I. DATA BASE: T-100

DATA BANK DB28IM

II. NAME INFORMATION:

A. T-100 - International Market Data

B. Data Set Name (tapes) = J3.J3TOXXXX.DB28IM.Myyymm.Myyymm

Example : for year of 1990

DSN = J3.J3TOXXXX.DB28IM.M9001.M9012

III. FILE DESCRIPTION:

This file contains data reported by U.S. and foreign carriers. For the U.S. carriers, at least one point has to be outside the United States or in one of its territories. All foreign carrier data must have at least one point in the United States or in one of its territories. These data are often referred to as either "Market" or "On-Flight O&D" records. The data fields contain information on passengers, freight and/or mail enplaned at the "origin" airport and deplaned at the "destination" airport.

For additional information concerning these data sets write to OAS at the address shown on the cover sheet.

VI. NOTES - DB28IM International Market Data

- A. Airport Alpha Code. The three letter code identifying the airport. This code is used in all of the major airline reservation systems and is recognized by the International Air Transport Association (IATA).
- B. Airport Numeric Code. A five digit code which corresponds to the alphabetic name spelling of the principal city served by the airport. Airports that share service at a particular city will therefore have identical numeric codes. The number is used primarily for sorting records by city name and for grouping multiple airports within a city.
- C. World Area Code. A three digit code which specifies in what area of the world a city is located. The first digit represents a major geographic area, such as "0" for the United States, "4" for Europe, etc. The last two digits represent a specific subdivision of the major area, such as a state or country. Contact the Office listed on the cover sheet for a complete list of these area codes.
- D. City Name. The name of the principal city served by this airport.
- E. Carrier Alpha Code. The 2 or 3 character code used to represent the carrier reporting these data to the DOT.
- F. Carrier Entity Code. A five character code assigned to air carriers that is used primarily for DOT reporting purposes. It is used to separate the Domestic, Atlantic, Latin America, and Pacific operations of each carrier. For Non-U.S. carriers, the code is used to identify the country of origin of the carrier. Contact the office listed on the cover sheet for a complete list of carrier entity codes.
- G. Carrier Group Code. This numeric code classifies the U.S. carrier (1,2, or 3) by the amount of total operating revenue from the previous year. A "0" identifies the carrier as a Non-U.S. carrier.
- H. Distance. The great circle distance in statute miles between the Origin and Destination airports.
- I. Service Class. The Service Class Code refers to the class of service used.
- | | |
|---|--|
| F | Scheduled Passenger/Cargo Service. |
| G | Scheduled All Cargo Service |
| L | Non-Scheduled Civilian Passenger Service |
| P | Non-Scheduled Civilian All Cargo Service |
- J. On-Flight O&D. These are data originating (enplaning) the flight at the origin airport and terminating (deplaning) the flight at the destination airport.
- K. Cabin Class. The distribution of passengers by cabin is only reported by U.S. Group 3 carriers. All other carrier groups report only in First Class Cabin.

Additional information on Service Class codes from the Code of Federal Regulations

CFR 14 Part 241

Sec. 19-4 Service classes.

The statistical classifications are designed to reflect the operating elements attributable to each distinctive class of service offered. The operating elements shall be grouped in accordance with their inherent characteristics as follows: (a) Scheduled services. Scheduled services shall include traffic and capacity elements applicable to air transportation provided pursuant to published schedules and extra sections to scheduled flights. Scheduled Passenger/Cargo (Service Class F) is a composite of first class, coach, and mixed passenger/cargo service. The following classifications shall be reported, as applicable:

U.S. Air Carriers:

K - Scheduled Services (F+G)

F - Scheduled Passenger/Cargo

G - Scheduled All-Cargo

Foreign Air Carriers:

F - Scheduled Passenger/Cargo

G - Scheduled All-Cargo

(b) Nonscheduled services. Nonscheduled services shall include all traffic and capacity elements applicable to the performance of nonscheduled aircraft charters, and other air transportation services not constituting an integral part of services performed pursuant to published flight schedules. The following classifications shall be reported, as applicable:

U.S. Air Carriers:

V - Nonscheduled Services (L+N+P+R)

L - Nonscheduled Civilian Passenger/Cargo

P - Nonscheduled Civilian Cargo

N - Nonscheduled Military Passenger/Cargo

R - Nonscheduled Military Cargo

Foreign Air Carriers:

L - Nonscheduled Civilian Passenger Cargo

P - Nonscheduled Civilian All-Cargo Charters

Q - Nonscheduled Services (Other than Charter)

(c) All Services. This classification shall reflect, for the applicable elements, the aggregate amounts for all services performed by the operating entity:

U.S. Air Carriers:

Z - All Services (V+K)

WORLD AREA CODES

INTRODUCTION:

This document contains the numeric "World Area Codes" used to identify geopolitical areas such as, countries, states (U.S.), provinces (Canada), and territories or possessions of certain countries. The codes are used within the various data banks maintained by the Office of Airline Statistics (OAS). This document will be updated and reissued on a yearly basis. Users may also access ROSCOE member "LL.WAC" to display any interim changes.

