## ▶ THE MARTIN ADVANTAGE

- Privately Owned
- “Custom Tailored Solutions”
- Focused on Cost Elimination, Increased Productivity, and Asset Management
- Affiliated Distributors Member

## OUR CORE VALUES

**INTEGRITY**

**Entrepreneurial  
Spirit**

**CONTINUOUS  
IMPROVEMENT**

**Customer  
Focused**

**Good Citizenship**

**Martin Safety** is ready to help with the right solution & product expertise to help your company with safety compliance and OSHA laws/standard changes. Our goal is to strategically partner with our Customers to develop the best Custom Tailored Safety Solutions for your workforce.

## SERVICES

- ▶ Qualitative & Quantitative Fit Testing
- ▶ Fall Protection Inspections (Competent & Qualified Persons)
- ▶ D&E Quality Testing for Compressor & SCBA
- ▶ Level A Suit Testing
- ▶ Instrumentation Repair & Calibration
- ▶ Gas Refills
- ▶ Full Engraving Capacity
- ▶ Facility Printing, Systems, Demos, & Technical Support
- ▶ Print on Demand Signs & Labels
- ▶ Safety Audits
- ▶ Safety Meeting Presentations
- ▶ Learning Management System

## EXTENSIVE RENTAL OFFERINGS

If you have projects outside your normal course of work and will need specialized equipment, Martin has extensive rental offerings available. This provides you with the flexibility to get jobs done as safely as possible, for a fraction of the price.

- ▶ Supplied Air Breathing Equipment (SAR, SCBA, EEBA, etc.)
- ▶ Respirators
- ▶ Multi-gas Detection Equipment
- ▶ Single-gas Detection Instruments
- ▶ Environmental Instrumentation
- ▶ Radiation Instrumentation
- ▶ Air Sampling Equipment
- ▶ Specialty Instrumentation
- ▶ Water Quality Equipment
- ▶ Abatement Equipment
- ▶ Communication Equipment
- ▶ Fall Protection Equipment
- ▶ Confined Space Equipment
- ▶ First Aid/Eyewash/Personal Cooling Equipment

# SERVICE SOLUTIONS

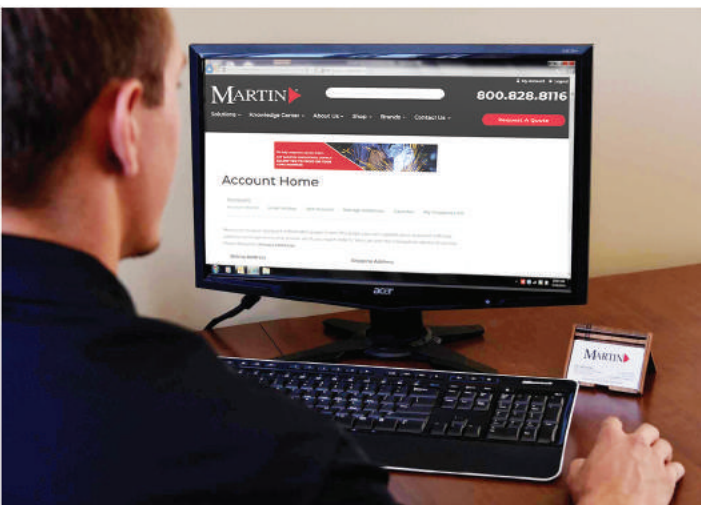

## VENDING

- ▶ Decrease usage **up to 30%**
- ▶ Increase accountability through advanced usage tracking
- ▶ Web-based reporting
- ▶ Usage tracking by device, user or job
- ▶ Material closer to point-of-use

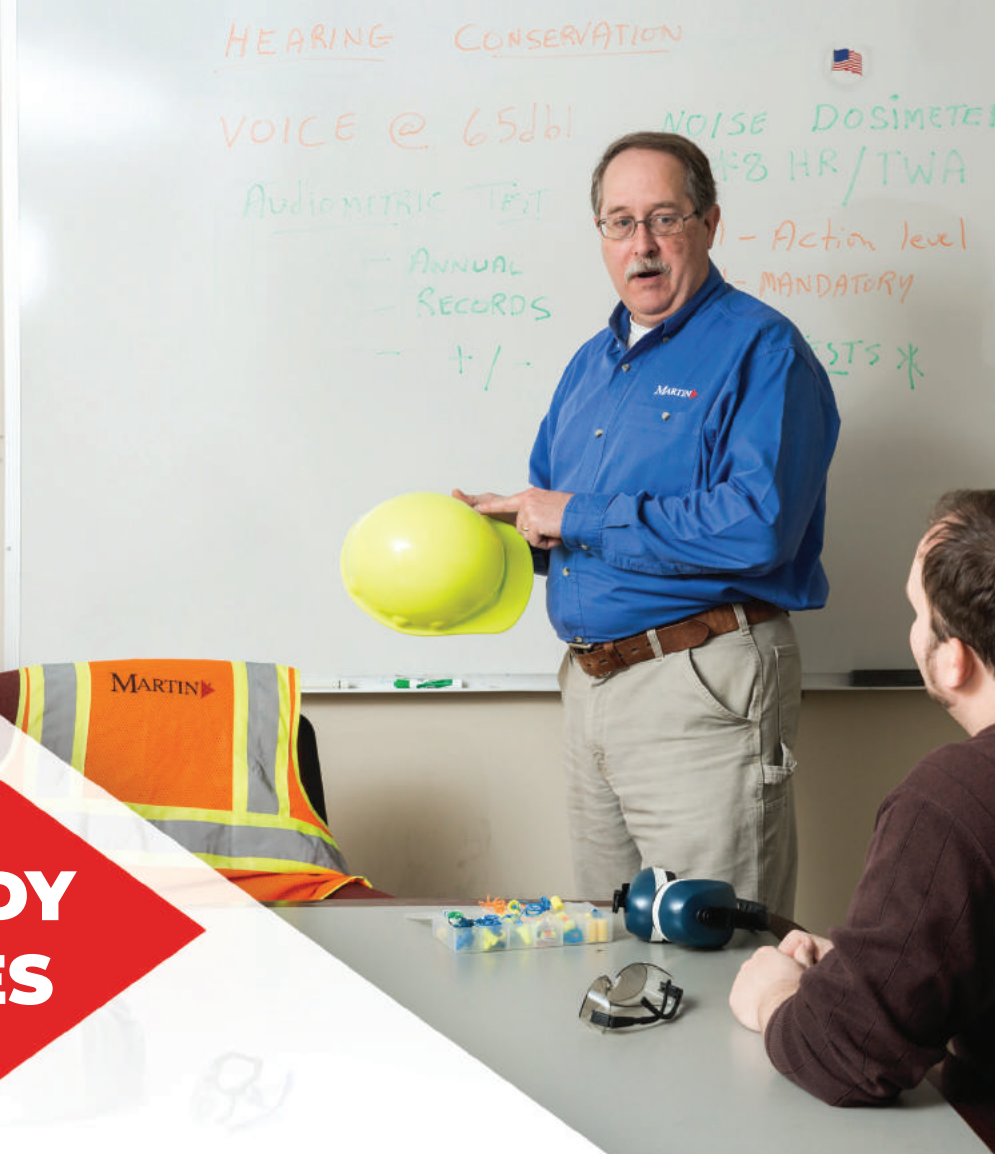

## VMI

Keep your focus on production while we apply a 5S Methodology for **up to a 99% Fill Rate** with an added data analysis to optimize stock levels.

## CUSTOM WEBSITE

- ▶ **Customized** Product Catalog
- ▶ Customer-Specific Pricing
- ▶ Save Favorites & Shopping Carts

- Drug-Free Workforce

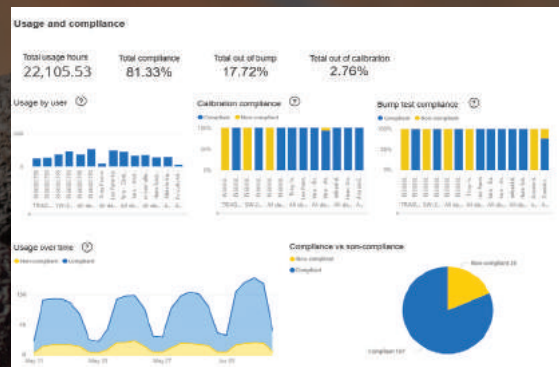

# THE **LAST** WORD IN CONNECTED SAFETY

Blackline's award-winning connected gas detection technology has changed the game forever. We build a decade of wireless safety innovation into every G7. The result? We surpassed our competitors and are winning over businesses like yours, around the world.

Our new G7 Insight system addresses every facet of your gas detection program — **we do it all for you with no extra work on your side**. No more data logs to retrieve or compile, and no more building reports. G7 Insight helps you and your team stay focused on what's important.

Our online compliance dashboard and second-generation data analytics software are fully automatic. With just a few minutes of connectivity per day, more data than you've ever had before is uploaded to the Blackline Safety Network. It's easy and quick to dig deeper, uncovering valuable insights to keep your gas detection program running smoothly.

## G7 INSIGHT

- Online automated compliance dashboard
- Manage your fleet with Blackline Analytics
- Turn-key, integrated 3G connectivity
- Automatic compliance reporting
- Plug-and-play gas sensor cartridges
- Zero gas sensor downtime
- Lifetime gas sensor warranty
- Broad range of gas sensors
- Real-time safety options

# ▶ HEAD & FACE PROTECTION

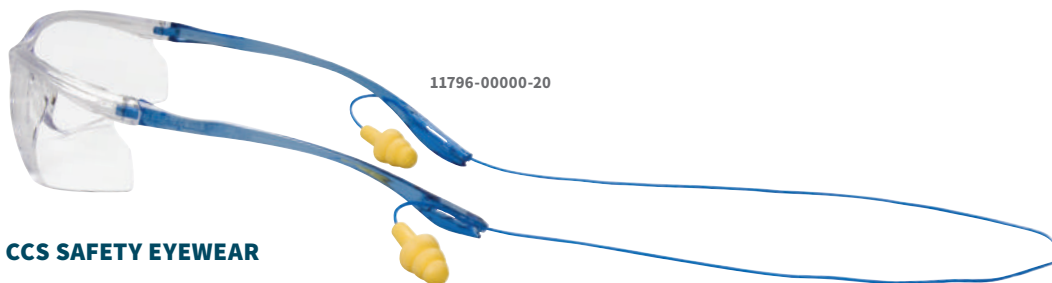

*These fine manufacturers help us bring you custom tailored solutions:*

Eye and face protection must be provided whenever necessary to protect against chemicals, environmental, and radiological hazards or mechanical irritants. Head protection must be provided whenever necessary to protect against a potential for injury to the head from falling objects. Ensuring worker safety includes conducting a workplace hazard assessment and providing the adequate training to make sure everyone goes home safely to their families.

**TIRADE™ SEALED EYEWEAR**

Offers protection in high particulate environments where dust, dirt and debris present the risk of eye injury. Features a large unilens design for a wide field of unobstructed peripheral vision, and a soft foam subframe to ensure a comfortable gap-free fit. Indirect ventilation channels on the foam and subframe provide superior dust filtration keeping debris out of the eyes. Quick-release hinge system converts easily from temples to headband. Dependable, cost-effective solution for indoor and outdoor environments requiring sealed eyewear protection. Removable temples and standard adjustable headband included; hypoallergenic latex-free option available. Uvextra® anti-fog coating helps keep lenses clear in humid or extreme environments. 100% Non-conductive dielectric design. Can be worn in environments where accidental exposure to electrical charge is possible. Meets ANSI Z87.1+ and Z94.3 standards (with and without foam subframe in place). Not for chemical splash applications.

