The committee may revise its recommendations and resubmit its report within thirty days of receipt of notice of the rejection and shall, in such case, file a copy of the amended report with the town clerk of each participating town. If the committee does not submit an amended plan or if the committee submits an amended plan which is rejected by the state board of education, the proposed regional school district shall not be established and the procedure in subdivision (1) of this subsection shall apply. (ii) If the committee report is accepted, the state board of education shall certify to the town clerk in each of the participating towns that the committee recommendations have been approved and send a copy of such certification to the committee. The town clerk shall make available copies of the certified report and publish notice of the certification and availability of copies in a newspaper having general circulation in the town. Within thirty days after receipt of its copy of the certification, the committee shall hold a public meeting in each participating town to present the certified report. All participating towns shall hold a referendum on the same day in accordance with section 10-45. Upon completion of such referendum as may be held thereunder, the committee is dissolved.

Such referenda shall be held between forty-five and ninety days from the date of such approval. The committee shall immediately notify the town clerk in each participating town of its decision. Upon receipt of such notice, the town clerk shall file the notice required by section 9-369a. The warning of such referenda shall be published, the vote taken and the results thereof canvassed and declared in the same manner as is provided for the election of officers of a town, except that absentee voting shall not be permitted in other than a special or regular election. The town clerk of each participating town shall certify the results of the referendum to the state board of education. (b) The vote on the question shall be taken by voting machine and the designation of the question on the voting machine ballot label shall be "For establishing a regional school district in accordance with the plan approved by the state board of education on(date), YES" and "For establishing a regional school district in accordance with the plan approved by the state board of education on ..(date), NO .." and the label used shall conform with the provisions of section 9-250. If the majority of the votes in each of the participating towns is affirmative, a regional school district composed of such towns is established and shall be numbered in accordance with the order of the incorporation of the districts. (c) If the majority vote of one or more of such towns is negative, the committee shall determine the advisability of immediately submitting the question to referendum a second time. If the committee so

recommends, it shall notify the town clerk in each participating town of its decision. Within thirty days after receipt of such notice, the legislative body of the town shall meet to act upon the committee recommendation. If the legislative body in each of the participating towns accepts the recommendation, a second referendum shall be held in each participating town in accordance with the provisions of this section. If the majority of votes cast in each town is affirmative, the regional school district is established and numbered accordingly.

Sec: 10-46. Regional board of education.

(a) The affairs of the regional school district shall be administered by a regional board of education, which shall consist of not fewer than five members. Each member town shall elect at least one member. The committee report shall determine the number of members of such regional board and the representation of each town. The first members of such regional board of education shall be nominated and elected at a meeting of the legislative body of each town held within thirty days after the referendum creating the district. The regional board of education at its first meeting, called by the secretary of the state board of education within ten days from the time the last member town to appoint members to the regional board has done so, shall organize and the members shall serve until their successors are elected and qualify. At such meeting, the board shall determine the term of office of each member according to the following principles: (1) The term of office of each successor shall be four years, (2) to establish a continuity of membership, a system of rotation shall be used; if the board has an even number of members, one-half of such number shall be elected every two years and if the board has an uneven number of members, no more than a bare majority or a bare minority shall be elected every two years, except when the unexpired portion of the term of a vacated office must be filled, (3) the same system of rotation shall be used for election of the representatives of each member town, if possible, (4) if necessary, it shall be determined by lot which of the initial members shall serve the short terms, (5) at the first election of members in accordance with subsection (b) or (c) of this section, no more than half the offices held by initial board members shall be filled, (6) the offices held by the remaining initial board members shall be filled at the second election held in accordance with subsection (b) or (c) of this section. Thereafter, members of the board shall be nominated and elected in their respective towns in accordance with subsection (b) or (c) of this section as determined by the legislative body of each town.

(b) At least thirty days before the expiration of the term of office of any board member, a town meeting shall be held in accordance with chapter 90 to nominate and elect a successor. Any person who is an elector of such town may vote at such meeting. If a vacancy occurs in the office of any member of the regional board of education, the town affected, at a town meeting called within thirty days from the beginning of such vacancy, shall nominate and elect a successor to serve for the unexpired portion of the term in accordance with the above procedure.

(c) Board members shall be nominated and elected in the same manner as town officers in accordance with the provisions of title 9 except that (1) section 9-167a and parts II and III of chapter 146 shall not apply and (2) the board members so elected shall take office the first day of the month following the elections. If a vacancy occurs in the office of any member of the regional board of education, the legislative body of the town affected shall elect a successor to serve until the next general election, at which time a successor shall be elected to serve any unexpired portion of such term.

(d) All members of a regional board of education shall take office on the first day of the month following their election. Such board shall hold an organizational meeting in the month following the last election of members thereof held in the member towns in any calendar year at which time the board shall elect by ballot from its membership a chairman, a secretary, a treasurer and any other officer deemed necessary and may annually thereafter elect such officers. In the case of a tie vote in the balloting for any officer, such tie shall be broken by lot. Sec. 10-46a. Transfer of responsibility to regional board.

The regional board of education shall, after consultation with the town boards of education in the towns comprising the regional school district, determine the time and method by which the responsibility of conducting the educational program shall be transferred to the regional board of education, provided such transfer shall be completed within two years of the date of the organizational meeting of the regional board of education. When, in accordance with this section or section 10-47b, a regional board of education assumes the responsibility for administration of all programs which are provided in the member towns and are under the general supervision and control of the state board of education, the town boards of education are dissolved.

Sec. 10-47. Powers of regional board. Meetings.

Regional boards of education shall have all the powers and duties conferred upon boards of education by the general statutes not inconsistent with the provisions of this part. Such boards may purchase, lease, or rent property for school purposes and, as part of the purchase price may assume and agree to pay any bonds or other capital indebtedness issued by a town for any land and buildings so purchased, shall perform all acts required to implement the plan of the committee for the transfer of property from the participating towns to the regional school district and may build, add to or equip schools for the benefit of the towns comprising the district. Such boards may receive gifts of real and personal property for the purposes of the regional school districts. The regional school district annual meeting shall be the district meeting at which the annual budget is first presented for adoption and shall be held the first Monday or the first Tuesday in May. The boards may convene special district meetings when they deem it necessary. District meetings shall be warned and conducted in the same manner as are town meetings. For such purposes, the chairman of the board shall have the duties of the board of selectmen and the secretary shall have the duties of the town clerk.

Sec. 10-47b. Addition or withdrawal of grades.

(a) Except as provided in subsection (b) of this section, any regional board of education in a school district which does not include all elementary and secondary school grades may recommend a study of the advisability of the addition to or withdrawal of grades from the regional school district or, upon the request of two or more of the town boards of education of the member towns, shall recommend such a study to the chairmen of the town boards of education and chairmen of the boards of finance or other such fiscal authorities in each town affected. Within thirty days of receipt of such recommendation, such chairmen shall each appoint one of the members of their boards and the chairman of the regional board of education shall appoint one member of the regional board from each member town to a study committee. The secretary of the state board of education shall appoint a consultant to the study committee. The study committee shall proceed in the same manner as the temporary regional school study committee except that the expenses of the committee shall be borne by the regional school district and shall not exceed three dollars times the number of pupils used to compute the grants made to such town and regional school districts pursuant to section 10-262 and the committee shall submit its report to the participating towns no later than one year from the date of its organizational meeting. If the committee recommends a plan for addition to or withdrawal of grades from the regional school district and the referenda held in the manner provided in section 10-45 result in an affirmative vote in the regional school district, as a whole, the participating towns shall implement the plan.

(b) The procedures in subsection (a) of section 10-47b shall not be used to dissolve a regional school district but may be used to empower the regional school district to administer all programs which are provided in the member towns, and are under the general supervision and control of the state board of education. In such case, if the vote in each member town affirms the expansion, the town boards of education in such member towns shall be dissolved in accordance with section 10-46a. If the vote is not affirmative in all the member towns, but is affirmative in a majority of such towns, the towns voting in favor of such expansion may initiate a study of the feasibility of establishing a regional school district to administer all programs which are provided in such towns and are under the general supervision and control of the state board of education. Such study shall be initiated and conducted pursuant to sections 10-39 through 10-45. In such case, the study may be made forthwith without using the procedures for withdrawal of a town or dissolution of a regional school district provided in sections 10-63a through 10-63c. If a second regional school district is so established by referenda, the first regional school district shall be dissolved. The state board of education shall make the relevant determinations required by section 10-63c for such dissolution of an existing regional school district. The assets apportioned to the member towns of the new regional school district may be transferred directly to said district. If secondary schools are among the assets so transferred to the new regional district, said district shall accept applications from the remaining school districts for admission of secondary students for a tuition based on per pupil cost for a period of at least three years after the dissolution. The state board of education may withhold from the next grant paid pursuant to section 10-262 to the town or regional school districts so established an amount equal to the proportionate share to be borne by each such district of the cost of the services rendered by said state board during the dissolution of the regional school district.

Sec. 10-47c. Amendment of plan.

With the exception of the terms which pertain to the capital contribution of member towns, the transfer of property to the regional school district, the grades included and the towns to be served by the regional school district, the terms of the plan approved through referenda pursuant to section 10-45 may be amended as follows. If a regional board of education finds it advisable to amend the plan or if the legislative body of a town served by the regional board of education requests amendment of such plan, the regional board of education shall prepare a report on the proposed amendment, including the question to be presented, file a copy with the state board of education and the clerk of each member town and make copies of such report available to the public at a district meeting called to present the plan. After such public hearing the board shall set the date for referenda which shall be held simultaneously in each member town between the hours of six a.m. and eight p.m. At least thirty days before the date of the referenda, the regional board of education shall notify the town clerk in each member town to call the referendum on the specified date to vote on the specified question. The warning of such referenda shall be published; the vote taken and the results thereof canvassed and declared in the same manner as is provided for the election of officers of a town, except that absentee voting shall not be permitted in other than a special or regular election. The town clerk of each town shall certify the vote of his town to the regional board of education. If the majority vote in each town of the district is in favor of the proposed amendment to the plan, such amendment shall take effect immediately.

Sec. 10-51. Fiscal year. Budget. Payments by member towns. Investment of funds. Temporary borrowing.

(a) The fiscal year of a regional school district shall be July first to June thirtieth. Except as otherwise provided in this subsection, not less than two weeks before the annual meeting held pursuant to section 10-47 the board shall hold a public district meeting to present a proposed budget for the next fiscal year. Any person may recommend the inclusion or deletion of expenditures at such time. After the public hearing, the board shall prepare an annual budget for the next fiscal year, make available on request copies thereof and deliver a reasonable number to the town clerk of each of the towns in the district at least five days before the annual meeting. At the annual meeting on the first Monday in May, the board shall present a budget which includes a statement of (1) estimated receipts and expenditures for the next fiscal year, (2) estimated receipts and expenditures for the current fiscal year, (3) estimated surplus or deficit in operating funds at the end of the current fiscal year, (4) bonded or other debt, (5) estimated per pupil expenditure for the current and for the next fiscal year and (6) such other information as is necessary in the opinion of the board. Persons present and eligible to vote under section 7-6 may accept or reject the proposed budget except as provided below. No person who is eligible to vote in more than one town in the regional school district is eligible to cast more than one vote on any issue considered at a regional school district meeting or referendum held pursuant to this section. Any person who violates this section by fraudulently casting more than one vote or ballot per issue shall be fined not less than three hundred dollars nor more than five hundred dollars and shall be imprisoned not less than one year nor more than two years and shall be disenfranchised. If the regional school district is comprised of four or more towns, the regional board of education may, in the call to the meeting, designate that the vote on the motion to adopt the budget shall be by paper ballots or by a "yes" or "no" vote on the voting machines in each of the member towns on the day following the district meeting. Two hundred or more persons qualified to vote in any regional district meeting called to adopt a budget may petition the regional board, in writing, at least three days prior to such meeting, requesting that any item or items on the call of such meeting be submitted to the persons qualified to vote in the meeting for a vote by paper ballot or on the voting machines in each of the member towns on the day following the district meeting and in accordance with the appropriate procedures provided in section 7-7. If a majority of such persons voting reject the budget the board shall, within two weeks thereafter and upon notice of not less than one week, call a district meeting to consider the same or an amended budget. Such meetings shall be convened at such intervals until a budget is approved. After the budget is approved, the board shall estimate the share of the net expenses to be paid by each member town in accordance with subsection (b) of this section and notify the treasurer thereof. With respect to adoption of a budget for the period from the organization of the board to the beginning of the first full fiscal year, the board may use the above procedure at any time within such period. If the board needs to submit a supplementary budget, the general procedure specified in this section shall be used.

(b) For the purposes of this section, "net expenses" means estimated expenditures less estimated receipts as presented in a regional school district budget. On the date or dates fixed by the board, each town in the district shall pay a share of the cost of capital outlay and current expenditures necessary for the operation of the district. The board shall determine the amount to be paid by each member town. Such amount shall bear the same ratio to the net expenses of the district as the number of pupils resident in such town in average daily membership in the regional school district during the preceding school year bears to the total number of such pupils in all the member towns. Until the regional school district has been in operation for one year, such amounts shall be based on the average daily membership of pupils in like grades from each of such towns at any school at which children were in attendance at the expense of such towns during the preceding school year.

(c) The board shall deposit or invest temporarily any funds which are not needed immediately for the operation of the school district in any manner permitted school districts or municipalities in chapter 112. Any income derived from such deposits or investments shall be used at least semiannually to reduce the net expenses. The board shall use any budget appropriation which has not been expended by the end of the fiscal year to reduce the net expenses of the district for the following fiscal year. The board may borrow funds temporarily in anticipation of payments to be made to it by a member town or the state, for the operation of its schools.

Sec. 10-51a. Petition to determine deficiency in town payment.

If any town which is a member of a regional school district fails to include in its annual town budget appropriations for any year the amount necessary for payment of its proportionate share of the annual budget of such regional school district, as required by section 10-51 or section 5 of number 405 of the special acts of 1959, ten or more taxable inhabitants of a town within such school district, a majority of the board of selectmen of any such town, the attorney general, a holder or owner of bonds or notes of such regional school district, the board of education of such regional school district or the state board of education may petition the superior court to determine the amount of the alleged deficiency. If the court finds such deficiency to exist, it shall order such town, through its treasurer, selectmen and assessor, to provide a sum of money equal to such deficiency, together with a sum of money equal to twenty-five per cent thereof. The amount of the deficiency shall be paid by the town to the regional school district as soon as it is available, the additional sum of twenty-five per cent shall be kept in a separate account by such town and shall be applied toward payment of such town's share of the annual budget of the regional school district in the following year. If such order is made prior to the fixing of the annual tax rate of such town, such tax rate shall be adjusted to cover the sums included in such order. If such order is made after the fixing of the annual tax rate of such town, the sums included in such order shall be provided by the town from any available cash surplus, from any contingent fund, from borrowing, through a rate bill, under the provisions of section 12-123 or from any combination thereof. Any borrowing to meet such deficiency shall be made by the town treasurer, with the approval of a majority of the selectmen, and no vote of the town shall be required therefor. Such borrowed amount shall be included in the estimated expenses of the town in the tax levy for the next fiscal year. Petitions brought to the superior court under the provisions of this section shall be privileged in respect to their assignment for hearing.

A regional district may provide adult education for the towns in the district in accordance with sections 10-67 to 10-70, inclusive, and shall be eligible for reimbursements for adult education programs in accordance with sections 10-67 and 10-71. Any balance of the cost of such adult education shall be prorated among and paid by the towns on the basis of the clock hour pupil attendance from each town. The regional board of education shall charge tuition for any student from outside the regional school district who participates in the adult education program.

Sec. 10-53. Application of education statutes.

All provisions of the general statutes relating to public education, including those providing state grants-in-aid, shall apply to each town belonging to a regional school district, provided, if the board of education of any regional school district provides transportation to a regional school, such district shall be reimbursed by the state as provided in section 10-54. Any regional school district empowered to provide to the member towns all programs under the general supervision and control of the state board of education shall receive each year in addition to the amount of state aid under section 10-262 ten per cent of said amount.

Any town or regional school district which transports pupils to a regional school and any regional school district which transports pupils attending any other school in lieu of that provided by such district in accordance with approval by the regional board of education pursuant to section 10-55 shall be reimbursed by the state for one-half the amount paid for such transportation. At the close of each school year any regional or town board of education which provides such transportation shall file an application for such reimbursement on a form to be provided by the state board of education. Payments shall be made as soon as possible after the close of each fiscal year.

(1949 Rev. S 1380. 1951. S 910d.)

Sec. 10-56. Corporate powers. Bond issues.

(a) A regional school district shall be a body politic and corporate with power to sue and be sued; to purchase, receive, hold and convey real and personal property for school purposes, and to build, equip, purchase, rent, maintain or expand schools. Such district may issue bonds in the name and upon the full faith and credit of such district and the member towns to acquire land, prepare sites, purchase or erect buildings and equip the same for school purposes, if so authorized by referendum. Such referendum shall be conducted in accordance with the procedure provided in section 10-47c except that any person entitled to vote under section 7-6 may vote and the question shall be determined by the majority of those persons voting in the regional school district as a whole. The exercise of any or all of the powers set forth in this section shall not be construed to be an amendment of a regional plan pursuant to said section 10-47c. A regional board of education may expend any premium in connection with such issue, interest on the proceeds of such issue or unused portion of such issue to add to the land or buildings erected or purchased and for the purchasing and installing of equipment for the same. Such bonds shall be denominated "Bonds of regional school district number of the State of Connecticut." Such bonds shall be serial bonds, with coupons attached, and registerable as to principal and interest or as to principal alone, shall be signed by the chairman and the treasurer of the regional board of education and shall bear such rate of interest, mature in such substantially equal instalments and be issued in such denominations and at such times and places as shall be determined by such board. The first instalment of any series of bonds shall mature not later than two years from the date of the issue of such series and the last instalment of such series shall mature not later than twenty years therefrom. Such bonds, when executed, issued and delivered, shall be general obligations of such district and the member towns, according to their terms. Any regional school district which has issued any bonds or other obligations pursuant to any general statute or special act may redeem them by issuing new bonds or other obligations.

(b) "Annual receipts from taxation" means the receipts from taxation of the member towns for the fiscal year next preceding the close of the last fiscal year of such regional school district. Notwithstanding the provisions of section 7-374, any regional school district may assume bonds or other indebtedness of any member town as part of the purchase price of any property for school purposes or issue bonds or notes, provided the aggregate indebtedness of such district shall not exceed: (1) In the case of a regional school district serving the same towns as are served by two or more town school districts, two and one-quarter times the annual receipts from taxation or (2) in the case of a regional school district empowered to provide for the member towns all programs under the general supervision and control of the state board of education, four and one-half times such annual receipts from taxation. Any regional school district may issue additional bonds or notes in an amount not to exceed three and one-half times such annual receipts from taxation less the aggregate indebtedness as defined in section 7-374 for the member towns of such district.

(c) When a district has been authorized to issue general obligation bonds as provided by this section, the board may authorize, for a period not to exceed four years, the issue of temporary notes in anticipation of the receipt of the proceeds from the sale of such bonds. Notes issued for a shorter period of time may be renewed by the issue of other notes, provided the period from the date of the original notes to the maturity of the last notes issued in renewal thereof shall not exceed four years. The term of such notes shall not be included in computing the time within which such bonds shall mature. The provisions of section 7-373 shall be deemed to apply to such notes. The board shall determine the date, maturity, interest rate, form, manner of sale and other terms of such notes which shall be general obligations of the regional school district and member towns. Such notes may bear interest or be sold at a discount. The interest or discount on such notes and any renewals thereof and the expense of preparing, issuing and marketing them may be included as a part of the cost of the project for the financing of which such bonds were authorized. Upon the sale of such bonds, the board shall apply immediately the proceeds thereof, to the extent required, to the payment of the principal and interest of all notes issued in anticipation thereof or deposit the proceeds in trust for such purpose with a bank or trust company, which may be the bank or trust company, if any, at which such notes are payable.

(d) Subject to the provisions of subsection (c) of this section, the board may deposit or invest the proceeds of bonds or of notes issued in anticipation thereof in the same manner and to the same extent as permitted school districts or municipalities in chapter 112.

Sec. 10-58a. Default of district in payment on bonds or notes. Withholding of state aid.

Whenever it is established as herein provided that a regional school district, including Regional School District Number 1 of Litchfield County, has defaulted in the payment of the principal or interest, or both, on its bonds or notes, the payment of state aid and assistance to such regional school district pursuant to any statute then in existence shall be withheld by the state. If a holder or owner of any such bond or note of such regional school district files with the state comptroller a verified statement describing such bond or note and alleging default in the payment thereof or the interest thereon, or both, the

comptroller shall immediately investigate the circumstances of the alleged default, prepare and file in his office a certificate setting forth his finding with respect thereto and serve a copy of such finding, by registered or certified mail, upon the treasurer or chief fiscal officer of such regional school district. Such investigation shall cover the current status with respect to the payment of principal of and interest on all outstanding bonds and notes of such regional school district, and the statement prepared and filed by the comptroller pursuant to this section shall set forth a description of all bonds and notes of such regional school district found to be in default and the amount of principal and interest thereon past due. Upon the filing of such a certificate in the office of the comptroller, the comptroller shall thereafter deduct and withhold from the next succeeding payment of state aid or assistance otherwise due such regional school district such amount as is necessary to pay the principal of and interest on such bonds and notes of such regional school district then in default. If such amount is insufficient to pay all of such principal and interest, said comptroller shall similarly deduct and withhold from the next succeeding payment of state aid and assistance, otherwise due to any town in such district which is currently in default of its annual payments to such district, such amount as is necessary to pay the principal of and interest on such bonds or notes remaining in default. If all such amounts withheld are insufficient to pay all such principal and interest, the comptroller shall similarly deduct and withhold from each succeeding payment of state aid or assistance otherwise due such regional school district and such towns such amount or amounts thereof as may be required to pay all of the principal of and interest on such bonds and notes then in default. Payments of state aid or assistance so deducted and withheld shall be forwarded promptly by the comptroller to the paying agent or agents for the bonds and notes in default for the sole purpose of payment of defaulted principal of and interest on such bonds or notes, provided, if any such payment of state aid or assistance so deducted or withheld is less than the total amount of all principal and interest on such bonds and notes, then the comptroller shall forward to each paying agent an amount in the proportion that the amount of such bonds and notes in default payable by such paying agent bears to the total amount of the principal of and interest then in default on such bonds and notes of such regional school district. The comptroller shall promptly notify the treasurer or the chief fiscal officer of such regional school district of any payment or payments made to any paying agent or paying agents of defaulted bonds or notes pursuant to this section. The state of Connecticut hereby covenants with the purchasers, holders and owners from time to time of bonds and notes issued by regional school districts for school purposes that it will not repeal the provisions of this section or amend or modify the same so as to limit or impair the rights and remedies granted hereby, provided nothing herein contained shall be deemed or construed as requiring the state to continue the payment of state aid or assistance to any regional school district or town or as limiting or prohibiting the state from repealing or amending any law relating to state aid or assistance, the manner and time of payment or apportionment thereof, or the amount thereof.

