

# GRISWOLD CATTLE

## Grass <sup>to</sup> GRID

## Bull Sale

*New location!*

SATURDAY, APRIL 11, 2020  
STILLWATER, OKLAHOMA

# Welcome!

When you look through this catalog, you will find that the bulls speak for themselves. They are good looking, eye catching, stout, easy doing bulls. I've read a lot of bull catalogs this winter after I did my 4 a.m. calving checks. I guess I was more amazed than ever at how many people just pay attention to the genomics. At our place, they've got to have power and the right look, then we look at the numbers. I've seen catalogs where the numbers are so off from the cattle that it is ridiculous. Some think, I guess, that we just have to trust the numbers. Not here! We are going to trust our eyes first. As you look through the scan data on these bulls, you will see how much muscle and IMF these bulls have. Chad Gordon scans more bulls than anyone else I know, and on two of the Money Earned Angus bulls in the sale, he said they had more IMF than those of people who focus solely on IMF. I could go on and on about EPDs, APIs, and other indexes, but until these numbers match the cattle and make common sense, I will keep speaking my piece.

This has been quite a spring. I'm not going to say that I have any of it figured out, but we did change the location of the sale to Stillwater to try and help with this virus situation. Come look at the bulls anytime, you are welcome. If you can't make it, we guarantee sight unseen purchases 100%. If you don't like him, you don't own him. We will offer free trucking to Jeff Bourquin's for a place for our western customers to pick up their bulls. We will also have trucks headed north and will do our best to keep the trucking at a bare minimum.

Don't forget, **you can have it all!** Bulls that sire sale topping, grid smashing steers can produce a set of females that will be second to none when you turn them into cows, plus a bull when you drive out to check your cows that makes you wanna check them again tomorrow.

Thanks for all your support the last ten years!

*John Griswold*

It is truly a blessing when one you raised can exceed your expectations. 637G has rocketed past all of ours. He is truly a unique individual. Study his phenotype and you can't find a hole in him. Powerfully balanced with shape and dimension throughout. All the correct angles down to the ground. Perfect in his silhouette and awesome on the move. Simply put, he may be one of the best Angus bulls we've ever raised. He was one of the first Money Earned calves to hit the ground, and he has never looked back. We knew Money Earned was gonna do big things for us, but we never expected him to put calves on the ground with the kind of carcass traits that we see in 637G. Big Money scanned a 15.5 REA with an amazing 9.28% IMF. If you're a breeder who needs the carcass end of things, look no further. If you're the breeder who needs some performance with a killer look, then here ya go. Moto Moto is not a "one size fits all" kind of a bull. HE DOES IT ALL! Come to the sale and see for yourself. This one is special and will do great things for the Angus breed.

*We knew Money Earned was gonna do big things for us!*

We can't say enough about Lot 102 to do him justice. He has the look of his sire with the structural base of the Mitchell dam that backs him. 646G is so fault free that it is hard to find a flaw. Ultra smooth made with a balanced profile and awesome feet and legs. Just right there, you can't go wrong with this bull. With Money Earned on the top, you know this one will sire some serious show cattle. Ohhh, but wait a second—let's throw carcass numbers at ya. 14.83 REA and 9.46% IMF. Yes, you read that right...it's not a typo. John has always held true to the belief that if you just breed for good stock and keep cow families in mind while not looking at the data too much, a person would be just fine. He couldn't be more right, especially in this case. Good cattle always perform, and 646G is proof of that. Get in on the ground floor and be ready to reap the rewards.

Another Money Earned son that has all the features of his two half brothers in a long and extended package. With his extra length and added performance, you can rest assured that this one will put some extra value in his calf crops. Way above average on IMF at 7.45% leads to more predictability in his genotype through the top of his pedigree. We feel confident that these Money Earned sons are gonna be phenomenal producers. More Money will fill the bill!

Here is a Legacy son that is certain to leave one of his own when it's all said and done. Huge rib shape, angled right down to the ground with muscle shape and dimension throughout. 808G lives up to the low birth weight promise we had hoped for in his genetic package. With an actual birth weight of 68 lbs. and a dam who has an average birth weight ratio of 92 on her progeny, one can have all the confidence that 808G will be a heifer bull deluxe. A deep bodied, soggy middled bull with extra fleshing ability and a moderate frame size, 808G is built with replacement females in mind. Use him with confidence and reap the rewards!

