HP Designjet Printers— Driving innovation in large-format printing for more than 30 years

For over three decades, HP has been in the business of providing innovation—transforming the way design professionals in Architecture, Engineering, Construction, Geospatial and Graphics markets operate.

It all began in the late 1970s, with HP's first Pen plotter—and what's now become the industry-standard HP-GL Graphic Language. In the early 1990s, HP invented inkjet technology which was deployed to Designjet printers – making large-format printing in black-and-white easy, fast and affordable. In that same decade, HP Designjet printers introduced color, higher printing speeds, and the ability to print high-resolution images and complex files in large format—helping portray information in architectural drawings more reliably than ever.

In the new millennium, Designjet printers brought faster printing speeds and sunlight-resistant UV inks, allowing Print Service Providers and Graphic Designers to create applications for both indoor and outdoor use. Photographers also adopted HP large-format printing to replace silver halide—demonstrating that HP Designjet printers deliver superior image quality, with prints lasting up to 200 years.

In 2010, with the rise of mobility and globalization, HP launched the first generation of Designjet ePrinters with web-connectivity features—and the first multifunction large format ePrinter that offered copying scanning and printing capabilities in a single device. Using HP Designjet ePrint & Share, AEC professionals are able to access, view, and print projects wherever work takes them¹.

Up until today, more than three million HP Designjet printers have shipped to locations around the world, making Designjet the leader in the market with the widest range of large-format printers for design professionals, whether they're in single- or multiuser environments.

Continuous innovation and established leadership in the large-format printing industry requires rigorous R&D and manufacturing processes, strong commitment to industry standards, and constant forward thinking, as well as regularly gathering customer insights to help improve products and introduce new innovations.

That's why HP Designjet is looking to the future—leveraging the cloud to find new ways to help design professionals do their jobs more effectively in a world that is becoming more digital, more mobile, and more social every day... but where paper remains the backbone of their workflows.

For more information, visit
hp.com/go/Designjet

¹ Requires an HP Designjet ePrint & Share account, Internet connection to the printer, and connected Internet-capable device. When using the HP Designjet ePrint & Share mobile app, a compatible Apple® iOS or Android™ device and Internet connection are required. Data or connection charges may apply. Print times may vary. 2 GB of temporary storage per account. For more information, visit hp.com/go/eprintandshare.

Architecture, Engineering, and Construction

CAD and GIS

Print large-format drawings, schematics, renders, and presentations with great ease, speed, quality, and low running costs. HP Designjet printers—they help build and grow business.

Customer profile:

- Architecture studios
- MEP (Mechanical, Electrical, and Plumbing) engineering teams
- Construction—general contracting departments
- Construction—trade subcontractors and suppliers
- Topography studios
- Public works departments
- Property management/real estate agencies

Printing applications:

- Site plans
- Elevations
- Renders and presentations
- Project presentation panels

Recommended hardware:

HP Designjet T2300 eMFP series, HP Designjet T1500 ePrinter series, HP Designjet T920 ePrinter series, HP Designjet T790 ePrinter series, HP Designjet T520 ePrinter series, HP Designjet T120 ePrinter, HP Designjet T1300 Postscript® ePrinter series, HP Designjet T1200 HD Multifunction Printer, HP Designjet T7100 Printer, HP Designjet HD Scanner

- Tender documents
- Black-and-white line drawings
- Color drawings
- Schematics
- GIS maps

Printing needs met:

- Excellent line quality
- Consistent and accurate color
- Digital archiving, printing, and copying
- Fast, unattended printing
- Ease of use
- High productivity
- Economical
- Low cost per copy

Manufacturing, Automotive, and Transportation

CAD and GIS

Print big, so even the smallest details get noticed. Produce large-format images, drawings, maps, and more—easily, quickly, and with clear and vibrant quality. That's HP Designjet printing.

