TABLE I.

AREA, HOUSES AND POPULATION.

THIS table shows, for each district, the area, the number of towns and villages, the number of occupied houses, and the total urban and rural population, male and female. The districts are arranged in this and other tables in the order prescribed by Government.

Similar figures are given for the Orissa and Chota Nagpur States. Detailed figures for each State will be found on page 3.

The difference between some of the areas here shown and those in the corresponding table of 1901 is due principally to interprovincial and inter-district transfers of territory, as explained on the title page of Table II. In other cases the figures given in the Imperial Gazetteer of India have been adopted; for Cuttack, Balasore and Singhbhum revised figures of area have been supplied by the Survey Department; and in the case of Saran, Muzaffarpur, Darbhanga, Ranchi and Puri the area is that ascertained in the course of the survey and settlement of those districts.

For the purpose of column 3, cantonments have been treated as forming part of the municipalities which they adjoin.

Statistics for thanas will be found in Provincial Tables I and II at the end of this volume.

TABLE II.

VARIATION IN POPULATION SINCE 1872.

THIS table compares the population as now ascertained with that of the four previous censuses. The figures for the latter differ slightly from those shown in the old census reports. This is due to subsequent changes of jurisdiction, *i.e.*, transfers of area from one district to another. The effect of these changes on the population of the districts concerned has been calculated, and the figures have been adjusted accordingly.

The following are the districts which have undergone changes of jurisdiction :—

Between 1872 and 1881—

Gaya, Monghyr, Bhagalpur, Singhbhum and Manbhum.

Between 1881 and 1891—

Patna, Shahabad, Saran, Darbhanga, Bhagalpur, Monghyr, Purnea, Sonthal Parganas, Cuttack and Puri.

Between 1891 and 1901—

Patna, Shahabad, Saran and Muzaffarpur.

Between 1901 and 1911—

Patna, Saran, Muzaffarpur, Purnea, Sonthal Parganas, Cuttack, Balasore and Sambalpur.

The population of the Province received an addition of 105 persons (transferred from Ganjam to Puri) between 1881 and 1891, and of 590 persons (transferred from Ghazipur to Shahabad) between 1891 and 1901. During the next decade (1901-1911) there were extensive transfers of territory. In 1905 the district of Malda in the Bhagalpur Division was transferred to the newly formed Province of Eastern Bengal and Assam, and the Feudatory States of Jashpur, Surguja, Udaipur, Korea and Changbhakar, which had hitherto been included in the Chota Nagpur States, were transferred to the Central Provinces and Berar. The district of Sambalpur (with the exception of two zamindaris) was added to the Orissa Division from the Central Provinces and Berar and the Feudatory States of Patna, Kalahandi, Sonpur, Bamra and Rairakhol, which till then were also in the Central Provinces, were attached to the Orissa Feudatory States, to which Gangpur and Bonai were at the same time transferred from the Chota Nagpur States. The effects of these transfers on the Orissa and Chota Nagpur States is shown in the following table :—

NAME OF STATES.	Number of States.		Area in square miles.		Population.	
	1901.	1905.	1901.	1905.	1901.	1905.
Orissa States . . .	17	24	14,387	28,046	1,947,802	3,173,395
Chota Nagpur States	9	2	16,014	602	1,001,429	141,079

Subsequently, in 1908, the Patna Division was reconstituted, the districts of Saran, Champaran, Muzaffarpur and Darbhanga being formed into a new division known as the Tirhut Division, while the districts of Patna, Gaya and Shahabad were retained in the Patna Division.

There were also minor changes of jurisdiction during the decade, resulting in the transfer of 402 persons from the Ballia district of the United Provinces to Saran, and of 2,535 persons from Malda (now in Bengal) to Purnea.

Details of the population of each of the Orissa and Chota Nagpur States will be found at the end of the table.

TABLE III.

TOWNS AND VILLAGES

CLASSIFIED BY POPULATION

IN all districts in which a revenue or cadastral survey has been carried out, the mauza or settlement village has been taken as the census village. Elsewhere, *i.e.*, in the Native States, and in the districts of Hazaribagh, Manbhum and Palamau, the census village is the residential village or group of houses bearing a separate name, small outlying hamlets being treated as part of the main residential village to which they appertain.

In this table, as in Tables I, IV and V, the Dinapore cantonment has been treated as forming part of the Dinapore municipality.

TABLE VII.

AGE, SEX AND CIVIL CONDITION.

THIS table is divided into three parts. Part A (pages 28—30) is a provincial summary showing the distribution, for the province as a whole, of the total population and of each religion by age, sex and civil condition. Part B (pages 31—38) shows the distribution, for districts and States, of the total population and of the main religions by age, sex and civil condition, but in this part, in order to economize space, the age statistics have been given in less detail than in the provincial summary. Part C (page 39) gives similar details for cities.

