Highlights

Universal USB docking

This innovative Philips monitor stand with dock enables easy and universal port replication with any notebook, for a clutterfree workspace. Especially suitable for latest ultra-thin notebooks with limited connectors, this stand with a built-in USB hub, Ethernet, video outputs, and enables you to transmit video, audio, and connect to internet directly with a single cable USB connection. Because USB is a universal connector, you can use this dock with virtually any notebook, no replacing expensive docks with new notebooks.

Expand view with single cable

Expand your view with a single cable. With a single USB cable from the notebook to the dock, you can attach multiple monitors via HDMI and DisplayPort and display up to 4K

UHD (3840 x 2160) resolution to the dock, to create a clutter-free multi-monitor workspace for increased productivity.

SmartErgoBase

The SmartErgoBase is a monitor base that delivers ergonomic display comfort and provides cable management. The base's people-friendly height, swivel, tilt and rotation angle adjustments position the monitor for maximum comfort that can ease the physical strains of a long workday; cable management reduces cable clutter and keeps the workspace neat and professional.

Low bezel-to-table height

The Philips monitor, thanks to its advanced SmartErgoBase, can be lowered down almost to desk level for a comfortable viewing angle. Low bezel-to-table height is the perfect solution if you use bifocals, trifocals or progressive lens glasses for your computing work. Additionally, it allows for users with greatly different heights to use the monitor in their preferred angle and height settings, helping them reduce fatigue and strain.

Compatible with VESA monitors

Pair the USB-docking stand with a new Philips commercial monitor or upgrade existing monitors. This monitor stand is features Philips Quick Release System and is compatible with VESA-compliant (100 x 100 mm hole pattern) monitors up to 28 inches in screen size.
