Local Service **National Strength**

Are you interested in joining the UK's fastest growing network of independent garages?

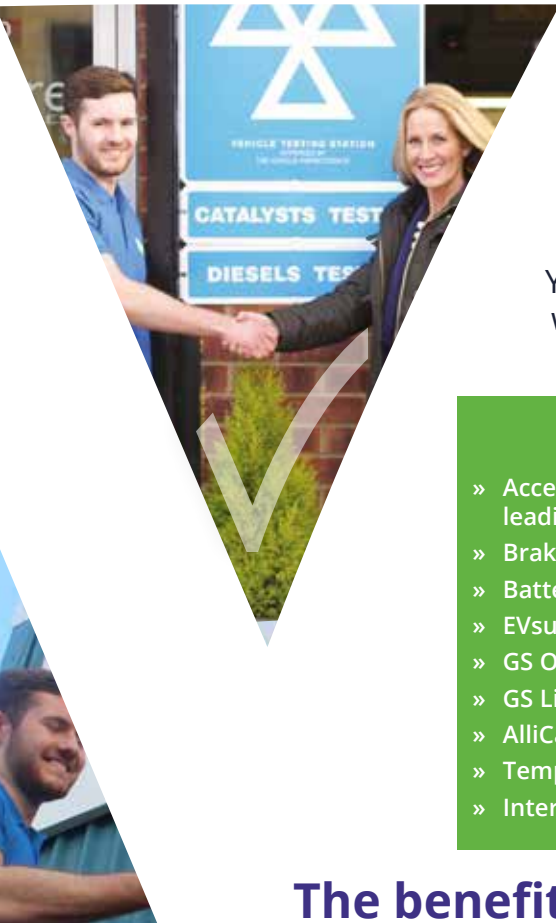

Our Servicesure AutoCentres programme has been created with input from garage owners who run workshops and garages just like yours.

It's been specifically designed to identify service and repair opportunities to help your business grow.

We also offer a range of exclusive business support services that will save you time and money.

As a member of Servicesure AutoCentres you have access to a wide range of benefits. Every Single one of them has been added to the programme to help your business prosper. Some of the benefits will help you generate more revenue or provide a better service whilst others could save you money.

You can choose to use as many or as few of the benefits as you want and they can be started at any point of your membership.

Benefits include:

- » Access to our market leading National Warranty
- » Brakesure
- » Batterysure
- » EVsure
- » GS Onestop
- » GS Lite
- » AlliCat
- » Temporary technical staff
- » Interest Free credit
- » Training
- » Personalised videos
- » Business Insurance opportunities
- » Courtesy car and car sales
- » Full marketing support service
- » Branded clothing
- » Sponsorship
- » Brand Awareness through Social media
- » Waste Management
- » Plus many more

The benefits massively outweigh the subscription!

The UK's fastest growing network of garages

Welcome

GSF Car Parts is one of the UK's leading automotive parts distributors, supplying thousands of independent garages throughout the UK with parts, tools, garage equipment and specialist training.

We supply the highest quality OE and OE matching brands to provide choice and value. We have long-term strategic relationships with key OE component manufacturers and maintain the highest level of quality product, availability and technical leadership.

The new Garage Essentials catalogue contains a wide range of leading brand workshop tools, garage equipment, vehicle diagnostics and specialist training, including a host of new products.

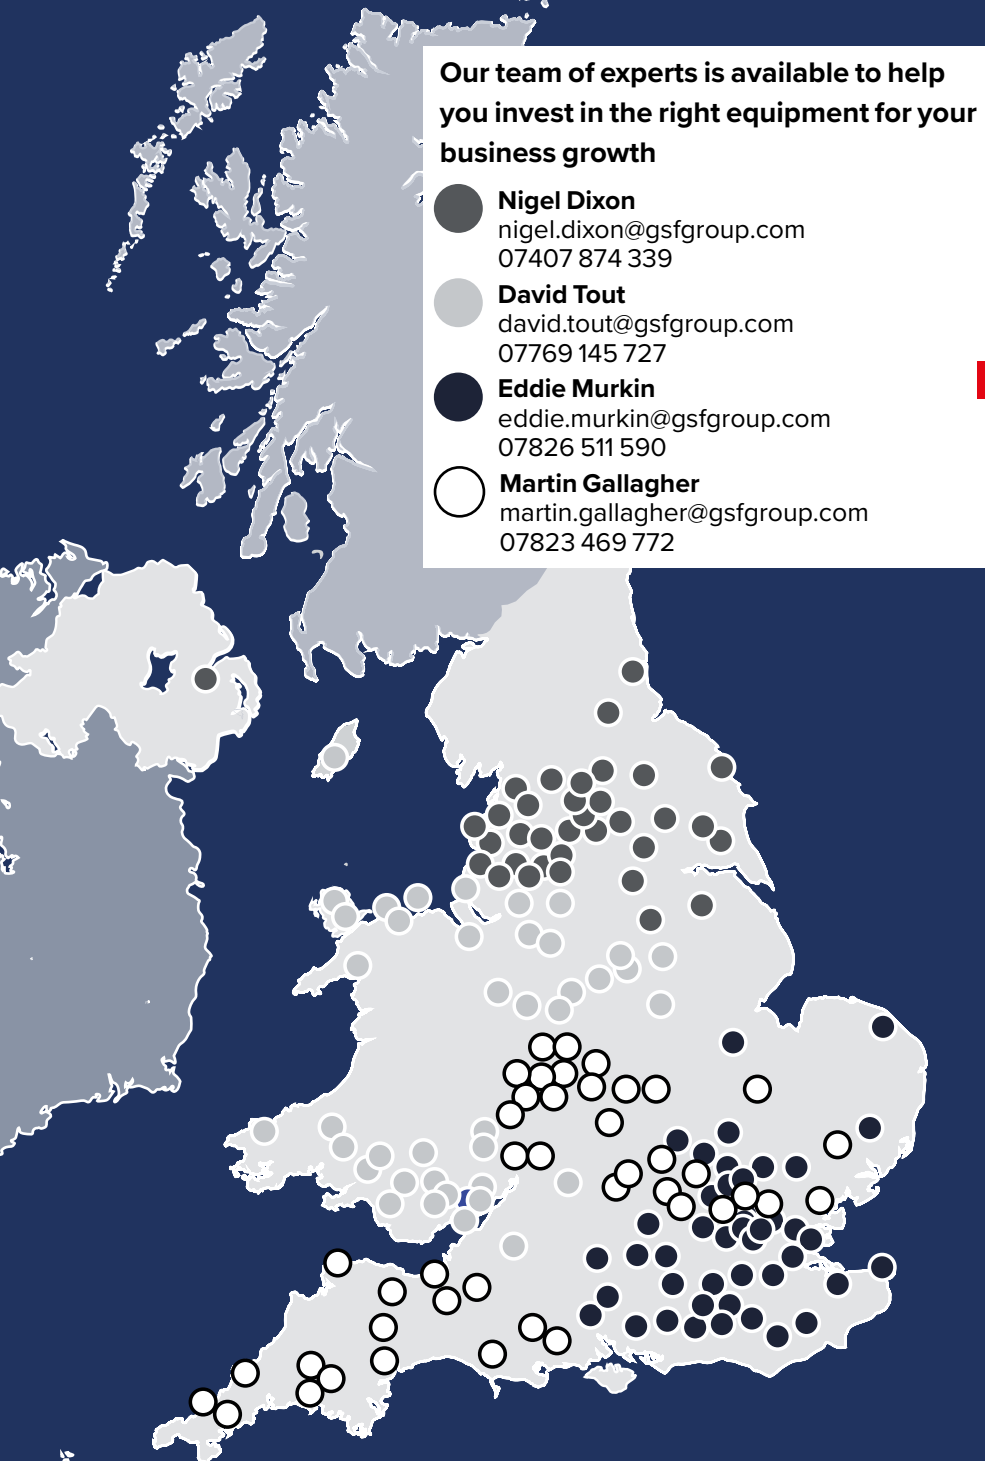

Our team of experts are on hand to answer any questions - contact them on **0121 749 8801** or garage.equipment@gsgroup.com

LOKITHOR 5-IN-1 JUMP STARTER, AIR COMPRESSOR & PRESSURE WASHER

PART NO: SNCAW401

POWERFUL PERFORMANCE - 2500A starting current, capable of making up to 60 jump starts*, suitable for petrol and diesel engines, including: cars, motorcycles, boats, RVs, ATVs, SUVs, vans, tractors, mowers and more.