GCC Legacy 647X

Check out the bottom side of this pedigree. 925R is the mother of our cover bull and of Gold Standard himself. She has certainly left a mark around here and will for some time to come. A 15-year-old cow that just had another natural calf this spring! This bull should have been pictured and had his own page in the catalog. He is good all the way through. Don't miss this one.

*The New Game progeny just continue to impress us. New Game has established himself as a true breeding bull that can sire show cattle as well as seedstock for the purebred breeder. Feel confident in these bulls...we certainly do.*

This is a mating that can get any Angus enthusiast excited. Silveiras Style has consistently produced show winners the last several years. Style progeny have the look, the power and the performance to be multi-faceted cattle. 837G's dam is a clone to the immortal 814G. This cloned female has herself already produced GCC Hesston A788, who has several sons selling in this sale also. Study the ultrasound measurements and you will find off-the-chart IMF. Couple this with his balance and eye appeal, and you have the complete package. Proven, predictable genetics on both sides will give you the confidence in what 837G can produce.

*These great Style sons have tremendous growth and eye appeal. Sound made with plenty of balance and shape. Great data to go along with them.*

*Herd bull deluxe!*

Herd bull deluxe right here, folks! Lot 113 is a stout, powerful, high capacity type individual that will transmit pounds into a calf crop. This bull's mother is a 10-year-old New Edition daughter that has raised four bulls that have a sale average of \$7,000. Every one of her daughters has been retained in the herd. She still has a perfect udder at 10 years of age with tremendous milk flow. Coleman Bravo is the \$400,000 Charlo son from Colemans that has been putting great progeny in herds all across the country. This makes 920 a maternal making power source. With cows like Donna 714 and 814G in this bull's pedigree, you can rest assured that he will make some females. And with a 15.6 sq. in. REA, this dude will pack his calves with the muscling to top any market.

Birth weights are actual weights. Weaning weights are adjusted to 205 days. Scrotal circumference (SC) is the actual measurement, rounded to the nearest centimeter. Ultrasound data for ribeye area (REA) and intramuscular fat (IMF) are adjusted to 365 days for spring bulls; actual ultrasound data is reported for the fall bulls. The EPDs are the individual animal's if available; if not available, the sire's EPDs are included, noted by "S:" preceding the CED EPD.

A power bull with a smooth look and a stellar pedigree. The perfect blend of genetics with Insight on the top and a Euphoria daughter that is absolutely gorgeous on the bottom. This one is as maternal as it gets in his genotype. With a huge foot and smooth shoulder, he will add value for years to come.

One of the first (and unfortunately one of the few) calves by The Natural we had in 2019. With added length and skeletal outline, this bull has the potential to pack a substantial amount of performance into his first calf crop. Out of a beautiful Masterlock daughter, 622G is a smooth shouldered, tall fronted bull with all the right angulation to his joints and the right kind of structure to his feet and legs to be a breeding bull deluxe that will add that extra punch to your cow herd.

816G is just one of the many reasons we love our Class Time progeny. Some of our favorite two- and three-year-old Angus cows are sired by Class Time. He has also put a strong set of bulls on the ground, as you can see in Lots 121 and 122. 816G is backed by the famed 927K cow on the bottom side, which only adds to his maternal value in a breeding program. With tremendous length of body and a high degree of fleshing ability, this bull can work in all facets of the industry.

Lot 123 is the first of three Classen sons that we couldn't be more proud to offer. 684G is backed by an awesome Missing Link dam that descends from the great 066 cow family. GCC Jody 915U produced a \$13,000 show heifer in the 2017 Classic and has had several bulls that have sold well in the past. Proven on the top and bottom of the pedigree spells out "predictability." Cow families are important around here, and this bull can help establish your own.

The sire of Lots 126–128, GCC Hesston, is an own son of the 814G clone. This brings massive amounts of maternal traits to the pedigree in these bulls. Big topped and bold sprung in their rib shape, these bulls will get the job done in the pasture and pass it on to their progeny.

The true definition of what the GCC is all about fits F612. Sired by GCC New Game and out of a perfect Recall/Black Watch dam, F612 is packed from top to bottom with dependable GCC genetics that we can assure you will work for anyone. New Game has produced great calves every year, and they just get better as they age. His first daughters calved out last spring, and we couldn't have been happier. You can trust in these genetics.

