

ExpressCard to CardBus Laptop Adapter PC Card

Product ID: CB2EC

The CB2EC CardBus to ExpressCard Adapter converts a laptop ExpressCard port into a CardBus port, enabling you to use older CardBus cards with a newer (ExpressCard-capable) laptop computer.

Ideal for use with Ethernet LAN, Broadband, Modem, and other CardBus expansion cards, this adapter eliminates the expense of replacing your existing CardBus cards for the sake of compatibility with a newer laptop computer.

The CardBus to ExpressCard adapter supports common operating systems including Windows® XP, Vista™, and Mac OS X and up, and is backed by StarTech.com's 2-year warranty.

Certifications, Reports and Compatibility

Applications

- Connect older CardBus-based cards to a new laptop that only has ExpressCard slots
- A cost-effective alternative to Industrial and Legacy CardBus cards that may be hard to find or too costly to replace
- Great for use with Ethernet LAN, Broadband, modems and other CardBus expansion cards

Features

- Supports Type II PC cards and compatible with 32-bit CardBus cards
- Fits into 34mm or 54mm ExpressCard slots
- No driver installation or external power adapter required
