#### Overview

### **HP ProLiant DL585 Gen7**

Powered by latest AMD Opteron<sup>®</sup> 4, 8, 12 and 16 core processors, the HP ProLiant DL585 G7 is the most expandable 4P multicore rack mount server ideal for server virtualization, server consolidation, multi-tiered enterprise application, and corporate infrastructure applications.

#### **Front View:**

- 1. Quick Removal Access Panel
- 2. 4 Hot Plug Redundant Fans Standard on all models
- 3. Slimline Drive (DVD Drive optional)
- 4. Front Panel LED Display and Power Button
- 5. Slide-out Systems Insight Display
- 6. Two front accessible USB 2.0 ports
- 7. One front video port
- 8. Quick release levers for fast server access
- 9. Front accessible Processor and memory drawer
- 10. Support for up to four AMD Opteron processors
- 11. Support for up to eight hot plug Small Form-Factor (SFF) SAS/ Serial ATA (SATA)/Solid State drives
- 12. Universal Tool-less "Snap In" Sliding Rail Solution
- 13. Server Lifting Handles
- 14.4U (7" Height) Rack Form Factor
- 15. Up to eleven available PCI Express/PCI-X Internal Expansion Slots

#### **Rear View:**

- 1. Hot Plug Redundant Power supplies (2 or 4 ship depending on the model)
- 2. Integrated Lights-Out 3 port
- 3. Mouse port
- 4. Serial port
- 5. Gigabit NIC Ports
- 6. Gigabit NIC Ports
- 7. Gigabit NIC Ports
- 8. Gigabit NIC Ports
- 9. Video port
- 10. Keyboard port
- 11. PCI-Express or PCI-X option (slots 1-6)
- 12. PCI-Express slots (slots 7-11)
- 13. Two USB ports
- 14. Service tool

#### What's New

• Support for HP 1.3TB, 1.6TB, 3.2TB, and 6.4TB VE PCIe Workload Accelerators.

### **Standard Features**

**NOTE:** For the Standard Features shipped in the "Factory Integrated Models", please see the "Configuration Information - Factory Integrated Models" section.

Memory Protection	Advanced ECC capabilities			
Upgradeability	Upgradeable to quad (4) processors <b>NOTE:</b> To upgrade from 2P to 4P the secondary CPU/Memory kit needs to be purchased separately, part number listed in the options section. 4P models already have this kit configured.			
Chipset	AMD SR5690/SP5100			
Cache Memory	16MB Level 3 cache			
	<b>NOTE:</b> Processor wattage references reflect Thermal Design Power (TDP). For more information on TDP and Average CPU Power (ACP) visit: http://www.amd.com/acp. <b>NOTE:</b> SmartStart version 8.70B or greater required by 6200 or 6300 series processors. Latest version can be downloaded from the web at http://www.hp.com/go/foundation.			
	AMD Opteron™ 6204 (3.3GHz/4-core/16MB/115W) Processor			
	AMD Opteron™ 6308 (3.5GHz/4-core/16MB/115W) Processor			
	Four-Core Processor

Server Power Cords	<b>NOTE:</b> If customers require a local power cord, they can check the power cord matrix for the appropriate county specific SKU. Please see the following power cord matrix for details: <a href="http://www.hp.com/go/powercordmatrix">http://www.hp.com/go/powercordmatrix</a>					

tandard Features				
Power Specifications	To review typical system power ratings use the HP Power Advisor which is available via the online tool located at URL: <a href="http://www.hp.com/go/hppoweradvisor">http://www.hp.com/go/hppoweradvisor</a> .			
	<b>NOTE:</b> Power Specification and Technical Content for supported power supplies can be found at: http://h18000.www1.hp.com/products/quickspecs/14209_div/14209_div.html			
Common Slot Power Supply	<b>NOTE:</b> Mixing of power supplies in the same server is not supported. All power supplies inside a server must be exactly the same model. Mixing Gold, Platinum, and Platinum Plus certified power supplies is not supported.			
	HP's Common Slot (CS) power supplies allow for commonality of power supplies across a wide range o ProLiant and Integrity servers, as well as HP Storage solutions, and are designed to provide the highes power supply efficiency without degrading system performance. HP CS power supplies are tested by the Electric Power Research Institute (EPRI) and certified through the ECOS 80 Plus power supply program. HP CS power supply options provide efficiency ratings of up to 94% (80 Plus Platinum) and are available in three power output options - 460W, 750W, and 1200W - allowing the customer to "right-size" a power supply for their specific server configuration. All HP Common Slot power sources are UL, CE Mark Compliant, hot-plug and support redundant configurations.			
	HP CS Platinum Plus power supplies are required when enabling HP's Intelligent Power Discovery (IPD) solution. IPD is the first technology to create an automated, energy-aware network between IT systems and facilities. This allows your company to reclaim millions of dollars in wasted power capacity and downtime costs across data centers. For more information on HP's IPD solution, go to http://www.hp.com/go/ipd.			
	It is highly recommended that you use the HP Power Advisor in defining the "Right-Size" power supply for your needs. HP Power Advisor can be accessed at: <a href="https://www.hp.com/go/hppoweradvisor">www.hp.com/go/hppoweradvisor</a> .			
	<b>NOTE:</b> The 80 PLUS program is a unique forum that unites electric utilities, the computer industry, and consumers in an effort to bring energy efficient technology solutions to the marketplace. 80 Plus independently tests power supply efficiency and publicly posts the results on 80Plus.org.			
	Redundant Power: Optional (1+ 1 or n+n redundant) power supplies can be purchased through power supply option kits (see Power Supplies for part numbers).			
	<b>NOTE:</b> Power Specification and Technical Content for supported power supplies can be found at: http://h18000.www1.hp.com/products/quickspecs/14209_div/14209_div.html			
	<b>NOTE:</b> Two Hot Plug Power Supplies ships standard with 2P Models. Four Hot Plug Power Supplies ship standard with 4P Models.			
System Fans	4 Hot plug, redundant fans (individually removable)			
Required Cabling	For required cabling information, refer to the HP Web site at: http://www.hp.com/servers/dl585			
Operating Systems and Virtualization Software Support for ProLiant	Microsoft Windows Server Red Hat Enterprise Linux (RHEL) SUSE Linux Enterprise Server (SLES)			

#### Standard Features

Servers	Oracle Solaris VMware Citrix XenServer NOTE: For more information on HP's Certified and Supported ProLiant Servers for OS and Virtualization Software and latest listing of software drivers available for your server including how to purchase from HP, please visit our OS Support Site at: http://www.hp.com/go/ossupport and our driver download page http://www.hp.com/support/DL585G7		
Graphics	Integrated ATI RN-50 1600x1280x64K 16M color (32 MB DDR1 memory)		
Form Factor	Rack (4U = 7 inches), ships with sliding rails and cable management system Space saving form factor (4U) provides space efficiencies while providing maximum deployment flexibility		
HP Insight management	HP Service Pack for ProLiant	HP Service Pack for ProLiant (SPP) and HP Smart Update Manager (HP SUM) provide a comprehensive approach to firmware and system software maintenance. Together they provide better operating stability and ensure maximum uptime. The SPP will be updated at a predictable cadence, typically coinciding with new HP server hardware launches. By enabling firmware to be updated online and integrating firmware and system software updates in one operation, HP SUM and the SPP offer faster updates of individual servers and dramatically faster updates of entire	

BladeSystem enclosures. Further improving system uptime and stability is the fact that HP provides 12 months of support for each Service Pack for ProLiant release.