(b) If the board consists of nine members, three from each member town, such members may be elected on a rotating basis each year for terms of three years. If any adjustments are necessary to achieve this system, the regional school district shall use the procedures provided in section 10-47c to make the necessary changes, provided the term of office of no incumbent shall be shortened. (c) Any such school district may change the representation of the member towns on the regional board or change the term of office of such members to four years in accordance with the procedures provided in section 10-47c. In such cases, the town board of education in each member town is dissolved when the regional board of education assumes the direction of all such programs in the member towns, but in no case later than two years from the date of the referendum establishing such regional school district.

(a) Upon receipt of a recommended plan of representation from a regional school reapportionment committee, the state board of education shall examine same and within thirty days of receipt either approve or reject said plan, and so notify the regional school reapportionment committee.

(b) If the state board of education rejects the recommended plan of representation, it shall return it to the regional school reapportionment committee and shall in a written report advise the committee of the reasons for rejection, and suggest modifications to make the plan consistent with federal constitutional standards. The committee shall, within twenty days after receiving the plan back from the state board of education with the report, revise the plan and resubmit it to the board of education. If the regional school reapportionment committee refuses to revise the plan, or if it submits to the state board of education a plan which the board determines is not consistent with federal constitutional standards, then the provisions of section 10-63s shall apply.

(c) If the state board of education approves the plan of representation submitted by the regional school reapportionment committee, it shall certify to the town clerk in each town of the regional school district that the recommended plan has been approved and the state board of education shall send a copy of such certification to the regional school reapportionment committee. The town clerk shall make available copies of the certification to the public, and publish notice of it and the approved plan in a newspaper having general circulation in the town. Sec. 10-63o. Execution of reapportionment plan.

A plan of representation established as provided for in subsection (a) of section 10-46 and sections 10-63j to 10-63u, inclusive, shall be effective seven days after the referenda resulting in an affirmative majority vote in each of the participating towns. If the plan of representation requires a reduction in the number of members on a regional board of education from a participating town, a determination of the order in which the terms of members from such town shall be terminated shall be made on the basis of the length of the unexpired portion of their terms, with the terms of members having the shortest unexpired portions being terminated first until the number of members from the town complies with the plan. If two or more members of a town have the same unexpired portions of their terms, then within seven days after the date the plan is established, and under the supervision of the other members of the regional board, the member or members whose term or terms shall terminate shall be determined by lot. The failure to meet a time limit herein provided shall not in and of itself invalidate action taken after said time limit. Any resident of a regional school district shall have the right, power, and legal standing, to seek appropriate relief from a court having jurisdiction to compel compliance with the provisions of subsection (a) of section 10-46 and sections 10-63j to 10-63u, inclusive.

The secretary of the state board of education shall on or before the first day of May next following the completion of the decennial census of the United States, notify in writing each regional board of education and the chief executive officer of each town within a regional school district of whether or not on that date representation on the regional board of education is consistent with federal constitutional standards. If he notifies a regional board of education and the chief executive officer of the towns within a regional school district that representation on the regional board of education is not consistent with federal constitutional standards, then a regional school reapportionment committee shall be appointed and a plan of representation established as provided for in subsection (a) of section 10-46 and sections 10-63j to 10-63u, inclusive.

If the secretary determines that significant progress is not being made, such as the refusal of a legislative body of a town to appoint members to a regional school reapportionment committee, the refusal of a regional school reapportionment committee to submit a plan of representation which has the approval of the state board of education, the rejection of a plan by the voters of any participating town within a regional school district, or any other block in the progress toward establishing a plan of representation, the secretary shall notify in writing the regional board of education, the regional school reapportionment committee, if one has been appointed, and the chief executive officer of each participating town that unless significant progress toward the establishment of a plan of representation is made within thirty days of the date of such notice, the regional board of education shall be required to act only by weighted vote. If at the end of said thirty day period, the secretary determines that significant progress has not been made toward the establishment of a plan of representation, he shall notify the regional board in writing that after ten days from said notice, the regional board shall act only by weighted vote, and after said specified date, the regional board shall be authorized or empowered to act only by weighted vote.

(b) As herein used in subsection (a) of section 10-46 and sections 10-63j to 10-63u, inclusive, "weighted vote" means that the voting power on the regional board shall be distributed among the members in such a manner that each member shall have a weight attached to his vote, or shall be entitled to cast a number of votes, equal to the proportion, within permissible deviant limits consistent with federal constitutional standards, that the population of his town bears to the total population of the entire school district, with members on the board from each town dividing the weight or the number of votes accorded to that town equally among them. The state board of education shall adopt regulations to implement this manner of weighted vote.

(c) If within three months after the state board of education has specified the date after which the regional board can act only by weighted vote, a plan of representation has not been established for the regional school district, the state board of education shall establish a plan of representation for that regional school district and file it with the town clerk of each participating town. Said plan shall have the full force of law and shall remain in effect until a plan of representation has been adopted by the towns within the regional school district in accordance with the provisions of subsection (a) of section 10-46 and sections 10-63j to 10-63u, inclusive.

Regional High School District No. 5 et al., except that if the effect of the adjudication of said appeals is that representation on the subject regional boards of education does not violate the fourteenth amendment of the United States Constitution, said sections shall not become effective.

(P A 75-644 S 14)

Note: The final adjudication of said appeals occurred on March 22, 1976, and therefore the amendment to section 10-46(a) and sections 10-63j to 10-63t, inclusive became effective April 21, 1976.

child is to receive, a statement of minimal goals and objectives which it is anticipated such child will achieve and an estimated time schedule for returning the child to the community or transferring such child to another appropriate facility, and (2) the educational needs of the child for whom such special education is being provided cannot be met by public school arrangements in the opinion of the secretary who, before granting approval of such contract for purposes of reimbursement, shall consider such factors as the particular needs of the child, the suitability and efficacy of the program offered by such private school, agency or institution, and the economic feasibility of comparable alternatives. Any town or regional board of education may enter into a contract with the owners or operators of any sheltered workshop or rehabilitation center for provision of an education occupational training program for children requiring special education who are at least sixteen years of age, provided such workshop or institution shall have been approved by the state board of education. Whenever any child is identified by a town or regional board of education as a child requiring special education and said board of education determines that the requirements for special education could be met by a program provided within the district or by agreement with another board of education except for the child's need for services other than educational services such as medical, psychiatric or institutional care or services, said board may meet its obligation to furnish special education for such child by paying the reasonable cost of special education instruction in a private school, hospital or other institution provided said board or the secretary concurs that placement in such institution is necessary and proper and no state institution is available to meet his needs:

(e) Any town or regional school district which provides special education pursuant to any mandates in this section shall provide such transportation, tuition, room and board and other items as are necessary to the provision of such special education except for children who are placed in a residential facility because of the need for services other than educational services, in which case the financial responsibility of the school district and reimbursement to such district shall be limited to the reasonable costs of special education instruction as defined in the regulations of the state board of education.

(f) On and after July 1, 1975, no additional children placed out primarily for special education services shall be placed in a private school, agency or institution outside of the state, except when in the opinion of the secretary of the state board of education it is determined that:

(1) No public or approved private facility which can reasonably provide suitable special education programs for such children is available in the state; (2) no public or approved private facility which can reasonably provide suitable special education programs for such children is available in the state and the out-of-state placement is required for a period of time not to exceed two years, during which time the town or regional school district responsible for providing such children with a special education shall develop a suitable special education program or cause such program to be developed within the state; or (3) an out-of-state placement is more economically feasible than an existing special education program in the state or any such program that could be developed within the state within a reasonable period of time. No placement in an out-of-state private special education school, agency or facility shall be approved unless such school, agency or facility first agrees in writing to submit to the state department of education any such financial program and student progress reports as the secretary may require for the purpose of making an annual determination as to the economic feasibility and program adequacy of the special education program provided. The provisions of this subsection shall not apply to children placed out primarily for services other than educational services as described in subsection (d) of this section.

(g) (1) Each town or regional board of education shall review annually and make a report as to the progress of each child for whom such board is obligated to provide a special education and who receives special education services in any private school, agency or institution and shall, upon request of the secretary, submit such reports to the state board of education. (2) Whenever a town or regional board of education determines that a child who has for three years received special education services in private facilities pursuant to subsection (d) of section 10-76d must receive such services from private facilities for an additional period of time, the state board of education shall annually thereafter review the progress of such child prior to approving or disapproving for purposes of reimbursement, pursuant to subsection (d) of section 10-76d, any continuation of private placement, considering such factors as the educational and other needs of the child.

Sec. 10-76e. State grants for cooperative regional special education facilities.

Any school district which agrees to provide special education, as part of a long-term regional plan approved by the state board of education, for children requiring special education who reside in other school districts shall be eligible to receive a grant in an amount equal to the net cost to such district of providing, constructing or reconstructing and equipping appropriate facilities to be used exclusively for children requiring special education, provided such facilities shall be approved by the state board of education and shall be an adjunct to or connected with facilities for children in the regular school program except when the state board of education determines that separate facilities would be of greater benefit to the children participating in the long-term special education program. Such grants shall be in addition to any grant received pursuant to section 10-286. Application for grants under this section shall be made to the state board of education at such time and in such manner as said board may prescribe. Said board may make such a grant in an amount equal to one hundred per cent of the cost of the facilities less any other public or private grants for such purpose. Upon certification of completion of the building project by the secretary, the comptroller shall pay the sum granted to the town or regional school district in a lump sum.

Sec. 10-145b. *Provisional and standard teaching certificates.

(a) On and after September 1, 1975, a person who has graduated (1) from a four-year baccalaureate program of teacher education as approved by the state board, or (2) from a four-year baccalaureate program approved by the state board or from a college or university accredited by the commission for higher education, provided such person has taken such teacher training equivalents as the state board of education shall require and, unless such equivalents are taken at institutions outside of this state, as the commission for higher education shall accredit, shall be granted upon proper application a provisional teaching certificate by the state board which shall be valid for ten years.

(b) During the period of employment, a person holding a provisional certificate shall be under the direct supervision of the superintendent of schools or of a principal, administrator or supervisor designated by such superintendent who shall regularly observe, guide and evaluate the performance of assigned duties by such holder of a provisional certificate as well as cooperate with and counsel such holder in accordance with the provisions of sections 10-145a to 10-145d, inclusive, 10-146b and subsection (a) of section 10-146f.

(c) To qualify for a standard certificate, a person holding a provisional certificate shall have completed thirty credit hours of course work beyond the baccalaureate degree. Such course work need not necessarily lead to a master's degree and may include graduate or undergraduate courses. It shall consist of (1) a planned program at an approved institution of higher education or (2) an individual program which is mutually determined or approved by the teacher and the supervisory agent of the town or regional board of education or by the supervisory agent of a private school who is recognized by the state

board of education and which is designed to increase the ability of the teacher to improve student learning. Such an individual program may include course work taken at one or more approved institutions of higher education and may include in-service programs sponsored by town or regional boards of education or approved private schools with the approval of the joint subcommittee of the commission for higher education and the state board of education established pursuant to section 10-155b. In the event of disagreement between the teacher and the supervisory agent over the determination of course work to be completed, either party may request the advisory board on state certification of teachers to resolve the matter.

(d) In not less than three years nor more than ten years after the issuance of a provisional certificate and upon the statement of the employing board of education that a provisional certificate holder has successfully completed course work pursuant to subsection (c) and has a record of competency in the discharge of his duties during such provisional period, the state board shall grant such certificate holder a standard teaching certificate. Competency shall be evidenced by a signed recommendation from the superintendent of schools for the town or regional school district or by the superintendent of a private school approved by the state board of education. Such recommendation shall state that the provisional certificate holder has successfully completed at least three years of satisfactory teaching in one or more town or regional school districts and that the final two years prior to eligibility for a standard certificate have been consecutive years of employment by such recommending town or regional school district or approved private school. The state board of education may revoke a standard certificate for any of the following reasons: (1) The holder of the certificate obtained such certificate through fraud or misrepresentation of a material fact; (2) the holder has persistently neglected to perform the duties for which certification was granted; (3) the holder is professionally unfit to perform the duties for which certification was granted; (4) the holder is convicted in a court of law of a crime involving moral turpitude or of any other crime of such nature that in the opinion of the board continued certification would impair the standing of certificates issued by the board; or (5) other due and sufficient cause. Revocation shall be in accordance with procedures established by the state board of education pursuant to chapter 54.

(e) Within thirty days after receipt of notification, any provisional certificate holder who is not granted a standard certificate under the provisions of sections 10-145a to 10-145d, inclusive, 10-146b and subsection (a) of section 10-146f, may appeal to the state board of education for reconsideration. Said board shall review the records of the provisional certification period, hold a hearing within sixty days if such hearing is requested in writing and render a written decision within thirty days. Any teacher aggrieved by the decision of said board may within thirty days from the date of receipt of said board's decision take an appeal therefrom to the court of common pleas for the district of residence of such teacher and such appeal shall be accorded a privileged status on the docket and trial list.

(f) For the purposes of this section "supervisory agent" means the superintendent of schools or the principal, administrator or supervisor designated by such superintendent to provide direct supervision to a provisional certificate holder.

(g) Upon application to the state board of education for the issuance of a provisional or standard teaching certificate in accordance with this section there shall be paid to said board by or in behalf of the applicant a non-returnable fee of fifteen dollars, and with each request for a duplicate copy of such provisional or standard teaching certificate there shall be paid to said board a non-returnable fee of five dollars.

Such advisory board shall be comprised of fifteen persons chosen as follows: Nine full-time, practicing members of the teaching profession employed in the state, three current members of town or regional boards of education and three electors of the state. Five members of such board shall be appointed, for terms of three years each, annually, in January, by the governor, to whom may be submitted each December nominations for such appointments by any organization having an interest in problems related to the preparation and employment of teachers in the public schools of the state, except that seven appointments to such board shall be made, in January, 1970, one of which terms shall expire in January, 1971, one in January, 1972, and five in January, 1973. Appointments to said committees shall be made in such manner that, in January, 1973, and annually thereafter, three members of the teaching profession, one board of education member and one elector shall be appointed for three-year terms.

(c) Members of the advisory board shall serve without compensation, but shall be reimbursed for all reasonable expenses incurred in the performance of their duties. The state department of education shall provide secretarial and administrative assistance to facilitate the activity of the board. Sec. 10-146c. Interstate agreement on qualification of educational personnel.

The interstate agreement on qualification of educational personnel is hereby enacted into law and entered into by this state with all states legally joining therein, in the form substantially as follows:

Article I

Purpose, Findings, and Policy

1 The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

2 The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this compact can increase the availability of educational manpower.

Article II

Definitions

As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

1 "Educational personnel" means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

2 "Designated state official" means the education official of a state selected by that state to negotiate and enter into, on behalf of his state, contracts pursuant to this agreement.

3 "Accept" or any variant thereof, means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring like determination that would otherwise be required by or pursuant to the laws of a receiving state.

4. "State" means a state, territory, or possession of the United States; the District of Columbia; or the Commonwealth of Puerto Rico.

5. "Originating state" means a state (and the subdivision thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to Article III.

6. "Receiving state" means a state (and the subdivisions thereof) which accept educational personnel in accordance with the terms of a contract made pursuant to Article III.

Article III

Interstate Educational Personnel Contracts

1. The designated state official of a party state may make one or more contracts on behalf of his state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it, and the subdivisions of those states, with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which he finds that there are programs of education, certification standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical to that prevailing in his own state.

2. Any such contract shall provide for:

(a) Its duration.

(b) The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.

(c) Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.

(d) Any other necessary matters.

3. No contract made pursuant to this agreement shall be for a term longer than five years but any such contract may be renewed for like or lesser periods.

4. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved has occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

5. The certification or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any certificate or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a certificate or other qualifying document initially granted or approved in the receiving state.

6. A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting states.

Article IV

Approved and Accepted Programs

1. Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

2. To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in the applicable contract.

Article V

Interstate Cooperation

The party states agree that:

1. They will, so far as practicable, prefer the making of multilateral contracts pursuant to Article III of this agreement.

2. They will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

Article VI

Agreement Evaluation

The designated state officials of any party states may meet from time to time as a group to evaluate progress under the agreement, and to formulate recommendations for changes.

Article VII

Other Arrangements

Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

Article VIII

Effect and Withdrawal

1. This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

2. Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

3. No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

Article IX

Construction and Severability

This agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement shall be held contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

(1969. P.A. 269. S. 1)

Sec. 10-146d. Secretary of state board as agent for state.

The secretary of the state board of education shall be the designated state official for this state. The secretary shall enter into contracts pursuant to Article III of the agreement only with the approval of the specific text thereof by the state board of education.

(1969. P.A. 269. S. 2.)

Sec. 10-146e. Filing of contracts under agreement.

True copies of all contracts made on behalf of this state pursuant to the agreement shall be kept on file in the office of the secretary of the state board of education and in the office of the secretary of the state. The state board of education shall publish all such contracts in convenient form.

(1969. P.A. 269. S. 3.)

Sec. 10-146f. Waiver of certification requirements for bilingual teachers.

(a) As used in this section: (1) A bilingual-bicultural program means a program designed for the education of persons who speak a native language other than English; (2) bilingual means the ability to use two languages fluently.

(b) A town board of education or regional board of education may request the state board of education for a waiver of certification requirements for a provisional teacher certificate for a teacher who is to teach full-time in a bilingual-bicultural program, provided such board shall have made a reasonable search without success for certified teachers capable of teaching bilingually. Such request shall certify that such teacher: (1) Will teach only in a bilingual-bicultural program; (2) is bilingual in the language used in such program and in English; (3) demonstrates experience, knowledge, or proficiency in the areas in which such teacher is to teach; (4) is of good moral character; (5) has had experience in working with non-English speaking persons; (6) has taught, or has other experience or qualifications which the town or regional board of education accepts as equivalent to teaching experience; (7) will receive special attention, in the form of supervision and other assistance by qualified persons. The state board of education shall, upon receipt of such request, waive all initial certification requirements for such teacher, provided that the applicant has graduated from a four year course of study at a post-secondary institution. In the event such institution was not located in the United States, it shall be necessary that the

commission for higher education certify that such study is the equivalent of a baccalaureate degree in the United States. Such state board shall waive only the requirements for a provisional teaching certificate, and such teacher shall be required to fulfill all other requirements for a standard certificate. Any teacher employed by a town or regional board of education under the provisions of this section shall be employed by such board as if such teacher were a regularly certified teacher, and shall receive the salary and other benefits of such teachers.

Sec. 10-151. *Employment of teachers. Notice and hearing on termination of contract.

(a) Any board of education may authorize the superintendent or supervising agent to employ teachers. Any superintendent or supervising agent not authorized to employ teachers shall submit to the board of education nominations for teachers for each of the schools in the town or towns in his jurisdiction and, from the persons so nominated, teachers may be employed. Such board shall accept or reject such nominations within thirty-five days from their submission. Any such board of education may request the superintendent or supervising agent to submit multiple nominations of qualified candidates, if more than one candidate is available for nomination, for any supervisory or administrative position, in which case the superintendent or supervisory agent shall submit such a list and may place the candidates on such list in the order in which such superintendent or supervisory agent recommends such candidates. If such board rejects such nominations, the superintendent or supervising agent shall submit to such board other nominations and such board may employ teachers from the persons so nominated and shall accept or reject such nominations within one month from their submission. The contract of employment of a teacher shall be in writing and may be terminated at any time for any of the reasons enumerated in subdivisions (1) to (6), inclusive, of subsection (b) of this section, otherwise the contract shall be renewed for a second, third or fourth year unless such teacher has been notified in writing prior to March first in one school year that such contract will not be renewed for the following year, provided, upon the teacher's written request, such notice shall be supplemented within five days after receipt of such request by a statement of the reason or reasons for such failure to renew. Such teacher may, upon written request filed with the board of education within ten days after the receipt of such notice, be entitled to a hearing before the board or, if indicated in such request and if designated by the board, before an impartial hearing panel established and conducted in accordance with the provisions of subsection (b) of this section, but without the right to appeal provided in subsection (f) of this section, such hearing to be held within fifteen days of such request. The teacher shall have the right to appear with counsel of his choice at such hearing.

(b) Beginning with and subsequent to the fourth year of continuous employment of a teacher by a board of education, the contract of employment of a teacher shall be renewed from year to year, except that it may be terminated at any time for one or more of the following reasons: (1) inefficiency or incompetence; (2) insubordination against reasonable rules of the board of education; (3) moral misconduct; (4) disability, as shown by competent medical evidence; (5) elimination of the position to which the teacher was appointed, if no other position exists to which he may be appointed if qualified; or (6) other due and sufficient cause; provided, prior to terminating a contract, a board of education shall give the teacher concerned a written notice that termination of his contract is under consideration and, upon written request filed by such teacher with such board within five days after receipt of such notice, shall within the next succeeding five days give such teacher a statement in writing of its reasons therefor. Within twenty days after receipt from a board of education of written notice that contract termination is under consideration, the teacher concerned may file with such board a written request for a hearing, which shall be held within fifteen days after receipt of such request, either before the board of education or, if indicated in such request or if designated by the board, before an impartial hearing panel. The impartial hearing panel shall consist of three members appointed as follows: The board of education shall appoint one panel member, the teacher shall appoint one panel member, and those two panel members shall choose a third, who shall serve as chairperson. Within fifteen days after the hearing before an impartial hearing panel, such panel shall submit in writing its findings and a recommendation to the board of education as to the disposition of the charges against the teacher, and shall send a copy of such findings and recommendation to the teacher. The board of education shall give the teacher concerned its written decision within fifteen days of receipt of the written recommendation of the impartial hearing panel. Each party shall pay the fee of the panel member selected by it and shall share equally the fee of the third panel member and all other costs incidental to the panel's hearing. If the hearing is before the board of education, the board shall render its decision within fifteen days of such hearing, and shall send a copy of its decision to the teacher. Either hearing shall be public if the teacher so requests or the board so designates. The teacher concerned shall have the right to appear with counsel of his choice at either hearing, whether public or private. A copy of a transcript of the proceedings of either hearing shall be furnished by the board of education, upon written request by the teacher within fifteen days after the board's decision, provided the teacher shall assume the cost of any such copy. Nothing herein contained shall deprive a board of education of the power to suspend a teacher from duty immediately when serious misconduct is charged without prejudice to the rights of the teacher as otherwise provided in this section.

