaries, and organizational charts are posted on the County website.

**Key Performance Indicators:**

# HUMAN RESOURCES

## **Fiscal Year 2020-21 & 2021-22 Anticipated Accomplishments:**

- Successfully bargained new labor contracts with FOPPO, AFSCME and SA bargaining units.
- Implemented new administrative policies in such diverse areas as health care administration, civil rights compliance, wage and hour legal updates, and work group uniformity.
- Earned Statewide Award for WC execution results; MOD rating below 0.8.
- Updated EEO Plan

## **Five-Year Vision:**

**Risk Management:** With the addition of a County ADA Coordinator/Risk Manager, we are transitioning to an evidence based proactive approach to risk mitigation. Part of that will entail drafting and updating a comprehensive County ADA plan. Also, we will be formulating data driven risk analytics to help departments make better informed risk decisions.

**Healthcare:** The Oregon Health Authority has advocated for the CCO 2.0 model of healthcare delivery. This model allows for better distribution of service at a lower expense by coordinating care through a primary health care physician. The County has followed suit by joining the Oregon Educators Benefit Board. Joining the large pool protected us against rate fluctuations while employing a similar delivery model as observed in the CCO's. We intend to continue to work with our carriers to enhance and expand the coordination of care thereby staying on the forefront of innovative care delivery. This will continue to allow us to provide the best care possible at the lowest cost.

**Expand New Hire Orientation:** Recruiting for and filling new positions is an expensive and lengthy process. As such, it is important we work to avoid unnecessary turnover. We will be implementing a structured onboarding program to help transition new hires more effectively into their new positions. Human Resources will focus on industry best practices to formulate the onboarding plan.

**Recruitment:** Public Sector employers used to never have to market themselves. They could offer far better stability with better benefits than the private sector. That is no longer the case. Some positions are stable, but others have very tenuous funding. This change has required the human resources office to be more inventive with our marketing of positions. We have had to move to a more industry standard platform for applicant processing and tracking. This innovation must continue over the next five years in order to find and retain the best caliber of talent. Expanded traditional marketing will be paired with social media and networking outreach.

# LEGAL COUNSEL

## Legal Counsel - Purpose of Program

Legal Counsel provides representation and legal guidance to Josephine County regarding matters that pertain to the community as a whole. The general goals of the office include:

- Protect the County from liability;
- Effectively and efficiently handle routine legal matters (public contracts, leases, lawsuits, questions, research, etc.) for Josephine County;
- Provide as many viable legal options to decision-makers as possible. The Legal Counsel does not decide policy, but rather facilitates the goals of policy makers;
- Provide guidance that conforms at all times to the letter and spirit of the law;
- Appropriately prioritize the work to satisfy realistic deadlines;
- Be available, approachable, and accurate. We do not promise to achieve perfection, but we pledge to pursue it;
- Administer an effective law library for the benefit of the citizens and the local legal community;
- Administer an efficient Property Management program.

Legal Counsel is dependent on funding which is derived from other departments through the internal Service Fund (ISF). The office provides daily answers to a broad variety of questions. Legal Counsel has moderately limited contact with the general public.

**Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

The office of Legal Counsel is the primary source of information on legal issues for all County departments. Legal Counsel provides information to county departments and, through the Law Library, directly to the public.

**Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

Legal research is performed by use of specialized, up-to-date subscription databases. Legal Counsel shares access to electronic databases for legal research with the County Law Library and the District Attorney's Office.

**Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open, and professional manner.**

Legal Counsel provides advice regarding public meetings and public records. Legal Counsel routinely fields questions from the press or the public to clarify the background of certain issues.

**Key Performance Indicators:**

**Fiscal Year 2020-21 & 2021-22 Accomplishments:**

- Draft and review ordinances, orders, and resolutions of the Board.
- Draft and review contracts and bid documents for compliance with state and local public contract rules and make recommendations to the County officials regarding such contracts.
- Draft deeds, resolutions, and orders to convey county lands pursuant to state statute and county charter.
- Continue to streamline the preparation process for opinion requests to ensure timely responses.
- Assisted with successful property auctions, which were online.
- Reset department processes to conform to Covid era requirements.

# LAW LIBRARY

## Law Library - Purpose of Program

Josephine County maintains and operates a free public law library, in accordance with ORS 9.815. The last couple of years have been difficult for everyone, and the pandemic and its effects have affected the law library. After a temporary closure in 2020, County Legal Counsel and the local court system reached agreement that the space currently occupied by the law library would be converted to court spaces effective in 2022. That meant that the majority of the bound volumes held by the law library would have to be disposed of, as there is no other space large enough for them. Most of the volumes are gone now, and the law library will soon be moved into its smaller new home in space formerly occupied by Legal Counsel staff. The law library is still open only by appointment, but that will change.

The law library is one of many services offered to the public by the County. Between July of 2020 and March of 2021, approximately 100 patrons visited the law library, and the law librarian responded to about 90 individual requests for information. The law library does not give legal advice but assists patrons with legal research. The law librarian provides additional assistance by referring patrons to other community resources such as the Women's Crisis Support Team, the Oregon Law Center, and the Oregon State Bar Attorney Referral Service. The law library offers access to court records through an OJCIN terminal, and the law librarian helps patrons find statutes, case law, and administrative rules in Oregon as well as other states and the federal system.

### **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

During the COVID-19 pandemic, the law library has continued to try to serve the public of Josephine County. Even though safety dictated that the law library restrict visitors to an appointment-only basis, the law librarian continued to respond to requests for information by telephone and email. To offset the loss of so many bound volumes, the law library is currently negotiating with Westlaw for the installation of a dedicated Westlaw research terminal for patron use.

### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

The law library and its staff continue to adapt to changing conditions and requirements. The law library has cut costs significantly by reducing dependence on print resources and converting to mostly online resource material. In part, this process has been driven by the reduced funding available from the state court system, and in part by the rapidly increasing cost of print resources. Both of those trends may continue in the future, presenting further challenges to law librarians all over the state.

### **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open, and professional manner.**

The law library serves as a reference source for people who are not well acquainted with the legal system. Staff commonly refer patrons to other community resources, including local organizations and the Oregon State Bar, as well as providing assistance in legal research.

# PROPERTY MANAGEMENT

## Property Management - Purpose of Program

The purpose of the Property Management program is to administer all aspects of Josephine County real property, including:

- Coordinate, market and manage the sheriff's auctions of County owned property. Revenue generated from this program is generally directed to support the Parks and Forestry programs.
- Oversee the trade, lease, purchase, and sale of County owned property.
- Maintain data on county properties, create long-term plans for maximized value and limited liability.
- Work with Facilities Department to budget future maintenance and reserve accounts for leased facilities.
- Participate in planning for efficient department movement into County owned facilities.
- Administer sales/transfer of remnant properties to the appropriate neighboring property owners.

Property management is generally guided by chapters 271 and 275 of the Oregon Revised Statutes.

Prime considerations for this department are to maximize value to county owned property, reduce liability and, when applicable, coordinate purchases and sell county properties to move the property back onto the tax rolls. This program is supervised by the County Legal Counsel with direction from the Board of County Commissioners. The program receives support from an administrative recovery of generally ten percent (10%) of the proceeds from sales.

### **Budget Goal #1 - Improve community outreach and communication to the public by increasing efficiencies within County Departments and providing enhanced service to citizens.**

The program maintains a page on the County's website to educate and inform the public about purchasing property from the County, and also compiles and publishes official notices for property auctions as required by law. Prior to auctions, the Property Manager notifies owners of adjacent properties of the sale in case they are interested in purchasing the parcel and advertises properties in the local newspapers. The Property Manager interacts with citizens to educate and assist in their use of online resources to access available information regarding the property management program.

