Hardwood Floors' subscription base is BPA audited. A BPA audit provides advertisers and agencies with assurance that what they choose to invest in does, in fact, reach target audiences for specific ads. The BPA Worldwide audit also helps media companies by documenting the quality of their audiences.

Hardwood Floors (Print: ISSN 0897-022X and Online: ISSN 2475-5125) is published on a bi-monthly basis, plus the Annual Industry Guide, by the National Wood Flooring Association and distributed as a membership benefit to its member companies and without charge upon request to qualified individuals throughout the wood flooring industry. Single copy price is \$8, annual Industry Guide is \$50. Subscriptions: \$40/year (includes 6 issues and Industry Guide) in the U.S. and Canada. Publication office: 111 Chesterfield Industrial Blvd., Chesterfield, MO 63005. Phone: 800.422.4556. Printing office: Walsworth, 306 N. Kansas Ave., Marceline, MO 64658. Printed in the U.S. Periodicals postage is paid at Chesterfield, MO and at additional mailing offices.

POSTMASTER: Send address changes to Hardwood Floors, P.O. Box 9147, Lowell, MA 01853.

CHAIRMAN'S CUT

By Craig Dupra
Chairman, NWFA

A Number of Ways to HELP YOUR BUSINESS

Welcome to the 2021 NWFA Industry Guide, the hardwood flooring industry's go-to resource. This book is filled with information about our member companies, products, NWFA Certified Professionals, and listings by industry segment and geography. We keep it on the central shelf here in our office, and I use it to find products and services outside of my normal business routine. It's a great way to discover new resources.

What a crazy year 2020 has been. Although I know not everything will go back to "normal," there are a few things I would like to see normalize. Having travel and trade shows come to a halt due to the COVID-19 pandemic really made me realize how vital face-to-face time is to our industry. Many of us took for granted the couple of times a year we could see each other. I miss my industry partners in Canada and in several states that have ongoing travel restrictions.

There are simply too many factors – prices, demand, international trade, trade shows, employment issues, government support, government interference, and politics – to really be able to say how things will go

throughout 2021. However, we have all spent a lot of time looking at the numbers and trying to develop a plan. And, the numbers this year were tough. Numbers such as how many square feet of wood flooring to have in stock, how many more weeks it would be possible to pay employees, and the list goes on.

Data from *Hardwood Floors* magazine's 2021 Industry Outlook highlights the fact that half of NWFA members reported a decrease in demand during the shutdown. Businesses also have been affected by social distancing restrictions, new health and safety practices, supply chain disruption, reduced inventory, pricing volatility, and the need to invest in digital tools. While respondents are uncertain about 2021, more than 40 percent expect sales to grow 3 to 7 percent. Any growth in this environment is really positive.

Within the 2021 NWFA Industry Guide, you will find numbers that

can genuinely help your business throughout the year. Numbers such as:

- 3,000+ NWFA member companies
- 140+ online courses available through NWF AU
- 20+ webinars to learn and earn CCUs
- 600+ pages of content to read in *Hardwood Floors* magazine
- \$60,000+ members saved through NWFA savings programs

What you will discover is that these are not really "numbers" at all. They represent the people of our great industry and opportunities you can take advantage of in return for the \$475 cost of a one-year NWFA membership. ■

Add even more value to your career by learning about all of the benefits of being an NWFA member.

For more information, call **800.422.4556** or visit **nwfa.org**.

BENEFITS OF USING THE BONA SYSTEM®:

- Training and educational opportunities available
- Responsive technical support when needed
- Solutions for every flooring need
- Support for the lifetime of the floor
- Strong homeowner brand awareness of Bona

STRONG YET FLEXIBLE ADHESIVES

Less arm fatigue, less time cleaning up job sites, and less product waste saves you time, energy, and money!

INNOVATIVE & DUST-FREE SANDING MACHINES / PERFORMANCE DRIVEN ABRASIVES

Premium abrasion system designed with your bottom line in mind. Longer lasting to outperform the competition and add to your profit!

DESIGN-DRIVEN STAINS, SEALERS & PENETRATING OILS

Stand out against the competition by providing a unique offering from the latest color trends!

FAST-CURING WATERBORNE FINISHES

Durable finishes that are easy to apply, low in VOCs, and GREENGUARD Certified!

FLOOR CARE SYSTEMS

Adding the Revive Deep Cleaning Floor Treatment to your offering provides an easy way to increase profits!

Contact your Bona Territory Manager for more information on how the Bona System® can add to your bottom line.

Share your craftsmanship on social media using #bonasystem.

nwfa CEO'S NOTE

By Michael Martin
President & CEO, NWFA

2021 CHART YOUR OWN FUTURE

Whether your business suffered from the COVID-19 lockdown and has yet to recoup from 2020, or you're one of the lucky wood flooring pros who is booked out through the first quarter of 2021, the next year will be anything but predictable.

