## WORKING FOR YOU

Trade associations are designed to advance and protect the industry. The National Wood Flooring Association (NWFA) is doing just that, and *Hardwood Floors* magazine's 2024 NWFA Industry Guide places those efforts front and center each year. The book you hold is a resource for the entire wood flooring industry, sharing information about NWFA member companies, products, and listings by industry segment and geography.

The NWFA update section of the Industry Guide starts on page 10, and is an annual report of all of the ways NWFA is working for you. Some of the examples you will see include:

- 350 online courses in the NWFA University (NWFAU).
- 125 webinars available, including Tech Tuesday, Webinar Wednesday, and Product Theater Thursday.
- More than 600 pages of content focused on improving your career in *Hardwood Floors* magazine throughout the year.
- 11 trade show hours and more than 30 education sessions at the NWFA Wood Flooring Expo.
- More than \$130,000 saved by members who utilized NWFA savings programs such as manufacturer coupons, Savings4Members, and shipping discounts.

But there's more. NWFA hosts more than 50 hands-on training events annually throughout the U.S. and Canada. With different skill levels to choose from, there's a class for everyone, whether you are a beginner or have decades of experience. Plus, the NWFA regularly updates its industry-standard technical guidelines and publications to help you through situations you might encounter on the job.

NWFA also offers several ways to enhance your professional brand. Each year, NWFA celebrates craftsmanship and the people behind it. From the Wood Floor of the Year awards to "40 Under 40" recognition, there are plenty of achievements to help set you apart. If you really want to take your career to the next level, the NWFA's Certified Professional program validates your industry knowledge and helps you gain credibility, confidence, and exposure.

With an entirely new online NWFA Industry Guide system, your profile updates sync with the digital guide in real time, boosting your visibility. As an NWFA Certified Professional, the more you learn through NWFAU, the higher you rank in search results. Featured on the *Hardwood Floors* magazine website and seamlessly connected to woodfloors.org, homeowners can easily find certified professionals and members.

Whether you are not yet a member of NWFA or you are and just have yet to fully take advantage of it, know that NWFA is working for you. Think of the association as an extension of resources you might not otherwise be able to access. Connect with other professionals, participate

in meaningful education, and turn your job into a career by joining the NWFA community. Learn more by calling 800.422.4556 or visiting [nwfa.org](http://nwfa.org). ■

Add even more value to your career by learning about all of the benefits of being an NWFA member.

# Bona® Adhesives — The FIRST GREENGUARD GOLD Certified wood flooring adhesives in the industry!

Bona® is proud to announce that we have earned **GREENGUARD GOLD Certification** on our full line of wood floor adhesive products!

## What **GREENGUARD GOLD** Means

- **GREENGUARD GOLD** products emit lower VOCs than standard Greenguard products.
- **GREENGUARD GOLD** standard includes health-based criteria for additional chemicals and also requires lower total VOC emissions levels to ensure that products are acceptable **for use in environments such as schools and healthcare facilities.**
- Bona Adhesives are **GREENGUARD GOLD** Certified with your health in mind. Did you know that people spend more than 90% of their time indoors?
- **Indoor Air Quality** – Children, and some adults are more susceptible to indoor air quality problems. Children breathe more per body weight, so they get a bigger dose of whatever is in the air.

## Elevate

By Michael Martin  
President & CEO, NWFA

One word has captured the essence of the National Wood Flooring Association (NWFA)'s strategy in 2023 - "Elevate."

During last year's NWFA Board of Directors and Emerging Leaders Council meeting, we worked with an innovation facilitator to define a framework to guide the association in better serving our members. Throughout those discussions, "elevate" kept coming up. So, it has become a theme and is something I regularly remind myself and our team to keep in mind with everything we do.

Our vision is to elevate the wood flooring industry. We are working to accomplish this by following three pillars:

1. Growing the NWFA's membership and overall industry impact connecting the industry's entire ecosystem.
2. Leveraging multiple communication channels to drive engagement and tell the entire wood flooring story.
3. Delivering world-class, relevant, and engaging education on all aspects of the flooring business.

