VAICO ENGINE FLUSH

VAICO Engine Flush cleans the engine from the inside. The chemicals and additives are already present in the fuel or oils, but only in small quantities. Thus, the lower the quality of the propellant and the lubricant, the greater the effect of the added additive – especially in older engines or vehicles.

Uses in case of poor engine compression.

INFO

Add to fuel tank. Suitable **only for petrol engines**. Also usable for vehicles equipped with catalytic converters. Recommended for a maximum of 30 L fuel.

ADVANTAGES

- quiet running
- clean injectors
- uniform spraying pressure
- improves carbon dioxide values application

SUITABLE FOR

83 19 2 408 560
000 989 25 45 16

Recommended for older vehicles around the 90s, or vehicles with carburettor.

PETROL ADDITIVE

Content	Box	Pallet	VAICO No.
0.1 l	24	1008	V60-1010

INFO

Before changing the oil, add to the used oil and run the engine for 10-15 minutes. Drain the old oil, change the oil and filter according to the manufacturer's instructions. Can be added to all types of motoroils. Sufficient for 4 L engine oil.

ADVANTAGES

- high cleaning power
- optimal reliability
- highly recommended to diesel engines

SUITABLE FOR

ALL PETROL AND DIESEL ENGINES

Content	Box	Pallet	VAICO No.
0.25 l	24	1008	V60-1011

ENGINE FLUSH

INFO

For road, use one can to a full tank. For racing use add up to 3 cans to a full tank. Add to the fuel system, before filling up.

ADVANTAGES

- increased Octane by at least 7 to 20 Octane
- increases throttle response, power and torque
- soft idle, improved running of valve train
- for street and racing use
- prevents and eliminates knocking and ringing

SUITABLE FOR

ALL PETROL ENGINES

Content	Box	Pallet	VAICO No.
0.3 l	24	1008	V60-1012

OCTANE BOOSTER

Reference numbers and names, with the exception of VIEROL AG, are for comparison only and may not be disclosed in invoices.

DPF AND EGR FLUSH

Content	Box	Pallet	VAICO No.
0.3 l	24	1008	V60-1013

**NOT SUITABLE
FOR VEHICLES
WITH AdBlue®
(DIESEL EXHAUST
FLUID) SYSTEM.**

INFO

Should be used, depending on the vehicle application, every 2,500 - 5,000 km, or after each customer service. Add to the **diesel system** before filling up. One can is sufficient for 60-80 L Diesel, overdosing is harmless.

ADVANTAGES

- improved combustion
- reduction of soot
- optimised fuel consumption

OIL FINDER FROM VAICO

Simple. Fast.

More than just the right oil!

Go now to
www.vierol-shop.de

**WITH THE VAICO OIL FINDER TO THE
RIGHT ENGINE AND TRANSMISSION OIL**

Are you looking for the right engine or transmission oil or are you looking for the right brake and antifreeze fluid?

The oil finder from VAICO allows you to quickly find the right oil or fuel - whether by smartphone, tablet or PC.

Special closure lid with
built-in anti drop protection

VAICO ADBLUE®

The fuel additive meets the requirements of the exhaust emission standard stage Euro 4 and higher and significantly reduces pollution. Moreover, AdBlue® helps to save fuel: about 5 percent savings in comparison to the older technology of Euro 3.

AdBlue®(ISO 22241/DIN 70070/AUS32) is the high purity urea solution for the secondary treatment of SCR exhaust fumes. The Colorless synthetically produced solvent contains 32.5 percent of urea in highly purified water. Due to the procedure of the selective catalytic reduction (SCR), the emission of nitrogen oxides (NO_x) is reduced by about 90 percent (in the steady state operation)

VAICO SPRAYS

Selected highly effective sprays for lubrication, cleaning, care and protection against e.g. moisture and corrosion. Suitable for a wide range of applications in the automotive, craft, industrial sector and other general areas of application. The technical sprays allow easy and effective application, clean dosing, an optimal spray pattern and prove to be the perfect tool for daily use.

Adjustable dosage
by removable
dosing attachment.

INFO

Highly effective silicone spray for lubrication, treatment and maintaining of metal, plastic and rubber components. Protects against moisture.

ADVANTAGES

- Fat-free
- Temperature resistant
- Odour and colourless

INFO

Highly effective cleaner for electrical and electronic components. Removes contamination such as oil and fat on sensitive contact surfaces.

ADVANTAGES

- Displaces moisture
- Prevents leakage current
- Evaporates residue-free

INFO

Highly effective rust remover for stuck or rusted metallic screw connections. Provides excellent creep characteristics, high rust penetration and lowers the coefficient of friction thanks to MoS₂ solid lubricants.