### **Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

Property Management has numerous parcels of surplus properties in its portfolio, which were acquired through tax foreclosure, with new properties added each year. Property Management routinely reviews the list of properties and communicates with County departments to identify the properties that are available and ready for auction and that would benefit the County if sold. The program also provides for review of county properties under lease and rental agreements, and works with the Facilities department to identify maintenance needs, reserve accounts, and best use of leased properties. When necessary, the Property Manager works with the Solid Waste Department to assist with cleanup of County owned properties.

### **Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open, and professional manner.**

The Property Manager identifies a list of properties for sale. Properties are advertised and sold publicly to promote a fair and open system for citizens to purchase. The Board of County Commissioners then evaluates and approves the list, generally during Executive Sessions pursuant to ORS 192.660(2)(e). Because the County Commissioners make the final decision about property sales, they typically are not provided the identity of a prospective purchaser until after the sale has been approved.

#### **Fiscal Year 2020-21 & 2021-22 Accomplishments:**

- Maximize revenue from Sheriff's Auction through marketing and community communications
- Negotiate new leases and lease renewals for County properties
- Market County "Other Surplus Properties" no longer needed for county purposes
- Purchase private properties for strategic purposes for certain County programs

# Internal Vendor Funds

The Internal Vendors Fund contains programs such as County Facilities and Fleet, Insurance Reserve and Payroll Reserve. The county buildings program accounts for all building expenditures such as utilities, repairs and maintenance for all county properties and charges a per square feet charge to county departments. The County Fleet program accounts for all county vehicles expenses, maintenance and charges departments a per mile fee for revenue to cover these costs. The Insurance and Payroll reserve programs account for all general liability, workers compensation, property/auto insurance and claims.

The adopted budget is in balance, which means that the budgeted requirements (expenditures and ending fund balance) are equal to the resources (beginning fund balance and revenues) that are estimated to be available during the budget year.

In the pages that follow, a summary of each fund (Resources and Requirements) is presented first, followed by sections for each of department. The department is represented by a graph of expenditures for the proposed budget, the current year adopted budget, and the previous three years actual expenditures. The associated chart provides the same information in numerical values. Following the graph and chart is a narrative of the purpose of the program.

# FACILITIES

## Purpose of Program

Facilities Services has the operational and maintenance responsibility for the preservation of all County buildings and grounds. This includes preventative maintenance and repair of all buildings and building systems (plumbing, electrical, mechanical, HVAC, radio services, and miscellaneous special systems) as well as landscaping and custodial services.

**Budget Goal #1 – Improve community outreach and communication to the public by increasing efficiencies within County departments and providing enhanced service to citizens.**

With little direct interaction with the public, Facilities Services instead focuses on supporting other departments by providing current and safe practices and services to maintain and repair their facilities and grounds.

**Budget Goal #2 – Develop a sustainable plan for all mandated and essential County government programs.**

Facilities Services maintains a preventative maintenance program for scheduling essential services to buildings, equipment, and grounds to retain safety and integrity standards for equipment systems, buildings, and surroundings.

**Budget Goal #3 – Provide access to County services to the citizens of Josephine County in a transparent, open, and professional manner.**

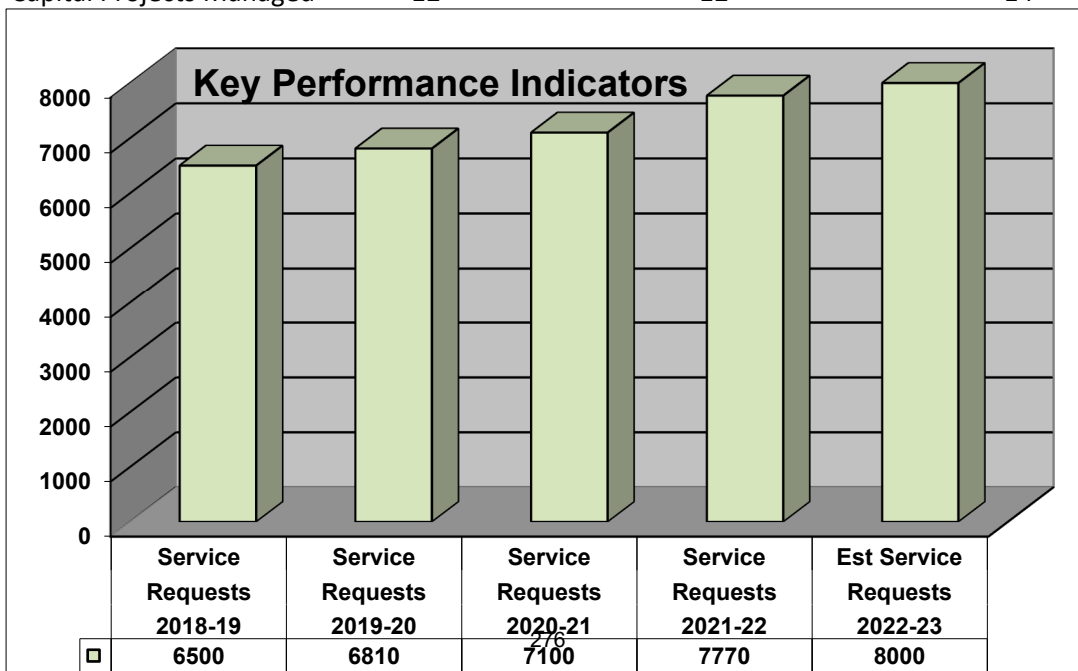

All non-confidential records are available during normal business hours and/or by public records requests.

**Budget Goal #4 – Continue to pursue available cost saving measures for services and supplies.**

Facilities Services will continue to make energy efficient upgrades to reduce costs of utilities. In addition to seeking new bulk purchasing agreements with other entities, Facilities Services will continue to utilize available State purchase agreements in their endeavor to save on rising materials expenses.

# COUNTY FLEET

## Purpose of Program

The Fleet revenues and expenditures are associated with the preventative maintenance of the county's transportation fleet, emergency vehicles and the Sheriff's units. Revenues are generated from the rental fees charged for the departmental use of the vehicles and/or equipment.

The Josephine County Fleet (JCF) Program is responsible for the repair and preventative maintenance of the County's vehicle fleet. Individual departments have vehicles assigned to them at their geographic location, and Public Works tracks repair and maintenance costs on county vehicles within a computerized fleet management system. This system provides the historical data necessary to make cost-effective decisions regarding vehicle repair, disposal and/or replacement. Vehicle replacement/acquisition is also a function of the JCF, to replace those, which are no longer serviceable or cost-effective to operate.

**Budget Goal #1 - Improve community outreach and communication to the public by investing in technology that will improve efficiencies within County Departments and provide enhanced service to citizens.**

The County Fleet has little direct interaction with the general public. Instead, the JCF supports all other user departments in their various functions of providing public service and points of contact. JCF also works closely with user departments to identify the optimal number, make and model of vehicles to allow them to meet their program needs.

**Budget Goal #2 - Develop a sustainable plan for all mandated and essential County government programs.**

JCF is funded through two primary mechanisms –

- A per-mile Operations and Maintenance charge on all county-maintained vehicles. This rate is based on prior year actual maintenance costs and is allocated by vehicle type and class.
- A per-mile vehicle replacement charge. When the JCF purchases a new vehicle for a user department, the acquisition cost is amortized over the vehicle's projected usable life. This methodology ensures a vehicle reserve is always present, and that individual departments/programs will not have to come up with the entire purchase price of a new vehicle in a single fiscal year.
- To help minimize the effects of inflation, we will continue to look for opportunities to lock-in pricing in anticipation of increases, and to utilize bulk pricing where possible – gasoline, diesel, repair parts and vehicle acquisition being the biggest examples.

