### Free Sales Literature

Customize and order product literature, build direct mail campaigns, download AD slicks and take advantage of cost-savings for your business by leveraging Honeywell's free sales literature program at [www.literature.honeywell.com](http://www.literature.honeywell.com)

### Customer Service

Honeywell provides toll-free access to product application, installation and support experts.

Customer Service: 1-800-468-1502

TrueSTEAM Hotline: 1-800-814-9452

Zoning Hotline: 1-800-828-8367

Aquatrol Hydronic Hotline: 1-800-318-0815

Wi-Fi/RedLINK Hotline: 1-855-RED-LINK (1-855-733-5465)

### Training

From in the classroom to over the web, Honeywell offers a host of world-class training solutions. Visit [www.forwardthinking.honeywell.com/training](http://www.forwardthinking.honeywell.com/training) to learn more

### Online Tools

Find everything you need to be successful in selling Honeywell products online. Product information, cross-references, demos and more are available at [customer.honeywell.com](http://customer.honeywell.com).

### Rewards

Honeywell's Contractor PRO™ Rewards program gives contractors reward points (\$) back on all Honeywell purchases year round at [contractorpro.com](http://contractorpro.com).

### Exclusive Features and Warranties

Honeywell products feature exclusives you won't find with other brands, like RedLINK™ Wireless Technology as well as the industry's best warranties — up to 5 years.

# Get Totally Connected

## Total Connect Comfort Services

Total Connect Comfort services provides access to remotely monitor and manage residential or light commercial heating and cooling systems - at anytime, from anywhere - through a PC, smart phone or tablet device. And, Total Connect is supported by both Wi-Fi and the exclusive REDLINK™ wireless technology from Honeywell.

Every time your customer visits the Total Connect Comfort web portal, or accesses the app a mobile device, they can:

- View and change your HVAC system settings
- View and set the temperature
- View indoor humidity
- View outdoor temperature and humidity
- Access multiple thermostats if your system is zoned
- Access multiple locations if more than one system is registered

\*Free apps are available for Apple iPhone, iPad and iPod touch devices at time of release. Check [www.totalconnectcomfort.com](http://www.totalconnectcomfort.com) for more mobile applications coming soon

## RedLINK™ Wireless Systems

### Honeywell's RedLINK Technology Makes It Possible

Honeywell engineers built upon their already proven wireless security system technology to create RedLINK – wireless technology designed specifically for HVAC residential and light commercial applications.

Now, Honeywell's exclusive RedLINK Wireless Technology – and our full-suite of wireless-enabled comfort systems – help you better meet your customer's comfort needs and connect you to expanded business opportunities.

- Connects to the Internet
- Eliminates the need to run wires in many applications
- Helps end users stay connected to their home or business whether they're across the street or half way around the world
- Works every time – signal is tested and proven to work through all building materials up to 6500 square feet, making it an excellent solution for light commercial jobs
- Zero interference with other wireless devices
- Internal safeguards continuously self-check the signal so it's never lost

### RedLINK Internet Gateway with Total Connect Comfort Services

- Connects any RedLINK™ Comfort System to the Internet to provide your customers with remote access from their PC, smart phone or tablet\*
- Works with any Prestige IAQ, Prestige, All New VisionPRO, Wireless FocusPRO and EConnect
- Allows users to remotely monitor and control their heating and cooling systems
- No monthly fee, free app download
- View/change system settings and access multiple systems/zones
- Provides alerts via email when temperature or humidity limits are surpassed
- Upgrades automatically as new features become available
- 5-Year Warranty on RedLINK Internet Gateway

RedLINK™ is Reliability.

# RedLINK™ Wireless Products

## Redesigned Prestige® IAQ

- 7-day programmable
- RedLINK technology
- 60% smaller than Prestige 2.0 and available in 4 colors
- Delta T Alerts and Diagnostics inform customers when their system is not operating as expected
- Residential or Light Commercial use
- User Interaction Log provides a searchable history of setting changes
- Assignable outputs for Indoor Air Quality and staging control
- Selectable staging options
- Customizable service reminders
- Up to 4H/2C Heat Pump or 3H/2C Conventional Systems
- Smart Schedule - programs in seconds for any lifestyle
- Works with RedLINK accessories
- 5-Year Limited Warranty

## Prestige® 2.0 Comfort Systems

- Residential or Light Commercial use
- User Interaction Log provides a searchable history of setting changes
- Assignable outputs for Indoor Air Quality and staging control
- Selectable staging options
- Customizable service reminders
- Up to 3H/2C Heat Pump or 2H/2C Conventional Systems
- Smart Schedule - programs in seconds for any lifestyle
- Works with RedLINK accessories
- 5-Year Limited Warranty

## The All-New VisionPRO® 8000

- Works with RedLINK accessories
- Residential or Light Commercial use
- Micro SD port for quick installer setup
- Plain language setup, no manual needed
- On screen dealer information
- Smart Schedule - programs in seconds for any lifestyle
- Dual powered - battery or hard wired
- Up to 3 Heat/2 Cool Heat Pump\* or Up to 2 Heat/2 Cool Conventional\*
- Up to 4 Heat/2 Cool Heat Pump or Up to 3 Heat/ 2 Cool Conventional when used with the Equipment Interface Module
- 5-Year Limited Warranty

## Wireless FocusPRO® Systems

- Connects to the Internet when used with RedLINK Internet Gateway
- Wireless communication with to Equipment Interface Module
- Relocate a thermostat or upgrade equipment without running new wires
- RedLINK-enabled to work with the Portable Comfort Control and Wireless Outdoor Sensor
- Displays outdoor temperature and humidity
- Up to 3H/2C heat pump or up to 2H/2C conventional

## EConnect™ Wireless Comfort Control System

- RedLINK™-enabled wireless thermostat for electric heat
- Brings control from the floor to the wall for optimal sensing and comfort
- Compatible with baseboards, convectors, and fan-forced heaters
- Equipment Interface Module powered with existing wires at the heating device
- One thermostat controls up to eight baseboards in a single room
- Works with Portable Comfort Control and Wireless Outdoor Air Sensor
- 3-Year Limited Warranty

## Wireless TrueSTEAM™

- Honeywell's innovative TrueSTEAM™ humidifiers are now RedLINK-enabled
- Add a Wireless Adapter to TrueSTEAM to communicate and control humidity from the Redesigned Prestige IAQ, Prestige 2.0 or All-New VisionPRO without running wires to the living space
- Communicates with the Wireless Outdoor Sensor to automatically control humidity to proper levels
- 5-Year Limited Warranty

## Wireless Zoning Systems

- TrueZONE® HZ432 or HZ322 panels are RedLINK-enabled
- Add a Wireless Adapter to communicate to a Wireless FocusPRO Prestige IAQ, Prestige 2.0 or All-New VisionPRO without running wires
- Works with the Portable Comfort Control to conveniently control every zone from one device
- Works with the Wireless Outdoor Air Sensor to display outdoor temperature and humidity on all RedLINK-enabled devices
- 5-Year Limited Warranty

# RedLINK™ Accessories

Connect to more sales with accessories. RedLINK accessories give homeowners the option of customizing their RedLINK Wireless Comfort System to achieve their control, comfort and convenience needs. With installation that requires no more than a few minutes and the touch of a button, RedLINK offers you the opportunity to increase profitability through add-on sales.

