HP Applied Network Consulting and Integration Service

HP Networking Consulting

Technical data

HP Applied Network Consulting and Integration Service offers a flexible means of providing you with HP networking consulting and integration assistance to help meet your needs.

When you purchase this service, one or more Network Technology Consultants will be assigned to your organization for a predetermined period of time to assist with mutually agreed-upon HP networking-related consulting and integration activities that are managed and directed by you.

You have the flexibility to choose from a variety of service activities, ranging from advanced configuration and project management to network integration and interoperability testing, and you can receive assistance with the configuration of advanced technologies.

You should always consider purchasing HP Applied Network Consulting and Integration Service in conjunction with Installation and Startup Services for HP networking products. Joining these two services together will help ensure that your device is properly integrated into your existing network environment.

HP Applied Network Consulting and Integration Service is sold in increments of 8 hours for all offsite remote service assistance, and 40 hours for all onsite service assistance provided at a single location.

Service benefits

- Complement your in-house IT team with assistance from HP Network Consulting
- Get flexible network service assistance delivered when you need it, and at your direction
- Choose from a variety of service activities addressing both technology and process needs
- Be able to make adjustments to the work plans created per your directions during consultation and review meetings with experienced Network Technology Consultants
- Help improve the time to solution
- Help reduce business risk and project costs by having access to HP specialists
- Help simplify IT operational procedures by leveraging HP best practices

Service feature highlights

- Assigned Network Technology Consultant
- Plan and review meeting(s)

| Specifications Table 1. Service features | |
|---|--|
| Feature | Delivery specifications |
| Assigned Network Technology Consultant | Network Technology Consultant(s) will be assigned to assist the Customer with a predetermined network project |
| Plan and review meeting(s) | Prior to the deployment of Network Technology Consultant(s), HP will work with the Customer to establish plans, objectives, and tasks to be performed by the assigned consultant(s) that will assist in meeting the Customer-directed network project goals. |
| | The assigned Network Technology Consultant will then be available to discuss and further refine plans, objectives, and tasks as needed by the Customer. |

Specifications

Table 2. Service-level options

Not all service-level options are available on all products. The service-level options the Customer has chosen will be specified in the Customer's contract documentation.

| Option | Delivery specifications |
|--|--|
| HP Applied Network Consulting and Integration Service—8 hours A Network Technology Consultant will be assigned to the Customer for a contiguor time period to assist with mutually agreed-upon HP networking-related consulting a integration activities that are managed and directed by the Customer. Service assistance. | |
| HP Applied Network Consulting and Integration Service—40 hours | A Network Technology Consultant will be assigned to the Customer for 1 week of 5 contiguous workdays (40 hours in total) to assist with mutually agreed-upon HP networking-related consulting and integration activities that are managed and directed by the Customer. Service assistance is available onsite at a single Customer-designated location. |

Coverage

This service is available on regular work days, excluding weekend days and HP holidays, and during country-specific standard HP business hours.

Customer responsibilities

Network Technology Consultants' efforts are managed and directed by the Customer. Therefore, it is the responsibility of the Customer to direct the Networking Consultants' efforts in the most effective manner.

The Customer is responsible for any applicable taxes associated with this engagement. It is understood that the Customer is not tax exempt.

The Customer will provide HP with a written description of the service assistance required prior to the deployment of Network Technology Consultants.

It is the Customer's responsibility to:

- Assure that all products associated with the tasks to be performed by HP are ordered and on-site prior to the start of the consulting services and/or the arrival of the consultant on-site.
- Advise HP of any special security, health, and safety matters applicable to the Customer site where the service is to be provided
- Provide to HP, on request, any information that HP may reasonably request about the execution of the services
- Coordinate all required third-party participation and cooperation
- Provide a designated primary contact to interface with HP assigned resources on day-to-day issues and coordination of resources
- Upon request or as needed, assign or make available experienced subject-matter and technical experts
- Assure that all products associated with the tasks to be performed by HP are ordered and on site prior to the start of the consulting services and/or the arrival of the consultant
- Advise HP of any special security, health, and safety matters applicable to the Customer site where the service is to be provided
- Provide to HP, on request, any information that HP may reasonably request about the execution of the services
- Coordinate all required third-party participation and cooperation
- Provide a designated primary contact to interface with HP assigned resources on day-to-day issues and coordination of resources
- Upon request or as needed, assign or make available experienced subject-matter and technical experts

Service limitations

Onsite service assistance will be provided at one location in the country where the service is sold.

General provisions/Other exclusions

HP Applied Network Consulting and Integration Services are governed by Hewlett-Packard Company standard terms for professional services.

Upon receipt of an order, HP will contact the Customer within 7 business days to organize service delivery. HP may require up to 30 days to organize resources and begin work.

For HP Applied Network Consulting and Integration Service—40 hours, HP resource time is limited to 1 working week (consisting of 5 consecutive days) of service assistance, totaling a maximum of 40 hours or the country-specific standard working week.

Service hours are inclusive of onsite, offsite, and travel time. Any request for flexible work hours must be agreed to in advance by both the Customer and HP. The onsite/offsite schedule of the Network Technology Consultant will be mutually agreed to prior to the commencement of Services.

Any after-hours work must be requested a minimum of 1 week in advance and will be delivered based on resource availability and HP discretion. If the Customer requests and subsequently authorizes delivery outside the standard workday, those hours are subject to availability of resources, and any such after-hours work will be counted on a time-and-a-half basis against the 40-hour weekly limit.

Services will be performed at the Customer site or at HP designated offices, as required, over a contiguous period.

For HP Applied Network Consulting and Integration Service—8 hours, resource time is limited to 1 day of offsite service assistance, totaling a maximum of 8 contiguous hours.

For either engagement:

- HP will stop work when the purchased service hours are exhausted.
- Service hours must be utilized and redeemed against specific service activities defined by the Customer within 120 days from the date of purchase and are restricted to a single IT environment under the direct day-to-day management of one IT manager in one country.
- Service hours will expire at the end of 120 days from the date of purchase if not used.
- Travel will occur during the first morning and last workday of each week for onsite delivery (or as jointly determined by the Customer and HP).
- Working at the direction of the Customer, Network Technology Consultant(s) will perform the Services based upon mutually agreeable activities.
- This Service provides the Customer with the ability to direct the Network Technology Consultant's efforts in the most effective manner to accomplish identified business objectives.
- Services are deemed accepted upon performance.
- Documentation created for this engagement will be available in electronic format created with Microsoft® Office.
- At such time as HP has exhausted 80 percent of the purchased hours in any HP Network Consulting
 engagement, the parties will review the status and HP will provide estimates of what, if any, additional
 time or resources may be required to complete the Customer's project goals. If the parties estimate that
 more time and/or resources are needed to complete the project, the Customer will be required to
 purchase additional service hours.

When the Services provided by the Network Technology Consultant(s) have exhausted the hours purchased, HP will stop work. HP will not provide service assistance beyond the service hours purchased by the Customer.

Travel charges may apply; please consult your local office

Ordering information

To obtain further information or to order this service, contact a local HP sales representative or HP reseller and reference the following HP Network Consulting packaged services:

HL262A1 for HP Applied Network Consulting and Integration Service 8-hour offsite HL263A1 for HP Applied Network Consulting and Integration Service 40-hour onsite