For further information, or to request that your name be added to the distribution list, contact Vicki Bradford, Room 4125, telephone: 202-366-4393.

ACCOUNTING AND REPORTING DIRECTIVE

No. 178 Issue Date: May 25, 1994 Effective Date: Immediately
Parts: 217, 241, 298

LIST OF AIRCRAFT TYPE NUMERIC CODES

This directive applies to U.S. and foreign air carriers, and it replaces Accounting and Reporting Directive No. 137, dated February 13, 1990. The numeric codes are updated as new aircraft types are authorized for Form 41 and Form 298-C reporting (as prescribed in Part 241, 298 and the Appendix, Section 217.10 of 14 CFR 217). For ease of use, two listings are provided, one sorted by manufacturer, and one by numeric code.

The numeric aircraft type codes are applicable for the U.S. and foreign air carriers reporting traffic or financial information on Form 298-C and Form 41 Schedules T-100, T-100(f), T-2, T-3, and P-5.1 or P-5.2. Note that foreign air carriers are not required to report small aircraft operations (under 60 seats and 18,000 pounds payload) on Form 41 Schedule T-100(f).

CABIN CONFIGURATION DIGIT

The aircraft code has four positions. The first three numeric digits identify the aircraft type, and a fourth digit identifies the cabin configuration. For instance, the numeric code for reporting a standard passenger/cargo B-747-100 is the prescribed code of 816 plus the digit "1", reported as 8161.

The cabin configuration digit is either a 1, 2, or 3, as follows:

- "1" = a normal passenger/cargo aircraft, with passengers on the main deck and cargo below;
- "2" = an all-cargo freighter; or
- "3" = a main deck configuration with separate compartments for both cargo and passengers.

- 2 -

CHANGES

The ATTACHMENT lists have been clarified:

- 1) Code 401 to 490 (Turboprop 1-engine and 2-engine) in ATTACHMENT 1 have been expanded in ATTACHMENT 2 to show the precise number of engines for each aircraft type, so that the PC-6A, PC-6B, and Cessna 208 (codes 480, 481, and 416) are specified as single-engine turbo-prop aircraft.
- 2) BN2A Trislander (code 201) has been identified as a 3-engine aircraft.
- 3) The Cessna 152 has been added as part of code 029, showing it as the "CESSNA-150/152."
- 4) The IL-76 has been correctly depicted as an IL-76/TD.
- 5) The AN-225 is shown as a 6-engine aircraft.
- 6) The Boeing 777 (Code 627) and Fokker 70 (Code 604) are added to ATTACHMENT 1 and 2.

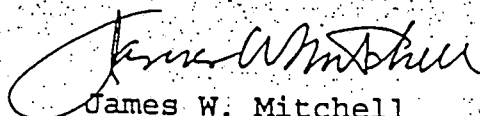

COMBINED SINGLE-ENGINE NUMERIC CODES

Accounting and Reporting Directive No. 106, effective January 1, 1988, allowed small certificated air carriers filing Form 298-C (under Section 298.63 of Part 298) to combine all single-engine aircraft data (traffic and financial data on Schedule F-2 such as costs, fuel gallons, departures and hours) in codes 091 through 096. However, for intra-Alaska mail rate carriers, single-engine aircraft data by specific aircraft type numeric code (not summary codes 091 through 096) are required. Carriers not participating in the intra-Alaska mail rate may use codes 091 through 096 as indicated in the directive. Codes that end in "99" (as in "099") may only be used as authorized by this Office. Reporting Directive No. 106 is canceled.

DEPARTMENT CONTACTS

Specific requests to add aircraft type numeric codes, and to clarify or amend an assigned code may be addressed to Ms. Victoria Bradford, in care of this Office, or telephone (202) 366-4393.

This action is taken under authority assigned in 14 CFR 385.27(b) of the Department's regulations (14 CFR 385.27(b)).

