

HPE Ethernet 1Gb 4-port 366FLR Adapter (665240-B21)

Adapters

Overview

Are you looking for a 4 port 1GbE adapter for your HPE Gen 8 ProLiant Server? The HPE Ethernet 1Gb 4-port 366FLR features the next generation of Ethernet integration offering in a single chip solution on a FlexibleLOM form factor, further reducing power requirements for 4 ports of 1 Gb Ethernet. The HPE 366FLR is the PCI Express 2.1 x4 based on the latest Intel Ethernet Controller I350 designed for use with select HPE ProLiant Gen8 rack and scalable servers. Its FlexibleLOM form factor means customers now have a choice to meet growing infrastructure needs.

The HPE 366FLR adapter supports advanced features such as

Large Send offload capability, TCP checksum and segmentation, VLAN tagging, MSI-X, Jumbo frames, IEEE 1588, and virtualization features such as Intel Virtualization Technology for Connectivity, VMware NetQueue, Microsoft VMQ and WOL, and power management technologies like Energy Efficient Ethernet.

Features

4-port 1 Gb Ethernet PCIe Gen 2.1, x4 Lane Adapter Designed for Maximum Network performance

Adapter supports HPE Sea of Sensors 3D Technology.

New I/O technologies reduce system power, increase I/O performance and reduce I/O latency. Supports Precision Time Stamping protocol (IEEE 1588 and 802.1AS).

Supports Wake-on-LAN (WOL) at 1 Gb; has PXE, MSI-X support, Teaming, and IPv6.

Technical specifications

HPE Ethernet 1Gb 4-port 366FLR Adapter

Product Number (SKU)	665240-B21
Minimum dimensions (H x W x D)	6.35 x 20.96 x 24.84 cm
Weight	0.45 kg

HPE Pointnext

HPE Pointnext leverages our breadth and depth of technical expertise and innovation to help to accelerate digital transformation. A comprehensive portfolio that includes – Advisory, Professional, and Operational Services is designed to help you evolve and grow today and into the future.

Operational Services

- **HPE Flexible Capacity** is a new consumption model to manage on-demand capacity, combining the agility and economics of public cloud with the security and performance of on-premises IT.
- **HPE Datacenter Care** offers a tailored operational support solution built on core deliverables. It includes hardware and software support, a team of experts to help personalise deliverables and share best practices, as well as optional building blocks to address specific IT and business needs.
- **HPE Proactive Care** is an integrated set of hardware and software support including an enhanced call experience with start to finish case management helping resolve incidents quickly and keeping IT reliable and stable.
- **HPE Foundation Care** helps when there is a hardware or software problem offering several response levels dependent on IT and business requirements.

Advisory Services includes design, strategy, road map, and other services to help enable the digital transformation journey, tuned to IT and business needs. Advisory Services helps customers on their journey to Hybrid IT, Big Data, and the Intelligent Edge.

Professional Services helps integrate the new solution with project management, installation and startup, relocation services, and more. We help mitigate risk to the business so there is no interruption when new technology is being integrated in the existing IT environment.