SAFE & INTELLIGENT - Real time battery voltage detection alarms the user of any battery abnormalities. built-in battery management system safety measures include; short-circuit protection, overcurrent protection, reverse polarity protection, overheating protection, over-cranking protection, spark-proof technology and supply interruption protection.

BUILT FOR TOUGH CONDITIONS - IP65 rated and capable of operating in temperatures between -20°C to 60°C.

£295

NEW

- Lithium Polymer Batteries
- 2 Year Warranty
- Detachable Clamps
- 12v Charging
- Voltmeter

GYS
GYSFLASH 100-12 HF
5.0M CABLES

PART NO: 29002

£696

The GYSFLASH 100-12 HF is a 100 A, high-power, stabilised power supply featuring inverter technology with five separate functions: • Battery support: sustains 12 V (liquid or gel), automotive batteries during diagnostic work

- Advanced battery charger: ensures ideal charging cycles to maintain the batteries of even the most modern vehicles
- Showroom mode: maintains batteries in showroom vehicles
- «BATTERY CHANGE» mode will maintain an electrical power supply to preserve the vehicle's memory settings
- High-power, stabilised power supply: both the voltage and current can be adjusted
- Advanced features Intuitive interface Compact Cables
- Automatic restart / Cable testing and calibrating
- Showroom mode lock feature / "Easy charge" mode
- Activate and adjust an "expert" charging curve
- Automatic SOS recovery for sulphated batteries

GYS
GYSPACK PRO 800

PART NO: 072107

£425

Professional, self-contained starter for all vehicles fitted with 12 V batteries. It comes equipped with a powerful and robust spiral-cell battery

- Featuring a lead-acid battery (in start-up mode: 700 A at 1V/c and 2,500 A at peak battery)
- With its compact design and light weight of 18.4 kg, the GYSPACK PRO 800 can be easily moved around a worksite
- Buzzer and an indicator light offer reverse-polarity protection
- Built-in circuit breaker protects your vehicle from power surges or short circuits and avoid sparks when connecting the clamps
- Can be fully recharged from the mains completely unattended thanks to its automatic external 230 V charger
- GYSPACK PRO 800 has a display screen showing the internal battery's state of charge

T11 12V/24V BATTERY TESTER & ELECTRICAL SYSTEM ANALYZER

PART NO: 03568

- Offers starter, alternator, and mass ground testing
- Suitable for ATV, motorcycle, and car batteries
- Integrated LCD screen and easy-to-use touchpad
- Supplied in a premium carry and storage case

NEW

£319

GYS

GYSFLASH 30.12 PL UK

PART NO: 26070

NEW

£278

Lead-acid/lithium battery charger and battery support unit 12 v

- 3 charging currents: 7 A, 15 A and 30 A. The user can select the charging current according to the technology and capacity of the battery
- Showroom/Diag mode, ensures current compensation up to 30 A when using electrical accessories of a demonstration vehicle and during the diagnostic phase
- Supply mode, provides a stabilised power supply so the GYSFlash 30:12 PL can be used as a Battery Support unit
- Will charge deeply discharged batteries from as low as 2V
- Protection of the vehicle's on-board electronics: protection against short circuits, polarity reversal and overcharging. Spark prevention system
- Automatic stand-by mode if the battery is disconnected.
- Integrated temperature sensor to prevent internal electronics' overheating
- Simplified interface to prevent user error

GYS

BATIUM 7.12 UK

PART NO: 24557

NEW

£129

Workshop smart charger suitable for cars & vans

- Protection for vehicle electronics allows safe charging batteries whilst still connected to vehicle
- Charges all common battery types including gel, silver/calcium, EFB & AGM stop/start (up to 130Ah)
- Charges 50% faster than traditional chargers
- Charges deeply discharged batteries from 2volts/cell – most chargers cannot do this

BATTERY TESTERS & SCANNERS

SEALEY

BATTERY MONITOR REMOTE SENSOR

PART NO: BT2020

- Displays real time battery power, voltage and temperature
- Wireless connection with dedicated app which supports up to four devices (IOS & Android compatible)
- Guide user back to the vehicle by automatically recording the last parking location
- Record the route, cost and driving habits of each trip, which can be exported to Excel
- Automatically monitor the starting and charging system of the vehicle and notify if abnormal
- Compatible with most batteries including lead sealed, AGM and Gel
- Supports up to four devices
- Store historical data in the device for up to 30 days

£30

GYS

SURGE PROTECTION 12V

PART NO: 41318

- The surge protection preserves the electronics of a vehicle by absorbing the over voltage peak during welding, battery disconnect & reconnection

UNILITE
LED DETAILING LIGHT

PART NO: CRI-3350

- Maximum Output: 3350 lumens, high CRI 96+ COB LED
- Five colour temperature settings: 2700k, 3500k, 4500k, 5500k, 6500k
- Dual power options: rechargeable Li-ion battery and mains
- Memory function for last colour used
- Toughened aluminium, nylon, and TPR construction
- Built-in aluminium heat sink
- 180° adjustable stand/handle with tripod attachment hole and magnet
- IP65 dust and water resistance, IK07 shock resistance

UNILITE
COMPACT CRI WORKLIGHT

PART NO: CRI-1250R

- 1250 lumen 10W high CRI 96+ COB (Chip-on-Board) light source
- Three coloured COB LED options with CCT (Correlated Colour Temperature) of 2700k, 4500k, and 6500k
- Press and hold function for smooth dimming
- 250 lumen 3W SMD LED flood beam top torch
- 5W UV LEDs on the front (385nm) for specialized applications
- Super tough aluminium / polycarbonate structure for durability
- Strong integral magnets on the back and base for hands-free attachment
- Retractable 360° rotating hanging hook for positioning
- Glow-in-the-dark strip around the LED for easy locating in low-light conditions
- Battery level and charging with indicator LEDs for convenient monitoring

£70

UNILITE
MULTI BATTERY SITE LIGHT

PART NO: MTB-5300

- 5300 lumen 50W 6500K COB LED
- Dual Power - rechargeable & mains powered
- Takes up to 20V 6.0Ah batteries from Milwaukee, De Walt, Makita & Metabo - 4 adapters included
- Secure battery compartment cover (note: larger 6.0Ah batteries may need to be used without cover)
- Super tough heavy duty nylon construction
- Rotating stand with holes for attaching tripod/magnet
- IP65 Dust & water resistant / IK07 Shock proof
- Memory Switch - remember last mode used
- 2A USB Powerbank - works with any battery Installed
- 4 x Battery level & charging indicators