In accordance with modern statistical practice, the age groups are shown as 5—10, 10—15, etc. It may be explained that the first number in each age group indicates the age reached, and the last number the age not yet reached. The entry 5—10, for instance, refers to all persons who have reached the age of 5 but have not reached the age of 10, *i.e.*, those whose completed ages are either 5, 6, 7, 8 or 9 years.

TABLE VIII.

EDUCATION.

THIS table, like Table VII, is divided into three parts. Part A (page 42) shows the extent of literacy in the Province as a whole amongst the total population and for each religion returned; Part B (pages 43—48) gives details for districts for the total district population and for each main religion; Part C (page 49) gives similar details for cities.

The test of literacy adopted at this census was the ability to *both* read and write a letter, persons of whatever age who could write a letter to a friend and read the answer to it being entered as literate, and those who could not as illiterate.

In order to distinguish between Indian Christians and other Christians, such as Europeans, Armenians and Anglo-Indians, statistics of literacy and literacy in English for these two classes are given in the statement below:—

TABLE IX.

EDUCATION.

BY SELECTED CASTES, TRIBES OR RAJES.

THIS table repeats the information given in Table VIII in respect of education, with this difference that, whereas in that table the population is distributed by age and religion, it is here arranged according to caste or tribe. Moreover, in Table VIII the whole population is dealt with, but this table refers only to selected castes and tribes; the minor castes and tribes have been left out of account altogether, and even those selected for inclusion have been taken only for the districts where they were specially numerous. To save space, figures have been given, not for each district separately, but for groups of districts, the local conditions of which may be presumed to be fairly uniform.

It may be explained that the total district strength of a caste in this table does not necessarily tally with that in Table XIII, as the latter includes figures added in the course of classification, which the present table does not. The strength of some castes is also not the same as in Table XIV, owing to the fact that figures have been compiled for different local areas.

TABLE X.
LANGUAGE.

In this table the languages returned at the census are arranged under the following headings :—

- A. Languages of India ... { (1) Aryan languages.
(2) Munda id.
(3) Dravidian id.
(4) Other id.
- B. Asiatic languages foreign to India.
- C. European languages.

Languages which are either numerically insignificant or too localized for separate entry are grouped together under the head "Others" in each part. Details of these minor languages are given below. A classification of languages by linguistic families will be found in Part I of the Report, and a statement of the number of persons speaking different dialects in the appendix printed at the end of this table.

With very few exceptions the speakers of Bihari returned their language as Hindi, and the entries under this head refer for the most part to different Bihari dialects. An estimate of the number speaking those dialects, based on the conclusions of the Linguistic Survey of India, will be found in a Subsidiary Table appended to Chapter IX of the Report.

TABLE XII.

INFIRMITIES.

THE infirmities recorded are the same as in 1901, viz., insanity, deaf-mutism from birth, total blindness and leprosy. The table is divided into two parts. Part I shows the distribution of the persons afflicted according to age, and Part II their distribution according to locality. Statistics are also given in Table XIIA of the infirmities from which certain selected castes suffer.

Persons who were returned as suffering from more than one infirmity have been shown under each. The totals entered under "Total afflicted" in columns 2, 3 and 4 consequently do not agree with the totals for each infirmity. The following statement shows the number of persons afflicted with more than one infirmity :—

TABLE XIII.

CASTE.

THIS table gives statistics for castes, tribes, races and nationalities. At the last census statistics were furnished for all castes, but at this census the table has been prepared only for the more important castes. It was realized that the compilation of figures for a great number of minor groups, many of which formed an insignificant fraction of the population, yielded results incommensurate with the labour and expense involved. It was therefore decided to include in the table only those castes, of which the provincial aggregate in 1901 was 50,000 and over, or which numbered 25,000 in any single district, or which are of local importance or ethnological interest.

The table is divided into three parts. Part A gives statistics for the castes and tribes of Hindus, Animists, Buddhists, Sikhs, Aryas, Brahmos and Jains; Part B deals with Musalmans; and Part C with Christians. All castes, tribes and races which are not entered separately are grouped together under the head "Others" at the end of each part of the table.

As a rule, persons converted from Hinduism or Muhammadanism to Christianity were returned as "Native Christians", and their caste of origin was not mentioned. In the case of converts, however, belonging to aboriginal tribes in Chota Nagpur, the Sonthal Parganas and the Orissa Feudatory States, the name of the tribe was frequently returned and entered in the census schedules. Details of the castes and tribes in question numbering 20 or more in any district are given in the appendix at the end of the table.

Where some members of a caste or tribe profess one religion and some another, separate figures have usually been given for each; but if the second religion was returned only for a few persons, the figures for it have been added to those for the main religion, and the number so added has been noted in the column of remarks.

As far as possible, groups that are not true castes have been eliminated from the table, and the figures for them added to those for the castes to which they appeared to belong after such enquiries, local and otherwise, as it was possible to make within the limited time available. The more important of these groups are mentioned in the remarks column.

Agarwala (Hindu) includes Agarwani. The two words are so similar in the Kafir character that it was found impossible to distinguish them. The figures for Hindus include 1 male in Cuttack who returned his religion as Sikh.

Ahir is included in Goalh.

Ajaf includes different groups that are regarded as being outside the caste system, such as the Chattrakhias of Orissa and the Kallars of Bhagalpur. The majority, however, were returned as Ajaf, i.e., casteless.

Arya—The persons shown here are those who returned their caste as Arya. Those who returned themselves as Arya by religion and as Brahmans, Kayasths, etc., by caste have been shown under the castes concerned.

Beda and Bediya. By Beda the Dravidian tribe of Chota Nagpur is meant, while Bediya is used as a generic name for various gipsy groups. Both names being spelt in the same way in the vernacular, it was impossible to distinguish them except by reference to locality. It was assumed that all persons so returned in Chota Nagpur, the Southal Parganas and the Orissa States were Bedas, while those enumerated elsewhere were treated as Bediyas. The figures for Beda include one male in Hazaribagh who was returned as Animist by religion.

Kamar and Lohar are interchangeable terms, and though an attempt was made to keep them separate, it was not successful. In Orissa, Nagpur, Southern Parganas, Angul, and Orissa States many of the people returned as Kamar or Lohar because of their tribal origin, and not to the Lohar or Kamar tribes, and not to the figures here. They include 32 males and 21 females in Patna who returned their religion as Arya, 1 male and 1 female in Monghyr who returned their religion as Arya, 7 males and 2 females in Manbhum who returned it as Jain, and 5 males in the latter district who returned it as Sikh.

Kami includes 32 males and 17 females in Bhagalpur whose religion was entered as Animistic.

Kandau includes 3 males in Monghyr whose religion was entered as Jain. It also includes 20 males and 28 females entered as Sikhs, viz., Patna (2) and Shahabad (46), besides 32 males and 38 females who entered their religion as Arya, viz., Patna (64) and Muzaffarpur (6).

TABLE XIV.

CIVIL CONDITION BY AGE FOR SELECTED CASTES.

THIS table contains statistics of civil condition by age for selected castes or tribes, whereas Table VII (age, sex and civil condition) deals with the total population. There is this further difference between the two tables, that the age periods are not the same, the periods 5—12 and 12—15 being substituted in this table for the periods 5—10 and 10—15 given in Table VII. As in Table IX, the selected castes and tribes are grouped together for homogeneous districts, or statistics are given for single districts in which they are especially numerous.

The strength of some castes is not the same as in Table IX, owing to the fact that figures have been compiled for different local areas.

TABLE XV.

OCCUPATIONS.

For the purpose of this table, a new scheme of classification of occupations, based on that drawn up by M. Bertillon, has been framed by the Census Commissioner. All occupations are divided according to this scheme into four main classes and subdivided into 12 sub-classes, 55 orders and 169 groups.

The table is divided into five parts, A, B, C, D and E. Part A is subdivided into two sections. The first section contains a general summary giving the total strength of each group, order, sub-class and class for (1) British territory, (2) Feudatory States and (3) cities. The second section gives for each district and State the total strength of each order and detailed statistics of those groups the strength of which reaches 1,000 in any district. Part B shows the subsidiary occupations of those persons whose main occupation is agriculture. Part C (combined occupations), which is optional, has not been compiled for this Province. Part D shows the distribution of occupations by religion. Part E embodies the results of the industrial census, and its scope is explained in the title page prefixed to it.

TABLE IV.

POPULATION OF TOWNS

WITH VARIATION SINCE 1872.

THIS table shows the population of all cities and towns, *i.e.*, municipalities, cantonments, and certain other places which are of an urban character though not under municipal government. While in Table V cities and towns are arranged territorially, in this table they are classified by population in the following six classes :—

Class	I	100,000 or over.
"	II	50,000 to 100,000
"	III	20,000 to 50,000
"	IV	10,000 to 20,000
"	V	5,000 to 10,000
"	VI	Under 5,000

There were changes in municipal areas prior to 1901, but it is impossible to make adjustments now, and the old figures have therefore been left unaltered. No attempt also has been made to adjust the population, as returned in 1901, so as to allow for changes of area since that year. During the decade there have been numerous changes in the areas of municipalities, the urban population increasing by 9,162 owing to the extension of, and decreasing by 12,276 owing to the reduction of, the area within municipal limits. Three places, which in 1901 contained altogether 10,419 inhabitants, and which were then treated as towns for census purposes, have not been classed as such at this census. On the other hand, eight places (of which Dumka was constituted a municipality subsequent to 1901) have now been classed as towns for the first time; the result of the present census is to show that they contain an aggregate population of 45,055.

To enable comparison to be made with previous censuses when the cantonment population was not separately recorded, the population of the Dinapore cantonment has been added to that of the Dinapore municipality, but separate figures have also been given for the cantonment, in italics below those for the municipality.
