ACKNOWLEDGMENTS

This volume is largely a compilation and editing of other people's work. The introduction, sample design, data collection and data preparation sections are adapted from the user's manual submitted by the National Center for Research in Vocational Education at Ohio State University as a final report. NCRVE was the lead grantee in a consortium of research centers which organized the surveys documented in this report.

The sections on sample design and data collection derive from a report by Calvin Jones, Shirley Knight and Steven Ingels of the National Opinion Research Center. NORC drew the samples, conducted pre-tests of the questionnaires, and collected the data for the consortium. David Nader of Decision Resources Corporation developed the format of the printed codebooks, generated the final weights, described this process in the text, and edited the data tape for distribution. He also wrote the section describing how the Statistical Analysis System (SAS) can be used with these data.

Jeff Owings of the Center for Education Statistics and Helen O'Leary of the Office of Research, OERI, edited an early draft of this report. Dennis Carroll, whose unit in CES has been responsible for the High School and Beyond study, gave important advice and assistance in many ways throughout this project. Carl Schmitt, also of CES, provided invaluable statistical and editorial advice and assistance at various stages of developing the data tape and this manual. Calvin Jones, Penny Sebring and Marilyn Ford of NORC helped clarify sampling, field work, and weighting procedures. Frances Clark and Dorothy James very ably typed the many revisions of the text.

1. INTRODUCTION

This document describes how to use the data collected in four supplemental surveys of staff in almost half of the original 1,015 schools in the High School and Beyond Study. This supplementary survey is generally known as the Administrator and Teacher Survey. It was funded by the Office of Research, OERI, U.S. Department of Education. The High School and Beyond (HS&B) study is a national longitudinal survey of high school students sponsored by the Center for Education Statistics, OERI, U.S. Department of Education, and conducted by the National Opinion Research Center (NORC).

The Administrator and Teacher Survey (ATS) was designed to explore findings from effective schools research with a broadly representative sample. The effective schools literature identifies characteristics of schools in which students perform at higher levels than would be expected from their backgrounds and other factors. Prior to the ATS, measures of these characteristics were not available on any large national data set. The ATS provides measures of staff goals, school climates, school leadership and other processes that the effective schools literature indicates are important in achieving the objective of effective education.

Nine types of public and private high schools were sampled. The largest stratum is "regular public schools", but some "alternative" and Hispanic public schools are also included, as well as different types of Catholic and other private schools.

Five questionnaires were prepared for the ATS, one corresponding to each of five types of respondents: high school principal, teacher,

vocational education coordinator, head of guidance, and community service coordinator.* Up to 30 teachers in each of 457 schools responded to the teacher questionnaire; only one respondent per school completed each of the other questionnaires. There are 402 principals, 400 heads of guidance and 324 vocational education coordinators in the sample.

Items included in the questionnaires were designed to describe the following factors: staff goals; pedagogic practices; interpersonal relations of staff; work load of teachers; staff attitudes; availability and use of guidance services; planning processes; hiring practices; special programs designed to produce educational excellence; and linkages to local employers, parents, and the community. Items were selected to complement information already in the HS&B data base. Information gathered was designed to reflect key issues of school process and functioning identified as critical for quality education as discussed in the "effective schooling" literature.**

With the approval of the Center for Education Statistics (CES) and funding support from the Office of Research (OR) (formerly the National Institute of Education), five OR-supported research centers formed a consortium to collect the supplemental survey data. Members of this consortium were:

*Due to technical problems, data on the community service coordinator is not available. Consequently, little information on the community service coordinator survey is included in this manual.

The five questionnaires for the supplemental survey were constructed by consortium members with technical advice from OR, CES, NORC, and the Committee on Evaluation and Information Systems (CEIS) that monitors school data collection for the Council of Chief State School Officers.

Drawing on items used in past research and on theory, consortium members drafted initial questionnaire items. Representatives of the consortium, OR, NORC, and CEIS convened to select and edit items for final inclusion. After substantial deliberation, a preliminary version of each questionnaire was assembled and a pilot test was conducted in 27 schools. The pilot test checked procedures as well as questionnaire items. The 27 schools in the pilot test were part of the original HS&B sample of schools, but were excluded from the subsample of schools for the final ATS.

The ATS data were collected by the National Opinion Research Center (NORC) under subcontract to the consortium. NORC has collected all other data for HS&B as well. Technical advice on the content and format of questions, sample design, and procedures was provided by OR, CES, and NORC.

Data collection for the ATS occurred in the spring of 1984. It would have been preferable to have coordinated the timing of this data collection with that of the first follow-up HS&B survey in 1982 described below, in order to describe schools during the time period in which HS&B senior student respondents were still in attendance. The generally slow pace of change in institutions such as schools, however, suggests that the timing of the ATS is not a serious enough problem to produce major distortions in relationships between school variables in the ATS survey and student outcomes. Data users may want to examine this question more thoroughly if they intend to link the ATS with student HS&B data. Some items in the ATS allow analysts to estimate the amount of recent change in selected school practices, and some retrospective questions asking about conditions inclusive of 1982 and prior years are available.

The base year sample of the HS&B was conducted in 1980. It consists of 30,030 youth who were high school sophomores in 1980 (class of 1982) and 28,240 youth who were high school seniors in 1980 (class of 1980). Primary data sources in the base year survey are student questionnaires, scholastic achievement tests designed especially for the HS&B, and a school questionnaire completed by the principal. Additional information is provided by teacher comment forms, a parent

survey, twins and siblings file, friends data file, second language information, field staff reports, and printed material from participating schools (see Appendix D for available data files).

Three follow-up surveys of the same students have been completed at two-year intervals in 1982, 1984 and 1986. The first follow-up of the class of 1982 repeated the same tests and most of the base year questionnaire items. Thus, study of change over the last two years in high school is feasible using one of the largest, nationally representative samples of students in existence. Complete high school transcript information is also available for the class of 1982. The other follow-ups (first and second follow-ups of the class of 1980 and second and third follow-ups of the class of 1982) surveyed early labor market experience, schooling, and family formation variables for about half of the base year sample.

The remaining text includes descriptions of the sample design and implementation, data collection and preparation procedures, and a listing of reports using the ATS data. The section entitled Guide to the Codebooks describes the data files, variable layouts and naming conventions, and software programming capabilities. This section may be of special interest to those who want to move directly to use of the data. The codebooks, including marginal item response frequencies, appear next. Data collection instruments (questionnaires), respondent selection procedures, record layouts, and brief descriptions of related HS&B data files available can be found in the appendices. Some items from the 1980 and 1982 school questionnaires are included in this manual and on the data tape to provide certain kinds of basic information on the schools not contained in the ATS data.

2. SAMPLE DESIGN AND IMPLEMENTATION

School Selection

The Administrator and Teacher Survey sample of high schools was drawn from the secondary schools in the High School and Beyond survey after dropping schools closed or merged with other schools since the base year survey. Specifically, the ATS sample was selected from among the 975 HS&B schools still in existence at the time of the High School Transcript study and the Course Offerings study conducted during the fall and winter of 1982-83. Because the number of additional closings between the time of the transcript study and the selection of ATS schools was expected to be small (less than 2 percent), no effort was made to ascertain the status of the 975 remaining schools before drawing the subsample. In fact, 6 (1.1 percent) of the 538 schools selected for the ATS had closed by the time data collection was initiated, representing further reduction in the population. Neither the HS&B followups nor the ATS expanded the population coverage of schools to include schools created since the HS&B base year survey.

The sample is divided into nine strata corresponding to different kinds of public and private schools. These include over three hundred regular public schools in the main study, and small numbers of alternative public schools, Cuban Hispanic public schools, and other Hispanic public schools. The private schools include separate strata for regular Catholic, black Catholic, Cuban Hispanic Catholic, elite other private, and other private schools. The strata are described more fully later in this section.

Resources available for data collection and processing permitted a sample size of about 530 to 540 schools. The inclusion of specific

schools in the ATS sample was governed primarily by analytical goals rather than by considerations of statistical efficiency. The smaller sample size for most strata except private schools, results in some loss of statistical precision in population estimates for public school strata compared to the full HS&B sample. Nevertheless, the relative efficiency of the subsample (compared to a simple random sample of equal size) is not greatly different from that for the full HS&B school sample. On the one hand, the ATS sampling procedures tended to reduce the overall disproportionality of the HS&B design by selecting relatively fewer schools from strata with very high oversampling rates (e.g., so-called Hispanic origin). On the other hand, the ATS sample included some schools ("non-Hispanic" private schools) in an even higher concentration than the HS&B sample, thereby increasing the variability of the school weights. On balance, compared to the full HS&B sample, the ATS sample is slightly more efficient overall.

School selection was carried out as follows. First, it was specified that the ATS sample would include all schools selected at the first stage of sampling for the Base Year HS&B Parents Survey in order to be able to link as many ATS schools as possible to this additional data file.* This subsample of 312 schools was drawn as a systematic probability sample from the 1,015 schools participating in the base year survey. It should be noted that only 304 of the 312 schools were ultimately included in the Parents Survey. Eight schools were dropped from the Parents Survey because those schools did not permit the

*All schools in the Parents Survey were also part of the transcript study of student course-taking behavior (see appendix D).

administration of HS&B cognitive tests to their students. Although the sample of 304 Parents Survey schools is a biased subsample of the HS&B sample, the 312 schools included in the ATS is an unbiased subsample from the larger 1,015 sample.

Of the 40 schools which had closed since the base year HS&B survey, 15 were members of the Parents Survey sample, leaving 297 of the 312 Parents Survey sample schools still open in 1983 when the ATS sample was drawn. In addition, 4 of the 6 schools which had closed by the time of the ATS data collection activities were members of the Parents Survey sample as well, reducing the parents sample size to 293 schools. As with the other sampled schools, these closed schools reflect genuine reductions in the size of the population of schools that have occurred over time, and therefore no adjustments were made to the sampling weights of the remaining 293 schools.

The sum of the original sampling weights of these schools is an unbiased estimate of the total number of schools with 10th and/or 12th grades which were open in 1980 and were still open in 1983. Thus, ATS analyses using only these 293 selections which incorporate both ATS and Parents Survey data may be generalized to the same (entire) population of schools covered by the HS&B study. One set of weights permit expansion of the 293 schools to the 1983 school population (see weights file codebook). Analysts should keep in mind that the main HS&B sample is a complex, stratified disproportionate design whose characteristics are discussed in detail in the sample design reports for the Base Year* and

*M. R. Frankel, et al. (1981). Sample Design Report, A Report to CES under Contract No. 300-78 by NORC.

First Follow-Up surveys. All features of the full design are retained in the subsample of 293 schools. The estimation of exact sampling errors, for the full sample as for the 293 school subsample, is neither simple nor straightforward. See the sample design reports for a discussion of design effects and the analyses of sampling errors.

The initial ATS sample was augmented by the addition of schools beyond the 297 Parents Survey schools, according to the following procedures. First, all remaining "Hispanic" schools not already in the parents sample (N=83) were excluded from the ATS, thus greatly reducing the overrepresentation of such schools in the sample. Then, all remaining "non-Hispanic" private schools not already contained in the parents sample (N=75) were included in the ATS sample with certainty, thereby increasing the overrepresentation of this stratum of schools still further. Finally, 166 schools were selected by systematic sampling from among the remaining 520 public, "non-Hispanic" schools. Systematic sampling was accomplished after sorting the remaining schools by "superstratum" in order to preserve the initial stratification of the base year school universe.

In summary, the ATS sample consists of a probability sample of 538 schools, of which 6 were found to be closed, leaving a final sample size of 532 schools. This final sample contains a subsample of 293 schools which were selected for the HS&B parents survey and which reflects the sampling strategy of the HS&B base year survey, and it includes a supplementary sample which alters the probabilities of inclusion for schools in specified strata. Properly weighted, the

ATS may be used to estimate statistical parameters for the population of public and private schools with 10th and/or 12th grades which existed in 1980 and were still in existence in the 1983-84 academic year.

Table 1 displays the numbers of schools in each of the 9 major school type strata for the HS&B base year survey (1980), the Course Offerings study (1983), the initial ATS sample (1983), the final ATS sample (1984), and the ATS parents sample (1984).

The counts in table 1 are provided only for purposes of comparison; the school type strata shown were defined in order to implement a sample selection strategy and not as analytical classifications. Even in the large base year sample most of the listed strata have too few cases to be analyzed at the school level. For the ATS survey, 7 out of 9 of the school type strata have fewer than 40 schools. The analysis of small cells should be approached with extreme caution. (The school type variable may be found with the 1980 school questionnaire data file; see the codebook and record layout for this questionnaire.) In unweighted terms, the composition of the sample has changed to increase the proportion of non-public schools from about 12 percent of the base year sample to about 20 percent of the final supplemental survey sample.

Administrator and Teacher Selection

Questionnaire data were collected for the ATS for as many as four administrators per school and random samples of up to 30 teachers per school. At minimum, completed questionnaires were sought from the

TABLE 1
 COUNTS OF SCHOOLS IN HS&B SCHOOL TYPE STRATA FOR
 FIVE SAMPLE CONFIGURATIONS

School Type	Base Year	Open during Course Offerings Study	Initial ATS Survey	Final ATS Survey	ATS Parent Segment
Regular public	735	712	373	370	216
Alternative public	45	37	22	21	10
Cuban Hispanic public	11	11	4	4	4
Other Hispanic public	102	102	32	32	32
Regular Catholic	45	44	44	42	12
Black Catholic	30	28	28	28	8
Cuban Hispanic Catholic	9	8	2	2	2

Other private	27	22	22	22	6
Totals	1,015	975	538	532	293

school head (principal or headmaster) teachers, and the senior guidance counselor at each school. If the school head performed the guidance counselor role, he or she was asked to fill out both questionnaires. The ATS data file contains questionnaire responses from 402 principals, 10,370 teachers and 400 heads of guidance programs.

The principal was asked to designate the heads, if any, of the school's guidance, vocational, and community service programs on a preliminary screening form. At the same time, the principal was also

instructed on how to prepare a roster of full time teachers in the school needed to sample teachers (see appendix B).

For schools indicating in the screening procedure that they offered or participated in a vocational program, data were requested from the coordinator of, or person most knowledgeable about, the vocational education program. The final sample was 324 respondents. Only 409 of the 484 schools responding to the screener indicated that they met the requirements specified by the consortium. In addition, data were sought from the coordinator of (or staff member most knowledgeable about) the community service program only if the school offered or participated in a program of this kind. Of the 484 screened schools, 244 reported that they met these specifications. See Appendix B: Respondent Selection Procedures for the forms used to select each of the above administrators.

A small selection bias was introduced at this point. The proportion of schools with vocational or community service administrators among the 49 schools which refused the screening may be assumed to approximate the percentage observed in the screened schools, which is 85%. However, exactly which of the nonresponding schools might have eligible respondents cannot be determined. On this basis, an expected 41 of the nonscreened schools were likely to have had vocational program coordinators. The inability to identify which of these schools did not meet the specifications defining the universe, and which are nonrespondents, introduces a small, but non-trivial bias. For purposes of weighting the data, however, it was assumed that all schools had a vocational program. (See following section on non-response corrections.)

A random sample of up to thirty teachers was selected from among the eligible faculty in each selected school. Eligibility criteria were established by the consortium, and specified the inclusion of all full-time teaching staff except those for whom 51 percent or more of their time was devoted to any combination of the following roles:

Psychologist	Counselor	Librarian
Media specialist	Curriculum specialist	Remedial specialist
Drivers' education	Physical education	Health/Sex education
Home economics (non-voc)	Nurse	Dean
Assistant principal	Special education teacher without a self-contained classroom	ROTC instructor

In 139 of the screened schools, total eligible faculty was 30 or fewer teachers. In these schools all teachers were included in the ATS sample. In schools having at least 31 eligible teachers, tables of random numbers were used to select individual teachers from prepared (numbered) faculty rosters. (See Appendix B for instructions to principals on selection of teachers.)

The sample design for teachers is identical to that for the sample of students in the base year survey. Both were selected randomly from among all eligibles in a second stage after the first-stage selection of schools. Moreover, the number of teachers sampled (30) is not much different from the number of students (36). As a consequence of these similar cluster sizes, it is possible that the relative efficiency of the teacher sample is not greatly different from the HS&B base year student samples.

Overall efficiency of the teacher sample is affected by three factors. Stratification of schools in the first stage of sampling generally increases the efficiency relative to simple random sampling (SRS) by preserving the variability of all measures related to school type, region, size, ethnic mix and other stratifiers (see the HS&B base year or first follow-up Sample Design Reports or the First Follow-Up School Questionnaire Data Users Manual*). However, sampling efficiency is generally reduced by the disproportionate allocation of the school sample across strata, and by selecting a number of teachers from within each school.

Sample Weights

The initial ATS sample design weights were intended to compensate for unequal probabilities for selection of schools and teachers into the survey. These weights do not adjust for the fact that not all sample selections actually participated in the survey; weights to accomplish that adjustment have been calculated separately, and are also provided in the weights file. The weights presented below are based on the inverses of the probabilities of selection through all stages of the sample selection process. They are found on the data tape along with the questionnaire data and are part of a file called HSB.WTS84.DATA. See later parts of this section, the codebook for the weights file, and the record layout for further specifications.

*Calvin Jones, et al. (1983). High School and Beyond First Follow-Up (1982) School Questionnaire Data File User's Manual. Washington, D.C.: National Center for Education Statistic.

School Weights. School level weights (W_1) that adjust for differential probabilities of selection into the base year sample for High School and Beyond were calculated as the inverses of the selection probabilities for schools; see Frankel et al., Sample Design Report, Chapter 6.* The weight for a participating school in the ATS is equal to W_1/F_3 , where F_3 is the conditional probability of a school's selection into the ATS sample given that the school was selected in the base year HS&B sample. In general, the weights are:

W_1/F_3 for open schools in the ATS sample
0 for all other schools

Recall that the ATS sample is composed of two separate subsamples, the subsample of schools included in the Parents Survey and other other schools to be called the "complement". In the base year, 312 out of the 1,015 schools in the full HS&B sample were selected into the parents sample. The conditional probability F_1 of selection into the parents sample given base year HS&B selection is, for any school,

$$F_1 = 312/1,015 = 29.8\%$$

After the parents sample was chosen, the complement sample of schools was selected from the remaining non-Hispanic schools known to be open.**

*M. R. Frankel, et al. (1981). Sample Design Report, A Report to CES under Contract No. 300-78 by NORC.

**At this point 25 of the non-parent schools had been found to be closed and the Hispanic schools numbered 83.

Non-Hispanic private schools (75 in number) were selected with certainty. Of the remaining 520 (=1,015 - 312 - 83 - 25 - 75) schools, 166 were selected with equal probabilities. The conditional probability of a base year selection being in the complement given that it was selected in the parents sample, F_2 , is

$$F_2 = \begin{array}{ll} 0 & \text{for Hispanic schools} \\ 0 & \text{for non-private non-Hispanic schools} \\ & \text{known to be closed} \\ 1 & \text{for private non-Hispanic schools} \\ 166/520 & \text{for other schools} \end{array}$$

Using the notation $P(X|Y)$ to denote the conditional probability of selection into X given selection into Y, we may compute F_3 from F_1 and F_2 as follows:

$$\begin{aligned} F_3 &= P(\text{complement}) + P(\text{Parents}) \\ &= P(\text{complement}|\text{Parents}) * P(\text{Parents}) \\ &+ P(\text{complement}|\text{not Parents}) * P(\text{not Parents}) \\ &+ P(\text{Parents}) \\ &= 0 + F_2(1 - F_1) + F_1 \\ &= F_1 + F_2 - F_1F_2 \end{aligned}$$

Teacher Weights. Because only one administrator of each specified type (principal, guidance counselor, vocational program coordinator) was designated as a respondent in each school, data from each administrator may be analyzed using the school weights describe above. Samples of up to 30 teachers were selected from lists of eligible faculty within each school. Teacher selection probabilities varied from school to school as a result of differing faculty size. Therefore additional weights must be

used to compensate for unequal selection probabilities for the teacher sample (see section on weighted data).

