ABSTRACT This unit, one of a series of six Project SCAT (Skills for Consumer Applied Today) units, is designed to help senior high school students develop consumer education skills. For a description of the specific objectives and format of the units, see SO 013 467. This document provides teaching methods, learning activities, and a student booklet for a unit on taxes. The focus is on a survey of basic tax types, allowing the student to complete the Form 1040A, Specific topics include governmental budgets, governmental services, tax services, processing a return, and the audit process. Students engage in displaying cartoons and quotations dealing with taxes, debating the tax dilemma that lawmakers face, inviting a local tax official to speak, discussing services provided by the local property tax, investigating state tax burdens, devising a "good tax" for the United States, applying for social security numbers, and evaluating IRS advice. A pre- and posttest and reproducible graphics are included. The student booklet contains relevant vocabulary, readings, and worksheets. (KC)

# Teacher PAL Tips

Welcome, teachers, to this \$CAT Consumer Education Teacher PAL\*. We hope you will find this a useful resource while you are teaching this subject. Features of this PAL include:

A CONTENT OUTLINE of the Student PAL subject matter to aid you in class discussions.

STUDENT OBJECTIVES which state in behavioral terms the objectives of the Student PAL.

SUGGESTED ACTIVITIES which you may wish to use as enrichment activities. These include:

INTRODUCTORY ACTIVITIES which give suggestions for introducing the topic.

DEVELOPMENTAL ACTIVITIES which give ideas for developing the major concepts in the Student PAL. These suggestions are keyed to each section of the Student PAL and include appropriate resources.

REVIEW ACTIVITIES which give suggestions to guide the culmination of the study.

RESOURCE suggestions which are of three types and coded as follows:

\* Materials developed by \$CAT and included in this Teacher PAL.

+ Commercially developed materials, available at a cost.

= Commercially developed materials, available free or on a free-loan basis.

ADDRESSES of the producers of all suggested resources as well as others which you may wish to contact for additional ideas and/or materials.

A SPECIALIZED VOCABULARY which is an alphabetized listing of all the "Passwords" listed in the Student PAL.

FILM DESCRIPTIONS for each film suggested as a resource.

INSTRUCTIONAL AIDS which include Xerox masters for the Test, the Test Answer Sheet, Student Activity Sheets, Film Guides, and Transparencies which you may wish to use in your study.

ANSWER KEYS for the Test, SCAT-developed Activity Sheets, and all pages from the Student PAL requiring student responses.

A STUDENT PAL for your reference.

In addition, some pages in the Student PALs are designed specifically to encourage class discussions, and teacher-led discussions may be necessary to insure student comprehension of the concepts presented. Such pages in the Student PAL for this topic include:

Pages 4-6; 15: Attitudes toward taxes  
Page 10: Government services  
Pages 62, 66: Improving the tax system

These features are suggestions only. You, the instructor, know your class best and should feel free to choose those activities and resources most appropriate for your students.

# Taxes

Taxes--sales tax, income tax, property tax, etc., etc. The American citizen finds it difficult to ignore taxes or the services they buy. Nearly one-third of a wage-earner's income is spent in meeting local, state and federal tax obligations.

A basic understanding of taxes is beneficial to the student because of the impact of taxes on his daily life as a consumer through the services he receives and the taxes he pays or will pay as a wage-earner.

*An Offer You Can't Avoid* offers a survey of the basic tax types with the student given practice in completing the Form 1040A. Additional exercises as well as suggestions for teaching the Form 1040 appear in the Teacher PAL for *An Offer You Can't Avoid*.

# Student Objectives

1. Given a password and several alternatives, the student will identify the definition of the password.
2. Given several alternatives, the student will identify the principal reason for requiring taxes.
3. Given several alternatives, the student will be able to identify four reasons for tax penalties.
4. Given several alternatives, the student will be able to identify characteristics of income, property, sales, and social security taxes.
5. Given a money value and/or a quantity and a tax rate, the student will calculate the dollar amount of tax.
6. Given the amount to be raised by taxes and the total assessed value of real property in a community, the student will calculate the tax rate per dollar of assessed valuation.
7. Given the tax rate and a property value, the student will calculate the amount of taxes owed.
8. Given a personal income tax payment schedule and an employee's pay amount, the student will calculate the amount of the income tax deduction.
9. Given several alternatives, the student will identify personal income tax as an example of a progressive tax.
10. The student will be able to distinguish between and fill out, if appropriate, the following forms: SS-5, W-2, W-4, 1040, and 1040A.
11. Given personal information and the appropriate tables, the student will determine whether the person(s) must file an income tax return and/or whether or not itemizing is recommended.
12. Given several alternatives, the student will differentiate between personal and dependency exemptions.

13. Given a person's taxable income and filing status, and the appropriate tax tables, the student will determine the amount of tax.
14. Given several alternatives, the student will identify the types of persons and agencies that will offer assistance in preparing a tax return.
15. Given several alternatives, the student will identify good and bad features of various agencies and persons that offer assistance in tax return preparation.
16. Given several alternatives, the student will identify possible reasons for tax return audits.
17. Given several alternatives, the student will identify the length of time a person should retain copies of his tax records and returns.

# Introductory Activities

## Generalizations

Taxes are the means by which governments provide services to citizens.

## Activities

1. Administer *An Offer You Can't Avoid* test as a Pre-test.
2. Display oversize Forms 1040 and 1040A and other income tax forms.
3. Collect and display cartoons and quotations dealing with taxes.
4. Explore feelings and understandings about taxes:
  - What are taxes?
  - How do taxes affect you?
  - How many kinds of taxes are there?
  - What is good about taxes?
  - What is bad about taxes?
5. List topics for student research. Include such topics as:
  - How Taxes are Assessed
  - How Taxes are Collected
  - How Tax Money is Spent.
  - The History of Taxation in the U.S.
  - Income Taxes in the U.S.
  - Social Security Taxes in the U.S.

# Developmental Activities

## Activities

## Resources

### 1. Utilize **1. WHY TAXES?**

2. Explore the need for taxes in the United States. Discuss such items as:  
 Why do we need taxes?  
 How does the government spend our tax dollars?  
 Why is it important for a taxpayer to know how tax money is spent?  
 What penalties face the dishonest taxpayer?
3. Investigate the sources of federal revenue.
4. Collect newspaper and periodical items on taxes for display and discussion:
5. Evaluate the statement:  
 ONE SHOULD NOT ACCEPT THE PRESENT TAX SYSTEM AS PERFECT, ASSUME THAT ALL  
 GOVERNMENTAL PROGRAMS CONTRIBUTE TO THE WELFARE OF THE COMMUNITY, NOR  
 CONDEMN IT WITHOUT RELIABLE INFORMATION.
6. Discuss why it is necessary for budgeting to precede any taxation plans.  
 (Where the money is to come from, where it must go, etc.)
7. Discuss the dual role of taxes: A source of revenue.  
 A means of influencing the economy
8. Ask: Is "Taxes are a bill for services rendered" a fair statement?  
 Prepare a poster or bulletin board showing "What Taxes Buy."

## Activities

1. Utilize **2. HERE A TAX...**
2. Explore the four basic taxes most citizens pay.
3. Discuss and/or debate the tax dilemma lawmakers face:  
the demands for increasing services against the demands for decreased spending.  
Discuss why such a situation is not possible.
4. Prepare a list of all the different kinds of taxes that might be paid during a year by a typical family.
5. Prepare charts and graphs illustrating:  
Total amount and sources of revenues for your state  
Expenditures by functions  
Kinds of taxes and amounts received  
Amount of state debt  
Compare these areas for several states in different sections of the U.S.
6. Invite a local tax official to address the group.
7. Investigate any one of the local city, county, or state taxes.  
Find: The rate of taxation  
The basis on which the tax is levied or assessed  
How the taxes are collected  
The purposes for which the money is collected
8. Elicit comments and reactions and ask students to develop exercises on the following:  
THE AVERAGE AMERICAN LABORS TWO HOURS AND 52 MINUTES OF EVERY EIGHT-HOUR WORKDAY TO PAY HIS TAXES. ON A CALENDAR BASIS, HE WORKS FROM JAN. 1 TO MAY 11 TO PAY HIS FEDERAL, STATE, AND LOCAL TAXES.

## Activities

## Resources

9. Compare total tax burdens of U.S. citizens with those in other countries.
10. Compare and discuss the basic types of taxes.  
 Include: What are the arguments for and against state sales and income taxes?  
 What are the advantages and disadvantages to the employee of withholding tax on salaries?  
 Why are local schools financed largely through property tax?
11. Debate: A taxpayer would rather pay out relatively small amounts on each purchase (such as is the case with sales taxes) than paying out a large sum in taxes.
- The sales tax is based on the consumer's ability to pay.
- The sales tax is a convenient and efficient method of collecting taxes from persons who have the money to pay for goods and services.
12. Discuss the services provided by local property taxes. Emphasize the local support given the public schools.
13. Discuss why taxes are higher in some communities than others:  
 Kind and quality of services provided  
 Differences in property values  
 Purchasing efficiency  
 Amount of state aid to local district  
 Other income received  
 Corruption, dishonesty, etc.
14. Have students visit or call a local gasoline station and find out the amount of taxes included in the price of a gallon of gasoline. What percent of the total price of the gasoline is the tax?

\* Student Activity Sheet #1  
 Teacher PAL

Finance Director,

## Activities

15. Compare state sales taxes and state gasoline taxes for various states. Illustrate the differences through student-made graphs and/or maps.
16. Investigate state income taxes and total tax burden by states. Include such topics as:  
Which states do not yet have income taxes  
How taxes vary from state to state
17. Design real-life situations in which skill in solving tax problems would be applied. Include use of sales tax tables such as those used in stores, computing tax due on purchases, property tax bills, etc.
18. Discuss the evaluation of taxes--how would you define a "good" tax? Emphasize the effect of paying the tax on the taxpayer's ability to pay.
19. Evaluate the statements:  
Tax laws are too complicated.  
Tax laws are unfair.  
Tax laws are wasteful.
20. Discuss the fact that no tax is perfect.  
Include: If you "soak the rich," incentive may be destroyed.  
If you overtax the poor, you increase "poverty" which leads to more welfare.  
The sales tax is a regressive tax designed to "soak the poor."  
A progressive income tax is fairer than a sales tax because the burden is placed on people with big incomes.
21. Assign individual students or groups the task of devising a "good tax" for the United States. Present this tax plan as a part of the culmination of the unit.

1. Utilize **3. FORMS**

2. Discuss Social Security taxes.

3. Make application for Social Security numbers.  
(Sample for those already having numbers, make real applications for those without social security numbers)

4. Practice computing social security deductions from pay checks by using IRS tables.

5. Differentiate between the W-2 and W-4: information given on each, times at which each are used.

6. Compare Forms 1040 and 1040A: Which items are the same?  
How do the forms differ?  
What additional forms and instructions are necessary to complete each?7. Tax reform is a frequent subject of government and public interest.  
Ask: WHICH PARTS OF THE FORM 1040 RETURN WOULD YOU MODIFY BECAUSE OF COMPLEXITY AND/OR UNFAIRNESS?  
WITH WHAT WOULD YOU REPLACE IT?

## Activities

8. Devise a quiz-type review game for the basic forms emphasizing form name and applicability.

### 1. Utilize **4. THIS IS THE WAY**

2. Analyze the steps necessary in filing a 1040A:

Filing requirements.

