GOLD SOFTWARE SUPPORT PLAN: 7x24 Telephone Response - Provides telephone support Monday through Sunday (7 days a week) and 24 hours per day. Customers may call and receive assistance at any time.

Two support programs are available for Quantum StorNext: 1) Quantum Software Support: Quantum provides First Call, Tier 1 and Tier 2 support, or 2) Authorized Software Support Provider (ASSP): ASSP provides First Call and Tier 1 support and the support agreement is with the ASSP. For more information on the ASSP program, contact Software Sales or Software Application Partner Manager. Although not required, a software support plan is recommended. Software updates are included when covered by a software support plan.

Installations

Unless otherwise noted, installation charges apply on a per-unit basis. Installation/integration prices are for installations performed during normal business hours, local time, Monday-Friday, except Quantum or local holidays. Unless the item is described as customer installable, installations must be performed by Quantum or a Quantum-authorized service provider. Installation and/or integration services, which must be performed by Quantum or a Quantum-authorized service provider may be required for various system options, such as Fibre Channel. Consult the item note and footnotes for more information about installation requirements.

Installations/integrations scheduled in advance for times other than normal business hours, local time, Monday-Friday, excluding Quantum or local holidays will be charged at a rate 1.5 times the standard price. Installations/integrations scheduled in advance to occur during Quantum or local holidays will be charged at a rate 2.0 times the standard price.

Service Extensions and Uplifts

Some products offer a service extension option that extends the time period of standard warranty coverage (for example, extending a one-year Bronze Level warranty to a three-year period). Customers may also enhance ("uplift") the standard warranty coverage on most products to a higher level of service support (and optionally a longer time period too). An uplift replaces the standard warranty with a service contract. The terms of the service contract supersede the warranty terms and conditions when a service uplift is purchased. Service uplifts and extensions are offered at a discount from the standard renewal pricing and **must be purchased within 60 days of the product purchase date (PO date).** Extended or uplifted service purchased after this point will be priced at the standard renewal rate. Service extension and uplift pricing is listed at the end of each product section.

Field Add-ons and Upgrades

Field add-ons/upgrades added to a system under warranty or a maintenance agreement do not affect the price or duration of the system's coverage. Add-on/upgrade items purchased at the same time as the system <u>must</u> be covered for the duration of and at the same service level as the standard or uplifted system warranty. All add-on/upgrade items added to a system after its initial installation must be covered at the same service level as the system they are installed in.

When one or more tape drives and/or Fibre Channel cards are added to a configuration under a maintenance agreement, the customer will be charged a pro-rated maintenance charge for the added item(s). The price for the maintenance agreement will be determined by the status of the whole unit (may be renewal pricing). Since price calculations related to existing contracts and expiration dates can be complex, please contact your Quantum Service Sales representative for assistance in determining the correct incremental service charges.

Quantum Pathlight, Scalar 24, 100, i500, i2000 and 10K Systems:
Quantum Pathlight, Scalar 24, 100, i500, i2000 and 10K systems have separate installation charges for various types of field add-ons/upgrades instead of the Field Add-on/Upgrade Trip Charge. Therefore, the Installation Time Schedule is not used for add-ons/upgrades to these systems.

instead of the Field Add-on/Upgrade Trip Charge. Therefore, the Installation Time Schedule is not used for add-ons/upgrades to these systems. Consult the Installation and Upgrade Installation sections within each product section of the Price Book for more information.

Quantum Scalar 50, and DPM, DX, DXi, and PX Series Systems:

In most cases, a single installation charge or "trip charge" applies regardless of the type of add-on or upgrade being performed. This includes adding drives, features, options, pass-thru port installation, slot capacity upgrades, etc. that are installed in the unit after the initial library installation where the add-on/upgrade specifies that installation service is required, or for customer-installable items where the customer prefers to have professional installation by Quantum (or Quantum-authorized service provider). The field add-on/upgrade charge includes all work that can be performed at a single site (one or more buildings within a five-minute walk on the same physical campus or business park) within four on-site hours. Hours in excess of four are charged at an additional hourly (or part thereof) rate.

Depending on the number of boards being installed, Fibre Channel installation on an existing system may consume all four hours (the total number of hours) included in the Field Add-on/Upgrade trip charge. Therefore, as will usually be the case, if there are other add-ons/upgrades being installed at the same time, additional hours will be charged (see the "Installation Time Schedule" below). The Fibre Channel installation includes verification that the robot and tape drives are available and visible at the primary switch. Customer is responsible for ISV software setup, configuration and testing. Quantum System Integration Services are recommended for more comprehensive Fibre Channel implementations.

The field add-on/upgrade or "trip" charge does not apply to any add-ons that are ordered with a new system and installed in it at the same time as the system is installed if the system installation service has been purchased (or if the system price includes bundled installation). The field add-on/upgrade charge may not apply to complex upgrades or to any add-ons external to the system. These upgrades or solutions are priced with a separate installation charge that may be in addition to the "trip" charge. The service note will indicate those items that involve an additional or separate installation charge.

Installation Time Schedule

Quantum Pathlight, Scalar 24, 100, i500, i2000 and 10K Systems:

Quantum Pathlight, Scalar 24, 100, i500, i2000 and 10K systems have separate installation charges for various types of field add-ons/upgrades instead of the Field Add-on/Upgrade Trip Charge. Therefore, the Installation Time Schedule is not used for add-ons/upgrades to these systems. Consult the Installation and Upgrade Installation sections within each product section of the Price Book for more information.