The user experience around HP SUM and the SPP has been improved in several ways, starting with the web download. A single web page provides access to a single download containing both the latest version of HP SUM and the latest SPP. Optional smaller subsets with only specific types of servers or specific operating systems are offered to save on download time. The HP SUM application provides a straightforward, intuitive user interface that guides the user through the steps of discovery, analyses and update, providing comprehensive information on available updates, criticality and interdependencies. This information is also available in reports. By providing the option of multiple local or shared repositories which can be easily updated from hp.com, HP SUM provides the tools to optimize stability and consistency throughout the company. While HP SUM and the SPP recommend the combinations of firmware and system software that HP has found to be the best practice, the application gives customers the flexibility to set their own specific baseline.

The Service Pack for ProLiant has been rigorously tested with specific attention for interaction between firmware, drivers and agents both within the server as well as in interaction with the BladeSystem enclosure components (Onboard Administrator and Virtual Connect). This testing ensures the highest quality as well as providing the input for HP SUM to deploy updates taking into account all interdependencies, when

### Standard Features

		determining the correct updates and order of update deployment.
		<b>NOTE:</b> The Service Pack for ProLiant (which includes HP SUM) can be downloaded from http://www.hp.com/go/spp/download. More information can be found: http://www.hp.com/go/SmartUpdate, http://www.hp.com/go/spp and http://www.hp.com/go/hpsum
	HP Insight Foundation	Insight Foundation is being baselined at version v8.70 which means the following:
		<ul> <li>Its Media Kit (contains 2 SmartStart CDs, the Firmware DVD, and the Management DVD) will continue to ship with all supported ProLiant G7 or earlier BTO servers until the last supported server is no longer shipping.</li> <li>The Media Kit will not be updated past version 8.70.</li> <li>ProLiant G7 or earlier CTO servers are able to order the Media Kit with the understanding that the media is not updated. Please check specific server QuickSpecs for availability of CTO Kit.</li> <li>PSP and Firmware DVD downloads will be updated through 2Q 2012 at the HP Insight Foundation Suite for ProLiant downloads tab: http://www.hp.com/go/foundation</li> </ul>
		Customers are urged to use the replacement product, HP Service Pack for ProLiant, instead of Insight Foundation Suite which is found at these location:
		<ul><li>http://www.hp.com/go/spp</li><li>www.hp.com/go/spp/download</li></ul>
	HP Integrated Lights-Out (iLO)	HP Integrated Lights-Out (iLO) simplifies server setup, health monitoring, power and thermal control, and lights-out remote administration of ProLiant ML, DL, and BL servers. HP iLO functions without additional software and can be accessed from any location via a web browser. HP iLO works hand-in-hand with HP Systems Insight Manager, Insight Control suites, and Insight Dynamics for ProLiant, helping customers unleash the value of the ProLiant platform and deliver the highest possible quality of IT service. For more information, visit: http://www.hp.com/go/iLO

#### **Standard Features**

	Pre-Failure Warranty (covers processors, SAS hard drives and memory) Redundant/adaptive load balancing NIC Support
HP Insight Online	HP Insight Online is a new capability available through the HP Support Center portal for one stop, secure access to product and HP support information specific to your IT environment. Insight Online can automatically display devices remotely monitored by HP Insight Remote Support. With Insight Online's easy navigation you can efficiently track your IT support contracts and device status from anywhere and at anytime. www.hp.com/go/insightonline
Security	Power-on password Keyboard password Diskette drive control enable/disable Diskette boot control enable/disable External USB port enable/disable Network Server Mode Serial interface control Administrator's password Removable optical drive
Warranty	This product is covered by a global limited warranty and supported by HP Services and a worldwide network of HP Authorized Channel Partners resellers. Hardware diagnostic support and repair is available for three years from date of purchase. Support for software and initial setup is available for 90 days from date of purchase. Enhancements to warranty services are available through HP Care Pack services or customized service agreements. Hard drives have either a one year or three year warranty; refer to the specific hard drive QuickSpecs for details.
	<b>NOTE:</b> Server Warranty includes 3-Year Parts, 3-Year Labor, 3-Year Onsite support with next business day response. Warranty repairs may be accomplished through the use of Customer Self Repair (CSR) parts. These parts fall into two categories: 1) Mandatory CSR parts are designed for easy replacement. A travel and labor charge will result when customers decline to replace a Mandatory CSR part; 2) Optional CSR parts are also designed for easy replacement but may involve added complexity. Customers may choose to have HP replace Optional CSR parts at no charge. Additional information regarding worldwide limited warranty and technical support is available at: http://h18004.www1.hp.com/products/servers/platforms/warranty/index.html.

### **Optional Features**

High Performance Clusters	HP Cluster Platforms	HP Cluster Platforms are specifically engineered, factory-integrated large- scale ProLiant clusters optimized for High Performance Computing, with a
		<b>NOTE:</b> For more information, visit: http://www.hp.com/go/insightdynamics
	HP Insight Dynamics for ProLiant	HP Insight Dynamics for ProLiant, a product option, is an integrated command center that enables IT Staff personnel to continuously analyze and optimize a converged infrastructure, while automating and reducing the cost of common data center tasks by as much as 40 percent. As a powerfully integrated by design toolkit to accelerate complex technology projects and simplify daily operations that ultimately enable IT Staff personnel to dynamically keep pace with the organizations changing business requirements. It enables them to plan capacity and power continuously, balance across physical and virtual resources, and ensure cost-effective high availability. It also enables IT organizations to provision infrastructure consistently and automatically from pools of shared resources using a self-service portal. Resources provisioned can range from a single virtual machine to complex multi-tier environments and their associated physical and virtual resource requirements. In addition to the previous functional benefits, it also provides a cost-effective disaster recovery for physical and virtual environments that works with HP Continuous Access software for both the Enterprise Virtual Array and the XP storage array allowing application environments to be reactivated in minutes with the touch of a button to a remote location.
	HP iLO Advanced	HP Integrated Lights-Out Advanced License a product option, providing smart remote server management without compromise. iLO Advanced unlocks the full set of remote administration functionality for all HP ProLiant servers by activating the full Virtual Keyboard Video and Mouse remote console, multi-user collaboration, console record and replay, GUI- based and scripted virtual media and virtual folders, and enhanced security and power management functionality. For more information, see: http://www.hp.com/go/iloadvance
		HP Insight Control includes one year of 24 x 7 HP Software Technical Support and Update Service ensuring rapid access to HP support staff and proactive delivery of software updates. For more information about this service, please visit: http://www.hp.com/services/insight.
		Two versions of Insight Control are available, to serve environments requiring either a Linux-based or a Windows-based central management server: HP Insight Control for Linux, and HP Insight Control. See http://www.hp.com/go/insightcontrol
HP Insight managemen	t HP Insight Control	HP Insight Control, a product option, delivers essential infrastructure management that can help save time and money by making it easy to deploy, migrate, monitor, remote control, and optimize your IT infrastructure through a single, simple management console.

