The Board is headed by ten Commissioners, two from each borough representing both major political parties for a term of four years appointed by the New York City Council

Board of Elections The City of New York

Introduction

...A similar bipartisan arrangement of over 900 dedicated employees ensures that no one party controls the Board of Elections. The Board appoints an executive staff consisting of an Executive Director, Deputy Executive Director and other senior staff managers charged with the responsibility to oversee the operations of the Board on a daily basis. Together, the executive and support staffs provide a wide range of electoral services to residents in Manhattan, the Bronx, Brooklyn, Queens and Staten Island.

The Commissioners of Elections meet every Tuesday at the Executive Office, in addition to special hearings, and specific issue-oriented meetings (electronic voting, election legislation, labor management, rules and budget) during the calendar year.

The last several years have presented challenging times for our City. The Board has not been exempted from these challenges. Rather, the Board has met them and performed admirably.

Throughout the COVID-19 emergency, the Board effectively continued operations, met its legal mandates and conducted all scheduled elections. The 2022 new year came with the promise of a return to life without pandemic restrictions. Along with the rest of the city, the Board was prepared to embrace its regular routine operations.

The elections reality of 2022 presented a quite different scenario. With many of the pandemic challenges in the rear view, the Board faced a year with unique and unprecedented elections operations challenges.

The Board has met its responsibilities with respect to dozens of recent changes to the New York State Election Law and court decisions. The combined result of changes to the election law regarding the conduct of special elections, and litigation regarding the primary election, required the Board to conduct eight (8) elections in 2022; five (5) special elections, two (2) primary elections, and one (1) general election.

The bifurcated primary required the Board to perform a “once every ten (10) years” reapportionment of election districts (redrawing district maps in all five (5) boroughs) twice in three (3) months. A difficult task to complete once, a herculean task when completed twice – and both tasks were completed on-time and without interruption to the elections process.

To cap off 2022, the Board completed the reapportionment of election districts required by the New York City Council post-census redistricting process. To say the least, 2022 was an extremely busy year. The Board is proud of its accomplishments and even prouder to serve the voters of the City of New York.

Mission Statement

The Board of Elections in the City of New York,

as provided under Section 3-200 of the New York State Election Law, has the responsibility:

1. To conduct fair and honest elections, from local to federal levels;
2. To enfranchise all eligible New Yorkers to register to vote and to practice those rights;
3. To conduct elections, certify the canvass and to retain the official records;
4. To conduct voter outreach and education.

Briefly stated, this means:

First, the preparation of the ballot for Primary, Special and General Elections to the extent that all vacancies for public office and party positions may be filled.

Second, that qualified voters may exercise their right to franchise and that every opportunity be given to voters to execute that right and to vote for whom they choose.

Third, that the votes of the electorate at Primary, Special and General Elections be properly canvassed and that a true count be given for each candidate voted for.

Finally, that we make every effort to inform and educate the voting public of their rights as a voter and also to reach out to all Americans to instruct them in the voting process.

The following pages of this report will illustrate some of the duties as classified in the above synopsis.

Communications and Public Affairs / Voter Registration

One of the Board's top priorities is to ensure that every Election Day is implemented as smoothly as possible. The Board continued its education efforts in 2022 with a public education campaign focused on upcoming elections that highlighted the bifurcated primaries and early voting.

Print Publications: Citywide newspapers, local community based newspapers, and required language publications (English, Spanish, Chinese, Korean and Bengali). The entire circulation of our paid print campaign totaled 22,964,700.

Digital: The Board launched an aggressive digital campaign (English, Spanish, Chinese, Korean and Bengali). The total impressions for the digital campaign was 263,232,645 impressions and 1,416,738 clicks to the BOE landing page.

Social media: The Board also utilized its social media channels as a way to immediately respond to voter inquiries and help amplify our public education campaign. The Board's following increased and our engagement rate was strong.

Total Audience Growth: 2,310 (Twitter - 1,462 | Facebook - 631 | Instagram - 217)

Total Impressions: 52,817,576 (Twitter - 3,973,884 | Facebook - 37,058,303 | Instagram - 11,785,389)

Total Audience Mention/Engagement: 1,022,414 (Twitter - 106,377 | Facebook - 914,516 | Instagram - 1,521)

We will continue to use our social media channels as an effective tool to have rapid response for frequently asked questions and to assist with overall messaging.

