PROGRAM

A RESPONSIVE ACADEMY

MEETING AND SURPASSING THE CHALLENGES OF A MODERN FORENSIC SCIENCE WORLD

FEBRUARY 2'1-25 SEATTLE, WASHINGTON

thermo scientific

WELCOME MESSAGE

Carl R. McClary, MS 2021-22 AAFS President

It is a privilege to welcome you to the 74th AAFS Annual Scientific Conference in Seattle, Washington. There has been much preparation on the part of the staff and the Board of Directors to get us to this point, following our all-virtual conference last year! We're offering a hybrid format to allow much of our content to be provided virtually, adding flexibility to those who could not attend in person. This format will be available to all attendees for 60 days past our conference week.

Our variable format provides yet another means to meeting the goals set forth in my theme this year – A Responsive Academy – Meeting and Surpassing the Challenges of a Modern Forensic World. This theme conveys the approach for a new era for the Academy, one in which our organization listens and responds to you, our members, in providing resources, content, value, and opportunities in the most expedient way. This is made possible through streamlining our administrative processes, modernizing our technology, paving an easier path to leadership, and generally rethinking your needs.

Not to miss this week – Please be sure to attend our Diversity Outreach Committee's (DOC) Session on Tuesday evening and the Plenary Session on Wednesday. The DOC Session following our Welcome Reception, entitled *Embracing Diversity* for a Modern Forensic Science World, will feature speaker Kelly Knight, Associate Professor at George Mason University, in addition to highlighting our diversity survey results. The Plenary Session will feature DNA Analyst Todd Bille of the Alcohol, Tobacco, Firearms, and Explosives Forensic Science Laboratory, Andy Parsons of Adobe, and a chance for you to be introduced to our new Executive Director, Donna Grogan. Our exhibitors will be available Wednesday through Friday, so don't forget to visit the exhibitor hall to see the latest in technology and literature!

I thank everyone who made this conference, in both formats, possible this week. This extends to our Program, DOC, and Plenary Committees, our extremely dedicated and hardworking staff, and those of you who are presenting this week. The extra effort to provide a recording for the benefit of those members and guests who will watch online are so very much appreciated by the Board of Directors, me, and all who will be viewing.

Finally, we are still living in precarious times with the COVID-19 pandemic, and I implore you to follow the local regulations through masking and being distance conscious while attending our conference this week. This will help ensure safety for all.

GENERAL INFORMATION

Registration Desk Hours

Washington State Convention Center - Level 4 Atrium Lobby

Sunday	February 20	1:00 p.m.	-	5:00 p.m.
Monday	February 21	6:45 a.m.	-	5:00 p.m.
Tuesday	February 22	6:45 a.m.	-	6:00 p.m.
Wednesday	February 23	6:45 a.m.	-	5:00 p.m.
Thursday	February 24	6:45 a.m.	-	5:00 p.m.
Friday	February 25	6:45 a.m.	-	4:00 p.m.

Exhibit Hall Hours

Washington State Convention Center - Level 4 Halls A & B

Wednesday	February 23	11:30 a.m.	-	4:00 p.m.
Thursday AAFS Reception	February 24 (Exhibits Open)	9:00 a.m. 6:00 p.m.	-	2:00 p.m. 8:00 p.m.
Friday	February 25	8:00 a.m.	-	1:00 p.m.

Media Statement: The American Academy of Forensic Sciences (AAFS) does not comment on forensic cases or Medicolegal investigations. Media releases will be issued by the AAFS Board of Directors only in response to matters deemed pertinent to the business of the Academy. The sitting AAFS President is the only member of the Academy authorized to provide comment on behalf of the Academy. Comments, views, and opinions expressed by all other members of the Academy reflect the comments, views, and opinions of the individual solely.

Registrant Minimum Age: Registrants and presenters at the AAFS Annual Conference must be at least 18 years old at the time of the conference.

Lost Badge Policy: Lost, misplaced, stolen, or forgotten badges will incur a replacement fee equal to the original purchase amount of your registration. If your badge was complimentary, the fee will be the current, on-site rate.

Author Information: The *Journal of Forensic Sciences* encourages authors to submit previously unpublished reports and papers presented at the AAFS annual conference. For full instructions on manuscript preparation, consult the Information for Authors available at: https://www.aafs.org/resources/journal-of-forensic-sciences/information-for-authors/.

Manuscripts must be submitted electronically via the *Journal of Forensic Sciences* Manuscript Central site: http://mc.manuscriptcentral.com/jofs. For questions, please contact: jfs.editor@att.net.

Reminders:

- Video and/or audio recording of any session(s) or parts thereof is not permitted without prior approval from the American Academy of Forensic Sciences.
- English is the official language of the AAFS and its meetings; neither oral nor written translations will be provided.
- Although precautions are taken to prevent schedule changes, speakers and program schedules may change due to unforeseen circumstances
- As a courtesy to others, please silence your cell phone when attending the sessions.

Future AAFS Annual Conferences

2023 AAFS Annual Conference

February 13-18, 2023 Rosen Shingle Creek Orlando, FL

2024 AAFS Annual Conference

February 19-24, 2024 Denver Convention Center Denver, CO

SEXUAL MISCONDUCT RESOURCES AND INFORMATION

AAFS takes the safety of its meeting attendees seriously, and strives to promote a welcoming experience for all. In order to promote a safe environment for meeting attendees, we have resources for meeting attendees about sexual misconduct.

What is sexual misconduct?

Sexual misconduct is an umbrella term that includes different types of sexual violence including sexual harassment and sexual assualt. (https://www.rainn.org/types-sexual-violence)

What is sexual harassment?

Sexual harassment includes unwelcome sexual advances, requests for sexual favors, and other verbal or physical harassment of a sexual nature in the workplace or learning environment, according to the Equal Employment Opportunity Commission. (https://www.rainn.org/articles/sexual-harassment?gclid=CjwKCAjw2P-KBhByEiwADBYWCqz0g1E4mRJrXf5TN-EQ-JYXo2Q7USO-Yrtu1c9klaUmTmrEtpmsaxoCbiQQAvD BwE)

What is sexual assault?

The term sexual assault refers to sexual contact or behavior that occurs without explicit consent of the victim. (https://www.rainn.org/articles/sexual-assault)

What do I do if I experience sexual misconduct during the annual meeting?

- Call 911.
- Call the AAFS 'safe person' Number: or contact another member of the AAFS staff
- Locate security personnel at the conference venue.
- Report conduct to AAFS Ethics Committee.
- Refer to local/national resources list.

What do I do if I have witnessed sexual misconduct during the annual meeting?

- Talk to the victim/survivor. Encourage them to review this resource page.
- Direct them to the AAFS 'safe person' or another member of the AAFS staff
- Direct them to security personnel at the conference venue.
- If the person is in immediate danger, call 911.

Resources for survivors including definitions, where to get help, and post-assault recovery

National Domestic Violence Hotline https://www.thehotline.org/ Resources include definitions, local resources/legal aid, crisis line and crisis chat.

No member or Affiliate of the Academy shall participate in unacceptable behavior at an annual Academy conference, to include times not specifically in session or at gatherings, social or otherwise, not specifically a part of the Academy program. Unacceptable behavior includes, but may not be limited to, harassment; intimidation; discrimination; physical abuse; physical assault, verbal abuse; inappropriate use of nudity or sexual images; threats; stalking; unwanted sexual comments or advances; orderogatory comments related to gender, gender identity and expression, sexual orientation, disability, physical appearance, body size, race, religion, national origin, or political positions.

AWARDS

The Distinguished Fellow Award and the Outstanding Early Career Achievement in Forensic Science Award will be presented on Wednesday, February 23, during the AAFS Awards Ceremony immediately following the Annual Business Meeting. Please join us in acknowledging your most distinguished colleagues as they are presented with these prestigious awards.

Distinguished Fellow

Bruce A. Goldberger, PhD

Outstanding Early Career Achievement in Forensic Science Award

Kathryn C. Seigfried-Spellar, PhD

The following awards will also be presented on Wednesday, February 23, during the AAFS Awards Ceremony. You will want to be present to congratulate the recipients

Humanitarian and Human Rights Resource Center's Clyde Snow Award

Cristina Cattaneo, MD, PhD

Ambassador of Forensic Science Award

National Institute of Standards and Technology (NIST)

Special Programs Office

FSF Emerging Forensic Scientist Award

Perla Santillan, MS Ya-Chih Cheng, MS Meghan Appley, MS

FSF Warren-Young Scholarship

Ashley E. Shidner, PhD

FSF Jan S. Bashinski Criminalistics Graduate Thesis Assistance Grant

The FSF Jan S. Bashinski Criminalistics Graduate Thesis Assistance Grant will be presented on Wednesday, February 23, during the Criminalistics Section Business Meeting. Teresa will be acknowledged again during the AAFS Awards Ceremony.

Teresa M. Tiedge, MPS

AWARDS

The Section Awards will be presented during Section Business Meetings on Wednesday, February 23 (see Section Business Meeting start times on page 9). The recipients will be recognized before the entire membership during the AAFS Awards Ceremony.

2022 Section Award Honorees

Anthropology Section's

T. Dale Stewart Award Michael W. Warren, PhD

Tal Simmons, PhD Laura C. Fulginiti, PhD Laney Feeser, MA Ilaisah Martinez, BA

DISTINGUISHED FELLOW

Bruce A. Goldberger, PhD

Dr. Bruce Goldberger is a Professor and Chief of the Forensic Medicine Division, Department of Pathology, Immunology and Laboratory Medicine in the College of Medicine at the University of Florida in Gainesville. He is the Technical and Administrative Director of the Forensic Toxicology Laboratory. Dr. Goldberger is the Director of UF Health Forensic Medicine, the Program Director of the Florida Emergency Mortuary Operations Response System and a Co-Investigator of the National Drug Early Warning System. Dr. Goldberger is also Director of the University of Florida Forensic Epidemiology Team.

Dr. Goldberger trained under the direction of Dr. Yale Caplan at the University of Maryland School of Medicine. Dr. Goldberger developed many new and innovative methods to solve a myriad of complex analytical problems. He also trained with Edward Cone, PhD, then at the Addiction Research Center in Baltimore, MD, performing seminal research in the detection and disposition of heroin and its metabolites in biological specimens. Dr. Goldberger's work led to the discovery of heroin and 6-acetylmorphine in the hair of heroin users, an accomplishment that directed future work in the analysis of drugs and drug metabolites in hair.

Dr. Goldberger is a consultant for the nation's leading public health institution, the Centers for Disease Control and Prevention, and is a member of the White House Office of National Drug Control Policy Emerging Threats Committee. Dr. Goldberger is the Editor-in-Chief of the Journal of Analytical Toxicology, the official journal of the Society of Forensic Toxicologists and The International Association of Forensic Toxicologists. The Journal is the premier international toxicology journal devoted to the timely dissemination of scientific communications concerning the analysis of impairing and toxic substances in biological matrices.

Dr. Goldberger's career has been unique, merging the academic environment, including research and teaching, with a service component spanning clinical, forensic, and medical toxicology. He is a recognized leader in the field, serving key forensic organizations such as the American Academy of Forensic Sciences, the Society of Forensic Toxicologists, and the Forensic Specialties Accreditation Board with great distinction. He is the current President of the American Board of Forensic Toxicology.

Dr. Goldberger has been prolific in research and publication in the areas of clinical, medical, and forensic toxicology, as well as in the medicolegal investigation of death, including the certification of the cause and manner of death. He has co-edited/co-authored 5 books, 45 book chapters, and 119 peer-reviewed papers.

Dr. Goldberger has received numerous honors and awards, including the American Academy of Forensic Sciences Toxicology Section's Sunshine Award and Alexander O. Gettler Award in recognition of outstanding contributions to the field and profession of forensic toxicology; the Florida Association of Medical Examiners' Outstanding Achievement Award; the National Safety Council's Robert F. Borkenstein Award for outstanding contributions to alcohol- and drug-related traffic safety; and Northeastern University's Richard Saferstein Memorial Award in Forensic Science.

Dr. Goldberger has been a member of the American Academy of Forensic Sciences Toxicology Section since 1983. He served the Academy holding many leadership positions. He served as Toxicology Section Program Chair, Secretary, and Chairman. He represented the Section on the Academy's Board of Directors and served as Academy Workshop Chair, Program Chair, Treasurer, Vice President, President-Elect, President, and Past-President. Dr. Goldberger was the Academy's Media and Public Relations liaison for 13 years; in this position, he was the Academy's point of contact for all media queries and was responsible for the vetting of all press releases and the planning of the annual Academy public outreach event. Finally, and very notably, as an incoming President, he worked with and advised those who proposed, shaped, and led the new Digital & Multimedia Sciences Section.

Dr. Goldberger is a scientist, a toxicologist, a leader, a teacher, a researcher, an epidemiologist, an academician, and a practitioner. Although his scientific knowledge is exhaustive, Dr. Goldberger's imagination toward the development and promotion of the forensic sciences has always been his most promising attribute.

BUSINESS MEETINGS

Section Business Meetings will only be available to those participating in person. Quorums will be based on in-person registrants - 25% of registered voting members.

Do not miss the opportunity to win a complimentary meeting registration for the 2023 AAFS Annual Scientific Meeting in Orlando, FL! Each section will award one registration to a voting member who attends their Section Business Meeting.

All times are Pacific Time.			
Wednesday, Febr	uary 23		
1:00 p.m 3	3:45 p.m.	Criminalistics	
1:30 p.m 3	3:45 p.m.	Pathology/Biology	
1:45 p.m 3	3:45 p.m.	General	
2:00 p.m 3	3:45 p.m.	Anthropology	
2:00 p.m 3	3:45 p.m.	Digital Multimedia Sciences	
2:00 p.m 3	3:45 p.m.	Engineering Applied Sciences	
2:00 p.m 3	3:45 p.m.	Jurisprudence	
2:00 p.m 3	3:45 p.m.	Odontology	
2:00 p.m 3	3:45 p.m.	Psychiatry Behavioral Science	
2:00 p.m 3	3:45 p.m.	Questioned Documents	
2:00 p.m 3	3:45 p.m.	Toxicology	

Attend the AAFS Annual Business Meeting for a Chance to Win a Complimentary Meeting Registration!

The Annual Business Meeting of the Fellows and Members of the AAFS will be held on Wednesday, February 23, at 4:15 p.m. It is essential that all Fellows and Members attend this very important meeting in order to reach a quorum for the voting process. Agenda items include the election of 2022-23 Officers, consideration of bylaw amendments, a summary of AAFS activities during the past year, and plans for the future.

As an incentive to attend, all Fellows and Members present will automatically be entered in a drawing for a complimentary meeting registration to attend the 2023 AAFS Annual Scientific Meeting in Orlando, FL.

FINANCIAL CONTRIBUTORS

The American Academy of Forensic Sciences would like to thank the following for their contribution to the 74th AAFS Annual Scientific Conference:

PLATINUM SPONSOR

SILVER SPONSORS

BRONZE SPONSORS

GENERAL SPONSORS

Medicine and Dentistry

CONTINUING EDUCATION

General Information

All meeting sessions are lectures with one or more speakers. Continuing professional education credits will be offered for physicians, dentists, and attorneys. Continuing education credit applications will be submitted for physicians, nurses, and dentists. Attorneys may request CLE credit; please see the "Legal" section.

To register for continuing education credit, please complete the appropriate section on the meeting Registration Form. An individual must be a registrant to obtain continuing education credit. Fees charged for continuing education credits are based on projected costs of providing the various types of continuing education credit. The AAFS has adopted a user-pay approach so that those individuals who benefit from the specific continuing education program are responsible for the costs incurred.

In order to be in compliance with accrediting organizations, introductions and breaks have been deducted from the total hours. Please note that continuing education credit is not available for all sessions. All continuing education credit recipients will receive certificates with the number of continuing education hours awarded. Attendance reports are filed with the appropriate state or national agency, as required.

Learning Objectives of the AAFS Continuing Education Program

- Recognize the perspectives and roles of the various forensic science disciplines
- · Assess current concepts and practices
- Discuss relevant forensic science issues related to science, evidence and the law
- Identify strategies for researching descriptive studies, technology and methods, diagnostics, interpretation and testimony
- Review administrative functions performed by forensic scientists

American Board of Criminalists Approval

The American Academy of Forensic Sciences (AAFS) is approved by the American Board of Criminalistics (ABC) to offer continuing education points for approved workshops for criminalists and forensic scientists. The ABC maintains responsibility for the program, and credit may be awarded to ABC Fellows, Diplomates, and Affiliates.

Overall Purpose and Objective Statements for Major Aspects of AAFS Programs

Workshops and Special Sessions

Purpose: To provide an opportunity for experts to present material and to lead discussion and practical exercises related to forensic science methods, procedures, diagnosis, investigation, professional relations and practices, communication, administration, and professional development. **Learning Overview:** Detailed individually in each workshop and special session announcement and description.

Plenary and Keynote Sessions

Purpose: To provide a multidisciplinary presentation and discussion of issues related to the forensic science profession.

Learning Overview: Attendees will be able to: a) identify the challenges the forensic science profession has faced and will continue to face in terms of ensuring quality; b) identify ways to deal with the variances each challenge presents; and c) identify the entities which have influence over setting the quality standards in the field of forensic science.

Oral and Poster Section Scientific Sessions

Purpose: To provide an opportunity for presentation and discussion of case reports, descriptive studies, review presentations, research, administrative issues, and investigative/diagnostic methods regarding topics and issues of importance to a primary discipline among the forensic sciences. **Learning Overview:** To meet the educational objectives stated by each presenter for his/her presentation.

Last Word Society

Purpose: To provide a retrospective forensic analysis of historical events and to provide education about the history and evolution of forensic sciences as well as the modern methods and technologies used to re-examine past events of forensic science interest. Emphasis is placed on the evaluation of the original opinions and case outcome and on the development of newer hypotheses based on the re-analysis.

Learning Overview: To meet the educational objectives stated by each presenter for his/her presentation.

CONTINUING EDUCATION

Guidelines For Claiming Credit

As the sponsor of Continuing Education Credit, the AAFS recognizes that the forensic science disciplines are inextricably linked and that interdisciplinary knowledge is critical to promote competence in forensic practice. As a result, the claiming of credit for varous continuing education activities related to medicine, dentistry, law, and other forensic disciplines need not be limited to one's primary professional specialty. For example, a forensic pathologist from the Pathology/Biology Section may gain very useful and relevant information by attending a presentation in the Anthropology Section scientific session. It is appropriate to claim continuing medical education credit for that session. Many other examples exist where the claiming of continuing education credit is appropriate for attending sessions that cover material related to, but which lay outside of, one's primary professional area of expertise.

It is the conference attendee's responsibility to document which program sessions were attended and to determine those sessions for which continuing education credit may be claimed. The AAFS operates under the assumption that meeting attendees will, in general, be unlikely to attend sessions that will not be beneficial to their professional practice and that the claim for continuing education credit is justified if a session contains scientific or practice-related information that may bring new knowledge, may affirm current knowledge, or may provide information that could possibly modify one's professional practices.

Those who wish to receive continuing education credit must register and pay the Continuing Education Credit fee on the meeting Registration Form. CE Credit Request Forms will be available on the AAFS website. The completed forms must be returned to AAFS by the designated deadline.

Joint Accreditation Statement

In support of improving patient care, this activity has been planned and implemented by the Postgraduate Institute for Medicine and the American Academy of Forensic Science. Postgraduate Institute for Medicine is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Physician Continuing Medical Education Credit

The Postgraduate Institute for Medicine designates this live activity for a maximum of 41.25 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Dental Continuing Education Credit

This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between Postgraduate Institute for Medicine and the American Academy of Forensic Sciences.

Postgraduate Institute for Medicine is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of the credit hours by boards of dentistry. Postgraduate Institute for Medicine designates this activity for 41.25 continuing education credits. Concerns or complaints about a CE Provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at www.ada.org/cerp.

Legal Continuing Education Credit

Continuing legal education credit will be awarded on an hour-for-hour basis. Attorneys may file the AAFS-issued CLE certificate with their respective state bars.

Non Physician Continuing Education Credit

A general non physician certificate of attendance will be available.

General Continuing Education Credit

General continuing education credit is offered for those practicing the various forensic science disciplines not represented in the aforementioned list.

DIVERSITY AND INCLUSION IN FORENSIC SCIENCE FORUM AND RECEPTION

Open to All Meeting Registrants - (in-person and live-streamed)

Tuesday, February 22, 2022 8:00 p.m. - 10:00 p.m.

Embracing Diversity for a Modern Forensic Science World

Kelly Knight, MS

Associate Professor George Mason University

Moderators:

Kate Spradley, PhD Texas State University San Marcos, TX **Hunter Fleming, BS**Virginia Commonwealth University Richmond, VA

Deirdre Amaro, MDUniversity of Missouri School of Medicine
Columbia, MO

The goal of the Diversity Outreach Committee (DOC) Session is to enlighten and initiate dialogue regarding diversity, equity, and inclusion initiatives within the AAFS and the greater forensic science community. Participants will hear from an invited speaker on their perspectives and experiences on issues related to diversity and inclusion. The DOC hopes that this interactive session will promote dialogue on navigating diversity, equity, and inclusion within forensic science throughout an everchanging social climate.

Kelly Knight, a 2020 University Teaching Excellence Award winner and AAFS Fellow, is an associate professor of Forensic Science and a STEM Accelerator. As a STEM Accelerator, she mentors STEM students and leads K-12 STEM outreach programs such as the Females of Color and those Underrepresented in STEM (FOCUS) program which makes STEM exciting and accessible for BIPOC (Black, Indigenous, and People of Color) girls. After obtaining degrees in chemistry and forensic science, Prof. Knight worked in forensic DNA laboratories for almost a decade before beginning her career in higher education. As a former DNA analyst, she has years of experience in both forensic casework and research, specifically in the areas of forensic serology and low copy number (LCN) DNA methods.

Professor Knight is also currently working on her PhD with specializations in science education research, critical theory, and multicultural education. Her current work examines how out-of-school STEM programs impact middle and high school BIPOC girls, particularly in the area of STEM identity. Her future work will include an in-depth analysis of the experiences of marginalized students persisting in the STEM pipeline. Through her advisory roles and work with various justice, equity, diversity, and inclusion initiatives at her University, such as the President's Anti-Racism and Inclusive Excellence taskforce, Kelly's work in higher education centers the development and implementation of equitable practices for both STEM students and faculty.

STUDENT ACADEMY

Open to all Meeting Registrants—\$15 (in-person)

Tuesday, February 22, 2022 9:00 a.m. - 1:00 p.m.

The purpose of the Student Academy of Forensic Sciences is to bring to the attention of high school students the vital importance of the application of scientific principles to the administration of justice. It acquaints the participants with the role of the forensic science disciplines in the legal system as well as the education and training required for the career in each discipline.

Program:

9:00 a.m. - 9:20 a.m. **Introduction**

Marilyn T. Miller, EdD, Chair

9:20 a.m. - 9:30 a.m. "The Case"

Lynn A. Schneeweis, MS, Co-Chair

The Forensic Sciences Group I Disciplines

9:30 a.m. - 9:45 a.m. **Pathology/Biology**

J.C.U. Downs, MD

9:45 a.m. - 10:00 a.m. **Anthropology**

Ginesse A. Listi, PhD

10:00 a.m. - 10:15 a.m. Odontology

Lilliian A. Nawrocki, DDS

10:15 a.m. - 10:30 a.m. **Toxicology**

Sabra R. Botch-Jones, MS

10:30 a.m. - 10:45 a.m. General

Brian S. Clark, MFS; T.L. Williams, MFS

10:45 a.m. - 11:00 a.m. Q&A, Assignment, and Break

"The Forensic Sciences" Group II Disciplines

11:00 a.m. - 11:15 a.m. Criminalistics

Kelly Knight, MS

11:15 a.m. - 11:30 a.m. Questioned Documents

Cami Fuglsby, BS

11:30 a.m. - 11:45 a.m. Engineering & Applied Sciences

Roy Crawford, BSME

11:45 a.m. - 12:00 p.m. Digital & Multimedia Sciences

Douglas Lacey, BS, MS

12:00 p.m. - 12:15 p.m. Psychiatry & Behavorial Science

12:15 p.m. - 1:30 p.m. Lunch & Student Trivia

1:30 p.m. - 1:45 p.m. **Case Conclusion**

Jurisprudence, Pamela A.W. King, JD

1:45 p.m. - 2:00 p.m. Wrap Up

INTERDISCIPLINARY SYMPOSIUM

Pre-Registration Required—\$75 (in person and virtual)

S1 Problems of Today and Solutions for Tomorrow

Tuesday, February 22, 2022

1:00 p.m. - 4:30 p.m.

3.0 CE Hours

Chair:

Christopher M. Milroy, MD, LLB

University of Ottawa Ottawa Hospital Ottawa, Ontario, Canada

Faculty:

James L. Caruso, MD

Office of the Chief Medical Examiner/Coroner Denver, CO

Lucy Davis, BHS LDH Consultants, LLC Pikeville, KY

Heidi Eldridge, PhDRTI International
Research Triangle Park, NC

Co-Chair:

Paul Messner, JD Dry Ridge, KY

Roderick T. Kennedy, JD Los Ranchos, NM

Barry Logan PhD NMS Labs Horsham, PA

Learning Overview: After attending this presentation, attendees will have a greater understanding of current challenges in multiple forensic science disciplines, death investigations, and in the courts.

Impact Statement: This presentation will impact the forensic sciences community by offering various perspectives regarding current issues and possible future solutions.

Program Description: This presentation will present various perspectives as they relate to forensic science, medicine, and the courts including: workload and workforce issues in forensic pathology and their impact on death investigations; the analytical challenges presented by the rapid development of illicit novel psychoactive substances; why standards created by the Academy Standards Board (ASB) are crucial to forensic science; and how pattern recognition discipline validity challenges are being addressed. The symposium will also discuss why courts are both reluctant to recognize challenges to previously accepted forensic science techniques and resistant to admitting evolved techniques.

INTERDISCIPLINARY SYMPOSIUM

Pre-Registration Required—\$75 (in person and virtual)

S1 Problems of Today and Solutions for Tomorrow

Program:	
1:00 p.m 1:15 p.m.	Opening Remarks and Introduction Christopher M Milroy, MD, LLB

Dirk Vastrick Presents Spokane Valley, WA

Matthew R. Wood, PhD

Ocean County Sheriff's Department Forensic Science Laboratory Toms River, NJ

Learning Overview: The YFSF will aim to bring to light some of these challenges and more importantly, highlight how the members and attendees of our very own American Academy of Forensic Science met these challenges head on, rose to the occasion and circumvented these challenges in order to get to their current positions.

Impact Statement: The impact of this Special Session will focus mostly on, but not exclusively on, the younger forensic scientists who are still in the process of trying to get to their "dream job". We say not exclusively because the age of the person will never dictate their entrance into a new career in forensics, therefore anyone and everyone can and will benefit from the information provided in this Special Session .

This session is designed from the ground up and tailored to the Young Forensic Scientists Forum attendees as well as any members of the AAFS who are or were experiencing difficulties in the transition from Student to Professional. So many hurdles are present in this journey, many of which young scientists are completely unprepared for: building and updating resumes, job interviewing skills and techniques, proper and efficient networking, and all the mistakes, difficulties and challenges in between.

YOUNG FORENSIC SCIENTISTS FORUM

Learning Overview: The audience can be expected to learn about the impact that media can and does have on fornsic casework at multiple levels and how to successfully engage with journalists while maintaining objectivity in casework.

Impact Statement: This presentation will impact the forensic science community by showing documented pitfalls & successes in various media and Forensic Science Professionals in handling casework and suggest strategies for future improvement in the flow of information while protecting necessary information.

Forensics Professionals are keenly aware of the impact their services have on cases. Part and parcel of this is intense public interest in and scrutiny of casework. One need only do a brief internet search to find over 1.5 million hits for "case of the century" including references to the accompanying media frenzies associated therewith. In many settings, the players – Forensics Experts and the media – are placed at seeming odds with each other, in a real or perceived effort to control information flow. Comfort comes in knowing that the crucible of second-guessing burns hot – but only until the next such case comes along. As this cycle of investigation-analysis-court-critique-resolution repeats, lessons are available for those willing to learn from their forebearers. As Voltaire asked, "Is there anyone so wise as to learn by the experience of others?"

All cases begin at the scene, where experience teaches many cases are won or lost based upon how a scene is processed and how an initial investigation commences. Los Angeles County, California is an enormous jurisdiction and no stranger to high profile cases, including OJ, Phil Specter, The Night Stalker, and too many others to count. A discussion of lessons learned from decades of leading the Forensic Laboratory analysis of such high profile provides valuable insights into the "dos" and "dont's" of casework.

