Cellular Modems!

Intelligent 3G HSPA+ M2M Cellular Modem

- Serial and USB 2.0 interfaces
- GPS and diversity antenna for additional reach
- Familiar CLI and AT commands
- Built in software with advanced functionality
 - Persistent connectivity ideal for remote management solutions
 - Remote configuration
 - Unlimited programmability
 - High level AT commands (instead of complex C/C++ or scripting)
 - Easy pre-programmed functions ready to use
- Stand-alone operation means smaller footprint and lower power consumption
- Compact design with rugged aluminum housing for industrial uses
- Complete solution with approved partners for provisioned SIMs, all-in-one worldwide billing, worldwide carriers, data pooling, static IP addressing, low data rate packages
- PTCRB, FCC, CE, IC and R&TTE approvals
- Secure cellular connections

**Ideal Out of Band
Remote Management
for any device
with a console port**
