U4887	40"x60" Textured Aluminum Photo Panel.

**ChromaLuxe®**

This new and exciting textured finish is fun to write on with standard chalk and easy to wipe clean with a damp cloth. Smaller sizes can be used in the kitchen for recipes, notes, and shopping lists while larger sizes can be used in bars, classrooms, churches, meeting rooms, restaurants, and coffee shops. Larger chalkboard signs can be used as one-of-a-kind wedding or baby shower signage with plenty of room for handwritten messages.

Vapor Apparel offers fabrics enhanced with UPX50+ to protect your skin against harmful UV rays. The Solar Performance line is ideal for team sports, workforces, adventures, coastal sports, and any high endurance activity.

M-Shield's zinc based technology keeps fabrics fresh and defends against odor causing bacteria. In addition to providing enhanced performance during use, the antimicrobial feature also helps to extend the useful life of the product.

PURE-tech™ Cool Wicking Technology delivers superior moisture wicking features shown to improve the body's core performance, releasing heat when it's warm and trapping it in the cold.

**Glass Floor Tiles** - Do not use these in any exterior application. Tempered glass tiles cannot be cut, so for applications where cutting is necessary, you would order non-tempered tile. Tempering is added to the larger tiles for strength. The 6" x 6" tiles meet the ANSI and ASTM standards above without tempering. Image the non-tempered tile prior to cutting, as pre-cut tile may fracture during pressing. The non-tempered tile may be cut with a glass cutter, or a tile saw (wet saw application, diamond blade) or waterjet cutting service. Any white Epoxy mortar will work. You should use a grout specifically formulated for use with glass tile. Tiles can be cleaned with any household non-abrasive cleaner and a soft cloth or sponge.

**Mounting Aids** – Always press mounting blocks firmly onto the photo panel and wait a minimum of 8+ hours before it is hung on the wall. The longer it is adhered to the panel before it is hung, the stronger it becomes. Good idea to use a weight on the blocks as they set.

### Drinkware

Condé mugs are shipped in heavier boxes so double boxing is not required. These mugs meet or exceed FDA requirements for beverage safety; pertaining to lead and cadmium. We recommend that all sublimated mugs not be washed with bleach or harsh abrasive cleaning materials to preserve the image. To make these mugs last as long as possible we suggest hand washing, but washing is safe in a residential dishwasher. Sublimatable mugs can be put in the microwave for short periods of time.

**Standard Ceramic Mugs** - FDA Compliant, Dishwasher Safe. Mugs sold individually for one-time sample orders only; ask Account Managers. All these mugs (except MUGK11/15) can be imaged in a mug press, with an oven/heat gun using SubliShrink wrap SF79, sold separately. RN Coating is also known as Rhino Coating, made by Rich Neely.

**Rowmark® MATES™ Adhesive Rolls** - Sublimatable/thermal printable. Dishwasher/microwave safe. The white layer in the white MATES is PVC and generates toxins when burned, so should not be lasered. The brushed silver does not so can be laser cut. The white material absolutely should never be lasered. It will void the warranty on the laser and can be very dangerous. All the MATES material can be cut with a vinyl cutter, Silhouette machine, X-Acto knife, scissors, shear, etc.

<p>Digital Knight 16x20 TWIN Air-Op Swing-Away Press-110v - The DK20SPT is the SAME Overall press as the DK20SP, with the SAME Features of the DK20SP, but in a **dual-shuttle twin-station** framework for increased operator production. While one side is pressing, the operator can load and unload the other side, and greatly reduce both operator idle time and heat platen idle time. Like the DK20SP single-table version, the DK20SPT has the same benefits of simple push button operation, fully digital temperature and time control, interchangeable All-Thread™ bottom tables, and solid casting design with an affordable automatic heat press price. It is available in a 16" x 20" heater block size. For demanding press runs and super consistent results, the DK20SPT is an ideal press for meeting requirements that go beyond what a manual transfer press and operator can handle, as well as what a single loading table layout can provide. The DK20SPT is the industrial grade midrange solution between heavy duty manual heat presses such as the DK20 and DK20S and high production 394 Factory Shuttle Press machines.</p>		DK20SPT	4950.00