High interest cases, far from being limited to major jurisdictions, can literally occur anywhere and at any time. Case in point, 20 years ago in a sleepy northwest Georgia community of just over 60,000 people became home to a macabre nightmare of a case – an originally unknown number of human remains (later tallied at 339) was found literally dumped in and around the grounds of a family compound surrounding an operating crematory. Nothing similar on such a scale had been encountered before or since. The primary investigators had to deal with not only the casework to be done in order to identify the deceased and to prove criminal charges, but had to simultaneously inform the public while preventing the media from interfering with investigators' duties. Issues encountered along the way proved challenging but a (partial, at least) successful case resolution followed thanks to good public relations anchoring good detective work.

SPECIAL SESSION

Tale of the Tape—The Media's Impact on Forensic Science Cases

Many jurisdictions conduct exhaustive preparatory exercises in order to be ready to face possible future mass disaster scenarios. Large or small, one can never be ready for all scenarios. The task of primary Medicolegal death investigation falls in many jurisdictions on the Coroner, who must be prepared for any death(s) falling under their jurisdiction. One of the worst-case situations involves mass shooting fatalities. These happen suddenly and without warning. The Las Vegas shooting is an example of such a potentially overwhelming investigation. Lessons learned from the experience provide insights in readiness if such awful acts might occur again. Although fortunately involving fewer fatalities, lesser scale investigations can be no less troubling and warrant similar media scrutiny. The racially-motivated slaying of nine parishioners with clergy at a bible study group shocked a city, a nation, and the world. How could this happen here? In a city not unfamiliar with shocking cases — nine firefighters dead in the line of duty, a suspect shot in the back while fleeing, and the like are another day at the office for a medicolegal death investigator.

When the deceased come in, the task of examination of the remains and telling their story falls upon the Forensic Pathologist. As with other Forensics Professionals, the stories are waiting to be told - awaiting only an attentive ear and an eloquent voice. Personal recollections of the Medical Examiner can make for best-selling non-fiction. But, are there lessons to be learned about and in the telling?

Eventually, the press interest in cases comes to center on the courtroom where evidence – good or bad – is presented to a presumably objective arbiter of fact. With intense pre-trial and in-trial scrutiny, including live televised trials, Attorneys have had to adapt and perfect new strategies to best present their cases. Lessons learned from a career trial Criminal Defense Attorney (ongoing) turned TV journalist offer a unique perspective on the good, the bad, and the ugly of courtroom as entertainment and the media as fact source.

Often downplayed in the entire media hoopla surrounding a case is the victim, without whom there would be no story. Every victim has a story, but not everyone has someone to tell it. In a unique circumstance, the surviving family can tell the decedent's tale in such a way as to capture not only public but also professional interest. The session closes with the brother of a homicide victim, who shared his sister's story in an award winning documentary. The session will close with a special screening of her story: "Alice is still dead."

In the "sweet science" of pugilism, participants are assessed according to their literal physical dimensions – the "tale of the tape." In the modern era of ubiquitous video, the Forensic Sciences have been and continue to be judged based on a different – but no less real – physical comparison, the taped record of events. Properly anticipated and thoughtfully pursued, information flow can be successfully managed and utilized, leaving both sides, the pursuit of truth and the quest for justice, as winners.

Program:

11:30 a.m. – 11:45 a.m.	Introduction J.C.U. Downs, MD; Tanisha Henson, JD
11:45 a.m. – 12:15 p.m.	Dos and Don'ts at the Scene and in the Laboratory Barry Fisher, MBA, MS
12:15 p.m. – 12:45 p.m.	Medicolegal Death Investigation: Part 1 Bobbi Jo O'Neal, RN
12:45 a.m. – 1:45 p.m.	Medicolegal Death Investigation: Part 2 John Fudenberg
1:45 p.m. – 2:15 p.m.	The Aftermath-The Survivors Edwin P. Stevens
2:15 p.m. – 2:45 p.m.	"Alice is Still Dead" (excerpt) Edwin P. Stevens
2:45 p.m. – 3:00 p.m.	QUESTIONS & ANSWERS All Presenters

Proceeds from this workshop will benefit the Forensic Sciences Foundation

FEPAC SESSION

Accreditation of Forensic Science Academic Programs Through the AAFS Forensic Science Education Programs Commission (FEPAC)

Tuesday, February 22, 2022 Open to All Meeting Registrants (in-person only) 8:30 a.m. – 12:45 p.m.

Chair: Commissioner:

Heidi Eldridge, PhDPatrick A. Eller, MSRTI InternationalMetadata Forensics LLC

Research Triangle Park, NC Richmond, VA

Commissioner: Commissioner:

Jason L. Schroeder, MSA. Karl Larsen, PhDHarris County Institute of Forensic ScienceUniversity of Illinois, Chicago

Houston, TX Chicago, IL

Learning Overview: Upon completion of this session, the participant should be able to understand the process of accreditation through the AAFS FEPAC mechanism and be able to participate in the process as a reviewer of academic programs. Participants from academic programs will also learn about the process of accreditation from different perspectives.

Program Description: This session has been developed to assist academic institutions offering undergraduate and graduate degree programs in forensic science and forensic digital evidence to prepare for the accreditation process through the FEPAC. This session will also assist future on-site evaluators (academic and practitioners) to prepare for on-site evaluations of academic programs. Successful completion of this one-day session will qualify participants for consideration to serve as on-site evaluators for FEPAC in the future (please note that participants must still meet other FEPAC requirements, such as membership in the AAFS and designation as either a practitioner or academician). This training session will highlight updates to the FEPAC Standards for Accreditation and provide valuable information for both program directors and on-site evaluators.

The FEPAC is a standing committee of the AAFS with a membership that includes five educators, five forensic science practitioners, and a public member as voting members. The mission of the FEPAC is to maintain and enhance the quality of forensic science education through a formal evaluation and recognition of college-level academic programs. The primary function of the committee is to develop and maintain standards and to administer an accreditation program that recognizes and distinguishes high-quality undergraduate and graduate forensic science programs. Forty academic programs have successfully completed the accreditation process since 2003. Additional information on FEPAC can be found on the FEPAC website: http://fepac-edu.org.

Program:

8:30 a.m.	-	9:00 a.m.	Introduction and Welcoming Remarks/Module 1: What to Know About FEPAC Heidi Eldridge, PhD
9:00 a.m.	-	9:30 a.m.	Module 2: An Overview of the FEPAC Application Process Patrick A. Eller, MS
9:30 a.m.	-	10:00 a.m.	Module 3: A Review of Self-Study Standards 3.0–General for all Programs Patrick A. Eller, MS
10:00 a.m.	-	10:15 a.m.	Break
10:15 a.m.	-	10:45 a.m.	Module 4: A Review of Self-Study Standards 4.0–Undergraduate Programs A. Karl Larsen, PhD
10:45 a.m.	-	11:15 a.m.	Module 5: A Review of Self-Study Standards 5.0–Graduate Programs A. Karl Larsen, PhD
11:15 a.m.	-	11:45 a.m.	Module 6: Accreditation Decisions and Categories, Appeals Process, Annual Reports, Substantive Changes, and Post-Visit Survey Jason L. Schroeder, MS
11:45 a.m.	-	12:15 p.m.	Module 7: FEPAC On-Site Evaluator Training Jason L. Schroeder, MS
12:15 p.m.	-	12:45 p.m.	Questions and Answers FEPAC Commissioners and Accreditation Coordinator

KEYNOTE ADDRESS

Open to All Meeting Registrants—(in person and live streamed)

Wednesday, February 23, 2022

8:30 a.m. - 9:30 a.m.

Marc Milstein, PhD

Los Angeles, CA

Overview:

Dr. Marc Milstein specializes in taking the leading scientific research on health and happiness and presents it in a way that entertains, educates, and empowers his audience to live better.

His presentations provide science-based solutions to keep the brain healthy, lower the risk of dementia, boost productivity and maximize longevity. He earned both his PhD in Biological Chemistry and his Bachelor of Science in Molecular, Cellular, and Developmental Biology from UCLA.

Dr. Milstein has conducted research on topics including cancer biology and neuroscience and his work has been published in multiple scientific journals. Dr. Milstein has been quoted breaking down and analyzing the latest research in popular press such as *USA Today, Huffington Post*, and *Weight Watchers Magazine*. Dr. Milstein's upcoming book "The Age-Proof Brain" will be published in 2022.

PLENARY SESSION

Open to All Meeting Registrants—(in person and live streamed)

Wednesday, February 23, 2022

10:00 a.m. - 11:30 a.m.

1.5 CE Hours

Ammendale, MD

Andy Parsons Adobe Inc. Brooklyn, NY

Overview: Forensic practitioners are continually searching for proven methods of analyzing an ever-changing landscape of potential evidence in criminal and civil matters, especially in the digital evidence arena. At the same time, they must actively learn how to apply new technology to traditional evidentiary items, enabling even greater information to be gleaned from those items. One of the most important avenues of learning these new methods and technology is through scientific presentations and workshops, such as those featured at the AAFS Annual Scientific Conferences. This session will cover the AAFS' efforts to update its interface with its members and to expand its educational offerings beyond the Annual Scientific Conferences, in the face of the unprecedented pandemic. Additionally, a novel analysis technique regarding the extraction of DNA evidence from fired cartridge cases and a multi-member initiative to authenticate multimedia evidence will be discussed.

All change is different and requires a unique implementation process. The key need for change at the Academy is operational efficiency. The Academy needs to keep up with the evolution of technology, conduct internal process reviews and expand benefits for our membership. On June 15, 2021 the Academy welcomed a new Executive Director, Donna Grogan. Donna brings with her prodigious experience in organizational leadership, management, leadership training and development, and notable successes in fundraising programs. Through her accomplishments in non-profit executive positions, she has increased the global footprint of the healthcare foundations she worked with for over 20 years prior to joining the Academy. A high-energy, goal-oriented manager, Donna has been using her experience to impact the changes that will bring the current state to a future state to achieve even greater success for the forensic science community.

Gun violence is not new in the United States, but the level of gun violence has increased in recent years. In many instances, fired cartridge cases (FCCs) are the only physical evidence left at the scene. Historically, the ability of forensic examinations on FCCs to provide investigative information has been limited. DNA analysis and latent fingerprint examinations were rarely successful. Linking

PLENARY SESSION

Open to All Meeting Registrants—(in person and live streamed)

A Responsive Academy—Meeting and Surpassing the Challenges of a Modern Forensic Science World

Overview cont.

the FCC to a firearm through a firearms examination required the firearm. Over the years, techniques and technology have evolved that now allow laboratories to potentially provide investigative information linking an individual, firearm, or previous incident to FCCs recovered from a crime scene. However, implementing the analysis of a new type of evidence brings additional challenges to the forensic laboratory. The U.S. Bureau of Alcohol, Tobacco, Firearms, and Explosive Laboratory (ATF) began investigating methods of increasing the success rate of DNA analysis on FCCs in 2012. Mr. Todd Bille, DNA Technical Leader of the ATF Laboratory, will discuss the evolution of DNA analysis of FCCs along with the challenges encountered in the first two years after implementation. These include the mitigation of contamination at the crime scene, developing a case acceptance policy to prevent the laboratory from being overwhelmed with submissions, storage of the FCCs appropriately to reduce DNA degradation, formation of a group specifically for the DNA analysis of FCCs, DNA mixture interpretation, and ways to coordinate the DNA analysis and entry of the FCCs into the National Integrated Ballistic Information Network (NIBIN) in a timely manner.

Digital provenance is becoming one of the most important countermeasures against mis- and dis-information. With the proliferation of "deep fakes" and synthesized voice mimicking an individual's speech characteristics, it has become increasingly difficult to trust digital video and audio at face value. Andy Parson's talk will focus on how Adobe's Content Authenticity Initiative (CAI) is deploying techniques and standards that answer the question: instead of detecting what may be fake, can we prove what's true? From a forensics perspective, he will explore how the technology works, how it may be adopted, and its place in court proceedings.

Program:

MENTOR PROGRAM KICKOFF BREAKFAST

RSVP Required by Feb. 2–No Charge (in person only)

Thursday, February 24, 2022

7:00 a.m. - 8:15 a.m.

Are you interested in mentoring a colleague or would you like to have a mentor to help guide your professional growth in your discipline? If so, please join the AAFS Mentoring Program Kickoff Breakfast. We will discuss the program, solicit participation, and begin the matching process for those ready to commit.

Many in the Academy have already notified the committee of their interest in the program and are on the Mentoring Program roster. Like most other things, COVID has slowed down the process in getting the program launched, but this breakfast will mark the official beginning of hopefully numerous productive relationships. If you have already agreed to participate, definitely plan on joining us for breakfast.

Seattle registrants interested in attending this breakfast must RSVP by February 2 to: mentorship@aafs.org.

For those unable to make it to Seattle, or have a conflict that morning but are interested in the Mentoring Program, please let us know using that same email address.

Pre-Registration Required by February 11 –\$60 (in person only)

BS1 The Path Forward Continues: What's Happening in Forensic Standards

Monday, February 21, 2022

7:00 a.m. - 8:15 a.m.

.75 CE Hour

Teresa Ambrosius, BA*
American Academy of Forensic Sciences
Colorado Springs, CO

Karen Reczek, MS*
National Institute of Standards and Technology
Gaithersburg, MD

Allison Getz, MS*
National Institute of Standards and Technology
Gaithersburg, MD

Learning Objective: Participants will learn about updates in standards development in the United States and internationally from United States Standards Developing Organizations (SDOs). Participants will also get an update from the Organization of Scientific Area Committees (OSAC) for Forensic Science regarding how they are working with the SDOs and encouraging forensic science service providers to implement standards.

Participants will gain a better understanding of the progress of consensus standards development, including submission, drafting, public and committee commenting and resolutions, and finalization. Participants will also realize the importance of public input into the standards process and will learn how to participate, even if they are not part of an SDO consensus body or committee.

Impact Statement: The 2009 National Research Council (NRC) stressed the lack of standardization in forensics. The advent of OSAC, administered by the National Institute of Standards and Technology (NIST), and the AAFS Standards Board (ASB) has resulted in several years of concerted efforts to identify gaps in needed standards and begin their development using the voluntary consensus standards development process. All forensic professionals need to be aware of new and emerging standards in the various forensic disciplines, their importance, and how they can be implemented.

In 2009, the NRC published the Report, Strengthening Forensic Science in the United States: A Path Forward, which summarized the challenges facing the forensics community and the lack of mandatory standardization, certification, and accreditation. From this report, the Department of Justice (DOJ) and the NIST signed a Memorandum of Understanding that led to the establishment of the National Commission on Forensic Science (NCFS) and the NIST-administered OSAC for Forensic Science.

Presenters will provide an overview of the standards currently in development, those soon to be published, and the new standards published by various SDOs. New standards include those related to interdisciplinary topics, such as evidence collection and labeling, interpretation and reporting, and discipline-specific standards in the areas of criminalistics, toxicology, digital evidence, anthropology, facial recognition, photography, biology, pattern evidence, and crime and fire scene investigation, with a focus on terminology, measurement uncertainty, measurement traceability, quality assurance, and calibration.

Presenters will describe the process that a document goes through from inception through drafting, commenting, voting, and publication. This overview will give participants the education they need to participate in the standards development process.

OSAC has been working closely with various SDOs to bring the community together to define requirements for disciplines to submit standards through the development process. OSAC's role in the standards development process and promotion of implementation of these standards will also be covered.

^{*}Presenting Author

Pre-Registration Required by February 11 –\$60 (in person only)

BS2 Autopsy of a Crime Lab: The Evolving Approaches Toward Forensic Evidence in Court

Tuesday, February 22, 2022

7:00 a.m. - 8:15 a.m.

.75 CE Hour

Brandon Garrett, JD*Duke University School of Law Durham, NC

Learning Overview: This presentation will survey the current state of litigation and judicial review of admissibility of forensic evidence, as well as providing an overview of a recent book, Autopsy of a Crime Lab, that surveys the sources of error in forensic work and approaches designed to improve the process and safeguard reliability.

Impact Statement: This presentation will provide an overview of the book, but particularly focus on legal research and developments in the courts as judges have evolved in their approach toward forensic evidence. Studies examining how lay jurors evaluate forensic testimony in court will be summarized.

"That's not my fingerprint, your honor," said the defendant after Federal Bureau of Investigation (FBI) experts reported a "100-percent identification." They were each wrong, and Brandon Mayfield was later cleared. How does error, even in high-profile cases, occur? Is it the quality of the latent fingerprint, the role of databases, individual examiner error, cognitive bias, or uncertainty inherent in a method that can lead to error? How should lawmakers, labs, and courts approach each of these challenges? The recently published book, Autopsy of a Crime Lab, is the first to catalog the sources of error behind a range of well-known forensic evidence, from fingerprints and firearms to forensic algorithms. At the crime scene, the book explores the need for scientific standards regarding evidence collection. Moving to the lab, the book explores quality controls, human factors, and the need for further studies to validate basic premises of widely accepted techniques. Turning to individual experts, the book asks how proficiency tests could be used to better assess individual performance, and the need for standards governing report writing and testimony. Reaching the courtroom, the book examines how concepts of judicial gatekeeping have slowly evolved, regarding discovery, testimony, and expert admissibility.

Taking us into the lives of the wrongfully convicted or nearly convicted, into crime labs rocked by scandal, and onto the front lines of promising reform efforts driven by professionals and researchers alike, Autopsy of a Crime Lab describes the forensic landscape and recent efforts to place evidence, from the crime scene to the laboratory to the courtroom, on a sound scientific footing.

BS3 Procedures for Breaking the Zodiac Killer's Code

Wednesday, February 23, 2022

7:00 a.m. - 8:15 a.m.

.75 CE Hour

Jeanne Anderson*Federal Bureau of Investigation Laboratory Quantico, VA

David Oranchak* Roanoke, VA

Learning Overview: Attendees will learn about the forensic cryptanalysis of the Zodiac Killer's 50-year old unsolved cipher, how this code was broken, and the procedures used by the Federal Bureau of Investigation (FBI) Laboratory in cases such as this.

Impact Statement: This presentation impacts the forensic science community by bringing awareness of forensic codebreaking capabilities.

The field of forensic cryptanalysis, or codebreaking, is a little-known but well-established forensic discipline that, when applied, can produce reliable and informative results. Cryptanalysis can be applied to records of illicit businesses, such as drug distribution or manufacturing, human smuggling, and commercial sex, as well as coded messages.

The FBI Laboratory houses the Cryptanalysis and Racketeering Records Unit (CRRU) and is staffed with forensic cryptanalyst examiners trained to decipher coded messages and cryptic illicit business records. This forensic analysis relies on standard operating procedures based on steps developed in the early 1900s by a United States Army cryptologist and that remain accepted by forensic and academic cryptologic communities today. These procedures provide a framework for the analysis of codes and records that apply regardless of crime, context, or record type. Despite this framework's historical basis, it remains largely unknown by the forensic community; this presentation will inform attendees about this forensic capability. Further, this presentation will introduce one such codebreaking case, that of the never-caught Zodiac serial Killer. This case involved a coded message that remained unsolved for 50 years before it was broken this past December. This development provided the law enforcement community with new material on an unsolved serial killer case and the cryptologic community with a new encipherment technique that confounded professional and amateur cryptanalysts for 50 years.

One of the three-person team who broke this message will provide background on techniques employed for over a decade of work on the Zodiac Killer's code, including those techniques that eventually helped decrypt this coded message as well as how these techniques may apply to remaining unsolved coded messages. An FBI Cryptanalyst Forensic Examiner will present on law enforcement's approach to coded messages, specifically the standard operating procedures used for analysis of records and codes such as this. Several remaining unsolved coded messages will be introduced for those interested in applying any of the presented cryptanalytic techniques to actual unsolved codes.

BS5 Helping the Marines Correct the Historical Record: Identifying the Iwo Jima Flag Raisers Using Photographic Comparison and Facial Recognition

Thursday, February 24, 2022

7:00 a.m. - 8:15 a.m.

.75 CE Hour

Richard Vorder Bruegge, PhD* Federal Bureau of Investigation Quantico, VA

Learning Overview: Attendees will learn how Digital and Multimedia Sciences techniques, including photographic comparison, facial recognition, and 3D face modeling, were used to help the United States Marine Corps correct the historical record in regard to the individuals depicted in the iconic "Iwo Jima Flag Raising" photograph by Joe Rosenthal. This case provides an example of how new techniques may be tested against unusual types of evidence in a matter of historical significance.

Impact Statement: The forensic science community will see an example of how established and innovative forensic science techniques can be "stress tested" in unusual circumstances to help further define the limits of these techniques.

On February 23, 1945, United States Marines raised an American flag on Mount Suribachi, Iwo Jima. A photograph depicting that event taken by Associated Press photographer Joseph Rosenthal immediately became iconic in Marine Corps and United States lore, with the image serving as the basis for the United States Marine Corps War Memorial in Washington, DC, and the National Museum of the Marine Corps in Quantico, VA. While most Marines will tell you that the individual names of those in the photograph do not matter, historians, and many in the public, want to be able to put names to the faces.

Previous Marine Corps reviews led to updates of the record in 1947 and 2016, but after the 2016 Huly Board findings were released, historians Dustin Spence, Stephen Foley, and Brent Westemeyer brought forth additional evidence indicating that further changes were needed. As a result, a third Board was convened in 2018. This "Bowers Board" requested the assistance of the Federal Bureau of Investigation (FBI) Digital Evidence Laboratory (DEL) in analyzing photographs and film footage from that day to help establish, once and for all, which Marines are depicted and in which positions around the flag.

The flag raised in the Rosenthal photograph was the second raised on the summit that day, replacing a smaller one. Several photographers, including one with a 16-mm movie camera, were also present and captured multiple photographs and film recordings of events on the summit that day, culminating in a series of celebratory photos known as the "Gung Ho!" photos. The combination of these photographs and film recordings make it possible to track the movements of various individuals during this sequence and establish their presence through image analysis (photographic comparison), primarily based on their faces and details of their helmets, clothing, and gear.

Through this examination process, the identities of four of the six individuals around the flagpole in the Rosenthal photo can be established with either "Strong Support" or "Extremely Strong Support," while there is "Some Support" or "Limited Support" for the other two. Facial recognition technology and 3D-facial modeling software were also utilized in support of these analyses. When combined with further information from historical records, these findings offered a compelling case for the Bowers Board to declare in 2019 that the record is now complete.¹

Requests like this—which do not involve criminal or civil litigation—allow multimedia evidence labs to not only stress test their existing standard procedures on different materials and content, but also allow them to experiment with new techniques and procedures under more "realistic" conditions than may otherwise be available. In this case, facial recognition technology and 3D-modeling software were utilized in support of traditional image analysis techniques for photographic comparison. Through this process, potential limitations of these technologies were identified. This presentation will provide attendees with a better understanding of the process involved in this image analysis examination, as well as how the facial recognition and 3D-modeling software were leveraged in this case, along with the potential limitations.

BS6 Electrical Torture, Electrocution, and Homicide—The Istanbul Protocol

Thursday, February 24, 2022

7:00 a.m. - 8:15 a.m.

.75 CE Hour

Helmut Brosz, BASc*Forensic Sciences International Group Markham, ON, Canada

Renee Knight, BSFS*
Forensic Sciences International Group
Markham, ON, Canada

Learning Overview: This presentation will provide an overview in identifying electrical torture injuries through a foundational background in body resistance to electricity and electrocution scenarios. After attending this presentation attendees will: (1) have an understanding of what is Electrical Shock Torture as defined by the Istanbul Protocol; (2) Mechanisms of Electrocution; and, (3) the variables to be applied in the identification of electrical torture, injury, and homicide.

Impact Statement: This presentation will impact the forensic science community by improving the ability of Authorities Having J urisdiction (AHJ), including investigators, medical examiners, lawyers, prosecutors, and engineers, to identify when an electrical torture or other electrical incident has taken place. Attendee knowledge of electrical shock injuries, torture, and homicide will be increased.

AHJ attending to a suspected electrical torture scene or homicide scene involving electrocution sometimes have difficulty discerning between natural death and death due to electricity. On average in North America, between 500 and 1,100 electrocutions occur annually, including suicide, auto-erotic, accidental, homicide, etc. The statistics for electrical torture are hard to come by; however, this form of torture "Parilla" appears to be practiced in certain South American and far Eastern Countries. There are also approximately ten times as many arc flash burn injuries and more than ten times as many non-fatal electric shocks. Some minor shock situations result in fall reactions that can lead to death and injury. These low-voltage shocks/electrocutions frequently leave no visible marks on the person. High-voltage electrocutions mostly leave distinctive marks and catastrophic injuries.

In scenarios involving electrical torture, readily identifiable marks may not always be available. Scenarios involving an individual being shocked in the presence of water may sometimes obscure contact entry and exit marks. Scene photos, hospital admission notes and sketches, autopsy photos, and reports are important data to be created, then assembled, studied, and analyzed as set out in the Istanbul Protocol.

The review and study of applicable standards and codes can assist the AHJ or investigator. For example, the Istanbul Protocol provides a definition on what is deemed as electrical shock torture, the device mechanisms utilized, and the various pathological outcomes of the torture relating to independent and dependent variables. For electrocution situations, the National Electrical Safety Code (NESC), Occupational Safety and Health Administration (OSHA) 26CFR1910, 26CFR1926, National Fire Protection Association (NFPA) 70E, and California General Order 95 may apply.

Variables in identifying electrical shock include voltage, body resistance, time, and the paths the current takes through the body. Through these factors, reconstruction and forensic analysis can be conducted in identifying and interpreting the method and potential motive for electrical torture through case presentations, examples, and artifacts.

Pre-Registration Required by February 11 –\$60 (in person only)

BS7 Forensic Nursing Science: A New Section for a New Scientific Era

Friday, February 25, 2022 7:00 a.m. – 8:15 a.m. .75 CE Hour

Nancy Cabelus, DNP* University of New Haven New Haven, CT

Virginia Lynch, MSN*
Forensic Nurse Consultants, International Divide, CO

Joyce Williams, DNP* Stevenson University Owings Mills, MD

Amy Carney, PhD*
California State University
San Marcos, CA

Learning Overview: After attending this presentation, attendees will have a better understanding of the history of this dynamic discipline, the inception of forensic nursing worldwide, and how forensic nurses contribute to clinical practice, research, and policy.

Impact Statement: This presentation will impact the forensic science community by presenting exemplars of the application of care of victims, survivors, and perpetrators of violence of trauma.

In 1991, the American Academy Forensic Sciences (AAFS) distinguished forensic nursing as a scientific discipline.1 This pronouncement launched a movement now recognized worldwide. The following year, the International Association of Forensic Nurses (IAFN) was founded.2 In 1995, the American Nurses Association (ANA) Congress of Nursing Practice bestowed the official status of a nursing specialty upon the science of forensic nursing.3 The forensic aspects of nursing have long existed. Nurses have historically cared for victims of violence—both the living and the dead. In the 17th century, nursing had not yet become a science and midwives filled this role.4 Two centuries later, Florence Nightingale established the first aspects forensic nursing when caring for the war wounded and dead.

Forensic nursing is a dynamic discipline that recognizes human violence and trauma through a contemporary domain of scientific knowledge, health care, human rights, social justice, public health, and evidence-based practice. Broadly defined, forensic nursing science is nursing applied to the law, following the long-established exemplar of forensic medical science. Forensic nurses are health care providers qualified in the examination and evaluation of patients presenting with forensic biomarkers of crime-related trauma and the clinical investigation of questioned deaths. Global violence and problematic social and cultural situations reinforce the need to define the dynamics, processes, and guidelines for forensic nursing practice as it evolves and endures change.

Educational requirements to practice in forensic nursing vary. The nurse must have, at a minimum, an Associate's degree in nursing but a Bachelor's degree is preferred. After completing the degree, the nurse must successfully pass the board exam in the state in which they intend to practice. After practicing clinical nursing for a year or more, s/he may desire to specialize in forensic nursing as a Forensic Nurse Examiner (FNE) generalist or select a subspecialty of this discipline. Opportunities for role development include the Sexual Assault Forensic Examiner (SANE) course or pursuing the forensic aspects of training as a legal nurse consultant, accident investigator, mental health nurse practitioner, or nurse death investigator. Educational opportunities may be offered in risk management agencies, law firms, correctional settings, or domestic violence shelters. Regardless of the specialized role, forensic nurses work with victims of all ages who have suffered abuse, neglect, sexual assault, trauma, or any other crime-related injuries. Forensic nurses may practice in hospitals and community settings, typically interfacing with the legal system and treating victims, suspects, or perpetrators of crime.

Policy development in forensic nursing has evolved as the professional role grows and changes. Across the United States, individual Boards of Nursing have evaluated the forensic nursing response and the gaps that are filled when forensic nurses work with law enforcement, attorneys, and fellow medical professionals. As individual states evaluate their Nurse Practice Acts and the impact they have on forensic applications, forensic nurses are examining the effect that state, national, and federal rules and policies have on their interactions with both individuals and institutions. Forensic nurses also shape policy, bringing change through advocacy and research.