ITEM #	MARTIN #	FRAME	LENS	UOM	PRICE
S4040	NTHS4040	Gloss black	Clear, Uvextra	PR	\$6.78

**LIVEWIRE® SEALED EYEWEAR WITH HYDROSHIELD®**

Delivers the fit, performance and protection required in extreme environments, protecting workers against intense wind, sun, dirt, dust and debris, as well as high heat and humidity. Optimized design ensures excellent, comfortable fit for almost any wearer. Streamlined, wraparound frame design accommodates respirators and other PPE, while the low-profile temples fit comfortably with earmuffs. Foam-lined subframe is precision engineered to offer maximum comfort and a gap-free seal around the eyes to keep debris out. Padded temples are engineered to provide ideal tension and flex for superior comfort and fit. Ratcheting temples adjust lens angle by up to 15° for optimal coverage and air circulation. HydroShield anti-fog lens coating is permanently-bonded and consistently 90X longer than the majority of other anti-fog coatings. Can be worn with a headband like a goggle or with temples like a spectacle. Highly adjustable, flame-resistant cloth headband provides an excellent fit and is latex-free. Meets ANSI Z87.1+ and Z94.3 standards.

## RENDEZVOUS® SAFETY GLASSES

Adaptable design accommodates most facial sizes. Ratcheting lens pitch adjustment allows wearer to align lens angle to proper position for individual work applications. Flexible nylon temples have four size settings for custom, comfortable fit. Adjustable nose pad conforms to broad range of bridge sizes. Lens/frame design allows air to flow freely up and away from lens to prevent fogging. Other lens options available. Meets ANSI Z87.1+ High Impact standard. CE EN 166 Certified. MCEPS GL-PD 10-12.

### WARNING

These eye and face protection products help provide limited eye and face protection. **Misuse or failure to follow warnings and instructions may result in serious potential injury, including blindness or death.** For proper use, selection, and applications against flying particles, optical radiation and/or splash see supervisor, read *User Instructions* and warnings on the package or call 3M PSD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414.

**3M™ LEXA™ SPLASH GOGGLEGEAR™**

Lightweight, low-profile, contoured design with soft PVC shroud that gently hugs the face. Patented ellipsoidal lens extends the viewing range in every direction. Indirect ventilation allows air to circulate and helps reduce fogging. Comes fully assembled with Lexa eyewear and headstrap. DX™ anti-fog hardcoat helps protect lens from fog, scratching and many chemicals. Meets ANSI Z87.1+ High Impact standard. Certified to the requirements of the CSA Z94.3 standard.

**3M™ GOGGLE GEAR 500 SERIES**

Splash goggle with low-profile design, adjustable strap and optional prescription insert. Polycarbonate lenses absorb 99.9% of UV rays. Scotchgard™ Anti-Fog Coating lasts longer than traditional anti-fog coatings, helping to increase eyewear performance in wet and steamy environments. Workers may enjoy reliable, clearer sight longer, because the coating, with its active ingredient, is bonded to the lens. Coating retains its effectiveness for at least 25 washings, allowing workers to wear their eyewear longer. Coating can be disinfected with diluted bleach soaking or alcohol wipes without losing its anti-fog performance. Meets the requirements of ANSI Z87.1 and CSA Z94.3.

**SERIES P2A HARD HATS**

Proprietary injection-molded fiberglass compound offers exceptional impact and crack resistance and is 8 times stronger than common high density polyethylene (HDPE) cap shells. Best-in-class heat resistance. Meets ANSI-Z89.1-2014 impact resistance tests at extreme temperatures of up to 370°F. Solid color resin provides a permanent, no-chip, no-peel matte finish. Technically-advanced SuperEight® suspension balances and spreads weight over a wide area for added comfort and impact protection. Available with Fibre-Metal® non-slip/non-strip ratchet, SwingStrap™ or TabLok™ headgear. Ready-to-use with versatile Quick-Lok® or Speedy® Loop helmet attachment system for faceshields and welding helmets. For added assurance of performance, all Roughneck caps are factory-assembled and SEI third party certified to meet ANSI Z89.1 Type I Class G and CSA Z94.1 Type I Class G or C in both forward and reverse.

## Honeywell

### SUPEREIGHT® HIGH PERFORMANCE HATS AND CAPS

Thermoplastic full brim hard hat with unique, smooth crown that eliminates the danger of falling objects being trapped by ribs, ridges, or slots. Adjust head size by using rear-located ratchet mechanism and tilting the headband. Includes 8-point suspension with ratchet adjustment, unless otherwise indicated. Caps are also available in heavy-duty, lightweight fiberglass for optimum impact resistance, durability and crack resistance, Quick-Lok® mounting blocks for attaching a welding helmet or faceshield, and Swingstrap™ suspension that allows the wearer to convert from front to rear wearing positions without reversing the suspension or headband. Full brim hats provide extended protection from the sun, nontoxic splash, dust, dirt and debris. All models are SEI certified to meet ANSI Z89.1-2014, Type 1, Class E, G or C.

### NORTH ZONE™ HARD HATS

Contemporary high-density polyethylene (HDPE) shell design with 4 large areas for custom logo imprinting or other personalization options. Features slots for cap-mounted earmuffs, faceshields and other PPE accessories, removable and replaceable rear comfort cradle, 3-level height adjustment (Low, Medium, High), ratchet suspension and ergonomic headband for easy adjustment to 3 different sizes (S, M/L and XL). Includes moisture-wicking, breathable sweatband that is easily removable, washable and replaceable. Meets ANSI Type I, Class C, G and E requirements. Certified to ANSI Z89.1 Type I Class E and CSA Z94.1 Type I Class E.

**TURBOSHIELD™**

Perfect for workers exposed to falling or flying objects, impact, splash and airborne debris; it can also be comfortably worn with most goggles, respirators and earmuffs. Flexible head-cushioning suspension cradle provides 300% greater contact area than traditional suspensions to eliminate pressure points for all-day wear. Simple push-button release system allows for easy visor exchange in seconds. Feel safer with 50% more chin coverage compared to traditional visors. Control knobs are large and ergonomically designed for easy adjustment, even while wearing gloves. Visor slides back 7", improving balance and weight distribution. Headgear features breathable, removable, washable headband; toric lens provides excellent optics, increased field of view and added chin coverage without bulky attachments. Clear and Gray lenses available with dual anti-scratch/anti-fog coating for longer visor life and reduced fogging. Ergonomically designed ratcheting headgear mechanism assures quick, easy adjustment to achieve an optimal fit. Hard hat adapter accessory is compatible with multiple hard hats, including Fibre-Metal®, North® and most major competitor styles. Positive-locking hinge secures visor in raised and lowered positions. Integrated brim guard ensures gap-free fit and protection from overhead debris. Meets ANSI Z87.1-2015 and CSA Z94.3 standards. Faceshields offer secondary protection and must be worn with spectacles or goggles.

### F400 AND F500 FACESHIELD HEADGEAR

A variety of faceshield headgear with crown protectors provides the level of protection you need. All models feature lightweight and heat-resistant Noryl® (the same material used in welding helmets) crown protectors and ratchet headbands (windows sold separately). Meets ANSI Z87.1+ High Impact standard. Certified to the requirements of the CSA Z94.3 standard.

**F400** features a deeper 4" crown protector to extend protection without increasing weight. Incorporates wide-vision (8" x 17") wraparound windows and screens which provide 40% more protective area than standard size faceshields. Fits easily over required spectacles or respirators.

**F500** includes a broader, deeper 7" crown protector to provide an extra margin of protection when harsh working conditions require it. Features the exclusive Channel Grip System that mounts wide, wraparound windows and locks them into place to form a perfect seal from dust, dirt and debris. Includes Fibre-Metal classic 3-C, free-floating headgear.

## Honeywell

### HIGH-PERFORMANCE® FACESHIELD WINDOWS AND FRAMES

Easily and comfortably fit over required protective spectacles or respirators. Windows are injection-molded from propionate for superior performance and are preformed to the exact curve of crown protectors for easy installation, an exact fit and a perfect seal against dust, dirt and debris. Windows are .060" thick and fit F400, F500 Series and FH66, FM70, FM71. Choose from clear or green windows, which protect from glare and bright light. (Not suitable for welding protection).

Dual channel mounting system anchors one channel to the hat and the other to the window, allowing users to lock windows into the work position or pivot up and out of the way when not needed. Locked channels prevent debris from getting between the cap and faceshield.

Proprietary 3M™ Cool Flow™ valve is designed for easy exhalation and reduces heat build-up inside respirator to help keep wearer more comfortable. Features adjustable noseclip and 2-strap design with dual point attachment. Ideally suited for many work settings that involve heat, humidity or longer periods of wear. NIOSH Approval TC-84A-5410.

ITEM #	MARTIN #	DESCRIPTION	UOM	PRICE
8210V	3M8210V	Particulate Respirator N95 w/ Cool Flow™ Valve	10/BX	\$13.00

**WARNING**

These respirators help protect against certain airborne contaminants. Before use, the wearer must read and understand the *User Instructions* provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. **Misuse may result in sickness or death.** For proper use, see packaging instructions, supervisor, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

**3M™ PARTICULATE RESPIRATOR 8247, R95 WITH NUISANCE LEVEL\* ORGANIC VAPOR RELIEF**

Designed to help provide comfortable protection against certain oil and non-oil based particles including those present with nuisance levels\* of organic vapor, such as solvents, degreasers and resins. Meets NIOSH 42 CFR 84 requirements.

*\*3M™ recommended for relief against nuisance levels of organic vapors. Nuisance level organic vapors refer to concentrations less than the OSHA PEL or other applicable government exposure limits, whichever is lower.*

## MOLDEX

### 2700N95 SERIES N95 DISPOSABLE RESPIRATOR WITH HANDYSTRAP® AND VENTEX® VALVE

Features HandyStrap with buckle allowing mask to hang around neck when not in use. Ventex valve lets hot air out faster so workers stay cool longer. Dura-Mesh® shell resists collapsing in heat and humidity. Molded nosebridge seals easily without a metal noseband. Naturally contoured facepiece and Softspun® lining offers added comfort and durability as well as relief on pressure points. NIOSH certified for a filter efficiency level of 95% or greater against particulate aerosols free of oil. Meets heat and flame resistance in accordance with ANSI/ISEA 110-2003, Section 7.11.1.

### 2400N95 SERIES N95 PLUS NUISANCE ORGANIC VAPORS/OZONE DISPOSABLE RESPIRATOR

Pinch-free nosebridge eliminates discomfort and readjustment necessary with metal nosebands. Exhale valve releases hot air easier and reduces breathing resistance, which keeps workers cooler and allows masks to last longer. Dura-Mesh® shell resists collapsing, even in heat and humidity. Added carbon layer helps filter out nuisance levels of ozone and organic vapors (less than OSHA PEL). Meets heat and flame resistance in accordance with ANSI/ISEA 110-2003, Section 7.11.1.

## MOLDEX

### 2730N100 SERIES N100 DISPOSABLE RESPIRATORS WITH HANDYSTRAP®

HandyStrap allows mask to hang around neck so it's always ready for use, preventing premature disposal. Dura-Mesh® shell protects filter media so it stays cleaner-looking longer. Shell resists collapsing, even in heat and humidity. Ventex® valve lets hot air out faster so workers stay cool longer. Contour-molded nosebridge with soft foam face cushion for an easy, comfortable fit. No metal noseband to adjust and the seal is maintained without pressure points. Softspun® lining offers added comfort and durability. NIOSH certified to have a filter efficiency of 99.97% effective against non-oil based particulates. Meets heat and flame resistance in accordance with ANSI/ISEA 110-2003, Section 7.11.1.