IMPORTANT ----->>> SEE NOTE REGARDING CABIN CONFIGURATION DIGIT ON REVERSE

NOTE: CABIN CONFIGURATION DIGIT REQUIRED

THE AIRCRAFT TYPE CODE FOR FILING FORM 41 REPORTS AND ADP SUBMISSIONS IS ACTUALLY FOUR POSITIONS. USE THE THREE NUMERIC DIGITS FROM THE TABLE ABOVE PLUS A FOURTH DIGIT WHICH SHOWS CABIN CONFIGURATION. THE CABIN CONFIGURATION DIGIT OF 1, 2, OR 3 IS USED TO INDICATE ONE OF THE FOLLOWING CONFIGURATIONS:

1. PASSENGERS ON MAIN DECK WITH BELLY CARGO CAPACITY
2. ALL-CARGO FREIGHTER
3. "COMBI" AIRCRAFT: MAIN DECK CONFIGURATION WHICH INCLUDES SEPARATE COMPARTMENTS FOR PASSENGERS AND CARGO, IN ADDITION TO BELLY CARGO

EXAMPLE: THE ACTUAL NUMERIC CODE TO BE USED FOR REPORTING A STANDARD PASSENGER/CARGO B-747-100 IS 8161

ALWAYS USE THE PROPER CABIN CONFIGURATION INDICATOR.

THE DOT MAY UPDATE THESE CODES BY REPORTING DIRECTIVE AS THE NEED ARISES. IF THERE ARE ANY QUESTIONS ABOUT THESE CODES, CONTACT THE RSPA OFFICE OF AIRLINE STATISTICS DATA ADMINISTRATION DIVISION AT (202) 366-4393.

NOTE: CABIN CONFIGURATION DIGIT REQUIRED

THE AIRCRAFT TYPE CODE FOR FILING FORM 41 REPORTS AND ADP SUBMISSIONS IS ACTUALLY FOUR POSITIONS. USE THE THREE NUMERIC DIGITS FROM THE TABLE ABOVE PLUS A FOURTH DIGIT WHICH SHOWS CABIN CONFIGURATION. THE CABIN CONFIGURATION DIGIT OF 1, 2, OR 3 IS USED TO INDICATE ONE OF THE FOLLOWING CONFIGURATIONS:

- 1 - PASSENGERS ON MAIN DECK WITH BELLY CARGO CAPACITY
- 2 - ALL-CARGO FREIGHTER
- 3 - "COMBI" AIRCRAFT: MAIN DECK CONFIGURATION WHICH INCLUDES SEPARATE COMPARTMENTS FOR PASSENGERS AND CARGO, IN ADDITION TO BELLY CARGO

EXAMPLE: THE ACTUAL NUMERIC CODE TO BE USED FOR REPORTING A STANDARD PASSENGER/CARGO B-747-100 IS 8161.

----> ALWAYS USE THE PROPER CABIN CONFIGURATION INDICATOR.

THE DOT MAY UPDATE THESE CODES BY REPORTING DIRECTIVE AS THE NEED ARISES. IF THERE ARE ANY QUESTIONS ABOUT THESE CODES, CONTACT THE RSPA OFFICE OF AIRLINE STATISTICS DATA ADMINISTRATION DIVISION AT (202) 366-4393.

DESCRIPTION OF THE T-100 STATISTICS PROGRAM

The T-100 program was instituted by the Department of Transportation effective January 1, 1990. It covers traffic reports of foreign airlines operating in the United States international markets and traffic reports of the domestic and international operations of U.S. airlines. The airlines submit these reports monthly to the Department's Office of Airline Information (OAI) of the Research and Special Programs Administration (RSPA). OAI edits and processes the statistics.

Data Confidentiality.

The Rules governing disclosure of international T-100 statistics are strict and provide that specific airline data can not be released for three years. Summary data can be released prior to the three year period provided there are three or more carriers operating in a particular market. Accordingly, where fewer than three airlines are in the market, traffic volume is not disclosed.

Distinction Between INS I-92 Reports and T-100 Reports.

This report based on T-100 Statistics is distinct from U.S. international air passenger statistics derived from the Immigration and Naturalization Service (INS) I-92 data. For a number of years, the Department issued both a monthly press release (similar in format to this report) and a publication, "United States International Air Travel Statistics", monthly, quarterly, and annually, all based on INS statistics. The procession of I-92 statistics was discontinued due to budgetary considerations for a while after the April 1991 report. The processing of I-92 statistics has resumed, as well as the publication the "United States International Air Travel Statistics" report. This new series, based on T-100 data, is presented to provide the public with additional information about U.S. international air transportation.