BS7 Forensic Nursing Science: A New Section for a New Scientific Era

Graduate forensic nursing programs are available, often online, and require a number of clinical hours (typically 500) in addition to the didactic requirement of 30–40 credits. Forensic nurses with a graduate degree may opt to teach, conduct research, or in a clinical practice. Advanced practice forensic nurses may pursue a doctorate degree in forensic nursing research (PhD) or a doctorate with a clinical forensic focus, the Doctor of Nursing Practice (DNP).

Pre-Registration Required by February 11 –\$60 (in person only)

A Tale of Two CSIs: A Criminal Salad Impersonation and a Cookie Subterfuge Incident

Thursday, February 24, 2022 12:00 p.m. — 1:30 p.m. 1.0 CE Hour

Gerald DeMenna, PhD* Chem-Chek Labs Cape May, NJ

Learning Overview: The analytical processes employed will enlighten the attendee to the power of spectroscopic analyses (Ultraviolet [UV]-visible and Infrared [IR]) of suspect samples in differentiating materials that appear to look and smell the same but are actually quite different. Using these spectroscopic techniques usually involves minimal sample preparation that maintains the integrity of the original sample, which increases the reliability of the data when presented in court. These techniques also allow accurate comparisons between an unknown sample and a known reference material, again maximizing the credibility of that data in a court trial. Attendees will better understand the principles of these spectroscopic techniques as critical molecular "fingerprinting" tools and how to best utilize them for forensic analyses.

Impact Statement: Expanding one's exposure to the more generalized forms of chemical analysis is worthwhile in these days of specialization where the analyst may be an expert in one specified field of technology, but will ignore the benefits of complimentary analyses from other area of analytical technology. Spectroscopic analysis in the electromagnetic spectral region from shortwave UV to longwave IR is a very versatile area that can produce a wealth of data on the chemical and molecular composition of many materials if one is familiar with all aspects of these technologies, both the common and unique. This presentation should serve to open the attendees' thought processes when presented with an analytical situation that can easily be addressed with these techniques as a starting point to develop a foundation upon which to possibly expand the evaluation of a suspect sample in a more fruitful direction to maximize results efficiently and effectively.

In the business of food production, there are incidents in which the wrong product is made either accidentally or intentionally. Accidents naturally happen, but if by intent, that is fraud with criminal intent. The stories in this presentation are true, and the names have been changed to protect the innocent.

At some time in the past, there were a series of mysterious illnesses and a few fatalities occurring in the Baltimore, MD, Little Italy area. The symptoms included severe nausea and vomiting, respiratory distress, and allergic-type reactions, but none of the medical exams of the living or postmortem exams revealed any common toxicological factor. The victims and their families, who were widely spread throughout the various Baltimore areas, eliminating an environmental cause of these afflictions, were thoroughly interviewed to try and identify some commonality to their daily lives. One aspect of their Italian heritage was the routine use of olive oil in most food preparations. By process of elimination, it was revealed that the "Krakatoa" brand Extra-Virgin Olive Oil (EV-OO) was used by all the victims. Since this suspect EV-OO looked and smelled like all the other brands of popular EV-OOs, an in-depth evaluation was needed to discover what might be in the Krakatoa brand to cause these afflictions. The information contained herein will give a description of genuine EV-OO production, and how a colorimetric evaluation of the Krakatoa brand revealed some interesting discrepancies, which uncovered a scheme by the producers of the olive oil to sell a cheap, low-quality grade of olive oil as the higher-priced extra-virgin grade.¹

At another time in the very distant past (in the early 1900s), there was a snack food manufacturer in northern New Jersey that had the simple idea of putting sandwich crème in between two pieces of baked chocolate wafers. The Continental American Cookie Association (CACA) had already been producing a wide variety of biscuits and cookies by mass-production and was looking to set themselves apart from the competitors at the time. While CACA to this day still guards the exact recipe of that scrumptious crème filling in their "PSFP" cookies (hint: 2001: A Space Odyssey), there have been several modifications in that recipe over the past 100+ years. The original filling was made with lard, a by-product of pig rendering, plus sugars and vanilla to produce a firm, crumbly filling with a specific "mouthfeel." They replaced the lard with hydrogenated soybean oil; to reach the kosher/halal/vegetarian market, they then replaced that with natural palm and coconut oils to avoid the negative press of hydrogenation.² Someone on eBay was selling "Original PSFP Cookies with the Original Filling!", but the buyer said they were not authentic. This part of the presentation shows the power of IR spectroscopy to identify the components in these various fillings.

What's New From the American Society for Testing and Materials (ASTM) International's Committee E30 on Forensic Sciences: Big Changes Underway!

Friday, February 25, 2022

12:00 p.m. - 1:30 p.m.

1.0 CE Hour

Agnes D. Winokur, MS* Drug Enforcement Agency Miami, FL

Karen Reczek, MS*National Institute of Standards and Technology Gaithersburg, MD

Learning Overview: Attendees will gain a better understanding of the progress of consensus standards development, including drafting, submission, committee and public comment periods, comment resolutions, and finalization of the standards. Attendees will also gain a stronger appreciation for the role and importance of public comments in the standards process. In addition, attendees will learn how they can provide input in the process of public comments, even if they are not part of a standard developing organization, a consensus body, or a standard developing committee.

Impact Statement: It is essential for forensic sciences professionals to be familiar with new and emerging standards in the various forensic disciplines. Familiarity with the standards will enable a forensic scientist to implement the standards in their respective laboratory setting and incorporate the standards into their quality assurance manuals. Ultimately, these consensus-based standards will assist the forensic sciences provider with accreditation efforts, development and validation of methods, and increase the level of quality in their work product. Awareness of ASTM E30 Forensic Sciences standards and its process will provide another means for forensic science professionals and stakeholders to become actively engaged in improving the practice of forensic science in the United States and internationally.

ASTM International is one of the oldest United States standards developing organizations. Although ASTM's Committee E30 on Forensic Sciences has been in existence since 1970, many forensic sciences professionals are not familiar with ASTM E30 standards, its process, or how to actively participate and provide input. Subsequently, stakeholders are not aware on how consensus-based standards have been influencing the practice of forensic sciences throughout the years.

In this session, presenters will provide an overview of ASTM International's E30 Forensic Sciences and its subcommittees, which include Criminalistics (e.g., fire debris, explosives, trace, seized drugs), Digital and Multimedia (e.g., video, imaging, face identification, storage mediums), Terminology, and the Interdisciplinary Subcommittee. In addition to the ASTM standards development process and the new American National Standards (ANS) process for E30, the presenters will highlight specific standards currently in development, soon to be published, and those being revised to address current forensic practices and needs.

Standards influence requirements for forensic sciences professionals within their respective laboratories and even accreditation requirements for forensic sciences providers. Many forensic scientists do not realize how standards affect them individually or the work processes that they use on a daily basis. Raising this awareness is critical in empowering the forensic community to provide information on their processes, techniques, and methods. This information can then be used to standardize processes and develop standards that improve the overall practice of forensic sciences. The role that public comment periods play in the development of consensus-based standards is essential to ensure the practicality and comprehensiveness of the standards. The opportunity to hear from interested parties to facilitate discussion improves the quality of the standards being developed. But how does the stakeholder community actively participate in these opportunities? Presenters will educate attendees as to how they can engage with E30, whether through full membership, serving on a task group, or commenting on standards open for ballot.

W1 Transfer and Persistence of Physical Evidence: Deciphering Implications

Pre-Registration Required-\$200 (in person and virtual)

W2 The National Institute of Standards and Technology (NIST) Forensic DNA Activities: Foundations, Research, and Standards

Monday February 21, 2022

8:30 a.m. - 5:00 p.m.

6.75 CE Hours

Learning Overview: Presenters will review activities at NIST involving forensic DNA foundational studies, research, and standards.

Impact Statement: Presentations in this workshop will impact the forensic science community by contributing to an understanding of NIST activities in advancing knowledge and practice of forensic DNA through foundation studies, focused research, and development of documentary standards.

Program Description: Three sessions will focus on DNA mixture interpretation, DNA sequencing research, and DNA training materials that will benefit students, practitioners, and stakeholders. Participants will gain an understanding of principles involved in DNA analysis and interpretation, knowledge of core foundational literature supporting these principles, and information that can strengthen training programs for DNA analysts.

W3 Determining Sufficiency for the Identification of Gasoline

Monday, February 21, 2022 8:30 a.m. – 5:00 p.m.

Learning Overview: Attendees can expect an overview of the current gasoline identification limitations as well as an introduction to key diagnostic features of gasoline used in a statistical framework to enhance interpretation and identification.

Impact Statement: This workshop will detail chromatographic peak ratios with varied support for the identification of gasoline as well as a method to graphically demonstrate the overall statistical support for gasoline in the sample.

Program Overview: The information to be presented provides instructions to build a sufficiency graph with decision lines to demonstrate the sufficiency of the data for the identification of gasoline to further strengthen the data interpretation process and provide transparent documentation. The objective of this information is to make the fire debris analysis process more standard, objective, and transparent by establishing a validated method with quantitative measures that include the implementation of documentation methodology and verification.

W4 The Application of Evaluative Reporting for Forensic Handwriting Examinations

Monday, February 15, 2021 8:30 a.m. – 5:00 p.m. 6.75 CE Hours

Learning Overview: Attendees will learn how to apply Evaluative Reporting for evidence interpretation and conclusions. Handwriting comparisons will be used as examples. There will be a short lecture, followed by a demonstration using a mock case. The majority of the class will be hands-on group practice and feedback.

Impact Statement: This presentation will impact the forensic science community by describing modifications to the current interpretation method and reporting conventions that can help elucidate the evaluation process and advance forensic document examination as a science.

Program Description: Attendees will receive mock cases to examine, but not evaluate, prior to the workshop. The workshop will begin with an introduction of the key principles of the approach and general theory, followed by a demonstration of the method using one of the mock cases. For the remaining cases, attendees will break into groups and evaluate evidence using the approach. After each breakout session, attendees will reconvene for discussion with the instructors.

Unseen Threats W5

Monday, February 21, 2022 8:30 a.m. - 5:00 p.m. 7.0 CE Hours

Learning Overview: Attendees will gain a better understanding of public threats in respect to emerging drugs that are not often discussed (e.g., electronic cigarettes and their role in drug use, the effect of polydrug overdoses in toxicology and emergency rooms, online resources and how they can be used to predict future emerging drugs, fentanyl supervised consumption sites, and drug concealment techniques). Attendees will also gain awareness of innovative techniques used to address challenges in these areas (e.g., Direct Analysis in Real-Time Mass Spectrometry [DART®-MS] for the rapid screening of the chemicals in electronic cigarettes, and real time fatal overdose surveillance).

Impact Statement: Attendees will become aware that drug-related deaths continue to significantly impact communities. There are topics that influence the illicit drug landscape in these communities and are not frequently discussed.

Program Description: This workshop will bring visibility and clarity to topics that emphasize emerging drug threats. Electronic cigarettes and vaping, polydrug overdose deaths, online sites, concealment drug techniques, and fentanyl supervised consumption sites are among those topics that generate challenges for the forensic community. By increasing discussion and attention in these areas, the forensic community can become better equipped in developing processes in their laboratories that will assist them in handling emerging drugs more effectively.

W5 Unseen Threats

Program:	
8:30 a.m. – 8:50 a.m.	Introduction Agnes D. Winokur, MS
8:50 a.m. – 10:00 a.m.	Electronic Cigarettes: A Tangle of Regulation, Public Health, and Public Safety Issues Michelle R. Peace, PhD
10:00 a.m. – 10:10 a.m.	BREAK
10:10 a.m. – 11:00 a.m.	Electronic Cigarettes: A Tangle of Regulation, Public Health, an Public Safety Issues (cont.) Michelle R. Peace, PhD
11:00 a.m. – 11:30 a.m.	Confined DART®-MS for Rapid Chemical Analysis of Electronic Cigarette Aerosols and Spiked Drugs Shannon T. Krauss, PhD
11:30 a.m. – 12:00 p.m.	Looming Legality: Expiration of Class Wide Fentanyl Scheduling Victor W. Weedn, MD, JD
12:00 p.m. – 1:00 p.m.	BREAK
1:00 p.m. – 1:30 p.m.	Things Aren't What They Seem—Interesting Case Studies From the Miami-Dade County Medical Examiner Department Mary Elizabeth Zaney, BS
1:30 p.m. – 2:00 p.m.	OD in the ED: Nothing Is What It Seems Kim N. Aldy, DO, MS, MBA
2:00 p.m. – 3:00 p.m.	Real-Time Fatal Drug Overdose Surveillance in Washington State Katie S. Heidere, MSW
3:00 p.m. – 3:10 p.m.	BREAK
3:10 p.m. – 3:45 p.m.	Narcotic Concealment Methods in U.S. Customs and Border Protection Air, Land, Marine, and Cargo Environments Jason R. Bory, MS
3:45 p.m. – 4:20 p.m.	Monitoring Online Resources for Predicting Drug Threats Alex J. Krotulski, PhD
4:20 p.m. – 5:00 p.m.	Qualitative and Quantitative Characterization of Complex Samples Containing Fentanyl and Benzodiazepines From Supervised Consumption Sites Richard R. Laing, MS

Targeted Audience: Criminalistics, General, Pathology/Biology, Toxicology

Knowledge Level Required: Intermediate Expected Handout Length: 80 pages

Pre-Registration Required-\$200 (in person and virtual)

W6 Impairment: A Look at Causes, Data, and Policies

Monday, February 21, 202

9:00 a.m. - 5:00 p.m.

6.25 CE Hours

Learning Overview: Attendees of this workshop will gain: (1) expertise in the role of drug recognition experts and their role in impairment investigations; (2) detailed knowledge of the role of fatigue in transportation accidents and an understanding of the factors impacting fatigue; (3) in-depth knowledge of the most recent recommendations for the toxicological investigation of drug-impaired driving and motor vehicle fatalities; (4) an appreciation of the roles of alcohol and cannabinoids in driving impairment and various strategies to control their use within the population; (5) an awareness of the tools available, roadside screening of oral fluid samples, and the policies regarding these samples; and (6) a detailed overview of the Academy Standards Board (ASB) Standards and the role they play in impairment investigations from testing in the laboratory all the way through to courtroom testimony.

Impact Statement: This workshop will impact the forensic science community by providing a detailed overview of recent policy changes and current developments within impairment testing.

Program Description: The workshop brings together experts from the National Safety Council and the National Transportation Safety Board, as well as representatives from the ASB and the Organization of Scientific Area Committees (OSAC) Standards boards to present data for the first time.

Histology for Non-Pathologists W7

Monday, February 21, 2022

8:00 a.m. - 12:00 p.m.

3.75 CE Hours

Learning Overview: Attendees will learn the basics of histology as well as receive an introduction to the histologic interpretation of infection and trauma, including trauma to the brain and spinal cord.

Impact Statement: This presentation will impact the forensic science community by providing non-pathologists with an understanding of the process of histology interpretation and, in particular, its relevance to their forensic specialty.

Program Description: During their anatomic pathology training, forensic pathologists learn the art of histopathology, which involves looking at small sections of tissues under the microscope for identification and interpretation. The results of this examination can be used to determine the cause and manner of death, extent and type of disease process, and nature of identified abnormalities. Although extensive training is provided to pathologists on this topic, little to none is given to other forensic practitioners, even those whose work can be affected by the results of these examinations.

Pre-Registration Required-\$100 (in person only)

W8 Subaerial Weathering of Bone

Monday, February 21, 2022 8:30 a.m. – 12:00 p.m. 3.0 CE Hours

Learning Overview: Participants in this workshop will learn about the taphonomic processes causing subaerial weathering of bone and how to score weathering stages following the standard 0-5 scale from Behrensmeyer.1 Participants also will learn about estimation of the Postmortem Interval (PMI) from the weathering stage and the other types of taphonomic alterations that commonly co-occur with surface exposure and how to tell the effects of subaerial weathering (cracking, delamination, and bleaching) from other causes that may produce similar effects.

Impact Statement: This workshop will impact forensic practice by teaching standard scoring procedures for subaerially weathered bone and the procedures for estimating PMI based on those scores. This workshop will encourage participants to gather additional taphonomic data to improve greater understanding of subaerial weathering and its regional variation.

Program Description: Participants will be encouraged to record taphonomic changes as an integrated part of forensic casework that can provide investigators with crucial information, including PMI, depositional environment, and post-depositional circumstances. This workshop includes hands-on presentations of taphonomic examples and will supply certificates of successful attendance/completion of taphonomic training to attendees who successfully complete the training exercise.

Chair:

James T. Pokines, PhD
Boston University School of Medicine
Massachusetts Office of the Chief Medical Examiner
Jamaica Plain, MA

Program:

8:30 a.m. – 10:00 a.m. Subaerial Bone Weathering

James T. Pokines, PhD

10:00 a.m. – 10:30 a.m. BREAK

10:30 a.m. – 11:30 a.m. Bone Weathering Examples

Pre-Registration Required-\$100 (in person and virtual)

W9 Forensic Science Standards Development and Implementation ... You Want Me to Do What?

Monday, February 21, 2022

8:30 a.m. - 12:15 p.m.

3.5 CE Hours

Learning Overview: The goal of this workshop is to discuss the development process of forensic science standards, how these standards are implemented in crime laboratories, and how they are viewed by the legal profession.

Impact Statement: This presentation will impact the forensic science community by enabling attendees to understand: (1) the process through which standards are developed and published; (2) issues with implementation of standards in crime laboratories; and (3) how the legal profession views and assesses the role of standards in court proceedings.

Program Description: This workshop will provide answers to questions about standards that are asked frequently by the forensic science community and will provide information that will be helpful to laboratories that plan to, or will soon be, adopting Academy Standards Board (ASB) Standards, Best Practice Recommendations, and Technical Notes.

W10 Inference From Evidence in Forensic Science and Pathology: Turning Something That Has Been Wrong Into Something Right

Monday, February 21, 2022 1:00 p.m. - 5:00 p.m. 3.0 CE Hours

Learning Overview: After attending this workshop, attendees will learn which forms of inference—the reasoning involved in drawing conclusions from evidence—are highly reliable for truth and which forms are highly unreliable. Attendees will also learn how to apply proper inference to their forensic casework.

Impact Statement: This workshop will impact the forensic science community by revealing how demonstrably incorrect ways of inferring from evidence have led to numerous injustices from false accusations and incarcerations. This workshop will also disclose a reliable way to infer that is both scientifically and logically valid.

Program Description: This workshop will question if there a way for forensic scientists and pathologists to truthfully offer opinions from the witness stand made "to a reasonable degree of medical/scientific certainty." Is there a way to put the "science" back into forensic science and pathology? Is there a way for forensic pathologists and scientists to offer opinions that are reliably truthful and helpful to triers of fact in a courtroom?

Chair: Co-Chair:

Thomas W. Young, MD Ljubisa J. Dragovic, MD

W11 Successful Strategies for the Accreditation of Crime Scene Units

Monday, February 21, 2022 1:00 p.m. – 5:00 p.m. 3.5 CE Hours

Learning Overview: Attendees will learn about the planning process for the accreditation of crime scene processes.

Impact Statement: In 2009, the National Academies of Sciences (NAS) issues their landmark Report, Strengthening Forensic Science in the United States: A Path Forward. The Report recommended the accreditation of forensic laboratories and rightfully identified crime scene investigation as part of the forensic science community. However, since the publication of the Report, the accreditation of crime scene units globally has not kept pace with other disciplines. This presentation aims to reduce the perceived barriers that may stop an agency from pursuing accreditation of crime scene investigation processes, resulting in an increasing number of accreditations in this area, and thus improving the quality of forensic science at a systemic level.

Program Description: The presentation will cover unique challenges to accreditation of these activities and how specific International Organization for Standardization (ISO) standards can be satisfied in a crime scene context. Attendees will hear lessons learned from agencies with accredited crime scene units as well as the benefits that have been realized.

W12 Forensic Postmortem Radiology: Crossing the Border Between Radiology and Pathology

Tuesday, February 22, 2022

8:30 a.m. - 5:00 p.m.

6.5 CE Hours

Learning Overview: After attending this workshop, attendees will: (1) have learned the basics of how to get started in the field of forensic radiology; (2) understand the current state of the art and levels of evidence in forensic radiology; (3) have learned about applications to assist forensic pathologists and practitioners in medical death investigation; and 4) will be aware of potential resources available to interested practitioners.

Impact Statement: This presentation will impact the forensic science community by providing attendees with expertise from around the world on the use of best practices and the evidence base of forensic postmortem radiology.

Program Description: This workshop will demonstrate how to start a program, give an overview of the current state of forensic imaging in the world, and inform attendees how future technologies may impact the field of forensics.

Pre-Registration Required-\$200 (in person and virtual)

W14 Interdisciplinary Approaches to Age Estimation

Tuesday, February 22, 2022

8:30 a.m. - 5:00 p.m.

6.25 CE Hours

Learning Overview: After attending this workshop, attendees will have a heightened understanding of: (1) age-at-death assessments as well as age assessment of the living from the anthropological and odontological point-of-view; (2) application of alternative techniques, based on the biochemical fundamentals of aging, to improving age estimates; and (3) age assessment implications in humanitarian contexts.

Impact Statement: This workshop will impact the forensic science community through the presentation of interdisciplinary approaches toward improving age assessments, encouraging collaboration and innovation among different forensic specialties. This workshop will further highlight the importance of age estimation in various contexts, including humanitarian applications.

Program Description: This workshop will demonstrate how the awareness of the problems faced with regard to age assessment, out-of-the-box thinking, the application of new and interdisciplinary techniques, and promoting collaborations among different forensic specialties, such as anthropology, odontology, and criminalistics, are essential to improve age estimates, and as a result, the identification of the victim. Thus, this workshop will provide a step toward finding solutions to these challenges by improving the knowledge on the most state-of-the-art techniques available to forensic scientists.

W15 Unlocking the Truth: The Impact of DNA Testing and Legal Strategies in Post-Conviction Cases

Tuesday, February 22, 2022

8:30 a.m. - 5:00 p.m.

6.75 CE Hours

Learning Overview: Over the past 30 years, advancements in the field of forensic science have greatly impacted the criminal justice system. Advances in DNA testing and the development of new technology have led to an increase in exonerations of those wrongfully convicted.

Impact Statement: Attendees, armed with the knowledge of how best to efficiently and cost effectively process post-conviction cases, will be able to watch clips from a documentary to further inspire them to perform post-conviction DNA testing in their laboratories and form integrity units in their district attorney offices. This workshop will motivate those attending to realize that we can all participate in the quest for justice and, in the words of Dr. Rubin Carter, "to live in a world where truth matters and justice, however late, really happens, that world would be heaven for us all."

Program Description: This workshop will explore the issues that are faced by those wrongfully convicted and will also explore how the use of modern DNA testing and legal strategies can be used to assist cases for review of innocence. This will be highlighted by examining the almost-30-year fight for justice of a wrongfully convicted man.

W15 Unlocking the Truth: The Impact of DNA Testing and Legal Strategies in Post-Conviction Cases

Program:	
8:30 a.m. – 8:45 a.m.	Introduction to Workshop Lisa A. Mertz, MS; Krista Currie, MS; Andrew J. Schweighardt, PhD
8:45 a.m. – 9:30 a.m.	David's Story David McCallum
9:30 a.m. – 9:45 a.m.	David Meets Rubin Carter and Ken Klonsky David McCallum; Ken Klonsky
9:45 a.m. – 10:00 a.m.	Big Brother/Little Brother David McCallum; Ray Klonsky
10:00 a.m. – 10:15 a.m.	BREAK
10:15 a.m. – 11:00 a.m.	David's Case and the Fight for Justice Oscar Michelen, JD; Ken Klonsky; David McCallum
11:00 a.m. – 11:30 a.m.	Fight For Justice: David and Me Ray Klonsky; Ken Klonsky
11:30 a.m. – 12:15 p.m.	Innocence International and Continuing Dr. Carter's Legacy Ken Klonsky
12:15 p.m. – 1:15 p.m.	BREAK
1:15 p.m. – 2:30 p.m.	DNA Technology: Bridging the Gap to Justice Lisa A. Mertz, MS; Krista Currie, MS
2:30 p.m. – 3:15 p.m.	Wrongful Convictions and the Role of Forensics in Post-Conviction Litigation Janis C. Puracal, JD
3:15 p.m. – 3:30 p.m.	BREAK
3:30 p.m. – 4:45 p.m.	Prosecutor-Initiated Resentencing: The Science of Redemption Jeff Reisig, JD; Hillary Blout, JD
4:45 p.m. – 5:00 p.m.	QUESTIONS & ANSWERS All Presenters

Pre-Registration Required-\$200 (in person and virtual)

W16 The Neurobiology and Toxicology of Aggression

Tuesday, February 22, 2022

8:30 a.m. - 5:15 p.m.

7.0 CE Hours

Learning Overview: This workshop examines the nature and origin of aggression and the modulating effect of various drugs.

Impact Statement: This presentation will demonstrate how impulsive and premeditated aggression in humans is understood from neurocircuitry and neuroimaging studies, Central Nervous System (CNS) neurotransmitter involvement, and electrophysiology including the P3, an Event-Related Potential (ERP) component elicited in the process of decision making that varies from person to person.

Program Description: The unpredictable nature of alcohol-mediated aggression will be highlighted by the case of a young man who murdered a man he did not know in a local park in front of witnesses and later professed to have no recollection of the events and suffered a total alcoholic blackout.

W17 Forensic Examination and Evaluation of the Fine and Subtle Elements of Signatures and Handwriting

Tuesday, February 22, 2022 8:30 a.m. – 5:00 p.m. 7.0 CE Hours

Learning Overview: This workshop will increase forensic document examiners' knowledge regarding the fine and subtle elements of signatures.

Impact Statement: This workshop will impact forensic document examiners by increasing the accuracy and reliability of their opinions in signature and handwriting examinations.

Program Description: This workshop will begin with a lecture session reviewing the research data regarding genuine, disguised (auto simulated), and simulated signatures. Attendees will then be given practical problems to the hands-on session. Attendees will be asked to present their results (in groups), and give reasons for their opinions. The workshop presenters will then go into the fine and subtle details of the signatures in the problems to illustrate and explain how these details can be observed and evaluated.

Targeted Audience: Questioned Documents Knowledge Level Required: Basic Expected Handout Length: 50 pages

Pre-Registration Required-\$100 (in person only)

W18

An Advanced Bloodstain Pattern Analysis Hands-On Workshop With an Accompanying Principles of Bloodstain Patterns Lecture

Tuesday, February 22, 2022

8:30 a.m. - 11:30 a.m.

3.0 CE Hours

Learning Overview: After attending this workshop, attendees will have an increased understanding of bloodstain patterns, their relevance to crime scene reconstruction, the determination of events that occurred, and potential charges that could be issued.

Impact Statement: This workshop and the accompanying lecture will expand the understanding of lab and scene personnel who have not have previous bloodstain pattern analysis classes.

Program Description: This workshop is a hands-on opportunity for attendees to become involved in re-enactments of multiple, fresh, bloody crime scenes without the worry of contaminating themselves or their clothing. Attendees will experience the "real thing," be required to collect data, evaluate the scenes and statements of witnesses, determine the action resulting in the blood-letting events, determine potential classification of events, and conclude how these finding relate to subsequent criminal charges. This opportunity is closely followed by the Bloodstain Pattern analysis lecture, which, by its conclusion, will reveal the actions and events studied in the session workshop.

Chair:

Lawrence L. Renner, MASanta Fe Police Department (Retired)
Santa Fe, NM

Program:

8:30 a.m. – 10:00 a.m. Hands-On Bloodstain Scene Experience

Lawrence L. Renner, MA

10:00 a.m. – 11:30 a.m. Bloodstain Pattern Analysis Lecture

Lawrence L. Renner, MA

Targeted Audience: General; Jurisprudence; Psychiatry & Behavioral Science

Knowledge Level Required: Intermediate (some knowledge of subject presented)

Expected Handout Length: 1 page

Pre-Registration Required-\$125 (in person and virtual)

W19 Silent Disasters: Establishing and Operationalizing New Technologies for Missing Persons Programs

Tuesday, February 22, 2022

8:30 a.m. - 12:30 p.m.

3.75 CE Hours

Learning Overview: After attending this presentation, attendees will be more familiar with the established and emerging science, law, and ethics surrounding the use of emergent DNA technologies to bring justice and closure in the wake of genocide, armed conflict, and other humanitarian crises. This includes, but is not limited to, mitochondrial DNA, autosomal Single Nucleotide Polymorphisms (SNPs), and other non-traditional markers.

Impact Statement: This workshop will showcase innovative strategies and governance considerations for implementing missing persons programs and inform laboratories and organizations to scale these programs effectively.

