

14 SEER Air Conditioning AccuCharge® Split Systems

Condenser

New Corner-Post Design has independent louvered panels that are easily removed for service, while protecting the coils from yard debris and extreme weather.

Improved Composite Drain Pan has more drainage holes for better water drainage and molded steps to prevent coil shifting, in only 2 standardized footprints across all models.

Corner-Post Packaging creates a gap around the entire unit, minimizing pressure on the unit structure and contact with the carton, so the unit arrives safely to your customer.

AccuCharge Systems consist of pre-charged quick-connect equipment and line sets; significantly reducing the time and skill-set needed to install a split system.

Dependable Warranty handled directly by Style Crest's dedicated HVAC Team, offering the most competitive warranty coverage and service in the Manufactured Housing Industry.