Customer profile:

- Industrial design departments
- Automotive and transportation design, engineering, and manufacturing departments
- Aerospace design, engineering, and manufacturing departments
- Ship building design, engineering, and manufacturing departments

Printing applications:

- Aerial photographs
- Cartography maps
- Renders and presentations
- Digital archiving
- Facilities maps
- Network utility maps

Recommended hardware:

HP Designjet T2300 eMFP series, HP Designjet T1500 ePrinter series, HP Designjet T920 ePrinter series, HP Designjet T790 ePrinter series, HP Designjet T520 ePrinter series, HP Designjet T120 ePrinter, HP Designjet T1300 Postscript® ePrinter series, HP Designjet T1200 HD Multifunction Printer, HP Designjet T7100 Printer, HP Designjet HD Scanner

- Satellite images
- Scheduling and timetables
- Thematic maps
- Urban plans

Printing needs met:

- Ease of use
- Quick ROI
- Educational support materials
- Facilities management diagrams
- High productivity, low cost per copy
- Professional presentations
- Real-time project delivery
- Digital archiving, scanning, and copying

Infrastructure, Utilities, and Telecommunications

CAD and GIS

Produce drawings, satellite and aerial photos, maps, and more that communicate clearly with excellent image and line quality. HP Designjet printers—see the big picture and everything in between.

Customer profile:

- Geographical data suppliers
- Commercial cartography services
- Environmental/conservation companies
- Oil & gas exploration companies
- Utilities companies (electricity, water/wastewater, gas distribution, telecommunication, etc.)

Printing applications:

- Civil engineering and construction documents
- Satellite and aerial photos

- Orthophotos
- Maps
- Network topology maps
- Radiation diagrams

Printing needs met:

- Digital archiving, printing, and copying
- Consistent and accurate color
- Ease of use
- Excellent image and line quality
- Fast, unattended printing
- High productivity, low cost
- Reliable colors
- Wide selection of media

Recommended hardware:

HP Designjet T2300 eMFP series, HP Designjet T1500 ePrinter series, HP Designjet T920 ePrinter series, HP Designjet T790 ePrinter series, HP Designjet T520 ePrinter series, HP Designjet T120 ePrinter, HP Designjet T1300 Postscript® ePrinter series, HP Designjet T1200 HD Multifunction Printer, HP Designjet T7100 Printer, HP Designjet HD Scanner, HP Designjet Z6200 Photo Printer series, HP Designjet Z5200 PostScript® Printer

Public sector and Corporate

CAD and GIS

Cope with the most demanding printing needs with HP Designjet large format printing. From simple CAD drawings to complex color documents, high-speed HP Designjet printers deliver high-quality output and integrate easily into your IT infrastructure, taking the pressure off—big time.

Customer profile:

- SME businesses
- Corporate businesses
- Multi-national corporations
- Banking institutions
- Associations
- Public institutions
- Government

Printing applications:

- Engineering documents
- Presentation panels
- Project schedules
- 3D prototypes

Printing needs met:

- Ease of use
- Quick ROI
- Educational support materials
- Facilities management diagrams
- High productivity, low cost per copy
- Professional presentations
- Real-time project delivery
- Digital archiving, scanning, and copying

Recommended hardware:

HP Designjet T2300 eMFP series, HP Designjet T1500 ePrinter series, HP Designjet T920 ePrinter series, HP Designjet T520 ePrinter series, HP Designjet T120 ePrinter, HP Designjet T1300 Postscript® ePrinter series, HP Designjet T1200 HD Multifunction Printer, HP Designjet HD Scanner, HP Designjet Z6200 Photo Printer series, HP Designjet Z5200 PostScript® Printer

Graphic Design

Show off your digital design with large-format proofs and presentations that mirror the image on your screen. HP Designjet printers—pushing the limits of design.

Customer profile:

- Graphic design studios
- Advertising and marketing agencies and departments

Printing applications:

- Project bids
- Concept development
- Visual presentation
- Design competitions and mock-ups
- Final presentations
- Digital concept proofing
- Posters

Printing needs met:

- Ease of use with graphic software applications
- Mac compatibility
- Image quality
- Color accuracy and management
- Media flexibility
- Fast turnaround
- Low-risk investment
- Low cost per copy

Recommended hardware:

HP Designjet Z6200 Photo Printer series, HP Designjet Z5200 PostScript® Printer, HP Designjet Z3200 PostScript® Photo Printer series, HP Designjet Z2100 Photo Printer series

Professional Photography

Bring your vision to life with large-format photographs and displays. HP Designjet printers make it easy to share and promote your work—with quality and accuracy that remains true to your vision.