**Budget Goal #3 - Provide access to County services to the citizens of Josephine County in a transparent, open, and professional manner.**

All vehicle/equipment acquisitions are managed under the Josephine County Public Contracting Rules as well as ORS 279, relating to Public Contracting. This includes public bid noticing, openings, and awards; and the use of the Department of Administrative Services cooperative purchasing agreements at the state level.

All non-confidential records are available during normal business hours and/or by public records requests.

## Fiscal Year 2020-21 & 2021-22 Accomplishments:

- Bid, contract, and purchase 16 vehicles as fleet replacements, 19 “Adds” to various departments fleet.
- Continued use of vehicle user committee to improve lines of communication between department users and county fleet workgroup. With focus on vehicle acquisition prioritization.
- Reinstated minimum miles charge, to reduce vehicle under-utilization. Reduced fleet by at least 30 under-utilized vehicles.
- Continue to monitor vehicles and equipment using cost accounting system to meet preventative maintenance schedules, improve productivity, and help track/minimize costs.
- Continue balancing inventory levels to provide optimum levels of frequently used parts while utilizing vendors to optimize JIT inventory system.
- Meet all necessary Federal Transit Authority (FTA) guidelines for service intervals, mechanic training and shop/purchasing protocol to meet requirements of Josephine County Transit (JCT)
- Continue meeting 70% wrench-rate for mechanics.

## Five-Year Vision:

County Fleet will have an average light vehicle age of less than 10 years and/or 60,000 miles. This will be achieved by shortening vehicle turnover times, to maximize residual value while avoiding costly repairs, later in vehicles’ life cycles.

Vehicle reserve fund to having fund balance representing at least 10% of current replacement value of the fleet, thus allowing more timely vehicle purchases and an appropriate level of reserves to meet unforeseen vehicle replacement challenges.

County Fleet to have met the challenges of providing 6-day/week service to County Transit, while also investing in new alternative fuel technology and training.

County Fleet to be re-sited, along with Public Works, into a facility that maximizes efficiency of the operation; provides fast-charging capability to County Fleet Vehicles and utilizes existing partnerships with other local agencies.

Capital items are valued at \$5,000 or more at time of purchase and have a useful life in excess of one year

**OFFICE/DEPT NAME:** Public Works  
**Fund - Cost Center:** 463410

<b>Capital Item:</b>	Large Culverts	
<b>Cost:</b>	\$	250,000
<b>Purpose/Justification:</b>	The County large culvert system is aging and reaching their design life. This project will begin replacing or relining the culverts that have been inspected and determined to be the highest priority to replace.	
<b>Impact on Future Operating Budgets</b>	Once these culverts are replaced little to no future maintenance on the culverts will be needed for the next 50 or so years. Replacing these culverts now before they completely fail will also lessen the cost of the replacement as they can be planned and not be an emergency project.	
<b>Source of Funding:</b>	Road & Bridge Reserve / PW Transfer	

<b>Capital Item:</b>	New Hope Road - Sidewalk install	
<b>Cost:</b>	\$	80,000
<b>Purpose/Justification:</b>	This project will provide pedestrian safety by providing a safe place for people to walk and it will also fix the drainage issues that exist in this area.	
<b>Impact on Future Operating Budgets</b>	This will lessen the amount of future calls that Public Works will need to respond to during rain events.	
<b>Source of Funding:</b>	Road & Bridge Reserve / PW Transfer	

<b>Capital Item:</b>	G st to Lincoln Rd - Sidewalk install & ROW purchase	
<b>Cost:</b>	\$	210,000
<b>Purpose/Justification:</b>	This project will provide pedestrian safety by providing a safe place for people to walk and it will also fix the drainage issues that exist in this area.	
<b>Impact on Future Operating Budgets</b>	This will lessen the amount of future calls that Public Works will need to respond to during rain events.

<b>Capital Item:</b>	A/C Blade Patch	
<b>Cost:</b>	\$	280,000
<b>Purpose/Justification:</b>	Several areas are identified through our road pavement management rating system requiring a selection of the best management practice for repair. Some are corrected with a crack seal; others require bridging the stress areas with asphalt applied with a grader blade.	
<b>Impact on Future Operating Budgets</b>	Preventative Maintenance and upkeep of infrastructure. If not maintained, road structure would deteriorate beyond surface repairs and then becomes a complete reconstruction.	
<b>Source of Funding:</b>	Road & Bridge Reserve / PW Transfer	

<b>Capital Item:</b>	Lower River Rd /ADA Ramps Design & Construction	
<b>Cost:</b>	\$	630,000
<b>Purpose/Justification:</b>	This project will provide pedestrian safety by providing a safe place for people to walk. This project is a requirement from ODOT in the process of transferring Lower River Road to Josephine County.	
<b>Impact on Future Operating Budgets</b>	Minimal maintenance for operating fund impact	
<b>Source of Funding:</b>	Road & Bridge Reserve / PW Transfer	

<b>Capital Item:</b>	10th Street / Sidewalk Design	
<b>Cost:</b>	\$	525,000
<b>Purpose/Justification:</b>	This project will provide pedestrian safety by providing a safe place for people to walk and connectivity to existing sidewalks and ramps in the area.

<b>Cost:</b>	\$	64,000
<b>Purpose/Justification:</b>	Due to the age, wear and tear of our current pull broom trucks, Public Works needs to purchase two (2) new pickups to ensure that road maintenance activities that rely on pull brooms continue uninterrupted. The current pull brooms would be removed and installed on the new pickups.	
<b>Impact on Future Operating Budgets</b>	The trucks will be under warranty 5 years and be more fuel efficient resulting in minimal impact of the operating budget.	
<b>Source of Funding:</b>	Gas Tax / Public Works Transfer	

<b>Capital Item:</b>	2 - Truck Mount Signs	
<b>Cost:</b>	\$	28,000
<b>Purpose/Justification:</b>	Public Works current reader boards are outdated and in need of repairs. The manufacture no longer makes repair parts and they are not supported by aftermarket suppliers, thus requiring parts to be sent out for repairs resulting in extended down times. These truck mount signs need to be replaced in support of both the line striping and mowing programs. These signs will be mounted on our current dedicated sign trucks.	
<b>Impact on Future Operating Budgets</b>	The new signs will carry a 2 year warranty resulting in minimal impact of the operating budget.

**OFFICE/DEPT NAME:** Public Works  
**Fund - Cost Center:** 483410

<b>Capital Item:</b>	Mid Mount Tiger Mower	
<b>Cost:</b>	\$	180,000
<b>Purpose/Justification:</b>	Public Works is in need of an additional mower for road side vegetation control. With the ever-tightening restrictions on herbicides the vegetation crew is being required to use our mower in a greater capacity than ever to meet their program needs. The county currently owns only a single mower and the vegetation crew is unable to keep up with these growing demands. The addition is necessary to ensure Public Works is able to provide the service needed to accomplish our annual mowing requirements.	
<b>Impact on Future Operating Budgets</b>	The mower will be under warranty for at least 2 years, resulting in minimal impact on the operating budget.	
<b>Source of Funding:</b>	Gas Tax / Public Works Transfer	

<b>Capital Item:</b>	Wheel Loader	
<b>Cost:</b>	\$	190,000
<b>Purpose/Justification:</b>	Due to the age and deterioration of the Public Works wheeled loader it will need to be replaced. The newer unit will be more efficient and reliable. The replacement of this loader will help ensure that road maintenance activities continue uninterrupted well into the future. The loader to be replaced is 32 years old and will soon require a complete overhaul including engine, transmission and hydraulic system. The cost of these repairs have the potential to cost in excess of \$50,000.00.	
<b>Impact on Future Operating Budgets</b>	Over the next 5 years, an expected savings of \$50,000 is expected due to lower repair costs.