(c) For the purposes of this section, the term "teacher" shall include each employee of a board of education, below the rank of superintendent, who holds a regular certificate issued by the state board of education.

(d) The provisions of any special act regarding the dismissal or employment of teachers shall prevail over the provisions of this section in the event of conflict.

(e) After having had a contract of employment as a teacher renewed for a fourth year in any one municipality or school district, any teacher who leaves his employment as a teacher in such municipality or school district, and is subsequently re-employed in such municipality or school district or who is subsequently employed in any other municipality or school district shall become subject to the provisions of subsection (b) of this section after eighteen months of continuous employment, unless, prior to completion of the eighteenth month following commencement of the employment in such town, such teacher has been notified in writing prior to March first in accordance with the provisions of subsection (a) of this section that such contract will not be renewed for the following year irrespective of the duration of employment under the then existing contract beyond the date of said notification or unless, for a period of five or more years immediately prior to such subsequent employment, such teacher has not been employed in any public school within this state.

(f) Any teacher aggrieved by the decision of a board of education after a hearing as provided in subsection (b) of this section may appeal therefrom, within thirty days of such decision, to the court of common pleas for the county or judicial district in which such board is located. Such appeal shall be made returnable to said court in the same manner as is prescribed for civil actions brought to said court. Any such appeal shall be a privileged case to be heard by the court as soon after the return day as is practicable. The board of education shall file with the court a copy of the complete transcript of the proceedings of the

hearing held by the board of education or by an impartial hearing panel for such teacher, together with such other documents, or certified copies thereof, as shall constitute the record of the case appealed from. The court, upon such appeal, shall review the proceedings of such hearing and shall allow any party to such appeal to introduce evidence in addition to the contents of such transcript, if it appears to the court that additional testimony is necessary for the equitable disposition of the appeal. The court, upon such appeal and after a hearing thereon, may affirm or reverse the decision appealed from. Costs shall not be allowed against the board of education unless it appears to the court that it acted with gross negligence or in bad faith or with malice in making the decision appealed from.

Sec. 10-153b. Selection of teachers' representatives.

(a) Whenever used in this section or in sections 10-153c to 10-153f, inclusive: (1) The "administrators' unit" means those certified professional employees in a school district who are employed in positions requiring an intermediate administrator or supervisor certificate, or the equivalent thereof, and are not excluded from the purview of sections 10-153a to 10-153g, inclusive. (2) The "teachers' unit" means the group of certified professional employees who are employed by a town or regional board of education in positions requiring a teaching or special services certificate and are not included in the administrators' unit or excluded from the purview of sections 10-153a to 10-153g, inclusive. (3) "Secretary" means the secretary to the state board of education. (4) "To post a notice" means to post a copy of the indicated material on each bulletin board for teachers in every school in the school district or, if there are no such bulletin boards, to give a copy of such information to each employee in the unit affected by such notice. (5) "Budget submission date" means the date on which a school district is to submit its itemized estimate of the cost of maintenance of public schools for the next following year to the board of finance in each town having a board of finance, to the board of selectmen in each town having no board of finance and, in any city having a board of finance, to said board, and otherwise to the authority making appropriations therein. (6) "Days" means calendar days.

(b) The superintendent of schools, assistant superintendents, certified professional employees, who act for the board of education in negotiations with certified professional personnel, or are directly responsible to the board of education for personnel relations or budget preparation, temporary substitutes and all non-certified employees of the board of education are excluded from the purview of this section and sections 10-153c to 10-153g, inclusive.

(c) The employees in either unit defined in this section may designate any organization of certified professional employees to represent them in negotiations with respect to salaries and other conditions of employment with the town or regional board of education which employs them by filing, during the period between March first and March thirty-first of any school year, with the board of education a petition which requests recognition of such organization for purposes of negotiation under this section and sections 10-153c and 10-153d and is signed by a majority of the employees in such unit. Within three school days next following the receipt of such petition, such board shall post a notice of such request for recognition and mail a copy thereof to the secretary. Such notice shall state the name of the organization designated by the petitioners, the unit to be represented and the date of receipt of such petition by the board. If no petition which requests a representation election and is signed by twenty per cent of the employees in such unit is filed in accordance with the provisions of subsection (d) with the secretary within the thirty days next following the date on which the board of education posts notice of the designation petition, such board shall recognize the designated organization as the exclusive representative of the employees in such unit for a period of one year or until a representation election has been held for such unit pursuant to this section and section 10-153c, whichever occurs later. If a petition complying with the provisions of subsection (d) is filed within such period of thirty days, the town or regional board of education shall not recognize any organization so designated until an election has been held pursuant to said sections to determine which organization shall represent such unit.

(d) Twenty per cent or more of the personnel in an administrators' unit or teachers' unit may file during the period between March first and April thirtieth of any school year with the secretary a petition requesting that a representation election be held to elect an organization to represent such unit. The secretary shall file notice of such petition with the town or regional board of education on or before the third school day following receipt of the petition. The secretary shall not divulge the names on such petition or any petition filed with him pursuant to this section to anyone except upon court order. Such notice shall state the name of the petitioning group, the unit for which an election is sought and the date the petition was filed. Within three school days after receipt of such notice, the town or regional board of education shall post a copy of the notice. Any organization interested in representing personnel in such unit may intervene within ten school days after the board posts notice of such petition by filing with the secretary a petition signed by ten per cent of the employees in such unit provided that any employee who signs more than one such petition between March first and April thirtieth in any one school year shall not be deemed to have signed any such petition. The secretary shall notify the town or regional board on or before the third day following receipt of the intervening petition, and such board shall post notice of the intervening petition within three days following receipt thereof. No intervening petition shall be required from any incumbent organization previously designated by the board or elected and such incumbent organization shall be listed on the ballot if a petition for a representation election is filed. The petitioning organization, the incumbent organization, if any, and any intervening organization may agree on an impartial person or agency to conduct such an election consistent with the other provisions of this section, provided not more than one such election shall be held to elect an organization to represent the employees in such unit in any one school year, except, however, if no organization receives a majority of the vote validly cast, the election shall not be deemed completed and within ten days after the initial election a run-off election shall be held. In the event of a disagreement on the agency to conduct the election, the method shall be determined by the board of arbitration selected in accordance with section 10-153c. The person or agency selected shall conduct, between twenty and forty-five days after the first petition requesting an election is filed with the secretary, an election by secret ballot to determine which organization, if any, shall represent such unit, provided if no organization receives a majority of the vote validly cast, such election shall not be deemed completed and a run-off election shall be held within ten days after the initial election. The organizations participating in the representative election shall share equally in the cost incurred by the impartial person or agency selected to conduct the election. Such person or agency shall immediately report the results of the election to the secretary. If satisfied that the election has been conducted properly, the secretary shall certify that the organization receiving a majority of votes is the exclusive representative of the employees in such unit.

(e) The representative designated or elected in accordance with this section shall, from the date of such designation or election, be the exclusive representative of all the employees in such unit for the purposes of negotiating with respect to salaries and other conditions of employment, provided any certified professional employee or group of such employees shall have the right at any time to present any grievance to such persons as the town or regional board of education shall designate for that purpose. Whenever a multiple year contract is in effect, no representative election shall be held until two years of such contract have elapsed or until less than one year remains prior to the expiration date of such contract, whichever is sooner. The terms of any existing contract shall not be abrogated by the election or designation of a new representative. During the balance of the term of such contract the board of education and the new representative shall have the duty to negotiate pursuant to section 10-153d concerning a successor agreement. The new representative shall, from the date of designation or election, acquire the rights and powers and shall assume the duties and obligations of the existing contract during the period of its effectiveness.

(f) Any organization which has been designated or elected the exclusive representative of a unit which includes teachers and administrators shall continue to be the exclusive representative of such personnel upon expiration of the salary agreement in effect between such organization and the board of education employing such personnel on July 1, 1969, until or unless employees of such board of education in either of the units defined in this section initiate a petition for designation or election of an organization to represent them in accordance with the procedures set forth in this section and sections 10-153c to 10-153g, inclusive.

Sec. 10-153c. Disputes as to elections.

Any dispute as to the eligibility of personnel to vote in an election, or the agency to conduct the election required by section 10-153b, shall be submitted to a board of arbitration for a binding decision with respect thereto. If there are two or more organizations seeking to represent employees, each may name an arbitrator within five days after receipt of a request for arbitration made in writing by any party to the dispute. Such arbitrators shall select an additional impartial member thereof within five days after the arbitrators have been named by the parties. The impartial agency selected to conduct the election shall decide all procedural matters relating to such election and shall conduct such election fairly. Sec. 10-153d. Meeting between board of education and fiscal authority required. Duty to negotiate.

(a) Within thirty days prior to the date on which the town or regional board of education is to commence negotiations pursuant to this section, such board of education shall meet and confer with the board of finance in each town having a board of finance, with the board of selectmen in each town having no board of finance, with the board of finance in each city having a board of finance, and otherwise with the authority making appropriations therein. A member of such board of finance, such board of selectmen, or such other authority making appropriations, shall be permitted to be present during negotiations pursuant to this section and shall provide such fiscal information as may be requested by the board of education.

(b) The town or regional board of education and the organization designated or elected as the exclusive representative for the appropriate unit, through designated officials or their representatives, shall have the duty to negotiate with respect to salaries and other conditions of employment about which either party wishes to negotiate. Such negotiations shall commence not less than one hundred eighty days prior to the budget submission date. The board of education of any town school district shall file forthwith a signed copy of any contract with the town clerk and with the secretary of the state board of education. Any regional board of education shall file a signed copy of any such contract with the town clerk in each member town and with the secretary of the state board of education. Upon receipt of a signed copy of such contract the clerk of such town shall give public notice of such filing. The terms of such contract shall be binding on the legislative body of the town or regional school district, unless such body rejects such contract at a regular or special meeting called and convened for such purpose within thirty days of the filing of the contract. Any regional board of education shall call a district meeting to consider such contract within such thirty-day period if the chief executive officer of any member town so requests in writing within fifteen days of the receipt of the signed copy of the contract by the town clerk in such town. The body charged with making annual appropriations in any school district shall appropriate to the board of education whatever funds are required to implement the terms of any contract not rejected pursuant to this section. If the legislative body rejects such contract within such period, the parties shall renegotiate the terms of the contract in accordance with the procedure in this section. All organizations seeking to represent members of the teaching profession shall be accorded equal treatment with respect to access to teachers, principals, members of the board of education, records, mail boxes and school facilities and, in the absence of any recognition or certification as the exclusive representative as provided by section 10-153b, participation in discussions with respect to salaries and other conditions of employment.

Sec. 10-153e. Strikes prohibited. Interference with the exercise of employees' rights prohibited. Hearing before state board of labor relations. Appeal. Penalty.

(a) No certified professional employee shall, in an effort to effect a settlement of any disagreement with his employing board of education, engage in any strike or concerted refusal to render services. This provision may be enforced in the superior court for any county in which said board of education is located by an injunction issued by said court or a judge thereof pursuant to sections 52-471 to 52-479, inclusive.

(b) The town or regional board of education or its representatives or agents are prohibited from: (1) Interfering, restraining or coercing certified professional employees in the exercise of the rights guaranteed in sections 10-153a to 10-153g; (2) dominating or interfering with the formation, existence or administration of any employees' bargaining agent or representative; (3) discharging or otherwise discriminating against or for any certified professional employee because he has signed or filed any affidavit, petition or complaint under said sections; (4) refusing to negotiate in good faith with the employees' bargaining agent or representative which has been designated or elected as the exclusive representative in an appropriate unit in accordance with the provisions of said sections, or (5) refusing to participate in good faith in mediation or arbitration. A prohibited practice committed by a board of education, its representatives or agents shall not be a defense to an illegal strike or concerted refusal to render services.

(c) Any organization of certified professional employees or its agents is prohibited from: (1) Interfering, restraining or coercing (A) certified professional employees in the exercise of the rights guaranteed in this section and sections 10-153a to 10-153c, inclusive, provided that this shall not impair the right of an employees' bargaining agent or representative to prescribe its own rules with respect to acquisition or retention of membership provided such rules are not discriminatory and (B) a board of

education in the selection of its representatives or agents, (2) discriminating against or for any certified professional employee because he has signed, or filed any affidavit, petition or complaint under said sections; (3) refusing to negotiate in good faith with the employing board of education, if such organization has been designated or elected as the exclusive representative in an appropriate unit, (4) refusing to participate in good faith in mediation or arbitration, or (5) soliciting or advocating support from public school students for activities of certified professional employees or organizations of such employees.

(d) As used in this section, sections 10-153a to 10-153c, inclusive, and section 10-153g, "to negotiate in good faith" is the performance of the mutual obligation of the board of education or its representatives or agents and the organization designated or elected as the exclusive representative for the appropriate unit to meet at reasonable times, including meetings appropriately related to the budget-making process, and to participate actively so as to indicate a present intention to reach agreement with respect to salaries and other conditions of employment or the negotiation of an agreement, or any question arising thereunder and the execution of a written contract incorporating any agreement reached if requested by either party, but such obligation shall not compel either party to agree to a proposal or require the making of a concession.

(e) Whenever a board of education or employees' representative organization has reason to believe that a prohibited practice, as defined in subsection (b) or (c) of this section, has been or is being committed, such board of education or representative shall file a written complaint with the state board of labor relations and shall mail a copy of such complaint to the party that is the subject of the complaint. Upon receipt of a properly filed complaint said board shall refer such complaint to the agent who shall, after investigation and within ninety days after the date of such referral, either (1) make a report to said board recommending dismissal of the complaint or (2) issue a written complaint charging prohibited practices. If no such report is made and no such written complaint is issued, the board of labor relations in its discretion may proceed to a hearing upon the party's original complaint of the violation of this chapter which shall in such case be treated for the purpose of this section as a complaint issued by the agent. Upon receiving a report from the agent recommending dismissal of a complaint, said board of labor relations may issue an order dismissing the complaint or may order a further investigation or a hearing thereon. Upon receiving a complaint issued by the agent, the board of labor relations shall set a time and place for the hearing. Any such complaint may be amended with the permission of said board. The party so complained of shall have the right to file an answer to the original or amended complaint within five days after the service of such complaint or within such other time as said board may limit. Such party shall have the right to appear in person or otherwise to defend against such complaint. In the discretion of said board any person may be allowed to intervene in such proceeding. In any hearing said board shall not be bound by technical rules of evidence prevailing in the courts. A stenographic or electronic record of the testimony shall be taken at all hearings of the board of labor relations and a transcript thereof shall be filed with said board upon its request. Said board shall have the power to order the taking of further testimony and further argument. If, upon all the testimony, said board determines that the party complained of has engaged in or is engaging in any prohibited practice, it shall state its finding of fact and shall issue and cause to be served on such party an order requiring it to cease and desist from such prohibited practice, and shall take such further affirmative action as will effectuate the policies of subsections (b) to (d), inclusive, of this section. Such order may further require such party to make reports from time to time showing the extent to which the order has been complied with. If upon all the testimony the board of labor relations is of the opinion that the party named in the complaint has not engaged in or is not engaging in any such prohibited practice, then said board shall make its finding of fact and shall issue an order dismissing the complaint. Until a transcript of the record in a case has been filed in the superior court, as provided in subsection (g) of this section, said board may at any time, upon notice, modify or set aside in whole or in part any finding or order made or issued by it. Proceedings before said board shall be held with all possible expedition. Any party who wishes to have a transcript of the proceedings before the board of labor relations shall apply therefor. The parties may agree on the sharing of the costs of the transcript but, in the absence of such agreement, the costs shall be paid by the requesting party.

(f) For the purpose of hearings pursuant to this section before the board of labor relations said board shall have power to administer oaths and affirmations and to issue subpoenas requiring the attendance of witnesses. In case of contumacy or refusal to obey a subpoena issued to any person, the superior court, upon application by said board, shall have jurisdiction to order such person to appear before said board to produce evidence or to give testimony touching the matter under investigation or in question, and any failure to obey such order may be punished by said court as a contempt thereof. No person shall be excused from attending and testifying or from producing books, records, correspondence, documents or other evidence in obedience to the subpoena of the board, on the ground that the testimony or evidence required of him may tend to incriminate him or subject him to a penalty or forfeiture; but no individual shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing concerning which he is compelled, after having claimed his privilege against self-incrimination, to testify or produce evidence, except that such individual so testifying shall not be exempt from prosecution and punishment for perjury committed in so testifying. Complaints, orders and other processes and papers of the board of labor relations or the agent may be served personally, by registered or certified mail, by telegraph or by leaving a copy thereof at the principal office or place of business of the person required to be served. The verified return of service shall be proof of such service. Witnesses summoned before said board or the agent shall be paid the same fees and mileage allowances that are paid witnesses in the courts of this state, and witnesses whose depositions are taken and the person taking the same shall severally be entitled to the same fees as are paid for like services in the courts of this state. All processes of any court to which an application or petition may be made under this chapter may be served in the county wherein the person or persons required to be served reside or may be found.

(g) (1) The board of labor relations may petition the superior court for the county wherein the prohibited practice in question occurred or wherein any party charged with the prohibited practice resides or transacts business, or, if said court is not in session, any judge of said court, for the enforcement of an order and for appropriate temporary relief or a restraining order, and shall certify and file in the court a transcript of the entire record of the proceedings, including the pleadings and testimony upon which such order was made and the finding and orders of said board. Within five days after filing such petition in the superior court, said board shall cause a notice of such petition to be sent by registered or certified mail to all parties or their representatives. The superior court, or, if said court is not in session, any judge of said court, shall have jurisdiction of the proceedings and of the questions determined thereon, and shall have the power to grant such relief, including temporary relief, as it deems just and suitable and to make and enter a decree enforcing, modifying and enforcing as so modified, or setting aside in whole or in part, the order of said board. (2) No objection that has not been urged before the board of labor relations shall be considered by the court, unless the failure to urge such objection is excused because of extraordinary circumstances. The findings of said board as to the facts, if supported by substantial evidence, shall be conclusive. If either party applies to the court for leave to adduce additional evidence and shows to the satisfaction of the court that such additional evidence is material and that there were reasonable grounds for the failure to adduce such evidence in the hearing before said board, the court may order such additional evidence to be taken before said board and to be made part of the transcript. The board of labor relations may modify its findings as to the facts, or make new findings, by reason of additional evidence so taken, and it shall file such modified or new findings, which, if supported by substantial evidence, shall be conclusive, and shall file its recommendations, if any, for the modification or setting aside of its original order. (3) The jurisdiction of the superior court shall be exclusive and its judgment and decree shall be final, except that the same shall be subject to review by the supreme court, on appeal, by either party, irrespective of the nature of the decree or judgement or the amount involved. Such appeal shall be taken and prosecuted in the same manner and form and with the same effect as is provided in other cases of appeal to the supreme court, and the record so certified shall contain all that was before the lower court. (4) Any party aggrieved by a final order of the board of labor relations granting or denying in whole or in part the relief sought may obtain a review of such order in the superior court for the county where the prohibited practice was alleged to have occurred or in the county wherein such party resides or transacts business by filing in the court, or, if said court is not in session, with any judge thereof, within two weeks from the date of such order, a written petition in duplicate praying that the order of said board be modified or set aside. The clerk of the superior court shall thereupon mail the duplicate copy to said board. The board of labor relations shall then file in said court a transcript of the entire record in the proceeding, certified by said board, including the pleadings, testimony and order of the board. Upon such filing said

court or such judge shall proceed in the same manner as in the case of a petition by said board under this section and shall have the same exclusive jurisdiction to grant to the party such temporary relief or restraining order as it deems just and suitable, and in like manner to make and enter a decree enforcing or modifying and enforcing as so modified or setting aside, in whole or in part, the order of said board. Unless otherwise directed by the court, commencement of proceedings under subdivisions (1) and (4) of this subsection shall not operate as a stay of such order. (5) Petitions filed under this subsection shall be heard expeditiously and determined upon the transcript filed, without requirement of printing. Hearings in the superior court or supreme court under this chapter shall take precedence over all other matters, except matters of the same character.

(h) Subject to regulations to be made by the board of labor relations, the complaints, orders and testimony relating to a proceeding instituted under subsection (e) of this section may be available for inspection or copying. All proceedings pursuant to said subsection shall be open to the public.

(i) Any person who wilfully resists, prevents or interferes with any member of the board of labor relations or the agent in the performance of duties pursuant to subsections (e) to (i), inclusive, of this section shall be fined not more than five hundred dollars or imprisoned not more than six months or both.

Sec. 10-153f. Mediation and arbitration of disagreements.

(a) There shall be an arbitration panel of not less than ten or more than twenty-five persons to serve as provided in subsection (c) of this section. The governor shall appoint before the first day of December in the year of his election ten persons to serve on such panel, and he may appoint additional persons to the panel at any time provided the total number of persons serving on the panel shall not exceed twenty-five. Each appointee shall serve until the last day of December following the first gubernatorial election after his appointment. Persons appointed to the arbitration panel shall serve without compensation but each shall receive a per diem fee for each day during which he is engaged in the arbitration of a dispute pursuant to sections 10-153a to 10-153g, inclusive. The parties to the dispute so arbitrated shall pay the fee in accordance with subsection (c) of this section.

(b) If any town or regional board of education cannot agree with the exclusive representatives of a teachers' or administrators' unit after negotiation concerning the terms and conditions of employment applicable to the employees in such unit, either party may submit the issues to the secretary for mediation. If on the one hundred twentieth day prior to the budget submission date, the parties have not reached agreement and have failed to initiate mediation, the secretary shall order the parties to appear before him to commence mediation. In either case, the parties shall meet with a mediator mutually selected by them, provided such parties shall inform the secretary of the name of such mediator, or with the secretary or his agents or a mediator designated by him. Mediators shall be chosen from a panel of mediators selected by the state board of education or from any other panel of qualified mediators. Such mediators shall receive a per diem fee determined on the basis of the prevailing rate for such services, and the parties shall share equally in the cost of such mediation. In any civil or criminal case, any proceeding preliminary thereto, or in any legislative or administrative proceeding, a mediator shall not disclose any confidential communication made to him in the course of his duties unless the party making such communication waives such privilege. The parties shall provide such information as the secretary may require. The secretary may recommend a basis for settlement but such recommendations shall not be binding upon the parties. Such recommendation shall be made within thirty days after the day on which mediation begins.

