

Seamless sharing
beyond your expectations

Lightning Card Reader Plus AI910 Works for   

Made for
 iPhone | iPad | iPod

ADATA Apple Lightning Card Reader Plus AI910

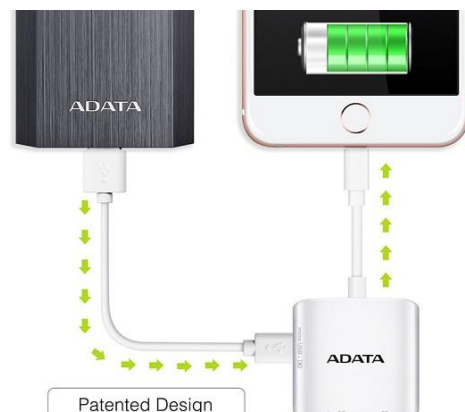

The ADATA AI910 Lightning Card Reader Plus carries official Apple MFi certification and is designed for easy interconnectivity between iOS, Android, and Windows. Whether saving, uploading, or sharing, it's up to the task with maximum coverage thanks to the inclusion of SD and Micro SD slots and support for cards up to 256GB. The AI910 works with a wide range of file formats, including professional RAW images, 4K video, and files bigger than 4GB. It's perfect for DSLR and action cam users, as well as designers and anyone that wants two-way content movement with three-way operating system support that applies to virtually every device available: smartphones, tablets, laptops, and desktops.

Seamless triple platform support

It has a Lightning connector plus a patented design Micro USB/USB Type-A extension, with all offering read/write across the three operating systems.

Power charging while transferring

Power run out just as you're enjoying content on a memory card? No problem. The AI910 acts as a passthrough for power banks or USB wall adapters rated 2.1A (ideal for tablets) so you can keep viewing, sharing, and moving content. Innovative and considerate ADATA innovated design: making life better.

Freedom of two-way read and write – anywhere

With the AI910, you can read and write content across multiple devices without dependence on internet connections or cloud storage. It also supports nearly 40 different file formats, including documents, photos, video, and audio.

Dual card slots: more content and capacity

With SD and Micro SD card acceptance, the AI910 works with source content from virtually every device. Moving data from cameras or other devices is instant, even support to 4K video and using the AI910 as storage expansion is immediate.