ADVANTAGES

- Odourless
- Silicone and acid-free
- Protects against corrosion

INFO

Highly effective multi spray for loosening, lubricating and maintaining metallic connections and plastic parts. Provides excellent lubrication characteristics thanks to the high creep capability.

ADVANTAGES

- Temperature resistant
- Protects against moisture
- Optimal wear protection

VAICO coolant additives provide a maximum protection against frost, overheating, corrosion and furring.

VAICO VA-013

The coolant additive is suitable for engines of cast iron or aluminium. It is especially recommended for light metal engine blocks which require a special aluminium protection at higher temperatures. VAICO VA-013 can be added to all coolants based on ethylene glycol.

OIL FINDER FROM VAICO

Simple. Fast.

More than just the right oil!

Go now to www.vierol-shop.de

WITH THE VAICO OIL FINDER TO THE RIGHT ENGINE AND TRANSMISSION OIL

Are you looking for the right engine or transmission oil or are you looking for the right brake and antifreeze fluid?

The oil finder from VAICO allows you to quickly find the right oil or fuel - whether by smartphone, tablet or PC.

VAICO SAE 0W-20

It is a high-performance low-friction engine oil for petrol and diesel engines in passenger cars. This product reduces wear during low temperature start-up and operation.

Leakproof closure induction. Prevent leakage during transport. For all VAICO 1 l and 5 l containers (including brake fluids, engine oils and transmission oils).

Reference numbers and names, with the exception of VIEROL AG, are for comparison only and may not be disclosed in invoices.

The perfectly matched components of modern refinery technology and innovative additives guarantee a high-quality motor oil made in Germany.

Mineral oil: Conventionally made from mineral oils.

Semi-synthetic: Mineral oils with synthetic components.

Synthetic: Made exclusively from synthetic base oils.

HC (Hydrocrack): Mineral based oils which have been processed at the refinery by using elaborate methods (different as semi-synthetic).

Contain a proportion of synthetic components.

API SERVICE CATEGORIES

API classifications define certain minimum requirements for motor oils. One differs classifications for Otto engines (S) from Diesel engines (C). The letter defines the quality of oil in ascending alphabetical order. Higher categories include lower categories.

API	ENGINES	INTRODUCED	REPLACES

SAE viscosity grades

ACEA SPECIFICATIONS

ACEA specifications are fixed profiles that show the motor quality

A = GASOLINE ENGINES – PASSENGER CAR

A1	Category for fuel-economy engine oil with particularly low high-temperature-high-shear viscosity (HTHS, 3.5 mPa·s) Favoured viscosity classes: XW-30 and XW-20
A2	Category for fuel-economy engine oil with particularly low high-temperature-high-shear viscosity (HTHS, 3.5 mPa·s) Favoured viscosity classes: XW-30 and XW-20
A3	Category for conventional and low-friction engine oils with higher requirements than A2 Exceeds ACEA A2 concerning evaporation loss, piston cleanliness and oxidation stability
A5	Category for conventional and low-friction engine oils Equivalent to ACEA A3, but with lower HTHS viscosity In comparison to a 15W-40 reference oil, a fuel saving of at least 2.5 % has to be demonstrated.

B/C = DIESEL ENGINES – PASSENGER CAR

B1	Category for fuel-economy engine oil with particularly low high-temperature-high-shear viscosity (corresponding to A1)
B2	Category for conventional and low-friction engine oils
B3	Category for conventional and low-friction engine oils Exceeds ACEA B2 with respect to cam wear, piston cleanliness and stability of viscosity in soot
B4	New category for direct injection diesel engines (TDI)
B5	Equivalent to ACEA B4, but with lower HTHS viscosity In comparison to 15W-40 reference oil, it has to effect a fuel economy of at least 2.5 %
C1	New since 10/2004 for passenger car diesel engines with diesel particulate filter Sulphate ash held a maximum of 0.5 % With reduced HTHS (Ford)
C2	New since 10/2004 for passenger car diesel engines with diesel particulate filter. Sulphate ash content max 0.8 %. With HTHS > 2.9 mPa·s

Reference numbers and names, with the exception of VIEROL AG, are for comparison only and may not be disclosed in invoices.

NEW ENGINE OIL SAE 5W-30 DEX1 GEN2

ENGINE OIL | 29002

PROTECTS THE ENGINE AGAINST DAMAGE DUE TO KNOCKING ON GENERAL MOTORS VEHICLES

The current downsizing engines are particularly highly compressed and have direct injection. Unfortunately, for some engines this combination also harbors the risk of premature ignition at low engine speeds, LSPI (Low Speed Pre-Ignition).

In simple terms, this means that the gasoline-air mixture ignites before the intended ignition process and can cause serious damage to the engine.