While the I-92 and T-100 data systems include information regarding United States international aviation traffic, their volumes may differ. This result is not unusual since the two series are collected differently and have some different data elements and somewhat dissimilar scopes.

The following table highlights some of the distinctions between the two statistical systems:

	I-92	T-100
T-100 Airline Reports filed with DOT monthly	No	Yes
I-92 Reports filed with Immigration & Naturalization Service by Flight	Yes	No

Inclusion of U.S.-Canada

traffic.	No	Yes
Inclusion of foreign air carrier traffic carried on aircraft w/60 seats or fewer.	Yes	No 1/
Breakout of traffic into nonstop and Origin/Destination components.	No	Yes
Breakout of passenger traffic into U.S. citizen/alien components.	Yes	No
Inclusion of freight traffic.	No	Yes
Nonrevenue passengers included with revenue passengers.	Yes	No
Confidentiality Rules	Few	Strict
	Publication of detailed statistics permitted.	Detailed statistics withheld 3 years; only summary stats published in interim.

1/ Relevant mainly to U.S.-Mexico, Caribbean and Canadian services.

Frequency and Date Coverage of This Publication.

This report covers traffic for the present month and calendar year-to-date statistics and a prior year comparison.

Geographical Structure of Statistics.

In Tables 2 and 8 of this publication, traffic statistics are presented by world region. The following foreign countries have air service with the United States. This list is not intended to be an all-inclusive enumeration of political entities within a particular region.

- Central America/Mexico Region includes:
Belize, Costa Rica, El Salvador, Guatemala, Honduras, Mexico, Nicaragua and Panama.
- Caribbean Region includes:
Anguila, Antigua and Barbuda, Aruba, Bahamas, Barbados, Bermuda, British Virgin Islands, Cayman Islands, Dominica, Dominican Republic, Grenada, Guadeloupe, Haiti, Jamaica, Martinique, Netherlands Antilles, St. Kitts, St. Lucia, Trinidad and Tobago, and Turks and Caicos Islands.
- South America Region includes:
Argentina, Bolivia, Brazil, Chile, Colombia (including San Andres Island), Ecuador, French Guiana, Guyana, Paraguay, Peru, Surinam, Uruguay and Venezuela.

- Europe Region includes:
Austria, Belgium, Bulgaria, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Poland, Portugal (including the Azores), Russian Federation (European part), Spain, Sweden, Switzerland and the United Kingdom.
- African Region includes:
Algeria, Cape Verde Islands, Cote d'Ivoire, Egypt, Ethiopia, Morocco, Nigeria, Senegal, South Africa, Swaziland, Zambia, and Zimbabwe.
- Middle East Region includes:
Israel, Jordan Kuwait, Saudi Arabia, Syria Arab Republic, United Arab Emirates and Turkey.
- Far East Region includes:
China, Hong Kong, India, Japan, Korea (South), Malaysia, Pakistan, Philippines, Russia (Asia part), Singapore, Taiwan and Thailand.
- Australia/Oceania Region includes:
Australia, Fiji Islands, French Polynesia, Nauru, New Zealand and Papua New Guinea.
- Canada Region includes:
Canada

Technical Notes

- These statistics are developed by the Department's Office of Airline Information (OAI) from T-100 reports submitted by U.S. and foreign airlines.
- "Other flag" refers to carriers other than U.S. flag airlines.
- Statistics include traffic arriving at U.S. airports and departing from U.S. airports on commercial international flights.
- Freight tons do not include mail.
- Traffic volume may be understated for markets with substantial service via intermediate points.
- T-100 airport passenger and freight statistics may not agree with individual airport statistics due to the different reporting systems and data sources.
- A "0" in a traffic data cell on Tables 1-6 indicates between 0 and 499 passengers; and on Tables 7-12 it indicates between 0.00 and 0.49 freight tons.
- The Bahamas market is served to a large extent by small aircraft and as a result, its passenger volume is understated in this report.
- International gateway tables are based on nonstop traffic.
- Percentage changes are calculated from the rounded data contained in the tables and not from unrounded data.

