

SSD OUTSIDE, FAST FUN INSIDE

SV620H External Solid State Drive

ADATA SV620H External Solid State Drive

The ADATA SV620H external solid state drive delivers a totally new storage experience with an excellent cost-performance ratio. It uses new 3D NAND, or stacked TLC Flash and features four times faster speeds compared to external hard drives, while being lighter, quieter, more shock resistant, and more durable. Its sandblasted titanium finish creates a subtle, low profile look, and its raised edges protect surfaces from scratching. Available in 256GB and 512GB and compatible with Android, MAC OS and Windows, the SV620H allows users to share, transfer, and enjoy content with all the benefits of a solid state drive.

Rapid Transfer, Easy Share

- High R/W speed: up to 440MB/s
- 4 times faster than an average external HDD
- 5GB video transfer takes only 26 seconds!
- SuperSpeed USB 3.1 interface

Quality 3D NAND Flash

- 3D NAND, or stacked TLC Flash.
- The technology offers higher density, increased reliability,

- Raised edges to protect from scratches

Features

- 3D TLC NAND Flash
- High R/W speed: up to 440MB/s
- Raised edges protect surface from scratching
- Sandblasted metallic finish for a high quality look
- Simple driver-less plug n play
- Wide OS compatibility: Android, MAC OS, Windows
- Free value-added software: HDDtoGO, OStoGO

Specifications

- Interface: USB 3.1
- Capacity: 256GB / 512GB
- Color: Titanium
- Dimensions (L x W x H): 115 x 78 x 11.5mm / 4.5 x 3.0 x 0.4"
- Weight: 76g / 2.7oz
- Warranty: 3 years

Enjoy all the Benefits of SSD

- Lighter, faster, quieter, more durable, shock resistant and power-saving than an external HDD
- Convenient to use without the hassle of buying an internal SSD and placing it in an external enclosure
