ANTI-FATIGUE MATTING

B. COMFORT FLOW ANTI-FATIGUE MATS THE ANDERSON CO.

Lighter in weight for easier handling. Fully launderable mats that perform great as anti-fatigue mats and as flow-through mats in wet or dry environments. Constructed of 100% high density closed cell nitrile rubber cushion, which is far superior in grease and oil resistance than other "grease-proof" mats. Provides excellent anti-fatigue properties for added employee comfort and improved ergonomics. Low profile, 3/8" thick, and slip-resistant surface reduces slip and fall accidents. Non-skid backing keeps mat in place. Antimicrobial treatment guards against degradation from microorganisms and minimizes mats being a source of odors. Standard sizes: 2' x 3', 3' x 5', 3' x 9' and 4' x 6'.

B. THE ROASTER COMBO ANCHOR PACKAGING

Both dome lid and base are made with microwavable polypropylene. Clear Guard™ internal anti-fog is co-extruded into the lid material, which eliminates the greasy feel found in other lids. Lids are easily secured and will not crack like those made of polystyrene. Leak resistant lid fit eliminates the need to over wrap with film or tape. Double vents allow steam to escape more freely to reduce condensation buildup. Unique stacking feature keeps container secure without blocking the vents in the lid. Revolutionary V-lock™ system prevents moisture from collecting around the flange to eliminate leakage and improve lid fit.