**OFFICE/DEPT NAME:** Public Works  
**Fund - Cost Center:** 483410

<b>Capital Item:</b>	Skid Steer w/ Bucket & Planer attachments	
<b>Cost:</b>	\$	135,000
<b>Purpose/Justification:</b>	Public Works needs to replace the current skid steer as it is inadequate in size to run any Hi-flow/Hi-pressure attachments nor is there any other equipment owned by the county with the hydraulic capacity to run such attachments. The new skid steer will have the capability to run any of the high output attachments. Not only will it come with a bucket attachment but it will be outfitted with a 36" pavement grinder (planer). Having a planer will save the road surfacing crews a projected \$19,726.00 between dig outs and surfacing each year. This figure does not include that additional savings on approaches and bridge repairs. Because of its Hi-flow hydraulic system we will have the ability to add more time saving attachment in the future expanding the use of this piece of equipment.	
<b>Impact on Future Operating Budgets:</b>	Over the next 5 years, we are expecting a savings of over \$100,000.00 due to lower labor, material and outsourcing costs. The new skid steer will come with a 2 year warranty this does not include any savings from warranty covered work.	
<b>Source of Funding:</b>	Gas Tax / Public Works Transfer	

<b>Capital Item:</b>	Henderson Snow Plow	
<b>Cost:</b>	\$	39,500
<b>Purpose/Justification:</b>	Public Works is currently replacing the last of our 10-yard dump trucks which also serve as our heavy snow plow/ice control trucks. We will need to replace the existing 1990 models plows as they are obsolete and not compatible with our new trucks. The new plows will be of modern design and compatible with the new trucks. This will ensure Public Works heavy snow removal program continues uninterrupted.	
<b>Impact on Future Operating Budgets:</b>	The new plow will have minimal impact on the operating budget.

<b>Capital Item:</b>	Henderson Steel Sander	
<b>Cost:</b>	\$	56,000
<b>Purpose/Justification:</b>	Public Works is currently replacing the last of our 10-yard dump trucks which also serve as our heavy snow plow /ice control trucks. We will need to replace the existing 1992 model sanders as they are obsolete and not compatible with our new trucks. The new sanders will be of modern design and compatible with the new trucks. The new sanders will be able to pretreat the sand as well as having the ability to cast up to 3 lanes in a single pass. This will ensure Public Works heavy snow removal and sanding program continues uninterrupted.	
<b>Impact on Future Operating Budgets</b>	The new sander will have a minimal impact on the operating budget.	
<b>Source of Funding:</b>	Gas Tax / Public Works Transfer	

<b>Capital Item:</b>	UST Monitoring System	
<b>Cost:</b>	\$	30,000
<b>Purpose/Justification:</b>	Public Works UST monitoring system is in need of replacement. The current system is outdated and showing signs of upcoming failure. This system is critical to meeting the Public Works Under Ground Storage Tank requirement for DEQ. This a release detection system that tracks fuel levels within an underground storage tank over a period of time to see if the tank is leaking. It will also provide measurements of the fuel level, volume and temperature, water level and volume, and high and low fuel level warnings.	
<b>Impact on Future Operating Budgets</b>	The new UST monitoring system will have a minimal impact on the operating budget.

**OFFICE/DEPT NAME:** Transit  
**Fund - Cost Center:** 483510

**Capital Item:** 3 Ford In-Transit Vans for demand response services  
**Cost:** \$ 260,000  
**Purpose/Justification:** The vehicles ordered are lift equipped and will replace three vehicles that are beyond their FTA defined useful life.  
**Impact on Future**  
**Operating Budgets** The impact will be the overall operational and maintenance cost of the three new vehicles. The replacement vehicles will be removed from future budget considerations. The net impact should be reduction in maintenance expenses associated with the vehicles providing door to door demand response services.  
**Source of Funding:** ODOT 5339

**Capital Item:** 2 100% Electric 35' transit vehicles  
**Cost:** \$ 1,600,000  
**Purpose/Justification:** The vehicles will replace smaller 25' vehicles that are well beyond their useful life. The new vehicles can hold more people than the replacement, operate at a lower cost per mile and provide more room between passengers for less crowded conditions.  
**Impact on Future**  
**Operating Budgets** The impact will be a reduction in the overall cost of maintenance of the transit fleet. The cost of fuel will also be reduced since the cost per mile of an electric vehicle is less than gas or diesel.  
**Source of Funding:** ODOT 5339 and Congestion Mitigation and Air Quality funds

**Capital Item:** 2 Hybrid Electric/Diesel 35' transit vehicles  
**Cost:** \$ 1,700,000  
**Purpose/Justification:** The vehicles will replace smaller 25' vehicles that are well beyond their useful life. These new vehicles can hold more people and also provide 100% electric propulsion in the cities they serve, which were traditionally only accessible by diesel powered vehicles due to terrain (steep hills - CJ). The vehicles can operate on diesel fuel when needed then switch to electric power within outlying cities and the urban areas or Grants Pass.  
**Impact on Future**  
**Operating Budgets** The impact will be lowered maintenance and anticipated fuel costs from running on electricity as much as possible.

**OFFICE/DEPT NAME:** American Rescue Plan Act  
**Fund - Cost Center:** 482233-4603\*

**Capital Item:** Lenco Bearcat G3 Armored Vehicle  
**Cost:** \$ 304,000  
**Purpose/Justification:** We currently have to wait for OSP involvement in enforcement of large marijuana grows because we do not have the necessary equipment to safely enter these compounds. The Lenco Bearcat armored vehicle provides additional safety for law enforcement personnel entering dangerous situations. Allowing local law enforcement to more efficiently and effectively respond to the rise in gun violence in our county.  
**Impact on Future Operating Budgets**  
**Source of Funding:** ARPA Grant

**Capital Item:** E-Cite software system for the Sheriff's Office  
**Cost:** \$ 36,301  
**Purpose/Justification:** The Sheriff's Office writes citations by hand, increasing face-to-face time with the public and exposure to diseases like COVID. The Sheriff's Office will implement the e-citation software Brazos from Tyler Software. This implementation would let officers spend less time in traffic stops, allowing more social distancing and making for safer public interactions.  
**Impact on Future Operating Budgets**  
**Source of Funding:** ARPA Grant

**Capital Item:** North Valley Industrial Park Lift Station Generator  
**Cost:** \$ 44,500  
**Purpose/Justification:** The effluent (sewer) lift station within the North Valley Industrial Park (NVIP) does not have any source of back-up power. The presence of a back-up generator will allow the lift station to operate during future losses of electrical power delivery. This would also eliminate the need to mobilize a septic pumping truck if the lift station lost electrical power.