Suggestions from users for improving the presentation or utility of the information contained in this and future reports are invited. Office of Airline Information Reports Reference Facility

The BTS Office of Airline Information (BTS-OAI) has a Reports Reference Facility (Rm. 4201, 202-366-4888) at 400 7th St., S.W., Washington, D.C. 20590, where public data from air carrier reports are made available for your inspection. In addition, following are some data sources that may assist you in research of the air carrier reports. These potential service providers are firms who have notified DOT they provide value-added services related to data reported to DOT by air carriers. You may contact these firms to determine if they will assist you, and their fee schedule. DOT does not endorse or recommend firms, and OAI lists them for such use as you and the firms may mutually agree upon as to your requirements/data quality needs.

Any firm may be added as a service provider by notifying the BTS OAI Data Administration Division that they want to be included.

Guides to Sources of Air Carrier Aviation Data

For a more extensive list of data service providers and other sources of air carrier aviation data, you may want to reference certain key publications, including, among others:

- (1) Directory of Transportation Data Sources from DOT-BTS

The Directory identifies transportation data sources within the Department of Transportation, other Federal Government agencies, private organizations, Canada, and Mexico. The document is available through the DOT Bureau of Transportation

Statistics (BTS) on INTERNET at <http://www.bts.gov>. BTS also publishes the Transportation Statistics Annual Report (TSAR) for DOT. BTS PRODUCTS may be ordered from 202-366-3282. You may also call toll-free 800-853-1351, for further statistical data.

(2) BTS Electronic Bulletin Board System (BBS) at 800-363-4BTS

The DOT BTS OAI also maintains a BBS for users who want a dial-up/PC-file download service. Air carrier financial data now are available on the BBS; Other data are being added, and users with phone-modem equipped PCs may easily download data.

(3) The Air Transport Association (ATA)

provides industry data, the ATA Airline Handbook and other data on the INTERNET. The ATA web address is <http://airtransport.org/ata/home.htm>.

Firms/Entities Offering General Air Transportation Data Services

These firms provide data obtained from the Air Carriers' Form 41 Financial and Traffic Data, and other reports, including the Air Carriers' Passenger Origin-Destination (O&D) Statistics, and flight schedules. Data banks include extensive historical data, including most current financial and operating statistics submitted by U.S. commercial air carriers, and (after a three year restricted

release delay) the traffic statistics of foreign air carriers serving the U.S. The CAB/DOT data are provided by air carrier reports to DOT-BTS that include the Form 41 Financial and Form 41 Service Segment/T-9, T-100 and T-100(f) reports. Special reports and analyses of aviation data are available.

The DOT-BTS Office of Airline Information (OAI) processes U.S. air carrier submissions of the **Passenger Origin-Destination Survey (O&D)** each quarter and **T-100 ON-FLIGHT MARKET AND NONSTOP SEGMENT** (and formerly the **ER-586 Service Segment**

Data/Form 41 Schedule T-9 (SSD) Data) each month. Annually, OAI provides a calendar year tape of O&D and T-100 data (and formerly SSD data) to NARA.

To obtain the tapes, contact NARA at (301) 713-6645. O&D data banks DB1A and DB2A are subject to release restrictions; for further information, contact OAI at oai-support@bts.gov.

Currently, all domestic SSD is a public file, since the domestic SSD were only restricted for 12 months. SSD data collection ended 12/31/89, concurrently with the inception of the T-100 data collection on 1/1/90. The Domestic Form 41 Schedule T-100 data are not restricted, and are available to the public upon completion of the monthly processing.

International T-100 and T-100F detail reports by U.S. and foreign air carriers are restricted for three years, although a non-sensitive summary of these data are available from the DOT International Data Systems Division, by calling 202-366-2362. A pamphlet on restricted release data is available from oai-support@bts.gov.

The DOT BTS provides copies of CAB/DOT data banks on magnetic data tapes or cartridges for mainframe computers, or hard copy, including O&D (ORIGIN-DESTINATION) SURVEY data at current subscription prices ranging from \$600 to \$1,800 a file (which pricing is subject to change, as noted):

Description of data offered for sale by BTS:

Offers single copies and subscriptions to data reported to DOT BTS in air carrier statistical and financial reports. These data are prepared by BTS OAI, and are published by and available from the DOT BTS various subscription prices, such as \$450 for an annual subscription to the "GREEN BOOK" of Air Carrier Traffic Statistics (Monthly).

\$250 buys an annual subscription to the "YELLOW BOOK" of Air Carrier Financial Statistics (Quarterly) or the "BLUE BOOK" of Air Carrier Industry Scheduled Service Traffic Statistics (Quarterly). Prices are subject to change without notice, due to the volatility of supplier costs, so contact DOT BTS for the exact current pricing.