Now look at F612 himself. Complete from end to end with a perfect hip and hind leg, he looks like a breeding bull with a showy look. Smooth out of that front one-third and explosive from behind, this bull has all the qualities you need to move your herd to the next level. His huge REA and high IMF coupled with a solid set of EPDs make this bull even more enticing.

A Guyman son with the look and build to make replacement females. Backed by an awesome Jetset daughter out of GCC New Game's mother, Georgina 845, this bull has the genetic backing to put some serious maternal traits into a herd. Square made with plenty of shape and a good set of running gear will make this one worth the money.

Some old school genetics here. Great sires and dams are in these pedigrees. Sound made bulls with plenty of grow to add to the production value of their pedigrees.

925R will go down as one of the most prolific cows we have ever owned. It does not matter how she is crossed, she makes herd bulls and she makes donors. She is the dam of Gold Standard, Standard Design and New Game. We have never crossed her any other way besides Angus...until now! Take advantage of this special mating.

As soon as you walk out in the pen, 406G hits you head on with power, body, rib, shape and most of all he is flat out good looking!! He was a member of our Denver Grand Champion Pen of MaineTainer Bulls and was one of the most well received bulls we had. This is a female maker, a herd bull producer and could easily be the cornerstone to any program.

You can't put together one any better than this bull. Big topped with muscle down his top and through his lower stifle, he's good—and he ought to be. His maternal sister was Lot 101 in the Classic this year, and another maternal sister is probably the best cow we own. All three mentioned progeny are natural calves out of 855Y before she even entered the donor pen! John would be quick to tell you that 855Y is the best Angus cow we own, and that is a large statement. She looks like a four-year-old, *PERFECT* uddered, huge ribbed, big hipped and beautiful. Do not miss this one, he's one you'd be smart to own on sale day.

This bull hails from one of our top donors. Granddam Merle 319 is one that never misses. His maternal sister was one of the lead off bred heifers two years ago, and it's easy to see why...good looks run in this family. With plenty of rib and shape through his middle and a big, powerful top with power down through his lower one-third, he comes from the kind of cattle you'd like to carbon copy a thousand of.

These Garth bulls are the real deal. Of any bull we have ever used that is as close to Whiskey, it would be Garth. He transmits the power, the look and the style. These OCC-bred females on the bottom side are the easy fleshing, easy doing kind that add an extra dose of consistency. A smart cattleman would put a dose of these genetics in his whole cow base.

The dam of 9402G, Z450, is a maternal sister to Whizard and a full sister to Cerveza, Unwound and Makin Time, all tied together by one of the most epic females we have ever owned, Miss 1829—an epic cow with an epic history. Z450 was a former Lot 101 when 1/2 interest was purchased by Kim Klotz. She stands in our donor pen and has made some of our most sought-after genetics. This pedigree is one that we have seen work time and again. You cannot put together a prettier cow or a better pedigree on paper. If you are looking for a powerful, complete and proven pedigree, you better study this Garth son hard. From the ground up, he's as good as they get!

The dam of Lots 161–163, Miss Chill 1829, needs no introduction, as she has proven time and again what she is capable of producing. Her sons have as many money-making daughters on the ground as any bulls in the industry—Whizard, Cerveza and Makin Time, to name a few. Her daughters are high end donors that produce like their dam and have the eye-catching correctness and eye appeal that make sale toppers and the front pasture kind. No matter how we have crossed 1829, she has made cattle that are not only profitable but that are in the top tier of the pen. The Lot 161 bull has a little chrome, and it's mixed with a whole lot of good!

There is a debate as to which of these Maternal Made bulls out of 5066 is better. They are two that are pretty darn hard not to fall in love with. Craig and I could have a pretty good argument about which one is better. Both are unique in their own right—similar in a lot of ways and different in some, but the one thing they both have heavily in common is the power from 5066. Breeding this pedigree into your program will be one of the smartest things that you can do. These two are style bulls with an extra punch of maternal. Their full sisters have been highlights of the Classic for good reason. The 066 cow family is the mainstay of our program, and it will be of yours too.

Full brothers sell as Lots 164 and 165.

You've seen this cross, and if you know our program, this is a pedigree you have watched in action—Daddys Money x 5066. A full brother to Miss Boston, 576G is a bull that has all the potential to take your program to the next level. When John and I sat down to talk about the bulls, this is one that he said we really should probably promote. 5066 will go down as one of the greatest cows we have ever owned. She is the kind of female that you could sell every other cow you have and just build off of her legacy. This bull carries down the pedigree that is not only proven to win but proven to produce!