Filing dates

Separate vs. joint returns

Items included in income

Distinguishing between deductions and exemptions

Utilization of tax tables and tax rate schedules

Determining refund or balance due

Double checking for errors

3. Emphasize terminology as it appears.

4. Develop a form for use in gathering information necessary for filing a 1040 or 1040A.

## Activities

5. Complete a 1040A with teacher-given samples.  
(Use actual student data for students who are employed.)
6. Complete 1040A forms projected on individual personal data for five years in the future; for ten years in the future.
7. Point out the necessity of filing a return for a refund in situations in which taxes have been withheld, but no taxes are due.
8. Point out the ways to benefit from the use of the 1040 form.  
Include: All allowable interest such as home mortgages, personal and installment loans  
Specific guidelines for medical deductions and how to claim medical insurance premiums  
Taxes which may be deductible: income, real property, personal property, general sales tax, gasoline tax  
Low income allowance
9. Complete a tax return using sample and/or teacher-given samples
10. Evaluate the statement: THE TAXPAYER'S ACTUAL TAX LIABILITY WILL DEPEND ON A NUMBER OF FACTORS INCLUDING HIS FILING STATUS, THE NUMBER OF DEPENDENTS, AND THE NUMBER OF EXEMPTIONS CLAIMED.
11. Develop and discuss the two equations:
 
$$\begin{array}{r} \text{REFUND DUE} \quad \text{AMOUNT} \quad \text{TAX REQUIRED} \\ \text{TAXPAYER} \quad = \quad \text{WITHHELD} \quad \text{FOR THE YEAR} \end{array}$$

13. Evaluate the following statements concerning the preparation of income tax returns:  
In taxes, what you don't know can hurt you.  
If you hire a pro--it'll cost you more.  
Three out of four taxpayers get someone else to do their returns.
14. Develop a list of "cautions" to use when utilizing a tax preparer.  
Include: Never sign a blank return.  
Be skeptical if a refund is promised.  
Look for someone who is established in the community.  
Avoid preparers who offer an immediate refund.
15. Emphasize the fact that regardless of who does the actual preparation of the income tax return, the taxpayer himself is responsible for the accuracy of the return.
16. Discuss: What happens to a 1040A once it is mailed?
17. Suggest that students make charts or bulletin board displays illustrating the route of a tax return.
18. Investigate: How many "hands" does the average return pass through?
19. Evaluate IRS tax advice. Include: 66 toll-free answering sites  
900 taxpayer assistance centers  
In 1978 IRS prepared over 1,600,000 returns  
Government Accounting Office found 13% of answers were in error in telephone answers

## Activities

1. Utilize **5. WATCH OUT FOR...**
2. Devise a list of pointers to aid in avoiding common errors in filing an income tax return.
3. Discuss the degree to which returns are found in error by listing the following facts: Almost 5,000,000 of last year's returns were flawed by mathematical errors:

| Preparer              | Errors |
|-----------------------|--------|
| Do-it-yourself 1040's | 10%    |
| Professional          | 5%     |
| IRS                   | 3.6%   |

IRS reported 3/4 of medical deductions (beyond insurance premiums) and nearly 1/2 of interest payments (excluding home mortgages) were in error.

1. Utilize **6. IT'S NOT ALL OVER YET!**

2. Define "audit" as used in income taxes.
3. Utilize average itemized deductions to determine audit possibilities. List and define the basic steps in IRS audits: Unallowables  
Research  
Correspondence
4. Review the rights of the taxpayer in the audit process.

## Activities

5. Develop guidelines to use in evaluating returns to determine audit probability.  
One suggested list includes:
  - Deductions for contributions that exceed 10% of total income
  - Medical Expenses exceeding 10% of total income
  - Expense claims by salesmen of more than 25% of total commissions
  - A business loss for more than 2 years in a row
  - Legal expenses which are not fully explained
  - Claims for casualty losses that exceed \$500
6. Point out the fact that not all notices from IRS are to be feared.  
Surprise refund checks often result from computer checks of returns.  
Causes of such errors include errors in computation, use of wrong forms,  
and failure to use all credits.

# Film Descriptions

FOUR, E.G. (22 minutes) - Social Security Administration

This film gives four examples of students who are receiving student social security benefits: an entertainer, a medical student, a college rodeo queen student, and a disabled 16 year-old student.

MONEY TALKS (20 minutes) - Internal Revenue Service

A brief history of taxation is explained in this film.

TAX ROCK (20 minutes) - Internal Revenue Service

This film gives a modern look at the Internal Revenue Service.

TAXES (22 minutes) - Churchill Films

Ersatz Flambe, outraged by the recurrent indignities of the System, is restrained repeatedly by his landlady and mine of information, Nettie Mooselock. She leads him through the mysteries of the W-2 form, through FICA and other arcane varieties of withholding taxes, even through the filling out of his income tax form. Nettie's only real failing for Ersatz is her penchant for illustrating percentage with real apple pies.

TAXES: WHY WE HAVE THEM (14 minutes) - BFA, 1978

FILM GUIDE #1

Will Rankin leaves civilization to become a "tax-free" man. Stumbling into a ghost town, he meets shotgun toting Molly Travers. She explains how federal, state, and local taxes work and while she admits there are problems in the system, she insists that taxpayers must realize that services don't come free. It's up to us to decide our priorities.

1040 (20 minutes) - Internal Revenue Service

This film follows an actual return through the filing process.

## WHO PAYS MOST, LEAST

### Gas, Sales & Cigarette Tax, State by State

Connecticut, Delaware and Washington have the highest state tax on gasoline of all the states at 11 cents per gallon, according to the Commerce Clearing House, Inc., a private group that keeps track of taxes and business law. Connecticut has the highest state sales tax, at 7 percent, and, along with Florida and Massachusetts, the highest cigarette tax at 21 cents a pack. This map gives the gasoline, sales and cigarette taxes for each of the 50 states, plus the District of Columbia, as of July 1, 1978.

Use the map illustration, the key and the information given below the map to find the answers and discuss the following questions:

1. Find YOUR state. How does it rank in taxes?
2. Use your knowledge of geography and resources to determine some of the reasons for specific taxes being high in some areas of the country, and low in other areas.
3. Find the total tax paid on 10 gallons of gasoline, a \$10.00 purchase, and one package of cigarettes in the following states:

Washington: \_\_\_\_\_ Maine: \_\_\_\_\_ Florida: \_\_\_\_\_

California: \_\_\_\_\_ Delaware: \_\_\_\_\_

TREASURY DEPARTMENT Internal Revenue Service Form SS-5 Rev. 5-54

Return completed application to nearest SOCIAL SECURITY ADMINISTRATION OFFICE

HAVE YOU COMPLETED ALL 14 ITEMS?

Your social security number is an important number that will never change. Today it is used in many ways. Among them are the following:

- When you apply for any kind of license.
- When you buy or sell property.
- When you open a bank account.
- When you file an income tax return.
- When you register at a college.
- When you apply for a loan.

If you do not already have a social security number and the social security identification card, apply for one NOW. The process takes time and must be done in person. You will complete the application form shown above. Be sure you have all the necessary information and proof of birth. Contact your local social security office to obtain the Form SS-5 necessary.

# Audit!!

Taxpayers who itemize their deductions can evaluate their returns to determine the possibilities of an audit.

The chart below shows average deductions for taxpayers in five income brackets and the total percentage of income claimed as deductions.

Taxpayers who have deductions larger than the "average" shown may be chosen for audit and need to be certain they can substantiate each deduction.

Study the chart and answer the questions which follow.

| Adjusted Gross Income | Contributions | Interest Payments | Taxes   | Medical Expenses | Total as a Percentage of Income |
|-----------------------|---------------|-------------------|---------|------------------|---------------------------------|
| \$15,000-\$20,000     | \$472         | \$1,690           | \$1,503 | \$586            | 25%                             |
| \$20,000-\$25,000     | 542           | 1,836             | 1,869   | 487              | 22                              |
| \$25,000-\$30,000     | 646           | 1,977             | 2,262   | 442              | 20                              |
| \$30,000-\$50,000     | 939           | 2,366             | 3,050   | 523              | 19                              |
| \$50,000-\$100,000    | 2,015         | 3,954             | 5,383   | 700              | 19                              |

1. Discuss the types of items which might be included in each of the categories shown: Contributions, Interest Payments, Taxes, and Medical Expenses.
2. Determine which income brackets the following amounts might cause the return to be audited:
 

|                |        |       |
|----------------|--------|-------|
| Contributions: | \$1000 | _____ |
| Interest       | 2000   | _____ |
| Taxes          | 2000   | _____ |
| Medical        | 500    | _____ |
3. Use the percentage figures to determine the total a taxpayer with an adjusted gross income of \$25,000 could expect to be able to claim without an audit.
4. Compute the dollar amount of deductions for a taxpayer with an adjusted gross income of \$40,000.
5. Discuss the reasons such a chart can be used as a guide only.

film guide:

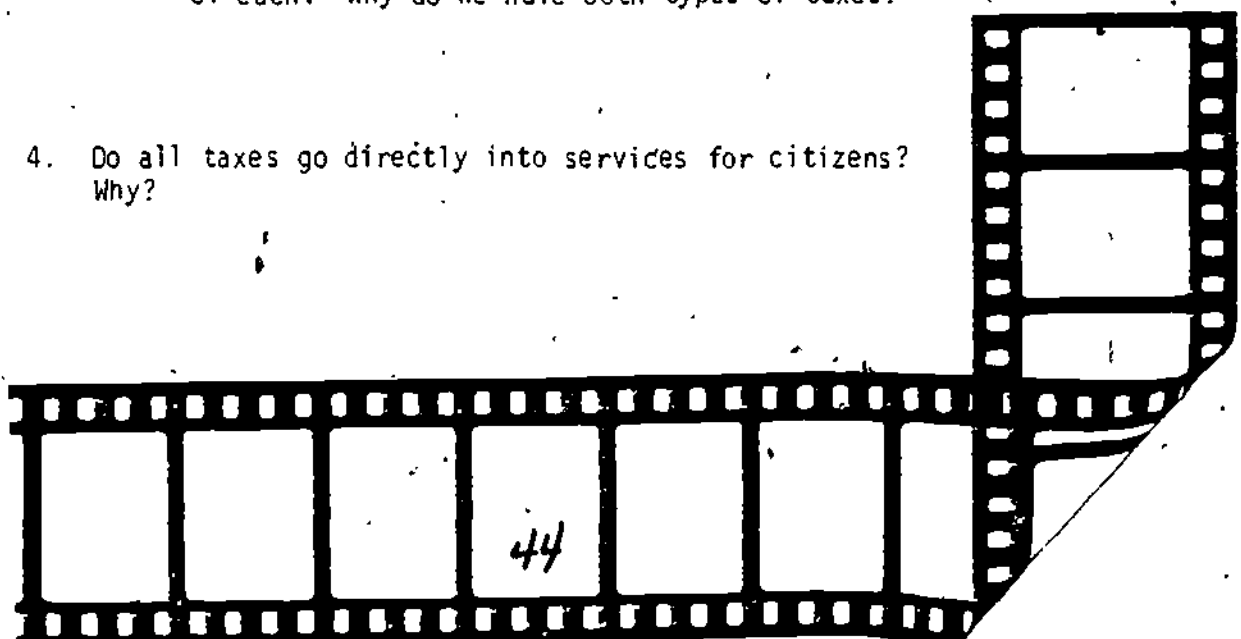

## ***Taxes: Why We Have Them***

*Will Rankin leaves civilization to become a "tax-free" man. Stumbling into a ghost town, he meets shotgun toting Molly Travers. She explains how federal, state, and local taxes work. While Molly admits there are problems in the system, she insists that taxpayers must realize that services don't come free. It's up to us to decide our priorities.*

As you watch this film, or when it is completed, answer the following questions:

1. Name five services paid for by taxes.
2. List the three levels of government. What kinds of taxes does each have? What kinds of services does each provide?
3. Define and describe progressive and regressive taxes. Name the advantages and disadvantages of each. Why do we have both types of taxes?
4. Do all taxes go directly into services for citizens? Why?

# STATE TAXES—

## WHO PAYS MOST, LEAST

Use the map illustration, the key and the information given below the map to find the answers and discuss the following questions:

1. Find YOUR state. How does it rank in taxes? **ANSWERS WILL VARY**
2. Use your knowledge of geography and resources to determine some of the reasons for specific taxes being high in some areas of the country, and low in other areas. **ANSWERS WILL VARY**
3. Find the total tax paid on 10 gallons of gasoline, a \$10.00 purchase, and one package of cigarettes in the following states:

Washington: \$1.72

Maine: \$1.56

Florida: \$1.41

# Audit!!

Taxpayers who itemize their deductions can evaluate their returns to determine the possibilities of an audit.

The chart below shows average deductions for taxpayers in five income brackets and the total percentage of income claimed as deductions.

Taxpayers who have deductions larger than the "average" shown may be chosen for audit and need to be certain they can substantiate each deduction.

Study the chart and answer the questions which follow.

| Adjusted Gross Income | Contributions | Interest Payments | Taxes   | Medical Expenses | Total as a Percentage of Income |
|-----------------------|---------------|-------------------|---------|------------------|---------------------------------|
| \$15,000-\$20,000     | \$472         | \$1,690           | \$1,503 | \$586            | 25%                             |

1. Discuss the types of items which might be included in each of the categories shown: Contributions, Interest Payments, Taxes, and Medical Expenses.

ANSWERS WILL VARY

2. Determine which income brackets the following amounts might cause the return to be audited:

|                |        |                             |
|----------------|--------|-----------------------------|
| Contributions: | \$1000 | <u>\$15,000 - \$50,000</u>  |
| Interest       | 2000   | <u>\$15,000 - \$30,000</u>  |

| Medical        | 500    | <u>\$50,000 - \$100,000</u> |

3. Use the percentage figures to determine the total a taxpayer with an adjusted gross income of \$25,000 could expect to be able to claim without an audit.

\$5,500

4. Compute the dollar amount of deductions for a taxpayer with an adjusted gross income of \$40,000.

\$6,878

5. Discuss the reasons such a chart can be used as a guide only.

We have all heard about taxes and we have all heard about SCARCITY. Since we have limited dollars and cents and unlimited needs and wants, we have a problem of Scarcity.