They say necessity is the mother of invention, and I'd say that's been true for this industry during the COVID-19 era. Let's talk about a few ways we're all operating differently:

- We've learned to send samples to customers' homes for selection
- We've learned to work from home
- We've learned to stagger shifts limiting human contact in the workplace
- We've learned to advertise better on the internet and find customers there
- We've learned that people who are forced to stay home want to change their environment

As your trade association, we've also learned many new things while figuring out how to serve you digitally vs. in-person.

When the NWFA Expo was forced to cancel in 2020, we completely reprogramed the event into a digital format within five weeks. This was so successful that

NWFA'S MISSION:

To unify and strengthen the wood flooring community through technical standards, education, networking, and advocacy.

we scheduled another digital event and launched a new series of webinars and podcasts designed to bring you technical and management training while you're at home or sanding a floor.

Here are some of the tools you can use that came about because we answered the need to innovate:

- **NWFA Virtual Expo 2020:** This event was provided free to the industry at the height of COVID-19 shutdowns in the spring to keep training and education at the forefront of options you could use while not working.
- **Hardwood Floors Magazine NOW Online Event:** In November, this magazine hosted an outlook for the information you need to plan 2021 NOW. With Networking, Outlooks, and Workmanship in mind, this event was specific to the wood flooring marketplace.
- **NWFA Live Edge Webinars:** Powered by the NWFA University, LiveEdge is a series of webinars available anytime you have a moment to learn. Find technical webinars through Tech Talk Tuesdays, management and manufacturer tips through Webinar Wednesdays, and new product information through Product Theater Thursdays. In addition, the sessions from the virtual events are housed here for easy reference.

- **NWFA Wood Talk Podcast:** This is a conversation with NWFA's Brett Miller, VP of Technical Standards, Training, and Certification, and industry guests talking about the latest technical innovations for wood flooring contractors.
- **NWFA Real Answers Podcast:** This podcast, featuring NWFA Past Chairman Chris Zizza of C&R Flooring in Boston, provides real-life answers learned while running a flooring business for the last 30 years.
- **NWFA Virtual Certification:** If you've completed the NWFA Advanced Install and Sand & Finish courses, you can now obtain your certification virtually. Contact Kjell Nymark for info: kjell.nymark@nwfa.org.

In 2021, we hope to be together in Baltimore on April 28-30, to celebrate at the NWFA Wood Flooring Expo. Learn more about this event by visiting nwfaexpo.org. Also, watch for several new courses we will be launching through the NWFA Online University.

NWFA is your association, and your feedback and input on how we serve the industry are always welcome. Call or email me anytime at 636.519.9663 or michael.martin@nwfa.org.

We know 2021 is hard to plan for. Still, we can all chart our own course of success by remaining innovative and looking for opportunities. ■

HyperTone™ Stains

Stand Out from the Competition.

Proprietary water/oil hybrid technology provides unmatched depth and vibrance of unlimited color options with all the safety and convenience benefits of a waterbased stain. Apply directly on bare wood or mix into an approved Basic Coatings® finish.

Same BIG benefits, new PINT size-learn more at basiccoatings.com!

Step into the Limelight

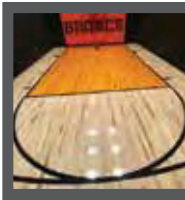

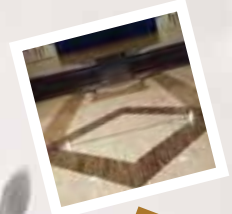

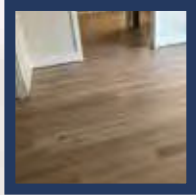

Floor-of-the-Month/Floor-of-the-Year Instagram Contest

Win \$250 in FREE products and eligibility for the end-of-year GRAND PRIZES. To enter, simply post picture(s) of an installation using our stains, sealers, and/or finishes with a brief description on Instagram, and tag it with #WoodFloorProud.

JOIN NWFA IN PROMOTING REAL WOOD FLOORS

FROM THE DAY THEY MOVE IN...

to the day they hand over the keys, homeowners need a real surface that can handle life's big and small moments.

SHOW YOUR CUSTOMERS HOW THEY CAN LIVE LIFE ON REAL WOOD FLOORS.

DOWNLOAD THE HOMEOWNER'S HANDBOOK AND THE CONSUMER OUTREACH TOOLKIT

Choose from a variety of creative assets in different sizes to help market your business and the benefits of real wood floors.

IT STANDS ALONE.

SOLVA-MASTIC®
WFR 930 Since we have introduced Stauf

WFR-930 in the US market, it has truly changed the landscape of adhering engineered flooring. This patented product spreads easily, and cleans wet or dry without etching the finish of the floor. It also meets all the standards for IAQ, even in the state of California. WFR-930 is an alcohol based adhesive that eliminates hollow spots, and its simplicity is unmatched. We have heard from installers over and over again, and the consensus is always the same: "Don't EVER stop making this adhesive". WFR-930 stands in a class all its own. We aren't going anywhere and neither is the floor you just laid!

Stick with what works.

3

Hardwood flooring engineered for living
Designed to impress.