Customer profile:

- Social, wedding, and portrait photographers
- Commercial photographers
- Fine art photographers

Printing applications:

- Photo printing
- Proofing
- Portfolio

Printing needs met:

- Enables adoption of digital technology
- Flexibility for different workflows (portfolio, final print, and proofing)
- Fast turnaround to meet agency deadlines
- Photo quality (brilliance, saturation, and sharpness)
- Longevity
- Color fidelity
- Rich blacks and neutral greys
- Ease of use
- RGC, CMYK emulations
- Color consistency
- PANTONE® emulation

Recommended hardware:

HP Designjet Z6200 Photo Printer series, HP Designjet Z5200 PostScript® Printer, HP Designjet Z3200 PostScript® Photo Printer series, HP Designjet Z2100 Photo Printer series

Fine Art

Produce fine art prints and reproductions that demonstrate strict color accuracy and very high quality. HP Designjet printers—because artistic integrity is a big deal.

Customer profile:

- Artists
- Photographers
- Fine art reproduction
- Museum shops
- Graphic designers
- Interior designers

Printing applications:

- Exhibition prints for museums and art galleries
- Canvases
- Portfolio work
- Reproduction
- Design competitions
- Posters and display
- Giclée

Printing needs met:

- Outstanding quality
- Color accuracy across printers and across lighting conditions
- Faithful reproduction
- Wide color gamut
- Grain—less pale and light tones
- Rich black and neutral greys
- Longevity
- Ease of use with graphic software applications
- Mac compatibility
- Media flexibility
- Low cost per copy

Recommended hardware:

HP Designjet Z6200 Photo Printer series, HP Designjet Z5200 PostScript® Printer, HP Designjet Z3200 PostScript® Photo Printer series, HP Designjet Z2100 Photo Printer series

Repro-houses and Copy Shops

Print Service Providers

Do more and offer more with large-format printing that's easy, flexible, fast, low cost, great looking, and—best of all—big. HP Designjet printers—keep your costs down and your customers happy.

Customer profile:

- Repro-houses
- Copy shops
- Photo labs
- Commercial printers
- Print shops
- High street copy shops
- Signmakers
- Digital printers

Printing applications:

- Photo printing
- Indoor signage
- Promotional POP
- Event and tradeshow graphics
- Renders and presentations
- Project presentation panels
- CAD drawings

Printing needs met:

- Wide variety of substrates available
- Consistent color reproduction
- Low cost per copy
- Longevity
- Ease of use
- Fast turnaround
- Quality print

Recommended hardware:

HP Designjet T2300 eMFP series, , HP Designjet T7100 Printer, HP Designjet HD Scanner, HP Designjet Z6200 Photo Printer series, HP Designjet Z5200 PostScript® Printer

Retail

Tailor your message to customers in each and every store with fresh, relevant large-format promos and displays delivered on demand. HP Designjet printers—for signage that speaks to customers in a big way.

Customer profile:

- Large department stores
- Do-it-yourself stores
- Hypermarkets/supermarkets
- Furniture/DIY stores
- Clothing, furniture, and grocery stores
- Garage forecourts
- Garden centers
- Restaurants and pubs

Printing applications:

- Point-of-purchase material
- Decorative graphics
- Information signs
- Floor graphics
- Window and door signage
- Promotional/event signage
- Advertisements
- Super-sized menus

Printing needs met:

- Short- and long-term indoor signage
- Short print runs
- Seasonal change of message (monthly, weekly, daily)
- Personalization/regionalization of message
- Ease of use
- Flexibility of output – different media types and size
- Fast turnaround
- Quick ROI

Recommended hardware:

HP Designjet Z6200 Photo Printer series, HP Designjet Z5200 PostScript® Printer, HP Designjet T1500 ePrinter series, HP Designjet T920 ePrinter series, HP Designjet T790 ePrinter series, HP Designjet T520 ePrinter series, HP Designjet T120 ePrinter, HP Designjet T7100 Printer

Education

Growing minds think big. Encourage learning with large-format signs used for teaching, everyday communications, and more. HP Designjet printers—helping students make the grade.