## TAXES & SCARCITY

Unlimited  
Needs and  
Wants

Limited Dollars  
and Cents

**SO**

We must carefully allocate our dollars and cents to best fulfill our needs and satisfy as many wants as we can.

**HOWEVER**

We control how we spend our personal dollars and cents-- except for taxes.

By law, the government takes some of our limited resources to provide services for the good of all citizens.

Governments at the local, State, and Federal levels levy taxes and fees of various kinds to provide services of various kinds. This PAL will provide information on those taxes and services. But first, WHAT ARE YOUR ATTITUDES TOWARD TAXES?

Complete the following sentences:

1. *Income taxes are* \_\_\_\_\_ ANSWERS WILL VARY
2. *For my taxes, I want* \_\_\_\_\_ ANSWERS WILL VARY
3. *When it comes to taxes, politicians should* \_\_\_\_\_ ANSWERS WILL VARY
4. *Taxes on real estate property are* \_\_\_\_\_ ANSWERS WILL VARY
5. *When it comes to paying taxes, I* \_\_\_\_\_ ANSWERS WILL VARY

EACH DEFINITION WITH WHICH YOU AGREE:

TAXES

- are what we pay for a civilized society.  
Oliver Wendell Holmes Jr.
- are direct levies on the income earned by individuals and corporations.
- provide schools, colleges, homes for children and the aged, protection of the environment, health services, social services, etc.
- are a necessary evil.
- serve two major purposes in the United States: a basic source of revenue for federal, state and local governments; a means of influencing the activity of the economy.
- are a compulsory contribution of money to be made to a government to provide for services for the common good.
- now account for the largest single bite out of the annual earnings of an individual.

ALL OF THE ABOVE MAY BE TRUE--IT DEPENDS ON YOUR OWN TAX EXPERIENCES AND VIEWPOINT.

# Taxes and Problems

The news media are full of stories about taxes, new and old. We hear people complain about paying taxes and we read stories about people who fail to pay their fair share of taxes. Taxes, it seems, are a PROBLEM.

## More on Attitudes Toward Taxes

Select from the following list the response which best indicates your attitude toward each statement:

A = Agree

D = Disagree

N = No Opinion

ANSWERS WILL VARY

1. Rich or poor, one should pay his taxes.
2. Many of the best things in life come from tax dollars.
3. A penny paid in taxes is a penny spent on the good of the community or nation.
4. A person cannot be a good citizen unless she pays her taxes.
5. Taxes are the root of all evil.
6. Taxes are not among the delights of life.
7. Of all debts, persons are least willing to pay taxes.
8. Taxes are debts we pay to the community and nation which provide us with services.
9. Sales taxes are the best form of taxation.
10. It is better to use hidden taxes (like those on gasoline and cigarettes) than taxes like income and sales taxes.

If you wish, discuss your responses and your reasons with others. Get their positions and reasons as well. We might all learn something about our attitudes toward taxes.

# Give and You Shall Receive

In one way or another we all seem to pay taxes. Tax payments are made to local, state, and federal governments. Think about the many services provided by government.

What might the following diagram have to do with the meaning of the word PROBLEM?

What might the following diagram have to do with the definition of the word PROBLEM?

When people talk about THE TAX PROBLEM, or THE PROBLEM WITH TAXES, what could they mean? Write your ideas:

ANSWERS WILL VARY

Consumer-citizens do often have problems about taxes. They think taxes are too high, or too low. They think taxes are unfair, etc. But all consumer-citizens do not take effective action about these tax problems.

There are three types of consumer-citizen response to tax problems:

| INACTIVE  | REACTIVE  | PROACTIVE  |
|---|---|--|
| Consumer-citizen withdraws from facing problems with unfairness, etc., she feels about her own taxes. She just pays them and forgets it. Escapes. She doesn't worry about societal tax issues—she feels powerless to do anything about them anyway. | Consumer-citizen just responds to her problems as she sees them. When something goes wrong, then she will get moving. | Consumer-citizen is concerned about issues involving tax policy: fairness of taxes, who pays taxes, etc. She participates in organizations helping to get good tax policies. |

Read the story of George Dawson. Decide whether or not he has a reasonable position. Then discuss the judgments of your parents and friends about persons in George's position.

GEORGE DAWSON WAS RETIRED AND LIVING ON A FIXED INCOME. EACH YEAR HIS PROPERTY TAXES WENT UP. NOW THE COSTS WERE MAKING LIVING DIFFICULT. HE WAS ALMOST ON THE VERGE OF HAVING TO SELL HIS \$18,000 HOME--IN WHICH HE HAD LIVED FOR FIFTY YEARS. GEORGE THINKS THAT THE TAXES ARE UNFAIR. HE HAS PAID OVER THE YEARS FOR THE OLD SCHOOL BUILDINGS IN TOWN--THE SEWER SYSTEM--THE POLICE STATION--THE STREETS--THE OLD PARK DOWNTOWN--AND FOR OTHER SUCH IMPROVEMENTS. HE FEELS THAT THE NEW RESIDENTS--THE ONES WHO MAKE SEWER EXPANSION, NEW PARKS, NEW STREETS, ETC. NECESSARY--SHOULD BE PAYING MORE! HE THINKS THAT HE SHOULD BE PAYING LESS.

What would George Dawson do if he were an INACTIVE consumer-citizen? A REACTIVE consumer-citizen? A PROACTIVE consumer-citizen?

ANSWERS WILL VARY, BUT SHOULD INCLUDE:

INACTIVE George: (PAY HIS TAXES AND TRY NOT TO THINK ABOUT IT)

REACTIVE George: (WHEN HE CAN'T PAY HIS TAXES HE WILL DECIDE TO DO AND ACT)

PROACTIVE George: (HE WILL JOIN OR ORGANIZE GROUPS TO WORK FOR FAIRER TAXES FOR THE SENIOR CITIZEN)

Let's assume that George has decided to try to change the local tax laws. He feels that older citizens in long-established residential areas should get a tax break. He also feels that taxes and fees on housing in new developments around his home town should be increased. George cannot do it alone. He will need friends and allies who have power (influence) on the government process. George needs to answer these questions:

1. WHAT INFORMATION AND SKILLS DOES GEORGE NEED?
2. WHAT WORK AND SUPPORT ARE REQUIRED?
3. WHO ARE THE IMPORTANT LEADERS AND LEGITIMATIZERS IN GEORGE'S COMMUNITY?

WHO HAS THE INFORMATION AND SKILLS?

WHO HAS WORKERS AND SUPPORTERS FRIENDLY TO GEORGE'S PROJECT?

WHO AMONG THEM ARE FRIENDS OR CAN BE PERSUADED TO ENDORSE THE PROJECT?

These are important questions to answer about any citizen-consumer community problem.

| Color T.V.      | 450            | 18               |
| Furniture       | 1100           | 44               |
| Car             | 3400           | 136              |
| Misc. purchases | 1500           | 60               |
| <b>TOTAL</b>    | <b>\$ 8030</b> | <b>\$ 321.20</b> |

Now compute the percentage of total annual income three different couples spent for sales taxes:

| ANNUAL INCOME | SALES TAX | PERCENT OF TOTAL INCOME |
|---------------|-----------|-------------------------|
| \$17,500      | \$320     | 2%                      |
| 8,000         | 320       | 4%                      |
| 40,800        | 320       | 0.8%                    |

Circle the income of the couple for whom the sales tax paid was the greatest burden.

**Property Tax** Property taxes are computed according to the assessed value of each parcel of real property in a community:

The tax rate is determined by dividing the amount to be raised by taxes by the total assessed value:

$$\frac{\text{Amount to be raised by taxes}}{\text{Total assessed value}} = \text{TAX RATE}$$

For example, in the town of Pleasant Hill,

$$\frac{\text{Amount to be raised by taxes}}{\text{Total assessed value}} = \frac{\$ 50,000}{2,150,000} = .0232558 =$$

Total rate per each \$1 of assessed valuation

which is stated at the rate per \$1000 assessed valuation: .0232558 x 1,000 = \$23.2558 per each \$1,000 assessed valuation

Use the following information to determine (1) the tax rate for Snooterville  
 (2) the taxes owed on two pieces of property

The total assessed value of property in Snooterville is \$2,000,000 where it is necessary to raise \$60,000 of the budget by taxes. Two pieces of property in Snooterville have been assessed at \$10,000 and \$25,000.

(1) The tax rate in Snooterville would be \$30 per \$1000

(2) The tax owed on the two pieces of property: \*

|       |
|-------|
| \$300 |
| <hr/> |
| \$750 |

\* Tax owed = Number of thousands of assessed valuation x tax rate  
 (Property assessed at \$10,000 taxed at a 15.17841 rate would mean a tax bill of 10 x 15.17841 or \$151.78)

**Social Security** The employee share of social security payments is currently 6.13%. This amount is withheld from the employee's pay.

Example: An employee with a monthly salary of \$ 1000  
 \$1,000.00, would have \$61.30 withheld x .0613  
 for social security or FICA. \$61.30

Find the FICA deductions from the following employees' checks:

| SALARY | FICA DEDUCTION  |
|--------|-----------------|
| \$600  | <u>\$ 36.78</u> |
| \$1500 | <u>\$ 91.95</u> |
| \$2500 | <u>\$153.25</u> |

The rate for social security or FICA deductions is set annually by Congress. The informed citizen-consumer is aware of the status of both the percentage deducted and the amount above which no more deductions will be made.

**Income Tax** Federal income tax is withheld from the employee's pay according to the employee's status as declared on his W-2 Form (single or married), and according to tax tables provided in the IRS publication, *Circular E*.

Use the following tax table to determine the *Federal Withholding Tax* for each individual's check. The first one has been completed for you.

- The Federal Insurance Contributions Act established SOCIAL SECURITY
- A tax on goods and services is called a SALES tax.
- A tax levied on real estate or personal property is called a PROPERTY tax.
- A tax levied on the incomes of individuals, trusts, estates, and corporations is an INCOME tax.
- The three levels on which taxes are paid are STATE, LOCAL, and FEDERAL.
- The more services and benefits provided by government, the HIGHER the taxes become.
- Tax payments require about 1/3 of the income of the typical individual in the United States.
- The two types of sales tax are GENERAL and SELECTIVE.
- The tax which provides the principal source of revenue for schools is the PROPERTY tax.

10. Taxes may be classified according to the effect the paying of taxes has on the spending power of an individual. These classifications are called PROPORTIONAL, PROGRESSIVE, and REGRESSIVE.

Happ Hazzard is single, earns \$1800 per month, lives in a house assessed at \$30,000 and just purchased a \$5,600 car. Compute the following taxes:

|                          |           |
|--------------------------|-----------|
| Federal withholding tax  | \$ 421.90 |
| FICA                     | \$ 110.34 |
| Property tax at 10 mills | \$ 300.00 |
| 5% sales tax on his car  | \$ 280.00 |

Give an example for each type of tax:

|              |              |
|--------------|--------------|
| PROPORTIONAL | PROPERTY TAX |
| PROGRESSIVE  | INCOME TAX   |
| REGRESSIVE   | SALES TAX    |

Discuss the effect of our current tax structure on three groups of citizens--the poor, the middle class, the wealthy. Include federal income tax, social security, property tax, and sales tax. What *benefits* are provided by each tax? What *burden* does each tax place on citizens in each group?

ANSWERS WILL VARY.

Is it true that the United States has one of the lowest income tax systems in the world? YES

### 3. FORMS

WRITE THE NAME OF EACH FORM DESCRIBED BELOW:

- |     |               |  |
|-----|---------------|--|
| 1.  | <u>W-2</u>    | Statement of earnings and amounts withheld   |
| 2.  | <u>SS-5</u>   | Application for a social security number   |
| 3.  | <u>1040 A</u> | Short form used when filing an individual income tax return.   |
| 4.  | <u>W-4</u>    | Form on which the number of personal exemptions claimed is written   |

**Exercises**

Use the "Who Must File?" table to see if you can determine the gross income which would qualify each of the following citizen-consumers, as taxpayers.  
The first one is done for you.

- | TAXPAYER  | NECESSARY GROSS INCOME |
|---|------------------------|
| 1. Nancy is a student with no earned income.  | \$ 750                 |
| 2. John is single, aged 23.   | \$ 2960                |
| 3. Happ and Ms. Happ are married, Happ is 67, Ms. Happ is 66, and they are filing a joint return. | \$ 6200                |
| 4. Henry is a bachelor, aged 57.  | \$ 2950                |
| 5. Mr. & Mrs. E. Z. Go are filing a joint return. Mr. Go is 66, Mrs. Go is 64.                    | \$ 5450                |

Even though you are not REQUIRED to file a return, according to the income guide provided by the IRS, you SHOULD file a return if:

(1) INCOME TAX WAS WITHHELD FROM YOU THAT YOU ARE ENTITLED TO GET BACK AS A REFUND

OR

(2) YOU ARE ELIGIBLE FOR AN EARNED INCOME CREDIT GRANTED THOSE TAXPAYERS RECEIVING LESS THAN A MINIMUM INCOME AS DEFINED BY THE IRS

Your return in either of these cases would be for the purpose of claiming a REFUND:

## 5. WATCH OUT FOR...

Complete the following statements by writing the correct word in each blank:

1. Be sure to include your taxpayer identification or SOCIAL SECURITY number.
2. Attach all FORMS on the face or front of your return.
3. If it is necessary to send a check to IRS, be sure the check has your SOCIAL SECURITY number on it.
4. Use the correct tax TABLE or SCHEDULE to compute your tax.
5. The last item to complete on the tax form is one of the items most commonly missing when IRS checks returns. Be sure to SIGN and date your return.