(c) (1) On the fourth day next following the end of the mediation session or on the ninetieth day prior to the budget submission date, whichever is sooner, the secretary shall order the parties to report their settlement of the dispute or, if there is no settlement, to appear before him. At such meeting the parties shall notify the secretary of the name of the single arbitrator mutually selected by them or shall

notify him of the name of the arbitrator selected by each of them. Unless the parties have agreed to submit their dispute to a single arbitrator, their designated arbitrators shall select a third arbitrator within five days after such meeting with the secretary and shall notify the secretary of the name of such third arbitrator. If, at such meeting, either party fails to notify the secretary of the name of an arbitrator, the secretary shall designate an arbitrator to serve and the two arbitrators shall select a third. If in either case the two arbitrators fail to agree on the selection of a third arbitrator within five days after said meeting with the secretary, secretary shall select the third arbitrator. If both parties fail to select an arbitrator, the secretary shall recommend to the parties the names of three arbitrators and the parties shall mutually select one of those so recommended to arbitrate the dispute, provided that if the parties are unable to agree on the selection of such arbitrator, the secretary shall designate such arbitrator. Arbitrators may be selected from the panel appointed pursuant to subsection (a) of this section or from any other panel of qualified arbitrators, and shall receive a per diem fee determined on the basis of the prevailing rate for such services. Whenever a panel of three arbitrators is selected, the third arbitrator shall serve as chairman of such panel.

(2) The chairman of the arbitration panel or the single arbitrator shall set the time and place for a hearing to be held in the school district on the tenth day after such chairman or such single arbitrator is designated except that if such day is Saturday, Sunday or a holiday, the hearing shall be held on the next Monday or the day following the holiday. At least five days prior to such hearing, a written notice of the time and place of the hearing shall be sent to the board of education and the representative organization which are parties to the dispute, and, if a three member arbitration panel is selected, to the other members of such panel. Such written notice shall also be sent to the fiscal authority having budgetary responsibility or charged with making appropriations for the school district, and a representative designated by such body may be heard at the hearing as part of the presentation and participation of the board of education. At the hearing each party shall have full opportunity to submit all relevant evidence, to introduce relevant documents and written material, and to argue on behalf of its positions. The chairman of the arbitration panel or the single arbitrator shall preside over such hearing.

(3) The hearing may, at the discretion of the arbitration panel or the single arbitrator, be continued but in any event shall be concluded within twenty days after its commencement.

(4) After hearing all the issues, the arbitrators or the single arbitrator shall, within fifteen days, render a decision in writing, signed by a majority of the arbitrators or the single arbitrator, which states in detail the nature of the decision and the disposition of the issues by the arbitrators or the single arbitrator. The arbitrators or the single arbitrator shall file one copy of the decision with the secretary, each town clerk in the school district involved and the board of education and organization which are parties to the dispute. The decision of the arbitrators or the single arbitrator shall be advisory and shall not be binding upon the parties to the dispute. The parties shall each pay the fee of the arbitrator selected by or for them and share equally the fee of the third arbitrator or the single arbitrator and all other costs incidental to the arbitration.

(5) The secretary shall assist the arbitration panel or the single arbitrator as may be required in the course of arbitration pursuant to this section.

(6) If the day for filing any document required pursuant to this section falls on Saturday, Sunday or a holiday, the time for such filing shall be extended to the next business day thereafter.

(d) If after arbitration pursuant to this section, the parties have not settled their dispute or if a contract is rejected pursuant to section 10-153d, the secretary shall order the parties to commence negotiations in accordance with the provisions of section 10-153d within fifteen days following receipt by the parties of the arbitration decision or within fifteen days following rejection of the contract.

(e) The secretary may, at any time following arbitration pursuant to this section, meet, separately or jointly, with members of the town or regional board of education, members of the representative organization, and members of the fiscal authority having budgetary responsibility or charged with making appropriations for the school district.

(f) The secretary and the arbitrators or single arbitrator shall have the same powers and duties as the board under section 31-108 for the purposes of mediation or arbitration pursuant to sections 10-153a to 10-153g, inclusive, and all provisions in section 31-108 with respect to procedure, jurisdiction of the superior court, witnesses and penalties shall apply.

Such retired member shall receive a supplemental annuity or the present value thereof in a lump sum. An additional annuity or the present value thereof in a lump sum shall be paid to the member on his retirement. Any person receiving payments on an annuity as provided in this section shall receive with each monthly payment of his annuity an equal amount to be paid from the pension fund as directed by the retirement board, provided, if such person has completed twenty or more years of public school service, he shall be entitled to additional pension to such an amount that his annual retirement allowance shall equal forty per cent of the average annual salary received during the three years of highest salary during Connecticut public school service preceding retirement with twenty years of service, and, for each additional month of a creditable year of service, there shall be added a fraction of two per cent as determined by the retirement board, provided the annual retirement allowance shall not exceed seventy-five per cent of such average annual salary.

(d) Any member of the retirement association whose service in the public schools of the state has covered a period of ten or more years and who, before attaining the age of sixty-five years, becomes permanently incapable of rendering satisfactory service as a teacher by reason of physical or mental disability as shown by examination, may, with the approval of the retirement board, be retired by the employing board of education, and any teacher so retired shall receive for retirement allowance (1) an annuity as computed under the tables adopted by the retirement board and (2) a pension to such an amount that the annual retirement allowance shall equal one sixty-fifth of the average annual salary received during the three years of highest salary preceding retirement for each creditable year of service or fraction thereof, provided continuance of disability of such teacher shall be indicated by examination annually for five years and at such subsequent times as the retirement board may require, by a physician selected by the retirement board, unless such examination is waived by said board. If the retirement board finds that such disability no longer exists, the retirement allowance as provided in this section shall cease. Upon refusal of a teacher to submit to examination, the retirement board shall discontinue the payment of the retirement allowance authorized by the provisions of this section. If the disability ceases to exist and such member is unable to secure a position in the public schools which requires certification as provided in section 10-145, such member shall be permitted to retire on a normal, early or prorable retirement allowance, if eligible, or to retain a vested right to a deferred benefit, if eligible.

(e) The retirement board may offer benefits of equal value to the benefits herein provided and the contributor retiring may accept the benefits herein provided or one of such alternate benefits.

(f) A reinstated member, who otherwise meets the qualifications for a retirement allowance, shall not be entitled to the benefits of this section until he has taught continuously at least one school year in the public schools of this state after his latest reentry into the association.

(g) A retirement allowance shall not become effective before the expiration of the full calendar month following the filing date with the retirement board of a member's formal application for retirement, and the first day of the month next following the end of such calendar month shall be the date as of which the retirement allowance shall begin, and the first payment due shall be made on the last day of that month. If it is impossible or impracticable to consult the original records as to wages received by a member during any period, the retirement board shall determine the pension to be paid under the provisions of this section in accordance with such evidence as it is able to obtain.

(h) Any teacher who entered or shall enter, or who has been or shall be reinstated in, the retirement association on or after July 1, 1929, may receive a service credit which shall not exceed ten years in the aggregate for such public school service or service in schools for military dependents as he has rendered as a teacher in another state of the United States or in any territory or possession thereof and, in the case of service in schools for military dependents, in a foreign country, provided, if such service was rendered in another state of the United States or in any territory or possession thereof, such state, territory or possession in which such service was rendered makes similar provision for former teachers of this state and provided he shall make application in writing to the secretary of the retirement association, and shall pay to the annuity fund, within five years of such entry, assessments for each year of such service on the basis of five per cent of his full time Connecticut teaching salary at the time of his reinstatement, or in the case of a new member, his first annual full time Connecticut teaching salary and interest at the rate of five per cent from the date such out-of-state service was rendered to the date of payment and provided he is not receiving or entitled to receive a retirement allowance from any other state, territory or possession for such service. Any teacher who is eligible for such out-of-state service credit but failed to purchase such credit within five years of entry into the teachers' retirement association may make application in writing to the secretary of the retirement association for such credit no later than June 30, 1977. Payment for the purchase of such credit may be made in a lump sum or in accordance with an instalment plan acceptable to the retirement association, provided the last instalment shall be due not later than July 1, 1982 or five years from the date of application for such credit, whichever is earlier. Such credit shall not be used for retirement purposes prior to July 1, 1977. If any state, subsequent to a teacher's participation in the teachers' retirement system, makes similar credit provisions for service rendered in Connecticut schools, such teacher may purchase, before July 1, 1978, or within five years from the date on which such provisions are adopted, whichever is later, credit in the teachers' retirement system subject to the other limitations of this subsection. Any teacher who, on May 28, 1974, is entitled under this section to receive retirement credit for service in a school for military dependents located in a foreign country, shall, no later than five years from May 28, 1974, make application in writing to the secretary of the retirement association and pay to the annuity fund assessments for each year of such service on the basis of five per cent of his first annual Connecticut teaching salary and interest at the rate of five per cent from the date such foreign service was rendered to the date of payment.

(i) Any member of the retirement association who enlists or is inducted into the armed forces of the United States, as defined by section 27-103, or who is ordered to report for active duty with such forces may during the time he so serves, continue his membership in the retirement association and may make or have made for him payments of his assessments to the annuity fund for the periods as defined by section 27-103 to and including the end of the school year in which such service was rendered. If payment is made during such periods or at any time before retirement, the member shall receive credit for such service and he shall be considered as serving as a public school teacher in this state for the purpose of computing his length of service and shall be considered by the retirement board as though he were remaining in his latest teaching position.

(j) If a member has elected the option of section 10-171 and has made payment at any time before retirement he shall receive credit for such service for the purpose of computing his length of Connecticut service and such time shall be considered creditable teaching service for purposes of determining his retirement eligibility.

Attempt by local board of education to set a retirement age less than the age established by statute represents an effort to alter, by local regulation, an integral part of the coordinated plan adopted by the state for its public school system. This power does not reside in local boards. 152 C. 151.

Sec. 10-167. Designation of co-participant.

A member may, before the effective date of his retirement allowance, subject to such regulations as the retirement board may establish from time to time, elect to receive a reduced monthly retirement allowance, of which the whole, or such part as is specified by such member in his election, shall be paid as hereinafter provided to the spouse, dependent parent, brother or sister of such member, as he shall designate in his election, to be referred to hereinafter as the co-participant, for as long as such co-participant lives. A member electing this option shall execute and file an official form with the retirement board. Such election shall become effective (1) immediately, if filed on or before January 1, 1955, or (2) at the end of three years after the date of such execution and filing if such date was after January 1, 1955, or (3) at the time such member passes a satisfactory health examination, without expense to the state, by a physician to be appointed by the retirement board. The amount of such reduced retirement allowance shall be the amount determined by the retirement board to be the actuarial equivalent of the retirement allowance that would be payable in the absence of such election. If such member dies after the effective date of such election and, after the effective date of his retirement allowance, such retirement allowance or part thereof, as elected, shall be continued to his co-participant for as long as such co-participant lives. If such member dies after the effective date of such election and after completion of the age and service qualifications for retirement, with the exception of disability, but before the effective date of his retirement allowance, his co-participant shall receive such reduced retirement allowance, in accordance with regulations to be established by the retirement board, payable from the first day of the month following his death. In any case in which this provision would apply at the death of a member before retirement, the reduced amount of the retirement allowance payable either to the member or to his co-participant shall be based on the age of the member as of the effective date of his retirement allowance or the first day of the month following his death, as the case may be, and on the age of his co-participant on the first date on which such co-participant would have been entitled to the reduced retirement allowance if the member had died on such date. Any active member of the teachers' retirement association whose election of a co-participant designation became effective before January 1, 1958 and who became subject to the provisions of section 10-168 may withdraw such election on or before

December 15, 1961. Such member may refile a co-participant designation on an official form with the teachers' retirement board, which designation shall become effective (1) immediately, if filed on or before December 15, 1961, or (2) at the end of three years after the date of such execution and filing, if such date is after December 15, 1961, or (3) at the time such member passes a satisfactory health examination, without expense to the state, by a physician to be appointed by the retirement board. If such member's death should occur after he has withdrawn his election of a co-participant but before he has refiled a co-participant designation with the teachers' retirement board on or before December 15, 1961, death settlement shall be made according to the provisions of this chapter.

(1953, S 996d, 1957, P.A. 454, 1961, P.A. 397.)

Sec. 10-188. Death benefits.

If the member dies within two calendar months of his withdrawal from teaching in the public schools of this state, or prior to the effective date of his retirement, or prior to the date on which the co-participant option becomes effective, as provided in section 10-167, any amount credited to the member's annuity savings account with regular accumulated interest thereon, with the exception of any payments made for additional annuities, shall be applied toward the financing of such benefits for such dependents and such survivors of the member as defined herein and in such amounts as provided herein, notwithstanding any written designation of beneficiaries as provided for in section 10-176. When a deceased member's annuity savings account has been used in full in financing survivorship benefits, payments to his survivors shall be continued from the forfeitures, interest and state appropriations of the survivorship and dependency fund as provided in section 10-165. A member's benefit shall be computed under the following methods if he meets the conditions herein prescribed. (a) Survivors' and dependents' benefits shall be payable on the last day of the month following that month in which eligibility for such benefits occurs and no payment shall be due for the month in which ineligibility occurs. (b) The total family benefits that may accrue to the dependents of a member are limited to three hundred dollars in any one calendar month. No widow's or mother's benefit payable under subdivision (c), (d) or (e) of this section shall be reduced because of benefits payable to other dependents of the deceased member under the provisions of this section, but the benefits payable to such other dependents shall be prorated within the balance remaining after deducting the widow's or mother's benefits from the total family benefits payable under this subdivision. Whenever a child becomes ineligible for a monthly benefit, the benefit to which he had been entitled shall be reallocated among the surviving children entitled to such benefits, provided such adjusted benefit payable to each child shall not exceed the maximum benefit payable in subdivision (f). (c) Widow's insurance benefits are payable, upon filing application, if the deceased member died after January 1, 1958, and the widow (1) has not remarried; (2) was living with the husband at the time of his death. A widow is deemed to have been living with her husband at the time of his death if they were both members of the same household on the date of his death, or if she was receiving regular contributions from him toward her support or such date, or if he had been ordered by a court to contribute to her support. The term "widow" means the surviving wife of a deceased member, but only if she meets one of the following conditions. (1) Was married to him for not less than one year immediately prior to the day on which he died; or (2) is the mother of his son or daughter; or (3) legally adopted his son or daughter while married to him and while such son or daughter was under the age of eighteen; or (4) was married to him at the time both of them legally adopted a child under the age of eighteen. Such widow's insurance benefits shall be one hundred twenty-five dollars per month. (d) Mother's insurance benefits are payable, upon filing application, to the widow of a deceased member who died after January 1, 1958, if at the time of death the widow (1) has in her care a child of the deceased member entitled to child insurance benefits; (2) has not remarried; (3) is not entitled to a widow's insurance benefit under subsection (c) hereof; (4) was living with the husband at the time of his death. Such mother's insurance benefits shall be one hundred twenty-five dollars per month. (e) Mother's insurance benefits are payable, upon filing application, to the former wife divorced of a deceased member who died after January 1, 1958, if the former wife divorced (1) has in her care a child of the deceased member who is her son, daughter or legally adopted child entitled to child insurance benefits; (2) was receiving from the deceased member, pursuant to agreement or court order, at least one-half of her support at the time of his death; (3) has not remarried; (4) is not entitled to a widow's insurance benefit as provided by subsection (c) or (d). The term "former wife divorced" means a woman divorced from a deceased member, but only if she meets

one of the following conditions: (1) Is the mother of his son or daughter, (2) legally adopted his son or daughter while married to him and while such son or daughter was under the age of eighteen, or (3) was married to him at the time both of them legally adopted a child under the age of eighteen. Such mother's insurance benefits shall be one hundred twenty-five dollars per month. (f) Child insurance benefits are payable, upon filing application, to the child, including a stepchild or adopted child, of a deceased member who died after January 1, 1958, if the child (1) is unmarried and under the age of eighteen; and (2) was dependent upon the member at the time of his or her death; or (3) such dependent child was under a disability which began before he attained the age of eighteen. The term "disability" means inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or to be of long-continued and indefinite duration. An individual shall not be considered to be under a disability unless he furnishes such proof of the existence thereof as may be required by the retirement board. The term "child" includes a stepchild of a deceased member who has been such a stepchild for at least one year immediately preceding the day on which the member died or an adopted child of a deceased member without regard to the length of time the child has been adopted. If only one child is entitled, he shall receive one hundred twenty-five dollars per month. If more than one child is entitled, each child shall receive eighty dollars plus an equal share of an additional forty dollars per month. A child is considered dependent upon the father if the father at the time of his death was living with or contributing to the support of the child. If the father at the time of his death was not living with the child or contributing to his support, the child, if legitimate, is considered dependent upon the father unless the child (1) had been adopted by some other individual or (2) was living with and receiving more than one-half of his support from his stepfather. An adopted child is considered dependent upon his adopting father under the same conditions as those which apply to a father and his natural child. A child is considered dependent upon his stepfather at the time of the stepfather's death if the child was (1) living with his stepfather or (2) receiving at least one-half of his support from his stepfather. A child is considered dependent upon his natural mother or adopting mother at the time of her death if such mother was a member when she died regardless of presence of or support furnished the child by the father. A child is considered dependent upon his natural, adopting or stepmother at the time of death of such mother if she was living with or contributing to the support of the child and the child (1) was neither living with nor receiving contributions from his father or adopting father or (2) was receiving at least one-half of his support from her. (g) Widower's insurance benefits are payable to the widower of a deceased woman member who died after January 1, 1958, and the widower (1) has not remarried; (2) is not entitled to a federal or state old age benefit based on his own earnings equal to or greater than the amount he would be entitled to as the dependent widower of the deceased wife; (3) was living with the wife at the time of her death. A widower is deemed to have been living with his wife at the time of her death if they were both members of the same household on the date of her death or he was receiving regular contributions from her toward his support on such date or she had been ordered by a court to contribute to his support; and (4) was receiving at least one-half of his support from the wife at the time of her death and filed proof of such support within two years of the date of death. The term "widower" means the surviving husband of a deceased woman member, but only if he meets one of the following conditions: (1) Was married to her for not less than one year immediately prior to the date on which she died, or (2) is the father of her son or daughter, or (3) legally adopted her son or daughter while married to her and while such son or daughter was under the age of eighteen; or (4) was married to her at the time both of them legally adopted a child under the age of eighteen. Such widower's insurance benefits shall be one hundred twenty-five dollars per month. (h) Parent's insurance benefits are payable, upon filing application, to the parent or parents of a deceased member who died after January 1, 1958, and if the member did not leave a widow, widower or child who could ever qualify for monthly insurance benefits on the member's wages and the parent (1) has reached the age of sixty-five; (2) has not remarried after the death of the member; (3) was receiving at least one-half of his or her support from the member at the time of the member's death and filed proof of such support within two years of the date of death, and (4) is not entitled to a federal or state old age benefit based on his or her own earnings equal to or greater than the amount he or she would be entitled to as the dependent parent of the deceased member. The term "parent" means (1) the mother or father of a deceased member; (2) a stepparent of the deceased member by a marriage contracted before the member attained the age of sixteen, or (3) an adopting parent who adopted the deceased member before he or she reached the age of sixteen. Such parent's insurance benefits shall be one hundred twenty-five dollars per month. (i) Upon the death after January 1, 1958, of a member, except in those cases where the co-participant option as defined in section 10,167 has become effective, a lump sum death payment is payable to the person whom the retirement

board determines to be the widow or widower of the deceased and to have been living with the deceased at the time of death. If there is no such person, an amount is payable to any person or persons to the extent and in the proportion that he or they have paid the burial expenses for the deceased insured individual. No payment shall be made unless application is filed within two years after the date of death. The lump sum death payment shall be five hundred dollars for members with five years or less of creditable Connecticut public school service, provided, if a member has rendered more than five years of such service, an additional payment of one hundred dollars shall be made for each completed year payable from forfeitures. The statutory maximum is one thousand dollars. Any amount credited to the member's annuity savings account, with the exception of any payments made for additional annuities not expended in survivorship benefits or a lump sum death payment as provided herein, shall be paid to the member's estate or to such person as he has nominated by written designation executed and filed with the retirement board, with regular interest thereon.

Sec. 10-168a. Survivor's options on death of member.

If at the time of death of a member of the teachers' retirement association there is a sole survivor entitled to receive monthly benefits as provided in section 10-168 who is also legally designated by the member as his sole beneficiary and has reached his eighteenth birthday, such survivor shall be allowed to accept any amount credited to the member's annuity savings account in a single payment in lieu of the lump sum death payment or monthly benefits, or both, provided by said section. When a member has designated two or more beneficiaries, who are, at the time of his death, over age eighteen and one of whom is entitled to monthly benefits as provided in section 10-168, the one entitled to survivorship benefits shall be deemed the sole survivor within the meaning of this section, provided the other designated beneficiaries relinquish all claim to any funds that may be due them from the member's account in the teachers' retirement association. This section shall apply in any such case where a member has died since January 1, 1958, and any such sole survivor receiving or entitled to receive monthly benefits shall be allowed to withdraw any balance of the member's annuity savings account from which such monthly benefits are or will be financed.

Teachers are not entitled to retirement benefits from both state teachers' and state employees' retirement systems. 16 CS 196

Sec. 10-176. Withdrawal and refunds.

Any member of the retirement association withdrawing from service in the public schools in lieu of retiring on an allowance as provided in section 10-166 shall be entitled to receive from the annuity fund all amounts contributed, with accumulated regular interest thereon through the previous December thirty-first, in one sum or in four quarterly payments as the retirement board may elect, provided any such member who does not complete five years of service, which need not be consecutive years, in the public schools of this state shall be entitled to receive an amount equal to five per cent of his average annual salary with regular interest thereon; and provided any such member who completes five years of public school service shall not be entitled to receive interest on any amount of assessments in excess of five per cent paid into said annuity fund. Any member withdrawing from service in the public schools before

becoming eligible to retire shall also be entitled to receive any amounts plus regular interest thereon contributed by such member on a voluntary basis for additional annuities. Any amounts so withheld shall be paid to the survivorship and dependency fund. If such withdrawal takes place after ten annual assessments have been paid, the member so withdrawing may, if he so elects, receive the amount due him in the form of such annuity for life, based on the contributions of such member, with accumulated regular interest thereon to December thirty-first prior to the date of withdrawal, as may be determined by the retirement board in accordance with its annuity tables. If a member of the association withdrawing and receiving payments in accordance with the provisions of this section dies before the amount of such payments equals the amount of his contributions to the annuity fund, with accumulated regular interest to December thirty-first prior to the date of withdrawal, the difference between the amount of such payments and the amount of his contributions, with accumulated regular interest to December thirty-first prior to the date of withdrawal, shall be paid to the executor of his will or the administrator of his estate or to such person as he has nominated by written designation executed and filed with the retirement board. Any member of the retirement association who has withdrawn his accumulations from the annuity fund shall, on being reemployed in the public schools, be reinstated in the retirement association by (1) retaining the accumulations previously withdrawn and starting as a new member, thereby forfeiting prior service credit and forfeiting for twenty school months after reentry entitlement to benefits for his survivors and dependents as provided in section 10-168, or (2) by repaying with interest at the rate of five per cent from date of withdrawal to date of payment, in monthly instalments of not less than ten dollars, through his employing board of education, such accumulations as he has previously withdrawn, in order to be eligible for benefits for his survivors and dependents as provided in section 10-168. If a member of the retirement association dies before the effective date of his retirement, such amounts of his contributions to the annuity fund, with accumulated regular interest thereon through December thirty-first preceding his death, not used in the financing of survivorship benefits as defined in section 10-168, shall be paid to his estate or to such person as he has nominated by written designation executed and filed with the teachers' retirement board prior to his death, unless his election of the co-participant option as provided in section 10-167 has become effective for his co-participant. If no demand is made on the retirement board within six months next following the death of any member for the payment of the sums due under this section, such sums may be paid to such person or persons as are entitled to the estate, and such payment shall be a bar to recovery by any other person.

