

TP-Link 13400mAh Quick Charge 3.0 Power Bank TL-PBG13400

Highlights

- A Certified Qualcomm® Quick Charge™ 3.0 Portable Charger
- Global Leading LG Lithium-Ion Battery, Long Lasting Power
- Up To 7 Extra Charges In Ultra Compact Size
- Higher Energy Efficiency Rate, 14-Month Incredibly Long Standby Time
- TP-Link Smart Charging, Optimized For iOS, Charges Up To 65% Faster
- 2A Turbo Recharge To Full Capacity with 40% Less Time
- Completed Safety Features, Multiple Electronic Protections
- Increased Compatibility

Features

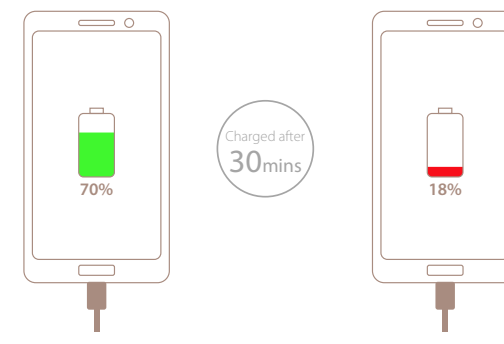

Global Leading LG Lithium-Ion Battery

- Longer Lifespan
- Cold Resistance
- 30% More Power
- No Memory Effect

Qualcomm® Quick Charge™ 3.0

Qualcomm Quick Charge 3.0

Conventional Charger

A Long Lasting Power Bank Made Of Global Leading Battery

The batteries of TP-Link power bank are supplied by global leading Lithium battery manufacturer, LG.

LONGER LIFESPAN: reduces the battery self-aging and maximizes the lifespan. More capacity kept after 500 complete charge cycles

COLD RESISTANCE: more capacity sustained in low temperature

30% MORE POWER: higher power density carries 30% more power in ultra compact size

NO MEMORY EFFECT: recharge TP-Link power bank whenever you want. Lithium-Ion battery does Not have memory effect. No need to discharge 100% before recharging

The Certified Fast Charge

The TP-Link Quick Charge power bank is a certified Qualcomm® Quick Charge™ 3.0 portable charger, introducing an innovative fast charging experience. Qualcomm Quick Charge 3.0 technology charges 70% in 30 mins, 4X faster than conventional 5V/1A charging, 2X fast as Quick Charge 1.0, and 38% more efficient than Quick Charge 2.0.

* As measured by charging time to charge a 2750mAh fast charge battery (1.5C charge rate) from 0 to 50% with the maximum power for a thermal limit of 40C for all charging implementations.

Reliable Backup Power Carried in Pocket

Thanks to the world class circuitry and advanced power technology, TP-Link power bank minimizes the power loss and achieves a higher energy efficiency rate that consumes only 1.6% capacity in 1 week standby, which means it can hold the capacity for over 14 months. This compact 13400mAh power bank carries up to 7 extra charges for all of your devices on the go, conserving the power for when you need it most.

Features

Optimized For iOS, Charge 65% Faster

65%
Faster Charge

2.4A FAST CHARGING

SMART CHARGING

* As measured by the charging time on iPhone 6s Plus comparing to an original Apple charger. Exact charging time may vary subject to actual situation

TP-Link Smart Charging, Optimized For iOS, Charges 65% Faster

TP-Link Smart Charging, intelligently identifies the connected devices and delivers the possible fastest charging. Comparing to an original Apple charger, it saves up to 40% charging time to fully charge an iPhone 7 Plus.*

* Exact charging time may vary subject to actual usage situations

2A Turbo Recharge

Fully Recharge TP-Link 13400mAh Quick Charge Power Bank 6.5hr

Fully Recharge 5V/1A 13400mAh Power Bank 11.5hr

2A Turbo Recharge To Full Capacity With 40% Less Time

The TP-Link Quick Charge power bank supports 5V/2A recharge input. It takes 6.5 hours to get fully recharged, while a conventional 5V/1A power bank needs 11.5 hours.

Charge And Recharge Safely

Short circuit Over-voltage Over-current Over-charging Over-discharging Over-heating

Completed Safety Features, Multiple Electronic Protections

TP-Link power bank incorporates the latest safety features to protect your devices and the charger against: short circuit, over-voltage, over-current, over-charging, over-discharging, and over-heating.