The probability that a teacher was selected into the ATS sample is equal to the product of F_3 , the probability that the individual's school was selected, and F_4 the conditional probability that the individual was selected given that his or her school was selected. In schools with 30 or fewer teachers, $F_4 = 1$. In schools with $N > 30$ teachers, $F_4 = 30/N$. Thus, the individual teacher weight is $1/(F_3 F_4)$ if teacher was selected in ATS sample, and 0 otherwise.

Non-response Corrections to Create Overall Weights

As previously mentioned, the final ATS sample consisted of 532 high schools out of the original 1,015 from the High School and Beyond Study. School level selection weights were provided with the ATS sample, which consist of a combination of the original weights from the base year survey and probabilities of selection into the ATS sample. These selection weights assume the full sample of 532 schools in the ATS survey, since the pretest and main study samples were combined for sample selection purposes.* However, actual responses to the survey (completed questionnaires) were somewhat less than full 532. For each target population, the completions were as follows:

principals	402 (76% of 532)
guidance program heads	400 (75% of 532)
vocational education program heads	324 (61% of 532)

In addition, 10,370 teachers in 457 schools responded. This is 86% of the 532 schools.

These completion rates are not the same as response rates, which would exclude the pretest schools. The response rates within the main

*From this set of 532 schools, 27 were selected for the pretest based on their nearby location. Since the remaining 505 schools used in the main study were therefore not a random subsample of the original 1015 HS&B schools, the selection weights and the non-response corrections had to be based on the full set of 532 ATS schools. Therefore, the 27 pretest schools are considered as non-respondents from the full sample of 532 schools. During the planning stage, the consortium considered combining data from the pretest and main study, but in the end the pretest data were put aside.

study are somewhat higher. As shown in Table 6 in the section entitled Data Collection, the response rate for principals is 79.8%, and for guidance program heads 79.6%. The response rate for teachers is estimated at 77.2% based on multiplying the percentage of schools responding by the percentage of questionnaires received among those requested. However, an exact response rate cannot be calculated since there is no way of knowing the number of eligible teachers for schools which did not respond. The true figure would depend, among other things, on the overall weights for responding and non-responding schools. An exact response rate cannot be calculated for the vocational education program heads either since the existence of a program could not be determined for a few main study schools during the field work.

Vocational education program heads had a low completion rate among the full set of 532 schools as shown above. Schools received a preliminary questionnaire inquiring if they had a vocational education program; if they responded negatively, then they were not sent the full questionnaire. As a result, many schools in the main study did not receive a vocational education survey questionnaire. Only 387 schools were sent this questionnaire (see Table 6).

An additional point about the vocational education file concerns the substantive issue of what to consider as a school with a vocational education program. The preliminary questionnaire may have incorrectly screened out some schools as not having vocational education programs, depending on how vocational education was defined. The problem with the existing definition is that it was the sole responsibility of the school

authority in question. If that person decided his or her school had a vocational education program, then a questionnaire was returned; otherwise, there was no information on that school. Since different administrators are likely to define the term differently, the responding schools are not necessarily all of the schools with vocational education programs from the ATS sample.

For analytic reasons, a different way of defining a school with vocational education, based on courses offered there, has been constructed. According to this new computation, based on the HS&B transcript file from 1982*, every school in the base year HS&B file except three offered some type of vocational education courses. By checking the identification numbers of these three schools, it was determined that none appears in the ATS sample. This means that every school in the ATS sample, and therefore every school in the vocational education file subsample, has some vocational education instruction according to this new definition. Thus, this file has been treated as the other files have in computing non-response corrections. If the user does not wish to accept this definition, but rather take the chance that the actual responses reflect something more truly representing vocational education schools, then the selection weights may be used without the non-response corrections.

*MPR Associates, Inc., High School and Beyond: Tabulations and Classifications of Secondary Vocational Education Courses and Students, Part 1, February 1986. pp. 143-149.

Ordinarily, the correction factor for non-response would be calculated separately for each stratum that was used to select the sample of schools. In the ATS files, these strata are represented by the nine types of schools in the sample. The correction factors would then be used to compute new weights by the following formulas:

$$\text{ATSWT}_i = 1/P_i$$

$$\text{FWT}_i^n = (1/P_i) * \text{RATIO}_i$$

where:

ATSWT_i = weight for the i th strata;

FWT_i^n = weight corrected for non-respondents;

P_i = probability of selection in sample;

RATIO = (# eligible respondents/ # actual respondents)

Weights are calculated identically for each data file.

The response rates were examined across the 9 school types, and were found not to differ in any significant way. In addition, six of the nine strata contained fewer than 30 schools. With such small n 's, a high degree of variability would be expected in non-response rates across strata. It was decided, on the advice of a sampling expert, to use a single estimate of non-response for each of the four files, rather than to introduce additional sampling variability by using separate weights for each stratum.

The only exception to this rule is the vocational education file, which showed a large difference in response rates between public and private schools. For this reason, two separate response rates were computed on the vocational education file, a public school and private school rate.

These were then multiplied by the existing ATS selection weight to achieve the final weight. Therefore, the formulas for the non-responses were simply:

$$FWT^n = (1/P) * \text{RATIO}$$

with (1/P) being the existing ATS selection weight, and RATIO the total number of eligible respondents divided by the total number of actual respondents. These ratios were:

principal file	(532/402) = 1.32	(PRNRATIO)
guidance head file	(532/400) = 1.33	(GUIRATIO)
teachers file	(532/451) = 1.18	(TEARATIO)
vocational education heads, public	(430/306) = 1.40	(VOCRATIO)
vocational education heads, private	(107/18) = 5.94	(VOCRATIO)

It should be noted that even with these non-response corrections to the weights, population totals based on these files will not exactly match a simple sum of the original ATS weights for all 532 cases. The reason is that while non-response is assumed to be random, the extremely high variability of the selection weights means that any loss of cases, even with corrections, will cause some fluctuation in population counts. As for within-file comparisons, no change will occur from the situation before non-response weights were applied, except with the vocational education file, because multiplying a selection weight by a non-response constant does not change other relationships in the data. When summing weights for the four files, the vocational education file shows the

greatest discrepancy from the total sample (532), probably because the highest level of non-response corrections are being applied to the already highly variable weights. Population estimates for all four respondent data files are provided in the next section.

All non-response corrections apply to the school level only; that is, they are to be used in estimating the populations of schools according to the original HS&B definition, or to compare school level characteristics and data. This would even include making school level estimates based on possible summary teacher data; in this case, teacher records would first be aggregated within schools, and then the new weight with non-response correction (TEAFWT) would be used in analyses done with the school as the unit of analysis. If researchers desire different non-response corrections or none at all for any reason, they are free to simply use the school selection weight, called "ATSWT", which is on the weights file. In fact, if the researcher is interested in anything other than school universe estimates, it makes no difference whether the non-response corrected weight is used or not, except for the vocational education file.

If an estimate of teacher level weights is desired, two things should be considered. The first is that teachers were selected randomly within schools from an "eligible" teacher population; the second is that a maximum of 30 teachers per school were chosen. There are three additional variables on the weights file to help determine teacher responses. TELIG is the number of teachers eligible in the school; TSEL is the number (up to 30) selected for inclusion in the sample; and TPART is the number participating, which equals the actual number of records in the teachers file. The simplest way to get an estimate of the total

number of teachers in the country, within the ATS definition of eligible teachers, is to multiply the school weight (TEAFWT) by the number of eligible teachers per school, and sum these products across schools. To perform other teacher level analyses, however, the appropriate weighting is to use the school weight (TEAFWT) multiplied by the ratio of eligible to selected teachers for each school (TRATIO), and finally multiplied by the teacher non-response correction (TEARATIO). Note that, unlike the school level weights, this should always be used for teacher analyses, because the number of eligible teachers and the rate of non-response are not the same across the schools.

Also note that no design effects have yet been calculated for the teacher file to compensate for the complex design of the teacher sample.

To summarize teacher weight variables:

TEAFWT	school weight with <u>school</u> non-response for the teacher file. Should be used for school level estimates of totals.
TELIG	number of eligible teachers in each school
TSEL	number of teachers selected in each school for sample inclusion.
TPAR	number of completed questionnaires actually received from teachers.
TRATIO	(# eligible / # selected) teachers
TEARATIO	(# selected / # participating) teachers
(TEAFWT)*(TRATIO)	teacher level weight <u>with</u> school non-response corrections but <u>without</u> teacher non-response correction.
(TEAFWT)*(TRATIO)*(TEARATIO)	teacher level weight with <u>both</u> non-response corrections. Should be used for all analyses of teachers, and for estimates of totals.

Weighted Data and Actual School Counts

The selection and overall weights described in the previous section can be used to generate estimated numbers of high schools nationwide. These figures can also be compared to the actual number of high schools in existence of the time of the ATS survey based on the "Common Core of Data" surveys conducted by the U.S. Department of Education. These estimates of the numbers of high schools nationwide based on the ATS sample are displayed below.

Sample and number of schools in parens	<u>All schools based on</u>		<u>Public schools based on</u>
	Selection Weights Only	Overall Weights (Selection and Non-response Factors)	Overall Weights (Selection and non-response Factors)
Total sample (532)	20184	20184	16223
Principals (402)	15034	19896	16163
Teachers (455)	16942	19984	16360
Guidance heads (400)	14954	19888	17165
Voc.ed. heads (324)	11155	17054	15248

The public ATS schools above include all "regular" schools, alternative schools, Cuban public and other Hispanic public schools - the four kinds of public schools sampled. They can be compared to the actual 1983-84 count of 16,400 public secondary schools* which excludes those with only grades 7-8 or 7-9 which would not have been included in

the universe for selecting the HS&B sample. The estimated numbers of public high schools derived from the principal and teacher surveys are in fact very close to the 16,400 figure. The estimate from the guidance survey is somewhat higher and that from the vocational education survey lower. Sampling variability is no doubt a factor in these divergences. The smaller obtained sample of vocational education program heads probably exacerbated the problem. School selection weights varied widely, and the loss of certain schools could create larger fluctuations.

It is not possible to compare precisely the above estimates for all schools public and private with national counts because the number of private secondary schools with grades 10-12 is not known, but it can be seen that the estimates based on the overall weights are very similar for all samples except the vocational education survey.

Design Effects

High School and Beyond samples, while representative and statistically accurate, are not simple random samples. Schools were selected within strata. Sampling rates for schools within different strata varied, resulting in better data for policy purposes, but at a cost of statistical efficiency. Hence, simple random sample techniques for the estimation of standard errors frequently underestimate the true standard errors.

*Table 68 in Digest of Education Statistics 1986-87. Washington, D.C.: Office of Educational Research and Improvement, U.S. Department of Education, 1987.

The degree of underestimation can be approximated by calculating a quantity known as the design effect. The design effect is a measure of the efficiency of the sample estimate relative to a simple random sample. It is defined as the ratio of the actual variance of an estimate to the variance of the same estimate from a simple random sample with the same number of cases. Users of these data can calculate the design effect of the ATS data by merging it with student data from HS&B and applying the Balanced Repeated Replications* or the Taylor residual method. No design effects have been calculated as yet for the ATS data.

*See Calvin Jones, Martin, R. Frankel, Roger Tourangeau, Harold McWilliams, and Frank O'Brien, High School and Beyond First Follow-Up Sample Design Report. Chicago: National Opinion Research Center, 1983, chapter 5, for a discussion of BRR methods.

3. DATA COLLECTION

During the period from September through December 1983, the school sample was selected, and questionnaires, letters to principals, State and district officials, and explanatory materials were developed. At the same time, Phase I (request for school rosters and subsequent sampling) and Phase II (administration of questionnaire) were pretested in 27 schools.

In December, a letter was sent to chief state school officers and district superintendents explaining the objectives of the study and data collection procedures, and identifying specific schools and districts for the main study. Later in the month an initial mailing to school principals explained the study, and requested appointment of a school coordinator and the return of a roster of the school's teaching staff and the names of specified administrators: principal, guidance counselor, vocational coordinator, and community service coordinator. A sample of up to 30 teachers from the roster was selected by using a table of random numbers. (See Appendix B for the instructions used in selection of administrators and teachers.)

Phase II began with the mailing of questionnaires to the designated respondents in the main study schools on March 12, 1984. Phase I and Phase II operations were in continuous overlap, since efforts to obtain school cooperation continued until the end of the school year.

An automated receipt control system was used to track Phase I and Phase II progress (1) by school outcome within sample type, and (2) by respondent category within cooperating schools. The system generated lists of nonresponding schools and respondents for management consideration in following these cases.

Systematic follow-ups were conducted for both Phase I and II. Three methods of follow-up were employed: contact by central office administrators, contact by central office interviewers, and in-person contact by field personnel (described more fully below).

Participation Rates

Participation rates are summarized in table 2, table 3, and table 4. Table 2 summarizes school participation in the pretest and the main supplemental survey. Tables 3 and 4 show school participation by sample type for the main sample and the pretest.

TABLE 2
SCHOOL PARTICIPATION

	<u>School Participating</u>				<u>Refusals</u>				<u>Total</u>	
	<u>Phase I¹</u>		<u>Phase II²</u>		<u>School-Level</u>		<u>District</u>		<u>Schools</u>	
	<u>N</u>	<u>%</u>	<u>N</u>	<u>%</u>	<u>N</u>	<u>%</u>	<u>N</u>	<u>%</u>	<u>N</u>	<u>%</u>
Pretest	23	85%	23	85%	4	15%	0	0%	27 ³	100%
Main Study	461 ⁴	91%	456	90%	43	9%	6	1%	505 ⁵	100%
Total	484	96%	479	90%	47	9%	6	1%	532	100%

¹Phase I was the period in which the Designated Administrator Form (DAF) and teacher roster were requested.

²Phase II was the data collection period.

³The pretest sample was 27. This reflects the following adjustments from an initial sample of 30: one school closed and two schools were unable to participate at time of pretest but willing to participate in the main study.

⁴Five main study schools that cooperated in Phase I were unable to cooperate in Phase II. Five other would-be Phase II dropouts were encouraged to remain in the survey through intensive central office and field efforts.

⁵Sample N for the main study is 505. This reflects an adjustment from the initial 510: 5 schools proved to be closed.

TABLE 3

MAIN STUDY SCHOOL PARTICIPATION BY SAMPLE TYPE

School Type	0	1	2	3	5	6	7	8	9	Total
Quex Returned	321	16	3	28	36	22	1	10	19	456

Total	% 66.6	7.4	3.7	7.4	7.4	3.7	3.7	100

School Types:

- 0 = Regular Public
- 1 = Alternative Public
- 2 = Cuban Hispanic Public
- 3 = Other Hispanic Public
- 4 = None
- 5 = Regular Catholic
- 6 = Black Catholic
- 7 = Cuban Hispanic Catholic
- 8 = Elite Other Private
- 9 = Other Private

Tables 5 and 6 detail questionnaire receipts by questionnaire type for the pretest and main study respectively. These tables assume that a principal and a guidance questionnaire were available from each school. In fact, four schools in the main study, and one in the pretest lacked a formal guidance program. For the main study sample the coordinator or principal of such schools was asked to complete the supplemental guidance questionnaire.

There is no way to know with precision the total number of eligible teachers or the number of teachers who would have been selected for the total sample. Nor can the total sample numbers be determined for administrators in the vocational and community service categories since, again, such information is available only for the 484 schools that submitted the Designated Administrator Form and roster.

TABLE 5
PRETEST RECEIPTS BY QUESTIONNAIRE TYPE

Questionnaire Type	Schools Mailed to	Schools Responding	Questionnaires Received ¹		
	N	N	% of sample (27)	N	% of requested
Teacher	23	23	85%	581	91% ² (640 requested)
Principal	23	16	59%	16	70%
Guidance	22	22	81%	22	100%
Vocational	22	17	--	17	77%
Community Service	7	7	--	7	100%

¹Questionnaires were counted if they were at least 50% complete.

²Includes all questionnaires distributed, including those with final dispositions of no longer employed, unavailable, or ineligible. Not counting these dispositions, the completion rate would be 92.5%.

In over 99 percent of main study cases in which the school responded, responses were collected from both the teachers and administrators. In one small school, however, only the administrator responded. In two other small schools, only the teachers responded. School response rates for teachers, principals and guidance heads in the eligible samples (505 schools for each of them) are listed in Table 6.

TABLE 6
MAIN STUDY RECEIPTS BY QUESTIONNAIRE TYPE

Questionnaire Type	Schools Mailed to (requested)	Schools Responding	Questionnaires ¹ Received		Total (PRETEST + MAIN STUDY)
	N	N % of eligible sample	N	% of requested	
Teacher	456 ²	455 90.0%	10,382	85.8% ³	10,957
Principal	456 ²	403 79.8%	403	88.4%	419
Guidance	456 ²	402 79.6%	402 ⁴	88.2%	424
Vocational	383 ⁵	330 --	330 ⁶	86.2%	347
Community Service	234 ⁷	201 --	201	85.9%	241

¹Questionnaires were counted if they were at least 50% complete.

²461 if Phase II refusals included in the count.

³Questionnaires were sent to 12,106 teachers in the main study. If that base is adjusted to delete those no longer employed, ineligible or unavailable, requested = 11,878 and completed as a percentage of requested becomes 87.4%.

⁴Includes two supplemental guidance questionnaires for schools with no formal guidance program.

⁵387 if Phase II refusals included in the count.

⁶Excludes three vocational questionnaires which, though completed, cannot be identified as to school. (Off-campus programs; respondent removed identifying number label.)

⁷237 if Phase II refusals are included in the count.

The response rate for teachers is estimated at 77.2% - the school response rate times the questionnaire receipt rate. The true figure would depend, among other things, on the overall weights for responding and non-responding schools.

Quality Control and Follow-Up Procedures

Table 7 describes the school follow-ups for Phase I and Phase II of the main study. Table 8 describes the outcome of questionnaire remailings based on telephone follow-up of low response schools or nonresponding administrators.

Experienced telephone interviewers conducted systematic follow-ups for all Phase I schools that had not returned the Designated Administrator Form or roster. Their task was to check the status of Phase I materials (including probable mailing date), reemphasize the value of the survey, and determine whether any action was required in order to facilitate participation. Problem cases were referred to supervisors and taken over by project administrators or by field personnel.

Phase II follow-up telephone contact was made three weeks after the questionnaire mailing date. All nonresponding schools were called. Responding schools with a lower than 90 percent completion rate for teachers and/or administrators were also contacted. Non-routine cases were referred to supervisors for review and special handling. As a matter of policy, nonresponding principals were always contacted directly.

Fifty cases were assigned for Phase I and Phase II field follow-up. These included (1) schools from which there had been no response, that had been previously contacted by telephone and were presumed or known to be refusals, and (2) schools with low internal completion rates. Table 9 demonstrates the high degree of success generated by the intensive field activity.

Phase I refusals occurred at either the district level (6) or at the school level (43). Of the latter, four were, in fact, Phase II refusals. All initial refusals (84) were referred to the assistant project director at NORC and either he or the project director responded by telephone. Thirty-five (42 percent) of the initial refusals eventually participated.

TABLE 7
TELEPHONE FOLLOW-UP ACTIVITIES FOR MAIN STUDY

	Number of Schools Called	Percent of Schools Called	Dates
<u>DAFs and Rosters</u>			
(505 Schools)			
First Follow-Up	232	46%	1/30/84 - 2/25/84

Category	Cases	Successful Outcomes
Solicit DAF and Roster	28	27
Distribute questionnaires	9	9
Collect questionnaires	2	2
Convert Phase II refusal	5	3
Increase rate of completion	5	4

Reasons given for the refusals were, in general, administrative rather than substantive. In the very few instances where the value of the study was brought into question, the objection was easily overcome. Again, with few exceptions, interest in participating in later phases of HS&B was strong.

Overwhelmingly the problem for nonparticipants was the timing of the survey and the resources which could be committed to it. The survey came at a time when the school year was already heavily scheduled. Competing with the ATS were, in particular, conference accreditation evaluations, recently mandated changes in curriculum content and standards, and other surveys. The lack of time problem was compounded, in many cases, by a diminution in resources: budget cuts, cutbacks in staffing, and emphasis on spending more time in the classroom. In a few instances, quite specific local conditions were the basis for refusal: a difficult period of administrative transition, or a tense atmosphere due to a teacher strike or lawsuits.

In the case of four schools, complete school questionnaire packets were lost in the return mail to NORC. Since these lost-in-transit questionnaires were given the disposition "Other," there are four participating schools for which no complete or only partial questionnaires were received (see codebook for weights file).

