

LIFESTYLE
COLLECTION

2023

Welcome

ESTABLISHED IN 1975, T&G'S MISSION IS TO DESIGN, PRODUCE AND RESPONSIBLY SOURCE, EXCEPTIONAL QUALITY KITCHENWARE PRODUCTS THAT WITHSTAND THE DEMANDS OF REAL LIFE.

T&G STARTED OUT AS A WOODWARE COMPANY AND HAVE TRANSFORMED INTO A LIFESTYLE BRAND WITH QUALITY AND BEAUTIFUL DESIGN AT THE HEART OF EVERYTHING WE DO.

WE HOPE YOU ENJOY THE NEW T&G 2023 CATALOGUE.

Patrick Gardner.

PATRICK GARDNER — MANAGING DIRECTOR

OUR SUSTAINABLE FUTURE

OUR ENVIRONMENTAL POLICY

Environmental concerns are central to T&G as our product range is predominantly wood. Our policy is to try to ensure that all T&G products are manufactured from timbers sourced from well-managed and sustainable forests and plantations.

"Timber is a precious resource in terms of both its own life and the diverse flora and fauna it supports. T&G pay particular attention to the products we manufacture and buy, their sustainability and suitability for our increasingly environmentally concerned customers and consumers."

WE'RE SUPPORTING OCEAN GENERATION

T&G are supporting Ocean Generation to raise awareness of the plight of plastic in our oceans.

T&G make a donation to Ocean Generation from the sale of all products from our 'Ocean' and soap dish ranges.

WE'RE FSC® CERTIFIED

T&G have held FSC® certification since 1999, and the FSC® logo on our products provides you the customer with an independent guarantee that the forest is managed according to agreed social, environmental and economic standards.

Over 80 of our products are certified according to the FSC® principles. Please look for the FSC® logo against certified products. FSC® is T&G's commitment to making a difference.

COLLECTIONS

DECO

A 1920's inspired range of sophisticated serving, sharing and dining pieces with sharply defined lines and geometric art deco style.

GREEN HOUSE

A range that takes inspiration from the botanical world and combines it with our luxurious wood products, sustainable cork and earthy ceramics.

PRIDE OF PLACE

Unique ceramics handcrafted by highly skilled producers, utilising special techniques to authentically reproduce timeless vintage enamel style kitchen storage.

SUSTAINABLE

HELP MAKE A WAVE OF CHANGE!

Less waste, less pollution, no plastic...T&G make a donation to Ocean Generation from the sale of these products.

REFILL, REUSE, RECYCLE!

Our glassware collection combines organic shapes, elegant designs, ideal for storage and display.

BAKING GIFTS

Give home bakers a treat and bring a smile to their face with sustainable natural wood kitchen items.

SEASONING

TIP TOP

Design, function and quality with the superior CrushGrind® mechanism.

OBLIQUE

Design, function and quality with the superior CrushGrind® mechanism.

CAPSTAN COLOURS

Classic mills are available in a variety of materials including acrylic, hevea, beech, copper finish and coloured woods.

GOOD THINGS COME TO THOSE WHO WAIT

ONE OF THE MOST FASCINATING IDIOSYNCRATIC ASPECTS OF THE CORK OAK FOREST LIES IN ITS REGENERATIVE POWER. THE MORE IT IS HARVESTED, THE MORE IT PROTECTS THE ENVIRONMENT.

*Look out for
FSC® certified products*

**IN NATURE
NOTHING
IS CREATED**

**NOTHING
IS LOST**

**EVERYTHING IS
TRANSFORMED**

THE LIFE CYCLE OF CORK NINE YEARS FROM HARVEST TO HARVEST

Cork is in fact the outer bark of the cork oak, which is grown commercially in a narrow belt stretching through Portugal, Spain and the South of France and along the North African coast.

The bark is stripped only in summer and the first stripping must wait until the tree is about twenty years old. Subsequent strippings take place every nine or ten years. This makes cork an ecologically acceptable product, as it is one of the few materials, which regenerates itself.

 5. Crown 6. Bottom Ring 7. Cone
 8. Cone holder 9. Adjusting wheel

T&G CRUSHGRIND® MILLS THE WORLD'S BEST MILLS!

"Every house in the world has a mill that doesn't work properly." It was these 12 words that started minds grinding. In 1998 T&G launched CrushGrind® in the UK, setting standards in mill and technology design.