Discuss: Should the IRS include a checklist for taxpayers to use before they mail their returns?

ANSWERS WILL VARY

Would you suggest a change in the order of the items on the return?

## 6. IT'S NOT ALL OVER YET!

Complete the following statements by writing the correct word in each blank:

1. A taxpayer's identification number is his SOCIAL SECURITY number.
2. The Internal Revenue Service Center to which you would send your return is located in ANSWERS WILL VARY.
3. Tapes for all taxpayer information is stored at the National Computer Center located in MARTINSBURG WEST VIRGINIA.
4. It is wise to keep all records for at least 3 years.
5. Three reasons a taxpayer's return might be audited are:  
ANY THREE:  
OVERSTATE DEDUCTIONS  
MAKE AN ARITHMETIC ERROR.  
HAVE UNUSUALLY LARGE DEDUCTIONS  
RESEARCH AUDIT

How long does it take for a tax return to be processed? Does it take longer to receive a refund on a 1040 return or a 1040A?

Are returns prepared by commercial preparers processed more quickly and/or refunds made more quickly than those prepared by the taxpayer himself?

What is the difference for returns filed in January or February and those filed just before the April 15 deadline?

Is there a difference according to where the taxpayer lives?

Taxpayers have many such questions. Make an informal survey and share the results.

ANSWERS WILL VARY.

Important information is divided into chapters or sections. Each section begins with a title page and includes:

P A S S W O R D S, which give the special meanings for the words used in that section.

R E V I E W T I M E, exercises to determine what you have learned.

Have fun, study hard, and become a conscientious consumer.

\*PAL: Packaged Activities for Learning

Users of the consumer skills presented in this resource booklet come in both genders, female and male. The text and dialogues sometimes say "he," sometimes "she," sometimes "you," sometimes "the person." Please feel free to substitute the feminine for the masculine pronoun, and vice versa, any time it is appropriate to your situation.

TAXES ARE A RESPONSIBILITY OF AMERICAN CONSUMERS.

WE PAY TAXES TO PAY THE PRICE OF GOVERNMENT SERVICES.

As you work through this PAL you will learn about:

- 1. Why We Have Taxes**
- 2. Kinds of Taxes**
- 3. Tax Forms**
- 4. How To Complete Tax Forms**
- 5. Things to Watch Out For in Filing a Tax Return**
- 6. Income Tax Audits**

We have all heard about taxes and we have all heard about SCARCITY. Since we have limited dollars and cents and unlimited needs and wants, we have a problem of Scarcity.

## **TAXES & SCARCITY**

Unlimited

Wants

Limited Dollars  
and Cents

**SO**

We must carefully allocate our dollars and cents to best fulfill our needs and satisfy as many wants as we can.

**HOWEVER**

We control how we spend our personal dollars and cents-- except for taxes. By law, the government takes some of our limited resources to provide services for the good of all citizens.

Governments at the local, State, and Federal levels levy taxes and fees of various kinds to provide services of various kinds. This PAL will provide information on those taxes and services. But first, WHAT ARE YOUR ATTITUDES TOWARD TAXES?

Complete the following sentences:

1. *Income taxes are* \_\_\_\_\_

3. *When it comes to taxes, politicians should* \_\_\_\_\_

EACH DEFINITION WITH WHICH YOU AGREE:

TAXES

- are what we pay for a civilized society.  
Oliver Wendell Holmes Jr.
- are direct levies on the income earned by individuals and corporations.
- provide schools, colleges, homes for children and the aged, protection of the environment, health services, social services, etc.
- are a necessary evil.
- serve two major purposes in the United States: a basic source of revenue for federal, state and local governments; a means of influencing the activity of the economy.
- are a compulsory contribution of money to be made to a government to provide for services for the common good.
- now account for the largest single bite out of the annual earnings of an individual.

ALL OF THE ABOVE MAY BE TRUE--IT DEPENDS ON YOUR OWN TAX EXPERIENCES AND VIEWPOINT.

## Taxes and Problems

The news media are full of stories about taxes, new and old. We hear people complain about paying taxes and we read stories about people who fail to pay their fair share of taxes. Taxes, it seems, are a PROBLEM.

What is a problem? Write your definition of PROBLEM:

## More on Attitudes Toward Taxes

Select from the following list the response which best indicates your attitude toward each statement:

A = Agree

D = Disagree

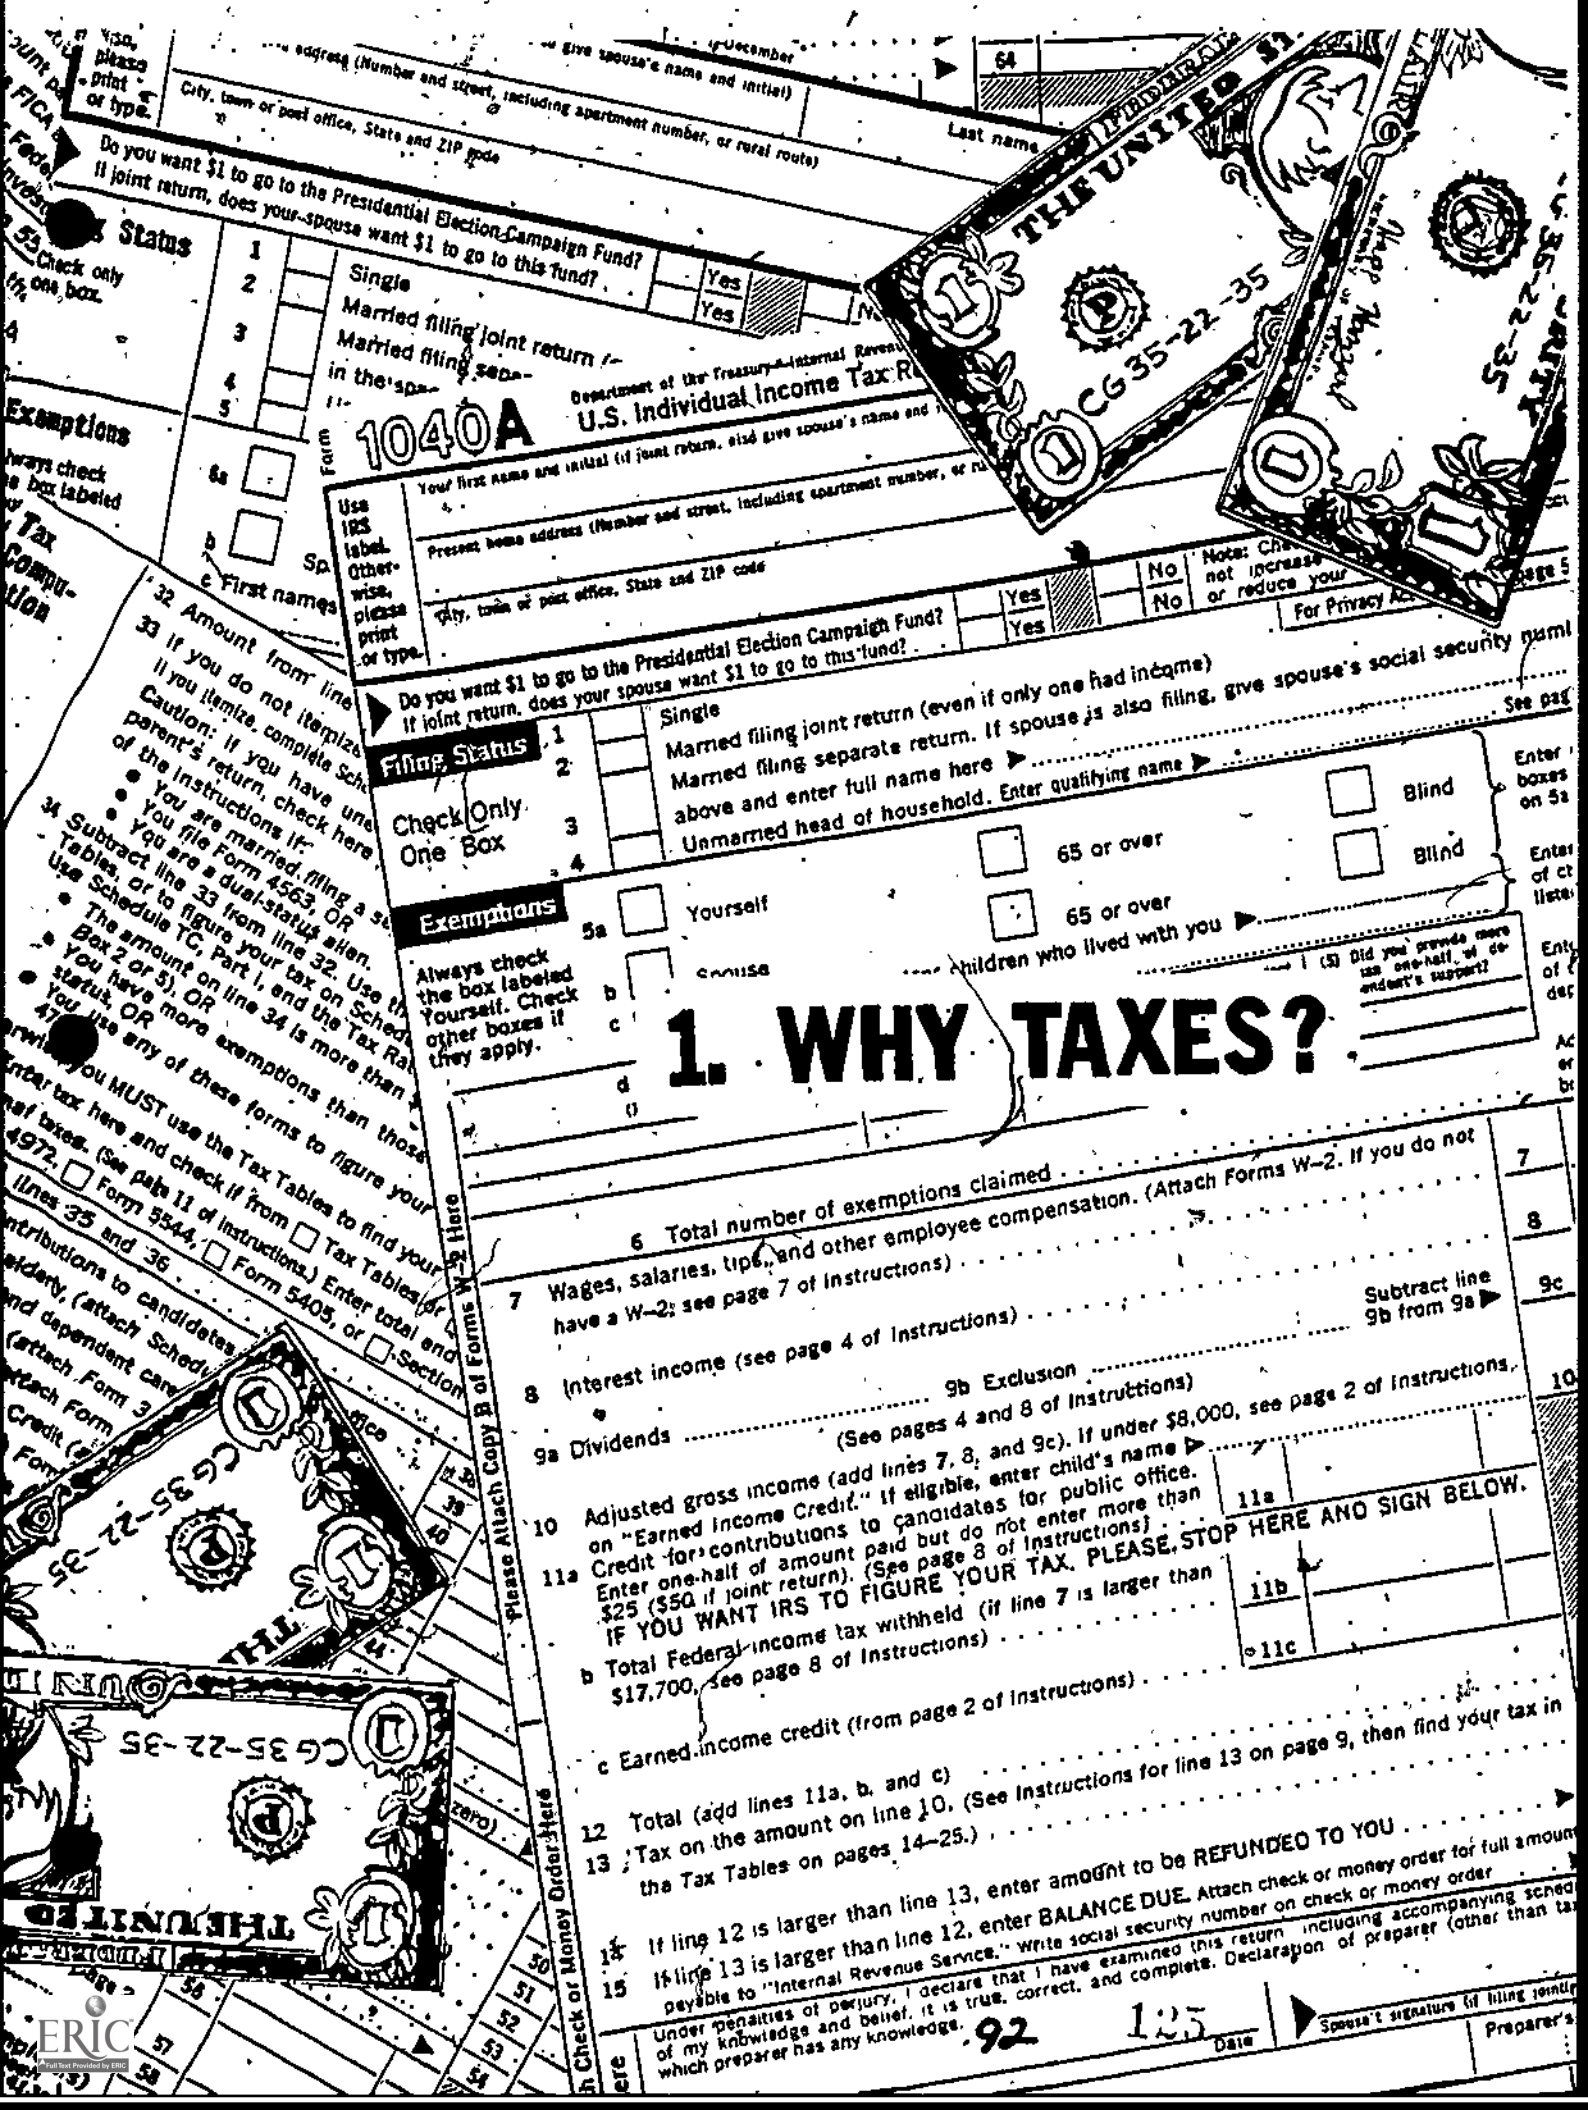

N = No Opinion

1. Rich or poor, one should pay his taxes.
2. Many of the best things in life come from tax dollars.
3. A penny paid in taxes is a penny spent on the good of the community or nation.
4. A person cannot be a good citizen unless she pays her taxes.
5. Taxes are the root of all evil.
6. Taxes are not among the delights of life.
7. Of all debts, persons are least willing to pay taxes.
8. Taxes are debts we pay to the community and nation which provide us with services and freedoms.
9. Sales taxes are the best form of taxation.
10. It is better to use hidden taxes (like those on gasoline and cigarettes) than taxes like income and sales taxes.

If you wish, discuss your responses and your reasons with others. Get their positions and reasons as well. We might all learn something about our attitudes toward taxes.

NO, NO - I SAID I  
HATE TAXES!

## WHY DO WE HAVE TAXES?

It appears to be the best method of paying for our governmental services.

Taxes, whether federal, state or local, pay for government services to society. These services may be characterized as:

L egal  
I mportant  
V ital  
E ssential

## WHY DO WE NEED TAXES?

To provide services to citizens.

Such services include:

Consumer protection.  
Education  
Health & sanitation  
Highways  
Legal systems  
Libraries  
National defense  
Police & fire protection  
Postal services  
Recreational facilities  
Transportation  
Utilities  
Veteran benefits  
Welfare

These are services which most people need, but which most individuals cannot afford to perform or purchase for themselves.

Could you do without these services?

# Give and You Shall Receive

In one way or another we all seem to pay taxes. Tax payments are made to local, state, and federal governments. Think about the many services provided by government.

WHAT SERVICES DID YOU RECEIVE FROM GOVERNMENT LAST WEEK??

1. Drove on streets, roads and highways.
- 2.
- 3.
- 4.
- 5.
6. Checked book out from library
- 7.
- 8.
- 9.
- 10.
- 11.
12. Education (my school)

Discuss the level of government which provides these services: LOCAL, STATE, FEDERAL. Some services are provided by more than one level of government. (For example, state and federal money is used to build and maintain many highways.)

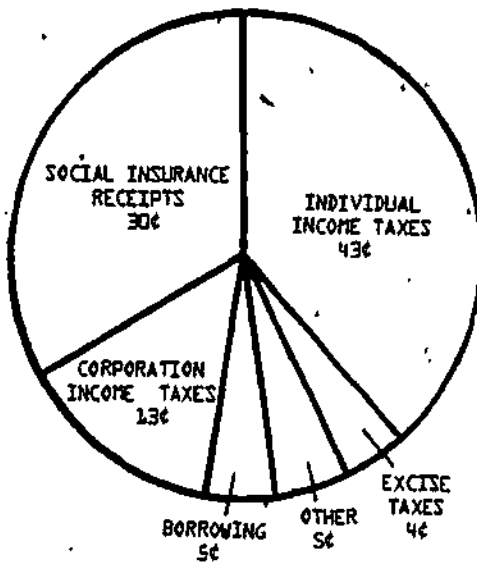

WHAT DOES IT ALL MEAN? The illustration shows that for every dollar in the federal budget certain amounts are received from various sources and certain amounts are spent for particular services.

The American taxpayer has the right to know where his tax dollars go--what he has received for his money. Such information is public record. The illustration below shows the federal budget dollar for the 1980 fiscal year. Were you aware of the sources of federal dollars? Did you know how Uncle Sam spends your money?

# THE FEDERAL

# BUDGET DOLLAR --

**WHERE IT  
COMES  
FROM**

**WHERE IT  
GOES**

X 96 129

WHERE IT COMES FROM shows individual income taxes as the greatest source of federal revenue. SOCIAL INSURANCE receipts are those payments made through social security and unemployment taxes. OTHER receipts are those, from import duties and estate and gift taxes. EXCISE TAXES are those collected on gasoline, alcohol, and airport taxes.

WHERE IT GOES shows DIRECT BENEFIT PAYMENTS TO INDIVIDUALS as the greatest amount spent in the federal budget. These payments include such programs as Social Security, Unemployment, Medicare and Medicaid, Food Stamps and Housing. Many persons use the single term "Welfare" to describe these payments. NATIONAL DEFENSE includes the Department of Defense, the Atomic Energy Commission, and military retirement. GRANTS TO STATES & LOCALITIES are those for airports, highways, urban mass transit programs, natural resources, and environmental protection. OTHER FEDERAL OPERATIONS include Internal Revenue, medical research, the F.H.A., and foreign aid.

## **WHY DO WE PAY TAXES ?**

***It's the law!***

Our federal income tax system is based on voluntary compliance--the willingness of most taxpayers to report their income, compute their tax properly, and pay their taxes voluntarily. \*

**"COINCIDENCE!!! HAI I STILL SAY  
IT'S THEIR WAY OF NOT LETTING  
ME FORGET--  
NOT EVEN FOR A MINUTE!"**

\*.All W-2 Forms contain the line: "This information is being furnished to the Internal Revenue Service."

# Paying Taxes

There are many motives for paying taxes. Talk to 20 people and you will hear various reasons for paying taxes, beyond the basic reason that there are punishments for failing to pay!

Listed below are five LEVELS of reasons for paying taxes.

- LEVEL 1 PAY TAXES TO AVOID PUNISHMENT FOR FAILURE TO PAY THEM.  
*"If I don't pay, I'll go to jail!"*
- LEVEL 2 PAY TAXES BECAUSE OF THE BENEFITS ONE GETS BACK FROM GOVERNMENT.  
*"My taxes pay my salary as a teacher."  
"I pay gas taxes, and I get these good roads."*
- LEVEL 3 PAY TAXES TO AVOID THE DISAPPROVAL OF OTHERS WHOM I RESPECT.  
*"If I don't pay my taxes in Boston, they'll post my picture in city hall!"  
"In my position, I cannot afford to fail to pay taxes, for it would embarrass me when friends found out."*
- LEVEL 4 PAY TAXES BECAUSE IT IS THE LAW, AND THAT LAW MAKES SENSE AND IS FAIR TO EVERYONE.  
*"We need the services of government and everyone pays a fair share for those services."  
"We have always provided government services this way, and always paid through our taxes."*
- LEVEL 5 PAY TAXES AS A MATTER OF PERSONAL OBLIGATION TO THE COMMON GOOD (THE GENERAL WELFARE OF THE COMMUNITY AND NATION).  
*"Sure, I may not benefit directly from all government programs, but as a member of this community and as a citizen of the United States, I owe my tax money to programs which help others!"*

Discuss the reasons for paying taxes with friends and relatives. See what LEVEL they use in answering the question. Which are, in your judgment, the better LEVELS of reasons for paying taxes? Why?

# PENALTY!

## **READ & HEED:**

THE IRS FINES OR LEVIES A PENALTY ON TAXPAYERS WHO ARE GUILTY OF

- \* FAILURE TO FILE A TAX RETURN
- \* FAILURE TO PAY TAX
- \* UNDERPAYMENT OF ESTIMATED TAXES
- \* NEGLIGENCE
- \* FRAUD

Federal penalties may be as high as 50% of the deficiency. The IRS expects voluntary compliance.

While the meanings of the failures listed above may be obvious to the average taxpayer, negligence and fraud may not be so obvious.

NEGLIGENCE is the "intentional disregard of rules and regulations, but without the intent to defraud:"

FRAUD is willful deceit, trickery, or cheating.

TAXES THAT ARE OWED ARE TO BE PAID -- IF NOT BY THE TAXPAYER HIMSELF, THEN BY SOMEONE ELSE AFTER HIS DEATH.

TAX LIABILITIES DO NOT END WITH THE DEATH OF THE TAXPAYER.

What might the following diagram have to do with the meaning of the word PROBLEM?

What might the following diagram have to do with the definition of the word PROBLEM?

When people talk about THE TAX PROBLEM, or THE PROBLEM WITH TAXES, what could they mean? Write your ideas:

---

---

---

Consumer-citizens do often have problems about taxes. They think taxes are too high, or too low. They think taxes are unfair, etc. But all consumer-citizens do not take effective action about these tax problems.

There are three types of consumer-citizen response to tax problems:

| INACTIVE   | REACTIVE  | PROACTIVE  |
|--|---|--|
| <p><i>Consumer-citizen withdraws from facing problems with unfairness, etc., she feels about her own taxes. She just pays them and forgets it. Escapes. She doesn't worry about societal tax issues--she feels powerless to do anything about them anyway.</i></p> | <p><i>Consumer-citizen just responds to her problems as she sees them. When something goes wrong, then she will get moving.</i></p> | <p><i>Consumer-citizen is concerned about issues involving tax policy: fairness of taxes, who pays taxes, etc. She participates in organizations helping to get good tax policies.</i></p> |

Read the story of George Dawson. Decide whether or not he has a reasonable position. Then discuss the judgments of your parents and friends about persons in George's position.

GEORGE DAWSON WAS RETIRED AND LIVING ON A FIXED INCOME. EACH YEAR HIS PROPERTY TAXES WENT UP. NOW THE COSTS WERE MAKING LIVING DIFFICULT. HE WAS ALMOST ON THE VERGE OF HAVING TO SELL HIS \$18,000 HOME--IN WHICH HE HAD LIVED FOR FIFTY YEARS. GEORGE THINKS THAT THE TAXES ARE UNFAIR. HE HAS PAID OVER THE YEARS FOR THE OLD SCHOOL BUILDINGS IN TOWN--THE SEWER SYSTEM--THE POLICE STATION--THE STREETS--THE OLD PARK DOWNTOWN--AND FOR OTHER SUCH IMPROVEMENTS. HE FEELS THAT THE NEW RESIDENTS--THE ONES WHO MAKE SEWER EXPANSION, NEW PARKS, NEW STREETS, ETC. NECESSARY--SHOULD BE PAYING MORE! HE THINKS THAT HE SHOULD BE PAYING LESS.

What would George Dawson do if he were an INACTIVE consumer-citizen? A REACTIVE consumer-citizen? A PROACTIVE consumer-citizen?