4. DATA PREPARATION

Preparation of data for use with electronic processing equipment was carried out by members of the consortium. Ohio State prepared the vocational data and arranged a subcontract for optical scanning of the teacher questionnaire. The optical scan was carried out by the Intran Corporation which won the subcontract through competitive bidding. Stanford prepared the data from the principal questionnaire, Johns Hopkins prepared the guidance data, and Wisconsin prepared the community service data. A Data Preparation Manual was created by Ohio State containing the detailed procedures that were followed by each institution in converting the data to machine-readable form.

Each institution established a data coding operation with a manager and a staff of coders. The manager was responsible for hiring and training coders and overseeing the coding operation. Ambiguities in establishing proper codes were resolved by the manager. As questionnaires (except the teacher survey) arrived at the coding center, they were logged in and an identification number written on them. Standard procedures were established for managing the flow of questionnaires through the coding operation. After coding was completed, a manual check of each item for 20 percent of the completed questionnaires (except teacher questionnaires) was carried out. Following the manual error check, the coded data were transferred to electronic media.

The review of the entered data was accomplished in three stages. First, frequency tables were examined for range violation. Detected violations were checked by the coders against the questionnaires, and corrected. Second, the entered data for all cases, except for the

teacher questionnaire, were printed and compared to the entries on the original questionnaires. Errors detected were noted and corrected. The last phase of the review involved skip logic checks by a computer program, which recoded items answered in violation of instructions on skipping questions to the valid skip code. Those that could not be changed by computer were corrected by determining the answer that the respondent had indicated on the completed questionnaire. The teacher data underwent a quality control process similar to that used for the other questionnaires, except that a ten percent rather than a one-hundred percent manual check was conducted.

School identification numbers were attached to each computerized record. These numbers match the school codes used in the main HS&B sample; hence, merges with other HS&B data by school ID are feasible. Each ID number was checked against a master list to assure its accuracy.

5. REPORTS USING THESE DATA

A number of studies have already been done with the ATS data. To help potential data users build on what is already known, contacts were made to identify such completed analyses. Leading persons in the five members of the consortium that sponsored the data collection were asked to list reports which they and colleagues at their institutions had written based on any of the ATS surveys. While this approach is not an exhaustive search, it covers the main users, since the consortium members had exclusive access to the data through 1985 and strong investment in its utilization. The list of their reports as of fall 1987 follows:

5. GUIDE TO THE CODEBOOKS

File Sequence on Computer Tape

The computer tape for this supplement to HSB includes these five kinds of files for each data source:

- The Raw Data File
- The SAS source code to process the raw data file
- The SAS system file
- The SPSSX source code to process the raw data file
- The Codebook containing descriptive statistics

The files are listed below as they appear on the tape.

<u>FILE NUMBER</u>	<u>DATA SET NAME</u>	<u>RECFM</u>	<u>LRECL</u>	<u>BLKSIZE</u>	<u>BLOCK COUNT</u>
1	HSB.PRN84.DATA	FB	80	16000	21
2	HSB.PRN84.SASCRD	FB	80	16000	3
3	HSB.PRN84.SASSYS	U	0	32760	59

30	HSB.SCH82.DATA	FB	80	16000	3
31	HSB.SCH82.SASCRD	FB	80	16000	1
32	HSB.SCH82.SASSYS	U	0	32760	10
33	HSB.SCH82.SPSXCRD	FB	80	16000	1
34	HSB.SCH82.CODEBK	FB	80	16000	11

Abbreviations used in the above chart have the following meanings:

RECFM is REcording ForMat
LRECL is Logical REcOrd Length
BLKSIZE is BLockSIZE

Components of the data set names have the following meanings:

- suffix - DATA is a raw data file
SASCRD is SAS source code
SASSYS is a SAS data set
SPSXCRD is SPSSX source code
CODEBK is a codebook
- middle - PRN84 is the (1984) principal questionnaire file
VOC84 is the vocational education program director
questionnaire file
GID84 is the guidance director questionnaire file
TCH84 is the teacher questionnaire file
WTS84 contains weights for the above four files
SCH80 is the 1980 school survey file (selected questions)
SCH82 is the 1982 school survey file (selected questions)

The prefix HSB in all file names stands for High School and Beyond.

Also note that for the SAS data sets on the tape, the internal SAS data set name is the same as the middle of the external data set name; i.e., for file "HSB.PRN84.SASSYS", the internal SAS data set name is "PRN84". Technical specifications on the tape density are provided with the tape.

The codebooks printed in this volume were edited from the computer tape codebooks listed above. The tape codebooks are somewhat more extensive than the printed codebooks, however, in including statistics following each variable which describe the mean, mode, kurtosis and other characteristics of the variable's distribution. Numbers of valid cases and missing data are also listed. The printed codebooks have more complete category labels in some cases. In some instances as noted, the full range of response categories in the data and on the tape codebooks has been collapsed in the printed codebooks to save space.

The selection weights for each of the four administrator files are contained in the HSB.WTS84.DATA file, and can be linked to each of the main files via the four-digit school identification code. This code is on all seven sets of files, and is common to all components of the High School and Beyond Study.

Some items from the 1980 and 1982 school questionnaires are included to provide various kinds of basic information on schools which are not contained in the ATS data. In addition, the 1980 school questionnaire file has the public/private school type, region and rural/urban location of the school.

Data File Layouts

Each of the questionnaire data files except the teacher file has the same overall format. The questionnaire data begin in column 8 and are preceded by identifiers. These are:

<u>Column</u>	<u>Description</u>
1-4	A random number which identifies the school and is used in all High School and Beyond data sets.
5-6	All records coded the same as follows: principals 31 guidance heads 32 vocational education heads 33
7	The letter R in all data sets and records

For the principal, guidance, and vocational education files, these identifiers are repeated at the beginning of every physical file record, even though they are only needed once for each respondent. The printed codebooks do not show these repeated fields.

The teacher file has a different layout and structure. Three identification numbers appear in the first 12 columns of only the first physical record. In addition, the teacher file is composed of up to 30 teachers per school. The identification fields are as follows:

<u>Columns</u>	<u>Description</u>
1-6	Processing number used by the subcontractor for optically scanning questionnaires.
7-10	School code matching codes in HSB files
11-12	Teacher identification number within school

A unique respondent identification number can be obtained by combining the school code and the teacher identification number.

The files vary in the number of records per respondent as noted below:

principals	10 records per respondent
guidance head	9 records per respondent
vocational education heads	9 records per respondent
teachers	5 records per respondent
1980 school questionnaire	1 record per respondent
1982 school questionnaire	1 record per respondent
weights	2 records

The ATS data files contain the following number of cases:

principals	402
teachers	10,370*
guidance heads	400
vocational education heads	324
1980 school questionnaires	537
1982 school questionnaires	537
weights	537

*One of the 457 schools with school identification number 5047 does not match the other ATS files in ID number, but its ID number is among the original 1015 HSB school ID numbers. This school had only one teacher. Five of the schools have school ID numbers which do not match those in any other files. Their IDs are 1642, 3701, 4183, 7715 and 8284. Each had only one teacher. One other school has no ID number. It had five teachers.

The 1980 and 1982 school questionnaire selections and the weights file have 537 cases (schools). This is the combined total of main study and pretest cases and closed schools.*. These files can be matched with the ATS data files on school identification number (SCHID). Those schools which were in the pretest have the following identification numbers:

1224	2837	5902	7641
1228	3234	6170	7795
1501	3315	6274	7883
1536	3326	6329	7995
2326	3844	6578	8311
2605	4383	6731	9400
2754	4523	7364	

Variable Layouts and Reserve Codes

The codebooks provide comprehensive descriptions of the administrator and teacher files. For each variable on the tape the codebook provides the following kinds of information, referenced in the accompanying figure by the number in parentheses following each item:

- a question number for cross-reference to the questionnaire which is also the SPSS variable name (1)
- the SPSS (or SAS) variable label (2)
- the tape position of the variable expressed as record and column numbers (3)
- for questionnaire items, the exact question wording and response categories (4 and 5)
- data codes for all response categories (6)
- unweighted frequency counts (7)
- relative and adjusted percentage frequencies (8)
- reserved codes (9).

*The six closed schools have no weights data. Their school identification numbers are 1906, 5192, 5815, 8163, 8434, and 9978.

The following example is taken from the principals' questionnaire. The codebook layout will vary slightly for the guidance questionnaire. (Note that the tape codebook for principals does not contain any question wordings, nor the answer category descriptions for many variables. However, the variable numbers can be used to refer back to the printed codebook and principal questionnaire items.)

- (1) P19A (2) SHORTAGE OF QUALIFIED APPLICANTS
- (3) RECORD: 3 COLUMN 59-60
- (4) Using the scale provided, how much of a barrier do you consider each of the following factors to be in obtaining teachers with excellent qualifications? (CIRCLE ONE FOR EACH ITEM)
 - a. Shortage of qualified applicants in some fields

(5) <u>CATEGORY LABEL</u>	(6)CODE	(7)FREQUENCY	(8)PERCENT	(8)ADJUSTED PERCENT
NOT A BARRIER	1	15	3.7	3.8
	2	17	4.2	4.3
	3	32	8.0	8.0
	4	54	13.4	13.5
	5	113	28.1	28.3
A VERY LARGE BARRIER	6	168	41.8	42.1
(9) RESPONSE OMISSION	98	3	0.7	MISSING
	TOTAL	402	100.0	100.0

Explanations of example:

Question number (item 1 above): For all variables taken directly from questionnaires, this is the question number in the original document, preceded by a P, T, G, or V to denote the principal, teacher, guidance, or

vocational education questionnaire respectively. It is also the SPSS (SAS) variable name. Each variable on the data tape is identified by a unique SPSS variable name. Data indicators are given mnemonics that help identify them; for example, SCHID for "school identification code."

SPSS (SAS) variable label (item 2 above): A short variable label appears after the variable name. This label is the same as that which appears on the SPSS (SAS) data definition cards included on the tape.

Tape position (item 3 above): This item gives the starting and ending tape position for each variable on the data tape expressed in terms of record and/or column locations. For the guidance questionnaire tape codebook, a continuous series of column numbers is shown in parens on the top line after items 1 and 2.

Original question wording (item 4 above): For questionnaire items, this provides the exact question wording as it appeared in the original document.

Response categories (item 5 above): Under the term Category Label, this item provides either the original response categories (in the case of questionnaire items) or the recoded or constructed response categories for composite variables and data indicators. For display in the printed codebooks, some lengthy, continuous variables have been recoded to collapse cases into broad categories. This allows the codebook tables to show the frequency counts, unweighted percentages, and adjusted weighted percentages for continuous variables without printing each distinct value that the variable can take. The distinct values and associated cases are, however, available in the codebook which is on the computer tapes.

Response codes (item 6 above): This item provides the actual numerical codes that appear on the data tape in the tape position specified. In a few cases of lengthy response categories, the actual values that appear on the tape have been collapsed and recoded. The occurrences of this are noted in the codebook. Certain codes, discussed below, are reserved to indicate missing data, legitimate skips, and so forth.

Frequency counts (item 7 above): This item shows the unweighted frequency counts for all records that were processed, including records that have missing data codes, legitimate skips, and so forth.

Relative and adjusted percentage frequencies (item 8 above): These columns display the frequency counts of item 7 as percentages. All records that were processed are included. (Adjusted frequencies will always be the same as relative frequencies unless there are reserved codes. These have been dropped in the adjusted tabulation.)

Reserved codes (item 9 above): In these data sets certain codes termed "reserved codes" have been chosen always to stand for certain situations.

The following reserved codes were used for the coding of all survey documents:

- 6 -- This code indicates multiple responses. In general, this code is to be recorded whenever a respondent has circled two or more response codes for an item which required only one. The only exception to this procedure is outlined below.
- 7 -- This code indicates a refusal to respond or an uncodable response. This code should be entered whenever a respondent has overtly indicated refusal to respond or when a response is incompatible with the category codes for an item.

8 -- This code indicates a response omission that is not due to a legitimate skip or a "not applicable" condition. Whenever a response for an item is not present and no overt indication of refusal has been noted, this code should be recorded.

9 -- This code indicates a legitimate skip, or not applicable.

These four codes apply to single column fields. The reserve codes for items requiring two or more columns use one of these four numbers in the right-most column, with the remaining columns to the left being filled with nines (9). It should be noted that any variable requiring only a single digit to code, but which has code values greater than '5,' has been allocated two coding columns. When necessary, the coding field for variables requiring two or more columns has been similarly expanded. In this way, there is no possibility of conflict between meaningful data and reserve codes.

In most cases, codes indicating the numeric value associated with each response alternative are printed on the questionnaires. Where this is not the case, or in case code numbers do not match those printed on the questionnaire, the codebook will indicate the codes used for each response alternative. In questions where multiple responses are permitted for a given question, a sequence of binary variables will be defined. A code of one (1) will indicate respondent selection of the corresponding response alternative, and a code of zero (0) will indicate respondent omission of the alternative.

For items requiring counts and percentages as responses, zeroes are treated as valid data. Therefore, all columns allocated to an item for which zero is the response will be filled with zeros. Under no circumstances are negative numbers valid data. Negative numbers are considered uncodable data.

For some items requiring counts and percentages as responses, individual answer categories span a range of numbers. This is considered valid data. The actual value coded should be the arithmetic midpoint of the range rounded to the nearest whole number. To allow for the preservation of as much information as possible, an exception to the usual coding convention was provided for items like those in Exhibit I. In these items the response system is an ordered continuum which requires two columns to code. Although respondents were requested to circle only one number for such items, it was not uncommon for a respondent to show equivocation by circling more than one number -- usually two contiguous numbers. When coders encountered an item like those shown in 30e and 30p where two numbers had been circled and the circled numbers are contiguous, the lowest numeric code is shown in the right column and an eight (8) shows in the left column. In this manner users of the data set will have the option of classifying such items as missing data or using a mid-range value as a valid code. When more than two response alternatives are circled or two circled alternatives are not adjacent, then the multiple response code (96) was used.

EXHIBIT I

30. Using the scale provided, to what extent do representatives of business, industry, and labor influence each of the following vocational education activities? (CIRCLE ONE FOR EACH ITEM)

	No Influence						Major Influence							
	01	02	03	04	05	06	01	02	03	04	05	06

SPSSX and SAS Programs

SPSSX (Statistical Package for the Social Sciences, version X) and SAS (Statistical Analysis System, version 5.16) program cards are provided for each of the seven files on the tape. These represent the most recent versions of the most universally used software for data analysis purposes. Nearly all large computer facilities support at least one of these packages, if not both. Further, all the files except the SAS system files, are in EBCDIC character format, at 80 columns per record. This is probably the most universally acceptable format for the transfer of data and programs from one system to another. The SAS programs are also compatible with the older version (82.4) of SAS, which has been available since 1982.

For those with SAS on their systems, the SAS data set (system file) is provided for convenience. The SAS code provided, with the proper control language, would produce exactly the same SAS data set as is written on the tape. The ATS files are available as raw data files or SAS system files. All raw files include SPSSX and SAS source cards.

Both SPSSX and SAS program cards have complete variable labels, and identical variable names. The SPSSX cards also have complete value labels and missing data codes declared, so that a user can produce his or her own SPSSX system file on any computer with relative ease. The SAS programs have PROC FORMATS included for the value labels, so that the user has the choice of using the formats or not.

In most cases, no changes would be necessary to run either the SPSSX or SAS programs on any computer system. The only programming necessary is the control language (JCL), which is unique to every computer system, and needs to be provided by the programmer.

Variable Naming Conventions

All survey items are uniquely identified across data files. The general rule for naming variables is that each name will begin with the first letter of the group completing the survey. For example, all variable names in the teacher questionnaire will begin with T. After the letter will be the two-digit item number from the survey. (Items 1 through 9 should be coded 01...09.) Where multiple questions appear in an item and the questions are not uniquely identified by a letter, the questions will be numbered consecutively after the item number. Therefore, the questions in item 19 shown in Exhibit II are identified as V191, V192, V193 and V194.

Where multiple questions are presented and individually identified by a letter as in item 21 of Exhibit II, the letter will follow the item number. Hence, the questions in item 21 will be identified as V21A, V21B, ..., V21G. Item 20 in Exhibit II contains multiple levels of questions presented in one item. These questions would be identified, respectively, as follows: V20, V20A, V20B1, V20B2, ..., V20B5. By using this naming convention, the survey questionnaires themselves actually become codebooks.

School identification numbers as defined by NORC will appear in the first field of each record (card). This identification number will begin with the letter P, T, G, and V -- corresponding to the principal, teacher, guidance, and vocational educational questionnaires, respectively. The letters 'SCHID' will follow the letter prefix. The record number will be inserted at the end of the variable name for school identification numbers.

Thus, for example, there are 10 records (cards) in the principal questionnaire; therefore, the school identification variables will be called:

PSCHID01

.

.

.

PSCHID--

In addition, a two digit teacher identification will be coded into each case for the teacher questionnaires. This variable will be named TEACHID.

Frequency tables for all survey items and associated statistics can be generated through use of the "FREQUENCIES" procedure in SPSS.

EXHIBIT II

19. Over the course of the school year, about what percentage of the typical vocational teacher's time is spent on the following activities? (WRITE IN PERCENT. IF UNSURE, GIVE YOUR BEST ESTIMATE)

- Finding summer (or vacation) jobs for students | % 44-46/
- Finding part-time noncoop jobs for students during the school year | % 47-49/
- Finding part-time coop jobs for students during the school year | % 50-52/
- Finding jobs for students about to graduate | % 53-55/

20. Is there a school sponsored job placement service available to students in this high school? (CIRCLE ONE)

- Yes, service is available to all students...(ANSWER A).....1 56/
- Yes, service is available only to vocational students.....(ANSWER A).....2
- No.....(GO TO Q.21).....3

IF YES:

- A. Are the staff who provide the job placement service located in this high school? (CIRCLE ONE)
 - Yes...(ANSWER B).....1 57/
 - No....(GO TO Q.21).....2

IF YES TO A:

B. About how many total hours per week do nonteaching staff (e.g., secretaries, volunteers) spend on the following activities? (WRITE IN HOURS. IF UNSURE, GIVE YOUR BEST ESTIMATE)

- Keeping job and placement information current 58-59/
- Finding summer jobs for students 60-61/
- Finding part time noncoop jobs for students during the school year 62-63/
- Finding part time coop jobs for students during the school year 64-65/
- Finding jobs for students about to graduate 66-67/

21. Rank the degree of responsibility each of the following has to find training related jobs for a vocational student. This question refers to the first job a youth has after leaving high school. Place a "1" beside the option with the greatest amount of responsibility, a "2" beside the option with the second greatest amount of responsibility, and so on through "7" for the least amount of responsibility. (WRITE IN RANK. DO NOT DUPLICATE RANKINGS)

- _____ a. School placement service 8-9/
- _____ b. Public employment service 10-11/
- _____ c. Vocational teacher in the appropriate specialty area 12-13/
- _____ d. Other teachers 14-15/
- _____ e. Guidance staff 16-17/
- _____ f. Vocational education director 18-19/
- _____ g. Student 20-21/

22. Can students at this high school take courses for credit that apply to an apprenticeship training program, such as those sponsored by local trade unions or the Bureau of Apprenticeship and Training? (CIRCLE ONE)

- Yes...(ANSWER A AND B)...1 22/
- No....(GO TO Q.23).....2

IF YES:

A. How many students participate in credit-accruing apprenticeship courses? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE)

STUDENTS: 23-25/

B. How many high school credits can be applied to an apprenticeship program? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE)

CREDITS: 26-27/

CODEBOOKS

CODEBOOK FOR PRINCIPAL QUESTIONNAIRE

Each of the ATS questionnaire data files except the teacher file has the same overall format. The questionnaire data begin in column 8 and are preceded by identifiers. These identification factors are:

Column	Description
1-4	A random number which identifies the school and is used in all High School and Beyond data sets.
5-6	All records coded the same as follows: principals - 31 guidance heads - 32 vocational education heads - 33
7	The letter R in all data sets and records

The record number is in columns 79-80 of each record.

Note: Some items stored as continuous variables in the data file and the data tape codebook were collapsed for display in this user's manual.