### 2500N95 DISPOSABLE RESPIRATOR PLUS NUISANCE LEVEL OF ACID GAS IRRITANTS

Added sorbent layer helps to filter nuisance levels of acid gas irritants (less than OSHA PEL). Exhale valve reduces hot air build-up to keep workers cooler. Dura-Mesh® shell resists collapsing even in hot, humid work environments. Contour-molded nosebridge with soft foam nose cushion provides all-day comfort. Softspun® lining increases comfort and durability. NIOSH certified to have a filter efficiency of 95% or greater against particulates free of oil. Meets heat and flame resistance in accordance with ANSI/ISEA 110-2003, Section 7.11.1.

**3M™ RUGGED COMFORT HALF FACEPIECE REUSABLE RESPIRATORS, 6500 SERIES**

Helps provide respiratory protection against airborne contaminants in harsh, dirty environments. Facepiece is designed to help promote comfort, durability and stability with a firm, lightly textured silicone face seal and strong body construction. Helps provide respiratory protection at concentrations up to 10 x the Permissible Exposure Limit (PEL) when respirator is properly fitted. Sleek, overmolded/low-profile design helps to give a wide field of view that better suits compact work spaces and simplifies cleaning. Resilient silicone face seal offers an extended facepiece life, even keeping its shape in high-heat environments. Facepiece offers numerous other comfort features including a special valve cover that helps to direct exhaled breath and moisture downward and 3M's proprietary Cool Flow™ Valve that helps to make breathing easier by reducing heat and moisture. Made to fit securely and comfortably on the head, the facepiece comes with an adjustable head harness assembly featuring polyester/spandex straps that stretch and conform. Facepiece is compatible with all 3M™ bayonet-style filters and cartridges to help provide respiratory protection against a variety of gases, vapors and particulate hazards according to NIOSH approvals. The 6500QL Series features a proprietary Quick Latch design offering an easy, one-hand touch drop-down mechanism for putting the facepiece on and off while moving in and out of contaminated areas. NIOSH/MSHA Approved.

**WARNING**

These respirators help protect against certain airborne contaminants. Before use, the wearer must read and understand the *User Instructions* provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. **Misuse may result in sickness or death.** For proper use, see packaging instructions, supervisor, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

**5500 SERIES HALF MASK RESPIRATORS**

Thermoplastic elastomer mask is soft and comfortable; free of latex allergens. Cartridges and filters are replaceable so facepiece can be re-used. Ideal as an economical respirator for sub-contractors, plant guests and occasional users. Can be adapted to PAPR or Supplied Air to offer flexibility in the workplace. Combines comfort and design of the popular 7700 Series half mask in a convenient version. Compatible with Honeywell North N-Series cartridges and filters (sold separately).

**N-SERIES CARTRIDGES, FILTERS AND  
CARTRIDGE/FILTER COMBINATIONS**

Air-purifying respirators with cartridges provide respiratory protection against gases and vapors by using sorbents to purify the inhaled air. Honeywell North N-Series filter/cartridge combinations also remove dusts, fibers and other particles. All Honeywell North N-Series cartridges and filters are NIOSH approved with select Honeywell North air-purifying half masks (7700, RU8500, 5500, RU8800) and full facepieces (7600, RU6500, 5400).

### 3M™ REPLACEMENT CARTRIDGES AND FILTERS

Use with 3M™ Respirators 5000, 6000, 7000 and FF-400 Series, according to NIOSH approvals. When properly selected, cartridges and filters help provide protection from a variety of gases, vapors and particulate hazards. Available with 3M™ Service Life Indicator, an end-of-service-life indicator (ESLI) that can help users determine when to change cartridges in appropriate environments.

Only 3M™ filters 2000 Series, 7093, 5N11 or 5P71 are approved for use with 3M™ 5000 Series Respirators. Cartridges on 5000 Series Respirators cannot be replaced. The 3M™ Filter Adapter 502 is required for use of the 2000 Series and 7093 filters with the 5000 Series Respirators and 6000 Series Cartridges. The 3M™ Filter Retainer 501 is required for use of the 5N11 and 5P71 prefilters with the 5000 Series Respirators. The 502 adapter cannot be reused.

\*Nuisance level organic vapors refer to concentrations less than the OSHA PEL or applicable government occupational exposure limits, whichever is lower. Do not use for respiratory protection against organic vapors.

\*\*Nuisance level acid gases refer to concentrations less than the OSHA PEL or applicable government occupational exposure limits, whichever is lower. Do not use for respiratory protection against acid gases.

\*\*\*3M™ recommended for ozone protection up to 10 x OSHA PEL or applicable government occupational exposure limits, whichever is lower. Not NIOSH approved for use against ozone.

\*\*\*\*OSHA regulations require gas proof goggles be worn with half facepiece respirators when used against formaldehyde.

### WARNING

These respirators help protect against certain airborne contaminants. Before use, the wearer must read and understand the *User Instructions* provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. **Misuse may result in sickness or death.** For proper use, see packaging instructions, supervisor, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

**7000/7800/9000 SERIES CARTRIDGES AND FILTERS**

A variety of cartridges and filters for use with the 7000/7800 Series half mask respirators or 9000 Series full face respirators. NIOSH Approved.

**3M™ VERSAFLO™ 800 SERIES PPR ASSEMBLY KIT**

The Versaflo™ 800 Series PPR kit features an intrinsically safe (IS) motor/blower. Heavy-duty belt designed with airflow channels, multiple size adjustments and belt extender options. Intuitive, colored touchpoints plus visual and audible alarms help make the TR-800 easy to use. Multi-speed blower functions up to 16,000' and battery offers long run time, less charge time and, ultimately, reduced down time. Blower is rated at Division I for Classes I,II, and III under the most current UL® standard.

### 3M™ SPEEDGLAS™ FRESH-AIR III SUPPLIED AIR SYSTEMS

Supplied air respiratory protection system. Includes Speedglas™ 9100-Air and 9100 FX-Air Welding Helmets with Fresh-Air III Supplied Air System. Available with V-100 Vortex Air-Cooling valve, V-200 Vortemp™ Air-Heating valve or V-300 Air-Regulating Valve.

#### Features:

- SideWindows - Shade 5 side filters that increase peripheral vision
- Ergonomic, adjustable head suspension for increased comfort, helmet stability and weight distribution
- 3M™ Speedglas™ Auto-Darkening Filter
- Selectable Shades 5, 8-13 and Shade 3 light state; Grinding and Tack modes
- For use with all Stick, MIG, and TIG welding processes
- Five-position sensitivity control
- Adjustable recovery delay
- Meets ANSI Z87.1-2010

### PUREFLO ESM PAPP

Designed to protect from welding fumes and Hexavalent Chromium. Welding helmet comes with auto-darkening filter shades 9-13 and unique grind cut mode with shade 5. Welding helmet lifts up to allow welder to grind and clean welds looking through clear ANSI faceshield. PAPP features a complete helmet system, no uncomfortable backpacks or hoses to tangle. ESM monitors air flow with heads-up visual and audible alarms for low flow, battery and filter life. Air flow of 7.6 CFM with boost mode delivering over 8.2 CFM. Assigned protection factor of 1000 with no fit testing required. NIOSH and ANSI certified hard hat and faceshield. FM certified CL I Div 2. ESM comes with NIOSH approved HEPA filter or HE/HF for hydrogen fluoride and nuisance odor relief of most organic vapors, acid gas and ozone. Nuisance level refers to levels under OSHA PEL. NIOSH does not approve nuisance level filters. Black.

**CA200 SERIES P APR**

Triple alarm system creates an audible, vibratory and visual alarm to warn workers of battery life and/or filter clog. Vibratory alarm can be felt even through welding jackets; warns workers who are hearing impaired or in high noise environments. Two visual alarms: one for low battery and another one for a clogged filter. Lightweight for improved comfort and longer wear. Unit can be used for either tight facepieces or loose fitting hoods to accommodate different needs and preferences. Airflow is automatically adjusted to meet OSHA and CSA CFM requirements. Filters/cartridges sold separately.

**Complete assembly includes:**

- (1) Blower
- (1) Lithium-ion battery
- (1) Flow meter
- (1) Single unit battery charge
- (1) Carry case

**WARNING**

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. **Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury.** For proper use, see supervisor, *User Instructions*, or call 3M in U.S.A. at 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing ear plugs. Failure to do so may result in hearing loss or injury.

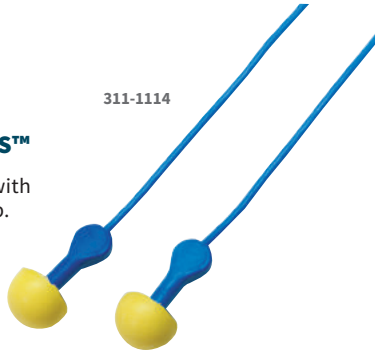

\* NRR is the Noise Reduction Rating in decibels (dB). It is the average noise reduction obtained by a group of people wearing a specific hearing protector in a laboratory test. Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earplug fit and wearing time. It is recommended that the NRR be reduced by 50% for estimating the average amount of noise reduction provided.

#### WARNING

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. **Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury.** For proper use, see supervisor, *User Instructions*, or call 3M in U.S.A. at 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing ear plugs. Failure to do so may result in hearing loss or injury.

\* NRR is the Noise Reduction Rating in decibels (dB). It is the average noise reduction obtained by a group of people wearing a specific hearing protector in a laboratory test. Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earplug fit and wearing time. It is recommended that the NRR be reduced by 50% for estimating the average amount of noise reduction provided.

**3M™ PELTOR™ X SERIES EARMUFFS**

Features dielectric wire headband on over-the-head models. Offers ear cushion foam technology for protection. Spacer design on X3, X4 and X5 models.

# ▶ HAND PROTECTION

These fine manufacturers help us bring you custom tailored solutions:

Hand protection must be provided whenever necessary to protect against employees' hands that are exposed to hazards such as those from skin absorption of harmful substances; severe cuts or lacerations; severe abrasions; punctures; chemical burns; thermal burns; and harmful temperature extremes. Ensuring worker safety includes conducting a workplace hazard assessment and providing the adequate training to make sure everyone goes home safely to their families.

**KLEENGUARD™  
G80 NEOPRENE/LATEX  
CHEMICAL-RESISTANT  
GLOVES**

Neoprene outer layer provides high chemical resistance along with durability, flexibility and sensitivity. Latex with cotton flock lining adds comfort and absorbs perspiration for easy donning and removal. Offers high resistance to acids, alkalis and water-based solvents. Ideal for chemical processing, cleaning and degreasing and wiping down parts and machinery. Meets EN 374-AKL standard. Blue and yellow.

**SOLVEX® ALPHATEC®  
CHEMICAL-RESISTANT  
UNSUPPORTED GLOVES**

Versatile chemical protection that performs across a diverse range of applications. High performance nitrile compound provides an outstanding combination of chemical resistance and strength. Offers superior snag, puncture and abrasion protection over rubber or neoprene gloves. Features 15-mil thickness, flock lining, straight cuff, sandpatch grip and 13" length. Suitable for heavy-duty cleaning applications. High levels of flexibility, comfort and dexterity. Won't swell, weaken or degrade, and does not promote contact dermatitis. Complies with FDA food handling requirements (21 CFR 177.2600).

**ALPHATEC® NEOPRENE-COATED GLOVES**

Heavy-duty protection against a wide range of chemicals. Specially designed neoprene construction with a knit-liner for comfort and easy donning and doffing. Textured finish provides excellent grip on wet and slippery materials with great flexibility. Snug fit with high degree of fingertip sensitivity. Interlock knit cotton 2-piece lining eliminates seams that can cause hand irritation.