DIAGNOSTIC MEANINGS

- SGW** **Secure Gateway**
 Many vehicle manufacturers have started protecting their vehicles with a diagnostic Secure Gateway and firewalls to prevent unauthorized access essentially locking out the diagnostic tool. The number of vehicle manufacturers that are locked will increase in the next few years. These include Volkswagen, Audi, Seat, Skoda, Mercedes, Fiat, Chrysler, Kia, Hyundai to name a few.
 When choosing a diagnostic tool, make sure it is the right tool for your workshop with the correct vehicle access you require. Call the GE team for advice
- DoIP** **Diagnostics over Internet Protocol**
 Used on some later Volvo and Jaguar Land Rover Vehicles
- CAN** **Controller Area Network**
 Used by almost all vehicle manufacturers to communicate between ECU's on a vehicle and sometimes through the 16 pin OBD Port
- CAN FD** **Controller Area Network Flexi Data Rate**
 30-times faster data rate than CAN bus, used by many newer vehicles
- LIN** **Local Interconnect Network**
 Single wire, serial network
- J2534** **SAE J2534 Pass-Thru**
 Some diagnostic tools can support J2534 to connect the diagnostic tool to the vehicle via the manufacturer's diagnostic software, enabling ECU re-flashing, and in some cases, diagnose vehicles with dealer level functionality.
- D-PDU** **Diagnostic Protocol Data Unit**
- RP1210** **RP1210 is used for reprogramming and diagnosing of emission related (mainly) Electronic Control Units (ECUs) in Trucks & Plant Machinery**
- Battery Support** **Battery Support charger recommended see pages 15, 16 and 17**

OBD EXTENTION LEAD

PART NO: SNC115.001

- Great Value OBD Extension Lead
- Saves your expensive diagnostic tool plug from damage
- Fits all 12V OBD Diagnostic Machines
- Extends your existing tool's OBD lead by 1 meter

£15

BREAKOUT BOX

PART NO: HU-PPECB

- The CAN-Bus circuit tester is suitable for 12 & 24V systems. Once plugged into the vehicles OBD port it will start to check the 16 pins for any voltage present. If voltage is present the respective LEDs will illuminate
- Test the vehicles link connector (OBD port) for any abnormalities
- Live display of communicating signals if present
- Provides quick access to all 16 pin connections during vehicle repair and diagnosis
- Monitor the input voltage during ECU programming with audible low voltage alarm.

£140

SEALEY

OBD READER

PART NO: VS8812

- **OBDII/EOBD COMPLIANT VEHICLES**
 Petrol 2001 and Diesel 2004 onwards
- **CAN ENABLED**
 Retrieves generic P0, P2 and P3 and U10 codes and picks up manufacturer specific P1, P3 and U1 codes
- **THIS EASY TO USE TOOL**
 Read and Clear Emission Fault Codes
- **COMPREHENSIVE INSTRUCTIONS**
 Supplied.

BOSCH KTS PACKAGES

KTS 560 & 590: Modern control unit diagnosis for the highest level of efficiency and accuracy. The robust communication modules KTS 560 and KTS 590 are optimally suited for the use of the Bosch diagnostic software ESI[tronic] 2.0

£2,060

£2,650

THE BENEFITS OF THE KTS 560 AND 590 AT A GLANCE

- Support of all current vehicle interfaces based on Ethernet and parallel operation of several BUS systems, including JLR vehicles
- Advanced PassThru interface for programming
- Works on any Windows 10 OR 11 PC on which the Bosch diagnosis application ESI[tronic]2.0 is installed and licensed
- (Rugged Windows laptops available from GSF, please contact the GE Team for details)
- Mobile and stable operation thanks to powerful Bluetooth interface
- Up to three CAN and K-Line interfaces can be used at the same time
- Wireless Bluetooth connection to the workshop PC allows increased coverage enabling mobile use throughout the workshop
- Rugged construction for long-term everyday workshop use
- KTS 590 also includes a 2-channel oscilloscope.

BLUETECH FEATURES

Flight recorder:
Perfect for a one-man road test. Select your parameters, hit "Record" and review when back in the workshop. With its 4GB internal storage capability, enjoy even more space to record all the data you need.

WIFI and Bluetooth connectivity to the PC:
Wireless communication providing freedom to work anywhere in the workshop, whilst maintaining a seamless connection to the vehicle.

360° Multi colour indicator:
Lets you check the status of the VCI at any time from every angle and position.

Integrated DoIP:
No need of any, DoIP adaptor cable. With its built-in functionality, the VCI can be plugged directly on DoIP communicating vehicles.

Universal:
VCI can be used for cars, light commercial vehicles, trucks, buses and coaches, trailers.

Pass-thru support:
Quick and easy access to OEM flash-programming services.

Battery voltage monitor:
Don't let a dead vehicle battery stop you working.

CAN FD channels:
Future-proof design to make the diagnostic possible on vehicles requiring this data-communication protocol.

Truck and Bus diagnostic software options available.

ELECTRICAL TESTING

Why do you need a PicoScope?

Could you use a scan tool instead of a labscope? No, you need both.

A scan tool only points you in the right direction, perhaps indicating a misfire on a specific cylinder, but rarely does it pinpoint a fault. For example, is the misfire caused by an ignition, injector, or a compression-related issue?

Reliance on a scan tool alone can lead you to "parts darts" where you might find yourself replacing more and more parts until the fault goes away.

PICO

PICOSCOPE (SOMETIMES KNOWN AS A LABSCOPE) TURNS YOUR LAPTOP OR DESKTOP PC INTO A POWERFUL DIAGNOSTIC TOOL

- See the changing signals inside wires
- FAST SETUP with PicoBNC+ probe recognition
- Scope-powered PicoBNC+ probes (no more batteries)
- Fast sampling and deep memory for intermittent faults
- PicoScope Automotive software - Free software updates
- Future-proof with PicoBNC+ interface
- Compatible with PicoScope 6 and PicoScope 7 software
- Guided tests, Waveform Library and PicoDiagnostics

GYS **AUTOPULSE 220-M1 WITH ACCESSORIES**

PART NO: 65024

- AUTOPULSE 220-M1 is the MIG / MAG pulsed generator with integrated wire feeder for car body repairs
- Equipped with a digital PFC (Power Factor Correction) it supplies pulsed welding quality comparable to three-phase products. Designed for the highest performance it features several synergic curves and exceptional arc quality
- Versatile, it can carry out all types of welding: Steel, Aluminium and Brazing
- Welding processes : standard, pulse, pulse in pulse, cold pulse and manual
- Trigger modes : 2T, 4T, SPOT, DELAY and TACK function
- Its full synergic mode determinates automatically the optimal welding parameters which can be adjusted (wire speed, voltage, current, self)
- 4 microprocessors to give four times the processing power. Wheel drive system with 2 active drive rolls. Suitable for wire reels of Ø 200 mm. Automatic torch detection while pulling the trigger
- Large colour screen for easy control of the welding cycle set up. 2 control knobs and 4 keys for easy and intuitive navigation of the menus. Updatable machine and synergies via USB key. Save up to 500 welding programs for repetitive tasks

LASER
PULLING TOWER

PART NO: 92657

- Portable pulling tower suitable for use on steel & aluminium panel repair
- Pulling force up to 550kg
- Counterbalanced by a pneumatic suction anchoring plate, therefore no fixings required
- Dimensions: 350 x 350 x 1650mm
- Weight: 20kg
- Adjustable mechanical hoist with 15 height positions
- Supplied with hook gripping head, eyebolts & hooks

£999

LASER
VERTICAL PULL KIT FOR PULLING TOWER

PART NO: 92660

- An additional anchoring plate / suction pad specifically for use with the Power-TEC Pulling Tower (Part No. 92657)
- Provides an additional anchor point to counterbalance the tower to be used vertically
- Dimensions: 280 x 330mm
- Attaches via pneumatic suction, therefore no fixings required

£300

LASER
POLE EXTENSION FOR PULLING TOWER

PART NO: 92659

- A steel extension pole specifically for use with the Power-TEC Pulling Tower (Part No. 92657), which adds an additional 700mm with 7 adjustable height positions and allows the tower to be used on truck and van roof panel repairs.

£200

LASER COLD GLUE DENT PULLING KIT PDR

PART NO: 92645

- An innovative PDR dent pulling kit that uses cold glue rather than hot glue. With only the heat from the user's hands required to prep the glue for use, no external heat source is required. The kit includes a guide handle together with slide hammer for dent pulling, and is supplied in a rugged blow mould storage case
- Paintless dent removal using hand warmed 'cold glue'
- Kit includes: 4 alloy glue adaptor pads, slide hammer, hand-pull handle and 50g of cold glue
- No need for external heat source, gas or electrical power
- Glue is easily removed by hand and can be reused if kept clean and free from grease. Replacement glue available, see Power-Tec Part No. 92646
- Safe for use on all vehicle types including EV/Hybrid vehicles. No risk of voltage spikes (associated with traditional 'welding' repair methods).

£121.50

LASER COLD GLUE 50G FOR PDR

PART NO: 92646

- 50g of cold glue, suitable for use as part of a paintless dent repair (PDR) or automotive body repair. Used as an alternative to a hot glue system, this sticky adhesive is warmed up in the user's hands before use or use with most PDR dent removal kits, such as Power-Tec Part No. 92645
- No need for external heat source, gas or electrical power
- The glue is easily removed by hand
- The glue can be re-used if kept clean and free from grease
- Supplied in metal storage tin.

£30

PLASTIC WELDING

GYS GYSPOT 3902

PART NO: 52215

- 230V steel dent puller with 3800A output current, ideal for all steel straightening and dent pulling jobs
- Simple to use thanks to its automatic gun and its user friendly control pane
- The welding is triggered automatically by a simple contact between the tool and the part to be straightened

READY TO USE

- Earth cable 70 mm² (2m long cable)
- Multi function gun (2m, 70 mm² cables with connector)
- Inertia hammer • Dent pulling with stars • Welding of studs, rivets and rings • Contact shrinking, graphite pen. 4m long mains supply cable and accessories box with consumables

OPTIONS

- Manuspot / Trolley / Levelling bar / Quick spot air gun

£850

PLASTIC WELDING

GYS

CORDLESS STAPLER FOR BUMPER REPAIRS

PART NO: 58118

APPLICATIONS

- Bumpers
- Dashboards
- Trim
- All type of plastics without disassembling

- Rechargeable lithium battery + Work LED light at the tip of the tool (to get better precision in darker environments) + Adjustable stapler head (90° to 135°)

SUPPLIED WITH

- Transport case
- Charger 230V
- 100 staples (type U: 0,6 mm - 0,8 mm)
- 100 staples (type V : 0,6 mm)

£530

GYS

PLASTICS WELDING KIT WITH CONSUMABLES AND SCRAPER

PART NO: 70974

- Repairs
- Bumpers - Radiator grill - Headlight surroundings - Body panel
- Easy to use, the hot air plastic welding station is designed to weld vehicle plastic parts
- wide adjustable temperature range (160-480°C) raises the temperature of the plastics to their melting point making them soft and easily repairable
- air flow rate can be adjusted to maintain a homogeneous fusion of the plastic
- LCD Screen
- Optional Trolley available

£328

GYS

GLUE PULLER PRO KIT WITH DILUENT SPRAY

PART NO: 58699

- Paintless dent repair set. Ideal complement to all dent pulling systems. Glue Puller Pro adapted for steel and aluminium

BENEFITS

- No grinding of the car body
- Reduced operation time
- Limited immobilization time of the vehicle
- No paint touch ups

COMPLETE SET READY TO USE

- 1 Case 2 Glue Lifter 3 6 tips (2 x Ø 32 mm, 2 x Ø 20 mm et 2 x Ø 15 mm) 4 Diluent spray 5 250 W glue gun (140°C > 220°C) 6 10 glue sticks: - x 5 white: for ambient temperature >20°C - x 5 transparent : for ambient temperature

Welding & Heat Induction

GYS

INVERTER MIG WELDER 200AMP

PART NO: 66595

Inverter MIG welder 160Amp with digital display for fast set up of welding parameters, no more blowing holes in panels!! Adjustable arc dynamic. Suitable for automotive workshop use welding steel, stainless & Aluminium (up to 10mm)

240VOLT

- Use gas or gasless
- Takes 0.6mm – 1mm wire
- Fast set up guide on control panel
- Bright digital display
- Complete with MIG torch, arc electrode holder & earth lead

£890

GYS

25AMP PLASMA CUTTER PACK EASYCUT 25

PART NO: 72046

- Powerful 25Amp plasma cutter ideal for cutting most types of metal up to 8mm. Compact & lightweight with an easy to use control panel.
- Features no contact arc ignition
- Powerful but compact plasma cutter
- Max cut 8mm steel (6mm Aluminium)
- Clean cut 6mm steel (4mm Aluminium)
- Quality Trafimet torch with quick change consumables
- Ideal for both vehicle workshops & body shops

Cuts like a knife through butter!

£690

GYS
INDUCTION HEATER AND TROLLEY KIT
PART NO: U20226

Straight Inductor head included
PART NUMBER: 067899

Heavy duty induction heater which produces instant flameless heat. Ideal for automotive workshop use eg. Track rod ends, manifold bolts, bleed nipples, lambda sensors etc

Removing Oxy-Acetylene from your garage could save up to 30% on your insurance

Up to 92% cheaper to run than gas

- 3700 Watt output (240V)
- Liquid cooled for intensive use
- Heats a M10 nut in 1 second
- Safe to use – no risk of burning components
- Additional straight inductor head
- Ideal for alloy wheel nut removal

£2,799

Welding & Heat Induction

SIP 1500W INDUCTION HEATER KIT

PART NO: 1156

- SIP 1500w Induction Heater Kit is ideal for heating and releasing rusted-on or hard-to-remove parts such as nuts, bolts and fastenings. Designed for use in garages, workshops or automotive environments
- Powerful and compact (1500w)
- Reaches temperatures of 800°C in 20 seconds
- 4-piece induction kit supplied
- Easy-to-use, simple to power design
- Lightweight and portable with strap

£650

GYS ARC WELDER 160AMP

PART NO: 36635

- Gysmi E163
- Suitable for all types of electrodes such as steel, stainless steel or cast iron
- Very good penetration and perfect arc stability
- Delivered in a case with earth clamp and electrode holder
- IP21 protection rate, it is suitable for outdoor work on site
- Low consumption of 16A-230V
- Protected and compatible with a Generator 6Kw
- Inverter technology
- Adjustable hot start
- Anti-sticking
- Arc force

£290

GYS LCD GYSMATIC 5/13 TRUE COLOUR

PART NO: 37908

- Essential for safety, the GYSMATIC TRUE COLOR XL optoelectronic hood protects the welder's face and eyes from UV, infrared and splashes
- Fully automatic, the mask switches from clear to tinted state in a fraction of a second as soon as it is primed
- Optimum visibility: XL screen • High sensitivity thanks to 4 sensors • TIG welding > 2A • Active filter : shades 5-9 / 9-13
- Range 5-9 : special low intensity • Choice of 7 dark shades (5>13) to suit all your operations welding and cutting. • TRUE COLOUR technology

£150

GYS

INVERTER MIG WELDER MIG-MAG SINGLE PHASE SYNERGIC

PART NO: 32903

- **M1 GYS AUTO** with accessories
- The **M1 GYS AUTO** is a single phase MIG-MAG, with torch connector, recommended for welding steel, stainless steel, aluminium and for MIG brazing of high-tensile strength steels with CuSi and CuAl wires (ideal for car body repairs)
- **SYNERGIC MODE**
The machine determines the optimum wire speed by selecting: - the type of wire - the wire diameter - the welding current
- **SPOOL GUN CONNECTOR**
The Spool Gun torch is ideal for car body repairs of aluminium, AlSi5 and AlSi12
- **4 DRIVE ROLLS MOTOR**
Suitable for ø200mm and ø300mm wire reels (15kg max)
- Saving welding parameters
- Memory save feature for each torch and activation of the 'last used' welding parameters (wire diameter, wire type & mode)
- 3 Welding modes available
- Standard (2T) - Spot - Delay
- Accessories
- Delivered with: - 1 torch 150A - 3m - 1 earth clamp 200A - 3m (regulator not included)

£1,500

GYS

INVERTER MIG WELDER AUTOPULSE 220-M1

PART NO: 65024

- The AUTOPULSE 220-M1 is the MIG / MAG pulsed generator with integrated wire feeder for car body. Equipped with a digital PFC (Power Factor Correction) it supplies pulsed welding quality comparable to three-phase products. Designed for the highest performance it features several synergic curves and exceptional arc quality. Versatile, it can carry out all types of welding: Steel, Aluminium and Brazing (CuSi3/CuAl8). Its intuitive interface and its high precision wire feed are ideal for car-body with best welding quality even on thin sheet
- 3 interface options for ease of use : - EASY (simplified module) - EXPERT (complete module) - ADVANCED (specific modules)

HOFMANN
GEODYNA 7200
WHEEL BALANCER

PART NO: EEWB768AE1

Make the most of a video display along with advanced data input and patented measurement systems thanks to the Hofmann Geodyna 7200 video wheel balancer, which is designed for cars, light trucks and motorcycles

- 2D SAPE (Semi-Automatic Parameter Entry): Measure the wheel offset and wheel rim diameter in one process
- Hidden weight mode: Place adhesive weights behind spokes, giving you an appealing cosmetic finish
- VPM measuring system: Achieve accuracy and reliability by limiting discrepancies caused by changes in ambient temperature
- Tyre matching mode: Optimise tyre to rim and use fewer weights
- Small footprint: The compact unit makes the most of your garage space
- QuickBal: Reduce measurement time by 30%
- EasyAlu: Automatic configuration of the inside position for weight
- Constant measuring speed
- User friendly interface with video display

HOFMANN

3300-24 TYRE CHANGER

PART NO: EEWH762AED

Use automatic turntable speed control while also dealing with larger and ultra-high performance tyres with the Hofmann Monty 3300-24 smartSpeed tyre changer.

It offers a high productivity speed via the built-in smartSpeed inverter technology which automatically controls the speed of the turntable dependant on the torque required when mounting/demounting the tyre, along with a large 24-inch outer clamping range.

Pair up the Monty 3300-24 smartSpeed with the Hofmann Geodyna® 7200 wheel balancer to create a tyre and wheel service package for your workshop.

- Pneumatic tilting column: Move the tilting column backwards easily so you are free to access the tyre
- Assist arm: Mount and demount tyres with ease using the drop centre & rim centre pressing tools
- Two pneumatic cylinders: Get a 30-40% increase in clamp force compared to single cylinder designs
- Mount/demount function: The steel head and plastic inserts protect the wheel rim when mounting and demounting tyres
- smartSpeed: Automatically select the best speed for the operation being performed giving you a more controlled operation
- Built in tool box, tyre inflator and standard gauge: Provides ease of use and ergonomic benefits
- Wheel clamps: The 3300 24 has a total clamping up to 28in (with additional adaptors; 24in as standard)

LIFTMASTER
'WIDE' ELECTRO/MECHANICAL
BASELESS EV 2 POST LIFT
C/W SYMMETRICAL ROTATING ARMS
SPECIFICALLY SUITABLE ELECTRIC VEHICLES &
DROP IN HEIGHT EXTENSIONS

PART NO: LMS3500EV

- The innovative low-profile arms with rotating terminal offer incredibly flexible use, making the lift suitable for lifting all types of vehicles - from the standard city cars to sports cars - including the most modern electric vehicles - up to the VW T6 with long wheelbase
- Automatic lubrication system to ensure constant lubrication during lifting & descent
- Electro-Mechanical Synchronisation ensures the carriages are kept within a 20mm level tolerance
- Low pad height of 96mm
- Front arm reach: 792mm to 1,200mm
- Rear arm reach: 792mm to 1,200mm

TEXA ELIGHT

- eLight is the most advanced headlight alignment system on the market today, and the first with integrated electronic diagnostics.
- eLight's digital electronics use a built-in camera, a system of algorithms and integrated autodiagnosics to identify the type of headlight and to guarantee maximum precision of alignment.
- eLight can even produce a detailed report, based on digital analysis, for attachment to the garage worksheet, and is already fully compatible with the legislation governing PTI centres due to be introduced in 2021.

TILT ANGLE

- Measuring range $\pm 6\%$ vertical; $\pm 10\%$ horizontal
- Accuracy $\pm 0.1\%$ vertical; $\pm 0.2\%$ horizontal

LUMINOUS INTENSITY

- Measuring range 150,000 cd – 240 Lux/25 m
- Accuracy $\pm 5\%$

CONNECTIVITY LAN, Wi-Fi, RS232, Bluetooth

- *Only ONED version

eLight: the first smart headlight alignment system

TRANSMISSION

LASER TRANSMISSION SUPPORT ARM

PART NO: 8579

- Combined with a traditional gearbox jack the patented Laser 8579 simplifies gearbox removal and fitting by supporting the gearbox from above. It does this by attaching to a traditional vertical gearbox jack and providing a specially shaped arm that goes up the side of the gearbox

£200

LASER ENGINE/GEARBOX SUPPORT

PART NO: 5750

- Designed for transverse-engined vehicles, the frame will support the engine and/or gearbox when carrying out repair operations like clutch or gearbox removal, DMF change, removing and replacing engine and gearbox mounts, for cam belt replacement, etc
- With car on ramp, engine/gearbox position and height can be adjusted from underneath

£215

LASER ATF OIL DISPENSER WITH ADAPTORS

PART NO: 5641

- A handy dispenser for replacing ATF transmission fluid
- 8 assorted adaptors for increased applications (see instruction booklet for adaptor applications)
- Manually operated pump with integrated pressure gauge

£109

LASER ATF ADAPTOR SET 20 PIECE

PART NO: 7606

- A comprehensive range of transmission fluid (ATF) refilling adaptors for many makes of vehicles
- For use on automatic transmissions without a dipstick and with most ATF Oil Dispensers
- Application list available - with cross reference to numbered products - please see useful downloads below
- Manufactured from composite material

£72

LASER MASTER CLUTCH KIT TROLLEY

PART NO: 62012

- Brings together all the must-have clutch tools from our catalogue in one kit including model specific tooling.
- Stored in its own dedicated 4 drawer trolley with engineered foam to keeping everything in place, the 62012 kit can be quickly

£2,895

**Most comprehensive
clutch kit yet!**

LASER WET PLATE DOUBLE CLUTCH REMOVAL & FITTING KIT FOR VW GROUP

PART NO: 8136

- Includes all the special tools required to remove and refit the wet style double clutch assembly found across the VW Group vehicle range.
- Use with DTI gauge and stand like Laser 6084 or similar

£250

LASER DSG GEN1 & GEN2 CLUTCH SETTING GAUGE KIT

PART NO: 7914

- Speeds up and simplify the fitting of DSG clutch kits to GEN1 and GEN2 DSG transmission systems. This has been specifically designed to work with Laser Clutch Puller and Press Kit

£220

LASER DSG CLUTCH REMOVAL KIT FOR VAG

PART NO: 6718

- DSG clutch removal tool set for VAG 7 speed gearboxes found in Audi A3, Volkswagen Golf and Touareg. NB, Gen 2 clutches (fitted from 06/2011 onwards) will also require Laser Part No. 7914.
- Designed to allow the safe removal and refitting of the twin clutches used in VAG 6 & 7 speed gearboxes.