That means we strive to bring together the whole supply chain, share our members' stories in various ways, and broaden our education to include skills such as business operations. We want to reach the contractors, retailers, manufacturers, distributors, and more who are not a part of NWFA and show them how we can be a resource to lift their business.

Elevate also comes into play with the wood flooring market. In *Hardwood Floors* magazine's 2024 Industry Outlook, there was guarded optimism, with less than a fifth of survey respondents predicting strong growth. The threat of a possible recession loomed over forecasts, with close to a third expecting sales to remain flat in 2024. High-interest rates and inflation remain, as does the competition from wood-

look flooring products and the challenges with finding skilled labor.

While it seems in the short term there may be some pain, in the long term, the demand for real wood flooring will hold strong. Wood floors are the most durable, attractive, easy to maintain, and sustainable option, and no other surface can bring added value to a home. Biophilic design trends also have helped wood's charm resonate even more with homeowners in the last few years.

The NWFA is working to elevate wood and equip you with the tools to remind customers why wood is the best choice. A few of these initiatives include:

- Results of a cradle-to-grave Environmental Product Declaration (EPD) showed, conclusively and with third-party scientific data, that wood flooring has significantly fewer environmental impacts than any other flooring product.
- The NWFA Refinishable Program also promotes longer-lasting products, as this voluntary certification program identifies engineered wood flooring products with wear layers thick enough to be refinished.
- The NWFA's "Real Wood. Real Life." toolkit is free to NWFA members and contains digital and print ads, fact sheets, sample social media posts, and the *Homeowner's Handbook to Real Wood Floors*.
- The NWFA is part of the Real American Hardwood Coalition (RAHC), which recently launched a campaign in partnership with Magnolia Network, including television, digital, and social media advertising components.

How can NWFA help you elevate in an evolving marketplace? View a snapshot of the association's programs and services beginning on page 10, or find more information by going to [nwfa.org](http://nwfa.org). Feel free to contact me with questions or to share feedback at 636.519.9663 or [michael.martin@nwfa.org](mailto:michael.martin@nwfa.org).

**NWFA'S MISSION:**  
To unify and strengthen the wood flooring community through technical standards, education, networking, and advocacy.

# The wooden floor that's water confident

Bjelin's brushed hardened wood collection offers a genuine wood feel and is exceptionally durable. Using the patented Woodura® technology from Välinge Innovation, the floors are dent resistant, easy to maintain, and truly long-lasting.

Scandinavian-designed, these sustainable, state-of-the-art floors can also be purchased in a larger format, allowing XXL planks to be produced.

All Bjelin products use the water-proof locking system, 5G® Dry™, which prevents water from leaking through the joints.

# NWFA CERTIFIED PROFESSIONAL

Your Pathway to Success

Wood flooring professionals like you turn to the National Wood Flooring Association (NWFA) for their career advancement and education.

## Why become an NWFA Certified Professional?

- Enhance professional credibility and gain a competitive edge.
- Offer your customers peace of mind through knowing that they're hiring a recognized industry professional for their floors.
- Generate new business by being listed on the NWFA's "Find a Professional" consumer search.

TESTIMONIAL

*"Becoming certified was one of the best things I've ever done for my career. The process was straightforward, and the resources at my disposal were second to none. If you're looking to accelerate your career, then becoming an NWFA Certified Professional is the best choice you can possibly make for yourself."*

- Stephen Young, Young Brothers Hardwood

## STEPS TO PROFESSIONAL CERTIFICATION

- 1. Select a Path:** The NWFA offers members a variety of certifications, including **Certified Sales Advisor, Certified Installer, Certified Sand & Finisher, or Certified Wood Floor Inspector.**
- 2. Begin your Journey:** Register online and complete courses contained within the award-winning NWFA University, attend a hands-on training course, and successfully complete a hands-on test the day following the training event.
- 3. You're on Your Way:** Once you pass your hands-on test, you'll sign a Certified Professional Code of Conduct and your path to becoming certified is complete.