## RedLINK Internet Gateway

THM6000R1002

- Connects any RedLINK™ Comfort System to the Internet to provide your customers with remote access from their PC, smart phone or tablet
- No monthly fee, free app download
- Works with any Prestige IAQ /Prestige, All-New VisionPRO, Wireless FocusPRO and EConnect™
- View/change system settings and access multiple systems/zones
- Allows users to remotely monitor and control their heating and cooling systems, including humidification and dehumidification – at anytime, from anywhere
- Provides over 90 alerts through the Total Connect Comfort website
- Upgrades automatically as new features become available

## Wireless Indoor Air Sensor

C7189R1004

- Works with the Redesigned Prestige IAQ, Prestige 2.0 and All-New VisionPRO
- Manages temperature and humidity separately
- Changes the sensing location of the thermostat
- Averages temperature for more even comfort control
- Humidifies and dehumidifies separate spaces
- Use up to six sensors per thermostat

## Wireless Outdoor Air Sensor

C7089R1013

- Installs wirelessly with two simple screws and a touch of a button
- Displays outdoor temperature and humidity on all RedLINK-enabled devices
- Weather-resistant cover and lithium batteries for reliable performance in every climate
- Up to a 5 year battery life

## Portable Comfort Control

REM5000R1001

- Conveniently control temperature from any room
- Works with all RedLINK thermostats
- Displays outdoor temperature and humidity when used with a Wireless Outdoor Air Sensor
- With zoning - change the temperature in any zone from one device
- Can be paged with an audible noise from any RedLINK-enabled thermostat

## Return/Discharge Air Temperature Sensor

C7735A1000

- Works with Redesigned Prestige IAQ, All-New VisionPRO and Wireless FocusPRO
- Provides Delta T alerts and diagnostics when used with Redesigned Prestige IAQ
- Return Air Sensor and Equipment Interface Module provides backup control of non-zoned RedLINK wireless systems
- Prevents icing on the air conditioning A-coil by burning off the compressor when the A-Coil low cutoff limit is reached on the Redesigned Prestige IAQ and All-New VisionPRO
- Allows the Redesigned Prestige IAQ and All-New VisionPRO to control humidification in the cool mode for desert climates

## Equipment Interface Module

THM5421R1021

- Control heating, cooling and IAQ equipment with only 2 wires at the thermostat
- Heating, cooling and IAQ equipment wires to the Equipment Interface Module
- Used with the Redesigned Prestige IAQ and the All-New VisionPRO
- Vertical mounting
- Hardwired with screw terminals
- Up to 4H/2C Heat Pump or up to 3H/2C Conventional

## EIM with Return/Discharge Air Temperature Sensors

YTHM5421R1010

- Control heating, cooling and IAQ equipment with only 2 wires at the thermostat. Heating, cooling and IAQ equipment wires to the Equipment Interface Module
- Includes THM5421R1021 Equipment Interface Module and two C7735A1000 Duct Sensors
- Used with the Redesigned Prestige IAQ
- Hardwired with screw terminals
- Up to 4H/2C Heat Pump or up to 3H/2C Conventional

## Equipment Interface Module

THM5320R1000

- Easily relocate thermostat or upgrade equipment without running new wires using this module and a wireless FocusPRO® thermostat
- Powered by RedLINK™ reliability
- No interference with other wireless devices in the home
- Works with TH6320R1004 or TH5320R1002 Wireless FocusPRO® thermostats
- Up to 3 Heat/2 Cool Heat Pump or Up to 2 Heat/2 Cool Conventional
- Input for Return Air Sensor
- Quick-connect terminal blocks

## Wireless Adapter

THM4000R1000

- Wireless Adapters allows easy addition of RedLINK™ enabled thermostats to TrueZONE™ systems.
- Add wireless humidity control with RedLINK-enabled TrueSTEAM. Works with Redesigned Prestige IAQ, Prestige 2.0 and the All-New VisionPRO

## Wireless Entry/Exit Remote

REM1000R1003

- Works with the Redesigned Prestige IAQ, Prestige 2.0 and All-New VisionPRO
- Easily setback and recover thermostat control from anywhere in the home or building
- Ideal for managing your comfort and energy consumption especially with inconsistent schedules
- Interchangeable commercial / residential cover plates included
- One (1) Entry/Exit Remote can control up to sixteen (16) thermostats
- Each Redesigned Prestige IAQ, Prestige 2.0 or All-New VisionPRO thermostat can be linked to up to three (3) Entry/Exit Remotes

## Wireless Vent and Filter Remote

HVC20A1000

- Works with the Redesigned Prestige IAQ, Prestige 2.0 and All-New VisionPRO
- Locate wireless boost remotes anywhere in the home where added ventilation is needed such as bathrooms, kitchens, basements or laundry rooms
- One-touch 20-40-60 minute ventilation and filtration boosts
- Up to six (6) Vent and Filter Boost Remotes can be connected to each RedLINK system
- Use as a clean air filter boost with or without a ventilator

# Programmable Thermostats

Honeywell programmable thermostats are the #1 choice of consumers. Consumers appreciate the ease-of-use, energy savings and the ability to remotely monitor and control their system settings over the Internet. Contractors appreciate the reliability, easy installation and universal compatibility.

## Redesigned Prestige® IAQ

- 60% smaller than the original Prestige and available in 4 colors
- Connects to the internet when used with RedLINK Internet Gateway
- Selectable for Residential or Light Commercial applications
- Delta T Alerts and Diagnostics
- Performance log keeps a history of Delta T and Runtime to indicate heating and cooling performance
- User Interaction Log provides a searchable history of setting changes
- Assignable outputs and inputs
- Smart Schedule-programs in seconds for any lifestyle
- Up to 4 Heat/2 Cool Heat Pump or Up to 3 Heat/2 Cool Conventional
- 5-Year Limited Warranty

## Prestige® 2.0

- Connects to the internet when used with RedLINK Internet Gateway
- Selectable for Residential or Light Commercial applications
- User Interaction Log provides a searchable history of setting changes
- Assignable outputs
- Smart Schedule-programs in seconds for any lifestyle
- Up to 3 heat/2 cool heat pump or 2H/2c conventional
- 5-Year Limited Warranty

## All-New VisionPRO® 8000

### Touchscreen 7-Day Programmable Thermostat with Message Center

- Works with RedLINK accessories
- Residential or Light Commercial use
- Micro SD port for quick installer setup
- Plain language setup, no manual needed
- On screen dealer information
- Smart Schedule - programs in seconds for any lifestyle
- Dual powered - battery or hard wired
- Up to 3 Heat/2 Cool Heat Pump\* or Up to 2 Heat/2 Cool Conventional\*
- Up to 4 Heat/2 Cool Heat Pump or Up to 3 Heat/ 2 Cool Conventional when used with the Equipment Interface Module
- 5-Year Limited Warranty