INACTIVE George: \_\_\_\_\_

REACTIVE George: \_\_\_\_\_

PROACTIVE George: \_\_\_\_\_

Let's assume that George has decided to try to change the local tax laws. He feels that older citizens in long-established residential areas should get a tax break. He also feels that taxes and fees on housing in new developments around his home town should be increased. George can not do it alone. He will need friends and allies who have power (influence) on the government process. George needs to answer these questions:

1. WHAT INFORMATION AND SKILLS DOES GEORGE NEED?
2. WHAT WORK AND SUPPORT ARE REQUIRED?
3. WHO ARE THE IMPORTANT LEADERS AND LEGITIMATIZERS IN GEORGE'S COMMUNITY?

WHO HAS THE INFORMATION AND SKILLS?

WHO HAS WORKERS AND SUPPORTERS FRIENDLY TO GEORGE'S PROJECT?

WHO AMONG THEM ARE FRIENDS OR CAN BE PERSUADED TO ENDORSE THE PROJECT?

These are important questions to answer about any citizen-consumer community problem.

Americans have been known to complain about taxes

The payment of taxes is not one of the delights of our lives.

To put it frankly, it's a pain in the pocketbook.

but it's only because Americans are so clever. We have thought of ways to tax nearly everything: what we own, what we spend, what we earn, and what we use. We have even been so clever at times as to tax ourselves on the right to vote.

Taxes are of many types and levels. Local, state, and federal taxes are needed and necessary to support the programs and services which these levels of government provide citizens. And if we are citizens, we cannot escape the impact of taxes on our daily lives as E. Z. Mark, Jr. learned one morning last week:

Here A Tax, There A Tax, Everywhere A Tax ...

A Tale Of A Modern Taxpayer

E. Z. MARK, JR. REACHED FOR HIS SNOOPY ALARM (sales tax, \$.40), TURNED OVER IN HIS KING-SIZE BED (sales tax, \$16) OF THE MASTER BEDROOM IN HIS SUBURBAN HOME (property tax, \$800), AND GLOOMILY GREETED A NEW WORK DAY.

HE TURNED ON THE LIGHT (*monthly utility tax, \$3*), GREETED HIS WIFE (*marriage license, \$10*), CHILDREN, AND FAMILY DOG (*license, \$3*). THE MORNING NEWSCASTER REPORTED THE STATE LEGISLATURE WAS CONSIDERING THE ADOPTION OF A STATE INCOME TAX OR AN INCREASE IN THE SALES TAX.

"OH WELL, SO IT GOES," HE THOUGHT. "I SUPPOSE I SHOULD CONSIDER MYSELF LUCKY--THERE AREN'T MANY STATES LEFT THAT DON'T HAVE A STATE INCOME TAX."

"I MIGHT AS WELL ENJOY MY BREAKFAST," (*sales tax on weekly grocery bill, \$5*).

TODAY IS PAY DAY (*\$353.23 tax, \$114.99, FICA*), AND THE CAR (*sales tax, \$160*) PAYMENT IS DUE. TOMORROW IS THE FLIGHT TO A COMPANY CONFERENCE (*tax on air fare, \$17.25*).

ON THE WAY TO THE OFFICE, E. Z. STOPS FOR 5 GALLONS OF GASOLINE (*\$.11 per gallon in federal and state taxes*), PAYS THE \$.20 TOLL, AND DECIDES HE AND HIS WIFE WILL SEE THE MOVIE (*\$.10 tax per ticket*) HE SEES ADVERTISED ON A HIGHWAY BILLBOARD.

ONLY A BLOCK FROM THE OFFICE HE IS STOPPED ON A ROUTINE CHECK AND DISCOVERS HIS DRIVER'S LICENSE (*\$12*) EXPIRED YESTERDAY.

AND SO IT GOES--E. Z. MARK HAS BEEN AWAKE FOR LESS THAN TWO HOURS . . .

E. Z. Mark's story was about taxes. Show the total amount of taxes mentioned in each paragraph:

Let's take a closer look at the basic types of taxes we have mentioned:

## Sales Tax

- \* a state tax on goods and services
- \* levied as a percentage of the sale price of items at the time of sale
- \* collected by the retailer & transferred to tax officials
- \* *GENERAL* sales tax on both commodities and services
- \* *SELECTIVE* sales taxes are taxes on luxuries, amusements, gasoline, etc.
- \* few people realize how much of their annual income actually is spent on sales tax

## Income Tax

- \* Federal *INDIVIDUAL* income tax is based on one's taxable income (gross income minus deductions & exemptions)
- \* the federal government's largest source of revenue
- \* State *INDIVIDUAL* income tax is levied in many states
- \* *CORPORATION* income tax is similar to individual income tax, but with different regulations & rates
- \* It is possible to pay city individual income tax, state individual income tax, and Federal individual income tax, depending on where the taxpayer lives and is employed.

## Property Tax

- \* a tax levied on real estate or any personal property that has value & can be bought & sold
- \* a tax based on the assumption that the ownership of property is an indication of the owner's ability to pay tax
- \* provides local governments with the majority of their revenue with which to pay employees' salaries, to purchase supplies & equipment, to pay the interest and/or principal on borrowed money, & to carry on the business of a city, town, or village
- \* principal source of revenue for local school support

## Property Tax

The amount of property tax a property owner owes is based on the value of his property.

Expressed in mills (1/10 cent), property tax bills are determined by simple multiplication:

$$\text{PROPERTY VALUE} \times \text{TAX RATE IN MILLS} = \text{PROPERTY TAX DUE}$$

Example: Property valued at \$10,000 with a 6 mill tax rate would have a tax bill of \$60.

Find the amount of property tax due for the following properties:

|                   |          |          |          |
|-------------------|----------|----------|----------|
| Property Value    | \$15,000 | \$25,000 | \$54,000 |
| Tax Rate in Mills | 6        | 7        | 6.8      |
| PROPERTY TAX DUE  | _____    | _____    | _____    |

Taxes may be classified in at least two different ways: by the TYPE OF TAX or by the LEVEL OF GOVERNMENT which levies the tax.

Taxes are paid on three LEVELS: local (city or county), state, and federal. Programs on these three levels are primarily supported by PROPERTY TAX on the local level, SALES TAX on the state level, and INCOME TAX on the federal level. This is not to say that in many areas the same type tax may not be charged on different levels such as federal, state, and even city income tax; and both state and local sales taxes.

Examine the following chart:

| TYPE OF TAX                    | LEVEL OF GOVERNMENT  |
|--------------------------------|----------------------|
| USER TAXES                     |                      |
| SALES & USE                    | STATE; LOCAL         |
| MOTOR FUEL                     | FEDERAL; STATE       |
| CIGARETTES                     | FEDERAL; STATE; CITY |

Why so many different taxes? Different taxes pay for different services. It is also easier to collect smaller amounts from many sources than large amounts from few sources. Of course history played an important role in the development of your tax systems.

*Property taxes* became an early revenue source because it was felt that property ownership was a good measure of wealth. Later, *income* was thought to be a better indicator of a person's ability to pay. People who earned more money could afford to pay more taxes, it was felt. *User taxes* (sales tax, cigarette tax, gasoline tax, etc.) are a direct charge on the one who consumes the products. Such taxes have usually been easy to collect.

## TAX FACTS

1. Taxation is a plan by which funds are raised to pay the costs of operating local, state, and federal governments.
2. The more services & benefits provided by government, the higher taxes become.
3. The tax each individual should pay must be determined by a formula or rule, not arbitrarily.
4. Governments are the only agencies with the power & right to tax.
5. Taxation plans are based on fairness to the taxpayer, cost of service given, benefit from the service, and ability to pay.
6. Tax payments require about 1/3 of the income of the typical individual. Every individual has a vital stake in taxes.

### Sales Tax

We all pay sales tax, but how many of us realize how much of our income really is spent for these taxes?

Complete the following chart for a newly married couple. They are both employed & expenses are given for the first year of marriage. Use 4% tax.

| ITEM PURCHASED  | RETAIL PRICE | SALES TAX |
|-----------------|--------------|-----------|
| Clothing        |              |           |
| Husband         | \$ 250       | \$ _____  |
| Wife            | 400          | _____     |
| Stereo          | 230          | _____     |
| Refrigerator    | 700          | _____     |
| Color T.V.      | 450          | _____     |
| Furniture       | 1100         | _____     |
| Car             | 3400         | _____     |
| Misc. purchases | 1500         | _____     |
| TOTAL           | \$ _____     | \$ _____  |

Now compute the percentage of total annual income three different couples spent for sales taxes:

| ANNUAL INCOME | SALES TAX | PERCENT. OF TOTAL INCOME |
|---------------|-----------|--------------------------|
| \$17,500      | \$320     | _____                    |
| 8,000         | 320       | _____                    |
| 40,800        | 320       | _____                    |

Circle the income of the couple for whom the sales tax paid was the greatest burden.

**Property Tax** Property taxes are computed according to the assessed value of each parcel of real property in a community.

The tax rate is determined by dividing the amount to be raised by taxes by the total assessed value:

$$\frac{\text{Amount to be raised by taxes}}{\text{Total assessed value}} = \text{TAX RATE}$$

For example, in the town of Pleasant Hill:

$$\frac{\text{Amount to be raised by taxes}}{\text{Total assessed value}} = \frac{\$ 50,000}{2,150,000} = .0232558 =$$

Total rate per each \$1 of assessed valuation

which is stated at the rate per \$1000 assessed valuation:  $.0232558 \times 1,000 = \$23.2558$  per each \$1,000 assessed valuation

113146

Use the following information to determine (1) the tax rate for Snooterville  
 (2) the taxes owed on two pieces of property

The total assessed value of property in Snooterville is \$2,000,000 where it is necessary to raise \$60,000 of the budget by taxes. Two pieces of property in Snooterville have been assessed at \$10,000 and \$25,000.

(1) The tax rate in Snooterville would be \_\_\_\_\_

(2) The tax owed on the two pieces of property: \* \_\_\_\_\_  
 \_\_\_\_\_

\* Tax owed = Number of thousands of assessed valuation x tax rate  
 (Property assessed at \$10,000 taxed at a 15.17841 rate would mean a tax bill of 10 x 15.17841 or \$151.78)

**Social Security** The employee share of social security payments is currently 6.13%. This amount is withheld from the employee's pay.

Example: An employee with a monthly salary of \$ 1000  
 \$1,000.00 would have \$61.30 withheld x .0613  
 for social security or FICA. \$61.30

Find the FICA deductions from the following employees' checks:

| SALARY | FICA DEDUCTION |
|--------|----------------|
| \$600  | _____          |
| \$1500 | _____          |
| \$2500 | _____          |

The rate for social security or FICA deductions is set annually by Congress. The informed citizen-consumer is aware of the status of both the percentage deducted and the amount above which no more deductions will be made.

**Income Tax** Federal income tax is withheld from the employee's pay according to the employee's status as declared on his W-2 Form (single or married), and according to tax tables provided in the IRS publication, *Circular E*.

Use the following tax table to determine the *Federal Withholding Tax* for each individual's check. The first one has been completed for you.

# EVALUATING TAXES

One means of evaluating taxes according to type is with the use of the PROPORTIONAL, PROGRESSIVE, REGRESSIVE classifications.

PROPORTIONAL taxes are taxes in which a single tax rate is applied to a given tax base. The tax remains the same even when the base increases or decreases. Examples of proportional taxes are sales, excise, property, gasoline, and custom duties.

PROGRESSIVE taxes take a progressively larger fraction of total income from high income earners than from low income earners. Personal income and inheritance, estate & gift taxes are progressive taxes.

REGRESSIVE taxes take a larger fraction of total income from low income earners than from high income earners. A sales tax may be regressive in that it is a greater burden for low-income persons to pay sales tax on necessities than for high-income persons to pay the same amount. Because of their regressive effect, necessities such as food and medicine are usually exempted from the sales tax law. Taxes which have a regressive effect are sales, excise, property, gasoline, and social security.

Note that PROPORTIONAL and PROGRESSIVE refer to the method in which taxes are levied. REGRESSIVE refers to the effect a particular tax has on an individual's spending power.

\* An American and a Dutchman were talking. \*

\* "What does your flag look like?" asked the American. \*

\* "It has three stripes," replied the Dutchman, "red, \*

\* white, and blue. We say they have a connection with \*

\* our taxes--we get red when we talk about them, white \*

\* when we get our tax bills, and we pay them 'till we \*

\* are blue in the face." \*

\* "That's just how it is here," replied the American, \*

\* "only we see stars, too." \*

\* \* \* \* \*

Personal evaluations of taxes in the United States include statements such as:

"Federal taxes are o.k. In fact, they should be raised to include national health insurance."

"I'd like to see property taxes reduced. Everyone has a right to a home. It just should not be taxed so heavily."

"We pay taxes to educate other people's children and to support people who won't work. Is that fair?"

"Simplify personal income tax. The employer should just withhold 10% of every employee's income. No exemptions, no deductions, no IRS!"