The high-performance low-friction engine oil from VAICO, specially designed to minimise the probability of early ignition. New formulation prevents damage from knocking in direct injection engines with or without turbocharger. Not suitable for use in diesel engines.

VAICO SAE 5W-40

SAE 5W-40 is a synthetic smooth running heavy-duty engine oil with modern additive technology. It is adapted for Otto engines with or without catalytic converter or diesel engines including turbocharger.

All new VAICO 4 l containers have a special closure lid – with built-in spout.

VAICO SAE 10W-40 TURBO PLUS LA

The synthetic high-performance low-viscosity engine oil is suitable for commercial vehicles. It contains a greatly reduced amount of sulphate ashes, phosphorus and sulphur (low SAPS) and is especially recommended for optimized engines with the exhaust gas aftertreatment systems Euro IV and V.

VAICO OIL FILTERS

Our 280 different VAICO oil filters provide an ideal protection due to high absorption capacity. The wide range is suitable for about 50,000 vehicle applications. All oil filters are made of high quality-material and include corresponding O-rings and gaskets.

[Direct link to VAICO Oil Filters](#)

VAICO FUEL FILTERS

The quality brand VAICO offers 360 different products, which are suitable for 20,000 vehicle applications.

[Direct link to VAICO fuel filters](#)

VAICO AIR FILTERS

The assortment of 620 different VAICO air filters is suitable for 15,000 vehicle applications.

[Direct link to VAICO air filters](#)

VAICO OIL PANS

To replace the oil pan quickly and cheaply in case of damage, the quality brand VAICO offers an extensive range of over 260 different products: made of sheet metal or aluminium, in one or two pieces and with or without a hole for the oil level sensor.

[Direct link to VAICO oil pans](#)

VAICO OIL PUMPS

The quality brand VAICO offers a variety of 100 different oil pumps suitable for 2,500 vehicle applications.

[Direct link to VAICO oil pumps](#)

VAICO SAE 75W-90 GL-4/5

The fully-synthetic high-performance transmission oil is suitable for heavy-duty (hypoid-)shafts as well as highly loaded axle drives and control gears, steering and auxiliary drives in cars, trucks, construction vehicles and two-wheelers. The transmission oil of the quality brand VAICO meets the requirements of API GL-4 (heavy-duty gearbox, lightly loaded hypoid gears) and API GL-5 (heavy-duty hypoid gears, manual if approved by the manufacturer).

VAICO ATF 6HP

Especially for use in high performance vehicles with ZF 6-speed automatic transmissions. ATF 6HP can also be used in ZF 5-speed automatic transmissions. Not suitable for DCT/DSG-(Double Clutch) or CVT-(Continuously-Automatic) transmissions.

Under the most severe conditions and extreme fluctuations in temperature, transmission oils of the quality brand VAICO provide a proper functioning of the automatic transmission.

SPECIAL CLOSURE LID

For all VAICO 1 l and 5 l containers (including brake fluids, engine oils and transmission oils): Leakproof closure induction, prevent leakage during transport.

HYDRAULIC FILTERS FOR AUTOMATIC TRANSMISSION

The best transmission oil is eventually “exhausted” in terms of performance. The result: There is increased material wear inside the gearbox. Even so-called “Lifetime Oils” are not exempt from this problem. In order to prevent damage to the transmission and its control unit, we advise changing gearbox oil and replacing the filter set at regular intervals. Depending on the vehicle, this is within a period of five to six years or 60,000 to 120,000 kilometres mileage.

By changing the oil, cleaning or rinsing the control unit and replacing the hydraulic filter, the performance of the transmission can be significantly improved: Gear changing is noticeably quieter, faster and smoother. With more than 140 different hydraulic filters and filter sets – tested according to German quality standards – the quality brand VAICO offers a comprehensive product range. A suitable ATF range “Made in Germany” is also available.

TRANSMISSION FLUSHING UNIT

22101 | 29001

The transmission oil within an automatic gearbox should be completely replaced at regular intervals, otherwise the proper functioning of the gearbox can no longer be guaranteed.

The VAICO transmission flushing unit can flush the transmission, torque converter and radiator or carry out a complete oil change within a short time. The oil change rate is almost 100%.

OIL FINDER FROM VAICO

Simple. Fast.

More than just the right oil!

Go now to www.vierol-shop.de

WITH THE VAICO OIL FINDER TO THE RIGHT ENGINE AND TRANSMISSION OIL

Are you looking for the right engine or transmission oil or are you looking for the right brake and antifreeze fluid?

The oil finder from VAICO allows you to quickly find the right oil or fuel - whether by smartphone, tablet or PC.
