Canadian Contractor Report of Hydrography and Ocean Sciences

These reports are unedited final reports from scientific and technical projects contracted by the Ocean Science and Surveys (OSS) sector of the Department of Fisheries and Oceans.

The contents of the reports are the responsibility of the contractor and do not necessarily reflect the official policies of the Department of Fisheries and Oceans.

If warranted, Contractor Reports may be rewritten for other publications series of the Department, or for publication outside the government.

Contractor Reports are produced regionally but are numbered and indexed nationally. Requests for individual reports will be fulfilled by the issuing establishment listed on the front cover and title page. Out of stock reports will be supplied for a fee by commercial agents.

Regional and headquarters establishments of Ocean Science and Surveys ceased publication of their various report series as of December 1981. A complete listing of these publications and the last number issued under each title are published in the *Canadian Journal of Fisheries and Aquatic Sciences*, Volume 38: Index to Publications 1981. The current series began with Report Number 1 in January 1982.

Rapport canadien des entrepreneurs sur l'hydrographie et les sciences océaniques

Cette série se compose des rapports non publiés réalisés dans le cadre des projets scientifiques et techniques par des entrepreneurs travaillant pour le service des Sciences et Levés océaniques (SLO) du ministère des Pêches et des Océans.

Le contenu des rapports traduit les opinions de l'entrepreneur et ne reflète pas nécessairement la politique officielle du ministère des Pêches et des Océans.

Le cas échéant, certains rapports peuvent être rédigés à nouveau de façon à être publiés dans une autre série du Ministère, ou à l'extérieur du Gouvernement.

Les rapports des entrepreneurs sont produits à l'échelon régional mais sont numérotés et placés dans l'index à l'échelon national. Les demandes de rapports seront satisfaites par l'établissement auteur dont le nom figure sur la couverture et la page de titre. Les rapports épuisés seront fournis contre rétribution par des agents commerciaux.

Les établissements des Sciences et Levés océaniques dans les régions et à l'administration centrale ont cessé de publier leurs diverses séries de rapports depuis décembre 1981. Vous trouverez dans l'index des publications du volume 38 du *Journal canadien des sciences halieutiques et aquatiques*, la liste de ces publications ainsi que le dernier numéro paru dans chaque catégorie. La nouvelle série a commencé avec la publication du Rapport n° 1 en janvier 1982.

ABSTRACT

Greisman, P. 1983. The Physical Oceanography of Bridport Inlet, N.W.T.
Volume II of II: Individual CTD casts. Can. Contract. Rep. Hydrogr.
Ocean Sci. No. 9.

The individual CTD casts performed in Bridport Inlet in March and April are presented. The values of temperature, conductivity, are listed at each one meter interval with profiles of each cast.

Key words: Arctic oceanography, conductivity, temperature, depth, CTD.

RÉSUMÉ

Greisman, P. 1983. The Physical Oceanography of Bridport Inlet, N.W.T.
Volume II of II: Individual CTD casts. Can. Contract. Rep. Hydrogr.
Ocean Sci. No. 9.

Le présent rapport porte sur les palanquées CTP individuelles, réalisées dans l'inlet Bridport en mars et avril 1980. Il fournit les données de température et de conductivité à chaque intervalle d'un mètre, en plus des profils de chaque palanquée.

Mots-clés: océanographie de l'Arctique, conductivité, température, profondeur, CTP.

DISCLAIMER

This report was written under contract and its contents are the responsibility of the author.

The Physical Oceanography of Bridport Inlet, N.W.T.
Volume II, Individual CTD Casts

This volume contains the 117 individual CTD measurements made in Bridport Inlet in March and April 1980 by members of the Frozen Sea Research Group of the Institute of Ocean Sciences. The CTD measurements comprised one aspect of an oceanographic study which included current and tidal height measurements. The 1980 survey and an interpretation of the data collected are described in Volume I of this report. Also included in Volume I are the average CTD profiles at each site and histograms of the current records.