**OFFICE/DEPT NAME:** American Rescue Plan Act  
**Fund - Cost Center:** 482233-4603\*

**Capital Item:** Fleming Treatment Plant and NVIP Lift Station Expansion Upgrades  
**Cost:** \$ 295,000  
**Purpose/Justification:** The Fleming Waste Water Treatment Plant is getting close to its upper limit of how much additional volume can be accommodated, which is having a dampening impact on potential new businesses siting within the NVIP, as well as the feasibility of a potential future connection with the Airport.  
**Impact on Future Operating Budgets**  
**Source of Funding:** ARPA Grant

**Capital Item:** Jet-A Fuel System  
**Cost:** \$ 575,000  
**Purpose/Justification:** Current 6,000 gallon underground fuel tank is 31 years old with a life expectancy of 30 years. Should tank leak it has the potential to cost the county millions in clean up costs. UST will be replaced with a 15,000 gallon above ground fuel tank.  
**Impact on Future Operating Budgets** The new 15,000 gallon above ground storage fuel tank will allow increased fuel capacity which will allow for better pricing, reduced transportation and delivery costs from fuel suppliers, and a ready supply of Jet-A in an emergency event requiring transport aircraft operations into and out of GP.  
**Source of Funding:** 2 COAR Grants (\$150K each) & JoCo ARPA funds \$575K

**Capital Item:** Self-Serve Fuel Island (Avgas & Jet-A)  
**Cost:** \$ 1,200,000  
**Purpose/Justification:** Currently no fuel being offered. Will greatly help with wildland firefighting efforts, medivac flights, create business opportunities on airfield and attract tourism via air travel.  
**Impact on Future Operating Budgets**  
 Fuel sales will increase revenue and help business develop on the airfield.  
**Source of Funding:** JoCo ARPA \$1,200,000

**Capital Item:** 911 dispatch  
**Cost:** \$ 475,400  
**Purpose/Justification:** 911 Dispatch serves the entire local area, including the city of Grants Pass, unincorporated areas of Josephine County, and the City of Cave Junction, which are located in HUD Qualified Census Tracts 3605, 3615, and 3616.

## **JOSEPHINE COUNTY, OREGON**

### **Glossary of Budget Terms**

**Adopted Budget:** The annual budget document as approved by the budget committee and then adopted by the Board of County Commissioners.

**Appropriation:** An act (ordinance or resolution) of a governing body (such as the Board of County Commissioners) authorizing the expenditure of money for specific purposes. Also, the money so authorized.

**Assessed Valuation:** A valuation set upon real estate or other property by the County Assessor and the state as a basis for levying taxes. This amount is multiplied by the tax rate to determine the total amount of property taxes to be collected.

**Audit:** an official inspection of an individual's or organization's accounts, typically by an independent body.

**Balanced Budget:** Josephine County budgets are required to balance due to Oregon Budget Laws. This means to expend only what revenues are available. The revenues (including Beginning Fund Balance) are equal to/or exceed the expenditures for the year.

**Beginning Fund Balance:** Resources received by the County during previous fiscal years which are being included in the resources applied to meet the estimated operating costs of the current fiscal year

**Bond:** A written promise to pay a specified sum of money (face value or principle amount) at a specified date or dates in the future (maturity date(s)), together with periodic interest at a specified rate.

**Budget:** A policy statement detailing an entity's plan for the attainment of stated goals during a specified period. This includes estimates of required expenditures and anticipated revenues necessary to do stated goals.

**Budget Committee:** The budget planning board of an entity. It is comprised of the Board of County Commissioners and three appointed Josephine County Residents.

**CAFR:** Comprehensive Annual Financial Report. This is the County's annual report containing audited financial statements, comparison of actual to budget information and statistical data.

**Capital Outlay:** The expenditure category incorporating all property and equipment expenditures in excess of \$5,000 with a useful life of more than one year. This includes, but is not limited to, land purchases, the purchase, improvement, or renovation of county facilities, and the acquisition of county equipment.

**Capital Projects:** Activities resulting in the acquisition of or improvement of major capital items such as land, buildings and county facilities.

**Capital Project Funds:** Funds used to account for the financial resources to be used for the acquisition of or construction of major capital items.

**Charges for Services:** A charge imposed by a County department for services rendered to the public. Charges are imposed in order to insure that those citizens receiving the service pay at least a portion of the cost of providing the service.

**Contingency:** An expenditure classification for those funds reserved to meet unanticipated demands and expenses.

**Debt Service:** Payment of principal and interest on a long-term obligation.

**Debt Service Funds:** Funds used to account for the accumulation of resources for, and payment of long-term obligations.

**Department Generated Revenues:** Monies directly generated by departments as a result of the services provided by the department in the form of charges for services, sale of licenses and permits, fines, intergovernmental grants and shared revenues, or donations and other miscellaneous revenues.

## JOSEPHINE COUNTY, OREGON

### Glossary of Budget Terms

**Depreciation:** a reduction in the value of an asset with the passage of time, due in particular to wear and tear.

**Enterprise Funds:** Funds used to account for the operations that are financed and operated in a manner similar to those of private business enterprises. The intent is that the costs of providing goods and/or services to the general public on a continuing basis be financed or recovered primarily through user charges.

**Expendable Trust Fund:** A fund used to account for resources received and held by the County in a fiduciary capacity. It is permitted to expend, or spend, the trust corpus, or body. Due to the nature of the purpose of the funds they are accounted for in essentially the same manner as governmental funds.

**Expenditure:** In fund accounting, a disbursement of cash or a liability incurred for operations, capital outlay, or other requirement during a budget period.

**Fines & Forfeitures:** Revenues collected as fines for the violation of laws, rules or regulations, and revenues received due to the forfeiture by an individual of an asset to the County.

**Fiscal Year:** The twelve-month period from July 1 to June 30 for which the annual budget of the County is prepared and adopted.

**Fixed Asset:** Assets with a life expectancy in excess of one year (land, buildings, furniture & other equipment.)

**FTE (Full-time Equivalent):** This term is used in the budget to designate the equivalent of one full-time employee. One FTE is equivalent to one full-time employee or any combination of part-time employees whose employment percentages total 100%.

**Fund:** A fiscal entity consisting of a self-balancing set of accounts that are segregated from other funds for the purpose of fulfilling specific activities or attaining specific objectives in accordance with regulations, restrictions, or limitations. A fund is also an available quantity of financial resources.

**GAAP:** Generally Accepted Accounting Principles.

**General Fund:** A fund established for the purpose of accounting for all financial resources and liabilities of the County except those required to be accounted for in other funds by special regulations, restrictions, or limitations.

**Interfund Transfers:** An expenditure and revenue classification for those expenses charged to one fund by another fund for materials or services rendered or for receipt of monies for specific programs or services.

**Intergovernmental Revenues:** A revenue category to record the receipt of grants and shared revenues received from another governmental entity.

**Internal Service Funds:** Funds used to account for the operations of departments or programs that provide services and products primarily to other County departments or programs.

**Internal Service Fund Charges:** An expenditure classification for those expenses charged by an Internal Service Fund to a department or program for services.

**Licenses & Permits:** A revenue classification used to record the monies received from the sales of licenses and permits.

**Materials and Services:** An expenditure classification including major non-capital, non-personnel expenditures. These include expenses for travel and training, operations, data processing, property, equipment, and contracted services.

**Miscellaneous Revenues:** A revenue classification used to record revenues that do not meet the definition of other revenue classifications. These include interest earned on fund balances.

## **JOSEPHINE COUNTY, OREGON**

### **Glossary of Budget Terms**

**Non-Expendable Trust Fund:** A fund used to account for resources received by the County in a fiduciary capacity. The only amount that may be expended is the interest earned on the principal. The body of the trust, or the corpus, must remain intact.

**O & C Revenues:** Revenues received by the county from the federal government for timber harvested on federal government land formerly belonging to the Oregon and California Railroad. This is the primary source of revenue for Josephine County's public safety programs. Beginning in 1994-95, O & C Funds were no longer linked to the timber harvest, and were guaranteed by the federal government in a federal safety net program for five years. In October 2000, Congress passed PL 106-393 which guaranteed payment of the safety net money through the County's fiscal year 2006-07. In May 2007, the funding was extended for one more year, through the County's fiscal year 2007-08. In October 2008, Congress passed the Troubled Assets Relief Program (TARP) which extended the payments for another four years but with reduced amounts each year until phased out altogether.