Out of Home Advertisements: The Board placed public education messaging throughout all NYC Kiosks.

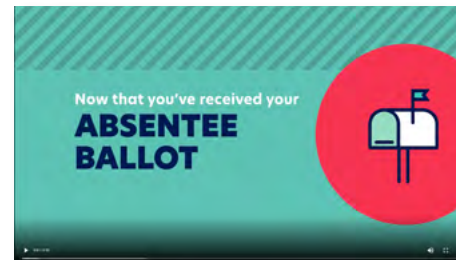

Website: The Board created a dedicated landing page with information on the bifurcated primary. As always, the Board encouraged all voters to visit our website at www.vote.nyc to find all election related content, such as the poll site locator, sample ballot and upcoming election dates. The Board's website received a total of 5,071,736 clicks with 2,528,693 voters visiting our poll site locator to find their assigned Early Voting or Election Day site.

Collateral Materials: The Board created educational posters and palm cards for distribution by community groups, elected officials, good government groups, and at all our election day and early voting poll sites, illustrating the two primary dates.

We continued our successful sticker campaign at the poll sites with the availability of "I Voted Early," "I Voted" and "Future Voter" stickers and introduced a limited edition Halloween-themed "I Voted" sticker for early voting sites.

Public Service Announcements: The Board found that informational videos were a helpful tool used to educate the public. The following videos were created and shared on various platforms and the Board's website.

The CS Department is comprised of three components: (1) Inbound Call Center; (2) Reception Counter; and (3) Online Inquiry. The department accommodates any requests and is operational throughout the year. CS provides language support in English, Spanish, Cantonese, Mandarin, Korean, Bengali, Hindi, and Punjabi. CS handles a diverse range of calls, e-mails, online chat requests, and in-person inquiries. These include requests concerning anything from a voter's registration status or poll site location, to information about the Poll Site Voting System. In addition, the Department also supports field staff and poll workers in tracking and resolving incidents that occur at the poll sites during an election.

The 2022 VEOU-Poll Site Division accomplishments include:

- Implemented efforts, in conjunction with the ADA unit, to make polling sites, paths of travel, entrances, exits, and voting areas accessible for individuals with disabilities.
- Ensuring that each polling site contained sufficient square footage, visible accessible entrances, and was technology-friendly and reliable. Developed schematics for accessing polling sites and floor plans that detailed the placement of the Election equipment.
- Ensuring the proper deployment of generators at the 140 early voting poll sites. Generators were acquired and installed at 65 early voting sites to accommodate electrical demands due to the continued use of ballot on-demand station, E-poll Books and cradle points.
- Continued participation in poll sites re: COVID-19 protocols development and enhancements. Poll workers were provided with appropriate Personal Protective Equipment.

Electronic Voting Systems Department

The Poll Site Voting System (PVS), the ballot marking devices (BMD), and the Central Scanning and Tabulation System for Absentee, Military, and Affidavit ballots were used in all 2022 elections. The automated audit system was also used in all 2022 Elections. Implementation of the automated audit has helped significantly by eliminating the requirement of having staff count thousands of ballots and contests manually.

UNOFFICIAL ELECTION NIGHT RESULTS REPORTING

On the Sunday before the Election, early voting poll site coordinators used tablets to transmit the unofficial election results from all active early voting poll sites. The unofficial results on the portable memory devices (PMDs) were read into tablets. The tablets transmitted those unofficial election results to the secure file transfer protocol (SFTP) servers at the General Office.

In addition, the PMDs were transferred to the Police Precincts or Voting Machine Facilities (VMFs). Bipartisan teams of Board personnel read the PMDs into Election Night Results (ENR) tablets or workstations. The second reading of the PMDs ensures that unofficial election results are sent to the General Office if a PMD was not read at the early voting poll site.

On the Monday before the Election, Board Staff used the ENR workstations to transmit the unofficial absentee results from each borough. The unofficial absentee results on the PMDs were read into the ENR workstations. The ENR workstations transmitted those unofficial absentee results to the SFTP servers at the General Office.

On Election Night, poll site coordinators used tablets to transmit the unofficial election results from all active poll sites. The unofficial results on the PMDs were read into tablets. The tablets transmitted those unofficial election results to the SFTP servers at the General Office.

In addition, the PMDs were transferred to the Police Precincts. Bipartisan teams of Board personnel read the PMDs into ENR tablets. The second reading of the PMDs ensures that unofficial election results are sent to the General Office if a PMD was not read at the poll site.