### Sublimation Book by W. David Gross

			Each
"The Road to Sublimation Success: Harnessing the Power of Sublimation for Outstanding Profits." By W. David Gross and J. Stephen Spence. This is the first book ever written about the sublimation business; what it is, how it works, how to start one of your own and what you need to know to be profitable. It includes detailed information about the products available, how they are made and tips and tricks about making them. This book is intended to provide you with everything you need to not only understand sublimation, but to start and run your own business or add sublimation to your existing business. This is a book you will keep handy as your most valuable reference source. It is a must for anyone doing sublimation. Paperback, 518 pages.	WDG290	29.95	
Road To Sublimation Success: An Intro to the Sublimation Business - Written by David Gross, This book contains excerpts from a larger volume of the same title but subtitled "Harnessing the Power of Sublimation for Outstanding Profits". This shorter version provides a relatively brief introduction to the sublimation industry, setting up a sublimation business (or adding it to an existing business), what you can make and a few of the potential markets you can sell to. This version is for the person who is interested in sublimation but hasn't made their mind up yet and just wants an overview of the industry.	WDG291	12.50	
"125 Ways to Make Money with Sublimation – Second Edition". This popular book by Steve Spence has been fully updated and revised for 2021 including hundreds of full-color photographs, new products, new niche markets to consider and a Glossary of Sublimation Terms. As a bonus, the new edition includes 20 product lines you can add to your existing for little or no investment. Regardless of if you are new to sublimation or an old pro, there is information in this book that can help you grow your business and learn more about sublimation. Paperback, 200 pages.	WDG292	34.95	
"Conde's Sublimation Journal" created by David Gross. From equipment settings to marketing objectives, writing in a journal helps to sift through the clutter of a busy day while also providing a record of successes, failures, and questions. This is the best way to ensure consistency, minimize production waste, and get to the bottom of future problems. Most importantly, writing things down when they happen is the key to receiving good tech support. This journal allows you to keep a record of all your sublimation jobs.	WDG293	16.95	
"Road To Sublimation Success: Cashing in on the ChromaLuxe Revolution" Written by David Gross and J. Stephen Spence, this book is the third in a series of "Road to Sublimation Success" and is the first to really focus in on a single product – ChromaLuxe by UNISUB. This book will not only teach you how to work with the ChromaLuxe products but will also reveal a variety of markets you may not be aware of – both wholesale and retail. ChromaLuxe products also make great fund-raising products for churches, clubs and other non-profit organizations.	WDG294	29.99

### Condé Brand Supplies Guarantee

Condé Systems guarantees that the use of Condés' brand of supplies and consumables will not cause damage, abnormal or excessive wear to your printer or copier. If a service representative informs you that using Condés' brand of supplies or consumables caused damage to your printer, please take the following steps to help us address the problem:

1. Ask your service representative to provide a written, signed and dated statement on the service companies' letterhead identifying the damage and specifying exactly how using Condés' brand of supplies or consumables directly resulted in that damage.
2. Before authorizing repairs, forward the statement to Condé Systems along with the following:
  - a) Written estimate of the cost to repair the damage caused by the use of Condés' brand of supplies or consumables.
  - b) Receipt or invoice showing purchase of Condés' brand of supplies or consumables.
  - c) Report such damage to Condé Systems within ten (10) days.

After verification, Condé Systems will either agree to pay reasonable service or repairs charges or will authorize shipment of the printer to a repair facility of Condé Systems choice for repair at no charge. This warranty does not apply to any defect, failure or damage caused by improper handling, storage or use of Condés' brand supplies or consumables. Maximum liability of this guarantee is limited to the actual cost of a repair, if any should become necessary. THIS WARRANTY SHALL BE IN LIEU OF ALL OTHER WARRANTIES; EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY ARISING OUT OF THE USE OF OR INABILITY TO USE THE PRODUCT. In addition, all of Condés' brand of supplies and consumables are guaranteed to perform to your satisfaction or they may be returned for a full refund of the purchase price. If you have any problem with a product you purchased from Condé Systems but is not a Condé-brand product that product's warranty applies as specified by its manufacturer.
