

i-Memory Flash Drive AI720

NOT JUST THIN - YOUR FASHION STORAGE COMPANION

i-Memory Flash Drive AI720

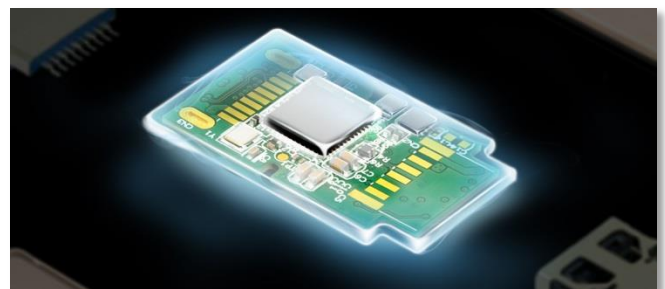

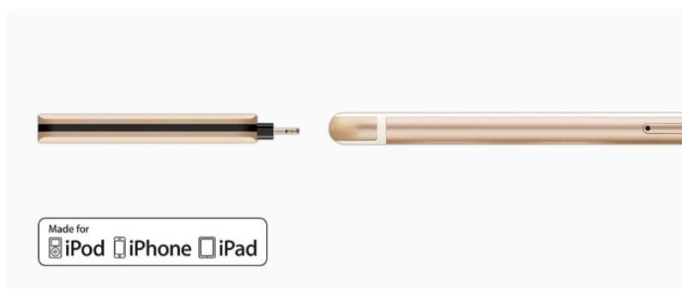

The ADATA i-Memory AI720 Flash drive has arrived to relieve you of iPhone storage shortages - as well as those on other smart devices. Officially Apple MFi certified, the AI720 measures just 7.5mm, essentially as thin as your iPhone. Sleek, compact, and light, the AI720 integrates Lightning and high speed USB 3.1 for effortless sharing across iOS, Mac OS, and Windows. With the exclusive i-Memory app, you get seamless 4K video support, extra security, and easy content management with one touch backup.

Thin profile holds big space

The AI720's profile measures a mere 7.5mm, making it similar in height to an iPhone for a sleek and seamless match. The slim AI720 nonetheless packs up to 128GB, giving you access to ample storage space.

Nano coating makes accident a none-issue

AI720 adopts nano coating technology to protect the construction inside against exposure to liquids, dust and rust. From sandy beaches to refreshing waterfalls, your memories and content are in good hands with a well-protected.

AirPlay and Chromecast support

Thanks to our i-Memory app, the AI720 works with AirPlay and Chromecast so you can enjoy content from it on the big screen.

More room for video - including 4K

You can save photos and videos directly to the AI720. Keep recording and enjoying uninterrupted, especially since the AI720's performance can easily handle Ultra HD 4K video capture and playback.