Taxes are FAIR if they meet the criteria of equality, certainty, convenience, and economy. According to Adam Smith in his *The Wealth of Nations*, published in 1776, these criteria meant:

1. EQUALITY--OR EQUITY--IN THE SENSE THAT EACH TAXPAYER PAYS IN SOME FAIR PROPORTION TO INCOME RECEIVED.
2. CERTAINTY--OR PREDICTABILITY--WHEREBY EACH TAXPAYER KNOWS IN ADVANCE JUST WHEN, WHERE, AND HOW THE TAX WILL BE IMPOSED.
3. CONVENIENCE OF PAYMENT--IF PAY ONE MUST, MAKE IT AS EASY AND TROUBLE-FREE AS POSSIBLE FOR ONE TO DO SO.
4. ECONOMY IN COLLECTION--FOR THE TAXING AUTHORITY.

Think of the KINDS of taxes. How do SALES TAX, INCOME TAX, PROPERTY TAX and SOCIAL SECURITY meet or fail to meet the criteria of a FAIR tax?

Critics of our present tax systems have suggested alternative tax systems such as a value-added tax which is common in European countries, a federal sales tax, or a single federal income tax. All of these alternatives have areas in which they do not meet the criteria of a fair tax, but so do many of our current taxes.

Can you suggest some other alternatives?

# 1. Social Security SS-5 Application for a Social Security Number

DO YOU HAVE THIS CARD ?!?

If not, SS-5 is the proper form for making application. One of the first steps upon joining the ranks of the employed is to obtain a social security card if you do not already have one. Social security cards are becoming such a necessity that it is being suggested each person be given a social security number *at birth*.

**APPLICATION FOR A SOCIAL SECURITY NUMBER**  
(Or Replacement of Lost Card)

Information Furnished On This Form Is CONFIDENTIAL

Form completes application to receive SOCIAL SECURITY ADMINISTRATION COVER CARD

**HAVE YOU COMPLETED ALL 14 ITEMS?**

There are two important uses for your social security number:

1. The Social Security Administration uses it to keep a record of lifetime earnings on which to pay social security tax for old-age & survivors insurance.
2. The IRS uses it as your "taxpayer identification number" on all returns, statements, & other documents filed with IRS.

38/23

Your 9-digit social security number is an extremely important *unique* number--it identifies you--no one else is issued the same number.

## 2. **Withholding Tax** W-4 Employee's Withholding Allowance Certificate

Income tax is withheld from each employee's salary according to withholding tables prepared by the federal government.

Based on income and the number of exemptions claimed on the W-4 on file with the employer, a specific amount will be withheld from each check to cover the "pay-as-you-go" expenses of the employee for federal income tax.

A new W-4 Form should be filled out each time an employee begins work for a new employer.

W-4E Exemption From Withholding is designed for those wage earners who wish to have no tax withheld on wages paid during a certain year.

Especially useful for students, Form W-4E certifies the student had no tax liability last year and will not earn enough to have any tax liability this year. No tax will be withheld so that it will not be necessary to file a claim solely for a refund. FICA taxes will be withheld, however.

The importance of these two forms lies in the fact that if an employee does not file either Form W-4 or W-4E, the employer is required by law to withhold income tax without permitting any allowances.

### 3. Tax Statement W-2 Wage and Tax Statement

Every employee must receive a Form W-2 by January 31st of the year following the year in which the wages were earned. This statement is necessary whether or not the employee is required to file a tax return.

Information provided on the W-2 includes:

- Employer's name & address
- Employee's social security number
- Amount of Federal income tax withheld
- Total wages paid to the employee
- Amount of FICA tax withheld
- Employee's name & address

Copies of the W-2 are provided for use by

- IRS
- Employee when filing a federal income tax return
- Employee for his records
- Employee when filing state and/or local tax returns

A copy of a W-2 Form must be filed for wages earned from each employer during a tax year should an employee have held more than one job.

**Remember:** Copy A of your W-2 is filed with the IRS even before you file your tax return.

Ready to Move On ?

Do You Know the Passwords ?

This is

IT\*

Well . . . you've struggled through:

WHY TAXES?

HERE A TAX, THERE A TAX, EVERYWHERE A TAX

and

FORMS, FORMS, FORMS

At last it's time to actually find out how and get some practice in completing an individual income tax return--the tax which most of us are most concerned about.

In THIS IS THE WAY we will

- \* look at some of the history of income taxes in the United States
- \* establish the basic steps in preparing a return
- \* provide pointers for the preparation of returns
- \* discuss the sources of help in completing an income tax return.

The basic steps remain rather standard from year to year. The same type of data is needed and certain standard mathematics are used. But, the specific laws and guidelines change from year to year as the IRS regulations are revised.

The tables you use, the amounts you deduct, and the specific allowances are guides only. The taxpayer will need to use annual IRS guidelines in the filing of each return.

\* **Income Tax:**

A TAX LEVIED BY THE GOVERNMENT ON THE INCOMES OF INDIVIDUALS, TRUSTS, ESTATES, AND CORPORATIONS

One of our responsibilities as U.S. citizens is to pay our taxes. This has not always been the case. Let's take a look at the federal income tax as we know it.

Although we have not always had income taxes, since 1913 U.S. citizens have been required to pay a federal tax on their incomes.

As has often been true in the history of our economy, wars have had a major effect on modern taxation. Introduced as a "disagreeable duty" (indeed, who would not agree, even today?) to prevent the "annihilation of this government," the income tax was imposed as a revenue act in 1861. It began as basically a rich man's tax--only 1% of the population was affected--and was allowed to expire in 1870.

It was not until 1913 with the adoption of the 16th Amendment, which explicitly gave Congress the power to impose taxes without apportionment (distribution), that modern taxation became a reality.

World War I instituted a steeply graduated tax levy and World War II brought a revolution in the method of federally taxing income.

Among the many changes and additions to the tax laws since 1913 were the following:

- \* 1924: U.S. Board of Tax Appeals
- \* 1939: Internal Revenue Code
- \* 1942: Tax Court of the U.S. replaced Board of Tax Appeals
- \* 1943: Individuals placed on a *pay-as-you-go* basis  
Employers withheld money from paychecks  
Taxpayers made estimated tax payments before the end of the tax year
- \* 1944: Optional standard deductions
- \* 1948: Old age & blindness exemptions  
Split-income joint returns for married persons
- \* 1954: April 15 deadline for filing individual tax returns for the preceding year

The basis of changes in the history of the income tax in the United States has been: wartime budgets  
inflation  
expanded public services

# IT'S REALLY VERY SIMPLE...

The preparation of an individual income tax return is simple-- the IRS uses only 150,000 words to instruct the taxpayer in filling out his income tax return.

Following the answering of two basic questions:

WHO MUST FILE \*  
and  
TO ITEMIZE OR NOT TO ITEMIZE \*

the taxpayer has only to follow the step-by-step directions in completing either his 1040 or 1040A.

But let's begin with those first two basic questions.

## Who Must File?

YOU must file a return, either the Short Form 1040A or Form 1040 if you earn enough income to meet the IRS standards according to your filing status. These income amounts change annually. It is therefore necessary to check the current amounts before filing a return.

The following table is given as an example:

| YOU MUST FILE A RETURN IF YOU ARE:     | AND YOUR GROSS INCOME IS AT LEAST: |
|--|------------------------------------|
| <b>SINGLE</b>                          |                                    |
| UNDER 65 . . . . .                     | \$2,950                            |
| 65 OR OVER . . . . .                   | \$3,700                            |
| <b>MARRIED, FILING JOINT RETURN</b>    |                                    |
| BOTH UNDER 65 . . . . .                | \$4,700                            |
| ONE 65 OR OVER . . . . .               | \$5,450                            |
| BOTH 65 OR OVER . . . . .              | \$6,200                            |
| <b>MARRIED, FILING SEPARATE RETURN</b> | \$ 750                             |
| <b>DEPENDENT ON PARENT'S RETURN</b>    | \$ 750                             |
| <b>WIDOW(ER)</b>                       |                                    |
| UNDER 65 . . . . .                     | \$3,950                            |
| 65 OR OVER . . . . .                   | \$4,700                            |

**Exercises**

Use the "Who Must File?" table to see if you can determine the gross income which would qualify each of the following citizen-consumers as taxpayers.

The first one is done for you.

| TAXPAYER  | NECESSARY GROSS INCOME |
|---|------------------------|
| 1. Nancy is a student with no earned income.  | \$ 750                 |
| 2. John is single, aged 23.   | _____                  |
| 3. Happ and Ms. Happ are married, Happ is 67, Ms. Happ is 66, and they are filing a joint return. | _____                  |
| 4. Henry is a bachelor, aged 57.  | _____                  |
| 5. Mr. & Mrs. E. Z. Go are filing a joint return. Mr. Go is 66, Mrs. Go is 64.                    | _____                  |

Even though you are not REQUIRED to file a return, according to the income guide provided by the IRS, you SHOULD file a return if:

- (1) INCOME TAX WAS WITHHELD FROM YOU THAT YOU ARE ENTITLED TO GET BACK AS A REFUND

OR

- (2) YOU ARE ELIGIBLE FOR AN EARNED INCOME CREDIT GRANTED THOSE TAXPAYERS RECEIVING LESS THAN A MINIMUM INCOME AS DEFINED BY THE IRS.

Your return in either of these cases would be for the purpose of claiming a REFUND.

## To Itemize

## or Not to Itemize

The choice of forms -- 1040 or 1040A -- and the decision as to whether to itemize your deductions are really different forms of the same question. These decisions are based on the amount of a taxpayer's AGI (Adjusted Gross Income) and the total amount of deductions which can be claimed.

You MAY Be Able to Use Form 1040A if:

- \* You had only wages, salaries, tips, or other employee compensation, and not more than \$400 in interest or \$400 IN DIVIDENDS
- \* Your total income is \$20,000 or less (\$40,000 or less if married and filing a joint return)

You MUST Use Form 1040 if:

- \* You itemize deductions
- \* You claim more exemptions than are covered in the tax table for your filing status
- \* Your spouse files a separate return and itemizes deductions. (There are exemptions)
- \* You can be claimed as a dependent on your parent's return, had unearned income of \$750 or more, AND had earned income of less than \$2,200 if single (less than \$1,600 if married filing a separate return)
- \* You are a qualifying widow(er) with a dependent child
- \* You meet other specialized qualifications

In general, itemizing deductions is a money-saver only for taxpayers who are purchasing their homes and making high interest payments; are giving a sizeable percentage of their income to charitable causes, are required to pay unusually high medical bills during the year; or have suffered unforeseen casualty loss--such as a fire destroying their home. These taxpayers will need the 1040.

Since Form 1040A is easier to complete than Form 1040, you should use it if you can. For most new or young taxpayers, 1040A is the appropriate form because the total which could be claimed as deductions is more than covered in the standard deduction given.

AS YOU READ THROUGH EACH OF THE 13 STEPS, PRACTICE BY COMPLETING THE SAMPLE FORMS GIVEN. USE YOUR OWN DATA. IF YOU ARE NOT EMPLOYED, SUPPLY ANY APPROPRIATE FIGURES NEEDED.

**Records**  
 The first step in preparing an income tax return is the same first step you would have for any project--be prepared. With taxes this means getting together all the forms and records you will need. To complete the 1040A you will need only any W-2 or 1099 which you have been issued by your employers.

Use the mailing label provided by IRS if you have filed a return in the past and one has been sent with your instructions for filing. Otherwise, type or print clearly in ink the name and address information requested.

# Identification

## Social Security

|   |   |
|---|---|
| Form 1040A<br>Department of the Treasury—Internal Revenue Service<br>U.S. Individual Income Tax Return 19 |   |
| Use IRS Mailing Label, Other, wife, please print or type  | City, town or post office, State and ZIP code |
| Present home address, Number and street, including apartment number, if any                               | Your social security number                   |
| Your name and initials if joint return also of spouse's name and address                                  | Spouse's social security number               |
| Your occupation   | Spouse's occupation                           |

Your social security number will appear on your IRS mailing label, should you have one. If not, print or type your number in the space provided. Because your social security number is your taxpayer's identification number, it is extremely important that you provide this number on your return. Should you not have a social security number, obtain an SS-5 and apply for yours. If you have not yet received your number by the April 15 filing date, write "Applied for" in the space for the social security number.

**Campaign Fund**  
 IT WILL NOT INCREASE YOUR TAX OR REDUCE YOUR REFUND.  
 Check "Yes" or "No" for this question.  
 NOTE: IF YOU CHECK THE "YES" BOX(ES),

## 6 Exemptions

Complete all sections in this area.  
Note that the taxpayer is allowed additional exemptions if he and/or his spouse is 65 or older, and for each of whom is blind. Dependents must meet all the qualifications which are spelled out in the IRS instructions to taxpayers. Note also the questions asked about "Other" dependents on the form.

# 8 Credit

Credits are amounts which reduce the total tax liability of the taxpayer.

Those who have contributed to candidates for public office may claim 1/2 the amount contributed, up to the stated limit. All taxpayers who have had federal income tax withheld state the amount which appears on their W-2 Form.