Our engineered hardwood flooring combines cutting-edge technology with hand crafted techniques to create visually stunning, premium quality floors that will last a lifetime.

- 
- Wide range of designs, colors & finishes
 - Choice of up to 6 widths 7 1/2" - 15 3/4"
 - Quick and easy to install
 - Client-ready within 24 hours
 - Suitable for underfloor heating
 - Splash proof and easy to maintain

- 
- 100 % environmentally friendly
 - Zero emissions
 - FloorScore Certified
 - No added Formaldehyde
 - VOC - A+
 - Tested and certified by International bodies

WATERLOX
SINCE 1910

FINISH STRONG
with beautiful and durable wood sealers, stains
and finishes from Waterlox.

Locks out water. Locks in beauty. Learn more at www.waterlox.com.

LENMAR®

WATERBORNE TECHNOLOGY FOR HIGH-TRAFFIC AREAS

Lenmar® ClearCoat PRO interior waterborne floor finishes feature one- and two-component topcoats and a sealer, all specially formulated to provide superior durability and beautiful protection for hardwood floors. Available in a variety of formulas, these fast-drying finishes allow for quick return to service and are ideal for commercial and residential applications.

WOODWORKING INNOVATIONS: VERSATILITY. EFFICIENCY. PRODUCTIVITY.

Thin-Cutting Frame Saws from Ogden cut thin veneer slats from solid wood blocks with minimal waste from saw kerf. Multiple saw blades as thin as .036" produce a smooth finish ideal for gluing. Applications include flooring, windows, doors, and furniture.

The RVF 75R Robot Random Length Veneer Feeder provides an automatic method to place random veneer lengths onto a continuously running plywood core, such that the veneer joints do not line up closely to the plywood joints. The innovation uses a vision system which communicates with a robot to select veneer and then place it precisely (end to end) onto the plywood core.

Manufactured for the flooring industry, the **PUR Continuous Roll Feed** press is a fast and economical method for laminating the top wear layer onto a plywood substrate. The system can be manufactured with an automatic in-feed system. Also available with optional cut off saw.

Measuring and Recording Moisture

Lignomat offers:

1 Pin Moisture Meters

- all wood species
- bamboo
- engineered floors

2 Pinless Meters dual-depth

- for 1/4" and 3/4" depth
- great for engineered products

3 Concrete in-situ RH Meters

- Removable, reusable
- RH probes comply to latest ASTM F2170

4 Thermo-Hygrometers

- Relative humidity
- Ambient Temperature

5 On-site Monitors

- Relative humidity and ambient temperature
- Wood moisture content

The Lignomat Advantage:

Proven Measuring Technology assures Accuracy.

DUAL FLEX PLUS

Discover our collections

DUAL FLEX PLUS

The new generation of engineered flooring

We have created flexible engineered flooring that eliminates imperfections when installed on an uneven subfloor. The threading in each board helps eliminate gapping, cupping and delamination for an impeccable look and unbeatable comfort.

Technically distinctive

- Greater stability than solid hardwood
- 5/32 in. (4 mm) North American hardwood surface
- Red pine core
- Random board lengths
- Ecofriendly: zero VOCs

ENGINEERED

Total sophistication

From the creation to the enhancement of our products, our principle remains the same: sophistication, elegance, and aesthetic appeal.

**Proud four-time winner
of the Best Booth Design Award.**

2015 | 2016 | 2019 | 2020

LUMBER BRINGS EVERYTHING TO LIFE.

Naturally nostalgic. Natural hardwoods.

Natural hardwoods offer the sustainability, authenticity and comforting natural beauty of a material derived straight from our soil. The multi-generational staying power of quality hardwoods are a part of our homes and our life stories. We're proud to be America's largest and only coast-to-coast hardwood lumber producer.

We help organizations sell more profitably. Value-Added Selling is a content-rich message of hope: You can compete aggressively and profitably in your markets with your total value, not just with price. We can design, customize, and deliver this

message for your organization. We do this through custom, in-house training programs and public seminars.

WOOD FLOORING

SINCE 1909

NOFMA HAS BEEN CERTIFYING WOOD FLOORING FOR MORE THAN 100 YEARS.

The only standard in the industry that assures wood flooring has been properly kiln dried, manufactured, and graded.

WHEN QUALITY MATTERS, CONTACT AN NWFA/NOFMA MANUFACTURER.

Nails are not enough for **wide plank** wood flooring

Add **MAPEI's wood-flooring adhesives** to your nail-down, wide plank wood floor installation for perfect results with **no gapping**.

MAPEI's wood-flooring installation solutions provide the perfect adhesives for use in glue-assisted traditional nail- or staple-down wood flooring. Changes in humidity and temperature can cause groove-side gapping on wide plank wood floors. MAPEI's adhesives act as hidden nails, keeping planks firmly in place and reducing the tendency to gap.

For more information, contact MAPEI at 1-800-42-MAPEI (1-800-426-2734) or visit online at www.mapei.us.