£238

LASER OIL ATF DISPENSER 7L

PART NO: 4792

- Manually operated oil dispenser comes complete with a range of Automatic Transmission Fluid adaptors with quick fix coupling. Simply open the ball valve and the pump handle will dispense 70cc per cycle.

£240

DIESEL TOOLS

LASER ENGINE TIMING KIT FOR FORD 2.0 ECOBLUE DIESEL

PART NO: 7323

- This timing kit has been designed for the latest Ford 2.0D EcoBlue TDCi engine which features an innovative "belt in oil" design where the synchronous drive belt is sited inside the oiled area of the engine

£170

LASER INJECTOR EXTRACTOR SET FOR FORD ECOBLUE 2.0 DIESEL

PART NO: 8288

- The Laser 8288 injector puller set has been designed to pull the Ford EcoBlue diesel injector in one piece. Previously the EcoBlue injectors could only be removed if the fuel return connection and Piezo head were removed by breaking them off, rendering the injector unusable. This kit allows these injectors to be pulled out without needing to break the injector first

£250

LASER INJECTOR EXTRACTION KIT FOR FORD ECOBLUE 2.0 DIESEL

PART NO: 7912

- Has been designed to extract seized injectors from the Ford 2.0L Diesel EcoBlue engines in the method described by Ford. Injector removal is required for any service or repair work that requires the removal of the cam cover, cylinder head or cam shafts. NOTE: This method is for seized injector only and will render the injector unserviceable

£145

LASER INJECTION PUMP REMOVER/ INSTALLER FOR FORD TRANSIT 2.0 ECOBUE DIESEL

PART NO: 7324

- Injection pump remover and installer for Ford 2.0 EcoBlue diesel
- Applications: Ford Transit, Transit Custom and Tourneo Custom with 2.0L EcoBlue TDCi engines. AWD, FWD and RWD variants (from 2016)
- Engine codes: YLFS, YMFS, YNFS, YLF6, YMF6, YNF6, YLR6, YMR6 and YNRS

£95

LASER VIBRATION DAMPER PULLEY PULLER FOR FORD 2.0 ECOBLUE TDCI

PART NO: 7334

- Vibration damper pulley puller for Ford 2.0 EcoBlue TDCi engines, designed to remove the front pulley when accessing the timing belt
- Removes the front pulley to gain access to the timing belt
- Applications: Ford Edge (2018 - 21), Focus (2018 - on), Focus Active (2019 - on), Galaxy (2018 - 21), Kuga (2019 - on), Mondeo (2019 - 21), S-MAX (2018 - 21), Transit (2016 - on), Transit Custom (2016 - on) and Tourneo Custom (2016 - on)

£55

ENGINE TOOLS

LASER TURBO SYSTEM TESTER SET

PART NO: 7981

- 13 piece turbo system tester set to identify any pressure leakage within the turbo system using standard workshop air. To fit most turbo systems on cars and light commercial vehicles
- Twelve stepped adaptors for pipe sizes: 31 - 38mm, 46 - 51mm, 55 - 60mm, 65 - 70mm, 75 - 80mm and 85 - 90mm
- Pressure gauge with shut off valve and regulator to help prevent over-pressurisation

£140

LASER COOLING SYSTEM PRESSURE TEST KIT

PART NO: 5614

- A comprehensive coolant system pressure testing kit for universal use
- 25 pieces, including 17 individually sized threaded adaptors, pressure testing pump with gauge, 2 connectors for pressure testing bayonet style caps and an adaptor cap wrench
- Adaptors have quick-release couplings and pump is fitted with large, easy to read dial clearly marked in both psi and bar

£300

LASER COOLANT SYSTEM FLUSHER

PART NO: 7686

- Flushes cooling systems using workshop air and water
- Hand held with five pipe size connections: 19, 29, 32, 36.5 and 40mm
- Trigger action with locking clip
- Standard air line and water hose fitting
- Helps remove contaminated coolant after head gasket replacement.

£30

£27

LASER
OIL FILTER CUP WRENCH
TESLA TRANSMISSION FILTER

PART NO: 8617

- Tesla range of vehicles use a spin on oil filter on their transmissions; 2 wheel drive vehicles have one filter on the rear transmission with all-wheel drive vehicles having two filters, one on the front and one on the rear. The Laser 8617 filter cup is engineered to fit the filters and allow for safe removal, as well as allowing the new filter to be fitted with a 1/2" D torque wrench
- Applications include: Tesla Model 3, Model Y & Model X
- Fits 14 flute 63.8mm (A/F) transmission filter
- Use with 1/2" D socketry or a 21mm spanner
- 1/2" D allows for use of a torque wrench for correct tightening.

£320

LASER EV INSULATED TOOL KIT

3 DRAWER TOOLBOX | 27 PIECE

PART NO: 8328

- Robust 3 drawer tool box (510 x 230 x 265mm) contains a selection of fully insulated tools to suit the needs of any mechanic working on hybrid and electric vehicles, or by electricians. The hand tools are suitable for live working up to 1000V AC / 1500V DC and include a ratchet and hex sockets, screwdrivers, spanners, pliers, an insulated cable stripping knife and magnetic pick up tool
- Insulated combination pliers (35mm jaw opening) & insulated side cutters (19mm jaw opening) both with two colour VDE insulated handles with slip guards; insulated screwdrivers: Ph2 x 100mm long, flat 5.5mm x 125mm long; 5x insulated open ended spanners: 8, 10, 12, 14, 17mm
- Insulated 3/8" D ratchet (72 teeth); 9x 3/8" D insulated sockets: 7, 8, 10, 12, 14, 15, 17, 19, 22mm; length 71mm. 100mm extension bar providing greater access; insulated cable knife ideal for stripping standard cables; 420mm long flexible magnetic pick up tool, with 250g pick up capacity

LASER
WORKSHOP EV PACKAGE WITH MOBILE
SHADOW BOARD KIT

PART NO: 8294

- A complete package of tools, PPE and safety products for workshop use, when servicing or repairing high voltage vehicles. Supplied on a mobile shadow board for ease of access and security
- An 88 piece package of all necessary safety requirements for working on vehicle systems up to 1000v, stored conveniently on a shadow board and mounted on a mobile trolley for ease of movement around workshops and/or bodyshops
- High visibility ensures nothing can accidentally go missing and forms part of a safety management process, essential when working on high voltage systems, where there is greater risk accidental injury to employees
- Contents: insulated tools and test instruments, high voltage PPE (insulated gloves and face shield), high voltage signage and safety barriers, lock-out procedure safety products, insulated floor matting and shrouding for added safety, rescue pole and electric shock first-aid poster