GCC Miss Boston 5501C2

Full sister to Lot 166 & maternal sister to Lots 164, 165, 167 & 168

Denver Pen Bull

lot 169

Lots 169–172 are out of the great A604, the former Lot 101 purchased by Jones Show Cattle. She produced a \$30,000 sale feature last year that was the talk and the chatter at the barn and is the kind that does not miss! These bulls are big topped and solid made with power that runs deep through their pedigree. They have the look! Take them home, turn them out and let them make the great ones.

The dam of Lots 176 and 178 was a favorite in the Classic three years ago, selected by Keith Lambright for \$20,000. He left her at Griswold Cattle for us to manage, and if you visit our donor pen, you'll find her there. These bulls are full brothers to Lot 1 in the Classic two years ago and to Lot 9 in last year's sale. 480 calved up in the barn here about a week ago, and you cannot make a prettier cow, period. She has all the right parts in all the right places. Perfect conformation and beautiful uddered. She is pretty enough right after she dropped a calf that we took a video for social media. She is perfect. Replicate a cow, breed to her son.

Time and again, we have seen the best bulls in this pen go back to the great Knockout 74T cow that produces champions, sale toppers and high dollar cattle. This is a pedigree that puts more proof to the power of a cow family. When you see that cow on the bottom side, you can be fairly certain that the product will be top notch good. This bull has all the power, all the foot size and all the look you can put in one. Small at birth, plenty of performance and big scrotaled. Don't miss him.

Montana cow country isn't for the faint of heart in either cattle or cattlemen. This is a bull that is 100% the real deal. He has the volume and rib capacity to produce females that are easy doing, the foot and bone to make sure they are sound, and the power and muscle to hang a calf on the rail. Morris's have one of the best kept secrets in the nation tucked away next to the Sun River. Real cattle for real cattlemen.

Style ×  
Lucky Lady 105A  
flush brothers  
...Lots 185–187

You decide which of these three flush brothers selling as Lots 185–187 you like best. A full sister was a \$65,000 high seller for the Jones family, and several others have been high sellers and banner winners. When you study these bulls from the ground up, it's pretty easy to see why they would be loved in the show ring. They are the right kind, whether you are under the bright lights or the sunshine in an open pasture. Good looking, complete, sound and ready to get to work on your cows.

SPRING YEARLING *Simmental* BULLS  
Lots 225–296

GCC

*Gunsmoke*

lot 225

Our Simmental section of the sale is as solid and strong as ever. We chose to start off with one that has a storied pedigree and a build to his skeleton to complement any cow base. Gunsmoke 100G is out of that famed 1829 cow you already know. She is the mother of Cerveza, Whizard and a pair of Whiskey daughters that we rely heavily on in our donor program. She is a 19-year-old that is still in production today at Trans Ova in Iowa. Talk about a long and prolific life—she has produced 57 embryo calves in her life and is still flushing today! This Broker mating has worked extremely well in the past, producing a \$23,000 show heifer in the Classic. Our latest young herd sire, Makin Time, who sold in Denver 2019 for \$32,000, is a Maternal Made son that we will use a lot this spring. The Garth sons out of 1829 are in the Maine section of this catalog and are prime examples of what 1829 can do paired up with varying genotypes. Dependable genetics are top and bottom in Gunsmoke's pedigree, including the immortal Broker as his sire. More champions have been sired by Broker than any other Simmental bull we can think of. Take this genetic package and put it to work. You won't be disappointed. This is the kind of bull you can build with, no matter what direction you're headed.

\$77,000 full sister to Lots 228 & 230

If you didn't find this one, then we probably can't be friends anymore! As unique an individual as we have in the Simmy bulls selling. His full sister was the high selling female at the 2019 Classic. And this guy is just as good. Study the rib shape, the smooth shoulder, the ultra cool build and balance, and it's easy see the targeted value within this bull. You don't find them constructed this way while maintaining this much power and shape very often. It's hard to think of another solid red purebred bull ever presenting himself like this one. Stand up and be counted first in this deal! Full brother to Lots 230 and 232.

The Profit sons and daughters have consistently topped sales year after year. A Profit heifer was high seller at the 2019 Classic, and our new herd sire Husker was the high seller at the 2019 Grass to Grid Sale. They are simply just good stock. Patterned perfectly and built right from the ground up with big time shape from end to end. It won't matter what type of cow base you use them on, you will love the calves.

