### **EDITORIAL**

I am writing this as England enters total lockdown for 4 weeks (we hope!), Wales comes out of 2 weeks of lockdown, Scotland has their own version of lockdown and Northern Ireland is in a similar position. What these all mean is uncertain and opinion varies between an essential step in the battle against COVID 19 for a total waste of time and plunging the country into a recession, for which there appears no end! Ignoring all the major political viewpoints, what does it mean for MAR?

Based upon the last lockdown, then MAR should continue to be produced as normal and to schedule. The PDF version has no problems associated with it's production and the paper magazine relies upon our printers - and they performed brilliantly during the first lockdown and I see no reason why they will not do the same this time around!

The major problem area is that of the provision of reports and information for the magazine. Obviously, foreign travel is not very easy due to different quarantine regulations throughout the world, but local coverage has always held up and we have actually found that during 2020 our overall coverage has been bigger and better than in previous years. Hopefully, this situation will continue with the one adverse side - that winter is arriving and activity tends to be lower than normal. Hopefully, this will not mean too many fewer pages over the next few months as our armed forces have had 6 months to learn how to cope with the virus.

To finish - a reminder, if you have not subscribed for 2021, please get your renewals in as soon as possible. Thanks!

**COVER PHOTO:** I could not resist this superb shot of the Battle of Britain Memorial Flight Chipmunk T.10 WG486, painted up as "E" of Bristol UAS, in the circuit at Coningsby on October 28th (Brian Pallett)