Those qualifying for earned income credit indicate this information also.

|  |     |  |  |           |  |

| <b>12</b> Total (add lines 11a, b, and c)  |     |  |  | <b>12</b> |  |

THE INFORMATION GIVEN IN THE FIRST 8 STEPS IS FROM THE TAXPAYER'S RECORDS. WHEN THIS INFORMATION IS SUPPLIED, IRS WILL FIGURE THE TAX IF THE TAXPAYER SUPPLIES THE NEEDED INFORMATION AND SIGNS THE RETURN.

# 9 Tax

Tax Tables are used to determine tax, based on the filing status of the taxpayer, and the number of exemptions.

# 11 Recheck

This step is one of the most important, but too often skipped by the hurried taxpayer.

Be sure to go over each item on your return, checking figures carefully.

You should file your income tax; not chisel it.

# 12 Sign, Date

Don't forget to sign and date your return--IRS receives many which must be returned because the taxpayer has forgotten this all-important step.

This is especially disappointing if you have been waiting to spend that refund check.

Happ and Prudence were not too happy when they figured their income tax and discovered that they were not entitled to a refund from the IRS, but would have to pay even more taxes.

Therefore, Prudence will complete a new W-4 Form for her employer. She will request that her records show no personal deductions instead of the one she had claimed during the previous tax year. In this way additional taxes will be withheld and the Hazzard's tax liabilities will be better covered by regular payroll deductions.

# HELP!

The filing of an income tax return does not have to be a task the taxpayer must complete without any help.

The problem for the consumer is not the problem of finding help, but being sure that the help he uses is reputable and worth the cost involved.

Let's look at two angles of the problem: what kinds of help are available, and how to evaluate that help.

When the consumer goes shopping for help in playing his role of taxpayer, a variety of choices are available. Among them: IRS, Tax Services, Tax Clinics, Credit Unions, Enrolled Agents, CPAs, and Attorneys:

**IRS** The Internal Revenue Service is the major free source of information and assistance in preparing an individual tax return. Some 80 publications, 40 forms, 300 toll-free telephone numbers and personal counseling at the IRS office are provided to assist the taxpayer in all areas of tax return preparation.

**TAX SERVICES** Tax services offered to the public may be either local or national tax services. Tax "experts" who rent a vacant store in March and are impossible to find after April are to be avoided like a pool of jellyfish. When considering using any service, keep in mind:

- Never sign a blank return
- Be skeptical of any firm or preparer that promises a refund
- Avoid any preparer who offers an immediate check for your refund--what he's really offering you is probably a loan
- \* Look for someone who will be around all year--not disappear after April 15

**TAX CLINICS** Sponsored by law schools, volunteer service organizations, and even the IRS, tax clinics are usually non-profit and offer specialized tax advice to low income taxpayers.

Two such clinics are TAX-AIDE, a clinic for the elderly sponsored by the American Association of Retired Persons, and the National Retired Teachers Association; and VITA, (Volunteer Income Tax Assistance) sponsored by the IRS.

TAX-AIDE, staffed by senior citizen volunteers, serves 1,100 communities in 49 states and Puerto Rico. Their services provide informational guidance and point out tax advantages which might otherwise be missed. TAX-AIDE may be located by contacting the American Association of Retired Persons, 1909 K Street, N.W., Washington, D.C. 200045.

VITA differs from TAX-AIDE in that its volunteers will complete forms rather than just offer advice. VITA offices may be located by contacting the IRS number for your locality.

## CREDIT UNIONS

A growing number of credit unions now offer their members the free service of preparing income tax returns. Credit union members should contact their local credit union.

## ENROLLED AGENTS

Some 16,500 former IRS agents or persons who have passed a difficult Treasury Department examination covering tax accounting for individuals, partnerships, corporations, trusts, and estates are called enrolled agents. In addition to preparing returns, enrolled agents may assist in settlements with the IRS and assist in appeals with the IRS. The Enrollment Coordinator at the nearest IRS District Office maintains a list of enrolled agents for those taxpayers interested in obtaining their services since enrolled agents are individual practitioners, not IRS employees, and set their own fees.

## CPAs

Certified Public Accountants have a record of fewer errors than many other classifications of tax preparers. Their prices are high, however. They charge approximately \$150 to \$600, depending on the type of return. Most taxpayers do not need the specialized services of a CPA. A good rule of thumb is to seek the aid of a CPA only if your income is in excess of \$40,000 and includes income from investment property, tax-exempt securities, royalties, or a trust fund; you bought or sold a house; you gave gifts worth \$3,000 or more; you used your house or car for business; or you are supporting someone other than your immediate family. CPAs can be located through the state society of certified public accountants, an attorney, your credit union, or your banker.

## ATTORNEYS

Most tax attorneys confine their practices to corporations rather than individuals, but a few offer advice, review forms prepared by CPAs, or will prepare returns. Fees range from \$25 to \$75 an hour and such services are usually required only by those in high income brackets with complex legal problems.

**THE ULTIMATE RESPONSIBILITY FOR YOUR TAX RETURN IS YOURS.**

Whether you complete your own income tax return, have a tax firm complete it, or use the services of a CPA or even the IRS, the final responsibility for filing an accurate individual return to the government is yours alone--you cannot delegate it.

Ready to Move On ?

Do You Know the Passwords ?

# What Next?

You filled out your return EXACTLY the way the form demanded.

You gave your zip code number, your social security number, all kinds of numbers; crossed out no words; added when you should have, and subtracted when you were allowed to.

You started out honest and humble.

You stayed that way right up to the minute you signed the return and mailed it.

About the worst thing that can happen to you now is to get a letter from the IRS.

The IRS letter might say no remittance accompanied your return. After 2 or 3 or 20 letters you will be able to convince the computer that you have the cancelled check to prove you paid on time.

Or... a letter might even ask you to prove the amount of your medical expenses--as if you couldn't!

Neither of these letters is real cause for alarm, but...

## YOU MAY RECEIVE A LETTER INFORMING YOU OF AN IRS AUDIT !!!

If you have filed your federal income tax return and have truthfully reported all your income and taken only the deductions intended, then you do not need to fear the awful power of the U.S. Treasury Department's tax collection bureau, the Internal Revenue Service.

Once you have filed an honest return and paid the tax that you really owe, you have the strength of a grizzly bear!! Right is on your side and you have nothing to fear--the IRS only wants each taxpayer to pay his fair share.

Ever wonder what happens to your income tax return once you finally have it safely in the hands of the U.S. Postal Service?

Let's follow it through the 10 basic steps:

## **1. DELIVERY** to an IRS Service Center

Your return was mailed to an Internal Revenue Service Center serving the geographical area in which you live.

There are 10 such centers:

Philadelphia, Pennsylvania  
Cincinnati, Ohio  
Kansas City, Missouri  
Andover, Massachusetts  
Holtsville, New York  
Chamblee, Georgia  
Memphis, Tennessee  
Austin, Texas  
Fresno, California  
Ogden, Utah

## **2. SORTING PROCESS**

Envelopes are slit and sent to work tables

Returns are sorted according to characteristics such as state of origin, those with checks, and those without checks

Returns are placed in sorted batches of 100

## **3. "EYEBALL" CHECK**

Searches are made on each return for any one of more than 60 "unallowables"--deductions, filing status, etc.

## **4. TRANSCRIPTION**

All information on tax returns is punched on magnetic tapes for electronic handling.

The computer "reads" the tapes, checking the computation of each return, including the way the taxpayer applies the rules and figures his taxes

## **5. DELIVERY**

All tapes are delivered to the National Computer Center in Martinsburg, West Virginia

## **6. TAXPAYER'S MASTER FILE**

The data on each tax return are posed in the taxpayer's master file

Social security numbers and other standard information is matched against information already in the file

## **7. REFUND INFORMATION**

Information is produced by the computer for preparing refund checks by machine to be sent out by the U.S. Treasury's disbursing offices

## 8. **AUDIT POTENTIAL**

Each return is scored for its audit potential--its prospects for added tax revenues from a formal audit.

Each tax return's data "profile" is matched against a standard data profile, assigned weighted scores, and given a grade.

## 9. **RETURN** of tapes to Service Centers

## 10. **AUDIT PROCEDURES**

IRS district offices will use the tapes of the high-scoring returns as a basis for assigning returns for audit during the summer.

For approximately 2.1 million taxpayers--about 1 in 41--that will be the time to worry.

# Audit!!

-- the word strikes fear in the hearts of millions of American taxpayers.

The taxpayer's responsibility in the event of an audit is simply to be able to provide proof of the amounts claimed on his return. If he has been honest in stating these amounts, and has kept good records, he will have little or no difficulty.

The only two audits the average consumer will need to be concerned with are the UNALLOWABLES and RESEARCH AUDITS. The IRS does conduct Correspondence, Office, and Field Audits as well, however.

### unallowables

The simplest of all audits, the UNALLOWABLES program, is conducted at the service center which first receives the return. The most common error is in overstating a deduction. In such a case, IRS sends a letter proposing a "correction" in the tax. IRS rarely makes a mistake in correcting such entries. The taxpayer should check the arithmetic and the rules carefully before complying and paying the extra tax, however.

### research

Audits of returns chosen at random are RESEARCH audits. Returns are chosen at random from a scientific sample based on the ending digits of taxpayers' Social Security numbers. Such audits are for the purpose of a research program on how well taxpayers are complying with the law, and to update the computer programs that select most returns for audit. In a research audit, the IRS requires taxpayers to substantiate every item of information on their returns, right down to the last miscellaneous itemized deduction. These audits are also called Compliance audits.

In addition, the taxpayer may receive a letter from the IRS questioning a single tax issue, such as medical deductions. The letter will indicate what item on the return is being questioned and will ask the taxpayer to mail copies of supporting documents to the IRS!

The IRS waits for some kind of substantiation before proposing any changes in the tax bill. Such an audit is a CORRESPONDENCE AUDIT.

### YOUR RETURN CAN BE AUDITED IF YOU:

OVERSTATE YOUR DEDUCTIONS  
MAKE AN ERROR IN ARITHMETIC  
HAVE UNUSUALLY LARGE DEDUCTIONS  
HAPPEN TO BE CHOSEN AS PART OF A RESEARCH  
AUDIT

### KEEP THOSE RECORDS

The statute of limitations for auditing individual income tax returns runs for 3 years. IRS tries to audit returns within 26 months of their filing deadline.

The statute of limitations can be extended to 6 years if taxpayers fail to report more than 25% of their income.

The statute can run indefinitely in cases of fraud.

If you own a house, invest in the stock market, or collect paintings, stamps, coins, or the like, you should keep records of those holdings for as long as you own the property and for a minimum of three years after the sale of the property.

THE TAX ISSUE IS NEVER A CLOSED ISSUE. TAX REFORM AND EVEN TAX REVOLT ARE VITAL ISSUES. AS IN ALL AREAS OF HIS LIFE, TODAY'S CONSUMER-CITIZEN HAS BOTH RIGHTS AND RESPONSIBILITIES.

BE INFORMED, EXPRESS YOUR OPINIONS, RESEARCH THE ISSUES, AND PERFORM YOUR RESPONSIBILITY AS A CITIZEN--TO PAY YOUR TAXES, TAKING CARE TO PAY YOUR FAIR SHARE--NO MORE, NO LESS.

## 6. IT'S NOT ALL OVER YET!

Complete the following statements by writing the correct word in each blank:

1. A taxpayer's identification number is his \_\_\_\_\_ number.
2. The Internal Revenue Service Center to which you would send your return is located in \_\_\_\_\_.
3. Tapes for all taxpayer information is stored at the National Computer Center located in \_\_\_\_\_.
4. It is wise to keep all records for at least \_\_\_\_\_ years.
5. Three reasons a taxpayer's return might be audited are:

---

---

---

How long does it take for a tax return to be processed? Does it take longer to receive a refund on a 1040 return or a 1040A?

Are returns prepared by commercial preparers processed more quickly and/or refunds made more quickly than those prepared by the taxpayer himself?

What is the difference for returns filed in January or February and those filed just before the April 15 deadline?

Is there a difference according to where the taxpayer lives?

Taxpayers have many such questions.

Make an informal survey and share the results.

# ACKNOWLEDGMENTS

This consumer education resource booklet was made possible by a grant for the development and dissemination of innovative instructional materials through ESEA Title IV-C, Research and Development, Department of Education, Tallahassee, Florida 32301.

The project staff would like to acknowledge the specific contributions of the many individuals with whom the staff consulted or worked in the planning and development of this project, but the list is simply too extensive to name each person. The project could not have been completed without the contributions of the many reviewers, teachers and students who field-tested the materials, consultants, and others who gave guidance and support to the project. However, a special thanks is in order to the members of a review panel who selflessly gave of their time and talents to extensively review the materials and then endorsed the resulting consumer education instructional units:
