

27" WQHD monitor that answers your need for extra workspace

Do you spend most of your workday juggling between multiple applications and windows and there is simply never enough of space on the screen? If the answer is yes – you've come to the right place. The 27" WQHD X2788QS can easily accommodate almost 77% more information on the screen than a Full HD display. Problem solved. In addition, the IPS technology panel offers accurate and consistent colour reproduction with wide viewing angles and high contrast and brightness values guaranteeing the monitor will provide excellent performance for photographic and web design. Let your creativity loose, iiyama X2788QS will not let you down.

Buy it at an iiyama Authorized Reseller to enjoy our 3-year on-site-swap warranty.

If you need a monitor with a height adjustable stand, check out ProLite XB2788QS.

### IPS TECHNOLOGY

IPS technology offers higher contrast, darker blacks and much better viewing angles than standard TN technology. The screen will look good no matter what angle you look at it.

### WQHD

With true WQHD 2560 x 1440p resolution your monitor is ready to display high definition images. This means you can accommodate more information on your screen, i.e. over 76% more in comparison to a 1920 x 1080 monitor.

## 1. DISPLAY CHARACTERISTICS