**TJSC Hammer Time 35D**  
Sire of Lots 233-237

This bull has been the pick of many who have looked through the set since returning from the feedyard. A Hammer Time son out of a Style! How could he not be good? He has the right size and shape to his feet and legs with a perfect hip and shoulder design. Add that to his spring of rib and muscle shape, and you have an awfully good specimen. Topped off with a proven set of genetics, it's a combo that can't be ignored.

*Hammer Time is quickly establishing himself as an all-around sire of show calves and seedstock. He puts performance into a modest birth package with a ton of look and balance. Easy doing cattle with body capacity and volume throughout.*

It would be hard not to start talking about the pedigree on this purebred bull. He's out of a full sister to Loaded Up and sired by Relentless, and I'm not sure if there is a more popular pedigree in the Simmy breed today. With the way the Loaded Up daughters have performed thus far and then the show appeal of Relentless, you can't beat the way this one reads. Looking at the bull, you'll find a long spined, smooth made silhouette with a massive top and hip that stands on a big foot and moves out with angle and flex on all four corners. Now study the data. 869 lb. adj. WW, 15.8 sq. in. REA, 8.3% IMF! This stacks up to a bull that can cover all your bases of production. You can't beat the look and the paper behind this one.

A striking Relentless son that screams power and style. Built solid from the ground up on a sturdy foundation, 64G combines growth with balance and eye appeal. He has an exceptional look that stems from a young, outstanding donor female that has just started her production career. So Sweet 124D was Champion Female in the Denver junior and open Simmental shows in 2018, along with being crowned Reserve Supreme Female at the Ohio Beef Expo. The genetics are in this one to make outstanding cattle. Let it work for you. Couple this with Relentless, who himself has sired countless champions, and it's a hard combo to fault.

Full brother sells as Lot 250.

The maternal power in 9204G is unmistakable. With a mother like L901, the dam to Steel Force and Momentum, Loaded Down is big time proven on the bottom side. His sire, Loaded Up, has some of the best two-year-olds on the place this spring. They are perfect uddered, big ribbed, moderate framed and beautiful to look at. Put these two consistencies into Loaded Down, and you can bet the bank on raising some phenomenal offspring. With a massive 16.62 sq. in. REA, this bull has the carcass traits to sire a multitude of progeny that can fit any mold within our industry today.

A 17.2 sq. in. REA and 880 lb. weaning weight! Look at this guy, and seeing is believing in these numbers. Long sided, huge hip and quarter with a big foot and a rugged look. This one has breeding bull written all over him. His Steel Force dam has sold bulls in past sales at an average of \$5,000. Tie into this one for a growthy, high performance advantage in the first calf crop.

These Dew North bulls are the kind every cattleman loves. Big, growthy, stout made bulls with an exceptional mother that will put the maternal into a set of heifers. These bulls scanned with massive ribeyes of over 17 inches. Put these guys on a set of Angus-based cows and reap the rewards with extra growth and big carcass traits.

Just a March calf with a 15.48 sq. in. REA. A truly impressive individual.

**ALL BULLS IN THIS SALE QUALIFY FOR SUPERIOR PROGRESSIVE GENETICS**

Superior Progressive Genetics (SPG) is a Value Added Program launched by Superior Livestock Auction to create a premium for commercial cattlemen when they sell calves on Superior by identifying load lots of cattle sired exclusively by bulls purchased directly from qualified seed stock producers. SPG brings attention to the investment commercial cattlemen have made by doing business with leading seed stock producers. Griswold Cattle and their bull buying customers will be recognized by branding the SPG icon and the Griswold Cattle logo on qualified load lots as the cattle sell on Superior's video sales live on television and the internet. In addition to the qualified lots being identified on television, the lots will also be branded as "SPG" in Superior Livestock Auction's print and web sale catalogs.

- ✓ Do business with a reputable company who has your best interest in mind.
- ✓ Superior ties the commercial and purebred cattle industry together full circle.
- ✓ Largest cattle auction in North America along with the largest active buyer list.
- ✓ Can sell on contract to take advantage of current market conditions and deliver at a later date.
- ✓ Established premiums for cattle on good health programs.
- ✓ Established premiums for many Value Added Programs.
- ✓ Cattle are sold "country fresh" direct from the ranch, resulting in less stress.
- ✓ Seller determines weighing conditions.
- ✓ Seller does not have the expense of trucking.
- ✓ Payment is guaranteed to sellers through Superior's bonded custodial account.