Various dataset subscription are available from BTS including: Part 234 FLIGHT DELAY DATA or "On Time Performance by City-Pair Market, Time of Day, Carrier, and Flight Number" (monthly), in addition to the Green, Blue and Yellow Books described above.

ORIGIN AND DESTINATION (O&D) (QUARTERLY):

O&D Data Bank 1A Ticket Dollar Value O&D (restricted)

File contains all of the data as reported by participating air carriers from the continuous 10% sample of air line tickets. It includes the full itinerary and the dollar amounts paid by each passenger. The data are summarized by routing and dollar paid. DOT posts the mileage for each itinerary segment, applies a numeric code identifying each city/airport, and a world area code to indicate the state/country.

O&D Data Bank 2A Directional O&D (Int'l. & Territorial)

(restricted) (Also described as O&D Tables 15 & 16)

This file contains outbound and inbound passenger totals for the quarter of the filed date and the three immediately preceding quarters, for international routings which have been classified as unidirectional by applying trip breaking criteria to all ticketed routings. Ticketed origin and destination, as well as all downline points in the directional routing are identified.

O&D Data Bank 2C Directional O&D (Domestic)

(Also described as O&D Tables 11 & 12)

This file contains outbound and inbound passenger totals for the quarter of the file date and the three immediately preceding quarters, for domestic routings which have been classified as unidirectional by applying trip breaking criteria to all ticketed routings. The same passenger data for domestic portions of international routings are stored in separate fields as well as being included in the totals mentioned above. All downline points in the directional routing are identified.

Data Bank 4 On-Line O&D (Also Described as O&D Table 10)

This file contains passenger and passenger-mile data for all online flight segments (segments on which the same carrier serves all contiguous ticketed flight-coupon segments) for the quarter of the file date and the three immediately preceding quarters. There are data in separate fields for outbound and inbound, local and connecting traffic.

Data Bank 5 O&D Survey City/Airport Nomenclature

This file contains the letter alphabetic codes, numeric codes, full name spelling (up to 30 characters), abbreviated name spelling (up to 20 characters), and geographic coordinates for all cities in flight itineraries reported in the Survey.

FORM 41 SCHEDULES T-100 & T-100(f)

T-100 Data Bank 28DM Domestic Market Data

This file contains data reported by U.S. carriers operating between airports located within the boundaries of the United States and its territories. These data are often referred to as either "Market" or "On-Flight O&D" records. These data fields contain information on passengers, freight and/or mail enplaned at the origin airport and deplaned at the destination airport. Each monthly tape contains three months of data.

T-100 Data Bank 28DS Domestic Segment Data

This File contains data reported by U.S. carriers operating nonstop between airports located within the boundaries of the United States and its territories. These data fields contain information by aircraft type and service class for departures performed, available capacity and seats, passengers transported, freight and mail transported, scheduled departures, and aircraft hours ramp-to-ramp and airborne. Each monthly tape contains three months of data.

T-100 Data Bank 28IM International Market Data

International Market Data is restricted (held confidential for three years after the report date). This file contains data reported by U.S. and foreign air carriers. For the U.S. carriers, at least one point has to be outside the United States or in one of its territories. All foreign air carrier data must have at least one point in the United States or in one of its territories. These data are often referred to as either "Market" or "On-Flight O&D" records. The data fields contain information on passengers, freight and/or mail enplaned at the origin airport and deplaned at the destination airport.

T-100 Data Bank 28IS International Segment Data

International Market Data is restricted (held confidential for three years after the report date). This file contains data reported by U.S. carriers operating nonstop between airports where at least one airport is located outside the boundaries of the United States or its territories. Non-U.S. (foreign) air carriers are required to report all nonstop segments where at least one point is in a U.S. state or territory. These data fields contain information by aircraft type and service class for departures performed, available capacity and seats, passengers transported, freight and mail transported, scheduled departures, and aircraft hours ramp-to-ramp and airborne.

Announcement of Availability of

Airline Information

The Office of Airline Information (OAI) within the U.S. Department of Transportation's Bureau of Transportation Statistics (DOT/BTS) provides the U.S. government with consistent and comprehensive financial and statistical economic data on individual air carrier operations and on the air transportation industry. OAI also provides computer-based special data project support services to the DOT users, other Federal agencies, the air transportation industry, as well as state and local governments.