After 9 pm on Election Night, Election Reporting Manager (ERM) servers at the General Office read the unofficial results from the SFTP servers. In periodic intervals during

election night, the unofficial results were electronically transferred to the Board's website, the State Board of Elections, the Board's S-Elect system, and to the media.

DIFFERENCE AND MARGIN OF ERROR BETWEEN THE UNOFFICIAL ELECTION NIGHT RESULTS (ENR) AND THE RECANVASSED RESULTS*

General Election

Average difference between the ENR and Recanvassed results: 1.86%

August Primary Election

Average difference between the ENR and Recanvassed results: 2.24%

June Primary Election

Average difference between the ENR and Recanvassed results: 1.23%

Special Elections

Average difference between the ENR and Recanvassed results: 0.89%

For a breakdown of the use of the ENR Tablets for obtaining unofficial election night results, please see **Figures 1 and 2**.

*(0% represents a perfect match between the ENR and Recanvassed results.)

EARLY VOTING IN NEW YORK CITY

Every election in 2022 included Early Voting. EVS developed Early Voting ENR based on existing best practices. Modifications were made to address unique criteria pertaining to Early Voting:

- Polls close two nights before Election Day
- Results are not reported until Election Night
- Having Board staff capture the PMD reading to obtain 100% upload of Early Voting PMDs

UNOFFICIAL ELECTION NIGHT RESULTS WEBSITE

The Board published unofficial Election Night Results (ENR) on its website for all elections in 2022. EVS developed the ENR website to work in tandem with the ENR reporting process. The Board electronically updated this website at periodic intervals, making the latest unofficial election night results available for public viewing.

Electronic Voting Systems Department Cont'd

The ENR website was viewed on each election night after the closing of the polls (from 9 pm to 9 am the next morning) as follows:

| Election | Number of views |
|-------------------|-----------------|
| General Election | 1,272,187 |
| August Primary | 884,339 |
| June Primary | 1,632,296 |
| Special Elections | 157,742 |

See **Figure 3** for an illustration of the number of views the ENR website received on election night.

ARCHIVING OF PORTABLE MEMORY DEVICE (PMD) DATA

With Board approval, EVS made it possible to reuse portable memory devices (PMD) prior to the two year maturity date required by *Election Law §3-222 - Preservation of Ballots and Records of Voting Machines*. To achieve this goal, EVS developed and implemented a strategy to retrieve data from PMDs used in an election or testing and stored the data on a dedicated server. The server maintains the data retrieved from the PMDs for the mandated two year timeframe, and the PMDs are prepared for use in the next election. To accomplish this task, EVS developed the software used to extract the data from the PMDs. EVS also developed detailed procedures and tracking materials to use in conjunction with this software. Those procedures are being revised to meet evolving needs since its implementation in 2012, and to provide more efficiency within those tasks.

Teams of bipartisan personnel completed this work in each of the five counties using the software, procedures and tracking materials provided by EVS. EVS provided onsite guidance and support throughout the entire archival process.

EVS PROCEDURES

EVS is responsible for several departmental procedures that impact the canvassing of elections. This year, EVS implemented Automated Audit procedures and created a General Election Canvass Supplement that included information about Cure Affirmations for Absentee ballots. EVS updated the Canvass Procedures, which are administered at all Board office locations. The updates included Early Voting and Automated Audit processes, along with updates to the Manual Canvass and Security Requirements.

BALLOTS

For all of the 2022 Elections combined, about 2,720,000 ballots were cast in the City of New York. About 262,000 were Absentee, Military, Federal, and Affidavit ballots that were either processed by the Central Scanning and Tabulation System or manually tabulated. In addition, more than 2,458,000 paper ballots were cast at poll sites, scanned, and tabulated by the Poll Site Voting System (PVS). See **Figure 4** for an illustration of the ballots cast in 2022.

EVS continues to explore and develop innovative ways to improve the Board's computerized voting systems and enhance the voting experience for the City of New York. Please see **Figure 5** for a historic perspective of the mechanical and electronic voting systems used since the founding of the Board of Elections in the City of New York.