(1949 Rev. S 1602, 1957 P.A. 86, 562, S 5, 1963, P.A. 455, February, 1965, P.A. 242.)

Sec. 10-176a. Continuation of membership on withdrawal from public school service.

(a) A member of the teachers' retirement system who withdraws from service in the public schools of the state before he is eligible for a retirement allowance but who has completed at least ten years of creditable service in this state including the last five years, may continue to be a member, provided he leaves his contributions on deposit in the annuity fund, in which case he shall be eligible, upon reaching his sixtieth birthday, or upon reaching his sixty-fifth birthday if he had completed at least such ten years creditable service in this state, including the last five years, after his sixtieth birthday, to a retirement allowance as provided in section 10-166, based on his creditable years of service but reduced so as to constitute the actuarial equivalent, as determined by the retirement board, of the retirement allowance to which he would have otherwise been entitled under said section 10-166. Creditable service in the public schools of this state only shall be counted as part of such ten years. The retirement board may offer benefits of equal value to the benefits provided under this section and any member retiring under this section may accept the benefits provided herein or one of such alternate benefits.

(b) A member who has completed the service requirements of subsection (a) may withdraw his retirement contributions in lieu of receiving retirement income payments at such time as they are payable. If a member returns to public school service in this state, he shall be reinstated in the retirement association in accordance with regulations adopted by the teachers' retirement board.

(1967 P A 724 § 1.3, 1969, P A 228 § 1, 1971, P A 669, § 1, P A 73-197, P A, 75-84, § 1.2)

Sec. 10-176b. Withdrawal of contributions on leaving public school teaching. Death prior to receipt of deferred benefit.

A member who leaves public school teaching in this state may elect to withdraw the amounts contributed as provided in section 10-176. If a member cannot be located at the age of sixty, and no demand is made on the retirement board within six months for payment of a deferred benefit, his contributions shall be transferred to the annuity reserve fund. If a member who files an election under subsection (b) of section 10-176a dies before the effective date of his deferred benefit, such amounts of his contributions to the annuity fund, with accumulated regular interest thereon through December thirty-first preceding his death, shall be paid to his estate or to such person as he has nominated by written designation executed and filed with the teachers' retirement board prior to his death.

(1967 P A 724, § 2, 1969, P A 228, § 2)

Sec. 10-176c. Payment into reserve fund of moneys necessary to provide benefits.

The comptroller is directed to draw orders on the treasurer for the payment into a reserve fund of such moneys as are certified by the teachers' retirement board as necessary, according to the mortality tables adopted by the board, for the payment of benefits provided by section 10-176a. Such reserve fund shall be invested and controlled in the same manner as the annuity and pension funds of the retirement system.

(1967 P A 724, § 4; 1969, P A 228, § 3.)

Sec. 10-177. Funds not assignable, and exempt from attachment and taxation.

That portion of the salary or wages of a member deducted or to be deducted under this chapter, the right of a member to an annuity or pension and all his rights in the funds of the retirement system or the rights of any survivor to benefits under chapter 167 shall be exempt from taxation and from the operation of any laws relating to bankruptcy or insolvency and shall not be attached or taken upon execution or by any other process of any court. No assignment of any right in or to said funds shall be valid. The funds of the retirement system, so far as the same are invested in personal property, shall be exempt from taxation.

Sec. 10-178. Duties of education officials. Statement of deductions.

Such boards of education and boards of trustees and said commission shall, on or before September fifteenth of each year, certify to the retirement board the names and salaries of all persons in their employ to whom this chapter applies and shall, on the first day of each calendar month, amend such report by notifying the retirement board of the employment of new persons, removals, withdrawals and changes in salary that have occurred during the month preceding and shall, under the direction of the retirement board, furnish such other records and information as the board may require relevant to the discharge of the duties of the board. Such boards and said commission shall deduct monthly six per cent of one-tenth of the employee's annual salary rate as directed by the retirement board and any additional voluntary deductions as authorized by the employee, except that no deductions shall be made from any amounts received by regularly employed teachers for special teaching assignments rendered for the state board of education or the commission for higher education unless salary for such special teaching assignment is equal to or greater than the minimum salary paid for his regular teaching

assignment in the public day schools. Each such board and said commission shall send monthly to its treasurer an order for the amount of such deductions drawn in favor of the retirement board and shall send an annual statement of the total amounts deducted during the year on or before the last business day of June to the secretary of the retirement board. On the last business day of the month in which a person included under this section resigns, retires or dies, a report of the total amounts deducted for such person for the current school year shall be sent to the secretary of the teachers' retirement board by his employing board or commission.

The state treasurer shall certify to the state bond commission the amount of such rate of return for the two fiscal years preceding the date of issuance. On order of the teachers' retirement board, the state treasurer shall draw a check in favor of the teachers' retirement board from the pension fund, the annuity fund or the survivorship and dependency fund, covering such payments as are due members in accordance with sections 10-166, 10-168, 10-168a and 10-176, as listed in detail on a warrant specifying the order. The state bond commission shall have power, in accordance with the provisions of sections 3-17, 3-20, 3-27, 10-165, 10-179 and 10-180 and this section, from time to time to authorize the issuance of bonds of the state in one or more series and in principal amounts not exceeding, for each biennium, the difference between the amount appropriated by the legislature and the amount required under subdivision (3) of section 10-165.

(1969, P A 829, S. 1)

Sec. 10-181. Certain towns reimbursed.

Any town or city which has been exempted from the provisions of this chapter, which retires a teacher with a pension annuity or allowance and the board of education of which certifies under oath to the retirement board the amount of such annuity or allowance, shall be reimbursed annually by the state, within one month following the close of the current school year, to such amount as the retirement board determines.

(1949 Rev. S 1607)

Sec. 10-182. Insurance deductions.

Sec. 10-183. Substitute teaching or temporary employment by retired teacher.

A retired member of the retirement association may substitute in any one school year or be employed temporarily as a teaching specialist or homebound instructor in a position subject to membership in the retirement association but shall receive no more than three thousand six hundred dollars as compensation in any case where such compensation is paid out of any public money appropriated for school purposes. Notice of such employment shall be sent to the retirement board by the employing officials monthly and by the retired teacher at the end of each assignment during the school year.

(1957, P.A. 325, S. 1; 1961, P.A. 371; 1963, P.A. 542; 1967, P.A. 824, S. 1.)

Sec. 10-189a. Employment of retired teachers in emergency.

(a) The state teachers' retirement board may, upon certification by the secretary of the state board of education that an emergency exists, authorize a local board of education to reemploy a teacher who has been retired under section 10-166 or upon such certification by the commission for higher education authorize the board of trustees of any of the constituent units of the system of higher education to employ such a teacher, notwithstanding any provision in said section 10-166 to the contrary. Any member so reemployed may elect, upon completion of not less than six months of continuous service, to make contributions to the retirement fund which shall enable him to obtain additional retirement credit for such service when he subsequently retires. He may also elect to obtain credit for the service rendered during the period between the date of such reemployment and the date of such election, provided he shall contribute to the retirement fund at the rate of five per cent of the annual salary paid him during such period, plus interest at the rate of five per cent. Such payment shall be made within six months of the date on which his contributions to the teachers' retirement system shall resume. (b) The pension portion of the monthly payments of the retirement allowance of such reemployed member shall terminate on the first day of the month of such reemployment and thereafter shall be forfeited until the first of the month after such retired member ceases to be a regular teacher, at which time the pension portion of his allowance shall be resumed. (c) Such employment by a local board of education shall not be considered as service qualifying for continuing contract status under section 10-151, and the salary of the retired teacher so employed shall be fixed at an amount at least equal to that paid other teachers in the district with similar training and experience for the same type of service. Such employment by a local board of education or by the board of trustees of any of the constituent units of the system of higher education shall not include survivorship and dependency coverage as provided in section 10-168. (d) The same optional plan which was in effect for such reemployed member during his retirement shall be in full force and effect during his reemployment and retirement thereafter. (e) At the time of his subsequent retirement, such reemployed member shall be entitled to receive from the annuity fund, on the basis of tables adopted by the retirement board, an annuity based on the five per cent salary assessments contributed since his reemployment, with regular interest thereon, payable monthly, and a pension which shall be twice the amount of such annuity.

CHAPTER 168

SCHOOL ATTENDANCE AND EMPLOYMENT OF CHILDREN

Sec. 10-184. Duties of parents.

All parents and those who have the care of children shall bring them up in some lawful and honest employment and instruct them or cause them to be instructed in reading, writing, spelling, English grammar, geography, arithmetic and United States history and in citizenship, including a study of the town, state and federal governments. Each parent or other person having control of a child over seven and under sixteen years of age shall cause such child to attend a public day school regularly during the hours and terms the public school in the district wherein such child resides is in session, or while the school is in session in which provision for the instruction of such child is made according to law, unless the parent or person having control of such child is able to show that the child is elsewhere receiving equivalent instruction in the studies taught in the public schools. Children over fourteen years of age shall not be subject to the requirements of this section while lawfully employed at labor at home or elsewhere; but this provision shall not permit such children to be irregular in attendance at school while they are enrolled as pupils nor exempt any child who is enrolled as a member of a school from any rule concerning irregularity of attendance enacted by the board of education having control of the school.

Statute widely applied, no denial of equal protection. 29 CS 397.

Sec. 10-185. Penalty.

Each week's failure on the part of a person to comply with any provision of section 10-184 shall be a distinct offense, punishable by a fine not exceeding five dollars. Said penalty shall not be incurred when it appears that the child is destitute of clothing suitable for attending school and the parent or person having control of such child is unable to provide such clothing, or its mental or physical condition is such as to render its instruction inexpedient or impracticable. All offenses concerning the same child shall be charged in separate counts in one complaint. When a complaint contains more than one count, the court may give sentence on one or more counts and suspend sentence on the remaining counts. If, at the end of twelve weeks from the date of the sentence, it appears that the child concerned has attended school regularly during that time, judgment on such remaining counts shall not be executed.

(1949 Rev. S. 1446.)

Sec. 10-186. Duties of towns and regional school districts. Hearing. Appeal.

Each town or regional school district shall furnish, by transportation or otherwise, school accommodations so that each child over five and under twenty-one years of age who is not a graduate of a high school or vocational school may attend public school. If any town or district fails to furnish such accommodations, the parent or guardian of any child who is deprived of schooling, or an agent or officer whose duty it is to compel the observance of the laws concerning attendance at school, may, in writing, request a hearing by the board of education, and such board shall give such person a hearing within ten days after receipt of written request, shall make a stenographic record or tape recording of such hearing and shall make a finding within ten days after such hearing. Any such hearing shall be in compliance with the provisions of sections 4-177 to 4-180, inclusive. Any parent, guardian or officer aggrieved by such finding shall, upon request, be provided with a transcript of the hearing within thirty days of such request and may take an appeal therefrom to the state board of education. The chairman of the state board of education shall designate a member or members of such board or a member or members of the professional staff of the state department of education to hold a public hearing in the town or district in which the cause of the complaint arises and report thereon to said board. Such hearing members may examine witnesses but shall have no other powers vested in the state board of education under this section. If, after considering such report, the state board of education finds that any child is illegally or unreasonably deprived of schooling, said board shall order the board of education of such town or regional school district to make arrangements to enable such child to attend public school, provided the finding of

the board of education of a town or regional school district shall be upheld unless it is determined by the state board of education that such finding was arbitrary, capricious or unreasonable. If such school officers fail to take action upon such order within one month after receipt thereof and no suitable provision is made for such child, deprived of schooling, there shall be a forfeiture of the money appropriated by the state for the support of schools amounting to two dollars and twenty-five cents for each child for each week such child is deprived of schooling.

(1949 Rev. S 1447, 1955 S 941d, 1967 P.A. 463, S 1) Effective July 1, 1968, except with respect to any extension granted to a school district by the state board of education to open kindergartens no later than July 1, 1969, in which case the provisions of this section shall take effect with respect to such school district no later than July 1, 1969. (P.A. 75-639.)

Cited 99 C 695, 115 C 159, see note to Ch 106. This section must be read with section 10-220 and therefore failure of town to provide transportation which is reasonable and desirable for safety of school children constitutes failure to furnish school accommodations within this section 148 C 238 (one judge dissenting). State board cannot dictate, as between reasonable alternatives what local board shall provide, but state board can require reasonable compliance with general mandate contained in the statutes. A town or local board of education cannot question legality of this section for as creatures of state they cannot challenge legislation enacted by their creator. Held not improper for officer conducting the hearing to visit locale involved and make an investigation of his own. Id

Sec. 10-187. *Appeal from finding of state board.

Any parent or guardian or any town aggrieved by the finding of said state board of education rendered under the provisions of section 10-186 may appeal to the court of common pleas for the county or judicial district within which such town is situated or to any judge thereof in vacation.

Sec. 10-188. Private schools and instruction.

Attendance of children at a school other than a public school shall not be regarded as compliance with the laws of the state requiring parents and other persons having control of children to cause them to attend school, unless the teachers or persons having control of such school keep a register of attendance in the form and manner prescribed by the state board of education for the public schools, which register shall, at all times during school hours, be open to the inspection of the secretary and agents of the state board of education, and make such reports and returns concerning the school under their charge to the secretary of the state board of education as are required from boards of education concerning the public schools, except that no report concerning finances shall be required. No leaving certificate shall be issued unless it is made to appear to the authority to whom the application is made for such certificate that it is for the best interest of the child that such certificate be issued. Such leaving certificate shall be in the form prescribed and upon a blank furnished by said board and shall be issued in triplicate. One copy thereof shall be delivered to the parent or guardian of such child, one copy delivered to the employer, if other than the parent or guardian, and one copy deposited in the office of the state board of education. Sec. 10-191. Physical examination.

The secretary or an agent of the state board of education shall cause each child for whom a leaving certificate has been requested to be examined by a physician designated by said board. Such examining physician shall, before any leaving certificate is issued to such child, file with the agent of said board his certificate, on a form provided by said board, setting forth the height and weight of such child, the condition of his eyes and teeth, and such other information regarding his physical condition as is necessary, and whether he is physically fit for the employment specified in the statement of the prospective employer and shall indicate the kind of employment suitable for him in view of his physical condition. When the examining physician considers it advisable, he may issue a certificate of physical fitness for a limited time, at the expiration of which time the child shall again be examined before being permitted to continue at such work. In carrying out the provisions of this section, the town in which the child resides shall pay the expense of the examination.

In no case shall the amount of the basic scholarship fall below the level of average current expense per pupil for corresponding grade levels in the public schools in the demonstration area in the year immediately preceding the demonstration program.

(4) In addition to each base scholarship, compensatory scholarships shall be given to disadvantaged children. The amount of such compensatory scholarships and the manner by which children may qualify for them shall be established by the demonstration board.

(5) Adequate provision for the pro rata or incremental redemption of scholarships shall be made.

(6) The contract shall provide sufficient money to pay all actual and necessary transportation costs incurred by parents in sending their children to the school of their choice within the demonstration area, subject to distance limitations imposed by existing law.

Sec. 10-239f. Collective bargaining by teachers.

(1972 P.A. 104.S.1.)

Sec. 10-281x. Legislative findings.

It is hereby determined and declared as a matter of legislative finding: (1) The welfare of the state requires that each child receive a quality education. This objective is furthered by education of children in nonpublic and public schools; (2) a substantial number of citizens in this state are satisfying compulsory education laws, without cost to the taxpayers, by arranging for their children to receive equivalent instruction in studies taught in the public schools. Wherefore, it is declared to be the public policy of the state of Connecticut that in order to assist parents who are making this major contribution to the public welfare and to encourage them to continue to provide this public service, a program of reimbursement grants to parents of nonpublic school students is hereby established.

(1972 P.A. 104.S.2.)

If the parent has expended a lesser amount than that stipulated above, then the grant shall be in that lesser amount. Such grants shall in no event exceed monies expended by parents for purposes reimbursable pursuant to said sections and shall in no event exceed fifty per cent of the state-wide average cost of educating pupils in the public schools.

(1972, P.A. 104, S. 5.)

(1972, P.A. 104, S. 8.)

Sec. 10-281ee. Proration of grants if fund insufficient.

In the event that, in any fiscal year, the total amount of monies which were actually paid into the parental equivalent instruction cost reimbursement fund shall be insufficient to pay the total number of claims submitted by parents to the secretary, the reimbursement payments provided for in section 10-281aa shall be proportionate in amount to the per cent which the total amount of monies in the parental equivalent instruction cost reimbursement fund bears to the total amount of claims.

(1972, P.A. 104, S. 9.)

Sec. 10-281ff. Severability.

If a part of sections 10-281w to 10-281gg, inclusive, shall be held invalid, all valid parts that are severable from the invalid part shall remain in effect. Sec. 10-283. Applications for grants.

Each town or regional school district which has completed or shall complete a school building project on or after January 1, 1957, shall be eligible to apply for and accept grants as provided in this chapter. Any town desiring a grant for a public school building project may, by vote of its legislative body, authorize the board of education of such town to apply to the state board of education and to accept or reject such grant for the town. Any regional school board may vote to authorize the supervising agent of the regional school district to apply to the state board of education for and to accept or reject such grant for the district. Applications for such grants under this chapter shall be made by the superintendent of schools of such town or the supervising agent of the regional school district on the form provided and in the manner prescribed by the state board of education. Grant applications for school building projects not eligible for assistance under section 10-287a shall be reviewed by the state board of education on the basis of priorities for building projects and standards for school construction established by said board. Such priorities shall be reviewed annually by the board and shall be based upon various factors including, but not limited to: (1) The educational needs of the applicant; (2) the applicant's adjusted equalized net grand list per capita and its school tax rate as defined in section 10-261; (3) the applicant's need for the school building project considering the age and condition of existing facilities and projected enrolment figures of the applicant when compared with regional and statewide enrolment projections and whether or not in the five years immediately preceding said application there has been an abandonment, sale, lease, demolition or redirection of use of any school facility constructed or renovated with state assistance; (4) the applicant's current and projected expenditures for education and other municipal services; and (5) evidence of attempts on the part of the applicant to economize through the use of cooperative arrangements and to adequately maintain existing school facilities. All applications submitted prior to the first day of July in any year shall be reviewed promptly by the board and the amount of the grant for which such project is eligible shall be estimated. The board shall annually prepare a listing of all such eligible projects ranked in order of priority together with the amount of the estimated grants therefor including an estimate of the grant for payment of interest cost and shall submit the same to the governor and the general assembly on or before the fifteenth day of December, except as provided in section 10-283a, with a request for authorization to enter into grant commitments. The general assembly shall annually authorize the board to enter into grant commitments on behalf of the state in accordance with the board's priority listing in such amount as the general assembly shall determine. The board may not enter into any such grant commitments except pursuant to such legislative authorization. Notwithstanding the application date requirements of this section, the state board of education may approve applications for grants to assist school building projects to remedy damage from fire and catastrophe and safety and health violations at any time within the limit of available grant authorization and make payments thereon within the limit of appropriated funds. The state board of education shall issue regulations to carry out its duties under this section. Any regional school district which assumes the responsibility for completion of a public school building project shall be eligible for a grant pursuant to subsection (e) or (f), as the case may be, of section 10-286 when such project is completed and accepted by such regional school district. In computing the amount of a state grant for a school building project for which a grant application is submitted within five years after any abandonment, sale, lease, demolition or redirection of use of any school facility constructed or renovated with state assistance, the state board of education shall deduct the amount of money or value received from such abandonment, sale, lease, demolition or redirection of use from the total cost of such school building project.

The board shall prepare regulations with respect to standards and priorities for school building projects for which applications for state assistance are submitted pursuant to section 10-283, and shall submit the same prior to September 1, 1976 to a committee to be appointed not later than July 2, 1976, consisting of eight persons who are members of the general assembly at the time of their appointment and whose terms on such committee shall expire February 1, 1977, as follows: Two persons each appointed by

the speaker of the house of representatives, the minority leader of the house of representatives, the president pro tempore of the senate and the minority leader of the senate. Such regulations shall become effective on November 1, 1976, unless rejected or amended by said committee prior thereto. Regulations adopted pursuant to this section shall be filed with the secretary of the state for publication in accordance with chapter 54 and need not be in compliance with the other provisions of said chapter. The listing of eligible projects ranked in order of priority shall be submitted to said committee prior to December 15, 1976 to determine if said listing is in compliance with the standards and priorities established pursuant to said regulations. The committee may modify the priority listing if it finds that the board acted in an arbitrary or unreasonable manner in establishing such priority listing. Such modified priority listing must be in compliance with said standards and priorities. Prior to February 1, 1977, the committee shall submit the approved or modified listing of priority projects to the governor and the general assembly.

(P A 78-418.S 3.18.)

Sec. 10-284. Approval of applications by state board.

The state board of education shall have authority to receive, review and approve applications for state grants under this chapter, or to disapprove any such application if (1) it does not comply with the requirements of the state fire marshal or the state department of health or (2) it does not comply with the provisions of section 10-290d and section 10-291 calling for the filing of plans and specifications with the state board of education or (3) it does not meet the standards or school building priorities established by the state board of education, except that said board in any one fiscal year shall not approve commitments for state grants for regional vocational agriculture centers totaling more than three hundred thousand dollars or commitments for state grants for regional or local centers for occupational training which serve programs authorized under section 10-266f totaling more than one hundred thousand dollars or commitments for state grants for cooperative regional special educational facilities totaling more than two million dollars. When any such application is approved, said board shall certify to the comptroller the amount of the grant for which the town or regional school district is eligible under this chapter and the amount and time of the payment thereunder. Upon receipt of such certification, the comptroller is authorized and directed to draw his order on the treasurer in such amount and at such time as certified by said board.

Sec. 10-286. Computation of grants.