Quantum Scalar 50, and DPM, DX, DXi, and PX Series Systems:

The Field Add-on/Upgrade Trip Charge (model SN-TC-PNx) applies to Quantum Scalar 50, and DPM, DX, DXi, and PX Series systems for add-ons/upgrades installed in a system after initial installation where the add-on/upgrade specifies that installation service is required, or for customer-installable items where the customer prefers to have professional installation by Quantum (or Quantum-authorized service provider). This charge includes all add-on/upgrade installation work that can be performed at a single site during the same visit.

The table below shows an estimate of the number of hours it will take to install various add-ons and upgrade. The Field Add-on/Upgrade Trip Charge (SN-TC-PNx) price will be quoted based on the total number of hours required to install all add-ons/upgrades being installed at the same site during the same visit.

Warranty Information and Warranty Codes

Warranty information is summarized below . How ever, the terms and conditions of the w arranty as provided w ith the product apply.

The w arranty period show n for field add-on/upgrade items applies to the item itself only if the system is no longer covered by a w arranty or service agreement. If the system is under w arranty or service agreement, then the terms and coverage provided by the system w arranty or service agreement apply to the field add-on/upgrade item as w ell. Add-ons/upgrades added to a system under w arranty or a service agreement do not affect the price or duration of the system's coverage. Add-on/upgrade items purchased at the same time as the system w ill be covered for the duration of and at the same service level as the standard or uplifted system w arranty. All add-on/upgrade items added to a system after its initial installation must be covered at the same service level as the system they are installed in. If the standard w arranty for the add-on/upgrade item to be added to a system after its initial installation is at a low er service level than the system, a w arranty uplift must be purchased for the add-on/upgrade item to cover it at the same service level as the system.

Unless stated otherw ise, all w arranty programs include telephone support during normal business hours (M-F, 8AM-5PM, local time, except holidays) for the duration of the w arranty period.

1yr RE	Once a product or Field Replaceable Unit (FRU) has been diagnosed as defective by the Quantum Customer Support Center, Quantum will arrange for shipment of a replacement Product or Part at Quantum's discretion two (2) business days after receipt of the call. Quantum reserves the right to choose, at its sole discretion, Rapid Exchange of the whole unit or failing part. Rapid Exchange shipments REQUIRE a Return Authorization (RA) number from Quantum Customer Support clearly

Rapid Exchange shipments REQUIRE a Return Authorization (RA) number from Quantum Customer Support clearly indicated on the outside of the shipping package and shipped to a Quantum-specified receiving location. The customer Must also provide Quantum with a credit card HOLD or another form of Quantum-specified collateral for security purposes. Once the defective Product or Part is received by Quantum, the hold/deposit will be RELEASED.

If a credit card or another form of Quantum-specified collateral is not provided, then the replacement product cannot be sent until defective product has been received by Quantum. In the event the defective Product or Part is not received by Quantum within fourteen (14) business days after the customer has received a replacement Product or Part, Quantum will convert the hold/deposit to a charge. The requestor is responsible for the full retail value of the missing Product or Part. Additionally, the warranty will be void on the Product or Part that Quantum shipped out as part of the Rapid Exchange Program AND the Product or Part that was not returned. Replacement Products or Parts shall be furnished on an exchange basis and may be either new or reconditioned as new.

Removal, shipment to Quantum shipping insurance and loss or damage of the failed Product or Part, as well as the installation and configuration of the replacement Product or Part is the responsibility of the End User. The customer may choose an on-site field call at the then-current price for removal and installation of the replacement Product or Part. Products, Parts and Repairs shipped to the End User by Quantum, shall be freight prepaid by Quantum. Responsibility for loss or damage shall be on Quantum. Quantum shall not be responsible for any handling fees, import duties or tariffs, or delays as a result of customs.

Multiyear Service Contract Discounts

Customers can save money and be protected from service price increases by signing and prepaying for a multiyear agreement at the same time as their system purchase. Customers that purchase multiyear Hardware service contracts will receive a 15% discount off the single-year price. Customers that purchase multiyear StorNext service contracts will receive a 5% discount off the single-year price. This discount should manually be applied to annual model numbers. Note that the discount is already included in the pricing of two- and three-year model numbers. When one or more tape drives and/or Fibre Channel cards are added to a configuration under a maintenance agreement, the customer will be charged pro-rated maintenance charge for the added item(s).

Reseller Service Contract Sales

VARs, distributors, certified maintainers or Partner Support Program (PSP) VARs (hereafter collectively referred to as "resellers") may sell a service contract to end users. In situations where the reseller has an opportunity to sell products outside their territory, such as a global opportunity, Quantum may deal directly with the end user for the service contract and pay a commission to the reseller based on the

QUANTUM

opportunity, Quantum may deal directly w ith the end user for the service contract and pay a commission to the reseller based on the characteristics of the sale.

The reseller w ill accept a Purchase Order from the customer and w ill issue a separate PO to Quantum reflecting the price less the appropriate reseller discount. After the discount is applied to the price of an item, the net price should be rounded to the nearest w hole dollar amount (round dow n if the decimal amount is less than 50 cents, round up decimal amounts greater than or equal to 50 cents).

Resellers may sell the initial service contract (either as an uplift to the standard w arranty or the first year post-w arranty service). Quantum reserves the right to pursue service contract renew als directly as appropriate. In such cases w here Quantum assumes the contract renew al, all future renew als w ill be handled directly by Quantum.

For North America only, the ESP/Premier OIP price for service RENEWALS only applies to approved OIP deals for US Federal end-user customers registered and sold by the ESP/Premier VAR w ho originally sold the product.