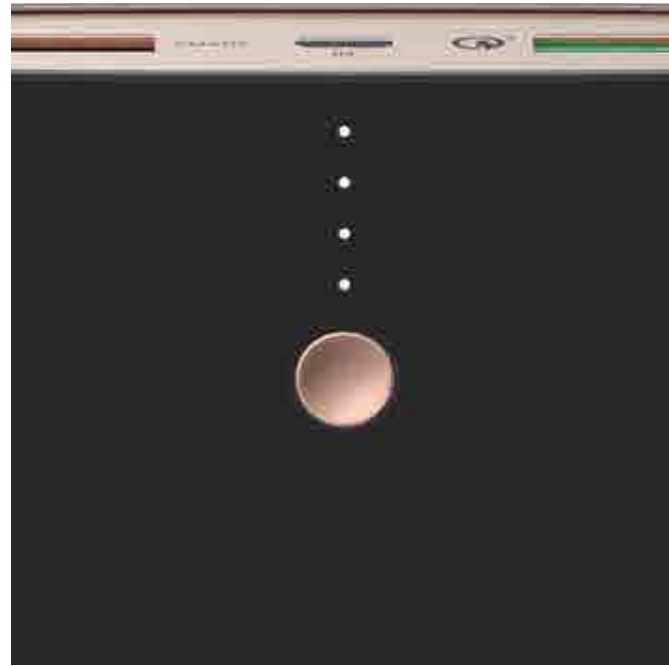

This power bank is to switch itself off automatically when it gets fully recharged or fully charges other devices. You can freely connect it to the wall plug charger or your phone overnight without any safety concern.

Superior Quality

- ① Premium LG Li-ion Battery
- ② Soft Feel Polymer Coating
- ③ Smart IC for TP-LINK Smart Charging
- ④ World Class Chipset for Multiple Protections
- ⑤ Thermistor for Over Heating Detection
- ⑥ Qualcomm® Quick Charge™ 3.0

The Polished Details of A Beloved Design

Enclosed with soft feel polymer coating in black and gold finish, this light and compact power bank is designed to fit comfortably in your hands and match up your style.

Specifications

Basic

Capacity:	13400mAh
Dimension:	3.1 x 0.9 x 3.8 in. (79.5 x 23 x 97 mm)
Interface:	- 1 micro USB Port - 1 USB 2.0 Port, 1 QC 3.0 Port - 4-stage LED indicator for power level or charging status - 1 button to display power level
Input:	5V==2A
Smart Output:	5V==2.4A
Quick Charge 3.0 Output:	5V==3A, 9V==2A, 12V==1.5A
Weight:	249g
Compatibility:	Smart devices running iOS, Android, Windows and most other USB-charged devices

Others

Package Contents:	- 13400mAh Quick Charge 3.0 Power Bank TL-PBG13400 - Micro USB Cable - User Guide
Environment:	Operating Temperature: 0°C~40°C (32°F~104°F) Storage Temperature: -20°C~70°C (-4°F~158°F) Operating Humidity: 10%~90% non-condensing Storage Humidity: 5%~90% non-condensing

Introduction

TP-Link 13400mAh Quick Charge 3.0 power bank is a certified Qualcomm® Quick Charge™ 3.0 portable charger, introducing an innovative fast charging experience. It can charge up to 4X faster, charging 70% in 30 minutes. Besides the Qualcomm® Quick Charge™ technology, TP-Link Smart Charging technology, is optimized for iOS devices, charging up to 65% faster than an original Apple charger.

Utilizing the premium LG Li-ion battery, the Quick Charge power bank is a superior portable charger that lasts longer, retains more capacity in cold, carries 30% more power, and eliminates the memory effect of traditional battery. Because of the higher energy efficiency rate, this battery pack can hold the capacity for over 60 months, minimizing the power loss to conserve the power for when you need it most.

Multiple electronic protections against short circuit, over charging, over discharging, over current, over voltage, and over heating, ensure you a safe and reliable power source. You can freely connect it to the wall plug charger or your devices overnight without any safety concern, since this safe power bank is to switch off automatically when it gets fully recharged or fully charge your devices.
