New Requirements for EE Warranty Upgrades Registration

As was announced in the August 6 Channel Alert, all paper service upgrades have been eliminated and electronic (EE) upgrades only are available.

The requirements for activation of EE upgrades have now been revised, as shown below, and will be included in the October price book.

The seller must provide the following information in order for Acer to activate electronic (EE) upgrades:

1. Serial numbers of products covered by the upgrades.
2. Name and physical address of purchasing end-user organization.
3. Contact name at that organization with email address and phone number.
4. Date the end-user organization purchased the products.
5. Education accounts only: deployment date of the products. For example, if a school purchased in June but did not deploy until September, Acer will advance the start date of the upgrade to September.

Acer is not responsible for any modifications or changes to this price book