### **Optional Features**

Solutions

realuies		
		choice of servers, networks and software. Operating system options include specially priced offerings for Red Hat Enterprise Linux and SUSE Linux Enterprise Server, as well as Microsoft Windows HPC Server. A Cluster Platform Configurator simplifies ordering. http://www.hp.com/go/clusters
	HP HPC Interconnects	High Performance Computing (HPC) interconnect technologies are available for this server as part of the HP Cluster Platform portfolio. These high- speed InfiniBand and Gigabit interconnects are fully supported by HP when integrated within an HP cluster. Flexible, validated solutions can be defined with the help of configuration tools. http://www.hp.com/techservers/clusters/ucp/index.html
	HP Cluster Management Utility	HP Cluster Management Utility (CMU) is an HP-licensed and HP-supported suite of tools that are used to manage large-scale Linux ProLiant systems. CMU includes software for the centralized provisioning, management and monitoring of nodes. CMU makes the administration of clusters user friendly, efficient, and effective. http://www.hp.com/go/cmu
	applications, as well as da rack optimized 4-process availability for highly com	ustomers running compute- or I/O intensive database and transaction ata centers using virtualization and consolidation to reduce server sprawl, the or HP ProLiant DL585 G7 server delivers maximum performance and high aplex, business critical applications. Specifically, the HP ProLiant DL585 G7 aning the following types of applications:
	Typical Usage:	

## Storage SoftwareWhether you need to solve a specific data protection, archiving, or storage command and control<br/>challenge, or deliver on strategic consolidation, compliance, or continuity initiatives, look no further<br/>than HP storage software. Our storage software helps you reduce costs, simplify storage<br/>infrastructure, protect vital assets and respond faster to business opportunities.

Storage software that gets the job done:

#### • Data Protection and Recovery Software

Whether you're a large enterprise or a smaller business, HP data protection and recovery software will cost-effectively protect you against disaster and ensure business continuity.

• Data Archive and Migration Software HP's storage software enables you to comply with data retention and retrieval requirements, improve application performance, and reduce costs by efficiently migrating infrequently

### **Optional Features**

	<ul> <li>accessed or less valuable data to lower cost storage.</li> <li>Storage Resource Management Software (SRM)         HP's storage resource management software reduces operational costs and provides the command and control foundation you need to efficiently manage and visualize your physical and virtual environments.     </li> <li>Data Replication Software         HP offers array-based and host-based replication software for use in disaster recovery, testing, application development and reporting.     </li> <li>Storage Device Management Software         Maximize your investment in HP storage and networking with software that enables hardware-specific configuration, performance tuning and connectivity management.     </li> <li>HP StoreVirtual VSA         With HP StoreVirtual VSA you can use the power of virtualization to turn a set of heterogeneous and disconnected physical disk drives in your servers and storage devices into     </li> </ul>
	a single pool of logical storage capacity. <b>NOTE:</b> For more information available Storage Software including QuickSpecs, please see: www.hp.com/go/storage/software.
HP Proactive Insight experience	Prevent problems with innovative, automated monitoring tools and proactive services. The HP Proactive Insight experience consist of using Insight Online, Insight Remote Support, and Proactive Care Support Service as one integrated solution. The Proactive Insight experience provides you with expert advice and personalized, cloud-based automated IT support, helping to prevent unplanned down time and solve problems quickly. For more information, visit: http://www.hp.com/go/proactiveinsightexperience
Factory Express Portfolio for Servers and Storage	HP Factory Express offers configuration, customization, integration and deployment services for HP servers and storage products. Customers can choose how their factory solutions are built, tested, integrated, shipped and deployed.
	Factory Express offers service packages for simple configuration, racking, installation, complex configuration and design services as well as individual factory services, such as image loading, asset tagging, and custom packaging. HP products supported through Factory Express include a wide array of servers and storage: HP Integrity, HP ProLiant, HP ProLiant Server Blades, HP BladeSystem, HP 9000 servers as well as the MSAxxxx, VA7xxx, EVA, XP, rackable tape libraries and configurable network switches.
	For more information on Factory Express services for your specific server model please contact your sales representative or go to: http://www.hp.com/go/factory-express.
HP Simple Configurator	SCE is a guided self-service tool to help sales and non-technical people provide customers with initial configurations in 3 to 5 minutes. You may then send the configuration on for configuration help, or use in your existing ordering processes. If you require "custom" rack configuration or configuration for products not available in SCE, please contact HP's Customer Business Center or an Authorized Partner for assistance. http://www.hp.com/products/configurator

### Service and Support

Service and Support	HP Technology Services for Industry Standard Servers HP Technology Services delivers confidence, reduces risk and helps customers realize agility and stability. Connect to HP to help prevent problems and solve issues faster. Our support technology lets you to tap into the knowledge of millions of devices and thousands of experts to stay informed and in control, anywhere, any time. Protect your business beyond warranty with HP Care Pack Services HP Care Pack Services enable you to order the right service level, length of coverage and response time as you purchase your new server, giving you full entitlement for the term you select.	
Optimized Care	Supports maintaining servers at optimum performance availability	
	HP Proactive Care with 6 hour call-to-repair commitment, three year Care Pack Service HP Proactive Care helps prevent problems and stabilize IT by utilizing secure, real-time, predictive analytics and proactive consultations when your products are connected to HP. This Care Pack Service combines three years' proactive reporting and advice with our highest level reactive coverage and enhanced escalation management, HP's 24x7, six hour call-to-repair hardware commitment. HP is the only leading manufacturer who makes this level of coverage available as a standard service offering for your most valuable servers. Service includes 24x7 collaborative software support for leading industry standard software running on your HP ProLiant server. http://h20195.www2.hp.com/v2/GetPDF.aspx/4AA3-8855ENW.pdf	
Standard Care	Package that maintains high level of server availability	
	HP Proactive Care with 24x7 coverage, three year Care Pack Service HP Proactive Care helps prevent problems and stabilize IT by utilizing secure, real-time, predictive analytics and proactive consultations when your products are connected to HP. This Care Pack Service combines three years' proactive reporting and advice with our 24x7 coverage and enhanced escalation management, four hour hardware response time and two hour call back for software questions on leading industry standard software running on your HP ProLiant server. http://h20195.www2.hp.com/v2/GetPDF.aspx/4AA3-8855ENW.pdf	
Related Services	HP ProLiant Server Hardware Installation Provides for the basic hardware installation of HP branded servers, storage devices and networking options to assist you in bringing your new hardware into operation in a timely and professional manner. http://h20195.www2.hp.com/V2/GetPDF.aspx/5981-9356EN.pdf	
	<b>Factory Express for Servers and storage</b> HP Factory Express offers configuration, customization, integration and deployment services for HP servers and storage products. Customers can choose how their factory solutions are built, tested, integrated, shipped and deployed. For more information on Factory Express services for your specific server model please contact your sales representative or go to: http://www.hp.com/go/factory-express.	
	<b>Data Privacy Services</b> Protect your data through better media management. HP Data privacy services help manage and protect sensitive data to reduce the risk of unauthorized access to private information and help meet compliance requirements. Our retention services allow you to keep drives and other devices upon	

