Technical specifications disclaimers

Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows functionality. See http://www.microsoft.com. ² This system is preinstalled with Windows 7 Professional software and also comes with a license and media for Windows 8.1 Pro software. You may only use one version of the Windows software at a time. Switching between versions will require you to uninstall one version and install the other version. You must back up all data (files, photos, etc.) before uninstalling and installing operating systems to avoid loss of your data. ³ Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-6B or more of memory requires system required. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance. ⁴ Full availability of 4 GB or more of memory requires a 64-bit operating system. With Windows 32-bit operating systems, the amount of usable memory is dependent upon your configuration, so that above 3 GB all memory may not be available due to system resource requirements. ⁵ For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 1 GB (for Windows 7) and up to 30 GB (for Windows 8.1) of system disk is reserved for system recovery software. ⁶ Duplication of copyrighted material is strictly prohibited.