£2,999

LASER
VEHICLE FIRE BLANKET
6X8M

PART NO: 8396

- Electric vehicle battery fires can produce very high temperatures if left unchecked. The Laser 8396 fire blanket has been introduced to help reduce and control the risk of a vehicle fire spreading to other nearby structures and vehicles by starving the fire of oxygen and thereby keeping the temperatures under control
- Size: 6 x 8 meters, thickness 0.45mm
- Material: E glass cloth coated with silicone. Can withstand direct temperatures up to 550°C
- Suitable for electric, hybrid, petrol and diesel vehicles
- Reuse - the 8396 fire blanket should be considered a consumable product, however, if the blanket shows no signs of mechanical damage or heat degradation it may be reused

£675

EV & HYBRID

LASER

EV CABINET WITH FOAM INLAYS, TOOLS & SAFETY PRODUCTS

PART NO: 8490

- A comprehensive set of insulated tools, test instruments, PPE and signage for high voltage service and repair work, in a dedicated 7 drawer cabinet with tool control foam inlays
- A 125 piece comprehensive kit, for service and maintenance work on EV & PHEV vehicles, containing everything required for safe working on systems up to 1000v
- Contents: Drawer 1; 35 piece insulated socketry & torque. Drawer 2; 10 piece insulated pliers and cutters. Drawer 3; 20 piece insulated screwdrivers. Drawer 4; insulated wrenches and hex keys. Drawer 5; 20 piece miscellaneous insulated tools for EV and PHEV maintenance
- Drawer 6; voltage tester 1000v CATIV, insulation tester 1000v CATIII, amps clamp 80A CATIII, slim fit test probe set CATIII
- High voltage PPE (insulated gloves and face shield), high voltage signs, lock-out and warning tags, safety posts & chain, rescue pole
- All tools are contained in bespoke routed foam trays (drawers 1 – 6), and all safety products have their own place within or attached to the cabinet, ensuring nothing can accidentally go missing.

LASER

EV ELECTRO-HYDRAULIC TABLE LIFT

 **FINANCE OPTIONS AVAILABLE**

- A mobile 230V electro-hydraulic table lift with an adjustable, tilting, lifting platform which allows easy access under the vehicle for disassembly and removal of EV battery packs, engines and transmissions. Fitted with a wooden composite table surface with specially milled openings for easy battery fastener/EV connection or transmission access

1 TONNE PART NO: 8524

- Lift capacity: SWL 1 tonne
- Table dimensions: 1760 x 1130mm; adjustable working height: 1100 – 2000mm
- Weight: 200kg
- Features: 4 steering wheels (2 braked), adjustable tilting table top, double hydraulic cylinders, low friction Polyethylene (PE) sliders, anti-crush stops to prevent trapped hands, dead-man control and a 5m retracting mains cable

£3,999

1.4 TONNE PART NO: 8525

- Lift capacity: SWL 1.4 tonnes
- Table dimensions: 1760 x 1130mm; adjustable working height: 800 – 2000mm
- Weight: 200kg
- Features: 4 steerable wheels (2 braked), adjustable tilting table top, double hydraulic cylinders, low friction Polyethylene (PE) sliders, anti-crush stops to prevent trapped hands, dead-man control and a 5m retracting mains cable.

£4,599

LASER
EV BATTERY
ADJUSTABLE
MOBILE BENCH

SWL 800KG

PART NO: 8339

- Adjustable mobile bench, specifically designed to aid the removal of underslung EV batteries (max Safe Working Load: 800kg) from the vehicle and move them around the workshop for safe storage and/or repair
- Mobile bench with individual height adjustable heavy-duty castors, allows for height/tilt adjustment (70mm max) to ensure batteries remain level and in alignment with the vehicle when either removing or installing
- 6" x 2" (150 x 50mm) rubber wheels with safety locks (400kg capacity per wheel), fitted to height adjustable legs, with threaded adjustment and thrust bearing. Use with 13mm Hex ratchet, spanner or socket
- Dimensions: 1500 x 1020 x 780mm (with wheels raised). Tested to 25% overload capacity
- Steel top plate (2mm thick), supplied with 6x wooden support beams to avoid damage to the underside of battery casing. UK Registered Design
- Specifically designed for the removal and installation of EV batteries when used in conjunction with a standard 2-post vehicle lift. Ideal for use in conjunction with Laser EV Battery Lifting Frame, Part No. 8338. Made in Sheffield.

£1,799

FINANCE OPTIONS AVAILABLE

LASER
EV BATTERY
LIFTING FRAME
FOR 4/6 POINT LIFTING
SWL 700KG

PART NO: 8338

- A fully adjustable and universal EV battery lifting system, suitable for all types of underslung/skateboard style of EV batteries (max SWL: 700kg), suitable for both four and six point lifting requirements
- Main lifting beam with moveable lifting eye, for use with workshop lifting hoist/engine crane (1 tonne model required, Part No. 8337)
- Three transverse beams, with adjustable lifting brackets (2x beams for 4-point lifting, 3x beams for 6-point lifting)
- Six adjustable chain slings, plus 6 each of M12, M16 and M20 eyebolts for attachment to EV battery lifting points
- SWL: 700kg, tested to 50% overload capacity. Specifically designed for lifting and moving EV batteries when they have been removed from the vehicle. Ideal for use in conjunction with Laser EV Battery Mobile Adjustable Bench, Part No. 8339. Made in Sheffield

£1,799

BRAKE FLUID TESTING

BENDIX **FLUTEST** **BRAKE FLUID TESTER WITH OPTIONAL** **PRINTER CAPABILITY**

PART NO: BEN1150

- Accurate, reliable and repeatable results
- Operates off 12V power supply (vehicle own battery)
- User friendly – LCD screen instructions guide operator through complete testing cycle
- Measures up to 320°C/608° suitable for use on all grades of new & used brake fluids, including racing fluids
- Multi language display – 19 languages, selectable by user
- Compatible with printer for test results (987AB2430).

Approved by
brake system
manufacturers

£250

LASER **MEASURING TOOL SET DTI** **3 PIECE**

PART NO: 7687

- A comprehensive DTI (Dial Test indicator) gauge set, designed to be used for the accurate measurement of engine, brake and machine components
- 2 Dial Test Indicators with magnetic stand
- 1 x Dial Test Indicator: Size 60mm, diameter 0 - 10 x 0.01mm
- 1 x Dial Test Indicator: Size 30mm, diameter 0 - 0.8 x 0.01mm
- High strength, switchable magnet combined with shallow Vee base to allow attachment to both flat and curved surfaces

£100

LASER **BRAKE TOOL 3/16" SAE (4.75MM)**

PART NO: 8641

- Hand-held brake pipe flaring tool that is capable of forming both SAE single and double flares in 3/16" (4.75mm) copper and cupro-nickel brake pipes
- A 3/16" (4.75mm) SAE hand-held brake pipe flaring tool for forming single & double flares
- Suitable for use on & off the vehicle

£65

LASER **BRAKE PIPE BENDER & CLAMP SET**

PART NO: 8568

- This set combines a specialist automotive pipe bender designed for brake pipework with a set of brake pipe clamps to enable the new pipe to be held next to the existing pipe while still attached to the car
- A compact brake pipe bender/straightener tool ideal for on-vehicle use.