For convenience, Figure 1 which shows the location of the CTD station, current meter moorings and tide gauges is reproduced from Volume I. In addition, the bottom topography of Bridport Inlet is shown in Figure 2.

The specifications of the Guildline CTD are listed in Table 1, and the locations of the individual CTD casts are presented in Table 2.

Salinity was computed from conductivity and temperature data using the Practical Salinity Scale 1978 (Lewis, 1980; UNESCO, 1981a). Density was computed using the International Equation of State of Seawater, 1980 (UNESCO, 1981 b and c).

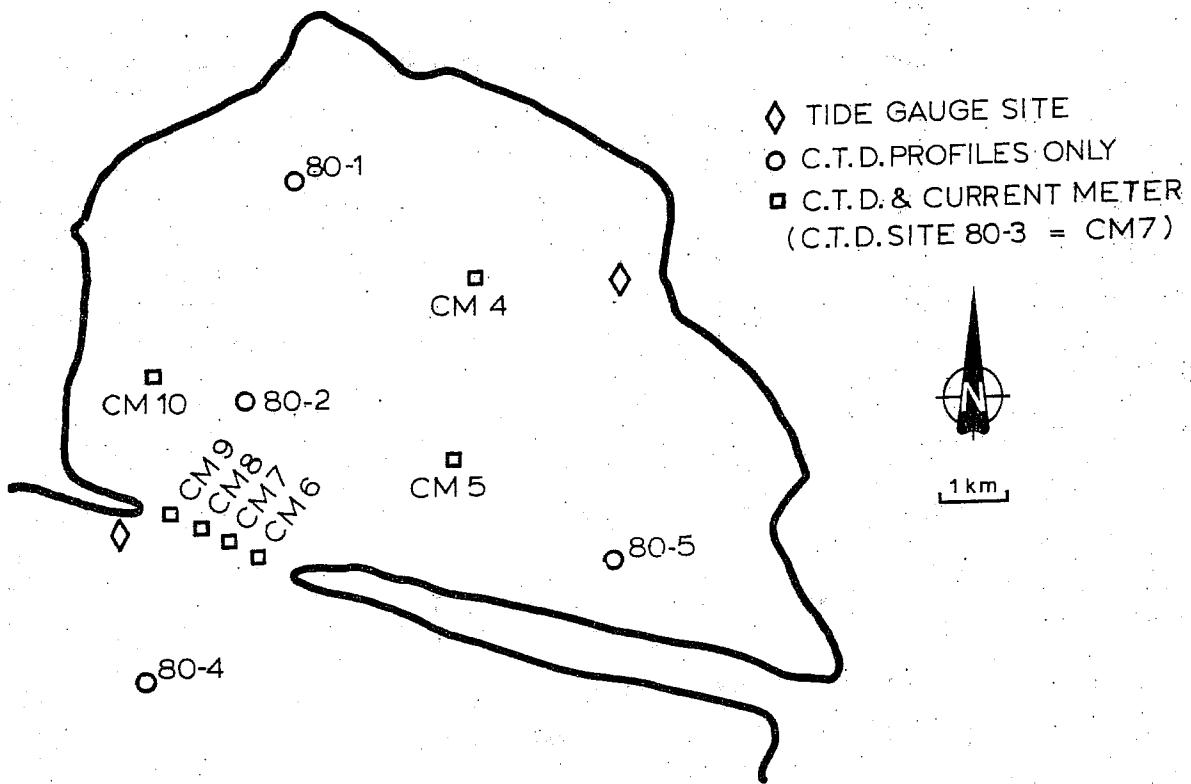

FIGURE 1. Locations of current meter moorings, CTD profiles and tide gauges in Bridport Inlet, March - April 1980.