## Wi-Fi VisionPRO®

### 7-day Programmable

- Remote access to the thermostat through a smart phone, tablet or computer
- Up to 3 Heat/2 Cool Heat Pump or 2 Heat/2 Cool Conventional
- Dual Fuel Control with wired Outdoor Air Sensor
- Large 10-square-inch touchscreen display
- Requires common (C) wire
- 5-Year Limited Warranty

## VisionPRO® IAQ

### Total Home Comfort System

- Easy to upgrade to Multistage Equipment with only three wires
- Add Indoor Air Quality enhancements without the wall clutter
- Advanced dual fuel built-in
- Up to 4H/2C heat pump and up to 3H/2C conventional
- Smart change/check reminders
- 5-Year Limited Warranty

## VisionPRO® 8000

### Touchscreen 7-Day Programmable

- Effortless, menu-driven programming
- Up to 3H/2C heat pump and up to 2H/2C conventional
- Real-time clock – automatically updates for daylight savings
- Large 10-square-inch touchscreen display
- 5-Year Limited Warranty

## Wi-Fi FocusPRO®

### 7-day Programmable

- Remote access to the thermostat through a smart phone, tablet or computer
- Up to 3 Heat/2 Cool Heat Pump and 2 Heat/2 Cool Conventional
- Large, clear backlit digital display
- 5-Year Limited Warranty

## FocusPRO® 6000

### 5-1-1 Day Programmable

- Wireless option connects to the Internet
- Simplified programming and operation with built-in instructions
- Easy-access battery replacement
- Largest backlit display in its class
- Up to 3H/2C heat pump and up to 2H/2C conventional
- Dual-powered (battery and hardware)
- 5-Year Limited Warranty

## EConnect™ Wireless Comfort Control System

- RedLINK™-enabled wireless thermostat for electric heat
- Connects to the Internet
- Brings control from the floor to the wall for optimal sensing and comfort
- Compatible with baseboards, convectors, and fan-forced heaters
- EIM powered with existing wires at the heating device
- One thermostat controls up to eight baseboards in a single room
- 3-Year Limited Warranty

## PRO 4000

### 5-2 Day Programmable

- Built-in instructions
- Easy-to-read backlit, digital display
- Models available for 2H/1C heat pumps and 1H/1C applications
- Dual-powered (battery and hardware)
- 5-Year Limited Warranty

## PRO 2000

### 5-2 Day Programmable

- Horizontal and vertical options available
- Budget price
- Basic operation
- Models available for 2H/1C heat pumps and 1H/1C applications
- 2-Year Limited Warranty

# Non-Programmable Thermostats

Honeywell thermostats give you one brand for every application, every budget and every customer. For customers who prefer manually-controlled settings, Honeywell's full-line of non-programmable thermostats are not only easy to use, but also deliver the reliable, consistent comfort control that is synonymous with the Honeywell name.

When selecting a non-programmable thermostat for your next job, look for these Honeywell features:

- Universal Application
- Large, Backlit, Digital Displays
- Easy-Access Battery Replacement\*
- FREE Private Labeling\*
- Precise Temperature Control (+/- 1° F)
- RedLINK™ Wireless Technology\*

\* Internet compatibility

# FocusPRO® 5000

- Easy-access battery replacement
- Largest display in its class
- Up to 3H/2C heat pump and up to 2H/2C conventional
- Dual-powered (battery and/or hardwire)
- RedLINK™ wireless enabled model available
- 5-Year Limited Warranty

# PRO 3000

- Easy-to-read backlit, digital display
- Models available for 2H/1C heat pumps and 1H/1C applications
- Dual-powered (battery and /or hardwire)
- 5-Year Limited Warranty

# PRO 1000

- Horizontal and vertical options available
- Budget price
- Basic operation
- Models available for 2H/1C heat pumps and 1H/1C applications
- Heat Only model available
- 2-Year Limited Warranty

# The Digital Round™

- Digital display
- One-touch backlight
- Familiar twist-to-set operation
- Available in Heat/Cool and Heat Only models
- 5-Year Limited Warranty

# The Round™

- World's most-popular thermostat
- Available in Heat/Cool and Heat Only models
- Now mercury-free
- 5-Year Limited Warranty

# Linevolt and Electromechanical

- Full line of non-programmable Linevolt and electromechanical thermostats

Home Comfort Solutions

# Light Commercial

## Programmable Thermostats For Light Commercial Applications

Many of the features that make Honeywell thermostats popular with residential customers — easy-to-understand programming, precision control, attractive style and more — are also key elements in Honeywell light commercial thermostats. Honeywell then adds in energy-saving features designed exclusively for commercial applications and to meet commercial building codes. For a wide range of commercial markets, the ideal thermostat choice is Honeywell.

### After-Hours Control In Office Buildings

- The Override button can be configured for 1, 2, 3 or 4 hours and for an exact override setpoint using the lockout level and temperature range stop setups. A user may override to an exact setpoint or be given a setpoint range to choose from.
- Provides comfort during after-hours occupancy while maintaining energy savings after the tenant leaves the building.

### Schools – Individual Zone Control

- Cancel Period button allows thermostat to remain in permanent unoccupied mode to provide energy savings for school classrooms not being used.
- Teachers wanting to use a classroom press the Override button and the thermostat enters the occupied period to provide the necessary comfort.
- The Override button can be configured for 1, 2, 3 or 4 hours and for an exact override setpoint using the lockout level and temperature range stop setups. A user may override to an exact setpoint or be given a setpoint range to choose from.
- During long holidays or summer vacation, programming using the Holiday button provides the greatest amount of energy savings.

### Restaurant/Food Service Control

- Honeywell's Commercial Algorithm provides the best comfort control to react to the challenging environments of food service and restaurant environments. The commercial algorithm is tuned to provide the tightest comfort control and react quickly to changing load demands via fast-sensing time constants.
- Economizer function allows restaurants to meet the appropriate ventilation requirements and is also important to balance the air intake of the restaurant. Restaurants that are not properly balanced do not achieve good comfort control as they draw in unconditioned air.
- Remote sensing configuration options allow the use of commercial 10K ohm and 20K ohm sensors to provide any remote sensing combination (1 to 9+ sensors) to create an averaging network.

### Condominiums/Hotels

- Honeywell's MultiPRO™ thermostat uses the patent pending VersaSpeed™ fan ramping algorithm to give multiunit facilities such as hotels, condos, dorms and retirement facilities more control and additional savings through the elimination of unnecessary energy use.
- The fan coil and PTAC applications on the MultiPRO™ make it a perfect thermostat for hotels or condominiums. (See our SuitePRO™ thermostat, too.)