CrushGrind® Mills have:

- Lifetime mechanism guarantee
- Non-corrosive ceramic mechanism
- Easy to fill design — no spindle
- Super high and consistent yield

CrushGrind® Mills are:

- Fully adjustable
- More than 12 grinding positions
- Harder and sharper than steel
- Suitable for salt, pepper, whole dried herbs and spices
- Tested to the equivalent of 200 years normal domestic use

The CrushGrind® ceramic mechanism allows you to effortlessly grind not only salt and pepper but also, using the same grinder, whole dried herbs and spices.

T&G's Salt & Pepper Mills lead the market in terms of design, function and quality with many mills to choose from using a variety of materials such as crystal clear acrylic, FSC® certified beech, stainless steel, hevea, black walnut, antique beech and ash. Most have been exclusively designed by T&G, offering a combination of classic and more innovative designs.

All T&G CrushGrind® salt mills are approved for use by the Maldon Crystal Salt Company Ltd. (maldonsalt.co.uk)

CARE & USE OF SALT & PEPPER MILLS

Peppercorns like coffee beans taste best when freshly ground!

PEPPER freshly milled is clearly superior if you compare it to the ready ground varieties available from supermarkets. Whole peppercorns contain a natural oil which gives pepper its distinctive flavour and quickly oxidises and loses its pungency once the peppercorns are ground. For maximum eating pleasure the pepper is best ground coarsely so that the final grind is done with the teeth, releasing the pungent flavour direct into the mouth.

SALT is an essential mineral component of a healthy balanced diet. Sea salt provides one of the simplest ways of meeting these dietary needs. As is the case with ready ground pepper, processed table salts are considered the least flavoursome by discerning cooks. This is because they often contain additives and anti-caking agents to provide easy flow.

For these reasons salt and pepper mills are among the most popular kitchen tools!

Never place a mill directly over open saucepans, casseroles or frying pans during the cooking process. The steam will dampen the salt and pepper grounds which can clog up the mechanism. Steam can also have a detrimental effect on the mill body and grinder. If the mechanism does get clogged empty the mill and clean the mechanism with a small brush.

Mill bodies can be kept clean by wiping them over with a damp cloth. Wooden models will benefit from an occasional application of T&G's food safe wood oil or mineral oil, to enhance the appearance and prevent the wood from drying out.

CRUSHGRIND® SALT & PEPPER MILLS

CRUSHGRIND® Mills all have the CrushGrind® ceramic mechanism which achieves a finer grind than conventional metal mechanisms. Furthermore this type of ceramic is an extremely hard material it guarantees excellent ongoing performance for many years. CRUSHGRIND® mechanism has its own unique grinding system which requires no central spindle and delivers excellent performance grind after grind.

CRUSHGRIND® is excellent for grinding dried herbs and spices which quickly lose both aroma and flavour once they are ground, because the essential oils very quickly evaporate. Buying coarsely ground dried seasonings and milling them when required releases the essential oils, restoring smell and taste to the level of freshly picked ones.

CRUSHGRIND® is easy to use, simple to fill and regulated by a simple rotating wheel at the base or top of the mill to achieve a fine or coarse grind.

Proven performance; test results established the mill in perfect working order after grinding 50 kilos of pepper and 50 kilos of salt through the same grinder — the equivalent of 200 years of normal domestic usage!

The mill stone can easily be removed making it ideal for cleaning and maintenance — the ceramic mill stone is dishwasher safe. As the mechanism is ceramic, it is also non-corrosive and non-porous and unlike metal it will not oxidise food.

CLASSIC SALT & PEPPER MILLS

T&G's Classic mills are available in a choice of different materials including crystal clear acrylic, stainless steel, hevea and beech wood, copper finish and coloured wood.

All T&G Classic mills have fully adjustable ceramic mechanisms. There are no metal grinders to corrode and no plastic grinders to wear out, just ceramic.

Add a spot of cooking oil to the top of the metal spindle where it meets the adjusting screw, this will prevent oxidation and keep the thread in good working order. It is advisable to repeat this occasionally throughout the working life of the mill.

All Classic mills have a lifetime mechanism guarantee. Please ensure your customer's mill returns are checked to ensure the problem is with the mechanism and then send the mill back to T&G for either repair or replacement. If the mill is a discontinued model then the closest equivalent model will be sent if a replacement is required.