RESPONSE OMISSION	8	5	1.2	MISSING
TOTAL		402	100.0	100.0

P42 HAVE EFFECTIVE SCHOOL PROJECT?

RECORD: 8 COLUMN: 46

Recent research has compared schools whose students score higher than predicted on standardized tests with schools whose students do less well. The studies' findings emphasized the importance of discipline, high expectations, frequent monitoring of student progress, consensus on school goals, increased academic learning time, and other factors as contributing to the academic achievement of students. A number of schools and districts have initiated "effective schools" projects based on this research. Is your school presently involved in a similar, research based, school-wide improvement project to increase the academic achievement of all students? (CIRCLE ONE. DO NOT INCLUDE ANY PROJECT STARTED BEFORE 1979)

(NOTE: Q'AIRE CODES OF 1/2 CHANGED TO 1/0)

CATEGORY LABEL	CODE	FREQUENCY	PERCENT	ADJUSTED PERCENT
NO	0	230	57.2	58.4
YES	1	164	40.8	41.6
RESPONSE OMISSION	8	8	2.0	MISSING
TOTAL		402	100.0	100.0

P43 WHEN DID PROJECT BEGIN?

RECORD: 8 COLUMN: 47

In what year did the school-wide project begin? (CIRCLE ONE)

CODEBOOK FOR TEACHER QUESTIONNAIRE

NOTES ON IDENTIFICATION NUMBERS:

Three identification numbers appear in the first 12 columns of the first record only. Due to the space that would have been required to include a table of 10,370 identification numbers, no table was generated for the codebook. The fields and their contents are as follows:

Columns 1 - 6: Processing number used by the subcontractor responsible for optically scanning questionnaires.

Columns 7 - 10: School code matching codes in ESS files.

Columns 11 - 12: Teacher identification number within schools.

A unique respondent identification number can be obtained by combining the school code and the teacher identification number.

T35 SCHOOL HAS 'EFFECTIVE SCHOOL' PROJECT

RECORD: 4 COLUMN: 13

Recent studies have emphasized the importance of discipline, high expectations, frequent monitoring of student progress, consensus on school goals, increased academic learning time, and other factors as contributing to the academic achievement of students. A number of schools and districts have initiated "effective schools" projects based on these reports. Is your school presently involved in a similar, comprehensive schoolwide improvement project to increase the academic achievement of all students? (DO NOT INCLUDE ANY PROJECT STARTED BEFORE 1979.)

CODEBOOK FOR GUIDANCE QUESTIONNAIRE

Each of the questionnaire data files except the teacher file has the same overall format. The questionnaire data begin in column 8 and are preceded by identifiers. These identification factors are:

Column	Description
1-4	A random number which identifies the school and is used in all High School and Beyond data sets.
5-6	All records coded the same as follows: principals - 31 guidance heads - 32 vocational education heads - 33
7	The letter R in all data sets and records

The record number is in columns 79-80 of each record.

Note: Some items stored as continuous variables in the data file and the data tape codebook were collapsed for display in this user's manual.

G37 MOST LIKELY ADVICE GIVEN TO SC.

RECORD: 8 COLUMN: 16

Assume that one of the senior boys in your school came to one of the guidance staff for career guidance. He is trying to decide whether to get a job after high school graduation or to accept admission and financial aid at the state university in another city. His grades and SAT's are in the 25th percentile overall. His parents are both blue collar workers and want him to get a job as soon as possible. The boy is ambitious. Which of the following actions is the counselor most likely to take? (CIRCLE ONE)

1. Encourage him to get a full-time job after high school...
2. Encourage him to go to the state university full-time...
3. Encourage him to go to a local junior college part-time and work part-time...
4. Counselor neither encourages nor discourages any option...

ADMINISTRATOR AND TEACHER SURVEY

Principal Questionnaire

We appreciate your participation in the Administrator and Teacher Survey, a nationwide study of approximately 17,000 administrators and teachers. By completing this questionnaire, you will provide valuable information about the effect of the school environment on the educational process.

Information from a longitudinal study of over 58,000 high school (and post high school) students, plus data from the schools they attended, will provide a unique source of information to the entire education community.

You may find that a few questions on this questionnaire do not apply to your position or to the type of school in which you teach. An answer category, N/A (not applicable), has been provided for these questions. Please consider the titles Principal and School Head as equivalents and interchangeable.

Your answers will be kept strictly confidential. Results from this survey will appear in summary or statistical form only, so that neither individuals nor schools can be identified. We hope you will answer every question, but you may skip any question you do not wish to answer.

Thank you for your time and cooperation.

All identifying information will be removed from this questionnaire prior to delivery to members of the Consortium. NORC will maintain the confidentiality and anonymity of schools and individual respondents, as it has for approximately 1,000 schools and 58,000 respondents in the High School and Beyond study since 1980, through strict adherence to the principles of the Federal Privacy Act of 1974.

The Consortium for the Study of Effective Schools

The National Center for Research in Vocational Education
The Ohio State University

The Wisconsin Center for Education Research
School of Education
The University of Wisconsin - Madison

The Institute for Research in Educational Finance and Governance
Stanford University

The Center for Educational Policy and Management
The University of Oregon - College of Education

The Center for the Social Organization of Schools
Johns Hopkins University

GENERAL INSTRUCTIONS

There are several different types of questions in this questionnaire. To record your answers, please follow the instructions as shown in these examples. Please note: Numbers followed by a slash e.g., 8/ or 21-23/ are for computer operator use only.

(CIRCLE ONE)

What is your favorite sport? (CIRCLE ONE)

- Tennis.....1
- Football.....2
- Basketball.....3
- Baseball.....4
- Other (SPECIFY) HANDBALL (5)

If your favorite sport is handball, you would circle the number to the right of "Other" and write "Handball" on the line as shown.

(CIRCLE ALL THAT APPLY)

Which of the following magazines have you read in the last week? (CIRCLE ALL THAT APPLY)

- Newsweek.....(1)
- Time.....(2)
- U.S. News & World Report.....3
- None of these.....4

If you read Newsweek and Time magazines in the last week, you would circle the numbers as shown.

(CIRCLE ONE FOR EACH ITEM)

Have you done any of the following during the past school year? (CIRCLE ONE FOR EACH ITEM)

- | | <u>Yes</u> | <u>No</u> |
|---------------------------------------|------------|-----------|
| Attended a school sporting event..... | (1) | 2 |
| Attended a school assembly..... | (1) | 2 |
| Chaperoned a school dance..... | 1 | (2) |
| Chaperoned a class field trip..... | 1 | (2) |

If you attended a school sporting event and a school assembly, but did not chaperone a school dance or class field trip, you would circle the numbers as shown.

Several questions ask you to enter numbers (or estimates of numbers) in the boxes provided e.g., number of students, number of hours. Others ask for percentages or estimates of percentages. Please round to the nearest whole number and "zero fill" as shown, where appropriate.

(WRITE IN)

What percentage of the students in your school are in the: (WRITE IN PERCENT)

9-10th grades: 043%

If about 40% of the students in your high school are in grades 9 and 10, and 60% are in grades 11 and 12, you would fill in the boxes as shown.

Please enter month and day - 8-9/
 Month Day 10-11/

NOTE: A number of questions relate to events in the current school year. Please consider the **whole year** from the beginning of the current school year until now. A few questions refer to "the past three years." If you have not been at this school for a full three years, please answer for the time you have been there.

1. How many years of instruction are all students in your school required to complete for graduation in each of the following subject areas? (WRITE IN YEARS. USE FRACTIONS IF NECESSARY. IF NO REQUIREMENT, ENTER "0")

Years of Instruction Required for

	Class of 1982	Class of 1984
a. English/Language Arts	<input type="text"/> 12-14/	<input type="text"/> 33-35/
b. Mathematics.....	<input type="text"/> 15-17/	<input type="text"/> 36-38/
c. Science.....	<input type="text"/> 18-20/	<input type="text"/> 39-41/
d. History and social studies...	<input type="text"/> 21-23/	<input type="text"/> 42-44/
e. Foreign language.....	<input type="text"/> 24-26/	<input type="text"/> 45-47/
f. Physical education.....	<input type="text"/> 27-29/	<input type="text"/> 48-50/
g. Music and fine art.....	<input type="text"/> 30-32/	<input type="text"/> 51-53/

2. How many times a year do students receive report cards or a comparable form of written evaluation? (WRITE IN NUMBER)

54-55/

3. Does your school offer a program of community service as a course, club activity, or graduation requirement in which students volunteer to work at community service agencies or on their own service projects, either during or after school hours? (CIRCLE ONE)

Yes.....1 56/

No.....2

4. Since the beginning of the current school year, about how many students' parents have contacted you or your administrative staff regarding their child's behavior or academic performance? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE)

STUDENTS' PARENTS: 57-60/

5. Since the beginning of the current school year, about how many students' parents have you or your administrative staff met with privately to discuss their child's behavior or academic performance? (WRITE IN. IF UNSURE, GIVE BEST ESTIMATE)

STUDENTS' PARENTS: 61-64/

6. How important do you regard each of the following educational goals for your school? Please enter "1" for most important goal, "2" for the next most important goal, and so on through "8" for the least important goal. (WRITE IN RANK. DO NOT DUPLICATE RANKINGS)

- _____ a. Basic literacy skills (reading, math, writing, speaking) 8-9/
- _____ b. Citizenship (understanding institutions and public values) 10-11/
- _____ c. Specific occupational skills 12-13/
- _____ d. Good work habits and self discipline 14-15/
- _____ e. Academic excellence, or mastery of subject matter 16-17/
- _____ f. Personal growth and fulfillment (self-esteem, personal efficacy, self-knowledge) 18-19/
- _____ g. Human relations skills (cultural understanding, getting along with others) 20-21/
- _____ h. Moral and religious values 22-23/

7. From each pair of statements listed below, choose the one statement that best describes how you perceive your role as principal. (CIRCLE ONE NUMBER FOR EACH PAIR)

A. Choose one:

I should represent the interests of parents, leaders, and sponsors of this school.....1 24/

I should take personal initiative in selecting and directing school policy according to my best professional judgment.....2

B. Choose one:

I should effectively and efficiently manage the day-to-day affairs of this school.....1 25/

I should lead this school in new educational directions according to my best professional judgment.....2

C. Choose one:

I should play the major role in establishing the agenda and deciding the important issues in this school.....1 26/

I should share decision-making with the faculty on important school issues2

8. Last year, approximately what percentage of the students seeking admission to your school did you admit? (WRITE IN PERCENT. IF UNSURE, GIVE YOUR BEST ESTIMATE. ENTER 100% IF ALL APPLICANTS WERE ADMITTED)

_____% 27-29/

9. Last year, approximately what percentage of the students seeking to transfer to your school did you accept? (WRITE IN PERCENT. IF UNSURE, GIVE YOUR BEST ESTIMATE. ENTER 100% IF ALL APPLICANTS WERE ADMITTED)

30-32%

10. Using the scale below, how important is each of the criteria below in admitting students to your school? (CIRCLE ONE FOR EACH ITEM. IF NOT APPLICABLE TO YOUR SCHOOL, CIRCLE "01")

	Very unimportant				Very important		
	01	02	03	04	05	06	
a. Students' residence.....	01	02	03	04	05	06	33-34/
b. Lottery or random selection	01	02	03	04	05	06	35-36/
c. Academic record -- grades or teacher reports.....	01	02	03	04	05	06	37-38/
d. Achievement or aptitude test results.....	01	02	03	04	05	06	39-40/
e. Participation in athletics or other extra-curricular activities.....	01	02	03	04	05	06	41-42/
f. Religious affiliation.....	01	02	03	04	05	06	43-44/
g. Race or ethnicity.....	01	02	03	04	05	06	45-46/
h. Relative of alumni or current student.....	01	02	03	04	05	06	47-48/
i. Disciplinary record.....	01	02	03	04	05	06	49-50/
j. Financial resources of students' family.....	01	02	03	04	05	06	51-52/

11. How would you rate the academic ability of the students when they enter this school? (CIRCLE ONE)

- Much above the national norm.....1 53/
- Somewhat above the national norm....2
- At the national norm.....3
- Somewhat below the national norm....4
- Much below the national norm.....5

12. On the average, how many different students per month receive public, school-wide recognition in assemblies, PA announcements, or hall displays for their academic achievement? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE. IF NONE, WRITE "000")

STUDENTS PER MONTH: 54-56/

79-80/02

13. For an average year please estimate the number of students in your school who are removed (temporarily or permanently) from classroom instruction for academic or disciplinary reasons. (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE. IF NONE ENTER "000")

BEGIN DECK 03

	<u>For academic reasons</u>		<u>For disciplinary reasons</u>	
How many are . . .				
A. expelled?	<input type="text"/>	8-10/	<input type="text"/>	20-22/
B. suspended out of school?	<input type="text"/>	11-13/	<input type="text"/>	23-25/
C. suspended in school?	<input type="text"/>	14-16/	<input type="text"/>	26-28/
D. other (SPECIFY): _____	<input type="text"/>	17-19/	<input type="text"/>	29-31/

14. In the past three years, how many new teachers have been hired for your school (excluding transfers)? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE)

NEW TEACHERS: 32-34/

15. In the past three years, how many teachers have transferred to your school? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE)

TRANSFER TEACHERS: 35-37/

16. When you have a staff opening, which of the following kinds of effort does your school or school district use to recruit full-time teachers? (CIRCLE ALL THAT APPLY)

- No recruitment efforts.....01 38-39/
- Advertise in national education publications....02 40-41/
- Advertise in local publications.....03 42-43/
- Contact educators in other schools and agencies.04 44-45/
- Contact teachers' organizations.....05 46-47/
- Contact colleges and universities.....06 48-49/

17. A. When hiring a new teacher in a non-shortage field how many candidates are typically interviewed by you or by district staff? (WRITE IN NUMBER. IF UNSURE, GIVE YOUR BEST ESTIMATE)

NUMBER INTERVIEWED: 52-54/

B. Before making a job offer to a new teacher, how often do you/district staff obtain an appraisal from a former principal or supervising teacher? (CIRCLE ONE)

- Always.....1 55/
- Most of the time.....2
- Some of the time.....3
- Never.....4

18. Of the teachers who started working in your school within the past three years, what percentage did you think would be excellent teachers at the time they started? (WRITE IN PERCENT. IF UNSURE, GIVE YOUR BEST ESTIMATE)

% 56-58/

19. Using the scale provided, how much of a barrier do you consider each of the following factors to be in obtaining teachers with excellent qualifications? (CIRCLE ONE FOR EACH ITEM)

	Not a barrier			A very large barrier			
	01	02	03	04	05	06	
a. Shortage of qualified applicants in some fields.....	01	02	03	04	05	06	59-60/
b. Insufficient salary and benefits to offer new teachers.....	01	02	03	04	05	06	61-62/
c. Inability to offer teachers job security.....	01	02	03	04	05	06	63-64/
d. Teachers' unwillingness to teach the types of students in this school.....	01	02	03	04	05	06	65-66/
e. Difficulty of identifying the applicant with the best qualifications.....	01	02	03	04	05	06	67-68/
f. Openings become available too late to get a teacher with excellent qualifications.....	01	02	03	04	05	06	69-70/
g. Too many teachers transferred to this school by the central office.....	01	02	03	04	05	06	<input type="text"/> 99 71-72/
h. Too much control over hiring decisions in the hands of the central office.....	01	02	03	04	05	06	99 73-74/
i. Constraints imposed by a teachers' organization.....	01	02	03	04	05	06	99 75-76/
j. Constraints imposed by affirmative action considerations.....	01	02	03	04	05	06	99 77-78/

20. What are the lowest and highest annual salaries currently paid to full-time teachers on your school's payroll? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE TO THE NEAREST \$500.)

LOWEST SALARY PAID: \$ [] [] [] [] [] 8-12/

HIGHEST SALARY PAID: \$ [] [] [] [] [] 13-17/

21. Which of the following kinds of rewards are given to good teachers in your school? (CIRCLE ALL THAT APPLY)

- Given special awards for teaching.....01 18-19/
- Assigned to teach the better students.....02 20-21/
- Allowed to choose the classes they teach.....03 22-23/
- Given a lighter teaching load.....04 24-25/
- Relieved of administrative or disciplinary duties.....05 26-27/
- Given priority on requests for materials06 28-29/
- Given time off to attend professional workshops...07 30-31/
- Given extra pay for extra responsibilities.....08 32-33/
- Other (SPECIFY) _____ 09 34-35/
- No rewards are given.....10 36-37/

22. A. What was the average annual percentage increase in teacher salaries in this school over the last 3 years? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE.)

INCREASE [] [] [] [] % 38-40/

B. Last year, what percentage of teachers in your school received some merit pay increase? (WRITE IN PERCENT. IF UNSURE, GIVE YOUR BEST ESTIMATE. IF "NONE", WRITE IN "000" AND GO TO Q.23.)

RECEIVED MERIT PAY INCREASE [] [] [] [] % 41-43/

C. Of those who received a merit increase, what was the average percentage increase? (WRITE IN PERCENT. IF UNSURE, GIVE YOUR BEST ESTIMATE. IF NONE, ENTER "000")

MERIT INCREASE: [] [] [] [] % 44-46/

23. Does your school or school district offer teachers tenure or provide the assurance of a continuing contract? (CIRCLE ONE)

Yes...(ANSWER A).....1 47/

No....(GO TO Q.24).....2

A. What percentage of the teachers at your school have tenure or its equivalent? (WRITE IN PERCENT. IF UNSURE, GIVE YOUR BEST ESTIMATE)

24. Of the teachers on your school's payroll, what percentage have taught in your school for: (WRITE IN PERCENT. IF UNSURE, GIVE YOUR BEST ESTIMATE)

Less than three years: [][]% 51-53/
Three to ten years: [][]% 54-56/
More than ten years: [][]% 57-59/

25. A. During the past three years, how many teachers have you recommended not have their contracts renewed because of poor teaching? (WRITE IN FOR EACH CATEGORY. IF UNSURE, GIVE YOUR BEST ESTIMATE. IF NONE, ENTER "00")

TENURED TEACHERS [][] 60-61/

NON-TENURED TEACHERS [][] 62-63/

B. During the past three years, how many teachers' contracts have you successfully prevented from being renewed? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE. IF NONE, ENTER "00")

TENURED TEACHER CONTRACTS [][] 64-65/

NON-TENURED TEACHER CONTRACTS [][] 66-67/

26. In a typical non-renewal case for tenured teachers, how many hours would you and your staff have to devote to documenting charges, attending hearings, etc.? (WRITE IN HOURS. IF UNSURE, GIVE YOUR BEST ESTIMATE)

HOURS: [][] 68-69/
79-80/04

27. Using the scale provided, how much of a barrier do each of the following factors present to you in firing or refusing to renew the contracts of poor teachers? (CIRCLE ONE FOR EACH ITEM)

BEGIN DECK 05

Table with 5 rows (a-e) and 7 columns (01-06) for barrier scale. Row a: Personal reluctance to fire someone... 01-06 8-9/. Row b: Excessively complex formal procedures... 01-06 10-11/. Row c: Difficulty of identifying poor teachers... 01-06 12-13/. Row d: Tenure rules in your school system... 01-06 14-15/. Row e: Constraints imposed by a teachers' organization... 01-06 16-17/. Includes an N/A box for row d.