**ALPHATEC® 58-430  
AND 58-435 GLOVES**

Ansell Grip Technology™ creates safe and secure glove contact with tools or part surfaces by wicking liquids into glove coating micro-channels, for optimal control and confidence when handling wet and oily objects. High performance nitrile compound coating offers superior snag, puncture and abrasion protection for long-term wear. Snug, second-skin tailoring tightens fit across palm for added comfort, greater tactility and improved dexterity. Comfortable cotton flocked liner helps manage perspiration. Complies with FDA food handling requirements (21 CFR 177.2600).

**ECLIPSE™ FR APPAREL**

Revolutionary Quad-Hazard® protection offers high visibility, liquid proof, arc flash and flash fire protection. Patent pending Thermo-Grid® technology helps block out heat energy while the flame resistant PVC coating on Nomex® provides 100% liquid proof protection in a soft, lightweight suit. Therm-O-Rad sealed seams for 100% liquid protection and 2" silver reflective tape that reflects light for 360° nighttime conspicuity. Features FR corduroy collar with roll-a-way hood, oversized 3-piece hood with adjustable hook and loop take-up strap, full-vented cape back, D-ring access for fall protection harness, hook and loop take-up straps on wrists, adjustable elastic drawcord on jacket, zipper/storm fly front with snap closure and hidden hardware, self material suspenders with heavy-duty quick release buckles and crossover, and non-conductive, non-corrosive hardware. Yellow-green. Conforms to ASTM F1891 for Arc Thermal performance and NFPA 70E. Arc rating: 8.7 cal/cm<sup>2</sup>. Jacket and overalls conform to ASTM F2733 for Flash Fire performance. ANSI/ISEA 107 Type R Class 3 compliant for flame resistance and high visibility.

## LIMITED FLAMMABILITY COTTON JACKET

Made of 9 oz. green sateen cotton treated to offer limited flammability. Includes black anodized front button snap closures, snaps on sleeves for a snug fit and a large inside pocket. The 100% cotton fabric is cool and comfortable. Provides economical protection from sudden flame exposure, light molten splash and sparks. 30" Length. Launderable to maintain flame resistance up to 50 home washings or 25 commercial washings (up to 165° F). Meets NFPA-701 and ASTM-D6413 specifications for flame-retardant fabric and clothing.

PROTECTIVE CLOTHING | FOOTWEAR

# ENGINEERED. TESTED. CERTIFIED.

## DROPPED TOOLS CAN CREATE SIGNIFICANT HUMAN AND ASSET DAMAGE

- In 2012, people being struck by objects replaced people falling as the 3rd leading cause of death in the workplace.<sup>1</sup>
- A 3 lb object falling 200ft carries more than 1,000 lbs of force per square inch on impact.
- It is very common for falling objects to deflect and travel significant distances from their original path.

<sup>1</sup> Bureau of Statistics

## KEEP YOUR PEOPLE SAFE AND ASSETS SECURE WITH SNAP-ON INDUSTRIAL BRANDS TOOLS@HEIGHT PROGRAM

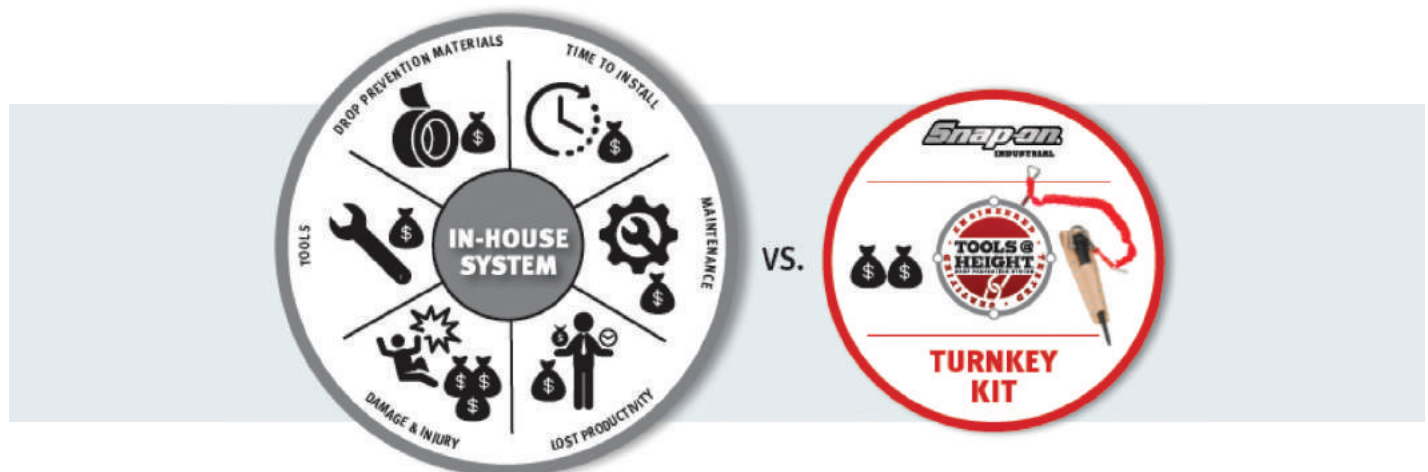

### SNAP-ON INDUSTRIAL BRANDS TOOLS@HEIGHT PROGRAM OFFERS UNIQUE ADVANTAGES

**ENGINEERED, TESTED and CERTIFIED SYSTEM** to maintain or enhance functionality of tools when used at height

- 4 side lock holes
- Safety coils
- Screwdriver tabs
- Pipe wrenches
- Differentiated proposition: engineered attachment points + tool transportation products
- With over 1,000 products, the industry's most comprehensive drop prevention system
- Turnkey provider of customized solutions
- Worldwide sales and service
- Stocked selection to ensure fast delivery
- Same warranty as standard tools

### SNAP-ON TOOLS@HEIGHT OFFERS THESE ADVANTAGES:

- **ENGINEERED ATTACHMENT POINTS** - carefully placed attachment points are designed and tested to maintain the functionality of the tools
- **A TURNKEY SOLUTION** - from individual tools to custom-designed kits, we'll help create the systems you need, then ship the assembled components that are ready to work upon arrival
- **RELIABLE EFFECTIVENESS** - our Tools@Height system has been proven again and again to reduce dropped object occurrences in real world applications in a variety of industries
- **STANDARDIZATION** - our process provides consistent placement of tethering attachment points, and a wide selection of lanyards, that provide workers with familiar, reliable tools across multiple facilities. When your crews relocate to a different worksite, there's no need for additional training on the tools they'll be using
- **INTEGRATION** - attachment points, lanyards, tool bags and other components of our system work together to create innovative, dependable systems
- **EASY REPLACEMENT** - Tools@Height kits contain standard Snap-on tools that have been enhanced with appropriate drop prevention components. If a tool needs to be replaced, you can be assured that an identical item, equipped with Tools@Height modifications, will be readily available for use "right out of the box"
- **DROP PREVENTION TRAINING** - Snap-on Account Managers have the knowledge and experience to train your employees on the safe and effective use of tethered tools
- **LOWER IMPLEMENTATION COST OVERALL** - Tools@Height drop prevention can be implemented for only a portion of the cost of in-house systems

**Snap-on** INDUSTRIAL BRANDS

# ▶ FALL PROTECTION

These fine manufacturers help us bring you custom tailored solutions:

Fall protection must be provided whenever necessary to protect against any risk exists that a worker may fall from an elevated position, as a general rule, the fall arrest system should be used anytime a working height of six feet or more is reached. Ensuring worker safety includes conducting a workplace hazard assessment and providing the adequate training to make sure everyone goes home safely to their families.

**3M™ DBI-SALA® DELTA™ VEST STYLE HARNESSSES**

No-Tangle triangular design allows harness to fall into place for quick and easy donning and holds its basic shape so shoulder straps don't rub against neck. Water-repellent Repel™ webbing has built-in rip-stitch impact indicators for inspection of harness for prior damaging impact loads. Revolver™ vertical torso adjuster makes adjustments simple and fast, eliminating loose ends and locking into place to prevent slippage. Includes tongue-buckle leg straps and incorporates a spring-loaded, stand-up dorsal D-ring for fast, easy and safe connections. Tech-Lite™ aluminum alloy buckles reduce both carried weight and energy required for all-day job performance. Features lanyard keepers for holding unused snap hooks and reducing trip hazards. i-Safe™ enabled with RFID technology; label protector has Velcro® cover for holding harness labels and i-Safe identification tag. Capacity: 420 lbs. Meets or exceeds all applicable OSHA regulations and ANSI standards, including ANSI Z359.11.

## 3M™ DBI-SALA® SHOCKWAVE2™ SHOCK-ABSORBING LANYARDS

Stretchable lanyard incorporates a unique inner core that immediately begins to extend and absorb energy during a fall, limiting arresting forces to an average of 900 lbs. Features abrasion-resistant tubular webbing for durability and 3,600-lb. gated hooks. Expands to 6' and contracts to 4 1/2' in reaction to movements, reducing trip fall hazards and snagging. Impact indicator allows for visual inspection of unit. i-Safe™ RFID technology enabled. Meets or exceeds all applicable OSHA regulations and ANSI standards, including ANSI Z359.1.

## 3M™ DBI-SALA® EZ-STOP™ II SHOCK-ABSORBING LANYARDS

Utilizes a controlled tearing action when subjected to fall arrest forces, limiting arresting forces to no more than 900 lbs. Features soft-cover shock absorber for added comfort. Web models feature 1" wide polyester web. 3,600-lb. Compliant snap hooks. i-Safe™ RFID technology enabled. Capacity: 310 lbs. Meets or exceeds all applicable OSHA regulations and ANSI standards, including ANSI Z359.1.

High impact-resistant nylon housing with smooth, round edges increases durability. Corrosion-resistant stainless steel and aluminum internal components. Unique side payout design reduces wear on entry guide bushing and cable. Spring tension operation designed not to pull or drag on worker to improve productivity and reduce fatigue. Available in 3/16" galvanized cable or 0.69" web. Cable models have dual swivels (unit top and snap hook) included to minimize lifeline twisting during use. Improved load indicator on snap hook identifies when unit needs to be removed from service. No annual factory recertification required. Web models rated for up to a 400 lb. worker, cable models rated for up to a 310 lb. worker. Meets all applicable OSHA, ANSI (Class B) and CSA requirements. Connectors rated at 3,600 lbs.

## Honeywell MILLER

### MILLER SCORPION™ PERSONAL FALL LIMITERS

Lightweight, compact design offers greater mobility, requires less fall clearance and reduces tripping hazards. Greater versatility through dual operation. Attaches directly to harness D-ring for use as personal fall limiter or as traditional self-retracting lifeline. Includes quick-activating, high strength stainless steel braking system to arrest free falls; visual load indicator to warn when unit must be removed from service; and carabiner. No annual factory recertification required. Capacity: 310 lbs. (400-lb. rated models available). Meets all applicable OSHA, ANSI (Class A and B) and CSA standards and requirements. Connectors rated at 3,600 lbs.