Customer profile:

- Associations
- Schools
- Colleges and universities
- Youth groups
- Special needs

Printing applications:

- Banners
- Signage
- Floor graphics
- Presentations
- Year planners
- Posters and displays
- Design competitions
- Portfolio work
- Educational support materials

Printing needs met:

- Short- and long-term indoor signage
- Short print runs
- Seasonal change of message (monthly/weekly/daily)
- Ease of use
- Cross-platform compatibility
- Media flexibility
- Enterprise learning
- Quick ROI

Recommended hardware:

HP Designjet T2300 eMFP series, HP Designjet T1500 ePrinter series, HP Designjet T920 ePrinter series, HP Designjet T790 ePrinter series, HP Designjet T520 ePrinter series, HP Designjet T120 ePrinter

Application map

Choose a printer depending on the type of application

Whether you're printing large-format CAD drawings, fine art prints, backlights for school plays, or more, HP Designjet printers can make it happen. The chart below identifies the application range for each HP Designjet printer, so it's easy to identify the printer that best fits your needs.

Portfolio overview

HP Designjet Printers, MFPs, and Scanner for CAD & GIS

For AEC, GIS, and MCAD professional users and work groups who want to print maps, technical drawings, posters, and renders with precise, accurate line quality, and crisp text.

HP Designjet ePrinters & eMFP

HP Designjet T2300 eMFP series

Print, scan, and copy capabilities integrated in a web-connected printer

HP Designjet T1500 ePrinter series

Newly designed, two-roll, web-connected ePrinter for demanding teams

HP Designjet T920 ePrinter series

Newly designed, web-connected ePrinter with breakthrough usability

HP Designjet T790 ePrinter series

High-quality, web-connected 24-inch ePrinter for high printing volumes

HP Designjet T520 ePrinter series

Professional, web-connected, 24- and 36-inch printers

HP Designjet T120 ePrinter

An easy-to-use, web-connected 24-inch printer

HP Designjet Printers (Specialty)

HP Designjet T1200 HD Multifunction Printer

Do and offer more - process, print, scan, and copy

HP Designjet T1300 Postscript® ePrinter series

Reliable, web-connected 44-inch Postscript® ePrinter for GIS

HP Designjet HD Scanner

In-house scanning/copying at the touch of a button

For professional photographers and graphic designers who want to create high-impact indoor prints consistently and accurately.

HP Designjet Printers for Graphics

HP Designjet Z6200 Photo Printer series

Fastest¹ heavy-duty photo printer

HP Designjet Z5200 Postscript® Printer

Instant large format printing

HP Designjet Z3200 Postscript® Photo Printer series

Leading gallery-quality B&W and color prints, ease of use, and built-in calibration and profiling

HP Designjet Z2100 Photo Printer series

HP's 8-ink Designjet makes it easy to produce vivid, high-impact, large-format color and black-and-white prints

For print services departments and print service providers who want to print anything from high-quality photos, posters, and banners, to signs or displays.

HP Designjet Printers for Production

HP Designjet T7100 Printer

Color production printer with LED speed at breakthrough TCO

HP Designjet Z6200 Photo Printer series

Fastest¹ heavy-duty photo printer

HP Designjet Z5200 Postscript® Printer

Instant large format printing

¹ Compared to large-format inkjet printers under \$25,000 for graphic applications. Based on the fastest rated color speeds as published by manufacturers as of January 2010. Test methods vary.

HP Designjet Printers, MFPs, and Scanner for CAD & GIS

For individual or multiuser environments, HP Designjet Printers help streamline your workflow with features like automatic media-roll alignment and an integrated output stacking tray that delivers flat, collated prints. Also, scan and share with simplicity, complete work efficiently with true print previews, and quickly produce a range of high-quality applications—from black-and-white CAD drawings to color presentations.

Print when you want, the way you want with the HP Designjet technology. HP offers the industry’s widest range of large-format printers for design professionals.