Product	OS Number
Redesigned Prestige IAQ	YTHX9421R5085 or YTHX9421R5101
All-New VisionPRO 8000	TH8110R1008, TH8320R1003 or TH8321R1001
Commercial VisionPRO 8000	TB8220U1003
CommercialPRO 7000	TB7220U1012

# Redesigned Prestige IAQ<sup>®</sup>

## Programmable Touchscreen Thermostat with RedLINK<sup>™</sup>

- 60% smaller than the original Prestige and available in 4 colors
- Connects to the internet when used with RedLINK Internet Gateway
- Selectable for Residential or Light Commercial applications
- Delta T Alerts and Diagnostics
- Assignable outputs and inputs
- Performance log keeps a history of Delta T and Runtime to indicate heating and cooling performance
- User Interaction Log provides a searchable history of setting changes
- Smart Schedule-programs in seconds for any lifestyle
- Up to 4 Heat/2 Cool Heat Pump or Up to 3 Heat/2 Cool Conventional
- 5-Year Limited Warranty

# All New VisionPRO<sup>®</sup>

## Programmable Touchscreen Thermostat with RedLINK

- Connects to the internet when used with RedLINK Internet Gateway
- Selectable for Residential or Light Commercial applications
- User Interaction Log provides a searchable history of setting changes
- Assignable outputs
- Smart Schedule-programs in seconds for any lifestyle
- Up to 3 heat/2 cool heat pump or 2H/2C conventional
- 5-Year Limited Warranty

# Commercial VisionPRO 8000

## Programmable Touchscreen Thermostat

- 7-day programmable or non-programmable
- Controls conventional or heat pump systems
- Title 24 compliant
- Economizer/time of day relay
- Multiple-screen lockout levels
- Easy-to-use, menu-driven programming
- Holiday setback and temporary override
- Up to 2H/2C Conventional or 3H/2C Heat Pump
- Commercial algorithms and configurable recovery ramps

# CommercialPRO<sup>®</sup> 7000

## Programmable Thermostat

- 7-day programmable or non-programmable
- Large easy-to-read display
- Controls conventional or heat pump systems
- Title 24 compliant
- Economizer/time of day relay
- Multiple-screen lockout levels
- Easy-to-use, menu-driven programming
- Holiday setback and temporary override
- Up to 2H/2C Conventional or 3H/2C Conventional
- Commercial algorithms and configurable recovery ramps

# MultiPRO<sup>™</sup> 7000

## Multi-Speed And Multipurpose Thermostat

- 7-day programmable or non-programmable
- Large easy-to-read display
- Controls conventional, heat pump systems, fan coil and PTAC systems
- Multiple fan speeds for fan coil and PTAC systems
- VeraSpeed<sup>™</sup> fan ramp algorithm for fan control
- Auto fan rest
- 1H/1C Conventional, 2H/1C Heat Pump or 2H/1C PTAC Systems and 2 or 4-pipe Fan Coil
- Remote setback inputs

Home Comfort Solutions

# Zoning Systems

Honeywell developed its first residential temperature zoning systems in 1945. Since then, the market for individual room temperature control has continued to grow, and so has Honeywell's leadership position in the category. For applications from 2 zones to 32 zones, and for products from panels and dampers to complete system kits, Honeywell is your single-source solution for zoning.

When selecting a Zoning System for your next job, look for these Honeywell features:

- Standardized Checkout Procedure
- Robust Push Terminals
- Common-Sense LEDs
- Universal Application
- Clean, Professional Installation
- Smaller Footprint
- Variable-Speed Fan Control
- Discharge Temperature (DATS) Staging
- Advanced Dual-Fuel Operation
- Select Models Enabled with RedLINK™ Wireless Technology
- 5-Year Limited Warranty

## HZ432

### TrueZONE® Panel

- Works with virtually any equipment brand of conventional, heat pump or dual fuel up to 3H/2C
- Up to 4 zones wired or wireless (expandable up to 32 zones wired with addition of TAZ-4 panels)
- Illuminated LEDs visually verify heat/cool and stage of equipment
- Easy-to-read digital display guides installer through patented system setup and checkout program
- RedLINK™ wireless-enabled

## HZ322

### TrueZONE® Panel

- Controls single-stage, multi-stage conventional and heat pump equipment up to 2H/2C.
- Controls up to three zones
- Intuitive installer setup — easy-to-follow, digital display uses real language to guide installer through four easy steps
- Common-sense LEDs
- RedLINK™ wireless-enabled

## HZ311

### TrueZONE® Panel

- Controls single-stage, conventional equipment
- Controls up to three zones
- Use virtually any four-wire thermostat

## HZ221 Panel

### TrueZONE® Panel

- Controls heat pumps with auxiliary back up heat
- Controls two zones
- Use with heat pump thermostats
- Common-Sense LEDs
- Variable-Speed Fan Control

## ZD, ARD, RRD - Zone Dampers

- Wide variety of round and rectangular sizes
- Rugged gear construction and riveted for extra strength
- Built with a gasket to ensure a proper damper seal
- Adjustable minimum and maximum position stops

## CPRD TrueZONE Bypass Damper

- Innovative Dial Set Pressure Control
- Installs any orientation
- Provides consistent pressure control regardless of blower speed
- Designed for easy installation with no external moving part

# Whole-House Air Cleaners

Honeywell introduced its first Electronic Air Cleaner 50 years ago — and our history of performance and reliability have made us the preferred consumer brand ever since. Our complete portfolio of air cleaning solutions includes Electronically-Enhanced Media Air Cleaners, High-Efficiency Electronic Air Cleaners, Media Air Cleaners, Return Grille Media and Media Replacement Filters. Honeywell's complete line of Filtration Solutions allows you to customize your offering to meet your customer's needs.

When selecting an Air Cleaning solution for your next job, look for these Honeywell features:

- Advanced 3-Step Filtration Technology\*
- Easy to Maintain
- Universal Application
- Both Washable and Replaceable Filtration Solutions
- Sizes Designed to Fit Any Application
- Customizable Labels
- Quiet Operation
- 5-Year Limited Warranty

\* Select models only.

# TrueCLEAN™

## Enhanced Whole-House Air Cleaners

- Best of media and electronic
- Advanced 3-step filtration technology that charges, captures and destroys particles
- MERV 15 efficiency rating
- Easy maintenance and quiet operation for reduced callbacks
- Trade-only replacement filters for recurring replacement revenue
- 5-Year Limited Warranty

## F300

### Whole-House Electronic Air Cleaner

- Self-regulating power supply maintains high efficiency as the air cleaner loads
- Washable filter for the lowest annual cost of operation.
- MERV equivalent 12 to 15\* efficiency rating
- Optional anti-microbial postfilter to increase efficiency and provide replacement opportunity
- Also available in a Return Grille Model (F52)
- 5-Year Limited Warranty

## F200

### Whole-House Media Air Cleaner

- Captures up to two times more of the smallest airborne particles passing through the filter than the F100 Media Air Cleaner
- Pressure sensor in door indicates pressure drop and transmits to wireless receiver
- MERV 13 efficiency rating
- 5-Year Limited Warranty

## F100

### Whole-House Media Air Cleaner

- Up to 14 times more effective than a standard one-inch filter, capturing up to 96% of airborne particles\*
- Lasts up to four times longer than a standard one-inch furnace filter. Replace every 6-12 months versus monthly or quarterly changes.
- Six space-saving sizes to fit any application
- Merv 11 efficiency rating
- 5-Year Limited Warranty

## FC40R and FC20R

### Return Grille Media Air Filters

- MERV 8 (FC20R) and MERV 10 (FC40R) efficiency ratings
- Captures up to 37 times more airborne particles passing through the filter than a standard 1" filter
- 18 sizes to fit most return grille applications
- Provides four inches of filtration in a one-inch grille, with three times the life of a standard one-inch filter
- Limited Warranty

## Replacement Filters

- Both cartridge and PopUP™ collapsible models
- High-efficiency and low pressure drop solutions
- Sizes that fit Honeywell and competitive units
- MERV 11 (PopUP filter) efficiency rating

\* Based on a third-party testing.