**Operating Budget:** This refers to the portion of the Josephine County annual budget that applies to expenditures other than capital outlays, debt service, transfers, contingency, and ending fund balance.

**Personal Services:** An expenditure classification used to account for the costs of employees. This classification includes salaries and wages and employer paid benefits.

**Program:** A group of related activities performed by one or more organized units for the purpose of accomplishing a function for which the county is responsible.

**Requirements:** A budget term used for all budgeted uses of monies in a fund during a fiscal period. It includes budgeted expenditures, interfund transfers, contingencies and balances budgeted to be carried over to the next fiscal period. Requirements must be equal to Resources (see next definition) in order for a fund's budget to be in balance.

**Resources:** Total monies available during a budget period. This includes the estimated balances on hand at the beginning of the budgetary period plus all revenues anticipated being collected.

**Revenue:** Monies received during the budgetary period to finance County services.

**Special Revenue Funds:** Funds established for the purpose of accounting for all financial resources and requirements which, because of special regulations, restrictions, or limitations, must be segregated from other funds.

**Supplemental Budget:** An amendment, made by the governing body, to the adopted budget to meet unexpected needs or to authorize the expenditure of revenues which were not anticipated at the time the regular budget was adopted.

**Tax Levy:** The total amount eligible to be raised by general property taxes.

**Tax Rate:** The amount of tax levied for each \$1,000 of assessed valuation. The assessed valuation is multiplied by the tax rate to determine the total tax dollars levied.

**Unappropriated Ending Fund Balance:** A budget classification for those funds not appropriated for any purpose and reserved for subsequent fiscal years. This may include specific reserves for buildings or equipment or may be generally reserved funds for no specific purpose.

### History

Josephine County is located in southwestern Oregon and was created by the Territorial Legislature on January 22, 1856, from the western half of Jackson County. It was the nineteenth, and last, county created before statehood. Josephine County was named for Josephine Rollins, the first white woman to settle in southern Oregon.

The county is bordered on the south by California, on the north by Douglas County, on the west by Curry County at the Coast Range summit, and on the east by Jackson County. Josephine County is predominantly mountainous, but has two major valleys cut by the Rogue and Illinois Rivers.

Sailor Diggings was named the first county seat of Josephine County in 1856. During the next year, the population center shifted north to the Illinois Valley and to Kerbyville, a town which had been founded earlier that year by James Kerby. Kerbyville was chosen by the electorate as the new county seat in 1857. In 1858 the Territorial Legislature changed its name to Napoleon, but Kerbyville, and later, Kerby, remained the favored usage in the county. In 1886, the county seat was relocated to Grants Pass, a new town built along the recently completed railroad which traversed the state.

the city's "Caveman Club" in 1971 following nearly five decades of boosterism based on the theme. Beginning in 1922, local shopkeepers would march down Main Street wearing animal skins and furs and dragging ceremonial clubs to boost business.

While the Grants Pass High School sports teams continue to compete as Cavemen and Lady Cavers, the city prefers other forms of promotion. More popular now is the slogan "Where the Rogue River Runs," a reference to the local wild and scenic river with white-water, fishing, and jet boat recreational opportunities. (Source: Roadside America)

The first county courthouse was a log cabin at Sailor Diggings, which later came to known as Waldo. The building was purchased for \$100 from James Hendershott in 1856. In 1858 when Kerbyville became the new county seat, the commissioners ordered the sheriff to sell the courthouse at Sailor Diggings. Between 1858 and 1886 court records were kept in various offices and buildings rented by the county in Kerbyville. In 1886 the county seat was relocated to Grants Pass where courthouses were built in 1887 and 1917.

County officers were elected in June, 1856, and included three county commissioners, sheriff, auditor, treasurer, probate judge, and coroner. The U.S. district court held its first session at Sailor Diggings in 1856. Josephine County government currently consists of three commissioners, district attorney, assessor, clerk, sheriff, surveyor, and treasurer.

Most of the commercial activity during the territorial period centered on gold mining and the supply of provisions to miners. Miners had been active in the Rogue and Illinois Valleys since 1851. By the late 1850s, however, gold mining was beginning to decline and population dwindled as well. In

1859, gold was discovered along the Fraser River in British Columbia and an exodus from Josephine County occurred.

Although several Indian tribes lived in the area from which Josephine County was created, most of their members had been moved to reservations by 1856. In late 1856 all Indians in southwest Oregon, with the exception of a few tiny bands, were moved to the Siletz Reservation in Polk County.

Josephine County was also the home to a large Chinese population. Most had come to the area to work gold claims purchased from whites no longer interested in working them. Even though they could not own land, they had to pay a tax to mine gold, and were relegated to inferior claims.

#### The Area:

Josephine County is mountainous, but also has two major valleys and three rivers; the Rogue, the Applegate and the Illinois. These scenic rivers are world renowned for whitewater rafting and fishing. Many Josephine County Parks are situated on the Rogue River; these parks offer camping and great activities such as disc golf, hiking, volleyball, softball and fishing.

One point of interest in Josephine County is the Grave Creek Covered Bridge; this is one of the few functional covered bridges that remain in southern Oregon. This historic bridge is the only covered bridge visible from the Oregon I-5 freeway.

Other attractions include the Applegate Trail Interpretive Center, Hellgate Canyon-Rogue River, Kalmiopsis Wilderness, Kerbyville Museum, Oregon Caves National Monument, Rogue Community College, Lake Selmac, WildLife Images and the Wolf Creek Inn, a State Historic Park.

## **Profile of Josephine County Government**

Josephine County is located in the southwestern corner of the State of Oregon. The southern border of the County forms the Oregon/California state line. The County was established on January 22, 1856. The County's boundaries encompass an area of 1,641 square miles. The County's population showed steady increases by growing from 77,411 in 2002 to 82,794 in 2009; and has shown signs of leveling off to about 82,730 in 2011 with slight growth by 2019 at 87,487.

Josephine County has three commissioners who are elected at large for four-year terms. The daily administrative functions of each County office/program/division are overseen by appointed managers or one of seven Elected Officials. The Board of County Commissioners (BCC) sets policy, adopts the annual budget, and passes resolutions and ordinances in accordance with state law. The BCC appoints many volunteers to citizen's advisory and review committees, including the Budget Committee. These committees assist the County and the BCC in providing needed and desired services to the community.

The Budget Committee is comprised of the three Commissioners and three citizens appointed from the public at large by the BCC. Each of the citizens serves a three-year term (terms are staggered so one is up for replacement each year), and they are not paid for their services. The Budget Committee reviews and approves the annual budget in hearings open to the public. All funds are budgeted in conformance with Oregon Local Budget Law. The BCC adopts a resolution authorizing appropriations for each department or expenditure category within a fund, setting the levels that expenditures cannot legally exceed.

Josephine County government provides a wide range of services. The services include public health, parks and recreation, airport operations, public road maintenance and construction, planning and development, building safety, county fair activities, probation and juvenile justice activities. In addition, it provides services to the economically disadvantaged in the county. The County has seven Elected Officials. The Sheriff provides patrols and operates the jail. The District Attorney prosecutes the criminals of the community and maintains a family support division. The Assessor is responsible for certifying all levies and computing the valuation of property for taxation. The Clerk conducts elections and maintains official records. The County Surveyor maintains County land survey records. The Treasurer is the custodian of County and District monetary funds. Finally, the County's Legal Counsel provides legal support to all County departments.

