

Airtemp®

COOLING & HEATING SYSTEMS

Split System Heat Pumps

14 SEER Heat Pump

You can count on years of dependable energy efficiency when you choose an Airtemp® air conditioner. Designed with reliable performance in mind, Airtemp outdoor units complement every home.

- **High efficiency:** 14 SEER/8.5 HSPF efficiencies deliver enhanced comfort and energy savings.
- **ENERGY STAR:** Meets ENERGY STAR requirements in certain matches.
- **Efficiency boost:** Performance can increase up to 15 SEER when installed with a matched energy-efficient indoor air handler or furnace with coil.
- **Built strong:** Designed using galvanized steel with a polyester urethane coat finish. A 950 hour salt spray test shows the finish resists corrosion.
- **Solid protection:** Complete metal wrapper protects the internal components from yard hazards and extreme weather. Attractive, classic dark gray styling with contrasting wire discharge grille for premium product appearance.
- **Compact, low profile:** Blends unobtrusively with all surroundings.
- **Quiet operation:** Engineered air discharge and high-efficiency fan motor for lower sound level system performance. For long lasting durability, the heavy duty fan motor is completely protected from rain and snow and requires no maintenance.
- **Innovative:** All-aluminum coil for greater corrosion resistance.
- **Environmentally friendly refrigerant**
- **Built to the highest standards for the American market**
All Airtemp® products are designed, assembled and repeatedly and thoroughly tested in North America.

Heating and cooling capacities from 1.5-5 Tons

Quality, Reliability and Value

10-Year All Parts Limited Warranty

Rock-solid warranty coverage to protect your investment. When you choose Airtemp® for your home comfort, your system comes with one of the best warranties in the business - 10 years on all parts.

1-Year Replacement Pledge

Outstanding Airtemp® products are worthy of outstanding protection. Should major component failure ever occur within the first year of operation, we will replace the product.

See warranty details for more information.

VSH1BE Series

**High Efficiency
Heat Pump
14 SEER System
1.5 – 5 Ton Capacity**

The VSH1BE Series of heat pumps offers exceptional performance. When combined with our engineered coils or air handlers, it offers a full line of quality, split system cooling and heating equipment.

WARRANTY

- This product offers a 10-year all-parts limited warranty.
- This product offers a 1 Year Replacement Pledge to replace the unit if the compressor fails in the first year of operation, to the original owner. All split system products must be installed with a matched indoor air handler or indoor coil.
- Consumer product registration required for 10 year All Parts Warranty and Replacement Pledge within a limited period of time after the installation. See current warranty document or visit our consumer web site www.airtempvac.net for warranty details.

FEATURES and BENEFITS

- **R-410A Refrigerant:** Earth friendly non-ozone depleting refrigerant.
- **Composite Base Pan:** Absorbs sound and corrosion resistant. Composite is also stronger and lighter than steel.
- **Micro-Channel Coil:** All-aluminum coil provides high corrosion resistance.
- **Permanently Lubricated Motor:** A heavy duty PSC motor for long lasting reliability and quiet operation. Requires no maintenance and is completely protected from rain and snow.
- **Durable, Attractive Cabinet:** Designed using galvanized steel with a polyester urethane finish. The 950 hour salt spray tested finish is 1.5 mil thick and resists corrosion.
- **Removable Top Grille Assembly:** Allows ease of service from the top without disconnecting fan motor leads.
- **Peace of Mind Protection:** In-line filter drier supplied to protect sealed system from contaminants and high pressure switch protects against potentially damaging abnormal pressures for longer service life.
- **One Piece Top/Orifice:** Designed for maximum airflow and quiet operation.
- **Five Minute Restart Time Delay:** When the unit shuts down, a delay keeps the unit from restarting, eliminating the highest cause for compressor failure.
- **Internal Muffler:** Reduces operational noise and vibration.
- **Easy Compressor and Control Access:** Designed to make routine maintenance easier for the contractor, access panels are provided to all controls and the compressor from the side of the unit.
- **Complete Metal Wrapper:** Protects the coil from being damaged. For routine maintenance or service, side panels can be easily removed and replaced without removing the top grille.