## Here's How They Work:

**TrueCLEAN Enhanced Air Cleaners** use an advanced 3-step filtration technology to deliver cleaner air by taking a high-airflow media filter and enhancing it with electronic technology. The result is a MERV 15\* efficiency that actually improves over time.

Charge. Capture. Destroy. That's the basis of the three-step process that TrueCLEAN uses to capture and deactivate up to 99%\*\* of airborne particles and contaminants passing through the system. Here's how it works.

### Step 1: Charge

Particles enter the TrueCLEAN system through an array of ionizing points, where they become electrically charged. The unique design charges all particles evenly.

### Step 2: Capture

Next, particles travel into the media filter, where they're captured in the media fibers. A continuous charge ensures dirt is loaded 360 degrees around the filter fibers — not just on the face of the filter. This process captures more particles than a standard media filter and helps the filter last longer.

### STEP 1

### STEPS 2 & 3

### Step 3: Destroy

Once particles are captured, the charging strips on opposite sides of the carbon-tipped media filter continue to charge and deactivate particles. Particles are trapped and destroyed inside the filter, with deactivation rates of captured particles exceeding 99%\*\*.

\*Full ASHRAE testing performed at 492 FPM. ASHRAE 52.2 test of 3.0 to 10.0 micron particles performed at 492 FPM.

\*\*99% deactivation rate of captured particles passing through the system only when air cleaner is powered and system fan is running. Testing performed at third party labs on certain virus and bacteria applied to filter disks and then exposed to an electric field. Tested virus show a reduction of virus numbers of greater than 99% by 8 hours of exposure. Tested bacteria show a reduction of bacteria numbers of greater than 99% by 24 hours. Organisms tested: human and avian influenza virus, human cold virus surrogate, and others.

\*\*\*Full ASHRAE testing performed at 295 FPM. ASHRAE 52.2 test of 3.0 to 10.0 micron particles performed at 295 FPM.

**Media Filters**, which filter the air using webs of polypropylene fibers. Honeywell offers several media air cleaners and replacement filters, including space and time saving products like the PopUP™ media replacement filter.

**Electronic Air Cleaners**, which electrically charge and collect airborne particles on a collection grid. The Honeywell F300 EAC captures up to 98%\*\*\* of airborne particles passing through the product. The design of the F300's collection grid section offers the most surface area available for collecting these charged particles. The F300 power supply also increases voltage based on the amount of particles collected on these plates, so that efficiency over time stays high; an important aspect in EAC selection.

# Replacement Filter Selection Guide

Honeywell replacement filters come in a wide variety of sizes and styles to fit nearly every application. For long-lasting, high-efficiency performance that doesn't compromise airflow, advise your customers to stick with quality Honeywell filters.

## What is MERV?

At its most basic, MERV (Minimum Efficiency Reporting Value) is a measure of filter efficiency. The MERV value takes information on the efficiency of the filter against a range of particles from coarse (such as pollens) to fine (such as smoke), then boils it down into one easy-to-understand number. The MERV number can be used to compare filters made by different manufacturers as long as testing conditions, such as air speed, are the same.

Filter Category	Airborne Contaminants Targeted*	Equipment Protection	Air Treatment Level
MERV 1 to 4 Coarse fiber filter	Pollen Airborne dust mite debris Carpet and clothing fibers	Minimal	–
MERV 5 to 8 Standard household filter	The above plus: Mold Plant Spores	Basic	Basic
MERV 9 to 12 Premiere household filter	The above plus: Auto emissions Airborne lead dust Airborne coal dust	Better	Improved
MERV 13 to 16 Hospital grade	The above plus: Certain bacteria Tobacco smoke Sneeze particles Cooking oil	Varies**	Superior

\* From Cross-Reference and Application Guidelines (Table E-1, ASHRAE Standard 52.2).

\*\*Higher efficiency filters can restrict airflow more than basic filters. Honeywell TrueCLEAN offers superior air treatment with good air flow.

# Whole-House Humidifiers

Honeywell offers an extensive line of Whole-House Humidifiers, including steam, fan-powered and evaporative pad models, as well as quality service replacement parts and replacement pads.

When selecting a Whole-House Humidifier for your next job, look for these Honeywell features:

- Clean, Professional Installation
- Water and Energy Savings\*
- Quiet Operation
- Simplified Wiring\*
- Common-Sense User Interface\*
- Easy Maintenance
- Enabled with RedLINK Wireless technology\*
- Algon™ Anti-Microbial Pads\*
- Private Labeling
- Quick-Connect Plumbing\*
- PerfectFLO™ Water Distribution\*
- 5-Year Limited Warranty

\* Select models only.

---

## Replacement Parts

- In-line scale and sediment water filter — requires no compression fittings to plumb inline
- AgION™ anti-microbial pads — prohibits growth of mold, bacteria and algae  
- Sizes that fit both Honeywell and competitive models
- Reverse Osmosis Filtration System — removes dissolved minerals in an advanced staged filtration process resulting in softened water.

# TrueSTEAM™

## Humidification System

- Highest ratio of humidity output to water efficiency
- Available in three sizes to fit nearly every application
- 1:1 humidification delivery rate — operates independent of HVAC equipment
- Mounts in minutes — requires minimal cutting and mounts on separate light weight bracket
- Application flexibility — can be remotely mounted up to 20 feet from system
- Eco-friendly — uses up to 70% less water than flow-through designs
- RedLINK™-enabled for wireless control via Prestige®
- 5-Year Limited Warranty

# HE300

## TrueEASE™ Advanced Fan-Powered Humidifier

- Up to 50% water savings (up to 10,000 gallons per year saved)
- Quietest residential fan humidifier on the market (more than 20 dB quieter than competitive residential fan humidifiers)
- Fast installation for labor and time savings
- Up to 18 gallons per day
- Common sense interface
- User-friendly pad access from the front of the unit
- Quick connect plumbing
- 5-Year Limited Warranty

# HE100 and HE200 Series

## TrueEASE™ Basic Bypass Humidifiers

- Fast installation via external mounting screws and interchangeable bypass for labor and time savings
- User Friendly Pad Access
- 12 or 17 gallons per day
- Familiar footprint
- Quick connect plumbing
- PerfectFLO Water Distribution tray
- 5-Year Limited Warranty

# HE150 and HE250 Series

## TrueEASE™ Advanced Bypass Humidifiers

- Same features as HE100/HE200 plus,
- Up to 30% water savings (up to 5,500 gallons per year saved)
- Powered damper that opens and close on call for humidity for energy savings
- Common sense LED based user interface
- 5-Year Limited Warranty

# TrueIAQ®

## Indoor Air Quality Control

- Intuitive digital display
- Integrated IAQ equipment control that manages humidification, dehumidification, ventilation and bathroom fans from a central point in your home
- Advanced temperature and humidity sensing — simultaneously displays both indoor and outdoor temperature and humidity levels on-screen; automatically adjusts indoor comfort based on outdoor conditions
- Part number: DG115EZIAQ
- 5-Year Limited Warranty

# Whole-House Dehumidifiers

Honeywell's TrueDRY™ Dehumidifiers remove the latent heat (moisture) from air to increase comfort and safeguard the home. They also help the home's air conditioner run more efficiently. With integrated Fresh Air Ventilation options and high-performance air filtration, Honeywell dehumidifiers perform multiple functions in a compact enclosure and are easy to install in ducted or un-ducted applications.