28. During the past three years, how many teachers have you encouraged to resign or retire early because of poor teaching? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE. IF NONE, ENTER "00")

TEACHERS: [][] 18-19/

A. How many times have you been successful in inducing a teacher to resign or retire early in the past three years? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE. IF NONE, ENTER "00")

TIMES SUCCESSFUL [][] 20-21/

29. Over the past three years, what percentage of the teachers in your school would you consider to have been . . .(WRITE IN PERCENT. IF UNSURE, GIVE YOUR BEST ESTIMATE. IF NONE, ENTER "000")

poor teachers				%	22-24/
fair teachers				%	25-27/
good teachers				%	28-30/
excellent teachers				%	31-33/
TOTAL					100%

30. Which one of the following statements best describes the most recent teacher employment negotiations in your school? (CIRCLE ONE ONLY)

- Negotiations were held with a teachers' organization.....1 34/
- Individual negotiations were held between the school and individual employees.....2
- Wages, hours, terms, and conditions of employment were essentially determined unilaterally by the school.....3
- Wages, hours, terms, and conditions of employment were essentially determined unilaterally by the district.....4

31. On a scale of 1 to 6, how much influence do you feel each of the following has upon how your performance is evaluated by your superiors? (CIRCLE ONE FOR EACH CATEGORY)

	<u>No</u>		<u>Great Deal</u>				
	Influence		of Influence				
A. The performance of your school's students on standardized tests or in gaining admission to college.....	01	02	03	04	05	06	35-36/

YEARS: 44-45/

50. How many years have you been a principal? (WRITE IN. IF LESS THAN ONE YEAR, ENTER "01")

51. Other than as a principal, how many years have you had of administrative experience in schools? (WRITE IN. IF LESS THAN ONE YEAR, ENTER "01". IF NONE, ENTER "00")

YEARS: 48-49/

52. How many years have you been the principal of this school? (WRITE IN. IF LESS THAN ONE YEAR, ENTER "01")

YEARS: 50-51/

53. What is your annual salary from your school before taxes?

\$ 52-56/

IF YOU ARE A PRINCIPAL OF A PUBLIC SCHOOL, CHECK THE BOX , AND SKIP TO Q.55.

57/

54. Does all or part of your salary go directly to your school or to a religious community or order of which you are a member? (CIRCLE ONE)

Yes...(ANSWER A).....1 58/

No....(GO TO Q.55).....2

IF YES:

A. What is the annual cash payment you receive from your school? (IF NONE, ENTER ZEROES)

\$ 59-63/

79-80/09

BEGIN DECK 10

55. Which of the following job perquisites and fringe benefits do you receive from your school or district in addition to your salary? (CIRCLE ALL THAT APPLY)

- Housing or housing expenses....01 8-9/
- Meals.....02 10-11/
- Tuition for your children.....03 12-13/
- College tuition for yourself...04 14-15/
- General medical insurance.....05 16-17/
- Dental insurance.....06 18-19/
- Group life insurance.....07 20-21/
- None of the above.....08 22-23/

56. In how many different schools have you worked as a regular member of the school staff? (IF NONE, ENTER "00")

SCHOOLS: 24-25/

57. Where did you last work before you became principal of this school?
(CIRCLE ONE)

- At this school.....01 26-27/
- At another public school in this district.....02
- At a public school in another district.....03
- At another private school in this administrative system.....04
- At a private school in another administrative system.....05
- Other (SPECIFY) _____ 06

58. Would you ultimately like to move up to a higher administrative position in the field of education? (CIRCLE ONE)

- Yes.....1 28/
- No.....2

59. How important to you was each of the following reasons in deciding to serve as a principal? Please enter "1" for the most important reason, "2" for the next most important reason, and so on through "8" for the least important reason. (FILL IN ONE NUMBER ON EACH LINE. DO NOT DUPLICATE RANKINGS)

- _____ a. Assignment made by superiors 29-30/
- _____ b. Economic benefits (salary, health benefits, pensions) 31-32/
- _____ c. Preference for administrative responsibilities 33-34/
- _____ d. Desire for greater control over curriculum 35-36/
- _____ e. Desire for greater control over quality of personnel 37-38/
- _____ f. Desire for greater control over other school policies 39-40/
- _____ g. Desire to further your career 41-42/
- _____ h. Desire to take on the challenges of being a principal 43-44/

60. How much of the time do you feel satisfied with your job? (CIRCLE ONE)

- All of the time.....1 45/
- Most of the time.....2
- Some of the time.....3
- Almost never.....4

61. In what year was your high school founded? (CIRCLE ONE)

- 1975 to present.....01 46-47/
- 1970 to 1974.....02
- 1965 to 1969.....03
- 1960 to 1964.....04
- 1955 to 1959.....05

62. A. As of January 1, 1984, how many students were enrolled in your school in each of the following grades?
 (ENTER NUMBER. IF UNSURE, GIVE YOUR BEST ESTIMATE.)

9th: 48-51/
 10th: 52-55/
 11th: 56-59/
 12th: 60-63/

B. How many full-time equivalent classroom teachers are there at this high school? (PLEASE ANSWER IN TERMS OF GRADES 9-12 ONLY)

TEACHERS: 64-67/

63. In a typical week how many person days of substitute teaching do you use in this school?

DAYS: 68-70

64. How old are you? (WRITE IN)

AGE: 71-72/

65. What is your sex? (CIRCLE ONE)

Male.....1 73/
 Female.....2

66. What is your origin or descent? If more than one, please indicate the one you consider the most important part of your background. (CIRCLE ONE)

- NON-HISPANIC.....1 74/
- HISPANIC OR SPANISH
 - Mexican, Mexican-American, Chicano.....2
 - Cuban, Cubano.....3
 - Puerto Rican, Puertorriqueno, Boricua.....4
 - Other Latin-American, Latino, Hispanic, or Spanish decent (WRITE IN) _____ 5

67. What is your race? (CIRCLE ONE ONLY)

- White.....1 75/
- Black.....2
- American Indian or Alaskan Native.....3
- Asian or Pacific Islander.....4
- Other (SPECIFY) _____ 5

79-80/10

We would appreciate it if you would just take a minute to check and be certain that you have not inadvertently missed a question.

Thank you for assisting us in this important research. Your time and effort are much appreciated.

ADMINISTRATOR AND TEACHER SURVEY

Teacher Questionnaire

We appreciate your participation in the Administrator and Teacher Survey, a nationwide study of approximately 17,000 administrators and teachers. By completing this questionnaire, you will provide valuable information about the effect of the school environment on the educational process.

Information from a longitudinal study of over 58,000 high school (and post high school) students, plus data from the schools they attended, will provide a unique source of information to the entire education community.

You may find that a few questions on this questionnaire do not apply to your position or to the type of school in which you teach. An answer category, NA (Not Applicable), has been provided for these questions.

Your answers will be kept strictly confidential. Results from this survey will appear in summary or statistical form only, so that neither individuals nor schools can be identified. We hope you will answer every question, but you may skip any question you do not wish to answer.

Thank you for your time and cooperation.

All identifying information will be removed from this questionnaire prior to delivery to members of the Consortium. NORC will maintain the confidentiality and anonymity of schools and individual respondents, as it has for approximately 1,000 schools and 58,000 respondents in the High School and Beyond study since 1980, through strict adherence to the principles of the Federal Privacy Act of 1974.

MARKING DIRECTIONS

- Use only a No. 2 black lead pencil.
- Read each question carefully. Make a **HEAVY BLACK MARK** that **FILLS THE CIRCLE** next to your answer.
- Please do not make stray marks of any kind.

INCORRECT MARKS

CORRECT MARK

- If the question is to be answered with numbers, you should:
 - 1) Write the numbers in the boxes, making sure that the **LAST** number is always placed in the **RIGHT-hand** box.
 - 2) Round all fractions to the nearest whole number unless otherwise instructed.
 - 3) Fill in the unused boxes with zeros.
 - 4) Mark the **MATCHING CIRCLE** BELOW EACH BOX.

EXAMPLE: Approximately what percentage of the students in your school are in the 11th grade?

GENERAL INSTRUCTIONS

There are several different types of questions in this questionnaire. To record your answers, please follow the instructions as shown in these examples.

(MARK ONE)

What is your favorite sport? (MARK ONE)

- 1 Tennis
- 2 Football
- 3 Basketball
- 4 Baseball
- Other (Specify →)

Handball

If your favorite sport is handball, you would mark the circle to the left of "Other" and write "Handball" in the box as shown.

(MARK ALL THAT APPLY)

Which of the following magazines have you read in the last week? (MARK ALL THAT APPLY)

- 1 Newsweek
- 2 Time
- 3 U.S. News & World Report
- 4 None of these

If you read Newsweek and Time magazines in the last week, you would mark the circles as shown.

(MARK ONE FOR EACH ITEM)

Have you done any of the following during the past school year? (MARK ONE FOR EACH ITEM)

- | | Yes | No |
|--|----------------------------------|----------------------------------|
| Attended a school sporting event | <input checked="" type="radio"/> | <input type="radio"/> 2 |
| Attended a school assembly | <input checked="" type="radio"/> | <input type="radio"/> 2 |
| Chaperoned a school dance | <input type="radio"/> 1 | <input checked="" type="radio"/> |
| Chaperoned a class field trip | <input type="radio"/> 1 | <input checked="" type="radio"/> |

If you attended a school sporting event and a school assembly, but did not chaperone a school dance or class field trip, you would mark the circles as shown.

Please enter today's date:

MONTH: ② February ③ March ④ April ⑤ May ⑥ June

DAY: ① ② ③ ④ ⑤ ⑥ ⑦ ⑧ ⑨ ⑩ ⑪ ⑫ ⑬ ⑭ ⑮ ⑯ ⑰ ⑱ ⑲ ⑳ ㉑ ㉒ ㉓ ㉔ ㉕ ㉖ ㉗ ㉘ ㉙ ㉚ ㉛ ㉜ ㉝ ㉞ ㉟ ㊱ ㊲ ㊳ ㊴ ㊵ ㊶ ㊷ ㊸ ㊹ ㊺ ㊻ ㊼ ㊽ ㊾ ㊿

NOTE: A number of questions relate to events in the current school year. Please consider the whole year from the beginning of the current school year until now.

1) How much influence do teachers have over school policy in each of the areas below? (MARK ONE FOR EACH ITEM)

- | | None | A Great Deal |
|--|-------------|--------------|
| a. Determining student behavior codes | ① ② ③ ④ ⑤ ⑥ | ① ② ③ ④ ⑤ ⑥ |
| b. Determining the content of inservice programs | ① ② ③ ④ ⑤ ⑥ | ① ② ③ ④ ⑤ ⑥ |
| c. Setting policy on grouping students in classes by ability | ① ② ③ ④ ⑤ ⑥ | ① ② ③ ④ ⑤ ⑥ |
| d. Establishing the school curriculum | ① ② ③ ④ ⑤ ⑥ | ① ② ③ ④ ⑤ ⑥ |

2. Using the scale provided, how much control do you feel you have in your classroom over each of the following areas of your planning and teaching? (MARK ONE FOR EACH ITEM)

- | | None | Complete Control | |
|--|-------------|------------------|----|
| a. Selecting textbooks and other instructional materials | ① ② ③ ④ ⑤ ⑥ | ① ② ③ ④ ⑤ ⑥ | |
| b. Selecting content, topics, and skills to be taught | ① ② ③ ④ ⑤ ⑥ | ① ② ③ ④ ⑤ ⑥ | |
| c. Selecting teaching techniques | ① ② ③ ④ ⑤ ⑥ | ① ② ③ ④ ⑤ ⑥ | |
| d. Disciplining students | ① ② ③ ④ ⑤ ⑥ | ① ② ③ ④ ⑤ ⑥ | NA |
| e. Determining the amount of homework to be assigned | ① ② ③ ④ ⑤ ⑥ | ① ② ③ ④ ⑤ ⑥ | ⑨ |

3. To what extent has each of the following helped you improve your teaching or solve an instructional or class management problem? (MARK ONE FOR EACH CATEGORY)

- | | Not Applicable | Hindrance | No Help | Extremely Helpful |
|--------------------------------------|----------------|-----------|-------------|-------------------|
| a. Principal or school head | | ⑦ | ① ② ③ ④ ⑤ ⑥ | |
| b. Department Chair | ⑨ | ⑦ | ① ② ③ ④ ⑤ ⑥ | |
| c. Other school level administrators | ⑨ | ⑦ | ① ② ③ ④ ⑤ ⑥ | |
| d. Other teachers | | ⑦ | ① ② ③ ④ ⑤ ⑥ | |

4. Since the beginning of the current school year, how many half-days have you spent in inservice programs that were held for . . .

A. . . the whole staff together? (MARK ONE)

- | | |
|-----------------------------------|---|
| <input type="radio"/> None | <input type="radio"/> 3 half-days |
| <input type="radio"/> 1 half-day | <input type="radio"/> 4 half-days |
| <input type="radio"/> 2 half-days | <input type="radio"/> 5 or more half-days |

B. . . a smaller group (e.g., as a department, staff in a special program or a group of volunteers)? (MARK ONE)

- | | |
|-----------------------------------|---|
| <input type="radio"/> None | <input type="radio"/> 3 half-days |
| <input type="radio"/> 1 half-day | <input type="radio"/> 4 half-days |
| <input type="radio"/> 2 half-days | <input type="radio"/> 5 or more half-days |

5. Since the beginning of the current school year, how many students' parents (or guardians) have you talked with individually regarding their child's classroom performance? (MARK ONE)

- ① None
- ② 1-4 students' parents
- ③ 5-9 students' parents
- ④ 10-19 students' parents
- ⑤ 20-29 students' parents
- ⑥ 30-39 students' parents
- ⑦ 40-59 students' parents
- ⑧ 60 or more students' parents

6. On an average day, how often are the classes you teach interrupted (e.g., by announcements, messengers from the office, students coming in tardy, noise in hallway, etc.)? (MARK ONE)

- | | |
|--|--|
| <input type="radio"/> Never | <input type="radio"/> 4-6 times |
| <input type="radio"/> Less than once a day | <input type="radio"/> 7-14 times |
| <input type="radio"/> 1-3 times | <input type="radio"/> 15 or more times |

7. If you had to choose from among the eight goals for students listed below, how would you rank them according to their importance in your teaching? Enter a "1" for the most important goal, a "2" for the next most important goal, and so on, through "8" for the least important goal. (FIRST, RANK EACH GOAL. THEN MARK THE MATCHING CIRCLE NEXT TO EACH RANKING. DO NOT DUPLICATE RANKINGS.)

	RANK	1	2	3	4	5	6	7	8
a. Basic literacy skills (reading, math, writing, speaking)		<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Academic excellence, or mastery of the subject matter of the course		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Citizenship (understanding institutions and public values)		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Specific occupational skills		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Good work habits and self-discipline		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. Personal growth and fulfillment (self-esteem, personal efficacy, self-knowledge)		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. Human relations skills (cultural understanding, getting along with others)		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. Moral or religious values		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

8. For the following school years, what proportion of the students you taught were members of the junior and senior classes? (MARK ONE FOR EACH SCHOOL YEAR)

	0-10%	11-50%	51-100%	Not Applicable
1980-81	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
1981-82	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
1982-83	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
1983-84	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

9. How would you rate the average academic ability of students when they enter this school? (MARK ONE)

- 1 Much above the national norm
- 2 Somewhat above the national norm
- 3 At the national norm
- 4 Somewhat below the national norm
- 5 Much below the national norm

10. Compare the academic ability of the students you have taught since the beginning of the current school year to the average for the school. What percentage of your students have been above the school average? (MARK ONE)

- | | |
|---------------------------------------|--|
| <input type="radio"/> 1 0-9 percent | <input type="radio"/> 4 50-69 percent |
| <input type="radio"/> 2 10-29 percent | <input type="radio"/> 5 70-89 percent |
| <input type="radio"/> 3 30-49 percent | <input type="radio"/> 6 90-100 percent |

11. What is the average size of the classes you have taught since the beginning of the current school year? (MARK ONE)

- 1 Less than 10 students
- 2 11-15 students
- 3 16-20 students
- 4 21-25 students
- 5 26-30 students
- 6 31-35 students
- 7 More than 35 students

12. Since the beginning of the current school year, how often have you participated in predominantly faculty social activities (such as potlucks, musical activities, parties, athletic teams, special group efforts to help a colleague)? Exclude contacts that are part of your duties as a coach, leader of a school club, or similar activity. (MARK ONE)

- Never
- 1-2 times
- 3-5 times
- 6-9 times
- 10-20 times
- More than 20 times

13. Since the beginning of the current school year, how much time per month (on the average) have you spent meeting with other teachers on lesson planning, curriculum development, guidance and counseling, evaluation of programs, or other collaborative work related to instruction? (MARK ONE)

- 1 Less than 15 minutes
- 2 15-29 minutes
- 3 30-59 minutes
- 4 1 hour or more, less than 5
- 5 5 hours or more, less than 10
- 6 10 hours or more

14. Except for monitoring student teachers or substitute teachers, how often have you visited another teacher's classroom to observe and discuss their teaching since the beginning of the current school year? (MARK ONE)

- Never
- Once
- Twice
- 3-4 times
- 5-9 times
- 10 or more times

15. Since the beginning of the current school year, how many times has the department head or any other supervisor observed your teaching? (MARK ONE)

- Never
- Once
- Twice
- 3-4 times
- 5-9 times
- 10 or more times

16. How many days of teaching have you missed since the beginning of the current school year for any reason? (MARK ONE)

- No days absent
- 1-2 days absent
- 3-4 days absent
- 5-7 days absent
- 8-11 days absent
- 12-15 days absent
- 16-20 days absent
- 21-29 days absent
- 30 or more days absent

NOTE: BE SURE TO ANSWER QUESTIONS 17 and 18.

17. To what extent do you feel successful in providing the kind of education you would like to provide for most of your students? (MARK ONE)

- 1 Not successful
- 2 Slightly successful
- 3 Moderately successful
- 4 Very successful

18. How would you describe the contact between the different student ethnic groups in this school? (MARK ONE ONLY)

- 0 Does not apply—only one major ethnic group present
- 1 Tense relations
- 2 Formal relations are good, but no informal relations
- 3 A few intergroup friendships
- 4 Many intergroup friendships
- 5 Many friendships, but also some tension

19. Using the scale provided, please indicate the extent to which you agree or disagree with each of the following statements. (MARK ONE FOR EACH)

	Strongly Disagree	1	2	3	4	5	6	Strongly Agree
a. The learning environment in this school is not conducive to school achievement for most students		1	2	3	4	5	6	
b. Staff members in this school generally don't have much school spirit		1	2	3	4	5	6	
c. I make a conscious effort to coordinate the content of my courses with other teachers		1	2	3	4	5	6	
d. You can count on most staff members to help out anywhere, anytime — even though it may not be part of their official assignment		1	2	3	4	5	6	
e. Most of my colleagues share my beliefs and values about what the central mission of the school should be		1	2	3	4	5	6	
f. My success or failure in teaching students is due primarily to factors beyond my control rather than to my own effort and ability		1	2	3	4	5	6	
g. The level of student misbehavior (e.g., noise, horseplay or fighting in the halls, cafeteria or student lounge) and/or drug or alcohol use in this school interferes with my teaching		1	2	3	4	5	6	
h. I try to avoid getting involved in students' personal concerns		1	2	3	4	5	6	
i. The principal does a poor job of getting resources for this school		1	2	3	4	5	6	
j. The principal deals effectively with pressures from outside the school that might interfere with my teaching		1	2	3	4	5	6	
k. The principal sets priorities, makes plans, and sees that they are carried out		1	2	3	4	5	6	
l. Many of the students I teach are not capable of learning the material I am supposed to teach them		1	2	3	4	5	6	
m. Goals and priorities for the school are clear		1	2	3	4	5	6	
n. The staff seldom evaluates its programs and activities		1	2	3	4	5	6	
o. Staff members are recognized for a job well done		1	2	3	4	5	6	
p. The amount of student tardiness and class cutting in this school interferes with my teaching		1	2	3	4	5	6	
q. Staff are involved in making decisions that affect them		1	2	3	4	5	6	
r. The principal knows what kind of school he/she wants and has communicated it to the staff		1	2	3	4	5	6	
s. This school's administration knows the problems faced by the staff		1	2	3	4	5	6	
t. In this school I am encouraged to experiment with my teaching		1	2	3	4	5	6	
u. Routine duties and paperwork interfere with my job of teaching		1	2	3	4	5	6	
v. I feel accepted and respected as a colleague by most staff members		1	2	3	4	5	6	
w. The school administration's behavior toward the staff is supportive and encouraging		1	2	3	4	5	6	
x. Teachers in this school are continually learning and seeking new ideas		1	2	3	4	5	6	
y. The principal seldom consults with staff members before he/she makes decisions that affect us		1	2	3	4	5	6	
z. Necessary materials (e.g., textbooks, supplies, copy machine) are readily available as needed by the staff		1	2	3	4	5	6	

	Strongly Disagree						Strongly Agree						
	1	2	3	4	5	6	1	2	3	4	5	6	
aa. Teachers are expected to help maintain discipline in the entire school, not just their classroom.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
bb. In this school the teachers and the administration are in close agreement on school discipline policy.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
cc. The attitudes and habits my students bring to my class greatly reduce their chances for academic success.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
dd. There is a great deal of cooperative effort among staff members.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	
ee. kk. I am familiar with the content and specific goals of the courses taught by other teachers in my department.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	NA
ll. The teachers' union (or education association) and the school administration work together to improve the achievement of students in this school.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	NA
mm. Most of the inservice programs I attended this school year dealt with issues specific to the needs and concerns of this school's students or staff.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	NA

20. On average, how many hours per week are you assigned to teach? (Exclude study hall, homeroom, preparation periods, etc.) (MARK ONE)

- 1 Less than 15 hours
- 2 15-17 hours
- 3 18-20 hours
- 4 21-23 hours
- 5 24-25 hours
- 6 26-30 hours
- 7 More than 30 hours

21. In addition to the hours you are assigned to teach, about how many hours outside of class do you spend each week in each of the following activities? (IF UNSURE, GIVE YOUR BEST ESTIMATE. ROUND TO THE NEAREST WHOLE HOUR. IF NONE, MARK "0." IF BETWEEN ZERO AND ONE, MARK "1.")