#### Service and Support failure, our removal services provide convenient data sanitization and our recovery services allow you to safely retire IT assets and capture any remaining value from the hardware. http://www.hp.com/services/dataprivacy Additional HP Care Pack services can be found at: http://www.hp.com/go/cpc Get connected to HP to Prevent problems with innovative, automated monitoring tools and proactive services. Combining improve your support Proactive Care Services with our remote support technology such as Insight Online provides you with experience expert advice and personalized, cloud-based automated IT support, helping to prevent unplanned down time and solve problems quickly. For more information, visit: http://www.hp.com/go/proactiveinsightexperience **Parts and Materials** HP will provide HP-supported replacement parts and materials necessary to maintain the covered hardware product in operating condition, including parts and materials for available and recommended engineering improvements. Parts and components that have reached their maximum supported lifetime and/or the maximum usage limitations as set forth in the manufacturer's operating manual, product quick-specs, or the technical product data sheet will not be provided, repaired, or replaced as part of these services. The defective media retention service feature option applies only to Disk or eligible SSD/Flash Drives replaced by HP due to malfunction. For more information To learn more on HP ProLiant servers and HP BladeSystem servers, please contact your HP sales representative or HP Authorized Channel Partner. Or visit: http://www.hp.com/services/proliant

### **Pre-configured Models**

**NOTE:** For the Standard Features shipped in the "Factory Integrated Models", please see the "Configuration Information – Factory Integrated Models" section.

**NOTE:** Pre-configured models ship with the configurations below. Options can be selected from the Core or Additional options section of this QuickSpecs.

**NOTE:** HP does not allow factory integration of options into pre-configured models. Any additional options purchased will be shipped separately.

**NOTE:** If you desire a custom configuration please see "Configuration Information – Factory Integrated Models" section of this QuickSpecs.

**NOTE:** Not all models are available in all regions. Check with your local country HP offices for availability.

**NOTE:** SmartStart version 8.70B or greater required by 6200 or 6300 series processors. Latest version can be downloaded from the web at http://www.hp.com/go/foundation.

#### **Performance Models**

HP ProLiant DL585 G7 6386SE 4P 128GB-R P410i/1GB FBWC 1200W RPS Server	Processors Cache Memory Memory	(4) AMD Opteron™ 6386SE (2.8GHz/16-core/16MB/140W) Processors 16MB L3 cache 128GB (16x8GB) of PC3-10600R (DDR3-1333) NOTE: 48 DIMM slots.
704160-xx1	Network Controller	HP Ethernet 1Gb 4-port 331i-SPI Adapter
	Storage Controller	Embedded HP Smart Array P410i/1G FBWC Controller
	Hard Drives	None ship standard
	Internal Storage	Up to 9.6TB of internal storage (SFF SAS)
	Optical Drive	None ship standard
	Power Supply	Four 1200W Platinum Power Supplies standard
	Fans	4 Hot plug, redundant fans (individually removable)
	Integrated Lights Out	Integrated Lights-Out 3 (iLO 3) ships standard
	Insight Control	HP Insight Control No Media single server license, including 1 year of 24x7 Technical Support and Updates
	Form Factor	4U Rack
	Warranty	Server Warranty includes 3-Year Parts, 3-Year Labor, 3-Year Onsite

### **Configuration Information - Factory Integrated Models**

**NOTE:** This section lists some of the steps required to configure a Factory Integrated Model. To ensure only valid configurations are ordered, HP recommends the use of an HP approved configurator. Contact your local sales representative for information on configurable product offerings and requirements.

NOTE: Configure-to-order (CTO) servers must start with a CTO Chassis.

NOTE: FIO indicates that this option is only available as a factory installable option.

### **Step 1: Base Configuration**

HP Models	HP ProLiant DL585 G7 BC NIC Configure-to-order Server	704963-B21
	Factory Integrated Models ship with:	
	HP Ethernet 1Gb 4-port 331i-SPI Adapter	
	Five standard PCI-express slots	
	HP Smart Array P410i/ Zero Memory Controller	
	Four redundant hot-plug fans	
	SFF SAS/SATA/SSD drive cage	
	HP Integrated Lights-Out 3 (iLO 3)	
	Rack (4U), 7-inch	
	<b>NOTE:</b> Power supplies need to be selected separately from Step 2 below.	

### Step 2: Choose Required Options (only one of the following from each list unless otherwise noted)

HP Processors	<b>NOTE:</b> If more than two processors are desired, select xxxxxx-L21 and additional processors would be xxxxxx-B21. 3P configurations are not supported				
	Sixteen-Core Processors				
	HP DL585 G7 AMD Opteron™ 6386SE (2.8GHz/16-core/16MB/140W) FIO 2- processor Kit	704173-L21			
	HP DL585 G7 AMD Opteron™ 6380 (2.5GHz/16-core/16MB/115W) FIO 2-processor Kit	704175-L21			
	HP DL585 G7 AMD Opteron™ 6378 (2.4GHz/16-core/16MB/115W) FIO 2-processor Kit	704177-L21			
	HP DL585 G7 AMD Opteron™ 6376 (2.3GHz/16-core/16MB/115W) FIO 2-processor Kit	704179-L21			
	HP DL585 G7 AMD Opteron™ 6366HE (1.8GHz/16-core/16MB/85W) FIO 2-processor Kit	704183-L21			
	Twelve-Core Processors				
	HP DL585 G7 AMD Opteron™ 6348 (2.8GHz/12-core/16MB/115W) FIO 2-processor Kit	704185-L21			
	HP DL585 G7 AMD Opteron™ 6344 (2.6GHz/12-core/16MB/115W) FIO 2-processor Kit	704187-L21			
	Eight-Core processors				

HP

HP Security	HP Trusted Platform Module Option <b>NOTE:</b> The TPM (Trusted Platform Module) is a microcontroller chip that can securely store artifacts used to authenticate the server platform. These artifacts can include passwords, certificates and encryption keys. Windows® BitLocker <sup>™</sup> Drive Encryption (BitLocker) is a data protection feature available in Windows Server® 2008. BitLocker leverages the enhanced security capabilities of a Trusted Platform Module (TPM) version 1.2. The TPM works with BitLocker to help protect user data and to ensure that a server running Windows Server 2008 has not been tampered with while the system was offline. For more information about TPM, including a white paper, go to: http://www.hp.com/go/TPM.	488069-B21

#### **Additional Options**

NOTE: ProLiant OS pre-installed units will come with the partition required for TPM deployment.
NOTE: The TPM key is unique to every TPM deployed server and must be retained.
Misplacing or losing the key could result in data loss.