ADA Unit

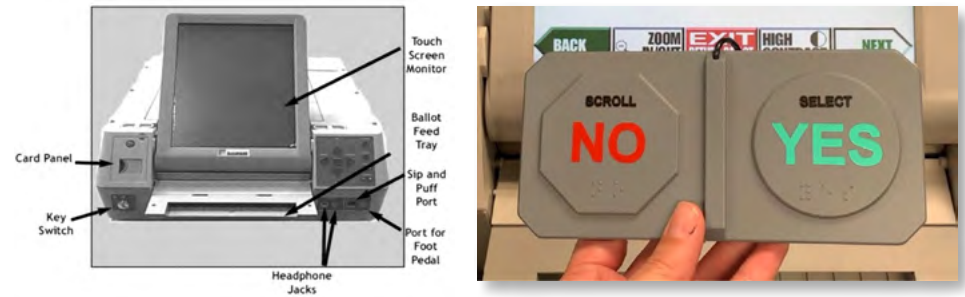

VOTING AT POLL SITE

The ADA Unit ensures poll sites throughout the five boroughs are accessible to all voters on Election Day and throughout Early Voting. Nearly all poll sites require some form of temporary accessibility equipment, ranging from simple mats and cones to complicated ramping systems. Mats may cover unsafe walking conditions, cones alert voters with visual impairments of protruding objects, and ramps provide access to voters who cannot use the stairs. Site-specific ADA temporary equipment is continuously reevaluated because the conditions of poll sites often shift between elections.

In addition to site-specific ADA temporary equipment, every poll site in New York City has at least one Ballot Marking Device (BMD). The BMD is a machine that helps voters mark their ballot. It is popular among voters with visual impairments, voters with physical impairments that prevent them from holding a pen, and voters with print disabilities that cause difficulty reading or understanding the ballot. Voters using the BMD can hear the ballot read to them in all the languages on the ballot. Other accessible and adaptive features of the BMD include:

- Touchscreen & keypad with Braille
- Audio assistance in languages on the ballot
- High contrast
- Zoom for text enlargement
- Sip-n-puff
- Rocker paddle

In addition at least one BMD, every poll site also has a lower and wider privacy booth called the ADA Privacy Booth, as well as other aids such as magnifying glasses and touchless hand sanitizer dispensers. All poll sites are staffed with ADA-focused poll workers called Accessibility Clerks who provide assistance to voters with disabilities as needed.

Throughout 2022, the ADA Unit responded immediately to all incidents of unexpected accessibility barriers as reported by poll workers, voters, and various disability rights organizations throughout the duration of each election event. ADA Monitoring Teams were also deployed to the field to assess ADA compliance and provide quick and safe solutions to any accessibility incidents, such as temporarily relocation due to unexpected elevator failure.

After each election event, the ADA Unit analyzed all data entered into the ADA Checklist and Poll Site Coordinators' Journals, as well as incidents entered through Call Center, to compile a comprehensive report of all accessibility incidents that occurred throughout early voting and on Election Day. The ADA Unit worked closely with Poll Site Surveyors, VEOU, and Ramp Unit to rectify each issue prior to subsequent elections.

VOTING AT HOME

Many New Yorkers opted to vote from home by applying for an absentee ballot. The standard absentee ballot is a paper ballot that is mailed to the voter, who then marks their choices with a pen and returns it to the Board of Elections. However, some voters with various disabilities may not be able to complete this process privately and independently. Therefore, the ADA Unit distributed an electronic version of the absentee ballot called the Accessible Absentee Ballot (AAB) to voters who are unable to mark a paper ballot because they are visually impaired or otherwise disabled.

Eligible voters with disabilities who requested the AAB were able to use their personal adaptive technology to mark and print their absentee ballot at home.

POLL WORKER ACCOMMODATIONS

Per the Americans with Disabilities Act, the BOE provides reasonable accommodations to poll workers with disabilities in order to perform their essential tasks. The ADA Unit facilitated American Sign Language interpretation for three Deaf poll workers during 2022, including a Poll Site Coordinator. The ADA Unit also provided guidance and support to the Borough Offices regarding poll workers who required reassignment as a reasonable accommodation due to their disabilities.