## Honeywell MILLER

### MILLER TWIN TURBO™ FALL PROTECTION SYSTEMS WITH G2 CONNECTOR

Twin Turbo™ G2 Connector provides 100% tie-off for Miller TurboLite™ Personal Fall Limiters (PFLs). G2 Connector provides an alternative to double-leg lanyards - reducing fall clearance requirements for use in more applications. Connects to harness webbing below the D-ring and frees harness D-ring for rescue and connection to an overhead self-retracting lifeline (SRL). PFLs swivel independently for increased worker mobility and prevent webbing from twisting and binding in the unit. Lightweight twin connector increases productivity by reducing worker fatigue. Corrosion-resistant aluminum connector with high-impact nylon result in a longer product life. Webbing Retainer Clip rotates freely to prevent unintentional opening of carabiner gate during a fall; accommodates thicker webbing designs for more versatility and allows for easy insertion of webbing. D-Pad Clip maintains harness adjustment while working by keeping the harness webbing and D-Pad in place. Twin Turbo G2 Connector meets all applicable OSHA, ANSI (Class A and B) and CSA standards and requirements. Connectors rated at 3,600 lbs.

9501403

**3M™ DBI-SALA® SUSPENSION TRAUMA SAFETY STRAPS**

Allows suspended worker to stand up in harness relieving pressure on arteries and veins around top of legs. Continuous loop design allows both sides of harness to relieve pressure. Strap provides increased comfort and improved circulation to one or both feet at a time while suspended. Safety accessories can be attached to most harness brands/styles right in the field. Installation is fast and efficient - just choke off to strap. Stows easily and stays out of worker's way. To deploy, simply unzip, hook straps together and step into. Sold as set of 2. Harness not included.

ITEM #	MARTIN #	DESCRIPTION	UOM	PRICE
9501403	DBI9501403	Suspension trauma safety straps	SET	\$35.54

9099

**MILLER RELIEF STEP™ SAFETY DEVICE**

Short-term solution alleviates effects of suspension trauma. When a fall occurs, the worker becomes suspended in harness, remaining vertical and sedentary for a long period of time. This causes blood to pool in leg veins, restricts flow to the brain and other major organs and may cause unconsciousness. Device attaches to any brand full-body harness. By utilizing one for each leg/foot, the worker is more comfortable until rescue is completed.

**TOOLS@HEIGHT  
3/8" DRIVE SHALLOW SOCKETS**

SUPERTORQUE® lobular openings for greater turning power without deforming the fastener. Designed for maximum engagement on 12-pt. fasteners. High-polished chrome finish. Features locking pin and locking holes on all four sides, for positive retention. This reduces the risk of misaligning the socket that occurs with typical sockets with one side hole.

**WARNING**

Compliant fall protection and emergency rescue systems help prevent serious injury during fall arrest. Users must read and understand the *User Instructions* provided with the product and be properly trained by their employer prior to use per OSHA 1910.66 and 1926.503 or applicable local standards. **Misuse or failure to follow warnings and instructions may result in serious personal injury or death.** For proper use, see supervisor, *User Instructions*, or call Technical Service at 1-800-560-1094.

### 3M™ DBI-SALA® PYTHON SAFETY® TOOL HOLSTERS

- Tape Measure Holster:** Designed to be used with virtually any tape measure, allowing Tape Measures to be safely tethered and holstered. Includes a Python Safety Retractor. The Tape Measure Sleeve conforms to the size of nearly every Tape Measure. Features Beacon™ Hi-Vis Reflectors.
- Pouch Holster with Retractor:** Quickly holster tape measures and other small tools. Includes a Python Safety Retractor.
- Scaffold Wrench Holster with Retractor:** Quickly holster scaffold wrenches while working at height. Features Beacon™ Hi-Vis Reflectors.
- Hammer Holster:** Allows for the safe holstering of virtually any hammer under 5 lbs. D-Ring on the side of the holster is load rated for 5 lbs. HOL-HAMMERCOMBO comes with a Hook2Quick Ring Coil Tether with Tail that is specially designed for use with the Hammer Holster. Hook2QuickRing Coil Tether is load rated for 2 lbs. During Transport, the Hammer Holster can be locked shut with a hook-and-loop strap. While being used, the strap can be locked up allowing for easy hammer access and holstering.
- Adjustable Radio Holster:** Holster adjusts to fit virtually any handheld radio, cell phone, and many other devices. Can be worn from Belt or Harness. A Micro D-Ring can be placed on the back of a device, and can then be tethered to a D-Ring on the front of the Adjustable Radio Holster using a Clip2Loop Coil Tether.
- Spray Can/Bottle Holster:** Flexible neoprene holster allows for quick tethering of bottles and spray cans. HOL-BOTTLECOMBO comes with Clip2Clip Coil Tether.
- Drill Battery Holster/Sleeve:** Unique sleeve design conforms to the size of virtually any drill battery. Sleeve is cinched to the drill, allowing the drill to be tethered off while being used at height. 10-lb. load rating.

### SQUIDS® 3001 RETRACTABLE SINGLE CARABINER WITH LOOP END

Retractable tool lanyard with stainless steel carabiner attachment and choking loop end. Locks into place at desired length preventing tangles and work under tension while securing tools.

#### Features:

- Extendable length up to 48"
- Modular connecting buckle for exchanging tools
- Plated swiveling ring for 360° rotation
- Loop and manual locking stainless carabiner
- Technora cord for ultimate strength and durability
- Self-setting pawls set desired lanyard length
- ABS thermoplastic housing for ultimate durability
- Maximum safe working capacity: 2 lbs.

**SQUIDS® 3130 COILED CABLE LANYARDS**

Coiled cable lanyard keeps the length of the lanyard close to the anchoring point, reducing snag hazards of traditional lanyards while preventing dropped objects. Swiveling design prevents tangles and headaches the coiled design can cause and reduces recoil force preventing aggressive snap back. Constructed with PU-covered aircraft cable for ultimate strength and durability. Stainless steel carabiners (#304) for corrosion resistance; captive eye carabiner with screw gate for locking connection. Choose from 6 1/2" coiled/50" extended length with 2-lb. working capacity or 7" coiled/51" extended length with 5-lb. working capacity.

**⚠ WARNING:** This product can expose you to chemicals including DEHP, which is known to the State of California to cause cancer. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

## TOXIRAE PRO LEL SINGLE-GAS MONITORS FOR COMBUSTIBLE GASES, MODEL PGM-1820

Designed for the detection of combustible gases (LEL). This wireless, single-gas monitor is capable of 5-way local and remote alarm notification. Rugged, intrinsically safe and features three months of continuous datalogging, the largest display in their class, user-replaceable intelligent sensor, rechargeable battery and an automatic calibration option with AutoRAE 2.

### Unit includes:

- ToxiRAE Pro LEL monitor with sensor, alligator clip, protective rubber boot, and rechargeable battery installed
- Charging and PC communication cradle
- PC communication cable
- AC adapter (100 to 240 V, 50/60 Hz AC to 12 V DC)
- Calibration adapters
- CD with documentation
- ProRAE Studio II software for PC-based instrument configuration and data management
- Calibration card; quality certificate; packing list; and warranty/registration card
- Quick Start Guide

## X-DOCK® 5300 TEST AND CALIBRATION STATIONS

Provides automatic bump tests, calibration, reduced test gas consumption, short testing times and comprehensive documentation. Comes in multiple configurations to allow for flexibility depending on the type of detection instrumentation being used. The X-dock 5300 includes a master controller with a module for a single gas detection instrument in the X-am 1/2/5000 or Pac family of products; the X-dock 6300 and 6600 versions can be configured freely- a master controller and up to 10 modules for X-am 1/2/5000 and/or Pac single gas detection instruments.

### Features:

- Touchscreen operation at the master controller station
- Up to 3 configurable test routines
- Automatic permeability tests
- Automatic tests of all alarm elements (acoustic, visual and vibration alarms)
- Optional charging function for X-am 1/2/5x00
- Easy to replace seal cartridge
- 12 V operation (e.g., in vehicles) available
- Can be subsequently expanded with up to max. 10 modules (X-dock 6300/6600)
- Sensor performance testing

**TOXIRAE PRO SINGLE-GAS MONITORS FOR TOXIC GASES AND OXYGEN, MODEL PGM-1860**

A wireless personal single-gas monitor capable of 5-way local and remote alarm notification. Rugged, intrinsically safe instruments feature three months of continuous datalogging, the largest display in their class, user-replaceable intelligent sensor, rechargeable battery and an automatic calibration option with AutoRAE 2. Unit includes:ToxiRAE Pro monitor with sensor, alligator clip, protective rubber boot, and rechargeable battery installedCharging and PC communication cradlePC communication cableAC adapter (100-240 VAC, 50/60 Hz AC to 12 VDC)Calibration adaptersCD with documentationProRAE Studio II software for PC-based instrument configuration and data managementQuick Start Guide Ammonia (NH3) 0-00 ppm Carbon Dioxide (CO2) 0-50,000 ppm Carbon Monoxide (CO) Ext. **MICRORAE™ MULTI-GAS MONITOR**

Wireless multi-gas diffusion monitor simultaneously measures up to four gases, including hydrogen sulfide, carbon monoxide, oxygen and combustibles (LEL). With its multiple wireless connectivity options the MicroRAE can deliver real-time instrument readings, location, and alarm status to other wireless solutions such as ConneXt Plus, ConneXt Pro, ConneXt Loneworker and Safety Communicator.

M031-4111-200

**Features:**

- Honeywell ConneXt compatible with Mesh and Wi-Fi wireless configurations
- Real-time gas concentration reading, location, alarm and status enabled by state-of-the-art wireless technology
- Bluetooth® low energy connection to a Smart Phone device for uplink data communication and device configuration
- Compact and lightweight design
- IP-67 water- and dust-resistant case
- Strong, protective, concussion-proof design
- Unmistakable 5-way local and remote wireless notification of alarm conditions
- Short bump test and calibration time
- Filtered LEL sensor options to inhibit sensor poisoning
- Global approval for worldwide acceptance

## ULTRARAE 3000

Photoionization Detector (PID) with extended range of 0.05 to 10000 ppm in VOC mode and 50 ppb to 200 ppm in benzene-specific mode makes it an ideal instrument for applications from entry pre-screening during refinery and plant maintenance to hazardous material response, marine spill response and refinery down-stream monitoring.

### Monitor only includes :

- UltraRAE 3000 monitor, Model PGM-7360
- Wireless communication in built, as specified
- Datalogging with ProRAE studio
- Travel download charger
- RAE UV 9.8 eV lamp with RAE-Sep™ tubes for Benzene
- Flex-I-Probe and short probe
- External filter
- Alkaline battery adapter
- Lamp cleaning and tool kit
- Li-ion battery with universal AC/DC adapter and international plug kit, if specified
- Resources CD-ROM and maintenance manual
- Soft leather carrying case

### Accessory kit includes:

- Hard case with pre-cut foam
- Charging/download cradle
- (5) Porous metal filters and O-rings
- Organic vapor zeroing kit

### Calibration kit includes:

- Calibration gas, 34 L, as specified
- Calibration regulator and flow controller

059-D310-000

## QRAE 3 MULTI-GAS MONITORS

Versatile, rugged, multi-sensor gas monitor that provides continuous exposure monitoring of combustibles and toxic gases, including hydrogen sulfide (H2S), sulfur dioxide (SO2), carbon monoxide (CO), hydrogen cyanide (HCN) and oxygen (O2). Unit is certified for use in hazardous environments where exposure to toxic gas is a constant safety threat. Wireless communication capability enables access to real-time, remote instrument readings and alarm status, including an innovative Man Down Alarm. Large graphical display, icon-driven user interface through intuitive, 2-button operation.