Program Description: This workshop explores the intersection of science, criminal justice, and peace building. Experts from academia, policy specialists, forensic practitioners, social and forensic anthropologists, and genetic genealogy data analysts will review established and emerging methods to reconnect victims to families to provide attendees with a blueprint to operationalize an end-to-end small-scale, large-scale, or national program for the identification of unidentified human remains.

W20 Novel Synthetic Opioids (NSO) in a Post-Fentanyl Analog Environment

Tuesday, February 22, 2022

1:00 p.m. - 5:00 p.m.

3.5 CE Hours

Learning Overview: After attending this workshop, participants will have a better understanding of how core-structure scheduling for fentanyl analogs and related drug policy actions have shifted the NSO landscape, what the new drugs on the markets are, and what challenges they pose to the scientific community.

Impact Statement: The presentations in this workshop will impact the forensic science community by providing an update covering the latest generation of NSO, providing comprehensive pharmacological and analytical characterization, drug chemistry and toxicology workflows, and case histories.

Program Description: A new generation of NSO emerged after domestic class-wide scheduling of fentanyl-related substances in February of 2018 by the United States Drug Enforcement Administration followed by Chinese legislation that controlled two popular fentanyl precursor chemicals, NPP and 4-ANPP. These actions saw fentanyl analog positivity decreased for the most part; however, there was a subsequent shift to new varieties of opioid receptor agonists. This workshop will begin with a timeline of events, NSO trends, and an introduction of the tools and workflows that have proven effective in the quick identification of these new substances. Further, these novel opioids will be characterized, including discussions about development of standardized nomenclature and naming conventions, in vitro and in vivo studies, and postmortem cases that showcase the impacts posed by these substances.

W21 The Forgotten Ones: Post-Traumatic Stress Disorder (PTSD) in First Responders

Tuesday, February 22, 2022

1:00 p.m. - 5:00 p.m.

3.75 CE Hours

Learning Overview: The goal of this presentation is to discuss various experiences of first responders from Emergency Medical Services (EMS), police, crime scene investigators, physicians, and others, in addition to different agency and regional responses to PTSD and processing of PTSD and grief. Symptoms experienced in these groups and how chronic exposure to trauma and vicarious trauma affect responders' mental health will be identified. This workshop will include small group discussion and larger collaboration of ways to prevent and recognize PTSD in one's home agency.

Impact Statement: This presentation will impact the forensic sciences community by addressing a serious aspect of mental health and responder well-being by discussing vicarious trauma, ways to recognize symptoms, and resources available for treatment.

Program Description: This workshop is designed to help the forensic sciences community understand the serious implications of the current mental health crisis affecting first responders. Understanding how PTSD is affecting first responders may also help address the need to research the forensic science community's potential risk. The forensic science community is not immune to the effects of PTSD and should also investigate how PTSD could be affecting the members of the forensic science community.

HUMANITARIAN AND HUMAN RIGHTS RESOURCE CENTER

Poster Session

The Humanitarian and Human Rights Resource Center (HHRRC) of the American Academy of Forensic Sciences (AAFS), with support from the National Institute of Justice's Forensic Technology Center of Excellence, provides needed resources and support to apply modern forensic science to global humanitarian and human rights projects. This Humanitarian and Human Rights Poster Session is a virtual open meeting where attendees can learn about the application of forensic science to investigate humanitarian and human rights injustices. Information will be available at www.forensicCOE.org.

NATIONAL INSTITUTE OF JUSTICE

Forensic Science Research and Development (R&D) Symposium

The National Institute of Justice (NIJ) Forensic Science R&D Symposium is an open meeting where attendees can learn about NIJ-funded research across a variety of forensic science areas. The 2022 NIJ R&D Symposium will be held March 1-2, 2022, and will be 100% virtual event. Feel free to log on and browse posters, listen to specific presentations, or attend both days and learn about the diverse NIJ forensic science R&D portfolio. NIJ will also feature a poster session again this year highlighting recent research. The poster session will start February 28, 2022, at Noon (EST) and remain open for viewing through March 2, 2022.

You can register, find all presentations, and additional information at https://forensiccoe.org/2022-nij-forensic-science-rd-symposium/.

Tuesday, March 1, 2022

10:00 a.m. - 5:50 p.m. (Eastern Standard Time)

TRACK 1

Session I – Impression and Pattern Evidence/Trace Evidence

Moderated by NIJ Program Manager Gregory Dutton

10:00 a.m	10:05 a.m.	Welcome and Opening Remarks Gregory Dutton, National Institute of Justice
10:05 a.m	10:30 a.m.	Validating Conclusion Scales in the Forensic Sciences Thomas Busey, Indiana University
10:30 a.m	10:55 a.m.	Assessing Error Rates in Multiple Examiner Groups Using Regression Methods Larry Tang, University of Central Florida
10:55 a.m	11:20 a.m.	Evaluating the Spatial Distribution of Randomly Acquired Characteristics on Outsoles <i>Jacqueline Speir, West Virginia University</i>
11:20 a.m	11:35 a.m.	Q&A
11:35 a.m	11:45 a.m.	Break
11:45 a.m	12:10 p.m.	Advancing Reporting of Significance from the Analysis and Comparison of Glass Evidence: A Global Collaboration Jose Almirall, Florida International University
12:10 p.m	12:35 p.m.	Attenuated Total Reflection Infrared Microscopic Analysis of Simulated Automotive Paint Smears for Vehicle-Vehicle Collisions Barry K. Lavine, Oklahoma State University
12:35 p.m	1:00 p.m.	Analysis of Small Particles Adhering to the Edges of Duct Tape as a Means to Make Associations in a Way that is Independent of Manufactured Characteristics David A. Stoney, Stoney Forensic, Inc.
1:00 p.m	1:15 p.m.	Q&A

Session II – Seized Drugs and Toxicology Moderated by NIJ Program Manager Frances Scott

2:15 p.m	2:20 p.m.	Welcome and Opening Remarks Frances Scott, National Institute of Justice
2:20 p.m	2:40 p.m.	Development of an Isotope Dilution Gas Chromatography-Mass Spectrometry Method for the Determination of THC in Seized Cannabis Samples Walter Brent Wilson, National Institute of Standards and Technology
2:40 p.m	3:00 p.m.	Development of a Validated UHPLC-DAD Method With Optional ESI/TOFMS Detection for Rapid Quantification of D9-THC and D9-THCA-A Among Sixteen Cannabinoids in Hemp Concentrates Liguo Song, Western Illinois University
3:00 p.m	3:20 p.m.	Quantitative Analysis of Δ9-Tetrahydrocannabinol (THC) in the Presence of THC Isomers in Biological Specimens Using Liquid Chromatography Tandem Mass Spectrometry Rebecca Wagner, Virginia Department of Forensic Science
3:20 p.m	3:40 p.m.	Development of a Hemoglobin Modification Assay for Retrospective Detection of Drug Exposure Anthony P. DeCaprio, Florida International University
3:40 p.m	4:00 p.m.	Q&A
4:00 p.m	4:10 p.m.	Break
4:10 p.m	4:30 p.m.	Evaluation of the NIST/NIJ DART-MS Data Interpretation Tool for Seized Drug Analysis <i>Edward Sisco, National Institute of Standards and Technology</i>
4:30 p.m	4:50 p.m.	Fusion of DART-HRMS-Derived Dark Matter and Infrared Spectroscopy for the Identification of New Psychoactive Substances Rabi Ann Musah, State University of New York at Albany
4:50 p.m	5:10 p.m.	Expert Algorithm for Substance Identification (EASI) From Mass Spectra Glen P. Jackson, West Virginia University
5:10 p.m	5:30 p.m.	NPS Discovery Toolkits: Real-Time Identification and Dissemination of Information Regarding Novel Psychoactive Substances (NPS) Sara E. Walton, Center for Forensic Science Research and Education
5:30 p.m	5:50 p.m.	Q&A

Wednesday, March 2, 2022

10:00 a.m. - 5:00 p.m. (Eastern Standard Time)

TRACK 2

Session III - Forensic Biology/DNA

Moderated by NIJ Program Manager Tracey Johnson

10:00 a.m.	-	10:05 a.m.	Welcome and Opening Remarks Tracey Johnson, National Institute of Justice
10:05 a.m.	-	10:25 a.m.	Verification and Evaluation of a miRNA Panel for Body Fluid Identification Using DNA Extracts Sarah Seashols-Williams, Virginia Commonwealth University
10:25 a.m.	-	10:45 a.m.	Evaluation of Precision ID GlobalFiler™ NGS STR Panel Elisa Wurmbach, City of New York
10:45 a.m.	-	11:05 a.m.	Variation in Laboratory Policies and Procedures Related to Interpretation of DNA Mixtures Austin Hicklin, Noblis, Inc.
11:05 a.m.	-	11:20 a.m.	Q&A
11:20 a.m.	-	11:35 a.m.	Break
11:35 a.m.	-	11:55 a.m.	Interpretation of Y Chromosome STRs for Missing Persons Cases Jianye Ge, University of North Texas Health Science Center at Fort Worth
11:55 a.m.	-	12:15 p.m.	Assessment of Sexual Assault Kit (SAK) Evidence Selection Leading to Development of SAK Evidence Machine-Learning Model (SAK-ML Model) Julie L. Valentine, Utah Department of Public Safety
12:15 p.m.	-	12:35 p.m.	Interpretation of Y-STR Evidence Bruce Weir, University of Washington
12:35 p.m.	-	12:50 p.m.	Q&A
12:50 p.m.	-	2:10 p.m.	Break
			Session IV – Forensic Anthropology and Forensic Pathology Moderated by NIJ Program Manager Danielle McLeod-Henning
2:10 p.m.	-	2:15 p.m.	
2:10 p.m. 2:15 p.m.	-		Moderated by NIJ Program Manager Danielle McLeod-Henning Welcome and Opening Remarks
·	-	2:15 p.m.	Moderated by NIJ Program Manager Danielle McLeod-Henning Welcome and Opening Remarks Danielle McLeod-Henning, National Institute of Justice Discovering Clandestine Human Remains Using Unmanned Aerial System Based Remote Sensing
2:15 p.m.	-	2:15 p.m. 2:35 p.m.	Moderated by NIJ Program Manager Danielle McLeod-Henning Welcome and Opening Remarks Danielle McLeod-Henning, National Institute of Justice Discovering Clandestine Human Remains Using Unmanned Aerial System Based Remote Sensing Daniel Wescott, Texas State University Microbial Clocks of Human Decomposition Accurately Estimate Postmortem Interval
2:15 p.m. 2:35 p.m.	-	2:15 p.m. 2:35 p.m. 2:55 p.m.	Welcome and Opening Remarks Danielle McLeod-Henning, National Institute of Justice Discovering Clandestine Human Remains Using Unmanned Aerial System Based Remote Sensing Daniel Wescott, Texas State University Microbial Clocks of Human Decomposition Accurately Estimate Postmortem Interval Zachary M. Burcham, Colorado State University Progress Towards the Development of a Database of Chemical Fingerprint Signatures for Species Identification of Necrophagous Insects

Poster Session

Monday, February 28, 2022

12:00 p.m. - 5:00 p.m. (EST)

Tuesday, March 1, 2022

10:00 a.m. - 6:00 p.m. (EST)

Wednesday, March 2, 2022

10:00 a.m. - 6:00 p.m. (EST)

1. FileTSAR+: An Elastic Network Forensic Toolkit

Kathryn Seigfried-Spellar, Purdue University

2. Development of the Forensic Anthropology Skeletal Trauma (FAST) Database

Angela L. Harden, Ohio State University

3. Shape Atlas and Bone Structure Analysis for Body Mass Estimation: Workflow and Potential

Adam D. Sylvester, Texas State Univeristy

4. Software Tool and Methodology Supporting Post-mortem Iris Recognition

Adam Czajka, University of Notre Dame Du Lac

5. GIS Application for Building a Nationally Representative Forensic Taphonomy Database

Katherine Weisensee, Clemson University

6. Optimization of Forensic Hair Analysis Methods Using Statistical Design of Experiments (DoE)

Brianna Spear, Florida International University

7. Building the Chemical Foundation Necessary for a Reliable Cannabis Breathalyzer

Tara M. Lovestead, National Institute of Standards and Technology

8. Methods of Associating Forensic Examiner Performance with Experience, Training, and Other Background Attributes

Nicole Richetelli, Noblis

9. Black Box Evaluation of Bloodstain Pattern Analysis Conclusions

Austin Hicklin, Noblis

10. Kendrick Mass Defect Plots: Guided Selection of Compounds for Fingerprint Aging Models

Andrew Paulson, Iowa State University

11. Reaction Kinetics in Fingerprint Aging Studied by Laser Desorption/Ionization Mass Spectrometry

Daphne R. Patten, Iowa State University

12. Quantitative Matching of Forensic Evidence Fragments Utilizing 3D Microscopy Analysis of Fracture Surface Replicas

Ashraf F. Bastawros, Iowa State University

13. On-Site Noninvasive Sensing of Illicit Compounds

Jan Halamek, Texas Tech University

14. Analyzing Bloodstains on Different Textiles: Implications for Retrieving Airborne Drop Volume, Impact Speed,

and Angle of Impact

Tiegang Fang, North Carolina State University

15. Expanding the Use of 3D Surface Topography Analysis in Firearm Forensics

Ryan Lilien, Cadre Research Labs

- **16.** Audio Foresic Analysis From Unsynchronized User Generated Audio Recordings Robert C. Maher, Montana State University
- 17. When Bloodstain Eccentricity Depends on More Than the Impact Incidence Angle Garam Lee, Boston University
- Study of the Reliability of Fire Pattern Indicators Used in Wildland Fire Investigation
 Juan Cuevas, Worcester Polytechnic Institute
- **19.** Experimental and numerical investigation of gypsum calcination when exposed to uniform heat flux Shijin P. Kozhumal, Eastern Kentucky University

Courtney Cruse, Indiana University Purdue University Indianapolis (IUPUI)

- 21. A Novel Approach for Detection and Identification of Gunshot Residue Based on Laser Spectroscopy Igor K. Lednev, State University of New York at Albany
- 22. Comparison of Weathering Profiles of Ignitable Liquids by Gas Chromatography-Mass Spectrometry and Direct Analysis in Real-Time Mass Spectrometry

Mengliang (Mike) Zhang, Middle Tennessee State University

23. Post-Blast Explosives Attribution

Paul Ippoliti, MIT Lincoln Laboratory

24. Extraction of Ignitable Liquid Residues by Dynamic Capillary Headspace Sampling and Comparison to the Carbon Strip Method

Kavita M. Jeerage, National Institute of Standards and Technology

25. A Universal Method for the Identification of Body Fluid Traces Using Raman Spectroscopy: Moving Towards a Practical Forensic Application

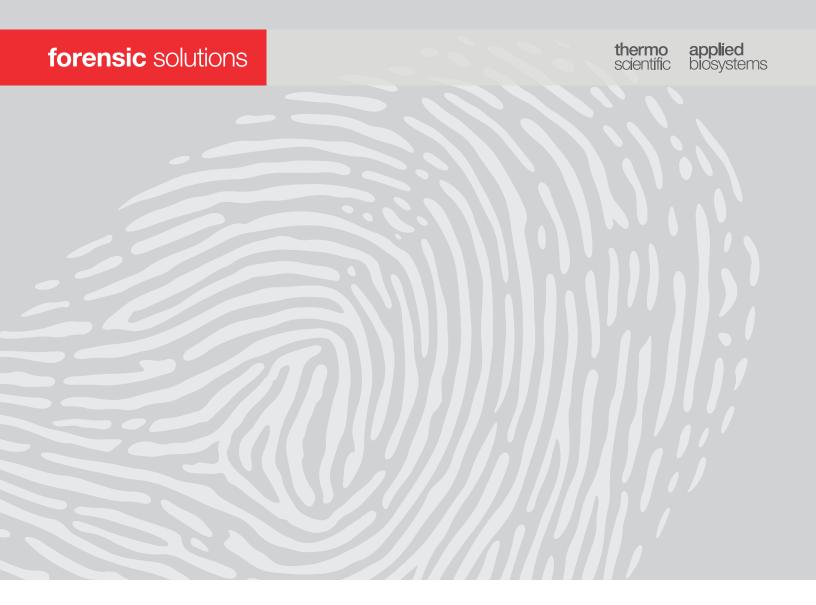

Igor Lednev, Research Foundation for the State University of New York

26. Extended Extension PCR: A Simple Technique for Improved Amplification of Aged, Degraded, and Low Copy Number DNA Samples Compromised by PCR Inhibitors

Mary Faith C. Flores, University of Oklahoma

27. The Development of Epigenetic Markers for Body Fluid Analysis and Phenotype Bruce McCord, Florida International University

- 28. Developing Multiplex Microhaplotype Sequencing for Mixture Detection and Deconvolution Kenneth K. Kidd, Yale University
- 29. Exploration of RNA Degradation in Dried Body Fluid Stains as a Means of Estimating the Age of the Samples Robert W. Allen, Oklahoma State University
- **30.** Comparison of GlobalFiler™ and PowerPlex® Fusion 6C for Direct PCR Amplification of Touch DNA Samples Anna Salmonsen, Bode Cellmark Forensics, Inc.

Discover solutions to help advance your forensic laboratory's success

Learn how we're listening to your challenges and providing answers to help you uncover the truth

From forensic toxicology testing with Thermo Scientific^{\top} products to human identification testing with Applied Biosystems^{\top} products, we're transforming the way forensic scientists work.

BRING YOUR OWN SLIDES (PowerPoint ®) BYOS.ppt

Wednesday Evening: 8:00 p.m. - 10:00 p.m.

In order to keep BYOS.ppt informal, fun, and informative for the large and diverse audience, here are a few things to keep in mind for the BYOS.ppt program at the 2022 AAFS Annual Conference in Seattle, WA:

- Presentations must be in PowerPoint® format. 35mm slides are not accepted.
- Proposals must be submitted on this form accompanied by a "6-slides-per-page" printout of the presentation and an electronic copy on CD or flash drive.
- BYOS is not intended as a forum to present scientific papers. It is designed as a means to present interesting information and/or unusual case(s) that
 may be educational and blended with humor.
- Speakers should plan on ten minutes in which to present their material.
- · Material being presented in other parts of the AAFS scientific program will not be accepted at BYOS.ppt.
- · Tables, charts, and graphs should be avoided, making every effort to use slides of scenes, bodily findings, and evidence.

This completed form, a "6-slides-per-page" printout, and the electronic presentation copy should be delivered to the on-site AAFS Registration Desk by 4:00 p.m. on Wednesday, February 23, 2022. Presentations will be selected and scheduled based on perceived interest to the audience and in the order in which the completed submissions are received. This form and required printout are needed to organize the BYOS.ppt program and to allow appropriate allocation of continuing education credit. A BYOS.ppt Program Form also will be placed in each registrant's meeting packet.

BYOS PROGRAM FORM

Name and Degree(s):					
Job Title:					
Place of Employment:					
AAFS Section Affiliation (if none, write "none"):					
The presentation is being offered primarily to: ☐ Solicit input/advice on a challenging case ☐ Present interesting information or case(s) for education purposes ☐ Entertainment					
Presentation is: ☐ A single case ☐ A series of cases with a common topic ☐ Multiple cases with unrelated topics ☐ Other (please specify):					
Briefly describe the material to be presented:					
What are the major points to be emphasized?:					
How will the attendees benefit from this presentation?:					
Is there commercial interest in the material being discussed?": □ No □ Yes (if yes, please describe):					
How much presentation time is required?: minutes How many PowerPoint* slides will be shown?:					
Presenter's local hotel: Room #: Phone #:					
U.S. Cell Phone: Email you can access while at the meeting:					
The BYOS agenda, scheduled presentation times, and continuing education credit hours will be posted near the BYOS meeting room.					
AAFS STAFF USE ONLY: Date Received: Time:

Wednesday

Poster Session

11:30 a.m. – 1:00 p.m.	A1	Pedagogical Access and Ethical Considerations in Forensic Anthropology and Bioarchaeology Micayla Spiros, MSc*; Amber Piemons, MA; Jack Biggs, BA	
11:30 a.m. – 1:00 p.m.	A2	A Virtual Anthropological Approach to Assessing the Similarity of Joint Surfaces With Applications for Sorting Commingled Human Remains Helen Brandt–Litavec, MS* (FSF Emerging Forensic Scientist Award Poster Presentation)	
11:30 a.m. – 1:00 p.m.	А3	The Segregation of Individuals From Large Commingled Assemblages Via Stable Isotope Re Analysis of Bone Collagen Mary Megyesi, PhD*; Gregory Berg, PhD; Lesley Chesson, MS	
11:30 a.m. – 1:00 p.m.	A4	Forensic Anthropology Casework at the Cook County, Illinois, Medical Examiner's Office, 2012–2020 Erin Waxenbaum, PhD*; Anne Grauer, PhD	
11:30 a.m. – 1:00 p.m.	A5	Myriad Maps and Applied Anthropology: Needs and Limitations Molly Miranker, MA	
11:30 a.m. – 1:00 p.m.	A6	Documenting Outdoor Simulated Scenes With Photogrammetry: Methods for Improving Dappled Lighting Conditions Caroline Jasiak, MA*; John Schultz, PhD; Morgan Ferrell, MA	
11:30 a.m. – 1:00 p.m.	A7	Tracing Academic Relatedness Via the Forensic Anthropology Phylogeny (FAP) Katharine Kolpan, PhD*	
11:30 a.m. – 1:00 p.m.	A8	Exploring Forensic Research Interests of a United States—Based Anthropology Faculty Rhian Dunn, MS*; Christopher Rainwater, MS; Nicholas Passalacqua, PhD	
11:30 a.m. – 1:00 p.m.	A9	Advances in Sorting Commingled Human Remains: A Preliminary Study Using the Subtalar Joint Ioanna Anastopoulou, PhD; Nikoletta Manta, MSc; Konstantinos Katsos, MD, PhD; Emmanouil Sakelliadis, MD, MSc, PhD; Konstantinos Moraitis, MSc, PhD*	
11:30 a.m. – 1:00 p.m.	A10	Calculating the Minimum Number of Individuals (MNI) and Most Likely Number of Individuals (MLNI) for a Commingled Fetal and Infant Remains Sample Ariana V. Agyemang, BS*; Helen Brandt–Litavec, MS; Elizabeth A. DiGangi, PhD	
11:30 a.m. – 1:00 p.m.	A11	We Take Care of Our Own: Utilizing the LGBT+ Accountability for Missing and Murdered Persons (LAMMP) Database Anthony Redgrave, MS*; Amy Michael, PhD; Jessica Veltstra, MS; Samantha Blatt, PhD; Mariyam Isa, PhD	
11:30 a.m. – 1:00 p.m.	A12	Applying a Biocultural Signature of Embodied Stress to Identify Latin American Migrants From a Cold Case Sample in South Florida Enrique Plasencia, BA*; Allysha Winburn, PhD	
11:30 a.m. – 1:00 p.m.	A13	OsteoID: A Freely Available Tool for Skeletal Species Identification Heather Garvin, PhD*; Rachel Dunn, PhD; Sabrina Sholts, PhD; M. Schuyler Litten, MA; Merna Mohamed, MSC; Nathan Kuttickat, BSc; Noah Skantz, BS, BA

11:30 a.m. – 1:00 p.m.	A14	Assessing Opioid Exposure and Opioid Overdose Deaths in Skeletal Casework Through Collaboration With Organ Procurement Organizations Janna Andronowski, PhD; Randi Depp, MS*		
11:30 a.m. – 1:00 p.m.	A15	Evaluating the Effect of Cocaine Use on Dorsum Sellae (DS) Demineralization Tanin Zadeh, MS*; Ellen Fricano, PhD; Vicki Wedel, PhD		
11:30 a.m. – 1:00 p.m.	A16	The Effects of Prolonged Opioid Exposure on Bone Fracture Strength of Rabbit Middle Ribs Reed Davis, MSc*; Mary Cole, PhD; Henry Astley, PhD; Janna Andronowski, PhD		
11:30 a.m. – 1:00 p.m.	A17	Understanding Skeletal and Body Donation in Forensic Anthropology: Development and Procedures Kerianne Armelli, MS*; Rhian Dunn, MS; Carolyn Isaac, PhD		
11:30 a.m. – 1:00 p.m.	A18	Modeling Grave Depressions Using Open–Source Light Detection And Ranging (LiDAR) Data at the Forensic Anthropology Research Facility Mariah Moe, MA*; Shelby Garza, MA; Nicholas Herrmann, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)		
11:30 a.m. – 1:00 p.m.	A19	WITHDRAWN		
11:30 a.m. – 1:00 p.m.	A20	A Robust Methodology for Stable Isotope Analysis of Human Tooth Enamel Francesca Spencer, BS, BA*; Kirsten Verostick, PhD; Alejandro Serna, PhD; Lesley Chesson, MS; Gregory Berg, PhD; Gabriel Bowen, PhD		
11:30 a.m. – 1:00 p.m.	A21	Repatriation and Responsibility: Consideration Beyond Traditional Constructs Rose Leach, MA*; Kerianne Armelli, MS		
11:30 a.m. – 1:00 p.m.	A22	A Morphometric Comparison of Eight Small Non–Human Species of Long Bones to Juvenile Human Long Bones for the Purpose of Identification in a Forensic Context Kaitlyn Schoonover, BS*; Luis Cabo, MS		
11:30 a.m. – 1:00 p.m.	A23	A Spatiotemporal Analysis of the National Missing and Unidentified Persons System (NamUs) Unidentified Person Cases Along the United States—Mexico Border Justin Z. Goldstein, MA*; Courtney Siegert, MA; Nicholas Herrmann, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)		
11:30 a.m. – 1:00 p.m.	A24	Developing a Tissue–Specific Multi–Isoscape (δ18O and 87Sr/86Sr) to Estimate Region of Origin Julianne Sarancha, MS*; Alexis Baide, MA; Clare Dittemore, BA; Thomas Delgado, BA; Gabriel Bowen, PhD		
11:30 a.m. – 1:00 p.m.	A25	Last Seen Location: Using Missing Persons Data for Identification in Forensic Anthropology Liam Johnson, MA*; Teresa Wilson, PhD		
11:30 a.m. – 1:00 p.m.	A26	Understanding the Spatial Relationships Between the National Missing and Unidentified Persons System (Namus) Unidentified and Missing Persons Cases in Texas Shelby L. Garza, MA*; Justin Z. Goldstein, MA

Thursday—Session II

Perspectives on the Management of Unidentified Human Remains Cases

Moderator: Kate Spradley, PhD Texas State University San Marcos, TX		Co-Moderator: Justin Goldstein, MA Texas State University Austin, TX
8:30 a.m. – 8:45 a.m.	A87	Expanding Lines of Evidence: Contextualizing Open Forensic Cases to Enhance Identification Efforts in Texas Molly Kaplan, MA*; Shelby Garza, MA; Jennifer Barron, MLitt; Michelle Hamilton, PhD
8:45 a.m. – 9:00 a.m.	A88	Addressing Informational Gaps in Family Reference Sample Practices for Transnational Missing Persons' Cases Diana Madden, MA; Zecilly Guzman, BS; Courtney C. Siegert, MS; Kate Spradley, PhD; Sara H. Katsanis, MS*; Annika Larson
9:00 a.m. – 9:15 a.m.	A89	Practitioner Attitudes Toward the Management of Unidentified Human Remains in the United States Jennifer E. Spence, PhD*; Courtney C. Siegert, MA; Petra Banks, MA; Devora Gleiber, MA; Justin Z. Goldstein, MA; Sophia Mavroudas, MA; Mariah Moe, MA; Emilie Wiedenmeyer, MA; Kate Spradley, PhD
9:15 a.m. – 9:30 a.m.	A90	State Policy Regarding the Treatment of Unidentified Human Remains and the Need for Scientific Advocacy Courtney C. Siegert MA*; Jennifer E. Spence, PhD; Petra Banks, MA; Mariah Moe, MA; Devora S. Gleiber, MA; Emilie Wiedenmeyer; Justin Z. Goldstein, MA; Sophia Mavroudas, MA; Kate Spradley, PhD
9:30 a.m. – 9:45 a.m.	A91	A Model for Multidisciplinary Identification Investigations in Medical Examiner and Coroner Offices: The New York City Office of Chief Medical Examiner (NYC OCME) Identification Review Committee Allison Sharplin, MA*
9:45 a.m. – 10:00 a.m.		BREAK

Forensic Anthropology Practiced Internationally

Moderator: Kyra Stull, PhD University of Nevada Reno, NV	Co-Moderator: Laney Feeser, MA SNA International Supporting the Defense POW/MIA Accounting Agency Omaha, NE
10:00 a.m. – 10:15 a.m. A92	An Introduction to the International Committee of the Red Cross (ICRC) Resolve Platform, a Web-Based Application for the Management of Information of Missing Persons and Human Remains Maria Mikellide, MA*; Mirjana Kobasica, MSc; Kristy Winter, MA; Matthew Vennemeyer, MA