\* *Ballot Measure 50, approved by State voters in May 1997, changed the way property taxes are assessed and computed. For 1997-98, the assessed value of property is the real market value or 90 percent of the 1995 assessed value, **whichever is lower**. If the property has changed since 1995, increased values are calculated in comparison to the values of similar property that existed in 1995.*

(1) Nominal property tax rate is per \$1,000 without compression resulting from Ballot Measure 5

(2) Josephine County Permanent Rate is \$0.5867 per \$1,000 assessed value. Due to statewide constitutional property tax limitation of Ballot Measures 5 and 47/50, the County is restricted in its ability to raise the permanent tax rate or to implement new taxes without voter approval.

*Note: These figures are rounded and for general information only. For actual nominal tax rates, inquire at the County Assessors's Office.*

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

The financial statements of Josephine County have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The significant accounting policies of the County are described below.

A. Reporting Entity:

Josephine County was formed under the predecessor chapter to Oregon Revised Statutes (ORS) 202, and its present “home rule” charter, effective January 5, 1981, was adopted under Article VI, Section 10 of the Oregon State Constitution. Its boundaries are established by ORS 201.170. A Board of Commissioners consisting of three independently elected members governs the County.

B. Government-wide and Fund Financial Statements:

Government-wide Financial Statements – The Statement of Net Position and Statement of Activities report information for all of the non-fiduciary activities of the County. *Governmental activities*, which are primarily supported by intergovernmental revenues and taxes, are reported separately from *business-type activities*, which rely primarily upon fees charged to external parties.

The Statement of Activities demonstrates the extent to which direct expenses of the County’s functions/programs listed in the statement (such as General Government, Public Safety, and Human Services) are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or program. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or program and 2) grants and intergovernmental revenues that are restricted to meeting the operational or capital requirements of a particular function or program. Taxes and other items which are not specific program revenues are reported as general revenues in the Statement of Activities.

Fund Financial Statements – Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. Remaining governmental and enterprise funds are aggregated and reported as non-major funds.

The County reports the following major governmental funds:

General Fund – This is the County’s primary operating fund. It accounts for all financial resources of the general government, except for those requiring separate accounting in another fund. The offices of the Assessor, Treasurer, County Clerk, Surveyor, Veterans, Planning, Emergency Management, Court Facilities and Forestry Departments are in the General Fund. This fund also provides a significant amount of support to the Public Safety Fund. The primary source of revenue for the General Fund is property taxes.

Public Works Fund – The expenditures of the Roads and Bridges Division of this fund are restricted under Article IX of the Constitution of the State of Oregon for construction, reconstruction, improvement, repair, maintenance, operation, use and policing of public highways, roads and streets within the County. Major sources of revenue include motor fuel taxes and forest service receipts.

Law Enforcement Fund – This fund comprises three departments which are the Sheriff, District Attorney and Juvenile Justice. The largest revenue source is O&C/Shared Receipts money from the Federal Government. Other revenues are primarily charges for services and various federal and state grants.

Community Corrections Fund – This fund was formed to account separately for the operations of the Community Corrections Department, which supervises adult felony cases and administers the work crew programs. It is primarily funded by grants from the Oregon Department of Corrections.

Public Health Fund – This fund serves the public by operating many health/clinic programs, environmental health and animal control/shelter. The primary sources of funding are charges for services and grants from the Oregon Department of Human Services and Oregon Health Authority.

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):**

B. Government-wide and Fund Financial Statements (Continued):

Adult Jail & Juvenile Detention Fund – This fund was formed July 1, 2017 due to the May 16, 2017 election when voters approved a local option levy. This fund accounts for the operations of the Adult Jail and Juvenile Detention, which are utilized by the county, local cities, and state law enforcement.

Capital Project Funds:

- Roads and Bridges – This fund is intended to accumulate funds for major repairs or improvements to County owned infrastructure, primarily roads and bridges.
- Property Reserve – This fund is to accumulate funds for major repairs or improvements to county owned real property or to purchase real property for use in the County’s operations.
- Equipment Reserve – This fund is to accumulate funds to purchase items of equipment having a cost in excess of \$5,000.

The County reports the following major enterprise funds:

Parks – This fund is used to account for the operations of the County’s parklands and other facilities, which include the Granite Hill Cemetery. Major revenue sources include grants, user fees, and an economic development transfer from Oregon Lottery funds. Expenditures are for the management and maintenance of the county parks and facilities.

Transit – This fund accounts for the operations of the Josephine County Transit System, which provide special transportation to seniors and people with disabilities and fixed route general public bus transportation between Grants Pass, Cave Junction, Wolf Creek, and Medford. Revenues are from grants and user fees.

Airports Fund – This fund accounts for the operations of the County’s airports located in Grants Pass, and Cave Junction, Oregon. User fees are the primary source of revenue. Expenditures are for the administration and maintenance of the airport buildings and grounds.

Additionally the County reports the following fund types:

Proprietary Funds – Account for the operations of predominantly self-supporting activities.

- Enterprise funds account for services rendered to the public on a user charge basis.
- Internal service funds account for services provided to other departments or agencies of the County or other governments, on a cost reimbursement basis.

Fiduciary Funds – Account for resources received and held by the County’s Treasurer on behalf of other governmental entities, private individuals, and others as provided for in Oregon Revised Statutes. The implementation of GASB 84 *Fiduciary Activities*, changes the presentation of the Fiduciary Fund statements, the effects of which can be seen in the Basic Financial Statements and in Supplementary Information.

C. Measurement Focus and Basis of Accounting

Government-wide, Proprietary Fund, and Fiduciary Fund Financial Statements – The government-wide and proprietary fund financial statements are reported using the *economic resources measurement focus and accrual basis of accounting*. Fiduciary funds have no measurement focus. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Property taxes are recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements in order to avoid double counting of revenues, expenditures and internal balances. However, interfund service transactions are not eliminated in the process of consolidation. Expenditures of the County’s internal service funds are reported as direct expenses of the functions and programs that use the internally provided services. The primary items provided are building operation and maintenance, motor pool, insurance, finance, personnel, legal, communications and technology support.

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):**

C. Measurement Focus and Basis of Accounting (cont.)

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing goods and services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Airport and Jail Commissary enterprise funds and the County's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Governmental Fund Financial Statements – All governmental fund types are accounted for using a *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County generally considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Federal and state grants (to the extent that eligible expenditures are incurred), licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues within the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims, and judgments are recorded only when the payment is due.

D. Use of Restricted Assets:

When program expenses are incurred for which both restricted and unrestricted Net Position are available to finance the program, it is the County's policy to first apply restricted resources, followed by committed, assigned, and unassigned fund balance.

E. Cash and Investments:

Investments included in cash and investments are reported at fair value. The County invests primarily in the State of Oregon Local Government Investment Pool and securities of the U.S. Government agencies and sponsored enterprises. Oregon Revised Statutes authorize all County investments. Interest earned from pooled investments is allocated based upon a fund's portion of the total average daily investment balance. The County maintains depository insurance under Federal depository insurance coverage and state and financial institution collateral pools for its cash deposits and investments, except for the Local Government Investment Pool and securities of the U.S. government agencies and sponsored enterprises which are exempt from statutes requiring insurance.

F. Receivables:

The County levies, collects, and distributes property taxes for all taxing districts within its boundaries. Property taxes attach as an enforceable lien on property as of July 1. All taxes are levied as of the lien date and are payable in three installments on November 15, February 15 and May 15. Property taxes receivable in governmental funds which have been collected within 30 days of year end are considered measurable and available and are recognized as revenues in the funds. All other property taxes receivable in the governmental funds are offset by Unavailable Revenue and, accordingly, have not been recorded as revenue.