	HOURS																		
	0	1	2	3	4	5-6	7-8	9-10	11-14	15-20	21 or more								
a. Hall duty, study hall, homeroom, lunchroom, supervising students on detention or similar duty.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Completing forms and administrative paperwork.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Preparing lessons/lectures, composing tests, grading papers.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Background reading in your subject area.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Contacting employers on students' behalf and visiting students at worksites.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. Conducting makeup work for students.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. Counseling students.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. Coaching (averaged over the school year).....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
i. Directing non-athletic extracurricular activities.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
j. Non-school sponsored activities with students (e.g., church, political, service projects, sports).....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
k. Tutoring students.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

22. On the average, about what percentage of your classes' time is spent in each of the following activities? (WRITE IN PERCENT AND THEN MARK THE CORRESPONDING CIRCLE TO THE RIGHT. IF NONE, MARK "0." TOTAL SHOULD EQUAL 100 PERCENT.)

	PERCENTAGE OF CLASS TIME											
	0-2	3-5	6-8	9-11	12-14	15-17	18-20	21-30	31 or more			
a. Daily routines (such as set up, clean up, passing out materials, taking attendance, breaks)..... %.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Getting students to behave..... %.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Instruction or student practice of skills..... %.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

TOTAL 100%

23. During the time devoted to instruction and practicing skills, at any given time, what percentage of the students is whispering, fooling around, appears to be daydreaming, or is not working on the assigned task? (IF UNSURE, GIVE YOUR BEST ESTIMATE)

PERCENTAGE

- 0-2%
- 3-5%
- 6-8%
- 9-11%
- 12-14%
- 15-17%
- 18-20%
- 21-30%
- 31% or more

24. How many minutes of homework do/did you assign your students for a typical class period currently and during the 1980/81 school year? (MARK ONE)

If you were not teaching in 1980/81, mark here and only mark responses in the "currently" column.

	Currently	In 1980/81
None	<input type="radio"/> 1	<input type="radio"/> 1
Up to 15 minutes	<input type="radio"/> 2	<input type="radio"/> 2
16 to 30 minutes	<input type="radio"/> 3	<input type="radio"/> 3
31 to 45 minutes	<input type="radio"/> 4	<input type="radio"/> 4
46 to 60 minutes	<input type="radio"/> 5	<input type="radio"/> 5
More than 60 minutes	<input type="radio"/> 6	<input type="radio"/> 6

25. For what percentage of the homework assignments do you . . .

A. . . record whether or not it was done? (MARK ONE)

- 9 Not applicable
- 1 0-9 percent
- 2 10-29 percent
- 3 30-49 percent
- 4 50-69 percent
- 5 70-89 percent
- 6 90-100 percent

B. . . return graded or corrected homework to the students? (MARK ONE)

- 9 Not applicable
- 1 0-9 percent
- 2 10-29 percent
- 3 30-49 percent
- 4 50-69 percent
- 5 70-89 percent
- 6 90-100 percent

26. The following questions deal with major exams and quizzes.

A. For each report card evaluation or grading period, how often do you usually administer a . . . (MARK NUMBER OF EXAMS OR QUIZZES.)

Major Exam	Quiz
<input type="radio"/> 0	<input type="radio"/> 0
<input type="radio"/> 1	<input type="radio"/> 1
<input type="radio"/> 2	<input type="radio"/> 2
<input type="radio"/> 3	<input type="radio"/> 3
<input type="radio"/> 4-5	<input type="radio"/> 4-6
<input type="radio"/> 6-8	<input type="radio"/> 7-10
<input type="radio"/> 9-12	<input type="radio"/> 11-15
<input type="radio"/> 13 or more	<input type="radio"/> 16-20
	<input type="radio"/> 21-30
	<input type="radio"/> 31 or more

B. How many days does it usually take to grade and return a . . . (MARK NUMBER OF DAYS. IF NO MAJOR EXAM/QUIZ GIVEN, MARK "NA.")

Major Exam	Quiz
<input type="radio"/> 0	<input type="radio"/> 0
<input type="radio"/> 1	<input type="radio"/> 1
<input type="radio"/> 2	<input type="radio"/> 2
<input type="radio"/> 3	<input type="radio"/> 3
<input type="radio"/> 4	<input type="radio"/> 4
<input type="radio"/> 5	<input type="radio"/> 5
<input type="radio"/> 6-10	<input type="radio"/> 6-10
<input type="radio"/> 11 or more	<input type="radio"/> 11 or more
<input type="radio"/> NA	<input type="radio"/> NA

C. How many minutes of class time do you usually spend reviewing the . . . (MARK NUMBER OF MINUTES. IF NO MAJOR EXAM/QUIZ GIVEN, MARK "NA.")

Major Exam	Quiz
<input type="radio"/> 0	<input type="radio"/> 0
<input type="radio"/> 1-2	<input type="radio"/> 1-2
<input type="radio"/> 3-7	<input type="radio"/> 3-7
<input type="radio"/> 8-12	<input type="radio"/> 8-12
<input type="radio"/> 13-17	<input type="radio"/> 13-17
<input type="radio"/> 18-22	<input type="radio"/> 18-22
<input type="radio"/> 23-27	<input type="radio"/> 23-27
<input type="radio"/> 28-32	<input type="radio"/> 28-32
<input type="radio"/> 33-37	<input type="radio"/> 33-37
<input type="radio"/> 38-42	<input type="radio"/> 38-42
<input type="radio"/> 43-47	<input type="radio"/> 43-47
<input type="radio"/> 48-52	<input type="radio"/> 48-52
<input type="radio"/> 53 or more	<input type="radio"/> 53 or more
<input type="radio"/> NA	<input type="radio"/> NA

27. In a grading period, how many writing assignments of at least one page is a student required to do in your 11th or 12th grade classes? (A page is approximately 250 words.) (MARK ONE)

- Not applicable
- None
- 1-2 assignments
- 3-4 assignments
- 5-6 assignments
- 7-8 assignments
- 9-10 assignments
- 11 or more assignments

28. Indicate the importance you give to each of the following grading criteria in setting grades for non-special education students in your classes. (MARK ONE FOR EACH ITEM)

- Not Important Somewhat Important Very Important Extremely Important
- a. Absolute level of achievement (1) (2) (3) (4)
- b. Achievement relative to the rest of the class (1) (2) (3) (4)
- c. Individual improvement or progress over past performance (1) (2) (3) (4)
- d. Effort (1) (2) (3) (4)

29. What percentage of students in your classes have you recognized in any of the following ways for their academic performance: progress charts, certificates, class newsletters, pictures or names on bulletin boards, display or reading of student work? WRITE IN PERCENT AND MARK THE CORRESPONDING CIRCLE BELOW EACH NUMBER. IF NONE, MARK HERE AND GO TO Q. 30.

%		
0	0	
1	1	
2	2	
3	3	
4	4	
5	5	
6	6	
7	7	
8	8	
9	9	

A. Please indicate the importance of the criteria used to give this recognition. (MARK ONE FOR EACH LINE)

- Not Important Somewhat Important Very Important Extremely Important
- a. Level of achievement (1) (2) (3) (4)
- b. Effort or individual improvement or progress over past achievement (1) (2) (3) (4)

30. Are there any general or school-level standards of classroom discipline which you are expected to enforce in your classes? (MARK ONE)

- (1) No
- (2) Yes

31. On the whole, how would you evaluate the relations between the different student ethnic groups in your school? (MARK ONE)

- (9) Does not apply - only one major ethnic group present
- (1) Almost no problems
- (2) Some minor problems
- (3) Some serious problems
- (4) Many serious problems

32. How much of the time do you feel satisfied with your job in this school? (MARK ONE)

- (1) Almost never
- (2) Some of the time
- (3) Most of the time
- (4) All the time

33. What is your best guess about the number of students whom your principal or school head knows by name? He/she knows . . . (MARK ONE)

- (1) nearly every student.
- (2) over half the students.
- (3) one-fourth to one-half of the students.
- (4) one-tenth to one-fourth of the students.
- (5) less than one-tenth of the students.

34. Using the scale provided, to what extent have the following changed since the 1980-81 school year? (MARK ONE FOR EACH ITEM)

If you were not at this school for the 1980/81 school year, mark here ○ and proceed to item 35.

- Much Less No Change Much More
- a. Number of Tests and Quizzes you give (1) (2) (3) (4) (5) (6) (7)
- b. Your expectations for student performance (1) (2) (3) (4) (5) (6) (7)
- c. The amount of time devoted to nonteaching school activities or duties (1) (2) (3) (4) (5) (6) (7)
- d. Agreement among professional staff on school goals (1) (2) (3) (4) (5) (6) (7)
- Much Worse No Change Much Better
- e. Your professional relationship with your principal or school head (1) (2) (3) (4) (5) (6) (7)
- f. The general educational climate of the school (1) (2) (3) (4) (5) (6) (7)
- g. The disciplinary climate of the school (1) (2) (3) (4) (5) (6) (7)
- No Change Major Change
- h. Your teaching practices and behaviors (1) (2) (3) (4) (5) (6)

35. Recent studies have emphasized the importance of discipline, high expectations, frequent monitoring of student progress, consensus on school goals, increased academic learning time, and other factors as contributing to the academic achievement of students. A number of schools and districts have initiated "effective schools" projects based on these reports. Is your school presently involved in a similar, comprehensive school-wide improvement project to increase the academic achievement of all students? (DO NOT INCLUDE ANY PROJECT STARTED BEFORE 1979.)

- (1) Yes (GO TO Q. 36)
- (2) No (SKIP TO Q. 37)

36. To what extent has your school-wide improvement project influenced: (MARK ONE FOR EACH ITEM)

- No Influence Major Influence
- a. Your teaching practices and behaviors (1) (2) (3) (4) (5) (6)
- b. Your expectations for student performance (1) (2) (3) (4) (5) (6)
- c. Your nonteaching school activities or duties (1) (2) (3) (4) (5) (6)

43. Continued

A. About how many college courses have you taken in each of these subjects? A course is one that meets 2-5 classroom hours per week during one semester or quarter. (IF TEACHING STATE HISTORY, INCLUDE AMERICAN HISTORY COURSES; IF TEACHING ANY MATH SUBJECT, INCLUDE ALL MATH COURSES. IF UNSURE, GIVE YOUR BEST ESTIMATE.)

1. Number of college courses taken in your most frequently taught subject: (MARK ONE)

- ① None
- ② 1-3 college courses
- ③ 4-6 college courses
- ④ 7-9 college courses
- ⑤ 10-12 college courses
- ⑥ 13-15 college courses
- ⑦ 16-20 college courses
- ⑧ 21 or more college courses

2. Number of college courses taken in your second most frequently taught subject: (MARK ONE)

- ⑨ Do not teach second subject
- ① None
- ② 1-3 college courses
- ③ 4-6 college courses
- ④ 7-9 college courses
- ⑤ 10-12 college courses
- ⑥ 13-15 college courses
- ⑦ 16-20 college courses
- ⑧ 21 or more college courses

3. Number of college courses taken in your third most frequently taught subject: (MARK ONE)

- ⑨ Do not teach third subject
- ① None
- ② 1-3 college courses
- ③ 4-6 college courses
- ④ 7-9 college courses
- ⑤ 10-12 college courses
- ⑥ 13-15 college courses
- ⑦ 16-20 college courses
- ⑧ 21 or more college courses

44. Do you have state certification to teach all of the subject areas you teach? (MARK ONE)

- ① Yes
- ② No, I need more courses in a substantive area
- ③ No, I need more education courses
- ④ No, other reason

45. Do you have tenure or its equivalent in your school? (MARK ONE)

- ① Yes
- ② No
- ③ Not offered at my school

46. What is your annual salary from your school before taxes? (MARK ONE)

- ① Under \$10,000
- ② \$10,000-\$14,999
- ③ \$15,000-\$19,999
- ④ \$20,000-\$24,999
- ⑤ \$25,000-\$29,999
- ⑥ \$30,000-\$34,999
- ⑦ \$35,000-\$39,999
- ⑧ \$40,000 or more

47. Do you teach vocational courses?

- ① Yes (GO TO Q. 48)
- ② No

If you do not teach any vocational courses, you have completed the questionnaire. We would appreciate it if you would take just a few minutes to check and make certain that you have not inadvertently missed a question and that you have correctly filled in all responses.

Thank you for assisting us in this important research. Your time and effort are much appreciated.

BE SURE TOTAL EQUALS 100%

49. About what percentage of your vocational class time is spent on each of the following objectives? (WRITE IN PERCENT AND THEN MARK THE CORRESPONDING CIRCLE. IF UNSURE, GIVE YOUR BEST ESTIMATE. RESPONSES NEED NOT ADD UP TO 100%. IF NONE, MARK "0.")

	0	1-2	3-5	6-10	11-15	16-20	21-30	31-40	41-50	51-60	61-70	71-80	81-90	91-100
a. Learning how to find a job (e.g., complete a job application, self-presentation in a job interview, job search techniques)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Learning about employer expectations for behavior on the job	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Career planning, occupational exploration	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

50. Rank the degree of responsibility each of the following has to find training-related jobs for students in your specialty area. This question refers to the first job a youth has after leaving high school. Place a "1" beside the option with most responsibility, a "2" beside the option with the second most important responsibility, and so on through "6" for the option with the least responsibility. Enter "9" beside any item that does not apply to your school. (WRITE IN RANK AND THEN MARK THE CORRESPONDING CIRCLES TO THE RIGHT OF EACH. DO NOT DUPLICATE RANKING.)

	<u>RANK</u>	1	2	3	4	5	6	9
a. School job placement service	_____	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Public employment service	_____	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Myself	_____	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Other teacher in your school	_____	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Guidance staff	_____	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. Student	_____	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

51. Not counting part-time work or summer employment while you were a student, how many years have you worked in a nonteaching job? (IF UNSURE, GIVE YOUR BEST ESTIMATE. IF NONE, MARK "0.")

	0	1	2	3	4	5	6-8	9-12	13-20	21 or more
Years of nonteaching work ..	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

IF YOU MARKED "0," SKIP TO BOX AT RIGHT FOR FINAL INSTRUCTIONS.

52. Did you hold a supervisory position for any of the nonteaching work you did?

- ① No (GO TO Q. 53)
- ② Yes

IF YES

For how many years? (IF LESS THAN ONE YEAR, MARK "1." OTHERWISE ROUND TO NEAREST YEAR.)

- 1
- 2
- 3
- 4
- 5
- 6-8
- 9-12
- 13-20
- 21 or more

53. How closely related was your nonteaching work to your current teaching? (MARK ONE)

- ① Very closely related (i.e., I now train students for the same work I did)
- ② Somewhat related
- ③ No relationship (the work I did is entirely different from the work I train students to do)

We would appreciate it if you would take just a minute to check and be certain that you have not inadvertently missed a question and that you have correctly filled in all responses.

Thank you for assisting us in this important research. Your time and effort are much appreciated.

ADMINISTRATOR AND TEACHER SURVEY

Vocational Education Questionnaire

We appreciate your participation in the Administrator and Teacher Survey, a nationwide study of approximately 17,000 administrators and teachers. By completing this questionnaire, you will provide valuable information about the effect of the environment on the educational process. Information from a longitudinal study of over 58,000 high school (and post high school) students, plus data from the schools they attended, will provide a unique source of information to the educational community.

You may find that a few questions on this questionnaire do not apply to your subject or to the type of school in which you teach. An answer category, N/A (not applicable), has been provided for these questions.

This survey will appear in summary or statistical form only, so that neither individuals nor schools can be identified. We hope you will answer every question, but you may skip any question you do not wish to answer.

Thank you for your time and cooperation.

VOCATIONAL EDUCATION RESPONDENTS. The questions in this survey refer to vocational education programs offered to students in:

TO PROTECT YOUR
IDENTITY, PLEASE
REMOVE THIS LABEL.

These programs may be offered at this school or at another location. Each reference to "this school" in the questionnaire means the above named high school. Each reference to "another location" means joint vocational schools, career centers, vocational/technical colleges, other high schools, etc.

All identifying information will be removed from this questionnaire prior to delivery to members of the Consortium. NORC will maintain the confidentiality and anonymity of schools and individual respondents, as it has for approximately 1,000 schools and 58,000 respondents in the High School and Beyond study since 1980, through strict adherence to the principles of the Federal Privacy Act of 1974.

GENERAL INSTRUCTIONS

There are several different types of questions in this questionnaire. To record your answers, please follow the instructions as shown in these examples. **Please note:** Numbers followed by a slash e.g., 8/ or 21-23/ are for computer operator use only.

(CIRCLE ONE)

What is your favorite sport? (CIRCLE ONE)

- Tennis.....1
- Football.....2
- Basketball.....3
- Baseball.....4
- Other (SPECIFY) Handball ⑤

If your favorite sport is handball, you would circle the number to the right of "Other" and write "Handball" on the line as shown.

(CIRCLE ALL THAT APPLY)

Which of the following magazines have you read in the last week? (CIRCLE ALL THAT APPLY)

- Newsweek.....①
- Time.....②
- U.S. News & World Report.....3
- None of these.....4

If you read Newsweek and Time magazines in the last week, you would circle the numbers as shown.

(CIRCLE ONE FOR EACH ITEM)

Have you done any of the following during the past school year? (CIRCLE ONE FOR EACH ITEM)

- | | <u>Yes</u> | <u>No</u> |
|---------------------------------------|------------|-----------|
| Attended a school sporting event..... | ① | 2 |
| Attended a school assembly..... | ① | 2 |
| Chaperoned a school dance..... | 1 | ② |
| Chaperoned a class field trip..... | 1 | ② |

If you attended a school sporting event and a school assembly, but did not chaperone a school dance or class field trip, you would circle the numbers as shown.

Several questions ask you to enter numbers (or estimates of numbers) in the boxes provided e.g., number of students, number of hours. Others ask for percentages or estimates of percentages. **Please round to the nearest whole number and "zero fill" as shown, where appropriate.**

(WRITE IN)

What percentage of the students in your school are in the: (WRITE IN PERCENT)

9-10th grades: 043%

11-12th grades: 057%

If 40% of the students in your high school are in grades 9 and 10, and 60% are in grades 11 and 12, you would fill in the boxes as shown.

Please enter month and date - 8-9/
Month Day 10-11/

NOTE: A number of questions relate to events in the current school year. Please consider the **whole year** from the beginning of the current school year until now. A few questions refer to "the past three years." If you have not been at this school for the full three years, please answer for the time you have been there.