Below is a summary of OAI functions and products/services:

- o Central source for airline economic and statistical data for the U.S. Government and the air transportation industry (airlines, airports, manufacturers, financial/economic institutions).
- o Collects and validates reports from approximately 400 U.S. and foreign airlines (70 large and 50 small U.S. certificated air carriers; 90 U.S. commuter and 20 domestic all cargo carriers; and 170 foreign carriers).
- o Creates and maintains six major data systems:
 1. Passenger Origin-Destination Survey,
 2. T-100 Traffic U.S. Air Carriers,
 3. T-100 Traffic Foreign Air Carriers,
 4. 298C Data from Commuter and Small Air Carriers,
 5. 234 Airline Service Quality Performance Reports, and
 6. Form 41 Financial Data.
- o Maintains and manages access to about 16,500 airline reports each year (15,000 paper-financial data; 1500 cartridge and diskettes - statistical data).
- o Produces and provides monthly and quarterly airline statistical reports and data on passenger demand, market traffic and capacity, airline traffic and capacity, airline financial data, airline flight delays, airline/aircraft fuel consumption, airline employment, and airline aircraft inventories.

A catalog of the products and services provided by the Office of Airline Information as well as an order form containing current price information is enclosed. For additional information on ordering OAI data, please contact Mr. Oscar Castillo at 202/776-1239 or e-mail at oscar.castillo@bts.gov. OAI may also be accessed on the Internet at www.bts.gov.

Service Segment Data

Data Bank 27 - Combined ER-586 and T-9 Nonrestricted Service Segment Data provides the total number of passengers enplaned and transported for each pair of points served or scheduled to be served by a single stage of at least one flight within the reported time. Each record contains information regarding the reporting carrier, aircraft type flown and revenue class of service flown. Each monthly tape contains three months of data.

Data Bank 23I (restricted) - ER-586 Service Segment Data (international) - contains down line deplaning and cargo data. Totals of passenger and cargo enplanements and deplanements for each pair of points served or scheduled to be served by a single stage of at least one flight within the reported time. Each record contains information regarding the reporting carrier, aircraft type flown and revenue class of service flown. Each monthly tape contains three months of data.

Data Bank 23T (restricted) - ER-586 Service Segment Data (international and domestic) contains down line deplaning and cargo data. Totals of passenger and cargo enplanements and deplanements for each pair of points served or scheduled to be served by a single stage of at least one flight within the reported time. Each record contains information regarding the reporting carrier, aircraft type flown and revenue class of service flown. Each monthly tape contains three months of data.

Data Bank 27I (restricted) - Combined ER-586 and T-9 Service Segment Data (international) contains cargo data. Total number of passenger and cargo enplanements and deplanements for each pair of points served or scheduled to be served by a single stage of at least one flight within the report time. Each record contains information regarding the reporting carrier, aircraft type flown and revenue class of service flown. Each monthly tape contains three months of data.

Data Bank 27T (restricted) - Combined ER-586 and T-9 Service Segment Data (international and domestic) contains cargo data. Total number of passenger and cargo enplanements and deplanements for each pair of points served or scheduled to be served by a single stage of at least one flight within the report time. Each record contains information regarding the reporting carrier, aircraft type flown and revenue class of service flown. Each monthly tape contains three months of data.

Form 41

Form 41, Schedule T-1 includes monthly traffic data for large certificated air carriers, both scheduled and nonscheduled. Data includes passenger miles, ton-miles, seat-miles, load factors, hours, enplanements, and performance.

Data Bank 21 contains quarterly traffic data, i.e., revenue passenger-miles and revenue ton-miles for all classes of passengers and cargo, capacity, i.e., available seat-miles and available ton-miles, and certain aircraft statistics (i.e., aircraft hours and fuels and oils issued) for one aircraft type flown by the reporting carrier. Information is provided by type of aircraft.

Data Bank 22 contains quarterly totals for the reporting carrier, by airport served and includes departures and passenger and cargo traffic enplanements, in both scheduled and nonscheduled service as well as departures by each aircraft type which served the airport.

BTS/OAI Printed Products

Air Carrier Financial Statistics contains quarterly airline financial statistics obtained from carrier reports to DOT on BTS Form 41 financial schedules. Effective with a rule (ER-1297) adopted July 1982, the filing frequency for income statement and balance sheet data was changed from quarterly to semiannually for medium regional carriers with annual operating revenue under \$10 million. Semiannual financial data for these carriers appear as a supplement in June and December issues of this publication. Classification of carriers within groupings is reviewed annually. When a carrier's frequency of filing financial data is changed because of reclassification, it may be necessary to use prior publications to obtain historical data. Data include income statement and balance sheet figures, in separate sections, by carrier entity for the most recent quarter and twelve-month period and similar data for like periods in the previous year.