Green = in-person only

10:15 a.m. – 10:30 a.m.	A93	An Overview of Recent Migrant Drowning Deaths in the Balkans Sherry Fox, PhD*
10:30 a.m. – 10:45 a.m.	A94	A Forensic Crisis in Mexico: Lessons Learned From International Cooperation Aurora Marcela Pérez–Flórez, MSc*; Maximilian Murck, MSc; María Fernanda Lazcano Campos, BSc
10:45 a.m. – 11:00 a.m.	A95	Forensic Anthropology in the United Kingdom: The Evolving Landscape and Professional Certification of the Discipline Julie Roberts, PhD*; Sarah Ellingham, PhD; Rachael Carew, PhD; Linda Ainscough, MSc
11:00 a.m. – 11:15 a.m.	A96	WITHDRAWN
11:15 a.m. – 11:30 a.m.	A97	WITHDRAWN
11:30 a.m. – 1:00 p.m.		BREAK

The Biological Profile and Human Identification

Moderator:		Co–Moderator:
Rebecca L. George, PhD		Ashley C. Smith, MSc
Western Carolina Univers	sity	University of Toronto
Cullowhee, NC		Toronto, Ontario Canada
1:00 p.m. – 1:15 p.m.	A98	Education and the Biological Profile: Survey Data on the Construction of the Biological Profile Ashley Smith, MSc*; Alexis Dzubak, MS; Alexandra Saly, MSc; Evonne Turner–Byfield, MS; Justin Maiers MS
1:15 p.m. – 1:30 p.m.	A99	Theoretical and Methodological Considerations of the Estimation of Osteological Sex Utilizing Fuzzy Rule–Based Inference Systems
		Katherine Lane, MA*; Donovan Adams, PhD
		(FSF Emerging Forensic Scientist Award Oral Presentation)
1:30 p.m. – 1:45 p.m.	A100	The Precision of Morphoscopic Traits for Sex and Ancestry Estimation From 3D Surface Scans of the Crania Sarah Schwing, MA*
1:45 p.m. – 2:00 p.m.	A101	An Evaluation of the Influence of Socio—Cultural Identity on the Morphology of the Mid—Face Among Black South African Groups for Forensic Implications Using 3D Surface Scanning Modality Alison F. Ridel, PhD*; Anna Oettlé, PhD; Ericka N. L'Abbé, PhD
2:00 p.m. – 2:15 p.m.	A102	Assessing the Validity of Palate Shape as an Indicator of Population Affinity Through the Use of Elliptical Fourier Analysis (EFA) Christopher Goden, MA*; Alice Gooding, PhD
2:15 p.m. – 2:30 p.m.	A103	A Survey of Ancestry Estimation Method Preferences and Utilization in Forensic Anthropology Marion Davidson, MSc*; Ruth Morgan, DPhil
2:30 p.m. – 2:45 p.m.	A104	A Pilot Study to Improve the Identification of Unknown American Indians and Hispanic/ Latinx Americans Heather Edgar, PhD*; Nicollette Appel, MS; Kate Spradley, PhD; Hannah Cantrell; Nichole Benally

Green = in-person only
Blue = virtual only
Black = in-person & virtual

2:45 p.m. – 3:00 p.m.	A105	Postmortem Radiological Computed Tomography (CT) Identification Based on Cranial Sutures Michal Peer, MSc*; Chen Kugel, MD; Haim Cohen, PhD
3:00 p.m. – 3:15 p.m.	A106	A Multifaceted Short Tandem Repeat (STR) and Next Generation Sequencing (NGS) Assessment of Burned Human Remains Using Comparative DNA Extraction and In–Solution Hybridization Capture Matthew Emery, PhD; Katelyn L. Bolhofner, PhD; Suhail Ghafoor; Amanda Wissler, MA; Erin Rawls; Stevie Winingear, MA; Robert F. Oldt, BS; Sreetharan Kanthaswamy, PhD; Jane E. Buikstra, PhD; Laura C. Fulginiti, PhD; Anne Stone, PhD*

3:15 p.m. – 3:30 p.m. **BREAK**

Queered Science: Interdisciplinary Approaches to Gender–Inclusive Research

Moderator: Amy Michael, PhD University of New Hamps Rochester, NH	hire	Co–Moderator: Samantha H. Blatt, PhD Idaho State University Pocatello, ID
3:30 p.m. – 3:45 p.m.	A107	Centering Gender–Inclusive Strategies in Forensic Anthropology Mariyam Isa, PhD*; Amy Michael, PhD; Samantha H. Blatt, PhD; Taylor Flaherty, MSc
3: 45 p.m. – 4:00 p.m.	A108	Disciplinary and Community Ethics Surrounding Gender– and Sex–Diverse Individuals in Forensic Casework Laura Cirillo, MA*; Marin Pilloud, PhD; Jaxson Haug, MA
4:00 p.m. – 4:15 p.m.	A109	Necropolitics and Trans Identities: Language Use as Structural Violence Thomas Delgado, BA*; Kinsey Stewart, MA
4:15 p.m. – 4:30 p.m.	A110	Identifying Transgender and Gender–Variant Individuals in Public Records: Reconciling Differences Between Law Enforcement Data and Non–Government Organizations (NGOs) Raphaela Meloro, MA*; Fatimah Bouderdaben, BS
4:30 p.m. – 4:45 p.m.	A111	Identifying Trans Individuals From Skeletal Remains: Indicators of Gender–Affirming Interventions Angelica Bourgeault, MSc*
4:45 p.m. – 5:00 p.m.	A112	Supporting the Positive Identification of Trans Men in Forensic Anthropological Contexts Jenna Schall, MSc*; Tracy Rogers, PhD; Jordan Deschamps–Braly, MD, FACS
5:00 p.m. – 5:15 p.m.	A113	When a Reanalysis Changes Everything: A Cold Case Study of a Possible Gender–Variant Individual Alexis Goots, MA*; Carolyn Isaac, PhD; Todd Fenton, PhD
5:15 p.m. – 5:30 p.m.		DISCUSSION

Friday—Session I

Pioneers of Color: A Diverse Narrative of Forensic Anthropology

Moderator: An–Di Yim, PhD Truman State University Kirksville, MO		Co-Moderator: Chaunesey M.J. Clemmons, MA Texas State University Austin, TX
8:30 a.m. – 8:45 a.m.	A114	A Diverse Past, Present, and Future: Resituating the Anthro in Forensic Anthropology Chaunesey M.J. Clemmons, MA*; Matt C. Go, PhD; Alba E. Craig, BA; Isis Dwyer, MA; Aaron J. Young, MA; Kamar Afra, MA
8:45 a.m. – 9:00 a.m.	A115	A Counter-Pantheon to Forensic Anthropology's Classic Luminaries Jesse R. Goliath, PhD*; Matthew C. Go, PhD; Allison Nesbitt, PhD; Aaron J. Young, MA; Sydney S. Garcia, MA
9:00 a.m. – 9:15 a.m.	A116	Back to Black: The Legacy and Contributions of Black Pioneers of the 20 th Century Isis Dwyer, MA*; Tisa N. Loewen, MA; Chaunesey M.J. Clemmons, MA; Evonne Turner—Byfield, MSc; Jesse R. Goliath, PhD; Allison Nesbitt, PhD; Carter Clinton, PhD; Kendra Isable, MA
9:15 a.m. – 9:30 a.m.	A117	Drawing Parallels: Black, Indigenous, and People Of Color (BIPOC) Representation in Other Medicolegal Fields An–Di Yim, PhD*; Jessica Juarez, PhD; Jesse Goliath, PhD; Isabel Melhado
9:30 a.m. – 9:45 a.m.	A118	Objectivity in the Historical Narrative of Forensic Anthropology Kamar Afra, MA*; Elaine Y. Chu, MA; Sydney S. Garcia, MA
9:45 a.m. – 10:00 a.m.	A119	Forensic Anthropology's Role in Activism and Advocacy Fatimah A. Bouderdaben, BS*; Ivanna Robledo, MA; Alba Craig, BA; SydneyS. Garcia, MA; Tanya Ramos, BA; Evonne Turner–Byfield, MSc
10:00 a.m. – 10:15 a.m.	A120	The (Colonial) Impacts of (Western) Forensic Anthropology in the International Sphere Nandar Yukyi, MA*; An–Di Yim, PhD; Matthew C. Go, PhD; Ivanna Robledo, MA
10:15 a.m. – 10:30 a.m.	A121	Homework for Modern Forensic Anthropologists Elaine Y. Chu, MA*; Nandar Yukyi MA; Matthew C. Go, PhD
10:30 a.m. – 11:00 a.m.		DISCUSSION

Poster Session

11:30 a.m. – 1:00 p.m.	A122	Quantification of the Mincer et al. Age Estimation Method Using Radiographs Bailey Oettel, MA*; Brittany Walter, PhD; William Belcher, PhD
11:30 a.m. – 1:00 p.m.	A123	Does Structural Violence Impact Forensic Anthropological Age Estimation? Investigating Skeletal Indicators of Biological "Weathering" in Modern United States Individuals Taylor Walkup, BA*; Allysha Winburn, PhD
11:30 a.m. – 1:00 p.m.	A124	The Combined Use of Craniometrics and Odontometrics to Estimate Parameters of the Biological Profile SaMoura L. Horsley*; Cassie Skipper, MA; Marin Pilloud, PhD
11:30 a.m. – 1:00 p.m.	A125	Validating the Use of Osteoarthritis as an Indicator of Age in Human Skeletal Remains Ariana Strasheim, BA*; Allysha P. Winburn, PhD; Michala Stock, PhD
11:30 a.m. – 1:00 p.m.	A126	An Evaluation of Palate Shape Scoring Systems Christopher Maier, PhD*
11:30 a.m. – 1:00 p.m.	A127	A Pilot Study Re–Examining the Hartnett Adult Age–at–Death Estimation Methods as Component Systems Amelia Konda, BA*; Sara Getz, PhD; Nicholas Passalacqua, PhD
11:30 a.m. – 1:00 p.m.	A128	Application of the forAGE Program to Pubic Symphyseal Surface in a Korean Population Hyun Jin Park, MSc*; Eun Jin Woo, PhD; Kyung—Seok Hu, DDS, PhD
11:30 a.m. – 1:00 p.m.	A129	Age Estimation From Sternebral Fusion in an Indian Population: A Computed Tomographic Evaluation Rutwik Shedge, MSc*; Tanuj Kanchan, MD; Pawan Garg, MD; Shilpi Dixit, MD; Varsha Warrier, MSc; Kewal Krishan, PhD*
11:30 a.m. – 1:00 p.m.	A130	Age Estimation Via Dry Bone Measurements: Evidence From Samples of Soldiers Exiled in Two Concentration Camps in Bari Mirko Leonardelli, PhD*; Valeria Santoro, PhD; Antonio De Donno, MD; Federica Mele, MD; Mariagrazia Calvano, MD; Enrica Macorano, MD; Stefano Duma, MD; Carmelinda Angrisani, MD; Sara Sablone, MD; Francesco Introna, MD
11:30 a.m. – 1:00 p.m.	A131	Developing Subadult Sex Estimation Standards Using Adult Morphological Sex Traits and an Ontogenetic Approach Stephanie Cole, MS*
11:30 a.m. – 1:00 p.m.	A132	Investigating Reproducibility of a Skeletal Age Estimation Method on Two Samples With Remarkably Different Demographic Profiles Elena Sierra–Serrano, MSc*; John Albanese, PhD; Hugo F.V. Cardoso, PhD
11:30 a.m. – 1:00 p.m.	A133	A Revised Method for Adult Age—at—Death Estimation From the Auricular Surface of the Ilium Krista Bennett, MA*; Sop hia Reck, MA; Teresa Wilson, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m. – 1:00 p.m.	A134	The Application of Computed Tomography (CT) –Rendered Images for the Evaluation of Traits Associated With Ancestry Estimation in Children Marianna Cervantes, MSc*; Hugo Cardoso, PhD

Green = in-person only
Blue = virtual only
Black = in-person & virtual
OR unknown

11:30 a.m. – 1:00 p.m.	A135	Geometric Morphometrics for Sex Estimation of the Scapula Savannah Holcombe, BSc*
11:30 a.m. – 1:00 p.m.	A136	The Impact of Sex and Population Affinity on the Dental Development of Subadult Individuals Carolynn Sauter, BS*; Kelly Kamnikar, MA; Joseph Hefner, PhD; Nicholas Herrmann, PhD; Jennifer Spence, PhD
11:30 a.m. – 1:00 p.m.	A137	The Correlation Between Spheno–Occipital Synchondrosis (SOS) Fusion and Pubertal Stage From Postmortem Computed Tomography (CT) Scans Francesca Dunn, MSc*; Jordan Wright, MA; Zia Coblentz, BS; Jonathan Bethard, PhD
11:30 a.m. – 1:00 p.m.	A138	A Comparison of Frontal Sinus Morphology Using Scout Radiographs and 3D Skull Images: Implications for Forensic Identification Methods Patricia Avent, BA*; Jessica Campbell, PhD; Heather Garvin PhD; Lauren Butaric, PhD
11:30 a.m. – 1:00 p.m.	A139	The Relationship Between Environmental Factors and Skeletal Metrics in Contemporary New Mexicans Chelsea Cataldo–Ramirez, MS*; Kerianne Armelli, MS; Jessica Yopak, MS
11:30 a.m. – 1:00 p.m.	A140	A Validation of Compatibility of the Median Sagittal Plane for 3D Metric Analysis of Facial Models: Cone Beam Computed Tomography (CBCT) and Multidetector Computed Tomography (MDCT) Dong-Ho Kim, BSc*; Eun-Ju Jung; Se-Hyun Oh; Won-Joon Lee, PhD; Sang-Seob Lee, PhD; Yi-Suk Kim, MD, PhD; U-Young Lee, MD, PhD
11:30 a.m. – 1:00 p.m.	A141	A Validation of the Utilization of Automatic Placement of Anatomical and Sliding Landmarks on 3D Models for Shape Analysis of Human Pelves Thandolwethu Mbonani, BSc*; Alieske Hagg, MSc; Ericka N. L'Abbé, PhD; Anna Oettlé, PhD; Alison Ridel, PhD
11:30 a.m. – 1:00 p.m.	A142	A Validation Test of the Total Difference Technique for Assessing the Frontal Sinus Jessica L. Campbell, PhD*; Lauren Butaric, PhD
11:30 a.m. – 1:00 p.m.	A143	The Precision of Standard Cranial Measurements in Dry Bones and Multi–Slice Computed Tomography (MSCT) Images: A Preliminary Study Ivan Jerković, MSc*; Tina Bareša; Elvira Krešić; Anita Adamić Hadžić; Željana Bašić; Krešimir Dolić; Marija Ćavar Borić; Danijela Budimir Mršić; Mislav Čavka; Mario Šlaus; Dragan Primorac. MD, PhD; Šimun Anđelinović; Ivana Kružić
11:30 a.m. – 1:00 p.m.	A144	Uncovering Identities: A Case Study on Using Maxillary Sinus Morphologies in Human Identification Teresa Runge, MSc; Joel D. Irish, PhD; Alicia Ventresca Miller, PhD; Matteo Borrini, PhD*
11:30 a.m. — 1:00 p.m.	A145	The Sociodemographic Composition of a Modern Juvenile Postmortem Computed Tomography (CT) Collection: Examining Trends in Body Size, Manner of Death, and Demographic Parameters Julia Meyers, MA*; Natalie Adolphi, PhD; Hugo Cardoso, PhD
11:30 a.m. – 1:00 p.m.	A146	The Application of 3D Models in Age-at-Death and Sex Estimation of the Pubic Symphyseal Face Anthony V. Lanfranchi, MS*; Luis L. Cabo, MS

Green = in-person only

Friday—Session II

Taphonomy and the Postmortem Interval

Moderator: Co-Moderator:

Kyle A. McCormick, PhD Michala K. Stock, PhD

Defense POW/MA Associating Agency Metapolitan State University

Defense POW/MIA Accounting Agency Metropolitan State University of Denver

Joint Base Pearl Harbor–Hickam, HI Denver, CO

8:45 a.m. - 9:00 a.m. A156 Toward a Model for Estimating Postmortem Interval (PMI) at High Altitude: Categorical

Macromorphoscopic Changes Observed Throughout the Trajectory of Human Decomposition

in the Colorado Rocky Mountains

Christiane Baigent, MSc*

9:00 a.m. - 9:15 a.m. A157 Modeling Scavenging Patterns Within the Willamette Valley of Oregon to Inform Search

Structure in Medicolegal Investigations

Cheyenne Collins, BS*; Jeanne McLaughlin, PhD; Ashley Kendell, PhD

9:15 a.m. - 9:30 a.m. A158 WITHDRAWN

9:30 a.m. - 9:45 a.m. A159 Testing the Efficacy of Bone Surface Swab Sampling of Microbial Colonization to Determine

Postmortem Submersion Interval (PMSI) in Lentic and Lotic Environments

Sarah Rose, BSc*; Hannah Johnson, MSc; Claire Cartozzo, PhD; Jenise Swali, PhD;

Tal Simmons, PhD; Baneshwar Singh, PhD

9:45 a.m. – 10:00 a.m. BREAK

Age-at-Death Estimation

Moderator: Co-Moderator: Kate M. Lesciotto, PhD Alex Wong, BA

Sam Houston State University University of Indianapolis

Conroe, TX Indianapolis, IN

10:00 a.m. – 10:15 a.m. **A160** Improving Age-at-Death Estimation in Forensic Anthropology Applying a Translational

Approach

Sara C. Zapico, PhD*; Quentin Gauthier, PhD; Aleksandra Antevska, BS; Bruce McCord, PhD

10:15 a.m. - 10:30 a.m. A161 Reference and Target Sample Age Distribution Effects in Juvenile Dental Age Estimation

Valerie Sgheiza, MA, MS*; Helen Liversidge, PhD

(FSF Emerging Forensic Scientist Award Oral Presentation)

10:30 a.m. – 10:45 a.m. A162 An Age-at-Death Estimation Using Cementochronology in Thermally Altered Teeth

Ryen Weaver, MS*; Anthony Falsetti, PhD; Timothy Gocha, PhD; Joseph DiZinno, DDS

(FSF Emerging Forensic Scientist Award Oral Presentation)

Jong In Kim, HBSc*; Tracy Rogers, PhD

Thermal Trauma & Burn Pattern Analysis

Moderator: Co-Moderator: Lindsay H. Trammel, PhD Elaine Chu, PhD

St. Louis County Office of the Medical Examiner University of Nevada-Reno

St. Louis, MO Reno, NV

2:15 p.m. - 2:30 p.m. A171 Post-Fire Modifications of Burned Human Remains

Elayne Pope, PhD*; Chelsey Juarez, PhD; Alison Galloway, PhD

2:30 p.m. - 2:45 p.m. A172 The Effects of Experimental Whole-Body Burning on the Cortical Bone Microstructure of

Ribs, Femora, and Metatarsals

Lauren A. Meckel, PhD*; Sophia Mavroudas, MA; Justin Goldstein, MA; Shelby Garza, MA;

Timothy Gocha, PhD

2:45 p.m. - 3:00 p.m. A173 Estimating Exposure Time From a Set of Burned Human Remains

Amanda Williams, PhD*

3:00 p.m. - 3:15 p.m. A174 3D Analysis of the Microstructure of Heated Bone to Aid in Species Differentiation

Hannah Cross, MS*; Charlene Greenwood, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)

3:15 p.m. - 3:30 p.m. A175 Do Bone Elasticity and Postmortem Interval Affect Forensic Fractographic Analyses of Bone?

Jessica Skinner, PhD*; Natalie Langley, PhD; Malin Joseph, MS;

Peter Goguen; Loukham Shyamsunder, PhD; Subramaniam Rajan, PhD

Trauma Analysis

Moderator:Co-Moderator:Diana L. Messer, PhDJordan Roberson

Western Carolina University University of Indianapolis

Cullowhee, NC Indianapolis, IN

3:30 p.m. – 3:45 p.m. A176 The Value of Antemortem Skeletal Data in Interpretation of Acute Trauma: Context, Timing,

Mechanism, and Likelihood Risk Assessment

Donna Boyd, PhD*

3: 45 p.m. - 4:00 p.m. A177 tRauma: A New Application for Aiding in Blunt Rib Trauma Interpretations

Cortney Hulse, MA*; Elaine Chu, MA; Kyra Stull, PhD

4:00 p.m. - 4:15 p.m. A178 The Frequency of Wedge Fractures in Experimental Bending of the Tibia

Angela Harden, PhD*; A. Yun–Seok Kang, PhD; Alexander Bendig, MS; John Bolte, PhD;

Carla Goldsmith; Amanda Agnew, PhD

4:15 p.m. - 4:30 p.m. A179 Correlation or Causation? Concealing the Victims and Survivors of Domestic Violence

Micki David, MS*; Heather Walsh–Haney, PhD; Erica Baer, PhD

4:30 p.m. - 4:45 p.m. A180 Indirect Gunshot Trauma to the Skeleton: A Meta-Analysis and Experimental View

Samantha Coberly, PhD*

Wednesday

Poster Session

11:30 a.m. – 1:00 p.m.	B1 B2	Development and Validation of the InnoXtract™ DNA Extraction Method for Bone and Teeth Samples Mah-Ro Khan, MS*; Hiromi Brown, PhD; Hailey Holt, BS; Joanne B. Sgueglia, BA; Sudhir K. Sinha, PhD
	B2	
11:30 a.m. – 1:00 p.m.		The Effects of Temperature and Precipitation on the Amount of Recoverable Human DNA From Soil During Decomposition Wesley Wagner*; Pamela L. Marshall, PhD
11:30 a.m. – 1:00 p.m.	В3	Extraction Efficiency Testing of Degraded Bone Samples: Comparing Two Extraction Methods for Use in Downstream Massively Parallel Sequencing (MPS) Applications Emily Deem, BS*; Katie Zejdlik, PhD; Tiffany Saul, PhD; Frankie West, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m. – 1:00 p.m.	B4	Evaluating the Effectiveness of Microbial DNA Extraction Kits for Intimate Samples Grace Rutledge, BS*; Aaron Lynne, PhD; Rachel Houston, PhD; Sheree Hughes, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m. – 1:00 p.m.	В5	The Development of a Fully Automated System Employing Parallel Processing for Highly Efficient Extraction and Purification of DNA From a Range of Challenging Samples Matthew Ludeman, PhD*; Angela Chen, MS; Leo Lai, BSc; Julio Mulero, PhD; William Hutchens, BSc; Kevin Miller, PhD
11:30 a.m. – 1:00 p.m.	В6	A Comparison of Five DNA Extraction Methods to Extract Genomic DNA From Human Body Fluid and Fly Artifact Samples Alexis Garloff*; Kelly Elkins, PhD; David Rivers, PhD
11:30 a.m. – 1:00 p.m.	В7	A Comparison of DNA Extraction Techniques for the Recovery of Bovine DNA From Maggot Crops Cesar Cantu, BS*; Sibyl Bucheli, PhD; Rachel Houston, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m. – 1:00 p.m.	B8	Magnetic Bead Capture of Sperm Cells by Sperm-Specific Antibodies Samantha Davis, MS*; Julia Wang, MS; Rachel Houston, PhD; Sheree Hughes, PhD; Brendan Chapman, BSc; Andrew Currie, PhD
11:30 a.m. – 1:00 p.m.	В9	DNA Methylation of Decedent Blood Samples to Estimate the Chronological Age of Human Remains Patrick Yew, MS*; Yessenia Anaya, MS*; Katherine Roberts, PhD; Winters Hardy, PhD
11:30 a.m. – 1:00 p.m.	B10	An Improved Method for the Analysis of Bisulfite Modified DNA Samples Deborah Silva, PhD*; Caitlin Lydon
11:30 a.m. – 1:00 p.m.	B11	The Use of a Mobile Fingerprint Identification Device in the Field and DNA Evidence: Benefits and Consequences Amber Wetherbee; Hope Hardman*; Nasir Butt, DPhil; Dawn Schilens, BS; Thomas Gilson, MD (FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m. – 1:00 p.m.	B12	Evaluating Different Collection Tools for Transfer DNA Deposited on Wooden Surfaces Antonia Atkinson, BS*; Alba Craig, BA; Krista Latham, PhD; Cynthia Cale, MS

Green = in-person only
Blue = virtual only
Black = in-person & virtual
OR unknown

11:30 a.m. – 1:00 p.m.	B13	Extraction Techniques to Increase DNA Recovery From Touch DNA Samples Ryan James Hinojosa, BS; Jillian Conte, PhD*; Lawrence Quarino, PhD; Janine Kishbaugh, MSFS
11:30 a.m. – 1:00 p.m.	B14	Modeling Assault From Touch DNA Jamie Fredericks, PhD; Michael Lane, PhD; Beighley Ayers*
11:30 a.m. – 1:00 p.m.	B15	The Persistence of Transfer DNA on Touched Objects Over Time Alba Craig, BA*; Krista Latham, PhD; Cynthia Cale, MS; Stephen Nawrocki, PhD
11:30 a.m. – 1:00 p.m.	B16	An Evaluation of Collection Methods for Direct Polymerase Chain Reaction (PCR) Amplification of Touch DNA Samples Anna Salmonsen, MFS*; Abigail Bathrick, MFS*; Jonathan Davoren, MS
11:30 a.m. – 1:00 p.m.	B17	A Combined Extraction of Protein and DNA From Touch Evidence on Ammunition Cartridge Cases Ashlee Lynch, BS*; Glendon Parker, PhD
11:30 a.m. – 1:00 p.m.	B18	Can Variations in DNA Profile Composition Collected From Different Areas of the Same Handgun Inform Future Sampling Strategies? Cynthia Cale, MS*; Jessica Miller, MS; Krista Latham, PhD; Erica Cantor, MS
11:30 a.m. – 1:00 p.m.	B19	The Quantification of Metal Ions Recovered During DNA Analysis of Brass Ammunition Using Inductively Coupled Plasma/Optical Emission Spectrometer (ICP/OES) Natalia Czado, MSFS*; Sheree Hughes, PhD
11:30 a.m. – 1:00 p.m.	B20	Validation of a Lateral-Flow Immunoassay Test for the Rapid Screening of Cocaine Samples Corey Nida, PhD*; Hunter Haddad, MS; Sandra Rodriguez-Cruz, PhD
11:30 a.m. – 1:00 p.m.	B21	The Extraction and Identification of Illicit Compounds From Baked Goods Using Paper Spray Ionization Tandem Mass Spectrometry Isabella Haberstock*
11:30 a.m. – 1:00 p.m.	B22	A Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS) Method Development and Validation for the Quantitation of Cannabinoids in Hemp and Marijuana Samples Andrea Yarberry, PhD*; Jerome Mulloor, MS; Melissa Phillips, PhD; Aaron Urbas, PhD; Walter Wilson, PhD
11:30 a.m. – 1:00 p.m.	B23	A Novel Approach for Quantitation of Total Tetrahydrocannabinol (THC) in Cannabis Plant Extracts by Isotope Dilution Gas Chromatography/Mass Spectrometry (GC/MS) Jerome Mullor, PhD; Melissa Phillips, PhD; Aaron Urbas, PhD; Walter Wilson, PhD*; Andrea Yarberry, PhD
11:30 a.m. – 1:00 p.m.	B24	The Classification of Cannabis Varieties Through Headspace Chemical Analysis and Transfer Learning Ting-Yu Huang*; Jorn Chi-Chung Yu, PhD
11:30 a.m. – 1:00 p.m.	B25	A Genetic and Chemical Characterization of the Cannabis Products Seized at the Croatian Cannabidiol (CBD) Stores Slavena Cukrov-Bezbradica, PhD*; Lucija Barbarić, PhD
11:30 a.m. – 1:00 p.m.	B26	The Effects of Degradative Stress on the Headspace Profile of Fentanyl Leann Forte, BS*; Stephanie Vaughan, PhD; Ashley Fulton, PhD; Lauryn DeGreeff, PhD; Howard K. Holness, PhD; Kenneth G. Furton, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)

