#### Select HPN Products

New government mandated Restriction of Hazardous Substances (RoHS) compliancy laws will be taking effect in each Region. RoHS v2.04 states that nonconforming products can no longer be manufactured and sold after December 31, 2012 in EMEA countries. Taking into accounts logistic constraints, HP announces the effective End of Sales of December 14, 2012.

These government mandates require HP to immediately notify our sales teams and customers that nonconforming products will no longer be sold after the Regional mandated dates.

We have identified the following products as being nonconforming to the new RoHS v2.04 compliancy ruling.