HP Designjet T2300 eMFP series

Print, scan, and copy capabilities integrated in a web-connected printer

Medium to large workgroup

Printer size:	44 inch (1118 mm)
PostScript versions available:	✓
Print resolution:	Up to 2400 x 1200 optimized dpi from 1200 x 1200 input dpi and Optimization for Photo Paper selected
Scan/Copy resolution:	Up to 600 dpi
Print speed line drawings¹:	28 sec/page on A1/D, 103 A1/D prints per hour
Scan speed:	Color: 3.81 cm/sec (1.5 in/sec) Grayscale: 11.43 cm/sec (4.5 in/sec)
Memory:	32 GB (virtual) ² , 160 GB hard disk
Connectivity:	Interfaces (standard): Gigabit Ethernet (1000Base-T), Hi-Speed USB 2.0 certified, EIO Jetdirect accessory slot Print languages (standard): eMFP: TIFF, JPEG, HP-GL/2, HP-RTL, CALS G4, HP PCL 3 GUI PostScript® eMFP: Adobe® PostScript® 3, Adobe PDF 1.7, TIFF, JPEG, HP-GL/2, HP-RTL, CALS G4, HP PCL 3 GUI Drivers (included): HP-GL/2, HP-RTL drivers for Windows® (optimized for AutoCAD 2000 and higher); HP PCL 3 GUI driver for Mac OS X; PostScript® Windows, Linux, and Mac drivers ³
Web connectivity:	✓
Wi-fi certification⁴:	—
Media Handling:	Input: sheet feed, two automatic roll feeds, automatic roll-switching Output: Basket, automatic cutter Scanner: straight-through scan paper path for sheet and cardboard originals

HP Designjet ePrinters are designed to work with HP Designjet ePrint & Share

Experience cloud printing from virtually anywhere—a conference room, the job site, or even home—using HP Designjet ePrint & Share. This free web service makes it easy to access, view, and print large-format documents, using your tablet, smartphone, laptop, or even your ePrinter's touchscreen from virtually anywhere.¹

- Automatically save a copy of your prints in your online print history so it's easy to retrace the progress of your work.
- Access, view, and reprint files from your online print history.
- E-mail projects to your ePrinter and print.
- Conveniently share files stored in your online print history with an automatically generated hyperlink.
- Use your email to send print-ready files to print on your HP Designjet ePrinter.
- Access multiple FTP sites in one place, so it's easy to view and print all your files.
- Plot to print seamlessly from AutoCAD® WS.
- Scan and share files through email from your HP Designjet T2300 eMFP's touchscreen using HP Designjet ePrint & Share¹.
- Help keep your projects safeguarded with trusted HP security features.

For more information, visit
hp.com/go/eprintandshare

Start printing your large-format documents from virtually anywhere, visit: hp.com/go/eprintandshare and download the mobile app from the App Store and Google Play.

¹ Mechanical printing time. Printed in Fast mode on plain paper with Original HP inks.

² Wireless performance is dependent on physical environment and distance from access point, and may be limited during active VPN connections.

³ FSC® trademark license code FSC®-C017543, see fsc.org. PEFC™ trademark license code PEFC™/29-31-198, see pefc.org. Not all FSC®- or PEFC™-certified products are available in all regions.

⁴ Can be recycled through commonly available recycling programs.

⁵ Requires an HP Designjet ePrint & Share account, Internet connection to the printer, and connected Internet-capable device. When using the HP Designjet ePrint & Share mobile app, a compatible Apple® iOS or Android™ device and Internet connection are required. Data or connection charges may apply. Print times may vary. 2 GB of temporary storage per account. For more information, visit hp.com/go/eprintandshare.

HP Designjet Z5200 PostScript® Printer footnotes:

- Mechanical printing time. Printed in Fast mode on HP Bright White Inkjet Paper (Bond) with Original HP inks.
- ICC absolute colorimetric accuracy on HP Premium Instant-dry Gloss Photo Paper with Original HP inks.
- Based on 640 MB RAM.
- HP-GL/2 printing only available via HP Instant Printing Pro, which can be downloaded for free at hp.com/go/hpinstantprintinginquiry.
- HP Large Format Media take-back program availability varies. Recycling programs may not exist in your area. See hp.com/recycle for details.
- FSC® trademark license code FSC®-C017543, see fsc.org. Not all FSC®-certified product is available in all regions.
- Papers can be recycled according to region-specific practices. In North America and Asia (including Japan), recyclable in consumer collection systems that can accept mixed paper (may not be recyclable in your area); in Europe recyclable in consumer collection systems that accept liquid packaging.

HP Designjet Z6200 Photo Printer series footnotes:

- Compared to large-format inkjet printers under \$25,000 for graphic applications. Based on the fastest rated color speeds as published by manufacturers as of January 2010. Test methods vary.
- Mechanical printing time. Printed in Fast mode with Economode on, using HP Bright White Inkjet Paper (Bond) and Original HP inks. Measured on a 60-in printer.
- ICC absolute colorimetric accuracy on HP Premium Instant-dry Gloss Photo Paper with Original HP inks.
- Based on 1 GB RAM. Expandable to 1.5 GB RAM through a Designjet qualified SODIMM included only in the optional HP Designjet PostScript®/PDF Upgrade Kit accessory.
- 42-in printer only.
- 60-in printer only.
- FSC® trademark license code FSC®-C017543, see fsc.org. Not all FSC®-certified product is available in all regions.
- In Asia (including Japan), recyclable in consumer collection systems that can accept mixed paper (may not be recyclable in your area)
- For Ink cartridges regional references please check the product datasheet.