Green = in-person only
Blue = virtual only
Black = in-person & virtual

11:30 a.m. – 1:00 p.m.	B27	Fentanyl Degradation in Syringes Obtained From Intravenous (IV) Drug Users in Washington, DC Shayla Montalvo, BA*; Alexandra Evans, MFS; Morgan Levitas, MFS; Luke Short, PhD
11:30 a.m. – 1:00 p.m.	B28	The Use of Novel Gas Chromatography/Mass Spectrometry (GC/MS) and Gas Chromatography/Infrared Spectroscopy (GC/IR) Libraries for the Differentiation of Positional Isomers of Fentanyl-Related Substances (FRS) Kimiko Ferguson, MSc*; Michael Gilbert, BS; Reta Newman, MA; Jose Almirall, PhD
11:30 a.m. – 1:00 p.m.	B29	The Application of Electrospun Polymers With Metallic Nanoparticles for Use in the Detection of Fentanyl by Surface-Enhanced Raman Spectroscopy (SERS) Daniel Rubin, BA*; Mario Vendrell-Dones, MS; Ling Wang, PhD; Bruce McCord, PhD
11:30 a.m. – 1:00 p.m.	B30	Identifying the Similarity Between In-Source Collision-Induced Dissociation (IS-CID) Fragment Ion Spectra and Tandem Mass Spectrometry (MS/MS) Product Ion Spectra for Seized Drug Identifications Jared Sharp, BS*; J. Tyler Davidson, PhD
		(FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m. – 1:00 p.m.	B31	Silver-Doped Nanofibers as Surface-Enhanced Raman Spectroscopy (SERS) Substrates for the Detection of Synthetic Cathinones Mario Vendrell-Dones, MS*; Daniel Rubin, BA; Ling Wang, PhD; Bruce McCord, PhD
11:30 a.m. – 1:00 p.m.	B32	The Extraction of Cannabidiol (CBD) From Gelatin Edibles With Analysis by Paper Spray Ionization-Mass Spectrometry (PSI-MS) Cheyenne Granger, BA*
11:30 a.m. – 1:00 p.m.	B33	The Quantitation of Cannabinoids in <i>Cannabis Sativa</i> L. Plants From Pakistan Using Gas Chromatography/Flame Ionization Detector (GC/FID) Tahir Jamshaid, MPhil*; Muhammad Chaudhary, MPhil; Muhammad Usman, MS; Zahid Mehmood, MPhil; Muhamamd Irfan Ashiq, PhD; Muhammad Tahir, PhD; Amina Iqbal
11:30 a.m. – 1:00 p.m.	B34	The Quantitation of Opium Alkaloids in Seized, Crushed, and Mowed Plant Material Muhammad Chaudhary, MPhil*; Tahir Jamshaid, MPhil; Muhammad Irfan Ashiq, PhD; Mohammad Tahir, PhD; Atiqa Asif, MPhil
11:30 a.m. – 1:00 p.m.	B35	The Use of Urine Rapid Response Fentanyl Test Strips to Detect Fentanyl in Seized Substances Lauren Bishop*
11:30 a.m. – 1:00 p.m.	B36	Continuous Vapor Sampling of Volatile Organic Compounds (VOCs) Associated With Explosives and Cocaine Using Capillary Microextraction of Volatiles (CMV) Jacqueline Rodriguez, MS*; Jose Almirall, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m. – 1:00 p.m.	B37	An Assessment of Robotic Solid Phase and Immunoaffinity Microextraction With Intact Mass Analysis for Saliva Identification in Forensic Samples Catherine Brown, PhD; Phillip Danielson, PhD; Kevin Legg, PhD*
11:30 a.m. – 1:00 p.m.	B38	The Separation of Natural and Synthetic Hallucinogenic Tryptamines Using High-Performance Liquid Chromatography-Photodiode Array (HPLC-PDA) and Ultra-High Performance Liquid Chromatography-Photodiode Array/Mass Spectrometry (UHPLC-PDA/QDa) Mia Fabbri, BS*; Marianne Staretz, PhD; Matthew Wood, PhD; Daniel Garrison, BS; Peter Harrsch, PhD; Thomas Brettell, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)

Thursday—Session I

Standards Development and What We Think

Moderator: Ashley Hall, PhD		Co-Moderator: Lucio Avellaneda, BS	
University of Illinois at Chicago Chicago, IL		Sam Houston State University Hunstsville, TX	
8:30 a.m. – 8:45 a.m.	B39	Community Resources and Updates From the Scientific Working Group for DNA Analysis Methods (SWGDAM) Next Generation Sequencing (NGS) Committee Katherine Gettings, PhD*	
8:45 a.m. – 9:00 a.m.	B40	Standards Development Activities in Human Forensic Biology Kristy Kadash, PhD*; Beth Ordeman, MS	
9:00 a.m. – 9:15 a.m.	B41	A Short Tandem Repeat (STR) Sequence Nomenclature Update From the Short Tandem Repeat: Align, Name, Define (STRAND) Working Group Katherine Gettings, PhD*; David Ballard, PhD; Martin Bodner, PhD; Jonathan King, MS; Walther Parson, PhD; Christopher Phillips	
9:15 a.m. – 9:30 a.m.	B42	An Evaluation of the Current Opinion of Next Generation Sequencing (NGS) Technology in Forensics Through a Global Survey Megan Foley, MSFS*; Fabio Oldoni, PhD	
9:30 a.m. – 9:45 a.m.	B43	American Forensic Practitioners' Opinions on Activity-Level DNA Reporting Yoon Yang MS; Mechthild Prinz, PhD; Heather McKiernan, PhD; Fabio Oldoni, PhD*	
9:45 a.m. – 10:00 a.m.		BREAK	

Forensic Biology at Human Decomposition Facilities

Moderator: Sheree R. Hughes, PhD		Co-Moderator: Emma M. Giacomello, BS
Sam Houston State University Huntsville, TX		Texas State University San Marcos, TX
10:00 a.m. – 10:15 a.m.	B44	Microbial Dynamics of Human Decomposition Accurately Estimate Postmortem Interval Zachary Burcham*; Aeriel Belk; Alexandra Emmons, PhD; Heather Deel, BS; Amina Bouslimani; Zhenjiang Xu, PhD; Qiyun Zhu; Sibyl Bucheli, PhD; Aaron Lynne, PhD; Melissa Connor, PhD; Dawnie Steadman, PhD; Giovanna Vidoli, PhD; Sasha Reed; Michael Shaffer; Kelly Wrighton; Parsa Ghadermazi; Joshua Chan; David Carter, PhD; Rob Knight, PhD; Jessica Metcalf, PhD
10:15 a.m. – 10:30 a.m.	B45	A Pilot Study of Microbial Succession in Human Rib Skeletal Remains During Terrestrial Decomposition Heather Deel, BS*; Alexandra Emmons, PhD; Jennifer Kiely, BS; Franklin Damann, PhD; David Carter, PhD; Aaron Lynne, PhD; Rob Knight, PhD; Zhenjiang Xu, PhD; Sibyl Bucheli, PhD; Jessica Metcalf, PhD
10:30 a.m. – 10:45 a.m.	B46	Forensic Microbiology of Human Cadavers in an Experimental Mass Grave Noemi Procopio, PhD*; Sarah Gino, MD; Onengiye Ogbanga, MSc; Timothy P. Gocha, PhD; Daniel J. Wescott, PhD; Hayley L. Mickleburgh, PhD

Green = in-person only

Black = in-person & virtual

OR unknown

10:45 a.m. – 11:00 a.m.	B47	Bone Fluorescence, Taphonomy, and the Postmortem Interval (PMI) Natalie Moss*; Alexander Smith; Melissa Connor, PhD
		(FSF Emerging Forensic Scientist Award Oral Presentation)
11:00 a.m. – 11:15 a.m.	B48	Bone "Soft" Maceration Procedures at Human Taphonomy Facilities: How "Soft" Are They Really?
		Noemi Procopio, PhD*; Luke William Gent, BS; Andrea Bonicelli, PhD
11:15 a.m. – 11:30 a.m.	B49	The Optimization of the InnoXtract™ Extraction and Purification System for DNA Extraction From Skeletal Samples and Analysis of Subsequent Downstream Processing Methods Jennifer Snedeker, BS*; David Russell, MS; Michelle Peck, MSc; Amy Holmes, PhD; Elayna Ciuzio, MS; Christina Neal, MS; Carmen Reedy, PhD; Sheree Hughes, PhD; Rachel Houston, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
11:30 a.m. – 11:45 a.m.	B50	The Application of Ancient DNA Methodologies to Burned Forensic Samples and Their Potential to Aid in the Identification and Analyses of Difficult Samples Cody Parker, PhD*; Erin Rawls, BS; Katelyn Bolhofner, PhD; Laura C. Fulginiti, PhD; Giovanna Vidoli, PhD; Joanna Devlin, PhD; Sree Kanthaswamy, PhD; Anne Stone, PhD
11:45 a.m. – 12:00 p.m.	B51	Rapid DNA Profiling for Disaster Victim Identification (DVI) Jeremy Watherston, MSFS*; David Bruce, PhD; Dennis McNevin, PhD; Jodie Ward, PhD
12:00 p.m. – 1:00 p.m.		BREAK

All the 'omes: Microbiome, Virome, and Proteome

Moderator: Nicole Fernandez-Tejero, MSc Florida International University Miami, FL		Co-Moderator: TBD Noemi Procopio, PhD Northumbia University New Castle upon Tyne, United Kingdom
1:00 p.m. – 1:15 p.m.	B52	The Identification and Characterization of Viral Biomarkers Ema Graham, MS*; Michael Adamowicz, PhD; Jennifer Clarke, PhD; Samodha Fernando, PhD; Joshua Herr, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
1:15 p.m. – 1:30 p.m.	B53	Seasonal Comparisons Between Soil Fungal and Bacterial Communities Impacted by Human Decomposition Lois Taylor, PhD*; Allison Mason, BS; Jennifer DeBruyn, PhD
1:30 p.m. – 1:45 p.m.	B54	Body Mass Index (BMI) Impacts on Soil Chemical and Microbial Responses During Human Decomposition Allison Mason, BS*; Hayden McKee, MS; Katharina Hoeland, MS; Sarah Schwing, MA; Erin Patrick, MS; Shawn Campagna, PhD; Dawnie Steadman, PhD; Jennifer DeBruyn, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
1:45 p.m. – 2:00 p.m.	B55	Proteomic Genotyping in Compromised Skeletal Remains Glendon Parker, PhD*; Jennifer Snedeker, BS; Trevor Borja, MSFS; Rachel Houston, PhD
2:00 p.m. – 2:15 p.m.	B56	The Use of Proteomic Genotyping to Estimate Genetic Ancestry for Intelligence Purposes Zachary Goecker, PhD*; Noah Herrick, MSFS; Bailey Wills, MSFS; Susan Walsh, PhD; Glendon Parker, PhD
2:15 p.m. – 2:30 p.m.		BREAK

DNA Extraction

Moderator:		Co–Moderator:
Jillian Conte, PhD		Jennifer L. Snedeker, BS
MicroGEM		Sam Houston State University
Charlottesville, VA		Huntsville, TX
2:30 p.m. – 2:45 p.m.	B57	The Development and Evaluation of Two DNA Collection/Extraction Techniques for Cartridge Cases
		Kyleen Elwick, PhD*; Quentin Gauthier, PhD; Stephanie Rink, MFS; Emily Cropper, MS; Mark Kavlick, PhD
2:45 p.m. – 3:00 p.m.	B58	A Comparison of the Effect of Manual Versus Robotic DNA Extraction Methods on the Microbial Communities Associated With Forensically Relevant Human Biological Samples Denise Wohlfahrt, BS*; Sarah Seashols-Williams, PhD; Paul Brooks, PhD; Baneshwar Singh, PhD
3:00 p.m. – 3:15 p.m.	B59	Using Bone Biology to Optimize Forensic and Ancient DNA Extraction From Post-Cranial Skeletal Elements Keith Biddle, MA*
3:15 p.m. – 3:30 p.m.	B60	Compositional Analysis of Human Skeletal Samples Using Raman Spectroscopy and Correlation to DNA Recovery
		Cody Silverman*; Brooke Kammrath, PhD; Angie Ambers, PhD
3:30 p.m. – 3:45 p.m	B61	An Enhanced DNA Extraction Method for Charred Bone Remains Using Pressure Cycling Technology (PCT)
		Kira Hurley, BS*; Lisa Ludvico, PhD; Angie Ambers, PhD; Pamela L. Marshall, PhdD (FSF Emerging Forensic Scientist Award Oral Presentation)
3:45 p.m. – 4:00 p.m.	B62	Alternative Sperm Cell Lysis Methods for Sexual Assault Samples Sarah K. Schellhammer, MS; Brittany C. Hudson, MS*; Jordan O. Cox, MS; Tracey Dawson Green, PhD

Thursday—Session II

Methylation, Tissues, and Body Fluids

Moderator: Glendon Parker, PhD University of California, Davis Davis, CA		Co-Moderator: Ya Chi (Jessica) Cheng, MS Sam Houston State University Huntsville, TX
8:30 a.m. – 8:45 a.m.	B63	An Evaluation of a Body Fluid Identification Method Using MicroRNAs (miRNAs) Co-Extracted With DNA Kelsey Price, BS*; Carolyn Lewis, BS; Ciara Rhodes, BS; Anaya Valentine, MS; Edward Boone, PhD; Sarah Seashols-Williams, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
8:45 a.m. – 9:00 a.m.	B64	A Demonstration of a Semi-Automated, Extraction-Free, MicroRNA (miRNA) Gene Expression Profiling Method for the Simultaneous Detection of Biofluids Amy Brodeur, MFS*; Frank Kero, PhD; B.J. Kerns, BS

Green = in-person only
Blue = virtual only
Black = in-person & virtual

9:00 a.m. – 9:15 a.m.	B65	Direct Messenger RNA (mRNA) Sequencing for the Identification and Analysis of Human Body Fluids Quentin Gauthier, PhD*; Patrick Rydzak, PhD; Kyleen Elwick, PhD; Mqrk Kavlick, PhD
9:15 a.m. – 9:30 a.m.	B66	The Development of Pyrosequencing-Based DNA Methylation Assay for Menstrual Blood Identification Mirna Ghemrawi, MSFS*; Nicole Fernandez-Tejero, MS; Valeria Castaneda, BS; Bruce McCord, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
9:30 a.m. – 9:45 a.m.	B67	The Optimization of a Rotationally Driven Microfluidic Method for Forensic DNA Methylation Sample Preparation Rachelle Turiello, MS*; Leah Dignan, BS; Francine Garrett-Bakelman, MD, PhD; James Landers, PhD
9:45 a.m. – 10:00 a.m.		BREAK

In the Lab and Databases

Moderator: Pamela L. Marshall, PhD Duquesne University Pittsburgh, PA		Co-Moderator: Mark Profili, MS Towson University Towson, MO
10:00 a.m. – 10:15 a.m.	B68	A Quantiplex [™] -High Resolution Melt (HRM) Integrated Assay for Early Mixture Detection Using Support Vector Machine Modeling for "Whole Curve" Analysis/Proof-of-Concept Testing Chastyn Smith, BS*; Andrea Williams, MS; Hannah Wines, MS; Darianne Cloudy, MS; Jordan Cox, MS; Dayanara Torres, BS; Sarah Williams, PhD; Edward Boone, PhD; Tracey Dawson Green, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
10:15 a.m. – 10:30 a.m.	B69	The Integration of a High Resolution Melt (HRM) Mixture-Prescreening Assay Into the Quantifiler® Trio Quantification Chemistry Using the QuantStudio™ 6 Flex Real-Time Polymerase Chain Reaction (PCR) System Dayanara Torres, BS*; Chastyn Smith, BS; Andrea Williams, MS; Edward Boone, PhD; Tracey Dawson Green, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
10:30 a.m. – 10:45 a.m.	B70	Using Mitochondrial DNA (mtDNA) and the Y-Chromosome to Estimate Population Affinity and Region of Origin Andrew Schweighardt, PhD*; Angela Soler, PhD
10:45 a.m. – 11:00 a.m.	B71	Solving Cold Cases With Databases: Considerations for the Application of Advanced DNA Searching Methodologies Ashley Rodriguez*
11:00 a.m. – 11:15 a.m.	B72	FauxDIS: An Interactive Online Forensic DNA Profile Database Ashley Hall, PhD*; Jonathan Bisson, PhD

Green = in-person only Blue = virtual only Black = in-person & virtual OR unknown

A Little Bit of This and a Little Bit of That

Co–Moderator:
Mirna Ghemrawi, MSFS
y Florida International University
Miami, FL
WITHDRAWN
The Interpretation of Y-Chromosome Short Tandem Repeats (Y-STRs) for Missing Persons Cases
Jianye Ge, PhD*; Benjamin Crysup, PhD; Dixie Peters, MS; Meng Huang, PhD; Bruce Budowle, PhD
An Evaluation of a 74 Microhaplotypes (MHs) Assay for Kinship Testing in Four Major United States Population Groups
Fabio Oldoni, PhD*; Chiara Della Rocca, BS; Daniele Podini, PhD
Microwave Pre-Processing for Enhanced Rapid DNA Analysis of Forensic Samples Nicole Fernandez-Tejero, MSc*; Fabiana Taglia, MS; Casandra Hernandez-Setser, PhD; Ling Wang, PhD; Robert O'Brien, BS; Kevin Lothridge, MS; Bruce McCord, PhD*;

12:15 p.m. – 12:30 p.m. **B77** Touch DNA Recovery to Inform Activity-Level Propositions: Fingerprints in the Wild and

Their Domesticated Counterparts

Steven B. Lee, PhD

Ashley Hall, PhD*; Ray Wickenheiser, DPS; Megan Tyahla, BS; Nivida Shete, MS

12:30 p.m. - 1:30 p.m. **BREAK**

Bashinski Special Session

Businiski special session					
Moderator: Sandra B. Sachs, PhD Oakland Police Department Oakland, CA					
1:30 p.m. – 1:50 p.m.	B78	A Responsive Academy Seeing the Modern Forensic World Through the Lens of Its History: Lessons Learned From the Pioneering Jan Bashinski Sandra B. Sachs, PhD*			
1:50 p.m. – 2:10 p.m.	B79	The Important Role of Generalists in the Modern Forensic Science World of Specialists JoAnn Buscaglia, PhD*; Jack Hietpas, PhD*; Peter De Forest, PhD			
2:10 p.m. – 2:30 p.m.	B80	Taking the Lead: Jan Bashinski and the Development of Modern Analytical Methods for the Chemical Detection of Gunshot Residues Michelle D. Miranda, PhD*			
2:30 p.m. – 2:45 p.m.	B81	Jan Bashinski's Progressive Approach to Crime Lab Management: The Development of the Systematic Approach for the Analysis of Semen Evidence From 1978 to 1985 George Sensabaugh, DCrim*; Edward Blake, DCrim			
2:45 p.m. – 3:00 p.m.	B82	Examining the Analytical Threshold (AT) Methods Used in Interpreting Capillary Electrophoresis (CE) -Based Short Tandem Rrepeat (STR) Profiles Sarah Riman, PhD*; Hari Iyer, PhD; Peter Vallone, PhD			

Green = in-person only

3:00 p.m. – 3:15 p.m.	B83	Lessons Learned From a 40-Year Career in Forensic Science Barry Fisher, MS, MBA*
3:15 p.m. – 3:30 p.m.	B84	Fixing Forensic Science by Learning How to Learn From Our Mistakes Brian Gestring, MS*
3:30 p.m. – 3:45 p.m.	B85	Reclaiming Forensic Science: A Closer Look at the Sydney Declaration Michelle D. Miranda, PhD; Sheila Willis, PhD; Patrick Buzzini, PhD*; Rebecca Bucht, PhD
3:45 p.m. – 4:00 p.m.		BREAK
4:00 p.m. – 4:15 p.m.	B86	Case Contextual Information and Its Variation Among Forensic Laboratories Taylor Hopkins*; Lyndsie Ferrara, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
4:15 p.m. – 5:00 p.m.		DISCUSSION

Thursday—Session III

Fire Debris, Explosives, and Firearms

Moderator: Christopher Chany, MS Texas Department of Pub	olic Safety	Co–Moderator: Reta Newman, MA Pinnellas County Forensic Lab
Austin, TX		Largo, FL
8:30 a.m. – 8:45 a.m.	B87	The Development of an <i>In Situ</i> Sampling Interface for Thermal Desorption Direct Analysis in Real-Time Mass Spectrometry (TD/DART®-MS) Analysis of Ignitable Liquid Residues (ILRs) in Fire Debris Samples Briana Capistran, PhD*; Matthew Staymates, MS; Edward Sisco, PhD
8:45 a.m. – 9:00 a.m.	B88	A Sensitivity Analysis of Dynamic Vapor Microextraction With Simulated Fire Debris Jennifer Berry*; Mary Gregg; Amanda Koepke; Chris Suiter; Reta Newman, MA; Kavita Jeerage
9:00 a.m. – 9:15 a.m.	B89	Gasoline Identification by Pattern Recognition: Facts and Myths Reta Newman, MA*; Brenda Christy, MS; Kelsey Winters, MS; Michael Gilbert, BS
9:15 a.m. – 9:30 a.m.	B90	Standards Development Activities Related to Ignitable Liquids, Explosives (ILE), and Gunshot Residue (GSR) Brenda Christy, MS*
9:30 a.m. – 10:00 a.m.	B91	Standards Development Activities in Firearm and Toolmark Examination Jennifer Floyd, BS*; Gregory Laskowski, MPA
10:00 a.m. – 10:15 a.m.	B92	Bullet Ricochet of Polymer-Coated Bullets Stephen Daly*; Peter Diaczuk, PhD
10:15 a.m. – 10:30 a.m.	В93	A Forensic-Related Study on AK Bullet (7.62mm X 39mm) Holes on 1mm Sheet Metal and the Designing of the First Android-Based Field Investigation Tool for AK Gun-Related Bullet Trajectory Reconstructions Bandula Nishshanka, MS*; Randika Ariyarathna, MS; Chris Shepherd, PhD
10:30 a.m. – 10:45 a.m.	B94	The Forensic Discrimination of Aluminum Sources in Improvised Explosive Devices (IEDs) Using Quantitative Trace Elemental Analysis Anjuli Bhandari, PhD*; Michelle Jordan, PhD; Christopher Saunders, PhD; Danica Ommen, PhD; JoAnn Buscaglia, PhD

Latent Prints

<u> Laterit i i i i i i i i i i i i i i i i i i </u>		
<i>Moderator:</i> Ann Geisendorfer, JD Schenectady, NY		
10:45 a.m. – 11:00 a.m.	В95	Loading Artificial Fingerprints Onto Brass Shell Casings for Improved Method Development and Proficiency Testing Curt Hewitt*; Danielle LeSassier; Benjamin Ludolph; Kathleen Schulte; Myles Gardner
11:00 a.m. – 11:15 a.m.	В96	Standards Development Activities Related to the Examination of Friction Ridge Detail Heidi Eldridge, PhD*
11:15 a.m. – 11:30 a.m	B97	Understanding and Generating Close Non-Matches in Latent Prints for Training, Testing, and Research Heidi Eldridge, PhD*; Christophe Champod, PhD
11:30 a.m. – 11:45 a.m.	B98	How Do Latent Print Examiners Perceive Blind Proficiency Testing? A Survey of Practicing Examiners Brett Gardner, PhD*; Sharon Kelley, PhD; Maddisen Neuman, MA
11:45 a.m. – 12:00 p.m.	В99	What Types of Information Can and Do Latent Print Examiners Review? A Survey of Practicing Examiners Brett Gardner, PhD*; Sharon Kelley, PhD; Maddisen Neuman, MA
12:00 p.m. – 12:15 p.m.	B100	Does Image Editing Improve the Quality of Latent Prints? An Analysis of Image-Enhancement Techniques in One Crime Laboratory Brett Gardner, PhD; Maddisen Neuman, MA*; Sharon Kelley, PhD
12:15 p.m. – 1:00 p.m.		BREAK
Poster Session		
11:30 a.m. – 1:00 p.m.	B101	The Validation of a Systematic Method for Duct Tape Physical Fits Through Inter-Laboratory Studies Meghan Prusinowski*; Evie Nguyen; Tatiana Trejos, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m. – 1:00 p.m.	B102	Student Perceptions of the Forensic Science Major at Middle Tennessee State University Cole Buffalini, BS*; Frank Bailey, PhD; Karen Reed, PhD
11:30 a.m. — 1:00 p.m.	B103	Optimization Parameters of Fragmentary Voltage and Collision Energy for Identification and Separation of RDX (1,3,5-Trinitro-1,3,5-Triazinane) From Other Explosives With Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS) Blerim Olluri; Milazim Tahirukaj*; Andriana Surleva; Xhemajl Ademaj; Herolind Krasniq, MS
11:30 a.m. – 1:00 p.m.	B104	Automated Particle Micromorphometry and Statistical Scoring for Improved Characterization of Aluminum (Al) Powders in Improvised Explosive Devices (IEDs) Kayla Moquin, BS*; Cami Fuglsby, MS; JenaMarie Baldaino, MS; Danica Ommen, PhD*; Christopher Saunders, PhD; Jack Hietpas, PhD; JoAnn Buscaglia, PhD
11:30 a.m. – 1:00 p.m.	B105	The Impact of Ultraviolet (UV) Radiation and Plane Polarized Light (PPL) Microspectrophotometry (MSP) in the Characterization and Differentiation of Deeply Colored Automotive Fibers Andra Lewis, MSFS*; Patrick Buzzini, PhD

Green = in-person only

Mixture Deconvolution and Probablistic Genotyping

Moderator: Tim Kalafut, PhD Sam Houston State University Huntsville, TX		Co–Moderator: Andrew Schweighardt, PhD NYC Office of Chief Medical Examiner New Yok, NY
9:45 a.m. – 10:00 a.m.	B139	Results From a Probabilistic Genotyping Software for the Continuous Interpretation of Next Generation Sequencing (NGS) Autosomal Short Tandem Repeat (aSTR) Mixtures Kevin Cheng, MS*; Jo-Anne Bright, PhD; James Curran, PhD; John Buckleton, DSc
10:00 a.m. – 10:15 a.m.	B140	The Recovery of Probative DNA Information From Complex Mixtures Involving First-Degree Relatives or Marginally Detectable Minor Donors Using Direct Single Cell Subsampling (DSCS) and Probabilistic Genotyping (PG) Kaitlin Huffman, MS*; Erin Hanson, PhD; Jack Ballantyne, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
10:15 a.m. – 10:30 a.m.	B141	Automated Familial Search Using a Probabilistic Genotype Database Matthew Legler, BS; Kevin Miller, PhD; Mark Perlin, MD, PhD*; Garett Sugimoto, MS
10:30 a.m. – 10:45 a.m.	B142	Using DNA Mixtures for Relationship Inference and Missing Persons Identification Maarten Kruijver, PhD*
10:45 a.m. – 11:00 a.m.	B143	"Essentially, All Models Are Wrong, but Some Are Useful"—A Comparison of Likelihood Ratios Obtained From EuroForMix and STRmix™ Kevin Cheng, MS*; Øyvind Bleka, PhD; Peter Gill, PhD; James Curran, PhD; Jo-Anne Bright, PhD; Duncan Taylor, PhD; John Buckleton, DSc (FSF Emerging Forensic Scientist Award Oral Presentation)
11:00 a.m. – 11:15 a.m.	B144	Peeling Away Uncertainty: A Probabilistic Approach to DNA Mixture Deconvolution William Allan, MS; Hajara Chaudhry, MS; John Donahue, MA; Mark Perlin, MD, PhD*; Mark Wilson, PhD

Forensic Genealogy

Moderator: Kyleen E. Elwick, PhD Federal Bureau of Investi Quantico, VA	gation La	Co–Moderator: Rachel M. Houston, PhD Sam Houston State University Huntsville, TX	
11:15 a.m. – 11:30 a.m.	B145	How Forensic Genetic Genealogy (FGG) Is Supporting the Combined DNA Index System (CODIS) and the Criminal Justice System Colleen Fitzpatrick, PhD*	
11:30 a.m. – 11:45 a.m.	B146	The Development and Implementation of Forensic Genealogy Casework Acceptance Criteria and Testing Guidelines and Their Impact on Developing Valuable High-Density Single Nucleotide Polymorphism (SNP) Datafiles Robert Bever, PhD*; Teresa Vreeland, BS	
11:45 a.m. – 12:00 p.m.	B147	Internal Validation of the ForenSeq™ Kintelligence Kit for Application to Forensic Genetic Genealogy Cases Michelle Peck, MFS*; Stephen Turner, PhD; V. Peter Nagraj, MS; David Russell, MS; Jessica Bouchet, BS; Amy Holmes, PhD; Rachel Houston, PhD; Jennifer Snedeker, BS; Carmen Reedy, PhD; Christina Neal, MS