The amount of the grant approved by the state board of education under the provisions of this chapter for any completed school building project shall be computed as follows: (a) In the case of a new school plant, fifty per cent of the result of multiplying together the number of pupils such plant is designed to accommodate, the number of gross square feet per pupil determined by the state board of education to be adequate for the kind of educational program or programs intended, and the gross cost per square foot of such project, or fifty per cent of the cost of such project, whichever is less, provided, any such project on which construction was started prior to July 1, 1975, shall be reimbursed under the formula in effect prior to said date, (b) in the case of an extension of an existing school building, projects involving the major alteration of any existing building to be used for public school purposes, projects involving improvements to the site of an existing building, or projects involving the purchase of an existing building to be used for school purposes, one-half of the necessary cost as determined by the state board of education, (c) in the case of a school building project in a secondary regional school district, seventy per cent of the result of

multiplying together the number of pupils such project is designed to accommodate, the number of gross square feet per pupil determined by the state board of education to be adequate for the kind of educational program or programs intended, and the gross cost per square foot of such project, or seventy per cent of the cost of such project, whichever is less, provided, any such project on which construction was started prior to July 1, 1975, shall be reimbursed under the formula in effect prior to said date; (d) in the case of a school building project in a regional school district providing accommodations for pupils in kindergarten through grade twelve for all participating towns, eighty per cent of the result of multiplying together the number of pupils such project is designed to accommodate, the number of gross square feet per pupil determined by the state board of education to be adequate for the kind of educational program or programs intended, and the gross cost per square foot of such project, or eighty per cent of the cost of such project, whichever is less, provided, any such project on which construction was started prior to July 1, 1975, shall be reimbursed under the formula in effect prior to said date, and provided further that if any school building project described in subsections (a) through (d), inclusive, of this section, includes new outdoor athletic facilities, tennis courts or a natatorium, gymnasium or auditorium, the grant for the construction of such outdoor athletic facilities, tennis courts and natatorium shall be limited to twenty-five per cent of the total cost of construction thereof; the grant for the construction of an area of spectator seating in a gymnasium shall be twenty-five per cent of the total cost of construction thereof; and the grant for the construction of the seating area in an auditorium shall be limited to fifty per cent of the total cost of construction of the portion of such area that seats one-half of the designed enrolment of the school which it serves. (e) in the case of a regional vocational agriculture center, the total cost of such project, except as provided in section 10-284, (f) in the case of a local or regional center for occupational training which serves programs authorized under section 10-266f, the total cost of such project or two hundred thousand dollars, whichever is less, (g) in the case of a public school administrative or service facility, one-half the necessary project cost as determined by the state board of education; and (h) in the case of a project involving the lease of an existing building which has been used as a private school, an amount equal to one-twentieth of such building's appraised value not to exceed one-half the necessary cost of the lease as determined by the state board of education, provided such building shall be reappraised every five years and, provided further, no building shall be leased by a school district for more than twenty years. Such grant shall be paid annually at least ten days prior to the lease payment date for such building. Before any town or regional school district shall be eligible for a grant under the provisions of this subsection, such school district shall demonstrate to the state board of education that the proposed leasing arrangement will provide satisfactory school facilities at less cost than the construction of a new building. In the case of all grants computed under this section for a project which constitutes a replacement, extension or major alteration of a damaged or destroyed facility, the appraised value of the damaged or destroyed facility shall be deducted from project cost estimates prior to computation of the grant. The limitation on grants for new outdoor athletic facilities, tennis courts, natatorium, gymnasium and auditorium shall not apply to school building projects for which applications for review of preliminary plans and specifications on form 2A were submitted prior to October 1, 1975, in the case of towns and prior to October 15, 1975, in the case of regional school districts.

Sec. 10-286a. Grants for occupational training facilities.

Under the provisions of section 10-286 the state board of education may, within the limit of funds available, pay to any town or regional school district which may qualify a grant equal to the cost of constructing, remodeling, or renting and equipping facilities to be used for the purposes specified in section 10-266f on an experimental or demonstration basis on either a local or regional basis. Such grants shall not individually exceed two hundred thousand dollars and shall be paid in one lump sum upon approval by the state board of education.

Sec. 10-286b. Adjustment of grants approved prior to July 1, 1967. Formula for regional school districts.

School building project grants approved prior to July 1, 1967, shall be adjusted so that each payment made thereunder, on or after July 1, 1968, shall be equal to the total grant for such project recomputed in accordance with subsection (a), (b), (c) or (d) of section 10-286, as the case may be, and divided by the number of payments for which the original grant provided. The status of such projects with respect to

grade level and regional character for the purposes of such recomputation shall be the same as used for the original grant approved. School building project grants to regional school districts approved prior to July 1, 1967, shall be adjusted so that each payment made thereunder, on and after July 1, 1969, shall be equal to the amount derived by dividing the total grant which would have been due had the grant originally been computed on the basis of one thousand four hundred dollars for each pupil which the school was designed to accommodate or one-half the cost of such project, whichever was less, by the number of payments specified in the original grant. In addition, each such regional school district shall receive such additional percentage as would have been due under the general statutes in effect at the original date of approval of the grant. No grant payment due under the original computation of grants provided under this chapter shall be reduced by reason of the application of this section. For the amount due during the fiscal year ending June 30, 1970, there shall be added to each such payment an amount equal to the difference between the payment for such grant received during the fiscal year ending June 30, 1969, and the amount which would have been received during that time had this section been in effect.

Sec. 10-286d. Site-acquisition grant.

Any grant for a completed school building project approved by the state board of education after July 1, 1967, under the provisions of sections 10-282, 10-286, 10-286a and 10-286c shall include an amount equal to one-half of the site acquisition costs related to such project which are determined to be necessary by the state board of education, provided the site of such project was approved by the state board of education and by the local board of education in such school district prior to the date of beginning of construction. Such site-acquisition grant shall be in addition to the amount granted pursuant to section 10-286. In the case of the extension of an existing school building or a major alteration of such building, the site-acquisition grant shall apply only to additions to the site which are required by such project. In the case of new school building projects the date of site acquisition shall have no bearing on approval of a site-acquisition grant.

(1967, P.A. 588, S. 4, P.A. 76-418, S. 6, 18.)

Sec. 10-287. Instalment payment of grants. Construction contracts subject to bid.

A grant under this chapter to meet project costs not eligible for state financial assistance under section 10-287a shall be paid in equal annual instalments, the number of which shall be the same as the number of instalment payments on municipal bonds issued for the purpose of financing such costs except in cases where the number of such instalment payments on municipal bonds is less than five or where the project has been fully paid for, in which cases the number of instalments shall be five or, in the case of a regional vocational agriculture center or a cooperative regional special educational facility, shall be one. Grants under twenty-five thousand dollars shall be paid in one lump sum. All orders and contracts for school building construction receiving state assistance under this chapter shall be awarded to the lowest responsible qualified bidder only after a public invitation to bid, which shall be advertised in a newspaper having circulation in the town in which construction is to take place, except those contracts or orders costing less than ten thousand dollars and those of an emergency nature, as determined by the state board of education, in which cases the contractor or vendor may be selected by negotiation, provided no local fiscal regulations, ordinances or charter provisions conflict.

Bonds of each series shall bear such date or dates and mature at such time or times not exceeding thirty years from their respective dates and be subject to such redemption privileges, with or without premium, as may be fixed by the state bond commission. They shall be sold at not less than par and accrued interest and the full faith and credit of the state is pledged for the payment of the interest thereon and the principal thereof as the same shall become due, and accordingly and as part of the contract of the state with the holders of said bonds, appropriation of all amounts necessary for punctual payment of such principal and interest is hereby made, and the treasurer shall pay such principal and interest as the same become due. Any town or regional school district which has temporary notes outstanding in anticipation of the receipt of the proceeds from the sale of bonds authorized for construction of school building projects eligible for a grant under section 10-287a may renew such notes from time to time without regard to the provisions of sections 7-378 and 10-56 and any other sections of the general statutes, public act or special act or charter which limit the time for renewing temporary notes issued in anticipation of the receipt of the proceeds of bond issues, provided that (i) no such notes may be renewed to mature more than six months after the final grant payment under section 10-287a or July 1, 1971, whichever is later and (ii) all grant payments received by the town or district shall be applied promptly toward project costs or toward repayment of such temporary notes as the same shall become due and payable.

For the purpose of providing grants in the form of interest subsidies as set forth in this section, the state board of education shall certify to the comptroller, upon completion of each school building project eligible for assistance under section 10-287a, the local share of the cost of such project, which shall be the total cost of such project as determined by said board to be eligible for assistance under section 10-287a less the total grant payments paid by the state. The comptroller is authorized and directed to draw his order on the treasurer upon certification of said board to pay any regional school district, town, consolidated town and city and consolidated town and borough an interest subsidy on bonds issued after July 1, 1971, for the local share of the cost of such school building project but not in excess of the amount certified as such share by the state board of education for such project. Such interest subsidy shall be the difference between four per cent per annum and the lower of six per cent or the net interest cost on such bonds. Such payments shall be paid to the issuer at least ten days prior to the interest payment dates on such bonds and may be made on a reimbursement basis in the event such bonds were issued prior to the date of such certification by the state board of education.

Sec. 10-288. Grants and loans to towns unable to complete projects.

Any town or regional school district having a school building project which it is unable to finance, after estimating any grant available to it under section 10-286, may, by vote of its legislative body or by vote of the regional board of education, direct the selectmen or the chairman of the board of education of such town or regional school district to apply to the state board of education for a hardship grant or loan for such purpose. The board shall, in determining the town's or district's ability to finance such a school building project, consider among other factors for such town or for the towns comprising such district the valuation of real property within such town or district as reflected in a grand list adjusted on the basis of true market value, tax-supported bonded indebtedness, the tax rate, expenditures for school building projects since July 1, 1945, school building needs as determined by the local board or boards of education for the present biennium and for such future period as the state board deems appropriate, and planned and urgently needed capital improvements which will affect the debt burden or tax rate of the town or towns. If the state board finds that (1) the town or district is financially unable to complete such project and (2) the standard of education in such town or district will deteriorate unless a hardship grant or loan is received for such project, the state board may, with the approval of a committee consisting of the governor, the attorney general, the comptroller and the commissioner of finance and control, make a hardship grant or loan to such town or district in such amount and on such terms as it considers necessary and proper, and may in its discretion pay such grant or loan in one sum or in instalments. In case of a hardship grant or loan to a regional school district, said state board may allocate the amount thereof which shall be credited to each town's proportionate share of the project or of the district's indebtedness and current expenditures as determined under the provisions of section 10-51.

Sec. 10-288a. Replacement or relocation of secondary school associated with center.

When the secondary school with which an approved vocational agriculture center has been associated is to be replaced or relocated within a town or regional school district, the state board of education may require the relocation of the equipment and program in a building approximately equal to that serving as a center for vocational agriculture education. Such new facilities shall be included in or adjacent to the high school which is to serve the needs of the vocational agriculture pupils and shall conform to requirements of the state board of education with respect to location, design and construction. Said town or regional school district may receive a grant for the construction of such replaced or relocated vocational agriculture center as provided in subsection (e) of section 10-286 for a secondary regional school district or subsection (f) of section 10-286, whichever may be appropriate. Upon final approval by the state board of education of the replacement or relocation of such vocational agriculture center the town or regional school district may use the facilities which had previously served as such center for such purposes as it determines advisable.

School bonds authorized pursuant to this section or section 10-36, shall bear interest at such rate or rates as shall be determined in accordance with the provisions of resolutions authorizing such bonds.

(P A. 75-342.S 8.)

(P.A. 75-342.S.11.)

Sec. 1-21h. Conduct of meetings.

Only matters appearing on the agenda may be considered in such a session. Duly accredited representatives of the press or other news media, except those participating in the disturbance, shall be allowed to attend any session held pursuant to this section. Nothing in this section shall prohibit such public agency from establishing a procedure for readmitting an individual or individuals not responsible for wilfully disturbing the meeting.

(P.A. 75-342.S.13.)

(a) Any denial of the right to inspect or copy records provided for under section 1-19, shall be made to the person requesting such right by the public agency official who has custody or control of the public record, in writing, within four business days of such request. Failure to comply with a request to so inspect or copy such public record within such four business day period shall be deemed to be a denial.

(b) Any person denied the right to inspect or copy records under section 1-19 or wrongfully denied the right to attend any meeting of a public agency may appeal therefrom, within fifteen days, to the freedom of information commission, by filing a notice of appeal with said commission and a copy thereof with the agency. Said commission shall, within twenty days after receipt of the notice of appeal, hear such appeal after due notice to the parties and shall decide the appeal within fifteen days after such hearing, by confirming the action of the agency or ordering the agency to comply forthwith. It may, in its sound discretion, declare any or all actions taken at any meeting to which such person was denied the right to attend null and void.

(c) Any person who does not receive proper notice of any meeting of a public agency in accordance with the provisions of sections 1-15, 1-18a, 1-19 to 1-19b, inclusive, and 1-21 to 1-21k, inclusive, may appeal under the provisions of subsection (a) of this section. A public agency of the state shall be presumed to have given timely and proper notice of any meeting as provided for in said sections if notice is given in the Connecticut Law Journal or a Legislative Bulletin. A public agency of a political subdivision shall be presumed to have given proper notice of any meeting, if a notice is timely sent under the provisions of said sections by first-class mail to the address indicated in the request of the person requesting the same. If such commission, determines that notice was improper, it may, in its sound discretion, declare any or all actions taken at such meeting null and void.

(d) Any person aggrieved by the decision of said commission may appeal therefrom, within fifteen days, to the court of common pleas for the county or judicial district wherein such body, agency, commission, or official is located, which appeal shall be returnable to said court in the same manner as that prescribed for civil actions. Notice of such appeal shall be given by leaving a true and attested copy thereof with, or at the usual place of abode of, the chairman or secretary of said commission. The appeal shall state the reasons upon which it has been predicated and shall not stay proceedings upon the decision of said commission appealed from, but the court to which such appeal is returnable may, on application, on notice to the commission and on cause shown, grant a restraining order. Said commission shall be required to submit either the original documents acted upon by it and constituting the record of the case appealed from, or certified copies thereof. The court, upon such appeal, shall review the proceedings of said commission and shall allow any party to introduce evidence in addition to the contents of the record of the case returned by said commission if the record does not contain a complete transcript of the entire proceedings before said commission or if, upon the hearing upon such appeal, it appears to the court that additional testimony is necessary for the equitable disposition of the appeal. The court, upon such appeal and after a hearing thereon, may reverse or affirm, in whole or in part, or may modify or revise the decision appealed from. Such appeals shall be privileged in respect to their assignment for trial over all other actions except writs of habeas corpus and actions brought by or on behalf of the state, including informations on the relation of private individuals. Nothing in this section shall deprive any person of any rights he may have had at common law prior to January 1, 1958. The court, or the freedom of information commission, if it finds that the denial of any right created by sections 1-15, 1-18a, 1-19 to 1-19b, inclusive, and 1-21 to 1-21k, inclusive, was wilful and that there was no reasonable ground for such denial, shall fine the custodian or other official directly responsible for such denial not less than twenty nor more than five hundred dollars.

(P A 75-342, S 14, P A 76-435, S. 25, 82)

Said commission shall have the power to investigate all alleged violations of said sections and may for the purpose of investigating any violation hold a hearing, administer oaths, examine witnesses, receive oral and documentary evidence, have the power to subpoena witnesses under procedural rules adopted by the commission to compel attendance and to require the production for examination of any books and papers, which the commission deems relevant in any matter under investigation or in question. In case of a refusal to comply with any such subpoena or to testify with respect to any matter upon which that person may be lawfully interrogated, the court of common pleas for the county of Hartford, on application of the commission, may issue an order requiring such person to comply with such subpoena and to testify, failure to obey any such order of the court may be punished by the court as a contempt thereof.

(P A 76-349, S 2, 3)

Sec. 3-20. State general obligation bond procedure act. State bond commission.

(a) This section shall be known as and may be cited as, and its short title shall be, the state general obligation bond procedure act.

(b) The following terms, when used in this section, shall have the following meanings, unless the context otherwise requires: "Bonds" means general obligations of the state for the payment of the principal of and interest on which, as the same become due, the full faith and credit of the state are pledged; "bond act" means a general statute, public act or special act of the general assembly empowering the state bond commission to authorize bonds heretofore enacted or hereafter enacted; "refunding bonds" means bonds authorized to be issued and sold pursuant to subsection (i) hereof and hereunder; "resolution" means a resolution adopted by a majority of the members of the state bond commission. The adoption of a resolution is hereby deemed to satisfy and supersede the requirement of any bond act for a written determination signed by the majority of the members of the state bond commission and filed in the office of the secretary of the state; "state bond commission" or "commission" means the state bond commission as established herein.

(c) There is established the state bond commission, which shall consist of the governor, the treasurer, the comptroller, the attorney general, the commissioner of finance and control and the public works commissioner, each of whom may designate a deputy to represent him as a member at meetings of the state bond commission with full powers to act and vote in his behalf. The members of said commission shall serve without compensation.

(d) All bonds of the state, authorized by the state bond commission acting prior to July 1, 1972, pursuant to any bond act taking effect prior to such date, shall be issued in accordance with such bond act or this section. All bonds of the state authorized to be issued by the state bond commission acting on or after July 1, 1972, pursuant to any bond act taking effect before, on or after such date shall be authorized and shall be issued in accordance with this section.

(e) The principal and interest of bonds and refunding bonds, their transfer and the income therefrom, including any profit on the sale or transfer thereof, shall at all times be exempt from any taxation by the state of Connecticut or under its authority, except for estate or succession taxes.

Any expense incurred in connection with the carrying out of the provisions of this section, including the issuance of refunding bonds, shall be paid from the accrued interest and premiums or from the proceeds of the sale of such bonds or refunding bonds and in the same manner as other obligations of the state, except that expenses incurred in connection with the preparation, issuance and delivery of general obligation bonds issued in accordance with sections 3-17, 3-27, 10-165, 10-179, 10-180 and 10-180b, and delivered to the pension fund provided for in subdivision (3) of section 10-165 shall be paid out of the general fund if sufficient accrued interest and premiums are not available to pay such expenses. With the exception of the proceeds of refunding bonds, pending the use or application of any bond proceeds, such proceeds may be invested by the treasurer in bonds or obligations of, or guaranteed by, the state or the United States, or agencies or instrumentalities of the United States, or in certificates of deposit, commercial paper, savings accounts and bank acceptances. Except as may be provided herein or in any other public or special act, net earnings of investments of proceeds of bonds, and accrued interest and premiums on the issuance of such bonds shall, after payment of expenses incurred by the treasurer or state bond commission in connection with their issuance, if any, be deposited to the credit of the general fund.

(g) With the exception of refunding bonds, whenever a bond act empowers the state bond commission to authorize bonds for any project or purpose or projects or purposes, and whenever the state bond commission finds that the authorization of such bonds will be in the best interests of the state, it shall authorize such bonds by resolution adopted by the approving vote of at least a majority of said commission. No such resolution shall be so adopted by the state bond commission unless it finds that there has been filed with it such requests and such other documents as it or said bond act require. Such description shall be sufficient if made merely by reference to a numbered subsection, subdivision or other applicable section of such bond act. Upon adoption of a resolution, the principal amount of the bonds authorized therein for such purpose or project shall be deemed to be an appropriation and allocation of such amount for such purpose or project, respectively, and subject to approval by the governor of allotment thereof and to any authorization for such project or purpose that may otherwise be required, contracts may be awarded and obligations incurred with respect to any such project or purpose in amounts not in the aggregate exceeding such authorized principal amount, notwithstanding that such contracts and obligations may at a particular time exceed the amount of the proceeds from the sale of such bonds theretofore received by the state. In any such resolution so adopted, the state bond commission may include provision for the date or dates of such bonds, the maturity of such bonds and, notwithstanding the provisions of any bond act taking effect prior to July 1, 1973, provision for either serial or term, sinking fund or other reserve fund requirements, if any, due dates of the interest thereon, the form of such bonds, the denominations and designation of such bonds, registration, conversion and transfer privileges and the terms of redemption with or without premium and the date and manner of sale of such bonds, provisions for the consolidation of such bonds with other bonds including refunding bonds for the purpose of sale as provided in subsection (h) hereof, limitations with respect to the interest rate or rates on such bonds, provisions for receipt and deposit or investment of the good faith deposit pending delivery of such bonds and such other terms and conditions of such bonds and of the issuance and sale thereof as the state bond commission may determine to be in the best interest of the state, provided the state bond commission may delegate to the treasurer all or any part of the foregoing powers in which event the treasurer shall exercise such powers until the state bond commission, by adoption of a resolution prior to exercise of such powers by the treasurer shall elect to reassume the same. Such powers shall be exercised from time to time in such manner as the treasurer shall determine to be in the best interests of the state and he shall file a certificate of determination setting forth the details thereof with the secretary of the state bond commission on or before the date of delivery of such bonds, the details of which were determined by him in accordance with such delegation.

Each regulation when filed shall be in the form intended for publication, shall include the appropriate regulation section number and each section shall contain a section heading. The secretary of the state shall keep a permanent register of the regulations open to public inspection.

The agency's finding and a brief statement of the reasons therefor shall be filed with the regulation. The agency shall take appropriate measures to make emergency regulations known to the persons who may be affected by them.

(c) The secretary of the state, upon receipt of the certified copies of each regulation as provided in subsection (a) of this section, shall include the effective date of the particular regulation on one copy thereof and forward said copy to the commission on official legal publications, which shall publish the regulation in accordance with the provisions of section 4-173.

(c) The commission on official legal publications may omit from publications made pursuant to subsections (a) and (b) of this section any regulation the publication of which would be unduly cumbersome, expensive or otherwise inexpedient, if the regulation in printed or processed form is made available on application to the adopting agency, and if the commission on official legal publications publishes in both the Connecticut Law Journal and in any publication made pursuant to subsection (a) of this section a notice stating the general subject matter of the omitted regulation and how a copy thereof may be obtained.

(d) Any publication made pursuant to subsections (a) and (b) of this section shall be made available upon request to agencies and officials of this state free of charge, and to other persons at prices fixed by the commission on official legal publications, in accordance with section 51-18.

Sec. 4-175. *Declaratory judgment action to determine validity or applicability of regulation.

The validity or applicability of a regulation or order of an agency may be determined in an action for declaratory judgment brought in the court of common pleas for Hartford county, if the regulation or order, or its threatened application, interferes with or impairs, or threatens to interfere with or impair, the legal rights or privileges of the plaintiff. The agency shall be made a party to the action. A declaratory judgment may not be rendered unless the plaintiff has requested the agency to pass upon the validity or applicability of the regulation or order in question, pursuant to section 4-176, and the agency has either so acted or has declined to exercise its discretion thereunder.

Sec. 4-176. Declaratory rulings.

