

Griffin & iTrip keep you connected!

iTrip is the best way to keep the music playing on any car stereo.

What's Happening?

Rumors suggest that Apple may eliminate the next iPhone's headphone jack, which creates a challenge for anyone who uses an AUX-In cable to connect to their car stereo.*

What's Griffin's Solution?

iTrip connects the iPhone to the car stereo through the Lightning connector or via Bluetooth. It's the easiest way to connect and play on any car stereo.

Charge, play and control your iPhone

iTrip AUX with Autopilot (GC39836)

Charge your phone, play music on your car stereo, and control everything with the touch of a button. Built-in track controls so you can skip tracks, pause, play, answer phone calls and use Siri. Plugs into your car's 12 volt power outlet (to charge your phone) and your car stereo's AUX input (to send music).

IDEAL FOR:

Car Stereos with AUX-In jack

Wireless, so you can set it and forget it.

iTrip AUX Bluetooth (GC39982)

Highest quality streaming audio available, via AAC and aptX audio codecs. One-time set-up to pair your phone via Bluetooth, then forget it. iTrip AUX Bluetooth auto-reconnects every time you get in your car. Also works with Android phones, tablets and more.

IDEAL FOR:

Car Stereos with AUX-In jack

Charge & play on any FM stereo.

iTrip Auto (NA36210-2)

Plugs into your car's 12 volt power outlet to charge your phone and sends your music to your car stereo via powerful built-in FM transmitter.

IDEAL FOR:

Any FM Car Stereo

Stay Connected

iTrip is the best way to play music through your car stereo no matter what device or connection you use. All items shown are in stock now. To learn more, head to griffintechnology.com/us/collections/itrip or contact your Griffin sales rep.