### **Additional Options**

### HP USB and SD Options HP Flash Media Kits for USB Drives

HP USB and SD Options	HP Flash Media Kits for USB Drives							
	<b>NOTE:</b> HP qualified blank USB key for use with HP ProLiant servers that support the VMware virtualization environment and other HP value-add software like SmartStart. HP recommends this industry standard USB flash device for use with VMware ESXi. USB device must be installed in the internal slot of the ProLiant server for use with VMware							
	ESXi. Refer to HP VMware Getting Started Guide for installation instructions.							
	HP 8GB USB Enterprise Mainstream Flash Media Drive Key Kit	737953-B21						
	HP Enterprise Mainstream Flash Media Kits for Memory Cards							
	HP 8GB SD Enterprise Mainstream Flash Media Kit	726113-B21						
	<b>NOTE:</b> Please see the QuickSpecs for Technical Specifications and additional information:							
	http://h18000.www1.hp.com/products/quickspecs/13971_div/13971_div.html							
	Other USB and SD Options							
	HP USB Standard Keyboard DT528A ABA	DT528A#ABA						
HP Care Pack Services	Proactive Care NOTE: Collaborative Support plus Proactive services delivered by the onshore, local language Advanced Solution Center (ASC), end-to-end case ownership from a Technical Solution Specialists and Technical Account Manager who remotely delivers firmware/software revision management, proactive scans and incident trend reports.							
	Recommended for customers running a virtualized infrastructure and/or customers who desire an enhanced call support experience.							
	HP 3 year 4 hour 24x7 ProLiant DL58x Proactive Care Service	U2Z68E						
	HP 3 year 4 hour 24x7 with Defective Media Retention ProLiant DL58x Proactive Care Service	U2Z71E						
	HP 3 year 6 hour Call To Repair 24x7 ProLiant DL58x Proactive Care Service	U2Z74E						
	HP 3 year 6 hour Call To Repair 24x7 withDefective Media Retention ProLiant DL58x Proactive Care SVC	U2Z77E						
	HP 3 year 4 hour 24x7 ProLiant DL58x Proactive Care Service	U2Z68E						
	<b>Collaborative Support</b> <b>NOTE:</b> Hardware break/fix plus 24x7 software diagnosis support with collaborative call management for a broad spectrum of 3rd Party software products including O/S and hypervisors. Recommended for customers procuring 3rd party SW O/S and hypervisors from the software vendors directly and deploying them on HP ProLiant servers.							
	HP 3 year 4 hour 24x7 ProLiant DL58x Collaborative Support	U1J48E						
	HP 3 year 4 hour 24x7 with Defective Media Retention ProLiant DL58x Collaborative Support	U1J51E						
	HP 3 year 6 hour Call To Repair 24x7 ProLiant DL58x Collaborative Support	U1J54E						
	HP 3 year 6hr Call To Repair 24x7 withDefective Media Retention ProLiant DL58x Collaborative Support	U1J57E						
	Support HP 3 year 6 hour Call To Repair 24x7 ProLiant DL58x Collaborative Support HP 3 year 6hr Call To Repair 24x7 withDefective Media Retention ProLiant DL58x	U1J54E						

#### **Proactive Care Personalized Support Option**

## Additional Options

<b>NOTE:</b> To add an onsite Account Support Manager (ASM) to Proactive Care. ASM is an assigned resource who delivers support planning and brings technical expertise and best practices advices for the customer's environment.	
HP 3 year ISS ProactiveCare Personalized Support	U6W98E
Installation Services	
<b>NOTE:</b> Reduce the time required to get your system up and running and help minimize disruptions to your business.	
HP 3 year 4 hour 24x7 ProLiant D58x Hardware Support	U4608E
HP Install ProLiant DL58x Service	U4617E
HP Startup ProLiant DL58x Service	U4618E
HP Installation and Startup for Insight Control Server Deployment - previously Rapid Deployment Pack	U5683E
<b>NOTE:</b> For more information, customer/resellers can contact: http://www.hp.com/services/carepack	

### Memory

### **NOTE:** Standard memory configurations listed do not apply to "Factory Integrated Models."

### HP ProLiant DL585 G7 Models Memory Configurations

- This server supports DDR3 2GB, 4GB, 8GB, 16GB and 32GB memory modules across 48 memory sockets.
- For detailed memory configuration rules and guidelines, please use the Online DDR3 Memory Configuration Tool: http://www.hp.com/go/ddr3memory-configurator

### **Advanced ECC memory**

- Advanced ECC memory is the memory protection mode for this server. In Advanced ECC, the server does not fail because of correctable memory errors. The server provides notification if the level of correctable errors exceeds a pre-defined threshold rate.
- Advanced ECC provides additional protection over standard ECC because it is possible to correct certain memory errors that would otherwise be uncorrectable and result in a server failure.
- Whereas standard ECC can correct single-bit memory errors, Advanced ECC can correct single-bit memory errors and multi-bit memory errors if all failed bits are on the same DRAM device on the memory module.

#### **Online Spare memory**

- Online Spare memory mode is a higher level of memory protection that complements Standard Memory mode with Advanced ECC. With Online Spare mode, a DIMM with a rank of memory at least as large as the other ranks in the system, or memory board, is designated as the Online Spare rank. If one of the other DIMMs exceeds a threshold rate of correctable memory errors, the affected rank of memory within that DIMM is taken offline and the data is copied to the Online Spare rank. This capability maintains server availability and memory reliability without service intervention or server interruption. The DIMM that exceeded the error threshold can be replaced at the customer's convenience during a scheduled shutdown. Online Spare reduces the chance of an uncorrectable error bringing down the system; however, it does not fully protect the system against uncorrectable memory errors.
- Online Spare mode is beneficial to businesses with sites that do not have IT staff available to service a failure, do not always have replacement memory readily available, or cannot bring down the server until a scheduled shutdown. The cost of implementation for Online Spare over Advanced ECC is the hardware cost of the extra DIMMs for the spare memory bank.
- The user configures the system for Online Spare mode through the RBSU. Online Spare configuration requirements vary for each server series, but it does not require operating system support or special software beyond the System BIOS. However, if messaging and logging are desired at the console along with messages in HP Systems Insight Manager, an operating system must be used that has system management and agent support for Advanced Memory Protection.

#### **Population order**

- The two tables below represent the memory module population order for one processor. The population order for the other processors is identical. SR denotes Single Rank, DR denotes Dual Rank, and QR denotes Quad Rank.
- All memory modules must follow the population order shown in these two tables for all the processors with the following exception:

### Memory

• QR memory modules must be installed only in memory sockets 2, 5, 8, and 11, while following the population order for those memory sockets.

Processor memory socket	1	2	3	4	5	6
Rank support per memory socket	SR/DR	SR/DR/QR	SR/DR	SR/DR	SR/DR/QR	SR/DR
Population order	A	I	E	C	К	G
Processor memory channel	A	A	A	В	В	В

Processor memory socket	7	8	9	10	11	12
Rank support per memory socket	SR/DR	SR/DR/QR	SR/DR	SR/DR	SR/DR/QR	SR/DR
Population order	В	J	F	D	L	Н
Processor memory channel	С	C	C	D	D	D

#### **Population rules**

- When installing memory modules, observe the following population rules:
- Use only HP memory modules listed in this document.
- Advanced ECC is not available if x4 and x8 memory modules are mixed in channels (A and B), (C and D), or both, but standard ECC is still available. Advanced ECC is available if x4 and x8 memory modules are mixed in memory channels (A and C), (B and D), or both.
- HP LRDIMM memory modules listed in this document follow the same population rules as dual rank registered DIMMs

While adhering to the memory population rules ("Population rules" - see above), performance can be improved by following the guidelines below:

- Memory modules may be installed one at a time per processor, but installing two at a time per processor provides for additional performance, installing four at a time per processor provides for better performance, and installing equal amounts of memory for all processors provides for best performance.
- Install all memory modules of the same speed on the same processor for best performance.
- Install all memory modules of the same voltage on the same processor for best power.

