Totalcomp

The weigh you want... today

the weigh you want...*today!*

Dear Customer:

 This catalog has been prepared especially for the professional in the weighing industry. I am sure that you will find it informative and helpful.

 We pride ourselves on answering the phone on the first ring and shipping your order the same day that you place it.

 You will also benefit from our huge inventory. Our records indicate that we ship 49 out of 50 orders from stock.

 Price is also important and you can depend on our price being the best in the industry. If you have large quantities we can give you better prices.

 You will note that there are many new items in this catalog. Please take the time to see what has been added to see if it fits what you need.

 Thank you for being our customer. We look forward to many successful years with you.

Best Personal Regards
Rudolph J. Kolaci
President

Mission
Serve, Supply, & Inform You with Totalcomp*etence*.

Vision
Embrace Change While Maintaining Values.

Values
Honest in all of our dealings.
Helpful to our customers & each other.
Happy in both home and office.
Healthy in all aspects of our lives.

T501 & T900 Series Stainless Steel Platform Scale

Rugged washdown safe scale. Consists of the TPB scale base and Totalcomp indicator.
T501SSE indicator has bright green LED display, 120 VAC power.
T501SSB indicator has LCD display, battery operated (6) D cells.
T900SS indicator has bright green LED display, 120 VAC power, 0-9 keypad.
Annunciators for Gross, Net, Tae, Zero, Mot, lb & kg. Display units in lb, kg, oz, g, lb:oz. User can toggle between two units. Six weighing modes: Standard, Over/Under, Animal weighing, Percent weighing, Piece counting, Peak hold. Time & Date. RS232, 20ma & RS485 output. T900SS has accumulation and I.D. number entry via front keypad. Front panel keys for UNITS, ZERO, NET/GROSS, TARE, PRINT. Internal power supply, no AC adapter is required or battery operation.
Scale base has stainless steel cover with stainless steel substructure. Includes 4 built in overload stops and uses an NTEP approved potted single point load cell.
NTEP (pending), III, 5,000 div

ABK Bench Scale

ABK bench scales are ideal for most weighing and counting applications in a variety of settings. Checkweighing capabilities make the ABK an essential part of quality assurance tasks at manufacturing and process plants.
The oversized LCD provides high visibility in mailrooms, on production floors or in shipping/receiving operations. Dynamic weighing effectively captures readings of items that move during weighing, such as liquid ingredients during batching in a commercial bakery, at a chemical plant, or during concrete production.

Part Number	Capacity	Platform	Weight	Stock	Price C

OHAUS®

VX Standard Floor Scale

Portable, rugged. 1/8" and 5/16" thick top plate with raised cross hatch surface for added durability. Low profile floor platform scale package. Ideal solution for freight consolidators, forwarders, processing plants resellers, shipping and receiving departments as well as start up businesses. Quick connects and factory calibration allows the floor scale to operate out of the box with minimal setup. Four IP67 nickel plated alloy steel load cells. Side access NEMA4X, IP65 dust and water protected junction box with 25' long cable. Eye bolt mounting holes to allow easier lifting and positioning of the platform.

T32XW: Stainless steel. 6 digit, 7 segment backlit LCD. Raised tactical keys. Built in bidirectional RS232 with manual, continuous and interval printing. Hardware configuration lockout switch. Software included for parts counting mode with selectable sample sizes. Selectable span calibration points. Averaging level, auto zero tracking. Battery saving off, Geo Code geographical gravity calibration adjustment. Software menu lockouts. 120 VAC, 50-60 Hz. Internal AC power. IP66/NEMA4X.

Ships from Columbus Ohio within 3-5 days. Price is FOB Columbus Ohio.

OHAUS®

VN Standard Floor Scale

High quality construction designed to minimize distortion under heavy loads and ensures years of dependable use. Welded steel rib design and thick 0.196"/5mm top plate design provides structural stiffness. Painted tread plate platform top of added slip resistance. Carbon steel eyebolts included for easy installation. Internal structural bracing ensures platform rigidity during everyday use. Four self swiveling ball in cup feet with top access leveling adjustment for easy installation. Available with ramps and mounting feet.

T31P: Large 1" high digit backlit LCD display with a choice of lb or kg. Durable mechanical switch keypad with dedicated Print, Tare and Function keys for quick and easy operation. Selectable power on unit. Counting mode with a minimum Average Piece Weight of 1d. Selectable sample sizes, automatic retention of last sample size used and Average Piece Weight. Counting software can be selected off where Counting Mode is not required. Built in bidirectional RS232C interface for printing or connection to PC. Printing intervals can be set to manual, continuous, on stable weight or an interval between 1 second and 60 minutes. Geographical gravity correction software allows quick adjustment of calibration to local conditions without need for recalibration of the VN Floor Scale. Four wall mounting holes for screw mounting to bench or wall. Wall or table mounting using the included wall mount or bracket for full tilt adjustment of the indicator. Software menu lockouts. 9VDC, 0.5A AC adapter or internal rechargeable sealed lead acid battery, 100 hour typical operation with full charge. Both included.

CL5000 Label Printing Scale

Designed for simplicity. Achieve print speeds up to 100mm/sec and print resolution of 202 dpi for crisp clear labels. VFD, Alphanumeric bright purple display. The CL5000 comes with over 50 preset common label formats stored in memory. Up to 40 more custom label formats can be added using the label editing function of the CL-Works software program. 3,000 PLU's and 1,500 ingridients. The Double Click Call feature allows the operator to recall PLU's by double clicking the speed key instead of having to use the shift key. The standard bench model comes with 96 total speed keys. The pole model comes equipped with a total of 144 speed keys. Incledes the CL-Works software program which allows you to create and edit PLU's, program store information, design custom labels and unique keyboard layouts. Platform size 15"W x 9.6"D. Standard dimensions 16"W x 17"D x 6.8"H. Dual range with column 16"W x 17"D x 23.9"H. 240 VAC 50/60Hz NTEP 07-042 III 3,000 Div

ADAM

CBK Checkweighing Scale

Handles basic weighing, parts counting and checkweighing. Backlit display and graphic capacity tracker to show how much weighing range has been used or is available. Amber green and red indicators make checkweighing applications trouble free and show the operator if a sample is under, over or within the preset limits. CBK is powered by AC adapter or a built in rechargeable battery pack making it ideal for production, warehouse or field use. **Stainless steel** platform 8.9" x 10.8". 12.4"L x 14"W x 4.3"H.

TLC Over/Under Scale

Weighing scale with electronic strain gauge load cell. Over/Under (Hi-Lo) function. Push button TARE. Large(5/8") liquid crystal display(LCD) can be selected to lb or kg. Over/Under mode will give an audible tone above the low set point and below the high set point weight. This means that the tone will only sound when the item on the scale platform is at the correct weight. Self contained, battery operated with (6) size "C" batteries(not included) or AC adapter 9VDC, 300ma output (included). Splash proof construction with **stainless steel** platform size 8-3/4" x 8-3/4". Overall size 9-1/2" x 12-3/8" x 3-1/4"H. USDA Approved.

2240-20
Counting scale w/ optionl remote scale and optional printer

2240 Label

2240 Counting Scale

Very simple interface to a lael printer. Dual channel for second and output for a label printer is standard. The remote scale can be used either as the sampling scale, the bulk scale or both. This counting scale retains the last average piece weight and recalculates the average piece weight when the sampling size is changed. It stores up to 30 ID numbers, each with it's own tare weight, verage piece weight and accumulater. Time and date is standard. Display resolution is 1 part in 10,000. Internal resolution is 1,000,000. Count capacity is 999,999 pieces. Lb/Kg conversion. Two seperate displays. One for weight and the other for piece count and data input. Both weight and count can be seen at the same time. Keys for COUNT, SAMPLE, ZERO and PRINT.
Overall size 14.5"W x 12"D x 4"H. 90/230 VAC 50/50Hz.

DBS Baggage Indicator

Stainless steel face plate. Outstanding durability and reliability. 6 digit, 0.56" high red LED display. Damage to the electronics from electrostatic discharge generated by the dry airport environment is prevented through advanced electronics design, backed up with extensive testing and decades of field proven reliability. Baggage weight is easily read from up to 20 ft on the large and bright LED display. When baggage is placed on the scale, the displayed weight quickly stabilizes on the main and remote display to support fast passenger check in. The entire scale electronics is contained in the panel mount Main Display. No additional electronics control box to install inside the counter. Simply install the Main and Remote Displays into counter cutouts and connect the foolproof, keyed and locking cables through the counter, strain reliefs ensure that once the cables are connected, they stay connected. For use with scale base ordered seperately. Load cell in base should be 2 or 3 mv/v output. Keys for: ZERO (ON/OFF), UNITS. Units are lb or kg. Indicators for: lb, kg, NEG, ZERO, MOT. Bi-directional RS-232. Panel mount display cut out size is 6.5" x 3.3" x 1.75" deep. 115 VAC 60Hz wall mount transformer. UL/ULc (230 VAC optional). 1 year parts and labor.

SW Race Car Weigh System

Weighing is easily done by jacking up the car. Insert the scale under wheels. Lower car to weigh. Accuracy is 1/10 of 1%.

SW system includes: (4) light duty weigh pads w/ cables, (1) weight indicator, (1) battery recharger, (1) instruction manual. Indicator display is 2 line, 16 characters LCD display. Pushbuttons for ZERO, ON, OFF, PRINT/CONTRAST.

SW Deluxe system includes: (4) heavy duty weigh pads w/cables, (1) weight indicator and printer mounted in a waterproof carrying case, (1) battery recharger, (1) instruction manual. Indicator display is 4 line, 20 characters LCD display. Pushbuttons for ZERO, LB/KG, TEST, LIGHT, PRINT, HELP, SET TIME/DATE, ON, OFF.

RFX PT20 CPU system includes: CPU, waterproof case, printer, power supply. 15 digit, backlight LCD display. USB/RS232 output. Pushbuttons for SET LATITUDE/ALTITUDE CORRECTIONS, VEHICLE/USER INFORMATION, TIME/DATE STAMP, CONTINUOUS PRINTING, CALIBRATE, ON/OFF, ZERO, ON-DEMAND PRINTING, TARE, PEAK, LB/KG, SET ALARM/TARE/ARM.

RFX Indicator: Compatible with LP600, PT300, AX900, CS3000, SW and CW250 scale systems. 4 digit LCD backlight display. Capacity to interface up to 12 scales. 300 ft line of site. Up to 40 hours continuous use before recharge. Standard (AA) batteries. Read only mode. USB/RS232 output. Set latitude/altitude corrections. Pushbuttons for CONTINUOUS PRINTING, CALIBRATE, ON/OFF, ZERO, ON-DEMAND PRINTING, TARE, PEAK, LB/KG. Screens for: Individual Weight, Gross/NET/Tare, Axle Group, Accumulative Total, Center of Balance, Tare. Includes Indicator, rechargeable batteries, battery charger, case.

All indicators are powered by (6) internal "AA" NiCad batteries, except for PT20 CPU which uses "D" cell batteries, which are included.
All indicators will show a minimum of your choice of total weight, left or right side, front or back, or any wheel, also percent by wheel.

Deluxe weighing pads are 35 lb. SW Deluxe indicator case is
17"W x 11"D x 7"H, 10 lb.

Road Runner Jack Point Weighing System

Hermetically sealed, compact stainless steel load cells. Aircraft and Helicopter scale designed around precision strain gage load cells which fit on top of existing aircraft jacks. High strength plastic case for storage, shipping and use. System capacity range covering 15,000 to 400,000 lbs. 4 channel digital indicator has liquid crystal display with built in back light for day or night use. Pound or kilogram readout selectable. Accuracy of 0.1% of applied load or 0.02% of channel capacity, whichever is greater. Weight can be displayed by individual load cell or total of any combination. Indicator is microprocessor controlled with full digital calibration. Color coded connecting cables. .7 amp circuit breaker. 12VDC internal rechargeable battery w/ 30 hour operation life. 120VAC wall mount plug. RS232 port for PC interface.

Penn Scale Manufacturing Company Inc.
Scales and Scoops

820 Hanging Dial Scale

The 820 and 1030 dial scales are made to strict standards and designed to pass individual state's Weights and Measure inspections. They are sold as approximating scales only.

The 820 scale is modern both in construction and appearance. Designed to withstand hard usage and will continue to perform with accuracy. This scale has an 8" dial and has 3 different scoops. Bronze bearings and springs are made of alloys for precision weighing. Heat treated precision ground pinions assure repeatable and accurate weight readings. Single face or double face for customer to see weight reading. Open face or glass cover to protect pointer.

The 1030 scale has a 10" dial. All steel construction makes this scale rugged and accurate. Choice of deep pan and single or double face. Ball bearings make for smooth operation and guarantee long wear and trouble free service.

Crane

Caston II Crane Scale

Crane scale with wireless remote control. Large bright red LED display 1.2" high. Auto span calibration. (2) Ni-Cad rechargeable battery packs and recharger are included. One pack is in the scale and the other is a spare that should be kept fully charged. Typical 72 hours between recharge. Low battery indication. Tare up to 100%. Zero up to 2%. Function keys on both scale housing and remote control for ON, OFF, ZERO, TARE. Full tare subtraction. Dimensions 9.1" W x 14.2" D.

Dynamometers

DILLON

AP Mechanical Dynamometer

Portable 5" or highly visible 10" dials. Constructed of high strength composite (5") or rugged cast aluminum (10") to resist heavy blows. Used for diverse jobs such as stringing utility line, mounting cables for bridges, adjusting tension on guy wires, field testing chain, rope or wire and anything requiring precise force or tension measurement. Offers accurate readings from varying sight lines. Dial is mar and fog resistant. Can cancel preset loads up to 20% of capacity. Remains in position to indicate peak load point after load is removed from instrument. Includes users guide and signed calibration card, Dynamometer, shackles and pins, maximum pointer, zero adjust for tare, molded plastic carrying case on 5" models and calibration certificate traceable to NIST.

DILLON

Quick-Check Tension Meter

Portable and rugged. Designed for outdoor use. Quick Check can be placed on cable, measure its tension and removed in under 5 seconds. Easy to red LED display with full text prompts. Easy to read SOFTKEY interface. Tension units of measure: pound-force, kilogram force, Newtons. Built in averaging. Built in temperature sensor with patented automatic tension adjustment. Sheaves with bearings eliminate friction Quick Check can be employed in many industries including tower and stack guy wires, pretensioned cable barriers, bridges, elevators, winch rope, prestressed concrete, fall arrest systems, aircraft cables and utilities. Stores calibration for up to 15 unique wire sizes and types. Uses AA batteries and has long life between changes.   Includes carrying case.
10"W x 23"D x 3"H

DILLON

ED junior Dynamometer

Aircraft quality aluminum, easy to position, highly mobile instrument with exceptional strength.7:1 factor of safety at all capacities and 5:1 on 25K. The EDjunior's design is a direct response to industries that have wanted an extremely well built instrument that could be relied upon for simple yet critical measurements of weight and force. The 6 digit dot matrix display features 1" high numerals for greater visibility. Provides peak detection as well as sustained load readings. SOFTKEY interface provides direct access to setup and display functions without the typical confusing menu structure. 200% safe overload. Distinctive angle body design further eliminates unnecessary weight and streamlines the unit to help prevent binding. Display update rate is 2 times per second. Peak hold sampling rate is 2 times per second. Designed to NEMA4X/IP55 for continuos exterior job site applications as well as in plant use. Calibration traceable to NIST. Includes carry case, manual, calibration card and (2) C cell batteries. Typical battery life is 200 hours. NEMA 4x/IP55.

36190-0103 EDjr-25K	25,000 x 20 lb	47 lb	6915	2,495 00

EDjunior Dynamometer

DILLON

EDxtreme Dynamometer

Constructed of electroless nickel plated aircraft quality alloy steel. Lower capacity models are anodized aircraft quality aluminum. Allows permanent attachment of centering spacers, which eliminates fumbling during high capacity rigging. 5:1 measure of strength and safety is maintained at all capacities. 200% safe overload capacity. Resolution mode is 1 part in 5,000. Wide angle LCD provides improved readability over a wider viewing angle. RS232 or RS485 communication. Display update rate a 2 times per second. Includes certificate of calibration, manual and (2) C cell batteries. Plastic carrying case included for EDx-2.5K to EDx-100K. Higher capacities include rugged plywood storage crate. Instruments with shackles include centering spacers (EDx-50K & up) and shackle storage crate (EDx-50K to EDx-160K). 9" x 4.6" x 1.8" NEMA 3/IP44

Tension Link

**TL6000
Tension Link
Scale w/ RF Antenna**

Intercomp®
advanced weighing technology . . . by any measure

TL6000-RF Wireless Tension Link Scale

RF wireless. Aluminum or stainless steel. Cranes, riggers, shipyards, construction sites, surveyors, inspectors and utilities demand cost effective yet technologically advanced solutions for processing, monitoring and controlling overhead loads. +/-0.1% of applied load or +/-1 graduation: whichever is greater, +/- 0.2% or +/- 2 graduations for 25K & higher. Weights are easily viewed with the industry's largest digital 1.2" high LCD readout. The units easy to use membrane switches allow simple, trouble free operation. The TL6000 wireless remote control can communicate with 20 remote tension links simultaneously. The remote can display the weight from a specific tension link or the total weight from all tension links in the system. Can be interfaced with most PLC or notebook computers. Annunciators for low battery, peak hold, set points 1 & 2, lb, kg, tons, metric tons and dekaNewtons. Function keys for ON/OFF, ZERO, PEAK HOLD, MODE. RS232 or RS485 serial output. Efficient micro controller gives up to 800 hours of battery life, wireless remote control models have a reduced operating time. Power is supplied by (2) 9 volt alkaline batteries (not included). NEMA 4X and IP65.

GX Precision balance

The world's most user friendly balances. Internal calibration mass. Super Hybrid Sensor. Vacuum fluorescent display. Weighing modes: gram, decimal ounce, decimal pound, pound/ounce, carat, pennyweight, troy ounce, grain, momme, percentage, counting, animal weighing. Standard RS232. Includes WinCT software on a CD for loading into your PC. This software will enable the output from the GX to be entered directly into a spread sheet program such as Excel. Splash proof keyboard and display. GLP/GMP/ISO compliance. Display auto power off function. Density calculation mode. Time & Date. Auto self calibration. Standard underhook. Auto power on function. Auto rezero function. Large square weighing pan. Front air bubble leveling. 120 VAC, 50/60 Hz, 7" x 12.5" x 3.4"H.

Midrics Level 1 & 2 Precision balance

Rugged construction. 2 display and indicator units. 4 adjustable feet. Level indicator. 10 weighing ranges from 3kg to 3t.
Midrics 1 for simple weighing tasks.
Midrics 2 with 10 key touch pad and applications programs. Applications include: counting, checkweighing, classification, totalizing, net-total formulation, animal weighing, percent weighing, neutral measurement.
32" x 24" is painted, all others are stainless steel. Indicator is stainless steel and IP65.
Stainless steel versions are suited for industrial use in wet environments.

HI & SI Precision balance

Award winning variable capacitance sensing technology. Large bright LED display. Rapid update rate for filling. Bidirectional RS232. Rugged die cast aluminum housing. Chemically resistant keypad. Stainless steel weighing pan. Standard RS232 interface. HI series has keys for CAL, MODE, PRINT, UNITS, TARE/POWER, %. Units are grams, ounces, carats, %, g per second, user defined unit. Fast or slow update rate. Print will transmit data instantaneously, continuously or at selected intervals.

SI has keys for MODE, TARE/POWER. Dual range balances display the finest resolution whenever the balance is tared, regardless of how much weight is zeroed out.

120 VAC adapter, 11"L x 7"W x 3"H.

MX MF ML MS Moisture Analyzers

Fast and uniform heating with halogen lamp. Four measurement programs: Standard, Automatic, timer, Manjal. Memory function for testa parameters and results. Up to 20 measurements conditions can be stored and recalled in MX-50. 10 can be stored in MF-50. Large, clear, easy to see VFD display. Plexiglass window for checking heating process. Conformity to GLP, GMP, GCP and ISO with date/time. ID, calibration data and check record outputs. Includes (20)sample pans, (2) pan handles, tweezers, spoon, test sample (30g of sodium tartrate dihydrate), CD-ROM (WinCT-Moisture for MX-50, WinCT for MF-50), RS232C cable for MX-50, display cover, dust cover, instruction manual, quick reference card, power cable, (2) fuses. 120 VAC, 50/60 Hz, 400 Watts, 5.4"W x 8.1"D x 4.4"H.

**MB120
Moisture Balance**

OHAUS®

MB Moisture Determination Balance

Automatic determination of moisture content. GLP compliant format when printed results are required. Fast halogen element provides uniform infrared heating up to 200 deg C. Heat from 50 deg C to 180 deg C in less than 1 minute. Display shows % moisture, % solids, weight, time, temperature and drying time. Program and recall up to 50 drying procedures. Once programmed, simply select and run test. Allows simple test editing to find best result. Auto shut off. Programming options are fast, standard, ramp or step. RS232 bidirectional interface is standard. 2 Year warranty. 120 VAC, 50/60 Hz, 7.5"W x 14"D x 6"H, 3.5" dia pan.

sartorius

MA35 Moisture Balance

Quick and reliable analysis using thermogravimetric method. Fully Automatic infared moisture analyzer, perfect for routine operation. Sartorius MA35 is a long-lasting, rugged built, impervious to vibration and dirt, reliable even in a harsh environment. Simple use, quick measurment results with heating elements generating 360 watts of power. Temp. settings 40-160 deg C. Measures display: % of moisture, % dry mass, % ATRO, g residue conformity to GLP, data interference RS232C-S, 7 data-bit ASCII multi language selection. POwer consumption max. 400VA. Power 115VAC case dimensions 224"W x 366"D x 191"H mm.

Part Number	Capacity	Weight	Stock	Price C
MA35M-II5US	350g x 0.01g	17 lb	4725	$2,912.00

Weighing Dishes

These plastic anti-static weighing dishes are produced from a special grade of polystyrene and will resist diluted acids, aqueous solutions, alcohols and bases. They are safe, contaminent-free, biologically inert, economical containers which specifially made for many applications such as weighing, dispersing or storing. They can be used as quick freeze trays for sample material, discard trays, for broken ampules, or mixing trays for small batches. They have a smooth surface providing accurate pour-outs with minimal sample loss. Non-reactive with most substances and suitable for weiging static affected materials. Will withstand temperatures up to 80°C

Hexagonal

Hexagonal

Globe Scientific's hexagonal plastic weighing dishes are avilable in 4 different sizes. The molded hexagonal design provides greater balance protection and safety. They are ideal for handling solids or liquids during weighing. They can be easily bent into pouring spouts to provide pour-outs with minimal sample loss.

Part Number	Volume	Dimensions	Weight	Stock	Price A5
3615	20 mL	38 mm	1 lb	2547	$ 27.90

OHAUS®

Explorer EX Industrial Balance

Die cast metal base, stainless steel pan and thick metal housing. Explorer High Capacity is built to withstand daily wear and tear. 5.7" color VGA touch screen optimizes viewing and menu navigation. Two sensors on display offer hands free operation. The display can be separated from the base up to 1.5 meters in order to fit operational needs in almost any workspace. Weighing units: g, kg, ct, gn, lb, oz, ozt, N, dwt, hkt, sgt, twt, mom, tical, msg, tola, Custom Unit 1, Custom Unit 2, Custom Unit 3. Weighing applications: Weighing, Percent Weighing, Parts Counting, Check Weighing, Dynamic/Animal Weighing, Filling, Totalization, Formulation, Differential Determination, Peak Hold, Ingredient Costing, SQC. A 9 meter cable is also available when additional flexibility is needed. 2D Protection prevents shock and damage associated with movement and forces applied to the balance. Adjustable rolling feet provide assistance in easily moving the balance. IP54 protection guards balance and weighing cell from damage by dry particles, humidity and accidental spills/splashes (High Capacity models only). Rechargeable battery option provides 10 hours of operation away from a power source. Standard RS232, USB. 100-240 VAC. 17.4"W x 14.8"D x 4.72"H

WLC Industrial balance

Stainless steel weighing platform. Backlit LCD display. Designed for fast and precise mass determination in laboratory and industrial conditions. WLC can be used in areas with no access to mains (230V), as their standard equipment they include internal rechargeable batteries. Applications for: Counting pieces, Checkweighing, Animal weighing, Percentage, Caps lock of max indication, Measurement in Newton. Loads are hung under the instrument, an alternative for weighing loads with non-standard dimensions and shapes. RS232 output. IP43. 230 VAC.

MC Analytical Balance

Precision balances with extended resolution. VFD display. Display weight results with an extra decimal place not normally found in balances of this capacity. Weighing units for: g, oz, lb, lb/oz, troy oz, ct, dwt, grain, momme. Applications include: Precious metal weighing, Fill ratio of gas cylinders, Electronic & semiconductor manufacturing, Moisture content of catalysts, Pharmaceutical manufacturing, Precision check-weighing with wider ranges, Discharge from feeders (loss in weight), Cutting dust (contaminants) left on mechanical parts, Particles trapped by particulate filters. Super hybrid sensor technology. Manage ASTm & OIML weights. Auto-centering pan options. Auto environmental adjustment. Counting, percentage, comparator modes. GLP/LIMS/ISO compliance. Underhook. Internal calibration standard. 5 year warranty.

A&D WEIGHING DIVISION

BM Series Analytical Balance

Built in Direct Current (DC) fanless Ionizer. Clear, white backlit LCD. Interlockable slide doors. Large weighing chamber for improved usability. Built in environmental sensors. Weighing applications for: g, mg, oz, ozt, ct, mom, dwt, GN, tael, tola, PC (counting mode), percent mode. Density determination function. Data memory function can store up to 200 sets of weighing data. GLP/GMP/GCP/ISO compliant output. Motor driven internal calibration mass. Automatic response adjustment. RS-232C and Quick USB can be connected simultaneously to a balance. An external key plug for the optional foot switch is also provided. Overall dimensions 10"W x 18.3"D x 12.8"H.

AD-1683 Static Eliminator

Compact, lightweight and does not require high voltage wiring which makes it easy to handle. DC type, this static eliminator has a remarkable ability for generating ions and can be used for the elimination of static charges from highly electrified weigh samples. Achieves static elimination with a high degree of efficiency regardless of the polarity or the potential of the charged object. A current limiting circuit is incorporated in the ion generating electrode to reduce the possibility of electric shock. Suited for static elimination in narrow and remote places because of its lengthy ion irradiation distance. The AD-1683 is a great compliment to our GH Semi micro balances. 240 VAC, 50/60 Hz.

Part Number	Weight	Stock	Price C
AD-1683	4 lb	1248M	$ 1,256.00

OHAUS®

Pioneer Analytical Balance

Pioneer analytical balance is designed for economical reliable routine weighing. External and Internal calibration(suffix C) models are available. Easy to see in low light conditions LCD display with backlight. **Stainless steel** weighing pan 3.54" dia. Continuous output RS232 via 9 pin connector for remote display or computer input. Includes a built in weigh below hook for below balance weighing. Weighing functions for: Standard weighing, counting, percent weighing, Animal/Dynamic weighing and density determination. Keys for: UNIT, MENU,O/T, ON/OFF, PRINT, CAL. Units are g, mg, ct, oz, dwt, tola, mommes, baht, grain, mesghal, Newton, ozt,and custom unit. Glass breeze break with top and side doors allow for quick placement of item to be weighed.
13.4"L x 8..5"W x 13.8"H. 120 VAC.

TJA Analytical Balance

Electronic analytical balance ideal for laboratory weighing. Easy to see in low light conditions 9 digit LCD display with backlight. Stainless steel weighing pan 3.15" dia. Sensitivity and speed are separately adjustable in 4 steps from low to high. Countiuous output RS232 via 9 pin connector for remote display or computer input. Below balance weighing for specific gravity determination. Weighing functions for: Standard weighing and counting. Keys for: OFF, PRINT, O/T, CAL, ON. Units are g, mg, ct, oz. Glass breeze break with top and side doors allow for quick placement of item to be weighed. CAL button and 200g calibration weight allow for easy recalibration of balance. Rear bubble level and two adjustable feet allow for quick leveling. 13.4"L x 8..5"W x 13.8"H. 120 VAC.

Secura Analytical Balance

Easy, reliable weighing in regulated areas. The new operating concept of Secura® will noticeably ease your daily workload during weighing and, its APC function – Advanced Pharma Compliance – will relieve you from tedious and time-consuming documentation and monitoring tasks. Touch screen with Sartorius graphical user interface optimized for users in pharmaceutical laboratories always correctly leveled with Sartorius LevelControl. Special lab applications such as Mixing, Components, Statistics and Conversion; plus standard lab applications such as Weighing, Density, Percentage, Checkweighing, Peak Hold, Counting and Unstable Conditions. Regulatory Compliance with expert support. Intelligent, optoelectronic level sensor with alarm function and interactive user guidance for reliable and safe leveling.

Quintix Analytical Balance

Sartorius teamed up with lab users to develop the user interface of the new Quintix. Lab users number one priority was to ensure easy, intuitive operation without having to read the manual first. Chemically resistant finish of the housing for the easiest cleaning ever. Quintix comes standard with convenient, built in applications for: Mixing, Components, Statistics, Checkweighing, Density, Weighing, Conversion, Peak Hold, Unstable Conditions, Percentages, Counting. Analytical draft shield chamber with doors that glide open smoothly for fatigue free weighing. All panels can be individually cleaned or exchanged. IsoCAL, fully automatic, temperature and time controlled internal calibration and adjustment. Mini USB port.

Cubis Analytical Balance

The first balance in its class with automatic leveling. The first toploading balance with a motorized draft shield. The first balance with Q-Pan off-center load compensation. The first five digit toploading lab balance. Unique monolithic weigh cell.

MSE Black and white LCD display. Control unit detachable. Density calculation, averaging, net/total formulation, weighing in percent, counting. Mass unit conversion by toggling. SQmin function for minimum sample weigh according to the USP. iSOCAL automatic calibration/adjustment function, determination (buoyancy method only). Motorized draft shield activated by positive feedback tactile keys or touch free using IR switch (optional). Built in USB port. 25 pin RS232C port for connecting accessories.

MSU High resolution black and white 5.7" graphic display. Display tiltable, control unit detachable. Customized identification. Density determination, statistics, calculation, averaging, formulation, weighing in percent, time controlled functions, totalizing, second tare memory, counting, over/under checkweighing. Mass unit conversion by toggling. SQmin function for minimum sample weight according to the USP. iSOCAL automatic calibration/adjustment function. Motorized draft shield activated by positive feedback tactile keys or touch free using IR switch (optional). Built in USB port. Built in Ethernet. SD card reader. 25 pin RS232C port for connecting accessories.

MSA Touch screen. High resolution color TFT, 5.7" graphic display. Display tiltable, control unit detachable. Customized identification. Density determination, statistics, calculation, averaging, formulation, weighing in percent, time controlled functions, totalizing, second tare memory, counting, over/under checkweighing. Mass unit conversion by toggling. SQmin function for minimum sample weight according to the USP. iSOCAL automatic calibration/adjustment function. Motorized draft shield activated by positive feedback tactile keys or touch free using IR switch (optional). Built in USB port. Built in Ethernet. SD card reader. 25 pin RS232C port for connecting accessories.

Scales and Scoops

1304 Heirloom Scale

Durable. Rugged accuracy. Powder coated finishes in a variety of designer colors. Made of cast iron with case hardened steel pivots and bearings, and a polished brass 1lb beam in 1/4 ounce increments. The scales come in black, white, blue, pink, red, green, yellow, silver and copper vein.

Benchmark: This indispensible kitchen tool features (2) 6" cold rolled steel plates, a polished brass 1 lb beam in 1/4 ounce increments and (3) free-weights (2) 1lb and (1) 2 lb.

Baker: The baker features one (1 lb) 6" cold rolled steel plate and a claw that cradles a Stainless Steel London Style Scoop. Keeping with the entire line of kitchen scales, the Baker has a polished brass 1 lb beam in 1/4 ounce increments and (3) free-weights (2) 1 lb and (1) 2 lb.

Gourmet: The beauty of the Gourmet secures it a permanent home, on display, in the kitchen, while its utilitarian roots make it a solid choice for those precision measurments. In addition to the polished brass 1 lb beam with 1/4 oz increments and (3) free-weights (2) 1 lb and (1) 2 lb, this scale (1) 6" has cold rolled steel plate and a claw, with a Brass London Style Scoop.

1119-DO
Solution Balance

OHAUS®

Heavy Duty Solution Balance

Rugged and durable with magnetic dampening to provide quick, trouble free operation. Strongly built to resist corrosion and shrug off harsh environments it reads with a feather touch down to 1 g over the whole weighing range of 20 kg. It has a large, unobstructed **stainless steel** platform and a lockable tare for containers up to 2270 g. Covered self aligning bearings. Readings up to 1100 g are taken from two sliding weight beams and a set of slotted weights, which are stored in the base, extend the capacity to 20 kg. 5 year warranty.

Part Number	Capacity	Pan	Weight	Stock	Price C
1119-DO	20 kg x 1 g	11" dia	44 lb	1395	$ 2,091.00

2400-11
Field Test Scale

OHAUS®

Field Test Scale

The heavy duty Multi purpose field scale is for use in laboratory, production facilities or field testing locations. The beam reads 1 lb by 0.01 lb divisions or 500 g by 5 g divisions. The numbers and graduations are in black on a white background for maximum legibility. The scale has a sliding poise designed to eliminate reading errors. A set of slotted weights is supplied with the scale and they store in the cast metal base. For ease in moving the scale, a carrying handle is an integral part of the base. 5 year warranty. 22-1/4" x 9-3/4" x 10-1/8"H.

Part Number	Capacity	Pan	Weight	Stock	Price C
2400-11	16 kg x 5 g	9-3/4" dia	23 lb	1312	$ 1,286.00
2400-12	36 lb x 0.01 lb	9-3/4" dia	23 lb	1396	1,333.00

1550-SD
Harvard Trip Balance

OHAUS®

Harvard Trip Balance

Beam and dial models available. Easy, reliable operation. Two pan balances of this type are commonly used for comparative weighing - to determine the difference in mass between two objects rather than the absolute value. The built in sliding masses (up to 10 or 210g) are usually suitable for this purpose, but weighings up to 2kg can be achieved by using a suitable set of calibrated masses. Magnetic damping. 0.1g sensitivity. 5 Year warranty

Part Number	Capacity	Beam/platform	Weight	Stock	Price C5
1450-SD	2,000g x 0.1g	Single beam/Plate	7 lb	1825	$ 335.00
1550-SD	2,000g x 0.1g	Double beam/Plate	8 lb	1828	360.00

Mechanical

OHAUS®

D500M Mechanical Beam Scale

Verastile, adaptable to in-plant, receiving, commercial and general weighing applications. Constructed of fabricated carbon steel and designed for accuracy and long life. Die cast dual side flat beam with a shadow- proof poise, providing quick reading under most lighting conditions. A positive beam lock secures the indicator when the scale is not in use. Counterpoise weights allow for a scale capacities of up to 1000 pounds. Light-weight and easy to maneuver with low resistance, wear-resistant phenolic wheels. Platform size 19.25"W x 28.13"D. Overall size 50"W x 31.5"D x 7.3"H.

Covers

Totalcomp

Clear Flexible Covers

Inuse covers for use with a variety of popular scales and balances. These covers protect from dripping paint and dyes, dust and dirt or any dripping liquid. They are easily replaceable when they have accumulated an excess of the contaminated product. The covers are made of a semi rigid clear PVC or PETG, yet they are soft enough to allow the easy use of the front panel keys on the scale or balance.

Viscometer

SV-10 Sine Wave Vibro Viscometer

Tuning fork vibration method. Vacuum fluorescent display. Data collection and graphic software. Viscosity calibration. Keys for: ON/OFF, PRINT, HOLD, MODE, START, STOP. Repeatability of 1% of reading. Low viscosity of 0.3 mPa s (cP) to high viscosity of 10,000 mPa s (cP). Frequency of 30Hz allows measurement of foam samples without breaking. Viscosity of flowing samples can be measured. RS-232C and connection cable (25 pin-9 pin) for PC or printer connectivity are standard accessories. Standard sample cup requires the sample fluid of just more than 35ml. 120 VAC adapter, 14 watt 13"W x 12.4"D x 21.1"H

Economical Force Gauge**

MARK-10

Digital M3 Force Gauge

Ultra compact size. Ergonomic, reversible aluminum housing allows for hand held use or test stand mounting for more sophisticated testing requirements. Large backlit graphic display. 4 selectable units of measure: Ibf, gF, kgF, N(depending on model). Display indicators for: Set Points, Pass/Fail indicators, Current Reading, Battery Indicator, Tension/Compression indicator, Peak Readings, Measurement Mode, Units of Measure, Analog Load Bar w/ Set Point Markers. High speed 2,000 Hz sampling rate. USB data output. Configurable audio alarms and key tones. MESUR Lite data collection software included. Included items are: Carrying case with chisel, cone, V-groove, hook, flat, extension rod, universal voltage AC adapter, battery, quick start guide, USB cable, resource CD (USB driver, MESUR Lite software, MESUR gauge DEMO software, and user's guide), and NIST-traceable certificate of calibration (certificate with data is available for an additional charge). AC or rechargeable battery. Multi-step low battery indicator is displayed, guage shuts off automatically when power is too low. 3 year warranty.

Performance Force Guage

MARK-10

Digital M5 Force Gauge

Series 5 advanced digital force gauges are designed for tension and compression force testing. Reversible housing allows the gauge to be handheld or mounted to a test stand. Large, backlit graphics LCD display. 5 selectable units of measure: lbF, ozF, gF, kgF, N, kN, mN (depending on model). Keys are: ENTER, ON, UNITS/DIRECTION, DATA/DELETE, ZERO, MENU/ESCAPE, MODE. Data can be transferred to a PC or other data collector via USB, RS232, Mitutoyo (Digimatic), or analog outputs. High speed 7,000 Hz peak sampling rate. 1,000 point data memory with statistics and outputs. Live load bar with set point markers. Programmable set points, with alarms and outputs. Peak readings and set points always displayed. Averaging mode calculates average readings over time. External trigger mode for switch contact testing or remotely stopping display update. Configurable audio alarms and key tones. Password protection, configurable for individual keys and calibration. Included items: Carrying case with chisel, cone, V-groove, hook, flat, extension rod, universal voltage AC adapter, battery, quick start guide, USB cable, resource CD and NIST traceable certificate of calibration with data. 3 years warranty.

TST Torque test stand, hand wheel operated, verticle

Ultra smooth hand wheel operation ensures ease of use and a lever operated slider with travel stops makes engaging and disengaging samples quick and efficient. Versatile modular design allows it to be configured for a variety of torque sensors and gripping fixtures. Maximum angular travel; no limit. Throat; 4.10". Angular rate; 12 degree resolution. Mamimum slider travel; 15.5". Slider travel rate; 1.047". Adjustable travel stops, torque plate with tapped holes for grip and fixture mounting. Smooth wheel operation, lever operated slidet for engaging and disengaging samples. Includes a torque loading plate with tapped holes for grip and custom fixture mounting and a resetable angle indicator. Supplied with a wrench.

MTT01
Closure Torque Tester
w/ standard adjustable posts

MARK-10

MTT01 Closure Torque TestersSeries

The CT captures peak torque in both clockwise and counterclockwise directions for application and removal measurements. Tester features a solid aluminum housing and rugged construction for many years of service in laboratory or production envirorments. Adjustable posts effectively grip a broad range of container shapes and sizes, while a set of optional jaws is available as an alternative gripping method. Accepts samples up to 7.5" dia. Selectable units of measurement are lbin, kgFmm and Ncm. Movable container gripping posts. Battery or AC operation. Includes set of four posts, AC adapter and 9V non rechargeable battery, 30 hours of continuous operation. Users manual and NIST-traceable certificate of calibration.   3 year warranty.

Adjustable Posts

TT02
Digital Torque Tester

MARK-10

TT02 Digital Torque Tester Series

Simple, yet accurate solution for testing torque screwdrivers, wrenches and other tools. Solid aluminum housing make it rugged enough for many years of service in production or laboratory use. Universal receptacle with square drive and grooves accepts commpn bits and attachments. Applications exist in virtually every industry. Captures peak torque in both clockwise and counterclockwise directions. Selectable units of measure are: lbFin, kgFmm, Ncm. Push button calibration. RS-232 and Mitutoyo (Digimatic). WinWedge software allows the torque tester to send data to a PC for furthur analysis in Windows applications such as Excel. AC or non-rechargeable 9V battery with Intelligent Power Management System (IPM). IPM warns user via "LO BAT" indicator and then will power off the gauge. 30 hours of continuous use. 3 year warranty.

MARK-10

MR04 Minature Force Sensor

Extremely compact force measurement sensor for tensile and compressive loads in a limited space. This sensor features outstanding mechanical overload protection of up to 1,000% of full scale for most applications and threaded holes on two sides for the mounting of attachments or implements. Member of the BGi family interchangeable sensors. Personality module holds all calibration and configuration data. Measures tensile and compressive forces. Mechanical overload protection of up to 200% for SJR50 and SJR100 when used in tension only. Accuracy $\pm$ 0.2% of full scale $\pm$ 1 digit + BGI. NIST traceable certificaltes of calibration included. 3 year warranty.

Tarjetas de Crédito

El despacho se hará el mismo día

Solo aceptamos   VISA y MASTERCARD

Nota: Proveer siempre el número de cuenta y la Fecha de Vencimiento.

Estimado cliente tener en cuenta que: Mastercard y Visa cobran el 3.15% mas $1.15 por transacción. Estos costos serán agregados a su factura.

Con Cheque

Cheque de banco de USA o Money Order.

Despachamos cuando el cheque arribe a nuestras oficinas. Por ejemplo si lo envián por servicio courier como DHL o FedEx, el cheque llegaría en 2 ó 3 días a Totalcomp.

Cheque a nombre de: Totalcomp Inc

Enviarlo a: Totalcomp Inc
99 Reagent Ln
Fair Lawn NJ 07410
USA

Cheque por fax/email

Agilizan sus ordenes de compras

En Totalcomp ahora tenemos el nuevo sistema de cheques por fax que permitira el despacho de los productos el mismo día. Tambien agiliza los pagos de facturas vencidas, y ahorra gastos de transferencia y de courier cuando envian un cheque a nuestras oficinas.

¿Como trabaja?

Ustedes consiguen un cheque de un banco local con nexos bancarios Norteamericanos en Dólares Americanos y lo envían vía fax a Totalcomp, con una autorización firmada por el dueño de la cuenta que diga lo siguiente:

Este cheque autoriza cargar a nuestra cuenta la suma de $_____

Una vez que lo tengamos tomaremos el número de cuenta del cheque, el número de tránsito y el número MICR que identifica el banco original. Luego imprimimos un cheque con esos datos y lo depositamos normalmente. Esta transaccion es completamente legal y es permitida en los Estados Unidos.

Una vez que tengamos el cheque por fax podremos despachar el mismo día. Ustedes se ahorran los gastos de DHL, FEDEX, tranferencia, o cargos del 2.8% cuando pagan con Visa o MasterCard.

Prices are subject to change without notice. Please call for current prices.   Other items are available from the manufacturers, please call for prices.

Terms

Your choice of payment.

1. Check or money order with order.

2. Net 30 days for approved credit customers. If you desire a Totalcomp charge account, simply request a credit application with your next order (or at any time) and we will ship your order when your credit is approved.

3. C.O.D. will be delivered by UPS or Federal Express. They will collect total charges which will include merchandise, freight and handling.

Prices are FOB Fair Lawn, New Jersey or FOB Factory and are subject to change without notice. Orders will be filled with prices in effect at the date of shipment.
Minimum order is $20.00 excluding shipping charges.

Stock

Your components will be shipped within 24 hours from when we receive your order.
We normally carry an ample supply of every item on our stock shelf. It is very infrequent that our supply is depleted to zero due to unusual requests from our other customers.

Shipping

UPS . . . . .Your order will be shipped UPS whenever possible, unless you request a different method of shipment. Maximum 150 lbs per carton.

UPS 2nd day air . . . .Air freight via UPS. It is a guaranteed 2-day delivery not including Saturday or Sunday.

UPS 3 day air. . . . . . .Ground service via UPS. It is guaranteed 3 day delivery not including Saturday and Sunday.

UPS Next day air . . . .Air freight via UPS. It is a guaranteed 1-day delivery not including Sunday.

Express mail . . . . .Air freight via U S Postal Service. Guaranteed next day delivery not including Sunday.

Air Freight . . . . .Air freight via Federal Express, DHL and other independent air cargo service. Normally next day service. Extra cost for Saturday delivery. No Sunday deliveries.

Truck . . . . .When shipping load cells and other parts by truck specify shipping class as SCALES NOI CLASS 85.

Warranty

Your Customer Warranty is the standard manufacturer's warranty, which is normally 1 year from date of shipment.

No prior return authorization is required.

Return to us the defective items. Enclose a note with the model number, serial number, invoice number and date of purchase and a brief description of defect.

Defective part will be forwarded to the manufacturer for evaluation. Customer will be advised of the status.

No credit will be issued unless offered by the manufacturer.

Return Policy

All merchandise must be authorized prior to return. No return will be accepted without a **Return Authorization Number**, except for warranties.

If the wrong part was ordered:
1. A 20% restocking charge plus shipping charges will apply.
2. The merchandise being returned must be returned within 2 weeks of original shipping date.
3. The Merchandise being returned must be unused and received in new condition. If merchandise appears to have been used or received in poor or damaged condition, a refurbishing charge will be applied before credit is given.

If the wrong part was shipped:
1. The correct merchandise will be shipped at once.
2. Full credit will be issued upon return of incorrect merchandise.

Damaged in Shipment

Merchandise that has been damaged in shipment must be reported to the freight carrier immediately.

Do not return the merchandise until after the freight carrier has inspected the damage. Keep all the original packaging material for the inspection. The freight carrier will not honor a claim for damage if the merchandise is not as you received it.

After the freight carrier has inspected the damage and has given us approval, we will give you a **Return Authorization Number**.