When selecting a Whole-House Dehumidifier for your next job, look for these Honeywell features:

- R-410A Refrigerant
- Energy Efficient High-Capacity Moisture Removal
- Built-in Ventilation Port
- MERV 11 Air Filtration
- Internal Humidity/Ventilation Control
- 5-Year Warranty

# Energy Savings

Humidity can cause the air temperature inside the home to feel warmer than the actual temperature. If the relative humidity within the home is 70% and the actual temperature is 75° F, the air will feel like 77°. With a whole-house dehumidifier, you can lower the indoor relative humidity to 40% to 60% where the indoor temperature will be 75° and feel like 75°. The home will feel cooler but there is no need to lower the actual temperature within the home.

## Dehumidifier Selection Guide

		OS#	Specifications					Control Options	Features				Service-Contract Parts			Cross-Reference

# Ultraviolet Treatment Systems

UV irradiation has been used by hospitals and restaurants for years to help disinfect and prevent the spread of germs. Honeywell helps you serve the growing homeowner market with easy-to-install, long-lasting ultraviolet Air (return) and Surface (coil) treatment systems that not only improve the indoor air quality, but can also increase equipment operation and efficiency.

When choosing a UV Treatment System for your next job, look for these Honeywell features:

- Fastest Installation and Replacement Time Available
- Patented SmartLamp™ Technology
- Built-in Brownout Protection
- Extended Lamp Life
- Safety Sealed Design With Multiple Interlocks
- SnapLamp™ Low-Cost Replacement Bulbs
- 5-Year Limited Warranty

## Ultraviolet Air (Return) Treatment Systems

- Kill up to 87% of certain airborne bacteria\* passing by the system
- Available in single-and dual-lamp models
- Optional SmartLamp™ Technology extends bulb run time and offers LED indication for bulb replacement
- VisionPRO IAQ integrates SmartLamp units into the system, sending messages to the homeowner on the screen of their thermostat
- 5-Year Limited Warranty

## Ultraviolet Surface (Coil) Treatment Systems

- Eliminate up to 99.9%\*\* of mold spores on cooling coils
- Optional SmartLamp™ Technology extends bulb run time and offers LED indication for bulb replacement
- Sealed design with safety interlocks
- VisionPRO IAQ integrates SmartLamp units into the system, sending messages to the homeowner on the screen of their thermostat
- 5-Year Limited Warranty

## SnapLamp™ Replacement Bulb

- Economic lamp replacement solution with separate bulb/handle assembly
- Easiest replacement in the industry

\* Test performed shows a single pass kill rate of *Serratia marcescens* bacteria in a clean metal 12" x 25" duct at an airflow of 2,000 CFM using new lamps. Higher kill rates expected in smaller, lower speed models.

\*\* Test performed in a test duct showed a 3-log (99.9%) reduction in colony-forming *Aspergillus niger* mold spores when surface was irradiated at a distance of 18" for three hours in still air using new lamps.

# Whole-House Ventilation Systems

Honeywell offers a variety of energy-efficient Whole-House Ventilation System solutions for both new construction and retrofit applications. From Heat and Energy Recovery Ventilation to Fresh Air Supply Ventilation — meet all of your ventilation needs with Honeywell.

When choosing a Ventilation System for your next job, look for these Honeywell features:

- Removeable Duct Collars, Simplified Balancing and Adjustable Hanging Straps Ease Installation\*
- Intuitive Balancing for HRVs and ERVs
- Simple Setup to Meet ASHRAE Ventilation Standards 62.2
- Can be Controlled with Prestige® IAQ Total Home Comfort System
- Streamlined, Lightweight Design
- Private Labeling
- 5-Year Limited Warranty

\* Select models only.

# TrueFRESH™ Balanced Ventilation Systems

## Energy Recovery Ventilators (ERV)

- Balanced ventilation with sensible and latent heat recovery
- Removable duct collars for simplified ducting
- Intuitive balancing via two variable speed motors and an integrated speed control
- Simplified hanging via adjustable straps
- Compact and light weight design
- Washable ERV core
- Tested for cold weather (down to 5°F/-15°C)
- Automatic defrost
- 5-Year Limited Warranty

# TrueFRESH™ Balanced Ventilation Systems

## Heat Recovery Ventilators (HRV)

- Balanced ventilation with sensible heat recovery
- Removable duct collars for simplified ducting
- Intuitive balancing via two variable speed motors and an integrated speed control
- Simplified hanging via adjustable straps
- Compact and light weight design
- Great for extreme cold weather
- Automatic defrost
- 5-Year Limited Warranty

# Fresh Air Ventilation System

- Economical approach to fresh air ventilation
- Simple, flexible control helps meet local ventilation codes and ASHRAE standards
- Easy to wire and troubleshoot
- Customize ventilation rates for every home environment
- 5-Year Limited Warranty

# Digital Bath Fan Control

- An easy and inexpensive way to meet ASHRAE 62.2 standards
- Backlit clock display
- Comes in two colors, Empire White and Bisuit
- Easy-to-install
- Simple programming
- Convenient display
- 5-Year Limited Warranty

Help homeowners understand their options for the best balance of energy savings and ventilation control.

**Honeywell TrueFRESH Energy Recovery Ventilators (ERV) and Heat Recovery Ventilators (HRV)** provide fresh replacement air while recovering up to 70% of the exhausted air's sensible heat, as well as some of the latent heat, by transferring moisture from one air stream to the other. The system draws fresh outdoor air through the ventilator for distribution throughout the house. Stale air is exhausted outside through the ventilator. Heat is transferred from one air stream to the other as the air passes through the opposite sides of the heat transfer core. ERV systems provide the added benefit of reducing the amount of humidity from the incoming air making ERVs a great choice for humid southern climates. HRV and ERV models also offer automatic defrost for colder climates.

**Y8150 Fresh Air Ventilation Systems** provide an economical way to work with the existing system fan to deliver outside air to the home, meeting the ASHRAE 62 standard. Intuitive, 'set it and forget it' programming keeps your customers from adjusting the controls, helping to reduce callbacks. With an overall low total installed cost, it is easy to wire in any orientation, requiring only the included damper, transformer and control.

## Honeywell Ventilation Controls

### Redesigned Prestige IAQ

Provide ventilation control from a single device, effortless programming and a wide range of comfort and energy saving features.

### Digital Bath Fan Control

An economical — and aesthetically pleasing — way to meet ASHRAE Standard 62.2 with any single-speed bath fan, the control has four program setups and comes in both Empire White and Biscuit.

### All-New VisionPRO

One convenient programmable control does it all: temperature, humidification, dehumidification and ventilation.