The mark of
responsible forestry

T&G have a number of YouTube video's that are ideal for staff and product training. Please contact the Marketing department for more information.

tg-woodware.com

WOOD & HYGIENE

Undoubtedly, the most hygienic chopping board is going to be one that is cleaned most frequently, regardless of what it is made of. Wooden boards are very hygienic, as recent research carried out at a leading American University has proved. Their findings have shown that wooden surfaces are capable of decontaminating themselves, without the aid of bleach or harsh cleaning solutions. It is not entirely clear how the woods defence mechanism works, but seemingly the bacteria are sucked into the porous surface and 'strangled' by the anti-microbial chemicals, with which living trees protect themselves. Their tests proved that bacteria died very quickly on wood, but thrived on boards made from all types of polymer and rubber, and wood was simply the best hygienic choice. A full report giving details of tests is available by contacting T&G's Marketing Department.

T&G PRODUCT MATERIALS

At T&G we pride ourselves on over 40 years of experience leading the housewares industry with our distinctive wood, ceramic and mill collections. Please see below information on each type of material we use and the care and use of each.

T&G'S FOOD SAFE WOOD OIL

Mineral oil for wood treatment is far superior to vegetable oil and is the product T&G recommend to care for your wood products.

The benefits are:

- mineral oil dries much quicker and does not leave a sticky residue
- mineral oil sinks deeper into the wood enhancing its preserving qualities
- mineral oil will enhance the look and preserve the life of your product.

07002
Food safe wood oil (including shelf display box containing 6 bottles)
250ml

HEVEA

(Braziliensis — wood from the rubber tree) this is a white tropical hardwood from the rubber tree, which is planted mainly for natural rubber production. The major rubber producing countries are Indonesia, Malaysia and Thailand which together account for approximately 74% of the total plantation area. Hevea is very ecologically sound. After 25-30 years, when the trees are approximately 15 inches in diameter, they are unable to produce sufficient latex for conversion by the rubber factory, so they are felled and replaced by young trees. There is the added value of a very useful and attractive timber, which is hard and stable, reducing the likelihood of warping. The beautiful finish and light grain looks great on kitchen accessories as well as boards. Hevea can be successfully colour stained or oiled to seal the wood enhancing its appearance and prolonging its 'working life'.

CARE & USE: All T&G Hevea products have been sealed with a non-toxic protective lacquer to enhance the appearance and to help prevent the absorption of water when washed. To clean simply wipe over the surface with a damp cloth or wash in warm soapy water, do not soak, dry immediately. As with all Woodware, hevea can dry out with use, so an occasional wipe with T&G's food safe wood oil does much to restore the original natural appearance.

ACACIA

Acacia is a tree with roughly 1300 species around the world and is easily recognised by its umbrella shaped canopy. The scientific name for the species of Acacia T&G use is 'Samanea Saman Merr' often known as the 'Rain Tree' and in US and European circles as 'Monkey pod'. It is well appreciated with environmentalists because of the enormous amount of CO² this tree can absorb, very useful when planted along the roadsides.

This species, popular for its timber, can be found over much of South East Asia. It grows at a fast rate (0.75 to 1.5m annually) and it is also interplanted as a shade tree with other crops such as coffee or cocoa.

In Thailand, it is cultivated in many areas, especially the North, East and Centre, although much planting is along roadsides for producing shade.

It can grow to around 25m high and the canopy will be wider than the height but in the last 15-20 years Acacia trees

have been cut leaving the root so that the root sprouts again as with our native Willow which we call 'Pollarding' and T&G assume that is why this timber is also called 'Black Wattle'.

In some areas of Thailand villagers still plant Acacia trees as they are popular hosts to an insect called 'Laccifer Lacca Kerr'. This insect produces a scarlet, resinous secretion often used as food colouring and is similar to our 'Cochineal'. It is also applied to dyes and lacquers as a colourant and is often referred to as 'Shellac'.

There is also a certain amount of self-seeding but in certain provinces villagers are encouraged to plant Acacia trees from seeds supplied by officers of the Royal Forest Department of Thailand to increase the local resources.

The timber has been referred to as 'Black Wattle' or from its appearance 'Black Walnut'. T&G consider Acacia a rich coloured wood with a wild grain. It is a very hard wood and most suitable for use in the home for cutting boards to bowls.