POLL SITE SURVEYS

In order to ensure voters with disabilities have full access to their poll sites, the ADA Unit continued its critical work of collaborating with the VEOU and Ramp Units to ensure all poll sites are ADA compliant on Election Day and throughout Early Voting. In 2022, the ADA Unit supported the BOE Borough Poll Site Surveyors by reviewing and approving 55 new or revised surveys.

| Borough | New Surveys | Revised Surveys | Total |
|------------------|-------------|-----------------|-------|
| Bronx | 13 | 5 | 18 |
| Manhattan | 3 | 2 | 5 |
| Brooklyn | 5 | 9 | 14 |
| Queens | 13 | 5 | 18 |

Surveys are revised whenever there is a change at a poll site: For example, a temporary ramp may no longer be needed on Election Day because the facility completed the construction of a permanent ramp, or ongoing construction has obstructed the designated path of travel and the Surveyors must identify an alternate ADA-compliant route for voters. The ADA Unit, comprised of three certified ADA Coordinators, also provided on-site support to Poll Site Surveyors throughout 2022 and joined them in the field as needed.

POLL SITE SURVEYOR TRAINING

In September 2022, the ADA Unit provided a comprehensive training to Poll Site Surveyors from the five BOE Borough Offices. This week-long training included lectures on the Americans with Disabilities Act and how it intersects with the electoral process, as well as hands-on experience conducting poll site surveys. Poll Site Surveyors conducted both interior and exterior surveys of a mock poll site, and practiced using the electronic survey application specifically designed for this purpose. Surveyors also had the opportunity to tour the BOE Ramp warehouse to familiarize themselves with the various temporary ADA solutions that the BOE implemented to bring our poll sites into compliance. Lastly, Poll Site Surveyors inspected temporary ramps that were purposefully installed incorrectly, in order to identify the errors and discuss appropriate resolutions. This training was a collaborative experience in which the Surveyors learned from one another as well as from the BOE ADA Coordinators.

AVAC

The Board of Elections in the City of New York is pleased to announce the formation of the Accessible Voting Advisory Committee (AVAC). AVAC is comprised of relevant staff from the NYC Board of Elections and members of the public, with the shared goal to advise the NYC Board of Elections on accessibility issues in the electoral process. Members of AVAC come from all five boroughs and represent a wide range of disabilities. AVAC meets quarterly to discuss and plan how to continuously improve the electoral process for voters with disabilities. AVAC provides invaluable recommendations for improving access to voting in NYC for voters with disabilities, such as improving signage at specific poll sites and collaborating on how to better inform voters about the BMD and accessible absentee ballot process. AVAC is also a mechanism through which the BOE can communicate with the disability community regarding changes to the Election Law and how those changes might affect voters with disabilities.

VOTER EDUCATION AND OUTREACH

The ADA Unit maintained close contact with the disability community through several voter education and outreach programs in 2022, including presenting at Mayor's Office of People with Disabilities monthly calls. During these community meetings, the ADA Unit shared general information regarding upcoming and ongoing election events, as well as specific information such as how redistricting and changes to Election Law regarding absentee ballot canvass may affect voters with disabilities. For example, if a voter applied for an absentee ballot and subsequently decided to vote in their poll site, they would be issued an affidavit ballot. During these calls, the ADA Unit highlighted the fact that voters can use the BMD to mark affidavit ballots. The ADA Unit also answered questions regarding poll site changes and the bifurcated primaries of 2022.

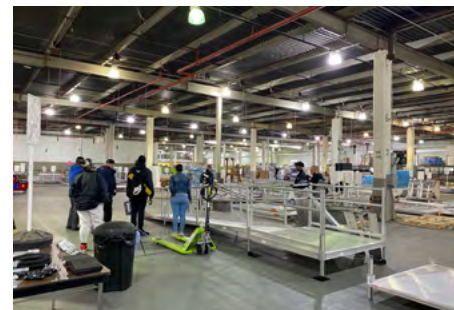

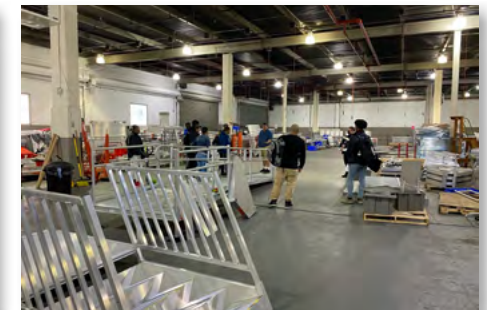

In April 2022, the ADA Unit was invited to the CFB's Election Consortium in order to announce the call for applications to AVAC. The ADA Unit also provided a Voter Education Workshop hosted by Downstate ADAPT in conjunction with the Campaign Finance Board in June 2022. This presentation explained the various adaptive features of the Ballot Marking Device, as well as information about the electronic accessible absentee ballot process.