1. Are vocational courses taught at this school? (CIRCLE ONE)

Yes...(ANSWER A).....1 12/

No....(GO TO Q.2).....2

IF YES:

A. How many courses are taught at this high school in each of the following vocational service areas? (WRITE IN. IF NONE, ENTER "000")

Agriculture	<input type="text"/>	13-15/	Consumer and homemaking	<input type="text"/>	25-27/
Business and office	<input type="text"/>	16-18/	Health occupations	<input type="text"/>	28-30/
Distributive education/ marketing	<input type="text"/>	19-21/	Trade and industry or technical	<input type="text"/>	31-33/
Occupational home economics	<input type="text"/>	22-24/			

2. Can students in this school take vocational courses at another location (such as a joint vocational school, career center, vocational/technical college, other high schools)? (CIRCLE ONE)

Yes...(ANSWER A).....1 34/

No....(SKIP TO Q.3).....2

IF YES:

A. How many courses in each of the following vocational service areas can students take at another location? (WRITE IN. IF NONE, ENTER "000")

Agriculture	<input type="text"/>	35-37/	Consumer and homemaking	<input type="text"/>	47-49/
Business and office	<input type="text"/>	38-40/	Health occupations	<input type="text"/>	50-52/
Distributive education/ marketing	<input type="text"/>	41-43/	Trade and industry or technical	<input type="text"/>	53-55/
Occupational home economics	<input type="text"/>	44-46/			

3. What percentage of vocational coursework is taken at another location?
(CIRCLE ONE FOR EACH ITEM)

	PERCENT						
	0	1-25	26-50	51-75	76-99	100	
Agriculture.....01		02	03	04	05	06	57-58/
Business and office.....01		02	03	04	05	06	59-60/
Distributive education/ marketing.....01		02	03	04	05	06	61-62/
Occupational home economics.....01		02	03	04	05	06	63-64/
Consumer and homemaking.....01		02	03	04	05	06	65-66/
Health occupations.....01		02	03	04	05	06	67-68/
Trade and industry or technical.....01		02	03	04	05	06	69-70/ 79-80/01

4. Using the scale provided, how well informed do you consider yourself to be about the vocational programs taught in this high school? (CIRCLE ONE FOR EACH ITEM)

	No such program at this school	Not well informed						Well informed	
a. Agriculture...	99	01	02	03	04	05	06	8-9/	
b. Business and office.....	99	01	02	03	04	05	06	10-11/	
c. Distributive education/marketing.....	99	01	02	03	04	05	06	12-13/	
d. Occupational home economics.....	99	01	02	03	04	05	06	14-15/	
e. Consumer and homemaking....	99	01	02	03	04	05	06	16-17/	
f. Health.....	99	01	02	03	04	05	06	18-19/	
g. Trade and industry and technical.....	99	01	02	03	04	05	06	20-21/	

- A. How well informed are you about the vocational programs taught at other locations to students in this high school? (CIRCLE ONE FOR EACH ITEM)

	Not available to students at this school	Not well informed						Well informed	
a. Agriculture...	99	01	02	03	04	05	06	22-23/	
b. Business and office.....	99	01	02	03	04	05	06	24-25/	
c. Distributive education/marketing.....	99	01	02	03	04	05	06	26-27/	
d. Occupational home economics.....	99	01	02	03	04	05	06	28-29/	
e. Consumer and homemaking....	99	01	02	03	04	05	06	30-31/	
f. Health.....	99	01	02	03	04	05	06	32-33/	
g. Trade and industry and technical.....	99	01	02	03	04	05	06	34-35/	

5. Please rank the following goals according to the overall emphasis given to them in the vocational education curriculum available to students at this high school or at another location. Rank the most important goal as "1," the next most important as "2," and so on through "7" for the least important. (WRITE IN RANK. DO NOT DUPLICATE RANKINGS)

- ___ To place students in jobs related to their training as they leave school 36-37/
- ___ To provide students with competencies needed to obtain jobs 38-39/
- ___ To place students in jobs (regardless of training relatedness) as they leave school 40-41/
- ___ To create an awareness of the various jobs for which students might prepare 42-43/
- ___ To provide an opportunity for students to explore various occupational areas 44-45/
- ___ To develop a strong work ethic in students (e.g., sense of industriousness and responsibility) 46-47/
- ___ To enhance basic skills (e.g., math, reading) 48-49/

6. How many vocational teachers are there in this school? (INCLUDE ONLY TEACHERS WHO TEACH HALF TIME OR MORE IN VOCATIONAL SUBJECTS)

NUMBER OF VOCATIONAL TEACHERS: 50-51/

A. Since the beginning of the current school year, how many vocational teachers have participated in inservice training specifically related to integrating basic skills instruction with vocational education? (WRITE IN NUMBER. GIVE YOUR BEST ESTIMATE. IF NONE, ENTER "00")

NUMBER OF VOCATIONAL TEACHERS: 52-53/

7. Since the beginning of the current school year, on the average how many hours did each vocational teacher participate in inservice training specifically related to integrating basic skills instruction with vocational education? (WRITE IN HOURS. GIVE YOUR BEST ESTIMATE. IF NONE, ENTER "00")

TOTAL NUMBER OF HOURS: 54-55/

8. How many hours per week does a student have to be enrolled in vocational classes to be considered in the vocational track or major? (WRITE IN)

HOURS PER WEEK: 56-57/

9. Is instruction in word processing offered to students in this high school? (CIRCLE ALL THAT APPLY)

- Yes, at this school.....(ANSWER A AND B)....1 58/
- Yes, at another location..(ANSWER A AND B)....2 59/
- No.....(GO TO Q.10).....3 60/

IF YES:

A. How many total hours of practice on the word processor does the typical student spend to complete the word processing program? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE)

HOURS: 61-63/

B. Do more students wish to enroll in word processing classes than there are openings? (CIRCLE ONE)

- Yes.....1 64/
- No.....2

10. Is instruction in auto mechanics offered to students in this high school? (CIRCLE ALL THAT APPLY)

- Yes, at this school.....(ANSWER A).....1 65/
- Yes, at another location..(ANSWER A).....2 66/
- No.....(GO TO Q.11)...3 67/

IF YES:

A. Is training on electronic auto diagnostic machinery provided to students in this high school? (CIRCLE ALL THAT APPLY)

- Yes, at this school.....1 68/
- Yes, at another location.....2 69/
- No.....3 70/

11. Do the students of this high school have access to computer training programs? (CIRCLE ALL THAT APPLY)

- Yes, at this school.....(ANSWER A THRU C)...1 8/
- Yes, at another location...(ANSWER A THRU C)...2 9/
- No.....(GO TO Q.12).....3 10/

IF YES:

A. What computer training is available? (CIRCLE ALL THAT APPLY)

- Microcomputer operation.....1 11/
- Mainframe computer operation.....2 12/
- Computer programming.....3 13/
- Computer assisted design.....4 14/
- Computer controlled machines
(e.g., lathes, mills).....5 15/

B. During what school year was computer equipment first available for computer courses? (CIRCLE ONE)

- Before 1979-80 school year.....01 16-17/
- 1979-80 school year.....02
- 1980-81 school year.....03
- 1981-82 school year.....04
- 1982-83 school year.....05
- 1983-84 school year.....06

C. In which department is computer programming and/or operations taught? (CIRCLE ALL THAT APPLY)

- Vocational education.....1 18/
- Mathematics.....2 19/
- Separate department of computer instruction.....3 20/
- Science.....4 21/
- Other (SPECIFY) _____ 5 22/

12. Does the school have cooperative education coordinators? (CIRCLE ONE)

Yes...(ANSWER A).....1 23/

No....(GO TO Q.13).....2

IF YES:

A. Over the course of a school year, what percentage of a co-op coordinator's time is spent on the following activities? (WRITE IN PERCENT. GIVE YOUR BEST ESTIMATE. TOTAL SHOULD EQUAL 100%)

Classroom teaching % 24-26/

Conferring with students % 27-29/

Conferring with employers % 30-32/

Observations at work sites % 33-35/

Other (SPECIFY) _____ % 36-38/

TOTAL 100%

13. Other than co-op coordinators, are vocational teachers given released time from school to visit local employers? (CIRCLE ONE)

Yes..(ANSWER A AND B)...1 39/

No....(GO TO Q.14).....2

IF YES:

A. Other than co-op coordinators, how many vocational teachers are given released time? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE)

TEACHERS: 40-41/

B. On the average, about how many hours of released time is each vocational teacher (other than co-op coordinators) given per year? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE)

HOURS PER YEAR: 42-43/

14. Are there any vocational programs available to students from this high school for which there are more applicants than openings?
(CIRCLE ONE)

Yes...(ANSWER A).....1 44/
No....(GO TO Q.15).....2

IF YES:

A. How are the students who enter these high-demand programs selected? (CIRCLE ALL THAT APPLY)

Lottery or random selection.....01 45-46/
First come, first serve.....02 47-48/
Review of attendance records.....03 49-50/
Evaluation of interest and/or motivation
made by guidance counselor.....04 51-52/
Aptitude test scores.....05 53-54/
Vocational interest inventory.....06 55-56/
Grades.....07 57-58/
Evaluation of application form.....08 59-60/
Teacher reference.....09 61-62/
Other (SPECIFY) _____ 10 63-64/

15. How would you rate the average academic ability of students when they enter this school? (CIRCLE ONE)

Much above the national average.....1 65/
Somewhat above the national average.....2
At the national average.....3
Somewhat below the national average.....4
Much below the national average.....5

A. At the time they begin their vocational program, how would you rate the average ability of vocational students for their vocational courses? (CIRCLE ONE)

Much above the national average.....1 66/
Somewhat above the national average.....2
At the national average.....3
Somewhat below the national average.....4
Much below the national average.....5

16. For each vocational service area, please indicate whether or not standardized tests of competency are used. If so, indicate (1) if teachers are required to use the tests, and (2) if the tests are used to determine whether students have achieved a specified list of competencies. (CIRCLE ALL THAT APPLY FOR EACH CATEGORY)

FOR EACH YES IN PART A, ANSWER B AND C:

	No such Program	A. Is a standardized test of competency used in this subject area?		B. Are teachers required to use the test?		C. Is this test used to certify achievement of competencies?		
		Yes	No	Yes	No	Yes	No	
a. Agriculture.....	9	1	2	1	2	1	2	8-11/
b. Business and office.....	9	1	2	1	2	1	2	12-15/
c. Distributive education/marketing.....	9	1	2	1	2	1	2	16-19/
d. Occupational home economics..	9	1	2	1	2	1	2	20-23/
e. Consumer and homemaking.....	9	1	2	1	2	1	2	24-27/
f. Health.....	9	1	2	1	2	1	2	28-31/
g. Trade and industry and technical.....	9	1	2	1	2	1	2	32-35/

17. Do the employers who supervise the work experience of cooperative education students influence the grades these students receive? (CIRCLE ONE)

- Yes.....(ANSWER A AND B)..1 36/
- No.....(GO TO Q.18).....2
- No cooperative education program...(GO TO Q.18).....9

IF YES:

A. How do the employers influence grades? (CIRCLE ONE)

- Employers recommend grades to cooperative education coordinators (coordinators make the final decision).....1 37/
- Employers assign a grade for work experience separate from the class grade.....2
- Employers and coordinators discuss and mutually agree on grades students receive.....3
- Other (SPECIFY) _____ 4

B. What percentage of a student's final grade is typically influenced by an employer? (WRITE IN PERCENT)

 |_|_|_|% 38-40/

18. In the last three years, has there been an evaluation of all vocational programs in this school system or is one planned within the next year? (CIRCLE ALL THAT APPLY)

- Yes, one has been conducted.....1 41/
- Yes, one is planned within the next year....2 42/
- No.....3 43/

19. Over the course of the school year, about what percentage of the typical vocational teacher's time is spent on the following activities? (WRITE IN PERCENT. IF UNSURE, GIVE YOUR BEST ESTIMATE)

- Finding summer (or vacation) jobs for students % 44-46/
- Finding part-time noncoop jobs for students during the school year % 47-49/
- Finding part-time coop jobs for students during the school year % 50-52/
- Finding jobs for students about to graduate % 53-55/

20. Is there a school sponsored job placement service available to students in this high school? (CIRCLE ONE)

- Yes, service is available to all students...(ANSWER A).....1 56/
- Yes, service is available only to vocational students.....(ANSWER A).....2
- No.....(GO TO Q.21).....3

IF YES:

- A. Are the staff who provide the job placement service located in this high school? (CIRCLE ONE)
 - Yes...(ANSWER B).....1 57/
 - No....(GO TO Q.21).....2

IF YES TO A:

B. About how many total hours per week do nonteaching staff (e.g., secretaries, volunteers) spend on the following activities? (WRITE IN HOURS. IF UNSURE, GIVE YOUR BEST ESTIMATE)

- Keeping job and placement information current 58-59/
- Finding summer jobs for students 60-61/
- Finding part time noncoop jobs for students during the school year 62-63/
- Finding part time coop jobs for students during the school year 64-65/
- Finding jobs for students about to graduate 66-67/

21. Rank the degree of responsibility each of the following has to find training related jobs for a vocational student. This question refers to the first job a youth has after leaving high school. Place a "1" beside the option with the greatest amount of responsibility, a "2" beside the option with the second greatest amount of responsibility, and so on through "7" for the least amount of responsibility. (WRITE IN RANK. DO NOT DUPLICATE RANKINGS)

- _____ a. School placement service 8-9/
- _____ b. Public employment service 10-11/
- _____ c. Vocational teacher in the appropriate specialty area 12-13/
- _____ d. Other teachers 14-15/
- _____ e. Guidance staff 16-17/
- _____ f. Vocational education director 18-19/
- _____ g. Student 20-21/

22. Can students at this high school take courses for credit that apply to an apprenticeship training program, such as those sponsored by local trade unions or the Bureau of Apprenticeship and Training? (CIRCLE ONE)

- Yes...(ANSWER A AND B)..1 22/
- No.....(GO TO Q.23).....2

IF YES:

A. How many students participate in credit-accruing apprenticeship courses? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE)

STUDENTS: 23-25/

B. How many high school credits can be applied to an apprenticeship program? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE)

CREDITS: 26-27/

23. How many "business and industry days" and "career days" are held for students of this high school? (CIRCLE ONE)

- None.....01 28-29/
- Less than one per year.....02
- One per year.....03
- Two per year.....04
- Three per year.....05
- Four or more per year.....06

24. A. Which of the following best describes the advisory group arrangement for each vocational program area? (CIRCLE ONE FOR EACH PROGRAM AREA)

	No such program	No advisory group	One general advisory group for this school only	One general advisory group for the entire district system	Program specific advisory group for this school only	Program specific advisory group for the entire district system	
a. Agriculture.....	99	01	02	03	04	05	30-31/
b. Business and office.....	99	01	02	03	04	05	32-33/
c. Distributive education/marketing.....	99	01	02	03	04	05	34-35/
d. Occupational home economics..	99	01	02	03	04	05	36-37/
e. Health occupations.....	99	01	02	03	04	05	38-39/
f. Trade and industry or technical....	99	01	02	03	04	05	40-41/

25. Using the scale below, to what extent do vocational programs, offered to students in this school, make use of each of the following in determining the goals and operation of the vocational program? (CIRCLE ONE FOR EACH ITEM)

	None						A great deal		
	01	02	03	04	05	06	06		
a. State plan.....	01	02	03	04	05	06	06	42-43/	
b. State employer plan.....	01	02	03	04	05	06	06	44-45/	
c. State occupational information coordinating committee..	01	02	03	04	05	06	06	46-47/	
d. State employment services....	01	02	03	04	05	06	06	48-49/	
e. Survey of student interest...	01	02	03	04	05	06	06	50-51/	
f. Local plan.....	01	02	03	04	05	06	06	52-53/	
g. Advisory group.....	01	02	03	04	05	06	06	54-55/	
h. Surveys of local employers...	01	02	03	04	05	06	06	56-57/	

26. What is the dollar value of the equipment and supplies donated by the business community to your vocational programs over the last three years? (CIRCLE ONE. IF UNSURE, GIVE YOUR BEST ESTIMATE)

None.....	01	58-59/
1-2000.....	02	
2001-5000.....	03	
5001-10000.....	04	
10001-20000.....	05	
20000 +.....	06	

27. A. Which competency-based strategies are used by each vocational program area? (CIRCLE ALL THAT APPLY FOR EACH LINE)

	<u>Agri- culture</u>	<u>Business and office</u>	<u>Distri- butive education/ marketing</u>	<u>Occup- ational home economics</u>	<u>Health Occup- ations</u>	<u>Trade and Industry or technical</u>
1. No competency based strategies.....	01	02	03	04	05	06

There are several different types of questions in this questionnaire. To record your answers, please follow the instructions as shown in these examples. **Please note:** Numbers followed by a slash e.g., 8/ or 21-23/ are for computer operator use only.

(CIRCLE ONE)

What is your favorite sport? (CIRCLE ONE)

- Tennis.....1
- Football.....2
- Basketball.....3
- Baseball.....4
- Other (SPECIFY) Handball (5)

If your favorite sport is handball, you would circle the number to the right of "Other" and write "Handball" on the line as shown.

(CIRCLE ALL THAT APPLY)

Which of the following magazines have you read in the last week? (CIRCLE ALL THAT APPLY)

- Newsweek.....(1)
- Time.....(2)
- U.S. News & World Report.....3
- None of these.....4

If you read Newsweek and Time magazines in the last week, you would circle the numbers as shown.

(CIRCLE ONE FOR EACH ITEM)

Have you done any of the following during the past school year? (CIRCLE ONE FOR EACH ITEM)

- | | <u>Yes</u> | <u>No</u> |
|---------------------------------------|------------|-----------|
| Attended a school sporting event..... | (1) | 2 |
| Attended a school assembly..... | (1) | 2 |
| Chaperoned a school dance..... | 1 | (2) |
| Chaperoned a class field trip..... | 1 | (2) |

If you attended a school sporting event and a school assembly, but did not chaperone a school dance or class field trip, you would circle the numbers as shown.

Several questions ask you to enter numbers (or estimates of numbers) in the boxes provided e.g., number of students, number of hours. Others ask for percentages or estimates of percentages. **Please round to the nearest whole number and "zero fill" as shown, where appropriate.**

(WRITE IN)

What percentage of the students in your school are in the: (WRITE IN PERCENT)

9-10th grades: 0 4 3 %

11-12th grades: 0 5 7 %

If about 40% of the students in your high school are in grades 9 and 10, and 60% are in grades 11 and 12, you would fill in the boxes as shown.

All identifying information will be removed from this questionnaire prior to delivery to members of the Consortium. NORC will maintain the confidentiality and anonymity of schools and individual respondents, as it has for approximately 1,000 schools and 58,000 respondents in the High School and Beyond study since 1980, through strict adherence to the principles of the Federal Privacy Act of 1974.

ADMINISTRATOR AND TEACHER SURVEY

Guidance Questionnaire

We appreciate your participation in the Administrator and Teacher Survey, a nationwide study of approximately 17,000 administrators and teachers. By completing this questionnaire, you will provide valuable information about the effect of the school environment on the educational process.

Information from a longitudinal study of over 58,000 high school (and post high school) students, plus data from the schools they attended, will provide a unique source of information to the entire education community.

You may find that a few questions on this questionnaire do not apply to your position or to the type of school in which you teach. An answer category, N/A (not applicable), has been provided for these questions.

Your answers will be kept strictly confidential. Results from this survey will appear in summary or statistical form only, so that neither individuals nor schools can be identified. We hope you will answer every question, but you may skip any question you do not wish to answer.

Thank you for your time and cooperation.