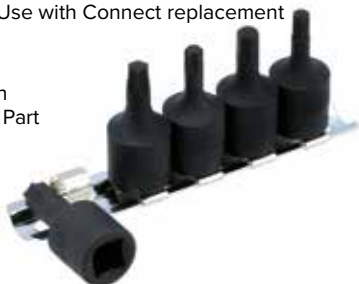

£32

LASER **BRAKE FIXING IMPACT BIT SET 3/8"D**

PART NO: 8286

- A set of 5 brake fixing impact bit sockets designed to suit the most commonly used brake disc and drum holding screws. The 3/8"D 40mm long socket bits cover Hex 5 and 6mm; Torx® T30, T40 and T50
- 5mm Hex applications: Saab, Vauxhall. Use with Connect replacement screws, Part Nos. 34130, 34135, 34136 and 34138
- 6mm Hex applications: BMW. Use with Connect replacement screws, Part No. 34132
- T30 applications: Fiat, Honda, Mercedes-Benz, PSA. Use with Connect replacement screws, Part Nos. 34131, 34137 and 34141

£9

LASER **BRAKE PIPE REAMER**

PART NO: 8520

- Compact reamer features a countersink S2 steel blade to deburr internal diameters from 3mm to 10mm
- Compact internal deburring tool
- Size range: 3-10mm
- Effective on copper & cupro-nickel brake pipes
- PP+TPR soft grip handle for comfort
- Also suitable for use on stainless steel & plastics.

£10

BRAKE FLUID TESTING

LAUNCH PRO-1 PLUS BRAKE BLEEDER & FLUID EXCHANGER

PART NO: 1433002

- Launch UK PRO 1 Plus is a compact, fully-featured brake and clutch fluid exchange device, suitable for all systems
- Pressure adjustable between 0.6-3.0 Bar
- 3.5M fluid delivery hose
- Compatible with all braking systems
- 5 Litre fluid tank
- One-man operation
- Fluid suction function

£570

SEALEY BRAKE PISTON WIND-BACK TOOL KIT 30 PIECE

PART NO:VS0285

- Comprehensive master set of adaptors suit a wide range of vehicle applications
- Suitable for push-back and wind-back brake pistons
- Includes left and right-handed thrust bolt assemblies
- Left-handed thrust bolt required for Citroen, Ford and Renault applications
- Precision made adaptor plates with thrust bolt assembly and reaction plate

£100

LASER BRAKE CALIPER CLEANING FILE DOUBLE SIDED

PART NO: 8474

- Double sided cleaning file suitable for removing brake dust, corrosion and the build up of road dirt from brake calipers and carriers when replacing brake pads and discs
- Designed for the removal of brake dust & corrosion
- Extra slim style - only 10mm
- Flat 155mm parallel blade with diagonal coarse grooves to prevent clogging
- Double sided for ease of use

£15

LASER HIGH PRESSURE BRAKE BLEEDER

PART NO:8395

- 12v powered brake bleeder has an adjustable fluid pressure output from zero to 3.5 bar (50psi)
- Designed to be used with a 5L brake fluid container (included)
- Finished in a durable, brake fluid safe, paint with clearly marked switches and dial.
- Designed and manufactured in Germany
- Supplied with euro cap adaptor - additional adaptors available

£799

SEALEY WORKSHOP VACUUM BRAKE & CLUTCH BLEEDER 2L

PART NO:VS0203

- Easy, fast, one-person operation using workshop air supply (90psi)
- Does not require vehicle-specific reservoir caps
- Draws fluid from the bleed screw enabling either bleeding or full replacement of fluid in system
- Operation automatically stops when 2L tank is full, preventing spillage
- Includes reservoir replenishing bottle, instructions and air line quick connector.

£130

LASER BRAKE CALIPER SPREADER, HYDRAULIC

PART NO: 8092

- Hydraulic brake caliper spreader for 2, 4 and 6 piston calipers, supplied with three sizes of spreader pad
- Hydraulic high force brake caliper spreader. Supplied with T-handle
- Spread range: 37 - 71mm
- Supplied with 3 sets of pads: 90 x 60mm, 150 x 60mm, 180 x 60mm
- For large 2, 4, and 6 piston calipers
- Centrally located hydraulic ram evenly spreads the force to prevent misalignment

TEXA

705R SERVICE STATION FOR R134A

PART NO: UKA6001

The latest TEXA “entry level” recharge station for vehicle air conditioning systems, designed with the precise objective of offering mechanics a simple but complete unit for all recovery and recharge jobs involving only R134a refrigerant, at an extremely competitive price.

FINANCE OPTIONS AVAILABLE

TEXA

707 TOUCH SERVICE STATION FOR R1234YF

PART NO: UKA6012

Latest recharge and maintenance station for vehicle air conditioning systems. It is designed and made for maximum simplicity and effectiveness in servicing systems filled with the new R1234yf refrigerant, mandatory within the European Community since January 2011 and now increasingly common.

FINANCE OPTIONS AVAILABLE

TEXA

712 TOUCH SERVICE STATION FOR EITHER R134A OR R1234YF DATABASE ON SD CARD

PART NO: 712

It is a mid-range model which boasts the typical technical features of the top-range models such as:

- The automatic maintenance service management
- The measuring of the amount of oil recovered with an electronic scale.

It can be purchased in the R134a or R1234yf version.

FINANCE OPTIONS AVAILABLE

TEXA

780 TOUCH BI-GAS SERVICE STATION

PART NO: UKA6012

Top of the range. Allows users to alternate services on vehicles equipped with refrigerants R134a and R123yf, as it has two tanks and two separate circuits for recovery, recycling and recharging.

Other distinctive features: airtight oil bottles, scale locking/unlocking device, refrigerant weight accuracy check system, automatic cleaning device for all the hydraulic ducts.

Meeting the need for qualified staff in the ever growing MOT sector

Premier MOT Training is the UK's longest established independent Automotive & MOT Training Provider, catering to 600 plus students every year.

Specialising in Automotive Training for the Automotive Industry they cover a varied range of courses including Level 3 accreditation for those without formal industry qualifications, but with lots of experience; MOT Tester Training Classes 1, 2, 4 & 7; Class 3 and 5 bolt on and The Level 3 Managers qualification.

All our Trainers are qualified MOT Testers, qualified to Master Tech Level, all qualified in teaching training who have worked within the industry & colleges for many years to gain their expert knowledge.

Being one of the very few training providers who deliver the Award in MOT testing Classes 1 & 2 (motorbikes) at both of our in Essex and Derbyshire training centres.

We have a great working relationship with the DVSA and Awarding Bodies.

Donna Chapman, Managing Director, says "we have looked at the sheer numbers of tests being carried out and with over 9,000,000 tests being carried out in the first quarter of 2022, it's no wonder we've been inundated with students wanting training of this type." Readers may be interested to know that there are over

20,000 stations in the UK and almost 60,000 testers, so it's no wonder the market demand is at its highest.

Donna continues "One of the biggest areas we have noticed growth in is on Managers training.

With the recent DVSA changes a senior manager can now become the AEDM but if it isn't one of the Principles (AEP) and AEP must also attend the course.

We have also noticed several existing AEDM's returning for an up skill to help with their stations compliance.

Many stations aren't aware that site managers, even though it is not a requirement, can sit the managers course". Premier MOT have increased their availability of the Level 3 in MOT Centre Management courses to ensure we can meet the demand.

- Designed for all devices including tablets and mobiles

Delphi Academy is a training platform developed by Delphi Technologies out of their state-of-the-art training facility in Warwick. The platform provides automotive technicians with an enhanced learning experience, offering not only face-to-face training but a wide range of training resources including (but not limited to) online videos, webinars, interactive simulations and access to industry expert lead information.

Titan 10 - Warwick

Delphi's Award-winning technical training centre directly incorporates Delphi's wealth of OEM technical expertise into Delphi's training material, ensuring you get only the best quality technical training, every time.

Developed by technicians for technicians

Delphi's training is all based on real world experience and scenarios. Case studies have shown that continued learning can also help automotive technicians stay motivated and engaged in their work. Learning new skills and techniques can provide a sense of personal fulfilment and satisfaction, and it can help technicians feel more confident and competent in their work.
