hp

Empower workteams with print, copy, scan, fax, and digital sending functionality in one convenient device.

Efficient

Get more done in less time. The MFP delivers print and copy speeds of up to 35 pages per minute (ppm) and a first page out in under 10 seconds with Instant-on Technology. The unique HP toner formula is engineered to deliver consistent, great-looking documents at fast speeds.

Accelerate existing workflows. The MFP comes standard with send to e-mail, send to network folder, network authentication, and LDAP support embedded in the device for easy integration into your existing infrastructure. Add optional HP Digital Sending Software 4.3 for send to ftp sites and fax services.[1] Consider optional HP AutoStore software to improve paper-intense workflows by connecting the MFP to document management solutions.

Reduce interruptions. The MFP supports up to 1,100 sheets[2] plus a 20-sheet convenience stapler for easy finishing. A 50-sheet reversing automatic document feeder (ADF) provides effortless copying and scanning of multi-page documents up to legal size.

Easy

Experience simple, dependable networking. The MFP features IPv6-ready[3] best-in-class networking and management tools via the HP Jetdirect Fast Ethernet embedded print server. HP Web Jetadmin offers remote installation, configuration, and proactive management.

Expandable

Add the solutions your business needs. An FIH port, open EIO slot, and host USB port allow you to easily expand the MFP's capabilities. Add HP and third-party solutions such as additional fonts, forms, barcode printing, and market-leading solutions for document capture, job accounting, and security. Get investment protection with access to IPSec TCP/IP security, Gigabit Ethernet, and wireless network compatibility.
Reliable

Expect consistency. Original HP cartridges are carefully designed with HP Smart printing technology[4] to automatically optimize print quality and consistency throughout cartridge life, provide pages-remaining data and alerts when supplies run low, and facilitate convenient supplies reordering through HP SureSupply.[5]

[1] Fax functionality and 20-sheet convenience stapler come standard on the M3035xs model only and cannot be added to the M3035 model as accessories.
[2] The extra 500-sheet input tray comes standard on the M3035xs model only and can be added to the M3035 model as an accessory.
[3] IPv6 is only supported with Microsoft® Server 2003 and Windows XP® (print only).
[4] Using genuine HP supplies ensures availability of all HP printing features.

Secure printing

For many businesses, information is one of their most valuable assets. The HP LaserJet M3035 MFP series is designed to protect critical information—in both hardcopy and electronic form—and simplify the way you manage your environment with easy tools and checklists.

- Private Printing lets you protect confidential documents by allowing you to hold a job for printing until you release it using a 4-digit Personal Identification Number (PIN) at the MFP's control panel.
- HP Secure Storage Erase makes sure that data you want to eliminate is unrecoverable. Unless otherwise specified, the MFP deletes data from the hard disk when the print job is finished.

- Our renowned family of HP Jetdirect connectivity products support a wide range of industry-standard and trusted security protocols, including 802.1x for Wired Networks, SNMPv3 and HTTPS, and Secure IPP (IPP-S) and IPSec.[6]
- Network authentication (LDAP, SMTP) adds another layer of security by allowing administrators to control device access. By requiring users to log in, administrators can limit usage of all the device features, or of just the copying or sending functions.

[10] Exact speed varies depending on the system configuration, software program, and document complexity. Speed specifications have been updated to reflect current industry testing methods.

[11] HP recommends that the number of pages per month of imaged output be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period.

[12] Duty cycle is defined as the maximum number of pages per month of imaged output. This value provides a comparison of product robustness in relation to other HP LaserJet or HP Color LaserJet devices, and enables appropriate deployment of printers and MFPs to satisfy the demands of connected individuals or groups.

[13] IPv6 is only supported with Microsoft Server 2003 and Windows XP (print only).

[14] Power requirements are based on the country/region where the printer is sold. Do not convert operating voltages. This will damage the printer and void the product warranty.

[15] Configuration tested: base model, simplex printing, A4 paper at an average of 33 ppm.