24. About what percentage of students in your school participate in each of the following activities at least once during the time period beginning when they start the 11th grade and ending when they leave high school? (WRITE IN PERCENT. IF UNSURE, GIVE YOUR BEST ESTIMATE. IF NONE, ENTER "000")

	Not Offered		
a. School courses in career decision making.....	9	_ _ _ %	16-18/
b. Occupational information units in subject-matter courses.....	9	_ _ _ %	19-21/
c. Exploratory work experience programs (e.g., co-op, workstudy, EBCE).....	9	_ _ _ %	22-24/
d. Career days/nights.....	9	_ _ _ %	25-27/
e. Vocational oriented assemblies and speakers in classes.....	9	_ _ _ %	28-30/

c. Exploratory work experience programs (e.g., co-op, work study, EBCE).....	9	1	2	3	4	15/
d. Job shadowing (extended observation of a worker)....	9	1	2	3	4	16/
e. Training in job seeking skills.....	9	1	2	3	4	17/

27. During which time periods is it possible for a student to take time out to participate in a guidance activity? (CIRCLE ALL THAT APPLY)

Homeroom.....	01	18-19/
Study hall or other free period.....	02	20-21/
Lunch period.....	03	22-23/
After school.....	04	24-25/
Subject-matter class (e.g., math, English).....	05	26-27/
Other (SPECIFY) _____	06	28-29/

28. If a student wants to see a counselor, about how long does he/she typically have to wait? (CIRCLE ONE)

No wait--walks right in.....	01	30-31/
A few minutes.....	02	
A few hours.....	03	
A day or two.....	04	
About a week.....	05	
Longer than a week.....	06	

29. Which of the following sources of information about local job opportunities does your school have? (CIRCLE ALL THAT APPLY)

- Job bank listings or reports from state employment service or department of labor, showing jobs available for local area (city or state).....01 32-33/
- Postings of local newspaper employment advertisements02 34-35/
- Job openings called in by local employers03 36-37/
- List of contacts at local public or private employment agencies and training programs who can help students get jobs or job training.....04 38-39/
- List of representatives of local unions.....05 40-41/
- Information from local government (city, county, state) civil service and employment service offices.....06 42-43/
- Information about local jobs from follow-up of former students who work in area.....07 44-45/
- Other (SPECIFY) _____ 08 46-47/
- No local job information is available.....09 48-49/

30. Other than English, in which of the following languages does your school provide occupational information? (CIRCLE ALL THAT APPLY)

- Spanish.....1 50/
- Other (SPECIFY) _____ 2 51/
- None of the above.....3 52/

31. Do students in your school take the Armed Forces Vocational Aptitude Battery (ASVAB)? (CIRCLE ONE)

- Yes...(GO TO Q.32).....1 53/
- No....(SKIP TO Q.35)....2

32. Please indicate the most important use of the ASVAB results in your school? (CIRCLE ONE)

- Career counseling and guidance.....01 54-55/
- Academic counseling and guidance.....02
- Military career counseling.....03
- Estimating student achievement.....04
- Curriculum development and evaluation.....05
- Other (SPECIFY) _____ 06

33. How is it decided who will take the ASVAB? (CIRCLE ALL THAT APPLY)

- Mandatory at stipulated grade level.....1 56/
- Students sign up without a referral.....2 57/
- Counselor referral.....3 58/
- Teacher referral.....4 59/
- Other (SPECIFY) _____ 5 60/

34. At your school how are students informed about their ASVAB scores? (CIRCLE ALL THAT APPLY)

- Scores released directly to students without test interpretation by a staff member.....01 61-62/
- Counselors discuss scores with groups of students.....02 63-64/
- Other school personnel discuss scores with groups of students.....03 65-66/
- Counselors discuss student scores in individual sessions.....04 67-68/
- Other school personnel discuss scores in individual sessions.....05 69-70/
- Military personnel discuss scores with students (in groups or individually).....06 71-72/

35. On the average, about how many inservice programs are attended each year by the typical counselor on your guidance staff? (CIRCLE ONE)

- None.....01 73-74/
- One inservice program.....02
- Two inservice programs.....03
- Three inservice programs.....04 79-80/07
- Four inservice programs.....05
- Five inservice programs.....06
- Six or more inservice programs...07

BEGIN DECK 08

36. How many times in the past school year has the typical member of your staff: (WRITE IN. IF UNSURE, GIVE BEST ESTIMATE. IF NONE, ENTER "00")

- attended meetings of professional organization 8-9/
- met with employers 10-11/
- met with community groups (such as The Rotary, Chamber of Commerce, etc.) 12-13/
- attended conferences on specific topics 14-15/

37. Assume that one of the senior boys in your school came to one of the guidance staff for career guidance. He is trying to decide whether to get a job after high school graduation or to accept admission and financial aid at the state university in another city. His grades and SAT's are in the 25th percentile overall. His parents are both blue collar workers and want him to get a job as soon as possible. The boy is ambitious. Which of the following actions is the counselor most likely to take? (CIRCLE ONE)

- Encourage him to get a full-time job after high school.....1 16/
- Encourage him to go to the state university full-time.....2
- Encourage him to go to a local junior college part-time and work part-time.....3
- Counselor neither encourages nor discourages any option.....4

38. Using the scale provided below to what extent do you disagree or agree with each of the following statements? Assume each statement applies to your high school. (CIRCLE ONE FOR EACH ITEM)

	Strongly disagree							Strongly agree	
	01	02	03	04	05	06			
a. Goals and priorities of the guidance program are clear.....	01	02	03	04	05	06			17-18/
b. This school rewards counselors for performing their jobs well.....	01	02	03	04	05	06			19-20/
c. Routine duties and paperwork interfere with the job of counseling.....	01	02	03	04	05	06			21-22/
d. Most of my guidance colleagues share my beliefs and values about the central mission of the school.....	01	02	03	04	05	06			23-24/
e. The school administration has communicated a confusing philosophy of what the guidance program in this school should be.....	01	02	03	04	05	06			25-26/
f. Guidance staff members are recognized for a job well done.....	01	02	03	04	05	06			27-28/
g. There is a great deal of cooperative effort among staff members.....	01	02	03	04	05	06			29-30/
h. The community is very supportive of the guidance program in this school....	01	02	03	04	05	06			31-32/
i. Parents of students in this school are very supportive of the guidance program in this school.....	01	02	03	04	05	06			33-34/
j. Financial support for the guidance program in this school is adequate when compared to support of other departments in this school.....	01	02	03	04	05	06			35-36/

39. How many months per year are counselors in this school under contract?
(CIRCLE ONE)

- 8 months or less.....01 37-38/
- 8-1/2 months.....02
- 9 months.....03
- 9-1/2 months.....04
- 10 months.....05
- 10-1/2 months.....06
- 11 months or more.....07

40. About how many hours per week does the typical counselor on your staff work outside of school hours on: (WRITE IN HOURS. IF UNSURE, GIVE YOUR BEST ESTIMATE)

- guidance activities 39-40/
- other school activities (e.g.,
monitoring athletic events,
making up class schedules) 41-42/

BACKGROUND INFORMATION

41. What is your sex? (CIRCLE ONE)

- Male.....1 43/
- Female.....2

42. What is your origin or descent? If more than one, please indicate the one you consider the most important part of your background. (CIRCLE ONE)

- NON-HISPANIC.....1 44/
- HISPANIC OR SPANISH
 - Mexican, Mexican-American, Chicano.....2
 - Cuban, Cubano.....3
 - Puerto Rican, Puertorriqueno, Boricua.....4
 - Other Latin-American, Latino, Hispanic, or Spanish decent (WRITE IN) _____ 5

43. What is your race? (CIRCLE ONE ONLY)

- White.....1 45/
- Black.....2
- American Indian or Alaskan Native.....3
- Asian or Pacific Islander.....4
- Other (SPECIFY) _____ 5

44. Including this year, how many years of experience have you had as a counselor? (WRITE IN YEARS. ROUND UP TO NEAREST YEAR)

YEARS: 46-47/

45. How many years, including this year, have you been a counselor in this high school? (WRITE IN YEARS. ROUND UP TO NEAREST YEAR)

YEARS: 48-49/

46. What is the highest degree you hold? (CIRCLE ONE)

- High school.....(SKIP TO Q.48).....01 50-51/
- Bachelor of Arts/Bachelor of Science.....02
- Masters degree.....03
- Educational Specialist.....04
- Doctorate (EdD, PhD, etc.).....05
- Other (SPECIFY) _____ 06

47. Do you have a degree in guidance and counseling? (CIRCLE ONE)

- Yes.....1 52/
- No.....2

48. Which of the following job titles most closely describe(s) your current position(s)? (CIRCLE ALL THAT APPLY)

- Director of Guidance.....01 53-54/
- Director of Student Services.....02 55-56/
- Chairperson of the Department of Guidance..03 57-58/
- Lead Counselor.....04 59-60/
- Counselor.....05 61-62/
- Assistant Principal.....06 63-64/
- Principal.....07 65-66/
- Teacher.....08 67-68/
- Other (SPECIFY) _____ 09 69-70/

79-80/08

53. About how many high school bulletin boards are devoted to displaying student work? (WRITE IN. IF UNSURE, GIVE YOUR BEST ESTIMATE)

BULLETIN BOARDS: 34-35/

54. What kind of recognition is given to students on the honor roll? (CIRCLE ONE FOR EACH ITEM)

	Not done	Once per grading period	Once per year	
a. List published in student newspaper.....	9	1	2	36/
b. List published in community newspaper.....	9	1	2	37/
c. List posted in school.....	9	1	2	38/
d. Names read aloud at assembly during school hours.....	9	1	2	39/
e. Mailed a certificate or letter of congratulations.....	9	1	2	40/
f. Names read aloud at evening assembly attended by parents, etc.....	9	1	2	41/
g. Student appears on stage to receive an award at assembly during school hours.....	9	1	2	42/
h. Student appears on stage to receive an award at an evening assembly attended by parents, etc.....	9	1	2	43/
i. Other (SPECIFY) _____	9	1	2	44/

55. Approximately what percentage of the juniors and seniors in this high school have paid or unpaid nonclassroom job/responsibilities (e.g., monitors, prefects, crossing guards, lunchroom workers, team managers, etc.) that aid the functioning of the school? (CIRCLE ONE. IF UNSURE, GIVE BEST ESTIMATE)

HIGH SCHOOL AND BEYOND is sponsored by the National Center for Education Statistics, an agency of the United States Department of Education.

SCHOOL QUESTIONNAIRE

The National Center for Education Statistics is authorized by Section 406 of the General Education Provisions Act (20 USC 1221e-1) to request participating schools to respond to this questionnaire. While you are not required to respond, your cooperation is needed to provide school information which will be used to aid in the interpretation of data about students in the survey, HIGH SCHOOL AND BEYOND.

All information which would permit identification of the school or of the individual person(s) filling out this form will be held in strict confidence, will be used only by persons engaged in and for the purposes of this survey, and will not be disclosed or released to others for any purposes except as required by law.

*NOTE: Not all questions on the following pages are coded in this data file. See the relevant codebook to determine which are included.

Items used are circled.

PLEASE NOTE: Some schools may have supplied information identical to that requested in questions marked with an asterisk (*). If you have supplied the information for the same time period, it is not necessary to provide it. NORC staff may check with you about this. However, it would help us greatly if you would provide the information again in this questionnaire.

*1. A. What is the lowest grade included at your school? (CIRCLE ONE)

PK K 1 2 3 4 5 6 7 8 9 10 11 12

09-10/

B. What is the highest grade (or year) at your school? (CIRCLE ONE)

10 11 12

11-12/

NOTE: THE QUESTIONS WHICH FOLLOW CONCERN YOUR HIGH SCHOOL. IF YOUR SCHOOL INCLUDES OTHER GRADES ALONG WITH HIGH SCHOOL, PLEASE ANSWER IN TERMS OF YOUR HIGH SCHOOL ONLY.

*2. As of October 1, 1980 (or the nearest date for which data are available), what was the total membership of your high school, and what were the memberships in grades 10 and 12? (IF NONE, WRITE "0")

Total high school membership

Grade 10

Grade 12

13-17/
18-22/
23-27/

3. Is your high school a general (comprehensive) high school, or is it specialized in some way? (That is, is it organized for special purposes, or around a special group of students?) (CIRCLE ONE)

*NOTE: Not all questions on the following pages are coded in this data file. See the relevant codebook to determine which are included.

Items used are circled

7. Does your school use homogeneous grouping (according to ability or achievement) for 12th grade students in English classes? (CIRCLE ONE)

Yes (ANSWER A) 1
No (GO TO Q. 8) 2

DECK 1
36/

A. IF YES: How many levels of homogeneous grouping does your school use for 12th grade students in English classes?

_____ levels

37-38/

B. About what percentage of the students who enter your school would you say need remedial or basic skills instruction in reading, English, or math?

_____ % in reading
 _____ % in English
 _____ % in math

39-41/
42-44/
45-47/

9. Are seniors required to pass a minimum competency (proficiency) test in order to receive a high school diploma? (CIRCLE ONE)

Yes 1
No 2

48/

10. In what grades is a minimum competency or proficiency test given to all students? (CIRCLE AS MANY NUMBERS AS APPLY)

School does not have such a test 0
 Grade 9 1
 Grade 10 2
 Grade 11 3
 Grade 12 4
 Given in different grades for different students 5

49/
50/
51/
52/
53/
54/

11. Does the school have a specific remedial program for students who fail the test? (CIRCLE ONE)

School does not have such a test 0
Yes, specific remedial program 1
No, no such program 2

55/

12. In what year was this test first required in this school?

Year: 19

School does not have such a test 90
Test not required 91

56-57/

1. As of October 1, 1981 (or the nearest date for which data are available), what was the total membership in grade 12 in your high school?

DECK 1

13-17/

2. To the best of your knowledge, about what percentage of the entire 1980-1981 graduating class is now enrolled in a regular two-year or four-year college?

_____ %

18-20/

3. To the best of your knowledge, about what percentage of the 1980-1981 graduating class went on to post-secondary education or training of some kind OTHER THAN A JUNIOR COLLEGE OR FOUR-YEAR COLLEGE (for example, beauty school, vocational-technical school, or business school)? Do not include military service.

_____ %

21-23/

4. To the best of your knowledge, about what percentage of the 1980-1981 graduating class went into military service? (IF NONE, WRITE "0")

_____ %

24-26/

5. Approximately what percentage of the class of 1982 graduated early (or left early with a diploma or equivalent)? (IF NONE, WRITE "0")

_____ %

27-29/

6. Please estimate the approximate percentage of students in the class of 1982 and in the class of 1983 who entered the 10th grade but have since dropped out. Do not include students who transfer to another school.

Class of 1982: _____ %

30-32/

Class of 1983: _____ %

33-35/

14. For the time period January through March, 1982, about what percentage of 12th grade students will be engaged in programs (work experience, community service, college courses, or other courses) such that they are not physically present at your school full time?

DECK 2

Percent of 12th grade students: _____ %

25-27/

15. Are some students in your school served by an area vocational school where they may take vocational courses?

Yes 1
No 2

28/

16. Does your school have a work-study program?

Yes (ANSWER A-C) 1
No (GO TO Q. 17) 2

29/

IF YES:

A. Do you have off-campus, on-campus, or both kinds of work-study programs?

Off-campus only (ANSWER B) 1
On-campus only (ANSWER C) 2
Both off-campus and
on-campus (ANSWER B & C) ... 3

30/

B. What kinds of off-campus jobs are students placed in? (CIRCLE AS MANY AS APPLY)

Lawn work or odd jobs	01	31-32/
Waiter, waitress, bus boy, or cook	02	33-34/
Babysitting or child care	03	35-36/
Farm or agricultural work	04	37-38/
Factory work (unskilled or semi-skilled)	05	39-40/
Gas station, car wash, or auto repair work ..	06	41-42/
Skilled trade	07	43-44/
Other manual labor (cleaning-related jobs, stock clerks, etc.)	08	45-46/
Store clerk, salesperson, or cashier	09	47-48/
Office or clerical	10	49-50/
Hospital or health	11	51-52/
Delivery jobs (newspapers, groceries, etc.) .	12	53-54/
Other (PLEASE DESCRIBE) _____	13	55-56/

C. What kinds of on-campus jobs are students placed in? (CIRCLE AS MANY AS APPLY)

Cafeteria	01	57-58/
Administration	02	59-60/
Maintenance of building or property	03	61-62/
Audiovisual	04	63-64/
Tutoring, teaching aid, etc.	05	65-66/
Vocationally oriented jobs	06	67-68/
Other (PLEASE DESCRIBE) _____	07	69-70/

31. Who determines, generally, what types of disciplinary action may be taken for certain offenses?

DECK 4

34-35/
36-37/

32. Would you say school administrators have a lot, some, or very little discretion in determining the most appropriate disciplinary action?

- A lot 1
- Some 2
- Very little 3

38/

33. How are school rules made known to students? (IF THEY ARE PRINTED OR PUBLISHED, PLEASE ATTACH A COPY OF THE RULES TO THIS QUESTIONNAIRE)

39-40/
41-42/

34. When were the rules most recently revised?

MONTH		YEAR	

43-46/

35. Which of the following best describes the practices for enrollment of pupils to your high school? (CIRCLE ONE)

- All pupils in a particular geographic area (or district) attend this school 01
- Pupils in this particular geographic area (or district) are generally enrolled in this school but transfers are frequently allowed 02
- Pupils are enrolled in this school on the basis of an entrance test or another achievement criterion ... 03
- Pupils are enrolled from particular areas in order to achieve a desired racial or ethnic composition in the school 04
- Other (PLEASE SPECIFY) _____ 05
- Private school, does not apply 06

47-48/

38. Is there a waiting list to get into your school?

Yes 1
No 2

BEGIN
DECK 5

13/

39. Do students have to take an entrance examination or meet any special academic requirements to be admitted to your school?

Yes (ANSWER A) 1
No (ANSWER B) 2

14/

A. IF YES: Please describe the entrance requirements.

15-16/
17-18/

B. IF NO: Are there any other reasons for which you can reject or refuse students who wish to attend this school?
(PLEASE DESCRIBE).

19-20/
21-22/

40. How many courses (semester length) in the following subjects are students enrolled in a college preparatory program required to have for graduation?

Math _____ 23-24/
Science _____ 25-26/
Foreign language _____ 27-28/
English/Language arts _____ 29-30/

41. About what percentage of the 12th grade class transferred into this school during the 11th and 12th grades?

_____ % of 12th grade transferred into this school 31-33/

A. Of those who transferred in, about what percentage came from public high schools?

_____ % of transfers came from public schools 34-36/

APPENDIX B: RESPONDENT SELECTION PROCEDURES

Designated Administrator Form

**Instructions for Teacher Roster and
Designated Administrator Form**

ADMINISTRATOR AND TEACHER SURVEY

INSTRUCTIONS

In order to randomly select teachers and to identify the appropriate administrators for the Administrator and Teacher Survey, we need your help. Please follow the few simple steps outlined below.

Preparing a Roster of Full-time High School Teachers:

- Step 1. Compile a list of full-time high school teachers for the 1983-84 school year. Please include teachers responsible for supervising cooperative education students. (This list can be a master teaching schedule, a computer printout, or a simple list of names.) If a 1983-84 list is not available, use last year's list.
- Step 2. Please add the names of full-time high school teachers who should be on this list but are not (recently hired teachers, for example).
- Step 3. Be sure to cross out a) all part-time teachers and b) any former teachers who are no longer on the staff of your high school.
- Step 4. We will not select teachers who spend 51% or more of their time devoted to any combination of the following roles. Please cross out their names.

Driver's education teacher	Nurse, nurse's aide
Physical education teacher	Counselor
Health, family life, or sex education	Psychologist
Consumer or homemaking teacher	Librarian, library aide, or monitor
Resource room special education teacher who does <u>not</u> teach students in groups of 5 or more	Media specialist
	Curriculum specialist
	Remedial specialist
Teacher's aide	Principal, assistant principal or dean
Student Teacher	ROTC Instructors

- Step 5. Each teacher's name should appear on the list only once. Please cross out any repetitions.
- Step 6. Please return the Designated Administrator Form and the teacher roster in the prepaid envelope enclosed for your convenience.

DIRECTIONS FOR FILLING OUT THE DESIGNATED ADMINISTRATOR FORM CAN BE FOUND ON THE REVERSE SIDE.

Filling Out the Designated Administrator Form

- Step 1. Please check the label affixed to the Designated Administrator Form. If the principal's name, the school's name, address, or telephone number has changed, cross out the old information and make the appropriate correction in the space to the right of the label.
- Step 2. Please enter the name of the person who will serve as the school coordinator for the Administrator and Teacher Survey. The coordinator will receive, distribute, collect, and ship the questionnaires. In appreciation of this assistance, we will provide a \$20.00 honorarium.
- Step 3. We need the name of each person who is most knowledgeable about or responsible for your school's vocational education program, community service program, and guidance program. To aid you in selecting the appropriate person, see the "GUIDE TO SELECTION" at the bottom of the Designated Administrator Form. Please enter the name of each in the appropriate space. Next, enter each person's official title in the space provided.

For instance, if the principal is the person responsible for the community service program in your school, you would enter his/her name and title.

The vocational program may be on or off campus. In either case, please enter the name of the person most knowledgeable about the program. If this person is off campus, please enter his/her address also, and a questionnaire will be sent directly to him/her.

- Step 4. Please return the teacher roster and the Designated Administrator Form in the enclosed prepaid envelope.

THANK YOU FOR YOUR ASSISTANCE