QRAE 3  
MULTI-GAS  
MONITOR

### Features:

- Extensive onboard gas library (dedicated 55 LEL correction factors)
- Easy maintenance with user-replaceable sensors, pump, and battery
- Fully-automated bump testing and calibration with AutoRAE 2
- IP Rating: pumped: IP-65, diffusion: IP-67
- Datalogging: Up to three months (4 sensors at 1-minute interval, 24/7), user-configurable
- LOW, HIGH, STEL (toxic) and TWA (toxic) alarms, user-configurable
- Alarms: bright visual alarm, 95dB audible alarm, vibration alarm
- Certifications: CSA Class I, Division 1, Groups A, B, C and D

## MULTIRAE LITE MONITORS

Optimal one-to-six-gas monitor for personal protection and multi-gas leak detection applications. Available in pumped and diffusion versions with a broad selection of sensor options. Configurable to meet the needs and compliance requirements of various countries, industries and applications.

### Features:

- Unmistakable 5-way local and remote wireless notification of alarm conditions, including Man-Down Alarm
- 25+ Interchangeable intelligent sensors, including PID for VOCs, NDIR and catalytic LEL for combustibles, and NDIR for CO2
- Large graphical display with easy-to-use, icon-driven user interface and automatic "flip" feature
- Continuous datalogging (6 months for 5 sensors, 24x7)
- Easy maintenance with replaceable sensors, pump, and plug-and-play lithium-ion battery

**RAELINK 3 WIRELESS MODEM**

License-free, ISM band RF transmission with communication range up to 500' with optional RAELink 3 modem. RAELink 3 modem provides GPS capability to track and display readings from remote detectors and provide long-distance transmission. The unit is also a compatible wireless upgrade package for MiniRAE 2000, ppbRAE Plus and MultiRAE Plus detectors. It allows real-time monitoring information from these detector to be integrated into an existing AreaRAE system. This modem transmits readings and other information on a real-time basis to a remotely located AreaRAE base controller. Call for further ordering details.

**CONNEXT PACK  
CONFINED SPACE ENTRY KITS**

ConneXt Packs are a rapidly deployable confined space entry gas detection solution. Kits include 1-4 pumped or diffused gas monitors with sensing capabilities of CO, H2S, O2, LEL, a wireless host, and various accessories. The operation is simple, remove the devices from the case, press the on button, and the worker is ready to enter a confined space while the attendant is able to view toxic gas levels in real time from the wireless host, ensuring the confined space entrants are safe.

**PRORAE GUARDIAN  
MOBILE COMMAND CENTER**

Represents an advanced generation of real-time wireless gas detection software and serves as a mobile command center for threat-detection needs. Allows incident commanders and safety managers to get constantly updated, real-time data anywhere and anytime. Software connects, integrates and relays data from RAE Systems' and select partners' wireless products to remote monitors. Accepts real-time detector data and instantly displays device status, alarm and sensor reading information, integrating all information on a single, dynamic map display. Monitors installation from anywhere in the world. Geographically dispersed teams can coordinate threat responses while simultaneously viewing the same situational data, all in real-time.

**Features:**

- Lower deployment costs
- Increased situational awareness
- 24/7 documentation of exposure conditions
- Early warning and tracking of hazardous threats
- Ideal for rapid deployment situations
- Real-time display of device status, sensor readings, and alarms
- Redesigned user interface with simultaneous on-screen instrument readings
- Integrated Google™ Maps show precise instrument locations with alarm status
- Remote alarming via email and text messages
- Datalogging in text and graphical formats, including boolean filters
- Open platform for third-party devices and systems
- Image overlay option

## ALTAIR® 2X GAS DETECTORS

Rugged, intrinsically-safe gas detector is available in (3) models to fit all situations. Features tough over-molded rubber armor that can survive 25' drops onto concrete. Agency certified dust- and water-tight IP67 construction. Three-year warranty on instrument and most sensors (2-years on Cl2, NH3).

- **ALTAIR 2X single-gas detector** incorporates proven XCell® sensor technology and records hours of periodic data
- **ALTAIR 2XP single-gas detector** with XCell Pulse Technology features stand-alone bump test anytime, anywhere without specific calibration gas; records hours of periodic data

## ALTAIR® 2XT TWO-TOX GAS DETECTORS

Eliminates the need for a second detector by utilizing proven XCell Two-Tox Sensors. Detects 2 gases on distinct sensor channels with digital output that minimizes cross-channel interference. Real-time LED and on-screen visual indication of bump test compliance. Event, peak and calibration records data logged for full traceability. IP 67 ingress protection, 25' drop test. Only need 1 device to monitor 2 gases. Records 300+ alarm events and 850+ hours of periodic data, including bump and calibration records. Compatible with MSA Galaxy® GX2 Automated Test System and MSA Link Pro Software. Four-year expected instrument and sensor life. Three-year warranty on instrument and most sensors.

## ALTAIR® 4XR MULTI-GAS DETECTORS

Sense gas 2X faster than the industry average with XCell® sensors. Quickly update MSA ALTAIR 4XR settings via the ALTAIR Connect app. Survives 25 drops from 4' (1.2 meters) (MIL-STD-810G drop protection). Dust- and waterproof IP68 rating (2 meters for at least 1 hour). Operating temperature range: -40° F to +140° F. Four-year instrument and sensor warranty. Charcoal case.

**ALTAIR® 5X  
MULTI-GAS DETECTORS**

Measures up to 6 gases simultaneously and can be fitted with a wide range of both toxic and infrared sensors. Features MSA's XCell® sensors with extended range covering SO2, Cl2 and NH3. Offers superior stability, accuracy, repeatability, fast response and longevity. Standard sensors designed for average life of more than 4 years (more than 3 years for SO2, Cl2, and NH3); allow for faster response/clear times, bump tests in less than 10 seconds, and span calibration time of 60 seconds for common configurations; provide greater signal stability and repeatability under changing or extreme environmental conditions; are plug-and-play-capable. End-of-sensor-life indicator gives advanced warning to user, eliminating service outages. Event/data log records up to 500 events. MotionAlert™ triggers alarm if user remains motionless for 20 seconds. InstantAlert™ allows users to manually activate all alarms to alert others to potential hazards. Includes triple alarm system (visual, audible and vibration), large hi-res LCD screen (color or monochromatic), 24-hour bump test checkmark, rugged rubberized housing and ergonomic design, auto calibration, Li-polymer battery with up to 18 hours usage between charges, 10' sampling line and 1' probe. MSA Link™ software and Galaxy® system compatible. IP65 rated for dust and water ingress. Wireless Bluetooth included standard.

The Safety Company

10128642

**GALAXY® GX2  
AUTOMATED  
TEST SYSTEM**

Provides simple, intelligent testing and calibration of MSA ALTAIR® and ALTAIR PRO Single-Gas Detectors and ALTAIR 4X and ALTAIR 5X Multi-Gas Detectors. Easy-to-use automated test stand offers high performance as either stand-alone unit or integrated portable detector management system, enabling total data access and control of the MSA ALTAIR family Gas Detector fleet. New MSA Link™ Pro Software for proactive safety management; gas exposure email alerts, direct data input, live filtering, test and exposure queries, collecting and printing reports.

**Features:**

- Color touch screen for ease of setup and viewing
- Extremely simple to use; testing starts automatically without touching a single button
- Simultaneous testing of up to ten instruments
- Galaxy GX2 System is optimized for use with MSA's XCell® Sensors; provides up to 50% cost of ownership reduction
- At-a-glance indicators include low calibration gas volume, expiration warnings and test stand status
- MSA Link Pro Software provides proactive safety management, dashboard overview and total record-keeping
- 18 Languages available for test stand and MSA Link Pro Software that simplifies usage and reduces training

## GAS MISER® DEMAND REGULATORS

Constructed of nickel-plated brass and polished aluminum (especially important for reactive gases). Regulator can supply gas flow from 0.1 lpm to 3.0 lpm. Designed for use with any MSA Model RP Calibration cylinder except chlorine and ammonia and features automatic ON/OFF valve that releases gas only on demand, using only amount of gas needed to calibrate your MSA instrument. When calibration is complete, regulator shuts off automatically. Regulator can stay connected to cylinder where it remains in ready state, making it ideal for fixed installations such as work benches and calibration stations. Eliminates need to change regulators to accommodate different instruments or flow rates. Supplied with calibration tubing and special fitting.

710288

710289	MSA710289	Model BD-20 w/ CGA fitting	EA	\$529.44

## MSA FIXED FLOW REGULATORS

Available in the Model R and Model RP, each with fixed flow rates of 0.25 and 1.5 lpm. Fixed flow design provides constant and accurate flow to the instrument pump or aspirator. Approved for all MSA calibration gases.

## MODEL RP CALIBRATION CHECK KITS

Kits consist of regulating valve which includes gauge to measure container pressure, adapter hose, sensor adapter (where applicable), instructions and case fitted with room for (2) Model RP cylinders of calibration check gas.

**477149** Calibration check kit includes: regulator (0.25 lpm); tubing, 30' (without sampling line connection); calibration plug for MSA electrochemical sensors; zero plugs for MSA electrochemical sensors; calibration plug for MSA electrochemical sensors.

**477150** Calibration check kit includes: regulator (1.5 lpm) and (2) adapter hoses- (1) each with and without sampling line connection.

**SMART DIAMOND-PLATE NO. 497**

Anti-fatigue mats designed to provide comfort and increase productivity of standing workers. Reduces the level of overall fatigue, decrease isolated lower body aches and pains, and absorbs the shock of walking on hard surfaces. An economical and "green" solution. Abrasion-resistant Diamond-Plate surface is bonded to 100% recycled urethane composite sponge base. Comfortable and functional in dry industrial applications. Available in UltraSoft 1" thickness. Lasts five times longer than traditional sponge mats. Made from 80% recycled content.

**ERGODECK® HEAVY-DUTY OPEN GRID #560**

For use in wet and non-greasy areas or in dry environments where small debris can drop through matting system. System of 7/8" thick, super-sized ergonomic tiles, ramps and corners. Quickly and easily covers large areas and requires less time and labor to install. Features LockSafe®, a patented and totally effective, interlocking system that quickly "locks" tiles together, and keeps them together despite constant use. Heavy-duty #560 provides flexibility underfoot and reduces fatigue, yet also withstands cart traffic and heavy usage. Tiles can endure up to 64 psi, the equivalent of a 300 lb. cart with 4" diameter wheels.

**24/SEVEN® OPEN #572**

Modular, anti-fatigue mats are designed to work 24/7 to keep employees comfortable. Hidden interlocking system works as a single workstation mat or to cover large areas. Drainage surface allows fluids and debris to freely flow through, preventing pooling of liquids. Available in (3) compounds: grease-resistant for all-purpose use, nitrile compound for exposure to petroleum based/industrial fluids, and CFR formulation for areas with mineral oil base cutting fluids and solvents. Available with optional safety borders. Overall thickness is 5/8".

## Master Lock

### ZENEX™ THERMOPLASTIC SAFETY PADLOCKS

Designed exclusively for lockout/tagout applications. Features 1/4" dia. metal shackle. The Zenex thermoplastic lock body provides durability while still being lightweight. Padlock features a reserved-for-safety, key retaining cylinder to ensure padlock is not accidentally left unlocked. Each padlock has a keyed-alike or keyed-different, 6-pin cylinder to reduce risk of key duplication within key system. Cylinder features over 40,000 key changes. Includes (1) key to comply with the "one employee, one lock, one key" industry guideline. Available in red, yellow, green, blue, orange, black, teal and purple.

**⚠️ WARNING:** This product can expose you to chemicals including Bisphenol A (BPA), which is known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

## Master Lock

### NON-SPARKING PADLOCKS

Nylon shackle helps prevent electrocution, arc flashing and electrical current from shackle to key. All components are non-sparking and non-magnetic. Designed exclusively for lockout/tagout applications. Durable, lightweight, non-conductive Zenex™ lock body. Key retaining ensures that padlock is not left unlocked. 1 1/2" W x 1 3/4" H Zenex™ thermoplastic lock body and nylon shackle shackle with 1 1/2" clearance.

