2.2L DISPOSABLE CYLINDERS

In many cases, disposable cylinders are cheaper than refilling reusable cylinders. Non-refillable cylinders often save time and do not require periodic re-certification. The 2.2 litre disposable gas cylinders have a much larger capacity and are filled to a much higher pressure than conventional disposable cylinders currently available.

DIGITAL SCALES & DISPLAY UNITS

Scale and display unit for use on sheet metal, metal working and woodworking machines. These digital scale units are designed specifically for convenient display of Z-Axis, X-Axis or Y-Axis machine tool movement. Can be mounted on almost any surface, offering the user precise linear measurement capabilities. Precise depth control floating zero allows you to set "zero" anywhere within operating range with a push of a button. The scale is aluminium and can be cut to length to suit any setup. The display has a magnetic back panel and scales come with mounting brackets.