Air Carrier Industry Scheduled Service Traffic Statistics incorporates the scheduled service activities of the Part 298 small certificated and commuter air carriers with large certificated medium regionals into one group in one volume. It includes group totals for large certificated air groupings. The data are obtained from the carrier reports on either Form 41, Schedule T-1(a) or Form 298-C, Schedules A-1 and T-1. Only scheduled service statistics are presented, since the Part 298 exemption authority air carriers report only their scheduled service traffic. Only system schedule service totals are presented for each carrier, since the Form 298-C, Schedule A-1, does not give a domestic and international breakout. Data consist of passenger and cargo capacities and traffic actually carried in scheduled service for medium regional carriers (including commuters), and summary tables for all carrier groups for the most recent quarter and twelve-month period and similar data for like periods in previous years.

Air Carrier Traffic Statistics contains monthly airline operating statistics for more than 100 large certificated air carriers, based on data report to DOT by carriers holding a certificate issued under Section 401 of the Federal Aviation Act of 1958 which operate aircraft designed for maximum passenger seating capacity of more than 60 seats or a maximum payload capacity of more than 18,000 pounds or which conduct international operations. The data consist of passenger and cargo capacities and traffic actually carried, by carrier entity and class of service in both scheduled and nonscheduled service for the most recent month and twelve-month period and similar data for like periods in the previous year. Data are summarized by carrier entity and carrier group.

Airport Activity Statistics of Certificated Route Air Carriers, 1994 contains the volume of revenue passenger, freight, and mail traffic handled by the nation's large certificated air carriers at each airport served during the 12 months ending December 31, 1994. In addition, a presentation of aircraft departures is shown including detail by aircraft type for total departures performed in scheduled, nonscheduled, and all services. The data are compiled from information reported to the DOT by the large certificated air carriers on Schedules T-100 and T-3, BTS Form 41, Uniform Systems of Accounts and Reports for Large Certificated Air Carriers. Large certificated air carriers hold Certificates of Public Convenience and Necessity issued by the DOT authorizing the performance of air transportation. Large certificated air carriers operate aircraft with seating capacity of more than 60 seats or a maximum payload capacity of more than 18,000 pounds. Data for commuter, intra-state, and foreign-flag air carriers are not included in this publication.

Restricted Data

Types of Restricted Data

1. T-100 (U.S. carriers) and T-100f (foreign carriers) non-stop segment and on-flight market data from January 1990. International - restricted for three years.
2. Passenger Origination and Destination Survey. International - permanent restriction.
3. All International data on BTS Form 41, ER-586 (Service Segment Data) and Nonstop Market Report (Schedule T-9), through December 1989 is permanently restricted.

Limitations on Use of Restricted Data

Restricted data may only be used for internal studies. The information may not be transferred or made available in any manner to any other parties or organizations. Applications must be made directly by applicant, not by intermediary (agent) for applicant. Applicants must qualify as U.S. citizens under Section 204.2(c) of the Department of Transportation's Economic Regulations.

Procedures for Applying for Access to Restricted Data

Applicant must forward completed certification statement and letter to: Director, Office of Airline Information,
K-25, Room 4125
Bureau of Transportation Statistics
Department of Transportation
400 7th Street, SW
Washington, DC 20590

The letter must include: 1) a statement of intended use of data; 2) a statement as to whether the applicant qualifies as a U.S. citizen; 3) a list of intermediaries, parties who must have access to either provide the applicant with the data or act as consultants or counsel in use of the data; and 4) a statement indicating an understanding of our disclosure and protection rules related to restricted data. The reverse side of the certification includes a definition of U.S. citizen and our protection and disclosure rules. A list of organizations, some of which provide access to restricted data upon specific approval by this office, is available. This list and a description of our restricted access program may be obtained by writing the above address or calling Mr. Clay Moritz at 202/366-4385 or e-mail. clay.moritz@bts.gov.

Office of Airline Information Product Order Form

Please mail this order form along with payment to the Bureau of Transportation Statistics, Attn: Kathleen Bradley, 400 7th Street, SW, Room 3430, Washington, DC 20590. Checks or money orders should be made payable to DOT/Bureau of Transportation Statistics. Orders will not be processed until payment has been received. Prices are listed below. All questions concerning product orders and/or payments should be directed to Mr. Oscar Castillo, 202/776-1239 or e-mail, oscar.castillo@bts.gov.