**⚠️ WARNING:** This product can expose you to chemicals including Bisphenol A (BPA), which is known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

## AMERICAN LOCK ALUMINUM SAFETY PADLOCKS

Color-coded solid aluminum padlocks are perfect for lockout/tagout. Available with exclusive laser engraving. Helps comply with OSHA regulations. Padlocks have an anodized finish. Lightweight, corrosion-resistant padlock bodies have case-hardened, boron alloy steel shackles, and 5-pin solid brass cylinders. Approximately 10,000 key changes available, limiting the possibility for key duplication. Cylinders can be re-keyed.

## BRADY

### REINFORCED NYLON SAFETY PADLOCK

Special 6-pin cylinder resists tampering and results in more unique key cuts, reducing the likelihood that one worker's key will open another's lock. Non-conductive red body resists sparking. Compact and lightweight, with 1 1/2" shackle. Constructed of reinforced nylon for chemical, corrosion and temperature resistance. Complies with all applicable OSHA lockout requirements.

**⚠️ WARNING:** This product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

## STANDARD LOCKOUT TAGS

Lockout tags comply with OSHA lockout standard. Feature a reinforcing brass grommet with 3/8" dia. to accept most padlocks. All tag material surfaces allow for easy personalization of tags with name, department and estimated completion information as required by regulations. Choose from two durable materials:

### Heavy-Duty Polyester (B-837):

Durable polyester laminate protects graphics and holds up against water, grease and extreme temperatures. Heavy-duty construction prevents accidental removal. Withstands up to 80 lbs. pullout force. 7/16" Diameter brass grommet. 5 1/2" x 3".

### Economy Polyester (B-851):

Rigid polyester surface is easy to write on and stays legible longer. Exceeds OSHA 50 lb. pullout requirement. 3/8" Diameter brass grommet. 5 3/4" x 3".

Side B: This energy source has been LOCKED OUT! Unauthorized removal of this lock/tag may result in immediate discharge.

Side F: This energy source has been LOCKED OUT! Only the individual who signed the reverse side may remove this lock/tag.

## LIQUID CONCENTRATE ZERO

Low calorie, no sugar beverage, providing an ideal solution for diabetics or consumers monitoring their daily intake. Includes the same electrolyte content as regular Squwincher® (low sodium and great source of potassium to aid the body in replenishing essential elements lost to heat stress and fatigue). Mixes quickly and easily with water. Yield: 64 oz. concentrate makes 5 gals.

**TAGS BY-THE-ROLL**

Safety Tags identify a temporary hazard until that hazard is eliminated or hazardous operation is complete. They comply in accordance with OSHA 29 CFR 1910.145 and ANSI Z535 requirements.

Tags By-The-Roll allow you to keep a large quantity of safety tags available. Features a 6 5/8" x 6 5/8" x 3 5/8" eye catching, octagon shaped disposable cardboard dispenser which includes a 1 1/2" perforated center hole for mounting with tags housed inside for portability. Simply pull out the 6 1/4" x 3" tag from the box to easily tear off. Made from pulp free cardstock which is more durable than traditional cardstock, and will not crack, distort, or shrink. Matte surface is scuff resistant and easy to write on with pen or marker.

**ACCIDENT PREVENTION SAFETY SIGNS**

Signs identify and indicate the potential, type, and degree of hazards that may lead to accidental injury or property damage. They comply in accordance with OSHA 29 CFR 1910.145 and ANSI Z535 requirements.

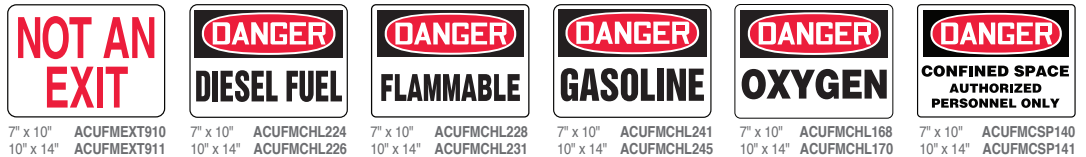

**Adhesive Vinyl (VS)**

Ideal for indoor and sheltered outdoor marking needs. Vinyl with printed matte surface. Permanent acrylic adhesive back with peel off liner.

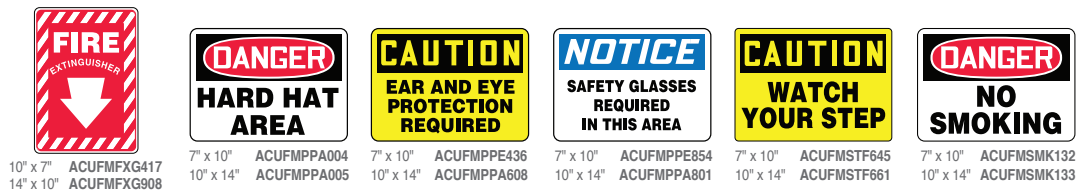

**Plastic (VP)**

Durable plastic has slight flex that is ideal for indoor and sheltered outdoor environments. Printed surface has clear UV protective overcoat. Plastic has 50% recycled content with UV inhibitors and good impact resistance. Rounded corners with 3/16" mounting holes for installation.

**Aluminum (VA)**

Withstands splashes and washdowns indoor and out. Provides the strength of metal, without rusting. Text is printed on rigid aluminum sheet with UV protective coating. Rounded corners with 3/16" mounting holes for installation.

**HOW TO ORDER SIGNS**

- Select Sign; ACUFMADM006
- Select Material Code; Plastic - VP
- Order Part Number; ACUFMADM006VP

MATERIAL	MATERIAL CODE	7" x 10"	10" x 14"
Adhesive Vinyl	VS	\$7.62	\$11.42
Plastic	VP	\$8.30	\$12.40
Aluminum	VA	\$12.12	\$20.12

### ACCIDENT PREVENTION SAFETY LABELS

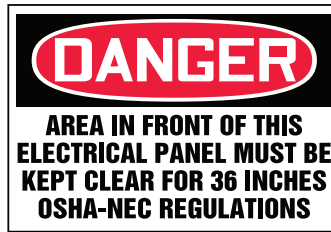

Labels identify and indicate the potential, type, and degree of hazards that may lead to accidental injury or property damage. They comply in accordance with OSHA 29 CFR 1910.145 and ANSI Z535 requirements. All labels measure: 3 1/2" x 5".

#### Adhesive Vinyl (VSP)

Flexible vinyl can be applied to curved surfaces such as pipes, poles, and secondary containers. It is moisture resistant for a variety of light-duty indoor and sheltered outdoor marking needs. The printed matte surface has permanent acrylic adhesive back. Finishing includes square corners and scored back liner for quick peel-off and application. Available in packs of 5.

#### Dura-Vinyl™ (XVE)

Printed image protected by a high-gloss UV protective coating for durability indoor and outdoor marking locations. Has permanent acrylic adhesive back. Dual-layer flexibility can be applied to curved areas such as pipes, poles, and secondary containers. Round corners and scored back liner for quick peel-off and application. Available each.

**ACCIDENT PREVENTION SAFETY TAGS**

Safety Tags identify a temporary hazard until that hazard is eliminated or hazardous operation is complete. They comply in accordance with OSHA 29 CFR 1910.145 and ANSI Z535 requirements. All tags measure: 5 3/4" x 3 1/4".

**PF-Cardstock (CTP)**

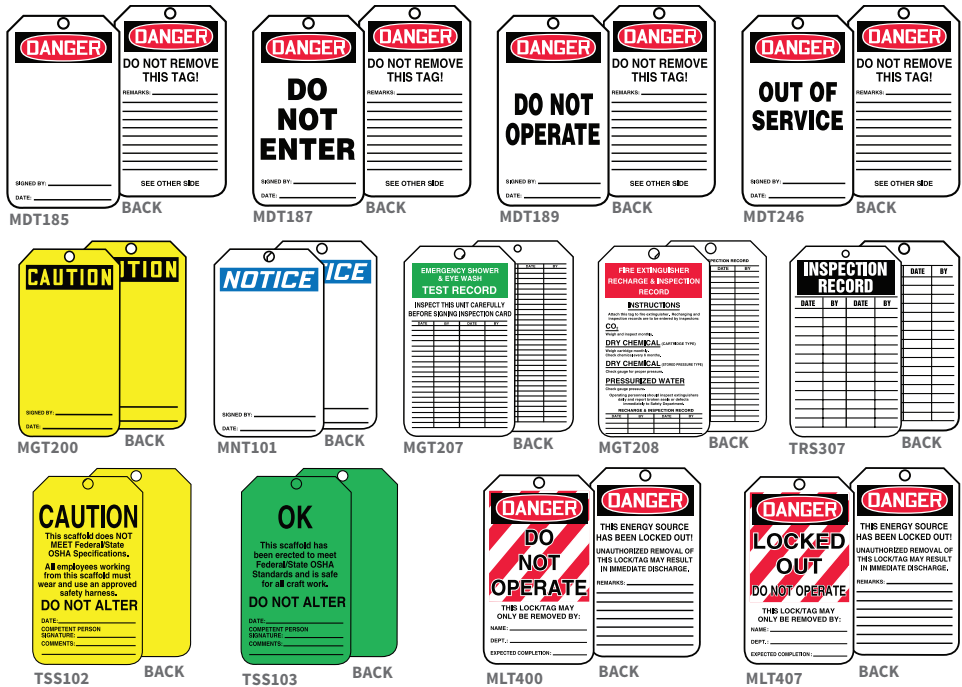

Thin, flexible poly-based cardstock without wood content. Tear-resistant, waterproof, and will not crack, distort, or shrink. Matte surface with 3/8" hole.

**RP-Plastic (PTP)**

Durable plastic resists chemicals, tears, abrasions, dirt, and grease. 3/8" brass grogmet with 50-pull strength.

**HS-Laminated Plastic (LTP)**

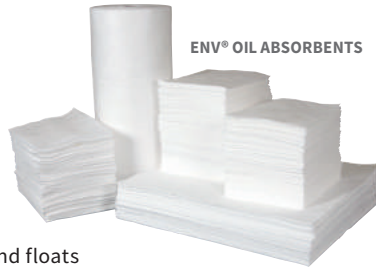

Tear-proof, chemical-resistant, waterproof tags ideal for harsh conditions. Thick matte plastic with 3/8" brass grogmet with 50-pull strength.

**⚠ WARNING:** RP-Plastic and HS-Laminate tags can expose you to chemicals which are known to the state of California to cause birth defects and other reproductive harm and/or cancer. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

ENV® OIL ABSORBENTS

## ENV® OIL ABSORBENTS

Used for oil and petroleum-based fluids. Equally effective on land and water. Repels water and floats indefinitely, even when saturated. Pads and rolls are MAXX Enhanced for greater performance without extra weight.

ITEM #	MARTIN #	DESCRIPTION	SIZES	UOM	PRICE
ENV200	BRAENV200	Pads, lightweight	15" x 19"	200/BL	\$79.19

ENV810	BRAENV810	Economy booms w/ blue sleeve	8" x 10'	4/BL	\$153.44

SPC® OIL ABSORBENTS

## SPC® OIL ABSORBENTS

Convenient and cost-effective, oil sorbents will not absorb water: will float indefinitely, are wringable, dustless, unaffected by temperature, flame-resistant and impervious to both rot and mildew. Pads are dimpled and perforated. Rolls are impact bonded. Pillows and booms are lint-free. Product is also incinerable and leaves only .02% ash.