Advanced Memory Protection (AMP) mode Online Spare Memory has further requirements beyond these listed above. Please refer to the user guide for additional memory configuration requirements

### Memory bus speed

Depending on the quantity and native speed of memory modules installed, memory bus speeds can be 1333 MHz, 1066 MHz, 800 MHz, or 667 MHz. Memory bus speeds can be different for each processor.

To determine memory bus speeds, do the following:

### Memory

Within RBSU, select the Power Management Options menu > Advanced Power Management Options menu > Maximum Memory Bus Frequency menu.

Memory modules per channel	QR	SR or DR	Memory module native speed	Memory bus speed (standard-voltage memory module	Memory bus speed (low-voltage memory module)
1	-	1	SR 1600 MHz <sup>3</sup> DR 1600 MHz <sup>3</sup>	1600 MHz	NA
1		1	SR 1333 MHz DR 1333 MHz	1333 MHz <sup>1</sup>	1066 MHz <sup>1</sup>
1	1	-	QR 1066 MHz	1066 MHz <sup>1</sup>	1066 MHz <sup>1</sup>
2	-	2	SR 1333 MHz DR 1333 MHz	1333 MHz <sup>1,2</sup>	1066 MHz <sup>1,2</sup>
2	1	1	SR 1333 MHz DR 1333 MHz QR 1066 MHz	800 MHz	800 MHz
3	-	3 SR	SR 1333 MHz SR 1600 MHz <sup>3</sup>	1066 MHz	1066 MHz
3	-	3 DR	DR 1333 MHz DR 1600 MHz <sup>3</sup>	1066 MHz	800 MHz
3	-	3 mixed	SR 1333 MHz DR 1333 MHz SR 1600 MHz <sup>3</sup> DR 1600 MHz <sup>3</sup>	1066 MHz	800 MHz
3	1	2	SR 1333 MHz DR 1333 MHz QR 1066 MHz	800 MHz	667 MHz

### <sup>1</sup>Max. Actual result of lowest DIMM speed

<sup>2</sup>When 1333MHz selected in BIOS "memory speed with 2DPC" entry

<sup>3</sup>1600 MHz memory is only supported in conjunction with Opteron 6200 or 6300 series processors.

Select one of the following menu options:

- Auto (default) The memory bus speed is set to what is shown in the following table. If the native speed of the installed memory module is slower than the memory bus speed, the memory bus speed is set to the memory module native speed
- 800 MHz-The memory bus speed is set to 800 MHz regardless of the quantity of memory modules installed, unless the table above reflects a slower memory bus speed.
   NOTE: There may be more than one memory bus speed menu option.

NOTE: LVDIMMs support on 2011.08.04 BIOS

### **Memory Installation Example**

These memory installation example shows the memory sockets associated with the first processor only. This can be applied toward the memory sockets associated with the other processor also.

### Memory

#### **4 RDIMMs per processor**

- Standard memory: 4x4GB RDIMMs (16GB per processor)
- Optional memory: Adding 8x8GB RDIMMs to standard memory (80GB per processor)
- Maximum memory: Replacing standard memory with 4x16GB QR RDIMMs and 8x8GB DR RDIMMs (maximum of 128GB per processor)

Processor memory socket	1	2	3	4	5	6
Standard Memory	4GB			4GB		
Optional Memory	4GB	8GB	8GB	4GB	8GB	8GB
Maximum Memory	32GB	32GB	32GB	32GB	32GB	32GB

Processor memory socket	7	8	9	10	11	12
Standard Memory	4GB			4GB		
Optional Memory	4GB	8GB	8GB	4GB	8GB	8GB
Maximum Memory	32GB	32GB	32GB	32GB	32GB	32GB

**NOTE:** 1.5TB capacity is achieved by loading 1 32GB LRDIMM on every memory channel on all four processors.

The following memory options are available from HP:

Memory	<b>NOTE:</b> DIMM banks are active only when the corresponding processor socket is populated.	
	Registered DIMMs (RDIMMs)

		Microsoft Windows 2008	3 (32 bit and 64 bit)	
		Microsoft Windows Server 2008 Standard Edition (32bit and 64bit)		
		Microsoft Windows Serv	er 2008 Enterprise Edition (32bit and 64bit)	
			er 2003 and Windows Server 2003 R2, and or Extended Systems Standard Edition, Enterprise	

## **Technical Specifications**

		Red Hat Enterprise Linux 5 (32 bit and 64 bit)
		SUSE Linux Enterprise Server 11 (32bit and 64bit)
		SUSE Linux Enterprise Server 10 (32bit and 64bit)
		VMware ESX 4.0
		VMware ESX 3.5.0
	Client System Support	Microsoft Windows 7
	cuent system support	Microsoft Windows XP Professional Edition
		Microsoft Windows Vista Business and Ultimate Editions
		Red Hat Enterprise Desktop 5.00
		SUSE Linux Enterprise Desktop 11
	Client Browcer Support	SUSE Linux Enterprise Desktop 10
	Client Browser Support	Microsoft Internet Explorer 8
		Microsoft Internet Explorer 7
		Microsoft Internet Explorer 6
		Firefox 3.5 (on supported Windows and Linux systems)
	<b>.</b>	Firefox 3.0 (on supported Windows and Linux systems)
	Command Line Support	Secure Shell and serial port access
		Secure Socket Layer
		Secure Shell version 2
	Security	Advanced Encryption Standard (AES) and Triple Data Encryption Standard (3DES) on browser, CLP and XML scripting interface
		AES encryption of video
		RC4 encryption of video
	Directory Support Services	Active Directory v1.0 (Windows 2003)
	Driver Support	HP ProLiant iLO3 Management Controller Driver Package
	Management protocols supported	SNMP, IPMI 2.0 (system and LAN interface), DMTF Systems Management Architecture for Server Hardware Command Line Protocol (SMASH CLP), HP RIBCL XML
Smart Array P410i	Dimensions	Embedded
Controller	Disk Drive and Enclosure	6Gb/s SAS (Serial Attached SCSI)
	Interface - Transfer rate	3Gb/s SATA (Serial ATA)
	SAS Connectors	2 internal 4X connectors
	Cache Memory Speed	DDR2-800MHz with 40 or 72-bit wide bus
	Server Interface	x4 PCIe 2.0 provides 2GB/s maximum bandwidth
	SAS Speed	8 6Gb/s SAS links provide 4.8GB/s maximum bandwidth
	Cache Memory	Zero Memory RAID has no cache memory
		40-bit 256MB ECC protected cache (battery upgrade available) 72-bit 512MB BBWC or 72-bit 512MB and 1G FBWC
	Logical Drives Supported	Zero Memory, Up to 2 logical volumes (8 physical drives) Up to 64 logical drives with cache
	Host Memory Addressing	64-bit, supporting greater than 4GB server memory space