Once certified as an *Installer or Sand & Finisher*, you then are eligible to pursue the NWFA's highest levels of recognition - **Certified Craftsman and Certified Master Craftsman.**

>> Get started today. Register for hands-on or online training at [nwfa.org](http://nwfa.org).

# IT STANDS ALONE

## SOLVA-MASTIC® WFR 930

This patented product spreads easily and cleans wet or dry without etching the finish. WFR-930 is an alcohol-based adhesive that eliminates hollow spots, and its simplicity is unmatched. It meets all standards for indoor air quality, even in the state of California. We have heard from installers over and over again, and the consensus is always the same: "Don't EVER stop making this adhesive". We're not going anywhere and neither is your floor! ***Stick With What Works***

Is it Real  
Wood?

Is it  
Refinishable?

The hard surface marketplace is full of confusion. The new NWFA Engineered Wood Flooring Refinishable Program cuts through the clutter and identifies real wood flooring products with wear layers thick enough to be sanded & refinished.

# FOR WHEN RESULTS MATTER.

## 3M™ PRECISION-SHAPED GRAINS

Uniformly shaped triangular ceramic grains are electrostatically oriented to stand upright and slice through the substrate, continually fracturing into new sharp cutting edges. The technology prevents abrasives from heating up and provides a consistent cut. Designed to last long and cut fast for professional results every time you sand. With a wide range of belts, discs and grits, 3M has a solution to help save you time.

# THE CRITICS HAVE SPOKEN:

"Even as a very small contractor purchasing thousands less than others, they gave me a personalized and excellent sales experience and had the best sanding belts I've ever used, sent out immediately. I went through one belt of each grit on a 750 sq floor and it's perfect. Go Monster." Samuel M.

"Virginia Abrasives is one of the best companies we have ever ordered from, prompt shipping, pricing is great!" Duane P.

"Always super fast at shipping. Great company to deal with!" Matthew W.

"They always have what I need, when I need it. Usually everthing I order ships the same day." George U

"Been happy with Virginia Abrasives products, quick shipping, and customer service. Also impressed with their Black Magic Pads for engineered and pre-finished flooring as well!" Matt M.

**OUR GOOGLE REVIEWS TELL THE STORY: Our customers love our products and service. We need distributors like you who are just as dedicated to quality and customer service. What is stopping you from adding Virginia Abrasives to your business?**

## ALLEGHENY MOUNTAIN HARDWOOD FLOORING

Pennsylvania red oak has tight growth rings and unique coloration. There is more red oak growing in PA than white oak and red oak has less demand, so it's a great value right now. The rift & quarter sawn red oak is gaining love in homes nationwide due to its price & beauty. AMHF offers red oak in R&Q, Rift Only, Quartered Only and Live Sawn. Clear, S&B and Natural Grades. Solid & Engineered. Wide Planks and Lengths up to 12'.

## Contribute Now to Build Your World

The Real American Hardwood Coalition has launched its Build Your World™ campaign in partnership with Magnolia Network. The ads are inspiring a national audience by educating them on the benefits of Real American Hardwood® products.

The campaign was made possible thanks to voluntary contributions from the hardwood industry. Your continued support is critical to advance the initiative and reclaim market share for the benefit of all industry stakeholders.

Help Build Your World. Learn more about the RAHC's promotion efforts, see a list of supporters, and make a voluntary, tax-deductible contribution at [RealAmericanHardwood.com/industry](https://RealAmericanHardwood.com/industry) or scan the QR code.

Hardwood Floors' subscription base is BPA audited. A BPA audit provides advertisers and agencies with assurance that what they choose to invest in does, in fact, reach target audiences for specific ads. The BPA Worldwide audit also helps media companies by documenting the quality of their audiences.
