 powerstation plus mini - 3460 (Space Grey), 3543 (Rose Gold), 3542 (Gold)  
 powerstation plus - 3461 (Space Grey), 3545 (Rose Gold), 3544 (Gold)  
 powerstation plus XL - 3462 (Space Grey), 3546 (Rose Gold)

## The mophie difference

Over the past 10 years, mophie has maintained its position as the top mobile power brand worldwide. As we incorporate new features and technologies we strive to make advancements and always keep our customers' needs in mind with every product we release.

TRIPLE TEST CERTIFIED	ADVANCED BATTERY TECHNOLOGY	DIGITAL POWER MANAGEMENT	PRIORITY-CHARGING	CHARGE VAULT TECHNOLOGY	IMPACT-ISOLATION SYSTEM
 <p>Every mophie battery product is tested at three different stages of production to ensure unmatched capacity, efficiency and build quality along with reliable, long-lasting performance.</p>	 <p>Our products are built to last. Rechargeable for over 500 full cycles, mophie batteries contain first-class lithium-ion polymer cells which have been engineered to deliver the most efficient charge with the highest battery density.</p>	 <p>When connected to your device, smart charging circuitry communicates with your device to determine the perfect amount of power it needs for a safe, quick charge. Fail-safe circuitry prevents over-charging and controls temperature to prevent overheating.</p>	 <p>Enables pass-through charge &amp; sync while connected to a computer. Your device recharges first, and then the juice pack case recharges itself. powerstation products are similar but only enable pass-through charging so you can recharge both your device and powerstation battery at the same time.</p>	 <p>Industry-leading battery life enables our products to hold their charge for an extended period of time, making them more reliable than other battery cases in the market. On average, mophie products retain 75% of their battery capacity after a year without use.</p>	 <p>Every mophie juice pack is tested to endure the bumps and drops encountered from daily use. Our Impact Isolation System uses carefully designed and tested internal bumpers that add extra cushion to the edges &amp; corners of the protective case for unrivaled support.</p>

## PRO cables series with Lightning connector

- Kevlar fiber core provides superior durability.
- Reinforced connector molds and strain relief prevent separation and breaking.
- Braided cable jacket for added protection.
- Tangle free.
- Lifetime warranty.

SKU: 1.2m - 3603 (Black), 2m - 3605 (Black), 3m - 3607 (Black)

## PRO cables series switch-tip cable with Lightning connector

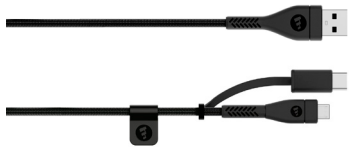

- Versatile switch-tip connection (Lightning or micro USB).
- 1.2m cable.
- Kevlar fiber core.
- Reinforced connector molds and strain relief.
- Braided cable jacket.
- Tangle free.
- Lifetime warranty.

SKU: 1.2m - 3609 (Black)

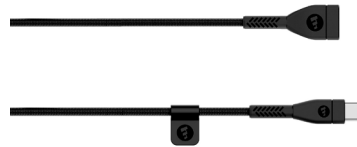

## PRO cables series with USB -A/C to switch-tip USB-C connector

- Kevlar fiber core.
- Reinforced connector molds and strain relief prevent separation and breaking.
- Braided cable jacket for added protection.
- Two available options: **Type-A to switch-tip Type-C & Type-C to switch-tip Type-C.**
- Tangle free & Lifetime warranty.

SKU: **2m (A-C)** - 3615 (Black), **2m (C-C)** - 3639 (Black)

## PRO cables series with USB-C connector

- Supports **USB 3.0 data transfer rates up to 5,0 Gbps.**
- Kevlar fiber core.
- Reinforced connector molds and strain relief prevent separation and breaking.
- Braided cable jacket for added protection.
- Tangle free.
- Lifetime warranty.

SKU: **USB3.0 C-A** - 3621 (Black)