### **Technical Specifications**

	RAID Support	<ul> <li>256 MB cache, Ba key option upgrade</li> <li>512 MB BBWC/FB option upgrades</li> <li>1G FBWC and Sma upgrades</li> <li>RAID 5, 5+0 (Distributed Data)</li> </ul>	enabled with one of the following combinations: ttery kit and Smart Array Advanced Pack License des WC and Smart Array Advanced Pack License key art Array Advanced Pack License key option ata Guarding) MB cache is required to enable RAID 5, 5+0 ring)

friendly Products Recycling and Approach

recycling programs in many geographic areas. For trade-in information, please go to: http://www.hp.com/go/green. To recycle your product, please go to: http://www.hp.com/go/green or contact your nearest HP sales office. Products returned to HP will be recycled, recovered or disposed of in a responsible manner. The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted on the Hewlett Packard web site at: http://www.hp.com/go/green. These instructions may be used by recyclers and other WEEE treatment facilities as well as HP OEM customers who integrate and re-sell HP equipment.

Date	Version History	Action	Description of Change:	
11-Dec-2015	From Version 59 to 60	Retired	The HP ProLiant DL585 Gen7 syst	em is obsolete since June 30th 2015.
			The QuickSpecs was moved to the	e retired section.
09-Feb-2015	From Version 58 to 59	Added	Skus Added on HP Uninterruptible	e Power Systems:
			<ul> <li>J2Q99A</li> </ul>	• J2R04A

10-Jun-2014	From Version 54 to 55	Changed	Supported Options, Processors, N	letwork Controller, Optimized Care,
		_	Standard Care, Basic Care, Interna	al Storage, Memory, Hard Drives in Core
			Option and Disk Backup, Storage	
			Additional Options sections were	revised

31-Mar-2014	From Version 53 to 54	Changed	Memory, Hard Drives, and HP Insight Software were revised
51-Mai-2014		Changeu	HP Disk Backup and HP Basic and Remote Monitoring Power Distribution
			Unit product descriptions were revised
			HP NC524SFP Dual Port 10GbE Module was removed from HP
			Networking
18-Feb-2014	From Version 52 to 53	Changed	Memory, Graphics Options, Tape Backup, and USB and SD Options were
10-FEU-2014		_	revised.
13-Dec-2013	From Version 51 to 52	Changed	HP Smart Array P411/256 BBWC 2-ports Ext PCIe x8 FIO SAS Controller
			was removed from HP Storage Controllers
			HP NC522SFP Dual Port 10GbE Gigabit Server Adapter and HP 10 GbE
			PCI-e G2 Dual Port Network Interface Card were removed from
			Networking
			HP InfiniBand 4X DDR ConnectX-2 PCIe G2 Dual Port HCA was removed
			from HP InfiniBand
			HP Power Distribution Units was removed from Additional Options
			HP 1.2TB 6G SAS 10k rpm SFF SC Dual Port Enterprise 3yr Warranty Hard
			Drive was added to Hard Drives
			HP 3TB G2 FH/HL PCIe ioDrive2 IO Accelerator for ProLiant Servers to
			was added HP I/O Accelerator Options
			HP Basic Power Distribution Units and HP Remote Monitoring Power
			Distribution Units were revised in Additional Options
11-0ct-2013	From Version 50 to 51	Changed	Processors were revised
			First Generation Accelerators was removed from HP I/O Accelerators
			HP PCIe Workload Accelerator Options and HP Remote Monitoring Power
			Distribution Units were added to Additional Options
			HP 8GB SD Enterprise Mainstream Flash Media Kit was added to HP USB
			and SD Options
10-Sep-2013	From Version 49 to 50	Changed	Processors, HP Insight Management, High Performance Clusters, Models,
			Hard Drives, HP Networking, HP InfiniBand Options, HP Storage Options,
			HP Disk Backup, and HP Power Distribution Units were revised.
15-Jul-2013	From Version 48 to 49	Changed	HP Disk Backup was revised in Additional Options.
05-Jun-2013	From Version 47 to 48	Changed	Core Options: Updated HP Hard Drives section.
			Additional Options: USB and SD Options
13-May-2013	From Version 46 to 47	Added	Additional Options: Added the HP Basic Power Distribution Units section.
		Changed	Standard Features: Updated Maximum Internal Storage section.
			Core Options: Updated HP Hard Drives section.
			Additional Options: HP Tape Backup, HP Intelligent Power Distribution
			Units (iPDU), HP USB and SD Options and HP Care Pack Services section.
			Memory: Updated RDIMMS per processor section.
19-Apr-2013	From Version 45 to 46	Added	Memory: Updated Memory Installation Example section.
05-Apr-2013	From Version 44 to 45	Added	Additional Options: Added Note to the HP Tape Backup section.
25-Mar-2013	From Version 43 to 44	Added	Configuration Information: Added a NOTE to the HP Power Supplies
			section
			Core Options: Added a NOTE to the HP Power Supplies section.
		Removed	Additional Options: Removed 641027-B21, 600279-B21 and 600282-
			B21 from the HP I/O Accelerator Options.
05-Mar-2013	From Version 42 to 43	Added	Optional Features: Added HP Proactive Insight experience section.
12-Dec-2012	From Version 40 to 41	Changed	Changes were made to the North America and Canada versions only.
		changeu	enanges were made to the north America and Canada versions offly.

04-Dec-2012	From Version 39 to 40	Changed	Changes were made throughout the QuickSpec.
24-Sep-2012	From Version 38 to 39	Changed	Changes were made in Optional Features section.
24-Aug-2012	From Version 37 to 38	Changed	Changes were made in Core Options, Additional Options and Storage
_		_	sections.
08-Jun-2012	From Version 36 to 37	Changed	Changes were made in the Hard Drives and Networking sections.
17-May-2012	From Version 35 to 36	Changed	Changes were made in the Standard Features, Configuration Information
			and Options sections.
26-Mar-2012	From Version 34 to 35	Changed	Changes were made throughout Additional Options.
06-Mar-2012	From Version 33 to 34	Changed	Changed a link in the Hard Drives section of Core Options.
13-Feb-2012	From Version 32 to 33	Changed	HP Insight Software and High Performance Clusters were revised
			HP Intelligent Power Distribution Units and HP Rack Options were
			completely revised
			Four-Core Processor was added
			Power Specifications was added to Standard Features
			HP 4GB and 8GB Single Rank x4 PC3-12800 Registered CAS-11 Memory
			Kits and HP 16GB Dual Rank x4 PC3-12800R Reg CAS-11 Memory Kit
			were added to Memory
			HP Ethernet 10Gb 4-port 331T Adapter was added to HP Networking
			HP Chipset SATA Cable Kit was added to HP Storage Controllers
-			SAN Switches were added to HP Storage Options
13-Jan-2012	From Version 31 to 32	Changed	URL was revised in Tape and Disk Backup
			HP CN1000Q Dual Port Converged Network Adapter was added to HP
	-		Storage Options
16-Dec-2011	From Version 30 to 31	Changed	Changes were made throughout the QuickSpec.
02-Dec-2011	From Version 28 to 30	Changed	An update was made in HP Networking.
14-Nov-2011	From Version 26 to 28	Changed	Changes were made throughout.
26-Sep-2011	From Version 25 to 26	Changed	Maximum memory was increased to 1TB and Hot Plug SFF SSD maximum
			internal storage was increased to 3.2TB
			Optimized, Standard and Basic Care were updated in Service and Support
			Hard Drives were revised
26 6 2011		Channed	Product descriptions were revised throughout Additional Options
26-Sep-2011	From Version 25 to 26	Changed	Maximum memory was increased to 1TB and Hot Plug SFF SSD maximum internal storage was increased to 3.2TB
			Optimized, Standard and Basic Care were updated in Service and Support
			Hard Drives were revised
			Product descriptions were revised throughout Additional Options
01-Sep-2011	From Version 24 to 25	Removed	Removed skus 636597-B21, 636595-B21 & 636593-B21 from the Hard
		Kemoved	Drives section.
31-Aug-2011	From Version 22 to 24	Removed	Removed SATA Hot Plug SFF (2.5-inch) Entry (ETY) Drives from the Hard
			Drives and Storage sections.
29-Jul-2011	From Version 21 to 22	Changed	Hard Drive descriptions were revised.
22-Jul-2011	From Version 20 to 21	Removed	Removed part number 339773-B21 from Step 3 of the Configuration
			Information section
22-Jun-2011	From Version 18 to 20	Changed	Changes made throughout the QuickSpec.
09-May-2011	From Version 17 to 18	Changed	Processor and Storage Controller descriptions were revised
			HP 900GB 6G SAS 10K rpm SFF Enterprise Drive was added to Hard
			Drives
			HP Intelligent Power Distribution Units (iPDU) was added to Additional

			Options
15-Apr-2011	From Version 16 to 17	Changed	10Base-T, 100Base-TX and 1000Base-TX (Half-Duplex) Network
			Transfer Rates were removed from HP NC375i Integrated Quad Port
			Multifunction Gigabit Server Adapter.
05-Apr-2011	From Version 15 to 16	Changed	Hot Plug SFF SAS and SATA maximum internal storage was increased to
			8TB
			Service and Support was completely revised
			Models and Power Supply descriptions were revised
			Part numbers were changed to HP Cluster Management Utility Compute
			Node Flexible License and HP High Performance Computing Linux Value
			Pack 1 Processor Flexible License in High Performance Clusters
			HP 1TB 6G SAS 7.2K rpm SFF Hot Plug Midline and HP 1TB 3G SATA 7.2K
			rpm SFF Hot Plug Midline were added to Hard Drives
14-Feb-2011	From Version 14 to 15	Changed	Models, HP Insight Software, HP Tape Backup, HP Uninterruptible Power
			Systems and HP Rack Series product descriptions were revised
			AMD Opteron 6166HE, 6176, 6180SE, 6132HE and 6140 processors were
			added to Processors
			Oracle Solaris was added to Operating Systems and Virtualization
			Software Support for ProLiant Servers
			HP 16GB Dual Rank x4 PC3L-10600 Registered CAS-9 LP Memory Kit and
			HP 32GB Quad Rank x4 PC3L-8500 Registered CAS-9 Memory Kit were
			added to Memory
			HP StorageWorks RDX750 Internal Removable Disk Backup System was
	-		removed from HP Disk Backup
10-Jan-2011	From Version 13 to 14	Changed	HP NC523SFP 10Gb 2-port Server Adapter was added to HP Networking
			HP CN1000Q 2P Converged Network Adapter was added to HP
			StorageWorks Options
			Oracle Enterprise Linux (OEL) was removed from Operating Systems and Virtualization Software Support for ProLiant Servers
			HP InfiniBand 4X DDR PCI-E Dual Port Host Adapter was removed from
			HP InfiniBand
			HP Riser Card Options was removed from Core Options
10-Dec-2010	From Version 12 to 13	Changed	Changes made to the Chart in the Expansion Slots section of Standard
10-Dec-2010		Changeu	Features.
03-Dec-2010	From Version 11 to 12	Changed	Activated a link in the High Performance Clusters section.
23-Nov-2010	From Version 10 to 11	Changed	Smart Array P812 Controller product description was revised.
18-Nov-2010	From Version 9 to 10	Changed	Note for Power Supplies was revised, Models were rearranged and Smart
		changea	Array P410i Controller was completely revised.
15-Nov-2010	From Version 8 to 9	Changed	Power Supply description was revised in Step 2
		changea	Notes were modified in HP Tape Backup and HP Disk Backup and HP
			StorageWorks RDX 1TB Internal Removable Disk Backup System was
			added
			What's New was added to the Overview
			AMD Opteron 6128 processor was added
			Note was added to HP Insight management software
			High Performance Clusters was added
			HP 450GB and 600GB 6G SAS 15K Rpm SFF Dual Port Enterprise Hard
		1	
			Drives were added

## Summary of Changes

			HP 10642G2 and 10647G2 1200 mm deep Rack cabinet Shock Rack were
			added to HP Rack Series
			HPC Interconnects was removed from Optional Features
14-0ct-2010	From Version 7 to 8	Changed	Changed the description of the HP Graphics Options.
05-0ct-2010	From Version 6 to 7	Changed	Changes made throughout the entire QuickSpec.
18-Aug-2010	From Version 5 to 6	Changed	Changed the NOTE in the Upgradeability section of Standard Features.
16-Aug-2010	From Version 4 to 5	Changed	ACPI 1.0a Compliant was changed to ACPI 2.0 Compliant, PCI 2.2
			Compliant was changed to PCI 2.0 Complaint and With embedded NC371i
			Multifunction Gigabit Network Adapters were removed from WOL
			Support in Industry Standard Compliance
			HP DL585G7 PCO-E Option Kit and HP DL585G7 PCI-E/X Option Kit were
			added and HP DL585 Video Power Cords were removed from HP Unique
			Options
			HP Insight Software was completely revised
			Notes were added to the beginning of Models
			HP I/O Accelerator Options was added to Additional Options
			HP InfiniBand 4X DDR PCI-E 0 Memory Dual Port HCA was removed from
			HP InfiniBand
01-Jul-2010	From Version 3 to 4	Changed	Base Models and Performance Models headers were added and
			Integrated Lights Out and Optical Drives were revised in Models.
25-Jun-2010	From Version 2 to 3	Changed	Image callouts were revised
			PC2-6400 DDR SDRAM was changed to PC3-10600 (DDR3-1333)
			throughout Memory
			Network RJ-45 was changed to 4 in Interfaces
			Integrated Light Out was added to Models
			NOTE was added to Step 1 and Memory and Power Supplies were added
			to Step 2
			CD-RW was removed from the Slimline DVD Drive descriptions in Storage
			Increased overall controller performance was removed from Availability
			HP Slim SATA DVD-ROM Optical Drive was removed from Technical
			Specifications