WDM150

## MELTBLOWN DIMPLED OIL-ONLY SORBENTS

Similar to MBT standard meltblown products. Media is passed through a thermal bonder, which ties down loose fibers. Dimpled sorbents are also perforated, which minimizes waste. Selectively absorbs oil, repels water. Highly absorbent white products also show where liquids are absorbed.

ITEM #	MARTIN #	DESCRIPTION	SIZES	UOM	PRICE

YSMF100-HV

## HIGH-VISIBILITY HAZMAT ABSORBENTS

Provides protection against slips, trips and falls. Caution mat has the international symbol for slip hazard repeating throughout the mat making it ideal for use anywhere from factory to hospitality. Spunbond side is abrasion-resistant, great for foot traffic or heavy-duty wiping applications. Fine fiber side grips smooth surfaces (like cement) to reduce slips, trips & falls. Absorbs most fluids, including oil (hydrocarbon-based fluids), water, glycols, acids and caustics. A perforation helps reduce waste.

AW1818	BRAAW1818	Pillows	16/CS	\$102.95

## THIRSTY SOCK, PADS AND MEGA THIRSTY PADS

Ideal for tight spaces where buckets won't fit. Can be left in place to absorb leaks – no need for repeated mopping. Surfaces are quickly made safe from slip hazards. Maintain clean and dry working for public-access areas. Avoids lasting damage to flooring. Easy disposal in standard waste, liquid turns to gel – no drips or cross-contamination. Each pad can absorb 5 gallons. Each sock can absorb 2.5 gallons.

## ALLWIK® SOCS

Dependable, flexible tubes contain and absorb liquid spills. SOCs mold around corners and conform to uneven surfaces to prevent spreading and soak up spills and drips around the workplace. Available in a variety of types and sizes for any application.

AW124

## INDUSTRIAL ABSORBENT SOCKS

Ideal for absorbing leaks and spills around machines, as well as helping to keep a facility in compliance. Absorbent socks provide great flexibility to bend or wrap the sock around equipment to catch leaks in tight spaces.

- White oil-only socks absorb hydrocarbon-based fluids and repel water. Great for outdoor applications. Also used near entrance ways to keep rain out.
- Gray universal socks absorb general fluids, such as oil, water, cutting fluids, glycols, etc. Used to line and protect walkways, drains, and entrances.
- Yellow hazmat socks are used in laboratory-type environments, or in spill kits, for emergency spill situations involving hazardous/aggressive chemicals such as acids.

**TRI-FOLD ROLLS**

Can be used as a sock or unfolded and used as a pad. Available in universal gray that absorbs oils, coolants, solvents and water-based fluid; or oil-only white that selectively absorbs oils, while repelling water. Unfolds to 15" wide. Perfed every 17". Measures: 5" x 50'.

**DRUM TOPPERS**

Keep drum tops clean. Pads mount on 55-gallon drums to eliminate messy drips and overflow when mixing or pumping liquids. Ideal for oil spill control and spill clean-up for messes around drums. Pads soak up oil, coolants, solvents and water. Two pre-cut bunghole cutouts to fit evenly on 55-gallon drums. Available in gray (universal) or white (oil-only) for indoor use. 22" dia.

**SPUNBOND FINE FIBER AND CAMO SORBENTS**

Industrial camouflage mats are great for hiding fluid stains and foot prints. Hi-viz orange infused into the camo pattern allows better visibility even in low light conditions, further preventing slips, trips, and falls. Stiff, durable, camouflage side faces up, and the soft, tacky, fine fiber side goes down. Perforated for ease of used.

## OIL-ONLY SPILLTRATION® ORIGINAL SMOOSHKIT™

SmooshKit is all about space savings. Smooshing technology solves the common space constraints that many fleet and remote industries face. Proprietary process compresses material into compact packages that can fit anywhere. Ideal for back seat of pickup trucks, glove boxes, toolboxes and other utility containers. A handy UnSmoosher is provided to easily open the SmooshKit.

### SPL046 and SPL054 kits contain:

- (30) White oil shammy towels
- (5) Gray Husky pads
- (1) Pair nitrile gloves
- (1) Yellow disposal bag

### SPL067 kit contains:

- (3) Gray Husky strips
- (3) Gray Husky pads
- (5) Yellow universal pads
- (1) Pair nitrile gloves
- (1) Yellow disposal bag

### SPL082 kit contains:

- (2) Gray Husky strips
- (5) Gray Husky pads
- (1) Pair nitrile gloves

## CONTROLLING TERMS AND CONDITIONS

All purchases and sales of products (the "Products") and services (the "Services") between Buyer and Martin Inc. (or any affiliate thereof, "Martin Inc.") shall be made pursuant to and on the price terms indicated in Martin Inc.'s quote and/or order acknowledgment and shall be governed by these Terms and Conditions. These Terms and Conditions and Martin Inc.'s quote and/or order acknowledgment shall constitute the entire agreement between the parties pertaining to the subject matter hereof, and shall supersede all prior or contemporaneous oral or written negotiations, agreements, understanding or representations with respect thereto. These Terms and Conditions shall supersede any conflicting provision contained in any purchase order of Buyer. Unless otherwise agreed in writing, nothing contained in any purchase order of Buyer shall in any way modify or add any provision to these Terms and Conditions. These Terms and Conditions may not be amended or any provision hereof waived in any way except by an instrument in writing signed by both parties. If Martin Inc.'s quote is deemed an offer, Buyer agrees that its acceptance of such offer is expressly limited to provisions contained solely in these Terms and Conditions. Buyer's issuance of a purchase order shall solely be deemed to be an acceptance of these Terms and Conditions. If Martin Inc.'s order acknowledgment is deemed to be an acceptance of Buyer's purchase order, Martin Inc.'s acceptance of such purchase order is expressly made conditional on Buyer's assent to any additional and different terms contained herein, and failure by Buyer to specifically object to these Terms and Conditions in writing within twenty (20) days of receipt shall constitute an acceptance of these Terms and Conditions.

### PRICES

Prices displayed in all printed catalogs or printed promotional materials are effective as of the date of the publication and are subject to change without notification. Prices shown are for product only and do not contain any shipping, handling, sales tax, or other applicable charges. Once an order is accepted by Martin Inc., any cancellation of the order requires Martin Inc. authorization and may be subject to cancellation charges.

### SALES TAX

Buyer shall pay, where applicable, any and all such charges, assessments, levies, taxes, value added taxes or other governmental charges of any nature whatsoever now or hereafter imposed by or under the authority of any law, rule or regulation with respect to the Products and Services sold or with respect to the ownership, manufacture, importation, transportation, installation, purchase, sale or use of the Products or Services related thereto, except for income taxes owed by the Seller. For clarity, all prices are exclusive of any of the items set forth in the immediately preceding sentence. In the event Customer provides to Martin Inc. a valid sales tax exemption certificate prior to order acceptance, Martin Inc. may elect not to collect tax with respect to such order; when placing an order a customer shall indicate any and all items that are tax exempt.

## SHIPPING

All products are shipped F.O.B. shipping point with the cost of the shipping and handling paid by Martin Inc. and charged to Buyer. Delivery time is not of the essence. Delivery is accomplished when Products are released to the shipping agent. Shipment schedules indicated in Seller's quote and/or order acknowledgment are approximate, and Seller will use commercially reasonable efforts to deliver on the date specified or within a commercially reasonable period thereafter. Seller does not accept liability for any loss arising from delay in delivery. Buyer assumes all responsibility for risk of loss or damage to the Products upon the Products being made available to Buyer's freight agent at Seller's designated manufacturing facility.

## PAYMENT TERMS

Seller shall not be obligated to ship any Products or provide any Services unless Buyer has paid in full all prior invoices in accordance with the terms of payment. For purposes of payment, each order and shipment shall be considered a separate contract and Buyer shall not be entitled to set-off against payments owing any amounts owing or alleged to be owing from Seller to Buyer for adjustments, set-offs or claims hereunder. Martin Inc. accepts cash, money orders, Visa, American Express and MasterCard. No cash discounts are allowed for early payment. For customers with established Martin Inc. credit, payment terms are net 30 days from date of invoice.

If Buyer's credit standing or financial condition becomes unsatisfactory to Seller in its sole discretion, or if Buyer breaches this agreement, Seller reserves the right to (a) require advance payments and /or C.O.D. terms, or (b) withhold shipments of Products or provision of Services in whole or in part, (c) recall goods in transit. Buyer agrees to pay (a) interest on the unpaid portion of any past due invoices at the rate of one and one half (1.5%) percent per month, or the legal maximum allowed interest rate, if less, and (b) all reasonable and necessary costs and expenses incurred by Seller in collecting any amounts due and owing, including but not limited to reasonable attorney's fees and all litigation expenses.

## PRODUCT RETURNS

Buyer shall inspect and examine all Products upon delivery thereof, and such Products shall be deemed accepted by Buyer unless Seller receives a written notice specifically describing the purported defect or nonconformity within fifteen (15) days of delivery. Failure to provide such written notice within such time period shall be deemed an unqualified acceptance and waiver of any rights to return the Products. Contact your Martin Inc. representative for instructions relating to product returns or other claims. Returns require a Martin Inc. return goods authorization ("RGA"). Proof of purchase will be required. Returns may be subject to a restocking fee. All requests for an RGA or any other claims relating to material shipped must be made within 30 days from the date of product shipment.

Seller shall have the right to cancel or terminate any unfulfilled order or any part thereof in the event Buyer (a) threatens or files a petition for voluntary bankruptcy, (b) is threatened with or has filed against it a petition for involuntary bankruptcy, (c) has appointed on its behalf a receiver or trustee, (d) executes an assignment for the benefits of creditors, or (e) otherwise breaches these Terms and Conditions.

For standard, stock items, Buyer may terminate without charge any unfulfilled order at its convenience by written notice to Seller received and processed by Seller prior to shipment. For all other items, Buyer may terminate any unfulfilled order at its convenience by written notice to Seller received and processed by Seller prior to shipment, but Buyer agrees to pay a restocking fee equal to the greater of twenty five percent (25%) of the Product purchase price or Seller's costs and expenses (whether direct or indirect, general or administrative) incurred in performing and preparing to perform this agreement, and terminating the same, up to the full purchase price (e.g., if Seller is unable to return the Product to the manufacturer). If the restocking fee remains due and owing more than thirty (30) days after Seller's notification of the same, Buyer agrees to pay, all costs and expenses of collection, including but not limited to, reasonable attorney's fees. If requested, Seller will inform Buyer whether an order contains standard, stock items only.

## INDEMNIFICATION

The customer agrees to defend, indemnify and hold harmless Martin Inc. and its affiliates from and against any and all claims or costs, including attorney's fees arising from or related to the customer's use of any products contained herein.

## DISCLAIMER AND LIMITATION OF LIABILITY

All products contained herein have been manufactured by an unrelated third party and as such are sold by Martin Inc. "as is". Martin Inc. DISCLAIMS ALL WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY AND FITNESS OF USE FOR A PARTICULAR PURPOSE. Martin Inc. SHALL NOT BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE OR CONSEQUENTIAL DAMAGES INCURRED BY THE CUSTOMER OR A THIRD PARTY ARISING OUT OF THE PURCHASE OF THESE PRODUCTS. Martin Inc.'S LIABILITY IN ALL SUCH CIRCUMSTANCES SHALL NOT EXCEED THE PURCHASE PRICE PAID FOR THE AFFECTED PRODUCTS IRRESPECTIVE OF THE NATURE OF THE CLAIM.

## MANUFACTURER'S WARRANTY

Please contact your Martin Inc. representative with any questions relating to manufacturers' product warranties.