CARE & USE: All T&G acacia products have been sealed with a non-toxic protective lacquer and are oiled to enhance the appearance and to help prevent the absorption of water when washed. To clean simply wipe over the surface with a damp cloth or wash in warm soapy water, do not soak, dry immediately. As with all Woodware, acacia can dry out with use, so an occasional wipe with T&G's food safe wood oil does much to restore the original natural appearance.

RUSTIC ACACIA

Is the same wood but the finish is treated differently. Every one of our rustic boards is completely unique. These beautiful rustic boards vary widely in their appearance, making every one extra special and individual.

Our Rustic Acacia wooden boards/platters are ideal for preparing and serving food. On trend with today's fashion of casual lifestyle and individuality.

As with all woodware, Acacia can dry out with use, so an occasional wipe with T&G's food safe wood oil or a mineral oil does much to restore the original natural appearance.

CARE & USE: All T&G Rustic Acacia products have been oiled and do not have any lacquer. To clean simply wipe over the surface with a damp cloth or wash in warm soapy water, do not soak, dry immediately.

NORDIC

Acacia wood is a rich coloured wood with a wild grain. It is a very hard wood and most suitable for use in the home for kitchen accessories. The T&G Nordic range has a rough sawn finish and is available in two colourways — a natural finish which has a non-toxic protective lacquer and a white which has a non-toxic white painted finish. Both these finishes are suitable for contact with food.

CARE & USE: All T&G Nordic products have been treated. To clean simply wipe over the surface with a damp cloth and dry immediately.

FSC® CERTIFIED BEECH

A beautiful warm wood, a northern temperate hardwood from a medium sized tree, averaging 30m high. Beech is a pale cream colour with a straight grain; it is fine textured with small spindle shaped markings. It adapts well to humidity and is ideally suited to the production of kitchen utensils such as spoons, spatulas, rolling pins and chopping boards. In Europe it is the most commonly used timber for the production of food preparation products and kitchen furniture. Beechwood can be successfully colour stained for co-ordination and waxed or oiled to seal the wood, enhancing its appearance and prolonging its 'working life'.

CARE & USE: Wood is a product that appreciates care. Keep away from heat and direct sunlight. To prolong life and appearance wipe with T&G Food Safe Wood Oil. Not dishwasher safe. To clean simply wipe over the surface with a damp cloth and dry immediately.

OAK

Oak wood has a great density and therefore, great strength and hardness, and is very resistant to insect and fungal attack because of its high tannin content. It also has beautiful grain markings, making it perfect for kitchenware products. Oak has been used since the Middle Ages for use in

interior panelling of prestigious buildings such as the debating chamber of the House of Commons in London, and in the construction of fine furniture. Oak wood, from *Quercus robur* and *Quercus petraea*, was used in Europe for the construction of ships, especially naval men-of-war, until the 19th century, and was the principal timber used in the construction of European timber-framed buildings. Today oak wood is still commonly used for kitchenware, furniture making and flooring, timber frame buildings, and for veneer production.

As with all woodware maintaining the look of your board is essential, so an occasional wipe with T&G's food safe wood oil or a mineral oil does much to restore the original natural appearance

CARE & USE: To clean simply wipe over the surface with a damp cloth or wash in warm soapy water, do not soak, dry immediately.

CERAMIC & STONEWARE

T&G's ceramic ranges are designed to be used and enjoyed with confidence. We test items to ensure that we deliver quality items that are functional, durable and safe. All T&G's ceramic ware is easy to clean either by hand using conventional hand-wash detergents or by using a dishwasher.

DISHWASHER SAFE: All T&G's ceramic items can be washed in a regular domestic dishwasher. Always follow your dishwasher manufacturer's specific instructions.

GLASS

T&G's glass storage items are produced from recyclable Soda-lime glass, which is annealed to ensure its durability. They are ideal to add style to your kitchen.

CARE & USE: Hand wash only. Not suitable for hot liquids.

FSC® CERTIFIED CORK

Cork is in fact the outer bark of the cork oak, which is grown commercially in a narrow belt stretching through Portugal, Spain and the South of France and along the North African coast. The bark is stripped only in summer and the first stripping must wait until the tree is about twenty years old. Subsequent strippings take place every nine or ten years. This makes cork an ecologically acceptable product, as it is one of the few materials, which regenerates itself.

CARE & USE: Wipe clean with a damp cloth to remove any food particles or light stains. An occasional scrub with a dish brush will remove any stubborn deposits. If surface staining should occur, it can be easily remedied by rubbing over the area with a kitchen abrasive such as Cif, using a nylon scouring pad. Cork does not absorb stains so discolouring is a surface coating.

