CONFIGURATOR

Weidmüller 

Efficient digital engineering Weidmüller Configurator integrates CAE access and direct offers Let's connect.

The Weidmüller Configurator (WMC) is a software solution for selecting, configuring and ordering enclosures, terminal rails and terminal rail components, including convenient marking. The tool supports continuous engineering workflows from planning with ECAD systems through to documentation. With fast delivery service.

www.weidmuller.co.za

Extra efficiency in panel planning, installation and operation

Klippon® Services offer added value at all stages

As a partner in Industrial Connectivity, we consider panel building as an integrated process – from the planning stage all the way to installation and operation. The best example of this is Klippon® Connect – our offer consists of tailored application products, universal terminal blocks and process-supporting services.

To get the most out of your processes, we also support you with Klippon® Services throughout all lifecycle phases. An example is our Weidmüller Configurator (WMC) with new Fast Delivery Service for even greater flexibility in project planning. As a software solution, the WMC not only offers support for individual steps, but for panel building as an entire, seamless process, building a bridge from planning through to operation.

Digital engineering can be as simple as that Create your configuration from over 8000 digital Weidmüller products

- Intuitive selection of suitable components and accessories with assistants
- Drag & drop placement in the 3D view.
- Preparation of parts lists, technical drawings and complete project documentation
- Online Documentation

1. Start the control cabinet planning directly in the WMC or in your familiar E-CAD system and transfer your data via interfaces to the WMC.

2. Take advantage of the WMC's product relation knowledge when selecting the optimal components on the basis of the desired service level. Installation in suitable housing with desired accessories.

3. Verification of the selected combination by the integrated test assistant for maximum product safety.

4. Direct enquiry from the Weidmüller Configurator with automatic offer generation within a few minutes.

WMC

Use the Fast Delivery Service Save additional time

By opting for our Fast Delivery Service, you free yourself from high fixed costs for reserved production capacities, the constant provision of storage space and the purchasing of individual components.

1. Offer provided in minutes

Your order is automatically processed after completing your configuration in the WMC

2. Assembly in quantities of 1 or more

Ready-to-install assembly that meets your individual specifications

3. 4-day delivery service

Regular delivery time if you opt for the "Fast Delivery" range