### TrueIAQ®

Manage whole-house humidifiers, dehumidifiers, ventilators and bathroom fans from a single control. Plus, TrueIAQ delivers automatic humidity control based on both inside and outside temperatures to maximize efficiency.

### W8150 Ventilation Control

Easily control fresh air according to ASHRAE ventilation standards. Intuitive "set it and forget it" programming reduces call backs.

### Push Button Control

Boost control for ERV/HRV. Run high speed ventilation for 20-40-60 minutes as needed.

### Wireless Vent and Filter Remote

A 20/40/60 minute ventilation timer that can be placed anywhere in the home where added ventilation or filtration is needed.

# Water Solutions

With our popular zone valves, Aquastats, and the energy-saving Aquatrol™ you can meet just about every boiler room need with just one brand. AquaPUMP is the latest in Honeywell's complete lineup of hydronic heating solutions.

AquaPUMP eliminates the guesswork in the boiler room. With three sizes, multiple speeds for each size and the unique Twist-To-Fit flange, AquaPUMP has you covered for every application. And because a single AquaPUMP can replace a wide range of competitive models, you can handle nearly all retrofits with just one brand.

- Twist-To-Fit Universal Flange rotates 90° to fit every application
- Threaded conduit connection
- Stainless steel plate and can
- Impeller engineered for a quieter, more efficient operation
- Ceramic bearings and shaft
- Check valve available for all pumps separately
- 5-year Limited Warranty

Use this cross-reference tool to meet your installation needs. Each Honeywell circulator replaces both regular and rotated flange models.

The information in this table is based on publicly available information as of the date of this publication. Honeywell is not liable if information is found to be incorrect. If the cross referenced model uses a flow check valve, then use a flow check with the Honeywell model as well.

For all your hydronic heating needs,  
the name to know is Honeywell.

# Water Solutions/Hydronic Controls

When selecting a hydronic heating product for your next job, look for these Honeywell features:

- Application Flexibility
- ASSE Certified Thermostatic Mixing Valves
- Teflon™ Coated Thermostatic Elements
- Industry Leading Zone Valve Technology
- “In-Pipe” Serviceability
- Customizable Boiler Trim Kits

## Aquatrol®

### Hydronic Boiler & Zoning Controls

- Easy to select, install, set-up and troubleshoot
- Available with or without Outdoor Reset capability
- Modular design allows for future enhancements
- Easy-to-read backlit screen makes programming simple
- Pump and zone valve versatile
- Pre-programmed with most popular settings
- Zone of greatest demand control for increased energy efficiency with reduced boiler cycling
- Compatible with most digital thermostats\*
- Dedicated 2-wire polarity insensitive thermostat allows for maximum efficiency

\*Thermostats must have dry contact terminals

## Switching Relays

### R8845/RA889

- Provide switching of line- and low- voltage devices from a line- or low- voltage controller in oil-fired or gas-fired hydronic heating systems
- One model replaces several competitive models
- Replacement relay common to other Honeywell hydronic replacement controls
- Two troubleshooting LEDs and a push-to-test button

## Boiler Trim Kits

- All boiler accessories in one convenient kit
- Includes SuperVent®, expansion tank and boiler fill valve/back flow preventer
- Tanks for potable water applications also available

## V8043 1000 and 5000 Series

### Zone Valve

- Innovative soft close motor technology reduces callbacks\*
- Patented ball seal design provides a quality seal
- “Quick Fit” pushbutton actuator reduces service time\*

\*Thermostats must have dry connect terminals

\*\*Available on 5000 series model only

## V110 Series

### Thermostatic Radiator Valve and T104 Radiator Actuator

- Provides precise and automatic control of room temperature in two-pipe systems
- Continually monitors and adjusts room temperature for consistent comfort
- Valve seat disc is made of resilient material (EPDM), ensuring tight shutoff on steam or hot water systems
- Actuator provides comfort and energy savings for individual room control

## V200 Series

### Standard Capacity Thermostatic Radiator Valve and T100 Radiator Actuator

- Continuously monitors and adjusts room temperature for consistent comfort
- Valve seat disc is made of resilient material (EPDM), ensuring tight shutoff on steam or hot water systems
- Actuator provides comfort and energy savings for individual room control
- Radiator valves - one-pipe steam TRV (V2043HSL10) includes 1/8" NPT connection, angle pattern valve body and steam vent

# Water Solutions/Potable Water Solutions

When selecting a potable product for your next job, look for these Honeywell features:

- Application Flexibility
- ASSE Certified Thermostatic Mixing Valves
- Teflon™ Coated Thermostatic Elements
- Industry Leading Zone Valve Technology
- “In-Pipe” Serviceability

## AMX300 Series

### Point of Source Thermostatic Mixing Valve Kit

- Engineered for decreased installation time and increased profits
- Kit includes mixing device, cold water tee, and flexible 8" and 11" connectors
- Integrated recirculation and hot water ports (for optional use)
- Value Locking Clip included
- Helps prevent scalding injuries
- Reduces risk of legionella in water heater
- Get up to 50% more usable hot water

## AMX Series

### Point of Source Thermostatic Mixing Valve

- Patent-pending DirectConnect™ design for fast installation
- Integrated recirculation port allows for optional recirculation
- Available in multiple connection types
- Teflon coated wear surfaces for extended service

## AM-1 Series

### Point of Source Thermostatic Mixing Valve

- Available in multiple connection types
- Teflon® coating increases product life and reduces callbacks
- ASSE 1017 approved
- Lockable hand wheel prevents tampering
- Low Lead options available\*

## AM-1 1070 Series

### Point of Use UnderSink Thermostatic Mixing Valve

- Available in multiple connection types
- Teflon® coating increases product life and reduces callbacks
- ASSE 1070 approved
- Lockable hand wheel prevents tampering
- Models for hydronic heating also available
- Low Lead options available\*

## DS06 Series

### DialSet Pressure Regulating Valve

- Built-in adjustment dial eliminates the need for gauge when adjusting the static pressure setting
- The internal and external threading allows for use in thread-by-thread single-union or double-union configurations
- Noncorroding unitized cartridge contains all the working parts and is easily replaceable
- Outlet Pressure Adjustment ranges are suitable for household, light commercial, industrial and turf-and-irrigation applications
- Inlet pressure of 400 psi
- Flexibility to work in a variety of applications reduce inventory
- Includes tap on front and back for optional pressure gauge

## SuperVent®

### Air Eliminator

- Efficiently removes air from hydronic heating systems
- Easy "in-pipe" serviceability and maintenance
- Available in both sweat and NPT connections; sizes 1/2"-2"

## SuperVent® Top

### Air Vent

- Efficient high-point air vent for both heating and cooling systems
- Service check valve makes maintenance simple and easy
- Debris baffle controls dirt fouling and helps to prevent failure

\* Low lead Content <.25% by weighted average. Existing part numbers followed directly by "LF"

# Residential Combustion/Gas Controls

The only thing we can't replace is you! In the HVAC industry today time is money, particularly in the service department, which means time lost is money lost. With a part strategy that includes Honeywell's Universal products, you'll have the right party nearly every time.

