HP Designjet 130, 130nr and 130gp Multi-format Printer

This six-color graphics printer delivers fade-resistant photo quality with consistent color.

HP Designjet 130gp

Product pointers

- Impressive photo quality with new fade-resistant, dye-based HP inks, 2400 dpi and a four-picoliter ink drop size for fine details, smooth tonal transition and excellent image quality.

- C-size tray, automatic roll feeder (standard on 130nr/130gp) and rear paper path for thick media give flexible printing in an array of sizes from postcard to banner in widths up to 24 inches.

- See results and get client approval fast by printing up to 5.3 mpp for B-size in normal mode. Optimized graphics drivers with RGB ICC profile support and optional RIP support both Mac and Windows.

- With HP color technologies—including Automatic Closed Loop Color Calibration—this series delivers reliable, consistent color results. Get fast color stability, so proofs are ready for real-time review and approval.

- A multi-media tutorial helps users get results without a lot of trial and error. HP's on-line knowledge center provides step by step guides specific to your application, computer system and workflow. And HP's custom color profiling service provides high-quality ICC profiles for creative professionals whose work demands superior color accuracy.

- The HP Designjet 130gp, with an easy to use HP Colorimeter, display profiling and calibration software, plus ICC profiles—all powered by GretagMacbeth™ technology—helps provide color management and consistency throughout the digital workflow.