Each agency may, in its discretion, issue declaratory rulings as to the applicability of any statutory provision or of any regulation or order of the agency, and each agency shall provide by regulation for the filing and prompt disposition of petitions seeking such rulings. If the agency fails to exercise its discretion to issue such a ruling, such failure shall be deemed a sufficient request by the plaintiff for the purposes of section 4-175. Rulings disposing of petitions have the same status as agency decisions or orders in contested cases.

statement of the legal authority and jurisdiction under which the hearing is to be held; (3) a reference to the particular sections of the statutes and regulations involved, (4) a short and plain statement of the matters asserted. If the agency or other party is unable to state the matters in detail at the time the notice is served, the initial notice may be limited to a statement of the issues involved. Thereafter upon application a more definite and detailed statement shall be furnished.

(c) Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Sec. 4-178. Evidence in contested cases.

In contested cases, (1) Any oral or documentary evidence may be received, but the agency shall, as a matter of policy, provide for the exclusion of irrelevant, immaterial or unduly repetitious evidence. Agencies shall give effect to the rules of privilege recognized by law. Subject to these requirements, when a hearing will be expedited and the interests of the parties will not be prejudiced substantially, any part of the evidence may be received in written form, (2) documentary evidence may be received in the form of copies or excerpts, if the original is not readily available. Upon request, parties shall be given an opportunity to compare the copy with the original. (3) a party may conduct cross-examinations required for a full and true disclosure of the facts. (4) notice may be taken of judicially cognizable facts. In addition, notice may be taken of generally recognized technical or scientific facts within the agency's specialized knowledge. Sec. 4-179. Proposal for decision. Procedure. Waiver.

When in a contested case a majority of the officials of the agency who are to render the final decision have not heard the case or read the record, the decision, if adverse to a party to the proceeding other than the agency itself, shall not be made until a proposal for decision is served upon the parties, and an opportunity is afforded to each party adversely affected to file exceptions and present briefs and oral argument to the officials who are to render the decision. The proposal for decision shall contain a statement of the reasons therefor and of each issue of fact or law necessary to the proposed decision, prepared by the person who conducted the hearing or one who has read the record. The parties by written stipulation may waive compliance with this section.

Sec. 4-180. Final decision to be rendered within ninety days. Application to court upon agency failure. Decision to be in writing and parties notified.

(a) Each agency shall proceed with reasonable dispatch to conclude any matter pending before it and shall render a final decision in all contested cases within ninety days following the close of evidence and filing of briefs in such proceedings.

(b) If any agency fails to comply with the provisions of subsection (a) of this section in any contested case, any party thereto or any interested person may apply to the court of common pleas for Hartford county for an order requiring the agency to render a decision forthwith, after hearing, the court shall issue such order unless the agency establishes to the satisfaction of the court reasonable cause for such failure.

(c) A final decision or order adverse to a party in a contested case shall be in writing or stated in the record. Parties shall be notified either personally or by mail of any decision or order. Upon request a copy of the decision or order shall be delivered or mailed forthwith to each party and to his attorney of record.

Sec. 4-181. Communications between agency members and employees and parties in contested cases.

Unless required for the disposition of ex parte matters authorized by law, members or employees of an agency assigned to render a decision or to make findings of fact and conclusions of law in a contested case shall not communicate, directly or indirectly, in connection with any issue of fact, with any person or party, nor, in connection with any issue of law, with any party or his representative, except upon notice and opportunity for all parties to participate. An agency member may communicate with other members of the agency, and may have the aid and advice of one or more personal assistants.

Sec. 4-182. Matters involving licenses.

(a) When the grant, denial or renewal of a license is required to be preceded by notice and opportunity for hearing, the provisions of this chapter concerning contested cases apply.

(b) When a licensee has made timely and sufficient application for the renewal of a license or a new license with reference to any activity of a continuing nature, the existing license shall not expire until the application has been finally determined by the agency, and, in case the application is denied or the terms of the new license limited, until the last day for seeking review of the agency order or a later date fixed by order of the reviewing court.

(c) No revocation, suspension, annulment or withdrawal of any license is lawful unless, prior to the institution of agency proceedings, the agency gave notice by mail to the licensee of facts or conduct which warrant the intended action, and the licensee was given an opportunity to show compliance with all lawful requirements for the retention of the license. If the agency finds that public health, safety or welfare imperatively requires emergency action, and incorporates a finding to that effect in its order, summary suspension of a license may be ordered pending proceedings for revocation or other action. These proceedings shall be promptly instituted and determined.

(1971 P.A. 854 S. 17)

Sec. 4-183. *Judicial review. Waiver of costs.

(a) A person who has exhausted all administrative remedies available within the agency and who is aggrieved by a final decision in a contested case is entitled to judicial review under this chapter, provided, in case of conflict between this chapter and federal statutes or regulations relating to limitations of periods of time, procedures for filing appeals or jurisdiction or venue of any court or tribunal, such federal provisions shall prevail. This section does not limit utilization of or the scope of judicial review available under other means of review, redress, relief or trial de novo provided by law. A preliminary, procedural or intermediate agency action or ruling is immediately reviewable if review of the final agency decision would not provide an adequate remedy.

(b) Proceedings for review shall be instituted by filing a petition in the court of common pleas in the county wherein the aggrieved person resides within thirty days after mailing of the notice of the final decision of the agency or, if a rehearing is requested, within thirty days after the decision thereon. Copies of the petition shall be served upon the agency and all parties of record.

(c) The filing of the petition does not of itself stay enforcement of the agency decision. The agency may grant, or the reviewing court may order, a stay upon appropriate terms.

(d) Within thirty days after the service of the petition, or within such further time as may be allowed by the court, the agency shall transmit to the reviewing court the original or a certified copy of the entire record of the proceeding under review, which shall include the agency's findings of fact and conclusions of law, separately stated. By stipulation of all parties to the review proceedings, the record may be shortened. A party unreasonably refusing to stipulate to limit the record may be taxed by the court for the additional costs. The court may require or permit subsequent corrections or additions to the record.

(e) If, before the date set for hearing, application is made to the court for leave to present additional evidence, and it is shown to the satisfaction of the court that the additional evidence is material and that there were good reasons for failure to present it in the proceeding before the agency, the court may order that the additional evidence be taken before the agency upon conditions determined by the court. The agency may modify its findings and decision by reason of the additional evidence and shall file that evidence and any modifications, new findings, or decisions with the reviewing court.

(f) The review shall be conducted by the court without a jury and shall be confined to the record. In cases of alleged irregularities in procedure before the agency, not shown in the record, proof thereon may be taken in the court. The court, upon request, shall hear oral argument and receive written briefs.

(g) The court shall not substitute its judgment for that of the agency as to the weight of the evidence on questions of fact. The court may affirm the decision of the agency or remand the case for further proceedings. The court may reverse or modify the decision if substantial rights of the appellant have been prejudiced because the administrative findings, inferences, conclusions, or decisions are: (1) in violation of constitutional or statutory provisions; (2) in excess of the statutory authority of the agency; (3) made upon unlawful procedure; (4) affected by other error of law; (5) clearly erroneous in view of the reliable, probative, and substantial evidence on the whole record; or (6) arbitrary or capricious or characterized by abuse of discretion or clearly unwarranted exercise of discretion.

(h) In any case in which an aggrieved party claims that he cannot pay the costs of an appeal under this section and will thereby be deprived of a right to which he is entitled, he shall, within the time permitted for filing the appeal, file with the clerk of the court to which the appeal is to be taken an application for waiver of payment of such fees, costs and necessary expenses, including the requirements of bond, if any. The application shall conform to the requirements of section 28A of the Practice Book.

After such hearing as the court determines is necessary, the court shall enter its judgment on the application, which judgment shall contain a statement of the facts the court has found, with its conclusions thereon. The filing of the application for the waiver shall tell the time limits for the filing of an appeal until such time as a judgment on such application is entered.

This provision shall apply to all agency actions taken between January 1, 1972, and June 11, 1973, it being the intent of this section, first, to provide additional time to agencies, as defined in section 4-166, to adopt rules of practice and other necessary regulations, and to conduct hearings in contested cases, in accordance with this chapter; and, second, to validate the enumerated activities of state agencies during said period. Nothing contained in this section shall validate actions taken by agencies which are invalid under provisions of this chapter other than sections 4-167, 4-168, 4-177 and 4-178, or invalid under provisions of other state or federal law, nor shall this section be deemed to validate actions by state agencies taken after July 1, 1973, which are invalid under any provision of this chapter.

Sec. 7-348. Towns not to contract in excess of appropriations. Town meeting to increase amount.

No officer of such town shall expend or enter into any contract by which the town shall become liable for any sum which, with any contract then in force, shall exceed the appropriation for the department, except in cases of necessity connected with the repair of highways, bridges, sidewalks and water and sewer systems and the care of the town poor, and then not more than one thousand dollars. If any occasion arises whereby more money is needed for any department of the town than has been appropriated as provided for in this chapter, the selectmen shall notify the board of finance of such fact, and the chairman of such board shall forthwith call a meeting thereof to consider the appropriation for such department and the board may make the necessary appropriation therefor, after inquiry, but, if, in towns where the grand list is not more than twenty million dollars, the amount required or the amount required, together with the sum of any additional appropriations made by the board for such department within the same fiscal year, exceeds two thousand five hundred dollars, or, in towns where the grand list exceeds twenty million dollars, if the amount required or the amount required, together with the sum of any such additional appropriations, exceeds five thousand dollars, such appropriation shall not be made until, upon the recommendation of the board, the same has been voted by the town at a meeting called for such purpose, provided no more than one such additional appropriation for any one department shall be made in one year without town meeting approval, and provided the board may make additional appropriations for the care of town poor without town meeting approval not exceeding, in the aggregate, two thousand dollars in towns where the grand list does not exceed twenty million dollars or four thousand dollars in towns where the grand list exceeds twenty million dollars. The board may call a public hearing prior to the town meeting at which parties in interest and citizens shall have an opportunity to be heard so that the board may obtain information to assist in making its recommendations. The amount required for such appropriation may be drawn either from any cash surplus available or from any contingent fund established as hereinafter provided. If no cash surplus exists and no funds are available in the contingent fund, such appropriation may be financed by borrowing, and the amount of such borrowing shall be included in, and made a part of, the next tax levied. The estimate of expenditures submitted by the board of finance to the annual town meeting or annual budget meeting may include a recommended appropriation for a contingent fund in an amount not to exceed two per cent of the total estimated expenditures for the current fiscal year. No expenditure or transfer shall be made from the

contingent fund until such expenditure or transfer has been approved by the board of finance. The provisions of this chapter shall not be a limitation upon the town in issuing bonds under the provisions of law or expending the proceeds thereof in accordance with the vote of such town nor shall such provisions be a limitation upon the settlement of claims or judgments against the town under the provisions of law.

Sec. 14-44. Special license for public service motor vehicle and service bus operators. Appeals. Fines. Exception.

(a) No person shall operate a public service motor vehicle or service bus upon any public highway of this state until he has obtained from the commissioner a special license for such purpose, except as provided in section 14-34 and subsection (b) of this section, and no such license shall be issued until the commissioner or his authorized representative, is satisfied that the applicant for such license is eighteen years of age, except that an applicant for a public service license to operate a school bus shall be not more than sixty-nine years of age, and a proper person to receive the same and already holds a regular operator's license. Each applicant for such special license shall furnish the commissioner, or his authorized representative, with satisfactory evidence, which may be required to be under oath, to prove that he has no criminal record and that no reason exists for a refusal to grant such special license, and shall be required to pass an examination as prescribed by the commissioner to determine his ability to operate a public service motor vehicle or service bus. A fee of two dollars and fifty cents shall be charged for such examination such fee to be forfeited to the state in the event of the applicant's failure to pass such examination. Each applicant for a public service operator's license or renewal thereof shall with his application submit proof satisfactory to the commissioner that he has passed a physical examination which has been taken within ninety days prior to his applying for such special license or renewal thereof, except that no medical or physical examination shall be required of any operator of a public service motor vehicle or service bus who is in compliance with safety regulations established from time to time by the United States Department of Transportation. The standards for such physical examination shall be conducted in accordance with the regulations adopted by the commissioner pursuant to chapter 54. Each applicant for a public service operator's license or renewal thereof shall be fingerprinted before such license is issued. The commissioner shall have authority and discretion to issue or to withhold, or to renew, suspend, cancel, or revoke, any public service motor vehicle operator's license, taking into consideration the age, record as to crimes and accidents, moral character and physical condition of any such applicant or licensee and such other matters as the commissioner may determine. The commissioner may require any such applicant or licensee to furnish the statements of two or more reputable citizens which may be required to be under oath, vouching for the good character or other qualifications of such applicant or licensee. Such public service motor vehicle operator's license shall be of a special form and shall state the name, place of residence and post-office address of the licensee, the public service motor vehicle operator's number assigned to him and such other information as the commissioner may prescribe. Any applicant who is refused such a special license on account of a criminal record may, within thirty days from the date of such refusal, appeal from the decision of the commissioner to the attorney general, and if, upon such appeal, the attorney general, notwithstanding such refusal, determines that the character of the applicant is such that such special license ought to be granted, he may direct the commissioner to issue the same, provided the commissioner, before such license is issued, may require that such applicant file a bond in the sum of one hundred dollars, with good and sufficient surety, payable to the state and conditioned upon a legal operation of public service motor vehicles or service busses by the applicant. Violation of any provision of this section shall be an infraction.

(b) Notwithstanding the provisions of subsection (a) of this section, a nonresident who holds a valid public service motor vehicle operator's license issued by another state or country may operate a public service motor vehicle in this state without a special license, provided such vehicle is not engaged in intra-state commerce.

Sec. 14-49. For miscellaneous registrations and other fees.

(a) For the registration of each passenger motor vehicle, other than an electric motor vehicle, the annual fee shall be twenty dollars, provided the annual fee for any motor vehicle for which special license plates have been issued under the provisions of section 14-20 shall be seven dollars.

(b) For the registration of each motorcycle, the fee shall be eight dollars, and, for registration of each motorcycle with side car or box attached used as a commercial motor vehicle, sixteen dollars, for each year or part thereof. The commissioner may register a motorcycle with a side car under one registration which shall cover the use of such motorcycle with or without such side car.

(c) For the registration of each public service motor vehicle other than a motor bus, with a seating capacity of seven or less, the commissioner shall charge an annual fee of sixty dollars. When the seating capacity of such motor vehicle is more than seven, there shall be added to the amount herein provided the sum of two dollars and fifty cents for each seat so in excess.

(d) For the registration of each motor bus, except a motor bus owned and operated by a multiple state passenger carrier as hereinafter defined, the commissioner shall charge a fee of thirty dollars. For the registration of motor busses owned or operated by a multiple state passenger carrier, the commissioner shall charge registration fees based on the rate of sixty-five cents per hundredweight of the gross weight, such gross weight to be computed by adding the light weight of the vehicle fully equipped for service to one hundred fifty pounds per passenger for the rated seating capacity, plus the sum of twenty-two dollars. The fee in each case shall be determined on an apportionment basis commensurate with the use of the highways of this state as herein provided. The commissioner shall require the registration of that percentage of the motor busses of such multiple state passenger carrier operating into or through the state which the mileage of such motor busses actually operated in the state bears to the total mileage of all such motor busses operated both within and without the state. Such percentage figures shall be the mileage factor. In computing the registration fees on the number of such motor busses which are allocated to the state for registration purposes under the foregoing formula, the commissioner shall first compute the amount that the registration fees would be if all such motor busses were in fact subject to registration in the state, and then apply to such amount the mileage factor above referred to, provided, if the foregoing formula or method of allocation results in apportioning a lesser or greater number of motor busses or amount of registration fees to the state than the state under all of the facts is fairly entitled to, then a formula that will fairly apportion such registration fees to the state shall be determined and used by the commissioner. Said mileage factor shall be computed prior to March first of each year by using the mileage records of operations of such motor busses operating both within and without the state for the twelve-month period, or portion thereof, ending on August thirty-first next preceding the commencement of the registration year for which registration is sought. If there were no operations in the state during any part of such preceding twelve-month period, the commissioner shall proceed under the provisions of subsection (a) of article IV of section 14-365. In apportioning the number of motor busses to be registered in the state, as provided herein, any fractional part of a motor bus shall be treated as a whole motor bus, and shall be registered and licensed as such. Any motor bus operated both within and without the state which is not required to be registered in the state under the provisions of this section shall nevertheless be identified as a part of the fleet of the multiple state passenger carrier and the commissioner shall adopt an appropriate method of identification of such motor busses owned and operated by such carrier. The identification of all such motor busses by the commissioner as above required shall be considered the same as the registration of such motor busses under this chapter. The substitution from time to time of one motor bus for another by a multiple state passenger carrier shall not require registration thereof in the state so long as the substitution does not increase the aggregate number of motor busses employed in the operation of such carrier, provided all such motor busses substituted for others shall be immediately reported to and identification issued for the same by the commissioner and if a registration fee is required to be paid for such substituted motor bus, the same shall be promptly paid. As used in this subsection, the phrase "multiple state passenger carrier" means and includes any person, firm or corporation authorized by the interstate commerce commission to engage in the business of the transportation of passengers for hire by motor busses, both within and without the state.

(e) For the registration of a passenger and commercial motor vehicle or of a passenger motor vehicle used as a school bus having a seating capacity of seven or less, the commissioner shall charge a fee of twenty-two dollars, for the registration of a school bus or other motor vehicle used as a school bus, having a seating capacity greater than seven, the commissioner shall charge a fee of forty cents per hundredweight of the gross weight, such gross weight to be computed by adding the light weight of the vehicle fully equipped for service to one hundred pounds per passenger for the rated seating capacity, plus the sum of two dollars and fifty cents; for the registration of a commercial motor vehicle when used in part as a passenger motor vehicle having a seating capacity greater than seven and not used as a public service motor vehicle, the commissioner shall charge the fee for gross weight as for commercial motor vehicles, as outlined in section 14-47, plus the sum of two dollars and fifty cents.

Sec. 14-73. Instructor's license.

No person shall be employed by any such licensee to give instruction in driving a motor vehicle unless he is licensed to act as such instructor by the commissioner.

(a) Application for such license shall be in writing and shall contain such information as the commissioner requires. The applicant shall furnish evidence satisfactory to the commissioner (1) that he is of good moral character and has never been convicted of a crime involving moral turpitude; (2) that he is at least eighteen years of age; (3) that he has held a license to drive a motor vehicle for the past two consecutive years and that he has a driving record satisfactory to the commissioner; (4) that he has had a recent medical examination by a physician licensed to practice within the state and said physician certifies he is physically fit to operate a motor vehicle and instruct in driving; (5) that he has received a high school diploma or has an equivalent academic education; (6) that he has completed an instructor training course of forty-five clock hours given by a school or agency approved by either the motor vehicle commissioner or the state board of education, except that any such course given by a state college must be approved by said commissioner and said board of education.

(b) The commissioner of motor vehicles shall conduct such written, oral and practical examinations as he deems necessary to determine whether an applicant has sufficient skill in the operation of motor vehicles to insure their safe operation and a satisfactory knowledge of the motor vehicle laws and can impart such skill and knowledge to others. If the applicant successfully completes such examinations, the commissioner shall cause him to be fingerprinted and shall issue to him an instructor's license. Such license shall be valid for use only in connection with the business of the drivers' school or schools listed thereon. If the applicant fails such examination, he may apply for re-examination after three months have elapsed. The license so issued shall be valid for the calendar year within which it is issued, and renewals shall be for succeeding calendar years.

(c) The licensee shall be re-examined prior to the issuance of a renewal of his instructor's license or at any time during the license period that such examination would, in the opinion of the commissioner, be in the interest of public welfare and safety. Persons licensed for the first time as instructors after January 1, 1972, shall, in the three years following their initial licensure, take an advanced instructor course of not less than forty-five clock hours in traffic safety. Such course shall have been approved by the commissioner of motor vehicles. Proof of compliance with the requirement for such instruction shall be made before license renewals are issued.

(d) Licenses issued prior to January 1, 1972, shall be valid and any person who has been employed as an instructor for at least one year prior to the said date, upon application for a license renewal, shall be required only to pass an examination as to proficiency as a driver and instructor and to give satisfactory evidence of good moral character.

(e) The fee for an instructor's license, or for any renewal thereof, shall be three dollars. The commissioner may deny the application of any person for an instructor's license if he determines that such applicant has made a material false statement or concealed a material fact in connection with his application therefor.

Such permit shall not be required in the case of (1) a trailer designed and used exclusively for transporting boats when the gross weight of such boats does not exceed four thousand pounds or (2) a school bus equipped with a folding stop sign or exterior mirror, as approved by the commissioner of motor vehicles, which results in a combined width of bus and sign or bus and mirror in excess of that established by this section or (3) a vehicle or vehicle and semi-trailer, commonly known as an automobile trailer, designed and used exclusively for transporting new and used motor vehicles provided such automobile trailer when unloaded is not longer than fifty-five feet and when loaded is not longer than sixty feet, with its load, and conforms to the provisions of section 14-96k. Violation of any provision of this section shall be an infraction.

The total number of persons carried at any time by any public service motor vehicle, other than a motor bus, shall not exceed the number specified in the certificate of registration. The seating capacity of any motor vehicle used for the transportation of school children shall not exceed seventy-two, and no motor vehicle when so used shall carry any number of passengers in excess of such seating capacity. No motor vehicle used for the transportation of school children shall be equipped with any longitudinal center seat. The periods of release from duty herein required shall be given at such places and under such circumstances that rest and relaxation from the strain of the duties of employment may be obtained. No period off duty shall be deemed to break the continuity of service unless it is for at least three consecutive hours at a place where there is opportunity for rest. In case of an unforeseen emergency, the driver may complete his run or tour of duty if such run or tour of duty, but for the delay caused by such emergency, would reasonably have been completed without a violation of the provisions of this section. The commissioner of motor vehicles may make such regulations as he deems advisable to insure proper enforcement of this section. (c) Any person who violates any provision of this section shall be fined not less than twenty-five dollars nor more than one hundred dollars for the first offense, and not less than one hundred dollars nor more than five hundred dollars for each subsequent offense.

Commencing February 1, 1974, each new school bus with a vehicle air brake system shall be so equipped that the brake system is operated from a separate air reservoir tank other than the air reservoir tank used to operate any other compressed air or vacuum operated devices with which the school bus may be equipped. The seating requirements of section 14-273 shall be observed.

(g) For an employer, by himself or his agent, (i) to terminate a woman's employment because of her pregnancy or (ii) to refuse to grant to said employee a reasonable leave of absence for disability resulting from such pregnancy or (iii) to deny to said employee, who is disabled as a result of pregnancy, any compensation to which she is entitled as a result of the accumulation of disability or leave benefits accrued pursuant to plans maintained by said employer. Upon signifying her intent to return, such employee shall be reinstated to her original job or to an equivalent position with equivalent pay and accumulated seniority, retirement, fringe benefits and other service credits unless, in the case of a private employer, the employer's circumstances have so changed as to make it impossible or unreasonable to do so.