HP Designjet Z3200 PostScript® Photo Printer

Leading gallery-quality black-and-white and color prints, ease of use, and built-in calibration and profiling

Printer size:	24 inch (610 mm) 44 inch (1118 mm)																								
PostScript versions available:	✓																								
Color images¹:	Best: 12.4 min/page on A1/D or up to 2.58 m ² /hr (27.8 ft ² /hr) on glossy media																								
Print resolution:	Up to 2400 x 1200 optimized dpi from 1200 x 1200 input dpi with maximum detail selected																								
Color accuracy:	Median < 1.6 dE2000, 95% of colors < 2.8 dE2000 ²																								
Memory:	256 MB, 80 GB hard disk																								
Connectivity:	Interfaces (standard): Gigabit Ethernet (1000Base-T), Hi-Speed USB 2.0 certified, EIO Jetdirect accessory slot Print languages (standard): Adobe® PostScript® 3TM, Adobe® PDF 1.6, TIFF, JPEG, HP PCL 3 GUI Drivers (included): Adobe® PostScript®, HP PCL 3 GUI																								
Media Handling:	Input: sheet feed, roll feed Output: automatic cutter (cuts all media except canvas)

HP Designjet Solutions for Graphics

HP large format photo negatives

This technology gives photographers the opportunity to print high-quality digital negatives suitable for exposing monochrome silver-halide papers or for monochrome alternative processes such as platinum/palladium.

Platinum prints last more than 1000 years which enable collectors to have photographs as durable as any form of art, key to long-term value.

The photographer can:

- Make high-quality analog and continuous tone contact prints from a digital image (or from a scanned film image).
- Archive digital images in physical form (as a negative).
- Digitally restore damaged or historical images and print them with the originally intended process.
- When desired, make larger-than normal negatives for contacting.

Customer benefits:

- Cost-effective printing system and printing materials.
- Do it yourself or have a lab or print service provider do it for you.
- Compatible with fixed grade and variable contrast silver papers (using the silver halide paper preset).
- Tested with platinum, cyanotype, salted paper, POP paper, Carbon and Carbro (using the paper preset for alternative processes).

For collectors, galleries, or institutions, part of the value of a fine art print, above image rendition, quality, and longevity, is related to the way it has been produced and to the skills and awareness of the print maker. For some time, platinum prints have had the highest reputation, and now thanks to HP, it is now possible to make large-format digital negatives to produce contact prints up to 44 inches.

A community of talented experts around the world is using this hybrid solution—from digital to the best of analog—and continue to develop innovative new solutions, enabled by the HP Designjet Z3200 PostScript® Photo Printer.

HP Designjet Printers for Production

Be ready for any kind of job that comes your way. The HP Designjet portfolio offers market leading technology that gives you fast print speeds and consistently high quality across an immense range of jobs—from AEC and CAD drawings to business and event graphics.

HP Designjet T7100 Printer

Color production printer with LED speed at breakthrough TCO

Printer size:	42 inch (1067 mm)

HP Designjet Z5200 PostScript® Printer footnotes:

- Mechanical printing time. Printed in Fast mode on HP Bright White Inkjet Paper (Bond) with Original HP inks.
- ICC absolute colorimetric accuracy on HP Premium Instant-dry Gloss Photo Paper with Original HP inks.
- Based on 640 MB RAM.
- HP-GL/2 printing only available via HP Instant Printing Pro, which can be downloaded for free at hp.com/go/hpinstantprintingutility.
- HP Large Format Media take-back program availability varies. Recycling programs may not exist in your area. See hp.com/recycle for details.
- FSC® trademark license code FSC®-C017543, see fsc.org. Not all FSC® - certified product is available in all regions.
- Papers can be recycled according to region-specific practices. In North America and Asia (including Japan), recyclable in consumer collection systems that can accept mixed paper (may not be recyclable in your area); in Europe recyclable in consumer collection systems that accept liquid packaging.

