## RJ

**RJ Module Jack (RJ) is a high-performance miniature duplex data link for opto-electronic communication over single mode or multimode optical fiber.**

- Compliant to 802.3z and 802.3ae Ethernet, InfiniBand, sFPDP, XAUI, FCAV and ARINC 818 FC
- MIL-STD-883 certified
- Digital Diagnostics per MSA SFF-8472
- Surface mount electrical connector with screw or solder posts for high shock/vibe environments

## RCP

**Rugged Chip Scale Pluggable (RCP) is a multi-channel pluggable optical transceiver.**

- The RCP is an electrically pluggable device with four ARINC 801 optical interfaces
- Fiber tray aligns the laser receivers to the cables within the housing
- High-speed data transmission at industrial temperatures

Part Number	Data Rate	Fiber	Wavelength	TX	RX	P. Out Min	P. Out Max.	Rx Sens Max	Link Budget Min.	Operating Temperature Range

## SFF/B

**Small Form Factor and Bi-Directional (SFF/B) is a rugged industry standard form factor with options for duplex or bi-directional functionality.**

- Industry standard MSA 2x5/7 electrical footprint
- Digital Diagnostics per MSA SFF-8472
- Rugged LC connector housing including screw mounted OSAs
- Ethernet, sFPDP, ARINC 818 FC, InfiniBand, PCIe

Part Number	Data Rate	Fiber	Wavelength	TX	RX	P. Out Min	P. Out Max.	Rx Sens Max	Link Budget Min.	Operating Temperature Range

## HYBRID

**Hybrid Assemblies can provide a variety of options when it comes to customizing our COTSWORKS form factors and pluggable transceivers. Contact our sales team to find out more about our custom hybrid assembly options available.**

- Mounted transceiver(s) on rigid or rigid-flex daughter cards or interposer PCB
- Pigtailed fiber cables into optical transceivers
- Full CCA and loop-back testing

# Product Overview

COTSWORKS, INC. designs and manufactures rugged optical components and subsystems to operate in harsh environments. Products are utilized worldwide in commercial and military aerospace, military tactical, oil and gas, and other industrial markets.

Founded in 2006, the company is headquartered in Cleveland, OH supporting the Americas and Asia while COTSWORKS GmbH, located in Fulda Germany, supports Europe and the Middle East.

Over 100,000 mission critical rugged opto-electronic and interconnect products are produced each year in our state-of-the-art manufacturing facility. The company maintains a quality program with ISO 9100:2015 + AS9100D Certification and ATEX compliance.

## Opto-Electronic

All transceivers operate at Industrial Temperature as outlined for MIL-STD-883 or MIL-STD-810-type environments. COTSWORKS' transceivers offer a variety of interfaces enabling pluggable, surface mount, or thru-hole solder attach. Optical interfaces include industry-standard LC, COTSWORKS' unique ruggedized metal LC, ARINC 801, or pigtailed. Standard or custom components meet shock, vibration, temperature, mechanical force, or environmental compliances.

## InterConnect

Rugged fiber cables, with Military or Commercial Aerospace grade termini and connectors, are made to meet industry certifications, supply chain, and manufacturing standards and requirements. All cabling, connectors, termini, and accessories undergo an incoming inspection, manufacturing, assembly, and final testing following standard industry procedures, specifications, and customer requirements. An optical test report with video microscope images and interferometer data is available on request.

## Optical Testing Equipment

COTSWORKS test boards are ideal electrical interfaces for testing, programming, and troubleshooting optical transceivers. Customers can comprehensively measure transceiver functionality through optional clamping hardware, digital diagnostics test points, and extended temperature support. COTSWORKS currently offers test boards for all product platforms with options based on customer applications and requests.

# Optical Testing Equipment

COTSWORKS delivers portable and modular test and networking solutions. Proud partners with Kingfisher and Luciol, we provide a wide range of testing equipment to make inspection, testing, and certifying fiber optics easier.

## OptoCube 10G

The OptoCube is COTSWORKS' new 10G media converter. OptoCube compatibility spans all COTSWORKS 10Gbps transceiver offerings and operates at 10Gbps.

### Features

#### 10G Ethernet Media Converter/Test

- 10G media converter with built in diagnostics
- 10GBASE-X Fiber Interface
- Network switch support
- 2.5/5/10GBase-T copper port speeds
- USB port/ link monitoring & Digital Diagnostics
- Available with SFP+ or RJ transceiver config

## Lightning Stick™

The Lightning Stick is a pocket-sized optical to copper media converter. Its rugged all-metal case makes it secure but also lightweight to make it effective to use both on-site and in a lab.

### Features

#### 1G Ethernet Media Converter/Test

- 100Base & 1000Base-X
- 10/100/1000 Base-T copper port speeds
- Pluggable/embedded fiber & copper cable diagnostics
- Industry standard USB for data and power

## VFL-SFP

SFP with pushbutton control or software control to detect breaks in fiber cables when used with any standard MSA or SFP port, ethernet switches, servers or COTSWORKS Lightning Stick.

### Features

#### Visual Fault Locator Small Form-Factor Pluggable

- 650nm LED transmitter
- Pushbutton control or software control
- Detects breaks in fiber cables
- LC connector
- Operational in any standard SFP port, ethernet switches, servers, and Lightning Stick™

## Complex Cable Assemblies

- Simplex and multi-channel fiber optic cables: OM1, 2, 3, 4, TOS1, 2, & POF
- MIL/AERO connectors: D38999, M28876, GPRB/EPXB, EN4165, Micro D38999, TFOCA
- MIL/AERO termini: M29504/4, /5, /14, /15, ARINC 801, EN4531, Jewel, Expanded Beam
- Commercial Connectors: LC, SC, FC, ST, SMA
- COTSWORKS' LC-R, LC-801, and TAO termini/connectors
- Superior insertion loss and return loss performance
- 100% Endface quality and 100% interferometer measurements