WIREWARE

Our wireware collection of unique and charming storage solutions for the kitchen is produced from powder coated steel wire to give a beautifully rustic appearance. The pieces are very decorative, but also robust and functional.

CARE & USE: To clean simply wash in warm soapy water and dry immediately. Not safe for use in a dishwasher.

T&G have a number of YouTube video's that are ideal for staff and product training. Please contact the Marketing department for more information.

For further details on all our products, please visit our website **tg-woodware.com**

Export

Minimum order value: £600 (€750)
Prices: Ex works
Payment against Pro-forma invoice
Delivery 2 to 4 weeks

3. TERMS OF PAYMENT

Payment of the contract price and any other charges shall be made promptly on a net thirty day basis from date of invoice. Interest on any overdue account shall be charged at a rate equivalent to four percent above HSBC plc base rate for the time being in force.

4. CONDITIONS

The Conditions, together with specific conditions and terms set out in the Company's quotation, shall constitute the entire Contract between the Company and the Purchaser of any goods, or receiver of any services from the Company ('the Customer'). These conditions shall supersede:

- a. any previous agreements or arrangements whether written, oral or implied and
- b. any conditions at any time imposed or quoted by the Customer where inconsistent with these conditions and in any particular shall override any conditions that may be printed upon any order, request for quotation or other communication received from the customer or on his behalf. By accepting any tender or quotation for or placing any order for these goods or services the Customer shall be deemed to have accepted these conditions.

5. PRICES AND SPECIFICATIONS

Whilst endeavouring to maintain prices, the Company reserves the right to alter prices and / or specifications without notice and the prices and specifications applying to any order shall be those applicable when the order is dispatched. The Company also reserves the right to add a surcharge and to charge for delivery where necessary. All sizes and capacities quoted are approximate.

6. QUOTATIONS

Quotations only refer to goods and services specified therein and available at the time of quotation. Quotations shall only be binding on the Company if confirmed in writing. Notwithstanding any quotation the Contract Price shall be the price ruling at the date the order is dispatched. In any event quotations shall not be binding upon the Company if not accepted in writing by the Customer within 28 days of receipt of any quotation.

7. DAMAGED AND LOST GOODS

Any damaged or faulty goods must be reported in writing as soon as possible and in any event within 7 days of receipt of any delivery or part delivery. No claims for compensation or replacement of goods will be accepted after the 7 day period. Non-delivery of goods must be reported in writing within 14 days of receipt of invoice.

8. RETURNS

Goods cannot be returned without prior agreement by the Company in writing. A restocking fee may apply. To receive a credit (if agreed) goods must be returned in the same condition in which they were received and in their original wrapping and packaging. Returns will also only be accepted back at the Customer's expense.

9. PART DELIVERY

— UK MAINLAND ONLY

The Company will make every effort to despatch an order complete, but reserves the right to make part shipment / delivery. Mainland Great Britain balances under the value of £75 will either be added to the next order or cancelled at the Company's discretion.

10. LIMITATION OF LIABILITY

- a. the liability of the Company in respect of any defect or damage in goods supplied shall be limited to the replacement or repair of such goods at the Company's expense (provided that the defect or damage shall have been reported promptly as required above).
- b. the Company shall not be liable for any consequential loss (whether direct or indirect) expense or damage of whatever kind arising as a result of any defect or damage in goods supplied.
- c. any date quoted for delivery of orders or consignments shall not constitute a term of contract between the Company and the Customer and any delay shall not constitute a breach of such contract neither shall the Company be liable for any indirect or consequential losses, costs or penalties incurred or suffered by the Customer as the result of any delay.
- d. time shall not be of the essence in respect of any contract between the Company and the Customer unless agreed in writing.

11. TITLE TO GOODS

Until the Company has been paid in full for all goods:

- a. such goods will remain the property of the Company but the risk therein and all liability to third parties shall pass to the Customer.
- b. if the Customer incorporates goods supplied by the Company in other products then those products shall be the property of the Company. If the Company's products are mixed with other goods belonging to a third party then the products shall be the property of the Company and the third party in proportion to the cost prices of the different goods.
- c. if the Customer disposes of the goods or products then the Customer shall hold and pursue claims for the proceeds of any sale on trust for the Company.