For more information, contact Superior at (800) 422-2117

or visit [www.SuperiorLivestock.com](http://www.SuperiorLivestock.com).

# FALL LONG YEARLING *Simmental* BULLS

Lots 297-338

*These older Simmental bulls are rugged made, stout ended bulls that have the pounds and performance to make a difference in one generation. Study the feet and legs on these bulls, and then look at the shape and power they have. Big time herd bulls that are ready to work.*

**W/C Loaded Up 1119Y**  
Sire of Lots 297-315

*Loaded Up has certainly lived up to expectations around our place. His daughters look awesome and are easily some of the best two-year-olds we calved this spring. Big bodied cattle with major muscle shape in a moderate package that still has the pounds attached. One of our young turnout bulls is a purebred Loaded Up son whose first calves were born last month, and they look fantastic. Take confidence in this pedigree, because we love them and know that you will too.*

*The Shocker daughters were in high demand at the Classic sale. These bull mates will be no different. Stout featured and huge middled with exceptional structure and soundness, yet they are put together with incredible smoothness and balance. They have the growth and easy fleshing ability to adapt anywhere and sire the calves that every producer desires.*

A unique creature that will stir your imagination. Blend a winning pedigree with a sharp look and extreme muscle shape, and then pile on the hair. You can travel a lot of miles and not find a cooler made specimen. Use him to make those highly sought after show cattle; then use his daughters to make more down the road. With the maternal strength in his Maternal Made dam, you can be assured his daughters will work. There You Go is a maternal brother to Just Chillin, our very popular red bull calf that was displayed in Denver. The Here I Am progeny have been winning shows at every level across the country for a couple of years. They excel in their build and look as well as muscle shape and soundness of structure. There You Go can help you achieve this pattern and take a program forward with the next step.

**Just Chillin**

Maternal brother to Lot 339  
...2020 Griswold promotional sire

*composite* **BULLS**  
Lots 339-342

*These three Business Done Right sons can go out and make a great set of calves.  
Heavy muscled bulls with extra stoutness and power in their skeleton, they are big boned and good footed.  
These bulls will make a set of Char-cross replacements or high performing steers on the grid.*

## OPEN REPLACEMENT HEIFERS

Lots 600-622

Top end heifers weighing 850 to 900 lbs.  
from the Victor Ranch in Afton, Oklahoma.  
All heifers sired by Griswold bulls.

### HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy your cattle through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at [www.superiorlivestock.com](http://www.superiorlivestock.com) and at [griswoldcattle.com](http://griswoldcattle.com).

#### HERE'S HOW IT WORKS

**Viewing the Auction.** The sale will be broadcast live on the internet in high definition at both [www.superiorlivestock.com](http://www.superiorlivestock.com) and [www.superiorclicktobid.com](http://www.superiorclicktobid.com)—just go to the home page of either site and select the auction. If you would like to turn in bids over the phone, the simplest way to watch the auction is from the homepage of [www.superiorlivestock.com](http://www.superiorlivestock.com)—you can even watch the auction on your smart phone or tablet from there.

**Turn in Bids Over the Phone.** This is our traditional method of buying livestock. To get started, simply go online to [www.superiorlivestock.com](http://www.superiorlivestock.com) and click on the tab at the top of the homepage titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information, Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

**Click-To-Bid.** This is our online bidding platform where you are able to turn in bids by "clicking" on the internet. Please note that high speed internet is required—this is not for dial-up or satellite internet. Registration is free, but you must become a member of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) to sign up. Becoming a member is easy. Just go to the homepage of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) and follow the outlined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward, you just have to sign in and select the auction you would like to register for; once approved, you will receive an e-mail confirming which sale you are now registered for. You will then be able to bid online. You may also register here and call Superior's office afterwards and receive your buyer number and the bid line number in case you want to bid over the phone.

Bidders who are successful in making purchases will be contacted by the ranch after the sale to settle payment and discover your shipping plans. IF YOU NEED ANY ASSISTANCE PLEASE CALL SUPERIOR AT (800) 422-2117.

*Thank you!*

Online bidding also at [liveauctions.tv](http://liveauctions.tv)