HP Designjet Solutions for Production footnotes:

- PDF version 1.9 or earlier.
- Powerpoint 2003 or higher must be installed.

HP Designjet Solutions for Production

HP Instant Printing Pro

Quickly preview, crop, and print in large format using one simple tool

- HP Instant Printing Pro is a quick and easy way for reprographic and copy shops to print in large format.
- Easily manage your files from one single application. Just drag and drop PDF¹, TIFF, JPEG, PPT², HPGL/2 and DWF files to HP Instant Printing Pro to manage and preview them. Access the job queue as well as accounting information with one simple click.
- Quickly modify print settings for one or multiple files. Assign one setting for several files. Adjust file sizes within the application. Collation helps with multipage jobs.
- HP Instant Printing Pro enables true print confidence. Avoid printing on the wrong sized media with a realistic print preview.

Customer benefits:

- Increased productivity.
- Right first-time prints, no media and time wasted.
- Reduce the number of steps to print in large format. Print a wide range of file types without having to open the application.

HP Designjet Excel accounting report

Remotely view from the printer or via email and create advanced usage tracking reports from you.

- Easy four-step wizard to generate your reports.
- Include advanced user and account information, supplies, media, and type of print job.
- Reports directly formatted in Microsoft Excel and sent automatically via email.

Customer benefits:

- Simplify administrative tasks.
- Know the extent to which your printers are being used.
- Generate accounting spreadsheets via email and easily invoice for the correct amount of printer usage.

SCP reprocontrol for HP

Powerful software that lets you flexibly automate, standardize, and manage your workflow.

- Quick preflight preparation reduces errors and results in less ink and paper waste.
- Print settings can be automated, mixed print jobs easily handled, and file submission and configurations managed remotely.

Customer benefits:

- Reduce print costs.
- Increase productivity.
- Enable new services to be offered.
- Increase profits.

The HP large format printing system: The complete solution

HP Designjet printers, Original HP inks and printheads, and Original HP printing materials are designed to work together as a complete, efficient system to provide productivity, quality, consistency, durability, and value—even when printing highly complex jobs—with every print.

Original HP inks

Whether your project calls for dye-based or pigment/UV-based inks, HP has the right ink for you. The unique chemistry between Original HP Designjet inks and HP large format printing materials—together with the carefully engineered interaction between the two—make exceptional results possible, from uniform fills to crisp text and sharp lines.

Use Original HP inks and HP printheads to experience consistent high quality and reliable performance that enable less downtime. These critical components are designed and engineered together as an optimized printing system with HP Designjet printers.

hp.com/go/DesignjetOriginalHPinks

Original HP large format printing materials

Consistently outstanding image quality. With a wide range to choose from, you can always find the right printing material for the right job or almost any printing application. HP Premium printing materials are designed to provide best-in-class performance on key attributes like display permanence. Or for lower-cost options, consider HP Everyday or HP Universal printing materials, providing the ideal combination of quality and cost for everyday printing.

No matter which one you choose, HP printing materials are designed to work with the complete system to deliver the results you need and to provide uncompromising quality, consistency, performance, durability, and value every time.

hp.com/go/lfprinting/materials-supplies

Designed with the environment in mind

Take advantage of free, convenient return and recycling of most Original HP Designjet ink cartridges and printheads¹. HP's "closed loop" recycling process uses recycled plastic from HP ink cartridges to create new Original HP ink cartridges².

HP Designjet printers and energy efficiency

Energy-efficient printers can reduce environmental impact and reduce costs. They also produce less heat and reduce cooling loads, which can make your work environment more pleasant. Most HP Designjet printers are ENERGY STAR[®] compliant, which assures that they meet strict energy efficiency guidelines without sacrificing performance – or your productivity.

¹ Visit hp.com/recycle to see how to participate and for HP Planet Partners program features and availability; program may not be available in your area. Where this program is not available, consult the Material Safety Data Sheet (MSDS) available at hp.com/go/ecodata to determine appropriate disposal.

² For HP ink cartridges that use recycled materials, up to 70% of the cartridge is made from recycled content. Percentage of recycled material is based on empty weight. HP uses recycled plastic from the HP "closed loop" ink cartridge recycling process when supplies are available. Recycled plastic is also sourced from other recycle streams.