For the year ended June 30, 2021, the County's tax levy did not exceed the Oregon constitutional limitation. All other districts' property taxes receivable is reported in the Custodial Funds.

Special Assessments are recognized as receivable at the time property owners are assessed for property improvements. Delinquent receivables are those special assessments remaining unpaid after the date on which a penalty for non-payment is attached.

"Bancrofted" assessments occur when installments are two payments (one year) late. Such assessments receivable is offset by an unearned revenue account and, accordingly, have not been recorded as revenue.

Accounts and other receivables in governmental and proprietary fund types are recorded as revenue when earned, except for timber sales, which are recorded as revenue when the logging occurs.

**JOSEPHINE COUNTY, OREGON**  
**Notes to Financial Statements**  
**June 30, 2021**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):**

F. Receivables (cont.):

Receivables are distinguished as accounts receivable when received by non-governmental entities. Receivables are considered “due from other Governments” when receivable from a Government entity.

Unavailable revenue includes delinquent property taxes in the general fund.

G. Inventories:

Governmental Funds – Inventories of parts and supplies are held by the Public Works Fund and County Fleet and Building Operations Fund and are valued at average cost. Inventories are recorded as expense when consumed.

Proprietary Funds – Inventory of fuel are held at each of the airport sites and are valued at first in first out cost.

H. Capital Assets:

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historic cost. Donated capital assets are recorded at estimated acquisition value at the date of donation. Major outlays for capital assets and improvements are capitalized as projects are constructed. The costs of normal maintenance and repairs that do not add value to the asset or materially extend asset lives are not capitalized.

Capital assets are depreciated using the straight-line method over an appropriate useful life as determined for each asset using professional judgment. Suggested useful ranges for each asset classification are listed below.

<u>Assets</u>	<u>Years</u>
Buildings and improvements	35
Vehicles and machinery	5 to 15
Office furniture and equipment	3 to 10
Infrastructure	25 to 65

I. Landfill Closure and Post-closure Care Liabilities:

The County records landfill closure and post-closure costs in the Public Works Fund as incurred over the life the related landfills. The estimated liability is reported in the government-wide Statement of Net Position.

J. Long-term Debt:

All County long-term debt is included in the government-wide financial statements. Long-term debt directly related to and expected to be paid from proprietary funds is also included in those funds. Long-term debt information is presented in Note 5.

K. Compensated Absences:

Accumulated vested compensated absences are accrued in the government-wide and proprietary financial statements as earned by employees.

The County established the Payroll Reserve Fund for the purpose of accumulating resources to pay employees for compensated absences (time management leave and vacation leave). Resources are provided by other County funds, principally the major funds. Unused management leave and vacation leave is paid upon termination according to applicable collective bargaining agreements or non-union policies, and is recorded as an expenditure at time of payment. Sick pay, which does not vest, is recorded as expenditure when it is taken.

L. Cash Flows Statement:

For purposes of the statement of cash flows, the proprietary fund types consider all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Accordingly, all County investments are considered to be cash equivalents.

M. Property Tax Calendar:

Property taxes attach as an enforceable lien on July 1 for real property and personal property. Taxes are levied as of July 1 and payable in three installments on November 15, February 15 and May 15. Real property taxes unpaid on May 16 are considered delinquent.

**JOSEPHINE COUNTY, OREGON**  
**Notes to Financial Statements**

---

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):**

M. Property Tax Calendar (continued):

The County levies, collects and distributes property taxes for all taxing jurisdictions within its boundaries. Uncollected taxes, including delinquent amounts, are deemed to be substantially collectible or recoverable through liens, and are recorded in governmental funds as revenue when received.

N. Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported revenues and expenditures during the period. Actual results could differ from those estimates.

O. Fund Balances:

In the fund financial statements, governmental funds report fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. The fund balance for governmental funds, in accordance with GASB 54 is reported in a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. When both restricted and unrestricted resources are available for use for the same purpose, the County will utilize the restricted funds firstly. When committed, assigned, and unassigned resources are available for use for the same purpose, the County will utilize the committed, then assigned, then unassigned funds in that available order.

P. Restricted Net Position:

Restricted Net Position reported in the Statement of Net Position represent amounts for which constraints were imposed by creditors, grantors, contributors or laws or regulations. Net position is classified into three categories: (1) Net Investment in Capital Assets – consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowing that are attributable to the acquisition, construction, or improvement of those assets; (2) Restricted – consists of external constraints placed on asset use by creditors, grantors, contributors, or laws or regulations of the other governments or constraints imposed by law through constitutional provisions or enabling legislation. There are restricted assets for debt service and other governmental funds; (3) Unrestricted – consists of all other assets that are not included in the other categories previously mentioned.

Q. Pension Plan:

The implementation of GASB 68 *Accounting and Financial Reporting for Pensions*, GASB Statement No. 71 *Pension Transition for Contributions Made Subsequent to the Measurement Date* (amendment to No. 68), and the most recent PERS actuarial valuation measurement date recognizes net pension liability in the Statement of Net Position. The net pension asset/liability is measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees past periods of service less the amount of the pension plan's fiduciary net position.

R. Deferred Outflows of Resources:

Deferred outflows of resources in the *Statement of Net Position* represents a consumption of net position that is applicable to a future reporting period and will not be recognized as an outflow of resources (expenditures/expense) until then. The deferred outflow of resources is pension contributions made subsequent to the measurement date of the net pension liability/asset which includes changes in assumptions, and difference between actual and projected earnings. Contributions will be recognized as either a reduction to the net pension liability or an increase in the net pension asset.

**JOSEPHINE COUNTY, OREGON**  
**Notes to Financial Statements**  
**June 30, 2021**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):**

S. Deferred Inflows of Resources:

Deferred inflows of resources represent an acquisition of net pension that is applicable to a future reporting period and will not be recognized as an inflow of resources (revenue) until then. In the *Statement of Net Position* this includes resources that are received before the County has met eligibility requirements related to time. For the pension plan, deferred inflows of resources includes the net difference between projected and actual investment earnings and differences between employer pension contributions and the proportionate share of pension contributions. In the governmental fund financial statements, deferred inflows of resources also include revenues that are measurable but not available.

T. Leases:

The implementation of GASB 87 *Leases*, recognized of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract.

U. Adoption of new GASB Pronouncements:

During fiscal year ended June 30, 2021 the County implemented:

- GASB 92 Omnibus 2020
- GASB 93 Replacement of Interbank Offered Rates (no impact)
- GASB 95 Postponement of the Effective Dates of Certain Authoritative Guidance (no impact)
- GASB 97 Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation (no impact)
- GASB 98 The Annual Comprehension Financial Report

The County will be implementing in the next two years:

- GASB 94 Public-Private and Public-Public Partnerships and Availability Payment Arrangements
- GASB 96 Subscription-Based Information Technology Arrangements

V. Change in Accounting Principle:

Fairgrounds, Parks, and Transit Funds were reclassified from Special Revenue Funds to Enterprise Funds because all three funds render services to the public on a user charge basis and are predominately self-supporting funds. These funds were reclassified per board order 2021-006 and were restated July 1, 2020. Governmental activities had a decrease in beginning net position of \$5,467,609 and business-type activities beginning net position had an increase by the same amount. The restated beginning net position for Fairgrounds was \$1,487,231, Parks was \$3,049,282, and Transit was \$931,096. These changes in beginning net position were due to reporting opening balances of capital assets, pension amounts, and compensated absences in the enterprise funds for each of the three funds as required when using the economic resources measurement of focus.

**NOTE 2 – CASH AND INVESTMENTS:**

The County's cash and investments are comprised of the following at June 30, 2021:
