

# CARBURETORS

## REPLACEMENT CARBURETORS FROM MARVEL-SCHEBLER

**Customer will need to provide core for overhaul in the event that our supplier does not have cores available to overhaul**

Carburetor exchange program covers all popular Marvel Schebler/Facet general aviation carburetors. The carburetors are overhauled to the strictest industry standards and carry a full 6 month warranty (from date of installation). Most carburetors are available from stock or within a week and are furnished complete with gaskets.

Due to the various configurations of carburetor installations, we suggest you retain your carburetor core until receiving the exchange unit. This will enable you to transfer all external fittings and installation hardware to the new exchange unit. All cores being returned for credit shall be, as removed from the engine, complete and not disassembled. A reduction in core credit is charged for missing or damaged parts.

- Precision Carburetors
- TCM Fuel Systems
- Flow Dividers
- Fast Turn Time on Overhauls
- Unmatched Quality
- 100% calibration of fuel pumps and servos.
- Precision Fuel Servos
- Romec Fuel Pumps
- FAA/PMA Approved Replacement Parts
- Carburetor Overhaul Quick Kits
- Highly skilled/trained technicians

\*\*\*NOTE\*\*\*

Customer will need to provide core for overhaul in the event our supplier does not have cores available to overhaul. If you do not see your model # here please contact Aircraft Spruce Sales Department for pricing and availability.

\*All prices shown are with factory acceptable exchange carburetor.

Send exchange carburetor core to Aircraft Spruce. Upon factory approval of core, you will be refunded the core charge.

**BE CERTAIN ALL FUEL IS REMOVED FROM THE CORE.**

If Carburetor is not in stock we can have yours overhauled in 5-7 working days. Please call or email for more information.

### MARVEL-SCHEBLER FLOAT KIT

A new float has been developed for the small MA series carburetors. The new floats are a solid blue epoxy material with a smooth skin.

Small ..... P/N 08-06508 ..... \$119.75  
 Large ..... P/N 08-06510 ..... \$139.95

### THROTTLE SHAFT MINOR REPAIR KIT 778-1007-F

Tempest MSA throttle minor repair kit (778-1007--F). All parts contained in this kit are covered under FAA/PMA PQ0111NM and/or PQ1296CE.

P/N 08-06539 ..... \$139.75

EP

### REPLACEMENT CARBURETOR VENTURI'S (ONE PIECE)

These one piece Venturis replace old type primary and main Venturis in Marvel-Schebler carburetors. Order by new Venturi part number.

Old Main Venturi	New 1-Piece Venturi	Our Price	Old Main Venturi	New 1-Piece Venturi	Our Price
46-462	46-F7	\$113.75	46-A2	46-F10	\$82.80
			46-A65	46-F11	\$70.75
			46-A70	46-F12	\$109.85

### FLOAT NEEDLE SEAT DRIVER

This Float Needle Seat Driver is applicable to Marvel-Schebler MA3 and MA4 carburetors and is quality made of alloy steel. It facilitates the easy removal of needle valve seats, prevents damage to the main casting and the new seat during installation, and insures proper torque application. Features 7/16" hex drive fitting. P/N 12-30190..... \$79.75

### BENDIX/PRECISION RSA

### FUEL SERVOS & FLOW DIVIDERS

- Bendix/Precision (RSA-5, RSA-7da1, RSA-10 Overhaul/Exchange).
- Bendix/Precision (Flow Dividers Overhaul/Exchange).
- TMC Complete Fuel Injection Systems (IO-360, IO-550, L/T/SIO-360, T/SIO-520, GTSIO-520, TSI Overhaul Exchange).
- TCM Individual Fuel Injection Components Throttle Assemblies, Control Assemblies (without throttle Pumps, Manifold Valves, Pressure Regulators, No Assemblies (cleaning, rejetting, calibrating).
- FAA/PMA Replacement Parts.

Call or visit our website at: [www.aircraftspruce.com](http://www.aircraftspruce.com) for more info.

### REPLACEMENT FLOAT KITS BY MARVEL-SCHEBLER

Needle and Seats for MA3-4 #233-615 P/N 08-06972..... \$79.85  
Needle and Seats for MA4-5 #233-614 P/N 08-06717..... \$109.85

NOTE: Many Marvel-Schebler replacement parts are no longer available from Facet. These are manufactured by Kelly Aerospace.

### CARBURETOR HEAT BOX PARTS

#### Unique Elastomer Bearing Replaces Needle Bearing

- McFarlane's elastomer bearing is assembled with tension between the mating surfaces. This tension prevents micro-movement and its related metal erosion. The bearing contact area that transfers vibration motion from the heat box to the butterfly shaft is hundreds of times greater than that of the original needle bearing. This large surface effectively prevents localized metal erosion. • Absorbs shaft and butterfly vibration • Eliminates needle bearing failures • Increases service life of all components • Direct replacement for original parts.

**Proven Design:** • Tested to over 700,000 cycles while exposed to avgas, heat and vibration without any change in performance • Extremely rugged and wear resistant in high temperature and fuel environments.

**Convenient:** • Discontinued part numbers through the factory are now manufactured by McFarlane • Also available in kits containing the shaft, arm, bearing housings, monel rivets, and roll pin. **Shafts and bearings sold separately.**

# CARBURETORS

## CARBURETOR OVERHAUL QUICK KITS

Marvel-Schebler "Quick Kits" are easy to use, and are designed to save you time and money. Quick Kits include not only the recommended replacement parts used in every overhaul, but the additional parts used by all fuel professionals to insure the job is done right. Kits include (where applicable): Throttle shaft lever, throttle shaft, throttle adjusting screw, throttle valve screws, inlet strainer screws, throttle body screws, mixture control lever screw, gasket kit, pump connection rod, throttle adjustment spring, throttle opening spring, idle adjustment spring, float lever shaft, pump stem, throttle shaft bushings, inlet strainer washer, pump stem retainer washer, mixture control lever washer, throttle body washers, throttle lever lock nut, float shaft cotter pin, throttle nut cotter pin, pump lever, pump plunger assembly and float valve seat assembly.

**MC16-A48 GASKET FUEL INLET FAA-PMA** - Marvel-Schebler Fuel Inlet Screen Gaskets for many Carbureted Aircraft The copper gaskets should be changed when finger screens are inspected at each annual inspection. Sold as a 5 pack.

Marvel-Schebler / Facet Carburetor Models Eligible for Installation	Eligible Engine Model Series	
	Continental Model Series	Lycoming Model Series
MA-4-5, MA-5AA, MA-4-5AA, MA-5, MA-6, MA-6AA, HA-6	GO-300, O-470	O-340, O-360, O-435, O-540

# BING CARBURETORS

## COMPLETE CARBURETORS – TYPE 54

### To Order, Specify:

1. Model indicated by engine number 277, 377, 447, 503, or 532.
2. With intake silencer or Without intake silencer.
3. Single Carb or Dual Carb.
4. Hand Choke or Remote Choke.

### Model # 54/36/2040

P/N 07-00303 ..... \$419.00

## TYPE 54 REBUILD KIT

- #17 Top O Ring
- #7 Air Screw O Ring
- #29 Bowl Gasket
- #26 Float Needle
- #25 Hinge Pin
- #10 Sieve Sleeve (Screen)
- #21 Cable Grommet

P/N 07-00304..... \$46.65

## TYPE 54 FIX-IT KIT

- #12 New Spring Cup
- #56 Jet Needle O Ring
- #11 Clip

P/N 07-00305 ..... \$16.50

## COMPLETE CARBURETORS – TYPE 84

### To Order, Specify:

1. Model indicated by engine number 277, 377, 447, 503, or 532.
2. With intake silencer or Without intake silencer.
3. Single Carb or Dual Carb.
4. Hand Choke or Remote Choke.

Model # 84/32/3437 ..... P/N 07-00306..... \$454.00

## TYPE 84 REBUILD KIT

- #17 Top O Ring
- #7 Air Screw O Ring
- #29 Bowl Gasket
- #26 Float Needle
- #25 Hinge Pin
- #10 Sieve Sleeve (Screen)
- #21 Cable Grommet

P/N 07-00307 ..... \$46.85

## ROTAX FLOAT CHAMBER 261-010

This Float Chamber replaces a single float bowl. For dual carb applications, order two.

P/N 261-010..... \$136.75

## BING CARBURETOR ACCESSORIES

- Bing Remote Choke Kit (w/8' cable) .... P/N 07-00308 .... \$56.00
- Bing Remote Choke Kit (w/o cable) .... P/N 07-00309 .... \$33.50
- Bing Aircraft Parts manual ..... P/N 07-00310 .... \$15.95
- Bing Plastic Crossover Vent Tube - 280mm long. Used on Bing type 84 carbs..... P/N 07-01360 .... \$12.50

## BING JUNCTION BLOCKS

Bing junction block for dual Carb linkage on any Rotax engine. Three gang outlet can be used dual Carbs or with three way oil injection and dual Carbs.

Converts a single throttle line into as many as three lines.

3" Junction Block ..... P/N 15-05033 ..... \$13.85

4" Junction Block ..... P/N 15-05450 ..... \$11.50

## CARBURETOR SYNCHRONIZATION

**CARB-MATE** - Quick & easy synchronizing by direct comparison of a set of carbs / Fuel Injector throttle bodies. Range adjustable from 2 to 0,05cmHg per LED. Hook up 2 or 5 cylinder with the optional adapter kit.

CarbMate..... P/N 07-19346 ..... \$118.75

With Rotax 912/914 Accessory Kit...P/N 07-01891 ..... \$187.75

## 4-CHANNEL ADAPTER KIT

Converts the SynchroMate or CarbMate into a 4 carb/throttle valve synchronizer. This easy-to-mount & easy-to-use kit allows connection of SynchroMate's or CarbMate 2 channels (tubes) to 4 carbs / throttle valves at once.

PN 07-01267 ..... \$56.75

Accessories	Part No.	Price
4-Channel adapter kit TS-220	07-01267	\$56.75
Rotax adapter w/ 2X6 ft hose TS-400	07-01889	\$61.75
ROTAX ACCESSORY KIT TS-400 KIT	07-01890	\$98.00
Rotax black nylon storage case TS-222	07-01893	\$32.90
Rotax rubber black holster TS-223	07-01894	\$8.90
Rotax replacement 6 ft rubber hose	07-01895	\$17.50

## ROTAX THROTTLE SPRING

Alternate throttle return spring for Rotax 912/914 series engines. .... P/N 08-06858 ..... \$2.92

## REPLACEMENT PARTS – TYPE 54

No.	Part No.	Description	Price

- 2.94 = Part No. R961-022

### NEEDLE CLIP

P/N 07-00693 ..... \$7.95

Lower numbers indicate smaller jet size or opening.  
Low numbers = lean.  
High numbers = rich.  
First needle number denotes mixture above half-throttle.  
Needle letter denotes mixture below half-throttle.

### UNIVERSAL FUEL PRESSURE REGULATOR

If the fuel pump is putting out more than 8 psi, this regulator can be used to keep the fuel pressure within safe limits and avoid the possibility of flooding.

- Pressure Range (psi): 4.5-9
  - Regulator Style: Non-return
  - Regulator Location: Inline
  - Boost/Vacuum
- Reference Port: No • Gauge Port: No • Mounting Bracket Included: Yes  
• Fittings Included: No • Rebuildable: Yes • Inlet Quantity: One • Inlet Attachment: Female threads • Inlet Size: 3/8 in. NPT • Outlet Quantity: Two • Outlet Attachment: Female threads • Outlet Size: 3/8 in. NPT  
• Regulator Material: Aluminum • Regulator Finish: Chrome plated.  
Universal: Yes • Fuel Type: Gasoline • Regulator Usage: Carburetor.  
P/N 15-08385 ..... \$48.75

### BING DUAL CARB GASKET KIT ROTAX

Quantity: 2 Carbs. "O" Rings: Biggest - Jet Stock, Next Down - Throttle Shaft, Green - Choke Disk, 4 small - Idle Jet & Idle Air Screw, and Smallest - Jet Needle.  
For 912.....P/N 15-09421 ..\$49.95  
For 914.....P/N 15-09422 ..\$62.90

### KWIK TUNE FOR ROTAX ENGINES

The handy Kwik Tune, a timesaving tool launched at Sun 'n Fun. Kwik Tune helps remove and reinstall the aircraft throttle cable, cover, spring, and slide in a Bing carburetor.

P/N 08-05206 .....\$9.95

### CARB CLEANING BRUSH

3/16" Tube, .005 Nylon, 2" BP, 6" OAL. Can be used in the cleaning of internal bores and cylindrical cavities. Good for light duty jobs applying either wet or dry ingredients or cleansers. Sturdy twisted wire handles feature loop for easy grip.  
P/N 15-08286 .....\$3.90

### MIKUNI FUEL PUMP

Genuine Mikuni fuel pumps. Replace original parts on Rotax®, Hirth, & many other engines.

Single Pump.....P/N 07-00777 .....\$32.50  
Dual Pump.....P/N 07-00778 .....\$28.90

### MIKUNI REBUILT KIT FOR SINGLE/DUAL FUEL PUMPS

Single Pump.....P/N 07-01011 .....\$13.75  
Dual Pump.....P/N 07-01010 .....\$14.75

### CARB FLANGE

VM38/200 Carb Flange. Bolt Centers: 2.875" 36-38 mm Carbs.....P/N 15-06241 .....\$29.90

### MIKUNI FLOAT CHAMBER PLUG

Mikuni Float Chamber Plug.  
P/N 15-05548 .....\$4.85

# FUEL INJECTION SERVOS – FLOW DIVIDERS

## PRECISION AIRMOTIVE

Precision Airmotive now feature's competitively priced OEM factory overhauled RSA Fuel Injection Servo's & Flow Dividers. As the OEM manufacturer, they ensure 'out of the box' performance of these overhaul units by completing both full flow dynamic and static analysis, verifying fuel delivery performance from idle to full throttle. Since 1988, Precision Airmotive has set the industry standard for fuel injection systems by supporting the general aviation industry with time tested quality products that meet the highest standards.

Note: Aircraft Spruce carries Precision Airmotive replacement parts and accessories, contact us for pricing and availability.

## SILVERHAWK EX FUEL INJECTION SYSTEMS

The Silver Hawk EX, non-certified Fuel Injection System is proven technology drawn from decades of fuel metering engineering by Precision Airmotive. Manufactured as experimental, the new Silver Hawk kit provides experimental pilots with precise, dependable, and reliable fuel metering. Just what you'd expect

from Precision Airmotive.

At a price that will make you soar. Manufactured using the highest quality materials and components, the Silver Hawk EX features a machined finish with clear coat anodize. Designed for these major engine manufacturer applications: Lycoming 320, 360, & 540 series; Continental 470 series; Superior and others.

- Specifically engineered and built to meet the demands of aviation's growing experimental segment.
- Precision Airmotive appointed worldwide network of factory authorized product support centers
- Backed by a Precision warranty program.

## TEMPEST FUEL SERVO QUICK KITS

The next time you rebuild your fuel components, don't spend time on the phone chasing parts, just order a "Quick Kit" and take the hassle out of your rebuilt. Quick Kits include the mandatory replacement parts, plus the parts used by fuel professionals to insure the job is done right!

Fuel Servo #	Model No.	Our Part No.	QuickKit#	Price

Superior ..... P/N 08-11839 ..... **\$0.72**

### ACS FUEL PUMP COOLING SHROUD

Designed to keep the fuel pump cooler in the hot engine compartments, and reduce the risk of fuel vapor lock. The cooling shroud will fit carbureted or fuel injector Lycoming engines using a diaphragm style pump. Made in the U.S.A.  
P/N 08-06097 ..... **\$66.75**

### FACET POSI-FLO SOLID STATE FUEL PUMPS

- **Fuel Compatibility:** All models of the Facet Posi-Flo Pumps are compatible with gasoline, diesel, biodiesel, blended alcohol fuels and fuel additives.
- **Easy to Install-Easy to Service:** Two bolt installation plus the small size makes installation easy. For best results, mount the pump close to the fluid or fuel tank and below the liquid level.

**Not FAA Approved.**

P/N 08-15786 ..... **\$449.99**

## TEMPEST LYCOMING & TCM FUEL PUMPS

### OVERHAULED LYCOMING FUEL PUMPS

All internal parts are replaced with new certified parts. The actuating arms are magnetic particle test inspected; cast parts are inspected for wear, corrosion and cracks. Both the older laminated and newer channel style fuel pumps are overhauled for normally aspirated, pressure carburetor, and fuel injected systems.

**Note: Customer will need to provide core for overhaul in the event our supplier does not have cores available to overhaul.**

# FACET FUEL PUMPS

## FACET SOLID STATE ELECTRIC FUEL PUMPS

These pumps measure less than 3" in any direction and weigh only 18 oz. Fuel is supplied as soon as the ignition is turned on so the engine will start faster at colder temps. Built-in pressure relief prevents flooding and assures fast re-starts on hottest days. The all-steel plated case is water tight. Mounts with two bolts. For best

results, mount the pump close to the fuel tank and below the liquid level. The tank is self-priming to 12" to 36" Lift min dry. Standard 12 V models require only 1 amp at max. delivery. Many models are available, but these are the ones recommended by Rutan Aircraft Factory, Stoddard Hamilton and many other aircraft designers. All of the pumps shown feature the all nylon valve and plunger as specified by Rutan Aircraft in the Canard Pusher newsletter.

## FACET DURA-LIFT FUEL PUMPS

- Application: Refrigeration trucks, marine generator sets, diesel filtration systems, industrial applications, and other diesel lift applications. These pumps are rated for diesel fuel, gasoline, blended alcohol fuels, and fuel additives.
- Solid State Reliability: Proven on many original equipment applications No electrical contacts. No bearings or diaphragms to wear out or fatigue. Endurance life almost doubles that of our nearest competitor.
- Easy to Install-Easy to Service: Two bolt mounting makes installations easy. Nothing to adjust. The pump is self-priming to 120 inches (3.0 m). Vertical mounting is preferred to assure maintenance of rated pressures. The transparent housing allows for visual capability to monitor the cleanliness of the stainless steel filter.
- Eliminates Vapor Lock: When properly installed on most vehicles a constant, smooth, dependable supply of fuel under pressure is assured in the hottest weather or in high altitudes.

Facet No.	Volts	PSI Max-Min	GPH	Fitting Size	Lift Min. Dry	Check Valve	Part No.	Price

## FACET GOLD-FLO INTERRUPTER TYPE PUMPS

Fuel Compatibility: All models of the Facet High Performance Gold-Flo Solid State Fuel Pumps are compatible with gasoline, diesel, biodiesel,

blended alcohol fuels and fuel additives.

Reliability: The new Gold-Flo Solid State Fuel Pump is an enhanced version of our Interrupter model. It has Solid State circuitry and will meet or exceed all performance specifications and is totally interchangeable. (These pumps have demonstrated an endurance life almost double that of the nearest competitor, according to our test data).

Easy to Install-Easy to Service: Two bolt mounting makes installations easy. Nothing to adjust. For best results, mount the pump close to the fuel tank and below the fuel level. The pump is self-priming to 24 inches vertical fuel lift. Vertical mounting is preferred to assure maintenance of rated pressures. An installation kit is available for replacement applications. The only service normally required is a simple cleaning of the filter and fuel inlet cavity.

Eliminates Vapor Lock: When properly installed on most vehicles a constant, smooth, dependable supply of fuel under pressure is assured in the hottest weather or in high altitudes.

## FACET POSI-FLO SOLID STATE FUEL PUMPS

- Fuel Compatibility: All models of the Facet Posi-Flo Pumps are compatible with gasoline, diesel, biodiesel, blended alcohol fuels and fuel additives.
- Reliability: Proven on thousands of original equipment applications. No bearings, electrical contacts, or diaphragms to wear out or fatigue. Lasts four to five times longer than many other electric pumps.

• Easy to Install-Easy to Service: Two bolt installation plus the small size makes installation easy. For best results, mount the pump close to the fuel or fuel tank and below the liquid level.

• Eliminates Vapor Lock: When properly installed on most vehicles a constant, smooth, dependable supply of fuel under pressure is assured in the hottest weather or in high altitudes.

### WELDON HIGH PRESSURE ELECTRIC FUEL PUMP

The 8150 series high pressure electric fuel pump is a positive displacement cammed vane type used primarily in airborne applications. It features a low pressure relief valve and integral bypass valve. Applications include in-line fuel transfer priming of fuel-injected engines & emergency fuel pump. A permanent-magnet, explosion resistant motor is rated for continuous duty. These self-priming, lightweight (2.6 lbs. max.) pumps have been used for over 15 years by major aircraft manufacturers.

Model No.	Flow GPH	Output	Fluid	Power	Core	Price Ea
8150-B Overhauled*	35 Min.	4.5 PSI	Av Gas	24V DC @ 2A	\$400.00	\$830.00
* Customer overhauled only. O/H unit comes with 8130.						
New Fuel Pumps Not FAA approved. For Experimental Aircraft Only!						
8163-A New	35 Min.	21 PSI	Av Gas MIL-G-5572	14V DC @ 5A	\$400.00	\$1,217.00
8170-A New	35 Min.	4.5 PSI	Gasoline	12V DC @ 4A	\$300.00	\$1,150.00

### NEW PMA'D WELDON 18000 FUEL PUMPS

Weldon 18000-A (14Volt) Replaces: Cessna C291504-0101, Dukes 4140-00-17  
 Weldon 18000-B (28Volt) Replaces: Cessna C291504-0201, Dukes 4140-00-15  
 18000-A Weldon Pump 14V ..... P/N 08-07082 .....\$799.00  
 18000-A Weldon Pump 28V ..... P/N 08-07083 .....\$799.00

### MOUNTING BRACKET FOR WELDON FUEL PUMPS

This T-bolt quick release band clamp with mounting bracket fits all Weldon fuel pumps with 2-1/2" diameter motors. Made from certified aerospace quality stainless steel, this bracket offers secure holding power under extreme vibration. The band clamp rotates within the mounting foot to offer easy access to the quick release latch for a variety of mounting positions.

### TEMPEST REBUILT FUEL PUMP RG-9080J4A/M

Tempest rebuilt fuel pump RG-9080J4A/M for engine model TIO-360-A3B6.  
P/N 05-15063.....\$859.00

### TEMPEST REBUILT FUEL PUMP RG17980J

Tempest rebuilt fuel pump RG17980J for engine model: IO-360-B1D, IO-540-A1A5, IO-540-G1D5, O-540-K1C5, IO-540-K1F5, IO-540-L1A5, TIO-540-A2B, TIO-540-C1A, TIO-540-G1A, TIO-540-H1A.  
P/N 07-00277.....\$839.00

### TEMPEST ROMEC / CRANE FUEL PUMP REBUILT QUICK KITS

The next time you rebuilt your fuel components, don't spend time on the phone chasing parts, just order a "Quick Kit" and take the hassle out of your rebuild. Quick Kits include the mandatory replacement parts, plus the parts used by fuel professionals to insure the job is done right!

Fuel Servo No.	Model No.	Our Part No.	Quick Kit No.	Price
RG-9080	2, F1, F2, G1, G2, J1, J2, J3, J4, J5, J7A, J4A	07-09080-0	CFK-9080-0	\$248.95
RG-15980	A, B, B1, C, D, E, F, G, N, N1, P, P1, R, R1, S, S1	07-15980	CFK-15980	\$93.85

# FUEL PUMPS

## CJ AVIATION NEW AND NEW EXCHANGE FUEL PUMPS

New FAA-PMA Direct Replacement Fuel Boost Pumps for Cessna, Beech, Diamond, Navion, Maule, Mooney, Lake and Diamond Aircraft. These certified drop in replacement pumps have a new improved check valve and more efficient motor. There are no Service Bulletins which eliminates the 10 year overhaul requirements. Pumps are warranted for two years or 300 hours. Exchange pumps are in stock and CJ Aviation, Inc. is willing to drop ship on behalf of Aircraft Spruce for quicker delivery. All pumps come with 8130's and technical support from the manufacturer.

# REFUELING PUMPS – HARTZELL FUEL PUMPS

These aviation pumps are only intended to be groundbased or vehicle mounted. Do not use or mount in or on the aircraft. For use with aviation gasoline (AVGAS 100LL) and kerosene grade (JET A). User should consult NFPA 407 Standard for aircraft fuel servicing for safety requirements during ground fuel servicing of aircraft using liquid petroleum fuels. This product has no actual or implied compliance with this standard. Warranty is 2 years.

## HARTZELL FUEL PUMPS

FAA/PMA Approved 202F series Fuel Pumps for Lycoming Engines from Hartzell Engine Technologies. HET 202F series are a direct replacement for the Crane/Lear Romec RG9570 series engine driven fuel pumps. Applicable for use on a wide variety of Lycoming engines. The 202F series fuel pumps include two part numbers covering specific installations:

Description	Lear/romec Replacement	Lycoming Replacement	Beech Replacement	Part No.	Price
202F-1001	RG9570k1, RG9570k1/M	62E22586	Beech 50-389141-1	07-03534	<b>\$2975.00</b>
202F-1002	RG9570p1, RG9570p1/M	62E22585, LW-19012	--	07-03537	<b>\$2975.00</b>

The OEM pump on fuel injected Lycoming engines with high flow and pressure requirements. The 201F series are also available as FAA-PMA approved replacements for the Lear Romec RG17980 series of fuel pumps. Medium capacity engine driven positive displacement fuel pump Carbon vanes for improved wear characteristics. Tightly toleranced for improved pump performance and low pressure fluctuation.

Description	Lear/romec Replacement	Lycoming Replacement	Part No.	Price

# FUEL PUMPS

## ANDAIR FUEL BOOST PUMPS

**PX375-TC** Boost Pump for 3/8" Fuel Lines: • Integral bypass and pressure relief valve • 11-14V DC, 6 amps max • Weight: 460g (16.23 oz) • Fittings: 1/4 NPT input, AN-6 male output • 1/4 NPT to AN-6 adapter included • Suitable for injection engines such as Lycoming IO320, IO360, IO540 etc. It is strongly recommended that a filter is fitted upstream of the pump. The output of this

FX375-MK filter can be fitted directly to the input of this pump.

**PX500-TC** Boost Pump for 1/2" Fuel Lines: • Integral bypass and pressure relief valve • 11-14V DC, 6 amps max • Weight: 470g (16.23 oz) • Fittings: 3/8 NPT input, AN-8 male output • 3/8 NPT to AN-8 adapter included • Suitable for injection engines such as Lycoming IO540 etc. It is strongly recommended that a filter is fitted upstream of the pump. The output of this FX500-MK filter can be fitted directly to the input of this pump.

# FUEL PUMPS – SPRAYING SYSTEMS

## ELECTRIC FUEL TRANSFER PUMPS

Heavy Duty Industrial Grade Fuel pumps designed for everyday use in: Agricultural, Construction, Automotive, Industrial, Racing & Boating applications. Rain & Weather proof for tough outdoor use. Lightweight, yet strong non corroding Aluminum Die cast construction. With a geared pump design using precision sintered metal gears and sintered geared construction makes this pump more tolerant

than plastic gear designs; in addition to offering tremendous suction & minimal noise. This design is such that the motor cannot be switched on without removing nozzle from the nozzle hanger. The low current draw increases usage life from a single charge of battery on DC pump model UL & cUL listed Motor. Duty Cycle: 30 Minutes On / 30 Minutes Off. Recommended Use: Gasoline, Diesel.

12V Electric Gas Pump FPM-12.....P/N 08-07610 .....\$424.00  
115V Electric Gas Pump FPM-11525.....P/N 08-07609 .....\$526.00

## ROTARY FUEL PUMP

Industry Standard for Rotary pumps; these are by far the heaviest duty, for severe outdoor use in extreme weather conditions. Deliver media with a head / lift up to 20' solid cast iron construction, fully CNC machined to close tolerances. Pump handle rotates a high quality sintered powder metal 3 vane rotor inside a highly finished pumping chamber. The graphite veins are self lubricating & non wearing with high quality graphite seal that allows the pump to be used with a wide variety of fluids including diesel with up to 15% ethanol blend. This pump has self

priming operation with discharge up to 38 LPM (10 GPM). Also supplied complete with 2" Bung, Telescopic Suction Tube with Strainer for use with 15 gallons (50 litre) – 55 gallons (205 litre) barrels. DO NOT USE With Water Based Media.....P/N 08-07611 .....\$298.00

## SAFETY FLOW FUEL PUMP & CONTAINER

Quickly safely and easily fill your fuels or chemicals with this 5 gpm rotary pump & 7 gallon container. Ideal for Airlines, boaters, Racecars, factories, job shops, auto repair, labs, farms, etc. Pumps: Diesel, gasoline, oil, alcohols, E85, ethanol, nitro, antifreeze, transmission fluid. Tether safety clamp makes for safe transfer of liquids even with one person. Static line included for additional safety. Cart not included

P/N 08-07612 .....\$269.00

## FM RATED & GROUNDED FUEL PUMPS

Stainless steel and carbon steel FM rated pumps. 30% of all calls are for FM rated hand pumps. These are ideal for lower volume users comes with safety straps and clamps.

Carbon Chrome  
P/N 08-07613.....\$240.95

Stainless Steel FM Approved  
P/N 08-07614.....\$375.00

## BUNG NUT DRUM WRENCH

Non-Sparking Aluminum Bung Nut Wrench: Use to install or remove large and small drum plugs and install faucets. Accommodates most common bungs

also, tightens or loosens drum rings.

P/N 08-07615 .....\$15.85

## WALBRO FUEL PUMP

This WIP-11 include a bracket to mount the pumps in place. This bracket is bolted to a solid surface with two 8-32 coarse thread bolts.

P/N 15-06246 .....\$22.00

## BIG R POWER SPRAYING SYSTEMS

BIGR: All steel construction for durability with large rubber feet for stability and ships fully assembled. Also utilizes a circuit breaker instead of fuses; protecting the operator and eliminating the need to search for fuses. Pressure sensitive switch shuts off pump when you stop spraying, preventing bursting hoses and product separation or damage. This feature can be by-passed with our pressure activated re-circulator. Multiple power options available including: 115vac includes standard 9' power cord, 230vac includes standard 9' power cord, 12vdc includes standard 25' power cord w/ battery clamps.

### In the Box:

1 - spray control gun with comfort grip handle and quick connect, open flow fittings

1 - 18" straight brass wand section

1 - 18" curved brass wand section

1 - 1gal. per minute brass fan tip

1 - adjustable brass fan nozzle

100' safety yellow 3/8" chemical resistant hose with quick connect open flow fittings, chemical resistant diaphragm and seals in pump and reel.

115 VAC.....P/N 08-07617 .....\$476.00

230 VAC.....P/N 08-07618 .....\$1,207.00

12VDC.....P/N 08-07619 .....\$1,192.00

## 7GPM SIPHON PUMP FOR DRUMS

7 gpm bellow action siphon pump includes 4ft. discharge hose and 2" bung, fits 15-30-55 gallon barrels. Pump,Siphon,7 GPM Drum Pump, Siphon, 500 SSU, Outlet Size 1 Inch Outside Diameter, Suction Design Tube, Suction Pipe Size Outside Diameter 1 In, Adapter Type 2 Inch NPT Bung, Fits 15, 30 and 55 Gallon Drums, Piston Polyethylene, Pump Body Material Polyethylene, Max Temp 140 Degree F, Includes Discharge Tubing, Discharge Tubing Material Corrugated Flexible Polyethylene, Internal Parts Material Polyethylene, Overall Length 45 3/4 In, Self Priming, Suction Tube 34 Inches Long. P/N 08-07616 .....\$16.50

## DOUBLE DIAPHRAGM LEVER PUMP

Steel and aluminum, telescoping intake tube from 22" to 39". 3/4" inlet and outlet delivers approx. 1 gal. per ten strokes. Longwearing. Double-action piston pump for durability. Ideal for dispensing gasoline, diesel fuel, and similar petroleum products.

P/N 08-07622 .....\$199.95

## PISTON PUMP FOR AGGRESSIVE CHEMICALS

Stainless Steel & PTFE Hand Pump 22oz. Stroke T-Handle Pump Stainless and PTFE hand pump ideal for transferring your aggressive chemicals. Includes 2" bung 41" long body, 1-1/2" outer body diameter. P/N 08-07623 .....\$98.75

## STAINLESS STEEL ROTARY PUMP

10 GPM Stainless Steel rotary drum pump 40 inch intake tube.Drum Pump, Rotary Chemical, 5000 SSU, Curved Discharge Spout, Outlet Size 3/4 Inch UNF, Suction Design 3 Piece Tube, Tube Material 304 SS, Adapter Type 1 1/2 x 2 Inch NPT Bung, Fits 15, 30 and 55 Gallon Drums, Pump Body Material 304 SS, PTFE Seal, Max Temp 140 Degree F, Includes Suction Tube, GPM 10 @ 135 RPM, Discharge Tubing Material 304 SS, Internal Parts Material PTFE and 304 SS, Inlet Size 1 Inch FNPT, Overall Length 53 In, Self Priming, Suction Tube 40 Inches Long 14lbs. ship wt.

P/N 08-07624 .....\$495.00

# BENDIX MAGNETOS

**OVERHAULED BENDIX MAGNETOS BY KELLY AEROSPACE**  
Core charges apply to all Overhauled Magnetos.

# BENDIX MAGNETOS

## OVERHAULED BENDIX MAGNETOS

A Bendix magneto is a specific type of aircraft magneto manufactured by Teledyne Continental Motors. There are multiple models of Bendix magnetos, and they can be infinitely overhauled. As a result, the Bendix magneto is more often overhauled than bought new, allowing for efficient, cost-effective use.

Core charges apply to all Overhauled Magnetos.

# BENDIX-SCINTILLA MAGNETOS

## BENDIX BREAKER ASSEMBLIES

### Early S4, S6 Mags

P/N 07-06305 (10-357173) with spring  
(current production) ..... **\$47.90 Ea.**  
P/N 07-06306 (10-357174) without spring  
(current production) ..... **\$45.75 Ea.**

### All above breaker assemblies used on either Right or Left Magnetos. Late S4/S6 Mags, S200 Mags\*

P/N 10-382584 (LH) ..... **\$47.50 Ea.**  
P/N 10-382585 (RH) ..... **\$42.65 Ea.**

Used on many late Lyc. engines.

Note: Specify Bendix mag P/N e.g., 10-51369-29

## BENDIX MAGNETO GREASE

#10-27165 - Factory recommended lubricant for bearings in Bendix magnetos.

1 Lb. Can ..... P/N 10-27165 .... **\$79.83**

#10-391200 - For use on distributor block bushing. Provides proper shaft lubrication.

8 oz. can ..... P/N 10-391200 .. **\$79.95**

## REPLACEMENT COILS FOR CONTINENTAL ENGINES PER SERVICE BULLETIN NO. 637

TCM Ignition Systems has issued Service Bulletin No. 637 to retire from service certain older coils and rotating magnetos. The Bulletin applies to many S-20, S-200, S-600, and S-1200 series magnetos as identified in this chart. Compliance with this Bulletin is required at the next 100 inspection, annual inspection, or progressive maintenance inspection, whichever comes first. Order by new coil part number.

Magneto Series	Old Coil P/N	Color	New Coil P/N	Color	Our Price
S-20	10-51303	Opaque amber to Dark Purple	10-357164	Bright Red to Dark Red	<b>\$199.75</b>
	10-76384				
	10-160886				
S-20	10-163172	Opaque Amber to Dark Purple	10-357165-1	Bright Red to Dark Red	<b>\$267.92</b>
	10-163209				
S-200	10-160887				
S-1200	10-349271	Opaque Amber	10-391088-1	Blue to Olive Green to Black	<b>\$249.95</b>

## ALTERNATOR FILTER

Replacement part for existing alternator filters. Wire won't break at the case and its clamp is made from heavy gauge steel. Double the capacitance compared to OEM alternator filters. For stubborn alternator noise, this Alternator filter combined with the Eliminator (P/N 11-08055) can trap a wide frequency range of electronic noise.

Both of these filters have been thoroughly tested under a DO 160D and are FAA/PMA approved. P/N 11-08060..... **\$69.95**

## MAGNETO FILTER

Eliminates ignition noise. Install in primary lead of magneto. Not FAA approved. P/N 07-03200... **\$122.75 ea**

## MAGNETO FILTER FAA APPROVED

Attenuates both low and high frequencies of noise generated from bendix magneto ignition systems. This filter has been used by avionics shops, OEM aircraft manufacturers, and FBO's, to attenuate and suppress pulsating noise generated by their aircraft's magneto systems. The magneto filter is FAA-PMA approved

and is compatible with the bendix series S20, S21, S200, D3000, D4000 magneto. 1000 VDC working voltage, 5000VDC break down voltage. Capacitance: .05 uf-self healing technology. Heavy duty mounting clamp. Temp. range: -35°C to +80°C. Max. current: 20 amps P/N 07-00713 ..... **\$79.95**

## BOGERT AVIATION GROMMET STRETCHER TOOL

Using the Grommet Stretcher is 2-3x's faster when stretching grommets over fittings and plugs. Improves safety because grommets are continuous. Operating Instructions: 4 Simple Steps Saves time and frustration. Insert grommet over end of Grommet Stretching Tool. Squeeze handle to spread the grommet. Insert cable through grommet and release the squeeze on tool handle. Remove the grommet from tool by sliding grommet off the ends P/N 11-06946..... **\$39.95**

## GROUND TERMINAL KITS

For S-20 series mags. Kit No. 10-52306 (AN3105)..... **\$39.75**

Reg. No.	Part No.	No. Req.	Description
1	10-30299	1	NUT - Coupling (Ground Terminal)
2	10-56507	1	CROMMET Assy.(Ground Terminal)
3	10-3383	1	FERRULE - Inner (Ground Wire)
4	10-25725	1	SLEEVE - Insulating (Ground Wire)

For 20 series mags. Kit No. P/N 10-52305 ..... **\$88.50**

Reg. No.	Part No.	No. Req.	Description
1	10-37669	1	NUT - Coupling (Ground Terminal)
2	10-7030	1	FERRULE - Outer (Ground Wire)
3	10-7029	1	FERRULE - Inner (Ground Wire)
4	10-37668	1	SLEEVE - Insulating (Ground Wire)
5	2-155	1	WASHER - Ground Wire Contact

## TCM/BENDIX IMPULSE COUPLINGS

Part No.	Price
10-40307	\$463.70
10-40309	\$463.70
10-400313	\$463.70
10-40314	\$463.70
10-40315	\$463.70

**\$70.00 core charge applies**

## TCM/BENDIX CAM ASSEMBLIES

Part No.	Price
10-40166-6	\$306.32
10-40167-4	\$308.50
10-40167-6	\$306.32
10-40167-10	\$306.32

Core charge applies

# BOGERT AVIATION P-LEADS

## BOGERT AVIATION SLICK STYLE P-LEADS

### Slick Style P-Lead

P-Leads are a critical part of the ignition system and their good condition is vital to safety and airworthiness. P-leads are often overlooked and seldom replaced because replacement p-leads are not available from the aircraft manufacturer and materials to fabricate new p-leads are not commonly available. Because most leads are shielded, mechanics do not have the materials, tooling or the experience to fabricate

p-leads.

These p-leads are fabricated using proper materials, genuine terminal kits and additional strain reliefs. Each lead is inspected and tested. It is the responsibility of the installing agency to certify that the p-lead is airworthy and matches the requirements of the aircraft.

Bogert PN	Length	Description	PN	Price
21M-PL030-SS	30	P-lead 30" Slick Style	11-06869	\$32.75
21M-PL036-SS	36	P-lead 36" Slick Style	11-06870	\$32.95
21M-PL042-SS	42	P-lead 42" Slick Style	11-06871	\$34.70
21M-PL048-SS	48	P-lead 48" Slick Style	11-06872	\$35.50

# BENDIX MAGNETO REPAIR KITS

## FROM KELLY AEROSPACE

### REPAIR KIT

- 1 - Contact Assy. Kit (3)
- 1 - Capacitor
- 2 - Bearings
- 1 - Oil Seal
- 1 - Oil Slinger
- 3 - Woodruff Keys
- 1 - Cotter Pin
- 1 - Cam Screw
- 1 - Felt Washer
- 1 - Felt Strip
- 1 - Snap Ring
- 1 - Carbon Brush

**T**hese magneto repair kits are designed to simplify the Bendix magneto overhaul process by providing all of the commonly needed overhaul parts in one convenient kit. The Repair Kits contain the parts needed for minor repair such as a 500 hour inspection, and the Deluxe Repair Kits contain the parts needed for major repair such as a magneto overhaul. These parts are highest quality direct replacement parts and are approved for installation and use on certificated aircraft. The Repair Kit and Deluxe Repair Kit for the Bendix -200, -201, and -202 series magnetos contain two sets of contact assembly kits. Some parts that may be need replacing during magneto overhaul are not included in these kits.

### DELUXE REPAIR KIT

- 1 - Contact Assy. Kit (3)
- 1 - Coil Kit
- 1 - dist. Block Kit
- 1 - Gear Kit
- 1 - Capacitor
- 2 - Bearings
- 1 - Oil Seal
- 1 - Oil Slinger
- 3 - Woodruff Keys
- 1 - Cotter Pin
- 1 - Cam Screw

### MAGNETO P-LEAD ADAPTER

This unique design of the P-lead adapter ensures proper spring pressure against the internal contact. It provides secure and stable alignment, and includes a post that prevents the timer leads from falling off. This adapter allows you to connect to the timer leads of all Bendix magnetos with an immediate and positive connection. One pair per package. 1 lbs (0.5Kg) shipping weight.

- Magneto P-lead Adapter (Early S2, S4, S20)..... P/N 12-03522 ..... \$35.95
- Magneto P-lead Adapter (S200, S600, later S2, S4, S20) ..... P/N 12-03523 ..... \$35.95
- Magneto P-lead Adapter (D2000, D3000 Series)..... P/N 12-03524 ..... \$35.95
- Magneto P-lead Adapter (Complete Set) ..... P/N 12-03525 ..... \$93.75

# SLICK MAGNETOS

## NEW 4300 AND 6300 SERIES SLICK MAGNETOS

These new lightweight aircraft magnetos are being used by many new equipment manufacturers. Weigh only 3-3/4 lbs. compared to 6-1/4 lbs. for typical old style magnetos. All units carry a One Year warranty after delivery to the user. These new model magnetos are completely rebuildable. The old 4000/4100 magnetos may not be returned as an exchange unit for a new magneto of the same model. Most other Magnetos may be returned for core credit. Drive gears are not included. \*When purchasing slick magnetos separately gaskets are not included.

**IF NO CORE IS RETURNED, ADD \$150 TO THE PRICE OF A NEW MAGNETO.**

# SLICK MAGNETOS

## OVERHAULED SLICK MAGNETOS

**NOTE: Please remove drive gears before returning Magneto cores for "Core Credit."**

These lightweight aircraft magnetos are being used by many new equipment manufacturers. Weigh only 3-3/4 lbs. compared to 6-1/4 lbs. for typical old style magnetos.

In early 1988, Slick discontinued the sale of re-manufactured magnetos to offer new units only.

All units carry a six-month warranty after delivery to the user. 4000/4100/6200 series magnetos may not be returned as exchange units for a new magneto of the same model. Only 4300 and 6300 series Slick Magnetos may be returned for core credit.

Drive gears are not included. \*When purchasing slick magneto separately gaskets are not included.

4300 series is a direct replacement for previous 4200 series Magnetos.

## CHAMPION SLICK MAGNETO MAINTENANCE KITS

Inspection and maintenance are simpler and more convenient than ever before. Champion also incorporated mechanic-endorsed features to improve performance and service life. Lift-off housing –Internal timing is not disturbed during inspections. Simplified internal timing –Improved internal markings and unique Slick T-150 E-gap tool make timing easier and more accurate. Fully sealed bearings –Keeps contaminants out and grease in for smoother operation and less maintenance. Lower EMI Levels –Housing improves sealing and results in less radio noise. OEM Approved –Models are available for more than 225,000 engines –all compatible with existing Slick Ignition Harnesses.

Description	Where Kit Used	Mag Models Used	PN	Price
MK401 Kit	All IC or DD 4cyl. Magnetos	4301, 4302, 4303, 4309, 4316, 4330, 4331, 4333, 4370, 4371, 4372, 4373, 4374, 4381, 4392	08-14592	\$634.00
MK402 Kit	All IC RB or TD 4cyl. Magnetos Excluding 4342 & 4344	4310, 4345, 4347, 4348, 4353, 4354	08-14593	\$635.00
MK403 Kit	4342 & 4344 TD 4cyl. Magnetos	4342, 4344	08-14594	\$635.00
MK601 Kit	All 6cyl. IC & DD Magnetos with small shaft	6310, 6313, 6314, 6320, 6324, 6362, 6364, 6367, 6377, 6379, 6380, 6382, 6399	08-14595	\$625.00
MK602 Kit	All 6cyl. RB Magnetos with small shaft	6309	08-14596	\$636.00
MK603 Kit	6390	6390	08-14597	\$635.00
MK604 Kit	All 6cyl. IC & DD Magnetos with large shaft	6331, 6340, 6350, 6351, 6355, 6360, 6361	08-14632	\$635.00
MK605 Kit	All 6cyl. RB & TD Magnetos with large shaft except 6390	6363, 6365, 6371, 6391, 6393, 6394	08-14633	\$635.00

# SLICK IGNITION KITS

## SLICK IGNITION KITS

We offer complete Slick factory upgrade/conversion kits for virtually all general aviation aircraft. These kits include two factory new Slick magnetos, a complete Slick ignition harness, and conversion information. Add **\$500.00** core charge to the kit prices which is refundable upon return of the two old magnetos to Aircraft Spruce. Specify aircraft and engine make and model when ordering.

Part Numbers listed are Gray. Other colors available are: Blue, Yellow, and Red.

Slick Kit Part No.	Engine Application 4 Cyl. Single Impulse 2 Mags & 1 Set Ignition Harness	Spark Plug Size	Gray Part No. & Plug No.	Price Add \$500.00 Core Charge to all kits
K4516	Lycoming: 0-235-C1A, C1C, C2C, E1, E2B, F1, G2B, H2C, J2B 0-320-A1A, A2D, C1A, D1D, D2G, D2H, D3G, E1J, E2D, E2E, E2G, E3D10-320-B1B, E1B, E2B, A2B, AE10-320-E1B, E2B 0-360-A1NG, A2H, A4K, A4M, B1A, C1E, C1F, C2B, C2E, D1A 10-360-B1FG A10-360-A2B AE10-360-A2B, B1F6, B2F6, H1A	5/8" PLUGS INCLUDED	08-07737 (-40)	\$2,392.00

			08-07875 (-40)	\$2,628.00

The following information will aid you in selecting the correct magneto, upgrade kit, or ignition harness:

1. Engine Manufacturer: \_\_\_\_\_

2. Engine Model Number: \_\_\_\_\_

3. Engine Type (4 or 6 Cylinder): \_\_\_\_\_

4. Current Ignition System Manufacturer: \_\_\_\_\_

a) Number of impulse coupled magnetos (1 or 2): \_\_\_\_\_

Magneto Shaft Rotation (Right or Left) - See dataplate on current magneto \_\_\_\_\_  
Lag Angle \_\_\_\_\_

b) Number of Direct Drive (Non-Impulse) Magnetos \_\_\_\_\_

c) Number of Retard Breaker Magnetos \_\_\_\_\_

d) Are the magnetos pressurized? \_\_\_\_\_

e) Spark plug size (5/8" or 3/4") \_\_\_\_\_

5. Do you want to upgrade from a single impulse to a dual impulse system? \_\_\_\_\_

If yes, an additional drive gear and/or adapter purchase may be required.

6. Are you upgrading from a 600 Series to a 6200 Series magneto? \_\_\_\_\_

If yes, you will need to purchase an M3154 Adapter or a magneto equipped with an M3154 Adapter to be able to reuse the existing harness. Alternately, purchase a new harness configured for 6200 Series magnetos.

7. Are you upgrading a complete engine form a TCM/ Bendix to a Slick system? \_\_\_\_\_

If yes, purchase a complete Engine Upgrade Kit.

Add **\$500.00** core charge to all kit prices (refundable with return of old Magnetos) Request quotation for kits for unlisted engines.

\* Plugs included.

# SLICK START – BENDIX KITS

## SLICKSTART

Improve your engine starting hot or cold Slick Start™ unleashes a firestorm of ignition energy to get your engine started and get you off the ground. SlickSTART is so effective, even sub-optimal fuel mixtures and seriously fouled plugs won't stop the capacitive discharge output from providing the ignition boost your engine needs for reliable starts every time. SlickSTART's sure starting power...

Delivers up to 340% more spark energy to your plugs. Overcomes poor engine priming. Reduces costly electrical stress to your battery and starter. Requires no maintenance. Is approved for use with Slick magnetos.

Plus, it's inexpensive and easy to install. Just add SlickSTART to your impulse coupled magnetos or replace your antiquated starting. The FAA-PMA approved SlickSTART™ magneto booster system integrates solid state electronics with conventional ignition hardware to deliver optimum spark energy for improved engine starting under all operating conditions.

SS1001 SlickStart for Slick.....P/N 08-01000.....**\$864.00**  
 SS1002 SlickStart for Bendix.....P/N 08-01005.....**\$864.00**

## SLICK MAGNETO ASSEMBLY & TIMING KIT

T-100 Assembly and Timing Kit for field-repairable Slick 4300/6300 Series Magnetos.

P/N 07-00788.....**\$726.00**

## M3064 SLICK CAPACITOR

Slick Capacitor (M3064).

P/N 08-05220.....**\$276.95**

## T-200 SLICK® IGNITION HARNESS TOOL KIT

The Slick® Assembly Tool Kit is required to install all Slick Ignition Harness Leads on all magneto harness caps and spark plug termination ends. The complete kit includes: Pressing Tool, #72 Drill Bit, Pin Vise, Stripping Tool, Spring Assembly Tool, and Shield Stripper. Complete instructions for the use of this kit can be found in the Unison Industries L-1178 Service Manual.

P/N 12-00720.....**\$289.95**

## SLICK IMPULSE COUPLING INSPECTION GAUGE

T-155 Impulse Coupling Inspection Gauge for Slick.

P/N 12-01450.....**\$63.95**

## SLICK MAGNETO REPLACEMENT PARTS BY KELLY AEROSPACE

Magneto replacement parts manufactured by Aero Accessories Inc. are made to specifications dictated by Federal Aviation Administration parts manufacturing approvals. They are highest quality, direct replacement parts, approved for installation and use on certified aircraft.

Note: Always refer to the parts and service manual of the original equipment manufacturer or to Aircraft Type Certificate Data Sheets or other FAA-approved data to determine eligibility of a part or component for use in any application.

\*Kit Includes: A13081, A13081-1, -2, & AM3611

\*\*Includes: AM3183, AM3182-1, & -2

## BENDIX SERIES MAGNETO REPAIR KITS FROM KELLY AEROSPACE

These magneto repair kits and deluxe repair kits are designed to simplify the Bendix magneto overhaul process by providing all of the commonly needed overhaul parts in one convenient kit. The Repair Kits contain the parts needed for minor repair such as a 500 hour inspection, and the Deluxe Repair Kits contain the parts needed for major repair such as a magneto overhaul. These parts are highest quality direct replacement parts and are approved for installation and use on certificated aircraft. AB-200445SC-D and AB-200445SC-R kits contain two sets of contact assembly kits. Some parts that may be need replacing during magneto overhaul are not included in these kits.

# IGNITION SYSTEMS

## E-MAG ELECTRONIC IGNITION

**Note: New installation requires a harness, and possibly a gear, depending on the application (See Accessories). Verify requirements before ordering.**

Of all the E-MAG innovations, the self-powering capability of the "P" Model is the most significant. It solves the largest single issue faced by all electronic ignitions - their need for an uninterruptible power supply. Power back-up strategies that a) compromise ignition effectiveness, b) solve only half the problem, or c) require additional maintenance are less than ideal. Next-Generation ignitions need a better solution. So what does a next-generation electrical back-up need to do?

Above all, it has to be reliable. When it's needed, it has to work - period. It should operate for as long as needed. Whether it's the last 10 minutes of a Sunday pleasure flight, or you're crossing the Atlantic. It should be maintenance-free. Benign neglect should not prevent it from working. On the rare occasion it's needed, it should automatically engage without operator intervention. A simple and convenient pre-flight check should confirm it's working properly. This P model ignition has an internal three phase brushless alternator that produce enough power to sustain the ignition when the engine is turning 800 rpm, or more. If the aircraft buss voltage goes off-line, the ignition has an internal alternator. With this arrangement, dual electronic ignitions can be run "clean". No back-up batteries and no back-up magnetos.

The P Model Built-In Alternator adds no (zero) mechanical contact/wear parts to the system. Adds only a few ounces of weight. Requires no additional hardware to install. Will operate as long as the engine is turning

E-MAG Aircraft Harness

Description	Part No.	Price
"P" Model (P-MAG) Ignition - Lycoming (and like) engines.	07-01292	\$1,395.00

Superior SL68C19622	08-11837	\$290.95

## ELECTROAIR IGNITION SYSTEMS

EIS-2 KIT

EIS-3 KIT

The Electroair EIS fires the spark plugs directly from the coils, not through a distributor. This is accomplished by using multiple coils, each with two spark terminals. The coil terminals are connected to the spark plugs, allowing one cylinder to fire on compression while its companion cylinder fires simultaneously on exhaust. Open spark gaps in the rotor and cap are eliminated, making wear and moisture problems a thing of the past.

The EIS Controller includes dual digital microprocessors using patented spark algorithms, which takes the electrical signal from the crankshaft (or mag timing housing) sensor, identifies top-dead center and then keeps track of the remaining rotation. The EIS determines engine speed and computes the spark advance using the settings pre-set at the factory for the engine as a base-line. Settings from the factory are preset for the engine's certified placarded timing. Additionally, the EIS receives engine manifold pressure information and advances the ignition to compensate for altitude and throttle position.

## ELECTROAIR IGNITION SWITCHES WITH PANELS

The EA-13000 is approved ignition switch panel to control both the Electroair electronic ignition system (EIS) and the magneto.

Horizontal ..... P/N 08-14693 .....\$269.00  
Vertical..... P/N 08-14694.....\$269.00

EIS-1 KIT	Part No.	Price
4-cylinder Electronic Ignition System comes with: Coil Pack, Controller, Mag Timing Housing, MAP Sensor, spark plug wires, instruction manual. Specify engine make and model.	08-05953	\$1,924.00
EIS-2-MT	Part No.	Price
6-cylinder Electronic Ignition System with MTH (Mag Time Housing) comes with: Coil Pack, Controller, Crankshaft Timing Wheel, MAP Sensor, spark plug wires, instruction manual. Specify engine make and model.	08-14584	\$2,735.00
EIS-61000-5M	Part No.	Price
The EIS-61000 Electronic Ignition Kit is a fully STC'd kit for Lycoming 540 series, non-turbo'd, series engines. installed on single engine aircraft.	08-15630	\$5,500.00
EIS-61000-5M	Part No.	Price
The EA-12000 replaces the impulse-coupled magneto found on most Lycoming engines. This unit provides the EA-7000 Controller with the engine position and RPM information needed to drive the electronic ignition system. Installation is very easy - much like a magneto.	08-15631	\$1,695.00
EA-10000	Part No.	Price
The EA-10000 replaces the magneto found on most Continental engines. This unit provides the EA-7000 Controller with the engine position and RPM information needed to drive the electronic ignition system. Installation is very easy - much like a magneto. Engine to TDC on #1 cylinder, lock-pin in the MTH and then drop it in the mag hole. Tighten the hold down clamps and pull the lock pin.	08-16208	\$1,695.00
EIS-2-CSTW	Part No.	Price
EIS-2-CSTW 6-cylinder Electronic Ignition System Trigger Wheel Kit. Used with dual magneto Lycomings and Continental models.	08-16213	\$2,045.00

**KITS ABOVE ARE 14V. FOR 24V KITS ADD -24 TO THE PART NUMBERS LISTED.**

# ELECTROAIR – IGNITION HARNESSSES

## ELECTROAIR 4 CYLINDER ELECTRONIC IGNITION KITS

The EIS-41000 Series Electronic Ignition Kit is a fully STC'd kit for most Lycoming 4cyl engines. Replacing one magneto with the EIS-41000 will typically improve fuel economy on average by 10-15% (many operators have reported consistent fuel savings of 1gph or greater).

Additionally, there will be an improvement in horsepower, smoother engine operation, and improved high altitude performance. Used on either 12V or 24V systems. Kit includes: all the required parts to replace the direct drive magneto (typically, the right hand mag), or the Impulse Coupled Magneto (typically left handed) in most 4cyl Lycoming engines. (Please refer to the FAA approved model list to verify the system can be installed on your engine - Note: engines are being added regularly).

Description	Part No.	Price
EIS-41000 Direct Drive (non-impulse coupled)	08-07272	\$3,570.00
EIS-41000IC Impulse Coupled	08-07505	\$3,570.00
EIS-41000T Twin Engine Aircraft; Lycoming 4cyl Engines. Standard Rotation, Direct Drive (non-impulse coupled) Magneto Replacement	08-07667	\$3,570.00
EIS-41000TIC Twin Engine Aircraft; Lycoming 4cyl Engines. Standard Rotation Impulse Coupled Magneto Replacement	08-07668	\$3,570.00
EIS-41000TLH Twin Engine Aircraft; Lycoming 4cyl Engines. Counter-Rotating, Direct Drive (non-impulse coupled) Magneto Replacement	08-07669	\$3,570.00
EIS-41000TLHIC Twin Engine Aircraft; Lycoming 4cyl Engines. Counter Rotating, Impulse Coupled Magneto Replacement	08-07670	\$3,570.00
EIS-61000-T5M 6 Cylinder EIS Lycoming Normal ASP MAG Timing Housing	08-16206	\$4,950.00

## ELECTROAIR 6 CYLINDER ELECTRONIC IGNITION KITS

The EIS-61000 Electronic Ignition Kit is a fully STC'd kit for Continental 470 & 520, non-turbo'd, series engines, installed on single engine aircraft. Replacing one magneto with

the EIS-61000 will typically improve fuel economy. This kit can be used on either 12V or 24V systems. Kit includes: all the required parts to replace one magneto.

Description	Part No.	Price
EIS 61000-1C Electroair Cont. 6 Cyl.	08-12237	\$4,795.00
EIS 6100-T1C Electroair Cont. 6 Cyl.	08-13155	\$4,795.00
EIS-61000-1M for Continental 360, 470, 520, & 550 non turbo series engines on single engine aircraft.	08-13696	\$5,500.00
EIS-61000-T1M for Continental 360, 470, 520, & 550 non turbo series engines on twin engine aircraft.	08-13759	\$5,500.00
EIS-61000-5C for Lycoming 540 non turbo series engines on single engine aircraft.	08-13760	\$4,795.00
EIS-61000-T5C for Lycoming 540 non turbo series engines on twin engine aircraft.	08-13761	\$4,795.00

**Note: The following are replacement units for the EIS systems.**

EA-6000/EA-6000TP the brains of the Electroair Electronic Ignition System. This replacement unit if for 6cyl engines. This unit can be used in either a 12V or 24V application.	08-13157	\$2,525.00
EA-11000 Crank Shaft Trigger Wheel kit mounts on the bare spot of the crank shaft just behind the propeller flange. NOTE: Minimum clearance of 0.650" between the front of the engine case and propeller studs is REQUIRED. Please check this dimension before starting installation ordering the kit.	08-13158	\$995.00
EA-8000 is the 6cyl Coil Pack used in the EIS-61000 Electronic Ignition System. This unit can be used in either a 12V or 24V application.	08-13159	\$755.00
The EA-3000 replaces the direct drive magneto found on most 4cyl Lycoming engines. This unit provides the EA-1000 Controller with the engine position and RPM information needed to drive the electronic ignition system.	08-07671	\$1,610.00

## ELECTROAIR SPARK PLUGS

Electroair partnered with Tempest to produce its new HE spark plug line. The HE plugs are STC'd and PMA'd for use with the Electroair electronic ignition systems. The plugs are approved for all aircraft, and installations approved for use with the Electroair

electronic ignition systems. Electroair's "HE" plug line include a massive electrode with extended reach outer electrodes has a gap of 0.032. This optimal gap accommodates the high energy output of 70,000 volts delivered by the Electroair system.

EAREM37HE.....P/N 08-07714 .....	\$40.25
EAREM38HE.....P/N 08-07715 .....	\$102.50
EARHB32E.....P/N 08-16212 .....	\$40.25

SEE [WWW.AIRCRAFTSPRUCE.COM](http://WWW.AIRCRAFTSPRUCE.COM) FOR ELECTROAIR TIMING KITS AND PARTS.

## LIGHTWEIGHT HIGH TEMPERATURE SHIELDED IGNITION HARNESSSES MFG. BY ACS PRODUCTS CO.

New production ignition harnesses at remarkably low prices. Late type 5MM wire constructed of 16 strands of tightly braided copper wire impregnated with scuff resistant white silicone. All strands must fracture before a complete open circuit type failure occurs thus extending lead life. Lead flexibility is retained from -65° to 400° F. Moisture and cleaning solvent penetration is eliminated by the impregnated silicone coating. This extremely flexible wire lends itself to sharp bends thereby eliminating the need for

old style harness elbows. No soldered joints in the grounding circuit. Custom made for most 4 cylinder and 6 cylinder engines using Bendix or Eisemann magnetos and 4 cylinder engines using Slick magnetos. Cable outlet plates are not furnished for Bendix and Eisemann mags as these are already installed on the magnetos in service. They must be purchased separately for new magneto installations. Harnesses for Slick magnetos are furnished with the backplates installed. Standard harnesses for the Bendix S4/S6 mags are fitted with a male nut which screws into the threaded outlet plate on the back of the mag. Harnesses for old style Bendix SF4 and SF6 magnetos are fitted with female nuts.

### HARNESSSES FOR BENDIX AND EISEMANN MAGNETOS

All 4-Cylinder Harnesses (8 wires)..... **\$171.00**  
 All 6-Cylinder Harnesses (12 wires)..... **\$230.95**  
 (Not Available for Bendix S1200 Magnetos)  
 Replacement Leads to 48" (Specify Length)..... **Call For Quote**  
 (Bendix & Eisemann only)

### HARNESSSES FOR SLICK MAGNETOS

For 4000, 4200 & 4300 Series Mags (4 Cyl.) Only..... **\$177.00**

All Harnesses Furnished with Cable Ties and Clamps  
 For plugs with 5/8-24 barrel size only.

**\*This harness only comes with 4-leads.**  
 ACS Products ignition harnesses can be used on experimental aircraft or on certified aircraft with field approval (FAA Form 337). If FAA/PMA harness is mandatory or if for use with 3/4" spark plugs, use Slick Bendix, Aero-Lite or Champion harnesses.

# ELECTRONIC IGNITION SYSTEMS

## FLYEFII DUAL SYSTEM32 ENGINE MANAGEMENT SYSTEM

The FlyEFii System32 Engine Management System Hardware is the first electronic engine management system ever designed specifically for the needs of experimental aviation. System32 is a state of the art, high speed, fully redundant system that represents the fulfillment of a ten year wish list of functionality. Dual 32 bit high speed ECUs and a sunlight readable graphical LCD Cockpit Controller combine for seamless power and efficiency in managing your engine's electronic fuel injection and electronic ignition functions. System32 will be offered in ignition only and full ignition + injection versions.

### Engine Computer:

- Advanced 32-bit microprocessor
- EMI Filtering on all inputs
- Operates down to 3.5 volts
- Live Telemetry Interface
- Integrated ADI Control
- Up to 12 individually trimmable injector outputs
- Onboard SD Card enables easy field updates, loading and saving map files, and data logging
- Supports up to three O2 sensors
- Integrated Boost Control
- Lightning strike protection
- Full 3D mapping of your ignition timing and fuel delivery
- Compatible with standard left-right-both ignition switch.

### Cockpit Controller:

- Color LCD 1000-NIT sunlight readable display
- Integral rolling tape Air Fuel Ratio display
- Convenient full size SD card enables easy field updates, loading and saving map files, and data logging
- Seamlessly interfaces with two ECUs
- Effortless tuning – enter your engine size and compression ratio to instantly set fuel and ignition base maps
- Fits in standard 3-1/8" aircraft instrument hole
- Annunciator display for ECU power, fuel pump power, and two battery voltages
- Multi-function knob and buttons provide intuitive access to functions.

Description	Part No.	Price
4 Cylinder Ignition Only	07-19978	<b>\$2,750.00</b>
4 Cylinder Ignition & Injection	07-19980	<b>\$6,195.00</b>
6 Cylinder Ignition Only	07-19979	<b>\$3,395.00</b>
6 Cylinder Ignition & Injection	07-19981	<b>\$7,695.00</b>

## EFII LIGHTWEIGHT FLYWHEELS

EFII compatible lightweight flywheels are available with or without the alternator belt pulley. 149 tooth ring gear for late model starter motors. Available for O-320 engines (5/8" diameter bushing hole). Available for O-360 and larger engines (3/4" diameter bushing hole). Pulley version is 1.5 lbs lighter than stock. (4.94 lbs). No pulley version is 2.1 lbs lighter than stock. (4.34 lbs). All lightweight Flywheels have EFII trigger magnets pre-installed.

Description	Part No.	Price
Lightweight Flywheel W/ Alternator Belt Pulley+	07-19983	<b>\$725.00</b>
Lightweight Flywheel No Pulley	07-19984	<b>\$750.00</b>
Lightweight Flywheel W/ Alternator Belt Pullet	07-19985	<b>\$725.00</b>
Lf320 Lightweight Flywheel No Pulley	07-19986	<b>\$750.00</b>

## EFII THROTTLE BODY FLANGE ADAPTER KIT

The EFII Throttle Body Flange Adapter kit provides a convenient method to join a Van's Filtered Air Box or other flat surface interface to the EFII throttle body which is included in all EFII electronic fuel injection kits.

The EFII throttle body has a 3 1/4" rounded snout at its inlet. The TBFA kit includes a high quality silicone hose coupler which fits onto the EFII throttle body snout. The other end of the silicone coupler has a 3" ID which fits the included 3" aluminum flange adapter. Stainless steel hose clamps are included to complete the assembly of the TBFA. The aluminum flange adapter can be riveted, bolted, welded or bonded to your air filter box or air inlet.

P/N 07-19987 ..... **\$40.00**

EP

## EFII FUEL FLOW INTERFACE

Required when Dynon or Garmin engine monitors are used with the EFII electronic fuel injection system. The EFII electronic fuel injection system does not require a mechanical fuel flow sensor to display fuel

flow on your engine monitor. However, you will need our Fuel Flow Interface to translate the EFII Fuel Flow signal to the FloScan type signal required by Dynon and Garmin engine monitors. Grand Rapids and MGL engine monitors do not require this interface. The Fuel Flow Interface enclosure measures approx. 2" x 1.37" x 0.75".  
P/N 07-19988 ..... **\$115.00**

## EFII GROUND BUS

The EFII Ground Bus, part number GB-1, is a great addition to a well designed wiring system. The GB-1 is a nicely designed "forest of tabs" type grounding

junction that can clean up and organize all your avionics and system ground wires. Many people use two of these devices to lay out their grounding scheme. One for avionics or small signal grounds, and one for higher current grounds, such as lighting, strobes, pitot heat, etc.  
P/N 07-19993 ..... **\$35.00**

## EFIS SPARK PLUG ADAPTERS

If you are going to run an electronic ignition on your aircraft engine, you will need a set of these to adapt the 18mm spark plug threads in your aircraft cylinder head to 14mm threads for use of automotive spark spark plugs. These are the highest quality adapters you will find.

18mm to 14mm Long Reach 4 Pack  
P/N 07-19992 ..... **\$74.00**

## BUS MANAGER

This Bus Manager is an important safety device for aircraft that have critical electronics that require a protected essential bus. This would include aircraft that are running electronic fuel injection, electronic ignition, electric fuel pumps, or critical instrumentation. Provides a triple redundant essential bus for all critical electronic equipment. This redundancy is crucial for engines that rely on uninterrupted +12V power to critical items. The end user no longer has to attempt to come up with a home brew bus system for their plane. The Bus Manager has been professionally designed and over-built to faithfully provide extreme reliability.  
P/N 07-01852 ..... **\$595.00**

## BUS MANAGER ACCESSORY KIT

The Accessory Kit for the Bus Manager consists of all the parts necessary to setup a Bus Manager based electrical distribution system for experimental aircraft.  
P/N 07-01853 ..... **\$145.00**

## ELECTRIC BOOST PUMP MODULE

The EFII Boost Pump Module (BPM) brings a new level of installation simplicity and functionality to the fuel system of your aircraft equipped with Bendix, AFP or Precision Airmotive type mechanical fuel injection. The BPM reduces a time consuming and frustrating plumbing job to a simple and clean, easy to set up installation. It is used to supply a steady source of 30PSI fuel to your engine during take-off, landing, priming, or emergency situations. The BPM has integral back flow prevention and pressure regulation valving.  
Standard ..... P/N 07-01854 ..... **\$687.00**  
w/ 90° fitting ..... P/N 07-02461 ..... **\$687.00**

# LIGHTSPEED IGNITION

## LIGHT SPEED ENGINEERING PLASMA IGNITION SYSTEM

Light Speed Engineering, LLC (LSE) is a pioneer in the design and production of ignition systems for experimental aircraft. 22 years of research and development have been invested in producing the PLASMA CDI (Capacitive Discharge Ignition) system product line. LSE's PLASMA CD systems are the ideal replacement for yesterday's magneto technology. You can replace one mag with a PLASMA CDI or, for maximum performance, replace both magnetos with these state of the art systems. The Plasma CDI is a solid-state, high performance ignition system intended for today's home built aircraft. Light Speed Engineering currently offers two Capacitive Discharge Ignition Systems: the PLASMA II PLUS and the PLASMA III. Standard Plasma CDI kits include: direct crank sensor assembly, high tension leads, harness, spark plugs, spark plug adapters, and ignition coils with mounting bracket. One or two systems can be used.

### PLASMA II PLUS CDI

The Plasma II is Light Speed Engineering's basic electronic ignition system for aircraft. It is a lightweight, high-energy capacitor discharge system containing all of the essential Plasma CDI features. Its smaller size and lighter weight sets it apart from any other ignition source.

Like all LSE ignition systems it features automatic ignition advance

based on engine load and RPM, auto retard for starting and a standard pulse tachometer output. The Plasma II was designed to provide a high tech ignition source at the cost of magnetos.

### PLASMA III CDI

Light Speed Engineering has introduced a new ignition system to its line of products. The new Plasma III Capacitor Discharge System is the latest high performance ignition for all 4-cyl and 6-cyl aircraft engines. Its long duration spark and optimized timing curve makes more horsepower and improves fuel efficiency- at all altitudes. Other benefits include quick starts, reduced maintenance, light weight, lower EGT's and up to 20% more range. As with all LSE ignitions, RPM and manifold pressure inputs are used for our proprietary timing curves. The Plasma III is also capable of displaying the current timing advance, manifold pressure and rpm on an optional lightweight LCD display. The Plasma III can easily replace one or both magnetos, making your engine run better under all conditions.

## PLASMA CAPACITIVE DISCHARGE IGNITION SYSTEMS

All Plasma CDI systems include: high tension leads, harness, spark plugs, spark plug adapters, ignition coils with mounting bracket, and Hall Effect Sensor module OR Direct Crank Sensor assembly.		
Description	Part No.	Price
Plasma II Plus: 4 Cylinder Direct Crank Sensor	08-06294	<b>\$1,328.00</b>

On all Franklin and Continental engine ignition systems add \$194.99	08-06302	<b>\$194.99</b>

## S.5 SPARK PLUG ADAPTER FOR 14MM SPARK PLUGS RECOMMENDED BY KLAUS SAVIER OF LSE

Auto plug adapters allow for an easy conversion of 18mm (standard engine plug thread) to 14mm (common auto plug thread). Both short reach and long reach adapters are available. The Spark Plug Adapter allows you to use: High performance 14mm automotive plugs, that offer an almost unlimited variety of heat ranges, & electrode styles, designed specifically to take advantage of electronic ignitions - see ignition manufacturer documentation for recommendations (note: not all plugs are equally suited). Shorter plugs with 90° silicon boots provides greater clearance for sleeker cowls and less drag.

Some kits include 4 adapter gaskets.

Set of 4 without gaskets - Short Reach .....P/N 08-06753 .....**\$85.00**  
Set of 4 with gaskets - Short Reach .....P/N 08-06753-1 .....**\$63.75**  
Set of 4 without gaskets - Long Reach .....P/N 08-07608 .....**\$85.00**

## LSE DUAL OUTPUT IGNITION COIL

Ignition coils are typically mounted on the top center of the engine. They can also be mounted on the motor mount tubes using Adel clamps or on the firewall to a piece of angle aluminum. Ignition coils should be

mounted so that spark plug lead length will be kept to a minimum for maximum spark energy and minimum noise. It is important that each coil connects to opposing cylinders, i.e. one coil fires cylinders 1 and 2 and the other coil fires 3 and 4.

Ignition Coil .....P/N 08-14012 .....**\$97.75**  
Mounting Bracket .....P/N 08-14013 .....**\$14.75**

## LSE ALUMINUM BRONZE REACH SPARK PLUG ADAPTERS

Light Speed Engineering's standard issue spark plugs are pictured to the left. Single ground electrode with a short body make these a durable option for most applications.

W27EMR-C: Used on standard and high compression engines. The standard reach (1/2") spark plug adaptor is also pictured here (08-14009). This adaptor is used when converting aircraft engines using 1/2" reach aircraft spark plugs to 14mm plugs. Light Speed Engineering's spark plug adaptors are made of high strength aluminum bronze. \*These plugs and adaptors are included with ignition kit purchase for those with 1/2" reach.

1/2" Reach Spark Plug Adapter .....P/N 08-14009 .....**\$18.65**  
3/4" Reach Spark Plug Adapter .....P/N 08-14010 .....**\$23.75**  
HHP Long Reach Spark Plug Adapter .....P/N 08-14011 .....**\$23.75**

## L2E LIGHT SPEED TO EFIS ADAPTER

The L2e allows you to display the parameters of your Light Speed ignition module directly on your EFIS during flight. Your EFIS can record these parameters for download and diagnosis.

P/N 10-06222 ..... **\$95.50**

## WIRE TERMINAL CLIP

For 7 MM unshielded harnesses.

P/N 07-03500 ..... **\$0.45**

## HIGH TENSION CABLE

Unshielded 7MM ignition cable consists of tinned conductor, rubber insulation, reinforced glass braid and Hypalon

jacket that resists sun, weather, heat, chemicals and oxidation by ozone. Temperature range -65° to 250°F. P/N 07-03700 .....**\$1.25 Ft.**

# AVIATION SPARK PLUGS

## TEMPEST AVIATION SPARK PLUGS

**Made in USA.** Copper, co-extruded inside a nickel alloy sleeve ensures outstanding heat and electrical conductivity while the nickel sleeve offers high resistance to corrosive combustion gases. High Alumina Ceramic Insulator. "V" tip focuses heat to reduce fouling and enhance heat range control. Proprietary Glass Center Seal, and resistor design, eliminating resistor degradation causing misfire. Environmentally preferable electrolytic nickel provides outstanding durable finish, superior corrosion protection, and extreme wear resistance. Aviation grade nickel electrode design focuses on minimizing sparking voltage requirements. Harness Wire Contact is a smooth, uninterrupted, oxide treated spring contact surface.

## SILICONE HEAT TRANSFER COMPOUND

A thermally conductive grease based on zinc oxide and silicone oil that provides good thermal conductivity across a wide operating temperature range. Non-conductive, non-capacitive, and non-corrosive, it is used

to improve the thermal conductivity between irregular metal surfaces. It is widely used to improve heat flow between heat sinks and heat generating electronic components such as CPU's, GPU's, and power components. Silicone thermal greases are preferred in high operating temperature applications where silicone migration is not a concern. 4 Gram / 1.7 mL Pouch. P/N 09-05316 ..... \$3.35

## SPARK PLUG TYPE DESIGNATION SYSTEM

In the early 1900s, small planes flew with single ignition systems powered by adapted automobile engines using Champion-brand automotive spark plugs. By the 1920s, the company had developed innovative spark plugs designed specifically for the aviation industry. Champion Aerospace designs and manufactures Champion-brand piston-engine ignition components for both OEM and aftermarket for general aviation aircraft applications. Every spark plug manufactured has built-in design advantages that assure longer life and greater reliability. A typical spark plug number with symbol explanation.

M674 - Gasket: Spark Plug, 18mm. Made of solid copper to current aircraft standards. Box of 100. 1 in. X 1 in. X 0.063 in.....P/N 07-03425..... **\$66.75**

## SURPLUS SPARK PLUG BARGAINS

New surplus 18MM longreach, shielded, 3/4-20 barrel. FAA approved for Continental IO-470, GIO-470, TSIO-470, IO-520 & GTSIO-520. Not for 0-470, which uses short reach plugs. P/N 08-03699 ..... **\$9.65 ea**

**SEE TOOL SECTION FOR FULL LINE OF CHAMPION SPARK PLUG TOOLS**

## AN4062-1 DEHYDRATOR PLUGS 18MM

These plugs are used to prevent rust and corrosion in engines while in storage. Contain silica gel which turns from blue to pink when moisture is absorbed. Reusable & refillable. The pink silica gel may be reactivated (after removing from reservoir) by heating for 16 hours at 250°F.

AN4062-1 (18MM)..... **\$8.80 ea**  
**SILICA GEL. Indicating type, for refilling plugs.**  
1/4 Lb. Bag.....P/N 07-00731 ..... **\$6.50**  
1 Lb. Can .....P/N 07-03400..... **\$24.95**

## SPARK PLUG HOLE PROTECTIVE CAPS

#9721 Spark Plug Hole Caps. Seal your Spark plug hole openings with these inexpensive tapered fit plastic caps. Prevent debris from accidentally entering ports and creating damage or mischief. Ideal for sealing for winter storage, preventing moisture from corroding internal engine parts. Also can be used to seal

ports for leak testing, an important procedure that locates potential air leaks before they cause costly engine damage. Tapered fit provides positive seal for either vacuum or pressure testing. Tapers from 0.482" to 0.526". P/N 15-06003 ..... **\$0.23**

## CHAMPION IGNITERS

The research and development team at Champion Aerospace has pioneered the use of exotic materials to extend the life and enhance performance of turbine Igniters.

The patented Champion Series 21™ Igniter and lead incorporate numerous design benefits that improve performance, installation, and maintenance. Variable immersion depth allows it to be used in multiple engine platforms. The self-centering conical contact virtually eliminates flashover and arcing.

## CHAMPION EXCITERS

Champion Aerospace manufactures a broad range of high performance ignition exciters. From pioneering designs in solid-state technology, to the new, patented PPT exciter, the first true high-tension solid-state exciter, Champion combines the reliability and performance critical to aviation applications.

The Champion solid state ignition exciters are significantly lighter and more compact than any existing product on the market. PPT combines the technologies of both solid-state and spark-gap technology, but suffers none of the drawbacks.

## CHAMPION IGNITION LEADS

Champion Aerospace designs and manufactures a full range of aerospace ignition leads for turbine engine applications. New ignition leads from Champion Aerospace are available for a wide range of turbine engines, from small turbine APU applications to the large GE and PW turbofan engines, including the new Rolls Royce Trent 900 engines for A380 aircraft.

### LAMAR 14V VOLTAGE REGULATOR

Lamar Voltage Regulator DGR6-1 fits Cessna 150 thru Cessna 210 series aircraft. DGR6-1 is the PMA replacement for DGR6, C611001-0101, C611001-0102, C611001-0201, and VR600. Manufactured in the USA. P/N 07-01897.....\$189.95

### LAMAR 28V ALTERNATOR CONTROL

Lamar Alternator Control DGR3-1 fits Cessna 150 thru Cessna 210 series aircraft. DGR3-1 is the PMA replacement for DGR3, C611005-0103, C611501-0102, and VR15F. Manufactured in the USA. P/N 07-01896.....\$236.95

# HARTZELL ENGINE TECH. ALTERNATORS

## HARTZELL ENGINE TECHNOLOGIES ALTERNATORS

The most popular alternators in use on Cessna and Beech aircraft are of Ford manufacture. Chrysler alternators are usually found on Piper aircraft. These units are manufactured to aircraft specifications and are not available through automotive parts stores. Note: Core charge is billed on all exchange units & credited upon receipt of acceptable core.

### ALTERNATOR PRODUCT INFORMATION

### HARTZELL ENGINE TECH. OVERHAULED AL SERIES ALTERNATORS

Aircraft Spruce carries the full line of alternators, and starters which are remanufactured by Hartzell for installation in general aviation aircraft. Fully FAA approved. All prices shown are exchange prices. Core charges are billed when unit is shipped. Core credit is issued upon return of acceptable like model core to Aircraft Spruce West in Corona, CA. NOTE: If core is not in stock at factory, customer must send core to Aircraft Spruce at time of order to have the core overhauled.

## HARTZELL ENGINE TECHNOLOGIES ES-6012-6 ALTERNATOR - FACTORY NEW

ES-6012-6 - 12V/60A Belt Driven alternator created for six-cylinder Continental engines. This unit is based on the highly reliable, field proven 100A ES-10024 and extensive certification testing has demonstrated a marked increase in efficiency and performance compared to the legacy Continental Crittenden unit it replaces. Aside from the improvement in reliability, two additional advantages offered by this alternator is that owner/pilots will really appreciate are improvements both in cut-in and idle speed performance – with over double the power output at idle!

Benefits of the new HET ES-6012-6 alternator include:

- Dramatically increased reliability and estimated MTBF compared to legacy Crittenden alternators
- Overall efficiency increased by six to 10% over the entire operating range, resulting in lower operating temperatures

P/N 08-15659 ..... **\$790.00**

## HARTZELL ENGINE TECHNOLOGIES ES-6024D ALTERNATOR

This unit is based on the highly reliable, field proven 100A ES-10024 and extensive certification testing has demonstrated a marked increase in efficiency and performance compared to the legacy Continental Crittenden unit it replaces. Aside from the improvement in reliability, two additional advantages offered by this alternator is that owner/pilots will really appreciate are improvements both in cut-in and idle speed performance – with over double the power output at idle!

Benefits of the new HET ES-6024D alternator include:

- Dramatically increased reliability and estimated MTBF compared to legacy Crittenden alternators
- Overall efficiency increased by six to 10% over the entire operating range, resulting in lower operating temperatures
- Output at engine idle speed more than doubled to ~23A.

The ES-6024D alternator has been FAA PMA certified as a direct replacement for the 60A Continental Crittenden alternator on Continental -520 and -550 series engines. It replaces Continental alternator models 646843, 646490

and 642055 found on various twin Cessnas, Beechcraft Bonanzas and Barons, early pre-glass panel Cirrus SR-22s, and the Cessna TTx-series aircraft including early Corvallis and Columbia models.

P/N 07-18097 ..... **\$1,139.00**

## HARTZELL ENGINE TECHNOLOGIES ES-10024 AIRCRAFT ALTERNATOR - FACTORY NEW

Introducing the brand new ES-10024 28volt / 100amp aircraft alternator. The ES-10024 alternator is a direct replacement for TCM part number 656802. The ES-10024 is a field proven design that has been in use for over 5 years with thousands of alternators operating on the world's top selling aircraft. Prestolite Style - FAA/PMA Approved. Lightweight, cost effective, 2 yr. warranty.

## HARTZELL BRUSH HOLDER ASSEMBLY

Hartzell has designed a new two piece brush holder which is superior in construction and designed to ease both installation and removal during routine maintenance. These new brush holders are offered as a product improvement and are considered an alternate but will supersede the current brush holder assembly as field stock is depleted.

Recommended Alternators: Any aircraft utilizing ALE, ALH, ALT, ALU, ALX, ALY and ALZ series alternators. P/N 08-13833 ..... **\$102.75**

## ALE-1013AS FAA/PMA BRUSH SET

Brush set. ALE-1013AS FAA/PMA approval.

P/N 07-00963 ..... **\$19.50**

## ALTERNATOR DRIVE COUPLINGS

Overhauled alternator drive couplings for the gear driven TCM alternators.

Additional core charge added to purchase at time of checkout

**Part No. 646655R**

**Applicable to engine models:**  
IO-520, TS10-520, 10-550,  
GTS10-520

P/N 07-00641 ..... **\$575.00**

**Part No. 635796R**

**Applicable to engine models:**  
C-75, C-85, C-90, C-115, C-125, C-145, E-165, E-185, E-225, O-200,  
O-300, GO-300, GIO-300, IO-240, IO-360, TS10-360, & LTS10-360

P/N 07-00642 ..... **\$575.00**

# HARTZELL ENGINE TECH. ALTERNATORS

## HARTZELL ENGINE TECH. NEW ALTERNATORS

As the OEM, Hartzell offers factory new alternators engineered specifically to meet the challenges and increased demands of today's aircraft electrical systems. Each unit is aviation designed & developed, no automotive parts used. For decades our alternators have been powering Lycoming/Continental engines with unmatched performance and reliability. No Core charges.

### AL SERIES ALTERNATOR - Prestolite Style - FAA/PMA Approved.

ES4020	14V/90A	Belt Driven	08-07150	\$726.00
ES4029	28V/70A	Gear Driven	08-07151	\$895.00

### HARTZELL ALV-9610 ALTERNATOR

Lighter, Tougher, and Proven! Introducing the brand new ALV-9610. The ALV-9610 alternator is a direct replacement for gear driven heavyweight alternators on the Continental 520 & 550 engines. Weighing under 13 lbs., the ALV-9610 is up to 9 lbs. lighter than current heavyweight options. The ALV-9610 is a field proven design that has been in use for over 5 years with thousands of alternators operating on the world's top selling aircraft. FAA/PMA Approved.

**See Service Bulletin Document on our website regarding coupling SB11-3**

#### Features:

- Up to 9.6 lbs. weight savings (per engine)
- OEM Direct Replacement
- More power at engine cruise
- Built in noise cancellation
- Rugged design for extreme conditions
- More economical than overhauled units
- Two year warranty

#### Specifications:

- 28 Volt / 100 Amp Prestolite Style
- Max Continuous Oper. Speed: 10000 rpm
- Type Drive: Gear
- Min. Speed for Regulation: 2400 rpm
- Max. Operating Altitude: 35000 rpm
- Weight: 12 lbs.
- Rotation: Bi-Directional
- Replaces TCM part numbers: 642056, 646491, 646842, 649304, as well as ALV-..... 9510.
- P/N 08-07442..... **\$966.00**

### HARTZELL ES7024-14 ALTERNATOR

Hartzell Lightweight Alternator ES7024-14, for experimental use. 28 Volt, 70 Amps. Weight: 7 lbs.

Replaces TCM part number 657199.

#### Features:

- All aircraft quality parts, no automotive parts
- High altitude brushes
- High speed bearings
- High temperature varnish on rotor and stator
- No modifications necessary for Retro-fit into any existing Ford style applications
- Two year warranty

P/N 08-07444..... **\$782.00**

### HARTZELL ES10024 ALTERNATOR

Introducing the brand new ES-10024 28volt / 100amp aircraft alternator. The ES-10024 alternator is a direct replacement for TCM part number 656802.

The ES-10024 is a field proven design that has been in use for over 5 years with thousands of alternators operating on the world's top selling aircraft.

Prestolite Style - FAA/PMA Approved.

Lightweight, cost effective, 2 yr. warranty.

#### Features:

- Up to 9.6 lbs. weight savings (per engine)
- OEM Direct Replacement
- More power at engine cruise
- Built in noise cancellation
- Rugged design for extreme conditions
- More economical than overhauled units
- Two year warranty

#### Specifications

- 28 Volt / 100 Amp Prestolite Style
- Replaces TCM part number 656802
- P/N 08-07443..... **\$1,214.00**

# HARTZELL ENGINE TECH. ASG ALTERNATORS

## NEW HARTZELL ASG SERIES ALTERNATOR

ASG Series alternators were originally developed by Aero Electric and are OEM on several Cessna applications and PMA replacements for out-of-production 24V Ford alternators. The ASG aircraft alternator designs incorporated several improvements over the Ford alternators they replaced.

Model Number	Product & Application Information	Part Number	Price
ASG10001-13-PMA	60A/28V, Small Frame Ford mount eligible to replace Cessna/Ford alternators used on several legacy 28V single engine Cessnas, including 152, 172, 177, 180, 128, 206 and 207. Replaces Ford DOFF10300B (Cessna P/N C611503-0101 and -0102).	07-18003	\$722.00
ASG10001-17-PMA	60A/28V, Small Frame Ford mount used on Cessna 172R, 172S, 182S and 182T, as well as being eligible to replace Cessna/Ford alternators on legacy 28V, 188 and 207 model Cessnas. Replaces Ford DOFF10300B (Cessna P/N 1570213-7) and Cessna P/N 9910591-5 and -11	07-18004	\$632.00
ASG10001-18-PMA	60A/28V, Small Frame Ford mount used on Cessna 206H, T206H. Replaces Cessna P/N 9910591-6 and -12	07-18005	\$650.00
ASG12000-1-PMA	95A/28V, Large Frame Ford mount is eligible on many 28V legacy piston engine Cessnas, including: 182, R182, T182, TR182, A188, T188, U206, TU206, 207, T207, 210, T210, P210, and T303. Replaces Ford E3FF10300AA (Cessna P/N C611505-0102) and Cessna P/N 9910592-1.	07-18006	\$877.00
ASG12000-2-PMA	95A/28V, Large Frame Ford mount used on all Cessna 208s. Replaces Cessna P/N C611505-0201 and 9910592-2.	07-18007	\$940.00
ASG12000-3-PMA	95A/28V, Large Frame Ford mount used on Cessna 182S, 182T, T182T, 206H, T206H with 95A option. Replaces Cessna P/N 9910592-3.	07-18008	\$852.00

## OVERHAULED HARTZELL ASG SERIES ALTERNATOR

ASG Series alternators were originally developed by Aero Electric and are OEM on several Cessna applications and PMA replacements for out-of-production 24V Ford alternators. The ASG aircraft alternator designs incorporated several improvements over the Ford alternators they replaced.

**Additional core charge added to purchase at time of purchase.**

Model Number	Product & Application Information	Acceptable Cores	Part Number	Price
ASG10001-13R	60A/28V, Small Frame Ford mount eligible to replace Cessna/Ford alternators used on several legacy 28V single engine Cessnas, including 152, 172, 177, 180, 128, 206 and 207. Replaces Ford DOFF10300B (Cessna P/N C611503-0101 and -0102).	C611503-0101 & -0102	07-18003-1	\$395.00
ASG10001-17R	60A/28V, Small Frame Ford mount used on Cessna 172R, 172S, 182S and 182T, as well as being eligible to replace Cessna/Ford alternators on legacy 28V, 188 and 207 model Cessnas. Replaces Ford DOFF10300B (Cessna P/N 1570213-7) and Cessna P/N 9910591-5 and -11	1570213-7, 9910591-5 & -11	07-18004-1	\$373.00
ASG10001-18R	60A/28V, Small Frame Ford mount used on Cessna 206H, T206H. Replaces Cessna P/N 9910591-6 and -12	99105916 & -12	07-18005-1	\$395.00
ASG12000-1R-PMA	95A/28V, Large Frame Ford mount is eligible on many 28V legacy piston engine Cessnas, including: 182, R182, T182, TR182, A188, T188, U206, TU206, 207, T207, 210, T210, P210, and T303. Replaces Ford E3F-F10300AA (Cessna P/N C611505-0102) and Cessna P/N 9910592-1.	C611505-0102 & 9910592-1	07-18006-1	\$710.00
ASG12000-2R-PMA	95A/28V, Large Frame Ford mount used on all Cessna 208s. Replaces Cessna P/N C611505-0201 and 9910592-2.	C611505-0201 & 9910592-2	07-18007-1	\$735.00
ASG12000-3R-PMA	95A/28V, Large Frame Ford mount used on Cessna 182S, 182T, T182T, 206H, T206H with 95A option. Replaces Cessna P/N 9910592-3.	9910592-3	07-18008-1	\$668.00

## HARTZELL REPLACEMENT PARTS

For a complete listing of Hartzell Starters, Alternators, Turbochargers, Brush Sets, Bolts, Rotors, O-Rings, Bearings, Housings, Screws, Washers, Nuts, Seals, and other replacement parts, please see our website at

# HARTZELL STARTER OVERHAUL KITS

## HARTZELL STARTER OVERHAUL KITS

After consulting with industry operators, owners and flight schools, it was recognized that downtime is critical in this economy and there is a need to minimize downtime and costs when repairing or replacing Lycoming and Continental starters.

These overhaul kits include all parts necessary for a normal major overhaul, as well as any special tools, lubricants, and thread compounds. In addition, a complete digital Overhaul and Parts manual is included.

The model specific kits cover all starters manufactured by Lamar Technologies/Hartzell in eight different kits. The overhaul manual has been rewritten to highlight tear down and assembly with detailed drawings and instructions. The manual covers all aspects of the rebuild in easily understood steps with tech support just a call or email away. Average time to do a complete overhaul can be accomplished in less than an hour reducing downtime and increase revenue, as well as maintain the quality standards of the maintenance organization.

Description	Part No.	Price
PM1201-OHK - Fits all PM1201/1202 starters	07-01269-1	\$293.95

# PLANE POWER LIGHTWEIGHT ALTERNATORS

## PMA APPROVED ALTERNATOR REPLACEMENTS

Plane-Power Certified Alternators are PMA certified to replace any existing alternator in the aircraft and engine applications listed below. No STC paperwork required. All Plane-Power PMA alternators produce up to 70 amps. Your airframe/application may use only a portion of the available output as limited by the aircraft electrical system components and design. Every Plane-Power alternator is tested to exceed all quality and performance specifications. Plane-Power PowerFlex Voltage Regulators are also available separately.

For Lycoming engines 235, 320, 360, 540, 720 and Superior engines O-360, IO-360, Plane-Power alternators AL12-P70, AL12-70\*, and AL24-70\* replace Lycoming and Superior certified 70amp alternators: LW14300, LW14302, LW14308, LW14310, LW14316, LW14319, LW14322, LW14324. \*Comes with all new Plane-Power mounting brackets and hardware.

## PLANE POWER LIGHTWEIGHT C14-100 ALTERNATOR

The Plane Power alternator can produce all 100 amps if proper size wiring, ammeter and circuit breaker are installed and approved. PMA replacement, requires only a log book entry. Aircraft electrical system will be limited by existing wiring and output circuit breaker. Weight: 13 Pounds. Warranty: 2-Year Limited. 14 volt, 100 amp alternator. Replaces Hartzell/Kelly, Crittenden, TCM 50 – 100amp alternators on TCM 520 and 550 Series engines. See www.aircraftspruce.com for complete application chart. P/N 07-01948 ..... **\$1,391.00**

## ALT FLX UNIVERSAL LIGHTWEIGHT STC ALTERNATOR

The ALT FLX 100 Amps (14V)/150 Amps (28 V) at 12.5 pounds is precision balanced with dual internal cooling fans, built in noise filter and provides 70 Amps at engine idle speeds. This externally regulated alternator is a direct DOFF series alternator replacement and the STC allows for generator to alternator conversion. It is available for STC installation on most aircraft and helicopters. Optional Lycoming and Continental mounting kits are available along with multi-groove and v-belt pulleys.

Accessories/Options	Part No.	Price
Plane-power Flx Lyc Case Mount Install Kit	07-02462	\$141.75
Accessories/Options	Part No.	Price
Plane-power Flx Lyc Boss Mount Install Kit	07-02463	\$151.90
Plane-power Flx Cont Install Kit	07-02464	\$347.00

Plane-power Flx Install Kit Multi-groove	07-02688	\$139.95
Plane-Power Lightweight Alternator Bracket	07-17782	\$39.50

## PMA CONTINENTAL ALTERNATOR REPLACEMENT

The C28-150 is PMA FAA eligible on most Continental 520 and 550 Series engines with front mounted gear driven alternators. This Spectacular alternator in addition to providing a continuous 150A at X RPM will deliver 60A at 1000 RPM and weighing only 12.6 lbs! Also available without debris shield sold as model C28-150S. .... P/N 07-01838 ..... **\$1,417.00**

## LIGHTWEIGHT EXPERIMENTAL ALTERNATORS

Unlike automotive alternators, all Plane-Power Experimental Alternators are specifically engineered for Airplane Engines and have Dual Internal Fans designed for Airplane Engine Rotation the same as our Certified Alternators. 2 year warranty,

The **AL12-EI60** kit comes with an internally regulated ultra compact lightweight AIRCRAFT alternator (6.9 lbs.) with an exclusive internal crowbar over-voltage protection circuit. The alternator is fully pilot controllable through unique internal wiring. The dual internal fans are designed for aircraft engine rotation for maximum cooling. The AL12-EI60 kit includes the tension arm, mounting brackets, required AN hardware. 10 lb. 70amp also available. Also available 70 amp version only 2 additional lbs.

The **AL12-EI60-L**, Plane Power's 60A LSA alternator which must be installed in combination with Sky-Tec LSA starter, provides the industry's lightest charging/starting package at 13.2 lbs. for Lycoming's O-233, O-235, O-290, O-320 engines. Sky-tec starter to be purchased separately. Fits engines with 122 tooth ring gear and case mount engines.

The **EX14-50** 12/14 volt, 50 amp, internally regulated alternator with built-in Over-Voltage protection for use in EXPERIMENTAL Aircraft with small block Continental Engines. Includes Pre-Wired Enable Plug and Gaskets. Note: Overall Diameter: 4.4", Overall Length: 6". Use your existing drive gear and coupling. New gear and coupling also available separately. Warranty: 2-Year Limited Weight: 6.8 Pounds.

The **FS1-14 Fly Safe** back up alternator, internally regulated (13.6 volt +/-0.3) with built-in overvoltage protection. Designed for use in experimental aircraft. FS1-14. Features a 30A continuous output, precision internal voltage regulator, fail-safe Over Voltage Protection, Shear Coupling Assembly, 6lbs installed weight, higher level of safety. 2-Year Limited Warranty. Weight: 6 Pounds. 12 volt/30 amp. Also available as a primary unit sold as model FS1-14B.

# PLANE POWER CONVERSIONS & REGULATORS

## PLANE-POWER LIGHTWEIGHT STC GENERATOR TO ALTERNATOR CONVERSIONS

**BELT DRIVEN** - Include hardware and brackets to replace your existing generator and regulator. Plane-Power STC Belt Driven Generator Conversions allow for increasing the size of the output wire and circuit breaker to allow for a maximum of 70 amps of output. All Plane-Power alternators feature dual internal fans specially designed for aircraft engine rotation to maximize cooling. Models available for both 12 and 24 volt as well as for both Lycoming and Continental installations.

Model	Output	Voltage	Part No.	Price	Model	Output	Voltage	Part No.	Price
SAL12-70	70 (max)	12	07-01301	\$784.00	TAL24-70	70 (max)	24	07-01304	\$1,673.00
SAL12-70C	70 (max)	12	07-01299	\$833.00	TAL24-70C	70 (max)	24	07-01303	\$2,095.00
TAL12-70	70 (max)	12	07-01302	\$1,620.00	Mounting Kit for SAL12-70C			P/N 07-03577	\$333.00

**GEAR DRIVEN** - Plane-Power Gear Driven Generator to Alternator Conversion Kits replace your existing generator with an alternator which will provide higher output at lower rpm and allow for increasing the size of the output wire and circuit breaker to allow for a maximum of 50 amps of output. The ER14-50 uses your existing gear assembly. The entire gear assembly (ER14-GR) may be purchased separately. Some older generators have larger diameter (5/8") shafts and require the gear support kit (G-Pack). Please call for details. The ER14-50 weighs 6.9 lbs and comes with a pre-wired enable plug, 50 amp gear driven alternator, alternator inoperative lamp, Seals and R1224B Power-Flex voltage regulator.

Model	Output	Voltage	Part No.	Price	
ER14-50	50 (max)	12	07-01321	\$759.00	
<b>Accessories</b>					
Gear Drive designed for use with the ER14-50				07-01348	\$97.85

## PLANE-POWER ALTERNATOR VOLTAGE REGULATORS

Plane-Power Power-Flex Voltage Regulators are FAA-PMA Approved. Available for most certified aircraft. Solid-state voltage regulators with over-voltage protection, field short (over current) protection, and reverse battery protection. Plane-Power Power-Flex voltage regulators also support precision load sharing for twin applications and an alternator inoperative lamp. Power-Flex voltage regulators are designed to be setup in the field for 14 or 24 volt operation by a simple placement of the two internal jumpers. For smaller mounting placement on the R1224, installation aid 12-1021 may be used.

R1224

R1224B

Model	Description	Voltage	Part No.	Price
R1224	Replaces many Ford, Electrodelta, Prestolite, Interav, Wico, and FVR voltage regulators.	14V or 28V	07-01305	\$184.75
R1224B	Replaces voltage regulators on twin Cessnas, Beechcraft, and Vulcanair.	14V	07-01306	\$184.75
12-1021	Adapter Plate - Visit our website for a list of common aircraft in need of this adapter.	---	07-03532	\$28.70

14V	P/N 08-14616	\$49.95
28V	P/N 08-14617	\$58.75

## GEAR ADAPTER KIT G-PACK

Required for use with the existing drive gear when the generator shaft is over 0.5" in diameter. Uses existing gear from replaced generator.

Description	Part No.	Price
Gear Adapter Kit # G-Pack	07-01348	\$97.85

## REPLACEMENT SEAL FOR HARTZELL ER14-50

ER14-50	P/N 08-14618	\$34.50
---------	--------------	---------

## PLANE POWER ALTERNATORS ONLY - WITHOUT MOUNTING KIT

Plane-Power alternators are FAA PMA certified to replace the vast majority of popular general aviation alternators. Plane-Power also manufactures an alternator kit for experimental aircraft applications that comes complete with required brackets, spacers, internal cooling, voltage regulation (choice of internal or external), and over-voltage protection. Plane-

Power alternators are warranted for 2-years against component failures.

## PLANE POWER C28-150 ALTERNATORS

- Dual cooling fans ensure effective cooling and unmatched durability even in low engine RPM/high output installations.
- Compact size simplifies installation and ongoing inspections.
- FAA-PMA approved, no STC required for installation.

Plane-Power C28-150 line of FAA-PMA certified, 28V/150 Amp high output, gear-driven alternators.

These factory-rebuilt units will carry the same two-year warranty offered on every new Plane-Power alternator.

The Plane-Power C28-150 gear-driven alternators deliver more continuous power at lower engine RPMs than any other aircraft alternator. Aircraft owners with high electrical demand during ground operations; such as those with sophisticated avionics suites or electrically-driven air conditioning systems, will appreciate the abundant electrical power they will get at idle with these Plane-Power alternators.

C28-150-FR With Debris Shield .....P/N 07-18127 .....\$1,484.00  
C28-150S-FR without Debris Shield.....P/N 07-18128 .....\$1,445.00

## PLANE POWER C14-100 ALTERNATORS

- Dual cooling fans ensure effective cooling and unmatched durability even in low engine RPM/high output installations.
- Compact size simplifies installation and ongoing inspections.
- FAA-PMA approved, no STC required for installation.

Plane-Power C14-100 line of FAA-PMA certified, 24V/150 Amp high output, gear-driven alternators.

These factory-rebuilt units will carry the same two-year warranty offered on every new Plane-Power alternator.

The Plane-Power C14-100 gear-driven alternators deliver more continuous power at lower engine RPMs than any other aircraft alternator. Aircraft owners with high electrical demand during ground operations; such as those with sophisticated avionics suites or electrically-driven air conditioning systems, will appreciate the abundant electrical power they will get at idle with these Plane-Power alternators.

# AEROTECH OVERHAULED GENERATORS

Delco Generators are overhauled using only FAA approved components. In stock or have the capability to overhaul almost every 12 or 24 volt Delco-Remy Aircraft Generator. Each unit is tested to manufacturer's original operating specs before it leaves our facility.  
Shipments will include domestic 8130 form.  
Attention: Should a core unit not be available in stock with factory; at time of order customer must ship in core to be overhauled.  
Ship to: 225 Airport Circle, Corona Ca. 92880

# B & C ALTERNATORS

## B & C LIGHTWEIGHT ALTERNATORS

### L-40 ALTERNATOR

The L-40 is a high-performance belt-driven 40 amp alternator for Lycoming engines. Designed to meet the rigorous demands of weight-sensitive homebuilt designs, without sacrificing reliability, the L-40 alternator features a precision-balanced rotor, sealed heavy-duty ball-bearings and 2 internal cooling fans. Weighs 6.1 lbs. and measures 3.9" (diameter) x 5.6" (length). Also includes mounting hardware, belt tension arm, and belt. Applicable to Lycoming O-235 through IO-720 engines.

L-40 Boss Mount (Wide Deck engine) P/N 07-06815 .....\$378.00  
L-40 Case Mount (Narrow Deck engine), w/ B&C Starter P/N 07-06810 .....\$498.00

**L-40 requires an external voltage regulator – see BELOW**

**L-40 alternators require external regulators – use:  
P/N 07-06742 (LR3C) for 14V, P/N 07-06786 (LS1A) for 28V**

### BC433-H GEAR DRIVEN ALTERNATOR WITH PMR3A

The BC433-H is a 30 amp 14V gear-driven alternator for Continental engines (C-75 through O-300). Featuring a unique brushless design, with a billet aluminum mounting flange and heavy-duty ball bearings, the BC433-H is an ideal choice for a variety of homebuilt designs. Weighs 4.4 lbs. and measures 4.1" (diameter) x

3.75" (length). Also includes a matching PMR3A Regulator and 505-1 Over-Voltage Protection kit. Sold without the Continental drive gear assembly (customer supplied), and requires the latest revision of the Hub (P/N 07-01327) and Retainer (P/N 07-01328). B&C has a limited supply of used drive gear assemblies, available at additional cost.

BC433-H Alternator..... P/N 07-00771 .....\$674.00

#### ACCESSORIES

Generator Coupling (Cont. P/N: 653983).. P/N 07-01327..... \$369.85  
Generator Retainer (Cont. P/N: 653982). P/N 07-01328..... \$25.43

### SD-8 ALTERNATOR & REGULATOR

The SD-8 is a lightweight, spline-driven 14V alternator system for aircraft with an available vacuum pump drive pad. Features an ultra-reliable, brushless design, with a billet aluminum mounting flange and sealed heavy-duty ball bearings. With a nominal output of 8 amps, the SD-8 alternator is adequate for many day-VFR applications, and may be used as a backup power source on a variety of homebuilt aircraft. The SD-8 is a long-time favorite of top aerobatic pilots around the world. Weighs 2.9 lbs. and measures 3.5" (diameter) x 4.6" (length). Also includes a matching PMR1C Regulator, MS9134-01 gasket, and 504-1 Over-Voltage Protection kit.

P/N 07-06770 .....\$544.00

### LR3C AND LS-1A LINEAR CONTROLLERS (REGULATORS)

P/N 07-06742

The LR3C and LS-1A are more than your typical regulators; more accurately, they are alternator controllers. Each device combines 3 essential functions in one physical container—linear ("quiet") regulation, solid-state over-voltage protection, and low-voltage monitoring and warning. This makes possible sophisticated, space-saving, and cost-effective alternator control for homebuilt aircraft, while also improving safety of flight. The LR3C-14 may be used with 14 volt externally regulated alternators, while the LR3C-28 may be used with OEM-type, 28 volt externally regulated alternators. The LS-1A permits the use of B&C alternators in a 28 volt electrical system. The LR3C and the LS-1A weigh approximately 9 ounces each, and are intended for circuit type "B" (one field lead grounded directly) alternator systems.

LR3C-14 Regulator/Controller (14V).....P/N 07-06742 ..... \$179.95  
LR3C-28 Regulator/Controller (28V, OEM alternator) P/N 07-06748 ..... \$179.95  
LS-1A Regulator Controller (28V, B&C alternator) P/N 07-06786 ..... \$179.95  
Battery Temperature Sensor.....P/N 07-06744 ..... \$105.95

### BC460-H ALTERNATORS

Introducing the "Next Generation" 60 amp Alternator that saves both weight AND money – without sacrificing performance or reliability. The BC460-H features heavy-duty sealed ball bearings, two internal cooling fans, and a precision dynamically-balanced rotor (rare in the industry, but standard on every B&C!).

Additionally, it has three attachment points for stable mounting, and we uniquely modify the BC460-H for use with a more sophisticated, aircraft style, external voltage regulator with over-voltage protection. The BC460-H may be used in either a 14 volt or 28 volt electrical system, and includes your choice of Boss (Wide Deck) or Case (Narrow Deck) mounting brackets, attachment hardware, belt tension arm, high-performance belt, and pre-wired field connector assembly. Weight: 7.1 lbs.

Alternator Boss Mount ..... P/N 07-17981 ...\$529.00  
BC460-H Alt. Case Mount For B&C Starter ..... P/N 07-17982 ...\$529.00  
BC460-H Alt. Case Mount For Non B&c Starter ..... P/N 07-17983 ...\$529.00

### B & C BC462-H ALTERNATOR

The high-performance spline-driven alternator from the company that pioneered the spline-driven alternator over 20 years ago! The BC462-H mounts on a standard AND20000-spec accessory pad, and offers robust performance with a rated output of 35 to 45 amps @ cruise RPM. Every BC462-H features a CNC machined billet aluminum mounting flange for superior durability, heavy-duty sealed ball bearings, two internal cooling fans, a precision dynamically-balanced rotor (a B&C quality essential), and a special "shear section" drive coupling. Suitable for 14 volt or 28 volt applications, the BC462-H is designed for aircraft-style external control, and may be used as either a Primary or a Standby Alternator, depending on the electrical system configuration (see note below). Includes mounting gasket and pre-wired field connector assembly. Weight: 6.75 lbs.... P/N 07-17985 ...\$699.00

**NOTE: L-40, BC460-H, BC410-H, and BC462-H alternators require external regulators - use: P/N 07-06742 (LR3C) for 14V Primary, P/N 07-06786 (LS-1A) for 28V Primary, P/N 07-03461 (SB1B-14) for 14V Standby, and P/N 07-03462 (SB1B-28) for 28V Standby.**

### BC410-H ALTERNATOR

The BC410-H is the original high-performance spline-driven alternator that mounts on a standard vacuum pump accessory pad. It may be used either as a primary or a stand-by alternator for a nominal output of 20 to 30 amps, depending on engine RPM. Designed

for many hours durable service, the BC410-H features a dynamically balanced rotor, heavy-duty sealed ball-bearings, 2 internal cooling fans, and a special "shear section" designed into the drive coupling. The BC410-H is externally-regulated, and may be used in either 14 and 28 volt homebuilt aircraft using our LR3C-14 (14V), LS-1A (28V), or SB1B (14V or 28V) Controllers. Measures 4.6" (diameter) and 6.0" (length), and weighs 5.75lbs. The BC410-H will clear a stock tachometer cable on Lycoming engines, as well as B&C Oil Filter Adapters.

P/N 07-06771 .....\$494.00

### 200G ALTERNATOR & REGULATOR

The 200G is a 12 amp 14V gear-drive alternator for Continental engines (C-75 through O-300). Features an ultra-reliable, brushless design, with a billet aluminum mounting flange and heavy-duty ball-bearings. Used in the prototype Vari-Eze, as well as many Cassuts, Q-200s, and other homebuilt aircraft, the 200G has been in production for over 30 years, with many systems still in service. With a nominal

output of 12 amps, the 200G will support a modest night-VFR night system. Measures 4.4" (diameter) and 3.8" (length), and weighs 3.4 lbs. Also includes a matching PMR1C Regulator and 504-1 Over-Voltage Protection kit. Sold without the Continental drive gear assembly (customer supplied; or purchased at additional cost). Gear assembly must be installed by B&C – send to Aircraft Spruce for installation.

200G Alternator.....P/N 07-06575 .....\$540.00  
New Drive Gear.....P/N 07-06500 .....\$1,017.00

### B&C PERMANENT MAGNET ALTERNATOR OVER-VOLTAGE (PM/OV) KITS

The PM/OV Kit is designed to provide over-voltage protection to homebuilt aircraft electrical systems using a permanent magnet alternator. Features a solid-state "crowbar" over-voltage protection module, relay, filter capacitor, panel-mount warning lamp, and wire terminals. Included with all new B&C Permanent Magnet Alternator systems.

504-1 20A PM/OV Kit (14 Volt).....P/N 08-00658 .....\$67.75  
504-2 20A PM/OV Kit (28 Volt).....P/N 07-00708 .....\$64.99  
505-1 40A PM/OV Kit (14 Volt).....P/N 07-03488 .....\$76.75

EP

# STARTERS – ALTERNATORS

## LIGHTWEIGHT STARTERS FOR LYCOMINGS

Lightweight Starter for Lycoming engines. Weighing only 10.3 lbs., this Starter was designed to meet rigorous demands of aircraft designs, without sacrificing reliability or performance. Introduced over 25 years ago, this same design has provided dependable service for thousands of satisfied customers. Every B&C Starter features heavy-duty sealed ball-bearings, all metal gears, electro-mechanical pinion engagement (no Bendix drive), and an efficient series-wound motor. Cantilevered pinion gear mounting requires no forward shaft support bearing, thus eliminating cowl interference or on-going maintenance. If battery failure precedes engine starting, a positive spring retraction system insures pinion gear disengagement. Both STC/ PMA and Homebuilt versions are available in 14 volt and 28 volt configurations. FAA-approved for any of the following series of Lycoming engines: • O-235 • O-290-D • O-320 • IO-320 • AIO-320 • AEIO-320 • LIO-320 • O-360 • HO-360 • LO-360 • IO-360 • HIO-360 • AIO-360 • AEIO-360 • TIO-360 • LTIO-360 • O-540 • IO-540 • HIO-540 • AEIO-540 • TIO-540 • LTIO-540 • IO-720

## B & C LIGHTWEIGHT STARTERS FOR CONTINENTALS

With an innovative, patented design, the BC320 Starter for Continental engines solves all the problems that other starter designs have had—from worn-out clutches and broken pinions, to nagging oil leaks and catastrophic failure modes. Weighing only 10.3 lbs., it is also 4.3 to 5.2 lbs. lighter depending on your current starter configuration. Built for reliable service, the BC320 features a billet aluminum end bell, heavy-duty sealed ball-bearings, all metal gears, electro-mechanical pinion engagement, and an efficient series-wound motor. Cantilevered pinion gear mounting requires no forward shaft support bearing. The BC320 is a complete starter, ready to install, and includes an installation kit to convert from an existing pull-type starter, or an existing key-type starter. Both STC/ PMA and Homebuilt versions are available. FAA-approved for the following Continental engines: • C-75 • C-85 • C-90 • O-200 • C145-2 • IO-240 • O-300 • GO-300-A/B/C

If you are replacing an existing key-type starter, a needle bearing will need to be removed from your engine before installing the BC320. A special tool kit is available to aid in removing this needle bearing. If you do not care to keep this kit, you may return it and be refunded \$80.00.  
501-2 Needle Bearing Removal Tool Kit..... P/N 07-06753 ..... \$105.90  
501-3 ..... Installation Kit (pull cable)..... P/N 07-06754 ..... \$62.85

## LS-1A VOLTAGE REGULATOR

The LS-1A Controller offers linear voltage regulation, integral over-voltage protection, and low-voltage monitoring and warning. It has been specially designed, however, to permit the use L-40 & L-60 alternators in a 28v electrical system. The LS-1A weighs approximately 9 ounces, may be mounted on the cockpit side of the firewall, and is available with an optional battery temperature sensor for colder climates. Select a location for mounting that will protect unit from heat, vibration, and water. The pilot side of the firewall, or inside the cabin near the instrument panel, is recommended.  
For Experimental Aircraft ONLY .....P/N 07-06786 .....\$179.95

## JASCO GEAR DRIVEN ALTERNATOR KITS

The Jasco alternator is STC'd for many aircraft including the early Cessna 150, 172, and 175 series as well as Beech Model 35's with early E series Continental engines. Applicable to Continental C-90, O-200 and O-300 engines. Well-proven over many years of use in a variety of aircraft. Kit variants include alternator, voltage regulator, and over-voltage control.

## TURBO STAND-BY ALTERNATOR

The Basic BAE-14/28 Auxiliary Power Supply is a manually deployed, air driven, emergency electric supply for small aircraft. Capable of supplying electric power to drive a basic complement of flight critical instruments. If a primary electrical system failure should occur, the pilot deploys the miniature turboalternator. The appropriate installation kit is included to reduce installation time and cost. The BAE-14/28 is currently STC'd for seven aircraft models: Cessna 210, 206, 182, Piper PA-32, PA-28, Bonanza, and Mooney. One Cardinal installation is flying on a 337.

Piper PA-32, PA-28, Bonanza, and Mooney. One Cardinal installation is flying on a 337.

# HARTZELL ENGINE TECHNOLOGIES STARTERS

## X-DRIVE STARTERS FROM HARTZELL ENGINE TECHNOLOGIES

- Weight 7.6 lbs.
- Perfect spin » Sweet spot engine starts, doesn't drain your power like other starters
- Start efficiency » Lowest inrush & operating current draw in the industry
- No mechanical Bendix
- Electromechanical solid-state solenoid
- Powerful permanent magnet » Performance
- Easy installation » Left or right mount
- FAA/PMA approved
- 2 Year Unlimited Hours Warranty \*

The X-Drive aircraft starter is one of the most popular models because of its awesome power and compact size. Targeted toward Lycoming users that want one of the industries lightest but most powerful starter on the market, the X-Drive delivers the same high torque, low current draw, and superior duty cycle that had previously been available only to E-Drive customers. The introduction of the X-Drive starter allows Hartzell Engine Technologies to service virtually all OEM and aftermarket Lycoming applications. \* Kick-backs not covered

**Only 7.6 lbs.  
Lightest Starter Available**

## HARTZELL ENGINE TECHNOLOGIES E-DRIVE STARTERS

- Lightweight neodymium permanent magnet motor
- In line design
- Self-resetting torque limiter for kickback protection
- Internal solenoid engagement
- Drive pinion supported by bearings on both ends

E-Drive aircraft starters offer industry-leading, robust, high duty cycle starters in a lightweight package. By utilizing a powerful neodymium permanent motor driven through a self-resetting negative torque-sensing device, the E-Drives provides unparalleled kickback protection, preventing hours of down time and replacement costs. The E-Drive aircraft starter is solenoid engaged, eliminating the need for a Bendix drive. Its low current draw helps maintain good battery life.

- High Performance Armature
- Increased commutator bar length
- Thin laminations
- High quality magnetic alloy
- 12 & 24 volt winding configuration
- Redesigned Brush Holder
- Metal construction for heat sinking
- Offset brush position for increased brush contact area

- Robust spring design
- High performance field housing
- Rare earth neodymium magnets
- Small package
- Stronger flux field
- Improved temperature stability
- 9.5 lbs.

- Starter system designed for maximum performance.
- Drive assembly integrates proprietary pinion gear, clutch, torque limiter, and actuator in one complete module.
- Available for coarse and fine pitch ring gears, clockwise and counterclockwise rotation.
- No periodic service or recurring maintenance required.
- 9.5 lbs.

# HARTZELL ENGINE TECHNOLOGIES STARTERS

## HARTZELL OVERHAULED STARTERS

In addition to the factory new Lamar starters listed above, Aircraft Spruce also stocks overhauled Lamar starters. The PM1201 starter is ideal for the Lycoming O-320 & O-360 series engines and the PM2401 is applicable to the Lycoming O-540 series engines. Like the new Lamar starters, these overhauled starters are FAA/PMA approved, fully bench tested, provide superior cold weather performance, utilize a patented permanent magnet design, use a planetary gear reduction for optimum speed and torque (110 RPM), and draw less amperage than lightweights to help lengthen battery life. Overhauled PM2404H starter..... P/N 08-06015..... \$319.95

## HARTZELL STARTER OVERHAUL KITS

Lamar Technologies overhaul kits include all parts necessary for a normal major overhaul, as well as any special tools, lubricants, and thread compounds. The model specific kits cover all starters manufactured by Lamar Technologies in eight different kits. The overhaul manual has been rewritten to highlight tear down and assembly with detailed drawings and instructions. The manual covers all aspects of the rebuild in easily understood steps with tech support just a call or email away. (See Documents Tab) Average time to do a complete overhaul can be accomplished in less than an hour reducing downtime and increase revenue, as well as maintain the quality standards of the maintenance organization.

Description	Part No.	Price
PM1201-OHK - Fits all PM1201/1202 starters	07-01269-1	\$293.95

# SKY-TEC STARTERS

## SKY-TEC ST2 & KCST2 MODEL STARTERS FOR SMALL CONTINENTAL ENGINES

**SKY-TEC PULL START CONVERSION C12ST2 - FOR FACTORY KEYSTART STARTER FOR A65-12 THROUGH O-300C ENGINES** - 9.2 lbs., Bolt-off / Bolt-on, High Torque, Low-Current, Gasket Included, Replaces TCM starter & continuous running sprag clutch in TCM factory keystart engines. Now featuring internal, self-

resetting Kickback Protection System - zero maintenance - no pin to shear. **SKY-TEC KCST2 - STC-CERTIFIED CONVERSION KIT FOR FACTORY PULL-START ENGINES** - STC Modification of Engine Required (removal of OEM starter pinion shaft in rear of engine). STC Modification of Airframe Required (replacement of pull-start T-handle with Sky-Tec-supplied push button & wiring) High Torque, Low-Current, 9.2 lbs. Now featuring internal, self-resetting Kickback Protection System - zero maintenance - no pin to shear. **Complete Conversion Kit includes:** C12ST2/S Starter, Push Button Switch, Wiring Harness, Gasket, Instructions, STC for Airframe Modification, STC for Engine Modification **SKY-TEC KEY-START C12ST2/SR - REVERSE TURNING** for Continental GO-300 Engines ONLY - Internal, self-resetting Kickback Protection System - zero maintenance - no pin to shear. 6-8 lbs. lighter and significantly more reliable than the original, heavyweight factory starter. **Also sold in a Kit (KCST2/SR)** STC Certified conversion kit includes C12ST2/SR REVERSE TURNING starter for GO-300 engines (only), push-button switch, push-to-start placard, wiring harness, two STC's (one for airframe modification, one for engine modification) and instructions. 2-year factory warranty.

- Model C12ST2 (Starter only).....P/N 07-00614 .....**\$599.00**
- Model C12ST2/S (Starter only) .....P/N 07-00719 .....**\$599.00**
- Model KCST2 conversion kit .....P/N 07-00721 .....**\$624.00**
- KCSW Switch and harness only.....P/N 07-00722 .....**\$71.75**
- Model C12ST2/SR (Starter only).....P/N 07-01855 .....**\$605.00**
- Model KCST2/SR (Kit).....P/N 07-01856 .....**\$633.00**

## SKY-TEC ST3 MODEL STARTERS

### FOR LARGE CONTINENTAL ENGINES

Safe for all types of TCM starter adapters! Feature Sky-Tec's exclusive proprietary clutch design virtually eliminating starter induced TCM starter adapter wear. FAA/PMA certified replacement part approved for all TCM starter adapters including "classic Style", "improved style", "permod", and "sand cast" engines. Simple bolt-off / bolt-on installation. Designed to crank no slower than TCM heavyweight OEM starters. Weight: 6.9 lbs. Generous 2-Year factory warranty.

- Model C12ST3 12 Volt.....P/N 07-00766.....**\$620.00**
- Model C24ST3 24 Volt.....P/N 07-00767.....**\$535.00**

## SKY-TEC ST4 SERIES STARTERS FOR TCM

The proven centrifugal release clutch from the ST3 is combined with the higher torque motor of the ST5 to provide a light weight, high torque, starter adapter friendly starter perfect for both 12 volt and 24 volt 470-powered aircraft. Recommended for 12V and 24V Continental 470-series engines. For O-300-D through TSIO-550 engines, eligibility is by FAA PMA Supplement 12.

- 12V(C12ST4).....P/N 07-17769 .....**\$519.00**
- 24V(C24ST4).....P/N 07-17770 .....**\$563.00**

## SKY-TEC ST5 SERIES STARTERS

The ST5 starter couples a high power 2.2 kW motor with an innovative solenoid-engaged (and disengaged) drive system completely disengages the powerful permanent magnet motor while the starter is unpowered eliminating possible TCM starter adapter wear while providing authoritative, high-torque starting. Positive solenoid enabled engagement and disengagement allows the TCM starter adapter to fully unwrap under all normal operating conditions thus greatly prolonging starter adapter life. Weight: 9.1 lbs.

- C12ST5 .....P/N 07-01341 .....**\$519.00**
- C24ST5 .....P/N 07-01342 .....**\$554.00**

## SKY-TEC BCE-6 EXTENSION CABLE KIT

6" Battery Cable Extension kit aids the installation of starters in aircraft that have limited slack available in the aircraft's starter power cable. Generally not required for TCM starter installations. May be needed in some PM, and NL model Lycoming installations. P/N 07-00923 .....**\$16.85**

## SKY-TEC LSA STARTER

The lightest Lycoming starter ever at just 6.3 lbs. The 122-LSA is Lycoming's factory OEM starter on the new O-233 LSA engine. An excellent 12V starter for O-235, O-290 and O-320 engines with 122-tooth ring gears. Plenty of torque, high cranking speed, low current draw. Features a precision machined housing specifically designed to mount the lightweight Plane-Power AL12-E160 alternator - enabling the industry's lightest weight starter/alternator pairing at just 13.2 lbs. for both! Perfect for lightweight, Lycoming-powered LSA aircraft. Experimental.

- Starter 122-LSA.....P/N 07-01806 .....**\$465.00**
- 122-LSA Starter & AL12-E160-L Alternator Kit  
P/N 07-01806-1 .....**\$949.00**

## SKY-TEC STARTERS HIGH-TORQUE INLINE STARTERS FOR LYCOMING ENGINES

Featuring Sky-Tec's Exclusive KPS® Kickback Protection System, Sky-Tec's NL-series of starters fit all Lycoming powered aircraft. All NL-series starters are FAA-PMA certified as replacement parts for all non-geared, flat Lycoming engines. Sky-Tec NL-series starters fit without modification or 337 paperwork. At only 9.3 lbs., the NL-series is the lightest Bendix-free inline available. Two-year warranty.

Model No.	Voltage/Description	Pitch	FAA-PMA Eligible	Part No.	Price

## SKY-TEC HIGH-TORQUE STARTER

One of the lightest Lycoming starters available at only 8.9 lbs. Spins twice as fast as most heavyweight OEM starters. Zero maintenance - no pins to replace in the event of a kickback. FAA-PMA approved for most Lycoming engines. Some airframe applications may require minor modification for best fit. Confirm aircraft fit, ring gear tooth count and voltage before ordering. 2-Year factory warranty.

## SKY-TEC FLYWEIGHT™ STARTERS FOR LYCOMING ENGINES

FAA-PMA approved for most Lycoming engines. Some airframe applications may require modification for best fit. LS model has the solenoid offset to the left side and PM model is offset to the right. Confirm aircraft fit, ring gear tooth count and voltage before ordering. Generous 2-Year factory warranty. Note: The LS Solenoid is at the 2:30 position and the PM Solenoid is at the 7:30 position when viewed from the front. 8.1 lbs.

Model	Part No.	Price
122-12LS	07-06245	<b>\$437.00</b>

149-24PM	07-06257	<b>\$463.00</b>

## SKY-TEC XLT STARTERS

The world's lightest starter ever certified for Lycoming engines. Only 6.5lbs! Only 8 inches total length and 3.5 inches tall! Left-side mounted solenoid. High torque and fast spin. FAA PMA certified for most Lycoming 4-cylinder engines from O-235 to IO-390. Low current draw. Highly durable, fortified aluminum mount/housing. No Bendix to lubricate. Nothing to maintain. 2-Year factory warranty.

Voltage	Model	Recommended for	Part No.	Price

STS-12A	12	Continuous Duty (Aux) Solenoid	07-03566	\$71.75
STS-24A	24	Continuous Duty (Aux) Solenoid	07-03567	\$88.90

## GPL ELECTRIC STARTERS

GPL Electric offers an electric starter kit for several rotax engines. This unique system not only allows you to retain pull start, but also allows you to keep oil injection (if present) otherwise, a cover plate can be used (if space constrained). This system safely engages the ring gear at a 90 degree angle, then fully disengages from the crankshaft. The gpl electric starter kit will not disable the engine due to malfunction, so it is the safest designed after market starter kit available for rotax engines and is made in the U.S.. GPL Electric also provides excellent warranty, comprehensive technical support and maintains a full replacement of parts inventory.

### GPL STARTER KITS FOR ROTAX ENGINES

#### GPL Electric Starter Kit Includes:

(M8) Hi Collar Split Washer, (M6 X 90) Socket Head Cap Screw, (M6) Hi Collar Split Lock Washer, (M6 X 18) Socket Head Cap Screw, (M6) Split Lock Washer, (M8 X 25) Socket Head Cap Screw, (M8 X 22) Low Profile Socket Head Cap Screw, Main Casting (D3) Sits In The 10:00 Pos or Main Casting (D4) Sits In The 11:00 Pos, Ring Gear, Inner Spacer, Starter Motor (Heavy Duty), Loctite 242 Threadlocker, Installations Instructions, and Coverplate (If Not Retaining Pull Start)

#### If Retaining Pull Start The Following Is Also Required

Outer Spacer (1), (M8 X 12) Hex Head Cap Screw (3), (M8) Split Lock Washer (3), and (M6 X 22) Socket Head Cap Screw (4)

The Deluxe Starter Kit Includes: Rubber Insulating Boots, Push Button Switch, Solenoid, Regulator/rectifier, 20 Amps Fuse / Fuse Holder, Cables & Wiring (aircraft Specific), Hardware (nuts/bolts). Deluxe Add On Kits Weighs 3 Lb

Application	Model No.	Part No	Price
Challenger Air Crafts (11 ft Cable)	03-009-11	15-08341	\$173.50
Other Air Crafts (5 ft Cable)	03-009-05	15-08340	\$173.50

### GPL ELECTRIC REPLACEMENT STARTER MOTORS

This motor fits all GPL Starter Kits and the Hirth F23 Engine as well. Heavy Duty Starter Motor Model 02-70HD  
P/N 15-05371..... \$262.64

### REPLACEMENT STARTER MOTOR FOR ROTAX

(Replaces Rotax P/N 995-430) Voltage: 12 kW: 0.6 Condition: New Rotation: CW Starter Type: PMDD Number of Teeth: 9 Gear OD: 1.154" / 29.3mm Mtg Ear 1 Hole: M8-1.25 Threaded Mtg Ear 2 Hole: M8-1.25 Threaded Weight: 5.2 lbs / 2.36 kg.

Model No. 02-80..... P/N 07-02388..... \$199.00

### GPL PULL START RETENTION KIT

GPL pull start retention kit for Rotax 337, 447, 503, 532 - points and 532 - CDI.  
P/N 15-05374..... \$135.00

### GPL PULL START RETENTION KIT

GPL pull start retention kit for Rotax 462, 582, 618, 670.  
P/N 15-07970..... \$135.00

### GPL CLOCKWISE STARTER F33 AND CUYUNA

GPL clockwise starter f33 and cuyuna.

P/N 15-08398..... \$262.64

### GPL OIL INJECTION DRIVE KIT

GPL oil injection drive kit long nut pull start.  
P/N 15-08397..... \$52.53

### GPL PUSH BUTTON SWITCH

GPL push button switch - 02-22

P/N 15-08396..... \$25.50

SEE [WWW.AIRCRAFTSPRUCE.COM](http://WWW.AIRCRAFTSPRUCE.COM) FOR A COMPLETE LIST OF REPLACEMENT PARTS.

# ZEFTRONICS CONTROLLERS

FOR EXPERIMENTAL AIRCRAFT

## ZEFTRONICS B SINGLE ENGINE GENERATOR CONTROLLERS GCU

14V or 28V Type B Single Engine Generator Controller (GCU) available for 10 - 50A with built-in Reverse Current Protection, Field Ground Fault Protection (GFP), and Troubleshooting Lights. Replaces carbon pile Voltage Regulators.  
 14V B Single .....P/N 07-17986 ..... **\$494.00**  
 28V B Single .....P/N 07-17987 ..... **\$718.00**

## ZEFTRONICS ELECTRONIC LINE CONTACTOR CONTROLLERS LCC

14V or 28V Electronic Line Contactor Controller Unit (LCC) with built-in OV Protection, Armature Voltage Protection, LC Coil-to-Ground Fault Protection, and Diagnostic Lights.  
 14V Electronic .....P/N 07-17988 ..... **\$563.00**  
 28V Electronic .....P/N 07-17989 ..... **\$696.00**

## ZEFTRONICS 28V A SINGLE ENGINE GENERATOR CONTROLLER GCU

28V Type A Single Engine (SE) Generator Controller Unit (GCU) available for 10- 50A with built-in Reverse Current Protection, and Color-Coded Diagnostic Troubleshooting Lights.  
**Used on Ground Power Units.**  
 14V A Single .....P/N 07-17990 ..... **\$985.00**

## ZEFTRONICS ALTERNATOR CONTROLLERS WITH OV PROTECTION

14V or 28V Alternator Controller Unit (ACU) with built-in OV Protection (OVP), Field-to-Ground Short Protection (GFP), and Troubleshooting Lights that separately indicate OVP, GFP, and Power-On.  
 14V .....P/N 07-17991 ..... **\$445.00**  
 28V .....P/N 07-17992 ..... **\$590.00**

## NEW TEMPEST STARTERS

The Tempest PowerLite series of aviation engine starters represents a new state-of-the-art energy efficient design providing reduced current draw and long life. The PowerLite starter mounts directly to existing TCM engines and is available in both 12 and 24 volt configurations. Tempest starter part numbers PL13459 (12v) and PL13484 (24v) are eligible on TCM engine models O-300-D, GO-300-D, IO-346, IO-360, L/TSIO-360, O-470, IO-470, TSIO-470, IO-520, TSIO-520, GTSIO-520, IO-550, TSIO-550 and TSIO-550.

Powerlite Starter 12V New .....P/N 08-07284 ..... **\$725.00**  
 Powerlite Starter 24V New .....P/N 08-07283 ..... **\$725.00**  
**See [www.aircraftspruce.com](http://www.aircraftspruce.com) for parts and accessories.**

## TEMPEST POWERFLITE ALTERNATORS

**Note: Core charge will be added at time of order. Amount is refunded once original core is returned.**  
 FAA/PMA Approved PowerLite Alternator. 28 Volts/60 Amps. Model No. 9910591-11AC. For Cessna: 172R, 172S, 182S, 182T AND T182T  
 New .....P/N 08-07541 ..... **\$629.00**

# LAMAR ELECTRICAL COMPONENTS

## LAMAR MC10 MASTER ELECTRICAL CONTROL UNIT

MC10

The Lamar MC10 is a master electrical control unit developed for 14V and 24V single engine experimental aircraft. It is designed to mount on the firewall or fuselage. It houses all the major electrical components except for the battery, starter, and alternator. The MC10 provides a greater degree of protection against moisture, dust and accidental electrical shorts along with the convenience of all the primary electrical components in one location. Features low installation cost, ease of installation and simplified troubleshooting and repair with several new performance & safety features.

**The MC10 embodies the following functions:**

- Master (battery) (solenoid) control closing the master switch on pilot's panel connects the battery to the primary bus.
- 3 aircraft bus outputs, protected via

resettable circuit breakers.

- Alternator Control; voltage regulation, overvoltage protection, field output overload
- Starter control (solenoid)
- Low voltage warning.(L model also includes overvoltage, over-current and reverse-current annunciation)
- Battery charge/ discharge ammeter drive (current shunt)
- Clock output (always-on) protected with easily accessible external mounted fuse.
- Ground power receptacle & control (solenoid) with reverse polarity protection.

Description	Part No.	Price
Lamar Master Control 14V Exp.	11-03295	\$1,162.00
Lamar GC07-EXP Generator Control	11-05042	\$1,414.00

## LAMAR SOLENOIDS

Aviation grade, non FAA-PMA approved, solenoid for continuous duty 12 volt applications. Fits current GA production aircraft as well as legacy aircraft. Replaces both single terminal switched units, as well as the current double terminal switched units in production today. All units have multiple quality and functional tests prior to certification and delivery.

Description	Part Number	Price
X61-0028 12V Continuous	07-01875	\$67.75
X61-0029 24V Continuous	07-01876	\$66.75
X61-0030 12V Intermittent	07-01877	\$103.85
X61-0031 24V Intermittent	07-01878	\$102.75

# SUPERIOR AIR PARTS

## XP EXPERIMENTAL ENGINES

These engine models include fuel pump, fuel system, magnetos, harness, spark plugs, lightweight starter, oil filter adapter, oil filter and updraft cast sump. Prop governor adapter included on constant speed models. Available in Dynafocal #1, Dynafocal #2 and Conical mounting configurations.

**\* Attention: Roller Lifter Engine Kits do not come assembled, assembly required.**

## MILLENNIUM CYLINDERS

Uniform hardness all the way through the steel barrel walls which allows the barrel to provide even wear while withstanding extreme cylinder temperatures and pressures.

Exhaust and intake ports are volumetrically matched to maximum output and

performance.

Increased port wall thickness - eliminates problems with warping and cracking.

Computer-generated head fin configuration - deliver more uniform heat transfer and fewer "hot" spots.

Manufactured from the most advanced alloys available - exceed industry standard for strength and porosity.

+ Included with stud assembly.

EP

# SUPERIOR GASKETS – CYLINDERS

## SUPERIOR LYCOMING ENGINES - MAJOR OVERHAUL GASKET SETS

Lycoming engines are built with the best components in the industry.

The only parts we paint are the steel barrels to resist corrosion. All aluminum parts; crankcase, assembly case, sump cylinder heads and assy drives are alodined only for corrosion protection. This leaves an engine that is easy to inspect, provides better cooling, and is lighter weight. FAA-PMA Approved

NOTE: Intake hoses and oil drain-back hoses must be ordered separately.

\* Contains Exhaust Gaskets  
\*\* Contains Spiraltallic "NO BLO" Exhaust Gaskets  
\*\*\* Exhaust Gaskets, Not Included

# ENGINE PARTS

## INTAKE HOSES

 Lycoming 1-3/4" Intake Hose  
69603 .....\$8.58  
Cont. #22800 OUTER & Cont.  
#21185 INNER Hose (8 sets required  
for A-65 thru 0-300) P/N 08-03700..\$6.50  
Cont. #22800 OUTER Intake Hose  
22800 .....\$4.81  
Cont. #21185 INNER Intake Hose  
P/N 07-03477 ..\$2.13

## INTAKE GASKETS

Cont. #21327 (4) for A-65 only..... \$1.43 ea  
Cont. #22250 (4) for C-85 — 0-300 .... \$1.03 ea

## EXHAUST GASKETS

 Cont. #21493 (08-05237) for A-65  
thru 0-300 SS.....\$1.65 ea  
Cont. #632837 SS .....\$1.76 ea  
#77611 for 0-320 - not for H series SS...\$9.66 ea

## EXHAUST NUTS

 Cont. #22022 (5/16-24) for A-65 thru  
0-300 (8) .....\$1.25 ea  
Cont. #MS20500-428  
(1/4-28) for 0-470 (12) ..... \$2.45 ea  
Lyc. #STD1410 (5/16-18) .....\$1.47 ea

## ROCKER BOX GASKETS

Cont. #530162 for A-65 thru 0-300  
(4 required).....\$5.84 ea  
Lyc. #75906 for 0-235 thru 0-320 (4  
req) .....\$2.72 ea

## ROCKER BOX COVER SCREWS

 Cont. #535091 (24) \$0.66 Ea  
Lyc. #STD1925 (24)\$1.22 Ea

## CYLINDER BASE SEALS

Cont. #21477 for A-65 thru  
0-200 (4).....\$0.92 Ea

## MAGNETO FLANGE GASKET

Cont. #535324 .....\$7.45 Ea  
Lycoming #62224 .....\$2.20 Ea

## TACH OIL SEAL

 Cont. #642714 (was #640087)  
for A-65 thru 0-300..... \$8.47  
Lyc. #LW14260 for 0-235, 0-290..\$6.37

## OIL PRESSURE HOUSING GASKETS

 Lyc. #61173 for 0-235, 0-290 (1) (2  
with oil cooler).....\$1.69 Ea

## CARBURETOR GASKETS

For A-65 thru 0-200 Cont.  
#21051 (Top).....\$2.60 Ea  
Cont. #21323 (Bottom)\$1.35 Ea

## GENERATOR DRIVE BELT

 Lyc. #60886 for 0-235,  
0-290.....\$87.27

## "O" SERIES LYCOMING VALVE COVER GASKETS

 Replace the original cork gaskets  
which come standard on Lycoming  
0-235, 0-320 and 0-360 engines.  
NOT FAA approved. For experi-  
mental aircraft only.  
P/N 08-01187 .....\$4.95

## TCM GASKET

 TCM Gasket for Magneto & Access  
Drive. P/N 08-07531..... \$1.68

## ANGLED VALVE "IO" SERIES LYCOMING VALVE COVER GASKETS

 These gaskets are for the fuel injected "IO"  
series, sometimes referred to as the Angle Valve  
cylinder Lycoming They are not FAA approved  
and are not manufactured under a PMA. These  
are used on Angled valve Lycoming engines  
IO-360, IO-540, IO-720. P/N 08-05882..\$6.85

## 652072 ALTERNATOR GASKET

 TCM Alternator Gasket, Gear driven  
alternator mounting gasket (gasket for  
engine that has been converted from  
generator to alternator).  
P/N 07-01492.....\$3.23

## 649984 ALTERNATOR GASKET

TCM Alternator Gasket replaces  
Continental Motors: 352066, 632560.  
P/N 07-00768 .....\$2.57

## PUSH ROD SEALS

 Continental #539840 for A-65 thru  
0-200 (8).....\$6.18 Ea.

## OIL SUMP GASKET & PLUG

Cont. #532432 Plug..... \$14.50

## CRANKSHAFT OIL SEALS

 Cont. #530019 for A-65 thru 0-200,  
Flanged Shaft.....\$57.31  
Cont. #24321 for A-65 and C-85,  
Taper Shaft .....\$65.80  
Lyc. #76940 for 0-235, 0-290  
\$40.00

## AN900 COPPER GASKETS

 Cont. Engine Applications, A-65  
thru 0-200 (1) each:  
-10: Oil sump drain plug ther-  
mometer hole in oil screen, suc-  
tion tube ass'y .....\$0.46 Ea  
-14: Oil relief valve .....\$0.50 Ea  
-22: Tach drive housing .....\$0.84 Ea  
-28: Oil pressure screen.....\$0.89 Ea

## AERO-SEAL HOSE CLAMPS

 Aero-Seal Clamps for Cont.  
Intake Hoses.  
P/N QS100-M32W.....\$2.01 Ea

## PROP GOVERNOR GASKET

P/N 07-00878.....\$19.75

## RING HOSE CLAMPS

 Cont. #536388 (16) Required  
\$2.39 Ea

## ENGINE MOUNT BUSHINGS

 Cont. #22387 for A-65, C-85,  
C-90 except C-90-14F (8) Req'd  
\$3.63 Ea

 Lyc. #60883 for 0-235 and 0-290,  
7/8" hole (8)Req'd.....\$19.99 Ea  
Lyc. #71032 for 0-320 with 1" hole (8) Req'd  
\$10.56 Ea.

Lycoming, FAA Approved. Replaces #71032.  
Set of 8. P/N 71032 .....\$10.56

## ENGINE MOUNT WASHERS

 Cont. #21530 for A-65, C-85, C-90  
except C-90-14F (8) Req'd ..\$12.75 Ea  
Lyc #STD619 for 0-235 thru 0-320 (8)  
Req'd .....\$10.92 Ea.

## CRANKSHAFT SEAL LW11997

 LW11997 Crankshaft Seal. Spring is  
impregnated in the gasket 4-04.  
P/N 08-11997 .....\$96.19

## LYCOMING PARTS TO CONVERT 0-235 WITH SPIN ON OIL FILTER TO OIL SCREEN

Oil Pressure Screen Housing  
P/N 68974 .....\$615.00  
Oil Screen P/N 62817.....\$121.75  
Oil Screen Housing Gasket  
P/N 61173 .....\$1.69  
FOR OIL COOLER INSTALLATION ADD:  
Spring P/N 69436 .....\$47.50  
Plunger P/N 62415 .....\$32.50  
Gasket P/N AN900-10.....\$0.46

Cont. Oil Screen..... P/N 08-01544 .....\$342.99

**OIL COOLER PARTS SHOWN ABOVE NOT USED WITH THERMAL VALVE ASS'Y**

## GENERATOR ATTACHING PARTS FOR CONT. C85, C90 & 0-200

Ref.	P/N	Item	Price
#2	352068	Oil Seal	\$9.01
#3	530406	653983 Hub Coupling	\$369.85
#4	07-01328	Attaching 653982 Retainer	\$25.43
#5	626543	Bushing*	\$13.50 ea
#6	530407	Sleeve	\$102.96
#7	531325	Gear	\$482.33
#8	530412	Slotted Nut	\$37.73
#9	352179	Starter Gasket	\$6.86
#10	35019	Generator Gasket	\$7.49

\*Note: 626543 is sold as a pair. If only one bushing is needed, order PN 08-06218. ....\$6.89

## ENGINE MOUNTING PARTS FOR CONT. C-90-14F & 0-200 ONLY

Ref.	P/N	Item	Qty.	Price Each
#1	628555-16	Hose	(4)	\$8.87
#2	530627	Spacer	(4)	\$29.61
#3	530626	Seat	(8)	\$20.50
#4	530740	Bushing	(8)	\$39.13
#5	530741	Washer	(8)	\$6.96
	AN6-55	Bolt	(4)	\$11.50
	AN310-6	Nut	(4)	\$1.31
	MS24665-283	Pin	(4)	\$0.03

## ALTERNATOR & GENERATOR BELTS

 Lycoming .....37A19773-376 (Alt.) .....\$87.27  
Lycoming .....37B19774-374 (Gen.).....\$114.24  
Lycoming .....37B19774-325 (Gen.).....\$87.27  
Continental ....539547-31.19 .....\$37.36  
Piper PA28/PA32  
05-06877 .....\$49.85

## 24031 VALVE SPRING

 Continental Inner Valve  
Spring Used on C90 &  
O-200 Engines

# CHALLENGER AIR FILTERS

## CHALLENGER AVIATION HIGH-FLOW AIR FILTER W/ K&N FILTER MEDIA

Features & Benefits of Prime air filters: • 40% - 50% better airflow • Can be washed and serviced up to 25 times • Increase horse power 2%-4% • Save money and improve engine efficiency • FAA-PMA approved • Properly serviced, can be used to TBO of an engine • Ecologically sound • Better takeoff and climb-out performance • Fire retardant • Faster airspeed and/or better fuel consumption • Have been used on high performance vehicles for 40yrs • Accordion fold design provides up to 5 times the filtering surface of non-pleated designs. **PART NUMBERS WITH A -1 INCLUDE GREASE.**

Model	Application	Installation	Part No.	Price
CPE-1957	Aero Commander - A-9, A9A, A9B	Brackett BA-104 Fram CA-161PL	08-00721-1	\$219.95

# DONALDSON AIR FILTERS

Donaldson has been the OEM source for Cessna, Piper, Beechcraft, and Maule & Mooney since the 1960's. They currently supply Cessna all of their SE Piston aircraft filters, Beech Bonanza & Baron filters, Mooney & Maul with their filters. For Piper they currently supply all of their Turbo charge aircraft with filters. Aircraft Spruce is a factory authorized distributor for Donaldson filters.

**FEATURES:** • High Performance Engine Intake Filters • Synthetic media: offers improved air flow and better dust capturing efficiency • Engineered to last 500 Flight Hours • Washable filter element, use compressed air/warm soapy water • Clean installation: dry media, no sticky/messy oil to trap dirt • OEM choice for GA aircraft for over 30 years • Meets All Flammability requirements per FAR 23.853 • Solid Construction with no removable parts-no loose screens, elements or screws • Exceptional wet weather performance, no oil to wash away in wet weather • Moisture passes thru the filter, doesn't build up an oiled surfaces (no oil present) • All filters starting with "P" feature our Premium Synthetic filter media • No Airworthiness Directives against Synthetic media filters • Cost efficient over the life of the filter, 3 years, 500 FH 5 cleanings

*Only filters with \* after part number have cellulous media*

# AIR FILTERS

## PLEATED PAPER AIR FILTERS

These pleated paper aircraft induction air filters are manufactured in South Africa and are fully approved by the South African Dept. of Transport, Division of Civil Aviation. Strict quality control standards are enforced at all stages of manufacture. The filters feature aluminum frames and cured EA131 pleated elements with 96% micron rating. Rubber gaskets are waterproof, oil solvent, and chemical resistant. Mesh overlays are of stainless steel for enhanced strength, durability, and appearance. Not FAA approved at this time.

# K&N AIR FILTERS

## K&N AIR FILTERS

Our K&N Filters are the industry standard in excellence. All filters are constructed with ultra-strong molded pliable rubber flanges which absorb vibration and provide secure attachment. These flanges can be stretched up to 1/8" (3mm) to fit in-between sizes. K&N Universal air filters are available in round, tapered, and oval designs, to fit just about any application. Use the dimensioned sketch and the selection chart to find the filter best suited to your application.

## K&N PRECHARGER FILTER WRAPS

The K&N PreCharger® is a specially designed filter wrap made to extend the service interval of your K&N Filter when used in very dusty conditions. They are made from durable polyester material containing uniform micron openings. The PreCharger will stop small dirt particles; yet add little restriction to the airflow of the filter. The PreCharger is designed to be run dry and can be cleaned with K&N Filter Cleaner. The PreCharger is custom made to fit each application. Double stitched elastic openings assure that the PreCharger will stay in place. Available in round straight and round tapered.

22-8016PK Precharger - Straight..... P/N 15-07233..... **\$16.50**  
RC-1200PK Precharger - Tapered..... P/N 15-05090..... **\$19.65**

## VARI-EZE / LONG EZ AIR INTAKE FILTER

NAPA #2904 air intake filter (equivalent to Purolator #AFP-177 & AC #44-8C)  
P/N 2904..... **\$14.75**

## OVAL AIR FILTER FOR DUAL BING 54 CARBURETOR

Oil impregnated, pleated, washable, polyester air filter. Can be washed and re-oiled for years. Traps dirt and other foreign particles to keep engine clean. P/N 15-08370 **\$50.00**  
Filter for Rotax 503..... P/N 15-08343 **\$50.00**

## K&N FILTER CHARGER OIL

K&N Air Filter Oil is the only oil specially formulated to work in combination with the cotton fabric in K&N Filtercharger elements, providing a superior air filtration system. When used as directed, it quickly penetrates the filter pleats, where it remains suspended in the cotton fabric. Saturation is maintained until the element is cleaned with K&N Air Filter Cleaner.

Description	Part No.	Price
1 oz. Pillow Pack	15-05453	\$13.50
6.5 oz. Spray Can	08-01052	\$12.90
8 oz. Squeeze Bottle	08-01089	\$10.95
12 oz. Spray Can	15-08139	\$13.95
One Gallon Refill	15-05454	\$30.70

## K&N POWER KLEEN

K&N Air Filter Cleaner is the only cleaner recommended to clean K&N Air Filter elements. Dissolves dirt build up and old filter oil and can be washed away with water. It is environmentally friendly and safe on paint, chrome, cast aluminum, plastic, rubber and vinyl when used as directed (do not use on polished or anodized aluminum). Complete instructions on bottle.

12 oz. Spray..... P/N 05-01944 ..... **\$13.50**  
1 Gallon Refill..... P/N 15-05451 ..... **\$29.95**  
5 Gallon Pail..... P/N 08-07461 ..... **\$86.95**

## K&N AIR FILTER SEALING GREASE

K&N Sealing Grease provides an airtight fit around sealing surfaces on all types of air filter elements. It resists heat and will not melt or run off. K&N sealing grease is not to be used on clamp-on filter elements. 6 oz. Squeeze Tube. 8 oz. squeeze tube - black..... P/N 08-01093 ..... **\$15.65**

## K&N RECHARGER KIT

K&N Recharger® kits contain K&N air filter cleaner and air filter oil for recharging any K&N Filtercharger® Air Filter. Restores air flow efficiency so your K&N air filter performs like new! P/N 08-00722 ..... **\$18.50**

## K&N AIR FILTER CLEANER & DEGREASER

This is the only cleaner formulated to clean K&N Filtercharger elements. The use of any other cleaning solution will void the filter's warranty, and quite possibly could damage the cotton material. Biodegradable and safe on paint, chrome, cast aluminum, plastic, rubber, and vinyl when used as directed. Complete instructions on the bottle.

**NOTE: Do not use on polished or anodized aluminum.**

12-fluid oz. squirt bottle..... P/N F99-0606 ..... **\$13.50**

## GPL WASHABLE RE-USEABLE AIR FILTER FOR BING 54

Oil Impregnated, Pleated, Washable, Polyester Air Filter. Can be washed and re-oiled for years. Fits Bing 54 Carburetor. GPL Part # 3920 For Bing 54. 3.5" D x 4" L x 2 1/16" ID  
P/N 08-07665 ..... **\$26.50**

## GPL WASHABLE RE-USEABLE AIR FILTER FOR MIKUNI 34-36MM

Oil Impregnated, Pleated, Washable, Polyester Air Filter. Can be washed and re-oiled for years. Traps dirt and other foreign particles to keep engine clean. GPL Part # 3921 For Mikuni 34—36mm. 3.5" X 4" X 2 7/16".  
P/N 08-07631 ..... **\$26.00**

# LUBRICANTS – GASKETS – DEGREASERS

## ANDY'S SUPER OIL LUBRICANT

Powerful Lubrication - A 21st Century Formula. Andy's Super Oil takes advantage of the latest advances in tribology (the science of lubrication) by combining a high-quality petroleum base with the finest additives, including PTFE (commonly known by the trademarked name Teflon). PTFE is one of the most lubricious materials known and is a key element in making Andy's Super Oil the finest spray lubricant available today. 11 oz. P/N 09-04441 ..... **\$8.95**

## MOLYKOTE 33 BEARING GREASE

Dow Corning 33 Extreme Low Temperature Bearing Grease is a thickened silicone oil; resistant to oxidation, moisture and corrosive atmospheres, inert, good shear stability and wide service temperature range.

Specifications:  
 • 5.3oz (150g) Tube.  
 • Base Chemistry: Silicone  
 • Flash Point: >101.1°C  
 • Service Temperature: -73 to 204°C  
 • Specific Gravity: 1.1 @ 25°C  
 • Viscosity Cp: 100 @ 25 °C  
 P/N 06-02342 ..... **\$29.95**

## LOCTITE® HIGH TEMPERATURE GASKET SEALANT

LOCTITE® High Temperature Gasket Sealant is a slow drying viscous paste. It remains pliable and flexible and is designed to seal flanges, threaded connections and fasteners at temperatures from -45° C to +315 °C. It can be effectively applied to cork, paper, plastic and metal surfaces. Typical applications include sealing gaskets, flanges and threaded connections, aircraft heating systems, manifolds, pipe fittings, steam lines, gear boxes and cover plates..... P/N 09-28425..... **\$23.75**

## PERMATEX FORM-A-GASKET NO. 1

Seals and repairs a wide range of gaskets. Fills in uneven flanges surfaces. Seals pipe fittings, air ducts, boilers, plumbing connections and threaded assemblies. Dries fast, sets hard for sealing permanent or rigid assemblies. Easy to apply. Improves gasket sealing power, adds reliability to rigid or permanent assemblies. Eliminates delays.

3 oz., Tube, #1B..... P/N 09-28415..... **\$5.65**  
 11 oz, Tube, #1C..... P/N 09-28430..... **\$12.50**

## PERMATEX FORM-A-GASKET NO. 2

A non-hardening, heavy-bodied, pliable sealant for semi-permanent assemblies. Use on threaded assemblies, over plates and hose connections, metal-to-metal applications. Temperature range -65° to 400° F., pressures up to 5000 PSI. Apply with putty knife or stiff bristle brush. Conforms to MIL-S-45180B Type II.

3 Oz. Tube #2B ..... P/N 09-28420..... **\$6.50**  
 11Oz. Tube #2C..... P/N 09-28400..... **\$13.50**

## ANDEROL ROYCO 782 HYDRAULIC FLUID

Synthetic fire resistant "Super Clean" hydraulic fluid ROYCO 782 is a red - colored synthetic hydraulic fluid developed to meet the severe duty demands of today's military and industrial equipment. Modern additive technology is employed for oxidative stability, corrosion inhibition, and anti-wear protection. ROYCO 782 is compatible with petroleum based fluids and all components used in mineral oil type hydraulic systems. Mil-Spec: MIL-PRF-83282.

Quart ..... P/N 08-07539-1 ..... **\$13.95**  
 Case (24 Quarts) ..... P/N 08-07539 ..... **\$324.00**

## AVIATION FORM-A-GASKET NO. 3

A non-hardening sealant. Recommended for heating hose connections, close fitting metal parts and threaded connections. Resists water, gasoline, acids and alkalis. Temperature range -65° to 400°F., pressures to 5000 PSI. Conforms to MIL-S-45180B, Type III.

4 Oz. Can #3H ..... P/N 09-28500..... **\$7.50**  
 1 Pint Can #3D..... P/N 09-28600..... **\$17.90**

## GUNK SUPER CONCENTRATE DEGREASER

A concentrated self-emulsifying degreasing solvent for engine and parts. Dilute one part concentrate with nine parts of kerosine or light Diesel fuel oil for very effective cleaning. Spray or brush on. Does not harm electrical system, strip paint or cause rust. Water rinse.

Attention: Volatile Organic Compounds (VOCs) Government Regulations: Product cannot be purchased, sold or used in the states

listed below. CA, CT, DC, DE, IL, IN, ME, MD, MA, MI, NH, NJ, NY, OH, PA,  
 SC-2A, Qt. (2 Lbs.)..... P/N 09-29400 ..... **\$9.50**  
 SC-3, Gal. (8 Lbs.) ..... P/N 09-29500 ..... **\$34.95**

## GUNK "ENGINE BRITE" ENGINE CLEANER

Ready-to-use engine cleaner in convenient aerosol 15oz. can. Note: Due to environmental regulations, 09-29700 cannot be used in California. For California customers see Alternate Item.

P/N 09-29700 ..... **\$5.50**  
 For CA only..... P/N 09-03767 ..... **\$5.75**

## GUNK HYDRO-SEAL

Two-layer room temperature carbon digester and paint stripper. No flash point. Safe on all metals. Simply soak and pressure rinse or solvent rinse. 5 gal. pail contains parts soaking basket.

HS-3, 1 Gal. Can (11 Lbs.)..... P/N 09-29900 ..... **\$96.75**  
 HS-5K, 5 Gal. Pail w/ parts basket (Wt. 56 lbs., truck shipment req'd) ..... P/N 09-30000 ..... **\$183.75**  
**Factory-direct shipment on 50 gal. drums of Gunk and Hydro-seal. F.O.B. Charlotte, N.C.**

## POB #4 PERFECT SEAL SEALANT

• Used worldwide in the automotive, aircraft and marine industries • Liquid sealant designed to meet rigid requirements of OEM specifications. • Non-hardening and resists extreme temperatures. • Seals all gaskets and threaded connections. • Prevents corrosion of bolts, studs and fitting threads. • Resistant to gasoline, oils, steam, salt-water, antifreeze and propane. • Withstands temperatures from -50 F to 400 F.

4oz. .... P/N 08-07218 ..... **\$8.50**  
 16oz. .... P/N 08-07217 ..... **\$15.55**

## MARVEL MYSTERY OIL

Standard for break-in on new or overhauled engines and for carbon removal from cylinder heads, piston rings, valves, etc. Mix with regular oil for perfect engine operation to -20°F. Lubricates tight nuts, control hinges and landing gear. Dust repellent.

Qt. .... P/N 09-27500 ..... **\$12.50**  
 Pint..... P/N 09-27505 ..... **\$9.50**  
 Gal. .... P/N 09-27600 ..... **\$39.95**

## MOUSE MILK OIL

For speedy help in removal of rusted or frozen studs, nut and bolts; frees up cables, slides and linkage; unequalled wherever a lubricant and penetrant are required. Lasting lubricating qualities. 8 Oz ..... P/N 09-39608 ..... **\$5.95**  
 32 Oz ..... P/N 09-39632 ..... **\$18.50**

## BENDIX MAGNETO GREASE

#10-27165 - Factory recommended lubricant for bearings in Bendix magnetos.

1 Lb. Can..... P/N 10-27165 ..... **\$79.83**

#10-391200 - For use on distributor block bushing. Provides proper shaft lubrication.

8 oz. can..... P/N 10-391200 ..... **\$79.95**

#10-86527 - High temperature breaker/cam lubricant  
 P/N 10-86527 ..... **\$54.95**

## AIM-A-SQUIRT

To apply lubricants, corrosion inhibitors and solvents in those hard to reach areas without getting the products all over everything. P/N 09-02325 ..... **\$11.50**

EP

# ENGINE PREHEATERS

## RED DRAGON ENGINE PREHEATERS

Model	Description	Part No.	Price
MH300	Originally developed for Alaskan Bush Pilots, RED DRAGON® Engine Preheaters have been favored by pilots for over 30 years. Not just for aircraft, but for any engine subjected to low temperatures – perfect for construction, farm and oil field equipment. All preheaters are safe, easy to use and burn clean efficient propane. Available in 12 volt D.C. or 115 volt A.C. models, Red Dragon Preheaters are the best around. Each Preheater is tested before leaving the factory.  <ul style="list-style-type: none"> <li>• Fully Assembled</li> <li>• Compact &amp; Lightweight</li> <li>• Full Safety Features</li> <li>• Push Button Ignition</li> <li>• Fueled by Clean, Efficient Propane</li> <li>• Sturdy Steel Construction</li> <li>• Made in the U.S.A.</li> </ul>	08-04300	\$389.00
MH310	Use these Preheaters anywhere electrical outlets are available. Perfect for in the hangar, garage or machine shop. These units include full safety features and push button ignition. Safety features include safety shutoff valve, adjustable regulator and excess flow safety P.O.L. tank fitting. Each unit includes a 5' power cord and a 5' fuel hose to connect to any refillable LP-Gas cylinder. For added safety, an optional high limit heat sensor located near the air outlet will shut off fuel to the burner if the preheater surface temperature exceeds safe levels. A soft carrying case is also available for easy transport.	08-04305	\$359.00
H175	A complete 12 volt D.C. preheater package with almost everything necessary to put your Red Dragon® into operation plus a sturdy dolly for easy transportation. Comes equipped with the LT 2-12 MH 300 preheater. These units include safety features and push button ignition. Safety features include safety shutoff valve, adjustable regulator and excess flow safety P.O.L. tank fitting. Each unit includes a 10' power cord with alligator clips to quickly attach to your battery source and a 5' fuel hose to connect to any refillable LP-Gas cylinder. For added safety the LT 2-12 MH 300 has an optional high limit heat sensor located near the air outlet and will shut off fuel to the burner if the preheater surface temperature exceeds safe levels. These kits also come complete with a sturdy H-125 Cylinder Dolly w/battery bracket and battery box, 20 pound cylinder and 6' of heavy duty ducting. Just add fuel to the cylinder and a battery and you're ready to go!	08-04315	\$549.00
<b>RED DRAGON ACCESSORIES</b>			
--	<b>Heat Ducting</b> - 12' long x 4" diameter; Heavy-Duty Flexible Ducting.	08-04310	\$109.95
--	6'Lx4" Dia. Heavy-Duty Flexible Ducting.	08-04325	\$79.95
--	Carrying Case - Strong Plastic Case with lock, for model MH300. (20.25"x 9.5"x 9.5")	08-04320	\$53.75
--	12V Cigarette Lighter Adapter Plug	08-04330	\$16.95
--	Propane Quick Disconnect set - For Rapid Connect & Disconnect of Fuel Line from Propane Bottle w/o Tools (even under pressure)	08-04340	\$21.95
--	Propane Bottle - Std. Refillable Bottle (5 Gal. Cap. or 20 Lbs.) Supplies Min. 2 Hours of Heating. (Empty)	08-04351	\$55.00
--	Soft Carrying Case - This soft carrying case is for 115V preheaters only.	08-01218	\$21.95
--	Red Dragon Disposable Cylinder Adapter - Has a shut off valve and is disposable usually for 1 preheat.	08-01295	\$28.95

## E-Z HEAT AIRCRAFT ENGINE PREHEATERS

Preheating engines for winter operations is at best a miserable chore and at worst can be a disaster for the plane, the pilot & flight operations - until the development of the E-Z Heat Aircraft Engine Heater. The E-Z Heat was designed to provide very efficient engine heating for virtually all propeller driven

aircraft. The heaters consist of a flexible synthetic pad that easily conforms to the contours of the oil pan. This pad will heat 12 qts of oil from -40° to +60°F in an hour while using approximately 300 watts of electricity. The heater is 1/32" thick, which enables the immediate heat transfer from heater to engine.

The heaters are thermostatically controlled, so leaving them plugged in overnight means the plane will be ready to go in the morning. Normally, complete pre-heating takes only 3-5 hours for the entire engine to be nice and warm. With this new lighted plug, the owner simply needs to look out the window or peek in the hangar to see if they remembered to plug in their E-Z Heat engine pre-heater. Molded into the male plug end is a newly designed light emitting diode (LED). This LED allows the operator to visually recognize if there is electrical power to the preheat system even from a distance. FAA approved for certificated aircraft. End your cold weather starting problems and reduce premature engine wear with the installation of our proven

Specifications:  
 Power Consumption: 300 watts or less / Thermostatically Controlled  
 Power Requirement: 110/120 volts (models 441 and 540 are available in 220 volts).

Installation: The adhesive is already on the pad. All you need to do is peel and stick it on! (excluding model 470)

Preheat Time: 3 to 5 hours on cold soaked engine, although, since unit is thermostatically controlled, it may be left on overnight, or all the time. Cowl covers and prop covers are recommended for extreme cold weather, they also reduce preheat time.

Lite Brite Plug: With this new lighted plug, the owner simply has to look out the window or peek in the hangar to see if they remembered to plug in their E-Z Heat engine pre-heater! (excluding model 470)

Weight: Only 9 ounces!  
 Heat Transfer: Convection/conduction, the safest way of heat transfer available. No flames or glowing elements are potential fire hazards.

## E-Z HEAT 912 ENGINE PREHEATER

The E-Z Heat Engine Preheater system fits the Rotax motors and many other light sport aircraft on the market today. The system consists of two heater pads connected with a common "Light Bright" power cord. Installation is easy by peeling and sticking a pad on both the sump and on the oil tank to assure the engine gets the proper amount of heat. P/N 07-01860 .....\$149.00

## MAXPREHEAT PRE HEATERS

Extend-A-Stay mode for the Model MPH12VDC or MPH24VDC unit. Designed to allow you extra time on the ground. Once you land, hook up the device per instructions, and you will have many more hours of "on the ground time". In an emergency this unit can get your engine up to a starting temperature in an hour or so. Coming from a cold engine condition with everything in place as described, this can be an actual life saver. You will need to decide on settings, placements and other parameters based on your local conditions.

## TANIS CONTINENTAL / LYCOMING PREHEAT KITS

Engine Preheat Kit for 4 / 6 / 8 Cylinder Continental and Lycoming engines. This preheat kit contains threaded heat elements located in each cylinder assembly and one pad heat element on the engine crankcase/oil sump/tank. This multi-point configuration fully preheats the engine and attached is routed to the elements through a dedicated accessories. Power wiring assembly with LED system power indication and circuit overload protection standard. The system is self-regulating through design. Heated components reach an average state of thermal equilibrium in approximately six hours. This preheat kit is compatible with all engine monitor systems as the threaded heat elements can replace either a rocker cover screw or intake bolt fasteners. Not eligible for rotorwing aircraft (helicopters)

accessories. Power wiring assembly with LED system power indication and circuit overload protection standard. The system is self-regulating through design. ## TANIS ROBINSON HELI-PREHEATER KITS

Preheating is accomplished using electrical resistance heat in the form of thin pads sized and shaped to fit various parts. The pads are surface mounted with a bonding adhesive. This includes engine, accessory and propeller reduction gearboxes, attached accessories, and engine oil tank. Power is routed to the heating elements through a dedicated shore power plug, circuit protection, and wiring assembly. System is self-regulating, heated components reach an average state of thermal equilibrium in approximately six hours.

## TANIS HEATER FOR C162 SKYCATCHER

Tanis Aircraft Products announced today that they now have an engine preheat system specifically for the Cessna 162 Skycatcher and the LSA market. This system has been approved by Cessna as per "Modification Kit MK162-25-06B". (Reference Preheat System Part Number: TS02884-115.) The Skycatcher system is a new addition to the extensive product line already available for all Single Engine, Multi Engine and Turbine Cessna products.....

# AIRCRAFT HEATERS – ENGINE PREHEATERS

## C & D AIRCRAFT HEATERS

Designed for upgrading obsolete aircraft heating systems or first time installation in your aircraft, C&D Installation kits include a complete group of materials necessary to replace the obsolete system or to install for the first time. Commonly used C&D heater components are shown below. For replacement heaters, request a quote by phone or email and provide aircraft make, model, and serial number.

### HEATER COMPONENTS

C & D P/N	Description	Part No.	Price
CD12065-1	Cabin Heater	05-12002	\$7,492.00

CD20801	24VDC Fuel Regulator	08-04613	\$55.75 +\$100 Core

## KENNON INSULATED ENGINE COVERS

Kennon's insulated engine covers are custom made for the specific year, make and model of aircraft for a snug fit. Kennon makes its own engine blanket material using a bonded fiberfill that doesn't need to be quilted to stay in place, which can destroy the loft and put thousands of needle holes in the cover where heat can escape. The outer shell is made of red, blue, or black polyester rather than nylon, increasing the useful life of the cover and the inner layer is fluorescent orange which can be used as a signaling device in the event of an emergency. Flaps for oil doors to check or fill the oil and cowling inlet flaps for preheating purposes can be added for \$25.00 each. Insulated prop and spinner covers are also available.

2-Seat A/C (sml) . 07-00983. **\$499.95** 4-6 seat A/C (reg.).. 07-00984. **\$499.95**  
Twin Eng. A/C ... 07-00985. **\$820.00** Spinner Cover . 07-00987. **\$148.75**  
Prop Cover ..... 07-00988. **\$64.95**

## NEAT HEATER

A neat and compact, powerful heater system for your Light Sport Aircraft! Never fly cold again. Installs quickly and easily in any aircraft with a liquid cooled power plant. Specifically Designed For the Rotax 912 and 582.

Features: • Powerful 300 CFM Fan • Draws Only 3.4 amps • Simple on/off controls • Completely Shut Coolant Off In Summer • Tested, Proven Design to 250 Deg at 25 psi. • Infinite Mounting Possibilities • Safe and Reliable • Easy to Install/Service • One Year Parts Replacement Warranty

Specifications: • Dimensions: 7.5" x 6.75" x 3.75" • Weighs only 6 lbs pounds  
Neat Heater.....P/N 08-07376 .....**\$456.00**  
Neat Heater Install Kit .....P/N 08-07377 .....**\$242.95**

## SAFE-HEET ENGINE HEATERS

SAFE-HEET is a thin flexible pad that is bonded to the engine oil sump. The kit is complete with materials and step-by-step instructions. A log book entry is all that is required for permanent installation; No S.T.C. or 337 form required. There are no airframe modifications required. SAFE-HEET can be used with a timer or the 707 temperature controller, and uses standard 110 A.C. voltage. We recommend using the SAFE-HEET 707 Temperature Controller to cure the

adhesive for faster installation.

MODEL 700 Dimension: 4" x 4"..... P/N 05-04420 .....**\$186.95**  
MODEL 720 Dimension: 4" x 7"..... P/N 05-04421 .....**\$186.95**

**VARIABLE TEMPERATURE CONTROLLER** - The SAFE-HEET Variable Temperature Controller can be used with any 700 Series SAFE-HEET Engine Pre-heater as an installation aid, or for providing temperature control for continuous pre-heat without promoting internal engine corrosion. .... P/N 05-04423 ..... **\$77.75**

**For application information please call or visit our website at [www.aircraftspruce.com](http://www.aircraftspruce.com)**

## NORTHERN COMPANION PRE-HEATER

Compact: NC5A = 6" x 17.25", NC5B = 6" x 15". Lightweight: 6lbs, 6oz average weight. Multi Fuel: \*100LL aviation gas - Leaded or unleaded auto gas - White Gas - Kerosene . Diesel - JP4 and JP8 jet fuel. Approximately 20,000 BTU: Type of fuel and pressure in bottle affect output. Shockcorded legs: Slide the legs away from the clips and they seat themselves in the base. Stainless Steel Burner Chamber. No Battery or Other Electrical Power Required. Fast Setup and Takedown - Even with mittens on!. No Tools Required

6" X 17.25" ..... P/N 05-04767 ..... **\$954.00**  
6" X 15" ..... P/N 05-04768 ..... **\$856.00**

## REIFF HOTSTRIP OIL SUMP HEATERS

HotStrip is thin and lightweight like a silicone pad, but made of aluminum for maximum durability. Works either as a stand-alone sump heater or integrated with the Hot Band Cylinder Heating Systems in the Standard, Turbo, and Turbo XP Systems. Bonds to the bottom or side of oil sump and electrically heats the oil.

Features dual heating elements for redundancy. System includes two 100W elements thermostat, and power cord. **FAA Approved for: Lycoming O-235; All 290, 320, 360 series; All 435, 480, 540, 541 series; Continental IO-346; All 300, 600 series; E-165, E-185, E-225, All 470, 520, 550 series. HotStrip Oil Sump Heater System: All engines above (Except Continental A-65, A-75, A-80, C-85, C-90, O-200, IO-240. These engines with oval oil sump use HotPad flexible silicone heating elements) Franklin 165, 220. P/N 08-00688 ..... **\$199.00****

## REIFF PREHEATER FOR ROTAX 912/914

The Reiff preheat system for Rotax 912 and Rotax 914 aircraft engines is an engine-mounted electric preheat system designed for easier cold-weather starts. The preheat system consists of a 100-watt metal "hot strip" element, which is epoxied to the bottom of the crankcase, and a 50-watt band heater that is clamped to the oil tank.

The Reiff is FAA approved, and includes a thermostat to keep the oil from exceeding 150° F.

Description	Part No.	Price
150 Watts 110V	08-06219	<b>\$249.95</b>
150 Watts 220V	08-06219-1	<b>\$251.95</b>
250 Watts 110V	08-07620	<b>\$385.00</b>
250 Watts 220V	08-07620-1	<b>\$394.00</b>

350 Watts 220V	08-07621-1	<b>\$533.00</b>

## THE SWITCHBOX REMOTE CONTROL APP

The easiest, cheapest and safest way to remote control any electrical device. For Pilots: No more driving to the airport hours before a flight. Turn on your Engine Heater from your cellphone, and simplify your cold flying routine! TIP: Activate a 2nd device like a Cabin Heater for your sensitive avionics, or a Coffee Maker before you arrive!

For General Use: Your new 'Smart Home' with the easy automation from

SwitchBox. Remote control your heating, lighting and air conditioning, from anywhere in the world. TIP: Turn On the A/C before you get home, or check to see if you left the lights On and turn them Off. Save Money! **SwitchBox App for iPhone/iPad/Android - Free. Visit our website to download your copy.**

# ENGINE PREHEATERS – CABIN HEATERS

## BRUSHLESS CABIN HEATERS

These heaters are available from 12-48 volts, and different wattages as well. The Stealth heater is simple to install and can be operational in minutes. Measuring only 6" long and 5" tall, our Stealth heater will fit in virtually any small

space. RuCar elements allow the heaters to be mounted vertically OR horizontally which allows even a tighter mounting space. Specifications: Heater Dimensions: 6"x 5" X 4". Brushless 50,000 Hour Ball Bearing Fan. 10,000 Hour DC Thermal ©RuCar Vacuum Sealed Elements. Case Construction: Riveted T5052 Aircraft Aluminum. Wired Entirely with GXL Wire. Thermally Protected. HIGH and LOW HEAT Settings. Comes complete with mounting hardware, mounting bracket, fuse, fuse holder, electrical connector ends, and detailed instruction. TWO YEAR Parts AND Labor Warranty.

## PREHEATER REMOTE CONTROL

REGAL PRO provides Reliable Remote Control of TANIS, REIFF and other Aircraft Engine Preheaters. The PRO is a one-stop product that includes U.S. based customer/product support and Cell service. PRO has two independently-controlled 115 VAC outlets with a combined capacity of 1700 Watts. The unit is fully interactive, interrogated by a free iPhone App or by SMS messages from any text

capable cell phone. Clock Operations allow users to program the outlets to turn on at future times (within 24 hours of programming) and remain on for periods selected by the user. Both outlets can be turned OFF and ON individually by iPhone App or manual text commands. Both outlets can be turned ON for Specific Periods by App or text message, turning OFF when the period expires. A semi-permanent Resident Program can be pre-set to activate the outlets for user selected ON periods by use of iPhone App or text messages. The Resident Program is activated by a No-Cost phone call. Range of Operation is Nationwide.

P/N 11-13671..... \$375.00

## RANS AIRCRAFT CABIN HEATER

The RANS aircraft heater is the answer to the winter flying "chills". It is very lightweight, inexpensive and installs easily in just two hours. This heater utilizes ram air & the heat off the engine muffler. Operation is simple. Slipstream air is forced through the heater

inlet, passing over the muffler, picking up the heat and delivering it to the cabin or pod via an Aeroduct hose. Contains no moving parts. Fits Rotax mufflers and adaptable to other engines. P/N 05-17400.....\$239.00

## HORNET AIRCRAFT HEATERS

Because the Hornet Heaters are hand built, the user can select the thermostat temperatures. The two-stage operation also reduces amp inrush by sequencing the heaters. Perhaps the most important feature of the Twin heating system is the peace of

mind that comes from knowing that the possibility of both heaters failing simultaneously is almost nonexistent and one heating circuit will provide enough heat to prevent engine damage. The unit is equipped with a switch that provides the user with a means to test the operation of each heating circuit independently. Other important features include a non-conductive fire rated fiberglass housing, mil-spec wiring, and an industry leading 3-year warranty. Made in the United States.

Description	Part No.	Price
Twin Hornet - 22 Cigarette Cord / Inflight Heater 2 - Fan; User controlled on/off toggle; 2" x 2.5" x 9.5"; 12v DC 200 watts	08-12218	\$199.00

## NEW HARTZELL JANITROL CABIN HEATERS

Hartzell Engine Technologies' I-Series aircraft cabin heater features innovative combustion tube technology fabricated from advanced Inconel® material. Adapted from many years of proven military applications, this material provides substantially improved protection in extreme temperature applications. See "Application Guide" before ordering.

## K&N OIL FILTERS

K&N powersports oil filters are 'TUV' product endorsed and 'TUV' factory production monitored. This means every K&N oil filter is equal to or will exceed all OEM specifications. Our filters contain a modern synthetic filter media, designed for ultimate flow with less pressure drop, yet engineered for outstanding filtration to meet or exceed all OEM specifications. All K&N powersports 'spin-on' oil filters feature a heavy-duty metal can with a 17mm nut affixed onto the end that allows for easy installation and removal. The 17mm nut is crossed-drilled so racers can safely wire the filter to their bike.

K&N OIL FILTER KN-141 ..... P/N 08-06231 ..... **\$9.75**  
 K&N OIL FILTER KN-142 ..... P/N 08-00691 ..... **\$9.75**

## AIRWOLF REMOTE MOUNTED OIL FILTER KITS

The remote mount oil filter kit by Airwolf Filter Corp. replaces the Lycoming oil screen and housing allowing every aircraft to have an oil filter and to locate it on the firewall where it's easy to get to. The adapter takes up no more space on the engine than the original part, so even the tightest installations can benefit from it. Your Vernatherm and oil temp bulb are reused and transferred directly to our adapter, everything else is included. Universal STC'd kit fits any Lycoming powered Single/Multi engine airplane less than 450hp. All other STC'd for specific aircraft. **Hoses not included unless where indicated. Perfect for Tight Installations in:** \* Avion \* Aeronca \* Bellanca \* Beech \* Cessna \* Cozy MK-IV \* Glasair \* Grumman \* Lancair \* Long EZ \* Maule \* Mooney \* Piper \* Pitts \* RV \* Skybolt \* T-18 \* Vari-EZ \* Velocity  
**Fits Lycoming Series Engines: 0-235, 290, 320, 340, 360, & 540**

## TEMPEST SPIN-EZOIL FILTERS

Tempest Oil Filters feature a MAGNETIC secondary filtration system that attracts steel particles too small to be caught in the filter media. \* Base Plate Thickness: .187" \* Burst Pressure: 700 psi \* Media Size: 311 sq. in. \* AA48108 & AA48109: \*Bypass Relief Valve TCM specs: 12-14 psi \*Patented PC Housing.

## TEMPEST ROTAX OIL FILTERS

The new filter has all the features which have made the Tempest oil filter so popular, including the magnetic secondary filtration system, and higher burst pressure. Full Can Thickness:.019". Base Plate Thickness:.100". Burst Pressure:275-325. Media Size:118 sq. in. P/N 08-07226 ..... **\$19.95**

**FOR TEMPEST OIL FILTER TOOLS SEE PAGE 800.**

**AEROMAG**  
 Note: Sold as a single unit, however to gain maximum results purchase as a set of two (one on each side). Within the tight clearances of today's aircraft engines, normal wear generates tiny steel particles that are carried away in your oil. These particles are so small they will pass right through a normal oil filter. When the oil circulates back into the engine, these same particles are carried into every lubricated space where they can cause three body abrasive wear. AeroMag® extracts normal, wear-causing steel particles from your oil with its powerful, focused, magnetic field technology. These particles are permanently trapped on the inside wall of the filter and are thrown away when the filter is changed. Slide the AeroMag® off the old filter, snap it onto a new one and it goes right back to work protecting your engine.

## PUROLATOR PT6 OIL FILTER

Oil filter, Pratt Whitney PT6 Series Filter may also be purchased with Filter Analysis Kit GA-F-L and Oil Analysis Kit GA-M,F-L.

P/N 08-14696 ..... **\$126.75**

# OIL FILTERS ADAPTERS – OIL DRAIN VALVES

## OIL FUEL FLOW RESTRICTOR FITTING

An oil/fuel flow restrictor fitting designed to fit the Lycoming engine oil pressure port as well as the fuel pressure port on the KB-090-T. This fitting is a modified AN823-4 and the restriction is a .040" hole. Threaded end is 1/8" NPT..... P/N 05-11908..... **\$33.00**

## CONTINENTAL REMOTE OIL FILTER ADAPTER

Replaces the oil screen and will fit C65 thru O-200 engines. 3 ports In and out. Note: This Continental Remote Oil Filter Adaptor will go nicely with the Remote Oil Filter Bracket 08-01057. For Experimental use only Does not include fittings or copper gasket as shown in image. IN & OUT pipe threads in the continental oil filter adapter are: 3/8-18 npt (female). The third hole is a 5/8-18 straight thread with a 45 degree chamfer at the bottom of the thread for a temperature probe to seat against. P/N 08-13154..... **\$255.95**

## B&C BC700 LYCOMING OIL FILTER ADAPTER

The original 90-degree oil filter adapter for Lycoming engines, precision CNC machined from billet aluminum. Designed to provide a high-quality replacement for the stock Lycoming oil screen or horizontal spin-on filter adapter, the BC700 mounts directly on the engine accessory case without interference with the magnetos, vacuum pump, or standard mechanical tach drive. STC/PMA on Lycoming O-235; O, IO, LIO, AIO, AEIO-320; O, IO, LIO, HO, HIO, TIO, AEIO-360; O, IO, HIO, TIO, LTI, AEIO-540 & IO-720 series engines. Adapter kit also includes a new gasket, crush washers, mounting bolts, and CH48108-1 filter. Weight: 1 lbs. (with filter: 2.30 lbs). BC700-1 Oil Filter Adapter, STC/PMA ..... P/N 08-00195..... **\$445.00**  
BC700-H Oil Filter Adapter, Homebuilt ..... P/N 08-00196 ..... **\$398.00**

LW-13904	All Engines with Dual Magnetos. Includes Converter Plate Assembly and Does Not Include Filter	<b>\$1,031.03</b>

All Lycoming spin on oil filter adapter kits above include adapter, oil filter assembly, adapter plate, gaskets, & attaching hardware. LW-14969 kit also contains oil cooler bypass valve assembly, 2 elbows, & 2 oil seals for oil cooler installations.

## CASPER LABS NO SPILL OIL FILTER HOUSING

The Casper Labs "full flow" vertical oil filter kit is designed to provide Lycoming Engine owners several improvements over the standard Lycoming oil screen or filter hardware. This device locates the filter in the vertical plane.

The unit has no moving parts and requires no maintenance. Standard aviation filters are compatible. Temperature probe hardware transfers directly from the present screen housing or OEM filter adapter. Note: Verify the adapter and filter fit in the engine compartment before bolting the unit

on to the case. **Kits Include:** • Filter (some kits do NOT include a filter: see descriptions for details) • Housing • O-Ring and Washers, seal rings, gasket & installation manual

## AEROQUIP E-Z OIL DRAIN SUMP VALVES

Makes aircraft oil changes easy. The hand actuated valve when attached to the oil drain port permits engine oil changes from the ground without removing the engine cowling. The spring loaded E-Z Drain valve cannot be accidentally opened.

Actuation of the valve requires a combination push/twist motion. It also contains a dual seal arrangement which combines both an O-ring & metal-to-metal seal to prevent accidental leakage of oil through the valve. FAA Approved for use on the engines listed. Incorporates fine Aeroquip quality hose. Installation eligibility listing furnished with each unit.

Part No.	Engine Application	Thread	Price
AE99950G	Cont. C-90, O-200, GO-300, IO-360 TSIO-360, O-470, IO-470 TSIO-470, IO-520, TSIO-520, GTSIO-520	5/8-18	<b>\$296.95</b>

Not to be used on Piper Models PA-28R-200, PA-28R-201, PA-28RT-200.

## SAF-AIR OIL DRAIN SUMP VALVES

Changing hot engine oil has never been easier! With the SAF-AIR oil drain valve, no wrench is needed to remove the drain plug. A simple push and turn of the SAF-AIR valve locks it in the open position. The valve is made completely from anodized aluminum and stainless steel components. These materials are used throughout the aircraft industry due to their strength and durability. FAA & PMA APPROVED.

Part No.	Engine Application	Thread	Price
S6250	Cont. (same as Aeroquip AE99950G)	5/8-18	<b>\$92.75</b>

## SAF-AIR LOW PROFILE 2-PIECE OIL DRAIN SUMP VALVES

Perfect for a close clearance engine oil drain application such as on the Piper Arrow. These low profile oil drain valves are designed to clear retractable landing gears & other restrictions. The valve is very affordable and can be rebuilt. It is a simple procedure to sample or drain hot oil. The valve is made from 360 brass & 302 stainless steel. FAA & PMA APPROVED. All valves come with a F50-180 opener.

Mfg. No.	Engine App.	Thread	Part No.	Price
F62	Continental	5/8-18	05-00981	<b>\$129.95</b>

## CURTIS CCB-38000 LYCOMING LOW PROFILE OIL DRAIN VALVE

FAA PMA Approved low profile aluminum oil drain valve for Lycoming engines. Designed to fit in applications where there would be an interference from landing gear operations, hoses, and other objects preventing the use of an oil Drain valve and operation of draining oil. These components are anodized for corrosion protection. This valve does not include hose & clamps. FAA & PMA APPROVED. Aluminum Anodized. Thread Size: 1/2" NPT. Length: .789 Inch. Action: Spiral, Lock Open. Includes CCA-38001 Activation Tool. Anti-Seize compound required on threads for installation. P/N 05-15400 ..... **\$107.85**

EP

# OIL SYSTEMS

## CHRISTEN 801 INVERTED OIL SYSTEM

This accessory kit for Lycoming engines provides normal engine lubrication with minimal oil loss during aerobatic flight. It functions as a self-contained extension of the normal engine oil and breather systems. Can be installed in a few hours without engine disassembly.

Part No.	Description	Price
801-4	For four-cylinder engines. Includes 802 Oil Valve (with plug wrench and plugs for unused ports), 803 Oil Separator, 806-4 Breather Tee, and product manual which provides detailed instructions for application. Weight: 4.75 lb. installed.	\$1,076.00
801-6	For six-cylinder engines. Same as 801-4 Kit, but is supplied with 806-6 Breather Tee. Weight: 4.75 lb. installed.	\$1,088.00
811-V	For vertical-screen sump engines. Includes 810-S Oil Strainer Fitting, 810-R Oil Return Fitting, 804-V Sump Fitting (vertical type) with crush gasket and MS20822-10D elbow. Weight: 0.50 lb. installed.	\$539.00
811-A	For horizontal-screen sump engines. Includes 810-S Oil Strainer Fitting, 810-R Oil Return Fitting, 805 Sump Plug with insertion tool, 804-A Sump Fitting (angular 360° swivel-type) with crush gasket and wrench for swivel clamping screw. Weight: 0.36 lb. installed.	\$690.00
811-S	For horizontal-screen sump engines. Includes 810-S Oil Strainer Fitting, 810-R Oil Return Fitting, 805 Sump Plug with insertion tool, 804-S Sump Fitting (straight-type) with crush gasket. Weight: 0.33 lb. installed.	\$598.00
809-K	For engines with forward breather ports such as the O-235 and O-290 models. Includes 809 Breather Adapter with gasket, AN842-12D hose elbow, and MS20913-6D plug for forward breather port. Weight: 0.53 lb. installed.	\$303.00
812-2	For addition of oil ports to engine sumps. Includes two 812 Weld Bosses and quantity of 5% silicon-aluminum welding rod (type 4043) Weight: 0.12 lb. installed.	\$163.75
812-1	Same as 812-2 Kit, except with only one 812 Weld Boss for addition of single sump port. Weight: 0.06 lb. installed.	\$94.75
813-4	Stainless steel spring wire. Installed inside breather hose to permit relatively sharp bends without collapsing or kinking. 10 x 47/64". Weight: 0.12 lb. installed.	\$99.85
813-6	Stainless steel spring wire. Installed inside breather hose to permit relatively sharp bends without collapsing or kinking. 10 x 63/64". Weight: 0.12 lb. installed.	\$22.65
807-4	All hoses and fittings required for deluxe show-plane quality installation on four-cylinder engines. Includes Aeroquip braided stainless steel hose for oil lines, MIL-H-6000 rubber-fabric hose for breather lines, thin abrasive cut-off wheel for professional-quality hose cuts, AN and MS fittings (blue anodized), Aeroquip hose end fittings (blue and red anodized), and miniature stainless steel hose clamps. All materials are factory new; no surplus. Weight Excluding Hose: 1.53 lb. installed.	\$1,511.00
807-4 Economy Hose & Fitting Kit	These kits include same items as Aviat Factory Kits but are packaged by Aircraft Spruce.	\$705.00
807-6 Economy Hose & Fitting Kit		\$721.00

10-page detailed manual - describes system operation & procedure for selecting proper components for each engine model.

P/N 05-20600..... \$17.50 ea.

### CHRISTEN OIL VALVE

Multiple port gravity operated ball valve. It is cast aluminum with textured white epoxy enamel finish and all internal steel parts are cadmium plated. Normally installed on firewall or on engine mount. Designed for fittings to be installed either at side or front or both. Requires 3 AN816-10D nipples for hose connection. Wt. 1.75 lbs. installed. P/N 08-06745..... \$385.00

### CHRISTEN OIL SEPARATOR

Features welded aluminum construction with a textured white epoxy enamel finish. All internal parts are cadmium plated, and unit includes stainless steel positioning clamps. Normally installed on fire wall or on engine mount. Requires 2 AN842-12D or -16D hose elbows and one AN823-10D hose fitting. Wt. 2.8 lbs. installed. Applicable to all Lycoming engine applications. Used to replace a worn out or broken oil separator on Christen 801-4 systems only. P/N 08-06740..... \$473.00

## AERO CONVERSIONS OIL SEPARATOR

A high-quality welded and powder-coated aluminum assembly designed to save oil vs. direct overboard crankcase breathers in normal flight operations. Features an extra-high-volume design offering enhanced inverted flight performance in entry-level aerobatic aircraft, allowing oil to be retained and returned to the engine during short-duration inverted and limited negative G maneuvers. The angled design makes it a perfect fit for Sonex Aircraft angled firewalls, while retaining compatibility with traditional vertical firewall installations in other aircraft. Comes with comprehensive installation instructions suitable for a wide-range of engine installations. P/N 08-07107..... \$128.75

## BOGERT AVIATION 180 DEGREE OIL QUICK DRAIN PROBE

Example ONLY valve not included

Drain probe not only gives you an alternative to the high priced AVI probe but it includes some major improvements. Probe is leak proof! The AVI design could leak where it mates to the valve plunger making a mess. This design incorporates an O-ring seal around the valve body preventing leaks. The O-ring also locks the probe to the valve body. Also note the larger drain tube to speed up the oil flow and prevent restrictions. Valve NOT included, this is Probe ONLY

P/N 12-03289..... \$73.75

## BOGERT AVIATION 90 DEGREE OIL QUICK DRAIN PROBE

This drain probe not only gives you an alternative to the high priced AVI probe but it includes some major improvements. The first big improvement is that the probe is leak proof. The AVI design could leak where it mates to the valve plunger making a mess. Incorporates an O-ring seal around the valve body preventing leaks. The O-ring also locks the probe to the valve body. The compactness of the probe, is actually shorter than the BJ 107B making it easier to install. 09M-PRB90 Replaces: • Piper part number 481-359 • Beechcraft part number 107-B • Auto Valve Inc. AVI-BJ-107B P/N 12-03237..... \$73.75

## RAVEN INVERTED OIL SYSTEMS

The Raven Full Oil System includes a CNC machined adjustable valve. There are no extra holes to plug, you simply rotate it to where you want it. The system includes the valve, mount and clamps, as well as the air/oil separator, mount and clamps. Both the valve and separator use stainless steel internal parts and are powder coated for durability. The weight of all components is 4 1/2 lbs.

The Raven Half System is the breather portion of the full inverted system, it is used to perform basic positive G aerobatics where a full inverted system is not required, it will catch and return approx 95% of the oil that would normally end up overboard when performing basic maneuvers.

Description	Kit Contents	Color	PN	Price
Half Inverted Oil System 4"	Air/Oil Separator & Mount with Clamps & Sump Return Fitting	Black	08-15637	\$391.50

## RAVEN INVERTED SYSTEM VAC ADAPTERS

These vac adapters are machined from solid aluminum with anodized finish. Furnished with a seal installed, and complete with AN fitting and gaskets. Vac-4 for 4 cyl Lycomings P/N 08-00785..... \$263.95 Non-Acc'y Vac Pad Oil P/U P/N 08-00786..... \$66.75

## RAVEN SUMP FITTING KITS

These sump fitting kits come with specialized fittings, washers, O rings needed to install the kit. Sump kit for Horizontal screen 4 or 6 cyl. Lyc. P/N 08-00787.. \$508.00 With Straight Fitting... P/N 08-00787.. \$508.00 With 45° Swivel..... P/N 08-15780.. \$512.00

# AIRWOLF AIR/OIL SEPARATORS

The Airwolf Air/Oil Separator will improve the efficiency of your aircraft dramatically whether it is a single engine fun craft of a twin powered corporate plane. Designed to separate air and oil in the crankcase breather & wet vacuum pump systems on conventional aircraft engines, Airwolf recovers oil from the crankcase, thus eliminating the oily overboard discharge and the ever present "oily belly" syndrome. Oil loss is greatly reduced - tests have indicated a recovery of up to 80% of crankcase oil previously wasted, depending on the type and condition of the engine.

The Airwolf oil recovery system is only slightly larger than an oil filter cartridge (4" dia. x 7.5") and it is available for all conventional engines regardless of displacement. It can be easily removed and disassembled for inspection and cleaning. With no moving parts, the Airwolf is designed to last the life of your engine. Available for planes with either wet or dry vacuum pump. Now STC'd for most aircraft. Available in black epoxy finish only. Specify aircraft model no., serial no., and engine model.

# OIL FILTER SYSTEMS/ADAPTERS/SEPARATORS

## TEMPEST ENGINE MOUNTED OIL FILTER ADAPTER

P/N 08-00631

Tempest engine mounted oil filter adapters eliminate the need for oil screens and provide increased filtering capabilities for longer engine life. Being engine mounted with no external lines,

they reduce mess during oil changes and increase the time between oil changes. **STC APPROVED.** Note: Tempest filters are included with adaptors. Price listed is for one adapter each.

FM Model	Aircraft Application	Engine Application	Part No.	Price
T.A.F.-L	Cont. C-75-12 C-85-12 O-200 O-200A	Cessna 120, Cessna 140, Cessna 150, Luscombes, Taylorcrafts, Cubs Note: Will only for Cubs with pressure cowls (totally encloses the engine). Will not work on Cubs that cylinders stick out through the cowl.	08-00631	\$325.00

Tempest Gasket FM-07 .....P/N 08-00978 .....\$15.40

## AIRWOLF MINI AIR/OIL SEPARATOR

Reduce oil consumption and remove harmful water vapor with Airwolf's Walker Air/Oil Separator. The AirSep distills and recirculates crankcase oil vapor generated by normal operation, extending engine life.

The Airwolf Walker AirSeps uses a tiny amount of vacuum pump discharge air, to help condense the oil inside the AirSep, and to overcome crankcase pressure to return collected oil to the engine while the engine is running. The competitive systems are only gravity flow so no oil returns into the engine until the engine is

completely shut off. Thus, one system is large enough to clean both the engine breather oil and wet vacuum pumps discharge. It comes with a lifetime warranty on workmanship and material of all new AirSeps produced. **STC'd**

MiniSep, 3/4" Inlet .....P/N 08-05887 .....\$495.00  
MiniSep, 1" Inlet .....P/N 08-07188 .....\$450.00

Wet Vacuum Pump MiniSep, 5/8" Inlet .....P/N 08-07190 .....\$465.00

## CHALLENGER STAINLESS STEEL MICRONIC OIL FILTER FOR ROTAX 912/914 ENGINES

The filter element is made from medical grade, type 304 stainless steel micronic filter cloth providing unmatched protection against oil contamination and resultant engine damage.

A rare earth magnet is installed in the top of the element for magnetic pre-filtering of the oil. The unique twist lock design allows for easy disassembly, inspection and cleaning. The quad-ring gasket doubles the seal between the filter and the engine. The filter housing is carved out of a solid piece of 6061 T6 billet aluminum

with cooling fins, which not only looks good but aids in dissipating heat. Features: • Cleanable and Reusable • High Flow Rate • Unique Twist Lock Design • Exteriors Fins • Unaffected by Water, Heat, or Pressure • Safety Wire Attachments 360 degrees • Environmentally Friendly.

P/N 08-07174 .....\$195.50

## CHALLENGER FAA/PMA LIFETIME OIL FILTER SYSTEM

The filter element is made from medical grade, type 304 stainless steel micronic filter cloth providing unmatched protection against oil contamination and resultant engine damage.

A rare earth magnet is installed in the top of the element for magnetic pre-filtering of the oil. The unique twist lock design allows for easy disassembly, inspection and cleaning. The quad-ring gasket doubles the seal between the filter and the engine. The filter housing is carved out of a solid piece of 6061 T6 billet aluminum with cooling fins, which not only looks good but aids in dissipating heat.

## CHALLENGER OIL FILTER ELEMENT REPLACEMENTS

The filter element is made from medical grade, type 304 stainless steel micronic filter cloth providing unmatched protection against oil contamination and resultant engine damage. A rare earth magnet is installed in the top of the element for magnetic pre-filtering of the oil. The unique twist lock design allows for easy disassembly, inspection and cleaning. The quad-ring gasket doubles the seal between the filter and the engine. The filter housing is carved out of a solid piece of 6061 T6 billet aluminum with cooling fins, which not only looks good but aids in dissipating heat.

# AIR OIL SEPARATORS – OIL ANALYSIS

## OIL FILTER BIB

For horizontal or angle-mounted filters. No more messy oil changes! Catches the Oil & the Filter. No Dripping. No Spillage. No Messy Clean-Ups. Easy To Use. Slide Bib Around the Oil Filter, pull up on Tabs and Tilt to Form a Seal, and unscrew the Oil Filter. Withstands High Temperature. Will not melt, weaken or leak from Hot Engine Oil and Filter. Great for filters in tight places. Fits any sized filter. Disposable.

3 pack ..... P/N 12-04883 ..... **\$11.95**  
10 pack ..... P/N 12-04884 ..... **\$35.95**

## SUPER SLIME FIGHTER®

Following in the success of the Slime Fighter® series of air separators, Aircraft Spruce now offers the Super Slime Fighter with the same ease of installation for large Lycoming engines found in aircraft such as the RV-10, Glassair III and the F1 Rocket. Installs in 20 minutes with no additional drain line required. Includes instructions. Clamps and hoses are only included in the RV-10 kit. RV-10 kit includes custom hose shape. Not FAA approved.

Standard (80HP-160HP) ..... P/N 08-13971 ..... **\$168.75**  
Mid-Size (160HP-220HP) ..... P/N 08-13972 ..... **\$197.85**  
Large (220HP-320HP) ..... P/N 08-13973 ..... **\$214.95**

## HOMEBUILDER'S OIL BREATHER/SEPARATOR

These 4 inch diameter reservoirs have beaded outlets for 5/8" I.D. hoses and a mounting flange for easy firewall attachment. These units are of a new, improved design and the reservoir body is now a spun aluminum bowl for optimum performance. The oil separators minimize oil loss and allow free breathing of the engine. They are recommended for experimental aircraft use only and are not STC'd for any certificated aircraft. Size: 4" dia. x 3-3/8" h.

P/N 10570 ..... **\$49.50**

## RMJ-AERO OIL SEPARATOR

Designed to remove oil from the engine crankcase breather line providing the builder with a cleaner plane, less oil consumption, and prolonged engine life from maximum cooking, cleaning, & lubrication. Fashioned after Tony Bingelis' proven design, these separators incorporate several enhancements, including O-ring seals for the lid. Fabricated from aircraft quality materials, TIG welded, and alodined for corrosion control. They can be firewall or cooling baffle mounted with the cushion clamp provided. The design allows for easy installation in the breather line by the use of hose clamps. Oil from the separator is returned thru tubing to a port in your engine's housing. Should your engine not have an available oil return port, RMJ-Aero can provide a Self Sealing Clamp-On Adapter utilizing your engine's oil filler neck. Installation of this adapter is easy for both flying and aircraft under construction. When clamped in place around the filler neck, the adapter provides a return port for separated oil and an integral seal, which prevents leakage. Installation & maintenance guidelines are included.

Description	Part No.	Price
Oil Separator for Lycoming (3/4" inlet/outlet)	08-00571	<b>\$259.95</b>
Oil Separator for Cont. (5/8" inlet/outlet)	08-00572	<b>\$259.95</b>
Adapter for Lycomings	08-00577	<b>\$31.75</b>
Adapter for Continentals	08-00578	<b>\$32.50</b>

## ANDAIR OIL/AIR SEPARATOR

The OS8850 has been designed to remove the oil from the crankcase breather on Lycoming and Continental Engines. This gives reduced oil consumption, cleaner aircraft, and environment. \* Upper outlet can rotate through 360° allowing easy installation. \* The unit can be dismantled for inspection/cleaning. \* Vortex swirl separation. O-Ring seals. \* Light weight: 6.4 oz. \* 4 off 10-32 mounting lugs on the base of the separator for easy fire wall mounting.

P/N 08-01034 ..... **\$360.00**

## ANDAIR CONDENSATION TRAP

This new device is a small and very light weight condensation trap. It is used to extract the water from the oil when used in conjunction with the Andair Oil / Air Separator. Water can build up in the engine due to water in the air condensing during a cold night. Overnight this water sinks to the bottom of the sump settling at the lowest point. This is generally where the oil pump pick up is. Therefore there is a real potential that if one of these devices is not used water can build up in the engine. Flight test have shown that the worst possible condition for water in the oil is on humid days, cold nights and where short flights are undertaken.

P/N 08-01035 ..... **\$112.80**

## METAL CHECK ENGINE OIL ANALYSIS KIT

**Metal Check** ✓ This oil analysis kit is used for determination of the condition of oil wetted engine parts, even on the first sample. This laboratory analysis consists of ICP (Inductively Coupled Plasma Spectroscopy) quantitation of 12 wear metal elements for piston and turbine engines. The analysis is completed in 24 hours - abnormal results are communicated immediately. Available in two versions: with return postage included and without return postage included to fit your needs! AV Lab is recommended or authorized by most engine manufacturers. The kit is excellent for pre-purchase inspection.

**Not applicable for hydraulic fluid.**  
**OIL ANALYSIS RESULTS - INCLUDING INTERPRETATION AND STATISTICAL ANALYSIS, ARE AVAILABLE ONLINE.**

Return Postage Included ..... P/N 08-00931 ..... **\$22.95**  
Return Postage Not Included ..... P/N 08-10691 ..... **\$16.85**

## METAL CHECK AIRCRAFT ENGINE OIL FILTER ANALYSIS KIT

Includes oil and oil filter analysis. Oil filter debris analysis should be part of all preventative maintenance programs. Filter analysis is critical for turbine engines because they generate predominately larger wear particles that are trapped by small micron filtration. The oil filter is rinsed and the exact alloys presents in the debris are determined by SEM/EDXRF. The AMS number, amount, type, form, and condition of the particles are reported. Features: • Largest Oil Analysis Results Database • The Most Accurate Interpretive Results Guidelines • The Most Experienced staff. • Recommended, Approved, or Authorized by Engine Manufacturers. • 24 Hour a Day Service Available 7 Days a Week. Large Oil Analysis Kit. P/N 08-06270 ..... **\$72.65**

## CHAMPION OIL FILTER ANALYSIS KIT

Champion Oil Filter Analysis Kit can help you detect abnormal engine wear and even predict impending engine trouble, because it provides a comprehensive analysis of both the larger wear particles in the oil filter and the finer wear particles in the engines oil.

P/N 08-01051 ..... **\$117.95**

## OIL DIPSTICKS

New manufacture oil tank dipsticks stamped with proper calibration markings.

## THIXO # 2 AVIATION GREASE - 425 GRAM TUBE

ThixO #2 Aviation Grease: A high performance water resistant grease using advanced thickening agents and superior lubricant chemistry. ThixO #2 Aviation Grease is a specialty lubricant designed for specific aviation applications primarily to prevent rust, corrosion, and seizing of critical components in drives, hub sets and splines. ThixO#2 Aviation Grease demonstrates outstanding shear stability and exhibits a broad temperature range (-35C to >250C) dependent on application requirements.

P/N 08-13829 ..... **\$22.95**

## THIXO SYNTHETIC AVIATION GREASE - 400 GRAM TUBE

ThixO SYN Aviation Grease: A high performance synthetic extreme temperature grease using overbased calcium sulphate thickener and advanced lubricant chemistry. Specifically designed for aviation applications. ThixO SYN Aviation Grease is a specialty lubricant designed for specific aviation applications including helicopter rotor shafts, splines and hub assemblies for the Bell 206A, 206B and 206 L Models.

P/N 08-13830 ..... **\$26.95**

## DOW CORNING 55 MOLYKOTE O-RING GREASE

Molykote 55 is a strong, silicone-based substance that will swell natural rubber and other materials to make a more powerful seal.

Typical Use: Used for dynamic lubrication and sealing between rubber and metal parts in pneumatic valves. Typical applications are found within the aircraft, automotive and other industries.

**Note:** The oil coolers manufactured by MEGGITT TROY formerly Stewart Warner will fit the aircraft listed but in most cases are not furnished with the FAA/PMA certification for those aircraft. The exceptions are P/N 8406R and P/N 8432R are furnished with FAA/PMA approval for certain Mooney aircraft. For all other applications, Form 337 field approvals are required for installation on certificated aircraft. Call for further information.

## LIGHTWEIGHT OIL COOLER FOR HOMEBUILTS

Lightweight, compact oil cooler improves cooling in closely cowled homebuilts. Mounts in any position. Furnished with 4 ft. of 5/16" I.D. hose and 4 clamps. Size 7-1/2H x 12-3/4L x 3/4D.

P/N 403..... **\$61.75**

## HOMEBUILDER'S ENGINE CRANK CASE OIL BREATHER

This is a 3-1/4" dia. can reservoir with a 3/4" or 5/8" od hose barb outlet, 1/8npt curtis drain valve on bottom of can, and a fire wall mounting bracket. Item also available with a 5/8 od hose barb outlet, please call or email for price & availability. It keeps oil in can and off belly of airplane then can be drained later with petcock. Helps to keep crank case condensation to a minimum. Recommended for experimental aircraft use only not STC'd for certified aircraft.

3/4" od hose barb outlet .....P/N 08-00765 ..... **\$105.85**

5/8" od hose barb outlet .....P/N 08-07219 ..... **\$105.85**

## AERO CLASSICS REMOTE MOUNT OIL COOLERS

**8000357 Bar & Plate**

Aero Classics offers the General Aviation community the largest number of FAA-PMA. (Federal Aviation Administration - Parts Manufacturing Authority) approved oil coolers in the world. Remote-mount oil coolers mount to the airframe or engine baffle instead of directly to the engine. Hoses are used to connect the oil cooler to the engine. This type of oil cooler is used with most non-Continental engines including all Lycoming engines. All FAA-PMA approved with supporting FAA 8130-3 documentation unless otherwise noted. All models have 3/8 NPT inlets and outlets. All Aero-Classic coolers come with a full two year warranty. Note: Models 8000081, 8000706 & 8000942 are for experimental aircraft only. Not FAA-PMA Approved. **\*\*\*May not work with all applications\*\*\***

## AERO CLASSICS "HE SERIES" AVIATION OIL COOLERS

Aero's HE Series (High Efficiency) FAA-PMA oil coolers are designed to be direct replacements for Stewart Warner (today known as Meggitt) oil coolers - most of which do not have FAA-PMA. Aero-Classics HE Series oil

coolers are intended to be a competitively priced option for those whose aircraft came with a Stewart Warner oil cooler. The HE Series come with full FAA-PMA documentation, an industry leading 2YR/2,000HR warranty, and heat rejection capabilities that match or exceed the competition. Aero's HE Series oil coolers are approved for use on many Beech, Cessna, Grumman, Mooney, Robinson Helicopter, and other popular aircraft makes. Listed below is the SW part number and the corresponding Aero-Classics HE Series replacement part number.

SW Part No.	Aero Part No.	Description	Part No.	Price

# OIL COOLERS

## AERO CLASSIC CONTINENTAL OIL COOLERS

**8000545 10" Non-Congeaing Universal 7th Stud**

Aero-Classic's engine mounted oil coolers for Continental powered aircraft offer high quality features such as a CNC machined base for reliable, leak-proof mounting. Aero's line of Continental front mounted oil coolers feature a hassle free design that accommodates both 7th stud and non-7th stud engine cases - eliminating the chance of getting the "wrong" oil cooler. The oil coolers on Continental engines often mount directly to the engine and do not require hoses. All FAA-PMA approved with supporting FAA 8130-3 documentation, and full two year warranty.

## NDM OIL COOLERS

NDM is one of the world's largest volume manufacturers of FAA approved oil coolers. An approved supplier to both Lycoming and Continental, as well as many airframe manufacturers, NDM holds FAA/PMA's for most of these oil coolers. NDM oil coolers are manufactured utilizing the vacuum oven brazing process rather than the less costly Controlled Atmosphere Brazing (CAB) method used by others to save costs. Utilizing the vacuum oven process guarantees a high quality product and lower warranty returns. If you are not sure which NDM oil cooler is FAA Approved for your aircraft, please provide the aircraft model & serial number and we will determine the correct oil cooler for your application.

ers to save costs. Utilizing the vacuum oven process guarantees a high quality product and lower warranty returns. If you are not sure which NDM oil cooler is FAA Approved for your aircraft, please provide the aircraft model & serial number and we will determine the correct oil cooler for your application.

## AIRWOLF OIL CHILLER

The new Airwolf Oil Chiller is 20 aircraft quality aluminum fins that are precisely bent to mold around the outside of any standard oil filter. These fins total a whopping 600 sq/in of cooling area to suck the heat from your oil filter, thereby cooling your engine oil. The fins are gold anodized and quickly secured to the oil filter with two hose clamps. Easy on..easy off. Everything you need is in the kit. Lower your oil temperatures today with our "Poor Mans" oil cooler. P/N 08-07394 .....**\$149.95**

## OIL THERMOSTAT SYSTEM

Designed to regulate the oil temperature on engines like the Rotax and Jabiru. If you are flying time and time again and the engine temperature is only getting to say 85°C the water will remain in your oil as a contaminant and can go on to destroy your engine with corrosion problems. Additionally, warmup is achieved very quickly on even the coldest of days because the thermostat diverts the oil flow from the oil cooler. Made in the USA these special oil thermostat units are designed to quickly allow your engine to reach and maintain its optimum operating temperature even on the coldest of days. CNC machined from 6061-T6 the unit is anodized with the type 2 surface finish to protect the thermostat long-term against corrosion. There are a number of benefits in using an oil thermostat in your aircraft which include fuel savings resulting from quick warmup times and engine operation at optimum oil temperature which also increases engine life because the engine is being operated at the correct oil temperature. Does not include Hardware. P/N 08-07212 .....**\$146.95**

## ROTAX 912 13MM OIL COOLER HOSE

912 Oil Cooler Hose 13mm high heat hose for 912-914 oil coolers. Sold by the foot. P/N 15-06907 .....**\$7.50**

## OIL COOLER DUCT SYSTEM

This economical duct system provides the aircraft builder with a simple way to route cooling air to Stewart Warner style oil coolers. Manufactured from .040 aluminum, this kit was designed for use on RV series aircraft but is ideal for virtually any homebuilt using a firewall mounted oil cooler. Kit includes baffle duct, oil cooler duct, hardware, & installation instructions. P/N 08-05000 .....**\$54.95 ea**

## ALUMINUM SIDE LOUVERS

These side louvers let hot air out of your engine compartment - or, if they are installed with the louvered openings facing forward, to bring cool air into the engine compartment, enhancing performance and service life of the engine and under-hood components. Helicopter owners often mount these over their oil cooler to let cool air in and help reduce operating temperatures. Complete with do-it-yourself instructions and hardware. Rest a set on your plane, hood or fender- see just how good they look! (2) 2-11/16" x 12-1/4" Semi-Gloss Black .....P/N 05-04969 .....**\$99.00**  
 Aluminum.....P/N 09-04968 .....**\$89.00**

## ALUMINUM COOLING LOUVERS

These aluminum cooling louvers are custom made and designed to improve the cooling of your engine compartment on your experimental aircraft. They are simple to install, and will dramatically lower your CHT temps, as well as your oil temperature. The standard size of the aluminum plate is 12" long and 5" wide, and the outside flange can be trimmed to fit your application. There are a total of 9 louver slots which aid in cooling. P/N 08-07625 .....**\$17.85**

## OIL DOOR HINGE

The hidden hinge has a uniquely shaped arm that allows the hinge to be mounted completely out of view to the underside of the cowling. The center hinge eye is removed for the custom made spring that loads the hinge to be full open when unlatched. If your oil door unlatched it will be full open, eliminating accidentally taking off with the oil door unlatched. The hinge is aircraft quality extruded MS20001-4 hinge with a 3/32" steel hinge pin. One end of the hinge pin is flattened. When installed and closed the hinge pin is gripped tightly by the force of the spring. Oil Door Hinge.....P/N 12-04708 .....**\$37.90**  
 Replacement Spring.....P/N 12-04709 .....**\$2.95**

EP

# OIL COOLERS – OIL SEPARATORS

## X-SERIES OIL COOLERS BY AIRFLOW SYSTEM

The first aircraft oil cooler design in 50 years. Computer modeling and flight testing have been used to develop coolers that deliver significantly lower oil temps with no increase in oil cooler size or oil pressure drop. Designed as a direct replacement for popular oil coolers used in experimental aircraft, the X- SERIES oil coolers are built to Airflow Systems specifications and certified aircraft oil cooler standards. Flight testing on the popular RV series of aircraft has shown oil temperature drops of 10 -15 degrees F for coolers of the same size in the same location. Not FAA approved.

Model	Size	Engine Application	Notes	Part No.	Price
2002X	7 Rows	Continental O-200, Lycoming O-235, Lycoming O-320, Lycoming O-360, Lycoming IO-360, Corvair, Subaru, VW	Max 180 HP. No piston squirters or cold air induction	08-06153	\$411.00
2004X	10 Rows	Continental O-200, Lycoming O-235, Lycoming O-320, Lycoming O-360, Lycoming IO-360, Corvair, Subaru, VW	Max 180 HP. No piston squirters or cold air induction	08-13963	\$489.00

2008X	17 Rows	Lycoming O-360K, Lycoming IO-360, Lycoming IO-540	Go up one size for piston squirters, cold air induction, aerobatic and/or float plane applications	08-06155	\$620.00

## AIRFLOW SYSTEMS OIL COOLER DUCTS

Super lightweight and strong hand laid fiberglass ducts designed using Computational Fluid Dynamics (CFD) software and flight testing to provide the best air pressure distribution over the face of the oil cooler. Mounting hardware and installation instructions provided. The new versions will have a gray "in mold" primer coating on them. The advantage to the customer is that there are no pin holes in the fiberglass and the almost-ready-to-paint finish.

## AIRFLOW SYSTEMS OIL COOLER INSTALLATION KITS

Airflow Systems oil cooler brackets and mounting hardware kits offer the homebuilder a quick and easy solution for firewall mounted oil cooler installations. A variety of mounting angles cover most applications at a cost that is often little more than the cost of material for a builder made bracket. The generous radiuses resist cracking. Delivered without holes but including an oil cooler mounting hole template the brackets may be tailored to individual installations.

Description	Part No	Price
Asik-01 Oil Cooler Installation Kit Bolts & Spacers	08-13968	\$86.75
Asik-02 Oil Cooler Install Kit 45° Bracket	08-13969	\$97.85
Asik-03 Oil Cooler Install Kit 90° Bracket	08-13970	\$119.75

## THE A.S.A. OIL SEPARATORS

"THE ASA OIL SEPARATOR" is a solution to the oil consumption and collection of oil on the belly of your aircraft. The breathers kick out oil mist that collects on the belly that in turn grabs all the dust and dirt. For years we have been making this type of product used in automotive racing engines so the leap to a light weight aircraft unit was a small one. After many hours on the dynamometer many changes and hours of flight testing the effort was well worth it. "ASA Oil Separator" that in our tests out performs most of the competition at a fraction of the price.

Description	Part No	Price
4 Cylinder Polished Mirror	05-12369	\$169.00
4 Cylinder White Powder	05-12472	\$179.85
6 Cylinder Polished Mirror	05-12473	\$179.85
6 Cylinder White Powder	05-12474	\$179.85

## OIL SEPARATOR INSTALL KITS

Included are three feet of high quality silicone hose, four quality hose clamps, one steel braid -4 AN Teflon oil return hose, one -4 AN X 1/8" NPT 90 Deg. Fitting and one 1/8" X 3/8" NPT reducer bushing that fits the oil return in the accessory case on most Lycoming engines. Also included is a new accessory case breather fitting that is more IO-540 friendly when installing on the six cyl engines. Full installation and maintenance instructions will be included as well.

Description	Part No	Price
4 Cylinder Install Kit	05-12370	\$52.00
6 Cylinder Install Kit	05-12482	\$67.50

## E-Z COOL FLAP

This revolutionary product, the "EZ Cool Flap" is a long awaited solution to this sometimes challenging task of climbing out without high CHTs. This revolutionary, retrofit electric cowl flap product will definitely help calm the fears of many RV owners and builders of these great aircraft. Our effort turned out to be far greater in monetary and time investment than we initially planned but, all good things take time. After a considerable investment in design, engineering and testing many different configurations, learning and improving along the way. We now offer our product as the most logical, simple and easily installed device to address these temperature concerns. This product is constructed of the finest aircraft alloys and workmanship available and is far superior to any and all other solutions available at any price. This product only weighs a few ounces, is extremely easy to use, and offers unparalleled protection for your aircraft engine. P/N 05-12374..... \$369.00

## CRANKCASE VACUUM KIT

Included are the 321 stainless steel saddle mount fitting, mounting clamps, vacuum valve assembly and a complete safety by-pass with a .25 psi internal pop-off valve. This will put the finishing touch on your oil separator installation or breather system. Your engine will virtually stop all leaks and seeping when in service, due to the vacuum inside. This system stops any possibility of freezing up the breather tube in cold climates, as no moisture laden air is present in the engine and none can be inhaled through the overboard draft tube. The rarefied air and low pressure in the crankcase has a very dramatic effect on windage and oil in suspension, thus freeing up a little power and adding some efficiency. This will also greatly lower the boiling point of any moisture that finds its way into the engine. Any oil temperature over 160 degrees will get rid of all the moisture in turn the acids. Any lowering of pressure on the underside of the pistons is exactly the same as adding cylinder pressure on top. This results in a very noticeable power increase (on the average 180 HP engine, 3 to 5 HP). We hear this over and over with reports of higher static RPM, better climb and acceleration, lower fuel burn etc. The belly of your airplane will stay immaculately clean as anything that exits the separator or breather line will be consumed in the exhaust stream. P/N 05-12429..... \$109.00

## CRANKCASE VACUUM VALVE

This reliable crankcase vacuum valve and 321 stainless steel fitting will put the finishing touch on your oil separator installation. This special valve in conjunction with our installation kit, complements the main product "THE ASA OIL SEPARATOR". Full installation and maintenance instructions will be included. P/N 05-12371..... \$131.75

## MAGNETIC SUPER PLUG

This is the most powerful plug available and was designed specifically for GA aircraft use. This is about the least expensive thing you can add to your aircraft that will extend engine life and prevent damage to your engine. The plug end is very high quality with a special rolled thread to prevent leaks, is cad plated to prevent corrosion and drilled for safety wire. The rolled thread size is 1/2" npt and this fits all Lycoming, Continental, Franklin and many other aircraft engines. The extremely powerful high temperature, Alnico magnet is pressed and locked into the plug permanently and will outlast your engine. This powerful device extends into the oil and removes all ferrous material that is suspended in and circulating with your oil causing wear. P/N 05-12373..... \$22.50

# OIL ANALYSIS KITS - ENGINE TREATMENT

## AVIATION OIL ANALYSIS (AOA) KIT

A cost-effective service to enhance your aviation maintenance practices and provide confidence in the health of your engine. Aviation Oil Analysis (AOA) by ALS Tribology Division brings you a state-of-the-art oil analysis program designed specifically for aircraft owners. Oil analysis is an early warning system that reduces downtime, lowers maintenance costs, and helps you spot

troubling issues before they become serious problems. AOA 'basic' kits can be ordered with or without return postage and include standard elemental analysis to detect evidence of engine component wear. A small vial, mailing bag, and information form are furnished with the order. Upon receipt at the laboratory in Phoenix, AZ, the oil sample is analyzed and a full report, including statistical analysis and interpretation, is forwarded within 24 hours and posted for viewing online. Note: insufficient postage will cause a delay in receipt of your sample, please consult your local post office or contact the laboratory (1-800-445-7930) regarding current postage rates.

Description	Part No.	Price
Basic Kit for Piston Engines (no return postage)	08-00436	\$12.95
Basic Kit for Piston Engines (with return postage)	08-16223	\$19.50
Basic Kit for Turbine Engines (no return postage)	08-00435	\$13.85
Basic Kit for Turbine Engines (with return postage)	08-16224	\$19.95
Advanced Kit for all Engines (with return postage)	08-16225	\$24.65
Comprehensive Kit for all Engines (with return postage)	08-16226	\$89.75

## LAB ONE AVIATION (LOA) OIL ANALYSIS KIT

This kit includes a sample bottle, shipping container and the paperwork. Upon receipt, your sample will be processed within 24 hours with the results emailed or mailed from Lab One in Phoenix, AZ.

Can be used on any reciprocating or turbine engine and helicopter transmissions and tail rotors P/N 08-01222 ..... \$12.95

## AVIATION LABS OIL FILTER ANALYSIS

Analysis of the oil filter only. The oil filter is rinsed and the debris removed is analyzed. The exact alloys present are determined by Scanning Electron Microscopy and EDXRF. The alloys are reported by AMS number.

Amount, type, form and condition of particles are reported. Alloy spectra and metal maps for most aircraft engines. Filter analysis is a critical part of all preventative maintenance programs. Aviation Laboratories has been a leader in the development of filter analysis programs for aircraft engines since 1985. Analysis completed in 24 hours. pre-purchase inspection. P/N 08-10692 ..... \$64.75

## AVBLEND LUBRICANT

An oil supplement for all piston engine-powered aircraft owners and operators worldwide. Providing critical lubrication at start-up, AvBlend helps prevent accumulation of combustion chamber areas. Wear is reduced, engines stay cleaner and combustion chambers stay properly sealed. FAA approved. 4-cylinder engines require 1 can at each oil change, and 6 cylinder engines require 2 cans.

12oz. can .....P/N 08-05470 .....\$14.50  
1Case (24 cans) .....P/N 08-05470-1 .....\$319.00

## LYCOMING OIL ADDITIVE

Approved oil additive LW-16702 that contains an anti-scuffing agent and can dramatically reduce engine wear. Applicable to all Avco Lycoming piston aircraft engines, and factory recommends use at every oil change or every 50 hours, whichever occurs first. For 6-8 qt. sump, use one 6 oz. can, for 12-15 qt. sump, use (2) 6 oz. cans, for 17-19 qt. sump, use (3) 6 oz. cans, for 23 qt. sump, use (4) 6 oz. cans....P/N 08-05600 ..... \$41.60

## CAMGUARD OIL ADDITIVE

Designed to dramatically improve the performance of all mineral based, semi-synthetic and fully synthetic motor oils in the areas of corrosion protection, wear reduction, and seal protection. Designed to make regular engine oil what it needs to protect and lubricate any engine. A synergistic blend of advanced oil additives from all over the world, designed to reduce wear, curb deposit formation and more importantly protect engines against rust and corrosion. It contains multiple corrosion inhibitors for both ferrous and non-ferrous metals. A combination of ashless anti-wear compounds, anti-oxidants designed to reduce carbon deposits and special seal conditioners to prevent oil weeping. Camguard is FAA accepted and approved for use in piston

engine aircraft oils meeting SAE-1899 standards.

## MOBIL AGL SYNTHETIC AVIATION GEAR LUBRICANT

Mobil AGL Synthetic Aviation Gear Lubricant offers measurably better wear protection for transmissions operating at high temperatures than Type I (MIL-L-7808) and Type II (MIL-L-23699) turbine oils, as well as wear resistance that is especially beneficial to military and other helicopters operating under unusual stresses. Mobil AGL is formulated with synthesized hydrocarbon-based fluids. The combination of a naturally high viscosity index and a unique proprietary additive system help enable the gear lubricant to provide outstanding performance in extreme service applications at high temperatures, well beyond the capabilities of mineral oils. Note: ExxonMobil recommends Mobil AGL for use in helicopter transmissions only. Before using Mobil AGL, operators should confirm the OEM's approved transmission lubricants. Size: 5 Gallon.

P/N 08-07406 .....\$418.00

## MICROLON AIRCRAFT ENGINE TREATMENT

One-time metal treatment that virtually eliminates friction in all internal combustion engines which improves performance (horsepower), reduces wear, and extends engine life. Also decreases fuel consumption, reduces oil consumption, and lowers operating temperatures. Impregnates the engines bearing surfaces, forming a dry film lubricant that lasts no matter how many times the oil is changed. Continental A-65, C-85, and C-90 engines take the Half Kit. Most Lycoming and Continental engines used in light aircraft take the Single Kit. Turbocharged and Radial engines take from 2 to 6 Single Kits. Call for details if you have any questions on the quantity of Microlon needed for your application.

Microlon CL-100 Aircraft Kit (Single).....P/N 09-35805 .....\$119.95  
Microlon CL-100 Aircraft Kit (Half) .....P/N 09-35810 .....\$75.50

## SHELL WATER DETECTOR

Water can occur in jet fuel in three forms, dissolved (chemically in solution in the jet fuel), settled (as in free water at the bottom of the tank), or as finely dispersed undissolved water held in suspension. The Shell Water Detector is designed to detect undissolved water; it has been proven reliably for 30 years. This is water that a filter separator can remove, and is usually invisible to the eye in quantities below 40-60 ppm. ....P/N 08-13897 .....\$183.75

## AEROSHELL AVIATION OIL W100 SAE50

AeroShell W100 is an ashless, SAE 50 dispersant oil that provides excellent service in all four cycle aircraft piston engines. AeroShell Oils W80, W100 and W120 are produced to meet fully the SAE specification J-1899 (Grades SAE 30, 40, 50 and 60 respectively). Furthermore, they all have military qualification approval and are listed on the Qualified Products List (QPL) issued by the US Navy.

Single Quart ..... P/N 08-05400 ..... **\$6.75**

## AEROSHELL AVIATION OIL 100 SAE 50 MINERAL OIL

AeroShell Oil 100 is a straight mineral oil blended from selected high viscosity index base oil. This oil does not contain any additives except for very small amounts of pour point depressant (which aids to improve fluidity at very low temperatures) and an anti-oxidant. AeroShell Oil 100 is approved for all aviation piston engines of civil aircraft when the use of an oil not containing a dispersant additive is required; however, it should also be used during the break-in of a new aviation piston engine or those recently overhauled.

Single Quart ..... P/N 08-05410 ..... **\$6.85**  
 Case of 12 ..... P/N 08-05411 ..... **\$78.75**  
 55 Gallon Drum ..... P/N 08-15642 ..... **\$1,289.00**

## AEROSHELL AVIATION OIL W80 PLUS

Shell Oil W80 Plus introduces the anti-wear and anti-corrosion additives of AeroShell W100 Plus engine oil into a lighter, single-grade oil for use in colder climates. The anti-wear additive reduces wear on start-up by forming a microscopic layer on the engine's moving parts to prevent metal-to-metal contact when there is little oil present. Combined with a corrosion inhibitor, it is designed for pilots who fly either in cooler weather or less frequently.

Single Quart ..... P/N 08-05920 ..... **\$7.25**

## AEROSHELL TURBINE OIL 500

A 5 centistoke synthetic hindered ester oil incorporating additives to improve thermal and oxidation stability and also metal passivation. AeroShell Turbine Oil 500 was developed essentially to meet the requirements of Pratt & Whitney 521 B Type II and MIL -L-23699 specifications and is entirely suitable for all civil and military engines requiring this class of lubricant. The outstanding high temperature and oxidation stability of AeroShell Turbine Oil 500 is due to the natural properties of the synthetic hindered ester base fluids used.

Single Quart ..... P/N 08-00581 ..... **\$13.25**  
 Case of 12 ..... P/N 08-00582 ..... **\$314.00**

## AEROSHELL TURBINE OIL 555

An advanced 5 mm2/s synthetic hindered ester oil incorporating a finely balanced blend of additives to improve thermal and oxidation stability. Specifically developed to meet the high temperatures and load carrying requirements of SST engines and the DEF STAN 91-100 (formerly DERD 2497) and XAS-2354 specifications. AeroShell Turbine Oil 555 was also designed to give enhanced performance in current engines. More recently with the need to transmit more power and higher loads through helicopter transmission and gearbox systems (many helicopters use a synthetic turbine engine oil in the transmission/gearbox system) it has become apparent that the use of a very good load carrying oil, such as AeroShell Turbine Oil 555 is necessary.

Single Quart ..... P/N 08-00757 ..... **\$13.25**  
 Case of 12 ..... P/N 08-00758 ..... **\$339.00**

## AEROSHELL TURBINE OIL 560

A third generation 'low coking' 5 centistoke synthetic hindered ester lubricating oil. It incorporates advanced additive technology and a fine balance of additives to resist the high temperatures generated by turbine engines. Also improves the thermal and oxidation stability. The outstanding high temperature and oxidation stability of AeroShell Turbine Oil 560 is due to the natural properties of the synthetic hindered ester base fluid used. These fluids are clean running in that they tend to dissolve varnish and sludge rather than leave deposits on working surfaces. AeroShell Turbine Oil 560 was developed essentially to meet the high temperature requirements of both modern engines and future models.

Single Quart ..... P/N 08-00759 ..... **\$14.50**  
 Case of 12 ..... P/N 08-00760 ..... **\$335.00**

## AEROSHELL TURBINE OIL 308

AeroShell Turbine Oil 308 is a 3 mm2 /s synthetic ester oil incorporating additives to improve resistance to oxidation and corrosion and to minimize wear. AeroShell Turbine Oil 308 was developed specifically for use in particular models of aircraft turbo-prop and turbo-jet engines for which a MIL-PRF-7808 (formerly MIL-L-7808) oil is required. AeroShell Turbine Oil 308 contains a synthetic ester oil and should not be used in contact with incompatible seal materials and it also affects some paints and plastics.

## AEROSHELL 2 TURBINE OIL

AeroShell Turbine Oil 2 is a 2 mm2/s mineral turbine oil blended from mineral base stocks to which a pour-point depressant and an anti-oxidant have been added. Widely used for inhibiting fuel systems and fuel system components during storage. AeroShell Oil 2 is an analogue to the Russian Grade MK-8 and can therefore be used in turbine engines which require the use of MK-8.

55 Gallon Drum .....P/N 08-14705 .....**\$1,576.00**

## AEROSHELL 3 TURBINE OIL

AeroShell Turbine Oil 3 is a 3 mm 2 /s mineral turbine oil blended from mineral base stocks to which an anti-corrosion additive has been added. AeroShell Turbine Oil 3 was developed for early pure jet engines and is still approved for some versions of these engines plus the Turbomeca Astazou, Artouste, Turmo, Bastan and Marbore engines.

55 Gallon Drum .....P/N 08-14704 .....**\$1,682.00**

## AEROSHELL FLUID 3

AeroShell Fluid 3 is a general purpose mineral lubricating oil recommended for general lubrication of aircraft parts that require a light oil with good low temperature characteristics and a low freezing point. It is inhibited against oxidation and corrosion. AeroShell Fluid 3 is a relatively low viscosity product with good resistance to evaporation.

## AEROSHELL COMPOUND 7

AeroShell Compound 07 is a de-icing fluid composed of ethylene glycol, isopropyl alcohol and distilled water. AeroShell Compound 07 is also recommended for removing hoar frost and light snow/ice from parked aircraft. AeroShell Compound 07 can be sprayed undiluted or mixed with up to 50% volume of water, depending upon the severity of the icing conditions, the efficiency of the spraying technique and whether it is applied hot or cold.

5 Gallon .....P/N 08-14712 .....**\$168.75**

## AEROSHELL 2XN PRESERVATIVE FLUID

AeroShell Fluid 2XN is a corrosion preservative concentrate for protecting infrequently used engines. It uses an ashless anti-corrosion additive package and highly refined mineral base oils to protect internal engine surfaces from the Effects of humidity. It is also designed to neutralize the acidic by-products of oil oxidation and combustion. AeroShell Fluid 2XN can be used neat to long-term storage, but it is typically mixed with one part AeroShell Fluid 2XN to three parts fresh AeroShell Oil 100 to create an inhibited oil. It can also be sprayed undiluted on piston-engine exhaust ports, Rocker arms and accessories to provide additional protection.

5 Gallon .....P/N 08-14701 .....**\$359.00**

## AEROSHELL DIESEL ULTRA

AeroShell Oil Diesel Ultra is a fully synthetic, multigrade engine oil designed for use in the new generation of compression ignition (Diesel) Aviation Piston Engines. The formulation has been selected to be suitable in piston engines fueled by Jet A or Jet A-1 and is designed for use in the latest highly rated turbocharged diesel engines under all operation conditions. AeroShell Oil Diesel Ultra MUST NOT be used in spark ignition, or Avgas powered aircraft engines.

## AEROSHELL OIL SPORT PLUS 4

AeroShell Oil Sport Plus 4 is ideal; as it is extremely resistant to the immense sheer forces that occur in areas of high-pressure contact such as high-speed gearboxes, valve trains, bearings, pistons and liners. This is where the blend of base oil and additives is most crucial. AeroShell Oil Sport Plus 4 is made up of a blend incorporating synthetic technology and high performance additives to provide long lasting protection. So when you change your oil to new AeroShell Oil Sport Plus 4, you are not only removing dirt from your engine, you are also replenishing the additives used to protect your engine during normal operation. **DO NOT use AeroShell Oil Sport Plus 4 in engines that are designed to use Ashless Dispersant aviation piston engine oils such as AeroShell W Oils. This includes air cooled Teledyne Continental Motors, Textron Lycoming and Jabiru engines.**

## SKYDROL LD-4 HYDRAULIC FLUID

Skydrol LD-4 was also introduced in 1978, and is today the largest selling aviation phosphate ester fluid in the world. At the time of its introduction it was a breakthrough product, solving problems of valve erosion and thermal stability common in earlier fluids. Its excellent thermal stability under real world conditions has given it a reputation as the gold standard among Type IV fluids. In recent years it has received an additional qualification of 5000 psi approval under Boeing BMS 3-11 (Type V, Grade B and Grade C). Skydrol LD-4 features low density, excellent thermal stability, valve erosion prevention, and deposit control.

## SKYDROL 500-B4 HYDRAULIC FLUID

The Skydrol 500 series of fluids has the longest service history among phosphate ester products. The first version, Skydrol 500, was introduced in 1952. Steady improvements to the formulation led in 1978 to the current version, Skydrol 500B-4 which contains the same breakthrough anti erosion additive and acid scavenger found in Skydrol LD-4. Skydrol 500B-4 is the most worker friendly of the aviation phosphate esters; it is least irritating to skin and less prone to form mists which can be irritating to the respiratory tract. This has given the product enormous popularity for use in workshops and indoor test stands.

## EXXON MOBIL GREASE 33 (CARTRIDGE)

Mobilgrease33 is a true multipurpose aviation grease intended for use in highly loaded anti-friction bearings, gears, and actuators as well as instruments, high speed bearings (though not recommended for wheel bearings), and general airframe lubrication, over operating temperatures from 100° F to 250° F.

Cartridge...P/N 08-07407-1 .....	<b>\$15.85</b>	Case...P/N 08-07407 .....	<b>\$625.00</b>
----------------------------------	----------------	---------------------------	-----------------

## GREASE SHC-100

Mobil Aviation Grease SHC 100 is the product of choice for aircraft wheel bearing applications. Exceptional performance of Mobil Aviation Grease SHC 100 includes long grease life, enhanced bearing protection and bearing life in aircraft wheels, and wide temperature range of application.

4.4 lb. Can .....	P/N 08-13740 .....	<b>\$81.00</b>
Case of 4 Cans .....	P/N 08-13742 .....	<b>\$324.00</b>

## ISOFLEX GREASE FOR ROTAX ENGINES

Synthetic long-term lubricating grease for a wide service temperature range. Low starting and running torque. Good wear protection Good corrosion protection. Resistant to oxidation and ageing. 400 gram cartridge.

P/N 15-08430 .....	<b>\$186.75</b>
--------------------	-----------------

## LEVER ACTION GREASE GUN

Multipurpose grease gun. Uses 14 ounce cartridges, bulk loaded, or loaded through a dispenser. Comes with 6" nozzle and 9" flex hose

P/N 08-07180 .....	<b>\$31.50</b>
--------------------	----------------

## ROYCO 560 TURBINE OIL

A synthetic ester-based, broad application, 5 cSt turbine engine oil that is blended with corrosion inhibition in mind and for strong oxidative and thermal stability performance. These ester lubricants include hydraulic and aviation fluids, preservatives, turbine oils, drivetrain oils, performance greases and specialty products. They are engineered to meet or exceed the most rigorous application requirements including military specifications, Boeing approvals, and public transportation constraints.

Quart .....	P/N 08-13989-1 .....	<b>\$21.50</b>
Case of 24 Quarts .....	P/N 08-13989 .....	<b>\$444.00</b>

## ROYCO 586M LUBRICANT OIL

A blend of highly refined mineral oils and additives that achieve excellent load carrying capacity and corrosion/oxidation inhibition. A higher viscosity and load carrying capacity than Royco® 586L

Lubricating Oil. Designed for application in gear boxes and specified helicopter transmissions. High temperature load carrying lube which meets MIL - PRF - 6086 specifications.

5 Gallon .....	P/N 08-16222 .....	<b>\$223.95</b>

EP

# FUNNELS—OIL DRAIN SYSTEMS

## CLEAN FUNNEL™

Clean Funnel™ is the funnel that keeps itself clean. Replacing the caps on each end after each use prevents left over fluid from dripping out, and keeps your work area or baggage compartment clean. No need to wipe your funnel out with a rag before reusing. Clean Funnel™ is ideal for use with fuel or oil as well as windshield washer fluid, detergents, antifreeze, hydraulic fluid, and more. Great for aircraft, automobiles, motorcycles, tractors, boats, ATV's snowmobiles, and more.

- Model 112 (turquoise) has a 1 pint fluid capacity and a 12" vinyl tube attached to its spout, making it very handy to reach into small or tight spaces.
- Model 415 (red) has a 1-1/2 quart capacity, 17" long with flexible spout, and spout I.D. is 9/16".
- Model 428 (black) has 1-1/2 quart & 13-1/4" long with a flexible spout and 1-1/8" O.D. spout.

Model #	Color	Part No.	Price
112	Turquoise	12-00374	\$8.50
415	Red	12-00375	\$10.70
428	Black	12-00376	\$10.70

## DISPOSABLE FOLDING OIL FUNNELS

These disposable funnels are very popular among aircraft owners and pilots for adding engine oil. They store flat, clean and dry in a reclosable bag, and eliminate the messy cleaning when using a regular funnel. Also ideal for brake fluid, resins, and paints. Furnished in pack of 10 funnels.

Pack of 10.... P/N 08-00040 .....\$3.55

## OIL DRIP PAN

The drip pan is 54-1/2" x 32-1/2" x 2" and is manufactured out of an extremely durable and chemical resistant plastic (high density polyethylene). White in color, our drip pan is neat and clean in appearance and allows for easy visual inspection and monitoring of any engine leaks. The size and design of the drip pan will collect virtually any leaking fluids and eliminate the need for five quart pails and other messy collection containers. It is also a convenient place to pour fuel samples. Specifically designed for general aviation.

P/N 08-06700.....\$129.00

## OIL DRIP PANS

These newly developed oil Drip Pans are designed to protect floors from those irritating drips of oil, fuel and hydraulic fluid. They are overlapping to prevent drips from getting between the pans.

Their interlocking feature allows various pan sizes to be joined, protecting floors from all shapes and sizes of aircraft. Their lightweight and durable plastic design makes for easy set-up and clean-up. The interlocking feature allows various pan sizes to be joined, protecting floors from all shapes and sizes of aircraft, cars, buses, trucks and more! Includes: (1) DripPansUSA Oil Absorbent Pad, made of a minimum of 40% recycled polypropylene.

18" X 48" Interlocking ..... P/N 08-07508 ..... \$29.95  
24" X 30" Interlocking ..... P/N 08-07378 ..... \$29.95

## DRIP PAN OIL ABSORBENT PADS

DripPansUSA Oil Absorbent Pads Absorb: oil, coolants, transmission fluids, other hydroid fluids, and water. Can also be used under and around machinery, as shelf liners, and for other clean-up applications. Made of durable blown polypropylene and have many other uses around the home and shop. DripPansUSA Oil Absorbent Pads are made of a minimum of 40% recycled polypropylene. Available in 6pk, 8pk and 12pk sizes. DripPansUSA Oil Absorbent Pads are made in the USA.

6 Pack..... P/N 08-07510 ..... \$7.95  
8 Pack..... P/N 08-07511 ..... \$9.95  
12 Pack..... P/N 08-07512 ..... \$13.95

## CANKEY TURBINE OIL CAN OPENER

The CanKey turbine oil can opener is a simple and inexpensive tool that will open turbine oil cans without the risk of debris entering the can. Using other tools to open the oil cans can lead to metal shavings and other FOD being left in the can which can lead to damage to engine parts. Eliminate this issue by using the CanKey. P/N 08-13836.....\$5.95

## TURBINE OIL / HYDRAULIC FLUID CAN DUST CAP

Turbine oil / hydraulic fluid can dust cap. P/N 08-13837.....\$1.50

## DRIP TRAP - OIL ABSORBENT

Drip Trap is a mat made of corn stalks which captures oil, coolant, and other aviation fluids that can drip from the aircraft. Drip Trap measures 20" x 20" and can absorb up to 6 quarts of oil. It won't blow away, can be driven on, won't tip over like a drip pan, and can be walked on without tracking the fluids on the hangar floor. Excellent for use with aircraft, cars, SUV's, trucks, motorcycles and in shops. When Drip Trap is fully saturated just dispose of it and replace. Drip Trap is the environmentally friendly and economical way to capture and contain drips and spills. P/N 13-04950 ..... \$22.95

drips and spills.

## OIL SAVER FUNNEL

The OIL-SAVER is simple in appearance, but a great deal of research has gone into its design. It consists of a basic rectangular funnel that's molded to hold six inverted oil bottles, the contents of which gradually drain out and into the depository of choice -- usually another oil bottle, leaving the plastic bottles clean enough for recycling.

And with thousands of funnels already in use, they have proven to be versatile, practical tools that allow you to save money and recycle.

Features: Innovative, Customer Friendly, Multi-purpose Containment Residual Liquid Reclamation, Pro-active, Money-making Design, Exceeds Recycling Standards, Convenient Storage, Global Application, No Assembly Required, Green / Enables Consumer to Take Pre-emptive Steps to Protect the Environment.

Color	Part No.	Price

## VALVOLINE VV825 HIGH PERFORMANCE GEAR OIL

Valvoline® High Performance Gear Oil is a thermally stable, extreme-pressure gear lubricant that withstands severe temperatures and shock loading while providing excellent anti-wear, anti-scuffing, rust and corrosion protection. Reduced chattering in limited-slip differentials. Gear teeth wear protection from pitting and scouring. All hypoid differentials (conventional and limited slip) and manual transmissions in passenger cars, light trucks, sport utility vehicles, vans and heavy-duty trucks where an API-GL5 or MT-1 fluid is specified. P/N 15-05963.....\$11.65

## FUELING NOZZLE REPLACEMENT HANDLES

Aviation Underwing Fueling Nozzle replacement handle. Colors available are black /red. UV-Fuel-Chemical resistant. Flame Retardant. Non marking. Exceeds FAA and Military Standards. -20 F TP 200 F Service integrity. (4.40" length x open dia 0.65" x depth of 1.15") dimensional tolerance +0.10. Material Urethane rigid 80 shore A +- 7.5

## NO SPILL OIL SPOUT™ WITH ON-OFF VALVE

Patented On/Off valve. Adjustable flow. No-mess... No-spill. Rev. B 3-11 P/N 14-00024 ..... **\$6.95**

## SUPER FLEXI-SPOUT

Works great for hard to reach areas. Dual threading fits most sized containers. Perfect for adding motor oil, anti-freeze, transmission and windshield washer fluid.

P/N 14-00707 ..... **\$3.75**

## OIL BUDDY (NO SPILL)

For do it yourself oil changes or refilling small tanks in lawn mowers, snowblowers and chainsaws, Oil Buddy is your best tool. Eliminating the messy cleanup and spillage problems, Oil Buddy gets the job done fast and easy without getting your clothes dirty. For small fill ups, the Oil Buddy screws onto the head of the oil container and can be left there for further use if the bottle is still partially full. When the valve is closed, oil can't get out and dirt can't get in. Even if the oil container gets knocked over, no spillage will occur. Fits most 1-Quart /1-Litre bottles. P/N 13-03144 ..... **\$2.75**

## EVANS NPG + COOLANT FOR ROTAX ENGINES

NPG+ is new coolant providing dramatic improvements in heat transfer and viscosity that make the new fluid a "pour-in," not requiring changes to cooling system components. NPG+ waterless coolant virtually eliminates boil over in gasoline or diesels - the waterless coolant allows engines to tolerate running hotter, without boiling over, and allows the cooling system to run at very low or no pressure. Because there is no water in the system engines operating with NPG+ will be free from corrosion and electrolysis, and the engines will run well no matter how hard they are driven or how hot or cold the environment is. Specified coolant for Rotax Aircraft Engines, Type 912 and 914 (series). P/N 08-04535 ..... **\$45.52**

## EVANS PREP FLUID

Evans Waterless Flush is used when systems cannot be drained properly of all the conventional water and anti-freeze. Suggested to be used with experimental aircraft conversion and all motorcycle, ATV and import cars. Not intended to be used as a coolant.

P/N 08-04534 ..... **\$31.96**

## SHELL DEXCOOL® ANTIFREEZE / COOLANT

Single-phase, ethylene glycol based, extended life, universal automotive engine coolant. Suitable for a five year or 150,000 mile service life in automotive applications. It meets GM6277M-General Motor's Extended Life Coolant specification and will provide effective, long term corrosion protection for critical engine metals.

P/N 15-05767 ..... **\$24.50**

## NEXT AIRCRAFT SERVICE DUE - STICKERS

Service reminder decal "NEXT AIRCRAFT SERVICE DUE" decal is black text on white semigloss background with "FILL IN" blanks. Removable decal is designed to adhere to any surface and not leave residue behind, perfect for aircraft rentals, owners, CFI's, trainers, service/repair stations, POH, log books, instrument panels, windows. Decal measures 3" x 3".

P/N 09-02137 ..... **\$0.45**

## OIL INJECTION / WATER OVERFLOW RESERVOIRS

Constructed of high density polyethylene, these blow molded multi-purpose tanks offer excellent durability and resistance to most chemical and fluids. Express service tanks come with a cap and straight fittings. All tanks come with a 2-1/4" buttress thread cap and a straight fitting which fits a 1/4" hose. All sizes nominal. Height includes neck & fittings. Width includes mounting tabs. Max working temperature is 180-deg F and max working pressure is 5 PSI. 1 Quart 6.21" x 7.74" x 3.62" \*\*Includes 1/4" barb spigot molded on bottom\*\* ..... P/N 15-06828 ..... **\$28.50**

## FORM-A-FUNNEL®

Aviation Funnel, go with the flow. When you need to get into a tight, hard to reach place or require extra length, the Aviation model (29" x 5") is the tool for the job.

Thick, pliable nitrile rubber coating completely encases a thin, bendable layer of aluminum alloy that resists wear.

Reshape and reuse it over and over.

Edges can be molded around filters or drains to create a leak-proof seal.

Keeps oil off of engines, frames and surrounding parts.

Highly compatible with common automotive fluids.

Works in temperatures from -30F° to 425F°.

Cleans easily with cleaners and degreasers.

Aviation Funnel (29" x 5") ..... P/N 12-03148 ..... **\$34.99**  
General Purpose Funnel (14.5" x 6.5") ..... P/N 12-03147 ..... **\$21.99**  
General Purpose Kit (14.5" x 6.5" & 9" x 4.75") ..... P/N 12-04819 ..... **\$33.00**

## ROTELLA OIL 15W-40

Shell ROTELLA® T SAE 15W- 40 is a leader in meeting leading OEM specifications, as well as the enhanced oil performance requirements for API CI - 4 PLUS, Caterpillar ECF-1, Mercedes-Benz 228.3, Cummins CES 20078, Detroit Diesel 93K214, Mack EO-N Premium Plus 03, Mercedes-Benz 228.3, and Volvo VDS-3, and meets the warranty requirement of all major diesel engine manufacturers. P/N 15-05767 ..... **\$24.50**

## MOBIL 1 4T MOTORCYCLE OIL

Mobil 1 Racing 4T oil meets all the requirements for Rotax 4 stroke aircraft engines. This is a full synthetic oil designed for motorcycles, however is an excellent choice for Rotax 4 stroke aircraft engines because of the gearbox and close internal tolerances. Mobil 1 Racing 4T has been fully tested, both on laboratory dynamometers and in the field, to help provide optimum horsepower and acceleration.

P/N 08-13892 ..... **\$16.95**

## SEAFOAM MOTOR TREATMENT SF-16

Sea Foam 16 oz. motor treatment for gas and diesel engines For use in gas, ethanol, diesel or biodiesel engines. Internal engine use only. Can be used in 2-cycle and 4-cycle engines.

•100% pure petroleum product. Works instantly to clean deposits from internal engine parts and remove moisture from oil crankcases and fuel tanks. As a fuel system additive, and an oil system additive.

P/N 09-04615 ..... **\$14.95**

# PIG® OIL ABSORBENT PRODUCTS

## PIG® LIGHT WEIGHT OIL ONLY ABSORBENTS

Hangs anywhere, goes anywhere! Grab one Pad or the whole tablet to clean up an oil-based spill or splatter in any corner of the shop. Durable PIG® Oil-Only Mat quickly soaks up gas and oil but won't waste absorbency on water like rags or floor sweep! Self-extinguishing material helps eliminate fire hazards; melts instead of burning if contacted by direct flame.

100 each 15"x20" Pads ..... P/N 08-07317 ..... **\$44.85**  
15"x50 ft. Roll ..... P/N 08-07320 ..... **\$21.75**

## PIG® MEDIUM WEIGHT OIL ONLY ABSORBENTS

Clean up oil-based spills without wasting absorbency on water. Unlike rags or floor sweep, PIG® Water-Repellent Oil-Absorbent Mat quickly soaks up gas and oil but repels water from rain, slush, washdowns, ponds and sumps and more!

\*3 each 15"x20" Pads ..... P/N 08-07354 ..... **\$4.85**  
100 each 15"x20" Pads ..... P/N 08-07318 ..... **\$65.80**  
30"x150 ft. Roll ..... P/N 08-07321 ..... **\$105.99**

## PIG® UNIVERSAL LIGHTWEIGHT ABSORBENTS

This Tablet goes anywhere to clean up drips, spills or splatters throughout the shop. Easier to use than floor sweep, so it reduces cleanup time. And with no damaging dust and grit to track around, the shop stays cleaner! Convenient pop-up tabs let you hang the Tablet anywhere you need it

\*15 each 14"x14.25" Pads ..... P/N 08-07314 ..... **\$13.50**  
100 each 15"x20" Pads ..... P/N 08-07312 ..... **\$64.75**  
15"x50 ft. Roll ..... P/N 08-07315 ..... **\$21.90**

## PIG® MEDIUM WEIGHT UNIVERSAL ABSORBENTS

Genuine PIG® Mat is the better way to soak up drips, spills and splatters, and spend more time repairing vehicles. Easier to use than floor sweep so it reduces cleanup time. And with no damaging dust and grit to track around, the shop stays cleaner! • Safely absorbs and retains oil, coolants, water, grease, gasoline, solvents, auto fluids, paint overspray, battery acid and most other liquids

\*3 each 15"x20" Pads ..... P/N 08-07353 ..... **\$4.50**  
100 each 15"x20" Pads ..... P/N 08-07313 ..... **\$77.75**  
30"x150 ft. Roll ..... P/N 08-07316 ..... **\$122.85**

## PIG® UNIVERSAL ABSORBENT SOCKS

Wrap flexible, self-contained PIG® Socks around tanks, drum areas and puddles to halt the spread of liquid while the Socks' thirsty absorbent filler absorbs it. Easier to use and clean up than messy floor sweep! • Moldable Socks surround equipment, drums or tanks and contain spills to keep them from spreading into walkways; also great for catching liquid that seeps under overhead doors Safely absorbs and retains oil, coolants, water, grease, gasoline, solvents, auto fluids, paint overspray, battery acid and most

other liquids.  
\*2 Universal Socks ..... P/N 08-07324 ..... **\$9.95**  
12 Universal Socks ..... P/N 08-07327 ..... **\$44.50**  
12 Water Repelling Socks (oil only) P/N 08-07325 ..... **\$59.75**

\* Designates item pictured.

## PIG AIRCRAFT SPILL KITS

Versatile spill kits go in a compartment or mounted container to keep you prepared for spills.

**DUFFEL BAG** - Fluids Absorbed: Oils, Coolants, Solvents & Water Spill Volume: 1 - 9 gal. Weight: 9.36 lbs. ## PIG® UNIVERSAL LIGHT WEIGHT ABSORBENT DRUM-TOP PADS

Eliminate messy drum storage areas without touching a mop or rag! Precut to fit on 55-gallon drums, Quickly absorb drips or overfills to help keep your shop clean and safe, so you can focus on repairing vehicles. Highly absorbent material traps liquids, so it won't drip or leave behind fibers when you pick it up; spend less time collecting used absorbent between jobs.

5 Pads ..... P/N 08-07328 ..... **\$11.50**  
20 Pads ..... P/N 08-07329 ..... **\$39.50**

## PIG® MAGNETIC ROLL HOLDER

Keep your PIG® Mat within an arm's reach for easy access and hassle-free dispensing. The PIG® Magnetic Roll Holder attaches to any metal surface to keep Mat

off the floor and close at hand. • Holds one 15"W x 50'L PIG® Mat Roll (P/N 08-07320 or P/N 08-07315) for easy one-hand dispensing • Durable, powder-coated steel resists chips, rust and corrosion • Powerful magnets keep Roll Holder firmly in place during dispensing; can be removed and relocated in seconds. 14.5" Magnetic Roll Holder

P/N 08-07331 ..... **\$24.95**

## PIG® VERTICAL ROLL HOLDER

Dispense PIG® Mat the convenient way with this handy roll holder! Its free-standing, locking metal frame adjusts to accept a wide variety of rolls and is collapsible for compact storage. • Adjust center bar to change width; choose 16" to save space and keep small rolls from sliding or 33" to maximize PIG® Mat supply. P/N 08-07332 ..... **\$74.85**

## PIG® UNIVERSAL SPILL KIT

Respond to spills fast so you can get back to work. Our hi-viz Kit has the supplies you need for quick cleanups, and it's so affordable you can stock every spill-prone spot in your shop or stash one in each fleet vehicle for better liability protection! • Moldable Socks • Mat Pads • Bright nylon Bag stands out, so you can find it when you need it.

Universal Spill Kit ..... P/N 08-07326 ..... **\$57.75**

## PIG® TRAFFIC MAT® RUG

Help keep extreme-traffic walkways dry and safe with this highly durable, absorbent Rug. Heat-fused TRAFFIC MAT® Rug won't rip or fray, even under wheeled traffic, so it's perfect for ensuring heavy-use, splash-prone areas stay clean and injury free. • incredible durability; won't ball or fray, even under wheeled traffic • Roll out to add traction and absorbency near parts washers, paint areas, work benches, doorways, service bays and other high-wear areas • Self-extinguishing material helps eliminate fire hazards; melts instead of burning if contacted by direct flame.

\*36"x150 Ft. Standard Mat ..... P/N 08-07322 ..... **\$137.99**  
36"x100 Ft. Polybacked Mat ..... P/N 08-07323 ..... **\$225.95**

# ULTRALIGHT ENGINE ACCESSORIES

## SPARK PLUG CADDY

Handy case holds (2) 14mm spark plugs. Small enough to fit into your pocket.

P/N 13-03869 ..... **\$3.95**

## SPARK PLUG WRENCH

Loosen or tighten your spark plugs with this handy tool.

P/N 13-03921 ..... **\$3.90**

## PLASTIC STARTER HANDLE

Black flexible plastic heavy duty handle. Tested to -40°F

P/N 13-03865 ..... **\$6.50**

## SPARK PLUG JACK

Rivets or screws to any flat surface and holds two spare 14mm plugs. Tough polycarbonate plastic with spring-loaded plug anchors keeps plugs dry and protects gaps.

P/N 13-03870 ..... **\$6.50**

## NYLON STARTER ROPE

The perfect replacement rope for worn-out manual starters.

P/N 13-03922 ..... **\$0.45 per ft.**

## SPARK PLUG CAPS

Original NGK. Black. 5000 ohm resistance. P/N 08-00737 is used on threaded type plugs. P/N 08-04960 is used on solid top plugs.

P/N 08-00737 ..... **\$2.75**

P/N 08-04960 ..... **\$2.60**

## SPARK PLUG WIRE

High-quality multi-strand copper core unshielded wire. 7mm diameter. For all Rotax® and most other engines. Replaces Rotax® Part No. 965-158.

P/N 11-04105 ..... **\$1.03 per ft.**

## FLEXDRIVE

PosiFlex coupler for Quicksilver®

For 377/477 w/o high-thrust mod ..... P/N 05-01985 ..... **\$269.95**

For all high-thrust mods ..... P/N 05-01986 ..... **\$330.00**

## POSI-FLEX DRIVESHAFT

Greatly reduces vibration transmitted to the airframe. Internal rubberized flex joint allows for slight changes in shaft alignment. A popular update on most older Quicksilver aircraft. Also used as standard equipment on all current shaft drive Quicksilver aircraft. Cuyuna 430 or Rotax 503. 25-1/2" blunt.

P/N 15-06600 ..... **\$204.95**

## RATIO-RITE CUP

Getting the right oil-to-gas ratio is no problem with this tough polypropylene cup. Just fill the cup with oil to the ratio level desired, and mix with gasoline. Ratios from 16:1 to 50:1. Graduated in ounces and CCs for filling chain cases, etc. 18 oz. capacity.

Cup ..... P/N 08-01091 ..... **\$4.35**

Lid ..... P/N 08-03677 ..... **\$1.80**

## SYPHON MATE

Here's a safe and easy method of fuel transfer. A simple jiggle of the Syphon Mate establishes the flow, and then air pressure maintains it. Never wears out, and it's guaranteed for three years. The outlet end is 1/2", 6' length standard pipe thread for easy attachment to a garden hose, if needed. .... P/N 05-01018 ..... **\$8.75**

## AIR-TECH ROTAX GEAR BOX CLUTCH RK400

The primary purpose of the clutch is to disengage the prop from the engine allowing it to start and operate at idle without vibration. When the engine is idling (below 2350 RPM) the prop is not turning.

Installation of the clutch replaces the gear box flywheel and the hardy disk. Added weight is approx. 3 Lbs. P/N 10-04811 ..... **\$549.00**

## CRAZEDPILOT ROTAX 582 GEARBOX BADGE PLATE

Fits E-Drive aka E-Box gearbox AND the C-Box gearbox. Package comes complete with 2 plates, and includes properly threaded bolts with aluminum standoffs to provide original air ventilation from gearbox. Powder coated for maximum lifespan. P/N 11-13317 ..... **\$39.00**

## STAINLESS STEEL FIREWALL SHIELDS

Two piece shields for use over cables or wires with large end-fittings or existing installations. Single piece for use where the cable or wire may pass through the hole. Flat shields designed for use on wooden or composite firewalls using a fire resistant sealant to prevent leaks. Both types of shield available in flat or with dimple to accommodate rubber grommets up to outside diameter.

Actual hole size in 2 piece shields is slightly larger than indicated to prevent chafing cable. Rear pilot hole in single piece shields oversize for the size grommet used. Use grommets that fit tightly around the cable or wire to insure a good seal.

Shields may be installed with screws, bolts and plate nuts or rivnuts. Install cable and grommet in firewall. Locate the shield to insure that it is centered on the cable - then drill attach holes in firewall. Shields pre-drilled with 5/32" mounting holes. If more than one cable passes through grommet fire resistant sealant must be applied to grommet.

Caution: Any holes drilled in the firewall are potential source of carbon monoxide in the cockpit. Extreme caution must be exercised when installing firewall shields in your aircraft. They do not provide the necessary seal around cables or wires to prevent carbon monoxide, smoke or fire from entering the cockpit. The shields are designed only to protect the sealing material (grommets/gaskets) from excessive heat.

Two piece firewall shield, 5/32-Inch hole with 3/4-Inch dimple for grommet.

P/N 08-13832 ..... **\$9.50**

Two Piece 3/8" Hole 1" Dimple For Grommet

P/N 61-375 ..... **\$11.50**

Two Piece 3/8" Hole 1-1/4" Dimple For Grommet

P/N 61-475 ..... **\$11.50**

Two Piece 1/2" Hole 3/4" Dimple For Grommet

P/N 61-300 ..... **\$11.50**

Two Piece 1/4" Hole 3/4" Dimple For Grommet

P/N 61-250 ..... **\$11.50**

Two Piece 3/8" Hole 3/4" Dimple For Grommet

P/N 61-275 ..... **\$11.50**

## FLEXDRIVE

PosiFlex coupler for Quicksilver®

For 377/477 w/o high-thrust mod ..... P/N 05-01985 ..... **\$269.95**

For all high-thrust mods ..... P/N 05-01986 ..... **\$330.00**

## CRAZEDPILOT ROTAX 503 BADGE PLATE

These Rotax 503 Badge Plates covers that ugly hole in the side of your Rotax gearbox on the side of your Rotax 503 engine. Comes complete with 2 plates, and includes properly threaded bolts with aluminum standoffs to provide original air ventilation. Powder coated for maximum lifespan.

P/N 11-14864 ..... **\$33.50**

## ROTAX THROTTLE SPRINGS 6822

A common complaint about the Rotax 912/914 engines is that the throttle return springs are too strong. McFarlane stocks a variety of springs so you can choose the one that best fits your application. All McFarlane throttle controls for Rotax engines include P/N 6822 spring. Less than half the strength of the original stock Rotax springs. Prevents throttle "creep" due to excessive return spring force. Requires 1 per carburetor (2 per engine) Note: Installer is responsible for determining whether this spring is an appropriate substitution for their application. For use on non-certified aircraft. Comes in a pack of two.

P/N 05-12477 ..... **\$19.80**

EP

# BARRY ENGINE MOUNTS

## BARRY MOUNTS

Barry Controls has actively supported the general aviation market since 1981 and holds PMA approvals on a wide range of engine mounts. Barry mounts are warranted for 500 hours or 12 months and feature outstanding quality & value. Call for unlisted part numbers.

# LORD ENGINE MOUNTS

## LORD ELASTOMERIC ENGINE MOUNTS

These compression type couplings consist of bonded rubber joints pressed into the sockets of metal hubs. These dynafocal engine suspensions provide proper flexible support to isolate engine vibrations and reduce noise transmission to airframe structure in all aircraft applications. Careful design assures maximum strength to hold the engine under ultimate load and emergency conditions. Suspensions also distribute loads in most desirable patterns, control engine motions, accommodate thermal expansion and manufacturers' tolerances.

**PROMPT SHIPPING GUARANTEED! IF YOU REQUIRE UNLISTED LORD MOUNTS, PLEASE CALL US FOR YOUR BEST PRICE. WE BEAT ALL COMPETITOR'S PRICES! LET US KNOW OF ANY LOWER PRICE AND WE WILL BEAT IT!**

# ENGINE MOUNTS

## DYNAFOVAL ENGINE MOUNT RINGS & KITS

Standard rings furnished with 2-3/4" I.D. retainers, completely welded, ready for mount assembly. The Dynafoval ring kits contain all tubing cut and bent, with 2-3/4" I.D. retainers, ready to weld.

Dynafoval Ring for Lyc. 0-235 to IO-360 (200 HP)..P/N 33521 ..\$197.75  
 Dynafoval Ring for Lycoming O-320B..... P/N 33521-B \$299.95  
 Dynafoval Ring Kit for Lyc. 0-235 to IO-360 (200 HP) . P/N 33522....\$219.00  
 Retainer Cups & Rings Kit ..... P/N 33253....\$148.90  
 (includes 8 cups & 4 rings - everything in #33522 kit above except the tubing)

## VIP ENGINE MOUNTS FOR EXPERIMENTAL AIRCRAFT

Spruce P/N	Lord Equiv.	Barry Equiv	Price ea.
08-00774	J9613-49	94110-20	\$88.75

## SANDWICH MOUNTS FOR HOMEBUILT AIRCRAFT

Sandwich assemblies of natural rubber and specially blended synthetic compounds bonded to 2 metal plates. Normal installation requires 4 assemblies, each consisting of 2 sandwich mountings and 1 spacer. Satisfactory performance requires that the spacer be designed to the correct length to precompress each mounting to guarantee proper positioning of the mountings. Set consists of eight bonded sandwich mountings equivalent to Lord Mount No. J-7402-5 (2" Dia.) and four 4130 steel spacers with mounted rubber shoulder. Use with dynafoval engine mount rings using 2-3/4" I.D. retainer cups. Used on many homebuilts including the Defiant and Long-EZ .....P/N 08-03500 .....\$449.00

## SPECIAL HEAVY DUTY MOUNT SETS

Designed for use on aerobatic aircraft such as Christen Eagle and Acro. Same style as homebuilt type but inner core has been "beefed up" and elastomers added to encapsulate the spacer. 2-inch diameter. Includes a set of 8 Mounts and 4 spacers to make one complete engine set of 4.

Note: Mounting hole is 7/16" and requires AN7 bolts for installation.  
 50401-300 w/4 Spacers .....P/N 08-03600 .....\$247.00  
**DISCOUNT: LESS 10% ON 6 SETS, 15% ON 10 SETS, 20% ON 20 SETS**

## LORD MOUNTS FOR COZY ENGINE MOUNT

These Lord J-7402-24 mounts fit the engine mount for Lyc. 0-360 manufactured by CG Parts.  
 P/N 07-01115 .....\$137.75

## SKYBOLT PLATEMOUNTS

The SK2003A Series Mounts were specifically designed around the latest generation Cessna/Lord J7444-42 Series Mount. The SK2003-14A, -24A, and -42A all have the same flex feature as the J7444-42. They look and install exactly the same as the Cessna/Lord part it replaces using the same fastener length. The SK2003-14A, -24A, and -42A are fixed depth, Non-Adjustable Platemarks. The 50ADJ is adjustable and can be adjusted without removing the cowling for an exact fit.

Non-Adjustable Platemarks. The 50ADJ is adjustable and can be adjusted without removing the cowling for an exact fit.

Model	Application	Part No.	Price
SK2003-14A	Cessna PN J7444-14. Used On - 67-On C150 (10ea), 67-86 C172 (11ea), C172XP (13ea) 68-78 C177 (14ea)	08-07222	\$19.75
SK2003-24A	Cessna PN J7444-24. Used On - 73-86 C182 (14ea)	08-07223	\$22.50
SK2003-42A	Cessna PN J7444-36 and -42. Used on -97. C172 R & S (14ea)	08-07208	\$31.50

## SMALL URETHANE EAR STYLE ENGINE MOUNT BUSHINGS

These engine mount bushings are made of a special urethane formula which outlasts most other mounts. They have been in use on O-540, IO-540 and TI-540 series engines for years, and are now available to the experimental aircraft market. Includes two bushings, one spacer and two washers. Specifications: These small ear type bushings are applicable to the following engine models:

O-540-A1A, -A1A5, -A1B5, -A1C5, -A1D, -A1D5, -A2B, -A3D5, -B1A5, -B1B5, -B2B5, -B2C5, -B4B5, -C1B5, -E4A5, -E4B5, -E4C5, -G1A5, G2A5, -F1A5, -F1B5  
 IO-540-A1A5, -B1A, -B1A5, B1C5, -C1B5, C4C5, -D4A5, -E1A, -E1A5, -E1B5, -E4A5, -G1A5, -G1B5, -G1C5, -G1D5, -G1E5, -G1F5, -D4A5, -K1A5, -K1A5D, -K1B5, -K1C5, -K1D5, -K1E5, -K1F5, -K1G5, -K1G5D, -K1J5D, -T4A5D, -T4B5D, -N1A5, -R1A5, -S1A5, -C4D5D  
 TIO-540-A2C, -S1AD P/N 08-07393 .....\$49.95

## BARRY MOUNT FOR VANS AEROBATIC AIRCRAFT

Barry Controls is a manufacturer of many aircraft engine mounts of both experimental and certified types. They also manufacture engine mounts for experimental and kit airplanes of various makes and models. Please call or visit our website for application information.

P/N 94016-08.....\$437.95

## HOMEBUILDERS CONICAL LYCOMING ENGINE MOUNT BUSHINGS

These new bushings offer superior damping qualities and do not harden over time as original mounts can do. They are molded from hi-tech silicone rubber which offering a much lower compression set which reduces engine sagging over time. Silicone also withstands a very wide temperature range and is compatible with grease and oil. These mounts are not PMA'd or FAA approved and are for use on experimental aircraft only. Not an approved replacement for Lycoming 71032 bushings. Sold in set of 8 bushings.

P/N 08-00662 .....\$42.80 /Set

## LORD ENGINE MOUNTS FOR ULTRALIGHTS

All altitude mounts for vibration isolation and shock prevention in all directions. Available in soft, medium, or hard rubber.  
 Soft .....P/N 08-07049 .....\$24.50  
 Medium .....P/N 08-01013 .....\$22.99  
 Hard .....P/N 08-07050 .....\$17.55  
 Snubbing Washer .....P/N 9810145-01804 .....\$1.42

## LORD RUBBER ENGINE MOUNT

LORD Flex-Bolt™ Sandwich Mounts are designed to protect equipment and machinery against damaging vibration. These mounts provide high load-carrying capacity and assure long life. Provide lowcost mounting systems which are compact, lightweight, easy to install and maintenance-free.

Model	A	C	D	Thread	Part No.	Price
J-4624-45	1.00	.75	.75	5/16-18	10-01557	\$9.95
J-4624-57	1.00	.75	.62	5/16-18	08-07196	\$7.95

## LORD PLATFORM MOUNT

Lord Platform Mounts provide effective isolation against vibration. The contour of the flexing element was developed to provide uniform stress distribution. This, plus high strength bonding and the use of specially compounded elastomers, provides maximum service life.

150 Steel Square 30 lb..... P/N 15-05391.....\$17.90  
 200 Steel Holder 45 lb..... P/N 15-05499.....\$85.80

## URETHANE CONE STYLE ENGINE MOUNT BUSHINGS

These engine mount bushings are made of a special urethane formula which outlasts most other mounts. They have been in use on smaller 4 cylinder Lycoming engines from the O-235 series to the GO-480

series for years, and are now available to the experimental aircraft market.

Specifications: These cone type mounts are applicable to the following engine models: O-235-C1, -C1B, -C2A, -C2C, -F, -F1B, -G2A, O-290-D, -D2, -D2B, -D2C, O-340-A, O-340-B, O-320-A2A, -A2B, -A2C, -A3A, -A3B, -A3C, -B2A, -B3A, -B3B, -B3C, -E1A, -E2A, IO-320-E2A, O-435-A, -A2, GO-480-B, -B1A6, -B1B, -B1C, -B1D, -C1B6, -D1A, -F6, -F1A6, -F2A6, -F4A6, -G1A6, -G1D6, -G2D6, -G2F6, -G1H6, -G1J6.

P/N 08-07392 .....\$6.95

# EXHAUST COMPONENTS

## STAINLESS STEEL FIREWALL PENETRATION KIT 3/4

The kit comes complete with stainless steel fabricated fitting, fire sleeve tubing, two ALL stainless steel hose clamps and a tube of fire block sealant to seal the ends from moisture and gasses. Includes installation instructions.

- Fireproof seal of the firewall for penetration of wires and cables.
- Seals out moisture and gasses.
- Easy replacement of wires and cables if necessary.
- Very clean looking installation.
- Available in three sizes.

To determine the size you need, plan where you want to run your wire and cable bundles. Use a tie strap or twist tie to bundle the wires and cables. Measure what size holes the bundle will fit through and choose the NEXT LARGER size (see installation instructions.) You need enough clearance between the bundle and stainless fitting to push the second fire sleeve into the fitting creating the fireproof, chafe proof seal. Typical installation. Wires can be run straight out or turned back to attach on firewall reducing vibration.

There are so effective that they received an STC under Advisory Circular AC 20-135 Power plant Installation and Propulsion Systems Component Fire Protection Test Methods, Standards and Criteria.

### T TUBE CONNECTOR

Expanded on short leg to slip over a 2" O.D. tube to divert air in two directions. Especially handy for close to the firewall applications. Weight is 1.7 ounces.

P/N 08-07304 ..... **\$35.65**

### 2-1/2 INCH Y TUBE CONNECTOR

With 2" offshoot. If you are running 2.5" tubing in one area and 2" to another, this is your part. Weight is 1.8 ounces.

P/N 08-07303 ..... **\$36.50**

### 2 INCH DIAMETER Y TUBE WITH SHUT-OFF VALVE

This is a DL-010 "Y" Tube, modified with a shut-off valve in the straight run tube. The shut-off valve enables the builder to divert the flow of air from the straight tube and direct all or part of the air flow to the angled tube. Furnished with one stainless steel hose clamp. Weight is 2.9 ounces.

P/N 08-07296 ..... **\$67.75**

### MODIFIED VA175 TUBE CONNECTOR

This is a direct replacement for the VA175 (Van's part number). The VA175 directs warm air in the RV-10 tunnel to both sides equally.

With the Modified VA175, air can be directed all to one side, partially to one side, or both sides, through the controllable (cable actuated) flapper on the inside of the unit.

P/N 08-07306 ..... **\$82.95**

### SHUT OFF VALVE TUBE CONNECTOR

Expanded on one end to 2" I.D. to slip over a 2" O.D. tube to regulate or shut off air. Also available non-expanded for in-line applications. Weight is 2 ounces.

P/N 08-07305 ..... **\$80.75**

### EXHAUST SHIELDS

Over the years we have seen failure of the rivets that hold the exhaust heat shield to the mounting bracket. The solution was to spot weld the stainless steel mounting bracket to the stainless steel heat shield thus eliminating the possibility of rivet failure. Adding additional spot welds insures reliability. They are offered in two sizes, 2 inch and 4 inch to cover most applications.

Exhaust Shield 2" ..... P/N 08-07351 ..... **\$15.75**  
 Exhaust Shield 4" ..... P/N 08-07352 ..... **\$21.45**

EP

# EXHAUST COMPONENTS

## HEATER BYPASS VALVES

Three models of the all stainless steel heater bypass boxes are offered. The engine side control lever comes with a backing plate that attaches to the cabin side of the firewall and has a 2 inch scat tube outlet so a tube can be attached in the cabin that directs air where wanted. All stainless steel construction offers a fireproof closure in case of an engine fire. New flapper design offers better seal to keep out hot air when closed.

**HEATER BYPASS VALVE FOR RV-10**  
P/N 08-06230 .....\$234.75

**HEATER BYPASS VALVE WITH CABIN SIDE CONTROL LEVER FOR RV-7, RV-8 AND RV-9**  
P/N 08-01311 .....\$105.00

**HEATER BYPASS VALVE WITH ENGINE SIDE CONTROL LEVER**  
P/N 08-01311-1 .....\$103.75

## ALL STAINLESS STEEL TRI-BOX

These boxes were developed for builders who want a simple, light, all stainless box that will fit in tight places, as it does not extend forward of the firewall as far as a standard box. Shown in the photo is a left unit. The box is available in both left and right units. The hole spacing is correct for the pre-punched holes in the RV-10 firewall, but they can be mounted on

any firewall. For ease in cable routing, the arm on the box is adjustable using the provided lock nuts. Everything in the unit is stainless steel, including bushings and rivets. It is furnished with a closed-cell silicone gasket. Weight is 9.8 ounces and has a 2" inlet/outlet port. Please note that these boxes are a direct replacement for the aluminum box available from Vans. The RV-10 uses both a left and a right unit, and they also can be ordered separately. If you are not sure which one(s) you need, refer to your firewall plans drawings.

Right.....P/N 08-04958 .....\$166.75  
Left unit is a special order part. Please contact us to order.

## 2 1/2" INLET AND 2" OUTLET HOMEBUILDERS CABIN HEAT BOX

This box is identical to the deluxe stainless steel cabin heat box, except that the inlet is 2 1/2" OD so that it can be used on larger heat muff applications where the builder is using 2 1/2" scat tubing. This box is currently being used on the MICCO certified aircraft. Weight is 7.2 ounces.

P/N 08-04013 .....\$162.75

## SIDE INTAKE HOMEBUILDERS CABIN HEAT BOX

P/N DL-015 - This box is identical to the standard cabin heat box, P/N DL-001, except that the air intake is parallel to the firewall rather than coming straight in from the heat muff. This gives the builder the option of running scat tube parallel to

the firewall. Total weight is 5.2 ounces and has a 2" inlet/outlet port. Furnished with a flange gasket and four mounting rivets. Can also be bolted to firewall.

P/N 08-04957 .....\$128.75

## GPL STAINLESS STEEL EXHAUST SPRING

Winding Length: 26mm. Overall Length: 58.3mm. Hook Distance: 66mm(2.90"). Wire Diameter: .2. O.D.: 13mm. Number of Rolls: 13. GPL Part Number: EXH-2S. Replaces Rotax Part Number 938-795.

P/N 08-07632.....\$4.00

## GPL STAINLESS STEEL EXHAUST SPRING FOR 2 STROKES

Winding Length: 32mm. Overall Length: 64mm. Hook Distance: 75mm. Wire Diameter: 2.0mm. O.D.: 16mm. Number of Rolls: 9.5. GPL Part Number: EXH-4S. Replaces Rotax Part Number 938-790

P/N 08-12235.....\$8.00

## CESSNA RISER HALF CLAMP 0750161-25

Cessna Riser Half Clamp 0750161-25, for Cessna 172R and 172S.

P/N 05-04890 .....\$145.75

## AERONCA HEAT MUFF

Aluminum muffers for models 7AC and 11AC exhaust stacks. Fit either left or right side.

P/N 05-08715.....\$264.95

## 2" DIAMETER 90° TUBE

This unit is designed to slide over the end of the 2" O.D. tube protruding from a cabin heat box that extends through the firewall. The short end of this unit is expanded to 2" I.D. Two stainless steel clamps are furnished with the unit. If you use scat tube, the 90° angle allows you to run the scat tube parallel to the firewall and away from undesirable

areas (brake pedals, etc.) Constructed of seamless 6061T4 .028 wall tube. Weight: 1.4 oz.

P/N 08-00863 .....\$42.50

## 2" DIAMETER "Y" TUBE

"Y" tube is designed to be used with the Homebuilders cabin heat box to make warm air available to 2 or more locations in the aircraft. Constructed of seamless 2024T6 tube, it weighs only 2 oz. These tubes are expanded to 2" I.D. on the inlet end to slip over and clamp to the 2" O.D. tube of the cabin heat box. Due to the very light weight, "Y" tubes can be installed in scat tubing as well as attaching directly to cabin heat boxes. One stainless steel clamp is included with "Y" tube. Due to the light weight of only 1.7 oz., the non-expanded Y-tube can be placed anywhere in a run of tubing to give more options for heating additional areas of the aircraft. Furnished w/2 stainless steel hose clamps

Standard "Y" tube.....P/N 08-04100 .....\$38.75  
Non-expanded "Y" tube.....P/N 08-04130 .....\$39.60

## IN-LINE HEATER/DEFROSTER VALVE

This in-line valve connects to 2" SCAT ducting. It comes complete with cable end and can be hooked up in any combination to direct air to either heater outlets or defrost outlets. Actuating lever is adjustable to any position. Very popular on RV's & other homebuilt aircraft.

P/N 08-00053 .....\$109.95

## CESSNA TYPE HEAT MUFF

Heli-arc welded aluminum muff with rust-proof stainless steel fins for clamping to stack. Similar in design to the new Cessna type. Furnished with attaching clamps.

Muff w/2" Outlet..... P/N 08-02400 ....\$89.75  
Muff w/ 2.5" Outlet..... P/N 08-02500 ....\$89.75

## THERMO-TEC STAINLESS STEEL CLAMP-ON HEAT SHIELDS

Stainless Steel Clamp-On Heat Shield incorporates Thermo-Tec proprietary coating technology. The new and improved flexible Stainless Steel Clamp-On Heat Shield blocks over 95% of the damaging radiant heat of the exhaust. The Stainless Steel construction of this heat shield provides the ultimate in protection.

Comes complete with all clamps and new stainless stand offs. Easily installs in minutes.

1 ft. x 6 in.....P/N 08-13904 .....\$49.50  
2 ft. x 6 in.....P/N 08-13905 .....\$67.75

EP

# HEAT BOXES – EXHAUST COMPONENTS

## DELUXE HOMEBUILDER'S CABIN HEAT BOX

P/N DL-002 - This cabin box is our first modification to our standard heat box. The only difference between this and the standard is that the deluxe cabin heat box has one inlet and two outlets; the second outlet must be used to dump and route, via 2" scot tube, the warm air away from the low plenum area when heat is not being used in the cabin. (It is very important not to run the dump tube to another box on the other side of the firewall, because a constant flow of air is necessary to ensure that the heat muff does not overheat.) The weight on this unit is 5.5 ounces.

P/N 08-04005.....\$136.75

## 2-1/2" OD INLET AND 2-1/2" OD OUTLET HOMEBUILDERS CABIN HEAT BOX

P/N DL-005 - This box is identical to the deluxe stainless steel cabin heat box, except that the inlet and outlet are 2 1/2" OD so that this box can be used when the builder wants to use 2 1/2" scot tubing throughout the project. (This box was used on the Cirrus SR20 certified aircraft. The SR20 now uses the DL-008 box listed below.) Weight is 6.3 ounces. ....P/N 08-04015.....\$169.50

## DELUXE HOMEBUILDERS CABIN HEAT BOX. ALL STAINLESS STEEL

P/N DL-006 - This box was recently developed in response to customer requests. With the exception of brass shaft bushings, this box is constructed entirely of stainless steel, including all SS blind rivets. Like the deluxe boxes, this unit has a 2" inlet and 2" outlets. For the added durability of all stainless steel, the box still only weighs 10 ounces.

P/N 08-04025 .....\$156.75 ea.

## STANDARD HOMEBUILDERS CABIN HEAT BOX

P/N DL-001 - This cabin heat box has been engineered to be the smoothest, most efficient and lightest heat box built. Fabricated from aircraft-grade aluminum with stainless steel shaft, arm and flapper. Originally designed for use on the popular RV-4 homebuilt, but is applicable to most other designs. Total weight is only 5.2 ounces. Furnished with a gasket flange for the forward side of the firewall for leak-free ducting of warm air to anywhere the builder wants it. Inlet and outlet are 2 inch OD 6061-T4 seamless alum. The body of the box is constructed of

5052-032 alum. The outlet tube extends through the firewall so that scot tubing can be attached to route the warm air. Superior craftsmanship and quality. Over 4,000 sold to date. P/N 08-04000 .....\$121.75 ea.

## TOPCAP ENGINE PROTECTOR

Install TopCap in place of a removed cylinder to protect the engine from dirt, debris, and stray parts. Made from fuel and solvent resistant polymer, TopCap allows for full crankshaft rotation. One size fits Lycoming wide deck 320, 360, 540, 720 and Continental 470, 520, and 550.

P/N 08-00373..... \$23.75 /pr.

## TUBING CONNECTORS

### 2" ALUMINUM FLANGE

Accepts 2" scot tube. Flange allows riveting to firewall, baffles, etc. Wt: 0.2 oz.

P/N 08-04135.....\$16.50

### CARB HEAT CONNECTOR

Mounts on FAB airbox or similar airbox. Flange accepts 2" scot tube from muff. Standoff design allows hot air to escape when carb heat is not selected. Weight: 0.9 oz.

P/N 08-04145.....\$23.50

### FLANGED DUCT

Accepts 2" ducting on both ends. Helps route ducting through bulkheads, firewalls, etc. Especially useful for getting heat to the back seat of the aircraft. 3" square plate with 2" tubing projecting 1" from each side. Wt:0.7 oz.

P/N 08-04140.....\$21.50

### CABIN HEAT BOX

Custom built aluminum box mounts to firewall. Lever on butterfly may be attached to push-pull control for close adjustment of cabin air flow. Two 2" intake ports, one 2" outlet. Wt. 1 lb. 7-1/2" long. Fine quality construction.

P/N 08-01500.....\$159.75

## HOMEBUILDERS CABIN HEAT SHUTTLE KIT

Easily assembled and designed so that it can be modified for custom applications. Kit includes construction plans and directions along with installation hints for the popular Vans RV series of homebuilt aircraft. Controlled by ratchet type control cable such as ACS model A740 (P/N 05-12500). Order control cable separately.

P/N 08-04460 .....\$68.75

## TURBO HEAT CABIN HEAT MUFF

The Turbo Heat is an improved version of the standard Experimental Cabin Heat Muff. Each canister is made from industrial grade .063 aluminum tubes with .125 6061T-6 aluminum end caps laser cut, welded and then machined to exact tolerance for ease of installation and a vibration free fit. Internally, each canister is fitted with 10 aluminum rods surrounded by

copper windings for superior heat transfer. Dimensions: The standard model is 8 in. in length with 2 in. intake and exhaust tubes. The end caps are machined specifically for the diameter of your engine's exhaust manifold. Please select your port exhaust diameter at checkout of 1.5 in, 1.75 in, or 2.0 in.

P/N 05-15249.....\$173.75

## ENGINE SAVER

Every aircraft owner knows that his engine is subject to moisture build up and internal rust formation when not flown regularly. Oil companies spend millions developing special additives to minimize rust. Now there is a better way to fight this rust! The Engine saver produces a continuous supply of very low humidity air that is introduced into the engine through the breather. Low humidity air prevents water formation in the engine. The slight pressure

built up keeps the moist outside air from entering, allowing the dry air to flow past the piston rings into the upper cylinder area protecting it as well. The Engine Saver is 110vac powered, requires no installation or FAA approval, and works with all piston engines. Pilots are flying less and the Engine Saver will save them money by reducing maintenance costs.

P/N 08-00724 .....\$325.00

EP

# AWI EXHAUST SYSTEMS

## EXHAUST SYSTEMS BY AEROSPACE WELDING MINNEAPOLIS, INC.

Aerospace Welding, Inc. has earned a reputation for its uncompromising commitment to quality exhaust systems and components. Aircraft Spruce is an authorized distributor of AWI products, and as such can assure our customers of minimal down time and fast shipment through the Priority Service Program at AWI. All exhaust systems are built in fixtures for precise fit and are FAA approved for the listed aircraft. Available in factory new (N) and overhauled (OH) condition as noted.

**\* NOTE:** \* = 0550157-7 has been consolidated under PMA part number A0450338-14

# NICROCRAFT EXHAUST PARTS

## NICROCRAFT EXHAUST PARTS BUILT TO TAKE THE HEAT

Aircraft Spruce & Specialty Co. offers fully overhauled and factory new exhaust components for use in most general aviation aircraft. Manufactured by Wall Colmonoy Corp. Microcraft exhaust parts are built to the latest original equipment specifications. Heat-resistant 321 stainless steel is used in the construction of all new parts. Bellows are made of Inconel alloy for superior heat resistance. Individual exhaust components and complete systems are available for virtually all single and twin engine Cessna, Piper, Beech, Bellanca, Grumman, Mooney, and Rockwell aircraft. (Please provide your complete aircraft and engine model and serial numbers, year of aircraft, and exact components required.) Most components are available for immediate shipment.

Cessna 180/182/185

Beechcraft 33/A33/B33/35

Piper PA-18

Piper PA-12, 14, 16, 20, 22, 25

Piper PA-23 Turbo

## PIPER EXHAUST CLAMP

This clamp is used on the exhaust system. The spot weld on the V Band is failing. The failure could result in the release of high-temperature gasses inside the engine compartment and possibly cause an in flight fire according to the published AD.

# FAA/PMA EXHAUST COMPONENTS

## CESSNA & BEECH FAA / PMA REPLACEMENT MUFFLERS & EXHAUST COMPONENTS

FAA/PMA approved equivalents.  
Cessna 120, 140, 150 Exhaust Systems: Include one left and one right muffler, shroud, tailpipe and clamps.

Cessna 120, 140, 150, 150A thru H, J, K, A150K, L & M Muffler Systems: Muffler with attached stacks. Original Cessna 120 & 140 shrouds will not fit the mufflers below.

Cessna 152 & 152A STC'D Exhaust System: For Cessna 152 S/N 15279406-15283591; F15201429-F15201673; A1520735-1520878; FA1520337-FA1520357. Ideal for homebuilts using O-235, L2C, N2C and O-320 Lycoming Engines.

Cessna Tailpipe Extensions: Cessna 150, 170 and early model 172 replaces original exhaust pipe Cessna P/N 0450338-66, 0550157-3 and 055015733. Extends 2" past original tailpipe, 2" OD stainless steel, Bolt-on, End cowlng smudges and Reduces cabin noise.

## TAYLORCRAFT FAA / PMA DESIGN B THRU BC12D MUFFLER

A-65, A-75 and C85-8 engines only. Fits B-through BC12D series. 1020 Mild Steel and cold galvanized spray finish (for corrosion protection).

Replaces OEM part BC-A6031. This system is compatible only with OEM shrouds. Not compatible with Univair shrouds.

Note: Exhaust system installation on Taylorcraft is unique in that it requires either the removal of the engine or the loosening of engine bolts. This is the original design.  
P/N 05-05246 .....**\$806.00**

## PIPER FAA / PMA REPLACEMENT MUFFLERS & EXHAUST COMPONENTS

E-362-000

\*Requires Welding\*

Replacement mufflers & exhaust components for Piper Aircraft, all are FAA/PMA approved equivalents.

Note: Bale Assembly, complies with Service Bulletin No. 759 and is manufactured in accordance with FAA specifications. Wire bale is installed into tailpipe to avoid blockage of the tailpipe, should a baffle failure occur.

Description	Part No.	Price
Pa-18 Super Cub Muffler	05-05256	<b>\$571.00</b>

# POWER FLOW SYSTEMS INC. EXHAUST SYSTEMS

Power Flow Systems, Inc., the world leader in designing, manufacturing, and retailing of FAA Certified High Performance aircraft tuned exhaust systems. Their Tuned Exhaust System is totally different. When you break down their exhaust system, you have two "sets" of pipes; the primary (header/collector combination) and the secondary (pipe after the collector). The primary contains four independent tubes that all join at the "4-1 Collector". As each "exhaust puff" of spent fuel travels through the primaries, it leaves a vacuum behind. In their tuned exhaust system, they have adjusted the length of each tube so that the vacuum reaches the collector just in time to "suck out" the exhaust from the next cylinder. The exhaust gases are not only being pushed out by the cylinder, but "extracted" by the vacuum, so a bigger, fresher charge will enter the cylinder during the next cycle. A tuned exhaust system really promotes a smoother, cooler, and finally more powerful running engine.

Benefits with Power Flow Systems:

- Shorter Take Off Roll
- Greatly Improves Rates of Climb
- More Usable Power
- Fuel Savings at Current Speeds
- Smoother Running Engine
- Runs cooler at Current Speeds
- Go up to 8 knots faster
- Mandrel Bent Tubes to maintain consistent interior dimension

Kit Contents:

- Kit includes everything to "bolt on" a Complete Replacement Exhaust System
- New Headers, Heater, & Muffler
- No blow gaskets, Nuts, Lock washers, Flat washers, Cotter pins etc.
- Stainless Steel Construction
- Up to 40% thicker than stock
- New Improved Heating System

## POWER FLOW EXHAUST SYSTEM FOR ROBINSON R22

R22 Tuned Exhaust Kit for R22, R22 Alpha, R22 Mariner, R22 Beta with 320-B2C engine and large oil cooler. FAA approved by STC. Installing a Power Flow tuned exhaust provides the same performance benefits as upgrading to a Beta II, at a fraction of the cost. It is true bolt-on horsepower for your O-320 powered Robinson R22 Alpha or Beta.

P/N 08-15965 .....\$7,360.00

# EXHAUST SYSTEMS

All exhaust stacks are heli-arc welded using Type 321 stainless steel tubing for light weight and long service life. Stainless steel stacks weight 50% less than a set in mild steel. All stacks are custom made and the workmanship is consistently of exceptional quality.

**WHEN ORDERING, SPECIFY COMPLETE MODEL NUMBER AND HP OF ENGINE AND AIRCRAFT TYPE.**

## STRAIGHT STAINLESS STEEL EXHAUST STACKS

Basic exhaust pipes for Pitts Special, Smith Miniplane, Acro Sport, Starduster and many other homebuilts with Lycoming engines O-235 through O-360. This exhaust system fits under the intake tubes, starting at the rear cylinders, around the front intake tube, then points aft. Two mufflers (P/N 33205) or two tail pipes (P/N 33204) can be used with this system. With stainless swivel joints for vibration dampening and for positioning of tail pipes through 25° range. Wt. 7-1/4 lbs.

### SYSTEM FOR LYCOMING ENGINES THRU 180 HP

Set of two basic stacks only, consisting of:  
Right Hand, P/N 33202 & Left Hand, P/N 33203  
Set of Two..... P/N 33202/33203 .....**\$987.00**  
(Tail Pipes not included.)

System for Lyc. O-320B (Fuel-Injected)  
Tightest system for this engine.  
P/N 33270-1 .....**\$975.00**  
(Tail Pipes not included.)

### ADD OPTIONS:

#### STRAIGHT TAILPIPES

P/N 33204 (14") ....**\$217.95 Pr.** P/N 33204-24 (24") ...**\$256.95 Pr.**  
P/N 33204-18 (18") ....**\$231.95 Pr.** P/N 33204-28 (28") ...**\$272.95 Pr.**  
P/N 33204-20 (20") ....**\$244.95 Pr.** P/N 33204-36 (36") ...**\$283.95 Pr.**

#### MUFFLER WITH 8" TAILPIPE (NO HEAT EXCHANGER)

P/N 33205 .....**\$249.95 Ea.**

#### MUFFLER WITH 8" TAILPIPE & HEAT EXCHANGER

2" Dia. Inlet & Outlet .....P/N 33206-1 .....**\$398.00 Ea.**  
2-1/2" Dia. Inlet & Outlet .....P/N 33206-2 .....**\$419.00 Ea.**

**When ordering muffler with heat exchanger, advise if inlet & outlet pipe diameter other than 2" or 2-1/2" is preferred.**  
**When ordering muffler with heat exchanger, advise diameter of inlet and outlet pipe preferred (2", 2-1/2" or other).**

## HOMEBUILDERS SPECIAL STACKS

Designed to fit Lycoming engines 0-235 to 0-360. Mild steel. These stacks do not fit Pitts Special. Applicable to many home builts. Wt. 7.25 lbs.  
P/N 08-01900.....**\$868.00**

## STAINLESS STEEL CROSSOVER EXHAUST SYSTEMS

A exhaust system allows your engine to breathe properly by reducing back pressure and by picking up the correct firing order of the cylinders. This results in increased HP compared to an untuned exhaust. The added HP will be evident

as higher takeoff RPM, higher cruise speed and lower fuel consumption. This crossover system fits all Lycoming engines from O-235 to IO-360 (180 HP) with bottom or aft mounted carburetors or fuel injection controllers. It is designed for tight cowling and in most cases no cowling modification will be necessary. If fit is the problem, custom tighter crossover systems are available by special order (Additional charges may apply). The system has slip joints between cylinders and ball joints where tail pipes or mufflers connect to collector tubes to prevent cracking due to expansion and vibration and to allow for positioning of the tail pipes. The exhaust system can be ordered in the following combinations:

1. With straight tail pipes
2. With two mufflers (no heat exchangers)
3. With two mufflers (one heat exchanger)
4. With two mufflers, both with heat exchangers.

All mufflers include removable 8" tail pipes. Heat shrouds have one inlet and one outlet for 2" or 2-1/2" flex tubing

**Compression Springs** - used on Exhaust System Ball Joints. 6 required per system. P/N 33703.....**\$5.80**

### STANDARD CROSSOVER SYSTEM

Basic system with all Collector Tubes (Without Tail Pipes)  
P/N 33251 ..... **\$1,053.00**

#### ADD OPTIONS:

Straight Tailpipes (14").....P/N 33204 ..... **\$217.95 Pr.**  
Muffler w/8" Tailpipe (no heat exchanger) ....P/N 33205 ..... **\$249.95 ea**  
Muffler w/8" Tailpipe & Heat Exchanger. ....P/N 33206-1 ... **\$398.00 ea**

### COMPLETE STANDARD CROSSOVER SYSTEM PRICES

Basic System with Two Straight 14" Tailpipes.  
Ass'y # 33270..... **\$1,207.00**  
Basic System for 0-320B w/o Tailpipes. ....Ass'y # 33270-1 ..... **\$975.00**  
System with 2 Mufflers, Removable 8" Tailpipes & No Heat Shrouds.  
Ass'y # 33272..... **\$1,495.00**  
System w/2 Mufflers, 1 Heat Shroud for either Cabin heat or Carb. heat.....Ass'y # 33274..... **\$1,722.00**  
System w/2 Mufflers, Both w/ Heat Shrouds for Cabin heat & C arb. heat.....Ass'y # 33276..... **\$1,884.00**  
Stainless Crossover Systems for O-360 (200 HP)  
Available for Front, Bottom or Rear Injector  
P/N 08-05740 ..... **\$1,051.00**

**(Does not include tailpipes or heat muffls)**

### SPECIAL CROSSOVER SYSTEM FOR VERY TIGHTLY COWLED AIRCRAFT

**Designed for the Thorpe T-18, RV-6, 7 7 8, Mustang II, and others using Lyc 0-320 to 0-360 engines**

Basic System with all Collector Tubes — Please furnish exact engine designation to insure proper fit. P/N 33250.....**\$995.00**

Special Mufflers for the T-18 with Heat Shrouds for Cabin Heat and Carb. Heat. P/N 33250-1..... **\$444.00 Ea.**

Special Tailpipes for the T-18 (to be used when mufflers are not used). Comes with same ball joint as the mufflers and an attaching bracket. P/N 33250-2.....**\$285.95 Pr.**

**NOTE: PRODUCTS ON THIS PAGE ARE FOR EXPERIMENTAL AIRCRAFT AND ARE NOT FAA APPROVED. ALL EXHAUST SYSTEMS ARE SPECIAL ORDER AND ARE NON RETURNABLE**

# EXHAUST SYSTEMS

## EXHAUST SYSTEM FOR OSPREY AIRCRAFT

This stainless steel exhaust system is specifically designed for the Osprey Aircraft. Ideal for amphibians as the tailpipe exits vertically upward. Fits aircraft using the following engines: O-235 thru O-360. RH & LH Stacks Only

### ADD OPTIONS:

Muffler with Heat Exchanger ..... P/N 33420.....\$870.00  
Muffler Only ..... P/N 33422.....\$236.95  
P/N 33424 ..... \$417.00

## EXHAUST SYSTEM FOR CONTINENTAL O-200

This universal stainless steel exhaust system is designed for experimental aircraft using Continental A65 thru O-200 engines. Consists of 2 manifolds, left hand manifold has heat shroud with 2-1/2" connection for carb heat. Muffler outlet are 3" long. Tailpipe extensions may be required, sold separately

Mufflers ..... P/N 33401 ..... \$929.00

8" Tailpipe Extensions. Furnished with slip joint and pin clamp.

P/N 33402 ..... \$136.75

**THIS SYSTEM IS PATTERNED AFTER A CESSNA 150 SYSTEM, BUT WILL NOT FIT A CESSNA 150 OR 152.**

## EXPRESS AIRCRAFT EXHAUST MANIFOLDS Y-STYLE

Fits Lycoming IO-540 (Angle Valve Engine) (Includes Custom 2-1/4" Tailpipes With Cabin heat shroud) (Optional studding to increase cabin heat available)

P/N 08-02105 ..... \$1,875.00

**WHEN ORDERING EXHAUST SYSTEMS, PLEASE SPECIFY COMPLETE MODEL NUMBER & HP OF ENGINE AND AIRCRAFT TYPE**

## STAINLESS STEEL STACKS FOR PUSHER TYPE AIRCRAFT

PN 33601 - Designed specifically for "Pusher Style Aircraft". Exhaust fits inside of intake tubes.

For Continental C-85 thru O-200

P/N 33601 ..... \$946.00

For Lycoming O-235 thru O-360

P/N 33602 ..... \$950.00

## COZY MARK IV PUSHER EXHAUST SYSTEM

This custom stainless exhaust system was designed specifically for the Cozy Mark IV aircraft.

For Lycoming O-235 to O-360 (180 HP or less)

P/N 33702 ..... \$1,229.00

For Lycoming IO-360 (200 HP) Angle Valve Engine

P/N 33702-1 ..... \$1,235.00

Replacement Cozy Extension Spring

P/N 33704 ..... \$7.85 ea

Cozy Inside Cowl Exhaust ..... P/N 08-07342 ..... \$1,477.00

**NOTE: PRODUCTS ON THIS PAGE ARE FOR EXPERIMENTAL AIRCRAFT AND ARE NOT FAA APPROVED. ALL EXHAUST SYSTEMS ARE SPECIAL ORDER AND ARE NON RETURNABLE**

## EXHAUST SYSTEM COMPONENTS

Fabricate your own exhaust system with these precision-formed type 321 stainless steel components.

### STAINLESS STEEL 45° & 90° BENDS

Tubing Size	P/N	Radius	Angle	Price
1-1/2" X .035	33241	2-1/2"	90°	\$58.80
1-1/2" X .035	33241-4	4-1/2"	90°	\$69.95
1-1/2" X .035	33242	2-1/2"	45°	\$64.75

# EXHAUST SYSTEMS

## VETTERMAN RV EXHAUST SYSTEM

Vetterman Exhaust has been manufacturing exhaust systems for the Van's Aircraft RV series since 1990. Exhaust systems for all RV models & Van's approved engine models are available. All systems are manufactured from MIL Spec 321 stainless steel, which is mandrel bent, trimmed to length and tack welded on a Lycoming engine. This method assures the best fit possible. All systems incorporate ample slip & ball joints which greatly reduces breaking potential. All systems include blow proof gaskets, stainless exhaust nuts & washers for installation. Also include tail pipe mounting kits or pipe support brackets. Some systems also include a cabin heat muff.

AIRCRAFT	DESCRIPTION	P/N	PRICE

RV-6,7,8,9A (O-320-H2AD)	*Includes tail pipe mounting kit	08-00592	\$1,039.00
RV 7-7A (IO-360 AIA 200)	*Includes tail pipe mounting kit	08-00593	\$1,039.00
RV8 (IO-360)	*Includes tail pipe mounting kit	08-00594	\$1,039.00
RV 8A (IO-360)	*Includes tail pipe mounting kit	08-00595	\$1,039.00

**NOTE: EACH OF THESE SYSTEMS WILL NOT INTERCHANGE BETWEEN AIRCRAFT AND ENGINE MODELS. THESE SYSTEMS ARE DESIGNED AND INTENDED FOR USE ON RV AIRCRAFT ONLY. PRICES DO NOT INCLUDE SHIPPING CHARGES.**

### PA-11 STYLE EXHAUST STACKS

Piper PA-11 Style Exhaust Stack with Starter (Left). Experimental Use Only. Longer down pipes to clear starter, Left Hand. Can be used on Piper J-3, but some modifications of cowling may be necessary.

Starter Left..... P/N 05-12465..... **\$253.95**  
 Starter Right ..... P/N 05-12466..... **\$253.95**

### SNOWLINE RV-6 & RV-6A CROSSOVER EXHAUST SYSTEM

The material used on these systems is 1-3/4" O.D. x .035 wall 321 stainless steel tubing. 2 models are available; one for Lycoming engines up to 180 H.P. and the other for the Lycoming IO-360 (200 H.P. engine). Bending is performed using an inside mandrel which the tube is drawn over during bending to maintain the inside diameter. Flanges are made from 1/4" stainless steel. This heavy material greatly reduces warping & cracking. Tail pipes are attached to the header with a slip joint. Simply slide the tail pipes onto the header, position the end of the pipe as desired in the bottom opening, and attach with the stainless steel retaining clamp. One heat muff has been provided on the front cross-tube. This muff is intended for carburetor heat. If an injection system is being used, this muff can be used for cabin heat. An optional cabin heat muff can be ordered when carburetor heat requires the use of the standard heat muff. All hardware is provided to install the system. Stainless Steel nuts, bolts, washers, blow-proof gaskets, 2 stainless clamps for attaching tail pipes to the firewall or engine mount. U-type clamp attaches the cable housing securely in place.

RV-6/RV-6A Crossover Exhaust Sys. (To 180 H.P.)  
 P/N 08-05790..... **\$1,042.00**  
 Optional Cabin Heat Muff..... P/N 08-00679..... **\$156.75**  
**\*Will not work with front mounted injectors**

**The RV-6/RV-6A exhaust systems are recommended for these aircraft only. For other experimentals, the RV-4 system may fit better under cowls as it is built tighter to the engine.**

EP

# HEAT SHIELDS – HEAT BOXES

## VHT FLAMEPROOF COATINGS

Originally designed for NASA's reentry spacecraft. Designed to withstand temps. up to 1500°F (816°C) VHT FlameProof coatings are capable of withstanding extreme environments of spacecraft, satellites, military aircraft, and motor sports. It survives where other paints can't, shields & protects, maintains the finish, prevents rust & corrosion, and resists oils & solvents. For aircraft applications the typical use is on high temperature steel components such as exhaust & turbocharging systems. Excellent for use as a heat resistant and anti-corrosion coating on exhaust manifolds and turbine casings. Both the Flat Aluminum and Flat Black are non-facing colors. Flat Aluminum 16 oz. aerosol spray..... P/N 08-00713..... **\$14.55**  
Flat Black 16 oz. aerosol spray..... P/N 08-00714..... **\$14.50**

## THERMO-TEC HEAVY-DUTY SPRAY ADHESIVE

Thermo-Tec's new Heavy-Duty Spray Adhesive is a fast-drying, quick-bonding, high temperature contact adhesive. Use it wherever you need a secure, long-lasting, easy-to-apply bond. It is available in a generous 16.75 oz. can. P/N 08-01026..... **\$15.50**

## HI-HEAT COATING

Finish off a clean and well-protected Exhaust Insulating Wrap application. Will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface, extend the life of wrap by protecting it from friction, and seal the pores to minimize the penetration of harmful liquids. The 11 oz. coating comes in black and aluminum colors. Black..... P/N 08-06725..... **\$11.50**  
Aluminum..... P/N 08-06730..... **\$11.50**  
Clear..... P/N 09-05229..... **\$9.75**

## EXHAUST HEAT SHIELD

This heat shield is placed on exhaust where fuel lines, cable, etc. are close to exhaust and where heat may be a problem. Mounts with stainless radiator type clamp (not included). Fits exhaust pipes up to 2.5" diameter. Very popular on RV's and other homebuilt aircraft.

Single Unit..... P/N 08-00050..... **\$14.75**  
Double Unit..... P/N 08-00051..... **\$21.75**

## VARIEZE / LONG EZ

## CARBURETOR HEAT BOX

This box is an improved redesign of the original heat box. It eliminates the possibility of engine stoppage caused by worn parts plugging the carburetor intake.

Without Filter..... P/N 08-01600..... **\$194.50**  
VE/LE Heat Box Repair Kit... P/N 08-01610..... **\$17.75**  
VE/LE Filter Only..... P/N 08-01615..... **\$39.85**  
VE/LE Filter Cleaner Kit (cleaner & oil) P/N 08-01620..... **\$18.50**

## ENGINE MOUNT HEAT SHIELDS

Heat damaged O-470 & O-520 engine mounts are a definite problem area. You can easily protect these engine mounts from further damage with these heat shields. The aircraft manufacturers overlook providing heat protection in these areas when they designed and produced the aircraft. INSPECT ENGINE MOUNTS. Flaking paint, deterioration or pitting leads to cracking, and breakage – in other words, an UNSAFE CONDITION. If you want long-lasting protection from corrosion damage, the solution is install custom engine mount heat shields that are FAA & STC/PMA approved.

Avoid downtime and save money on airplane maintenance with this practical new device. The heat shields are built from an extremely durable 6061-T6 aluminum alloy and install in minutes. The complete kit includes installation hardware, instructions & copy of the Supplemental Type Certificate.

For Cessnas: Heat shield kit for 180, 180A-H, 180J, 180K, 182, 182A-R..... P/N 08-01660..... **\$204.95**  
Heat shield kit 185A-E, A185F. Fits Standard and 3 bladed mounts. P/N 08-00767..... **\$245.95**  
Replace. Intake Shields (heavy duty) PMA'd.. P/N 08-00769..... **\$35.80**

## CESSNA C-180/182 HEAT SHIELD KIT

Heat related corrosion caused by the exhaust system in the bed tubes and diagonal tubes of Cessna 180/182 engine mounts has been discovered on most models. Loree Air, Inc. designed and built the first set of heat shields in 1987. They were flight tested for three years and found to stop all damage from that heat source. The heat shield kit is now FAA approved and ready for installation on your aircraft. The kit, includes all the hardware, instructions and documentation. P/N 05-12279..... **\$283.95**

## CARBURETOR INTAKE ASSEMBLIES (HEAT BOXES)

50256

P/N A40599 for Continental A-65 through C-125. Also fits Lyc. 0-235, 0-290, 0-320 engines with MA3SPA, MA4SPA carburetors. Complete assembly includes heat box, filter, gaskets, studs and pins. Not for Certified Aircraft, Homebuilts Only.

Component	Part No.	Price
Heat Box	50256	\$189.85
Filter	A40599	\$85.75
Gasket	35923	\$7.45
Studs (4 required)	24306	\$48.76
Pins (4required)	24308	\$24.49
Bottom Carb. Gasket	21323	\$1.35
A40522 Assembly	08-01300	\$576.00

## CESSNA 150 STYLE HEAT BOX

Used on Cessna 150. Also fits Cessna 120, 140, and PA-22 Tripacer. Order filter, gaskets, studs & pins separately. Not FAA/PMA Approved.

P/N 641534..... **\$187.50**  
Cable 'B' Nut..... P/N 05-16245..... **\$11.85**  
Heat Box for Cessna 170 - Similar to P/N 641534 above, but larger P/N 08-01625..... **\$250.95**  
Similar to Cessna 170 box. Fits Lyc. 0-360, 0-470, etc. Uses bracket BA-5110 filter..... P/N 08-01630..... **\$296.00**

## LYCOMING AND CONTINENTAL CARBURETOR HEAT BOXES

Lycoming O-320 and Continental A65-100 Carb Heat Boxes. The 100-320 is 2-1/2" diameter height is 1" smaller flange.

Lycoming O-320 Carb Heat Box w/Tube..... P/N 05-01388..... **\$243.95**  
Lycoming O-320 Carb Heat Box w/o Tube..... P/N 05-06841..... **\$236.95**  
Lycoming A65-100 Carb Heat Box w/Tube..... P/N 05-01387..... **\$246.95**  
Lycoming A65-100 Carb Heat Box w/o Tube.. P/N 05-06840..... **\$239.85**

## CARB HEAT BOXES FOR PUSHER AIRCRAFT

Designed for airplanes and rotorwing aircraft with engines in pusher configuration using MA3/MA4 carburetors (not MA4-5). Uses same baskets as J-3 & C-150 boxes..... P/N 08-00855..... **\$252.95**

## USHER CARBURETOR HEAT BOXES

These high quality carburetor heat boxes are available for most common Lycoming & Continental engines. Not FAA approved. (Shown here with tube)

K1F Heat Box w/o tube..... P/N 08-01601..... **\$163.80**  
K1M Heat Box with tube..... P/N 08-01602..... **\$167.75**  
KO320 Heat Box with tube..... P/N 08-01603..... **\$173.75**  
KO360 Heat Box with tube..... P/N 08-01604..... **\$173.75**  
KC0320 Heat Box w/o tube..... P/N 08-01603-1.. **\$173.75**

## CARBURETOR INTAKE BOX BRACKET FOR CESSNAS

This carburetor intake box bracket mounts on top of the heat box and attaches to the engine to provide support for the heat box. Fits Cessna 150. P/N 08-01305..... **\$54.75**

## CARBURETOR HEAT BOX REPAIR KITS

Prevent carburetor heat box cracking - a common problem on Cessna 150 aircraft and Cont. O-200 engine. Kit consists of actuating shaft, 2 bearing assemblies and arm. Kit no. FG100 fits Cont. 0-200-A, B, C

Engines. Kit No. FG105 fits Cont. 0-300-A, B, C, D, E engines. Model FG100..... Kit No. 08-01309..... **\$76.85**  
Model FG105..... Kit No. 08-01310..... **\$74.99**

## ECONOMY CARB HEAT BOX REPAIR KITS

These kits include new shaft & bearings. Kit for Cont. C-85, C-90, 0-200 Engine P/N 07-00110..... **\$42.75**  
Kit for Cont. C-145, 0-300 Engine P/N 07-00120..... **\$42.75**

Requires FAA form 337 for installation on certified aircraft

## CARB HEAT BOX ARM HOLE REPAIR KIT

Use this kit to repair an elongated hole in the carburetor heat box actuating arm. Kit comes complete with new bolt and attaching hardware made of stainless steel. P/N 07-00130..... **\$13.75**

## CARBURETOR INDUCTION MANIFOLD (INTAKE SPIDER)

For O-200 engine..... P/N 35145A-1..... **\$437.00**  
For A-65, C-75, C-85 & C-90 engines. P/N 35145..... **\$359.00**

# REAL GASKETS

## REAL PREMIUM SILICONE VALVE COVER GASKETS

REAL are twice as thick as typical gaskets and have been hot oil and dry heat tested at 300°F. Only REAL gaskets seal uneven surfaces, eliminate corrosion, and reduce maintenance costs. They may be reused, are installed dry, and maintain screw torque. Indefinite shelf life. Highly recommended by Rutan Aircraft Factory.

Part No.	Model No.	Product	Description	Price
08-13810	RG-08527-10	Valve Cover Gaskets	Package of 10 PMA Approved. Fits Models: Ken Royce 90-5G, 110-7F, 110-7G. Le Blond Engine 85-5F, 90-5F.	\$39.99
08-13876	RG-117236-18	Valve Cover Gaskets	Package of 18 PMA Approved. Fits Models: Wright Early R-1820-40, R-1820-60, R-1820-70, R-1820-87, R-1820-95, R-1820-97 (4 Holes), R-2600-20, R-2600-22, R-2600-29A, R-2600-35, R-3350-23, R-3350-23A, R-3350-57, R-3350-59.	\$70.75
08-13801	RG-1302-42-4	Valve Cover Gaskets	Set of 4. de Havilland Gipsy	\$28.50
08-13879	RG-138861-18	Valve Cover Gaskets	Package of 18 Fits Models: Wright Late R-1300, R-1820-55, R-1820-66, R-1829-56, R-1829-71, R-1829-72W, R-1829-76, R-1829-80, R-1829-86 (6 Holes).	\$70.75
08-13864	RG-139203-36	Valve Cover Gaskets	Package of 36 PMA Approved. Fits Models: Pratt & Whitney R-2800-CB Series.	\$141.80
08-13814	RG-1843-18	Valve Cover Gaskets	Package of 18 PMA Approved. Fits Models: Lycoming R-680 Series.	\$72.75
08-13872	RG-2677-18	Valve Cover Gaskets	Package of 18 PMA Approved. Fits Models: 975-11, Whirlwind (4 Holes).	\$70.80
08-13874	RG-2767-18	Valve Cover Gaskets	Package of 18 Fits Models: Wright J6-5, J6-7, J6-9 (2 Holes).	\$70.75
08-13806	RG-30106-14	Valve Cover Gaskets	Package of 14 PMA Approved. Fits Models: Jacobs I-6.	\$56.75
08-13808	RG-4331-14	Valve Cover Gaskets	Package of 14 PMA Approved. Fits Models: JACOBS R-755 Series.	\$63.75
08-13804	RG-5171-18	Valve Cover Gaskets	Package of 18 Fits Models: Huoasi Model 6, Nanchang C.J6A, Yak Model 18.	\$66.99
08-13869	RG-7926-14	Valve Cover Gaskets	Package of 14 Fits Models: Warner 165-185. For 4 cylinders.	\$54.75
08-13862	RG-88962-18	Valve Cover Gaskets	Package of 18 PMA Approved. Fits Models: Pratt & Whitney R-1340, R-1830, R-200 to R-2000, R-2800 (3 Holes).	\$73.75
08-13822	RG-90560-18	Valve Cover Gaskets	Package of 18 PMA Approved Fits Models: Pratt & Whitney R-985 Series, Wasp Jr. (4 Holes).	\$74.75
08-13811	RG-08527	Valve Cover Gaskets	1 each PMA Approved. Fits Models: Ken Royce 90-5G, 110-7F, 110-7G. Le Blond Engine 85-5F, 90-5F.	\$4.35
08-13877	RG-117236	Valve Cover Gaskets	1 each PMA Approved. Fits Models: Wright Early R-1820-40, R-1820-60, R-1820-70, R-1820-87, R-1820-95, R-1820-97 (4 Holes), R-2600-20, R-2600-22, R-2600-29A, R-2600-35, R-3350-23, R-3350-23A, R-3350-57, R-3350-59.	\$3.95
08-13802	RG-1302-42	Valve Cover Gaskets	1 each de Havilland Gipsy	\$6.95
08-13880	RG-138861	Valve Cover Gaskets	1 each Fits Models: Wright Late R-1300, R-1820-55, R-1820-66, R-1829-56, R-1829-71, R-1829-72W, R-1829-76, R-1829-80, R-1829-86 (6 Holes).	\$3.95
08-13865	RG-139203	Valve Cover Gaskets	1 each PMA Approved. Fits Models: Pratt & Whitney R-2800-CB Series.	\$4.35
08-00782	RG-14724	Valve Cover Gaskets	1 each. PMA Approved Fits Models: Franklin 6A8-215, B8F, B9F.	\$10.55
08-01322	RG-17727	Valve Cover Gaskets	1 each. PMA Approved Fits Models: Franklin 6A-350; 4A-235; 6A4-150-B3, -B4, -B5, -B6; 6A4-165-B3, B4, B6; 6A4-200-C6; 6AS-350; 6AS-335.	\$8.50
08-13821	RG-17799-1	Valve Cover Gaskets	1 each Fits Model: Menasco D4	\$7.50
08-13816	RG-1843	Valve Cover Gaskets	1 each PMA Approved. Fits Models: Lycoming R-680 Series.	\$4.35
08-13796	RG-20254	Valve Cover Gaskets	1 each PMA Approved Fits Models: Continental W-670 Series.	\$4.75
08-13795	RG-20254-14	Valve Cover Gaskets	1 package of 14 PMA Approved Fits Models: Continental W-670 Series.	\$64.75
08-13875	RG-2676	Valve Cover Gaskets	1 each Fits Models: Wright J6-5, J6-7, J6-9 (2 Holes).	\$3.95
08-13871	RG-2677	Valve Cover Gaskets	1 each PMA Approved. Fits Models: Wright 975-11, Whirlwind (4 Holes).	\$32.75
08-13807	RG-30106	Valve Cover Gaskets	1 each PMA Approved. Fits Models: Jacobs I-6.	\$4.35
08-13809	RG-4331	Valve Cover Gaskets	1 each PMA Approved. Fits Models: JACOBS R-755 Series.	\$4.65
08-13784	RG-45483	Valve Cover Gaskets	1 each. Fits Models: Lycoming O-145 Series.	\$13.55
08-13805	RG-5171	Valve Cover Gaskets	1 each Fits Models: Huoasi Model 6, Nanchang C.J6A, Yak Model 18.	\$3.75
08-13870	RG-7926	Valve Cover Gaskets	1 each Fits Models: Warner 165-185.	\$4.35
08-13863	RG-88962	Valve Cover Gaskets	1 each PMA Approved. Fits Models: Pratt & Whitney R-1340, R-1830, R-200 to R-2000, R-2800 (3 Holes).	\$4.35
08-13823	RG-90560	Valve Cover Gaskets	1 each PMA Approved Fits Models: Pratt & Whitney R-985 Series, Wasp Jr. (4 Holes).	\$4.35
813813	RG-941	Valve Cover Gaskets	1 each PMA Approved. Fits Models: KINNER B-54 (2 Holes).	\$4.35
08-13815	RG-942	Valve Cover Gaskets	1 each Fits Models: R-56 (4 Holes). Variants: KINNER R-5, R-53, R-55, R-56.	\$4.35
08-01321	RG-71450	Valve Cover Gasket (9 holes)	1 each. PMA Approved Fits Models: Lycoming IO-540-B, E, M Series; TIO/LTIO-540-A.	\$9.50
08-01317	RG-534857	Valve Cover Gasket (8 holes)	1 each. PMA Approved. Fits Models: Continental IO-346, O-470, IO-470, IO-520, IO-550, TSIO-520-Series.	\$10.50
08-01316	RG-67193-SP	Valve Cover Gasket (8 holes)	1 each. PMA Approved Fits Models: Lycoming IO-360, IO-540, IO-720, GO-480, TIVO-540, VO/GO-435, VO-540.	\$8.50
08-07384	RG-76036	Valve Cover Gasket (8 holes)	1 each PMA Approved Fits Models: Lycoming TO-360-C, TO-360-F, TIO/TIGO-541.	\$10.50
08-01320	RG-532451	Valve Cover Gasket (7 holes)	1 each PMA Approved Fits Models: Continental E-165-2, E-185, E-225, O-470-A, O-470-E, O-470-J, IO-470-J, IO-470-K.	\$8.75
08-01315	RG-530162	Valve Cover Gasket (6 holes)	1 each. PMA Approved Fits Models: Continental A-65, C-75, C-85, C-90, C-125, C-145, O-200, O-300, GO-300.	\$8.50
08-01314	RG-75906-SP	Valve Cover Gasket (6 holes)	1 each. PMA Approved Fits Models: Lycoming O-235, O-290, O-320, IO-320, O-360, IO-360, HIO-360, O-540, IO-540, TIO-540-CIA.	\$9.50
08-01319	RG-632459	Valve Cover Gasket (5 holes)	1 each PMA Approved. Fits engines: Continental TSIO-520-Series; GTSIO-520-C,D,F,H,K,L,M,N; IO-550-G	\$4.65
08-01318	RG-632310	Valve Cover Gasket (4 holes)	1 each. PMA Approved. Fits Models: Continental IO-360, TSIO-360, LTSIO-360.	\$4.55
08-13765	G-IV-A2	Valve Cover Gasket - Spanish Model	Set of 4. Bucker Tigre	\$35.99
08-13769	RG-533355	Oil Filler Cap Gasket	1 ea. PMA Approved Size: 1/8 x 2 5/16 x 1 1/2 Fits Models: Continental A-65, C-75, C-85, C-90, C-125, C-145, E-185, E-225, GO-300, IO-346, IO-360, IO-470, IO-470-J, IO-470-K, IO-520, IO-550, O-200, O-300, O-470, O-470-A, O-470-E, O-470-J, LTSIO-3	\$6.50

## 1/8 INCH SILICONE VALVE COVER GASKETS

Valve cover gaskets are manufactured from a silicone rubber compounded especially for lubricating oil resistance and low compression set. It has a recommended temp. operating range of -67 to 446 F and will remain flexible while operating in the noted temp. range. One of the biggest benefits of replacing the factory cork gaskets with the Silicone rubber gaskets is that they are reusable and are easy to work with and are 1/8" thick silicone rubber.

Image	OEM Part No.	Application	PN	Price
	75906-SP	Lycoming O-235, O-290, O-320, IO320, O-360, IO-360, HIO-360, O-480, O-540, IO-540	05-11181	\$9.80

EP

**"O" SERIES LYCOMING VALVE COVER GASKETS**

Note: 08-05882 is similar to 67193 and RG-67193 but not FAA Approved for Certified Aircraft. 08-01187 is similar to 75906 and RG-75906 but not FAA Approved for Certified Aircraft.

These homebuilder's Lycoming valve cover gaskets replace the original cork gaskets which come standard on Lycoming O-235, O-320 and O-360 engines. These new gaskets are molded from high temperature silicone rubber and do not harden over time so they can be re-used again and again. This hi-tech silicone rubber offers a much lower compression set, so it is superior at maintaining an oil-tight seal for the life of the engine. NOT FAA approved. For experimental aircraft only.  
 P/N 08-01187 .....\$4.95

**ANGLED VALVE "IO" SERIES LYCOMING VALVE COVER GASKETS**

These gaskets are for the fuel injected "IO" series, sometimes referred to as the Angle Valve cylinder Lycoming, as well. these gaskets are molded from the same high-temperature silicone rubber as the "O" series gaskets above, and do not harden over time, so they can be reused again and again. This hi-tech silicone rubber offers a much lower compression set, so it is superior at maintaining an oil-tight seal for the life of the engine. They are not FAA approved and are not manufactured under a PMA. These are similar to Lycoming part number 67193 used on Angled valve Lycoming engines IO-360, IO-540, IO-720.  
 P/N 08-05882 .....\$6.85

## EXHAUST STUDS FOR CONTINENTAL ENGINES

These high quality exhaust/engine studs produced from corrosion resistant 321 stainless steel in 5/16" X 18"-5/16" X 24" standard thread size are a direct replacement for the TCM Continental part number 402-151 stud. FAA/PMA approved for the Continental engines C-75, C-85, C-90, O-200 series engines, and o-300 (early) series engines.  
P/N 08-07282 ..... \$9.85  
Stud for Continental Engines O-470, IO-470 ( 1/4"x20-1/4"x28)  
P/N 08-07281 ..... \$8.85

## STAINLESS STEEL EXHAUST STUDS FOR LYCOMING ENGINES

Produced from corrosion resistant 321 in 5/16 x 18 standard thread size and are a direct replacement for the Lycoming part number 31C12 stud. Stop stud corrosion and rust out problems, stop expensive cylinder repair costs cause by broken studs, allow easy removal of exhaust systems for gasket replacement or inspection, but does not feature a safety wire hole (refer to p/n 08-06780 for safety wire hole feature). FAA approved for all Lycoming engines from O-235 through O-540. CAD Plated Steel with out Safety Wire Hole ..... P/N 08-06279..... \$6.19  
Stainless Steel With safety wire hole feature .... P/N 08-06780.... \$11.50

## STA-FLATZ INTAKE CLAMP

Machined from billet 6061 aluminum and finished with gold anodize. This will reduce your chance of induction leaks, especially turbo charged engines! Experimental only. Not FAA approved. P/N 08-13906 ..... \$42.65

EP

# EXHAUST INSULATING PRODUCTS

## HIGH VELOCITY EXHAUST JACKET

An innovative way to insulate and block radiant heat. Cover the tubes vertically allowing for a consistent fit. The fit allows the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. Uses Thermal Conduction Technology (TCT), developed by Thermo-Tec, and can be applied with the headers in the vehicle.  
4-6 cyl. kit.....P/N 08-00597 .... **\$76.75**  
8 cyl. kit.....P/N 08-00598 .... **\$99.75**

## SPARK PLUG WIRE HEAT SHIELD

The ultimate protection for spark plug wires and boots from conductive and radiant heat. The dual-purpose sleeve has a surface that reflects over 90% of radiant heat, while the inside silica-based fabric prevents conductive heat from penetrating. P/N 08-00612 .. **\$18.50**

## TURBO KIT

Designed to protect, improve performance, and eliminate turbo lag of a turbo charger. Fits a wide variety of turbines. The custom cut-to-fit kit comes with an excessive amount of material to cover turbos from the smallest automotive application to heavy-duty truck applications. 4 cyl. kit ..... P/N 08-00613 .. **\$103.75**  
6-8 cyl. kit ..... P/N 08-00614 .. **\$124.90**

## MUFFLER/CAT HEAT SHIELD KIT

The 40"x 24" mylar Heat Shield is made up of woven silica with a flexible mylar finish. Can be installed between the catalytic converter, muffler, or any other component to reflect radiant heat away from the undercarriage of the car. The kit includes all necessary fasteners. P/N 08-00616 ..... **\$68.75**

## HEAT TERMINATOR ULTRA-LITE

Made of the highest-quality insulating materials available today. The material is made of a highly-textured aluminum composite surface on one side, with a high-temperature silica felt center and a durable mylar composite facing. Uses Thermal Conduction Technology (TCT), developed by Thermo-Tec.  
8"x 12" .....P/N 08-00617 .... **\$71.75** 10"x 18".....P/N 08-00618. **\$101.75**  
18"x 18" .....P/N 08-00619 .. **\$123.75** 18"x 24" .....P/N 08-00620. **\$130.99**  
24"x 24" .....P/N 08-00621 .. **\$139.75** 24"x 36".....P/N 08-00622. **\$147.85**

## STARTER HEAT SHIELD

Starters take in a lot of damaging heat that destroys the windings of the starter & solenoid. The Starter Heat Shield will reflect over 90% of radiant heat, adding life to the starter and assuring reliable starts. The Starter Heat Shield is a universal kit that fits all starters. P/N 08-00611 ..... **\$29.50**

## THERMO SHIELD

Thermo-Shield protects hoses & wires from radiant heat. Used in applications where it is difficult or not practical to disconnect one end of the hose or wire. The adhesive-backed composite construction tape can easily be wrapped around the hose or wire to make a clean, professional appearance. 15"x 1.5" roll. P/N 08-00602..... **\$18.75**

## THERMO-FLEX

Thermo-Flex Aluminum is a composite heat shield material with unlimited uses. The material is manufactured with a combination of materials to provide abrasion-resistance, thermal insulation, and physical containment of hoses and wiring. The combination of aluminum, silica, and stainless steel is combined to produce a sleeving that is flexible, lightweight, and strong. The aluminum-silica combination can be slit for applications such as wire looms or hose covering without disconnecting the ends of the wire or hoses. Thermo-Flex Aluminum can withstand extreme temperatures of up to 750°F. Packaged in 10 ft. lengths.  
5/8" .....P/N 08-00623 ..... **\$48.85** 1.25" ..... P/N 08-00626 ..... **\$69.95**  
0.75" .....P/N 08-00624 ..... **\$52.75** 1.5" ..... P/N 08-00627 ..... **\$79.75**  
1" .....P/N 08-00625 ..... **\$63.75** 3" ..... P/N 08-00628 ..... **\$133.75**

## COOL-IT PLUG WIRE SLEEVES

This unique spark plug & ignition wire protector comes in five sporty colors; red, orange, blue, black & natural. These dual-purpose sleeves enhance performance, reduce misfires, extend plug wire life and will not react with petroleum products. The double-wall construction keeps the wire and boot cooler in a high-temperature engine. Its universal size fits most boots, is easy to install & non-flammable.  
4-Pack ..... P/N 08-01027 ..... **\$27.90** 6-Pack..... P/N 08-01030. **\$43.70**

## COOL-IT MAT

Use the Cool-It Mat to battle excessive heat and noise that penetrate the driver compartment through the firewalls and floorboards. It is also perfect in doors, under hoods, and above transmission housings. The highly-reflective mylar reflects heat away from surfaces, while the foil side is orientated away from the heat source to conduct any penetrating heat across its surface thus providing the ultimate in heat protection. The silica blanketing is a dual-density composite and is the main sound insulator. It is easy to trim and can be applied with the push-in fasteners provided or any weather strip adhesive. P/N 08-00610 ..... **\$37.70**

## THERMO-SLEEVE

Lamination of a high-temperature fabric to a highly-reflective foil is the makeup of Thermo-Sleeve, which provides protection from radiant heat for hoses and wires. Thermo-Sleeve's ultra light-weight construction provides more insulating than traditional bulky rubber-coated fiberglass. The aluminized sleeving reflects over 90% of radiant heat, and is fireproof & oil resistant. Comes packaged in 12-ft lengths, and sold in 5 different inside diameter sizes.  
12' 1/2" ID.....P/N 08-00605 ..... **\$54.75**  
12' 1" ID.....P/N 08-00606 ..... **\$74.75**  
12' 1-1/2" ID.....P/N 08-00607 ..... **\$92.75**

12' 2-1/2" ID .....P/N 08-00609 ..... **\$129.95**

## HEAT BARRIER - ADHESIVE BACKED

Aluminized Heat Barrier is made up of woven silica with a flexible aluminized finish. The highly reflective surface of the material is capable of withstanding radiant temperatures in excess of 2000°F. The adhesive backed composite construction material can easily be applied to any surface or wrapped around a hose or wire to make a clean professional appearance. Note: Clean surface before applying. Adhesive is rated up to 300° F. Don't apply to any parts of exhaust system. This product is designed to block radiant heat only!  
12" x 12" .....P/N 08-00630 ..... **\$12.90**  
12" x 24" .....P/N 08-00600 ..... **\$21.80**  
24" x 50 foot Roll .....P/N 08-07660 ..... **\$695.00**

## HEADER MANIFOLD BLANKET

The Header Manifold Blanket provides excellent heat-retention for exhaust headers and manifolds. This flexible heat shield simply clips into place on the upper portion of the header. The fabric side of the material should be facing the heat source, and the aluminized side facing away, offering protection from abrasion and harmful liquid spills. Available in two sizes: (2) 20" by 24" blankets for V6 & V8 applications, and (1) 36" x 40" blanket for straight 6 & 4 cylinder engines.  
20"x24" ..... P/N 08-00603..... **\$94.75**  
36"x40" ..... P/N 08-00604 ..... **\$87.50**

## GRAPHITE BLACK WRAP

Traditionally, high-heat coating spray had to be applied to the exhaust wrap to color it black. Now new Graphite Black Wrap eliminates the process of coating the wrap with its patented Thermal Conduction Technology (TCT) high-heat color pigment. Graphite Black Wrap is available in 2" widths, in 50-ft rolls.

Size	Part No.	Price
1" x 15	08-11153	<b>\$10.50</b>
1" x 50	08-11021	<b>\$31.50</b>
2" x 15	08-11154	<b>\$17.50</b>

Size	Part No.	Price
2" x 25	09-05231	<b>\$26.50</b>
2" x 50	08-00596	<b>\$52.75</b>
2" x 100	08-11023	<b>\$94.75</b>

## GENERATION II COPPER HEADER WRAP

Generation II Copper Header Wrap uses a proprietary coating developed by Thermo-Tec; improved Thermal-Conduction-Technology (T-C-T). Creates more horsepower & reduces underhood temps, increases exhaust scavenging, withstands continuous heat up to 2000°F, contains no asbestos. Sold in 1" or 2" wide, 50 ft rolls with low profile 1/16" thickness.  
1"X50 .....P/N 08-11031 ..... **\$31.50**  
2"X50 .....P/N 08-11032 ..... **\$52.75**

## ICRO LOUVER AIR SHIELD

Lightweight yet durable. Features micro air louvers, which allow air to flow through the metal shield. The movement of the vehicle creates dynamic air flow, cooling by natural convection. The textured surface created by the micro air louvers creates more area for heat dissipation. The Micro Louver Air Shield is flexible yet durable; it bends and flexes easily by hand, making a custom fit trouble-free.  
24"X24".....P/N 08-11720 ..... **\$53.75**  
48"X24".....P/N 08-11740 ..... **\$92.95**

## THERMO-TEC CARBON FIBER EXHAUST INSULATING WRAP

Produced utilizing pulverized Lava rock called basalt. It is extremely pliable, resistant to discoloration and can withstand 2000 degrees Fahrenheit in direct continuous contact.  
1"X50 .....P/N 08-13902 ..... **\$35.60**  
2"X50 .....P/N 08-13903 ..... **\$54.85**

EP

# EXHAUST PRODUCTS - PT6 100 HOUR KIT

## EXHAUST INSULATING WRAP

The original Exhaust Insulating Wrap was developed over 14 years ago by Thermo-Tec. Exhaust Insulating Wrap is an innovative way to create more horsepower and reduce under-hood temperatures. Wrapping headers maintains hotter exhaust gases that exit the system faster through decreased density. Increased exhaust scavenging is produced, along with lower intake temperatures. Exhaust Insulating Wrap withstands continuous heat up to 2000°F, and contains no asbestos. Thermo-Tec exhaust wrap will not over-insulate a system when properly installed due to a proprietary coating developed by Thermo-Tec -- Thermal Conduction Technology (TCT) -- that conducts heat across the wrap's surface. This coating controls heat build-up and dissipation. The Header Wrap is sold in 2" wide, 50' rolls with a low profile 1/6" thickness.

Size	Part No.	Price
1" x 15	08-11151	\$9.85
1" x 50	08-11001	\$29.95
2" x 15	08-11152	\$16.50

Size	Part No.	Price
2" x 25	09-05230	\$25.85
2" x 50	09-41600	\$49.90
2" x 100	08-11003	\$93.85

## EXHAUST WRAP KITS

Now you can get everything you need for a complete, professional installation of our Exhaust Insulating Wrap, all in one package. Kits include Exhaust Insulating Wrap, Hi-Heat Coating and Snap Strap; available in Black and Original.

2" Original, 1 Roll.....	P/N 08-07204	.....	\$62.75
2" Original, 2 Rolls.....	P/N 08-07205	.....	\$115.00
2" Black, 1 Roll.....	P/N 08-07206	.....	\$68.75
2" Black, 2 Rolls.....	P/N 08-07207	.....	\$117.50

## CLAMP ON HEAT SHIELDS

Flexible clamp on pipe heat shield blocks over 95% of the damaging radiant heat of the exhaust. Provides the ultimate in protection. The kits come complete with all clamps and new stainless stand offs. Installs in minutes. Incorporate Thermo-Tec's proprietary coating technology developed by Thermo-Tec, Thermal Conduction Technology.

6" X 1'.....	P/N 08-07073	.....	\$27.50
6" X 2'.....	P/N 08-07074	.....	\$39.90

## SNAP STRAPS

The multi-purpose stainless steel Snap Straps are used to secure the Exhaust Insulating Wrap -- and more. The high-temperature stainless steel straps have a narrow profile to fit tight spots, and can be cut to the exact length needed. Snap Straps secure with easy-to-use slide-through fasteners. .

9" 12 pack.....	P/N 08-13150	.....	\$28.90
18" 6 pack.....	P/N 08-13160	.....	\$19.60
9" 4 pack, 18" 2 pack.....	P/N 09-05232	.....	\$18.50

## ALUMINIZED HEAT BARRIER STOPS UNWANTED HEAT TRANSFER

Keep heat where you want it with this hi-tech aluminized heat blanket. Thickness, 0.060". Furnished in 3 sizes.

18" x 20".....	P/N 09-05234	.....	\$24.60
36" x 20".....	P/N 09-05233	.....	\$47.55
36" x 40".....	P/N 08-06735	.....	\$89.85

## KEVLAR HEAT SHIELD

Can be used for various uses: As a header blanket, Improve driver comfort, Protect engines components, Continuous heat up to 1100 degrees F, and Reflects 90% of radiant heat up to 3000 degrees F. \* Size: 26" x 40" x .062"(thick) Sheet P/N 08-07162 .....\$109.75

## KEVLAR MUFFLER COVER

Handles continuous temperatures up to 1100deg F. Reduces radiant heat inside vehicle. Dampens muffler noise and vibration. Includes stainless steel straps for installation. Neat attractive appearance and is abrasion resistant. P/N 08-07201.....\$143.75

## EXPRESS SLEEVES

Express Sleeves are just the thing that our customers have been looking for. An new easy to use sleeving which is a combination of a high temperature insulation material to a highly reflective mylar foil with a Velcro closure. The sleeving is designed to provide maximum protection for wires, hoses, and cables from the very damaging effect of radiant heat with an easy application. Simply pull apart the material, wrap around the wire, and re-close the sleeving. Express Sleeves reflect over 90% of radiant heat, is fireproof and fire resistant, and just looks good. Express Sleeves come in 1 1/2" diameter in 3', & 12' lengths.

Size	Part No.	Price	Size	Part No.	Price
1-1/2" X 3"	09-02060	\$29.95	1/2" x 3	08-07202	\$27.50
1-1/2" X 12"	09-02061	\$111.75	1/2" x 12	08-07203	\$95.75

## ZIRCOFLEX™ FLEXIBLE CERAMIC HEATSHIELD

A flexible ceramic heat shield material that offers superb thermal barrier performance at minimal weight and minimal thickness. A thin aluminum backed foil, it is lightweight at only 460g/m(2) and only 0.25mm thick. It is however, robust and easy to handle. It can be cut and installed by hand or machine, and is easily fixed in place using mechanical fasteners or high temperature adhesives. Each piece is 35.4" X 21.5" (900mm x 550mm.)

Ceramic Heatshield.....	P/N 08-07214.....	\$154.75
Double sided adhesive tape attachment kit.....	P/N 08-07215.....	\$8.95
Stainless Steel Strapping kit.....	P/N 08-07216.....	\$17.85

## ZIRCOFLEX I (SINGLE THICKNESS)

This is Zircoflex® I in its single thickness (original) format. The material offers superb thermal barrier performance at minimal weight and minimal thickness. It is produced as a thin aluminum backed foil.

Description	Size	Part No.	Price
Zircoflex I Mini Roll	400mm x 100mm (Approx. 16" x 4")	08-07635	\$20.95
Zircoflex I Small Sheet	297mm x 210mm (Approx. 12" x 8")	08-07636	\$28.95
Zircoflex I Medium Sheet	550mm x 450mm (Approx. 22" x 18")	08-07637	\$73.75
Zircoflex I Small Sheet with Adhesive	297mm x 210mm (Approx. 12" x 8")	08-07646	\$37.50
Zircoflex I Medium Sheet with Adhesive	550mm x 450mm (Approx. 22" x 18")	08-07647	\$146.85
Zircoflex I Large Sheet with Adhesive	900mm x 550mm (Approx. 35" x 22")	08-07648	\$147.75

## ZIRCOFLEX III (TRIPLE THICKNESS)

This is an engineered triple thickness Zircoflex® format that offers yet more thermal performance coupled with significant rigidity when compared to the original Zircoflex I® material. It is produced as an aluminum backed matrix.

Description	Size	Part No.	Price
Zircoflex III Small Sheet	297mm x 210mm (Approx. 12" x 8")	08-07643	\$51.95
Zircoflex III Medium Sheet	550mm x 450mm (Approx. 22" x 18")	08-07644	\$126.75
Zircoflex III Large Sheet	900mm x 550mm (Approx. 35" x 22")	08-07645	\$255.95
Zircoflex III Small Sheet with Adhesive	297mm x 210mm (Approx. 12" x 8")	08-07653	\$54.75
Zircoflex III Medium Sheet with Adhesive	550mm x 450mm (Approx. 22" x 18")	08-07654	\$129.75
Zircoflex III Large Sheet with Adhesive	900mm x 550mm (Approx. 35" x 22")	08-07655	\$259.85

## ZIRCOFLEX ACCESSORIES

Double Sided Adhesive Tape.....	P/N 08-07215.....	\$8.95

## PT-6 INSULATION BLANKET

PT-6 Insulation Blanket Pratt TSO 3011755. Replacement part for Pratt & Whitney 3011755. P/N 05-15101 .....\$417.00

## THERMO-GUARD FR

Thermo-Guard FR offers the best in heat and sound insulation. This lightweight, durable shield does everything: reduces sound, absorbs vibration, protects from radiant heat and provides an extra layer of insulating padding. The product features 100% synthetic fiber felt that provides sound and comfort control and high-tech foil heat barrier that blocks more than 90% of radiant heat.