Wednesday

Poster Session

11:30 a.m	1:00 p.m.	E1	The Use of Smart Phone Applications in Crime Scene Analysis: Forensic Advantages and Limitations Matteo Antonio Sacco, MD; Pietrantonio Ricci, MD, PhD; Isabella Aquila, MD, PhD*
11:30 a.m	1:00 p.m.	E2	Autopsy Findings in Hydrogen Sulfide Toxicity Robyn Parks, MD*; Christopher Rogers, MD
11:30 a.m	1:00 p.m.	E3	A Case of Skully: An Investigation of <i>X-Files</i> Proportion Ashley Holmes, MS*; Patrick Lantz, MD; Jerri McLemore MD
11:30 a.m	1:00 p.m.	E4	Medicolegal Investigation in Two Cases of Suspected Anticoagulant Overdose Camilla Bonci, MD*; Lucia Tattoli, MD, PhD; Francesca Capello, MD; Luana Bonaccurso, MD; Giuliana Mattioda, MD; Giancarlo Di Vella, MD, PhD
11:30 a.m	1:00 p.m.	E5	Sudden Cardiac Death in Myocardial Bridging Angela Baldwin, MD, MPH*; Sarah Thomas, MD, MS; Barbara Sampson, MD, PhD
11:30 a.m	1:00 p.m.	E6	Light Detection And Ranging (LiDAR) Sensor for 3D Reconstructions in the Autopsy Room Alice Chiara Manetti, MD*; Andrea Scatena, MD; Giacomo Visi, MD; Paola Santoro, MD; Fabio Del Duca, MD; Massimiliano Dell'Aquila, MD; Aniello Maiese, MD, PhD
11:30 a.m	1:00 p.m.	E7	Enhancing Postmortem Care for Transgender Decedents: An Analysis of Global Violence and Forensic Methodologies Taylor Flaherty, MSc*; Corrie Strayer, MA; Adrianne Dizon; Jennifer Byrnes, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m	1:00 p.m.	E8	Suicide Rates and Trends in Allegheny County, Pennsylvania, During 2010–2019 Odile Enslen, BS*; Lyndsie Ferrara, PhD; Anita Zuberi, PhD; Mandy Tinkey, MS
11:30 a.m	1:00 p.m.	E9	The Recent Rise of Eutylone Intoxications in Onondaga County, New York Michel Tawil, MD*; Katrina Thompson, MD; Lorenzo Gitto, MD
11:30 a.m	1:00 p.m.	E10	A Review of In-Custody Deaths at the West Tennessee Regional Forensic Center William Stout*; Danielle Harrell, DO
11:30 a.m	1:00 p.m.	E11	A Death in the Pool Is Not Just Drowning Gianluca Musci, MD*; Carmelinda Angrisani, MD; Adriano Acella, MD; Giulia Gubinelli, MD; Gianluca Gravili, MD; Antonio De Donno
11:30 a.m	1:00 p.m.	E12	Hanging: Between Doubts and Certainties Isabella Aquila, MD, PhD*; Pietrantonio Ricci, MD, PhD
11:30 a.m	1:00 p.m.	E13	Sudden Cardiac Death Related to COVID-19 in an Asymptomatic Teenager With a Negative Postmortem Swab Mirella Sabatino, MD; Giulia Bini, MD*; Giacomo Belli, MD; Giorgia Lodetti, MD; Dario Galatone, MD; Elena Mercuri, MD; Gulnaz T. Javan, PhD; Silvia Damiana Visonà, PhD; L uca Morini, PhD; Pierangela Grignani, PhD; Carlo Previderé, PhD; Matteo Moretti, MD

▼			
11:30 a.m	1:00 p.m.	E14	Older Adult Suicides in Clark County, Nevada (2017-2021): The Trends and Potential Impact of the COVID-19 Pandemic Katherine Gaddis MA*; Jennifer Byrnes, PhD
11:30 a.m	1:00 p.m.	E15	Excess Deaths in Shelby County, Tennessee, During the COVID-19 Pandemic Morgan Lyttle, MS*; Erica Curry, MD; Benjamin Figura
11:30 a.m	1:00 p.m.	E16	COVID-19 Pandemic From the Forensic Standpoint: A Platform Against Future Biological Threats Marina Korolija PhD*; Rosa Karlić, PhD; Ana Livun, PhD; Robert Belužić, PhD; Vjekoslav Tomaić, PhD; Dunja Glavaš, MSc; Antonija Mamić, BS; Andrea Ledić, MSc; Kristian Vlahoviček, PhD
11:30 a.m	1:00 p.m.	E17	Organizational, Adaptational, and Continuous Changes of the Forensic Sciences During the COVID-19 Pandemic: An Overview Francesco Sessa, MS, PhD*; Massimiliano Esposito, MD; Cristoforo Pomara, MD, PhD; Monica Salerno, MD, PhD
11:30 a.m	1:00 p.m.	E18	Determining Postmortem Intervals of Fetal Pigs Buried in Fayetteville, Tennessee, in June 2021 Using Attenuated Total Reflectance Fourier Transform Infrared Instrumentation Blood Analysis Catherine Walters, BS*; Elizabeth Gardner, PhD
11:30 a.m	1:00 p.m.	E19	Equine Scent Detection in Search and Rescue and Search and Recovery Elsie-Kay Banks, MA*; Liam Funte, PhD, MD; Anatasia Holobinko, PhD
11:30 a.m	1:00 p.m.	E20	Insect Activity During Decomposition in the Extreme Sonoran Desert Climate Meghan Gast, BS*; Kaitlyn Fulp, MA; Jacob Harris, PhD; Katelyn Bolhofner, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m	1:00 p.m.	E21	Forensic Species Identification Using Phylogenetic Proteomics Nicole Slattengren, BSc*; Ashley Spicer, MSFS; Glendon Parker, PhD

Thursday—Session I

Death Investigation I

•		
Moderator: Monica Broncucua-Jorda Brighton, CO	ın	
8:45 a.m. – 9:00 a.m.	E22	Forensic and Investigative Scene Factors Associated With the Undetermined Manner of Death Betsy Adelizzi, PhD*
9:00 a.m. – 9:15 a.m.	E23	"Our Hearts Are Not at Rest": A Critical Look at the Adequacy of Indigenous Death Investigations Steff King, MA*; Ted Palys, PhD; Annie Ross, PhD; Gail Anderson, PhD
9:15 a.m. – 9:30 a.m.	E24	Forensic Science Data Integration and Stakeholder Workflow for Medicolegal Death Investigation Systems Matthew Gamette, MS*; Jeri Ropero-Miller, PhD

Green = in-person only
Blue = virtual only
Black = in-person & virtual
OR unknown

9:30 a.m. – 9:45 a.m.	E25	Medicolegal Systems and Forensic Services Assessments: Methods to Better Understand the Needs and Challenges of Providing Structured Support and Building Sustainable Forensic Capacities A. Skylar Joseph, MS*; Maria Dolores Morcillo Mendez, MD; Pierre Guyomarc'h, PhD; Denise Abboud, PhD; Eliane El Hajj, MBA; Rawan Chaaban, MPH; Myriam El Helou, BS; Luis Fondebrider, PhD
9:45 a.m. – 10:00 a.m.	E26	Addressing Emerging Humanitarian Challenges Through an Innovative Concept: The International Centre for Humanitarian Forensics (ICHF) Melahat Elif Gunce Eskikoy, PhD*; Govindarajulu Rajesh Babu, PhD; Darshana Ishwarbhai Sharma, PhD; Abraham Johnson, PhD
10:00 a.m. – 10:15 a.m.	E27	Tapping an Overlooked Resource: Preparing and Utilizing Crime Scene Investigators to Recognize and Document Criminal Asphyxiation Cases Kelsey McKay, JD*; Andrea Zaferes, BA*; Rachel Johnson, MS*
10:15 a.m. – 10:30 a.m.	E28	Forensics in the Wilderness: Lessons Learned David Kintz, BS*
10:30 a.m. – 10:45 a.m.	E29	Homicide Victims and Location, Location: Utilizing Body Dump Patterns and Forensic Archaeology in Outdoor Searches Sharon Moses, PhD*
10:45 a.m. – 11:00 a.m.		BREAK

COVID

COVID				
Moderator: Cliff Akiyama, MA, MPH Akiyama and Associates, LLC Philadelphia, PA				
11:00 a.m. – 11:15 a.m.	E30	How the COVID-19 Pandemic and Related Restrictions Impacted Crime in Italy Francesco Sessa, MS, PhD*; Massimiliano Esposito MD; Monica Salerno, MD, PhD; Cristoforo Pomara, MD, PhD		
11:15 a.m. – 11:30 a.m.	E31	COVID-19 Impacts on Medical Examiner/Coroner Offices and Their Response to the Pandemic BeLinda Weimer, MA*; Peyton Attaway, BS; Daye Crystal, MPA; Camille Gourdet, JD; Paul Speaker, PhD; Jeri Ropero-Miller, PhD*		
11:30 a.m. – 11:45 a.m.	E32	An Examination of Medical Examiner/Coroner (ME/C) Outsourcing Practices Peyton Attaway, BS*; BeLinda Weimer, MA; Crystal Daye, MPA; Camille Gourdet, JD; Paul Speaker, PhD; Jeri Ropero-Miller, PhD		
11:45 a.m. – 12:00 p.m.	E33	"Cutting" for Profit in a Pandemic Abby Chapman*; Cindy Moran; Daniel Dye, MD; Brandi McCleskey, MD		
12:00 p.m. – 1:00 p.m.		BREAK		

Green = in-person only

Poser Session

11:30 a.m. – 1:00 p.m.	E34	The Assessment of Skin Lesions in Trafficking Victims: A Medicolegal Approach Francesca Capello, MD*; Camilla Bonci, MD; Niccolò Dino Melloni, MD; Alice Porceddu, MD; Davide Santovito. MD; Giancarlo Di Vella, MD, PhD
11:30 a.m. – 1:00 p.m.	E35	The Role of MicroRNAs (miRNAs) as New Molecular Biomarkers for Dating the Age of Wound Production: A Systematic Review Stefania De Simone, MD*; Elena Giacani, MD; Maria Antonella Bosco, MD; Francesco Sessa, MS, PhD; Giuseppe Bertozzi, MD; Luigi Cipolloni, MD; Raffaele La Russa, MD
11:30 a.m. – 1:00 p.m.	E36	The Dirty Truth: Does Bathing After Sexual Assault Prevent the Development of Combined DNA Index System (CODIS) -Eligible DNA Profiles? Emily Black*, Samuel Payne, Julie Valentine, PhD
11:30 a.m. – 1:00 p.m.	E37	Increased Sexual Assault Kit Submissions May Not Mean Increased Sexual Assault Prosecutions Julie Valentine, PhD*; Leslie Miles, DNP; Connor Alder; Luke Johnson
11:30 a.m. – 1:00 p.m.	E38	The Detection and Determination of the Levels of Physiologically Active Substances in Non-Alcoholic Beverages Amarnath Mishra, PhD*; Akanksha Behl, MSc
11:30 a.m. – 1:00 p.m.	E39	Improving the Signal Detection Limit of a Portable Raman Spectrometer for Surface Enhanced Raman Spectroscopy (SERS) Detection of Gunshot Residue (GSR) Megan Harper, BS*; Dariush Aligholizadeh, BS; Lynn Krushinski, BS; Mary Devadas, PhD; Ellen Hondrogiannis, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m. – 1:00 p.m.	E40	A New Method for the Preservation of Forensic Fragrance/Odor Evidence for Future Analysis Using Gas Chromatography/Mass Spectrometry (GC/MS) Rylee Bosse*; Susannah Sherwood; Mariah Fernandez, BS; Aspen DeGolier, BS; Chesterene Cwiklik, BS; Kristen Skogerboe, PhD
11:30 a.m. – 1:00 p.m.	E41	A Chemometrics Study for the Forensic Evidence Classification of Pet Foods Using Solid-Phase Microextraction-Gas Chromatography/Mass Spectrometry (SPME-GC/MS) Susannah Sherwood*; Rylee Bosse; Hazel Tran, BS; Anna Tran, BS; Aspen DeGolier, BS; Mariah Fernandez, BS; Luke Marney, PhD; Kristen Skogerboe, PhD
11:30 a.m. – 1:00 p.m.	E42	Magnetic Resonance Imaging (MRI) of the Skin: Research Hypothesis, Objectives, Limitations, and Postmortem Examples Giuseppe Bertozzi MD*; Michela Ferrara, MD; Giovanni Gurgoglione, MD; Maria Antonella Bosco, MD; Francesco Pio Cafarelli, MD; Giuseppe Guglielmi, MD, PhD; Luigi Cipolloni, MD, PhD; Raffaele La Russa, MD, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m. – 1:00 p.m.	E43	The Development of a Rapid Drug Detection Method for Insects Using Paper Spray Ionization-Mass Spectrometry (PSI-MS) Alexandria Plyler, BS*
11:30 a.m. – 1:00 p.m.	E44	WITHDRAWN

Green = in-person only
Blue = virtual only
Black = in-person & virtual
OR unknown

11:30 a.m. – 1:00 p.m.	E45	Multiplex Reverse Transcription Polymerase Chain Reaction (RT-PCR) on a Centrifugal Microfluidic Platform for Field-Forward Messenger RNA (mRNA) Body Fluid Profiling Renna Nouwairi, BS*; Tiffany Layne, PhD; Rachel Fleming, PhD; M. Shane Woolf, PhD; James Landers, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m. – 1:00 p.m.	E46	Preliminary Perspectives of Environmental Conditions on Cocaine's Chemical Odorant Methyl Benzoate Via Dynamic Airflow Sampling Ryan Thompson, BS*; Edgar O. Aviles-Rosa, PhD; Nathaniel J. Hall, PhD; Paola A. Prada-Tiedemann, PhD
11:30 a.m. – 1:00 p.m.	E47	WITHDRAWN
11:30 a.m. – 1:00 p.m.	E48	Backlog Reduction by Implementing Shorter Gas Chromatography/Mass Spectrometry (GC/MS) Confirmation of Seized Drugs Muhammad Chaudhary, MPhil*; Imtiaz Hussain, MPhil; Tahir Jamshaid, MPhil; Muhammad Amjad Nadeem, MPhil; Muhammad Irfan Ashiq, PhD; Mohammad Tahir, PhD
11:30 a.m. – 1:00 p.m.	E49	Rapid Fentanyl Sensing Via Biochemical Assay Giana Biddle*; Jan Halamek, PhD; Ashley Newland
11:30 a.m. – 1:00 p.m.	E50	A Characterization of Metal-Peroxide Explosive Complexes Using Paper Spray Ionization-Tandem Mass Spectrometry (PSI-MS) Kayla Massari*
11:30 a.m. – 1:00 p.m.	E51	Determining the Method Threshold of Identification Via Gas Chromatography/ Mass Spectrometry (GC/MS) of Weathered Gasoline Extracted From Laminate Flooring Ellen Hondrogiannis, PhD; Allyson Wesley* (FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m. – 1:00 p.m.	E52	Assessing the Rate of Loss of Fibers in Primary, Secondary, and Tertiary Transfers Samantha Hadley BS*; Steven Burmeister, MS; Cary Oien, MS (FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m. – 1:00 p.m.	E109	The Terminal Deposition of Latent Fingermarks Determined by Chemical and Physical Developers (poster moved from Friday session to Thursday Session) Hannah Hubbard*; Josep De Alcaraz-Fossoul, PhD

Death Investigation II & Taphonomy

Moderator:	Co-Moderator:	
Joe Trevino, MS	Taylor Lowry, BS	
NYPD Forensics Laboratory	Centennial, CO	
Queens, NY		
1:00 p.m. – 1:15 p.m. E53	A Physical Assessment of Torture: An Analysis on Medicolegal Degrees of Consistency	
	Expressed According to the Istanbul Protocol	
	Lorenzo Franceschetti, MD*; Francesca Magli, MSc, MA; Chiara Nava, MD; Lidia Maggioni, MD;	
	Andrea Verzeletti, PhD; Cristina Cattaneo, PhD	
	(FSF Emerging Forensic Scientist Award Oral Presentation)	
1:15 p.m. – 1:30 p.m. E54	Record Depths: 2019 Deep Water Recovery of "Password 33" at 18,600 Feet Katherine Grosso, MA*	

Green = in-person only
Blue = virtual only
Black = in-person & virtual
OR unknown

1:30 p.m. – 1:45 p.m.	E55	A Dismembered Pedestrian and a Debris Field: A Case Report of a Fatal Hit and Run Stacey Chepren, MFS*
1:45 p.m. – 2:00 p.m.	E56	How Hot Is Too Hot? The Interior Temperature in Unattended Vehicles and the Effect on Children Left Inside Laura Lathrop, MS*
2:00 p.m. – 2:15 p.m.	E57	Have Cocaine, Will Travel: A Case Report of Body Packing Anita Hasert, BS*
2:15 p.m. – 2:30 p.m.	E58	Necrobiome Succession in Muscle Tissue as a Potential Indicator of Postmortem Interval (PMI) Anna Wacker, MS*; Josh Sharp, PhD; Jane Harris, PhD
2:30 p.m. – 2:45 p.m.	E59	Human Taphonomy Facilities: Considerations for Establishment in the United Kingdom Claire Power, MSc*; Fiona Jane Wilcox, MD; Richard Walters, LLB; Nikolas Petros Lemos, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
2:45 p.m. – 3:00 p.m.	E60	The Effect of Necrophagous Entomofauna on Textile Damage During the Summer in Western Australia Sotirios Ziogos, MFSc* (FSF Emerging Forensic Scientist Award Oral Presentation)
3:00 p.m. – 3:15 p.m.		BREAK

Dogs & Animals in Forensic Science

Moderator: Gerald DeMenna, PhD Chem-Chek Labs Cape May, NJ

cape may, no		
3:15 p.m. – 3:30 p.m.	E61	Step-Wise Lead-Poisoning of a Sheep: A Case Report Combining Virtopsy and Autopsy in a Ballistic Veterinary Case
		Dagmar Mierzwiak*; Matthias Dennler; Monika Hilbe; Michael Thali, MD; Wolf Schweitzer, MD; Stephan Bolliger, MD
3:30 p.m. – 3:45 p.m.	E62	Morphology and Behavior: What Can Dog Bite Wound Morphology Tell Us About the Behavior Involved in Fatal Dog Attacks? James Crosby, MS*
3:45 p.m. – 4:00 p.m.	E63	Are We Barking Up the Wrong Tree When Selecting Detection Canine Candidates? Keir Davies, MSc*; Nikolas Lemos, PhD
4:00 p.m. – 4:15 p.m.	E64	An Analysis of the Degradation and Contamination of Canine Training Aids Stored in Semi-Permeable Membrane Devices (SPMDs) and Traditional Storage Conditions Via Fourier Transform Infrared Spectroscopy (FTIR) and Gas Chromatography/Mass Spectrometry (GC/MS) Kymeri Davis, MS*; Courtney Cruse, BS; John Goodpaster, PhD

Thursday—Session II

Forensic Nursing I

Moderator: Lindsey Crim, MCJ Office of the Chief Medic	al Examin	Co-Moderator: Tara Godoy, BSN Godoy Medical Forensics
Nashville, TN		Livermore, CA
8:30 a.m. – 8:45 a.m.	E65	Forensic Nurse Roles: Exploring the Future Within a Modern Forensic Science World Joyce Williams, DNP, RN*
8:45 a.m. – 9:00 a.m.	E66	A Global Response in the Frontiers of Forensic Nursing Science Virginia A. Lynch, MSN*
9:00 a.m. – 9:15 a.m.	E67	Responding to the Future Challenges of Emergency Preparedness in a Modern Forensic Science World Joyce Williams, DNP, RN*
9:15 a.m. – 9:30 a.m.	E68	Forensic Nursing Science: A Contemporary Response to Humanitarian and Human Rights Virginia A. Lynch, MSN*
9:30 a.m. – 9:45 a.m.	E69	Forensic Nurse Hospitalist: The Comprehensive Role of the Forensic Nurse in a Hospital Setting Kelly Berishaj, DNP*; Christina Boyland, MSN; Kristin Reinink, MSN; Virginia A. Lynch, MSN
9:45 a.m. – 10:00 a.m.	E70	Exploring the Conditions, Challenges, and Situations for Nurses Involved in Forced Organ Transplants in China Nancy Cabelus, DNP*
10:00 a.m. – 10:15 a.m.	E71	The Forensic Nurse Response to Elder Abuse: Meeting and Surpassing the Challenges Amy Carney, PhD*
10:15 a.m. – 10:30 a.m.		BREAK

Forensic Nursing II

Moderator: Pardeep Jasra, PhD University of Windsor Windsor, Ontario, Canada	a	Co-Moderator: Alireza Bagherian, DC San Francisco, CA
10:30 a.m. – 10:45 a.m.	E72	Forensic Nursing Science as an Indispensable Core Service in Modern Patient Care: The First Implementation Outcomes in Switzerland Valeria Kaegi, RN*; Michael J. Thali, MD; Rosa Maria Martinez, MD
10:45 a.m. – 11:00 a.m.	E73	Improving Care for the Sexual Assault Patient Kathleen Sekula, PhD*
11:00 a.m. – 11:15 a.m.	E74	The Development and Successful Implementation of a State-Wide Sexual Assault Nurse Examiner (SANE) Coordinator Role: A Rural Perspective Matthew Gamette, MS; Deborah Wetherelt, RN*

Green = in-person only
Blue = virtual only
Black = in-person & virtual
OR unknown

11:15 a.m. – 11:30 a.m.	E75	WITHDRAWN
11:30 a.m. – 11:45 a.m.	E76	The Sexual Assault Nurse Examiner (SANE): A Responsive Strategy to Global Sexual Violence Jamie Ferrell, MBA, BSN, RN*
11:45 a.m. – 12:00 p.m.	E77	Sexual Assault Victim and Assault Characteristics and Development of Combined DNA Index System (CODIS) -Eligible Short Tandem Repeat (STR) DNA Profiles Julie Valentine, PhD*; Sam Payne, PhD; Leslie Miles, DNP; Luke Johnson; Connor Alder
12:00 p.m. – 1:00 p.m.		BREAK

Trace Evidence		
Moderator: Anita Hasert, BS Charleston County Coror North Charleston, SC	ner's Offic	Co-Moderator: Frank Bailey, PhD Middle Tennessee State University Murfreesboro, TN
1:00 p.m. – 1:15 p.m.	E78	An Estimation of Error Rates in Library Matching of Forensic Textile Evidence Classified by Attenuated Total Reflectance/Fourier Transform Infrared (ATR/FTIR) Spectroscopy Lauren Bouju Davies*; Braeden Camarota; Kristen Skogerbo, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
1:15 p.m. – 1:30 p.m.	E79	An Assessment of Heat Damage on Fourier Transform Infrared (FTIR) Spectral Characteristics of Various Fabric Samples for Applications to Forensic Clothing Examination Braeden Camarota*; Cheyenne Smith; Lauren Bouju Davies; Chesterene Cwiklik, BS; Kristen Skogerboe, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
1:30 p.m. – 1:45 p.m.	E80	A Quantitative Analysis of Smokeless Powder Particles in Post-Blast Debris Via Gas Chromatography/Vacuum Ultraviolet Spectroscopy (GC/VUV) Madison Reavis BS*; John Goodpaster, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
1:45 p.m. – 2:00 p.m.	E81	Addressing the Quantitative Aspect of Single Grain Forensic Palynology Luz Kelley, MS*; Matthieu Baudelet, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
2:00 p.m. – 2:15 p.m.	E82	Chemometrics in Forensic Examination Vishal Sharma, PhD*
2:15 p.m. – 2:30 p.m.	E83	Spectrally Based Color Calibration of Microscopes for the Analysis of Birefringence Olivia Field, BS*; Matthieu Baudelet, PhD
2:30 p.m. – 2:45 p.m.	E84	The Persistence of Diatoms as Trace Evidence in Clothing Fabrics: The Effect of Active Removal (Machine Washing) and Passive Removal (Time and Environment) Ross Flynn, MSc; Paola Magni, PhD; Ashiwin Vadiveloo, PhD; Navid Moheimani, PhD; Kari Pitts, PhD*
2:45 p.m. – 3:00 p.m.	E85	An Assessment of Swab Efficiency for Body Fluid Identification and DNA Isolation and Analysis in Different Types of Fabric Gabriela Roca, PhD*; Sara C. Zapico, PhD
3:00 p.m. – 3:15 p.m.		BREAK

Green = in-person only

Analytical Techniques

Moderator: Imron G. Ramos, MFS Clovis, CA		Co-Moderator: Alicia Carriquiry, PhD CSAFE-Iowa State University Ames, IA
3:15 p.m. – 3:30 p.m.	E86	An Elemental Analysis of Bullets Via Atomic Absorption Spectroscopy Jan Halámek, PhD; Ashley Newland, MS*; Giana Biddle, MS; Morgan Eldridge, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
3:30 p.m. – 3:45 p.m.	E87	A Pre-Post Experimental Study on the Life of Blood Stains on Different Soil Samples Eleena Philip, MS*
3:45 p.m. – 4:00 p.m.	E88	Investigation Into the Aging Mechanism of Bloodstains Post-Deposition Using Steady- State Fluorescence Spectroscopy for Forensic Purposes Alexis Weber, MSFS*; Anna Wójtowicz, BS; Igor Lednev, PhD
4:00 p.m. – 4:15 p.m.	E89	A Membrane-Modulated Centrifugal Microfluidic Platform for Field-Forward Immunodetection of Opioids Leah Dignan, BSc*; Michael Woolf, PhD; Jennifer Ross, MD, MPH; Carly Baehr, PhD; Christopher Holstege, MD; Marco Pravetoni, PhD; James Landers, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
4:15 p.m. – 4:30 p.m.	E90	Non-Contact Detection of Fentanyl by a Field-Portable Ion Mobility Spectrometer Ashley Fulton, PhD*; Stephanie Vaughan, PhD; Lauryn DeGreeff, PhD
4:30 p.m. – 4:45 p.m.	E91	Sweat Analysis Leading to Possible On-Site Detection for Drugs and Alcohol in the Body Jan Halamek, PhD; Morgan Eldridge; Giana Biddle*; Ashley Newland
4:45 p.m. – 5:00 p.m.	E92	A Multidisciplinary Forensic Approach: The Investigation of a "Kuman Thong" Alessandra Radogna, MD*; Chiara Siodambro, MD; Laura Scotti, MD; Anna Lisa Nanni, MD; Maria Sole Prevedoni Gorone, MD; Silvia Damiana Visonà, MD, PhD; Matteo Moretti, MD; Pierangela Grignani, PhD; Carlo Previderè, PhD

Friday

Traditional & Non-Traditional Pattern Evidence

Moderator: Frances Wheatley, MA Office of the State Chief Medical Examiner Nashville, TN			Co-Moderator: Jessica Crowson, MS Sherwood, OR
8:45 a.m. – 9:00 a.m.	E93	Automatic Class Characteri Jayden Stack*; Susan Vande	istic Recognition in Shoe Tread Images erPlas PhD
9:00 a.m. – 9:15 a.m.	E94	A Comparison of Dust Cove From a Saiga 7.62x39mm F Malory Molt, BS*; V. Rick W (FSF Emerging Forensic Scientia	Vyant, MS; Brian Smelser

Green = in-person only

Poster Session

11:30 a.m. – 1:00 p.m.	E105	Modeling Latent Fingermark Aging Processes by 2D Optical Methodologies Josep De Alcaraz-Fossoul, PhD*	
11:30 a.m. – 1:00 p.m.	E106	Similarities of Fingerprints Among Siblings Angelina Lopez, MFS*; Ismail Sebetan, MD, PhD; Paul Stein, PhD	
11:30 a.m. – 1:00 p.m.	E107	An Examination of Pattern Types in Twins' Fingerprints and Bilateral Symmetry in an Unrelated Population Kristine Duran, MFS*; Ismail Sebetan, MD, PhD; Paul Stein, PhD	
11:30 a.m. – 1:00 p.m.	E108	An Analysis and Discrimination of Fingermarks Contaminated With Non-Steroidal Anti-Inflammatory Drugs (NSAIDs) Tablets Using Raman Spectroscopy and Chemometrics Mohamed O. Amin, MSc*; Entesar Al-Hetlani, PhD; Igor K. Lednev, PhD	
11:30 a.m. – 1:00 p.m.	E109	Moved to the Thursday Poster Session	
11:30 a.m. – 1:00 p.m.	E110	The Development of Fingerprints After Prolonged Submersion in Freshwater Haley Bolt, MSFS*; Katrina Willis; Bruce Willis; Catherine Rushton	
11:30 a.m. – 1:00 p.m.	E111	Environmental Influences on Latent Fingerprint Recovery Madison Frese, BA*; Caitlin Porterfield, MS	
11:30 a.m. – 1:00 p.m.	E112	Forensic Phenomics—An Applied Approach to Fingerprint Profiling for Intelligence Guided Investigations Georgia Cottnam*; Brendan Chapman; Berin Boughton; Torben Kimhofer	
11:30 a.m. – 1:00 p.m.	E113	The Impact of Packaging and Transportation on the Preservation and Processing of Latent Friction Ridge Impressions Sydney Baber*; Caitlin Porterfield	
11:30 a.m. – 1:00 p.m.	E114	Raman Spectroscopy to Tackle the Analysis of Bloodstains in Crime Scene Conditions Alexis Weber, MSFS*; Alexis Barber, BS; Igor Lednev, PhD	
11:30 a.m. – 1:00 p.m.	E115	Optimizing Blood Removal Methodology for Visualizing Gunshot Residue (GSR) Patterns Ashley Smith, BS*; Michael Kusluski, MFS	
11:30 a.m. – 1:00 p.m.	E116	Utilizing the ECHO Model to Virtually Train Medical Examiners and Coroners on Drug Overdose Investigations and Mortality Data Improvement Rachel Redding, MPH*; Richa Ranade, MPH	
11:30 a.m. – 1:00 p.m.	E117	Are Medical Students Prepared to Recognize Child Abuse and Neglect? The Evaluation of an Italian Sample Francesco Lupariello, MD*; Francesca Capello, MD; Camilla Bonci, MD; Giancarlo Di Vella MD, PhD	
11:30 a.m. – 1:00 p.m.	E118	Characterizing the Use of Blind Verification and Blind Proficiency Testing at Forensic Laboratories Anni Hong, BS*; Maddisen Neuman, MA; Sharon Kelley, JD, PhD; Brett Gardner, PhD; Robin Mejia, MPH, PhD	
11:30 a.m. – 1:00 p.m.	E119	A Million Little Pieces: Pursuing Justice Through Methodology in Evidence Michela Ferrara, MD*; Giovanni Pollice, MD; Giovanni Gurgoglione, MD; Elena Giacani, MD; Stefania De Simone, MD; Francesco Sessa, MS; Giuseppe Bertozzi, MD

