

## Wireless Display Adapter with HDMI - 1080p

Product ID: WIF12HDMCGE

Wirelessly broadcast your smartphone, tablet, or laptop onto any HDMI display with this wireless Miracast and WiDi adapter. The HDMI over wireless adapter natively supports Miracast or WiDi-enabled mobile devices such as Android smartphones & tablets, and Windows® 8.1 laptops, Ultrabooks & Surface tablets. Additional Software is also included with the WiDi receiver for guaranteed compatibility with Windows based computers through a standard Wi-Fi or wired LAN connection.

### Connect

Keep your boardroom free of clutter by wirelessly connecting your HDMI projector to almost any mobile device. With native support for a broad range of Miracast and WiDi smartphones and tablets including Samsung devices that run All-share and Screen Mirror software, this Miracast receiver is perfect for BYOD (Bring Your Own Device) office and boardroom applications.

	Windows 8.1	Windows 7/8	Android 4.3 & Up
<b>Screen Mirroring</b>	Miracast	ScreenShare	Miracast
<b>Media Content</b> (Photos, Videos, Music)	●	●	●
<b>Wi-Fi Web Browsing</b>	●		●

## Collaborate

Synergize with your co-workers by effortlessly and wirelessly sharing and switching your display between different video source devices. The Miracast / WiDi adapter has an intuitive interface that ensures hassle-free operation.

## Communicate

Your mobile device is designed to be portable. This means the screen is too small to share with more than two people. Present big ideas on the big screen from the comfort and portability of your own smartphone, tablet, or laptop.

The WIFI2HDMCGE is backed by a 2-year warranty and free lifetime technical support.

### Certifications, Reports and Compatibility

### Applications

- Display audio/video content such as a presentation from your smartphone or tablet on a boardroom projector
- Share photos or video with audio from your smartphone or tablet to your home theatre system
- Display multimedia presentations to HDMI displays at trade-shows and vendor fairs from a portable smartphone or tablet

### Features

- Native compatibility with hundreds of devices (Miracast / WiDi)
- Software included for additional device compatibility (Windows)
- Built-in media server for wireless or USB storage devices
- HDMI output with 1080p support
- Optional LAN port for wired devices
- Optional analog audio/video out with included cable
