

## RHCSA Rapid Track Course (RH199)

**4 Days**  
**\$3,200**

The Red Hat® course combines Red Hat System Administration I (RH124) and II (RH134) by focusing on system administration skills and knowledge for managing Red Hat Enterprise Linux 7 environments.

After completing this course, students can take the Red Hat Certified System Administrator (RHCSA) certification exam.

### Recommend Experience:

Candidates should hold at least 1-3 years of Linux administration experience, specifically pertaining to:

- Bash shell with job control, shell expansion, I/O redirection and piping
- IPv4 network addressing and routing, TCP/UDP
- Using GNOME 3
- File permissions
- RHEL Installation
- Archival utilities such as tar, zip and compression tools

### Who Should Enroll?

RH199 candidates include:

- Junior Linux Administrators
- System Administrators
- Network Administrators
- IT Professionals seeking their RHCSA certifications

### RHCSA Exam Objectives:

- Essential Tools
- Operations for Running Systems
- Local Storage
- Creating and Configuring File Systems
- Users and Groups Management
- Security Management

### Training Options

This course is available through these options:

- RH199 - In-Person
- RH199C - Remote
- RH199VT - Virtual
- RH199R - 90 Days of Access to the Online Course for \$2,720
- RH200 - 5 day course includes the RHCSA exam (EX200) for \$3,420