11:30 a.m. – 1:00 p.m.	. H16	Air Embolism: An Important Autopsy Finding in Fatal Gunshot Wounds of the Head Xin Zhang, MD*; Michael D. Eckhardt, MD; Benjamin J. Soriano, MD
11:30 a.m. – 1:00 p.m.	. H17	Anomalous Ligature Materials and Means in Hangings: A Report of Ten Cases Maria Antonella Bosco, MD; Giovanni Gurgoglione, MD; Elena Giacani, MD*; Giovanni Pollice, MD; Michela Ferrara, MD; Benedetta Baldari, MD; Giuseppe Bertozzi, MD
11:30 a.m. – 1:00 p.m.	. Н18	The Use of Forensic Radiology in the Assessment of the Emergency Department Presentation of Near-Hanging Victims in the United Kingdom Sarah A. Gaier, MSc*; Curtis Edward Offiah, MD; Nikolas P. Lemos, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m. – 1:00 p.m.	. H19	Wound Vitality and the Estimation of Wound-Age Production: New Frontiers Through Immunohistochemistry Investigation Michela Ferrara, MD*; Stefania De Simone, MD; Giovanni Pollice, MD; Giuseppe Bertozzi, MD; Santina Cantatore; Raffaele La Russa, MD, PhD; Luigi Cipolloni, MD, PhD
11:30 a.m. – 1:00 p.m.	. H20	A Forensic Approach to an Italian Mass Disaster: The Collapse of the Morandi Bridge Francesca Frigiolini, MD*; Camilla Tettamanti, MD, PhD; Davide Bedocchi, MD; Fiorella Caputo, MD; Martina Drommi, MD; Sara Lo Pinto, MD; Anna Roncallo, MD; Francesco De Stefano, MD, PhD; Francesco Ventura, MD, PhD
11:30 a.m. – 1:00 p.m.	. H21	The Death of a Professional Scuba Diver Due to Gas Embolism: An Autopsy Case Cemyigit Deveci, MD*; Mehmet Atilgan, MD; İbrahim Demir, MD; K. Aylın Aksoy, MD
11:30 a.m. – 1:00 p.m.	. H22	An Anomalous Origin of Left Coronary Artery With Retro-Aortic Course and Sudden Cardiac Death Paolo Fais, PhD; Clara Fiorentini, PhD*; Gabriele Bronzetti, PhD; Arianna Giorgetti, PhD; Guido Pelletti, PhD; Ornella Leone, PhD; Susi Pelotti
11:30 a.m. – 1:00 p.m.	. H23	Things Are Never What They Seem—A Fatal Injection in a Drug Abuser: Hemorrhagic Shock, Pulmonary Embolism, Fulminant Sepsis, Acute Methadone Poisoning, or Medical Liability? A Case Report Maria Silvestre, MD*; Serena Corradi, MD, PhD; Andrea Marzullo, PhD; Lucia Aventaggiato, PhD, MD; Alessandro Dell'Erba, MD, PhD; Biagio Solarino, MD; Davide Ferorelli
11:30 a.m. – 1:00 p.m.	. H24	Sudden and Unexpected Death After an Induced Abortion: Medical Responsibility or a Hidden Cause? Francesco Lupariello, MD*; Federica Mirri, MD; Fabio Innocenzi, MD; Alessandro Gabriele, MD; Giancarlo Di Vella, MD, PhD
11:30 a.m. – 1:00 p.m.	. H25	The Walking Dead: A Strange Case of Falls From a Staircase Mauro Ciavarella*; Natascha Pascale; Valeria Bruno; Maurizio Scarpa; Aldo Di Fazio

11:30 a.m. – 1:00 p.m.	H26	Suicides by Barbiturate Intoxication Joy O. Edegbe, MD*; Tiffany A. Hollenbeck, DO
11:30 a.m. – 1:00 p.m.	H27	An Extremely Rare Case of Hemorrhagic Shock Caused by an Early Post-Implant Saphenous Vein Graft Pseudoaneurysm Rupture Eleonora Mezzetti, MD*; Alessandra De Matteis, MD; Andrea Scatena, MD; Andrea Costantino, MD; Arianna Baronti, MD; Lavinia Pellegrini, MD; Alice Chiara Manetti, MD
11:30 a.m. – 1:00 p.m.	H28	"She Don't Lie, She Don't Lie, She Don't Lie—Cocaine!" Homicide, Suicide, or Accident? The Unresolved Question About Drug-Related Deaths Michele Telegrafo, MD*; Alessandro Dell'Erba, MD; Enrica Macorano, MD; Maurizio Mastrapasqua, MD; Francesco Carravetta, MD; Federica Misceo, MD; Maria Silvestre, MD; Serena Corradi, MD; Roberto Maselli, MD; Lorenzo Spagnolo, MD; Sara Sablone
11:30 a.m. – 1:00 p.m.	H29	Another Case of Femicide? No, That's Another Case of Underlying Sudden Unexpected Death in Epilepsy (SUDEP) Natascha Pascale, MD, PhD*; Mauro Ciavarella, MD; Maurizio Scarpa, MD; Aldo Di Fazio, MD
11:30 a.m. – 1:00 p.m.	H30	The "Pathologic" Mother-Son Bond: An Unusual Case of Matricide With "Overkill" Cristina Mondello MD, PhD*; Gennaro Baldino, MD; Chiara Stassi, MD; Cataldo Raffino, MD; Alessio Asmundo, MD; Elvira Ventura Spagnolo, MD, PhD
11:30 a.m. – 1:00 p.m.	H31	Charred Bodies: Homicidal, Suicidal, or Accidental Death? A Case Series Chiara Stassi, MD*; Chira Rizzo. MD; Gennaro Baldino, MD; Martina Ciriminna, MD; Jurij De Francisci, MD; Cristina Mondello, MD; Antonio Micali, MD; Cataldo Raffino, MD; Alessio Asmundo, MD; Elvira Ventura Spagnolo, MD
11:30 a.m. – 1:00 p.m.	H32	The Immunofluorescence Survey and the Persistence of SARS-CoV-2 After Death Isabella Aquila, MD, PhD*; Matteo Antonio Sacco, MD; Maria Manno, MD; Pietrantonio Ricci, MD, PhD
11:30 a.m. – 1:00 p.m.	H33	Hepatodiaphragmatic Interposition of the Colon: Radiological Evidence and Autopsy Findings in a Case of Chilaiditi Syndrome Martina Padovano, MD*; Federico Manetti, MD; Matteo Scopetti, MD; Alessandro Santurro, MD; Paola Frati, PhD; Vittorio Fineschi, PhD, MD
11:30 a.m. – 1:00 p.m.	H34	Rare Congenital Diseases and Infant Deaths: Postmortem Investigations of a Case of Fraser Syndrome Federico Manetti, MD*; Martina Padovano, MD; Matteo Scopetti, MD; Alessandro Santurro, MD; Paola Frati, PhD; Vittorio Fineschi, PhD, MD
11:30 a.m. – 1:00 p.m.	H35	The Role of Superstitions in Sexual Assault: A Case Discussion Sarah Al Hinnawi, MD*

Thursday—Session I

Tools of the Trade

Moderator: Erin G. Brooks, MD University of Wisconsin H Madison, WI	ospital aı	Co-Moderator: Mirra Chinta nd Clinics University of Washington Seattle, WA
8:30 a.m 8:45 a.m.	Н36	Standards Development Activities in Forensic Medicine Jason M. Wiersema, PhD*; Keith Pinckard, MD, PhD
8:45 a.m. – 9:00 a.m.	Н37	Standards Development Activities in Wildlife Forensic Biology Kimberly Frazier, MS*
9:00 a.m. – 9:15 a.m.	H38	Professionals of the Medicolegal Death Investigation Workforce—The State of the Talent Pipeline Jeri Ropero-Miller, PhD*; Hope Smiley-McDonald, PhD; Crystal Daye, MPA; Kelly Keyes, BS; Connor Brooks, MSc
9:15 a.m. – 9:30 a.m.	H39	Addressing the Future of Forensic Pathology in the Caribbean: The Need for Mentorship Among Caribbean Medical Students Ann-Marie Ming, BMedSc*; Catherine Morris, MD; Alfredo Walker, MBBS
9:30 a.m 9:45 a.m.	H40	The Utilization of Blood Smears and Flow Cytometry to Diagnose Hematologic Malignancies and Triage Cases for Autopsy Jolee Suddock, DO*; Molly Biggs, BS; Daniel Babu, MD; Clarissa Krinsky, MD
9:45 a.m. – 10:00 a.m.	H41	Histological and Immunofluorescent Imaging of Infant Bridging Veins Neil Harris, MSc*; Emma Cheshire, MSc; Guy Rutty, MD; Roger Malcomson, PhD
10:00 a.m. – 10:15 a.m.		BREAK
10:15 a.m. – 10:30 a.m.	H42	Improving the Postmortem Examination Process Using Complete Body Radiographic Imaging Clayton Carter, BS*; Jered B. Cornelison, PhD; Christine M. Pink, PhD; Joyce L. deJong, DO; Joseph A. Prahlow, MD
10:30 a.m. – 10:45 a.m.	H43	latrogenic Changes Related to Perimortem Cardiopulmonary Resuscitation (CPR) as Documented by Postmortem Computed Tomography (CT) Scanning Aneesa Baig, MSc*; Curtis Edward Offiah, MD; Nikolas P. Lemos, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
10:45 a.m. – 11:00 a.m.	H44	Keeping Up With the Drug/Opioid Epidemic: In-House Testing Program of the King County, Washington, Medical Examiner's Office Jordan Taylor, MD*; Richard C. Harruff, MD, PhD; Nicole A. Yarid, MD; Katie Heidere, MSW; Celia Simpson
11:00 a.m. – 11:15 a.m.	H45	An Internal Validation of the ANDE® 6C Expert System for the Analysis of Unidentified Human Remains in a Forensic Laboratory Setting Mariel Candelario-Gorbea, MSFS*; Fabiola Fernández-Padín, MS; Carmen Tirado-Neris, MS

Green = in-person only
Blue = virtual only
Black = in-person & virtual
OR unknown

11:15 a.m. – 11:30 a.m.	H46	Forensic Photography—An Invaluable Tool During Forensic Autopsies Rachael Landrie, BS*
11:30 a.m. – 11:45 a.m.	H47	The Logic of Forensic Pathology Opinion Hans de Boer, MD, PhD*; Judith Fronczek, MD, PhD; Charles Berger, PhD; Marjan Sjerps, PhD
11:45 a.m 1:00 p.m.		BREAK

Poster Session

11:30 a.m. – 1:00 p.m.	H48	Work-Related Fatal Injuries in the Genoa District of Northwest Italy: A Forensic Analysis of the 2011–2020 Decade Giulia Molinari, MD*; Martina Drommi, MD; Valentina Calamano, MD; Rosario Barranco, MD; Stefano Errico, MD; Francesco Ventura, MD, PhD
11:30 a.m. – 1:00 p.m.	H49	Diving Accidents and Related Deaths in the Genoa District of Northwest Italy: A Forensic Analysis of the Period From 1968 to 2020 Arianna Balbo, MD*; Martina Drommi, MD; Filippo Spigno, MD; Francesca Frigiolini, MD; Rosario Barranco, MD; Francesco Ventura, MD, PhD
11:30 a.m. – 1:00 p.m.	H50	An Unusual Gunshot Wound Suicide With Findings Mimicking a Second Entrance Wound Harrison Moosavi, MD*; Andrew Koopmeiners, MD
11:30 a.m. – 1:00 p.m.	H51	WITHDRAWN
11:30 a.m. – 1:00 p.m.	H52	A Tale of Two Suicides—Gunshot Wounds to the Occiput Jiemin Zhou, MD*; Zabiullah Ali, MD; Stephanie Dean, MD; J. Laron Locke, MD
11:30 a.m. – 1:00 p.m.	H53	Deaths Associated With SARS-CoV-2 Vaccination: The Importance of Autopsy Francesco Sessa, MS, PhD*; Massimiliano Esposito, MD; Monica Salerno, MD, PhD; Cristoforo Pomara, MD, PhD
11:30 a.m. – 1:00 p.m.	H54	The Time and Temperature Dependence of Volatile Organic Compounds' (VOCs') Appearance in Autolytic Rat and Pig Liver Gabrielle Messe, BA*; Robert Powers, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)
11:30 a.m. – 1:00 p.m.	H55	A Complex Suicide by Drowning and Stabbing: The First Italian Case Reported in the Literature Stefano Duma, MD*; Fe derica Mele, MD; Mariagrazia Calvano, MD; Mirko Leonardelli, MD; Enrica Macorano, MD; Francesco Introna, MD
11:30 a.m. – 1:00 p.m.	H56	Spectrophotometric Analysis of Postmortem Lividity: A New Objective Measure to Define Time of Death Mariagrazia Calvano, MD*; Antonio De Donno, MD; Chiara Lauretti, MD; Ilaria Santoiemma, MD; Carmelinda Angrisani, MD; Federica Mele, MD; Mirko Leonardelli, MD; Stefano Duma, MD; Enrica Macorano, MD; Francesco Introna, MD
11:30 a.m. – 1:00 p.m.	H57	The Effect of Multiple Washes and Thread Count on Semen-Stained Sheets Jenna Hedlich, MSFS*; Jason Linville, PhD

Green = in-person only
Blue = virtual only
Black = in-person & virtual
OR unknown

11:30 a.m. – 1:00 p.m.	H58	The First Italian Suicide Death Due to Helium Inhalation: The First Histological Findings and Pathogenesis
		Enrica Macorano, MD*; Andrea Marzullo; Federica Mele, MD; Mariagrazia Calvano, MD; Mirko Leonardelli, MD; Stefano Duma, MD; Francesco Introna, MD
11:30 a.m. – 1:00 p.m.	H59	Postmortem Findings in 11 Cases of Death Occurring After the Administration of an Anti-SARS-CoV-2 Vaccine
		Chiara Franzetti, MD*; Sofia Bodini, MD; Alessandra Radogna, MD; Claudia Carelli, MD; Vittorio Bolcato, MD; Paola Braga, MD; Valeria Prandini, MD; Gulnaz Javan, PhD; Silvia Visonà, MD, PhD; Matteo Moretti, MD; Luca Morini, PhD
11:30 a.m. – 1:00 p.m.	H60	Postmortem Computed Tomography (PMCT) in Luxembourg: A Retrospective Analysis Thorsten Schwark, MD*; Martine Schaul, MD; Vincent Lens, MD; Andreas Schuff, MD
11:30 a.m. – 1:00 p.m.	H61	Congenital Rib Abnormalities: A Presentation of Two Case Studies and a Literature Review Gregory Dickinson, MD*; Hannah C. Jarvis, MRCS; Angela Soler, PhD; Julie Fleischman, PhD
11:30 a.m. – 1:00 p.m.	H62	A Forensic Investigation of Fatal Myocardial Infarctions—A Gender-Wise Comparison, Autopsy Findings, and Biological Rhythms: A Study From Greece
		Konstantinos Katsos, MD, PhD; Evmorfili Zouzia, MD, MSc; Konstantinos Moraitis, BSc, PhD; Dimitrios Vlachodimitropoulos, MD, PhD; Nikolaos Goutas, MD, PhD;
		Chara Spiliopoulou, PharmD, MD, PhD; Emmanouil Sakelliadis, MD, MSc, PhD*
11:30 a.m. – 1:00 p.m.	H63	The Determination of Manner of Death When Evaluating Intent: An Examination of Two Cases of Brodifacoum Adulteration of Synthetic Cannabinoids
		Libby S. Aronson, MD*; Michael D. Eckhardt, MD; Danial S. Isenschmid, PhD; Kristin C. Escobar Alvarenga, MD
11:30 a.m. – 1:00 p.m.	H64	A Study of Post Severe Traumatic Brain Injury (sTBI): Pathological and Radiological Diffuse Axonal Injury (DAI) Changes
		Meenakshi Sharma, MSc*; Dipin Sudhakaran, MD; Arulselvi Subramaniam, MD;
		Kangana Sengar, DNB; Shivanand Gamanagatti, MD; Vaishali Suri, MD; Rajesh Malhotra, MD; Sanjeev Lalwani, MD
11:30 a.m. – 1:00 p.m.	H65	A Fatal Snap: Death by Extrinsic Percussion of the Neck Andrea Costantino, MD*; Alice Chiara Manetti, MD; Eleonora Mezzetti, MD;
		Arianna Baronti, MD; Paola Santoro, MD; Lavinia Pellegrini, MD
11:30 a.m. – 1:00 p.m.	H66	A Case of Traumatic Internal Carotid Artery Dissection: A Rare Event With Devastating Consequences
		Giacomo Visi, MD*; Eleonora Mezzetti, MD; Andrea Scatena, MD; Aniello Maiese, MD; Paola Santoro, MD; Alessandra De Matteis, MD; Massimiliano Dell'Aquila, MD
11:30 a.m. – 1:00 p.m.	H67	The Hazard of Grabbing a Quick Bite: A Case of Fatally Choking on Ham Arianna Baronti, MD*; Andrea Costantino, MD; Andrea Scatena, MD; Giacomo Visi, MD;
		Zoe Del Fante, MD; Lavinia Pellegrini, MD; Silvia Romano
11:30 a.m. – 1:00 p.m.	H68	Massive Insulin Injection: A Rare Case of Suicide Paola Santoro, MD*; Andrea Costantino, MD; Arianna Baronti, MD; Eleonora Mezzetti, MD;
		Umberto De Gennaro, MD; Alice Chiara Manetti, MD; Fabio Del Duca, MD; Lavinia Pellegrini, MD
11:30 a.m. – 1:00 p.m.	H69	When Chronic Venous Insufficiency Becomes a Life-Threatening Condition: A Case of Fatal Hemorrhage From a Varicose Veins' Ulcer
		Zoe Del Fante, MD; Arianna Baronti, MD; Eleonora Mezzetti, MD; Alice Chiara Manetti, MD; Fabio Del Duca, MD*; Silvia Romano

Thursday—Session II

A Year of SARS-CoV-2

Moderator:		Co-Moderator:
Kristinza W. Giese, MD		Jamie Elifritz, MD
Office of the Chief Medic	al Examir	ner University of New Mexico
Washington, DC		Aubuquerque, NM
8:30 a.m 8:45 a.m.	Н94	COVID Testing and Postmortem Interval
		Breanna Cuchara, MS*; Francisco J. Diaz, MD
		(FSF Emerging Forensic Scientist Award Oral Presentation)
8:45 a.m. – 9:00 a.m.	H95	SARS-CoV-2 Active Replication in Cadavers
		Francesca Cazzato*; Simone Grassi; Alessandro Alfonsetti; Massimo Zedda; Paola Cattani;
		Flora Marzia Liotti; Marco Dell'Aquila; Vincenzo Lorenzo Pascali; Maurizio Sanguinetti;
		Vincenzo Arena; Antonio Oliva
9:00 a.m. – 9:15 a.m.	H96	The Postmortem Persistence Time of Sars-CoV-2 Virus: An Analysis of a Case Series
		Isabella Aquila, MD, PhD*; Matteo A. Sacco, MD; Pietrantonio Ricci, MD, PhD
9:15 a.m. – 9:30 a.m.	H97	Ventilated Postmortem Imaging of COVID-19-Related Lung Disease With Clinicopathologic
		Correlation
		Nadia Solomon, MD, MSc, MA*; Inga Melvinsdottir, MD; Shin Rong Lee, MD, PhD;
		Roxanne Wadia , MD; Savanah Gisriel, MD, MPH; Donald Turbiville, MD;
		Declan McGuone, FRCPath, MBBCh; S. David Hudnall, MD; Albert Sinusas MD
9:30 a.m 9:45 a.m.	H98	Postmortem Computed Tomography (PMCT): A Valuable Tool in the Study of
		SARS-CoV-2-Related Deaths?
		Francesco Nardoni*; Simone Grassi; Massimo Zedda; Guglielmo Manenti; Roberto Floris;
		Cesare Colosimo; Vincenzo Arena; Vincenzo Lorenzo Pascali; Laura Filograna; Antonio Oliva
9:45 a.m. – 10:00 a.m.	Н99	COVID-19-Associated Myocarditis at Autopsy
		Charles Rohrer, MD*; Adam Bailey, MD, PhD; Erin Brooks, MD
10:00 a.m. – 10:15 a.m.	H100	Anosmia and COVID-19: A Search for the Virus in the Brain Through Immunohistochemical
		Investigations With the Anti-Sars-CoV-2 Antibody
		Stefania De Simone, DM*; Maria Antonella Bosco, DM; Elena Giacani, DM;
		Michela Ferrara, DM; Raffaele La Russa, DM; Luigi Cipolloni, DM
10:15 a.m. – 10:30 a.m.		BREAK
10:30 a.m. – 10:45 a.m.	H101	Died From or Died With COVID-19? The Application of Frailty Scores in the Assessment of
		Causality in 41 Autopsy Cases in Elderly Community Settings
		Martina Zanon, MD*; Martina Montanaro, MD; Francesca Sinopoli, MD; Matteo Dri, MD;
		Davide Radaelli, MD; Carlo Moreschi, MD; Stefano D'Errico, MD, PhD
10:45 a.m. – 11:00 a.m.	H102	Pediatric SARS-CoV-2 Infection in the Forensic Setting
		Rebecca Folkerth, MD*; Michelle Stram, MD, MSc; Dimath Alyemni, MD, MPH;
		Michael Greenberg, MD; Avneesh Gupta, MBBS; Amanda Krausert, MD; Lauren Mecca, MD;
		Sophia Rodriguez, MD; Jay Stahl-Herz, MD
11:00 a.m. – 11:15 a.m.	H103	Overdose Analysis in a Year of COVID-19 in Orange County, California
		Kelly Keyes, BS*; Chelsea Brown, MA

Thursday

Annual Lectureship in Toxicology

Moderator:Co-Moderator:Amanda L.A. Mohr, MSFSDiane Boland, PhD

The Center for Forensic Science Research & Education Miami–Dade Medical Examiner Department

Willow Grove, PA Miami, FL

8:15 a.m. – 8:30 a.m. Welcome and Introduction

8:30 a.m. — 9:30 a.m. Annual Lectureship in Toxicology

Daniele Piomelli, PhD, MD (hon)

Distinguished Professor of Anatomy and Neurobiology

Louise Tuner Arnold Chair in the Neuroscienes

Director, NIDA Center of Excellence 'Impact of Cannabinoids Across the Lifespan' (ICAL)

Director, UCI Center for the Study of Cannabis

9:30 a.m. – 10:00 a.m. K33 Standards Development Activities in Forensic Toxicology

Marc A. LeBeau, PhD*

10:00 a.m. – 10:30 a.m. BREAK

Drugs and Driving Special Session

Moderator: Nicolas B. Tiscione, MS Palm Beach County Sheri West Palm Beach, FL	ff's Office	Co–Moderator: Rebecca L. Hartman, PhD Office of the Medical Examiner, Department of Public Health Monroe County, NY
10:30 a.m. – 10:45 a.m.	К34	The Rise of the "Cannabisomers" Tiara Evans, MS*; Joshua Seither, PhD; Jessica Knittel, MS; Erin Karschner, PhD; Jeff Walterscheid, PhD
10:45 a.m. – 11:00 a.m.	K35	Impaired Driving Cases With Clonazolam Nicholas B. Tiscione, MS*
11:00 a.m. – 11:15 a.m.	K36	Gabapentin in Driving Under the Influence of Drugs (DUID): An Update Jolene Bierly, MSFS*; Ayako Chan-Hosokawa, MS
11:15 a.m. – 11:30 a.m.	К37	An Assessment of the National Safety Council's Tier 1 and Tier 2 Scope Recommendations in Authentic Driving Under the Influence of Drugs (DUID) Cases Grace Cieri, BS*; Amanda L.A. Mohr, MSFS; Melissa Fogarty; Barry K. Logan, PhD
11:30 a.m. – 11:45 a.m.	K38	The Use of Statistical Models to Evaluate Signs of Cannabis Impairment During Drug Recognition Expert (DRE) Evaluations Karen Woodall, PhD; Rachel Ram, BSc*; Reed Holland
11:45 a.m. – 12:00 p.m.	К39	Evaluating Cannabinoid Interference and Drug Stability in Oral Fluid for Driving Under the Influence of Drugs (DUID) Testing Jasmine Maxwell, MSFS*; Elizabeth A. Gardner, PhD; Curt E. Harper, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)

PROGRAM COMMITTEE FINANCIAL DISCLOSURE

As a sponsor of continuing education, the American Academy of Forensic Sciences (AAFS) must ensure balance, independence, objectivity, and scientific rigor in all its educational activities. All faculty participating in a sponsoring activity are expected to disclose any significant financial interest or other relationship: (1) with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services discussed in an educational presentation; and (2) with any commercial supporters of the activity. (Significant financial interest or other relationships can include such things as grants or research support, employee, consultant, major stockholder, member of speaker's bureaus, etc.) AAFS has an established policy regarding conflicts of interest that includes decisions the Program Committee members may make in selecting content for the Annual Scientific Meeting Program. By serving on the committee, regardless of the role, each member has agreed to comply with Section 1.4.7. of the AAFS Policy and Procedure Manual.

To serve on the 2021–22 Program Committees, it is required that relevant AAFS staff members, program committee members, and/or reviewers complete a Financial Disclosure Form before being provided access to review submissions for the program. For continuing education accreditation purposes, the disclosed relationships are published below so learners are aware of the nature of any relationships that may impact the selection of presentations for the program. If a committee member failed to provide complete disclosure of a relevant financial interest or relationship, the committee member or reviewer was not allowed to serve. The executed Faculty Disclosure Forms are on file in the AAFS Office.

The following 2021–22 Program Committee members have disclosed financial relationships with commercial entities.

As an accredited provider of Continuing Medical Education, the American Academy of Forensic Sciences requires speakers to disclose any real or apparent conflict of interest they may have related to the content of their presentation(s). The existence of commercial or financial interest of authors related to the subject matter of their presentation(s) should not be construed as implying bias or decreasing the value of their presentation(s). However, disclosure should help participants form their own judgments. AAFS and the Program Committee review the submissions to ensure that the content is educational and not a commercial presentation for companies and their products. Participants may notify AAFS by email (abstracts@aafs.org) should any presentation be considered solely a commercial endorsement presentation. Notification should include presentation number/ID (e.g., BS10, E100, W30) and speaker name.

If an author failed to provide complete disclosure of the discussion of commercial products, a relationship with the manufacturer including employee/employer relationship, sources of support for the research project, and/or the discussion of unlabeled or unapproved uses of pharmaceuticals/medical devices, the presentation was not accepted. Authors are required to disclose at the beginning of each presentation any information disclosed and listed below. Copies of the executed disclosure forms are kept on file in the AAFS office.

The following presenting authors have disclosed financial relationships with commercial entities.

The presenting author index can provide a quick reference to find when and in what section presenting authors are scheduled to present at the 2022 Annual Scientific Conference. The reference table below assists you in finding the section in which the presentation will be given. Letters correspond to the scientific discipline/section in which the presentation is being made while the number corresponds to the numerical sequence of the presentation within the section.

- Anthropology Α
- Criminalistics В
- С Digital & Multimedia Sciences
- D Engineering & Applied Sciences
- Ε General
- F Jurisprudence
- G Odontology
- Н Pathology/Biology

- Psychiatry & Behavioral Science
- Questioned Documents
- Toxicology
- LW Last Word Society
- **Breakfast Seminar**
- Luncheon Seminar 1

Bishop, Lauren-B35

- **Special Session** S
- Workshop