## Q314U/Q345U/Q348U/Q3451U

### Universal Pilot Burners

- Replace over 120 Honeywell and OEM pilot burners for standing or intermittent pilot applications
- Adjustable Target-style or batwing hoods depending on model
- For Natural and LP applications

## Glowfly® Universal Hot Surface Igniter

- The toughest technology: next generation OEM silicon nitride
- Available in single units or convenient 6-packs
- Custom designed bracketing
- Heats up faster than silicon carbide igniters for optimum light off
- Replaces over 110 OEM igniters

## ST9120U1011

### Universal Electric Fan Timer Board

- Integrates control of all combustion blower and circulating fan operations in a gas warm-air appliance
- Universal platform that will replace existing Honeywell ST9120's, ST9101's, ST9141's, and ST9160's
- DIP switch selectable heat and cool delay on and off times.
- EAC and HUM convenience terminal connections and continuous low speed indoor air circulation are provided

## S9200U1000

### Universal Hot Surface Ignition Integrated Furnace Control

- Replaces over 195 competitive models
- Complete set of wiring harnesses included for universal compatibility and simplified wiring
- LED indicators provide system status, performance and diagnostic information
- EnviraCOM™-enabled for easy set-up or remote monitoring and diagnostics

## VR8345/VR8245

### Universal Electronic Ignition Gas Valve

- Wide-capacity control for almost any IP, HIS or DSI gas-fired appliances
- Compact fit simplifies field replacement
- Use with 24 VAC, 50/60 Hz heating appliances, using natural, manufactured or LP gas
- Capacities from 20 to 200 (VR8245) cfm or 30 to 415 (VR8345) cfm natural gas
- True dual-redundant gas valve design

## VR8300

### Universal Standing Pilot Gas Valve

- Combination gas controls for use in 24 VAC, 50/60 Hz gas fired, standing pilot appliances with capacities from 30 to 300 cfm natural gas
- Includes safety shutoff, manual valve, two automatic operators, pressure regulator and pilot adjustment
- Universal replacement for virtually all Honeywell and competitive valve models

## S8610U

### Universal Intermittent Pilot Ignition Module

- Direct pilot flame current readout with standard micro-ammeter
- Works in both single-rod or dual-rod applications
- Field selectable pre-purge and ignition trial timings
- Single LED provides status and diagnostic information
- Integral damper connections
- Replaces over 400 Honeywell and competitive models

## S8910U

### Universal Hot Surface Ignition Module

- Easy field replacement for most hot surface ignition modules
- Single-rod or dual-rod application
- LED diagnostics and field-adjustable ignition timings
- Replaces over 650 Honeywell and competitive products

## SmartValve™

- Family covers the full range of opening characteristics (slow, normal, fast) and ignition systems
- Universal kits include natural to LP conversion and 3/4" to 1/2" bushings
- Universal family increases service efficiency and reduces truck and warehouse inventory
- Input Voltage test harness: Order part #396085
- Flame Current Test kit: Order part #395466

**Honeywell**

# Universal Pilot Burners

## Q314U

### Standing Pilot

- Target-style pilot burner
- Three position adjustable hood

## Q345U

### Intermittent Pilot

- Target-style pilot burner
- Three position adjustable hood

# Glowfly®

Six Pack

Single Pack

### Match and mount simplicity.

Simply remove the old igniter and compare it with the diagrams on Glowfly's unique packaging guide to determine the correct mounting bracket for the job.

### Six brackets. 110+ possibilities.

Every Glowfly comes fully equipped with six custom mounting brackets that are optimized to replace over 110 igniter applications from nearly every furnace manufacturer without modification.

<sup>a</sup> Table data is correct to the best of Honeywell's knowledge as of this publication's date. However, some appliances may have igniter applications that are beyond the capabilities of this kit.

<sup>b</sup> For igniters that require bracket A, use the template to determine the tab to be removed.

<sup>c</sup> For Carrier sealed combustion furnaces, you must use bracket E and retain the existing orange gasket for use with bracket E.

**Notes:**

All piloted valves have a 1/4" compression fitting.

All the VR valves come set for natural gas, but can be converted to LP gas.

The VS820A1054 is for natural gas. The VS820A1336 is for LP gas.

All the VR valves have inlet and outlet pressure taps. The VS820 valves have just an outlet pressure tap.

# Universal Ignition Module Selection Guide

	Product Number	Applications			Timings					Type of Gas
		Ignition System	Flame Sensor	Ignition Sequence (Note 1)	Ignition Trials To Lockout (Note 1)	Ignition Trial Time	Between Trial Time	Pre-Purge	Flame Failure Response Time	
	S8910U1000	Line Volt Hot Surface Ignition	1 or 2 Rods	P	1 or 3 Field Selectable	4 or 7 Sec. Field Selectable	96 Sec. – 3 Trial Mode Only	32 Sec.	1.5 sec.	Nat or LP
	S8610U3009	Intermittent Pilot	1 or 2 Rods	C	C	15 Sec. or 90 Sec. Field Selectable	5-minute Delay After Failed Trial for Ignition	0 sec. or 30 sec. Field Selectable	2.0 Sec. Max	Nat or LP

Notes: 1. Ignition Sequence  
 C Continuous retry.  
 P The number of trials for ignition and trial time is determined by the selection tab. If a selection tab is not installed, the module will operate at four seconds trial time and one ignition trial.

Combustion

# Residential Combustion/Oil Burner/Boiler Controls

When it comes to burner and boiler controls, Honeywell has set the standard for oil-fired furnaces, boilers and water heaters. With a proven track record and a large installed base, there is a service part for nearly any application.

## Honeywell Wireless AquaReset Wireless Outdoor Reset Control

- Designed to improve boiler efficiency while maintaining comfort
- Wireless design makes for easier installation
- Combines universal electronic oil Aquastat with a simple to install energy saving outdoor reset solution
- System set-up through multi-function Aquastat display
- Available as a complete system or outdoor reset ready Aquastat add on kit

## R7284U1004 Universal Digital Oil Primary

- Field adjustable safety, valve-on delay and burner motor-off delay for universal application
- 16 character two line trilingual display provides simple programming and easy to read diagnostics
- Advanced diagnostics that direct the technician to the likely cause of ignition failure

## L7224U Universal Oil Electronic Aquastat®

- Outdoor reset functionality when connected to W8735S1000
- Diagnostic LED, +/- 2° F accuracy and faster response times
- Easy installation with multiple knockouts, multizone control
- Adjustable high and low limit differential, high limit only or high plus low limit all in one

# Honeywell

# Honeywell AquaReset®

 	Product Selection			
	Product Name	Part Number	Includes	Typical Applications
	Honeywell Wireless AquaReset Kit	W8735Y1000	W8735ER1000 Module and wireless sensor	Upsell as an add-on when installing a new boiler that comes from the OEM with an enabled L7224U or L7248 Aquastat.
	Honeywell AquaReset Kit	W8735S1000	Honeywell AquaReset Module and Wired Sensor	Upsell as an add-on when installing a new boiler that comes from the OEM with an enabled L7224U or L7248 Aquastat. <sup>2</sup>
	Honeywell Domestic Hot Water Kit	W8735S1008	DHW Module and Wired Pipe Temperature Sensor	Required to enable domestic hot water override on some applications. <sup>3</sup>