The provisions of this section as to age shall not apply to (1) termination of employment where the employee is thereupon entitled to benefits under the terms or conditions of any bona fide retirement or pension plan or collective bargaining agreement between the employer and a bona fide labor organization, provided any new employee shall be subject to all the provisions of any existing bona fide retirement or pension plan or collective bargaining agreement entered into between the employer and its employees, (2) operation of the terms or conditions of any bona fide retirement or pension plan, (3) operation of the terms or conditions of any bona fide group or employee insurance plan or (4) operation of any bona fide apprenticeship system or plan.

Sec. 31-127. Procedure. Any person claiming to be aggrieved by an alleged unfair employment practice may, by himself or his attorney, make, sign and file with the commission a complaint in writing under oath, which shall state the name and address of the person, employer, labor organization or employment agency alleged to have committed the unfair employment practice, and which shall set forth the particulars thereof and contain such other information as may be required by the commission. The commission, whenever it has reason to believe that any person has been engaged or is engaged in an unfair employment practice, may issue a complaint. Any employer whose employees, or any of them, refuse or threaten to refuse to comply with the provisions of this chapter may file with the commission a written complaint under oath asking for assistance by conciliation or other remedial action. The submission of a claim to the arbitration process shall not bar a person from filing a complaint under this chapter and, in considering such claim, the commission and the hearing tribunal may admit in evidence any decision resulting from such arbitration and accord it such weight as may be appropriate under the facts and circumstances of the case. After the filing of any complaint, the chairman of the commission shall refer the same to a commissioner or investigator to make investigation of such complaint and, if such commissioner or investigator determines after such investigation that there is reasonable cause for believing that an unfair employment practice has been or is being committed as alleged in such complaint he shall endeavor to eliminate the unfair employment practice complained of by conference, conciliation and persuasion. In the conduct of such investigation the commission may issue subpoenas requiring the production of employment records relating to the complaint under investigation. No commissioner or investigator shall disclose what has occurred in the course of such endeavors, provided the commission may publish the facts in the case and any complaint which has been dismissed and the terms of conciliation when a complaint has been adjusted. In case of failure to eliminate such practice, the investigator or investigating commissioner shall certify the complaint and the results of his investigation to the chairman of the commission and to the attorney general. The chairman of the commission shall thereupon appoint a hearing tribunal of one member of the commission or one hearing examiner to hear such complaint and shall cause to be issued and served in the name of the commission a written notice, together with a copy of such complaint, as the same may have been amended, requiring the person, employer, labor organization or employment agency named in such complaint, hereinafter referred to as the respondent, to answer the charges of such complaint at a hearing before such tribunal, at a time and place to be specified in such notice. The place of any such hearing may be the office of the commission or another place designated by it. The case in support of the complaint shall be presented at the hearing by the attorney general, who shall be counsel for the commission, or the counsel appointed under the provisions of section 31-125a, as the case may be; and no commissioner who previously made the investigation or caused the notice to be issued shall participate in the hearing except as a witness, nor shall he participate in the deliberations of the tribunal in such case. Any endeavors or negotiations for conciliation shall not be received in evidence. The respondent may file a written answer to the complaint and appear at such hearing in person or otherwise, with or without counsel, and submit testimony and be fully heard. The tribunal conducting any hearing may permit reasonable amendment to any complaint or answer and the testimony taken at such hearing shall be under oath and be transcribed at the request of any party. If upon all the evidence, the tribunal finds that a respondent has engaged in any unfair employment practice, it shall state its findings of fact and shall issue and file with the commission and cause to be served on such respondent an order requiring such respondent to cease and desist from such unfair employment practice and further requiring such respondent to take such affirmative action, including, but not limited to, hiring or reinstatement of employees, with or without back pay, or restoration to membership in any respondent labor organization, as in the judgment of the tribunal will effectuate the purpose of this chapter; provided, liability for back pay shall not accrue from a date more than two years prior to the filing or issuance of such complaint and, provided further, interim earnings, including unemployment compensation and welfare assistance or amounts which could have been earned with reasonable diligence on the part of the person to whom back pay is

awarded shall be deducted from the amount of back pay to which such person is otherwise entitled. If, upon all the evidence, the tribunal finds that the respondent has not engaged in any alleged unfair employment practice, it shall state its findings of fact and shall similarly issue and file an order dismissing the complaint. The commission shall establish rules of practice to govern, expedite and effectuate the foregoing procedure. Any complaint filed pursuant to this section must be so filed within one hundred and eighty days after the alleged act of discrimination.

Sec. 31-128. *Enforcement of orders. Appeals.

(a) The commission may, through the attorney general or, where the respondent is an agency or officer of the state, the counsel appointed under section 31-125a, petition the court within the county wherein any unfair employment practice occurred or wherein any person charged with unlawful employment practice resides or transacts business, for the enforcement of any order issued by a tribunal under the provisions of this chapter and for appropriate temporary relief or a restraining order, and shall certify and file in the court a transcript of the entire record of the proceedings, including the pleadings and testimony upon which such order was made and the finding and orders of the hearing tribunal. Within five days after filing such petition in the court the commission shall cause a notice of such petition to be sent by registered or certified mail to all parties or their representatives. The court shall have jurisdiction of the proceedings and of the questions determined thereon, and shall have the power to grant such relief by injunction or otherwise, including temporary relief, as it deems just and suitable and to make and enter, upon the pleadings, testimony and proceedings set forth in such transcript, a decree enforcing, modifying and enforcing as so modified, or setting aside, in whole or in part, any order of the commission or hearing tribunal.

(b) No objection that has not been urged before the hearing tribunal shall be considered by the court, unless the failure to urge such objection is excused because of extraordinary circumstances. The findings of the hearing tribunal as to the facts, if supported by substantial and competent evidence, shall be conclusive. If either party applies to the court for leave to adduce additional evidence and shows to the satisfaction of the court that such additional evidence is material and that there were reasonable grounds for the failure to adduce such evidence in the hearing, the court may order such additional evidence to be taken before the same hearing tribunal and to be made part of the transcript. The tribunal may modify its findings as to the facts, or make new findings, by reason of additional evidence so taken, and it shall file, such modified or new findings, which, if supported by substantial and competent evidence, shall be conclusive, and shall file its recommendations, if any, for the modification or setting aside of its original order.

(c) The jurisdiction of the court shall be exclusive and its judgment and decree shall be final, except that the same shall be subject to review by the supreme court, on appeal by either party, irrespective of the nature of the decree or judgment. Such appeal shall be taken and prosecuted in the same manner and form and with the same effect as is provided in other cases of appeal to the supreme court, and the record so certified shall contain all that was before the lower court.

(d) Any respondent or complainant aggrieved by a final order of a hearing tribunal or any complainant aggrieved by the dismissal of his complaint by the commission may obtain a review of such order in the court of common pleas for the county where the unfair employment practice is alleged to have occurred or in the county wherein such person resides or transacts business by filing with the clerk of said court, within two weeks from the date of such order, a written petition in duplicate praying that such order be modified or set aside. The clerk shall thereupon mail the duplicate copy to the commission. The commission shall then cause to be filed in said court a certified transcript of the entire record in the proceedings, including the pleadings, testimony and order. Upon such filing said court shall proceed in the same manner as in the case of a petition by the commission under this section and shall have the same exclusive jurisdiction to grant to the respondent or complainant such temporary relief or restraining order as it deems just and suitable, and in like manner to make and enter a decree enforcing or modifying and enforcing as so modified or setting aside, in whole or in part, the order sought to be reviewed.

(e) Unless otherwise directed by the commission, tribunal or court, commencement of review proceedings under this section shall operate as a stay of any order.

(f) Petitions filed under this section shall be heard expeditiously and determined upon the transcript filed, without requirement of printing. Hearings in the court under this chapter shall take precedence over all other matters, except matters of the same character.

Sec. 31-232a. Additional benefits payable during periods of substantial unemployment.

When an extended benefit period is in effect as provided in section 31-232b, unless it is in effect solely by reason of a national "on" indicator, each person who, prior to the expiration of his current benefit year, has received the maximum amount of benefits to which he is entitled, under the provisions of section 31-231b, shall be entitled to receive, except as hereinafter provided and except as provided in section 31-232h, during the balance of his current benefit year, at his current benefit rate and dependency allowances thirteen times his benefit rate for total unemployment and dependency allowances. No person who is eligible to receive benefits under an act of congress providing for unemployment compensation benefits, pursuant to a contract entered into by the administrator, shall receive benefits under this section until he has received the full amount of his entitlement under such act of congress.

Sec. 31-236. Disqualifications.

An individual shall be ineligible for benefits (1) if the administrator finds that he has failed without sufficient cause either to apply for available, suitable work when directed so to do by the public employment bureau or the administrator, or to accept suitable employment when offered him by the public employment bureau or by an employer, such ineligibility to continue for the week in which such failure occurred and for the next four following weeks. Suitable work shall mean either employment in his usual occupation or field or other work for which he is reasonably fitted, provided such work is within a reasonable distance of his residence, and, in determining whether or not any work is suitable for an individual, the administrator may consider the degree of risk involved to his health, safety and morals, his physical fitness and prior training and experience, his skills, his previous wage level and his length of unemployment; but, notwithstanding any other provision of this chapter, no work shall be deemed

suitable nor shall benefits be denied under this chapter to any otherwise eligible individual for refusing to accept work under any of the following conditions. (a) If the position offered is vacant due directly to a strike, lockout or other labor dispute, (b) if the wages, hours or other conditions of work offered are substantially less favorable to the individual than those prevailing for similar work in the locality, (c) if as a condition of being employed the individual would be required to join a company union or to resign from or refrain from joining any bona fide labor organization, (d) if the position offered is for work which commences or ends between the hours of one and six o'clock in the morning if the administrator finds that such work would constitute a high degree of risk to the health, safety or morals of the individual, or would be beyond the physical capabilities or fitness of the individual or there is no suitable transportation available from the claimant's home to or from his place of employment; (e) if as a condition of being employed the individual would be required to agree not to leave such position if recalled by former employer. (2) (a) during the week in which, in the opinion of the administrator, he has left suitable work voluntarily and without sufficient cause connected with his work or (b) been discharged or suspended for wilful misconduct in the course of his employment, and for the next four following weeks; provided (i) a person who, while on lay-off from his regular work, accepts other employment and leaves such other employment when recalled by his former employer, or (ii) a person who leaves work which is outside his regular apprenticeable trade to return to work in his regular apprenticeable trade, or (iii) a person who has left work solely by reason of governmental regulation or statute, or (iv) a person who leaves part-time work to accept full-time work, shall not be ineligible on account of such leaving and the employer's account shall not at any time be charged with respect to such separation, unless such employer has elected payments in lieu of contributions. If the administrator finds that an individual was separated from a base period employer under conditions which would result in a disqualification because the individual (a) left suitable work voluntarily and without sufficient cause connected with his work or (b) has been discharged or suspended for wilful misconduct in the course of his employment, thereafter no benefits paid to such individual with respect to any week of unemployment which is based upon wages paid by such employer with respect to employment prior to such separation shall be charged to such employer's account, provided such employer shall have filed a notice with the administrator in accordance with such regulations as the commissioner shall promulgate; (3) during any week in which it is found by the administrator that his total or partial unemployment is due to the existence of a labor dispute other than a lockout at the factory, establishment or other premises at which he is or has been employed, provided the provisions of this subsection shall not apply if it is shown to the satisfaction of the administrator that (a) he is not participating in or financing or directly interested in the labor dispute which caused the unemployment, and (b) he does not belong to a trade, class or organization of workers, members of which, immediately before the commencement of the labor dispute, were employed at the premises at which the labor dispute occurred, and are participating in or financing or directly interested in the dispute, or (c) his unemployment is due to the existence of a lockout. A lockout exists whether or not such action is to obtain for the employer more advantageous terms when (1) an employer fails to provide employment to his employees with whom he is engaged in a labor dispute, either by physically closing his plant or informing his employees that there will be no work until the labor dispute has terminated, or (2) an employer makes an announcement that work will be available after the expiration of the existing contract only under terms and conditions which are less favorable to the employees than those current immediately prior to such announcement, provided in either event the recognized or certified bargaining agent shall have advised the employer that the employees with whom he is engaged in the labor dispute are ready, able and willing to continue working pending the negotiation of a new contract under the terms and conditions current immediately prior to such announcement; (4) during any week with respect to which the individual has received or is about to receive remuneration in the form of (a) wages in lieu of notice or dismissal payments or any payment by way of compensation for loss of wages, or any other state or federal unemployment benefits, except mustering out pay, terminal leave pay or any allowance or compensation granted by the United States under an act of congress to an ex-serviceman in recognition of his former military service, or any service connected pay or compensation earned by an ex-serviceman paid before or after separation or discharge from active military service, or (b) compensation for temporary disability under any workmen's compensation law; (5) (repealed by P.A. 73-140); (6) if it is found by the administrator that he has left employment to attend a school, college or university as a regularly enrolled student, such ineligibility to continue during such attendance; (7) (repealed by P.A. 74-70, S. 2, 4), (8) if it is found by the administrator that, having received benefits in a prior benefit year, he has not again become employed and been paid wages since the commencement of said prior benefit year in an amount equal to the greater of three hundred dollars or five times his weekly benefit rate by

an employer subject to the provisions of this chapter or by an employer subject to the provisions of any other state or federal unemployment compensation law, (9) if it is found by the administrator that he has retired and that such retirement was voluntary, until he has again become employed and has been paid wages in an amount required as a condition of eligibility as set forth in subdivision (3) of section 31-235, provided, if it is found by the administrator (a) that he has retired because (1) his work has become unsuitable considering his physical condition and the degree of risk to his health and safety, and (2) he has requested of his employer other work which is suitable and (3) his employer did not offer him such work, or (b) that he has been involuntarily retired, he shall not be ineligible on account of such retirement and the weekly amount payable to him shall be an amount equal to his benefit rate for total unemployment less the amount of whole dollars in the weekly amount of retirement pay or pension paid to him directly by the employer or paid indirectly by the employer in the manner set forth in subdivision (5) of subsection (b) of section 31-222 until he has received the full amount of his entitlement as provided in sections 31-231b and 31-232a. Notwithstanding the provisions of this subsection, no veteran who has retired from the United States armed forces shall have the amount of his unemployment compensation benefits reduced in any way by any military service retirement or pension payments he receives; (10) if, being a certificated teacher, academic supervisor, superintendent or assistant superintendent under contract with or employed by a board of education or public school system, such person (a) has a contract of employment which is valid and in force at the time of filing a claim, or (b) is unemployed between academic years and his contract has been received for the ensuing academic year; or (c) is unemployed during a school vacation period, holiday or holiday recess while his contract is in force; (11) if, being a cafeteria worker, classroom aide, kindergarten aide, school cafeteria worker or school crossing guard, employed by or working for a board of education or employed by or working for a nonprofit private elementary or secondary school wherein any child may legally fulfill compulsory school attendance requirements and which complies with section 10-188, or an aide employed by a municipal health department to work in a school system, such person is unemployed during a school vacation period, holiday or holiday recess and will resume such employment at the conclusion of such period, holiday or recess; (12) if it is found by the administrator that his work was performed while he was a student in a full-time program which combines academic instruction with work experience taken for credit at a nonprofit or public educational institution which normally maintains a regular faculty and curriculum and normally has a regular organized body of students in attendance at the place where its educational activities are carried on and that such work was an integral part of such program, as certified by such institution to the employer.

The amount so secured shall be used to reimburse the treasurer for appropriations theretofore made by the state for the payment in the first instance of the expenses of administering this chapter. On and after July 1, 1976, the treasurer shall, as soon as possible after the close of a fiscal year, estimate the pro rata cost to each insurance carrier or self-insurer based upon the costs assessed to such insurance carrier or self-insurer in the immediately preceding fiscal year and shall assess upon and collect from each such insurance carrier or self-insurer such estimated costs in equal quarterly instalments which shall be payable as provided in subsection (a) of this section except each instalment payable October first shall include, in addition to such quarterly instalment for the current fiscal year, an amount which represents the difference between the payments collected and the actual costs assessed to such insurance carrier or self-insurer for the immediately preceding fiscal year. PART E

SECOND INJURY AND COMPENSATION ASSURANCE FUND**Sec. 31-349. Compensation for second disability.**

The fact that an employee has suffered previous disability, or received compensation therefor, shall not preclude him from compensation for a later injury, nor preclude compensation for death resulting therefrom. If an employee who has previously incurred, by accidental injury, disease or congenital causes, total or partial loss of, or loss of use of, one hand, one arm, one foot or one eye, or who has other permanent physical impairment, incurs a second disability by accident or disease arising out of and in the course of his employment, resulting in a permanent disability caused by both conditions which is materially and substantially greater than that which would have resulted from the second injury alone, he shall receive compensation for the entire amount of disability, including total disability, and necessary medical care, as elsewhere provided in this chapter, notwithstanding the fact that part of such disability was due to prior accidental injury, disease or congenital causes. The employer by whom the employee is employed at the time of the injury, or his insurance carrier, shall in the first instance pay all awards of compensation and all medical expenses provided by this chapter for the first one hundred four weeks of disability. As a condition precedent to the liability of the second injury fund, the employer or his insurance carrier must, ninety days prior to the expiration of the one-hundred-four-week period, notify the custodian of the second injury fund of the pending case and shall furnish to said custodian a copy of the agreement or award together with all information purporting to support his claim as to the liability of the second injury fund, and shall make available to the custodian all medical reports as the custodian shall desire. Failure on the part of the employer or the carrier to comply does not relieve the employer or carrier of its obligation to continue furnishing benefits under the provisions of the act. In the event the custodian shall reject the claim of the employer and its insurer, the question shall be submitted to the commissioner having jurisdiction, as promptly as possible, and the employer or carrier shall continue furnishing benefits until the outcome is finally decided, and if the employer or carrier prevails all payments made beyond the one-hundred-four-week period shall be reimbursed to the employer or carrier by the second injury fund. After the employer or its insurer has completed the payment for the one-hundred-four-week period, he shall file with the commissioner having jurisdiction, and with the custodian of the second injury fund, a form indicating that all compensation and medical bills have been paid for the one-hundred-four-week

period, and indicating thereon the date the custodian was notified of the pending case. Thereafter all responsibility for compensation and medical treatment shall be with the custodian of the second injury fund. If the subsequent injury of such an employee resulting from an accident arising out of and in the course of his employment shall result in the death of the employee, and it shall be determined that either the injury or death would not have occurred except for such pre-existing permanent physical impairment, the employer or his insurance carrier shall, in the first instance, pay the funeral expense described in this chapter, and shall pay death benefits as may be due for the first one hundred four weeks. Ninety days prior to the expiration of the one-hundred-four-week period, the employer or his insurance carrier shall notify the custodian of the second injury fund of the pending case and shall furnish to said custodian a copy of the agreement or award. After the employer or its insurer has completed the payment for the one-hundred-four-week period, he shall file with the commissioner having jurisdiction, and with the custodian of the second injury fund, a form indicating that all compensation has been paid for the one-hundred-four-week period, and indicating thereon the date that the custodian was notified of, the pending case. Thereafter all responsibility for compensation shall be with the custodian of the second injury fund. Employees shall not be denied any of the benefits provided by any provisions of this chapter by reason of the execution of a waiver, but the benefits specified in this chapter which would be payable except for the execution of such waiver shall be paid entirely out of the second injury fund. Claims for such benefits shall be filed with the commissioner, who shall refer such claims to the custodian of the second injury fund as specified above. The custodian of the second injury fund may make payment by way of final settlement in any matter concerning the fund, subject to the approval of the commissioner, when it is for the best interests of the injured employee.

He may make payment by way of final settlement in any matter concerning the fund, subject to the approval of the commissioner, whenever it is for the best interests of the injured employee.

Sec. 31-354. Second injury and compensation assurance fund contributions.

There shall be a fund to be known as the second injury and compensation assurance fund. Each mutual association, each mutual insurance company and each stock company writing workmen's compensation or employer's liability insurance in this state, and each person, association, partnership or corporation doing business in this state to whom a certificate of self-insurance has been issued by any commissioner under the provisions of section 31-284 shall, within thirty days after notice given by the treasurer, pay to the state treasurer for the use of the state a sum not to exceed two per cent of the total amount of money expended by each of them in payment of their liability under this chapter for the preceding calendar year. Such assessments shall be levied by the state treasurer at any time the balance remaining in the fund is so reduced that he deems it necessary to request further assessments to cover expenditures and to maintain a reserve of five hundred thousand dollars but not to exceed two per cent per assessment. Parent is liable only where child himself might be required to respond in damages for his own tort. 20. CS 376. Parents sued for damage "wilfully or maliciously" caused by their child are in the same position with respect to the controlling statute of limitations as the child. (P A 73-581.S 1)

Sec. 53-392b. Preparation of assignments for students attending educational institutions prohibited.

(a) No person shall prepare, offer to prepare, cause to be prepared, sell or offer for sale any term paper, thesis, dissertation, essay, report or other written, recorded, pictorial, artistic or other assignment knowing, or under the circumstances having reason to know, that said assignment is intended for submission either in whole or substantial part under the name of a student other than the author of the term paper, thesis, dissertation, essay, report or other written, recorded, pictorial, artistic or other assignment in fulfillment of the requirements for a degree, diploma, certificate or course of study at any university, college, academy, school or other educational institution which is chartered, incorporated, licensed, registered or supervised by this state.

(b) Nothing contained in this chapter shall prevent any person from providing tutorial assistance, research material, information or other assistance to persons enrolled in a university, college, academy, school or other educational institution which is chartered, incorporated, licensed, registered or supervised by this state, which is not intended for submission directly or in substantial part as an assignment under the student's name to such educational institution in fulfillment of the requirements for a degree, diploma, certificate or course of study or to prevent any person from rendering for a fee services which include the typing, research, assembling, transcription, reproduction or editing of a manuscript or other assignment which he has not prepared at the request of or on behalf of the purchaser.

(P A 73-581.S 4.)

Sec. 53-392d. *Enforcement by the attorney general.

Whenever the attorney general, or his deputy, has reason to believe that any person has violated any of the provisions of this chapter, he may bring an action in the court of common pleas for Hartford county to enjoin the continuance of such violation; and, if it appears to the satisfaction of the court that the defendant has, in fact, violated this chapter, an injunction may be issued enjoining and restraining any further violation, without requiring proof that any person has, in fact, been injured or damaged thereby. In connection with any such proposed application, the attorney general may conduct an investigation, subpoena witnesses and documents deemed by him necessary to the conduct of such investigation and, in the event of noncompliance with any such subpoena, may apply to the court of common pleas for Hartford county, which may issue an order requiring such compliance.