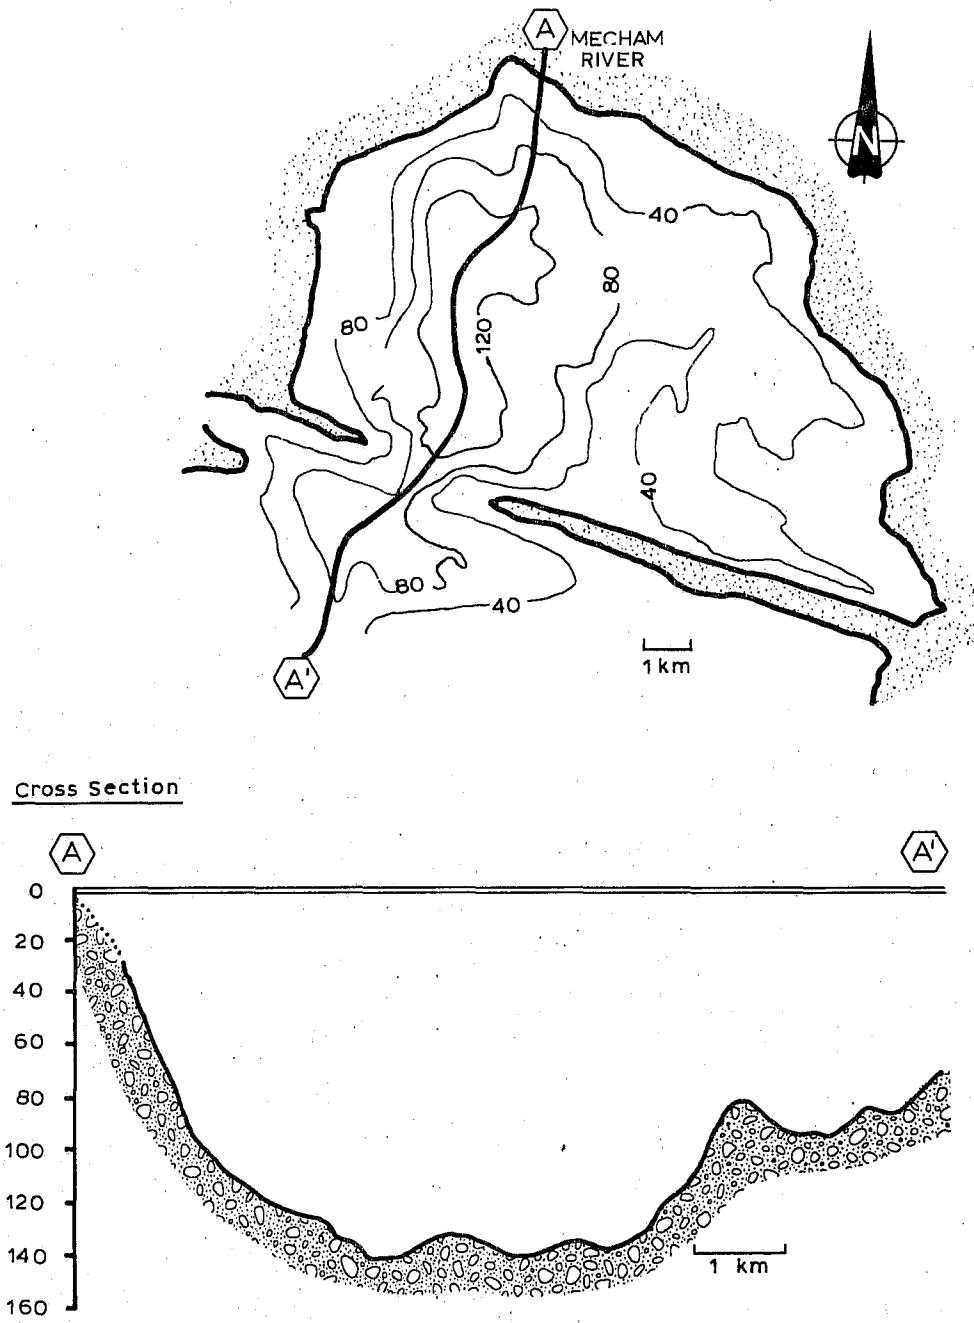

FIGURE 2. Bottom topography of Bridport Inlet (from Lake, 1979 b).
